The CDC Form 839, CDC Form 840s, and CDC Form 841s shall remain in the C-file and are not to be purged.

61020.14 Updating for Regular Reclassification Review

The first CDC Form 840 shall be completed 12 months after the date the inmate was received in the CDCR and annually thereafter. The annual review committee hearing may be conducted thirty days prior to the inmate's Review Period Ending Date, during the month due, or thirty days after that date.

No matter when the committee hearing is held, the inmate's previously established review period dates shall remain the same.

If the inmate's annual review is conducted prior to the established Review Period Ending Date, it provides for the possibility that serious negative behavior or below-average performance could occur subsequent to the annual review committee hearing, but prior to the Review Period Ending Date. If that does occur, a reevaluation of the inmate's score as documented on the CDC Form 840 shall be necessary, and may require a correction to that score sheet.

When a CDC Form 840 is being prepared for a classification hearing for transfer consideration, the counselor shall determine the Favorable Behavior points to be awarded based on the number of six-month review periods to be considered. Unfavorable Behavior shall also be documented if not already recorded on a prior score sheet. These updates shall be done regardless of the inmate's housing. For example, an inmate's placement in a Security Housing Unit (SHU) shall not preclude adjustments to the inmate's score for Favorable or Unfavorable Behavior and shall not preclude the inmate's annual review committee hearing.

The inmate shall be given a copy of the CDC Form 840 after the review is completed.

The current Placement Score shall be recorded on the CDC Form 128-G documenting the committee's action.

Out of Level Placements

If the inmate's current Placement Score is within a different security level than that of the facility where he or she is housed, the counselor shall check the last CSR Action recorded on previous score sheets and/or CDC Form 128-G for any "Administrative or Irregular Placement" approval. If no approval is noted, the case shall be presented to the next CSR for evaluation. An out-of-level placement involving an override down for an inmate with a Level II Placement Score who is otherwise eligible for MSF or Secure Level I placement at that institution shall not require review and endorsement by a CSR. The institutional C&PR shall review and endorse the case. The C&PR is authorized to apply the administrative determinant or irregular placement code of WOR to justify an override of the inmate's Level II Placement Score to house that inmate in the MSF or Secure Level I at that institution when the C&PR finds the inmate to be otherwise eligible at that institution for MSF placement or Secure Level I placement.

Where an approval is noted, and the inmate's adjusted Placement Score moves him or her to another security level designation, the case shall be presented to the CSR for transfer evaluation. A CSR approval for "Administrative or Irregular Placement" is valid only as long as the inmate's Placement Score remains within the same security level as when the approval was given. An inmate shall not remain at a facility with a security level that does not match his or her placement score level unless approved by a CSR or other authorized endorsing authority.

61020.15 CSR Review for Placement or Transfer Endorsement

Cases submitted to a CSR for transfer consideration must have a new CDC Form 840. Each inmate transferred will have a current Placement Score, so the receiving institution does not need to do a review until the appropriate period of time has lapsed.

Whenever a case is presented to a CSR or authorized staff for placement or transfer endorsement, an updated CDC Form 840 shall be provided in the C-file with the CDC Form 128-G, which makes the referral.

An updated CDC Form 840 is not required for the CSR approval of the following temporary placements:

- Placement in an ASU Hub.
- Placement in a Mental Health Crisis Bed.
- Medical and Return Transfers.
- Approval of an ASU Extension.

After the CSR's review and completion of the Classification Staff Representative section, detach and distribute one copy each to the inmate and Information Quality Support Section before filing the original in the C-file.

Resubmittal to CSR

When a case is resubmitted to a CSR to appeal the endorsement decision of another, a new CDC Form 840 is required as each submittal is a separate transaction. Distribute the copies of the CDC Form 840, which contain the original CSR action, regardless of the second CSR's decision. This will close out the first transaction.

Do not reassess points for negative or positive behavior from the previous CDC Form 840. Indicate only new information since last review.

CSR Endorsement

A CSR endorsement shall remain effective for 120 days from the date of endorsement.

If an inmate is not transferred within 120 days from the date of CSR endorsement, the endorsed case awaiting transfer shall be again presented to a CSR prior to the 121st day for a 120-day extension of the endorsement if there is no change to case factors and the endorsement remains appropriate.

Each request for a 120-day extension of an endorsement shall be documented on a CDC Form 128-G and requires confirmation that the CCI and the CCII Supervisor audited the central file; updated the CDC Forms 840, 812, 812-C (if applicable); verified that case factors impacting the appropriateness of the CSR endorsement have not changed; and confirmed that the initial CSR endorsement remains appropriate. The CCI's review and CCII Supervisor's authorization for endorsement extension shall serve as a classification action. The CCI and CCII shall sign and date the CDC Form 128-G.

The request for a 120-day extension of a CSR endorsement shall not require review by a Unit Classification Committee (UCC) or Institutional Classification Committee (ICC) unless case factors change or other information is identified which renders the CSR endorsement to be no longer appropriate.

An endorsed case awaiting transfer may be extended no more than twice beyond the initial 120-day period.

Upon discovery of information that a CSR endorsement is no longer appropriate, the institution shall not allow the transfer to occur. The case shall be referred for UCC or ICC, as appropriate, to determine appropriate placement. The UCC or ICC shall substantiate placement recommendation and refer the case for transfer consideration or retention in current placement.

61020.16 Processing Inmates Through a Different Facility Than CSR Approved

Inmates endorsed by a CSR to a subfacility of an institution complex may be received and processed through a higher security level unit. Such cases are to be transferred to the subfacility at the first opportunity or, when beds are not immediately available, placed on a waiting list. If a classification committee discovers special case factors, which prohibit movement to a lower security level, the case shall be presented to a CSR within 30 days for further evaluation. Any such case not presented to a CSR shall be on an approved waiting list.

61020.17 Transferring Inmates Between Facilities in the Same Complex

Transfer of inmates for more than 30 days between different security level subfacilities of an institution complex requires the same procedure as transfers between institutions. However, the C&PR is delegated the authority to act as a CSR when the facility security level conforms to the inmate's Placement Score or when an inmate with a level II Placement Score is being placed in the level I facility (MSF or secure level I) at that institution. The C&PR shall endorse the case and record WOR as the code for the Reason for Administrative or Irregular Placement on the appropriate score sheet.

To exercise this authority, the C&PR shall complete the CSR section as a CSR. No CSR approval is required for movement between subfacilities at the same level.

61020.17.1 Transferring Inmates to an Institutional Hearing Program (IHP)

The C&PR at each institution, CCF, or MCCF is responsible to review and endorse all appropriate inmates to the IHPs during the final 30 to 45 days of their incarceration to facilitate a deportation hearing by federal immigration judges. Inmates with active United States Immigration and Naturalization

Service (USINS) detainees, who are housed in general population housing, are to be considered for transfer to IHP. Cases endorsed for transfer must be within 45 days of parole. RC cases may be transferred up to 15 days prior to parole.

The determination of which IHP site is selected should be based upon a combination of the inmate's case factors, Placement Score, Mental Health Services Delivery System (MHSDS) designation, as well as bed availability and transportation scheduling.

The C&PR shall complete a CDC Form 128-G and a CDC Form 840. The Institution Approved is to be designated as RJD-INS, CEN-INS, or CAL-INS and "HOL" is to be entered as the Reason for Administrative or Irregular Placement.

61020.18 Presenting SHU Cases for CSR Placement

A new CDC Form 840 is required when cases are presented to a CSR for release or retention after expiration of a term of determinate confinement or a stay of one-year indeterminate status in a SHU.

61020.19 Instructions for Completing the CDC Form 840

General

The CDC Form 840 shall be completed as part of the regular reclassification process. It is intended to provide a cumulative record of the inmate's institutional adjustment and changes in case factors. A CDC Form 840 shall also be completed upon the return of an escapee or receipt of a Community Correctional Reentry Center (CCRC) failure.

Begin the CDC Form 840 review process by locating the most recent score sheet. Note the Preliminary Score (on the CDC Form 839) or most current New Preliminary Score (on the CDC Form 840/841), any special case factors, and the dates of the last review period.

An inmate whose parole is revoked because he/she refused to sign conditions of parole shall be re-scored on a CDC Form 841, Readmission Score Sheet, not on a CDC Form 840. On the CDC Form 840, box numbers appear to the right, but refer to the first box on the left of each field.

61020.19.1 Identifying Information

CDC Number (Boxes 1-6)

At the bottom of the CDC Form 840, first enter the inmate's CDC number as obtained from the Legal Status Summary.

Print the letter prefix (for example P or W) in the first box. Enter the numbers in the remaining five boxes, Boxes 2-6, always ending in Box 6. Do not enter a letter in a number box. Example:

P-45678

P	4	5	6	7	8
---	---	---	---	---	---

Inmate's Last Name (Boxes 7-11)

Print the first eight letters of the inmate's last name in CAPITAL BLOCK letters. Do not use lowercase or written script letters. Letterboxes are left-hand justified. Start printing the name in the box furthest to the left and end with any empty boxes on the right.

If the name consists of more than eight letters, print the first eight letters of the name and omit the remaining letters. Although eight boxes are provided on the score sheet, the database captures only the information in Boxes 7-11 or the first five letters entered. For names with less than eight letters, leave the remaining boxes to the right empty. If the last name is two words, run the words together. Do not leave an empty box in between letters. Example:

Mac Knight

M	A	C	K	N	I	G	H
---	---	---	---	---	---	---	---

Date Completed (Boxes 12-17)

Enter the date that the CDC Form 840 is being completed as a "New" document as the Date Completed. The database organizes data from the CDC Form 840 based on the Date Completed.

If the CDC Form 840 is being completed as a correction document or to delete a previously submitted CDC Form 840, enter the Date Completed as it appears on the original document. A zero need not be entered before the month or day, but if applicable, enter a zero as part of the year.

Example: January 8, 2002

	1		8		0	2
--	---	--	---	--	---	---

Date of Last Score Sheet (Boxes 18-23)

Enter the date of the most recent classification score sheet in the C-file. A zero need not be placed in front of the month or day, but if applicable, enter a zero as part of the year.

Use the date of the last score sheet to identify the most recent score sheet in the C-file and organize the score sheets in chronological order to prevent tracking errors and ensure continuity.

Form Identification (Boxes 24-32)

At the top of the score sheet, three blank boxes are labeled "New," "Correction," and "Delete." Print an "X" in the appropriate box.

- Print an X in the "New" box (Box 24) if a new CDC Form 840 is being prepared.
- Print an X in the "Correction" box (Box 25) to correct a previously submitted CDC Form 840.
- Enter the date that the correction is being prepared in the "Date Corrected" Boxes 26-31.
- Print an X in the "Delete" box (Box 32) to delete a previously submitted CDC Form 840.

Additional information regarding preparation of "correction" and "deletion" documents is noted in DOM § 61020.20.9 and DOM § 61020.20.10.

61020.19.2 Annual/6 Month Review Period Dates (Boxes 33-45)

An inmate's case shall be reviewed at least annually to consider the accuracy of the inmate's Placement Score, custody designation, program, work and privilege group, and facility placement, including recommendation for transfer.

Review Periods are to be recorded in precise six-month increments of time. The six-month intervals establish the period of time in custody for which, Placement Scores are adjusted based on favorable behavior. If a CDC Form 840 is being prepared within 30 days of a Review Period Ending Date for a six-month interval, then the complete six-month review period in custody shall be recorded. For an annual reclassification review, two six-month review periods may be counted.

If six months in custody has not elapsed since the inmate's Review Period Beginning Date, leave this Section blank.

For an annual review, count two six-month review periods in custody. When updating an inmate's score in custody for the purpose of an annual review, place an "X" in the Annual box (Box 39).

Determining the Annual/6 Month Review Period Dates

Review Period Beginning Date:

- If the inmate's Review Period Dates have not already been established, then the inmate's Review Period Beginning Date is either the date received at the reception center (RC) or the first day of the last month considered for favorable behavior points, whichever is the most recent.

Enter the Review Period Beginning Date in Boxes 33-38.

Review Period Ending Date:

- The Review Period Ending Date is determined by adding six months or 12 months to the Review Period Beginning Date and subtracting one day.

Enter the Review Period Ending Date in Boxes 40-45.

For subsequent reviews, the Review Period Beginning Date shall be the previous Review Period Ending Date plus one day.

Inmate Example's Review Period Beginning Dates:

- Inmate Example was received in a CDCR RC on 10-12-02. This date is the Review Period Beginning Date for the first review period. The only acceptable Review Period Beginning Dates thereafter are 10-12 or 4-12. Only the year will change as time progresses until the inmate paroled.

Inmate Example's Review Period Ending Dates:

- For inmate Example, the only acceptable Review Period Ending Dates are 10-11 or 4-11. Only the year changes until the inmate paroled.

When a six-month review period in custody ends in February and the date calculated is 29 or 30, use February 28 as the Review Period Ending Date. For leap year, use February 29.

Except for the instance noted above, once the Review Period Dates are established, the month and day remains the same. Only the year changes as time progresses until the inmate paroled. Whether a classification committee hearing is held earlier or later, an inmate escapes from custody, returns from out-to-court, or returns from release on appeal bond, the month and day of the Review Period Dates remain the same.

The Review Period Dates change when the inmate paroled and subsequently returns as an RTC or WNT. (See DOM § 61020.20.2 for Readmission Review Period Calculation.)

- An inmate who refuses to sign conditions of parole and whose parole is revoked by the BPH, shall be re-scored on a CDC Form 841, not a CDC Form 840.

Number of Full Review Periods:

- For item number B4, record the number of six-month review periods being considered for Favorable Behavior on the line provided.

61020.19.3 Favorable Behavior Since Last Review

This Section shall be used for recording and calculating in custody favorable behavior points.

- Favorable behavior points are to be considered for each six-month review period for the categories noted below. For an annual reclassification review, two six-month periods shall be considered.
- When a CDC Form 840 is prepared within 30 days of a six-month Review Period Ending Date, favorable points shall be applied if the inmate is within 30 days of successfully completing the six-month review period and is otherwise eligible to receive favorable points at the end of that six-month review period. However, in such cases, should the inmate be found guilty of a serious disciplinary violation or found to not meet the criteria for favorable behavior points for the review period, a correction to the favorable behavior points shall be required.

Continuous Minimum Custody (Boxes 46-47)

Consider the inmate's eligibility for favorable behavior points for the Continuous Minimum Custody category when the inmate is in custody and the Minimum Custody status being evaluated occurred during, and includes, the review period dates recorded in the Annual/6 Month Review Period Dates section of the CDC Form 840 score sheet.

Apply favorable behavior points for the Continuous Minimum Custody category when the inmate is assigned Minimum Custody for every day of the six-month review period being evaluated. To evaluate this item, review CDC Form 128-Gs.

When the inmate's Minimum Custody assignment is interrupted during the six-month review period being evaluated, through no fault of the inmate, apply favorable points for only that interrupted six-month review period.

Unless the inmate was reassigned Minimum Custody on the first day of or prior to a subsequent Review Period Beginning Date, do not apply favorable behavior points for a six-month review period beyond the interrupted period.

If the inmate is housed in another jurisdiction during a six-month review period being considered, the counselor shall review the documents provided by the agency to determine if favorable points are appropriate. Favorable points shall be applied if documentation of assignment to Minimum Custody is provided by the agency.

Apply four (4) favorable behavior points for each six-month review period in custody for which the inmate qualifies.

No Serious Disciplinary (Boxes 48-49)

Consider the inmate's eligibility for favorable behavior points for the No Serious Disciplinary category when the behavior being evaluated occurs during, and includes, the review period dates recorded in the Annual/6 Month Review Period Dates section of the CDC Form 840 score sheet.

Apply favorable behavior points when the inmate has not committed a serious disciplinary violation in custody during any day of the six-month review period. In order to be held accountable for a serious disciplinary violation, the inmate must have been found guilty of behavior identified as serious per CCR § 3315.

Apply favorable behavior points for the No Serious Disciplinary category even though the inmate was incarcerated in another correctional agency (e.g., county jail, state or federal institution) during the review period evaluated and there is no evidence or documentation of serious disciplinary behavior.

Upon evidence of serious disciplinary behavior while the inmate was incarcerated in another correctional agency, the documentation shall establish that the inmate was determined to be guilty of conduct described as serious per CCR § 3315 in order to disqualify the inmate for consideration of favorable behavior points for the review period.

Apply two (2) favorable behavior points for each six-month review period in custody for which the inmate qualifies.

Average or Above Performance in Work, School, or Vocational Program (Boxes 50-51)

Consider the inmate's eligibility for favorable behavior points for the Average or Above Performance in Work, School, or Vocational Program category when the Average or Above Performance status being evaluated occurred during, and includes, the review period dates recorded in the Annual/6 Month Review Period Dates section of the CDC Form 840 score sheet.

Consider favorable behavior points for the Average or Above Performance category only when the inmate is in custody, assigned to a work incentive assignment, and reported on the first day of or prior to the first day of the six-month review period being evaluated.

When the inmate's work, school, or vocational program assignment is interrupted during the six-month review period being evaluated, through no fault of the inmate, consider favorable points for only that interrupted six-month review period. Do not apply favorable behavior points for six-month review periods beyond the interrupted six-month review period unless the inmate again reports to a work incentive assignment on the first day of, or prior to, the next review period beginning date.

An unassigned inmate who received an assignment from the inmate assignment office during a lockdown period, but has been unable to report to that assignment due to the lockdown, is not eligible for favorable behavior points for the Average or Above Performance category for that six-month review period. The inmate shall continue to earn Work Incentive Credit, but is not eligible to be awarded favorable behavior points if not participating in a program.

Favorable points shall not be applied for Average or Above Performance in Work, School, or Vocational Program to an inmate not assigned to a program.

Note: An inmate earns Work Incentive Credit once assigned to a fulltime work, school, or vocational program. However, favorable behavior points are based on inmate performance in custody.

Consider favorable behavior points for an inmate in custody who is reassigned or continued in a work, school, or vocational program who reports to a work, school, or vocational program on or prior to a subsequent review period beginning date.

Combine part-time assignments within the same six-month review period which, when work/program hours are added together, are equivalent to a full-time assignment.

To determine eligibility for favorable points, review CDC Form 128-Gs, CDC Form 101, Work Supervisor's Report, or CDC Forms 128-D, E, and F, Chrono-Education/Vocational.

If the inmate was in custody, but housed in another jurisdiction during the six-month review period being evaluated, consider favorable behavior points only if documentation of an assignment is provided by the agency. Review the documents provided by the agency to determine if favorable behavior points are appropriate.

If staff in the CDCR or another agency did not document the inmate's performance and the inmate continued to be assigned, continued to report to the assignment and there is no disciplinary documentation, apply favorable behavior points for this review period. In the absence of staff documentation of the inmate's performance, apply favorable points liberally. In other words, an isolated record (e.g., a CDC Form 128-A, Custodial Counseling Chrono) and no other indication of less than average performance shall not preclude the application of favorable points for the review period.

Apply two (2) favorable behavior points for each six-month review period if the inmate's in custody performance is rated "average" or "above average."

Annual/Six Month Review Periods

Annual/Six Month Review Periods are established as a standard period of time to measure in custody behavior warranting favorable behavior points.

An inmate's six-month review period is identified by the six-month period of time in custody between and including the Review Period Beginning Date and the Review Period Ending Date.

Interrupted Period

An "interrupted period" is a six-month in custody review period that is interrupted on or after the Review Period Beginning Date by a change to the inmate's assignment to Minimum Custody and/or the inmate's performance in a Work, School or Vocational Program.

"Through No Fault of the Inmate" as it pertains to an Interrupted Period

"Through no fault of the inmate" as it pertains to an interrupted period is a situation, which disrupts the inmate's assignment, custody, or placement, based on a decision outside of the inmate's control and the circumstances of the interruption are not within the responsibility of the inmate.

- Examples of "through no fault of the inmate" are:
 - The inmate is transferred out to court.
 - The inmate is placed on 'S' time pending parole.
 - The inmate is placed in administrative segregation pending investigation and/or disciplinary action and later released with no finding of guilt.
 - The inmate is housed in a Minimum Support Facility (MSF) and learns of a death in the family. Staff re-houses the inmate in a more secure facility pending evaluation of the inmate's escape potential.
- Examples of interruptions that are the fault of the inmate:
 - The inmate comes to staff and asks to be "rolled up" to administrative segregation. The inmate explains that he has a drug debt that he can't pay and stated that he can't stay in the general population.
 - The inmate has become disruptive in school and is removed from his assignment by a classification committee.

Total Favorable Points

Add the points for C1 through C3 and enter the number. Note that it is a negative value.

61020.19.4 Unfavorable Behavior Since Last Review

Locate the disciplinary section of the C-file and note if the inmate was found guilty of misbehavior rated as "serious" rather than "administrative." In the space provided, write the date of the disciplinary report for all "serious" disciplinary reports that have not yet been included.

When recording Unfavorable Behavior Since Last Review, the documentation shall establish that the inmate was determined to be guilty of conduct described as "serious" per the CCR § 3315. Such behavior may be documented by means other than a CDC Form 115. For example, an assault on another inmate in jail or distribution of drugs in jail may be documented by a report from the sheriff.

Unfavorable behavior points are to be recorded only when the unfavorable behavior being evaluated occurred between any of the inmate's current or previous Annual/6 Month Review Period dates and/or previous Readmission Review Period Calculation dates.

Therefore, when it is determined that the serious disciplinary behavior did occur between the inmate's current or previous Annual/6 Month Review Period Dates and/or previous Readmission Review Period Calculation dates and the disciplinary has not been recorded on a prior score sheet, the disciplinary can be recorded on a new CDC Form 840 or CDC Form 841 outside of the review period dates recorded on that score sheet.

Note: A correction to previously applied favorable points for No Serious Disciplinary is necessary if the inmate is later found to be guilty of a serious disciplinary violation committed during a review period for which favorable points for No Serious Disciplinary had been previously granted.

Serious Disciplinary (Boxes 52-69)

The counselor shall apply eight (8) points for each guilty finding for a Division A-1 or A-2 offense in Boxes 52-53.

The counselor shall apply six (6) points for each guilty finding for a Division B, C, or D offense in Boxes 54-55.

The counselor shall apply four (4) points for each guilty finding for a Division E or F offense in Boxes 56-57.

Count the number of disciplinary and multiply by the appropriate point value and enter the total in the appropriate boxes. The maximum number of points to be assessed for each individual category is 99.

A single disciplinary may result in the assessment of points under more than one different category. If the inmate was found guilty of the described behavior, enter the date of the disciplinary and assess the points associated with that behavior.

When the behavior in an incident falls under more than one category, assign the points for each appropriate category. For example, if the inmate is found guilty for battery on another inmate with a deadly weapon causing serious injury, that one act shall be noted on the CDC Form 840 in items:

- Item D1, Division A offense = 8 points
- Item D3, Battery on an inmate = 4 points
- Item D5, Possession of a deadly weapon = 16 points
- Item D7, Battery causing serious injury = 16 points

For this serious disciplinary, the inmate is assessed a total of 44 points.

Example: If a CDCR inmate, while in the county jail, is found guilty of distribution of drugs (trafficking narcotics), the inmate shall be assessed points as follows:

- Item D1, Division A-2 offense = 8 points
- Item D4, Distribution of Drugs = 4 points

For this serious in-custody offense, the inmate is assessed a total of 12 points.

Battery or Attempted Battery on A Nonprisoner (Boxes 58-59)

Include any battery on a nonprisoner or attempted battery on a nonprisoner.

Count the number, multiply by eight (8), and enter the total.

Battery or Attempted Battery on an Inmate (Boxes 60-61)

Include any battery on an inmate or attempted battery on an inmate.

Do not include mutual combat where both inmates were co-responsible.

Include situations where one or more inmates is clearly the victim. Usually results in some injury that may involve a group attack or some type of weapon.

Count the number, multiply by four (4), and enter the total.

Distribution of Drugs (Boxes 62-63)

This refers to inmates who are involved in an operation to smuggle any controlled substance into an institution, facility, or jail for distribution and sales.

Do not count a disciplinary determination in which the inmate was found guilty of possessing a small quantity of drugs or being under the influence.

Count the number, multiply by four (4), and enter the total.

Possession of a Deadly Weapon (Boxes 64-65)

Include only well-documented instances of manufacturing or possessing a deadly weapon where apparent use is intended.

Except as noted below, do not include possession of commonly available and unmodified objects, unless they are used as weapons and this fact is documented in the disciplinary hearing process. For example, hobby craft tools, common shop tools, and baseball bats are not considered deadly weapons unless their use, or intent for use, as such is clear.

- Include possession of a razor blade (whether modified or not) in a segregated program housing unit (e.g., Ad Seg Unit, SHU, Psychiatric Services Unit).

Count the number, multiply by sixteen (16), and enter the total.

Inciting a Disturbance (Boxes 66-67)

Typically this involves a leadership role in an institution/facility riot, racial disturbance, or work strike.

Include any willful and deliberate behavior, which may have led to violence or disorder, and any willful attempt to incite others either verbally or in writing, or by other deliberate action, to use force or violence upon another person, of the type described in the CCR § 3005.

Count the number, multiply by four (4), and enter the total.

Battery Causing Serious Injury (Includes Conspiracy) (Boxes 68-69)

Include any battery that caused serious injury.

Inmates who conspired in, or ordered such a battery shall receive the same points.

Serious injury is defined in CCR § 3000.

Count the number, multiply by sixteen (16), and enter the total.

Total Unfavorable Points

Add the points for items D1 through D7 and enter the value on the line provided.

A serious disciplinary, not previously recorded, can be entered on the CDC Form 840 even when the date of the disciplinary falls outside of the period of time recorded in the Annual/6 Month Review Period Dates section of the score sheet.

61020.19.5 Correction to CDC Form 840 Score Sheet (Prior to Rev. 07/02) (Boxes 70-72)

Form 840 score sheet with a form revision date prior to Rev. 07/02. This area is not to be used to record Changes in Term Points or Net Change in Score.

See DOM §§ 61020.20.9 and 61020.20.10 for further instructions in the Correction and Deletion Process.

61020.19.6 Computation of Score

Prior Preliminary Score (Boxes 73-75)

The Prior Preliminary Score will be found on the most recent classification score sheet:

- If the CDC Form 839 is the most recent score sheet, enter the Preliminary Score value as recorded in Boxes 65-67.
- If the CDC Form 840 is the most recent score sheet, enter the New Preliminary Score value as recorded in the most recent CDC Form 840, Boxes 82-84.
- If the CDC Form 841 is the most recent score sheet, enter the New Preliminary Score value as recorded in the most recent CDC Form 841, Boxes 84-86.

Net Change in Score (Boxes 76-78)

Combine the Total Favorable Points (C4) and the Total Unfavorable Points (D8). The Net Change in Score can be a plus or minus value. The maximum number of points that can be entered for Net Change in Score on each CDC Form 840 is 99.

Because the Inmate Classification Score System database organizes data by the Date Completed, to accurately capture points beyond 99 in the Net Change, prepare one or more additional CDC Form 840s. Each CDC Form 840 is able to capture up to 99 points Net Change in Score for purposes of recording disciplinary history. Enter a different "Date Completed" for each score sheet.

Enter the appropriate negative or positive sign in the first box. Enter the total numeric value in the remaining boxes.

Preliminary Score Subtotal (Item F.3.)

Enter the Preliminary Score Subtotal on the line provided. The Preliminary Score Subtotal is the Prior Preliminary Score plus or minus the Net Change in Score.

Computations that result in a negative value shall be entered as zero.

Change in Term Points (Boxes 79-81)

Whenever an inmate receives a change in his or her total term length, enter the change on the CDC Form 840. If an inmate's status changes from Parole Violator Returned To Custody (PVRTC) to Parole Violator With a New Term (PVWNT) after endorsement on the CDC Form 841, use a CDC Form 840 to record any change in term points. Do not correct the CDC Form 841.

Unless there is a change in the inmate's total length of term, do not recalculate Term Points.

To determine the Change in Term Points:

- Review the CDC Form 112 and the Legal Status Summary to determine if the new sentence has changed the total term length.
- If there has been a change to the length of the inmate's total term, review the original Term Point calculation on the CDC Form 839 and the Change in Term Points box on all subsequent score sheets before adjusting Term Points.
- Identify the current Term Points value and enter that value on the "Old T/P" line on the score sheet. This is a negative value.
- Use the Term Point equation of base term plus enhancements multiplied by two (2) to calculate New Term Points. Enter that value on the "+ New T/P" line on the score sheet. This is a positive value.
 - This term point value cannot exceed 50.
- Determine the difference between the old term points and the new term points. Enter either a plus (+) or a minus (-) sign in Box 79 and the numeric difference in Boxes 80-81.

When an inmate receives a change in the total term length, do not correct the Term in Years section of the original CDC Form 839 or the Change in Term Points section of the CDC Form 841; use the new CDC Form 840.

When an inmate's total term length is modified, the new term points shall be based on FULL YEARS of the new total term. Months are not included in calculating the new term point total.

EXAMPLES:

An inmate returned to court and had a prior term stricken, reducing his total term to 3 years.

- Old Term Points: -8
- New Term Points: +6 (3 yrs X 2)
- Change in Term Points= -2

An inmate receives an additional term, increasing his total term by 8 months, to 6 years 4 months.

- Old Term Points: -10
- New Term Points: +12 (6 yrs X 2)
- Change in Term Point= +2

An inmate receives an additional term, increasing his total term to 5 years 10 months.

- Old Term Points: -10
- New Term Points +10 (5 yrs X 2)
- Change in Term Points = 0 No change in Term Points

In this case, there is no Change in Term Points because the new total term length does not affect the term point value.

An inmate is given a 16-month sentence (1 year 4 months) consecutive to his controlling offense. His original term was 8 years, and the new term is 9 years 4 months.

- Old Term Points: -16
- New Term Points: +18 (9 yrs X 2)
- Change in Term Points = +2

An inmate had his Life sentence reduced to a total term of 4 years.

- Old Term Points: -50
- New Term Points +8 (4yrs X 2)
- Change in Term Points = -42

New Preliminary Score (Boxes 82-84)

Add or subtract the Change in Term Points value entered in Boxes 79-81 from the Preliminary Score Subtotal and enter that value in Boxes 82-84. The maximum value for the New Preliminary Score is 999. Although the New Preliminary Score is at the maximum value of 999, record any serious disciplinary behavior on subsequent score sheets. Computations that result in a negative value shall be entered as zero. The New Preliminary Score cannot be less than zero nor greater than 999.

61020.19.7 Placement

Mandatory Minimum Score Factor:

A Mandatory Minimum Score Factor is a case factor that requires the application of a Mandatory Minimum Score.

Mandatory Minimum Score Factor Code (Box 85)

A Mandatory Minimum Score Factor Code is an alpha code associated with a Mandatory Minimum Score Factor.

- If an inmate has a case factor that requires the application of a Mandatory Minimum Score Factor Code, enter the applicable code in Box 85. If more than one Mandatory Minimum Score Factor Code applies, enter the code that appears first on the list.
- Document the RC justification for applying a Mandatory Minimum Score Factor Code in the CDC Form 816 or ISRS, as applicable. When the Mandatory Minimum Score Factor is applied other than in the RC, justify application in a CDC Form 128-G.
- If eligibility for a Mandatory Minimum Score Factor Code requires “case-by-case” consideration, the case shall first be reviewed and evaluated by a classification committee before the Mandatory Minimum Score Factor Code is applied.
 - If the classification committee approves application of a Mandatory Minimum Score Factor Code, the classification committee shall describe the justification for applying the Mandatory Minimum Score Factor Code in the CDC Form 128-G, and refer the case for CSR review for the application of the Mandatory Minimum Score Factor Code.
 - A CDC Form 840 score sheet shall be prepared to record the CSR's action to apply the Mandatory Minimum Score Factor Code and Mandatory Minimum Score.
- Absent overriding security or safety considerations, cases pending further consideration to determine eligibility for a Mandatory Minimum Score Factor Code shall not be transferred, except from the RC until the application of a Mandatory Minimum Score Factor Code is resolved.

Determine if one or more of the case factors listed below apply to the inmate. If no factors apply, proceed to the instructions for Placement Score.

Prepare a new CDC Form 840 score sheet to record a change in or removal of a Mandatory Minimum Score Factor Code.

Mandatory Minimum Score Factor Codes and Scores:

CODE	FACTOR	SCORE
[A]	Condemned	52
[B]	Life Without Possibility of Parole	52
[C]	CCR 3375.2(a)(7) Life Inmate	28
[D]	History of Escape	19
[E]	Warrants “R” Suffix	19
[F]	Violence Exclusion	19
[G]	Public Interest Case	19
[H]	Other Life Sentence	19

Specific Criteria for Applying Mandatory Minimum Factors:

- **A. Condemned.** Apply Mandatory Minimum Score Factor Code A to inmates sentenced to Death.
- **B. Life Without Possibility of Parole.** Apply Mandatory Minimum Score Factor Code B to inmates sentenced to Life Without the Possibility of Parole (LWOP).
- **C. CCSR 3375.2(a)(7) Life Inmate.** Apply Mandatory Minimum Score Factor Code C to life-term inmates who are excluded from placement in Levels I or II based on any of the following factors per CCR § 3375.2(a)(7):
 - The commitment offense involved multiple murders, unusual violence, or execution-type murders, or received high notoriety. Each of these factors is defined in CCR § 3000.
 - The inmate has a history of multiple walkaways, an escape from a secure perimeter, or an escape with force or threat of force.

A classification committee shall determine the application of Mandatory Minimum Score Factor Code C. The UCC shall refer more complex cases to the ICC as needed.

Justification in the CDC Form 128-G shall address the specific element(s) of the inmate’s commitment offense that substantiates the application of Mandatory Minimum Score Factor Code C, which precludes Level II placement, as opposed to Mandatory Minimum Score Factor Code F or Mandatory Minimum Score Factor Code H.

- **D. History of Escape.** Apply Mandatory Minimum Score Factor Code D for those case factors listed below. This code is not to be used to assess risk factors for escape involving any other offenses; (i.e., the sale or possession of large quantities of narcotics.)
 - Apply to an inmate with any history of escape from within a secure perimeter or attempted escape from within a secure perimeter, whether or not force was used. This inmate is permanently excluded from minimum custody placement.
 - Apply to an inmate who has a conviction for, or whose commitment offense includes, Escape with Force or Attempted Escape with Force from any correctional setting or armed escort. This inmate is permanently excluded from minimum custody placement.
 - Apply to an inmate who verbalizes that he or she is going to escape, and/or states he or she does not wish MSF placement because he or she will be tempted to escape/walkaway. The inmate is permanently excluded from minimum custody/MSF/camp placement.
 - When applying the ten-year exclusion criteria in reference to the following escapes or walkaways, use the date of conviction. If the escape did not result in a conviction, use the date of apprehension. In a case where there is no escape conviction and the date of apprehension is unknown, use the date of the escape, attempted escape, or walkaway.
 - Apply to an inmate who has a history of (one or more) walkaways without force from a nonsecure perimeter facility setting (such as camp, MSF, county road camp, etc.) The inmate is ineligible for minimum custody placement, camp, or MSF for ten years.
 - Apply to an inmate with a pattern of (two or more) walkaways from CCRC within the last 10 years. These inmates are excluded from minimum custody for 10 years.
 - Apply to an inmate who has a walkaway from a CCRC that resulted in a court conviction for Escape within the last ten years. The inmate is not eligible for minimum custody for 10 years.
- **E. Warrants “R” Suffix.** Apply Mandatory Minimum Score Factor Code E when the “R” suffix has been affixed to the inmate’s custody.

Criteria for the “R” suffix are provided in CCR § 3377.1(b)(1) and DOM § 62010.4.3.1. Do not apply Mandatory Minimum Score Factor Code E for a case pending an evaluation.

- **F. Violence Exclusion.** Apply Mandatory Minimum Score Factor Code F when an inmate has a current or prior conviction for a violent felony or a sustained juvenile adjudication including, but not limited to, those listed under PC § 667.5(c) that does not require “case-by-case” consideration.
 - A sustained juvenile adjudication is a guilty determination or ruling rendered in a juvenile judicial proceeding.
 - In addition, the following administrative determinations regarding an allegation of a violent act including, but not limited to, those offenses described in PC § 667.5(c) shall have the same force and effect as a current or prior conviction for a violent felony or a sustained juvenile adjudication:
 - Board of Parole Hearings good cause finding, or
 - California Youth Authority/Youthful Offender Parole Board sustained allegation, or
 - A probation violation finding in a court of law.
 - Do not apply the Mandatory Minimum Score Factor Code F pending case-by-case evaluation.
 - Case-by-case evaluation for application of the Mandatory Minimum Score Factor Code F by the receiving institution requires the review and decision prior to the inmate’s first annual review or prior to transfer, whichever comes first.
 - If the UCC justifies exclusion of the inmate for violence based on a case-by-case evaluation, the case shall be referred to the CSR for approval.
 - If the CSR agrees with the UCC’s evaluation that the case meets the violence exclusion, the CSR shall apply the administrative determinant pursuant to CCR § 3375.2(b)(25).
 - If the CSR disagrees with the UCC’s evaluation that the case meets the violence exclusion, the CSR shall refer the case to ICC for a final determination.
 - Upon ICC determination that the case meets the violence exclusion, ICC shall refer the case for CSR review and application of the administrative determinant for violence pursuant to CCR § 3375.2(b)(25).
 - The ICC shall refer the case to the CSR substantiating application of the violence administrative determinant via a CDC Form 128-G.
 - A CDC Form 840 score sheet shall be prepared to record the CSR’s action to apply the Mandatory Minimum Score Factor F.
- **G. Public Interest Case.** Apply Mandatory Minimum Score Factor Code G when a CSR determines that the inmate is a Public Interest Case as defined in CCR § 3000, CCR § 3375.2(b)(20) and DOM § 62010.4.3.3. Staff shall refer potential public interest cases to a CSR for determination and endorsement, if applicable, as a public interest case.
- **H. Other Life Sentence.** Apply Mandatory Minimum Score Factor Code H for an inmate serving a current life sentence commitment whose case factors are not already addressed by another Mandatory Minimum Score Factor. This inmate is excluded from placement in a minimum custody setting until a release date is granted by the BPH. The granting of a release date by the BPH does not result in the removal of Mandatory Minimum Score Factor Code H.

Mandatory Minimum Score (Boxes 86-87)

A Mandatory Minimum Score is a numerical value identifying the least restrictive security level for an inmate who has a case factor that requires that he/she be housed no lower than a specific security level.

When the Mandatory Minimum Score Factor Code is applied, enter the corresponding point value in the field labeled Mandatory Minimum Score, Boxes 86-87.

If more than one factor applies, enter the code in Box 85 that appears first on the list and enter the corresponding numeric value in Boxes 86-87.

Placement Score (Boxes 88-90)

If a Mandatory Minimum Score Factor Code has not been applied, enter the New Preliminary Score as the Placement Score.

If a Mandatory Minimum Score has been applied, enter either the Mandatory Minimum Score or the New Preliminary Score, whichever is greater, as the Placement Score.

The Placement Score is one of the factors used to determine the security level to which the inmate is assigned.

61020.19.8 Special Case Factors

This provides the opportunity to alert classification staff of special concerns, which should be considered in placement or program assignment. Begin by reviewing the CDC Form 839, prior CDC Form 840s, and CDC Form 841s for special case factors, identified by counselors or CSRs, which need to be evaluated for change or continuation. For example, does the hold still exist or does the “R” suffix still apply?

Next, review relevant chronos and other documentation for any recent concerns.

Holds, Detainers, and Warrants (Boxes 91-92)

Review all relevant documents and the “Detainers” section of the C-file for holds. This item requires careful evaluation regarding the seriousness of the hold and the likelihood that the jurisdiction will exercise the hold at the end of the sentence. The importance of the hold for classification is the extent to which the prospect of an additional term to serve may motivate the inmate to escape.

- Holds, detainers, and warrants for felony charges or USINS are coded “P” for potential or “A” for actual.
- Upon identification of a potential USINS hold, prepare and submit a new CDC Form 840 to the Offender Information Services Branch (OISB).
- Prepare a new CDC Form 840 identifying a potential or actual hold if, as a result of classification committee review, the inmate is referred to the CSR or C&PR for more restrictive placement.
- If the inmate’s placement is not impacted by the identification of a potential (other than a potential USINS hold) or actual felony hold, prepare a new CDC Form 840 recording the potential or actual hold at the inmate’s annual classification committee review or at the inmate’s next classification committee review requiring the completion of a score sheet, which ever comes first.
- Place an asterisk (*) in the box if an actual felony or USINS hold has been dropped, or if the concern for a potential hold no longer exists. An asterisk shall be recorded only as part of the normal reclassification process that requires the completion of a score sheet.

Restricted Custody Suffix (Box 93)

Enter an “R” in the box if a restricted custody suffix has been applied pursuant to DOM § 62010.4.3.1.

Place an asterisk (*) in the box if “R” custody has been removed.

Eligible for Restitution Center (Box 94)

The Restitution Center program allows inmates who meet program criteria to work in the community and repay their victims for monetary losses. Inmates are eligible for placement in the Restitution Center program pursuant to PC § 6228. Inmates are eligible for placement consideration if they meet the following criteria:

- Have agreed or been ordered by the court to make financial restitution to a crime victim.
- Have not served a prison term within the five years prior to the present conviction.
- Do not have a criminal history of a conviction for the sale of controlled substances.
- Do not have a criminal history of a conviction for a crime involving violence or sex.
- Received a sentence of 36 months or less.
- Present no unacceptable risk to the community.
- Are employable.

Inmates from any county are eligible for placement if they meet the criteria.

A court ordered restitution to the victim, whether payable to the court, directly to the victim, or in any other manner, qualifies an inmate to participate. Therefore, a restitution fine does meet the criteria for Restitution Center placement.

There are no medical staff assigned to the Restitution Center. However, an inmate who is otherwise eligible for placement in a restitution center who requires regular monitoring/intervention by medical personnel may be considered if medically cleared on a case-by-case basis.

In Box 94, enter a "Y" for "yes" if the inmate is eligible or enter "N" for "no" if the inmate is ineligible. This is a one-time entry for the duration of the inmate's CDC Number unless the inmate's eligibility changes from "Y" to "N." If this information has already been entered on a score sheet, it is not necessary to enter it again.

Level IV Design (Item H4)

180 Status. If a male inmate has a Level IV Placement Score, the counselor shall make a determination regarding the exclusion of the inmate from a Level IV 270-design institution. If an inmate meets the guidelines for exclusion from a Level IV 270-design prison, the counselor shall print the capital letter "Y" on the line provided.

If a male inmate has a Level IV Placement Score, but does not meet the guidelines for exclusion from a Level IV 270-design institution, the counselor shall print an "N" on the line provided.

Reason Code. When a "Y" is entered on the "180 Status" line, enter the "Reason" code that describes the reason for exclusion from a Level IV 270-design institution based on the established guidelines. (Refer to DOM 61010.11.6 for these guidelines.)

US Armed Forces (Box 95)

Print a "Y" if the inmate answers "Yes" to the following question: "Have you ever been a member of the US Armed Forces and were you honorably discharged?" If the inmate answers "No" enter "N." Once a response to this question is documented on a CDC Form 839, CDC Form 840, or CDC Form 841, it is not necessary to address the issue again.

Current Institution and Facility (Boxes 96-102)

Beginning with the first box, print the letters that abbreviate the name of the institution, Community Correctional Facility (CCF), Modified Community Correctional Facilities (MCCF), or RC where the reclassification process is being conducted. Use the approved abbreviation that has been assigned to each location.

Print the letters assigned to each location in the first four boxes. Print the appropriate security level, subfacility, program, or camp number in the remaining boxes.

Institution codes are as follows:

ASP	Avenal State Prison
CAL	Calipatria State Prison
CCC	California Correctional Center
CCI	California Correctional Institution
CCWF	Central California Women's Facility
CEN	Centinela State Prison
CIM	California Institution For Men
CIW	California Institution For Women
CMCE	California Men's Colony - East
CMCW	California Men's Colony - West
CMF	California Medical Facility
COR	California State Prison, Corcoran
CRC	California Rehabilitation Center (Male inmates)
CRCW	California Rehabilitation Center (Female inmates)
CTF	Correctional Training Facility
CVSP	Chuckawalla Valley State Prison
DVI	Deuel Vocational Institution
FSP	Folsom State Prison
HDSP	High Desert State Prison
ISP	Ironwood State Prison
KVSP	Kern Valley State Prison
LAC	California State Prison, Los Angeles County
MCSP	Mule Creek State Prison
NKSP	North Kern State Prison
PBSP	Pelican Bay State Prison
PVSP	Pleasant Valley State Prison
RJD	Richard J. Donovan Correctional Facility
SAC	California State Prison, Sacramento
SATF	California Substance Abuse Treatment Facility and State Prison at Corcoran
SCC	Sierra Conservation Center
SOL	California State Prison, Solano
SQ	California State Prison, San Quentin

SVSP	Salinas Valley State Prison
VSPW	Valley State Prison For Women
WSP	Wasco State Prison

When entering a CCF or MCCF abbreviation, print the first four letters assigned to each location in the first four boxes and print "CCF" in the remaining boxes.

CCF and MCCF abbreviations are as follows:

CCFs are:

ADEL	Adelanto
BAKE	Baker
COAL	Claremont Custody Center
DELA	Delano
LASS	Lassen
LIVE	Leo Chesney Center
MCFA	McFarland
MESA	Mesa Verde
SHAF	Shafter
TAFT	Taft

MCCFs are:

CENV	Central Valley
GOLD	Golden State
DESR	Desert View
VICV	Victor Valley

Print the following letters for inmates housed in Community Prisoner Mother Programs:

- CPMP Community Prisoner Mother Program

Examples:

Central Valley Modified Community Correctional Facility is coded as:

C	E	N	V	C	C	F
---	---	---	---	---	---	---

Pelican Bay State Prison SHU is coded as:

P	B	S	P	S	H	U
---	---	---	---	---	---	---

County of Last Legal Residence (Boxes 103-105)

Print the two or three letter OBIS code for the county name in the boxes available. This is a one-time entry for this incarceration. If the CLLR has already been recorded on the CDC Form 839 or CDC Form 841, leave these boxes blank. Refer to DOM § 61010.11.1 for application of the code for CLLR.

ALA	Alameda	ORA	Orange
ALP	Alpine	PLA	Placer
AMA	Amador	PLU	Plumas
BUT	Butte	RIV	Riverside
CAL	Calaveras	SAC	Sacramento
CC	Contra Costa	SB	Santa Barbara
COL	Colusa	SBD	San Bernardino
DN	Del Norte	SBT	San Benito
ED	El Dorado	SCL	Santa Clara
FRE	Fresno	SCR	Santa Cruz
GLE	Glenn	SD	San Diego
HUM	Humboldt	SF	San Francisco
IMP	Imperial	SHA	Shasta
INY	Inyo	SIE	Sierra

MAR	Marin	STA	Stanislaus
MEN	Mendocino	SUT	Sutter
MER	Merced	TEH	Tehama
MNO	Mono	TRI	Trinity
MOD	Modoc	TUL	Tulare
MON	Monterey	TUO	Tuolumne

MPA	Mariposa	VEN	Ventura
NAP	Napa	YOL	Yolo
NEV	Nevada	YUB	Yuba

Counselor Name (Boxes 106-114)

The counselor shall print his or her last name and first initial in the boxes, in CAPITAL BLOCK letters, indicating that the CDC Form 840 is accurate and complete.

61020.19.9 CSR Action

This Section is to be completed only by a CSR or a staff member specifically authorized to act in that capacity.

Last Name (Boxes 115-122)

The CSR or authorized staff shall print the first eight letters of his or her last name in CAPITAL BLOCK letters in the space provided.

Date of Action (Boxes 123-128)

Enter the number of the month, the day, and the last two digits of the year in which the action is taken.

Level IV Design (Boxes 129-131)

180 Status. If a male inmate has a Level IV Placement Score, the CSR shall make a determination regarding the exclusion of this inmate from a Level IV 270-design institution. If an inmate meets the guidelines for exclusion from a Level IV 270-design prison, the CSR shall print the capital letter "Y" in Box 129.

Enter an asterisk (*) in Box 129 if an inmate was designated on a previous CDC Form 839 or CDC Form 840 or CDC Form 841 as meeting the guidelines for exclusion from a Level IV 270-design institution, but no longer meets the exclusionary guidelines.

Reason Code. If a "Y" has been entered in Box 129, the CSR shall enter the Reason Code in Boxes 130-131 to describe the reason for exclusion from a Level IV 270-design institution based on the established guidelines. Refer to DOM § 61010.11.6, Special Case Factors, to determine the appropriate Reason Code.

The counselor's evaluation regarding a male inmate's exclusion from a Level IV 270-design institution shall be recorded in the Special Case Factors area of the score sheet.

Minimum Custody (Boxes 132-135)

Eligibility. The CSR shall print the letter "E," "L," or "P" in Box 132 consistent with the findings recorded on the Minimum Custody Screening Form. Print the letter "E" in Box 132 to document that the inmate is eligible for minimum custody. Print the letter "L" in Box 132 to document that the inmate is temporarily ineligible for minimum custody. Print the letter "P" in Box 132 to document that the inmate is permanently ineligible for minimum custody.

Reason Code. Print the code in Boxes 133-135 to identify the reason that the inmate is either temporarily or permanently ineligible for minimum custody, for example, VIO, ESC, HOL, etc. If the inmate is eligible for minimum custody, print an "E" in the Minimum Custody Eligibility, Box 132. Do not enter a "reason code."

If an inmate is permanently excluded from Camp due to Arson, but is otherwise eligible for minimum custody in an MSF, enter "P" in Box 132 and enter ARS for Arson in Boxes 133-135 to ensure that the inmate is not placed in a Camp.

CCRC Eligibility (Boxes 136-138)

The CSR shall enter the appropriate code for reentry eligibility in Boxes 136-138.

- Print the letters REN if the inmate is eligible and wants to participate in CCRC.
- Print the letters REX if the inmate is eligible for placement in CCRC, but the inmate does not want to participate in CCRC.

If the inmate is ineligible for CCRC placement, Boxes 136-138 shall remain blank.

Developmental Disability Program (DDP) Code (Boxes 139-141)

The Developmental Disability evaluation is recorded on a CDC Form 128-C-2. The CSR shall print the most recent DDP code in Boxes 139-141. The DDP code is the designation assigned by clinical staff.

The C&PR has the authority to enter the DDP code only when there is a change from one DDP designation to another and the change does not require transfer of the inmate.

For example: The C&PR has the authority to enter the DDP designation change from DDO to NDD or from DD1 to DD2 when the institution is designated to accommodate both DD1 and DD2.

Disability Placement Program (DPP) Codes (Boxes 142-157)

The CSR shall make every effort to endorse a case that is identified as DPP on the CDC Form 1845 (Section C), to an appropriate institution.

The first three boxes are to be used for the impacting DPP code that most affects the inmate's placement. The CSR shall print the appropriate DPP code in Boxes 143-145. If there are additional codes that affect placement, the CSR shall print codes in Boxes 147-157.

The CSR shall print the non-impacting DPP codes assigned to the inmate in Boxes 147-157.

When a DPP code is no longer appropriate, the CSR shall enter an asterisk in the corresponding box and enter the DPP code to be deleted in the three boxes following the asterisk.

The lack of an asterisk (*) before a DPP code means the continuation or addition of a code.

To change the previously applied primary code that most affected placement, the CSR shall print a new primary DPP code in Boxes 143-145.

The C&PR or RC-CCIII has the authority to code the DPP designation of inmates who have only non-impacting physical disabilities as identified in Section D of the CDC Form 1845. The C&PR or ORC-CCIII shall enter a DPP code in Boxes 147-157.

Administrative Determinants (Boxes 158-177)

An inmate whose Placement Score falls within one of the following ranges shall be placed in an institution, which is designated at the security level indicated, unless a reason for administrative or irregular placement is specified:

Placement Score	Security Level
0-18	I
19-27	II
28-51	III
52+	IV

Appropriate inmate placement is determined by both Placement Score and consideration of unusual or special case factors. Some case factors affect placement because of administrative policy requirements. Policy determined factors are "administrative determinants," and placements based on these, in a facility, which does not correspond to the inmate's Placement Score, are "administrative placements."

Space is provided to record up to five administrative determinants. Enter applicable administrative determinants. An administrative determinant also identifies a temporary or permanent case factor and alerts staff to safety and security considerations, which may limit the inmate's eligibility for placement.

If there are not enough boxes to identify all applicable administrative determinants, give priority to administrative determinants most related to custody and safety.

For example, if the inmate has noted an active "felony hold," mental health concerns, medical concerns, and a possible restricted "R" custody, enter the applicable administrative determinants. Unless the medical condition is driving placement, the mental health diagnosis is the primary concern. Enter HOL for the Hold if the hold is active, is either a felony hold or a USINS hold, and supporting documentation for the hold is in the file. The "R" suffix is not entered pending evaluation. The CSR would, therefore, enter:

a)	b)	c)									
<table border="1"><tr><td>P</td><td>S</td><td>Y</td></tr></table>	P	S	Y	<table border="1"><tr><td>M</td><td>E</td><td>D</td></tr></table>	M	E	D	<table border="1"><tr><td>H</td><td>O</td><td>L</td></tr></table>	H	O	L
P	S	Y									
M	E	D									
H	O	L									

Record those administrative determinants, which are supported by documentation using the Administrative Determinant codes provided. If an Administrative Determinant code has already been entered as a Minimum Custody Reason Code (Boxes 133-135), it is not necessary to repeat that code here.

AGE. Inmate's youthfulness, immaturity, or advanced age should be given strong consideration in placement or program decisions.

ARSON. Current or prior conviction or a sustained juvenile adjudication as defined in CCR § 3375.2(b)(25) or good cause finding ruling rendered in a BPH or Parole Hearing Division proceeding, a sustained allegation in DJJ/CYA or Youthful Offender Parole Board proceeding or a probation violation finding in a court of law for arson, which limits where the inmate may be housed.

BEHAVIOR. Inmate's behavior record indicates he or she is capable of successful placement at an institution security level lower than that indicated

by inmate's Placement Score. Not to be used if the inmate is housed at a security level higher than the inmate's Placement Score.

CAMP. Placement due to a shortage of camp qualified inmates. Enter CAM to identify an inmate who is eligible or potentially eligible for camp placement.

DEAtH sentence. Inmate was formerly on death row or currently is sentenced to death.

DEPartmental review board. Special placement ordered by the Departmental Review Board.

DISciplinary history. Inmate's disciplinary record indicates a history of serious problems or threatens the security of the facility.

ENEMies. One or more persons under jurisdiction of the CDC has been documented on a CDC Form 812 or CDC Form 812-C as an enemy. This should also be used when victimization is very probable due to case factors, such as where the nature of the offense will very likely create an enemy situation at certain institutions. Includes current Protective Housing Unit (PHU) cases and those who are natural victims because of their appearance or commitment offense.

ESCApe potential. Unusual circumstances suggest the inmate is a much greater escape risk than indicated by his or her score. For example, the inmate verbalized intent to escape.

FAMily ties. Inmate has strong family ties to a particular area where other placement would cause an unusual hardship.

GANg involvement or affiliation. Documentation establishes that the inmate's membership or association requires special attention or placement consideration.

HOLd, warrant, or detainer likely to be exercised. For purposes of justifying a need for irregular placement based on a Hold, the hold is to be active, be either a felony hold or USINS hold, and substantiating documentation must be located in the C-File.

INActive. Documentation establishes that the inmate's inactive gang status requires special attention or placement consideration.

LIFe sentence. Apply LIF to identify an inmate serving a life sentence or life sentences.

MEDical. The inmate's medical condition requires treatment or continuing medical attention not generally available at all facilities.

OUT-to-court. Inmate needs to be housed in a particular facility in order to be close to a court jurisdiction where the inmate is required to testify in court or is being prosecuted. Includes situations where involvement in a court trial is anticipated because a disciplinary has been referred to the district attorney. Also use this designation when a board appearance is imminent.

POPulation pressures. Shall be used by a CSR only. No beds presently exist at an institution with a security level indicated by the inmate's Placement Score.

PRErelease. The short time remaining to serve limits or otherwise influences placement or program options. This factor shall also be used when a release date is so close that transfer or starting a long-term program is not warranted and when a short release date warrants special placement or program consideration.

PSYchiatric. A psychological condition requires special treatment or may severely limit placement options. Includes Category B. Apply PSY to justify the administrative placement of an inmate who requires designated housing in accordance with an impacting DDP code.

PUBlic interest case. High notoriety of an inmate has caused public interest in the case and requires exceptional placement.

SCHool. Inmate is involved in an academic program, which is not available at an institution security level consistent with the inmate's Placement Score. Apply SCH to identify an inmate currently participating in a Substance Abuse Program who is being retained out of level to complete the Substance Abuse Program.

SEX. Inmate has a prior incidence of rape, oral copulation, sodomy, or a lewd and lascivious act, which requires restricted custody or placement.

SOR. Sexual orientation. Inmate's bisexual or homosexual orientation may require special placement.

TIME to serve. Inmate's time to serve is long, requiring placement at a facility with a security level higher than that indicated by the inmate's Placement Score.

VIOLence. Inmate has a current or prior conviction for a violent felony, or a sustained juvenile adjudication including, but not limited to, those listed under PC § 667.5(c), which, as determined by the CSR, requires placement in a facility with a higher security level than that indicated by the inmate's Placement Score.

- A sustained juvenile adjudication means a guilty determination or ruling rendered in a juvenile judicial proceeding.
- In addition, the following administrative determinations regarding allegations of violent acts including, but not limited to, those offenses described in PC § 667.5(c), shall have the same force and effect as a current or prior conviction for a violent felony or a sustained juvenile adjudication:
 - BPH good cause finding or
 - DJJ/CYA/Youthful Offender Parole Board sustained allegation or
 - A probation violation finding in a court of law.

VOCational training. Inmate is involved in a vocational program, which is not available at a facility with a security level, which is consistent with the inmate's Placement Score.

WORk skills. Inmate has a work skill in a critical trade for which special placement consideration may be warranted. This should also be used to request or approve work crew placements.

The CSR shall delete factors no longer valid by placing an asterisk (*) in the single box and entering the code for the factor to be deleted in the following three boxes. This process is used only to delete a previously documented administrative determinant. The lack of an asterisk (*) means the continuation or addition of an administrative determinant.

Mental Health Level of Care (Box 178)

The CSR or C&PR shall enter either a "C" for CCCMS or an "E" for EOP in Box 178 to identify the inmate's Level of Care (LOC) only at the time of endorsement.

Institution Approved (Boxes 179-185)

Print the initials of the institution or facility name in Boxes 179-182. Print the security level, subfacility designation, or program in Boxes 183-185. Enter only one letter or number in each box. Empty boxes should be to the right.

For example:

Sierra Conservation Center, Level I is recorded as:

S	C	C		I		
---	---	---	--	---	--	--

CSP, Solano Level II is recorded as:

S	O	L		I	I	
---	---	---	--	---	---	--

California Institution for Men, Minimum is recorded as:

C	I	M				
---	---	---	--	--	--	--

California Correctional Center, Level III is recorded as:

C	C	C		I	I	I
---	---	---	--	---	---	---

Community Correctional Facility placement is recorded as:

C	C	F				
---	---	---	--	--	--	--

Endorsement to the Restitution Center is recorded as:

L	A			C	C	C
---	---	--	--	---	---	---

When the inmate's current endorsed location or program is not affected by any action being recorded in the Classification Staff Representative section (Section I), the endorsed location shall be reaffirmed and recorded in Boxes 179-185.

Reason for Administrative or Irregular Placement (Boxes 186-188)

The CSR or authorized staff completes this item only if the security level approved is not commensurate with the inmate's Placement Score. If the level does not correspond, the CSR or authorized staff shall enter the reason for the administrative or irregular placement using the appropriate administrative determinant code to justify placement.

Some case factors affect placement because of administrative policy requirements. Policy-determined factors are "administrative determinants" and placements in a facility based on these, which do not correspond to the inmate's Placement Score, are "administrative placements."

There are also special case factors that, while not governed by policy, influence placement by determining program priorities. For example, the inmate's score level is reduced, but he or she is retained in a higher security level to complete academic or vocational training or to fill a skilled worker position or the population is such that no suitable bed at the inmate's security level is immediately available. When placement occurs under such circumstances, it shall be recorded as an "irregular" placement.

61020.20 Instructions for Completing the CDC Form 841

The counselor shall prepare a CDC Form 841 upon the return to CDCR custody from parole of a PVRTC or a PVWNT. Also prepare a CDC Form 816, Reception Center Readmission Summary, for the PVRTC or PVWNT with the following exceptions.

Prepare a CDC Form 841 and an ISRS for a PVWNT returning with a new Life term.

Prepare only a CDC Form 841 if parole is lawfully revoked by the BPH because an inmate refused to sign conditions of parole. Preparation of a CDC Form 816 is not required if the inmate is not physically paroled to the community, the inmate's status shows that he/she has been paroled, revoked, and returned the same day.

Once a PVRTC or PVWNT is scored on a CDC Form 841, each subsequent readmission period shall be captured on a separate CDC Form 841. The counselor prepares a CDC Form 841 each time a parole violator returns to the RC. For example, if a PVRTC paroled from the RC prior to the preparation of a CDC Form 841 for that revocation, prepare a CDC Form 841 to address that RTC period as well as a separate CDC Form 841 to address the current RTC.

A CDC Form 841 shall not be prepared for a parolee pending revocation proceedings. Do not prepare a CDC Form 841 if the parole violator is continued on parole (COP).

A CDC Form 841 shall not be prepared for a parolee who is returned to custody as a "non-revoked" parolee, for example a SATCU placement.

A CDC Form 841 shall not be prepared for a parolee who is returned to custody for "psych attention" only. A parolee revoked by the BPH for psych attention is in custody for psychiatric treatment, but continues his or her parole period uninterrupted.

A CDC Form 841 shall not be prepared if the inmate received an additional commitment while on parole (paper commitment), but is not returned to an RC. OBIS records this as a Legal Processing Unit action showing the parolee as returned to prison and paroled the same day.

On the CDC Form 841, box numbers appear to the right, but refer to the first box on the left of each field.

Detention Processing Unit

The purpose of the Detention Processing Unit (DPU) is to expedite the Reception Center processing of PVRTC cases. The RC-CCIII or designated CCII screens PVRTCs primarily on information in the C-file and a CCI's interview of the PVRTC.

Detention Processing Unit Criteria

Inmates Eligible for DPU Processing

The DPU process allows the RC-CCIII or designated CCII staff to approve initial placement of eligible PVRTC inmates who have either a Level I or Level II Placement Score and who are not further excluded as follows.

- The PVRTC does not require Level III or Level IV placement.
- The PVRTC does not require special or designated housing.
- The PVRTC has no complex housing considerations.
- The PVRTC has no complex enemy concerns.

The PVRTC shall be processed via DPU and endorsed on the CDC Form 841 under the following conditions:

- PVRTC Cases Eligible for Minimum Custody via DPU.
 - A PVRTC with a Level I Placement Score who meets MSF criteria shall be approved for DPU placement in a Level I MSF or a CCF. Do not DPU to a Secure Level I.
 - PVRTCs with Level I Placement Scores with an imminent release date of 30 days or less shall be approved for DPU placement in the Level I MSF adjacent to that RC.
 - A PVRTC with a Level II Placement Score who meets MSF criteria shall be approved for DPU placement in a Level I MSF institution using the Administrative Determinant Code of Work (WOR) or for a DPU placement in a CCF. Do not DPU a PVRTC eligible for MSF placement to a Secure Level I or to a Level II institution.
- Level I or Level II PVRTC Cases Not Eligible for Minimum Custody.
 - A DPU-eligible PVRTC with a Level I Placement Score who does not meet MSF criteria shall be approved for DPU placement in an MCCF or Level II institution using the appropriate Administrative Determinant Code as the Administrative or Irregular Placement Reason.

- A DPU-eligible PVRTC with a Level II Placement Score who does not meet MSF criteria shall be approved for DPU placement in an MCCF or Level II institution.

Inmates not eligible for DPU Processing

A PVRTC requires regular reception center processing and CSR endorsement if he or she has any of the following factors:

- The PVRTC requires either a Level III or Level IV placement.
- The PVRTC requires designated housing; (i.e., DDP, DPP, SNY), or is a participant in the Mental Health Services Delivery System.
- The C&PR or RC-CCIII determines that the PVRTC inmate warrants referral to the CSR.

61020.20.1 Identifying Information

CDC Number (Boxes 1-6)

At the bottom of the CDC Form 841, enter the CDC number for the inmate in Boxes 1-6 as obtained from the Legal Status Summary.

Print the letter prefix (for example P or W) in the first box. Enter a number in each of the remaining five boxes, Boxes 2-6, always ending in Box 6. Be certain not to enter the letter in the number boxes. Example: P-45678

P	4	5	6	7	8
---	---	---	---	---	---

Inmate's Last Name (Boxes 7-11)

Print the first eight letters of the inmate's last name in CAPITAL BLOCK letters. Do not use lowercase or written script letters. Letterboxes are left-hand justified. Begin at the left and print only one letter of the name in each box. Any empty boxes shall be on the right.

If the name consists of more than eight letters, simply enter the first eight letters. Although eight boxes are provided on the score sheet, the database captures only the information in Boxes 7-11 or the first five letters entered. For names with less than eight letters, leave empty the remaining boxes to the right. If the last name is two words, run the words together. Do not leave an empty box in between letters. Example:

Mac Knight

M	A	C	K	N	I	G	H
---	---	---	---	---	---	---	---

Date Received This Incarceration (Boxes 12-17)

When it is determined that an inmate is to be scored on a CDC Form 841, the Date Received This Incarceration is the date that the inmate was received in the RC. Enter the date in the boxes. A zero need not be entered in front of single digit months or days, but is entered as part of the two digits entered for the year, when applicable.

For an inmate who refuses to sign conditions of parole and whose parole is revoked by the BPH, the Date Received This Incarceration is the date that the BPH identifies as the date the inmate was returned to custody as posted on the CDC Form 112.

When a parole violator is returned from parole to an institution other than a reception center (e.g., to provide immediate medical care), the Date Received This Incarceration is the date that the inmate is received at that institution.

If a PVRTC later becomes a PVWNT, the Date Received This Incarceration does not change.

If the inmate was received in the RC as a PVWNT, use the date that the PVWNT is received in the RC.

The Date Received This Incarceration is the Review Period Beginning Date for the PVWNT or PVRTC's first six-month review period for this incarceration.

Date of Last Score Sheet (Boxes 18-23)

Enter the date of the most recent score sheet in the central file. Use the Date of the Last Score Sheet to identify the most recent score sheet and organize score sheets in chronological order to prevent tracking errors and ensure continuity.

County of Last Legal Residence (CLLR) (Boxes 24-26)

Print the most current CLLR, for a PVRTC or PVWNT as recorded in the parole violation report, BPH action, and/or court documents.

Print the two or three letter OBIS code for the county name in Boxes 24-26.

ALA	Alameda	ORA	Orange
ALP	Alpine	PLA	Placer
AMA	Amador	PLU	Plumas

NEV	Nevada	YUB	Yuba

- For an inmate who was a SACCO case and has been returned from parole as a parole violator, the inmate's Date Paroled and Review Period Beginning Date is the same date. The total number of days not previously addressed is zero.

Total Review Periods Not Previously Addressed (Item B3)

Enter the total number of months, days, and years in custody between the Date Paroled and the Review Period Beginning Date.

- When calculating the review period(s) in custody not previously addressed, the time periods are calculated using 30-day months.

Number of 6 Month Review Periods (Item B4)

Enter the total number of six-month review periods in custody not previously addressed.

Partial Review Period (Less Than 6 Months) (Item B5)

Enter the number of months and days in custody remaining that total less than six months.

Inmate Example's classification hearing history and recorded review period dates:

- Received in CDC 10-12-02.
- Annual Review UCC committee held on 10-20-03:
 - Rev Per Beg Date 10-12-02
 - Rev Per End Date 10-11-03
- Inmate Example's UCC committee hearing for Transfer consideration was held on 6-15-04:
 - Rev Per Beg Date 10-12-03
 - Rev Per End Date 4-11-04
- Inmate Example's Annual Review was held early on 9-25-04:
 - Rev Per Beg Date 4-12-04
 - Rev Per End Date 10-11-04
- Inmate Example paroled on 12-22-04
- Returned to CDC as a PVWNT on 3-16-05

Inmate Example's CDC Form 841 Readmission Review Period Calculation is:

- Date Paroled: 12-22-04
- Rev Per Beg Date: 10-12-04 =

Partial Review Period in custody of 2 months 10 Days

61020.20.3 Favorable Behavior Since Last Review

This Section shall be used for recording and calculating in custody favorable behavior points.

- The inmate is eligible to be considered for the full value of Favorable Behavior points for each Six Month Review Period in custody.
- The inmate is eligible to be considered for one-half of the Favorable Behavior points for a partial review period that totals less than 6 months in custody.

Favorable points are to be considered for each six-month review period and/or partial review period in custody for the categories noted below.

- Favorable behavior points are to be considered only when the favorable behavior being evaluated occurred in custody during, and includes, the review period dates recorded in the Readmission Review Period Calculation section of the CDC Form 841 score sheet.
- There is no such thing as a "partial" Partial Review Period.

Continuous Minimum Custody (Boxes 48-49)

Consider the inmate's eligibility for favorable behavior points for the Continuous Minimum Custody category when the Minimum Custody status being evaluated occurred during, and includes, the review period dates recorded in the Readmission Review Period Calculation section of the CDC Form 841 score sheet.

Apply favorable behavior points for the Continuous Minimum Custody category when the inmate is assigned Minimum Custody for every day of the six-month review period or partial review period being evaluated. To evaluate this item, review CDC Form 128-Gs.

When the inmate's Minimum Custody assignment is interrupted during the six-month review period or partial review period being evaluated, through no fault of the inmate, apply favorable points only for that interrupted six-month review period or partial review period.

Unless the inmate was reassigned Minimum Custody on the first day of, or prior to, a subsequent Review Period Beginning Date, do not apply favorable

Form Identification (Boxes 27-35)

At the top of the CDC Form 841, three blank boxes are labeled "New", "Correction", and "Delete." Print an "X" in the appropriate box.

- Print an "X" in the "New" box (Box 27) if a new CDC Form 841 is being prepared.
- Print an "X" in the "Correction" box (Box 28) if the form is being completed as a correction to a previously submitted CDC Form 841. Enter the date of the correction in Boxes 29-34.
- Print an "X" in the "Delete" box (Box 35) when a previously submitted CDC Form 841 was completed for an inmate in error and is to be deleted.

Additional information regarding preparation of "correction" and "deletion" documents is provided in DOM §§ 61020.20.9 and 61020.20.10.

61020.20.2 Readmission Review Period Calculation

Within the Readmission Review Period Calculation section of the CDC Form 841, capture the inmate's most recent period of incarceration prior to his or her last parole.

The most recent period of incarceration is defined as that time period between the date that the inmate last paroled and the inmate's Review Period Beginning Date.

After an inmate has been scored on a CDC Form 841, each subsequent readmission period shall be captured on a separate CDC Form 841.

Identification Of Review Period(s) Not Previously Addressed

Date Paroled (Boxes 36-41)

Enter the date, month/day/year, that the inmate last paroled from the CDCR. A zero need not be entered in front of a single digit number for the month or day. Enter a zero as part of the two digits for the year when applicable.

Review Period Beginning Date (Boxes 42-47)

Enter the Review Period Beginning Date, month/day/year. A zero need not be placed in front of the month or day, but must be placed in front of the year when appropriate.

- The Review Period Beginning Date is the date that the inmate's review period would have begun had the inmate remained in custody. The Review Period Beginning Date is the most recent Review Period Ending Date plus one day.
- However, if Review Period Dates have not already been established, then the inmate's Review Period Beginning Date is either the date received at the reception center in the last incarceration or the first day of the last month considered for favorable behavior points, whichever is the most recent.
- An inmate's partial review period is a period of less than six months in custody as measured between and including the Review Period Beginning Date and the Date Paroled.

behavior points for any six-month review period or partial review period beyond the interrupted period.

If the inmate was housed in another jurisdiction during a six-month review period or partial review period being considered, the counselor shall review the documents provided by the agency to determine if favorable points are appropriate. Favorable points shall be applied if documentation of assignment to Minimum Custody is provided by the agency.

Apply four (4) favorable behavior points for each six-month review period for which the inmate qualifies.

For less than a full six-month review period (partial review period), apply two (2) points for favorable behavior.

No Serious Disciplinary (Boxes 50-51)

Consider the inmate's eligibility for favorable behavior points for the No Serious Disciplinary category when the behavior being evaluated occurs during, and includes, the review period dates recorded in the Readmission Review Period Calculation section of the CDC Form 841 score sheet.

Apply favorable behavior points when the inmate is in custody and has not committed a serious disciplinary violation during any day of the six-month review period or partial review period being evaluated. In order to be held accountable for a serious disciplinary violation, the inmate must have been found guilty of behavior identified as serious per CCR § 3315.

Apply favorable behavior points for the No Serious Disciplinary category even though the inmate was incarcerated in another correctional agency (e.g., county jail, state or federal institution) during the review period or partial review period being evaluated and there is no evidence or documentation of serious disciplinary behavior.

Upon evidence of serious disciplinary behavior, the documentation shall establish that the inmate was determined to be guilty of conduct described as serious per CCR § 3315 in order to disqualify the inmate for consideration of favorable behavior points for the six-month review period or partial review period being evaluated.

Apply two (2) favorable behavior points for each six-month review period for which the inmate qualifies.

For less than a full six-month review period (partial review period), apply one (1) point for favorable behavior.

Average or Above Performance in Work, School, or Vocational Program (Boxes 52-53)

Consider the inmate's eligibility for favorable behavior points for the Average or Above Performance in Work, School, or Vocational Program category when the Average or Above Performance status being evaluated occurs during, and includes, the review period dates recorded in the Readmission Review Period Calculation section of the CDC Form 841 score sheet.

Consider favorable behavior points for the Average or Above Performance category only when the inmate was assigned to a work incentive assignment and reporting on the first day of, or prior to, the first day of the six-month review period or partial review period being evaluated.

When the inmate's work, school, or vocational program assignment is interrupted during the six-month review period or partial review period being evaluated, through no fault of the inmate, consider favorable points if otherwise eligible only for that interrupted six-month review period or partial review period. Do not apply favorable behavior points beyond the interrupted six-month review periods unless the inmate again reports to a work incentive assignment on the first day of, or prior to, a subsequent Review Period Beginning Date.

An unassigned inmate who received an assignment from the inmate assignment office during a lockdown period, but has been unable to report to that assignment due to the lockdown, is not eligible for favorable behavior points for the Average or Above Performance category for the six-month review period or partial review period being considered.

Favorable points are not applied for an inmate not assigned to a program.

Once assigned, an inmate continues to earn Work Incentive Credit. Eligibility for favorable behavior points is based on performance and requires participation in a program.

Consider favorable behavior points for an inmate reassigned or continued in a work, school, or vocational program who reports to a work, school, or vocational program on the first day of, or prior to, a subsequent Review Period Beginning Date.

Combine part-time assignments during the same review period which, when work/program hours are added together, are equivalent to a full-time assignment.

To determine eligibility for favorable points, review CDC Form 128-Gs, CDC Form 101, Work Supervisor's Report, or CDC Forms 128-D, E, and F, Chrono-Education/Vocational.

If the inmate was housed in another jurisdiction during the six-month review period or partial review period being evaluated, consider favorable behavior points only if documentation of an assignment is provided by the agency. Review the documents provided by the agency to determine if favorable behavior points are appropriate.

If staff in the CDCR or another agency did not document the inmate's performance and the inmate continued to be assigned, continued to report to the assignment and there is no disciplinary documentation, apply favorable behavior points for the six-month review period or partial review period. In the absence of staff documentation of the inmate's performance, apply favorable behavior points liberally. In other words, an isolated record (e.g., a CDC Form 128-A, Custodial Counseling Chrono) and no other indication of less than average performance shall not preclude the application of favorable behavior points for the six-month review period or partial review period.

Apply two (2) favorable behavior points for each six-month review period if the inmate's performance was rated "average" or "above average."

For less than a full six-month review period (partial review period), apply one (1) point for favorable behavior.

Six-Month Review Periods

Six-month review periods are established as a standard period of time to measure behavior warranting favorable behavior points.

An inmate's six-month review period is identified by the six-month period of time between and including the Review Period Beginning Date and the Review Period Ending Date.

Partial Review Period

A partial review period is a period of time in custody that totals less than six months between and including the review period beginning date and the date paroled. Apply half the full value of favorable behavior points for a Partial Review Period when evaluating Favorable Behavior Since Last Review on the CDC Form 841.

Interrupted Period

An "interrupted period" is a six-month review period or partial review period that is interrupted on or after the Review Period Beginning Date by a change to the inmate's assignment to Minimum Custody and/or the inmate's performance in a Work, School, or Vocational Program.

"Through No Fault of the Inmate" as it pertains to an Interrupted Period

"Through no fault of the inmate" as it pertains to an interrupted period, is a situation which disrupts the inmate's assignment, custody, or placement, based on a decision outside of the inmate's control and the circumstances of the interruption are not within the responsibility of the inmate.

- Examples of "through no fault of the inmate" are:
 - The inmate is transferred out to court.
 - The inmate is placed on 'S' time pending parole.
 - The inmate is placed in administrative segregation pending investigation and/or disciplinary action and later released with no finding of guilt.
 - The inmate is housed in a MSF and learns of a death in the family. Staff re-houses the inmate in a more secure facility pending evaluation of the inmate's escape potential.
- Examples of interruptions that are the fault of the inmate:
 - The inmate comes to staff and asks to be "rolled up" to administrative segregation. The inmate explains that he has a drug debt that he can't pay and stated that he can't stay in the general population.
 - The inmate has become disruptive in school and is removed from his assignment by a classification committee.

Total Favorable Points (Item C4)

Total the points for C1 through C3 and enter the number. Note that it is a negative value.

61020.20.4 Unfavorable Behavior Since Last Review

Unfavorable behavior points shall be assessed at full value.

Locate the disciplinary section of the C-file and note if the inmate was found guilty of misbehavior rated as "serious" rather than "administrative." In the space provided, write the date of the disciplinary report for all "serious" disciplinary reports that have not been included in or since the last review.

This includes serious disciplinarys received at the RC while undergoing RC processing.

When recording Unfavorable Behavior Since Last Review, the documentation shall establish that the inmate was determined to be guilty of conduct described as “serious” per the CCR § 3315. Such behavior may be documented by means other than a CDC Form 115. For example, an assault on another inmate in jail shall be documented by a report from the sheriff.

Unfavorable behavior points are to be recorded when the unfavorable behavior being evaluated occurred in custody on or between any of the inmate's previous six-month review period dates and/or current or previous Readmission Review Period Calculation dates.

Therefore, when it is determined that the serious disciplinary behavior did occur between established review period dates and the disciplinary has not been recorded on a prior score sheet, enter the disciplinary on a new CDC Form 840 or CDC Form 841 outside of the review period dates recorded on that score sheet.

Serious Disciplinarys (Boxes 54-71)

The counselor shall apply eight (8) points for a guilty finding for a Division A-1 or A-2 offense in Boxes 54-55.

The counselor shall apply six (6) points for a guilty finding for a Division B, C, or D offense in Boxes 56-57.

The counselor shall apply four (4) points for a guilty finding for a Division E or F offense in Boxes 58-59.

Count the number of disciplinarys and multiply by the appropriate point value and enter the total in the appropriate boxes. The maximum number of points to be assessed for each individual category is 99.

A single disciplinary may result in the assessment of points under several different categories. If the inmate was found guilty of the described behavior, enter the date of the disciplinary and assess the points associated with that behavior.

When the behavior in an incident falls under more than one category, apply points for each appropriate category. For example, if the inmate is found guilty for battery on another inmate with a deadly weapon causing serious injury, that one act shall be noted on the CDC Form 841 as follows:

- Item D1, Division A-1 offense =8 points
- Item D3, Battery on an Inmates =4 points
- Item D6, Possession of a Deadly Weapon =16 points
- Item D7, Battery Causing Serious Injury =16 points

For this serious disciplinary, the inmate is assessed a total of 44 points.

Example: If a CDCR inmate, while in the county jail, is found guilty of distribution of drugs (trafficking narcotics), he shall be assessed points as follows:

- Item D1, Division A-2 offense = 8 points
- Item D4, Distribution of Drugs = 4 points

For this serious in-custody offense, the inmate is assessed a total of 12 points.

Battery or Attempted Battery on a Nonprisoner (Boxes 60-61)

Include any battery on a nonprisoner or attempted battery on a nonprisoner.

Count the number, multiply by eight (8), and enter the total.

Battery or Attempted Battery on an Inmate (Boxes 62-63)

Include any battery on an inmate or attempted battery on an inmate.

Do not include mutual combat where both inmates were co-responsible.

Include situations where one or more inmates is clearly the victim. Usually results in some injury that may involve a group attack or some type of weapon.

Count the number, multiply by four (4), and enter the total.

Distribution of Drugs (Boxes 64-65)

This refers to inmates who are involved in an operation to smuggle any controlled substance into an institution, facility, or jail for distribution and sales.

Do not count a disciplinary determination in which the inmate was found or pled guilty to possessing a small quantity of drugs or being under the influence.

Count the number, multiply by four (4), and enter the total.

Possession of a Deadly Weapon (Boxes 66-67)

Include only well-documented instances of manufacturing or possessing a deadly weapon where apparent use is intended.

- Except as noted below, do not include possession of commonly available and unmodified objects unless they are used as weapons and this fact is documented in the disciplinary hearing process. For example, hobby craft tools, common shop tools, and baseball bats are not considered deadly weapons unless their use, or intent for use, as such is clear. Include possession of a razor blade in a special program housing unit (e.g., Ad Seg Unit, SHU, Psychiatric Services Unit).

Count the number, multiply by sixteen (16), and enter the total.

Inciting a Disturbance (Boxes 68-69)

Typically this involves a leadership role in an institution/facility riot, racial disturbance, or work strike.

Include any willful and deliberate behavior, which may have led to violence or disorder and any willful attempt to incite others, either verbally or in writing, or by other deliberate action to use force or violence upon another person of the type described in the CCR § 3005.

Count the number, multiply by four (4), and enter the total.

Battery Causing Serious Injury (Includes Conspiracy) (Boxes 70-71)

Include any battery that caused serious injury.

Inmates who conspired in, or ordered such an assault shall receive the same points.

Serious injury is defined in CCR § 3000.

Count the number, multiply by sixteen (16), and enter the total.

Total Unfavorable Points (Item D8)

Add the points for items D1 through D7 and enter here.

A serious disciplinary, not previously recorded, can be entered on the CDC Form 841 even when the date of disciplinary falls outside of the period of time recorded in the Readmission Review Period Calculation section of the CDC Form 841.

61020.20.5 Computation Of Score

Prior Preliminary Score (Boxes 75-77)

The Prior Preliminary Score will be found on the most recent classification score sheet:

- If the CDC Form 839 is the most recent score sheet, enter the Preliminary Score value as recorded in Boxes 65-67.
- If the CDC Form 840 is the most recent score sheet, enter the New Preliminary Score value as recorded in Boxes 82-84.
- If the CDC Form 841 is the most recent score sheet, enter the New Preliminary Score value as recorded in Boxes 84-86.
- When an inmate's most recent classification score is recorded on a score sheet with a revision date prior to Rev. 07/02, enter that classification score as the Prior Preliminary Score.

Net Change in Score (Boxes 78-80)

Combine the Total Favorable Points (C4) and the Total Unfavorable Points (D8). The Net Change in Score can be a plus (+) or a minus (-) value. The maximum number of points that can be entered for the Net Change in Score on the CDC Form 841 is 99. If the Net Change in Score exceeds 99, prepare one or more CDC Form 840(s) to record remaining disciplinarys. If preparing more than one CDC Form 840 on the same date, enter a different date for each CDC Form 840 because the Inmate Classification Score System Database organizes data by the “Date Completed.” Enter the appropriate positive or negative sign in the first box and the total value in the remaining boxes.

Preliminary Score Subtotal (Item F3)

Enter the Preliminary Score subtotal on the line provided. The Preliminary Score subtotal is the prior Preliminary Score plus or minus the Net Change in Score.

This number can never be less than “0.”

Change in Term Points (Boxes 81-83)

If the inmate has been designated as an RTC, do not enter a value. This area is left blank for an inmate who has returned as a parole violator returned to custody for a parole violation only.

If a PVRTC later becomes a PVWNT, a correction to the CDC Form 841 is not necessary. Complete a new CDC Form 840 recording the change in term points, if any, as a result of this new term. Also, do not correct the CDC Form 839.

To determine the change in term points for a PVWNT:

- Identify the original Term Point (T/P) from the CDC Form 839 and from subsequent score sheets with information entered in the Change in Term Points box.

- Enter the prior Term Points value on the “- Old T/P” line on the score sheet.
- Use the Term Point equation of base term plus enhancements multiplied by two (2) to calculate New Term Points. Enter that value on the “+ New T/P” line on the score sheet.
 - This term point value cannot exceed 50.
- Determine the difference between the old term points and the new term points. Enter either a plus (+) or a minus (-) sign in Box 81 and the numeric difference in Boxes 81-83.

EXAMPLES:

An inmate is returned from parole as an RTC. The inmate goes out to court before completing RC processing and is sentenced to 3 years. His original CDCR commitment had been 4 years. The adjustment to the Change in Term Points area of the CDC Form 841 is calculated as:

- Old Term Points: - 8
- New Term Points: (3 yrs X 2) + 6
- Change in Term Points = - 2

An inmate is returned from parole as a PVWNT. She is given an 18-month sentence (1 year 6 months). Her original term was 8 years.

- Old Term Points: - 16
- New Term Points: (1 yrs X 2) + 2
- Change in Term Point = - 14

New Preliminary Score (Boxes 84-86)

Add or subtract the Change in Term Points value from the Preliminary Score Subtotal and enter that value in Boxes 84-86. The maximum value for the New Preliminary Score is 999. The New Preliminary Score cannot be less than zero nor greater than 999.

61020.20.6 Placement

Mandatory Minimum Score Factor:

A Mandatory Minimum Score Factor is a case factor that requires the application of a Mandatory Minimum Score.

Mandatory Minimum Score Factor Code (Box 87)

A Mandatory Minimum Score Factor Code is an alpha code associated with a Mandatory Minimum Score Factor.

- If an inmate has a case factor that requires the application of a Mandatory Minimum Score Factor Code, enter the code that applies in Box 87. If more than one case factor applies, enter the code that appears first on the list.
- Document the RC justification for applying a Mandatory Minimum Score Factor Code in the CDC Form 816 or ISRS, as applicable. When the Mandatory Minimum Score Factor is applied other than in the RC, justify application in a CDC Form 128-G.
- If eligibility for a Mandatory Minimum Score Factor Code requires further consideration, refer to DOM § 61020.19.7.
- Absent overriding security or safety considerations, inmates pending case-by-case evaluation to determine eligibility for a Mandatory Minimum Score Factor Code shall not be transferred, except from the RC, until the application of a Mandatory Minimum Score Factor Code is resolved.
- Determine if one or more of the case factors listed below apply to the inmate. If no factors apply, proceed to the instructions for Placement Score.
- Prepare a new CDC Form 840 score sheet to record a change in or removal of a Mandatory Minimum Score Factor Code.

Mandatory Minimum Score Factor Codes and Scores

<u>CODE</u>	<u>FACTOR</u>	<u>SCORE</u>
[A]	Condemned	52
[B]	Life Without Possibility of Parole	52
[C]	CCR 3375.2(a)(7) Life Inmate	28
[D]	History of Escape	19
[E]	Warrants “R” Suffix	19
[F]	Violence Exclusion	19
[G]	Public Interest Case	19
[H]	Other Life Sentence	19

Specific Criteria for Applying Mandatory Minimum Score Factor Codes:

- **A. Condemned.** Apply Mandatory Minimum Score Factor Code A to inmates sentenced to death.
- **B. Life Without Possibility of Parole.** Apply Mandatory Minimum Score Factor Code B to inmates sentenced to LWOP.
- **C. CCR 3375.2(a)(7) Life Inmate.** Apply Mandatory Minimum Score Factor Code C to life-term inmates who are excluded from placement in Levels I or II based on any of the following factors per CCR § 3375.2(a)(7):

- The commitment offense involved multiple murders, unusual violence, or execution-type murders or received high notoriety. Each of these factors is defined in CCR § 3000.
- The inmate has a history of multiple walkaways, an escape from a secure perimeter, or an escape with force or threat of force.

A classification committee shall determine the initial application of this Mandatory Minimum Score Factor Code C. The Unit Classification Committee shall refer more complex cases to the Institutional Classification Committee as needed.

Justification in the ISRS shall address the specific element(s) of the inmate’s commitment offense that substantiates the application of Mandatory Minimum Score Factor Code C, which precludes Level II placement, as opposed to Mandatory Minimum Score Factor Code F or Mandatory Minimum Score Factor Code H.

- **D. History of Escape.** Apply Mandatory Minimum Score Factor Code D for those case factors listed below. This code is not to be used to assess risk factors for escape involving any other offenses; (i.e., the sale or possession of large quantities of narcotics).

- Apply to an inmate with any history of escape from within a secure perimeter or attempted escape from within a secure perimeter, whether or not force was used. This inmate is permanently excluded from minimum custody placement.
- Apply to an inmate who has a conviction for, or whose commitment offense includes, Escape with Force or Attempted Escape with Force from any correctional setting or armed escort. This inmate is permanently excluded from minimum custody placement.
- Apply to an inmate who verbalizes that he or she is going to escape and/or states he or she does not wish MSF placement because he or she will be tempted to escape/walkaway, is permanently excluded from minimum custody/MSF/camp placement.
- When applying the ten-year exclusion criteria in reference to the following escapes or walkaways, use the date of conviction. If the escape did not result in a conviction, use the date of apprehension. In a case where there is no escape conviction and the date of apprehension is unknown, use the date of the escape, attempted escape, or walkaway.
- Apply to an inmate who has a history of (one or more) walkaways without force from a nonsecure perimeter facility setting (such as camp, MSF, county road camp, etc.). The inmate is ineligible for minimum custody placement, camp, or MSF for ten years.
- Apply to an inmate with a pattern of (two or more) walkaways from CCRC within the last 10 years. These inmates are excluded from minimum custody for 10 years.
- Apply to an inmate who has a walkaway from CCRC that resulted in a court conviction for Escape within the last ten years. The inmate is ineligible for minimum custody for 10 years.

- **E. Warrants “R” Suffix.** Apply Mandatory Minimum Score Factor Code E when the “R” suffix has been affixed to the inmate’s custody. Criteria for the “R” suffix are provided in CCR § 3377.1(b)(1) and DOM § 62010.4.3.1. Do not apply Mandatory Minimum Score Factor Code E for a case pending an evaluation.

- **F. Violence Exclusion.** Apply Mandatory Minimum Score Factor Code F when an inmate has a current or prior conviction for a violent felony or a sustained juvenile adjudication including, but not limited to, those listed under PC § 667.5(c) that does not require “case-by-case” consideration.

- A sustained juvenile adjudication is a guilty determination or ruling rendered in a juvenile judicial proceeding.
- An administrative determination regarding an allegation of a violent act including, but not limited to, those offenses described in PC § 667.5(c), has the same force and effect as a current or

prior conviction for a violent felony or a sustained juvenile adjudication:

- Board of Parole Hearings good cause finding, or
- California Youth Authority/Youthful Offender Parole Board sustained allegation, or
- A probation violation finding in a court of law.
- Do not apply the Mandatory Minimum Score Factor Code F pending case-by-case evaluation.
- **G. Public Interest Case.** Apply Mandatory Minimum Score Factor Code G when the CSR has determined that the inmate is a public interest case pursuant to CCR §§ 3000, 3375.2(b)(20) and DOM § 62010.4.3.3. Staff shall refer any potential public interest cases to a CSR for determination and endorsement as a public interest case.
- **H. Other Life Sentence.** Apply Mandatory Minimum Score Factor Code H for an inmate serving any current life sentence commitment whose case factors are not already addressed by another mandatory minimum score factor code. This inmate is excluded from consideration for placement in a minimum custody setting until a release date is granted by the BPH. The granting of a release date by the BPH does not result in the automatic removal of Mandatory Minimum Score Factor Code H.

Mandatory Minimum Score (Boxes 88-89)

A Mandatory Minimum Score is a numerical value identifying the least restrictive security level for an inmate who has a case factor that requires that he/she be housed no lower than a specific security level.

When the Mandatory Minimum Score Factor Code is applied, enter the corresponding point value in the field labeled Mandatory Minimum Score, Boxes 88-89.

If more than one factor applies, enter the code that appears first on the list in Box 87 and enter the corresponding numeric value in Boxes 88-89.

Placement Score (Boxes 90-92)

If there are no case factors that require the application of a Mandatory Minimum Score Factor Code, enter the New Preliminary Score as the Placement Score.

If a Mandatory Minimum Score has been applied, enter the Mandatory Minimum Score or the New Preliminary Score, whichever is greater.

The Placement Score is one of the factors used to determine the security level to which the inmate is assigned.

61020.20.7 Special Case Factors

This provides the opportunity to alert classification staff to special concerns, which should be considered in placement or program assignment.

Begin by reviewing the CDC Form 839, prior CDC Form 840s, and CDC Form 841s for special case factors identified by counselors or CSRs, which need to be evaluated. Next, review relevant chronos and other documentation for any recent concerns. Information entered in this Section is only current information.

Holds, Detainers and Warrants (Boxes 93-94)

Review all relevant documents and the "Detainers" section of the C-file for holds. This item requires careful evaluation regarding the seriousness of the hold and the likelihood that the jurisdiction will exercise the hold at the end of the sentence. The importance of the hold for classification is the extent to which the prospect of an additional term to serve may motivate the inmate to escape.

- Holds, Detainers, and Warrants for felony charges or USINS are coded "P" for potential or "A" for actual.
- Code only those holds which are likely to result in an additional prison sentence or deportation. Exclude simple holds for probation only or parole violation where the commitment offense is the basis for the violation.

After the CDC Form 841 has been submitted, record holds as follows:

- When a potential USINS hold is identified, prepare and submit a new CDC Form 840 to OISB.
- Prepare a new CDC Form 840 identifying a potential or actual hold if, as a result of classification committee review, the inmate is referred to the CSR or C&PR for more restrictive placement.
- If the inmate's placement is not impacted by the identification of a potential (other than a potential USINS hold) or actual felony hold, prepare a new CDC Form 840 recording the potential or actual hold at the inmate's annual classification committee review or at the inmate's

next classification committee review requiring the completion of a score sheet, which ever comes first.

Restricted Custody Suffix (Box 95)

Enter an "R" in the box if a restricted custody suffix is to be applied pursuant to DOM § 62010.4.3.1.

Eligible for Restitution Center (Box 96)

The Restitution Center program allows inmates who meet program criteria to work in the community and repay their victims for monetary losses. Inmates are eligible for placement in the Restitution Center program pursuant to PC § 6228. Inmates are eligible for placement consideration if they meet the following criteria:

- Have agreed or been ordered by the court to make financial restitution to a crime victim.
- Have not served a prison term within the five years prior to the present conviction.
- Do not have a criminal history of a conviction for the sale of controlled substances.
- Do not have a criminal history of a conviction for a crime involving violence or sex.
- Received a sentence of 36 months or less.
- Present no unacceptable risk to the community.
- Are employable.

Inmates from any county are eligible for placement if they meet the criteria.

A court ordered restitution to the victim, whether payable to the court, directly to the victim, or in any other manner, qualifies an inmate to participate. A restitution fine constitutes financial restitution to a crime victim; therefore a restitution fine meets the criteria for Restitution Center placement.

There are no medical staff assigned to the Restitution Center. However, an inmate who is otherwise eligible for placement in a restitution center who requires regular monitoring/intervention by medical personnel may be considered if medically cleared on a case-by-case basis.

In Box 96 enter a "Y" for "yes" if the inmate is eligible or enter "N" for "no" if the inmate is ineligible. This is a one-time entry for the duration of the inmate's CDC Number unless the inmate's eligibility changes from "Y" to "N." If this information has already been entered on a score sheet, it is not necessary to enter it again.

Level IV Design (Item H4)

180 Status. If a male inmate has a Level IV Placement Score, the counselor shall make a determination regarding the exclusion of the inmate from a Level IV 270-design institution. If an inmate meets the guidelines for exclusion from a Level IV 270-design prison, the counselor shall print the capital letter "Y" on the line provided.

If the male inmate has a Level IV Placement Score, but does not meet the guidelines for exclusion from a 270-design institution, the counselor shall print an "N" on the line provided.

Reason Code. If a "Y" was entered on the "180 Status" line provided, the counselor shall then enter the "Reason" code on the line provided that describes the reason for exclusion from a Level IV 270-design institution based on the established guidelines.

The counselor shall enter the code that describes the reason for exclusion from a Level IV 270-design institution based on the established guidelines per DOM § 61010.11.6.

US Armed Forces (Box 97)

Print a "Y" if the inmate answers "Yes" to the following question: "Have you ever been a member of the US Armed Forces and were you honorably discharged?" If the inmate answers "No" enter "N." After a response has been documented on the CDC Form 839, CDC Form 840, or CDC Form 841, it is not necessary to address the issue again.

Current Institution and Facility (Boxes 98-104)

Print the two, three, or four-letter abbreviation of the RC in the Boxes 98-101. Print RC or the security level in Boxes 102-104 referring to the facility where the case is presented to a CSR for placement. Inmates may go through an RC, but actually be processed at an institution. Also, out-of-state inmates may be delivered directly to an institution. In such cases, enter the abbreviation for the institution where the processing takes place. Refer to DOM § 61020.19.8 for abbreviations.

Return Status (Boxes 105-107)

Print RTC for an inmate who is a Parole Violator Returned to Custody. Enter WNT for an inmate who is a Parole Violator With a New Term. If an inmate

is received as an RTC and the inmate’s status changes to a WNT after the CDC Form 841 is endorsed, do not submit a correction to correct these boxes.

Caseworker Name (Boxes 108-116)

The counselor shall print his or her last name and first initial in the boxes in capital block letters, indicating that the CDC Form 841 is accurate and complete.

61020.20.8 CSR Action

This Section is to be completed only by a CSR or a staff member specifically authorized to act in that capacity.

The DPU process also allows the reception center CCIII or designated CCII staff to approve placement of a PVRTC inmate.

Last Name (Boxes 117-124)

The CSR or authorized staff shall print the first eight letters of his or her last name in CAPITAL BLOCK letters in the space provided.

Date of Action (Boxes 125-130)

Enter the number of the month, the day, and the last two digits of the year in which the action is taken. A zero need not be placed in front of a single digit month or day, but must be printed if part of the two digits identifying the year when applicable.

Level IV Design (Boxes 131-133)

180 Status. If a male inmate has a Level IV Placement Score, the CSR shall make a determination regarding the exclusion of this inmate from a Level IV 270-design institution. If the inmate meets the guidelines for exclusion from a Level IV 270-design prison, the CSR shall print the capital letter “Y” in the Box 131.

Reason Code. If a “Y” has been entered in Box 131, the CSR shall enter the reason code in Boxes 132-133 that describes the reason for exclusion from a Level IV 270-design institution based on the established guidelines. Refer to DOM § 61010.11.6, Special Case Factors, to determine the appropriate Reason Code.

The counselor’s evaluation regarding a male inmate’s exclusion from a Level IV 270-design institution shall be recorded in the Special Case Factors area of the score sheet.

Minimum Custody (Boxes 134-137)

Eligibility. The CSR shall print the letter “E,” “L,” or “P” in Box 134 consistent with the findings recorded on the Minimum Custody Screening Form. Print the letter “E” in Box 134 to document that the inmate is eligible for minimum custody. Print the letter “L” in Box 134 to document that the inmate is temporarily ineligible for minimum custody. Print the letter “P” in Box 134 to document that the inmate is permanently ineligible for minimum custody.

Reason Code. Print the code in Boxes 135-137 to identify the reason the inmate is either temporarily or permanently ineligible for minimum custody, for example, VIO, ESC, HOL, etc. If the inmate is eligible for minimum custody, print an “E” in Box 134. Do not enter a “reason code.”

If an inmate is permanently excluded from Camp due to Arson, but is otherwise eligible for minimum custody in an MSF, enter “P” in Box 134 and enter ARS for Arson in Boxes 135-137 to ensure that the inmate is not placed in a Camp.

CCRC Eligibility (Boxes 138-140)

The CSR shall enter the appropriate code for reentry eligibility in Boxes 138-140.

- Enter the letters REN in Boxes 138-140 if the inmate is eligible and wants to participate in CCRC.
- Enter the letters REX in Boxes 138-140 if the inmate is eligible for placement in CCRC, but does not want to participate in CCRC.

If the inmate is ineligible for CCRC placement, leave Boxes 138-140 blank.

DDP Code (Boxes 141-143)

The Developmental Disability evaluation is recorded on a CDC Form 128-C2. The CSR shall enter the most recent DDP code in the Boxes 141-143. The code is the designation assigned by clinical staff.

The C&PR has the authority to enter the DDP code only when there is a change from one DDP designation to another and the change does not require that the inmate be transferred to another institution.

For example: The C&PR has the authority to enter the DDP designation change from DDO to NDD or from DD1 to DD2 when the institution is designated to accommodate both DD1 and DD2 inmates.

DPP Code(s) (Boxes 144-155)

The CSR shall make every effort to endorse a case identified as DPP on the CDC Form 1845 (Section C) to an appropriate institution.

The first three boxes (Boxes 144-146) are to be used for the impacting DPP code that most affects the inmate’s placement. The CSR shall enter the appropriate DPP code in Boxes 144-146. If there are additional codes that impact placement, the CSR shall enter those codes in priority order in Boxes 147-155.

The CSR shall enter the non-impacting DPP codes assigned to the inmate in Boxes 147-155.

The C&PR or RC-CCIII has the authority to code the DPP designation of only inmates who have only non-impacting physical disabilities as identified in Section D of the CDC Form 1845. The C&PR or RC-CCIII shall enter a DPP code in Boxes 147-155.

Administrative Determinants (Boxes 156-170)

An inmate whose Placement Score falls within one of the following ranges shall be placed in an institution, which is designated at the security level indicated, unless a reason for administrative or irregular placement is specified:

Placement Score	Security Level
0-18	I
19-27	II
28-51	III
52+	IV

Appropriate inmate placement is determined by both Placement Score and unusual or special case factors. Some case factors affect placement because of administrative policy requirements. Policy determined factors are "administrative determinants" and placements based on these, in a facility which does not correspond to the inmate's Placement Score, are "administrative placements."

Space is provided to record up to five administrative determinants. Enter applicable administrative determinants. An administrative determinant identifies temporary or permanent case factors and alerts staff to safety and security considerations which may limit the inmate’s eligibility for placement. If there are not enough boxes to identify all applicable administrative determinants, give priority to those most related to custody and safety.

Record those determinants that are supported by documentation using the administrative determinant codes provided. If an administrative determinant code has already been entered as a Minimum Custody Reason Code (Boxes 135-137), it is not necessary to repeat that code here.

For example, enter the following for an inmate with an active "felony hold," a diagnosis of EOP, a heart condition requiring medical treatment, and a possible restricted "R" custody. Unless the medical condition is driving placement, the PSY is the primary concern. The CSR enters HOL only if the hold is active, is for a felony or USINS hold, and supporting documentation for the hold is in the file. An "R" suffix cannot be affixed pending evaluation. The CSR or authorized staff would therefore enter:

a)	b)	c)
P S Y	M E D	H O L

AGE. Inmate's youthfulness, immaturity, or advanced age should be given strong consideration in placement or program decisions.

ARSON. Current or prior conviction or a sustained juvenile adjudication, as defined in CCR § 3375.2(b)(25), or good cause finding ruling rendered in a BPH proceeding, a sustained allegation in DJJ/CYA or Youthful Offender Parole Board proceeding or a probation violation finding in a court of law for arson, which limits where the inmate may be housed.

BEHAVIOR. Inmate's behavior record indicates he or she is capable of successful placement at an institution level lower than that indicated by the inmate's Placement Score. Not to be used if the inmate is housed at a level higher than the inmate's Placement Score.

CAMP. Placement due to a shortage of camp qualified inmates. Enter CAM to identify an inmate who is eligible or potentially eligible for camp placement.

DEATH sentence. Inmate was formerly on death row or currently is sentenced to death.

DEPARTMENTAL review board. Special placement ordered by the Departmental Review Board.

DISCIPLINARY history. Inmate disciplinary record indicates a history of serious problems or threatens the security of the facility.

ENEMies. One or more persons under jurisdiction of the CDC has been documented on a Critical Case Information form (CDC Form 812 or CDC Form 812C) as an enemy. This should also be used when victimization is very probable due to case factors, such as where the nature of the offense will very likely create an enemy situation at certain institutions. Includes current PHU cases and those who are natural victims because of their appearance or commitment offense.

ESCApe potential. Unusual circumstances suggest the inmate is a much greater escape risk than indicated by his or her score. For example, the inmate verbalized intent to escape.

FAMily ties. Inmate has strong family ties to a particular area where other placement would cause an unusual hardship.

GANG involvement or affiliation. Documentation establishes that the inmate's membership or association requires special attention or placement consideration.

HOLD, warrant, or detainer likely to be exercised. Hold is active, verified to be in response of a felony or USINS hold, and substantiating documentation is in the C-File.

INActive. Documentation establishes that the inmate's inactive gang status requires special attention or placement consideration.

LIFe sentence. Apply LIF to identify an inmate serving a life sentence or life sentences.

MEDical. The inmate's medical condition requires treatment or continuing medical attention not generally available at all facilities.

OUT-to-court. Inmate needs to be housed in a particular facility in order to be close to a court jurisdiction where the inmate is required to testify in court or is being prosecuted. Includes situations where involvement in a court trial is anticipated because a disciplinary has been referred to the district attorney. Also, use this designation when a Board appearance is imminent.

POPulation pressures. Shall be used by CSR only. No beds presently exist at an institution with a security level indicated by the inmate's Placement Score.

PRErelease. The short time remaining to serve limits or otherwise influences placement or program options. This factor shall also be used when a release date is so close that transfer or starting a long-term program is not warranted and when a short release date warrants special placement or program consideration.

PSYchiatric. A psychological condition requires special treatment or may severely limit placement options. Includes Category B. Apply PSY to identify an inmate who requires placement in designated housing in accordance with a Developmentally Disabled Placement Code.

PUBLIC interest case. High notoriety of an inmate has caused public interest in the case and requires exceptional placement.

SCHool. Inmate is involved in an academic program, which is not available at an institution security level consistent with the inmate's Placement Score. Apply SCH to identify an inmate currently participating in a Substance Abuse Program who is being retained out of level to complete the Substance Abuse Program.

SEX. Inmate has a prior incidence of rape, oral copulation, sodomy, or a lewd and lascivious act, which requires restricted custody or placement.

SOR. Sexual orientation. Inmate's bisexual or homosexual orientation may require special placement.

TIME to serve. Inmate's time to serve is long, requiring placement at a facility with a security level higher than that indicated by the inmate's Placement Score.

VIOlence. Inmate has a current or prior conviction for a violent felony or a sustained juvenile adjudication including, but not limited to, those listed under PC § 667.5(c), which, as determined by the CSR, requires placement in a facility with a higher security level than that indicated by the inmate's Placement Score.

- A sustained juvenile adjudication means a guilty determination or ruling rendered in a juvenile judicial proceeding.
- In addition, the following administrative determinations regarding allegations of violent acts including, but not limited to, those offenses described in PC § 667.5(c), shall have the same force and effect as a current or prior conviction for a violent felony or a sustained juvenile adjudication:
 - BPH good cause finding, or
 - DJJ/CYA/Youthful Offender Parole Board sustained allegation, or
 - A probation violation finding in a court of law.

VOCational training. Inmate is involved in a vocational program, which is not available at a facility with a security level, which is consistent with the inmate's Placement Score.

WORK skills. Inmate has a work skill in a critical trade for which special placement consideration may be warranted. This should also be used to request or approve work crew placements.

Mental Health Level of Care (Box 171)

The CSR shall enter either a "C" for CCCMS or an "E" for EOP in Box 171 to identify the inmate's mental health LOC at the time of endorsement.

Institution Approved (Boxes 172-178)

Print initials of the institution or facility name in Boxes 172-175. Print the security level, subfacility designation, or program in Boxes 176-178. Enter only one letter or number in each box. Empty boxes should be to the right.

For example,

Sierra Conservation Center, Level I is recorded as:

S	C	C		I		
---	---	---	--	---	--	--

CSP, Solano, Level II is recorded as:

S	O	L		I	I	
---	---	---	--	---	---	--

California Institution for Men, Minimum is recorded as:

C	I	M		I		
---	---	---	--	---	--	--

California Correctional Center, Level III is recorded as:

C	C	C		I	I	I
---	---	---	--	---	---	---

Community Correctional Facility is recorded as:

C	C	F				
---	---	---	--	--	--	--

Endorsement to the Restitution Center is recorded as:

L	A			C	C	C
---	---	--	--	---	---	---

Reason For Administrative Or Irregular Placement (Boxes 179-181)

The CSR or authorized staff completes this item only if the security level approved is not commensurate with the inmate's Placement Score. If the level does not correspond, the authorized staff shall enter the reason for the administrative or irregular placement using the appropriate administrative determinant code to justify placement.

Some case factors affect placement because of administrative policy requirements. Policy-determined factors are "administrative determinants" and placements in a facility based on these, that do not correspond to the inmate's Placement Score, are "administrative placements."

There are also special case factors that, while not governed by policy, influence placement by determining program priorities. For example, the inmate's score level is reduced, but he or she is retained in a higher security level to complete academic or vocational training or to fill a skilled worker position or the population is such that no suitable bed at the inmate's security level is immediately available. When placement occurs under such circumstances, it shall be recorded as an "irregular" placement and justified by the application of a corresponding administrative determinant.

CSR Endorsement

A CSR endorsement shall remain effective for 120 days from the date of endorsement.

If an inmate is not transferred within 120 days from the date of CSR endorsement, the endorsed case awaiting transfer shall be again presented to a CSR prior to the 121st day for a 120-day extension of the endorsement if there is no change to case factors and the endorsement remains appropriate.

Each request for a 120-day extension of an endorsement shall be documented on a CDC Form 128-G and requires confirmation that the CCI and the CCII Supervisor audited the central file; updated the CDC Forms 840, 812, 812-C (if applicable); verified that case factors impacting the appropriateness of the CSR endorsement have not changed; and confirmed that the initial CSR endorsement remains appropriate. The CCI's review and CCII Supervisor's

authorization for endorsement extension shall serve as a classification action. The CCI and CCII shall sign and date the CDC Form 128-G.

The request for a 120-day extension of a CSR endorsement shall not require review by a UCC or ICC unless case factors change or other information is identified, which renders the CSR endorsement to be no longer appropriate.

An endorsed case awaiting transfer may be extended no more than twice beyond the initial 120-day period.

Upon discovery of information that a CSR endorsement is no longer appropriate, the institution shall not allow the transfer to occur. The case shall be referred for UCC or ICC, as appropriate, to determine appropriate placement. The UCC or ICC shall substantiate placement recommendation and refer the case for transfer consideration or retention in current placement.

61020.20.9 Correcting a Previously Submitted Score Sheet

Rules for making corrections to a score sheet with a form Revision

Date prior to Rev. 07/02.

Any score errors that are detected after the canary copy of the score sheet has been submitted to OISB require the following correction process. These rules apply only to a score sheet with a form revision date prior to Rev. 07/02:

Correct the Central File

- Annotate the original score sheet in the C-File. Line through the item or items to be changed and write the new information beside the appropriate box or boxes. Initial and date those notations. This provides central file documentation of the original and new values and changes on the score sheet.
- Continue to carry forward the correct score on any subsequent score sheets in the central file to show the correct score. Ensure that the correct score is carried forward when a new score sheet is needed.

Prepare a "Correction" score sheet:

When the score sheet to be corrected in the central file has a form revision date prior to Rev. 07/02, reference to the classification score is equivalent to the Preliminary Score. Follow these steps to correct the database:

- Begin with a blank score sheet. The blank score sheet must be the same type of score sheet as the one being corrected. For example, when a CDC Form 839 needs to be corrected, the "Correction" score sheet shall also be a CDC Form 839.
- Complete the Identifying Information section of this blank score sheet by entering the inmate's CDC Number and Inmate's Last Name.
- Enter the same date that appears on the original score sheet being corrected. For the CDC Form 839 it is the Date Received CDC. For the CDC Form 840 it is the Date of Current Review. (exception: Neither the CDC Number nor the Date of Current Review can be corrected. See DOM § 61020.20.10 and contact OISB to correct these fields.)
- Enter an "X" in the Box Item 5b, Form Identification, at the top of the score sheet.
- Enter the date that the score sheet is being corrected in the "Date Corrected" boxes directly to the right.
- For changes to score values in boxes in the Background Factors section, Prior Incarceration Behavior section, Favorable Behavior section, and Unfavorable Behavior section, enter the Total Correction for that score sheet, either negative or positive, in the Correction area of the CDC Form 839 or CDC Form 840 score sheet. On the CDC Form 839, it is Item C1. On the CDC Form 840 it is Item E1.
- Enter the correct Total Classification Score in the Preliminary Score boxes when preparing a correction document for a CDC Form 839.
- Enter the correct Prior Classification Score in the Prior Preliminary Score box and enter the Current Classification Score in the New Preliminary Score box when preparing a correction document for a CDC Form 840. (Note: On score sheets revised prior to 07/02, the Prior Preliminary Score is identified as the Prior Classification Score and the New Preliminary Score is identified as the Current Classification Score).
- Leave the Mandatory Minimum Score and Placement Score boxes blank.
- The name of the Current Institution and Facility may be entered.
- The Counselor's Name may be entered.

Submit the canary copy of the "correction" score sheet to:

Department of Corrections and Rehabilitation
Information Quality Support Section
P.O. Box 942883

Sacramento, CA 94283-0001

The green copy of the "Correction" score sheet is to be given to the inmate.

The original white copy of the "Correction" score sheet may be discarded.

Rules for making Corrections to a CDC Form 839, CDC Form 840, or CDC Form 841 with a form revision date of Rev. 07/02 or later.

Any errors that are detected after the canary copy of the score sheet has been submitted to OISB require the following correction process. These rules apply only to a score sheet with a form revision date of Rev. 07/02 or later:

Correct the Central File

- Annotate the original score sheet in the C-File. Line through the item or items to be changed and write the new information beside the box or boxes. Initial and date those notations. This provides central file documentation of the original and new values and changes on the score sheet.
- Continue to carry forward the correct Prior Preliminary Score and New Preliminary Score on any subsequent score sheets in the C-File to reflect the corrections made. Ensure that the correct score is carried forward if a new score sheet is completed.

Prepare a "Correction" score sheet:

When the score sheet to be corrected in the central file has a form revision date of Rev. 07/02 or later, follow these steps to correct the database:

- Begin with a blank score sheet. The blank score sheet must be the same type of score sheet as the one being corrected. For example, when a CDC Form 839 needs to be corrected, the "Correction" score sheet shall also be a CDC Form 839.
- Complete the Identifying Information section of this blank score sheet by entering the inmate's CDC Number and Inmate's Last Name.
- Enter the same date as the date that appears on the original score sheet that is being corrected. Exception: Neither the CDC Number nor the date field in the Identifying Information section of the score sheet can be corrected. See DOM § 61020.20.10 and contact OISB.
- Enter an "X" in the box Item 5.b, Form Identification, at the top of the score sheet.
- Enter the date that the score sheet is being corrected in the "Date Corrected" boxes directly to the right.

Correction rules only for a score sheet with a revision date of Rev. 07/02 or later:

- Enter only the values that need to be corrected in the box or boxes to be corrected. Leave the Correction area of the score sheet blank. Do not enter a value in this area.
- Record new values in boxes where information is new.
- Place an asterisk in a box where a letter is to be removed.
- Place a zero in a box where a numeric value is to be removed.
- Place zeros in all six date-field boxes for a date that needs to be removed. Exception, the date field in the Identifying Information section of the score sheets cannot be corrected. (see DOM § 61020.20.10.)
- To replace an incorrect date, other than the date of the original score sheet, enter the correct date in all of the date field boxes.
- Where there are several boxes for one field, an asterisk in the first box removes all.
- Always record the Preliminary Score when preparing a CDC Form 839 correction and record the Prior Preliminary Score and the New Preliminary Score when preparing a CDC Form 840 or 841 correction, even if there was no change in the score resulting from the correction.
- Leave the Mandatory Minimum Score boxes blank.
- Any changes to the Mandatory Minimum Score Factor Code and/or Mandatory Minimum Score shall be recorded on a "New" document as part of a regularly scheduled classification hearing. A "correction" document shall not be prepared.
- Leave the Placement Score boxes blank unless it is an item that is being corrected.
- The name of the Current Institution and Facility may be entered.
- The Counselor's name may be entered.
- A Change in Term Points is not recorded as a "Correction." Any Change in Term Points is recorded on a "New" CDC Form 840 or "New" CDC Form 841 as appropriate.

Submit the canary copy of the "correction" score sheet to:

Department of Corrections and Rehabilitation
Information Quality Support Section
P.O. Box 942883
Sacramento, CA 94283-0001

The green copy of the "Correction" score sheet is to be given to the inmate.

The original white copy of the "Correction" score sheet may be discarded.

61020.20.10 Deleting a Previously Submitted Score Sheet With a Revision Date of Rev. 07/02 or Later

If a score sheet with a revision date of Rev. 07/02 or later has been submitted to the database that has an erroneous CDC Number and/or Date in the Identifying Information section, it is necessary to prepare a "Delete" score sheet to remove the erroneous information.

Correct the Central File:

Annotate the original score sheet in the C-File. Line through the CDC Number and/or Date and write the new information beside the appropriate box or boxes. Initial and date those notations. This provides central file documentation of the original and new values and changes on the score sheet.

Prepare a "Deletion" score sheet:

Begin with a blank score sheet. The blank score sheet must be the same type of score sheet as the one being deleted. For example, if the CDC Form 839 is to be deleted, then use a CDC Form 839.

Complete the Identifying Information section of this blank score sheet by entering the inmate's CDC Number and Date as shown on the original score sheet being deleted.

Enter an "X" in the box Item 5c, Form Identification, at the top of the score sheet.

This will delete the entire score sheet from the database. It is not necessary to recopy any additional information as recorded on the original score sheet.

Submit the canary copy of the "Delete" score sheet to the address noted above.

Provide the green copy of the "Delete" score sheet to the inmate.

The original white copy of the "Delete" score sheet may be discarded.

Complete a "New" Score Sheet to Replace the Deleted Score Sheet

Complete a "New" score sheet filling in all of the correct information. This may also include endorsement information should the score sheet that was deleted contain that type of information.

Important: Any situation not described within the DOM §§ 61020.20.9 and/or 61020.20.10, contact the Classification Quality Assurance Unit in the Offender Information Services Branch in Sacramento for instructions.

61020.20.11 CDC Form 816, Reception Center Readmission Summary

The CDC Form 816, Reception Center Readmission Summary, shall be prepared for each parole violator who has been returned to custody with or without a new term, unless the new term is a Life term. This requires an ISRS. The Reception Center Readmission Summary shall also be completed for cases designated as DPU cases per DOM § 61020.20.

The following guidelines have been established for completing the CDC Form 816:

Identifying Information

Enter the inmate's CDC Number, Inmate's Name, last name and first name, and the Reception Center or Institution where the case is being prepared.

Parole Violator With New Term or Parole Violator Return to Custody

Enter an "X" in the box designating the inmate's return status. If the inmate has been designated as both an RTC and WNT, place an "X" in the box designating the status that determines the controlling release date.

WNT - New Commitment Offense.

- Enter the new commitment offense(s), description(s), and the number of counts.

RTC - Parole Violation Charge(s) and Commitment Offense(s).

- Enter the parole violation(s) for which Good Cause was found. List the most serious offense first.
- Enter the original controlling commitment offense.

Enemy Information/Confidential Information/Gang Information

CDC Form 812

- Enter an "X" in "Clear" if there is no enemy information or gang activity.

- Enter an "X" in "Noted" if there is gang activity, but no enemy information noted.
- Enter an "X" in "Updated" if there is enemy information and enemy location(s) have been updated.

Confidential Information

- Enter an "X" in "Clear" if there is no confidential information in the central file.
- Enter an "X" in "Noted" if there is confidential information in the central file, but no enemy information.
- Enter an "X" in "Updated" if there is enemy information in the confidential file and the enemy location(s) have been updated.

Gang Activity

- Document the name of the street gang/disruptive group/prison gang.

Holds/Detainers

Enter an "X" in "Clear" if there are no active holds, warrants, detainers, or timeservers in the central file.

Felony

- Enter Felony Hold, Warrant, or Detainer information here. Enter crime, agency information, bail amount, etc.
- If there is an active timeserver, enter the date that the timeserver expires.
- If there is a potential hold, warrant, or detainer, enter that information in the space provided. Provide a description of the charge for which the inmate may be wanted and from which jurisdiction. Include the source document from which the potential hold was identified.

Foreign Born

- Enter "No" or "Yes" to document whether or not the inmate is foreign born.

USINS

- Enter "P" or "A" to document if the inmate has a Potential or Actual USINS hold. It is not necessary to document the A# on the CDC Form 816.

Medical/Psychiatric

Medical

- Enter medical clearance (e.g., Full Duty/Camp). Abbreviations are appropriate.

Dental

- Enter the dental code as recorded on the CDC Form 128-C-1.

Tuberculosis Alert Code (TBAC)

- Enter the inmate's current TB code.

Developmental Disability Program (DDP)

- Enter the code that reflects the inmate's current DDP status per the most recent CDC Form 128-C-2.

Disability Placement Program (DPP)

- Enter No or the current DPP code(s), whether impacting or non-impacting, per the CDC Form 1845(s).

Psychiatric

- Enter "Clear" or MHSDS Level of Care (e.g., CCCMS).

Mentally Disordered Offender (MDO)

- Enter an "X" in "Clear" if there is no violence or threat of violence in the instant offense pursuant to PC § 2962.
- Enter an "X" in "Offense Only" if the inmate has a qualifying violent offense.
- Enter an "X" in "Referral" if the case is to be referred to the MDO Coordinator.

Escape History

Enter an "X" in "Clear" if there is no escape/walkaway history.

If escape/walkaway history exists:

- Enter the type of escape. Elements to be addressed include, but are not limited to:
 - With Force, Without Force, Walkaway.
 - From a Secure Facility or from a Non-secure Facility.
 - From Armed Escort or Fleeing an Officer.
- Enter whether it was an actual escape or attempted escape.
- Indicate whether or not the inmate was convicted.

- Enter the county where the escape/walkaway occurred.
- Enter the charge and disposition if available.
- Include the date of the escape/walkaway when available.
- Enter the source of the information.

Arson History

Enter an "X" in "Clear" if there is no arson history.

If arson history exists:

- Enter the type of arson and if injury occurred.
- Enter whether it was an actual arson or attempted arson.
- Indicate whether or not the inmate was convicted.
- Enter the county where the arson occurred.
- Enter the charge and disposition if available.
- Include the date of the arson when available.
- Enter the source of the information.

Sex Related Offenses

Enter an "X" in "Clear" if there is no history of sex related offenses.

If a sex-related offense history exists:

- Enter the type of offense.
- Enter whether or not the offense was attempted.
- Indicate whether or not the inmate was convicted.
- Enter the county where the offense occurred.
- Enter the charge and disposition, if available.
- Include the date of the offense when available.
- Enter the source of the information.

"R" Suffix

- Enter an "X" in "R Suffix" if an "R" suffix is warranted or has been imposed.
- Leave the "R Suffix" box blank if a review is needed. If review by UCC is recommended, explain in the "Hx" area of the form.

Sexually Violent Predator (SVP) Screened

- If the inmate is required to register per PC 290:
 - Enter an "X" in "Yes" if the screening has been completed.
 - Enter an "X" in "No" if the screening has not been completed.

Institutional Case Factors

Paroled From

- Enter the prison or facility from which the inmate last paroled.

Last Custody Level

- Enter the inmate's last designated custody level.

Prior Administrative Determinant

- Enter administrative determinant(s) applied during the prior incarceration.

Special Work Skills

- Record documented special work skills.

"S" Suffix (single cell required)

- Enter the word "None" if an "S" suffix is not required.
- Enter an "X" in "Affixed" if an "S" suffix has been affixed and enter the reason.

Serious Rules Violation Report

- Enter the word "None" or record any serious disciplinary in the inmate's current commitment. Identify any "Big 6 offenses" by date during any prior incarceration.
- The Big 6 Offenses include the following:
 - Battery or Attempted Battery on a Non Prisoner.
 - Battery or Attempted Battery on An Inmate.
 - Distribution of Drugs.
 - Possession of a Deadly Weapon.
 - Inciting a Disturbance.
 - Battery Causing Serious Injury.

Other Case Factors

- List any other case factors that may be important to note. For example, registration/notification requirements, computer crimes, DNA required, etc. Also list institution placement recommendations for DPP inmates.

Special Programs Screening

For MSF and Camp, enter an "X" to indicate "E," "L," or "P."

Where an "X" is entered to indicate "L" or "P," identify the reason for ineligibility on the line provided. Use abbreviations and/or administrative determinant codes.

For the other Special Programs listed, enter an "X" to indicate "E" for eligible or "I" for ineligible. Where ineligibility is noted, enter the reason.

Address CPMP eligibility for female inmates.

Placement Recommendation

Primary

- Enter the institution name and security level for the primary placement recommendation.

Alternate

- Enter an alternate recommendation by institution name and security level.

Inmate Concur

- Check the box if the inmate concurs with the recommendations.

Inmate Request if Different

- Record the inmate's requested placement if different from the primary and/or alternate recommendations.

CCI Printed Name/Signature and Date

- The Correctional Counselor shall print his or her first name or initial and last name and shall sign and date the form on the line provided.

CCII Printed Name/Signature and Date

- The Correctional Counselor II shall print his or her first name or initial and last name and shall sign and date the form on the line provided.

Concur With Recommendation/Disagree

- The Correctional Counselor II shall enter an "X" to indicate "Concur" or "Disagree" with the recommendations. If the CCII has indicated "Disagree," he or she shall enter the recommended institutions, security level, and reason for the recommendations.

61020.21 Revisions

The Director, Division of Adult Institutions, or designee shall ensure that the content of this Article is current and accurate.

61020.22 References

PC §§ 5054, 5058, and 5068.

CCR (15) §§ 3375 and 3378.

ARTICLE 3 — CUMULATIVE CASE SUMMARY

Revised October 31, 1990

61030.1 Policy

Inmates received by the Department shall be evaluated by staff upon reception and the cumulation of information and case material shall be formulated into the Cumulative Case Summary.

61030.2 Purpose

The cumulative case summary is a formal summation of information needed to make decisions about each inmate throughout their institution and parole period under the Department's jurisdiction.

General

The cumulative case summary is the result of the study required by PC 5068 prepared at the reception center. It provides a format to summarize changes in legal or case factors, program needs, behavior or attitude, and provides other necessary information throughout an inmate's incarceration. Information shall be limited to that which is necessary for case management decisions.

Cumulative Case Summary (Documents)

The cumulative case summary shall consist of the following documents:

- Legal Status Sheet (LSS), CDC Form 188.
- POR.
- CI&I SSCH Report.
- Psychiatric/psychological evaluation.
- Institutional Staff Recommendation Summary (ISRS).
- Reception Center Readmission Summary, CDC Form 816, (Readmission Summary).
- Social Factors Sheet.

61030.3 Distribution

When completed, the original cumulative case summary shall be retained in the inmate's C-File.

The inmate shall be provided a copy of the cumulative case summary, excluding the CI&I SSCH report and CDC Form 112, prior to initial classification.

61030.4 Style and Content

The cumulative case summary shall be a concise objective report using simple language with any necessary professional/technical terms explained. The cumulative case summary is a permanent record that is reviewed by other agencies and the courts, and as such it shall be prepared in a professional manner regarding content, grammar, spelling, punctuation and typing. With the exception of the CDC Form 816, Reception Center Readmission Summary case summaries shall be typed with all headings included. The preprinted CDC Form 816 shall be prepared in a legible handwritten manner.

61030.5 Completeness and Accuracy

The cumulative case summary shall be complete, accurate and brief, and contain all information that is important to the management of the individual. Sound, objective judgment is required, and all reasonable efforts shall be made to obtain and verify all information. When other documentation is used or quoted, the source/reference material shall be identified such as, "work skill as diesel mechanic, page 9 of the POR". Significant information that cannot be verified shall be noted as such.

Information Gathering

The inmate's consent shall be sought when gathering information from outside sources, although the Department may gather such information without consent.

CYA and CDC Discharged Terms Files

When reception center staff determine that an inmate has a CYA history within the last five years or a CDC discharged term, a request shall be made, as soon as possible, to send the discharged file(s). The counselor shall incorporate the information into the new C-file. Copies of documents may be incorporated as necessary but the actual documents shall not be removed from the discharged C-file(s). Following endorsement by a CSR, the discharged file(s) shall be returned to the archives unit or otherwise disposed of by the records personnel.

Other State or Federal Records

The casework follow-up section shall request the receiving institution to obtain records for any other state or federal prison terms served.

Format

The cumulative case summary shall be prepared and assembled in the proper format and order as described in this section.

61030.5.1 Chronological History (CDC Form 112)

The CDC Form 112, Chronological History, contains dates and other information on the inmate's arrival, transfer, release, BPT hearings, holds, and forfeiture and restoration of time credits.

61030.5.2 Legal Status (CDC Form 188)

CDC Form 188, Legal Status Sheet, contains the inmate's legal status and other sentencing information and shall be prepared at the reception center. Those inmates sentenced to life, life without the possibility of parole, or to one year-and-one-day will have CDC Form 188 prepared by the LPU in Headquarters.

61030.5.3 POR

The POR is the main source document for information on inmates committed to the Department. All relevant information shall be neatly underlined in dark ink. The POR is obtained from the court and is part of the commitment package.

61030.5.4 CI&I Report

The inmate's CI&I SSCH report shall be requested from State DOJ by the reception center. If not received before the inmate's transfer, it shall be forwarded to the receiving institution for proper inclusion in the inmate's C-file.

61030.5.5 Psychiatric/Psychological Evaluations

The Penal Code only requires psychiatric/psychological evaluations on cases convicted for child abuse or neglect (PC 3002). Other psychiatric/psychological evaluations shall be prepared when indicated by sound clinical judgment.

PC 1203.03 Diagnostic Evaluations

Reception center staff may prepare a psychiatric/psychological evaluation on cases received for diagnostic study under PC 1203.03. These evaluations shall be placed with the cumulative case summary in the C-file.

Staff Referral

Psychiatric/psychological evaluations shall be prepared for those inmates who, based on staff observation or information from other agencies, appear to have serious psychiatric/psychological problems likely to have a significant affect on institutional adjustment. Evaluations shall be recorded on a CDC Form 128-C, Medical/Psychological Chrono, and placed in the General Chrono section of the C-file.

BPT Psychiatric/Psychological Evaluations

Staff shall prepare psychiatric/psychological evaluations requested by the BPT. These evaluations shall be placed in the BPT section of the C-file.

Willful Cruelty to a Child (PC 3002) Psychiatric/Psychological Evaluations

Inmates convicted of PC 273a (Willful Cruelty Toward Child/Endangering Life, Limb or Health) and PC 273d (Inflicting Corporal Punishment Upon Child Resulting in Traumatic Injury) shall receive a psychiatric/psychological evaluation to determine the extent of counseling which may be mandated as a condition of parole as required by PC 3002. Referral to psychiatric/psychological staff shall be in sufficient time to allow the completed evaluation to be mailed with the CDC Form 611, Release Program Study. The evaluation shall be completed by reception center staff if the inmate is retained for work crew or pre-release.

Notice shall be made in the Psychiatric/Psychological and Casework Follow-up sections of the ISRS or Medical/Psychological section of the Readmission Summary when an evaluation is required under PC 3002.

61030.6 Institutional Staff Recommendation Summary (ISRS) Format

An ISRS shall be prepared about each newly committed inmate. In addition, an ISRS shall be prepared for parole violators returning with a new term of life imprisonment.

61030.6.1 Exceptions to ISRS Format

The ISRS for a pre-sentence diagnostic study case (PC 1203.03) shall be prepared in the same format except for the following:

- A criminal history section shall be included between the casework follow-up and the evaluation sections.
- The "EVALUATION" section shall include a recommendation to the court on PC 1203.03 cases. If the inmate is subsequently committed to the Department, the "TRANSFER" part of the ISRS shall be included along with a supplementary evaluation reflecting any significant changes since the diagnostic evaluation.

61030.6.2 ISRS Section Contents

Revised September 25, 2007

Supplemental ISRS Report

If the inmate is subsequently committed to the Department, a report entitled "Supplemental ISRS Report" shall be completed to show any significant changes since the diagnostic evaluation and to complete the transfer section.

Source of Report

The format of the ISRS and the content of each section shall be as follows:

- List the sources from which the report is prepared such as inmate interview, POR or old C-file.
- Include the date the inmate was interviewed and the date of each document.

Confidential Information

If there is no information requiring placement in the Confidential Materials Folder indicate "None". If there is confidential information specify the type by using one of the following designations:

- Enemy;
- Gang;
- Notification of interested party; or,
- Other.

Holds/Detainers

Identify each actual and potential hold by indicating the offense and Code Section, whether felony, misdemeanor, or probation violation and the County originating the hold. If the hold is for USINS, indicate the country of birth. If there is a potential hold, the counselor shall insure that a CDC Form 850, Detainer Summary, is completed. If a "time server" or concurrent sentence is indicated, list the expiration date. If it is for a consecutive term, indicate the offense and term. Holds received by reception center staff after the inmate's

transfer shall be telephonically communicated to the receiving institution and forwarded by mail.

Medical/Dental

Record the level of duty assignment and any significant medical problems indicated by medical staff. Indicate the reason(s) if the inmate is judged not medically qualified for camp assignment or has a medical infirmity that may limit the inmate's ability to work. Describe the type of medication or other medical treatment the inmate receives, if any. Indicate the inmate's self-reported medical problems.

Psychiatric/Psychological

When a psychiatric/psychological referral is required, indicate the reason for the referral, such as PC 3002 or staff observation. If an evaluation is prepared at the reception center, it shall be placed in the Cumulative Case Summary and the conclusions summarized in this section. State "No Referral" if the inmate is not referred for evaluation.

Work Skills

Describe the inmate's work experience and employable skills. Note the sources of and any supporting information, including the inmate's statement.

Narcotics/Drugs/Alcohol

Indicate the amount and frequency of narcotic/drug/alcohol use and whether the inmate was considered addicted. Note the source of the information.

Escape History

Indicate the date(s) and location and describe the type of facility (ies) and means of escape such as failure to return to a work furlough facility, climbed over double fence or armed perimeter, or ran from courtroom while under custody of the sheriff, or whether force was used. Note the source of the information. State the reason if no classification points were assessed.

Arson History

Indicate the date, code section and circumstances of the arson offense. Distinguish arrests and convictions and whether a juvenile or adult at the time. Note the source of information.

Sex-Related Offenses

Identify all sex-related convictions, detentions and arrests, and include the PC number. Indicate the date, location and type of offense, such as rape, unlawful sexual conduct, incest, sodomy or lewd and lascivious conduct. Indicate if the inmate is required to register as a sex offender pursuant to PC 290. Indicate if "R" suffix is appropriate or should be evaluated at the receiving institution. Note the source of the information.

Academic/Vocational

Indicate the last grade completed; whether high school graduate, GED recipient, college graduate, or vocational training certified. Enter the inmate's test scores and the recommendation for program involvement. Indicate if inmate is interested in additional instruction.

Casework Follow-Up

Indicate any pertinent information not available prior to transfer that the receiving institution should obtain. This could include academic, military, employment, medical, psychiatric or prison history documents which may be required by the receiving institution. Be sure to note any outstanding or pending criminal charges requiring follow-up and action taken. A copy of any letter(s) requesting documentation shall be placed in the inmate's C-file with appropriate notations on the CDC Form 850 in the Detainers Section of the C-file. Indicate if the inmate should be evaluated for "R" custody.

Criminal History

Describe the inmate's past criminal behavior, including the type of offenses, dispositions, degree of criminal sophistication and adjustment to incarcerations. Evaluate the circumstances and involvement in instant offense and relationship, if any, to pattern of offenses. Do not repeat the details of the offense as reported in the POR. The use or threat of excessive force or aggression involved in any criminal behavior, arrests, or incarcerations shall be fully discussed and evaluated. It is essential that all such information be incorporated into the ISRS.

Evaluation

The evaluation section shall be brief but reflect a complete picture of the social and personal dynamics of the inmate's behavior. This section shall also include an evaluation of the inmate's reaction to authority figures, adjustment to confinement, and attitude and behavior as observed by reception center staff. Facts included in other sections or reports should not be repeated except where needed for illustration. Predictive statements shall be clearly supported by the evaluation. The evaluation shall emphasize present functioning, attitudes and behavior, with historical facts referenced only to provide insight to the inmate's present situation. Include a brief summary of the individual's overall strengths, weakness, and prospects for

both the near and distant future. For PC 1203.03 cases, the evaluation shall be the last section and shall include a recommendation to the court.

Reentry

This section shall only be completed in the reception center if the inmate has six months or less to parole or is assigned to the center's permanent work crew. Describe the inmate's plans and resources for employment and residence and any special needs or concerns.

Transfer Classification Score

Enter the inmate's classification score from the CDC Form 839, Classification Score Sheet, or CDC Form 840, Reclassification Score Sheet. Designate any suffix, such as "R" (sex crime) or "S" (single cell housing) and indicate the reason.

Community Correctional Facility Eligibility

Indicate if the inmate's case factors are consistent with eligibility criteria for community correctional facilities. Specific focus will be on work furlough, if the inmate is within six months of the 1/3 EPRD and on RTC facilities, as defined in PC 2910.5, if the inmate is within eighteen months of the EPRD. In addition, female inmates will also be identified for eligibility for the Community Prisoner Mother Programs (CPMP). Conclude the section by indicating each type of program for which the inmate is eligible and interest in the programs, if eligible.

Institution Recommendation

The Penal Code requires that placement in an appropriate institution nearest to where the newly committed inmate's parents, spouse, registered domestic partner, or children lived at the time of commitment be considered unless factors, such as classification criteria, availability of beds or time to serve, make such placement unreasonable. Indicate the institution the inmate requests, if any, whether it qualifies as closest to the home address and any obstacles or benefit from granting the request. Indicate the institution or community correctional facility recommended and one alternate. Provide the reason for the recommendations, not just the score/level.

Administrative Placement

When a recommendation is made for placement in a security level different from the inmate's classification score level, indicate the reason.

Correctional Counselor and Date of Report

Indicate the name and the job title of the counselor who prepared the report and the date prepared.

Supervisor's Comments and Recommendation

The counselor's supervisor shall review all the material for completeness and accuracy, and indicate if they concur with the institutions recommended. If the supervisor's recommendation is different, give the reason(s). Indicate the supervisor's name and job title and the date reviewed.

61030.7 Social Factors Sheet

A social factors sheet shall be prepared at the reception center on all new commitment process cases and is a part of the summary.

61030.8 CSR Review

All aspects of the processing shall be completed prior to the CSR's review. The reception center staff shall provide the CSR with a blank CDC Form 128-G, Classification Chrono, upon which the inmate's name, number and the reception center have been typed. Any file from CYA or CDC discharged term used in the report preparation shall be available for the CSR's review.

Documentation in C-File

The following documents, with the pages in order, shall be clipped together in the sequence below and placed in the classification portion of the C-file for review by the CSR.

- CDC Form 128-G (for CSR transfer documentation).
- CDC Forms 839 or 840.
- ISRS or CDC Form 816.
- CDC Form 812.
- CDC Form 812-A, if required.
- Social Factors Sheet.
- POR.

All other documents in the C-file shall be filed in accordance with the DOM 72030.

Any C-Files from prior terms used in the case work-up shall be available for the CSR's review.

61030.9 Reception Center Readmission Summary/CDC Form 816 (Readmission Summary)

Parole violators RTC and with new terms (WNT) shall be processed using the Readmission Summary that is similar in format to the Cumulative Case Summary.

61030.10 Case Summary/Readmission Summary/Inclusion of Late Information

The Cumulative Case Summary's and Readmission Summary's usefulness depends upon their accuracy and completeness. In some cases, documentation may be received after the preparation of the ISRS or the CDC Form 816. When this occurs, the following procedures shall be followed:

Reception Center Late Information Processing

The CCRM is responsible for incorporating all available late legal documents into the C-file prior to the inmate's transfer. Clinical material and non-legal documentation arriving after completion of the Cumulative Case Summary shall be reviewed by the counselor who completed the original report or a supervising counselor.

If the material warrants modification of the case factors, the counselor shall up-date the C-file. This shall be accomplished by having the ISRS retyped, rewriting the CDC Form 816 or by including an addendum following the supervisor's comments. The counselor shall also correct CDC Forms 839, 840, 812, and 812-A and other documents as needed.

If information is received after CSR endorsement that could contraindicate transfer to the facility endorsed, the information shall be immediately evaluated and the case resubmitted to a CSR with a new recommendation, and the reasons.

Information Arriving After Transfer

When the inmate has transferred, legal documents shall be forwarded to the attention of the CCRM at the receiving institution. Non-legal documents received after the inmate has been transferred shall be forwarded to the CC-III or C&PR at the receiving institution with a notation that the "material has not been included in the Cumulative Case Summary". Non-legal documents include C-file material from discharged terms, statements pursuant to PC 1203.01, letters from victims or next of kin and letters from law enforcement agencies or defense attorneys.

Institutions' Late Information Processing

The counselor at the receiving institution shall review the supplemental information and update the new C-file as necessary. This may require a change in the classification score, institution placement, enemy information (CDC Form 812) or confidential information. If the inmate's classification score level or the placement appears inappropriate for some other reason, the case shall be referred to a CSR by the classification process for transfer review.

61030.10 Revisions

The Deputy Director, Institutions or designee, shall ensure that the content of this section is current and accurate.

61030.11 References

PC §§ 273(a) and (d), 1203.01, 1203.03, 3002, 5068 CCR (15) § 3377.1.

ARTICLE 4 — PRESENTENCE DIAGNOSTIC STUDY

Effective October 25, 1989

61040.1 Policy

Pursuant to PC 1203.03, persons placed with the Department shall be evaluated by staff for a pre-sentence diagnostic study.

61040.2 Purpose

This section establishes standard procedures for the acceptance and processing of PC 1203.03 cases requiring a pre-sentence diagnostic study.

61040.3 Pre-sentence Diagnostic Study

Authority

P C. 1203.03 permits courts to temporarily place defendants convicted of an offense, punishable by imprisonment in state prison, in facilities of the Department for purposes of diagnosis and treatment.

61040.4 Reception Center Delivery

Persons committed for diagnosis shall be delivered by the county sheriff to the reception centers at the CIW, CIM, and CMF for PC 1203.03 processing.

A copy of the court order committing the individual to the Department is required before the person may be accepted. The copy must meet two of the following three requirements:

- Signed by a judge.
- Bear the seal of the court.
- Certified by the county clerk.

A CDC Form 123, Body Receipt, shall plainly indicate that the person was "received for diagnosis" and not "received from court."

The reception center's CCRM shall maintain a record of PC 1203.03 workload and maintain a log of referrals by name, commitment offense, county of commitment and the date received.

61040.5 Rejection of Cases

Cases may be rejected when The Director determines that the Department's staff or facilities cannot adequately provide services. Any proposed rejection of cases shall be referred to the Director. However, the authority to reject the following specific cases is delegated to reception center AW.

Chronic or acute medical/psychiatric cases which necessitate intensive care, such as those who are in need of specialized treatment like dialysis or who have a mental illness of such magnitude that psychiatric hospitalization is required.

Cases where the background information necessary to conduct an appropriate evaluation is inadequate. These include cases referred without a POR or minus other documentation such as an arresting officer's report.

61040.6 Length of Observation

PC 1203.03 provides for a maximum 90-day observation period; however, the diagnostic report shall be completed and transmitted to the court within 23 working days of reception except in unusual circumstances.

Medical Extensions

When it is determined that a person is suffering from a treatable condition and more than the 90 day period is necessary to treat the condition, the reception center administrator may petition the court, with the person's signed consent attached, to extend the period. If the court finds the petition appropriate, it can order the extension and transmit a copy of the order to the Director.

61040.7 Reporting to OBIS

All PC 1203.03 cases received shall be entered into the OBIS Institution Movement Subsystem as a new admission.

When the individual is returned to the court, the case shall be entered into the OBIS Institution Movement Subsystem as a discharge and shall include the Department's recommendation to the court.

61040.8 Diagnostic Study Format

The diagnostic summary in these cases shall consist of a case summary preceded by a short summary report that will be prepared by the Correctional Counselor, and staff psychiatrist/psychologist in accordance with the approved format in the DOM 61030.

61040.8.1 Identifying Information

This section shall begin with the following paragraph.

"A diagnostic study and recommendation under the provisions of PC 1203.03 has been requested in the case of (Name), (County Court Number), (CDC Number)".

"This evaluation was prepared with the objective of assessing the defendant's potential for functioning successfully on probation or under other supervision and the level of threat to the community if he/she should fail to live up to that potential. It has not focused on the issue of deterrence, nor of punishment; those are factors which are not responsive to the interview and evaluation format of the PC 1203.03 process".

The remainder of this section shall include the age of the defendant, date received in the Department, name of court, county and on what charge.

Any specific questions or requests by the court shall be identified and listed in this section.

61040.8.2 Recommendation to the Court

Short summary of instant offense and brief recap of criminal history.

This section shall be confined to specific recommendations of the Department staff. All recommendations shall begin with the words, "It is respectfully recommended to the honorable court that . . ." In those cases recommending probation, the specific recommendation shall begin with the phrase, "If eligible for probation..." Conditions of probation may be recommended. Where possible, they will be based on knowledge of the county's resources and contain alternate suggestions for the court's consideration.

61040.8.3 Reasons for Recommendation

Provide in sufficient manner the salient factors contributing to the recommendation. Avoid listing information in the case summary, except when it contributes significantly to the recommendation. Make certain that any specific questions or requests from the referring court are fully answered. If the study suggests solutions beyond the scope of the court's expressed concern, the judge should be contacted and the matter discussed with them

for clarification prior to the preparation of the written report. These summary reports shall be dated and signed by the reception center AW. Should the recommendation involve a difference of opinion among the staff, this shall be indicated in the letter as well as the procedure by which the difference of opinion was resolved.

61040.9 PC 1203.03 Cases, Case Summary Preparation

The case summaries prepared for PC 1203.03 cases shall be identical to the regular felony case summaries. See DOM 61030.

All procedures that apply to regular felony commitment cases apply to pre-sentence diagnostic cases. For example, if a person received a rules violation report while undergoing the 90-day study, this shall be recorded in the C-File and, if the person is returned under a felony commitment, reflected in subsequent reports in the same manner as for all commitments.

Psychological Report

A psychological evaluation may be prepared on PC 1203.03 cases.

61040.10 Transmittal to the Court

The study shall be reviewed by the reception center administrator before transmittal to the court. Cases that present unusual problems or raise new questions shall be referred to the Chief, Classification Services, before submitting them to the court. The AW shall also ensure that the report calls attention to the following sections, if applicable.

61040.10.1 CYA/Mental Health Reports

The individual is currently under commitment to the Department, CYA or the California DMH, and a progress report of the last six months is available.

61040.10.2 Pending Charges

The individual has felony charges pending in another court, or is currently on probation or parole from another jurisdiction and is subject to revocation as a result of the current offense.

61040.10.3 Master Report

Reception center staff shall prepare the original of the study and send four copies to the court by first class mail to arrive before the individual is returned. The original shall be retained at the reception center for six months after submission to the court at which time it shall be forwarded to the Archives Unit at CMF, where it shall be retained for two and one half years.

61040.10.4 Transmittal Letter

A standard transmittal letter shall be used to transmit the study to the court (refer to DOM 61030).

61040.10.5 Information Disclosure

Copies of the study issued to the court will be served upon the defendant or their attorney, the probation officer and the prosecuting attorney by the court and shall not be disclosed to anyone other than departmental employees without the consent of the defendant.

Diagnostic cases remain under the jurisdiction of the court therefore the requirements of "In re Olson" are accomplished by the court.

61040.11 Former Diagnostic Cases ("Z" Cases)

When a former PC 1203.03 case is returned to court, discharged and then recommitted to the Department to serve a sentence for the original felony conviction, reception center staff shall:

- Insert the new prison number wherever the PC 1203.03 "Z" case number is found.
- Prepare a case summary update in accordance with DOM 61030.

61040.12 Revisions

The Deputy Director, Institutions, shall ensure that the content of this section is current and accurate.

61040.13 References

PC § 1203.03.

ARTICLE 5 — CLASSIFICATION PROCESS

Effective October 25, 1989

62010.1 Policy

Statute authorizes the Director to maintain a continual diagnostic and prescription process involving a systematic study of each inmate's case considerations while confined to the Department.

The goals of the inmate classification system are:

- Placement of inmates in the lowest custody level consistent with case factors and public safety.

- Place inmates according to their classification score based on objective information and criteria unless case factors or departmental requirements indicate otherwise.
- Application of the classification process uniformly for all inmates in similar situations.
- Provision for centralized control over the classification process.
- Maintenance of an ongoing classification system information data base for departmental research and evaluation.

All decisions affecting an inmate's institutional placement, participation in programs and degree of custody shall be through the classification process.

62010.2 Purpose

The purpose of this procedure is to provide a systematic process for the programming, housing and custody decisions used in the management of inmates.

62010.3 Responsibilities

All classification actions are based on the authority of the Director who delegates functions to specific officials. A listing of these officials and functions are as follows:

62010.3.1 Headquarters Staff

Functions of headquarters staff include, but are not limited to, the following:

Chief Deputy Director

Deputy and Assistant Deputy Director, Institutions

- Acts in all classification matters on behalf of the Director.
- Responsible for the general supervision of the classification process.
- Supervise the Chief, Classification Services.
- Members of the Departmental Review Board (DRB).
- Review cases referred by the Chief, Classification Services.
- Authorize special transfer orders.
- Approve exceptional temporary community releases.

Chief and Assistant Chief, Classification Services

- Responsible for operational supervision of the classification process.
- Supervise the CSRs.
- Members of the DRB; present recommendations, record and implement DRB decisions.
- Review CSR decisions upon request of a Warden.
- Arrange special research and surveys of classification matters.
- Review cases referred by CSRs.

CSR's

- Represent the Classification Services Section carrying out the Director's classification policies and procedures.
- Review, approve, modify or disapprove inmate special housing programs and treatment category designations as recommended by institution staff.
- Act as liaison between central office and institutions in classification matters.
- Coordinate and maintain waiting lists for specific special housing and treatment categories.
- Approve receipt of CYA and California DMH cases, and coordinate and endorse the transfer of department inmates to those departments.
- Conduct special audits and reviews of classification committee actions to determine that departmental policy is being followed.
- Review and prepare letters for the Director to courts on PC 1170(d) cases.
- Designate on CDC Form 128-G, Classification Chronos "Special/Public Interest" cases.

62010.3.2 Institution Staff

The functions of institutional staff include, but are not limited to, the following:

Wardens, Chief Deputy Wardens

- Responsible for institutional classification process.
- Approve off-reservation work assignments, community betterment, and disaster relief crews. Authorized to sign orders for removal of inmates in time of specified disasters and/or temporary community release.
- Submit DRB and PC 1170(d) reports.

RPAs

- Responsible for operational supervision of reentry classification process.
- Designates the chairperson of classification committees.
- Reviews complex cases and resolves difference of opinion cases.

AW

- Approve camp eligible lists, as well as housing and assignments outside of the security area.
- Member of the institution classification committee (ICC).
- Responsible for the classification of inmates assigned to their division.

Reception Center Administrators

- Responsible for the reception center classification process.
- Make recommendations to the sentencing court pursuant to PC 1170(d) and 1203.03.

C&PR

C&PRs duties include, but are not limited to:

- Planning, organizing, and directing the total institutional classification process on behalf of the Warden.
- Ensures the quality of classification chronos, BPT reports, release program studies, and DRB reports.
- Effects staff adherence to classification policies, procedures, and goals.
- Establishes a system to ensure that post-board classification is conducted.
- Provides ongoing training for counseling staff.
- Serves on classification committees.
- Provides liaison between the institutions, P&CSD, BPT, and Classification Services.
- Coordinates and manages the records office operation.
- Signs CDC Form 161s, Checkout Orders.
- Exercises the duties of a CSR for intra-facility transfers.
- Reviews, approves, and signs CDC Form 611s, Release Program Studies (RPS).
- Approves/declassifies confidential information.

Captains

Captains in an institution are responsible for planning, organizing and directing a program for the unit's classification of inmates. This includes, but is not limited to, the following:

- Ensure the classification of all inmates assigned to their unit.
- Sign all transfer chronos, CDC Form 128-G.
- Act as classification hearing officers on cases placed in AD-SEG.
- Serve as members of the ICC and appropriate subcommittees.

Supervising Counselors (CC-II, CC-III)

Supervising counselors' duties include, but are not limited to, the following:

- Instruct and assist in training CC-Is and case work trainees.
- Assign, review, and control the quality of work prepared by CC-Is and trainees.
- Assist counselors on difficult cases by utilizing case conferences.
- Participate as a member in the classification process.
- Audit CDC Forms 839 and 840, Classification Score Sheets.
- Schedule and coordinate all unit classification committees (UCCs).
- Prepare and/or review institutional staff recommendation and readmission summaries (reception center).

CC-I

CC-I's shall:

- Collect and evaluate social, behavioral and educational data on inmates as well as evaluating the inmate's adjustment to an assigned program.
- Prepare the following:
 - CDC Forms 839 and 840.
 - CDC Form 812, Notice of Critical Case Information - Safety of Persons.
 - DC Form 812-A, Notice of Critical Information - Prison Gang Information.
 - Classification chronos.
 - BPT reports.
 - Narcotic evaluation reports.

- RPS.

- Prepare institutional staff recommendation and readmission summaries (reception center).
- Prepare DRB, PC 1170(d), and 1203.03 reports.
- Prepare the C-File for attorney and other legal reviews.
- Attend classification committees.
- Provide individual and group counseling as needed.

62010.4 Considerations

The following considerations shall be utilized in classification committee hearings:

General

- Inmates shall be present at initial classification hearings and at other classification committee hearings which may result in an adverse effect upon their conditions of confinement, except for declared emergencies which temporarily prevent the application of classification rules.
- Security requirements, departmental needs, the inmate's program needs and classification score are primary factors which affect institution and program placement.
- Reclassification shall be an ongoing process of evaluating the inmate's needs, interests and desires, keeping in mind individual, security, and public safety.
- When a recommended transfer/program is deferred, the alternative shall provide for maximum program opportunities where possible.
- Classification scores shall be recalculated at least every 12 months.

62010.4.1 In Absentia Hearings

In absentia hearings are authorized under the following circumstances:

- The inmate refuses to appear before the committee.
- The inmate is physically incapable of appearing before the committee or is determined by a psychiatrist to be mentally incompetent to participate and understand the purpose of a hearing.
- The hearing is scheduled to improve the inmate's conditions of confinement by reduction or removal of a restriction previously imposed on the inmate.
- The hearing is to approve an action requested in writing by the inmate.
- The purpose of the hearing is for routine progress review to determine if future classification committee hearing should be scheduled.

When an in absentia hearing is held for any reason, that fact and reason shall be documented on a CDC Form 128-G.

62010.4.2 Inmate Notices

Revised November 1, 2004

Whenever possible, the inmate shall be given written notice of the date and purpose of the hearing. The notice should allow a reasonable period of preparation to discuss the issues to be considered.

Temporary emergency actions may be taken without prior notifications. Emergency lockups and transfers shall not require advance notice, but the inmate shall have the opportunity to present information at the next classification hearing following the action. The reasons for the action shall be given to the inmate in writing as soon as possible after the action was taken and before the appearance (Refer to the DOM 62050.10, Special Housing Assignments).

Actions Due to Overcrowding

When the sole basis for moving inmates under the provisions of CCR 3383 is due to overcrowding, the Director, DAI, or designee shall notify the Senate Select Committee on the California Correctional System.

62010.4.2.1 Adverse Effect

Substantially, adverse effects are:

- Involuntary transfer to a higher level institution not commensurate with the inmate's classification score.
- Increased custody level.
- Involuntary placement in segregated housing.
- Involuntary removal from an assigned program.
- Placement in a reduced work credit group.

Classification Actions

Classification actions that may result in adverse effect require:

- Written notice to inmate of proposed action and reasons for the action at least 72 hours prior to the hearing.

- Delay of the hearing at least 72 hours at the inmate's request when an adverse action is proposed at a classification hearing. If the action cannot be postponed, a CDC Form 128-G will document the reasons. If the inmate waives the 72-hour period, the waiver shall be documented on the CDC Form 128-G.
- A counselor/staff assistant may be requested by the inmate to prepare a defense or understand the issues involved in cases not requiring immediate action.

Notice

When a classification hearing includes the consideration of a newly calculated or recalculated classification score, the inmate shall be provided with a copy of the completed form at least 72 hours in advance of the hearing. The inmate may contest the classification score in the hearing and may appeal the score and hearing results.

Form of notice:

- The person referring the inmate to classification shall prepare the CDC Form 128-B-1, Notice of Classification Hearing.
- A copy of the CDC Form 128-B-1 will act as notification when presented to the inmate.
- If the inmate has been served with a CDC Form 114D, Order and Hearing for Placement in Segregated Housing, it is not necessary to complete a CDC Form 128-B-1.

62010.4.3 Suffixes

Suffixes shall be applied to degrees of custody to identify inmates with special restrictions or designations.

62010.4.3.1 "R" Suffix

Revised November 3, 2006

The purpose of applying an "R" suffix is to ensure the safety of inmates, correctional personnel, and the general public by identifying inmates with a history of specific sex offenses.

62010.4.3.1.1 Reception Center

The "R" suffix designation shall be affixed during reception center processing if one of the following four criteria applies:

- The inmate is required to register per Penal Code (PC) Section 290.
- The inmate's parole was revoked by Board of Prison Hearings (BPH) formerly known as Board of Prison Terms (BPT)/Parole Hearing Division (PHD) Good Cause Finding of an offense that is equivalent to an offense listed in PC Section 290.
- The inmate had a BPH formerly known as California Youth Authority (CYA)/Youth Offender Parole Board (YOPB)/Youth Authority Board sustained adjudication of an offense that is equivalent to an offense listed in PC Section 290.
- The inmate had a valid "R" suffix evaluation, as defined in this Section, resulting in the "R" suffix being affixed.

The assigned Correctional Counselor shall document the "R" suffix designation on the following applicable documents:

- Institutional Staff Recommendation Summary (ISRS)
- CDC Form 816, Reception Center Readmission Summary
- CDC Form 839, Classification Score Sheet
- CDC Form 840, Reclassification Score Sheet
- CDC Form 841, Readmission Score Sheet

Inmates with a prior "R" suffix evaluation inconsistent with the policy defined in DOM Section 62010.4.3.1.3 shall not have an "R" suffix applied. An "R" suffix evaluation must be completed at a receiving institution.

62010.4.3.1.2 Receiving Institution

The "R" suffix designation shall be affixed to an inmate's degree of custody during initial classification when the "R" suffix was not applied during reception center processing and the inmate meets one of the four criteria above.

The assigned Correctional Counselor shall initiate an "R" suffix evaluation when:

- An inmate was arrested, detained, or charged with an offense that would warrant the inmate to register per PC Section 290.
- An inmate's charges were dismissed or no disposition of the charges per the criminal history, CI&I, FBI rap sheet and POR, for an offense that would warrant the inmate to register per PC Section 290.
- An inmate's probation was revoked/denied because he or she committed an offense, whether or not prosecuted, that would warrant the inmate to register per PC Section 290, and the inmate was

sentenced and ordered by the court to serve his or her sentence in CDCR.

- An inmate was arrested, detained, or charged with an out-of-state/country, federal or military offense deemed equivalent to a California law that would warrant the inmate to register per PC Section 290.
- An inmate's charges were dismissed or no disposition of the charges per the criminal history, FBI rap sheet and POR, for an out-of-state/country, federal or military offense deemed equivalent to a California law that would warrant the inmate to register per PC Section 290.
- An inmate was found guilty in a disciplinary hearing of a division A-1, A-2, or B offense that would warrant the inmate to register per PC Section 290.

An inmate shall not have an "R" suffix affixed during an "R" suffix evaluation when the required documentation is not available for review. A classification committee may complete a valid evaluation when the arrest report is available and the DA's comments are unavailable. The classification committee will document in the CDC Form 128-G the attempts/steps taken to obtain the required documentation.

If the relevant documents required to complete an "R" suffix evaluation are not available, i.e., destroyed, purged, lost, etc., the "R" suffix shall not be applied by a classification committee. The classification committee will document in the CDC Form 128-G the steps attempted in order to try and obtain the required documentation and why the documents are unavailable. Departmental Review Board (DRB) approval is required to affix an "R" suffix designation to an inmate's degree of custody if he/she meets the criteria in this paragraph.

An "R" suffix shall not be applied if the inmate was acquitted/found not guilty of the sex related charges in a court of law even if BPH Good Cause finding revoked his/her parole for those sex related charges.

62010.4.3.1.3 "R" Suffix Evaluations

Inmates requiring an "R" suffix evaluation shall be carefully evaluated at the receiving institution and presented to a classification committee within six months after reception center processing. This review may be completed at an institution any time during the inmate's incarceration if not completed within the first six months.

"R" suffix evaluations shall be completed as follows:

- The assigned Correctional Counselor shall order the arrest report(s) and DA comments for the offense.
- The assigned Correctional Counselor may also obtain court documents or any other official documents necessary to complete the evaluation.
- Unit Classification Committee (UCC) shall consider the arrest report, DA comments, or any other official documents related to the case. The committee shall document the decision and the specific reasons for the action including the information upon which the decision was based on the CDC Form 128-G.
- UCC may affix the "R" suffix, elect not to affix the "R" suffix or refer the case to Institution Classification Committee (ICC) for evaluation.
- ICC shall consider the arrest report, DA comments, or any other official documents related to the case. The committee shall document the decision and the specific reasons for the action including the information upon which the decision was based on the CDC Form 128-G.
- ICC may affix the "R" suffix, elect not to affix the "R" suffix or refer the case to DRB for evaluation.

62010.4.3.1.4 Classification Committees

For the purpose of this Section the following terms are defined:

- Institution means a large facility or complex of subfacilities with a secure (fenced or walled) perimeter headed by a warden.
- Facility means a subfacility of an institution headed by a facility captain.

A facility UCC may complete an "R" suffix evaluation of an inmate. Should a different facility UCC at the same institution disagree with the first UCC's decision to affix or not to affix the "R" suffix, the committee must refer the case to the ICC for re-evaluation.

Should a facility UCC at a receiving institution disagree with a previous institution's UCC or ICC "R" suffix evaluation, the committee shall refer the case to their ICC for evaluation.

The receiving institution's ICC can reverse an "R" suffix evaluation completed by a previous institution's UCC as long as the case was not evaluated by the previous institution's ICC.

The receiving institution's ICC can reverse an "R" suffix evaluation completed by a previous institution's ICC only if new and compelling information is obtained; otherwise, the case must be referred to DRB.

62010.4.3.1.5 Restrictions

When an inmate is housed in a Camp, MSF, or Community Correctional Center and it is determined that he/she warrants an "R" suffix, the inmate shall be removed and housed in at least a Level II facility.

When an inmate is housed in a Camp, MSF, or Community Correctional Center and it is determined that he/she warrants an "R" suffix evaluation, the inmate shall be removed and housed in at least a secure Level I facility pending completion of the evaluation.

Inmates with "R" suffixes shall not be assigned outside the security perimeter.

An inmate whose "R" suffix has been removed shall be eligible for any housing or assignment, consistent with their custody and placement score, for which they otherwise would qualify had the "R" suffix never been designated.

62010.4.3.1.6 Former PC Section 290 Registrants

Inmates who have a valid Certificate of Rehabilitation pursuant to PC Section 4852.01 shall not have the "R" suffix affixed.

If the assigned Correctional Counselor notes the inmate, per the Criminal Identification and Information (CI&I), was convicted of a PC Section 290 Offense, but per the Legal Status Summary (LSS) he/she is not required to register, the assigned Correctional Counselor shall check the Detainers Section of the central file for a CDC Form 3017, "Relevant Central File Information."

If there is no CDC Form 3017 completed on the PC Section 290 registration, the assigned Correctional Counselor shall refer the case to Case Records for resolution.

62010.4.3.1.7 PC Section 290 Offenses

PC Section 290 offenses include, but are not limited to, the following:

- PC 207 Kidnapping.
Committed with intent to violate PC 261, 286, 288, 288a, or 289.
- PC 209 Kidnapping for Ransom.
Committed with intent to violate PC 261, 286, 288, 288a, or 289.
- PC 220 Assault to Commit Rape, Sodomy, or Oral Copulation.
Except Assault to Commit Mayhem.
- PC 243.4 Sexual Battery.
- PC 261(a)(1) Rape: Victim incapable of giving consent.
- PC 261(a)(2) Rape by Force.
- PC 261(a)(3) Rape of Drugged Victim.
- PC 261(a)(4) Rape: Victim unconscious of the nature of the act.
- PC 261(a)(6) Rape by Threat of Retaliation.
- PC 262(a)(1) Rape Spouse by Force/Fear/Etc.
Involving the use of force or violence for which the person is sentenced to the state prison.
- PC 264.1 Rape/Etc in concert with Force/Violence.
- PC 266 Entice Minor Female for Prostitution/Etc.
- PC 266c Induce Intercourse/Sex Acts by False Representation: Int: Fear.
- PC 266h(b) Pimping/where Prostitute is under 16 (convicted after 1/1/98).
- PC 266i(b) Pandering/ where Prostitute is under 16 (convicted after 1/1/98).
- PC 266j Procurement of Under 16 for Lewd and Lascivious Acts.
- PC 267 Abduct Minor for Prostitution.
- PC 269 Agg Sex Assault/Child under 14 or 10 Years Younger.
- PC 285 Incest.
- PC 286 Sodomy.

- Attempt of above listed offenses.
- MDSO conviction.
- Judicial Imposition.

62010.4.3.2 Other Suffixes

Institutions may apply:

- "S" suffix to identify inmates requiring single cell status.
- "X" suffix to identify inmates approved and assigned to designated disaster relief teams.
- "ORWD" suffix to identify inmates approved for off-reservation work detail/community betterment assignments.
- Miscellaneous suffixes for special internal designations outside the formal classification process for management purposes.

62010.4.3.3 Special Public Interest Cases

Inmates shall be identified as public interest cases when the crime, circumstances of the offense, or subsequent conduct results in unusual public concern as evidenced by extensive media coverage beyond the local community.

Criteria

Cases may include execution type murders, multiple murders or the mutilation of victims. Consideration should also be given to inmates who were originally sentenced to death or life without the possibility of parole.

Identification

Reception center counselors shall indicate in the institution staff recommendation summary (ISRS) of new process cases that the case meets criteria for public interest case designation. The reviewing counselor shall recommend this designation in the supervisor's recommendation section of the ISRS.

UCC/ICC's shall identify cases at the time of initial or at any subsequent classification actions when it is determined that cases warrant this designation. The CDC Form 128-G recording the committee action shall reflect the inmate's public interest case status.

All cases identified by reception center or institution staff shall be referred to a CSR for endorsement as a public interest case.

CSR's endorsing cases as public interest cases shall record this designation on the CDC Form 128-G. All subsequent classification actions shall reflect this status on the documenting CDC Form 128-G in the space directly below the inmate's custody designation.

Recording

Cases endorsed by a CSR as public interest case shall be referred to the CCRM by the reception center CC-III or the institution C&PR upon endorsement.

The CCRM shall ensure that the designation "Public Interest Case" is entered in red ink on the CDC Form 112, Chronological History and CDC Form 144, Control Card. This entry will reflect that notification of the Assistant Director, Communications is required.

Notification

The C&PR shall ensure that the CDC Form 611 reflects the inmate's public interest status at the time it is forwarded to the P&CSD. At this time, a copy of the CDC Form 611 and any appropriate supporting documentation, i.e., POR, shall be forwarded by the C&PR to the DPIO.

Following a review of case factors by the DPIO, information related to the release of an inmate designated a public interest case shall be forwarded by the DPIO to the Director and the California YACA, if appropriate. The DPIO may be contacted for information related to media interest in public interest cases.

62010.5 Classification Scoring System

The classification scoring system provides a standard evaluation for placement of inmates at the least restrictive institution, commensurate with their custodial requirements. Inmates are placed in institutions which are designated by custody levels IV (highest) to I (lowest), and they are encouraged with positive incentives to reduce their scores to permit transfer from higher custody facilities to those which have increased privileges, movement and programming. The classification scoring system determines each inmate's custody level in relation to others for optimum use of departmental facilities. An inmate's score may change based on individual behavior and specific case factors.

The Department may classify, transfer and house inmates apart from the classification scoring system when necessary to ensure staff, inmate and public safety. Exceptions shall be clearly documented on a CDC Form 128-G.

62010.6 Institution Classification Levels

Each camp, institution, facility or area of an institution complex is designated at a classification level based on its security and housing capability. Reception centers are exempted from level designations except for assigned work crews.

- Level I institutions and camps consist primarily of open dormitories with relatively low security perimeter.
- Level II institutions consist primarily of open dormitories with a secure perimeter and armed coverage.
- Level III institutions primarily have outside cell construction with a secure perimeter and armed external coverage.
- Level IV institutions have inside or outside cell construction with a secure perimeter, and both internal and perimeter armed coverage.

62010.6.1 Classification Score

The inmate's classification score shall be used as a primary factor to determine the level of institutional placement. The establishment of the inmate's actual custody shall be the responsibility of the classification committee.

62010.6.2 Classification Score Ranges

Inmates within the following range of classification scores shall be placed in an institution that is designated at the level indicated.

Score	Level
0-18	I
19-27	II
28-51	III
52+	IV

62010.7 Administrative Determinants

Administrative necessity such as institutional security, public safety issues and availability of housing may occasionally require placement at a facility that does not correspond with the inmate's classification score. In these cases the alternative placement/program will provide the maximum benefits permitted under the circumstances.

62010.7.1 Degrees of Custody

General

Classification committees at each institution shall assign a degree of custody to each inmate.

Wardens are responsible for determining degrees of custody most appropriate for use at their institution.

62010.7.2 Implementation

Each inmate shall be assigned the degree of custody that provides for their housing, assignment/activity and supervision needs.

Institution requirements may necessitate additional local designations, but shall conform to the Department's requirements for each degree of custody used.

The senior custodial officer on duty may designate the initial custody for new arrivals and may temporarily increase an inmate's custody at any time it becomes necessary to protect the security and good order of the institution. Such actions shall be reviewed and custody assigned by a classification committee at the next regular meeting.

Any reduction of an inmate's custody shall be by classification committee action.

62010.7.3 Custody Designations

The following are the degrees of custody approved for use in the Department.

Maximum A

Housing. Single cells (when possible) or other areas designated as security or approved specialized housing units.

Assignments/Activities. Confined to the security or approved specialized housing unit.

Supervision. Direct and constant.

Maximum B

Housing. Single cells (where possible) or other areas designated as security or approved specialized housing units.

Assignments/Activities. Confined to the security or approved specialized housing unit except for movement to and from external activities authorized for the unit.

Supervision. Direct and constant.

Every inmate confined in a SHU shall be assigned Maximum A or B custody. Inmates who are not housed in a specialized unit shall not be assigned maximum custody.

Close A

Housing. Celled housing in areas designated and maintained for higher security needs within the general population. This custody designation shall be used only at institutions with a secure perimeter.

Assignments/Activities. Permitted during daylight hours only and limited to designated close security areas at non-walled institutions and to the main security areas in walled institutions.

Supervision. Direct and constant.

Close B

Housing. Celled housing in secure areas designated for Close B custody.

Assignments/Activities. Within the security perimeter during daylight hours only, except for limited evening activities such as bathing and haircuts within the assigned housing unit.

Supervision. Constant and direct.

Medium A

Housing. Cells or dormitories within the security perimeter.

Assignments/Activities. Within the security perimeter.

Supervision. Frequent and direct.

Medium B

Housing. Cells or dormitories within the security perimeter.

Assignments/Activities. Within the security perimeter. Eligible for daytime assignments outside the security perimeter, but on prison grounds.

Supervision. Frequent and direct inside the security perimeter. Direct and constant outside the security perimeter.

Minimum A

Housing. Cells or dormitories within the security perimeter.

Assignments/Activities. Eligible for designated assignments inside or outside the security perimeter.

Supervision. Must be observed no less than hourly if assigned outside the security perimeter. Adequate supervision of the inmate's location to ensure their presence if assigned inside the security area.

Minimum B

Housing. Cells or dormitories on prison grounds and/or in a camp setting.

Assignments/Activities. Eligible for off-reservation work detail/community betterment and camp assignments.

Supervision. Adequate supervision of the inmate's location to ensure their presence. Shall be counted no less than four times each 24 hours.

62010.8 Institutional Classification Committees

All decisions affecting transfer, program participation, supervision, security, housing, and safety of persons, shall be made by a classification committee composed of staff knowledgeable in the classification process. A chairperson and any two members of any committee shall comprise a quorum except for reentry classification actions.

Decisions of classification committees shall be documented on a CDC Form 128-G and a copy given to the inmate.

62010.8.1 Institution Classification Committee (ICC) Functions

ICC's shall:

- Review inter-institutional transfer recommendations in problem cases where departmental or public welfare is at stake.
- Review all cases referred by subcommittee.
- Refer cases to the Chief, Classification Services, or the DRB for resolution/action including recommendations to grant an inmate additional reduction of sentence pursuant to PC 2935.
- Review the altered status of each inmate placed in segregated housing at the time of initial placement and at regular intervals thereafter in accordance with the CCR 3335.
- Approve or deny disciplinary credit losses and inmate requests for credit restoration of Division A-1, A-2, and B offenses in accordance with CCR 3327. This action shall serve as the first level of appeal review.

62010.8.2 ICC Authority

The ICC is delegated the primary authority for all classification actions within the institution.

Composition

ICC's shall consist of:

- Warden or Chief Deputy Warden (chairperson).
- AW (alternate chairperson).
- Psychiatrist or physician.
- Captain.
- CC-III or CC-II (committee recorder).
- Captain.
- Assignment lieutenant.
- Educational or vocational program representative.
- Other staff as required.

62010.8.3 Initial Classification Committee

Each institution shall establish an initial classification committee to review and initiate a suitable program for each inmate within 14 days after arrival at the institution.

Composition

Initial classification committees shall consist of:

- Captain (chairperson).
- CC-III or captain (alternate chairperson).
- CC-II or CC-I (committee recorder).

- Assignment lieutenant.
- Educational or vocational program representative.
- Other staff as required.

Functions

Initial classification committees shall:

- Initiate an educational, vocational training, or work program and privilege group designation.
- Evaluate case factors and assist the inmate to understand institution expectations, available programs, and resources.
- Designate the degree of custody necessary to control the inmate.
- Refer complex cases to the ICC.
- Recommend transfer of a new arrival determined to be inappropriately placed.
- Grant worktime credits to which the inmate is entitled while in transit.

62010.8.4 Unit Classification Committee (UCC)

Each program unit shall establish a UCC to provide routine classification of inmates. Those institutions without organized program units shall establish equivalent committees.

Composition

UCC's shall consist of:

- Captain (chairperson).
- CC-III or captain (alternative chairperson).
- CC-II or I (committee recorder).
- Program lieutenant.
- Educational/vocational representative.
- Other staff as required.

Functions

UCC's shall:

- Review each inmate's case at least annually to consider the accuracy of the inmate's classification score, custody designation, program and institution placement which includes recommendation for transfer.
- Conduct post board classification on an inmate within 15 days of receipt of official notice of a BPT decision regarding the inmate.
- Act on disciplinary credit losses on cases for Divisions C, D, E, and F which will serve as the first level of appeal review.
- Approve or deny an inmate's request for restoration of forfeited credits for Divisions C, D, E, and F offenses in compliance with CCR 3327.
- Change an inmate's privilege group.

62010.8.5 Camp Classification Committee

Each conservation camp shall establish a camp classification committee to provide routine classification for inmates assigned to the camp program.

Composition

Due to the isolation of most conservation camps, the presence of a captain, to act as chairperson is not required. A chairperson and two members shall comprise a quorum for camp classification hearings.

- Lieutenant (chairperson).
- CC-I (chairperson or alternate chairperson).
- Sergeant.
- Staff representative of camp contracting agency.

Functions

Camp classification shall:

- Perform routine classification of inmates assigned to the camp programs including all functions designated for UCCs.

62010.8.13 Reentry Classification Committee

Each reentry/work furlough facility shall establish a reentry classification committee to provide for routine classification for inmates assigned to a reentry work furlough program.

Composition

- PA (chairperson).
- PA-III (unit supervisor/center manager reentry coordinator) (alternate chairperson).
- PA-II (reentry specialist).

Functions

Two members constitute a quorum. Due to distance considerations, the committee will not usually sit en banc. The reentry specialist will complete

necessary CDC Form 128-G and forward to committee members for appropriate signatures/approval.

- Document inmate misconduct and affirm, modify, or reject any action taken.
- Review disciplinary actions where worktime credits were lost/denied and to act as inmate's first level of appeal review.
- Restore lost credits, where appropriate, for disciplinary violations.

62010.9 Classification Committee Responsibility Due Process

Each classification committee shall:

- Inform the inmate of the purpose of the hearing and introduce committee members.
- Encourage the inmate to participate in the hearing discussion.
- Make decisions based on evaluation of available information and mutual agreement of the committee members.
- Inform the inmate of the decision.

62010.9.1 CDC Form 128-G, Classification Committee Documentation Requirements

Each classification committee shall:

- Prepare a recording of the hearing on a CDC Form 128-G.
- Issue a copy of the CDC Form 128-G to the inmate.

The documentation of each classification shall include:

- The action taken.
- The date of the action.
- The specific reason(s) for the action(s) including the information upon which the decision was based.
- The names of staff who participated in the decision.
- The name of the chairperson of the committee taking the action.
- The name and signature of the person recording the action.

62010.10 Departmental Review Board

The DRB serves as the final reviewing authority for classification issues when placement decisions are appealed to headquarters or when policy clarification is needed.

62010.10.1 Purpose

This Section establishes standard procedures for the resolving of all staff classification action appeals at the headquarters level by the DRB.

62010.10.2 Composition

The DRB shall consist of the:

- Deputy Director or an Assistant Deputy Director, Institutions (chairperson).
- Deputy Director, P&CSD.
- Chief, Classification Services. (Shall abstain on classification actions appealed by Wardens/Regional Administrators.)
- Chief, Medical Services when required.

62010.10.3 Quorum

The DRB meets at the call of the chairperson. Two voting members constitute a quorum. 870

62010.10.4 Referral Criteria

Cases shall be referred for DRB decision when:

- The Warden/RPA appeals an action of the Chief, Classification Services.
- A test case is needed to clarify the application of policy.
- Differences between BPT program placement order and departmental policies or procedures cannot be resolved.
- An out-of-state or federal prison placement is recommended.
- Meritorious credit is recommended to reduce an inmate's period of confinement pursuant to PC 2935.
- Current placement is by prior DRB action and continuing DRB responsibility for the case has not been waived.
- A headquarters level decision for placement is required because of an unusual threat to safety or public interest, i.e., commuted death row cases.

62010.10.5 Process

Cases for DRB review shall be submitted by the Warden or Regional Administrator to the Chief, Classification Services.

Because the inmate's C-file is not available to the DRB, referrals shall contain all pertinent information.

When the referral is an appeal of a CSR action, the Chief, Classification Services shall attempt to resolve the issues before presenting it to the DRB.

The Chief, Classification Services, shall evaluate, add relevant factors to be considered and provide a recommendation for cases presented to the DRB. This shall be provided on a CDC Form 128-G, which shall also provide for documentation of the DRB action.

62010.10.6 Implementation

DRB actions shall be implemented within 30 days.

62010.11 Revisions

Revised November 1, 2004

The Director, DAI, or designee shall ensure that the content of this Article is current and accurate.

CCR.

ARTICLE 6 — RECALL OF COMMITMENT

Effective October 27, 1989

62020.1 Policy

Inmates received by the Department may, under certain circumstances, be recalled by the sentencing court. A recall may also be initiated by the Director or the BPT.

62020.2 Purpose

This section establishes standard procedures for the processing and evaluation of those inmate cases whose sentences and commitments may be reconsidered by the court under the provisions of PC 1170(d).

62020.3 Authority

PC 1170(d) permits the sentencing court to recall a previously ordered sentence and commitment within 120 days of the date of sentencing and re-sentence the inmate. The court may consider a recall of sentence and commitment upon the recommendation of the Director or the BPT at any time during an inmate's incarceration.

The sentencing court has absolute discretion in recalling a sentence and commitment within 120 days of sentencing. The court is not required to request or accept the Department's diagnostic study and/or recommendation, however, departmental staff shall provide the sentencing judge a study and recommendation when requested.

62020.4 Recommendation of Alternate Placement

Departmental staff shall recommend to the Director and request that recall consideration be considered for those inmates who, in the interest of justice, could be properly managed outside the Department and where alternate placement had not been explored by the sentencing court. Examples include but are not limited to:

- Naive, youthful offenders who could be sentenced to the CYA.
- Narcotic addicts who meet the criteria for commitment to the civil addict program.
- Inmates whose sentence would be better served in another jurisdiction.

Departmental staff's recommendations shall focus on the proper placement rather than the severity or length of sentence.

When an institutional recommendation for recall is determined to be inappropriate after review at the Director's level, the Deputy Director, Institutions Division shall notify the Warden of the referring institution of this decision.

62020.5 BPT Disparate Review

The BPT, under PC 1170(f), shall review all cases for sentence disparity and recommend recall, if appropriate, within the first 12 months of commitment. As a matter of policy, the BPT will assume responsibility under PC 1170(d), for recommending recall of sentences that subsequently become disparate due to non-retroactive legislative changes that reduce or eliminate the criminal penalty for an offense.

62020.6 Director's Recall of Commitment

The Director may recommend to the court a recall of sentence prior to the BPT's disparate sentence review when:

- The inmate is found to be suffering from a critical medical condition which is not likely to improve.

- The inmate has so changed as a person through their own efforts since being sentenced, that they would be a positive asset to the community.
- Based on changes in the inmate's situation or significant new information that was not considered by the court in pronouncing sentence.
- The commitment is definitely not typical of similarly situated offenders and presents an undue hardship on the inmate.

After the BPT's disparate sentence review, the Director may recommend a recall to the court if conditions have changed to the extent that the inmate's continued incarceration is not in the interest of justice. Diagnostic studies and/or recommendations shall take into consideration the results of the BPT's disparate sentence review.

62020.7 Recall Request by Private Citizen

Revised September 25, 2007

Requests for PC 1170(d) studies or consideration for recall by private citizens, defense attorneys or family members including registered domestic partners shall not be initiated by departmental staff.

All such requests shall be responded to promptly with a letter stating the Director's policy and directing the requesting party to the sentencing court.

62020.8 Court Ordered Diagnostic Study

The court may recall a sentence within the first 120 days of commitment with or without obtaining a diagnostic study and recommendation from the Department. When an evaluation is requested, it shall assess the inmate's potential for completing probation or other alternate sentencing, and the threat posed to the community if the inmate fails to realize that potential.

When the court orders a post sentence diagnostic study [PC 1170(d)], and a pre-sentence diagnostic study (PC 1203.03) has previously been prepared, a re-evaluation of the prior study's recommendation is required.

Staff assigned to prepare the PC 1170(d) report shall reevaluate all available information and recommend accordingly, rather than repeat or paraphrase the pre-sentence diagnostic study. The PC 1170(d) report shall indicate that a pre-sentence diagnostic report was prepared.

A current psychological evaluation shall be prepared if indicated. If any recommendations are in conflict, the method for resolving the conflict shall be addressed.

When the court requests a post-sentence diagnostic study within 120 days of sentencing, the Warden or reception center administrator shall communicate directly with the court.

Requests received by the institution after 120 days of sentencing shall be forwarded to the Chief, Classification Services and processed through headquarters as a Director initiated recall. The court cannot recall a sentence after 120 days of sentencing without the recommendation of the Director or the BPT.

Late Return of Report

When a post-sentence diagnostic study is requested by the court to be prepared within the 120-day time limit and is late due to departmental error, the institution shall notify the court directly. A letter signed by the Warden attached to the recommendations shall indicate the reasons for the delay and because of the delay, the court may take whatever action it deems appropriate.

62020.9 Director's Recall (Reports)

When an inmate meets the Director's criteria for recall to court, staff shall prepare a diagnostic study and recommendation. This report and a current psychological evaluation (if indicated) shall be reviewed by the AW and Warden. If any recommendations are in conflict, the method by which the conflict was resolved shall be described in the transmittal letter.

The completed report and institutional approval shall be attached to a transmittal letter and forwarded to the Chief of Classification Services.

Inmates shall not be transferred —except in emergencies— until the PC 1170(d) report has been completed.

62020.10 Recall Report Format

Identifying Information: This section shall begin with the following two paragraphs:

"This is a diagnostic study and recommendation under the provisions of PC 1170(d) in the case of (Inmate's name), (County's Court Number), (CDC Number)".

"This study evaluates the defendant's potential for success under sentence alternatives to state prison and the threat posed to the community should the defendant not fulfill that potential. The clinical case study method does not lend itself to an adequate consideration of other issues involved in uniform sentencing".

The third paragraph of this section shall indicate the age of the inmate, date they were received by the Department, name of the committing court, county of commitment and on what charge the inmate was convicted.

Offense: This section shall include a short summary of the inmate's instant offense and criminal history.

Institutional Adjustment: Include job or assignment performance, behavior, relationships with staff and peers.

Recommendations

Recommendations: This section shall address only the specific finding of department staff:

- Evaluation indicates that this case should be considered for disposition as authorized by PC 1170(d).

— or —

- Evaluation indicates that this case should not be considered for disposition as authorized by PC 1170(d).

All recommendations for probation shall contain the qualifying statement; "to the extent probation is allowed by law".

When appropriate, conditions of probation suggested by the case evaluation may be listed in numerical order. This must be realistic in relation to the services available in the county concerned.

Reasons for Recommendations: List in order of priority the factors contributing to the particular recommendation. These may include the lack of criminal record or extensive criminal record, situational nature of offense, clinical manifestation of assaultive or hostile behavior, family or other resources awaiting the inmate in the community.

It shall also include the findings of the disparate sentence review, if completed, and, if a Director initiated recall, shall focus on the new information that justifies recall.

Release Plans: This section shall include the inmate's living arrangements, means of support and care as appropriate.

The study shall be dated and signed by the reception center's AW if it is completed during the inmate's reception processing. If the study is completed at an institution other than a reception center, the Warden or delegated AW shall sign the report. The Warden shall sign all Director initiated recall recommendations, including those that are a result of a request by the court after the 120-day period.

62020.11 Transmittal Letter

The Chief, Classification Services, shall review and evaluate all transmitted material, and shall prepare the Director's transmittal letter to the sentencing court. The Chief, Classification Services, shall notify the BPT of all cases where the Director recommends a recall of commitment.

62020.12 Court Ordered Recall/Multiple County Commitments

When a court requests a PC 1170(d) on an inmate also committed by another court, copies of the study shall be sent to all committing courts. The transmittal letter to the court ordering the recall shall clearly indicate in the first paragraph the additional commitments, identified by case number. It shall also indicate that copies are being sent to the other committing court(s). Similarly, the transmittal letter to the other committing court(s) shall explain that a PC 1170(d) report was completed regarding a commitment by a different court.

62020.13 Inmate Notification of Recommendation

Staff who prepare the study shall inform the inmate of their recommendations. When correspondence and reports do not contain confidential information, copies shall be given to the inmate. If such reports do contain confidential information, staff shall share the general content of such reports with the inmate, omitting only the confidential information. Confidential correspondence and reports shall be so labeled, placed in the confidential folder and cross referenced to a CDC Form 128-B, General Chrono; explaining the need for confidentiality.

62020.14 C-File/OBIS Recording

To provide information for subsequent evaluation of this program, PC 1170(d) transactions shall be recorded in OBIS Daily Report of Arrivals and Departures and on the CDC Form 112, Summary of Sentence Data, as follows:

- Requests for PC 1170(d) studies from a judge or the Director. Date 1170(d) PC report requested by _____ County (or) by the Director.

Transmittal of PC 1170(d) studies to the court for the Director: "Date, PC 1170(d) studies submitted to _____ County (or) to the Director recommending no change in commitment (or) recall of commitment recommended (and/or) other recommended action".

62020.15 C-File Report Placement

Copies of all additional material transmitted to the court shall be inserted in the case summary section of the C-File. Copies of all material sent to the Director on staff-initiated cases shall also be inserted in the same location.

62020.16 Mailing of Material

The above material shall be expedited to the court by first class mail.

62020.17 Revisions

The Deputy Director, Institutions, or designee shall ensure that the content of this section is current and accurate.

62020.18 References

PC §§ 1170(d), 1170(f) and 1203.03.

ARTICLE 7 — TRANSFERS — DMH

Effective October 30, 1989

62030.1 Policy

Mentally ill inmates received by the Department may be transferred to a California DMH facility for stabilizing psychiatric treatment.

62030.2 Purpose

This section establishes procedures for the transfer and return of mentally ill inmates and parolees between the Department and DMH. It provides for the due process and orderly acceptance and processing in a controlled and expedient manner of those mentally ill inmates who can receive optimum benefit from treatment in a DMH facility.

62030.3 Transfers To DMH

Authorization

PC 2684, 2690 and 2974 provide for transferring mentally ill inmates and parolees to DMH facilities. PC 2685 provides for returning those inmates to the Department who are no longer benefiting from a DMH placement. Parolees placed in DMH facilities for psychiatric treatment shall be released to parole after they have stabilized.

62030.4 PC 2684 Referrals

Criteria

The inmate/parolee shall have 90 days or more to serve from the date of actual admission to a state hospital. Exceptions to the above may be arranged on a case-by-case basis.

Referrals shall be accepted for inmates in the following diagnostic categories only:

- A diagnosed severe psychosis or severe effective disorder, acute or chronic, requiring intensive treatment in a psychiatric hospital.
- A long-standing psychosis or effective disorder, with a history of repeated psychiatric hospitalizations prior to their current commitment to the Department, requiring long-term sub-acute treatment in a psychiatric hospital in order to facilitate their rehabilitation and eventual placement in a community treatment program.
- Requires specialized diagnosis and treatment which is available in a DMH facility but is not available in the Department.
- Request for intensive psychological/diagnostic evaluation.

Exceptions to the above criteria shall be evaluated on a case-by-case basis if there is a compelling reason for referral.

62030.4.1 Procedure

A referral packet shall be prepared and sent directly to the state hospital where placement is intended. For male inmates, the packet is sent to Atascadero State Hospital (ASH); females to Metropolitan State Hospital (MSH); and parolees to the state hospital designated by DMH.

Following acceptance by the state hospital, the inmate's C-File and the original documents from the referral packet shall be presented to a CSR for transfer endorsement with the original documents listed below included.

62030.4.2 Referral Packet

The referral packet shall consist of the following documents:

Vitek Hearing

- A signed waiver of a due process (Vitek) hearing for voluntary cases or certification of a due process hearing for involuntary cases. Inmates who are considered for DMH transfer shall be advised of their rights to a hearing regarding the transfer. If the inmate does not waive their right to the hearing the following requirements shall be met:
 - The inmate shall be provided written notice of a hearing to determine their involuntary placement in a mental hospital at least 72 hours before the hearing is held.

- The hearing officer shall be the Warden or designee (AW, physician, or a member of the psychiatric staff).
- A staff assistant, usually the inmate's counselor, shall be appointed by the hearing officer to assist the inmate in collecting, presenting and confronting evidence at the hearing. Attorney representation of the inmate shall not be permitted.
- The findings and decision of the hearing shall include references to the evidence relied upon and the reason for the decision.

A copy of the decision shall be given to the inmate within 72 hours after the hearing and a copy shall be placed in the inmate's C-file. A copy of the decision with the following documents shall be sent to the state hospital:

- A psychiatric evaluation completed within the last three months to include whether the crime involved force and/or violence and/or great bodily injury; and whether the mental disorder was a cause or aggravating factor in the crime.
- A completed Mental Health (MH) Form 2546, Transfer Information Form, indicating the type of service requested, such as psychiatric evaluation and treatment or conservatorship investigation, preparole or discharge planning or other services.
- An institutional and/or adjustment history, including misconduct reports and security concerns.
- An Abstract of Judgment and, if available, POR.
- Supporting documents such as holds and detainers.
- Classification committee's recommendation (CDC Form 128-G, Classification Chrono) for transfer to DMH.

62030.5 PC 2690 Packet

Utilization of PC 2690 is for emergency psychiatric transfers from the Department to DMH. The criteria for PC 2690 and 2684 are the same.

62030.5.1 PC 2690 Procedure

The Department's Chief, Medical Services, shall contact DMH and arrange for the PC 2690 transfer. Upon acceptance by DMH, a CDC Form 7252, Request For Authorization of Temporary Removal For Medical Treatment shall be completed and processed. The inmate shall then be transferred, and a PC 2690 referral shall be initiated, utilizing the procedure outlined in this chapter. An inmate can be placed in DMH for a period not to exceed three days under PC 2690, and for this reason PC 2684 procedure shall be expedited.

62030.6 PC 2684 Procedure

Referrals for emergency psychiatric hospitalization may be expedited using PC 2684 referral packet.

- In place of a Vitek hearing, the inmate/parolee is entitled to a certification review hearing or writ of habeas corpus in DMH facilities.
- The psychiatric report/evaluation must be no more than 30 days old.

For some parolees, PC 2684 and/or 2690 process shall be followed. Once the Vitek Hearing is held, or the waiver is signed, the case will be screened by DMH state hospital within seven working days. If accepted by a DMH state hospital, the individual shall be transferred directly to that DMH state hospital under order of the BPT from the county jail. Formal parole revocation by the BPT shall be done at the DMH facility.

62030.7 Hub Institutions

The following are designated as the hub institutions for inmates housed in the DMH facilities:

- CMF for inmates placed in Northern California DMH facilities.
- The CMC for inmates placed in Southern California DMH facilities.
- The CIW for female inmates placed in state hospitals.

The records for each inmate housed by DMH shall be maintained by the respective hub institution. The institution shall also be responsible for all contacts with the designated DMH facility to secure reports, schedule BPT hearings, and to process an inmate's parole or discharge.

62030.8 Transportation

Transportation of inmates to and from state hospitals is the responsibility of the Department. Specific arrangements shall be made by the Warden of the hub institution and the administrator of the state hospital.

62030.9 Inter-Hospital Transfers

DMH may transfer inmates between the state hospitals when it is deemed necessary. However, the administrator of the transferring hospital shall notify the Warden of the hub institution prior to any such transfer.

62030.10 Escapes

If an inmate escapes from a state hospital, the hospital director or designee shall immediately notify the Department headquarters Identification Unit of the escape. The Identification Unit shall notify appropriate institution staff who shall institute escape procedures. DMH staff may also contact institution staff directly.

Within ten working days following the escape, the Warden of the hub facility shall advise the hospital's administrator whether the inmate should be discharged from the hospital or continued on the hospital's roster.

62030.11 Ground Privileges and Limitations

Inmates at State hospitals are "in custody" and shall not leave the hospital grounds without the authorization of The Director. Any temporary community release request shall be processed in accordance with DOM 62070. At the discretion of the hospital's administrator, an inmate may be granted privileges and participate in all aspects of the treatment program within the hospital confines.

62030.12 Rules and Regulations

Inmates housed at State hospitals are subject to the CCR the same as inmates housed in correctional facilities, in addition to the receiving hospital's rules.

62030.13 Returning Inmates to the Department Per PC 2685

When it is the opinion of the hospital's administrator that an inmate has been treated to the extent that the inmate will not benefit by further care and treatment in the State hospital, the administrator shall:

- Initiate a request to the hub facility for return of the prisoner to the Department.
- The inmates shall be transported within seven working days by hub facility staff. If the inmate becomes a significant security risk or management case, the inmate shall be transported immediately by hub facility staff.

62030.14 Appeal

The Department may appeal any case that it feels was inappropriately rejected or returned by the State hospital staff. The appeal shall be referred to the Deputy Director, HCSO, who shall resolve it with the Division of State Hospitals Programs.

62030.15 Sex Offender Project PC 1364

Revised August 30, 1993

PC 1364 provides for a voluntary experimental sex offender treatment program wherein a selected number of male inmates may participate under the jurisdiction of DMH at ASH. PC 1364 also provides that if, after placement in the program, the inmate refuses to cooperate, is found unamenable to treatment, or requests return to the Department, he shall be returned to the Department. This program will terminate on June 30, 1995.

Criteria and selection for PC 1364 Sex Offender Program is determined through OBIS by a DMH screening team. If selected for review, an inmate shall be interviewed by the DMH screening team after a complete review of the inmate's C-File. The DMH review staff shall submit an approval letter, requesting transfer to DMH to the C&PR. The inmate is then referred to the Institution Classification Committee (ICC) for a transfer recommendation to CMC-E, which is the hub facility for PC 1364 Sex Offender Program. If recommended by ICC, the case is then submitted to the CSR for transfer approval to CMC-E. Transfer to DMH from CMC-E will be effected upon bed space availability.

62030.16 PC 2970

PC 2970 provides for the continued involuntary treatment of inmates/parolees prior to termination of parole or release if the inmate's/parolee's severe mental disorder is not in remission or cannot be kept in remission without treatment and if the inmate/parolee refused to agree to treatment as a condition of parole.

62030.17 Patient Transfers From DMH-Criteria

- The W&I 7301 provides for the transfer of persons committed to a State hospital who require custodial security which can best be provided by the Department. Cases that may be considered are those committed to DMH under:
- PC 1026, where the defendant was found to have been insane at the time an offense was committed.
- PC 1368, where the question of sanity arises prior to judgment.

62030.17.1 Reception

The transfer request shall be initiated by DMH and sent to the Department's, CSU.

The case shall be forwarded to the Deputy Director, HCSO, or designee who shall determine whether or not to accept the case for treatment. If accepted,

the Deputy Director, HCSO, or designee shall return the case to the Classification Services Section with a recommendation for placement.

If rejected, the case shall be returned to DMH with reasons for rejection noted.

Patients received under PC 1026, 1368, and 3700 shall be designated "health" patients. Material to be submitted by DMH to the Director for transfer consideration shall consist of the commitment information and reasons for transfer and shall also include the following information:

- Offense pattern.
- Major psychiatric diagnosis.
- Social and case histories.
- Treatment modalities.
- Response to treatment in DMH facilities.
- Reason for referral.
- Inmate's attitude toward referral, including results of the due process hearing (Vitek) or a signed waiver of the hearing.
- Current medication at the time the summary was dictated.
- Relevant medical problems.
- Relevant security or institutional problems.

Whenever a person is transferred to a Department institution pursuant to these sections; any report, opinion or certificate required/authorized to be filed with the court which committed such person to a state hospital or ordered such person placed therein, shall be prepared and filed with the court by the administrator of the institution in which the person is actually confined or by the designee of such administrator.

62030.17.2 Admission Summary

Institution staff shall prepare a case summary for each person from DMH. When processing is complete, the case shall be presented to a CSR for transfer consideration. When the case summary is completed, the receiving institution shall forward a copy to DMH.

Six months from the date of the patient's arrival at the receiving institution and each year thereafter, the Warden shall forward to DMH a case summary update, which shall contain the following information:

- The patient's present institutional program.
- A current psychiatric diagnosis and recommendation(s).
- The Warden's recommendation for future programming.

CMF and CMC are designated to receive male mental health patients. CIW is designated to receive female mental health patients. Under normal conditions, patients shall be received directly at the main institution and need not be processed through a reception center unless otherwise determined by the Warden. Such patients may be transferred to other institutions as appropriate.

62030.18 Inter-Institution Transfer DMH Patients

If a classification committee recommends the transfer of a DMH patient between the Departments institutions, the recommendation shall be prepared on a CDC Form 128-G and referred to a CSR for transfer consideration. If transfer is approved, the C&PR of the sending institution shall, by memorandum, notify DMH of the transfer and the reason therefore.

62030.19 Jurisdiction of Patients

During the time DMH patients are confined at the Departments institutions, they shall retain their status as patients of DMH.

Such patients are not subject to the provisions of PC 4500, 4501, 4501.5, 4502 or 4530. They are, however, subject to the rules and regulations of the Director. In the event of an escape, attempted escape, fight or riot, employees shall deal with such persons the same as an inmate committed to the Department.

62030.20 PC 2974 Criteria/Referrals

PC 2974 provides for the treatment of inmates or parole violators nearing release who are a danger to self or others or are gravely disabled as a result of a mental disorder.

Placement Process

The placement packet shall be prepared by the C&PR (or designee) at CMC, CMF, CIM, or CIW for inmates or parole violators or by the chief psychiatrist (or designee) of the POC for parolees.

Placement of male inmates or parole violators shall be made in ASH, female inmates or parole violators in MSH, and parolees to the facilities designated by DMH.

Placement Package

The placement packet should be sent to the DMH facility at least seven days prior to expiration of prison term for inmates so that it can be reviewed and the admission approved. The placement packet for parolees must be received and approved prior to admission unless information and approval is given over the telephone with the packet then sent with the parolee.

The placement package shall include at least the following:

- A medical/psychiatric record with the psychiatric evaluation done within the last (30) days and a progress note, if appropriate.
- Substantiation of how the patient meets the Lanterman-Petris-Short (LPS) Act, criteria must be included, with specific behaviors of the patient documented.
- An indication of the type of services requested; i.e., psychiatric evaluation and treatment, conservatorship investigation, preparole or discharge planning, or other services agreed upon by DMH and the Department.
- An institution or parole adjustment history, including a description of any serious misconduct and/or security concerns.
- Relevant parole documents describing conditions of parole and parole discharge date, and the POR, if available.

The DMH state hospital will receive, evaluate and treat the placed patient according to the LPS Act. PC 2974 patients will be eligible for the same privileges as LPS patients, including passes for placement interviews, ground privileges, etc., at the discretion of DMH staff, on a case-by-case basis.

Certification Recommendation

If certification is recommended, the DMH hospital shall notify the P&CSD designated hearing officer of the need for a certification review hearing under W&I 5250. The hearing shall be held at the DMH hospital within seven days of admission to the hospital. In the event parole has expired, the Departments' P&CSD has no statutory authority.

If certification is not recommended, or if it is determined at a certification review hearing or a judicial hearing that there is not probable cause to further involuntarily detain the patient, or at a subsequent time it is determined that the patient no longer requires hospitalization, the DMH hospital shall notify the designated parole office which shall arrange for the immediate removal of the inmate or parolee from the hospital. In the event parole has expired, the Departments' P&CSD has no statutory authority.

Continued Hospitalization (PC 2974)

If a patient is hospitalized until expiration of the patient's prison term under PC 2684, and if continued hospitalization under PC 2974 is recommended by DMH staff, the Department agrees to delegate placement authority under PC 2974 to DMH. This includes authority, as long as the patient remains on parole status, to include the patient days utilized by this patient in the state hospital services funded by the Department. DMH will notify the Department that a decision has been made to seek appropriate LPS legal status to continue to hospitalize the patient under PC 2974.

62030.21 Parole of Mentally Ill Inmates

When an inmate about to be paroled is diagnosed by a psychiatrist/psychologist as mentally disturbed and cannot be transferred to DMH pursuant to PC 2684, 2690, or 2974, the C&PR shall:

- Immediately contact the RPA and advise them of the specific facts, including the inmate's name, number, psychiatric status, release date, county of commitment and all other pertinent facts.
- Coordinate the inmate's release to permit the Parole Agent to take custody of the inmate at the institution.
- Document all pertinent facts on a CDC Form 128-B, Informative Chrono, and give a copy to the Parole Agent when the Parole Agent takes custody of the inmate. Provide a copy of the most recent clinical evaluation and a list of all prescribed medications to the Parole Agent.

The RPA shall coordinate the P&CSD's role in taking the inmate into custody at the institution as well as determining the most appropriate follow-up, which may include:

- Placing the inmate in a county mental health facility.
- Placing the inmate in custody at the nearest city or county jail pending revocation proceedings for psychiatric evaluation.
- Referring the inmate to the POC.

62030.22 Discharge of Mentally Ill Inmates

Before discharging any inmate who, because of mental illness, is deemed a danger to themselves or others, the Warden shall act to place the inmate in a facility designated by a county (and approved by DMH for 72-hour treatment and evaluation) or in a 14-day intensive treatment facility pursuant to the provisions of PC 2974.

The Warden of the releasing institution shall:

- Document the psychiatric justification for the decision that the inmate is dangerous to themselves or others or gravely disabled and should not be released to the community. Provide written notice to local law enforcement agency of these conditions.

The law enforcement agency will usually transport the inmate to the county facility and effect the commitment pursuant to the W&I 5150 or PC 2974.

The Deputy Director, Institutions, shall be notified prior to the inmate's release if local authorities are not responsive.

62030.23 Inflammatory/Threatening Inmate Remarks - Pending Parole

When an inmate makes written or verbal statements of a threatening nature and the inmate is not considered mentally disturbed following an evaluation by clinical staff (psychiatrist/psychologist), the following procedures shall be initiated:

- Institution staff shall document all inflammatory/threatening comments on CDC Form 128-B if, in their opinion, there appears to be any substance to the inmate's threats.
- A copy of all documentation pertaining to the remarks shall be forwarded to the C&PR who will evaluate the material and determine if further clinical assessment will be necessary prior to the inmate's release date. If a clinical evaluation is requested prior to parole, the results shall be documented on CDC Form 128-C, Medical Chrono.
- The clinical assessment shall be returned to the C&PR who shall notify the RPA and forward copies of all applicable documents to the RPA for appropriate action.

62030.24 Inflammatory/Threatening Inmate Remarks - Pending Discharge

The same procedures as indicated above are applicable to inmates pending discharge, except the RPA is not notified. In the case of a discharge, the C&PR shall send written notification to the respective law enforcement agency, advising it of the situation and the Department's concern.

62030.25 Revisions

The Deputy Director, Institutions or designee, shall ensure that the content of this section is current and accurate.

62030.26 References

W&I §§ 5150 and 7301.

ARTICLE 8 — INTERSTATE, FEDERAL, AND INTERNATIONAL

PLACEMENTS*

Effective October 25, 1989

Not Cleared For Statewide Use

62040.1 Policy

The Western Interstate Corrections Compact (WICC), PC 11190, and the Interstate Corrections Compact PC 11189, enable states to establish mutual contracts for the exchange of prisoners.

California has current contracts with Alaska, Arizona, Colorado, Hawaii, Idaho, Montana, Nebraska, Nevada, New Mexico, Oregon, Utah, Washington, Wyoming and the Federal Bureau of Prisons.

62040.2 Purpose

The WICC and Interstate Corrections Compact expand the inmate placement resources of participating states to more appropriately meet the special or unusual needs of individual inmates than could be met within a state's own system.

The sending state shall retain legal jurisdiction of the inmate and may at any time require the return of the inmate to its custody.

The receiving state shall provide for the custody, care and treatment of the inmate in the same manner as for its own inmates.

No special privileges, restrictions, legal exceptions or immunities are authorized.

The compacts deal with a number of these and other jurisdictional matters in more detail.

The Interstate Compact Unit, P&CSD, administers and implements prisoner exchanges with other states and the Federal Bureau of Prisons.

62040.3 Criteria

Compact resources shall not be used when the inmate's needs can be met within departmental facilities just as well as in out-of-state facilities.

Inmates whose special or unusual needs can be better met in the facilities of another state may include, but are not limited to, the following:

- Protective custody. When an out-of-state placement will resolve the specific cause or reason for the inmate's protective custody within the Department; i.e., protection of an inmate witness or informant.
- When an inmate's permanent residence, resources and plan for release are outside California, placement in another state may be considered.
- Departmental policy precludes out-of-state placement criteria for inmates who are likely to present management problems. Examples of such cases may include homosexual behavior, chronic gambling, exploitation of other inmates and gang involvement.

62040.4 Written Consent

No California inmate shall be transferred to an out-of-state institution unless they have executed, in the presence of the Warden or designee, written consent to the transfer.

The transporting officer shall verify that the written consent form is properly documented prior to taking custody of the inmate.

62040.5 Referrals

The referral for out-of-state placement shall be prepared by institution staff per Departmental Review Board (DRB) format and submitted to the DRB.

Upon DRB approval, the institution shall submit the following items to the Interstate Compact Unit:

- Abstract of Judgment.
- Two current ID photographs.
- Case summary.
- Copy of DRB action [CDC Form128-G].
- Written consent form signed by inmate.

Upon receipt of a special circumstance referral by a court, DA or law enforcement agency, the Chief, Classification Services, or the Interstate Unit, with consent of the institution involved, shall prepare and submit an out-of-state transfer recommendation to the DRB.

The DRB's action shall constitute the authority for the Interstate Unit to negotiate with out-of-state officials for the inmate's placement and, if accepted, shall arrange for transfer of the inmate.

62040.6 Confidentiality

When an inmate is placed out-of-state for protective needs, or custodial needs, all aspects of the inmate's transfer and location shall be confidential, with information limited to those employees who need-to-know in order to complete the transfer process and to protect the inmate in transit.

References to the proposed out-of-state transfer shall not appear in the sending institution's records other than the inmate's C-File.

62040.7 Mail and Property

All mail and property of those inmates transferred to out-of-state institutions shall be forwarded to the Interstate Unit by the institution's staff.

62040.8 Records and Tracking

The Chief Transportation Officer shall notify the Interstate Unit of the date the inmate is removed from the Department's institution for a transfer out-of-state.

The sending institution shall prepare and package the following material for delivery to the receiving state's institution by the transportation officer:

- An up-to-date case summary.
- A copy of the inmate's Abstract of Judgment.
- A copy of the inmate's fingerprint card.
- A minimum of one front and side view photo of the inmate.

The sending institution shall record the movement as a WICC/Interstate Corrections Compact transfer to the Interstate Unit and forward all records and files to the Interstate Unit for retention.

Inmates transferred to out-of-state placement shall be carried on the BPT calendar in central office and shall be afforded all rights as described in the BPT's Rules 2367 through 2373.

No later than six months prior to an inmate's parole or discharge, the Interstate Unit shall request prerelease information from the receiving state and prepare the inmate's release and clothing budget and transmit the funds and/or clothing to the other state.

When the inmate is to be released in the other state, the Interstate Parole Compact requirements shall be completed.

62040.9 Inspection of Out-of-State Prisons

PC 11194 requires the Director to determine the suitability of out-of-state prisons considered for placement of California prisoners under the WICC/Interstate Corrections Compact.

The Interstate Unit shall provide for initial inspection of such facilities. Ongoing determinations shall be made annually by the Interstate Unit, utilizing ACA accreditation and Federal Bureau of Prisons' reports and inspections.

The CDC Form 808, Western Interstate Correctional Compact Inspection Report, shall be completed at the time of inspection.

The original report shall be submitted to the Director through the Deputy Director, Institutions Division, and one copy each shall be sent to the Board of Corrections; P&CSD; Interstate Unit; and LAD-PMU.

62040.10 Reception - Prisoners From Other States

Approval and placement of prisoners from other states shall be arranged on behalf of the Director by the Interstate Unit.

Where feasible, the prisoner's initial reception and processing shall be accomplished at a reception center.

If a case involves medical or psychiatric problems, the case shall be reviewed by the Chief, Medical Services, to determine if the Department has facilities for proper care and, if so, which institution is best suited to provide the care.

62040.11 Progress Report

Within 90 days following the receipt of a prisoner from another state, the receiving institution shall furnish the sending state an institutional staff recommendation summary.

Thereafter at six-month intervals the institution shall furnish the sending state a report giving a summary of the inmate's progress and adjustment since the last report, including a recommendation for retention or return.

Five copies of the progress report shall be prepared and signed by the counselor and distributed to the BPT, legal counsel; inmate's C-File; and the inmate.

A transmittal letter signed by the Warden shall be prepared to forward the report directly to the sending state.

The copy of the report sent to the Interstate Unit, Attention: Corrections Compact Coordinator shall be reviewed and retained in the inmate's C-File.

62040.12 Transfer

Transfers from the reception centers to other institutions shall be handled as other reception cases, unless unusual aspects of the case require special review by the Chief, Classification Services, or the DRB for placement determination. The Interstate Unit shall be notified any time the inmate is transferred and prior to the inmate's release.

62040.13 Records

Whenever practical, the record files of cases from other states shall approximate the form/format of records for the Department's inmates.

The Warden of institutions where inmates from sending states are confined shall keep all necessary records concerning such inmates in a manner agreed upon between the sending and receiving states.

While the inmate remains in the institution, the sending state shall, upon request, be furnished with copies of any records.

Upon termination of the inmate's confinement, the institution shall forward the complete file of the inmate to the sending state.

Nothing contained herein shall be construed to prevent the receiving state or any institution thereof, from keeping copies of any such records upon and after termination of confinement.

62040.14 Federal Prisoners

PC 2090 and 2902 and a contract with the Federal Bureau of Prisons permits the acceptance of federal prisoners to institutions of the Department.

62040.15 California Prisoners

PC 2911 and a separate contract with the Federal Bureau of Prisons permits the placement of California prisoners in the Federal Bureau of Prisons' institutions.

62040.16 Consent

No inmate shall be transferred to a federal facility unless they have executed, in the presence of the Warden or designee, a written consent to transfer CDC Form 802, Federal Prison System Placement Agreement.

Inmates shall be informed of their right to private consultation with an attorney of their choice concerning one's rights and obligations under PC 2911.

An inmate may revoke such consent prior to transfer.

The transporting officer(s) shall verify that the consent was obtained prior to taking custody of the inmate.

62040.16.1 Progress Reports

Progress reports for federal prisoners in state custody shall be submitted to the Director, Federal Bureau of Prisons, annually starting from the prisoner's reception.

62040.16.2 Release

Release of federal prisoners in state custody may be accomplished only by order of the federal court or Director, Federal Bureau of Prisons.

Upon release, the inmate's C-File shall be updated, a closing summary added to the case summary and then forwarded to the Department's Archives Unit.

Release shall be within this state unless the prisoner, the state and the federal government agree upon release to some other state.

62040.17 Prisoners to Other Countries

GC 12012.1 permits the Department to make provisions for inmates who request transfer to their country to complete a prison sentence. The Transfer Treaty is administered by the BPT.

At the present time, transfers may be considered with Canada, Bolivia, Mexico, Peru, Panama, Turkey, France, United Kingdom, Sweden, and Spain.

62040.17.1 Criteria, France

The inmate is a citizen of France.

The inmate has at least one year left to serve at the time of the transfer request.

The sentence is final.

The inmate's controlling offense is punishable as a crime under the laws of both countries.

The inmate was not convicted of a military offense.

The inmate gives their consent.

62040.17.2 Criteria, Other Countries

The inmate is a citizen of the country to which they request transfer.

The inmate has at least six or more months remaining on their sentence at the time of the request.

The inmate has no pending appeal or collateral attack on the judgment or sentence.

The inmate had not lived in the U.S. more than five years prior to the present sentence.

The inmate was not convicted for a political, military or immigration offense.

62040.18 Screening

When an inmate indicates an interest in the transfer treaty program, their counselor shall screen the inmate's records to determine if the inmate meets the above criteria.

If the inmate does not qualify, the inmate shall be provided, in writing, the reasons why and a copy shall be sent to the BPT, legal counsel.

62040.19 Processing

Male inmates may be referred to the appropriate local classification committee for transfer consideration to RJD, where the process will be completed.

- If recommended, the case shall be referred to the CSR for endorsement to RJD.
- Those male inmates who cannot be placed in RJD general population, shall be processed at their institution of residence as indicated below, and not transferred to RJD.
- If the inmate is found not to be eligible for the program after his arrival at RJD, he shall be presented to a CSR for appropriate return or placement.
- Female inmates shall be processed at their institution of residence by their respective Correctional Counselor, as indicated below.

The inmate's counselor shall have the inmate complete CDC Form 830, Transfer Treaty Program Application and Certification.

The inmate's counselor shall complete the Prisoner's Transfer Progress Report.

A copy of each shall be provided to the inmate and a copy placed in the inmate's C-File.

A copy of the inmate's case summary and copies of the following completed forms and report shall be forwarded (as appropriate to the case) to the BPT legal counsel:

- BPT Form 1001, Life Prisoner - Decision Face Sheet.
- BPT Form 1010, Parole Decision ISL Prisoner.
- BPT Form 1094, Serious Offender Decision - Face Sheet.

- BPT Form 1095, Serious Offender Hearing - Decision (1170.2 (B)).
- CDC Form 830, Transfer Questionnaire (original).
- CDC Form 678, Cumulative Case Summary Confinement Computation.
- Prisoner transfer program report.

The BPT shall process the case and notify the institution of acceptance or rejection.

62040.20 Revisions

The Deputy Director, Institutions, or designee shall ensure that the content of this section is current and accurate.

ARTICLE 9 — SPECIAL PLACEMENTS

Effective October 30, 1989

62050.1 Policy

Inmates committed to the Department who require specialized housing placements, shall be identified and evaluated for transfer to a special placement facility to ensure the safety of the inmate, security of the institution, and the safety of others.

62050.2 Purpose

This section establishes standard procedures for the identification, evaluation and transfer of inmates requiring specialized housing placement.

62050.3 Out-to-Confidential Placements (OTCP)

Purpose

OTCPs are out-of-Department, in-state transfers of inmates from a facility of the Department to a city or county confinement facility within the State. Such placements are normally used for temporary housing pending arrangements for more permanent placement. The inmate's transfer shall be a confidential matter, and all transfer documents shall only be noted as "Out-to-Confidential Placement".

62050.3.1 Referrals

Requests for OTCP shall be referred to the Departmental Review Board (DRB) through the Chief Deputy Director. In emergency situations the Chief Deputy Director may authorize such placement before the DRB action; however, the referral shall still be made to the DRB in all cases to document the reason and approval.

62050.3.2 Arrangements

Upon the Chief Deputy Director's or DRB's authorization, the case shall be referred to the Assistant Director, LEIU who shall coordinate arrangements between the LEIU Office and city or county officials for the inmate's placement and transportation.

62050.3.3 Reimbursements

The Department shall reimburse the city or county for the costs of such service. Billings must be addressed to the Assistant Director, LEIU, who shall verify the period of the billing, and forward the billing to the accounting office for payment.

City and county officials shall be instructed not to send billings to the institution because the danger exists that persons who should not know the inmate's location may become aware of it through the billing.

62050.3.4 Confidentiality of Location

An inmate's OTCP movement and the location are confidential. Only those persons who have a legitimate need-to-know may be informed of movement schedules and the inmate's new location. Any persons inquiring as to the inmate's location shall be referred to the Assistant Director, LEIU.

62050.3.5 Records

The inmate's records and files shall be retained by the sending institution until the inmate is returned to a departmental facility. The Assistant Director, LEIU, shall notify the institution's CCRM and C&PR when the inmate is returned to a Department institution or has been transferred to another jurisdiction.

C-File

In the inmate's C-File, the CDC Form 112, Chronological History, the institution locator files and data entry to OBIS shall be posted with "OTCP" (in the same way that out-to-court cases are posted) and the date of transfer

to OTCP status. The inmate's specific location shall not be shown on any record maintained by the institution, except as may be specifically authorized by the Assistant Director, LEIU.

BPT (BPT, Board) Calendar

The inmate remains in the technical custody of The Director and the sending institution while on OTCP status and shall be carried on the institution's BPT calendar. The CCRM shall notify the Assistant Director, LEIU, of any scheduled Board hearings and release dates of inmates on OTCP status at least 60 days before the scheduled event.

Mail

Any mail and other material received or prepared by an institution for an inmate on OTCP status shall be forwarded to the Assistant Director, LEIU.

62050.3.6 Return to Department Custody

When the OTCP is no longer required and the inmate is returned to the Department's facilities, the Assistant Director, LEIU shall refer the case to the Chief, Classification Services, with a recommendation for housing.

If the inmate is returned to the sending institution, the movement shall not be reported on the institution's Daily Movement Sheet. The inmate's C-file, CDC Form 112, institutional location cards, and data entry to OBIS shall be posted "returned from OTCP" and date of arrival.

Record Keeping

If the inmate is returned to another institution, both institutions shall report the movement as a routine transfer between institutions. The receiving institution shall post the CDC Form 112 in the inmate's C-file as being received from the sending institution by OTCP.

When an inmate on OTCP is transferred to another state or to a federal institution, the movement shall be reported as an administrative transfer to FSP.

62050.4 Restricted Housing Unit (RHU)

Location

A section of CCI's AD-SEG has been set aside as a high security unit for the housing of departmental protective custody, special interest, cases. The unit is referred to as a RHU to emphasize its highly restricted nature.

62050.4.1 Approval for Placement

The unit shall not be utilized for the AD-SEG, DD or temporary holding of any inmate without the prior approval of the Assistant Director, LEIU. The unit shall not be an option for consideration by classification committees or CSRs in recommending or approving inmate transfers.

Inmate transfers to and from the RHU require the approval of the Assistant Director, LEIU.

62050.5 County Safekeepers

Authorization

Pursuant to PC 4007, the Department may confine certain prisoners in its facilities, for any county in California.

62050.5.1 Threat of Forced Removal

When there is belief that a prisoner might be forcibly removed from a county jail, the sheriff may transport the prisoner to any departmental institution for safekeeping.

Warden Acceptance

The Warden shall accept and detain such cases until removal is ordered by the superior court of the county from which the person was delivered. Immediately upon receiving such a prisoner, the Warden shall notify the Director in writing. There is no PC provision for reimbursement for such cases.

62050.5.2 Threat to Persons, Jail Property or Health

When there is belief that a group of prisoners in a county jail are acting in concert and are a threat to others in the jail or are likely to cause substantial damage, with the consent of the Director, the court may, upon request of the county sheriff, designate the confinement of such prisoners in a departmental institution.

The court shall calendar the matter for a hearing within 48 hours of the order or the next judicial day to determine if it shall continue or rescind the order. The prisoner is entitled to be present and to be represented by counsel at the hearing. The court may modify or vacate such order at any time.

The rate of compensation for that confinement within a California State prison or facility shall be established by the Department and shall be a charge against the county making the request for confinement.

Prisoner Placement Consent

The Warden is delegated to act for the Director in consenting to the prisoner's placement in the institution.

62050.5.3 Medical and Psychiatric Records

The medical records of county prisoners accepted for safekeeping shall, when possible, be forwarded to the institution designated to receive the prisoner prior to the transfer. In emergency transfers, the records may be delivered with the prisoner.

Any psychiatric/psychological reports or case information that will aid the institution in handling the safekeeper shall be sent with the medical reports. This shall be agreed upon as a condition of acceptance.

62050.6 Inmates With Death Sentences**Reception, Condemned Males**

SQ is the reception center for all male inmates with a death sentence unless the Director has designated another institution as the place of reception. Death sentence inmates shall not be transferred to any other institution without the prior approval of the DRB and the Director. Exceptions may be made for temporary transfer to CMF for urgent or emergency medical treatment with prior approval of the Director, Chief Deputy Director or Deputy Director, Institutions.

Reception, Condemned Females

The CIW is the reception center for all female inmates with a death sentence. Upon exhaustion of her appeal and by order of the Deputy Director, Institutions, a female inmate sentenced to death shall be transferred to SQ within three days of her execution date.

62050.6.1 Processing

The Warden shall ensure that an Institutional Staff Recommendation Summary is prepared within 90 days of the inmate's arrival. A copy of each summary shall be forwarded to the Chief, Correctional Case Records Services.

62050.6.2 Informing The Director/Governor

The Warden shall keep the Deputy Director, Institutions Division, the Director and Governor informed of any developments pertinent to condemned cases.

Records Processing

Summaries, reports and notice of any judicial, administrative or executive action taken in death sentence cases shall be forwarded to the Director, by the Deputy Director, Institutions Division. Information concerning appeals filed by the inmate shall include, if possible, the names of the attorneys of record and any other information available from documents filed with the institution and shall also be transmitted to the Director, by the Deputy Director, Institutions Division. The Director shall forward one copy of the above material to the Governor, by the Legal Affairs Secretary, and to the BPT. One copy of the above material shall also be forwarded to the AG's Office in San Francisco by the Warden.

62050.6.3 Commutation

An inmate whose death sentence is commuted shall be transferred to a Reception Center to complete case processing.

The DRB shall determine the inmate's institution placement.

62050.7 Inmates Serving Life Terms**Murder 1st, Life W/O Possibility of Parole (LWO) Cases**

Inmates serving an LWO sentence shall be housed in a Level IV institution. Any exceptions to this placement shall be by DRB action.

Institutions with other than a Level IV designation housing LWO inmates shall review these cases annually to determine if case factors continue to support their current placement.

62050.7.1 25-to-Life and Long-Term Determinate Cases

Inmates serving a 25-to-life or long-term determinate sentence may be placed in a Level III institution unless any of the following factors are present:

- High notoriety or special interest cases involving extreme violence or extensive sexual assault. A special interest case is defined as one which received extensive media coverage, beyond the locale of the offense or trial.
- A history of multiple walkaways or an escape or attempted escape with force or the threat of force from an armed perimeter.
- A history of serious behavioral problems during the current term or prior term.
- A commitment offense which involves multiple murders, a 25-to-life sentence with enhancements which exceed three years or a maximum Determinate Sentencing Law term for more than 39 years, unless three years with good behavior have been served.
- Any outstanding felony holds/detainers, unless three years with good conduct have been served on the term.

62050.7.2 7 or 15-to-Life and Long-Term Cases

New arrivals serving a sentence of seven to life or 15 to life are endorsed by a CSR at the reception center for appropriate level placement.

Medical/Psychiatric

Inmates requiring medical or psychiatric treatment who are completing a life term, shall be placed at an institution specifically staffed for this treatment.

62050.7.3 Exclusion of Life Inmates From Level I or II Placement

An inmate serving any life term whose classification score has reached either level I or level II designation shall not be approved for placement in a Level I or II institution if one or more of the following factors exist.

- The commitment offense is for multiple murders, crimes of unusual violence or execution-type murders and received high notoriety.
- They have other sentences, enhancements or holds which constitute a term of 5 years or more.
- The inmate's case history includes multiple walkaways or escape from a secure perimeter or escape with force or threat of force.
- An inmate serving a life term without an established parole date of three years or less shall not be housed in a Level I institution or assigned to a program outside a security perimeter.
- An inmate serving a life term whose classification score has not reached level I or level II classification level shall not be placed in a level I or II facility except by DRB action.

62050.8 Parole Violators (PV)**Surrendering at Institution**

When a parolee reports to an institution and requests admittance, they shall be interviewed by staff, preferably a Correctional Counselor prior to classification. Facts concerning their original offense, length of time on parole, criminal or technical violations while on parole and reason for the surrender shall be determined. Institutional staff shall ascertain that the person is a parolee by referring to institutional records or contacting:

- The Identification & Warrants Unit at (916) 445-6713 or ATSS 485-6713.
- The P&CSD's unit office under which the person was supervised.
- The regional parole office having jurisdiction over the office where the person was on parole.

The sheriff or chief of police of the nearest city shall be requested to take the parolee into custody pending disposition by the P&CSD.

62050.8.1 Departmental Bus

Arrangements for the departmental bus to pick up technical PVs at county jails located along the normal routes may be made by the Deputy Director, P&CSD, with the Chief Transportation Officer. These PVs shall be immediately transferred to the designated reception center, depending upon the parole region of assignment.

62050.8.2 Voluntary and Emergency Medical/Psychiatric Care

Revised April 5, 2015

Whenever a parolee requires medical care, it shall ordinarily be provided by private physicians and facilities in the community. Costs for such care shall be provided by the parolee's own resources or community welfare funds.

If the parolee is without sufficient funds, every effort shall be made to establish their eligibility for financial assistance (such as Medi-Cal) to enable utilization of local resources. Return to prison for health care services that are normally available in the community shall be utilized only if all other efforts to obtain health care fail.

Medical/Surgical/Dental Cases

When a parolee requires medical, surgical, psychiatric or dental care of an emergency nature, and all efforts to obtain community services have failed, the parolee may consent to be returned to a correctional institution. The parole unit supervisor or designee shall contact the CMO, Medical Officer-of-the-Day (MOD) or Chief Psychiatrist of the institutions designated:

- Males to CIM, California Mens Colony - East (CMC-E), CMF or females to CIW.

If the patient's condition does not permit transfer to one of the above facilities, any institution may be utilized. On the next business day, the appropriate parole authority shall be notified of the return.

Psychiatric Cases

Males from Parole Northern Region are placed at CMF.

Males from Parole Southern Region are placed at CIM-RCC for initial custody/treatment screening prior to transfer to CMF or CMC-E or CIM. Females from Parole Northern and Southern Region are placed at CIW.

Transfer Requests

Transfers shall be made during regular work hours. When necessary to effect a move during other than normal hours (nights, weekends or holidays), approval for the acceptance of a parolee shall rest with the institution's Administrative Officer-of-the-Day and/or the MOD.

The administrator who approves an emergency transfer shall follow up by notifying the institution's C&PR on the next workday for purposes of attaining necessary records and to ensure the case is brought to the attention of the appropriate parole authority.

When the parolee is medically cleared the C&PR of the holding institution shall notify the parolee's district administrator to effect removal from the institution by reinstatement on parole or other appropriate action. Such notification shall be made a matter of written record.

62050.8.3 Escapees

Escapees returned to the Department shall be processed as follows:

- Escapees from CRC and CIM shall be housed in the Reception Center, Central at CIM. However, the case shall be processed by staff of the institution from which the inmate escaped.
- All other escapees shall be returned to and processed at the institution from which they escaped.

62050.9 BPT Transfer Requests

Inmate Diagnosis and Treatment

The BPT may request that the Director transfer an inmate when its review of a case determines the transfer is advisable for further diagnosis or treatment. The Department shall comply with the request where diagnostic facilities are, or become, available unless such a transfer violates the Department's policy or would threaten institutional security.

The BPT shall be advised of any determination that precludes such a transfer at the earliest reasonable time. It is the responsibility of the C&PR to advise the BPT if the request cannot be fulfilled.

CSR/DRB Review

If a CSR determines that the BPT request would violate departmental policy or present a security risk, they shall indicate this determination on the CDC Form 128-G, General Chrono, and request that the institution refer the case to the DRB. The C&PR shall advise the BPT if the request would violate departmental policy or present a security risk. If the BPT reaffirms its decision, a DRB referral shall be processed.

If the DRB determines the request is appropriate, a copy of its decision shall be sent to the referring institution. If the request is determined to be inappropriate, then that decision, including rationale, shall be noted on a CDC Form 128-G, and a copy shall be sent to the referring institution and BPT Chairman.

62050.9.1 BPT Placement Requests

Processing

A BPT recommendation for placement of an inmate in a departmental program for diagnosis or treatment shall be entered on BPT Forms 1010 and 1001.

The counselor shall schedule the inmate for post-board classification and discuss the BPT request with the inmate.

If the inmate agrees with the request and there is no problem in satisfying the request, the case shall be referred to a CSR.

If the inmate refuses to participate, the committee shall note their refusal on the CDC Form 128G and bring the refusal to the BPT's attention at the inmate's next regularly scheduled Board hearing.

62050.10 Special Housing Assignments

Policy

The Department shall provide secure housing apart from its general inmate population for the supervision and control of those inmates who endanger institutional security or the safety of themselves or others. Such housing is defined as AD-SEG and specifically the units shall be designated per the following sections:

62050.10.1 Special Housing - Temporary

AD-SEG - Temporary: Provides housing during the period of initial segregation pending the outcome of an investigation and placement by classification action.

AD-SEG provides secure housing upon the initial period of separation from the general population for any reason until a classification committee has determined whether the inmate's placement should be in a specialized housing unit or in the general population.

62050.10.2 AD-SEG Housing

Each institution shall designate and have approved by the Deputy Director of Institutions, a maximum number of beds for AD-SEG in a secure facility section as follows:

- Housing shall be in a secure designated unit with custody established at no lower than Close B.

Note: The reception center at CIM shall provide such housing for CRC.

62050.10.3 AD-SEG Criteria

Placement in AD-SEG shall be limited to those cases where reasons exist that the inmate's continued presence in the general population would do any of the following:

- Endanger the security of the institution.
- Jeopardize the integrity of a serious misconduct or criminal investigation.
- Endanger the safety of the inmate or others.

62050.10.4 Confidential Information Verification/Disclosure

An inmate shall not be placed or retained in segregation on the basis of undisclosed information unless staff verifies that to identify the source of information would endanger the safety of the source or institutional security.

When confidential information is used to place or retain an inmate in AD-SEG or to support charges on a CDC Form 115, Rules Violation Report; a Confidential Information Disclosure (CDC Form 1030) shall be prepared [refer to DOM 61020]. A copy of the confidential information disclosure form will be given to the inmate at least 24 hours prior to the initial AD-SEG classification review or the disciplinary hearing. The document shall reveal as much information as possible without identifying the source. The document shall evaluate the reliability of the source and a statement of the reasons why the identity of the source is not disclosed.

62050.10.5 AD-SEG Procedure

Reason for Placement

All determinations affecting an inmate's placement, degree of custody, or program while in AD-SEG shall be through the classification process.

Authority to order an inmate's placement shall not be delegated below the level of lieutenant except when lower level staff is the highest-ranking official on duty.

Within 48 hours of AD-SEG placement, a staff member not less than a lieutenant or CC-II shall provide the inmate with a CDC Form 114 D, Order and Hearing for Placement in Segregated Housing; or CDC Form 115 which documents a clear and specific reason for their removal from the general population.

Within two work days following an inmate's placement in Ad.-Seg, staff designated at not less than the level of captain shall review the order portion of the CDC Form 114-D to make a determination regarding retention in AD-SEG.

62050.10.6 Institutional Classification Committee (ICC) Review

An inmate's placement in temporary AD-SEG shall be reviewed by the ICC within ten days of receipt in the unit. ICC shall determine whether to retain in temporary segregation or release to the general population. ICC shall review the inmate at least every 30 days thereafter until the inmate is released from temporary segregation.

62050.10.7 CSR Review

ICC shall refer for CSR review and approval, any case retained in temporary AD-SEG for more than 30 days. ICC shall make a recommendation concerning continuance in temporary segregation pending completion of an investigation, resolution of court proceedings or transfer to another facility. ICC shall designate an anticipated length of time needed to complete the investigation or court process.

62050.11 PHU

PHUs provide secure housing for inmates whose safety would be endangered by general population placement.

62050.11.1 PHU/Custody Designation

PHUs shall be designated housing for inmates which custody requirements have been established at no lower than Maximum B custody.

62050.11.2 PHU/Criteria

An inmate whose safety would be endangered by general population placement may be placed in the PHU providing the following criteria are met.

- The inmate does not require specialized housing for reasons other than protection.
- The inmate does not have a serious psychiatric or medical condition requiring prompt access to hospital care.

- The inmate is not documented as a member or an affiliate of a prison gang.
- The inmate does not pose a threat to the safety or security of other inmates in the PHU.
- The inmate has specific, verified enemies as identified on CDC Form 812 (Notice of Critical Case Information - Safety of Persons) likely to and capable of causing the inmate great bodily harm if placed in general population.
- The inmate has notoriety likely to result in great bodily harm if placed in the general population.
- There is no alternative placement which will ensure the inmate's safety and provide the degree of control required for the inmate.
- It has been verified that the inmate is in present danger of great bodily harm.

The inmate's uncorroborated personal report, the nature of the commitment offense, or record of prior protective custody housing shall not be the sole basis for PHU placement.

62050.11.3 CSR Review

Each classification committee recommendation for PHU placement shall be presented to the next available CSR. Alternative placement shall be approved or the case deferred for presentation to the designated PHU CSR.

62050.11.4 Emergency PHU Placement by CSR

Approval by the designated PHU CSR is required for all PHU placements. Emergency transfer approval may be granted by the Classification Services duty officer by FAX to avoid unusual delays. A copy of the emergency FAX approval shall be routed to the designated PHU CSR by the Classification Services duty officer.

Inmates in PHU who are recommended by a committee for alternative placement shall be processed in the same manner as a routine transfer and do not require endorsement by the designated PHU CSR.

62050.12 Psychiatric Services Unit (PSU)

Revised February 16, 2007

A PSU provides secure housing and care for inmates with diagnosed psychiatric disorders not requiring in-patient hospital care, whose conduct threatens the safety of themselves or others.

62050.12.1 PSU Criteria

Revised February 16, 2007

Criteria for placement in PSU is as follows:

- The inmate shall be diagnosed as suffering from a major psychiatric disorder but not disabled to the extent requiring hospitalization.
- The inmate's conduct poses a serious threat to the safety of themselves or others if housed in the general population.
- The inmate is capable of participating in unit or group activity without undue risk to the safety of themselves or others.

62050.12.2 CSR Approval

Revised February 16, 2007

Inmates who require PSU housing and meet the established criteria, shall be referred by a classification committee to a CSR for PSU placement. The referral shall include a CDC Form 128-C, Medical Chrono; indicating the psychiatric disorder diagnosis and recommended placement.

Approval by the designated CSR is required for PSU placement.

62050.12.3 Alternative Placement

Revised February 16, 2007

Inmates in the PSU who are recommended by a committee for alternate placement shall be processed in the same manner as a routine transfer request, except that a current CDC Form 128-C is required for the CSR's review.

62050.13 SHU

SHUs provide secure housing for inmates whose conduct endangers the safety of others or the security of the institution.

Inmates assigned to SHU shall be designated Maximum A or Maximum B custody.

62050.13.1 Release From SHU

An inmate shall be released from SHU upon expiration of their Minimum Eligible Release Date (MERD), if any, or after twelve (12) months of consecutive confinement, whichever is shorter, unless before the MERD or period expires they are afforded all the hearing rights that attend initial placement in segregation.

62050.13.2 SHU Criteria

An inmate shall be placed in SHU if:

- The inmate has requested segregation for their own protection and the need can be substantiated by appropriate staff.
- The inmate is newly arrived at the institution and more information is needed to determine whether the inmate may be incompatible with any element of the general population. No inmate shall be involuntarily segregated for this reason for more than ten (10) days.
- The inmate has been found guilty of a disciplinary offense sufficiently serious to warrant confinement for a fixed term in segregation, and the term is fixed in conformance with the SHU Term Assessment Chart.
- The inmate's continued presence in general population would severely endanger lives of inmates or staff, the security of the institution or the integrity of an investigation into suspected criminal activity.

62050.13.3 SHU Placement/Undisclosed Confidential Information

An inmate shall not be placed or retained in a SHU on the basis of undisclosed information.

62050.13.4 Withholding Confidential Information at Placement Hearing

The identity of any person providing information cited in support of placement or retention of an inmate in a SHU may be withheld at the hearing only if disclosure would endanger the safety of the source or institutional security.

62050.13.4.1 Statement of Reliability

In any instance where the identity of the source is withheld, the inmate shall not be placed or retained in a SHU in absence of a CDC Form 1030, available to the inmate, setting forth an evaluation of the reliability of the source and a statement of the reasons why the identity of the source is not disclosed.

62050.13.5 Procedures/Institutions Without SHU

The ICC shall recommend appropriate cases for an indeterminate period of confinement or shall establish a determinate term and present the case to a CSR within 30 days of AD-SEG placement, but in no case later than 45 days. Inmates in AD-SEG endorsed for and awaiting transfer to a SHU shall be deemed a SHU inmate.

Each institution shall establish a determinate period of confinement in SHU for serious offenses that occurred at that facility.

62050.13.6 Procedures/Institutions With SHU

The Unit Classification Committee (UCC) shall assign the appropriate custody for inmates endorsed for SHU from other institutions.

The UCC shall assign the appropriate custody and recommend a determinate term or indeterminate status when the conduct causing the inmate's placement occurred at that institution.

62050.13.7 SHU Placement Review by UCC

The UCC shall also recommend the commutation, suspension or release from a determinate term and the imposition, retention or release from indeterminate status and the assessment of a subsequent SHU term if it is viewed as appropriate.

62050.13.8 ICC Review of SHU Placement

The ICC shall place the inmate on indeterminate SHU status or establish a determinate term when the conduct causing the inmate's placement occurred at the institution.

62050.13.9 Release From SHU After 12 Months

The ICC shall also act to retain or release SHU inmates who complete a determinate term or 12 months of SHU confinement.

62050.13.10 CSR – SHU Review

Such cases shall be referred by ICC to a CSR within 30 days, but no later than 45 days from initial placement or the recommendation to release or retain the inmate in SHU. The CSR referral shall include a placement recommendation.

62050.13.11 Resolving CSR Disagreements With ICC

The CSR shall refer the case to the Chief Deputy Warden for review if there is a difference of opinion with the ICC action.

62050.13.12 SHU – DRB Actions

Differences of opinion not resolved by the Chief Deputy Warden shall be submitted to the Chief, Classification Services, in Departmental Review Board format for resolution.

62050.13.13 SHU Terms

Establishing Terms

SHU terms shall be established by ICC using the SHU Term Assessment Chart and the following forms: CDC Form 629C, Factors in Mitigation or

Aggravation, CDC Form 629A, SHU Term Assessment Worksheet, CDC Form 629B, Assessment of Subsequent SHU Term Worksheet, and the CDC Form 629D, SHU Time Computation Table.

62050.13.13.1 Establishing SHU Term at Expected Range

The term shall be set at the expected term for the offense in the absence of mitigating or aggravating factors. Deviation from the expected term shall be supported by documentation of circumstances in aggravation or mitigation on the CDC Form 128-G.

62050.13.14 SHU Computation on CDC Form 629-A

The terms shall be recorded on CDC Form 629-A using the SHU Time Computation Table which incorporates one quarter Good Time Credit in the term. The computation establishes a maximum release date and a MERD. A copy of the CDC Form 629-A shall be given to the inmate.

62050.13.15 Documenting SHU Terms on CDC Form 629-B

Serious misconduct while in SHU may result in a determinate term for inmates on indeterminate status, or loss of clean conduct credits or an additional SHU term for those serving determinate terms. An additional term may be concurrent or consecutive and shall be recorded on CDC Form 629-B with a copy to the inmate. Such cases do not require CSR review.

62050.13.16 Establishing Consecutive SHU Terms

Consecutive SHU terms shall only be assessed for offenses that occur after establishing the initial SHU term. Any offense(s) that occur(s) in AD-SEG awaiting computation of the initial determinate term shall be assessed on the CDC Form 629-A.

62050.13.17 Commuting MERDS by ICC and CSR Referral

The ICC may commute or suspend any portion of a determinate term. Once commuted, the term shall not be re-imposed. If suspended, the period of suspension shall not exceed the length of the original term imposed. When either action occurs, the case shall be referred to a CSR with a placement recommendation.

62050.13.18 SHU Classification Review

The UCC shall conduct classification hearings on all indeterminate cases to determine the need for SHU retention in 120-day intervals.

62050.13.19 CSR Annual Review of SHU Indeterminate Cases

When alternate placement is possible, the UCC shall refer the case to a CSR with a recommendation. The ICC shall review all indeterminate cases and refer them to the CSR at least annually for alternate placement consideration.

62050.13.20 UCC 30-Day Review of Determinate SHU Cases

The UCC shall conduct hearings on all determinate cases at least 30 days prior to their MERD expiration or during the eleventh month from the date of placement, whichever comes first.

62050.13.21 SHU Retention/Due Process

Inmates who are being considered by a UCC for SHU retention beyond 12 months shall be afforded all the hearing rights that attend initial AD-SEG or SHU placement.

62050.13.22 Serving SHU Terms in Approved SHU Facilities

Determinate SHU terms shall only be served in a departmentally approved SHU or a facility specifically designed for that purpose.

62050.13.23 ICC/Suspension of SHU Terms

When an inmate is found guilty of an offense listed in the SHU Term Assessment Chart and the ICC does not believe placement in SHU is warranted based on the circumstances of the offense, or other factors, it shall establish a term of confinement and commute or suspend the term.

62050.13.24 ICC Review of Incomplete SHU Terms

Parolees Returned to Prison

When an inmate paroled while serving a determinate term, the remaining time on the term is automatically suspended. When an inmate returns, either as a PV or with a new prison commitment, ICC shall evaluate the case for re-imposition of the suspended determinate term. If re-imposed, the term shall not exceed the time remaining on the term at the time of parole.

62050.14 Illegal Aliens (Transfer/Release)

Male inmates who are illegal aliens shall be transferred to SQ or RJD 30 to 45 days prior to their scheduled release date. Transfers shall be accomplished to facilitate deportation hearings by Federal Immigration Judges in compliance with the Immigration Control and Reform Act of 1986.

Transfer Endorsements

The institution C&PR shall review and endorse the transfer of identified illegal alien inmates to SQ or RJD for the purpose of Federal Immigration Hearings. These inmates will not require C&PR review and endorsement.

Placement

Inmates initially processed into Department from reception centers at CIM or CCI shall be transferred to RJD. Inmates initially processed into the Department from all other Department reception centers shall be transferred to SQ.

Female Aliens

Female inmates who are illegal aliens will be processed into the Department, receive deportation hearings, and released from either the CIW, NCWF or CRC.

62050.14.1 Illegal Aliens (Excluded)

Illegal aliens who are civil commitments or are housed in a SHU, PHU, pending a serious CDC 115 or have a felony hold, shall not be subject to transfer for deportation proceedings.

62050.14.2 Illegal Aliens (Records)

The C-files of illegal alien inmates transferring shall be audited by the sending institution and contain all completed documents required to process the inmate's parole.

62050.15 CIW Support Care Unit (SCU)

The SCU is an unlicensed facility intended to provide housing for inmates who are in remission from mental illness and those who are incapable of participating in the regular institution program. Inmates housed in the SCU will be provided a program that includes occupational therapy and group counseling.

Inmates with acute mental illness shall be referred for treatment to Metropolitan State Hospital.

CCR Article 7.

ARTICLE 10 — BEHAVIOR MANAGEMENT UNIT

Effective April 2, 2009

62060.1 Policy

It is the policy of the Department to provide alternate General Population (GP) housing and programming for those inmates who are deemed program failures, who participate in organized criminal activity (gang activity), who refuse to participate in racial integration when otherwise eligible for such housing, who refuse to double cell, and those released from the Administrative Segregation Unit/Security Housing Unit (ASU/SHU).

62060.2 Purpose

The purpose of the Behavior Management Unit (BMU) program is to modify recalcitrant inmate behavior, eliminate and reduce the opportunity to repeat the behavior, and provide non-disruptive inmates the ability to program without continual interruption, due to the behavior of a smaller, more disruptive segment of the inmate population.

62060.3 Implementation

Inmates must be referred to a Classification Committee for placement into the BMU. The Classification Committee acts to review those inmates who are currently or may become participants in the BMU. An inmate may be placed in the BMU for one or more of the following reasons:

- **Program Failure**

Program failure, as defined by the California Code of Regulations (CCR), Title 15, Section 3000.

- **Security Housing Unit (SHU) Offense as defined in CCR, Section 3341.5**

If an inmate has been found guilty of an offense for which a determinate term of confinement has been assessed, whether imposed or suspended, or whose in-custody behavior reflects a propensity towards disruptive behavior, the inmate may be referred to a classification committee for placement in the BMU.

Inmates currently serving a determinate SHU term whose in-custody behavior reflects a propensity towards disruptive behavior, which otherwise would not be eligible for additional SHU term assessment, shall be considered by the Institutional Classification Committee (ICC) for placement in a BMU upon completion or suspension of the SHU term.

Inmates that have reached the Minimum Eligible Release Date (MERD) and have demonstrated an unwillingness to program in the general population

may be reviewed by the Classification Committee for BMU placement consideration.

• **Gang Related Activity**

Any pattern, which consists of two or more documented behaviors which indicates an individual's participation in gang related activity, may be grounds for placement in the BMU. Gang related activity is defined as behavior which indicates an inmate's participation in a gang, prison gang, street gang or disruptive group as defined in CCR, Section 3000. Examples of this type of behavior include, but are not limited to:

- Participating in gang related riots.
- Participating in gang related batteries or physical assaults.
- Distribution of property, material, or items in an effort to generate revenue for the purpose of financing/furthering the prison gang or street gang's illegal activity (e.g. drug trafficking, extortion, etc).
- Evidence of attempts to recruit others to participate in prison gang or street gang activities.
- Participating, directly or indirectly, in any misconduct that could be related to a specific type of gang behavior (e.g. cadence, flagging, sagging, possession of gang graffiti, etc).
- A history of participating in disruptive behavior or inciting violence and unrest.
- Management Concern, as defined in CCR, Section 3000.

62060.4 Classification Committee Hearing

Inmates who meet the criteria for placement in the BMU program per Section 3334 shall be reviewed by a Classification Committee after initial placement in the BMU program. The Classification Committee shall review and approve the step change for each BMU inmate as recommended by BMU staff not less than every 30 days.

The Classification Committee shall be responsible for providing the inmate with notification of the rules and intent of the BMU program. The CDC 128-G, Classification Chrono, shall clearly state that the inmate was informed of the reason for placement, the length of placement, and any additional action the inmate must take to successfully complete the BMU program.

62060.4.1 Initial BMU Placement

Initial BMU placements shall be for a minimum of 90 days beginning on the date of reception into the BMU.

62060.4.2 Subsequent BMU Placements

Minimum of 180 day BMU placement beginning on the date of reception into the BMU.

Inmates who require subsequent placement will be monitored by BMU staff to ensure program compliance. If an inmate refuses to participate as required, the Classification Committee will review for possible program rejection.

62060.5 Individualized Training Plan

The Classification Committee shall complete an initial assessment and develop an Individualized Training Plan (ITP) within 14 days of placement into BMU. The ITP will be based on each inmate's reason(s) for placement as outlined in CCR, Section 3334(b).

Inmates shall be expected to meet the requirements established by the Classification Committee as outlined in the ITP.

Inmates must remain disciplinary free and complete the ITP as directed by the Classification Committee before being released from the BMU. The ITP may include, but is not limited to, participation in departmentally approved cognitive behavior programs, and/or participation in self-help groups.

In each case of the BMU placement, release from the BMU is based upon completion of the ITP established by the Classification Committee.

Inmates retained in the BMU for failure to meet ITP requirements may have their BMU retention period extended. Inmates who have been retained beyond their initial placement period shall have their status reviewed every 30-days by a Classification Committee.

62060.6 Work Group/ Privilege Group Designations

All inmates placed into the BMU will be designated a Work Group (WG), consistent with CCR, Section 3044, and as determined by the Classification Committee effective the date of placement.

Regardless of the WG, the designated Privilege Group (PG) for Step 1 and Step 2 shall be C. The designated PG for Step 3 shall be B.

All Work/Program assignments for BMU inmates shall be restricted to and located in the BMU.

62060.6.1 Privileges and Expectations Step Process

The Classification Committee will determine if the inmate has successfully completed their ITP requirements or failed to meet their requirements. Inmates who have met their ITP requirements shall be eligible to advance to the next step of the BMU program. Inmates who have not met their ITP requirements shall be reviewed for appropriate step placement.

Step 1: Initial Placement – WG A1, A2, B or C and PG C status: Authorized emergency phone calls only, one-fourth the maximum monthly canteen draw allowance, a minimum of ten (10) hours out-of-cell time per week, which includes yard, dayroom, workshops, self-help group activities as limited by physical design, local institution security and facility needs, and non-contact visits. Inmates must be afforded at least five hours per week of access to recreation on an outdoor exercise yard. If the inmate meets the goals of the ITP, he will advance to Step 2.

Step 2: WG A1, A2, B or C and PG C status: One (1) phone call per month, one-fourth the maximum monthly canteen draw allowance, a minimum of ten (10) hours out-of-cell time per week, which includes yard, dayroom, workshops, self-help group activities as limited by physical design, local institution security and facility needs, and non-contact visits. Inmates must be afforded at least five hours per week of access to recreation on an outdoor exercise yard. If the inmate meets the goals of the ITP, he will advance to Step 3.

Step 3: WG A1, A2, B and PG B status: One (1) phone call per month, one-half the maximum monthly canteen draw allowance, a minimum of ten (10) hours out-of-cell time per week, which includes yard, dayroom, workshops, self-help group activities as limited by physical design, local institution security and facility needs, and contact visits. Inmates must be afforded at least five hours per week of access to recreation on an outdoor exercise yard. If the inmate meets the goals of the ITP, he will advance to Step 4.

Step 4: Upon completion of the ITP, inmates will be returned to traditional GP housing.

Failure to progress in the stepped process shall be grounds for rejection from the BMU Program and a review by the Classification Committee for placement on WG C PG C status. Inmates may not remain in the BMU for more than 180 days without participation. Once the inmate is rejected from BMU by the Classification Committee, he shall be retained on C status and rehoused commensurate with his custody level. Inmates who have been rejected from the program shall not be placed in any other General Population work or program assignment until they have successfully completed their ITP in the BMU.

Inmates who have been rejected from the BMU program must submit a written request to their Correctional Counselor I for readmission to the program and shall be reviewed by a Classification Committee.

62060.7 Authorized BMU Property

Inmates shall possess only the listed items of personal property while assigned to the BMU:

- Ring (Wedding band, yellow or white metal only. Not to exceed \$100 maximum declared value, and may not contain a set or stone), one.
- Religious Medal and Chain (not to exceed \$100 maximum declared value, chain not to exceed 18" in length, obtainable as a set only. Chains may not be purchased separately from medal), one.
- Religious Items (as approved by the local religious review committees, e.g. kufi caps, yarmulkes, prayer rugs, etc.).
- Books, Magazines, and Newspapers (paperback or hardback with cover removed only. Limit does not apply to legal materials), ten.
- Prescription eyeglasses, clear lens only, one (as prescribed by a physician) pair.
- Tennis Shoes (no shades of red or blue, low, mid, or high tops are permitted. Must be predominantly white in color. Shoe laces white only. Not to exceed \$75.00. No hidden compartments, zippers, or laces that are covered or concealed. No metal components including eyelets), one pair.
- Shower shoes (foam or soft rubber, single layer construction, not exceeding 1" in thickness), one pair.
- Briefs (white only), ten pairs.
- Gloves (cold weather gloves upon approval of Warden, no zippers, pockets, or metal), one pair.
- Watch Cap (white or grey only), one.
- Rain Coat/Poncho (transparent only), one.
- Socks (white only, any combination of short to knee-high), seven pairs.

- Under Shirts (white only, any combination of crew neck, v-neck, long sleeve or sleeveless athletic tank-top. Turtle neck and mock turtle neck are not permitted), five.
- Dental Adhesive (for approved denture wearers only), two.
- Dental Flossers/Gliders (no more than 3" in length, amount allowed in possession to be determined by local institutional procedure).
- Dental Cleanser, one box.
- Deodorant/Antiperspirant (stick or roll-on, must be clear and in clear container only), four.
- Medications, Over-The-Counter (OTC) (only those OTC medications permitted by the Division of Correctional Health Care Services shall be stocked by institution canteens, OTC medications are not approved for inmate packages).
- Mouthwash (non-alcoholic only), one.
- Palm Brush/Comb (no handle, plastic only), one.
- Razor, Disposable (not permitted in Level IV 180 design housing), five.
- Shampoo, one.
- Shaving Cream (non-aerosol), one.
- Soap Bar, six.
- Soap Dish (non-metal), one.
- Toothbrush (subject to local determination of maximum length, local facility is required to shorten if necessary, to meet local requirements), one.
- Toothbrush Holder (plastic only, may only cover head of toothbrush), one.
- Toothpaste/Powder (toothpaste must be clear and in clear container), one.
- Washcloths (white only), two.
- Address Book (paperback only, 3" x 5" maximum), one.
- Ballpoint Pens (non-metal, clear plastic only), one.
- Bowl (construction material to be approved by Division of Adult Institution (DAI), maximum of 8" in diameter), one.
- Can Opener (restricted from Level IV housing), one.
- Legal Pads/Tables and Notebooks (no spiral bound), one.
- Envelopes, Blank and/or Pre-Stamped, forty.
- Envelopes, Metered (indigent inmates only), five.
- Legal material, as authorized per Section 3161.
- Photos/Portraits (maximum of 8" x 10"), fifteen.
- Reading Glasses-Non Prescription (magnifying glasses), one pair.
- Stamps (U.S. Postal only), forty.
- Stationery (for written correspondence, may be decorated and have matching envelopes), fifteen sheets.
- Tumbler (construction material to be approved by DAI, 16 ounce or less), one.
- Health Care Appliance (Dr. Rx. Only. Not subject to the six-cubic foot limit).
- Canteen items, not to exceed one month's draw of assigned privilege group.

Inmates in the BMU shall possess personal property as authorized in CCR, Section 3190(c) and 3334(g)(1).

All personal property shall be disposed of as provided in CCR, Section 3191(c), except as provided for in DOM, Section 62060.7.1 below.

62060.7.1 Unauthorized BMU Property

Inmates assigned to the BMU upon the initial placement will have their personal property, not identified as authorized BMU property outlined in DOM, Section 62060.7 stored, provided:

- Initial BMU placement is for no more than 90 days.
- The inmate participates in the BMU program and progresses to the next step at each 30 day review as outlined in 62060.6.1 above.
- The inmate does not receive any property related disciplinary violations while in the BMU program.

Should the inmate fail to comply with the provisions above, all unallowed personal property not identified as authorized BMU property outlined in DOM, Section 62060.7 shall be disposed of as provided in CCR, Section 3191(c).

Inmate's assigned to the BMU upon the second or subsequent placements shall have all personal property, not outlined in DOM, Section 62060.7, disposed of as provided in CCR, Section 3191(c).

62060.8 Religious Services

All religious services will be conducted in-cell or in the designated BMU as limited by physical design, local institution security and facility needs.

62060.9 Canteen

BMU inmates will be allowed only one (1) draw per month. Canteen privileges shall be established by the Classification Committee as follows:

- Step 1 – One-fourth the maximum monthly canteen draw per CCR, Section 3044(f).
- Step 2 – One-fourth the maximum monthly canteen draw per CCR, Section 3044(f).
- Step 3 – One-half the maximum monthly canteen draw per CCR, Section 3044(e).

62060.10 Meals

Inmates assigned to the BMU will receive the same meals as all inmates assigned to the general population.

62060.11 Mail

All inmate mail will be processed per departmental and institutional procedures.

62060.12 Packages

Vendor packages are authorized for receipt by inmates housed within the BMU in accordance with their privilege group status.

62060.13 Law Library

Any inmate housed in the BMU may utilize the law library as determined by local operational procedures.

62060.14 Health Care Services

All health care, mental health and dental services shall be conducted as per local operational procedures.

62060.15 Mental Health Services

BMU inmates will be seen by the Mental Health Department in accordance with normal general population treatment expectations as outlined within the Mental Health Services Delivery System (MHSDS). A Mental Health clinician shall attend the Classification Committee for all initial reviews in order to assess the appropriateness of BMU placement for an inmate included in the MHSDDS. Inmate's currently at the Enhanced Out Patient (EOP) level of care are not eligible for BMU placement.

62060.16 Showers

Inmates housed within the BMU will be afforded the opportunity to shower during authorized dayroom periods.

62060.17 Visits

BMU inmates are permitted visits with their approved visitors. All visits for Step 1 and 2 inmates will be non-contact, including attorney visits. Inmates at Step 3 will be afforded contact visits.

62060.18 Out- Of-Cell Time

Inmates will be allowed a minimum of ten (10) hours of out-of-cell time per week. This includes yard, dayroom, workshops, self-help group activities, and visits as limited by physical design, local institution security and facility needs.

62060.19 Revisions

The Deputy Director, Division of Adult Institutions, or designee shall ensure that the contents of this Article are kept current and accurate.

In re Kevin Hunt, Case No.: HC 6157 Superior Court, Co. of Monterey. (Feb. 2009).

ARTICLE 11 — TEMPORARY REMOVALS

Effective November 14, 1989

Not Cleared For Statewide Use

62070.1 Policy

California statute permits the Director to authorize temporary release and removal of inmates from prison. The Director requires careful screening and control of such releases to avoid risk to the community. Institution, parole,

and community correctional center personnel shall approve temporary releases/removals only as permitted by these standards and procedures.

62070.2 Purpose

This procedure defines staff responsibilities and provides criteria for granting, denying, and administering temporary removals of inmates from the Department facilities.

62070.3 Authorized Removals

Inmates may be approved for temporary community leaves (TCLs) for:

Inmate Requested

- Family emergencies.
- Prerelease planning.
- College courses.
- Reentry furlough.

Removal for Departmental Reasons

- Medical/psychiatric.
- Release to Hold.
- Off-reservation work assignments.
- Community betterment.
- Disaster relief teams.
- Court ordered.

62070.4 General Criteria TCLs

Approved leaves shall be for no longer than necessary to accomplish the stated purpose but shall not exceed 72 hours in length. Medical/psychiatric and court order removals are not statutorily restricted to the 72-hour limitation.

TCLs may include the following conditions:

- Inmates may be required to be under custodial escort.
- Personal funds shall be provided by the inmate to cover requested leave expenses prior to approval.
- Temporary removals initiated by the Department shall be made at no cost to the inmate.
- Volunteer staff escort for family emergency and prerelease leaves may be provided only under strict conditions as outlined in the DOM 62070.4.2 Custodial Escort.
- All TCLs from a prison facility shall require Warden or designated AW approval.
- Leaves from contracted community correctional center facilities shall require approval of the reentry specialist.
- Leaves from noncontracted community correctional centers shall be approved by the facility manager.
- Temporary leave for parolees in custody pending revocation proceedings requires approval of the assistant Regional Administrator.

Out-of-State Travel (Prohibited)

Temporary leaves for out-of-state travel shall not be approved for any reason.

62070.4.1 Exclusion Criteria

Revised September 25, 2007

Inmates shall not be permitted a TCL when the following conditions prevail:

- Inmate is serving life without possibility of parole.
- When weapons or restraint equipment must be utilized to escort.
- When inmates are out-of-state cases and safekeepers, unless approved by agency retaining jurisdiction.
- When inmates are CYA /DMH [concurrent (CC) jurisdiction] cases, unless approved by those agencies.
- When inmates are determined to be security/custody risks.

Examples are:

- Escape risk.
- Has made verified threats toward victims, witnesses, family members as defined in Section 3000 of the Title 15, departmental staff or public officials.
- Inmate exhibits a pattern of serious aggressive behavior that is supported by disciplinary documentation.

62070.4.2 Criteria For Custodial Escort

Revised September 25, 2007

Custodial escort for a TCL is defined as a Department peace officer properly trained and certified in escort of inmates. Certification requires completion of

annual IST classes mandated for peace officer staff on transportation and escort of inmates. Custodial supervision shall be required for inmates who possess any of the following case factors:

- Designated other than Minimum-B custody.
- Psychiatric cases documented by the chief psychiatrist as not being a danger to self or others.
- Housed in AD-SEG for protection only.
- Has a felony detainer or is serving a concurrent or consecutive county jail sentence, a portion of which must be served upon release from Department custody.
- Identified with organized crime.
- Convicted of high notoriety crimes or where presence in a community would likely cause adverse reaction.
- Designated "R" suffix (restricted custody).

Restricted to funeral visit only

- No parole date or has seven or more years remaining to parole.
 - Inmates in this category shall only be considered for a TCL to attend a funeral of an immediate family member as defined in Section 3000 of the CCR.

Unavailability of Escort Staff

- Unavailability of qualified escort personnel shall be cause to deny a TCL request.

62070.4.2.1 Escort Employee Compensation

The escorting employee(s) shall be paid in accordance with current payroll requirements. All meals and other escorting expenses including wages of escort shall be reimbursed through inmate trust account funds in accordance with DPA regulations and departmental policy.

62070.4.2.2 Employee Criteria/Custodial Escort

Peace officer staff properly trained and certified in the escort of inmates, and exempt from provisions of the FLSA may volunteer their time for the purpose of escorting indigent inmates.

Volunteer Escorts

Employees who voluntarily escort without monetary compensation shall be considered "on-duty" during the period of such assignment.

Transportation

Transportation for escorted TCLs shall be by state vehicle or public transportation. Transportation for indigent inmates with volunteer escort shall be by state vehicle only. The most direct route of travel shall be used by escorting staff. Escorting staff shall maintain strict adherence to the TCL itinerary. Deviation from established itinerary shall be permitted for genuine emergencies only.

Overnight Lodging

Escorted leaves for a period longer than 16 hours shall require prior confirmed arrangements for overnight housing in a departmental institution or county jail facility within the TCL area.

62070.5 Family Emergency

Revised September 25, 2007

Emergency leaves may be granted for attendance at a funeral service or hospital bedside visit of a critically ill immediate family member as defined in Section 3000 of the Title 15 except as provided in DOM 62070.4.2 (no parole date or has seven or more years remaining to parole.)

Immediate Family defined

Immediate family member as defined in Section 3000 of the Title 15 includes any of the following:

- Legal spouse.
- Registered domestic partner.
- Natural parents.
- Adoptive parents (if adoption occurred and a family relationship existed prior to incarceration).
- Step-parents.
- Foster parents.
- Grandparents.
- Brothers and sisters.
- Children.
 - Natural.
 - Adoptive.
 - Step.

- Grandchildren.

Note: Aunts, uncles, and cousins are not considered immediate family unless a genuine and verifiable foster relationship existed prior to incarceration.

62070.5.1 Screening Responsibilities

Revised September 25, 2007

The inmate's caseworker:

- Receives request from the inmate, family members as defined in Section 3000 of the Title 15, or other persons identifying the reason for an emergency leave request (death/hospital/visit).

Caseworker Review and Verification

- Thoroughly verifies that request and circumstances are valid. This verification process shall include, but is not limited to:
 - Verify immediate family relationship.
 - Contact hospital/attending physician, county coroner, and funeral director for complete details surrounding death and funeral arrangements.
 - If death was by other than natural causes, or the death is under investigation, contact necessary law enforcement agencies to determine causes and circumstances of death.
 - Attending physician shall be personally contacted. Attending physician shall verify that the immediate family member's condition is classified as critical and the physician's prognosis for recovery determined.

Hospital Visit Critically ill

A statement from the attending physician shall be solicited regarding a recommendation that the inmate's visit will/will not be beneficial to the patient's treatment, or that the patient is in imminent danger of death.

Review and verification

The nature and circumstances of the illness/injury shall also be determined and evaluated with respect to safety/security decisions.

- Verify that inmate wants to pursue the TCL.
- Obtain inmate C-File and thoroughly review all case factors, confidential information, if any, and determine if inmate meets initial approval criteria.

Preliminary Determination

If preliminary review of case factors reveals ineligibility for a TCL, or other specific information reflects a strong probability of denial, further TCL processing shall be suspended. A CDC Form 128-B, Information Chrono shall be prepared by the caseworker outlining the ineligible/negative facts with a recommendation to deny the TCL request. The chrono shall be referred to the designated approving authority for review and signature, or a decision to proceed with TCL processing.

Review and Verification

- If decision is to continue TCL processing, review all other case factors including disciplinary history, prison/street gang affiliations, commitment circumstances and custody level to determine recommendations for escorted versus nonescorted leave.

Parole/Community Correctional Center (Inmates under Escort)

In community correctional center settings, classified inmates will not normally require staff escort. However, escort may be considered necessary for assigned inmates with serious disciplinary actions pending. Inmates who have been placed in a county jail pursuant to PC 6253(b), or who have a hold pending, shall require custodial escort.

In cases of parolees in custody pending revocation proceedings, the Parole Agent shall be required to follow all TCL review and verification procedures to determine escort recommendations. Reasons and circumstances surrounding in-custody status shall be carefully evaluated. All in-custody parolee cases with a hold shall require staff escort.

Caseworker Preparation of CDC Form 601 (TCL) Information

- A CDC Form 601, Request for Temporary Community Leave, shall be completed and all required signatures obtained for all TCLs.

The caseworker shall establish and recommend the required length of leave, (exact departure and return times), determine reasonable cost estimate to cover leave expenses, and ensure that the funds are in the inmate's trust account prior to final approval. If funds are not available and no volunteer escort is obtained, the TCL request shall be denied and properly documented on a CDC Form 128-B, Information Chrono.

All family emergency/prerelease leaves from an institution shall require caseworker contact with Parole authorities and the leave purpose and

itinerary outlined. This contact shall be reflected in the verification section of the CDC Form 601.

TCL Clothing

Arrangements for civilian clothing for the inmate during the TCL shall be made by the assigned caseworker based upon local facility supplements.

62070.5.2 Processing Responsibilities

It is the assigned caseworker's responsibility to ensure, either directly or indirectly, that all required documentation for an emergency TCL is properly processed, signed, and presented to the designated centralized location of the inmate's release. Specified records office staff shall assist in providing these services.

- Family emergency/prerelease leaves from the institutions shall require preparation of a CDC Form 161, Checkout Order. A CDC Form 193, Inmate Trust Account Withdrawal, shall be prepared to cover TCL expenses.

Community Correctional Center inmates

In cases of community correctional center inmates approved for ongoing release to attend work, training, or educational programs, a CDC Form 601 shall be required for initial approval only. This approved form shall authorize ongoing releases thereafter and shall be maintained on file at the local facilities.

Escape Notification

Leaves under escort shall require the preparation of an inmate identification card with two recent photographs (front view/profile view) which contains all necessary all points bulletin (APB) information. In the event of escape, this information shall immediately be presented to the nearest law enforcement agency by escorting personnel. The escort(s) shall then notify their institution/parole region and report the incident.

Funds/Medication

The caseworker shall ensure that all documents, including advance funds for the TCL and authorized medications for the inmate are included in the TCL package. For prerelease TCLs up to \$100 of the inmate's \$200 release funds may be advanced upon approval by Parole Agent, to cover specific personal expenses, i.e., clothing, food, and carfare. (This advance allowance shall not be permitted for reimbursement of community correctional center fee charges.)

Escort Staff Briefing

When possible, the caseworker shall personally discuss the TCL plan and inmate case factors with escorting personnel prior to TCL departure. If personal contact cannot occur, any special instructions or extraordinary information pertinent to the TCL shall be documented on a CDC Form 128-B or memorandum to the escorting staff and included in the escort package for the TCL. Additional briefing of escort personnel by custodial supervisors prior to departure may be required.

TCL Log

A temporary community release log shall be maintained in a designated location at all facilities. The following staff shall be responsible for maintaining this log:

- Institutions: Watch Commanders.
- Community correctional centers: Reentry Specialist.
- Paroles: Unit Supervisors.

The chronological log (see attached exhibits A&B), shall require a listing of the inmate's name, prison number, date and time of departure, scheduled return time, and actual return time. All log entries shall reflect the date and signature of the employee making the entry.

Failure to Return

Inmates who fail to return from a leave within the designated time period shall be charged with escape. If staff is notified that the inmate's return has been unavoidably delayed, arrangements shall immediately be made to place the inmate in custody at the nearest Department facility.

Searches Upon Return

Upon return from a TCL, a search of the inmate shall be conducted by institution/facility staff to prevent the introduction of contraband. The degree and extent of the searches (clothed, unclothed, electronic, etc.) shall be determined by institution/facility security requirements.

Interviewing the Inmate

A post leave interview shall be conducted with all inmates returning from family emergency/prerelease leaves. The caseworker shall conduct the interview if on duty when the inmate returns. The institution watch commander, watch sergeant, or reentry staff on duty shall conduct the

interview if the inmate returns after normal work hours or on weekends and holidays.

The interview shall be documented on the post leave review section of the CDC Form 601. In cases of a return from a funeral or critically ill bedside visit, a close evaluation of the inmate's escape potential or other signs of unusual behavior shall be made. If post leave interview is conducted by custody staff, a follow-up interview shall be held by the caseworker upon their return to duty. All original and post leave TCL documents shall be placed and maintained in the inmate's C-File or the reentry facility file if applicable.

62070.6 Prerelease Planning Leave

Prerelease planning leaves may be granted for the following reasons:

- Employment interviews.
- Making residential arrangements.
- Taking employment examinations.
- Obtaining business/profession licenses related to employment plans.
- Testing/registering for academic or vocational programs to begin after release date.
- Handling other specific business/personal matters related to reentry, as determined necessary by departmental staff.

62070.6.1 General Criteria

All general criteria outlined in DOM 62070.4 shall be applicable to prerelease planning leaves.

62070.6.1.1 Release Date Criteria

The following release date criteria shall be established on inmates prior to considering a prerelease planning TCL request:

- Parole date is within 90 days or less (institutions).
- Discharge date is within 90 days or less and inmate has been approved for community correctional center placement.
- Inmate is housed in a community correctional center and is within 180 days or less to parole.

Exclusion

- See DOM 62070.4.1.

62070.6.1.2 Criteria for Custodial Escort

Criteria outlined in DOM 62070.4.2 (Custodial Escort) shall apply for all prerelease leaves.

62070.6.2 Sentencing Law Considerations

- Determinate Sentence Law (DSL) PC 1170. Inmates sentenced under PC 1170 may be granted a normal prerelease TCL up to 60 days prior to their parole date.
- Indeterminate Sentence Law (ISL) PC 1168. Inmates sentenced under PC 1168 may be granted a prerelease TCL up to 63 days prior to their parole date.

This differs from the 60-day limit for DSL cases to allow for an advancement of up to 60 days on parole dates by parole authorities for inmates sentenced under this law.

Normal TCL Defined

A normal prerelease TCL is one that may be approved on inmates for the reasons outlined in DOM 62070.6 (Prerelease Planning Leave) and who have 60/63 days or less remaining to parole (or discharge if approved for community correctional center placement).

Exceptional TCL defined

An exceptional prerelease TCL is one which may be approved on inmates who are within 90 days or less to parole (or discharge if approved for community correctional center placement) for purposes of taking civil service examinations, attending special employment interviews, college enrollment or entrance examinations, etc., when it has been verified that the event will not be scheduled within the 60-day period prior to release.

Exceptional prerelease planning leaves require personal approval by the Warden and RPA.

Note: A written report by the Warden to the Assistant Deputy Director, Institutions Division, shall be prepared, outlining the reasons for approving the exceptional leave.

62070.6.3 Initiating Prerelease Leave

Parole Agent

A prerelease TCL may be initiated by either parole or institution staff upon request of the inmate.

When TCL is initiated by paroles and the inmate is in an institution, the Parole Agent shall be responsible for verifying that the request is valid through field contacts and other necessary methods. The Parole Agent shall supply institution staff with all available information; i.e., names and addresses of all contacts to be made by the inmate, reasons for TCL, itinerary to be followed, and recommended length of leave to accomplish the purposes outlined.

Caseworker

When the TCL is initiated from an institution, the caseworker shall contact the assigned Parole Agent, outline the reasons and information concerning the prerelease leave request and obtain the agent's agreement on the necessity for the leave. Whether institution or parole initiated, approval for the leave shall be required by both the Warden and the parole unit supervisor.

62070.6.4 Screening Responsibilities Parole Agent/Caseworker

The screening and review requirements and responsibilities outlined in DOM 62070.5.1 shall apply for prerelease planning leaves.

The verification processes for prerelease planning leaves shall only differ from an emergency leave by who shall be contacted to verify the leave plan of the inmate.

62070.6.5 Processing

Prerelease TCLs shall be processed as outlined in DOM 62070.5.2.

62070.6.6 Parole From a TCL

Inmates may be released on parole from a TCL under the following conditions:

Indeterminate sentence law cases (ISL)

- An advancement of up to 60 days on a parole date may be approved by a Parole Agent for inmates sentenced under ISL. This advancement may occur while an inmate is on a prerelease planning leave and is contingent on parole staff's approval of the inmate's confirmed employment/residential plans and following criteria:
 - No advancement shall be approved to release inmates prior to their minimum eligible parole date.
 - The releasing authority has not specifically directed that the parole date is not to be advanced.
 - There are no administrative reasons prohibiting the parole advancement; i.e., pending serious disciplinarys, rescission proceedings, etc.
 - Any and all specified parole conditions have been fully met.
 - The PA has authorized, in writing (CDC Form 1504, Parole Release Authorization), the parole advancement in accordance with BPT rules. The CDC Form 1504 shall be forwarded to the institution.

Determinate Sentence Law Cases (DSL)

- Advancement of a parole date cannot be granted for an inmate sentenced under DSL. However, an inmate under DSL shall be released to parole while on a TCL when the leave extends to the inmate's established release date. This may occur in rare instances where a leave is approved within the three day period prior to the inmate's established parole date.

62070.6.6.1 Methods/Responsibilities for Parole From TCL

The parole unit supervisor shall be responsible for notifying the institution when an inmate is paroled from a TCL. The following actions shall be taken:

Parole Staff

- The unit supervisor shall notify the institution by FAX (Attention): C&PR, of the inmate's parole advancement and release to parole from a TCL.
- The unit supervisor shall sign and process the CDC Form 611, Release Program Study, outlining the factors for authorizing the release.

Institution Staff

- Upon receipt of FAX authorizing the inmate's release to parole from a TCL, the C&PR shall notify the inmate's captain, caseworker, and facility watch commander that the inmate has paroled from the TCL.
- The C&PR shall direct the CCRM to process and complete all parole records on the inmate.

Personal Property

- The captain shall be responsible to coordinate the disposition of the inmate's personal property with receiving and release (R&R) and parole unit staff.

- If parole from the TCL is anticipated prior to the inmate leaving the institution, the inmate shall be required to sign a CDC Form 193, Inmate Trust Account Withdrawal, to cover the cost of shipping the inmate's personal property, including any personal handicraft materials. The inmate shall be required to supply staff with the name and complete address to where the property shall be shipped.
- If parole while on TCL was not anticipated, the Parole Agent shall be contacted for instructions regarding the disposition of the inmate's personal property. Under this condition, the costs for shipping the property to the designated location shall be deducted from the inmate's release fund.

62070.6.6.2 Special Cases/Parole From TCL

Inmates determined to require immediate contact with a Parole Agent upon release may be granted a TCL up to three days prior to their parole date under the following conditions:

The inmate's established parole date falls on a weekend or holiday.

Special medication needs or other case factors have been documented by the Parole Agent on the release program study form specifying the need for immediate contact and requesting the early release.

- The inmate is eligible for an unescorted TCL.

Responsibilities PAROLE AGENT/C&PR

The Parole Agent shall initiate the TCL and make all itinerary, travel, and reporting arrangements surrounding the leave.

The institution C&PR, upon receipt of the request and information, shall process the TCL for this purpose.

Inmates not eligible for an unescorted TCL, but requiring immediate contact upon release, shall be picked up by the Parole Agent on their established release date.

62070.7 College Leave

Temporary leaves may be granted to inmates for the purpose of attending college classes. College leaves shall require approval of the Warden and the Director.

62070.7.1 Exclusion Criteria

Inmates with case factors as outlined in DOM 62070.4.1 (Exclusion Criteria) and DOM 62070.4.2 (Criteria for Custodial Escort) shall not be approved for a college leave.

College leaves shall be considered only when the college courses or fields of study are not offered at the institution or facility where the inmate is being housed.

Approval/denial shall be contingent on college staff's agreement to accept the inmate for enrollment.

Funding and Transportation

All expenses involved in an approved off-site college education program shall be borne by the inmate. A lack of funds to cover such expenses shall be cause for denial. Arrangements for transportation to and from the college program shall be the responsibility of the inmate and shall be approved by institution/facility staff.

62070.7.2 Review and Processing Responsibilities

The initial request by an inmate for a college leave shall be by the institution supervisor of education who shall perform the following functions:

Supervisor of Education

- Consult with the inmate and develop a program objective and attendance plan.
- Contact college staff and mutually review the program objectives, attendance plan, and the inmate's educational qualifications to pursue the program outlined.
- Obtain written approval from college officials to accept the inmate for enrollment.

Caseworker

The caseworker shall thoroughly review the submitted plan and take the following actions:

- Review and verify the request for the leave utilizing the basic criteria as outlined in DOM 62070.5.1.
- Process the request as outlined in DOM 62070.5.
- Prepare a memorandum for the Warden, to the Director, citing the request. This document shall outline the inmate's commitment offense, criminal history, institution adjustment, custody classification, parole/discharge date, and educational achievements. The memorandum shall also include the personal

62070.8 Reentry Leaves/Furloughs

Temporary community leaves from community correctional centers are subject to all criteria, screening, review/verification, and approval methods previously outlined in this section.

CDC Form 601 [Temporary Community Release (TCR)]

A CDC Form 601 shall be processed for all approved leaves. Leaves (furloughs) for the purpose of routine time and travel to and from established work/educational programs requires a one-time processing of a CDC Form 601 as outlined in DOM 62070.5.2 (Community Correctional Center Inmates).

62070.8.1 Authorized Reentry Leaves and Conditions

Leaves may be approved for reentry inmates for the purposes outlined in DOM 62070.3 (Inmate Requested Temporary Removals). Additionally, short-term facility leaves of not more than six (6) hours, between 0700 and 2100 hours, may be approved for personal business/convenience purposes as described below:

- Purchases of personal items, i.e., clothing, hygienic supplies, food, tools, etc.
- Medical/dental appointments.
- Developing release plans with Parole Agent or social services agencies.
- Attending religious services.
- Making employment arrangement.
- Participating in approved social/recreational activities.

Note: Leaves granted for the above purposes shall not be deducted from the allotted hours for regular TCLs described in subsequent DOM 62070.8.3 (Leave Hour Allotments).

62070.8.2 Additional Criteria (Reentry Leaves)

All reentry leaves requested by inmates (except family emergency TCLs) shall in addition to other criteria outlined, require the following:

- Housed at the facility a minimum of seven (7) days.
- Completed orientation, facility classification, and have an established action plan approved by facility staff.
- Be current on payment of facility fees.
- Have no disciplinarys pending.
- A minimum of twelve (12) hours has elapsed since last approved TCL.

Emergencies During orientation period

A request for a family emergency TCL during the period of reentry orientation shall require a classification committee action to review case factors and confirm the inmate's custody level. This classification action shall be used (with other criteria outlined for approval/denial of emergency TCLs) to determine escort/non-escort requirements. This action may be done in absentia, providing no adverse actions are taken.

62070.8.3 Leave Hour Allotments

The maximum number of hours permitted for prerelease planning leaves in a community correctional center are:

- Sixty hours during the first month.
- Ninety-six hours during the second month.
- One hundred forty-four hours during the third and subsequent months.

Note: These leave hour allotments are a privilege and are subject to loss or reduction through formal disciplinary actions.

62070.8.3.1 Time and Travel Limits (Reentry Leaves)

Although no leaves will be approved for periods longer than necessary to accomplish the stated purposes, the following maximum limits shall apply:

- Furloughs.
 - Furlough leaves for attending established work, academic or vocational training programs shall be limited to twelve hours per day.
- Short Term Facility Leaves (passes).
 - Limited to six hours per day.
- Family Leaves/Prerelease Planning.
 - Leaves for purposes of re-establishing family ties and special preplanning leaves requiring an extended absence to accomplish shall be limited to thirty-six hours.
- Family emergency.
 - Family emergency TCLs shall be limited to the time necessary to complete the purpose however not more than seventy-two hours.

Travel Limits

All temporary leaves from a reentry facility (excluding emergency leaves) shall be limited to a thirty-mile radius unless a longer distance is specifically approved in writing by the supervisor/facility manager.

Advance Notice Requirements (Inmate)

It shall be the inmate's responsibility to make advance requests for specific types of leaves within the following minimum time periods:

- Less than twelve hours; twelve hours in advance.
- Overnight; forty-eight hours in advance.

62070.8.4 Employment/Training Leave Verification/Processing (Responsibilities)

The reentry specialist, upon notification by the inmate of a proposed employment/training program, shall take the following actions:

- Evaluate the proposed employment/training program.
- Contact and inform the proposed employer of:
 - Inmate's status.
 - Limits placed on inmate.
 - Need for cooperation between employer and agent.
 - Frequency of contacts required.
- Ensure that employer is reputable, possesses a business license, pays by check, withholds State/Federal Income Tax, and State Disability Insurance.
- Assess distance of job/training program from facility.
- Evaluate means of transportation to be used.
- Ensures that inmate's criminal background/case factors does not preclude job assignment.
- Verify that job/training hours do not violate the 12-hour daily time limit.
- If proposed program is for education/vocational training:
 - Determine a well defined need exists for inmate to participate in the program.
 - Determine that program will lead to employment before or shortly following parole.

62070.8.4.1 Reclassification (Employment/Training Approval)

Upon verification and approval of an inmate's job or training program, an absentee CDC Form 128-G, Classification Chrono shall be prepared by the reentry specialist with a signature block for the facility manager, which shall be signed. The chrono shall include the following:

- Description of program/job.
- Rate of pay.
- Hours that inmate will leave and return to facility.
- Type/means of transportation.
- Any specific instructions to be given to the inmate.

62070.8.4.2 Facility Controls (Approval Furloughs)

Reentry facility managers shall be responsible for establishing and maintaining the following controls on inmate's approval for job/training furloughs:

- Maintain a daily roster on all approved inmate furloughs which contains:
 - Complete daily itineraries.
 - Scheduled departure and return times.
 - Name of contact person at program site.
 - Address and phone number of program location.
 - Daily contact/verification section.
- Require that a facility staff member makes daily telephone contacts with designated contact person, confirms the inmate's compliance with the program/itinerary and records this contact in facility roster.

62070.9 Medical/Psychiatric Removals

Inmates may be temporarily removed from an institution to a community medical facility for medical, psychiatric, or dental purposes under conditions outlined in this section.

62070.9.1 Conditions for Removal

Medical removals shall be authorized for the following:

- Medical, dental, or psychiatric examination, diagnosis or treatment that is not available at the institution or within other medical facilities of the Department.

- Emergencies, wherein immediate care and treatment cannot be provided at the institution and transfer to another institution that may provide the service is not reasonable.

62070.9.2 Approval

Temporary removals for medical reasons shall be approved by the CMO, the AW responsible for the inmate, and the Warden or chief deputy Warden.

Weekends, Holidays, and After Normal Work hours

Medical emergencies requiring removal of inmates to a community medical facility occurring after normal work hours, or on weekends and holidays, may be authorized by the institution watch commander, and/or the administrative officer-of-the-day (AOD). When time permits, the facility watch commander shall seek prior approval from the AOD for the emergency removal. When immediate contact is not possible, the AOD shall be notified as soon as possible and all details of the removal reported.

62070.9.3 Procedures/Responsibilities (Medical Removals)

During normal work hours, the CMO shall direct medical staff to complete a CDC Form 7252, Request for Authorization of Temporary Removal for Medical Treatment. A separate CDC Form 7252 shall be required for every removal.

AW

The CDC Form 7252 shall be forwarded to the AW in charge of the inmate for a custody/security review. The AW level review shall require the following:

- A review of the inmate C-file to determine escape/violence potential, commitment offense, sentencing status, custody level, etc.
- Determine in writing, the type and degree of security/custody escort required. This order shall include:
 - Type and amount of restraint equipment.
 - Number of escort personnel.
 - Type of transportation.
 - Type and number of weapons to be used.
 - Any special security instructions, i.e., additional escort vehicles, specific travel routes, etc.

Note: All removals for medical/psychiatric purposes shall require custodial escort. The type and degree of escort shall be determined by the above procedure and as outlined in DOM 55060, Transportation of Inmates. Hospital coverage shall also be determined by this section.

Warden

The CDC Form 7252 shall be forwarded to the Warden or chief deputy Warden for final approval.

Records Office staff

Records office staff shall process the requirements to effect the removal as outlined in DOM 62070.5.2, Temporary Community Leave. The original CDC Form 7252 shall be placed in the inmate's C-file and a copy in the inmate's medical file.

62070.9.4 Emergency Removal Procedures/Responsibilities Medical Staff (Emergencies After Normal Hours, Holidays/Weekends)

When medical emergencies occur during other than normal work hours requiring an inmate(s) removal to a community medical facility, the senior medical staff person on duty shall:

- Contact the assigned medical officer-of-the-day (MOD) and describe the medical circumstances.
- Receive emergency medical/treatment instructions from the MOD.
- Obtain verbal approval from the MOD to remove the inmate(s) to an appropriate community medical facility based on circumstances of the injury/illness.
- Notify the watch commander and report all details and instructions.

Watch Commander/AOD

The institution/facility watch commander shall be responsible to coordinate and effect emergency medical removals during non business hours.

The watch commander shall assume the responsibilities outlined for the AW in DOM 62070.9.2 for medical removals under these described conditions. The AOD, if present or in contact during the emergency, shall assume responsibility for authorizing the removal.

Custodial Coverage Community Hospital

The AOD and watch commander shall ensure that appropriate custodial coverage is provided at the community hospital as outlined in DOM 55060, Transportation of Inmates.

62070.10 Release to Hold

California statute authorizes the Department to release inmates whenever official detainers are on file from other law enforcement jurisdictions within the state.

62070.10.1 Conditions for Release/Retention in Custody

Inmates that have scheduled release dates and are to be released to a "Hold" lodged by a law enforcement or other agency may be:

- Released to the agency lodging the detainer within five days, or five court days, if the law enforcement agency lodging the detainer is more than 400 miles from the county in which the institution is located, prior to the scheduled release date, provided the inmate remains in custody until the scheduled release date.
- Retained in custody of the Department up to five days, or five court days, if the law enforcement agency lodging the detainer is more than 400 miles from the county in which the institution is located, after the scheduled release date to facilitate pickup by the agency lodging the detainer.

62070.10.2 USINS Holds

Inmates/parolees scheduled to be released to an active USINS detainer shall be released as follows:

- Release the inmate/parolee to the USINS officials within five days prior to the scheduled release date if the agency is within 400 miles of the releasing institution, or five court days prior to the scheduled release date if the agency is more than 400 miles from the releasing institution, provided the inmate/parolee is kept in custody until the scheduled release date.
- Retain the inmate/parolee in custody no more than 48 hours beyond the scheduled release date to facilitate pick up by USINS officials.
- If the USINS officials cannot pick up an inmate/parolee within the required time limitations, notations are to be made on the CDC Form 850, Detainer Summary, that USINS cannot pick up the inmate/parolee. The notations will include date, time, name of USINS official spoken to, and name of the Department staff person making the notation. The inmate/parolee is to be given reporting instructions and released to parole (or discharged if applicable) providing there is no other detainer/reason that would preclude release. PC 2713.1 does not prohibit the granting of prerelease funds to these individuals.

62070.10.3 Procedures/Responsibilities C&PR/CCRM

The C&PR and CCRM shall be responsible to coordinate the release of inmates under detainer status and contact the agency lodging the detainer.

Records Staff (Early Release)

When it is determined that an agency with a hold will assume custody of an inmate prior to the scheduled release date, the following actions shall be taken:

- A CDC Form 161, Checkout Order, shall be prepared reflecting the date of release to the agency and the actual parole date of the inmate. This information shall facilitate accurate OBIS entries.
- A CDC Form 801, Department Detainer, shall be prepared on the inmate with a notation not to release prior to scheduled parole date.
- Follow all other established parole release procedures as outlined in DOM 75010, Case Records.

C&PR (Notification to Inmate)

Inmates retained in Department custody beyond their scheduled release date to facilitate pickup, shall be notified in writing (CDC Form 128-B) by the C&PR. The CDC Form 128-B, shall specify the following:

- Information regarding the detainer.
- Agency requesting the extension.
- Date of scheduled release to the agency assuming custody.

62070.11 Off-Reservation Work Assignment (ORWA)

Inmates may be temporarily removed from an institution/facility for the purpose of performing work related to the institution/facility or other state/federal agencies and subdivisions as authorized by California statute.

62070.11.1 Exclusionary Criteria

Inmates with case factors outlined in DOM 62070.4.1 and 62070.4.2 shall not be considered for off-reservation work assignment (ORWA). Inmates convicted for, or with a history of arson, or inmates with five or more years remaining to their established release date, shall also be excluded from ORWA.

62070.11.2 Escort Requirements

All removals for ORWA purposes shall be under custodial escort. Photographs and escape information shall be in possession of escort

personnel as described in DOM 62070.5.2. Inmates shall be attired in prison clothing. Travel routes, emergencies, and all other escort procedures outlined in DOM 62070.5.2 shall be adhered to.

Searches

Inmates removed from a facility for ORWA purposes shall be searched prior to removal and upon return from their assignment. The degree of the searches shall be determined as outlined in DOM 62070.5.2(7).

62070.11.3 Review/Approval (Methods and Responsibilities)

Consideration for ORWA classification shall include the following actions:

Correctional Counselor

- The CC-I shall initiate a preliminary review of inmate case factors for ORWA consideration.
- Eligible inmates identified by the caseworker shall be referred to a unit/institution classification committee (UCC/ICC) for review.

Classification Committee

- Review case factors for ORWA clearance.
- Cases approved at classification shall be recorded on a CDC Form 255, Off-Reservation Work Assignment Eligible List, and forwarded to the Warden or chief deputy Warden for final approval.

Warden/Chief Deputy Warden

- Review case factors of inmates submitted on CDC Form 255 for final ORWA approval.
- Delete from the list any inmates determined unacceptable.
- Sign and forward approved list to designated staff responsible for effecting ORWA releases.

62070.12 Community Betterment/Delinquency Prevention

Wardens may establish community betterment and delinquency prevention programs within the institutions and approve the temporary removal of inmates for participation. The intent and purpose of these programs shall be to orient communities to the consequences of crime and delinquency. Controls shall be established by the program coordinators to prevent glorification of crime and/or the criminal, or criticisms of statutes and law enforcement agencies.

62070.12.1 Program Coordinator

The institution community resources manager shall be responsible for overall coordination of the program.

A list of all approved inmates for community betterment/delinquency prevention participation shall be maintained by the community resources manager (CRM).

Community groups selected for speaking engagements shall be approved by the coordinator prior to scheduling.

62070.12.2 Criteria/Approval Methods

Off-reservation work assignment clearance shall be required for inmates assigned to community betterment programs. All criteria, review and approval methods outlined in DOM 62070.11.1, 11.2, and 11.3 (ORWA) shall apply to community betterment assignments. Participation shall be voluntary.

Escort Limitations

A maximum limit of four inmates per speaking engagement shall be permitted unless otherwise approved in writing by the Warden or designee. Overnight engagements shall be prohibited. Travel distance from the institution for speaking engagements may be limited by the Warden.

62070.13 Disaster Relief Teams

Inmates may be temporarily removed from an institution/facility for the purpose of providing assistance to communities during a major disaster or enemy attack.

62070.13.1 Assigned Duties

Disaster teams (emergency crews) may be utilized to assist communities surrounding the institution in providing the following types of services:

- Firefighting.
- Salvage operations.
- Rescue operations.
- Identification/burial of dead.
- Registration of homeless.
- Other services approved by the Warden.

62070.13.2 Approval Criteria Escort

Disaster crews shall be selected from the institution list of inmates approved for ORWA. Inmates approved for this purpose shall have an X suffix added

to their custody, i.e., ORWAX. Disaster crews shall be under custodial escort and supervision during the period of removal and subject to all procedures outlined in DOM 62070.11.2, Escort/Search Requirements.

62070.14 Court-Ordered Removals

Inmates may be temporarily removed from an institution/facility for specific court-ordered appearances. Court-ordered removals shall be authorized and effected under the criteria and procedures outlined in DOM 73040, Case Records.

62070.15 Revisions

The Deputy Director, Institutions or designee, shall ensure that the content of this section is current and accurate.

ARTICLE 12 — TREATMENT CATEGORIES

Revised October 31, 1990

62080.1 Policy

Inmates committed to the Department who are identified as in need of special medical/psychiatric treatment shall be evaluated and placed into specialized medical/psychiatric treatment category programs.

62080.2 Purpose

This section establishes standard procedures for the orderly identification, evaluation, and acceptance of those inmates in need of special medical/psychiatric treatment programs.

62080.3 Treatment Categories

Revised November 20, 2012

Medical

Assignment into and out of all medical treatment categories shall be through the classification process and endorsement by a CSR. Classification committee referrals to a CSR shall also include the appropriate medical recommendation on a CDCR Form 128-C3, Medical –Classification Chrono, signed by a physician and/or psychiatrist dated within 90 days of the CSR's review. The CDCR Form 128-C3 shall indicate that an agreement has been reached between sending and receiving physicians. Inmates endorsed for specific medical treatment categories shall receive at a minimum an annual medical evaluation to determine if continued medical placement is appropriate. The case shall be submitted to a CSR for review and endorsement at least on an annual basis.

62080.4 Acute Medical Inpatient

Category "H"

Inmates who require medical services and/or surgical care in a general acute care hospital are designated Category "H."

"Category "H" care is provided at CMF, CIM, and California Men's Colony - East (CMC-E). Female inmates and male inmates with medical needs that cannot be met in CDCR hospitals may be transferred to a community hospital.

62080.5 Medical Inpatient

Category "N"

Inmates with chronic medical illness requiring skilled nursing or intermediate level medical care are designated Category "N ". This program has licensed nursing staff on duty at all times and is provided at CMF, CIM, and CMC-E. Female inmates requiring this level of service shall be transferred to a community hospital unless special arrangements can be made at the CIW infirmary. This category is not for inmates in infirmaries undergoing short-term treatment of minor illness.

62080.6 Medical Outpatient

Category "O"

Inmates who have recurrent, contagious, chronic, or other medical problems that do not require inpatient care but do require frequent outpatient diagnostic, treatment and/or rehabilitation services shall be designated Category "O". This category includes those inmates on dialysis or unusual diets and those requiring treatment and who are wheelchair-bound or blind.

This category is provided at the acute general hospitals at CMF, CIM, CMC-E, and the CIW infirmary. Inmates unable to climb stairs shall not be transferred to CMC-E.

62080.7 Treatment Categories Psychiatric

General

Inmates who suffer impaired functioning sufficient to require a mental health treatment program due to symptoms of a major mental illness shall be transferred to CMF, CMC-E or CIW for psychiatric evaluation. The psychiatric referral and diagnosis shall be consistent with the standards of the American Psychiatric Association, DSM-IV-R, Classification Axis I, II and V.

Reception Center psychiatric referrals shall be documented on a CDC Form 128-C and referred to a CSR. The CSR shall endorse reception center process cases to CMF, CMC, or CIW for psychiatric evaluation.

Upon completion of the psychiatric evaluation, the case shall be returned to a CSR for confirmation of the recommended psychiatric program and placement at CMF, CMC-E or CIW or DMH. Inmates not requiring a psychiatric program shall be placed at an institution in accordance with the classification score and other program needs.

62080.7.1 Reception Centers

Reception Center inmates designated psychiatric category on a prior term shall be evaluated by psychiatric staff for reestablishment of the category based on the current need for psychiatric intervention.

This evaluation shall be documented on a CDC Form 128-C and shall include a recommendation for housing at CMF, CMC-E or CIW if intervention is indicated.

If psychiatric intervention is not indicated, staff shall recommend general population placement. The Category "U" shall not be used at reception centers.

62080.7.2 Institution Referrals

Institution requests for psychiatric evaluation shall be documented on a CDC Form 128-C and referred to a CSR for endorsement to CMF, CMC-E or CIW as "psychiatric evaluation and return" cases.

Inmates determined not to be in need of psychiatric intervention shall be returned by the C&PR to the sending institution, providing the CDC Form 128-C documenting the psychiatric evaluation is available and dated within 90 days of C&PR review.

Inmates endorsed for specific psychiatric treatment categories shall receive at least annually, a psychiatric evaluation to determine if continued psychiatric treatment is necessary. This annual evaluation shall result in a classification review and referral to a CSR for confirmation of the inmate's category designation.

62080.7.3 C&PR Designation

C&PRs at CMF, CMC-E and CIW may re-designate between Category "I" and "J" inmates based on current program status by using a CDCR Form 840, CDCR Reclassification Score Sheet.

62080.8 Inpatient Psychiatric Care

Inmates housed at CMF, Atascadero State Hospital (ASH) or Metropolitan State Hospital (MSH) who demonstrate impaired functioning due to symptoms of a major mental disorder shall be designated Category "I".

Category "I"

This category shall include inmates determined to be:

- Unable to perform normal institution routines.
- Unable to provide for their basic needs or utilize available treatment resources.
- Suicidal or self-abusive.
- Inmates who demonstrate impaired functioning or other abnormal behavior of unknown etiology may be admitted for observation and diagnostic study.

Cases shall be designated Category "I" only by CMF/DMH, CMC (ASH cases) or CIW (MSH cases) staff.

62080.8.1 Inpatient Observation, Unclassified

Other institutions with inmates appearing to meet Category "I" criteria shall provide this information to the designated contact person at CMF/DMH or CIW. This may be accomplished by telephone interview.

Upon verbal acceptance the DMH evaluation team will notify CMF C&PR who will request FAX approval for transfer as "inpatient observation, unclassified." (Refer to 62080.16.1).

Female inmates needing inpatient psychiatric services shall be referred to a state hospital by CIW staff. Male inmates at CMC needing inpatient psychiatric services shall be referred to ASH or CMF/DMH.

62080.8.2 PC 2684

DMH provides inpatient services for inmates transferred from psychiatric programs at CMF, CMC, and CIW to a state hospital pursuant to PC 2684. These inmates shall be designated Category "I" during their state hospital placement.

62080.9 Outpatient Psychiatric Care

Outpatient care shall provide a supportive milieu in a program designed to maintain or improve social and psychiatric functioning.

Category "J"

Inmates in an outpatient psychiatric treatment program shall be designated Category "J". They may be received from reception centers or other institutions diagnosed as suffering from a major mental illness sufficiently

disabling to prevent adjustment to the general population without psychiatric intervention.

62080.9.1 Criteria

These individuals shall have a DSM-III-R Axis I diagnosis of:

- Schizophrenia.
- Delusional Disorder.
- Brief Reactive Psychosis.
- Schizophreniform Disorder.
- Schizoaffective Disorder.
- Induced Psychotic Disorder.
- Atypical Psychosis.
- Bipolar Disorder - sufficiently disabling to preclude general population placement.
- Major Depression - Depressive disorder not otherwise specified.
- Other Axis I diagnosis concomitant with an Axis V Global Assessment Function Score of 50 or less.

Category "J" designation shall not include inmates in need of acute psychiatric hospitalization as provided for by Category "I" criteria.

62080.9.2 General

This category shall be provided at CMF, CMC-E and CIW and shall only be designated by staff at these institutions.

CMF shall house Category "J" inmates who are assaultive or otherwise present management problems. CMC-E shall house inmates chronically disabled by mental illness who are not a danger to others and require little therapeutic programming beyond medication maintenance.

62080.9.3 Category "J" SHU Placement

Revised February 16, 2007

When a Category "J" or "K" inmate is found guilty of a rule infraction requiring a SHU term be established, the Institution Classification Committee shall determine whether the act was likely a result of a developmental disability or a mental condition or if continued supportive milieu housing is necessary.

If it is determined that the inmate's disability or mental condition makes SHU programming impractical, the term shall be suspended or commuted and the inmate retained or transferred to the appropriate institution.

If it is determined that a male inmate continues to need supportive care, an evaluation for the Psychiatric Services Unit housing shall be recommended and/or completed by CMF staff. (Refer to DOM 62050.1.2.)

If it is determined that supportive housing is no longer required, the inmate shall be recommended for Category "U", the SHU term assessed, and an appropriate SHU program recommended or the term suspended or commuted and an institution and alternate recommended to the CSR.

62080.10 Supportive Care

Category "K"

Inmates with pronounced social inadequacies due to mental retardation and/or developmental disabilities that preclude general population placement shall be designated Category "K". These inmates shall have a DSM III-R Axis V diagnosis concomitant with a Global Assessment Function Score of 50 or less.

This category shall be provided at CMC-E, CMF and CIW. Male inmates with this designation who are assaultive or otherwise a management problem shall be housed at CMF.

62080.11 Psychiatric Diagnostic Program

Category "X"

Category X is a 90-day evaluation program ordered by the BPH for specific psychiatric or psychological assessment. Inmates shall be endorsed for Category X and return to the sending institution. FAX approval is required prior to transfer.

62080.12 Psychiatric Milieu Outpatient

Category "T"

Male inmates with identified psychiatric problems requiring outpatient group therapy or individual psychotherapy in a structured environment shall be designated Category "T." Normal participation in this program shall not exceed 12 months, and upon completion of the program, inmates are expected to return to the sending institution or transfer to another institution, if the sending institution is no longer appropriate. Category "T" is provided only at CMC and is normally limited to those cases recommended by the BPH. FAX approval by Classification Services is required prior to transfer. In addition, Category "T" cases shall be presented to a CSR with a placement recommendation at the completion of or after 12 months in the program, whichever comes first.

62080.13 Psychiatric Recovered

Category "U"

Inmates who have recovered from a major illness requiring inpatient or outpatient psychiatric services shall be designated Category "U". A significant period (normally 180 days) of no serious psychiatric symptoms shall be considered evidence of recovery.

Category "U" shall include inmates no longer in need of psychotropic medication and those who are asymptomatic as a result of compliance with psychotropic medication. These inmates may be expected to function within a general population setting.

All inmates classified as Category "U" for a period of two years shall be reviewed for possible reclassification and deletion of the category designation.

62080.13.1 Inappropriate Category Designation

Professional differences of opinion regarding an inmate's placement in a psychiatric category may occur amongst clinical staff at an institution. If these differences cannot be resolved informally, the case shall be referred to the institution's Chief Psychiatrist for resolution.

If the differences of opinion occur between clinical staff at separate institutions and agreement cannot be reached, the case shall be referred to the Chief Psychiatrist, Mental Health Services Branch, for resolution.

62080.14 Transgendered Inmates

Revised November 20, 2012

Inmates who have been diagnosed as transgendered, as documented on the CDCR Form 128-C3, shall be referred to a classification committee for review of all case factors and determination of appropriate institutional placement and housing assignment. In order to ensure inmate-patients receive the necessary medical care/mental health treatment, transgendered inmate-patients, to the maximum extent practical, shall be housed at the following institutions:

- Male to Female inmate-patients:
 - California Medical Facility (CMF)
 - Richard J. Donovan (RJD)
 - San Quentin State Prison (SQ)
 - Mule Creek State Prison (MCSP)
 - California Substance Abuse Treatment Facility (SATF)
 - California State Prison – Sacramento (SAC)
 - Salinas Valley State Prison (SVSP)
 - Correctional Institution for Men (CIM)
 - Kern Valley State Prison (KVSP)
- Female to Male inmate-patients:
 - Central California Women's Facility (CCWF)
 - California Institution for Women (CIW)

In cases where an inmate-patient has multiple case factors which make it difficult to house them in one of the above listed institutions, a case

conference consisting of Health Care Placement Oversight Program, Classification Services Unit, California Correctional Health Care Services, and Population Management Unit staff, shall be conducted to determine the most appropriate level of care/institution suitable for housing consistent with the inmate-patient's case factors.

Inmates identified as transgendered on the CDCR Form 128-C3 shall, upon request, be provided with state issued brassieres or boxer shorts via the institution clothing room and permitted to purchase such items as needed.

62080.15 Medical and Psychiatric Transfers/ Non-Emergency

Routine medical/psychiatric transfer requests shall be referred to a CSR with a recommendation from an appropriate classification committee.

Routine transfers for medical/psychiatric reasons generally are to resolve a specific short-term medical problem, psychiatric problem, or evaluation as a "medical/psychiatric return" placement or for special prolonged placement needs.

62080.15.1 Medical/ Psychiatric and Return

No medical transfer for evaluation and/or short-term treatment shall be approved until a statement of acceptance has been obtained from the receiving institution's Chief Medical Executive (CME) or Chief Psychiatrist as appropriate. If the transfer request is within CDCR policy, the CSR shall indicate endorsement in the usual manner. If the inmate is to be returned to the sending institution upon completion of evaluation or treatment, it shall be indicated on the CDC Form 128-G, Classification Chrono, by "Medical (Psychiatric) and Return." Male inmates serving life without possibility of parole in need of emergency medical/psychiatric care shall be exempted from Departmental Review Board review requirements and shall be presented to a CSR for transfer approval.

62080.15.2 Department Form 128-C3 Documentation

A medical officer's report on a CDCR Form 128-C3 shall be attached defining, in lay language, the medical/psychiatric problem or reason for the evaluation; the relative seriousness of the case; the period of time within which the transfer should be effected; the type of transportation necessary; whether an attendant is required; if any medication or care is necessary while en route; and a statement that acceptance by the receiving CME/Chief Psychiatrist has been obtained.

62080.15.3 CSR Review

The responsibility for locating treatment or specialist resources shall rest with the medical/psychiatric department and not with the CSR. Such transfers shall usually be approved unless there is an extremely serious overriding reason, in which case the CSR shall consult with the referring CME or psychiatrist. If after the consultation the CSR determines the endorsement inappropriate, the case shall be discussed with the Chief, CSU, who shall consult with the Assistant Deputy Director, Health Services, to develop a transfer plan. Inmates transferred for medical/psychiatric reasons may be admitted directly to the hospital, if necessary, pending an evaluation by a physician/psychiatrist.

62080.15.4 C&PR Review

When the medical procedures are completed for "medical and return" cases, the C&PR shall be notified. The C&PR shall review the case to ascertain if any medical, custodial or program considerations contraindicate the inmate's return to the sending institution. If there are contraindications, or an alternate program/institution is deemed preferable, the C&PR shall refer the case to a classification committee. If no contraindications exist, the C&PR shall refer the case to the institution's CCRM for return to the sending institution.

62080.16 Medical and Psychiatric Placement

For placements in a medical or psychiatric program, the following additional procedure is required:

- The CDC Form 128-C shall indicate that the inmate meets the criteria established for the program, as indicated above, and note the name of the accepting physician.

62080.16.1 Criteria

There are no referrals or waiting lists for transfers to the Inpatient Psychiatric Observation, Unclassified, Category "I," as transfers are to be accomplished within 72 hours.

The medical/psychiatric category designation shall be assigned at the time the inmate is approved for the program.

Clinical progress reports on a CDC Form 128-C shall be made quarterly, but may be completed more frequently if conditions warrant. A summary CDC Form 128-C report, a classification action, and CSR endorsement are required whenever an inmate is changed from a program category.

The C&PR is delegated the authority to act as a CSR for program changes between Categories "I" and "J", "J" and "H", and "N" and "O".

62080.16.2 Enemy Identification Prior to Transfer

Prior to all medical/psychiatric transfers, the C&PR of the sending institution shall notify the receiving institution's C&PR by telephone if the inmate has enemies at the receiving institution, so proper precautions may be taken. If the enemy situation precludes the transfer, the sending institution shall make an alternate institutional transfer arrangement to facilitate the inmate's needs.

62080.17 Emergency Medical Transfers

Upon acceptance of an emergency case by the CME of the receiving institution and completion of transportation arrangements, the C&PR at the receiving institution shall contact the CSU for FAX transfer approval

62080.17.1 Ambulance Service

The CDCR air and land ambulance service shall be administered by CMF. Personnel assigned to the ambulance operation shall be familiar with the policies and procedures governing the transportation of inmates and the necessary procedures governing medical and psychiatric patients.

62080.17.2 Ambulance Use

The land or air ambulance shall be used only for cases in which the CME/Psychiatrist of the sending institution has determined that such transportation is required. An MTA from CMF or the sending institution shall arrange to accompany the land or air ambulance. Requests for land or air ambulance use shall include information regarding custodial classification, degree of violence and any other useful information.

62080.17.3 Medical Transporting of Parolees

The land or air ambulance may also be used for transporting inmates to a parole placement or to return parolees to an institution when a medical/psychiatric statement is obtained indicating that this type of emergency transportation is medically/psychiatrically necessary. The CMOE at CMF shall schedule and route the air and land ambulance. Requests for ambulance use shall be directed to that office.

62080.17.4 Emergency FAX Approval

Upon approval and completion of transportation arrangements, the Associate Warden, Health Care Access Unit, at CMF shall contact the CSU to request FAX transfer approval.

62080.18 Involuntary Psychiatric Transfers

Inmates involuntarily transferred to CMF for psychiatric treatment are entitled to a hearing regarding the transfer (Whitaker v. Rushen, No. C-81-3284 SAW). Upon arrival at CMF, such inmates shall be served with a Notice of Transfer to CMF. The notice explains the inmate's rights. The inmate may sign the notice waiving the rights or may request a hearing if opposed to the transfer. Inmates shall have this hearing at CMF.

62080.18.1 Whitaker V. Rushen No. C-81-32-84 SAW

The hearing shall be held within seven calendar days after arrival at CMF. If the hearing cannot be held within seven days, the inmate shall be informed in writing of that fact, the reason for the delay, and an estimated date by which he may expect the hearing. The inmate's counselor shall be assigned to assist the inmate in gathering evidence and interviewing witnesses and shall be present at the hearing. The hearing shall consist of a classification committee review of the case and shall include the following:

Inmate Due Process

- Determination that the inmate received written notice of the transfer to CMF stating that the inmate has a right to a hearing and that such hearings are normally held within seven days after arrival at CMF.
- The information relied upon in ordering the transfer to CMF shall be disclosed to the inmate. The inmate shall be heard in person and be permitted to present evidence, including witnesses, on his behalf. One of the members of the classification committee shall be a psychiatrist employed by CDCR. This person shall be an "independent decision maker" and shall not be the inmate's treating psychiatrist at either the sending or receiving institution. Following the hearing, the independent decision-maker shall inform the inmate in writing of the committee's decision and the information relied upon in arriving at the decision (Whitaker v. Rushen). The inmate may appeal the decision, using a CDCR Form 602, Inmate/Parolee Appeal; within 30 days of receipt of the hearing documentation. A ruling on the appeal shall be returned within 20 working days.

62080.19 Revisions

Revised November 20, 2012

The Deputy Director, Facility Operations, DAI or designee shall ensure that the content of this Article is current.

Whitaker v. Rushen, No. C-81-32-84 SAW.

ARTICLE 13 — BOARD OF PAROLE HEARINGS

Revised March 29, 2006

62090.1 Policy

PC 3040 provides that the Board of Parole Hearings (BPH) shall have the power to allow prisoners imprisoned in the state prisons, to go upon parole, outside the prison walls and enclosures, pursuant to PC 1168(b).

62090.2 Purpose

This Section establishes standard procedure for conducting required BPH hearings and preparation of the institutional BPH evaluation reports.

62090.3 Importance of Board Hearings

One of the most important times during incarceration for certain inmates and parole violators is their appearance before the BPH. All life sentence prisoners must appear before the BPH to be considered for parole. Those inmates sentenced under the Indeterminate Sentence Law (ISL) or sentenced prior to 1985 to a term of one year and one day appear before the Board that provides them an opportunity for parole consideration. Inmates sentenced to one year and one day for offenses occurring after January 1, 1985, do not appear before the BPH.

The BPH rules are set forth in CCR (15) (2) and in Administrative Directives issued by the BPH.

62090.4 Board Personnel

The BPH is a policy making body of nine commissioners appointed by the Governor for a term of four years. Deputy Commissioners are civil service employees who assist the BPH in conducting hearings.

62090.5 Types of Board Hearings

Life prisoner hearings:

- Documentation Hearing.
- Initial Parole Consideration Hearing.
- Subsequent Parole Consideration Hearing.
- Progress Hearing.
- Rescission Hearing.

Non-life Prisoner hearings [PC 1168(b)]:

- Parole Consideration Hearing.
- Rescission Hearing.
- Extended Term Hearing, [PC 1170.2(b)].
- Mentally Disordered Offender Hearing, (PC 2960-2962).

Parole violator Hearings:

- Revocation Hearing.
- Parole Revocation Extension Hearing.

62090.5.1 Life Prisoner Hearings

The following are the different types of hearings for life prisoners.

62090.5.1.1 Documentation Hearing

Inmates committed for first or second degree murders that occurred on or after November 8, 1978, and inmates committed pursuant to PC 667.51, 667.7, and 217.1 shall have a hearing prior to their minimum eligible parole date.

The Documentation Hearing is conducted by one Deputy Commissioner. The purpose of this hearing shall be to monitor and document the institutional adjustment of each life prisoner. The inmate's counselor shall complete a Life Prisoner Post-conviction Progress Report which covers the period of time from the inmate's reception into CDCR, or from the date the life term began, whichever is latter, to the hearing, if it is the first documentation hearing, or for the period from the last documentation hearing for which a Post-conviction Progress Report was prepared to the present hearing.

The first documentation hearing shall be scheduled during the 36th month after the life term starts. Subsequent documentation hearings shall be held at three-year intervals until the Initial Parole Consideration Hearing.

62090.5.1.2 Initial Parole Consideration Hearing

An Initial Parole Consideration Hearing is conducted by a panel of three, of which at least two are BPH Commissioners. This hearing may include an attorney representing the inmate, a DA representing the county in which the crime occurred, and the victim or next of kin representing a victim. The purpose is to consider the inmate's suitability for parole and, if suitable,

establish a term. The hearing is scheduled 13 months before the inmate's Minimum Eligible Parole Date (MEPD). A Post-conviction Progress Report and a Life Prisoner Evaluation Report shall be completed by the inmate's counselor for use in the hearing.

62090.5.1.3 Subsequent Parole Consideration Hearing(s)

A Subsequent Parole Consideration Hearing is held for those inmates previously found unsuitable for parole and conducted for the same purpose and in the same manner as an Initial Hearing. As with the Initial Parole Consideration Hearing, the Subsequent Hearing is conducted by a panel of three, at least two of which are BPH Commissioners. It is scheduled one to three years after the hearing in which an inmate was found unsuitable for parole. An abbreviated Life Prisoner Evaluation Report shall be prepared for this hearing if the most recent previous hearing was conducted with the use of a complete Life Prisoner Evaluation Report. Abbreviated Evaluation Reports are not to be used in consecutive hearings. An updated Post-conviction Progress Report covering factors since the last Board appearance shall also be prepared.

62090.5.1.4 Progress Hearing

A Progress Hearing is held for life prisoners with parole dates to consider their institutional adjustment since the previous hearing. This hearing is conducted by a panel of three, at least two of which are BPH Commissioners. The purpose is to grant post-conviction credit. A Post-conviction Progress Report covering factors since the last Board appearance shall be prepared. Psychiatric evaluations are not prepared for Progress Hearings unless requested by the BPH.

62090.5.1.5 Rescission Hearing

A Rescission Hearing is held to consider if there is good cause to rescind or postpone a life prisoner's parole date for disciplinary, psychiatric or other specific reasons. No Board report is required.

62090.5.2 Non-Life Prisoner Hearing

The following are the different types of Non-Life Prisoner Hearings.

ISL Parole Consideration Hearing

An Indeterminate Sentence Law (ISL) Parole Consideration Hearing is held for certain inmates who committed crimes prior to July 1977 and had Determinate Sentence Law (DSL) dates retro calculated. The purpose of this hearing is to provide these inmates with an opportunity to be considered for release under the ISL that may result in a lesser term than the DSL provides. It is scheduled a month before the inmate's MEPD and annually thereafter for inmates denied a parole date in the previous hearing.

PC 1168(b) Hearing

A PC 1168(b) Hearing is scheduled within 60 days after reception of inmates sentenced to a term not exceeding one year and one day under the ISL or under the same provision in the DSL. The purpose of this hearing is to set a term within the one year and one day range. No Board report is required if the inmate's hearing is within four months of reception.

ISL Rescission Hearing

A Rescission Hearing is held to consider if good cause exists to rescind an ISL parole date for disciplinary, psychiatric, or other reasons. No Board report is required.

Extended Term Hearing

An Extended Term Hearing is held to consider an extension of the DSL retro calculated term in selected ISL cases. This hearing is scheduled within 120 days after the inmate's reception by the Department or after receipt of an amended Abstract of Judgment. The decision to schedule a hearing is made by the BPH. Such hearing is conducted by a panel of three; at least two of which are commissioners. No Board report is required.

Mentally Disordered Offender Hearings

A Mentally Disordered Offender Hearing is held to determine if good cause exists to require that an inmate be subject to mandatory in-patient treatment while on parole. PC 2962 and BPH 2570 et seq. identify the criteria leading to such consideration and the process governing such placement. This hearing is conducted by a panel of two Deputy Commissioners. No counselor generated Board reports are required.

62090.5.3 Parole Violator Hearing

A Parole Violator Hearing is held to consider if good cause exists to revoke a parolee's parole and return them to custody. These hearings are held at the local jail or at a parole violator processing facility within 45 days of arrest. Some parolees may be returned to prison before the hearing, as in the case of parolees with a severe mental illness, persons in overcrowded local facilities, or out-of-state absconders. Only the parole violation report and supporting documents are necessary.

62090.5.3.1 Parole Revocation Extension Hearing

A Parole Revocation Extension Hearing may be held to consider if good cause exists to extend the parole revocation period of a prisoner for in-custody misconduct. No counselor generated Board report is required. Charging document and supporting reports must be presented.

62090.6.1 Hearing Room

Hearing rooms shall give the appearance of dignity and decorum. When not scheduled for Board hearings, the rooms shall only be used for purposes that will maintain their hearing room value, such as, conferences, oral interviews, or classification committee meetings.

At hearings, necessary supplies such as paper tablets, sharpened pencils, proper forms, a copy of the current Penal Code and BPH Rules, a listing of the institution's available programs and cold drinking water shall be provided. All tape recording equipment shall be checked to ensure good working condition during the hearing.

62090.6.2 Scheduling

Inmates shall be scheduled in a timely manner. The Board shall be informed in advance of any changes in the schedule.

62090.6.3 Case Files

All case files shall be complete and consistent, including hearing packets for panel members and attorneys. All case files of life prisoners to appear during the week shall be available.

62090.6.4 Board of Parole Hearings

Scheduled attendees, observers, and victims and victims' next of kin may attend individual case hearings if prior permission has been obtained from any person assigned to the subject hearing panel, the chairman, or the executive officer, BPH. Visitors and observers may not participate in the hearing except as permitted by law.

BPH Notification to Facility

BPH staff shall advise the Classification and Parole Representative (C&PR) of the institution to be visited of any BPH authorized attendees for any specific date. The C&PR shall provide a written notice to the visitor entrance gate of any anticipated victims, next of kin, victim representatives, and authorized visitors to the BPH hearings.

62090.6.4.1 Victim, Next of Kin, or Victim Representative

CDCR staff shall treat victims, next of kin, and their representatives attending BPH hearings with dignity and respect, and ensure their experience entering an institution is as accommodating as possible while maintaining the safety and security of persons and the institution. Victims, next of kin, and their representatives shall be notified of the BPH at least 30 days prior to the hearing.

Once the appearance of a victim, next of kin and their representative has been arranged, the Office of Victim and Survivor Services (OVSS) will provide attendees' names, addresses, and telephone numbers to the C&PR at the institution or facility where the hearing is to be held. The OVSS also will provide attendees with a BPH handbook.

No recording device or camera equipment is allowed. The institution/facility shall provide an escort for victims, next of kin, and/or victim representatives at all times while they are in the facility's security area.

62090.6.4.2 Victim Service Representative

Each Warden of an institution where BPH parole eligibility hearings are held will ensure that the institution's C&PR is specifically assigned as the Victim Service Representative (VSR). The VSR shall be responsible for ensuring the duties and functions described below are completed by designated staff. The Assistant C&PR shall be assigned as the back-up VSR to ensure sufficient continuity of services. Procedures established within DOM Sections 62090.6.4.1 through 62090.6.4.7 shall pertain only to Victims, a Victims Next of Kin, or a Victim Representative, for the purpose of attendance at Lifer Parole Eligibility Hearings only.

The Warden shall ensure there is an operational procedure for the VSR position. The VSR or designee shall be responsible for the following:

- Making contact with attendees and answering any questions they may have.
- Explaining the BPH process, security screening procedures, required identification documents, and ensuring they received a copy of the BPH Hearing Handbook.
- Provide information to the attendee regarding appropriate attire to be worn into the facility. Appropriate attire shall conform to Title 15, CCR Section 3174 (a)(2) and (b)(1)(2)(3)(4).

- Asking attendees if they have any special needs such as medications, assistive devices or special foods or juice they will need to keep with them in the institution.
- Suggesting that attendees with medical implants containing metal bring available medical documentation/certification from a clinician identifying the location and type of any medical implant in order to expedite the screening process.
- Providing attendees with directions to the institution if necessary.
- Informing attendees that the VSR or designee will be awaiting their arrival.
- Ensuring all necessary paperwork to process the attendees into the institution has been completed and received.
- Asking attendees if they have documents or information they will be bringing to the hearing.
- Escort attendees to a waiting room near the BPH hearing area that is separate and apart from the inmate, his or her attorney, and any other attendees whose presence may be upsetting to the victim, next of kin, or their representatives.
- Ensuring the waiting room is supplied with at least tissue, water, note pads, and ink pens or pencils.
- Be present at the gate at least 10 minutes prior to the arrival time of the attendees in order to greet them and to assist with processing them into the institution.
- Ensuring the hearing room has appropriate accommodations.
- Remain with the attendees until the hearing begins and throughout the hearing. Attendees may, if desired, be escorted to a private area after the hearing and be given an opportunity to express their views about the hearing.
- Escorts attendees back to the entrance building after the hearing and processes them out of the facility.

62090.6.4.3 BPH Hearing Attendee Screening

Revised September 25, 2007

The following BPH attendee screening process is intended to ensure the safety of all persons entering CDCR institutions. The policy is based on standards and protocols employed by the United States Transportation Safety Administration.

Except as provided in this Article, victims, next of kin, and their representatives attending BPH hearings are required to successfully pass through a metal detector or alternate screening process as described below as a condition of entering an institution where a hearing is to be held. Attendees should avoid wearing clothing items that contain metal as these items will set off the metal detectors. Attendees are to remove coats, jackets, and items that may set off the metal detector before attempting to pass through the metal detector. Attendees who do not successfully pass through the metal detector will be subject to additional screening and may be denied entrance into the facility.

In the event an attendee is unable to successfully pass through the metal detector, CDCR custody staff shall use a hand held metal detection wand for a more localized search to identify the area(s) causing the alert.

If through the use of the hand held wand, custody staff can localize/isolate the area(s) which is causing the alert, a pat down of the area(s) will be conducted to determine the cause of the alert before being permitted into the institution.

Attendees who do not want to go through the metal detector or hand held wand screening may request a pat down search as an alternative.

Pat-down searches may also be required of attendees based on visual observations by custody staff, even if an audible alarm has not gone off.

Custody staff are required to communicate their actions to attendees prior to using hand-wands or conducting pat-down searches.

Custody staff are to use the back of the hand when patting-down sensitive body areas, which include the breasts (females only), genitals, and buttocks. For non-sensitive areas, including other parts of the torso, custody staff are required to use the front of the hand. An attendee has the option to request a private screening location.

Custody staff of the same gender as the attendee will conduct pat-down searches. An additional custody staff of the same gender as the attendee shall be present-whenver a-pat-down search is conducted.

A companion, assistant, or family member as defined in Section 3000 of the Title 15 may accompany attendees with disabilities or medical conditions and assist them during a private or public screening. After providing this assistance, the companion, assistant, or family member will need to be re-

screened. An attendee may ask for a chair if he or she needs to sit down during the screening process. Attendees should be required to raise their arms out during an inspection only as far as they indicate they can. Attendees who refuse appropriate screening will not be permitted into the institution and will be unable to attend the BPH hearing.

Whenever there is an alarm in the area of a dressing or bandage, custody staff will conduct a gentle limited pat-down of the dressing or bandage area over top of the attendee's clothing. In the event custody staff is not able to determine that a dressing or bandage is free of prohibited items via a pat-down, the attendee may be asked to lift the specific clothing item covering the bandage to effect a visual search, i.e., lift pant leg or sleeve to expose the bandaged area prior to being permitted into the institution.

Custody staff will not ask to, nor will they remove a dressing or bandage during the screening process. However, if custody staff is still unable to determine that the bandage is free of prohibited items after the pat down and visual inspection, the attendee will be denied access to the institution and will be unable to attend the BPH hearing.

62090.6.4.4 BPH Attendees with Disabilities and Medical Conditions

Attendees with disabilities and medical conditions may present medical documentation regarding their medical condition or disability to custody staff to help inform him or her of their situation and facilitate the screening process. This documentation is not required and will not exempt the attendee from the security screening process.

Attendees should advise custody staff of an implanted pacemaker, other implanted medical device, or metal implant and where that implant is located. Attendees who have a pacemaker should (but are not required to) carry a Pacemaker Identification Card when going through security screening and shall be screened with a full body pat-down search instead of walking through the metal detector or being screened with a hand-wand.

If an attendee states that he or she should not go through the metal detector or be screened with a hand-wand because it could affect the functionality of their implanted medical device or the magnetic calibration of their implanted medical device, custody staff shall conduct a full body pat-down search prior to the attendee being permitted to enter the institution.

Prostheses, Assistive Devices, and Mobility Aids

Custody staff are to visually and physically inspect prosthetic devices, assistive devices, mobility aids, casts or support braces as part of the screening process. Custody staff will not ask nor require removal of prosthetic device(s), casts, orthopedic shoes or support braces. Attendees may be asked to lift specific clothing to effect a visual inspection of the prosthesis or support brace, i.e., lift pant leg or sleeve to expose the prosthetic device.

Attendees will not be required to remove medical devices, such as an insulin pump, feeding tube, ostomy or urine bag at any time during the screening process. Attendees are to advise screeners if they have an ostomy or urine bag. Attendees are not required to expose these devices for inspection unless the hand held metal detection device is set off, at which point a visual and physical inspection (pat-down of the area, over top of clothing) will be conducted to ensure there are no prohibited items being concealed in the area.

Attendees who require use of a wheelchair shall not be required to pass through the metal detector nor be asked to transfer to another wheelchair for screening purposes. Custody staff shall affect a visual and physical inspection of their wheelchair. Custody staff shall then use a hand held wand to search the attendee.

Augmentation devices attached to wheelchairs are permitted through the screening process once they have undergone visual and physical inspection.

The following medical and disability-related assistive devices needed by attendees during the BPH process are permitted into the institution; however, they are subject to inspection and search. The assistive devices will be itemized on CDC Form 1000. Smaller items, such as necessary medications, scissors, and syringes shall be placed in a container provided by the institution and carried into the institution/hearing. The contents of the container will be accounted for via the CDC Form 1000 upon exiting the facility. All other items that are not needed during the hearing will be either left in the entrance building in a locker or returned to the attendees' vehicle:

- Wheelchairs, scooters, crutches, casts, canes, walkers, prosthetic devices, support braces, exterior medical devices.
- Orthopedic shoes and appliances, augmentation devices, Braille note takers, slate and stylus.
- Ostomy-related supplies such as positioning plates (wafers), collection pouches and scissors (blunt tipped.)

- Service animals such as dog guides, assistance, hearing and seizure alert dogs, monkey helpers.
- Supplemental personal medical oxygen containers/systems and other respiratory-related equipment and devices.
- All diabetes related equipment and supplies, including:
 - Insulin and insulin loaded dispensing products (vials, jet injectors, pens, infusers, and preloaded syringes).
 - Unused syringes when accompanied by insulin or other injectable medication.
 - Lancets, blood glucose meters, blood glucose meter test strips, alcohol swabs, meter-testing solutions.
 - Insulin pump and insulin pump supplies (cleaning agents, batteries, plastic tubing, infusion kit, catheter, and needle).
 - Glucagon emergency kit.
 - Urine ketone test strips.
 - Sharps disposal containers or similar hard-surface disposal container for storing used syringes and test strips.
- All types and forms of medication, dispensers, and related supplies necessary for the attendee during the BPH process.

All medications, including insulin, in any form or dispenser must be clearly identified. Attendees who are concerned about going through the walk-through metal detector with their insulin pump may request a full-body pat-down search and a physical inspection of their pump instead. Insulin pumps and supplies must be accompanied by insulin.

Hearing and Visual Disabilities

Attendees are not required to remove hearing aids or the exterior component of a cochlear implant during the screening process. Exterior components of a cochlear implant are to be visually and physically inspected while it remains on the attendee's body.

Custody staff are to explain the security process to persons with visual disabilities and verbally communicate with them throughout each step of the screening process. Screeners are to provide persons with visual disabilities with assistance by providing them with an arm, hand, or shoulder as they move through the process. White collapsible canes are to be physically inspected after attendees have passed through the walk-through metal detector so that attendees can guide themselves through the walk-through metal detector. Equipment such as Braille note-takers are to be physically inspected.

Medical Oxygen and Respiratory-Related Equipment

Supplemental personal medical oxygen and other respiratory-related equipment and devices (e.g. nebulizer, respirator) are permitted through the screening process once they have undergone screening. All respiratory equipment and oxygen will be visually and physically inspected. Attendees are not required to disconnect from their oxygen or respiratory device.

Service Animals

Attendees using an animal for assistance should carry appropriate identification. Identification may include: cards or documentation, presence of a harness or markings on the harness, or other credible assurance of the attendee using the animal for their disability. At no time during the screening process will attendees be required to be separated from their service animal. Custody staff will not touch service animals. Attendees are required to maintain control of the animal in a manner that ensures the animal cannot harm the screener. Attendees are to advise the screener how they and their animal can best achieve screening when going through the metal detector as a team (i.e., walking together or with the service animal walking in front of or behind the attendee). If the walk-through metal detector alarms in the situation where the attendee and the animal have walked together, both the attendee and the animal must undergo additional screening. If the walk-through metal detector alarms on either the attendee or the animal individually (because they walked through separately), additional screening must be conducted on whoever alarmed the walk-through metal detector. If the animal alarms the walk-through metal detector, custody staff will ask the attendee or companion to remove the animal's collar, harness, leash, backpack, vest, etc., for staff inspection prior to being permitted into the institution.

62090.6.4.6 Religious or Cultural Items

Attendees are permitted to wear their head covering including those who wish to keep their faces covered during the screening process. If the attendee cannot successfully pass through the metal detector, the attendee will be re-screened using hand-wands and a pat-down search as described above. The only exception to this policy is if the alarm is still unresolved, the attendee

may request the opportunity to remove the head covering in a private screening area before custody staff of the same gender to clear security.

Religious, cultural, or ceremonial items that pose a risk to the safety of staff or the security of institutions, such as religious knives, swords, etc., are not permitted inside the institution.

62090.6.4.7 Identification and Additional Materials

In accordance with Title 15, CCR Section 3173, and Department Operational Manual (DOM) Proof of Identity, all adults attending BPH hearings shall present acceptable government-issued identification.

Victims, next of kin, and/or their representatives attending a BPH hearing are permitted to bring the following personal items with them to the hearing, in addition to the items allowed pursuant to this Article and for visitors in general pursuant to DOM Section 54020.15:

- Food items such as whole fruit, a sealed candy bar or sealed granola bar, upon inspection and approval;
- Writing materials, documents, and a book, upon inspection and approval.

62090.6.5 Media/Television Coverage of BPH Hearings

CCR (15) (2) 2031 covers media representation at hearings, and CCR (15) (2) 2032 covers television and radio coverage of BPH hearings. No television coverage shall occur without approval of the Warden.

BPH staff shall coordinate these activities with the affected institution's Warden. The PIO shall provide written notice to the entrance building of authorized media, TV and radio personnel as well as any approved equipment.

Media personnel shall be escorted to and from the BPH hearings by custodial staff.

62090.6.6 Custodial Coverage of BPH Hearings

BPH hearings shall be provided custodial coverage. One officer shall be assigned to BPH coverage for the duration of the scheduled hearings. When security needs require additional staff, determined by the Warden or their designate, they shall be assigned.

- Custodial staff assigned to BPH coverage shall wear Class A uniforms.
- Custodial staff providing BPH coverage shall carry handcuffs, handcuff key, and a personal alarm device and have immediate access to a set of waist chains. Other necessary equipment may be utilized if approved by the Warden.

Duties of Coverage Officer

The assigned officer shall secure safety equipment and report to the BPH hearing area in sufficient time to:

- Perform a security inspection of the board room(s) and adjacent areas.
- Process the first scheduled inmate into the board waiting area at least 15 minutes prior to the starting time of the hearing.

Only inmates scheduled for BPH hearings shall be allowed in the boardrooms or affected areas.

- Each inmate shall remain under the direct supervision of custodial staff. The BPH coverage officer shall be physically present in the hearing room unless specifically directed otherwise by BPH commissioners.
- Each inmate shall be given a clothed body search each time the inmate enters or departs the BPH_hearing room.
- Inmates may bring into the BPH area or hearing room only material absolutely essential to their hearing. This material shall be inspected (not read) each time the inmate enters or departs the hearing room.

When security requirements dictate special security precautions, the BPH commissioners shall be advised prior to the hearing.

62090.6.7 BPH Parking Areas

BPH staff shall be provided designated parking spaces in the employee parking lot. On scheduled BPH hearing days, institution staff shall ensure that the designated spaces are available to BPH staff.

62090.6.8 BPH Staff Processing Into Facility

BPH staff shall be processed through the facility staff entrance building in the same procedure used for institution staff.

- Personal effects shall not be searched, however, briefcases, etc., shall be inspected.
- Positive identification is required.
- BPH staff shall sign the visitor register upon entering and leaving the institution.
- Escorts for BPH staff are not required.

62090.7 C&PR

Each institution's C&PR office is responsible for the preparation, coordination and follow-up for all Board hearings and related matters.

The C&PRs shall schedule their time during Board hearings to ensure full availability to meet Board needs.

When the Board recommends that an inmate be involved in vocational, educational, other upgrading programs, or that an inmate be transferred to another institution for diagnosis and/or evaluation for treatment, the C&PR shall follow-up as required.

62090.8 Institutional Board Reports and Preparations

Institutional Board reports are the responsibility of Correctional Counselors utilizing the formats described in this section. Board reports shall be completed in a thorough, concise and timely manner. Counselors may attend Board hearings as a learning process or if requested by an inmate, but are not expected to attend all hearings.

Non-Correctional Counselor staff may prepare reports under the close guidance of a supervising counselor. The completed Board report shall be signed by the non-Correctional Counselor employee and countersigned by the counselor or captain overseeing the work after the administrator has reviewed the report to ensure its validity and completeness.

Before preparing a summary evaluation for the Board, the entire C-File and other pertinent files, such as the medical or psychiatric file, shall be reviewed. Any erroneous data shall be corrected. Source documents required by the Board or considered important for the Board's attention shall be removed, reviewed, have important content underlined, and be routed with the Board report to the C&PR.

62090.9 Inmate Copy of Board Reports

Prior to a scheduled appearance, the inmate shall be given a copy of all non-confidential portions of any report prepared for the Board.

Inmates shall be afforded an opportunity to discuss any aspect of the report they question with the counselor. If an issue is not resolved, it shall be clearly identified and efforts made to resolve it shall be noted. Such differences shall be documented in an addendum report to the Board, a copy of which shall also be sent to the inmate. The inmate may also prepare a statement regarding their disagreement with the report that shall become part of the material presented to the Board.

62090.10 Use of Reports

A Post-conviction Progress Report shall be utilized for Documentation, Initial, Subsequent, and Progress Hearings.

A Life Prisoner Evaluation Report shall be utilized for Initial and alternate Subsequent Hearings. Abbreviated Life Prisoner Evaluation Reports will be used for alternate Subsequent Parole Consideration Hearings.

For non-life ISL prisoner hearings, the old format BPH Hearing Report shall be used.

62090.11 Life Prisoners Two-Part Format

For all Life Parole Consideration hearings, a two-part format shall be used.

62090.11.1 Post-Conviction Progress Report

A simple year-by-year outline of the inmate's adjustment shall be prepared to reflect 12-month increments (i.e., 6/79 to 6/80 or 5/80 to 5/81) covering the period from the date term began or from the date of reception, whichever is latter to the present. Post-conviction Progress reports prepared for Subsequent Hearings will reflect behavior in 12-month increments covering the period of time since the most recent post-convictions progress report was prepared. It shall include prison placement, custody level (explain reason for any increased custody or specialized housing such as MAX, PHU, and SHU), work/training/program assignments, grades achieved, disciplinary violations, adverse or laudatory chronos, and any other significant events. Ensure that dates are noted, including the beginning and ending dates of programs.

Telegraphic writing style shall be used, as the emphasis is upon brevity, accuracy and clarity. Any previous hearing reports shall be retained, compiled and reused so that only a brief report to update the inmate's adjustment since the last report is necessary.

62090.11.2 Life Prisoner Evaluation Report

A comprehensive evaluation of the life prisoner's past pattern of criminal behavior and changes while in prison shall be prepared for Parole Consideration Hearings. The report is divided into commitment factors, pre-conviction factors, post-conviction factors, and parole plans.

A thorough study of the C-file, staff observations and an interview with the inmate shall be accomplished to complete the report.

The report's format provides a comprehensive evaluation for the Initial Parole Consideration Hearing and shall be retained for use at all Subsequent Parole Consideration Hearings.

62090.11.2.1 Extenuating Factors

The following shall be judiciously considered and incorporated within the report when completing life prisoner evaluation reports.

62090.11.2.1.1 Aggravating Circumstances

- The crime involved some factors described in BPH Rule 2403(b) or (c), as appropriate, in a category higher on either axis than the categories chosen as most closely related to the crime.
- The victim was particularly vulnerable due to age, physical or mental condition.
- The inmate occupied a position of leadership or dominance over other participants in commission of the crime, or they induced others to participate.
- The inmate had a history of criminal behavior for which the term is not being enhanced under BPH Rule 2286.
- During the commission of the crime the inmate had a clear opportunity to cease but instead continued.
- The inmate has engaged in other reliably documented criminal conduct which was an integral part of the crime for which they are currently committed.
- The inmate had a special relationship of trust with the victim, such as that of employee-employer.
- The manner in which the crime was committed created a potential for serious injury to persons other than the victim of the crime.
- The inmate was on probation, parole, in custody or had escaped from custody at the time the crime was committed.
- Specific circumstances in aggravation of first degree murder (PC 187):
 - The murder was wanton and apparently senseless in that it was committed after another crime occurred and served no purpose in completing that crime.
 - The corpse was abused, mutilated or defiled.
 - The inmate went to great length to hide the body or avoid detection.
 - The murder was committed to prevent the testimony of potential or actual witnesses at a trial or investigation.
 - The murder was committed to prevent discovery of another crime.
 - The murder was committed by a destructive device or explosive.
 - There were multiple victims for which the term is not being enhanced under BPH Rule 2286.
- Specific circumstances in aggravation of kidnapping for robbery or ransom (PC 209).
 - The incident involved multiple victims.
 - The property/ransom which the inmate had taken or attempted to take was valued at \$25,000 or more.
 - The kidnapping posed a threat to the public order, such as where the victim was a public official.

62090.11.2.1.2 Mitigating Circumstances

The crime involved some factors described in the approximate matrix in a category lower on either axis than the categories chosen as most closely related to the crime.

- The inmate participated in the crime under partially excusable circumstances which do not amount to a legal defense.
- The inmate had no apparent predisposition to commit the crime but was induced by others to participate in its commission.
- The inmate tried to help the victim, sought aid after the commission of the crime or tried to dissuade a crime partner from committing other offenses.
- The inmate has a minimal or no history of criminal behavior.
- The inmate was a passive participant or played a minor role in the commission of the crime.
- The crime was committed during or due to an unusual situation unlikely to recur.
- The crime was committed during a brief period of extreme mental or emotional trauma.

62090.11.3 Non-Life Prisoner Evaluation Format

Revised September 25, 2007

The format described below shall be used for non-life prisoner hearings.

Purpose of hearing. Specify in capital letters the type of hearing:

- ISL INITIAL PAROLE HEARING.
- ISL SUBSEQUENT PAROLE HEARING.

Custody

Institutional history. Reflect past and present custodies, and their duration in months. Explain the reason for any increased custody specialized housing such as SHUs or PHUs.

Transfers

Summarize any transfers during the reported period or since the inmate's reception, recording the most recent transfers first and indicating the reason for the transfers.

Program Record

Program record. (Omit sections that are not applicable.)

- Academic education. State the education level at reception. Evaluate ability to learn (IQ), and chronologically summarize academic achievements and motivation, as reported by the Education Department, since the inmate's reception.
- Vocational instruction. Chronologically summarize all past and current training being received and achievements. Note past and anticipated dates of completion. If terminated without completing a course, summarize the reasons.
- Work. Chronologically list all past and current work assignments, noting duration and work habits. Evaluate their total work pattern.
- Self-help programs. Chronologically list participation in group activities for the period of time addressed in the report, such as group counseling, Alcoholics Anonymous and/or Narcotics Anonymous. This section should also include athletic participation, hobby, Inmate Advisory Council or any inmate documentable activity.
- Programs recommended by BPH. Chronologically list the program categories recommended and the degree of participation or reasons for noncompliance. List the current participation first.

Inmate Resources

Inmate resources and plans for release.

- Marital status/child support. Summarize present family situation such as married, a registered domestic partner, single, common-law, or divorced. Report status of any marriage intent or returning to a marriage upon release. List obligations to pay family support in dollar amount, name of county and address of agency to receive payments.
- Employment. List job offers if the inmate has job commitments. Include employment address, phone number, type of work and proposed salary. If there are no job offers, the inmate's desires shall be noted. Indicate the relationship between the inmate's intent for employment and institutional work and vocational training.
- Other community resources. Indicate prior union membership, status of driving privileges, if driver's license is valid, and special employment needs, such as tools or clothes.
- Residence. List current county of commitment resources. Indicate name, address, and location of prospective residence upon release. If placement is to be with relatives or friends, review significant attitudes and reasons for this placement. List all phone numbers, directions to the address if in a rural area or a P.O. Box number. Indicate if the inmate will need assistance from the Parole Agent and note any financial resources the inmate may have to aid this placement.
- Alternative County of Parole. If inmate has alternative to county of commitment plans, list them in order of residence, with whom and relationship, any job offers, special needs to complete parole.

Counselor Evaluation

Counselor evaluation. (Analysis and professional judgment.)

- Attitude toward offense. Outline the commitment offense and the inmate's present attitude towards it. Note if the inmate's attitude is the same as when received or if it has changed. The inmate shall not be required to admit guilt or discuss factors if they choose not to.
- Institutional adjustment. Describe the inmate's overall behavior pattern in prison, effects of prison on their personality, and their rapport with staff and peers. Describe significant medical or emotional problems and treatment.
- Prognosis. Indicate if the inmate understands or foresees any problems they will face and if the inmate's release plans are realistic. Note if the inmate has developed social skills to cope with the stresses of society. Advise the Parole Agent of problem areas and positive traits. Provide a

balanced opinion of readiness for release, being careful not to make a recommendation.

- Technical data. Indicate any holds or notices (agency and reasons). Current status of crime partner, including last Board action on crime partner if presently incarcerated. If enemy or gang affiliation exists, refer to the confidential folder if appropriate. Include any other significant information not covered above.
- Addenda. A chronological list of disciplinary reports shall be compiled and attached to the report. If a disciplinary violation occurs a day to two before the Board hearing, custodial staff shall provide the records office with a brief statement of the incident and an estimate of when the disciplinary process shall be completed.

62090.12 ISL Prisoner Progress Hearing

Progress Hearings are held to determine if a previously set parole date should be advanced because of the inmate's conduct. Parole dates may be advanced, but cannot be extended without a separate rescission hearing.

The Post-conviction Progress Hearing Report shall cover institutional history only from the date of the last Board hearing. Each progress report shall be a supplement to the report for the hearing in which parole was granted.

The Parole Consideration Hearing Report that was prepared for the hearing at which parole was granted and all progress reports shall become part of the permanent case summary.

62090.13 Psychiatric Evaluations Life Prisoners

The BPH requires a full psychiatric evaluation of life prisoners for all first Documentation, Initial and Subsequent Parole Consideration Hearings. An evaluation is also required for any Rescission Hearing based on psychiatric problems or assaulting/sexual behavior. Inmates shall be retained on psychiatric referral status unless specifically removed by a BPH panel.

Cases recommended to category X [explained in DOM 62080] shall be calendared to appear no sooner than in one year unless the panel specifically instructs that the inmate be calendared upon completion of the evaluation. Those inmates who refuse to participate in a BPH ordered evaluation shall be retained on psychiatric referral status and calendared on the scheduled calendar.

Psychiatric Evaluation Reports shall be completed and distributed to the inmate, the inmate's attorney and the DA at least 15 days before the hearing.

62090.13.1 Psychiatric Report Preparation

Brevity with accuracy and clarity is the standard for this report. A more detailed evaluation may be written and attached as an addendum to the report if the psychiatrist/psychologist determines it necessary.

Lay terminology and explanations of technical terms and diagnoses shall be used where possible. These reports become part of a legal record that may be used by many laymen, including the inmate. Accordingly, the report should not contain psychodynamic speculations or other material that may be easily misinterpreted. Information of value to the psychiatrist shall be explained in laymen's terms to avoid misunderstandings.

Detailed repetition of information that is available elsewhere in the inmate's C-File shall be avoided.

Previous psychiatric reports shall be retained in the case summary for reference. If the previous report is virtually the same as the current one, do not rewrite the entire report. Indicate that the case has been reviewed, there is no significant psychiatric change, and the previous report is still accurate.

After the report has been written, any new developments in the case shall be reported on CDC Form 128-C, Medical - Psychiatric - Dental chrono, and sent to the C&PR for inclusion with the psychiatric evaluation.

62090.13.2 Psychiatric Report Format

Indicate in the first paragraph if this is the first, second, etc., report to the Board on this inmate, or if it is an addendum (less than nine months since the last evaluation).

Indicate in the second paragraph the frequency of contact with the inmate, such as if they are under treatment and how long, or if it is a single contact for this report only. For the first report only, note any pertinent previous psychiatric history with a short digest of essential conclusions and treatment. Briefly summarize the inmate's current development and progress, avoiding repetition of information available elsewhere in the inmate's C-File or in previous evaluations.

Briefly delineate, in the third paragraph, the present psychopathology supporting the diagnosis and prognosis which follow. Any previously reported psychiatric conclusion(s) shall be re-evaluated. Causative factors, self-understanding, attitudes, motivation for change, emotional stability, social identification, sincerity, and rehabilitation shall be commented on. A neurophysiological appraisal must be included if organicity is present. If

drugs are being used for treatment, include the observed impact on the inmate's current condition.

The fourth paragraph shall indicate the psychiatric diagnosis(es) using standard nomenclature followed by lay term explanation, as necessary.

Psychiatric Conclusions

The fifth paragraph shall include the evaluator's best estimate of the inmate, based on psychiatric reasoning (not legal or administrative) in the following manner:

- Be sure to note the reasons wherever possible.
- Note the relationship of the diagnosed psychopathology to the criminal behavior.

General Conclusions

During observation in the institution, the inmate has:

- Psychiatrically improved slightly, moderately, or greatly.
- Psychiatrically deteriorated slightly, moderately, or greatly.
- Psychiatrically has shown no significant change.

No conclusions can be drawn because of insufficient time and observation by the reporter.

In a less controlled setting, such as return to the community, the inmate is:

- Considered likely to continue improvement.
- Considered likely to hold present gains.
- Considered in all probability to deteriorate because of (list reasons).

In all cases of pedophilia and some other cases of unusually specific or direct relationship between psychopathology and crime, add the following:

- Considered mentally (un)able to refrain from repetition of their offensive behavior.

Suggested Actions

(Include only if applicable.) From a psychiatric standpoint, the inmate should:

- Be continued in present rehabilitation program as continued benefit is likely. Note the recommended specific treatment prescription.
- Be removed from special calendar because psychopathology is not significantly related to future criminal behavior and psychiatric opinion will not contribute to release decision.

When two or more favorable psychiatric reports with similar conclusions for release have been written, in the case of more difficult judgments, these reports must have been written by more than one examiner or reviewed by a psychiatric council.

When there have been repeated unfavorable psychiatric reports describing a stable mental condition which cannot be expected to change, the conditions under which parole would be possible or become possible must be spelled out. For example, in some cases, parole might be possible only to a supervised domicile program including psychiatric care. In recommending removal from psychiatric calendar because of repeated unfavorable reports, it must be recognized that release is prohibited and therefore, those changes that would make release possible should be indicated so that the Board will request re-evaluation when such changes do occur.

When the inmate should be considered for transfer to DMH under PC 2684 or DMH inpatient/day treatment at CMF, and it is anticipated that such treatment may result in the inmate being able to return to society; DMH, (if it accepts the transfer) will retain such inmates only as long as it is of benefit to the inmate.

Parole and Release

If the inmate is to be paroled or released, consideration should be given to the following:

- Violence potential outside a controlled setting in the past is considered to have been less than average, average, or greater than average and at present, is estimated to be decreased, increased, or the same. In this context, violence potential is equated with inflicting physical harm on others or great emotional harm, as by creating fear. Average violence potential is interpreted to mean the violence potential possessed by the average inmate.
- Conditions of parole should include inpatient treatment, outpatient clinic, halfway house, no alcohol or other special attention/supervision needs as indicated.
- If outpatient clinic is recommended, indicate if:
 - Mandatory for parole from institution.
 - Necessary as soon as possible after parole.
 - Merely desirable if available.

Inmates convicted of PC 273A, Willful Cruelty Toward Child/Endangering Life, Limb or Health and PC 273D, Inflicting Corporal Punishment Upon Child Resulting in Traumatic Injury, shall have a psychiatric evaluation to determine the extent of counseling which may be mandated as a condition of parole per PC 3002.

Applicable cases shall be referred for an evaluation in sufficient time to enable the report to be completed and included with the Release Program Study (CDC Form 611), which is referred to the Division of Adult Parole Operations.

Drug therapy should be continued while the inmate is on parole. They should receive (name drug), in a dosage (amount), (number) times a day.

Recommendations to the classification committee (prior to release):

- Indicate what the Post Board Classification Committee should do with the inmate if the inmate is denied parole.
- If a parole date is set, indicate any recommendation(s) pertinent to the period remaining in the institution before parole such as:
 - A further psychiatric evaluation should be completed just prior to release.
 - Indicate the reasoning for all recommendations.

62090.14 Preparation of Clinical Reports by Counselors

There may be occasions when large numbers of psychiatric referrals and limited psychiatric staff may require that qualified CC-IIs prepare clinical reports, in lieu of psychiatric evaluations, for selected cases and under supervision of a Board certified psychiatrist or licensed psychologist.

The format for psychiatric evaluations shall be used by the counselor except the title of these reports shall be changed to "clinical evaluation." Those areas of the format that call for psychiatric diagnosis and psychiatric conclusions shall be changed to indicate personality description and conclusion(s).

Counselors shall not prepare nor sign as its originator any report/evaluation that implies by its title or description that it was prepared by a psychiatrist or psychologist.

A psychiatrist/psychologist shall not sign as their own report, a report bearing a psychiatric title or description which was prepared by a counselor, without having personally interviewed the inmate.

62090.14.1 Procedures

PC 5068 sets forth the basis for the above directives. To this end, the following procedures are established:

- When existing staff or consulting psychologists or psychiatrists can adequately handle the evaluation workload, counselors shall not prepare clinical evaluations in lieu of the psychiatric evaluations.
- Counselors who are to prepare clinical evaluations shall be selected on the basis of their:
 - Special interest in this type of work.
 - Having two years of graduate training and experience in the treatment or evaluation of emotionally disturbed individuals. If the two years of training is primarily academic, supervised field work is highly desired.
 - Where appropriate, a psychiatric council shall be established to review such evaluations prepared by counselors.
 - The council shall be composed of the institution's chief or program psychiatrist/consulting psychiatrist (chairperson), a clinical psychologist, a captain or CC-III and the counselor who prepared the evaluation.
 - Custodial personnel who are familiar with the inmate's behavior and attitude may also be included on the council.
 - The psychiatric council has final responsibility for the accuracy and quality of the report.
 - If the report is accepted, it shall list the names of the council and be signed by the council's psychiatrist.

Supplemental Findings

- If the council determines there are supplemental findings or recommendations, they shall be added below the counselor's signature and endorsed by the council, as above.
- If there is a difference in the findings of the counselor and the council, the council shall set forth the reasons for their difference of opinion before endorsing the counselor's report.
- The report shall retain the clinical evaluation title unless the psychiatrist personally interviews the inmate.

- After the inmate has been interviewed, the report may be retitled a psychiatric evaluation and signed by the psychiatrist or psychologist.
- The council shall make every effort to interview the inmate when the report is reviewed. Every effort shall be made to maximize the number of inmate interviews to ensure these evaluations reflect the observations of our most highly trained professional personnel.
- Graduate students working towards a doctorate degree in psychology and CC-IIs who are working towards becoming qualified to prepare clinical evaluations for the Board, may prepare such reports under the direct supervision of a licensed staff psychologist or a Board certified psychiatrist.
- Evaluations prepared by students and trainees shall be signed by the student/trainee.
- The evaluation shall be approved and endorsed by a staff psychologist, psychiatrist, or the psychiatric council.

62090.15 Revisions

The Deputy Director, Division of Adult Institutions, or designee shall ensure that the content of this Article is current.

ARTICLE 14 — RESERVED

ARTICLE 15 — UNASSIGNED

ARTICLE 16 — RESERVED

ARTICLE 17 — SEXUALLY VIOLENT PREDATORS

Revised June 7, 2012

62130.1 Policy

In accordance with the Welfare and Institutions Code (W&IC) Section 6600 et seq., the California Department of Corrections and Rehabilitation (CDCR) provides a systematic method in the identification, screening, referral, and tracking of potential Sexually Violent Predators (SVP).

62130.2 Purpose

The purpose of the SVP law is to provide an additional level of protection to the community from individuals who, based on their social, criminal, and institutional history, are deemed dangerous and predisposed to engage in sexually violent predatory behavior, if released from prison without treatment.

62130.3 Sexually Violent Predator

To meet the criteria requiring a SVP evaluation, the inmate's case factors must include the following elements:

- Is in custody under the jurisdiction of the CDCR when the district attorney files the petition for commitment with the court.
- Received a determinate sentence.
- Convicted of a sexually violent offense against one or more victims.
- Has a diagnosed mental disorder that makes the person a danger to the health and safety of others in that it is likely that he or she will engage in sexually violent criminal behavior.

The SVP qualifying offenses are identified in the W&IC Section 6600, and Department Operations Manual Section 62130.8.

62130.4 Classification Services Unit Role

The Classification Services Unit (CSU) shall ensure departmental coordination, compliance, and standardization of SVP processes. CSU performs the following tasks:

- Resolves conflicts.
- Raises concerns for resolution.
- Prepares legislative reviews.
- Provides a computer listing of inmates and parolees in revoked status to each Warden and Classification and Parole Representative (C&PR)/Reception Center (RC) Correctional Counselor (CC) III at least nine months prior to the scheduled release dates. This list is generated from the Offender Based Information System for inmates subject to registration as sex offenders pursuant to the Penal Code (PC) Section 290 list.

- Maintains a database, which includes records and statistics of all potential SVP cases screened by the Division of Adult Institutions (DAI) and Division of Adult Parole Operations (DAPO).
- Forwards cases meeting SVP criteria to the Board of Parole Hearings (BPH) for an independent review and further processing. For cases where a conclusive determination cannot be made based upon a review of the current central/electronic file and archive file documents, see the BPH section below.
- Forwards a copy of all Department of Mental Health (DMH) and /or BPH results upon receipt, for placement in the inmate's central/electronic file.
- Generates teletypes for SVP transfers to Atascadero State Hospital (ASH), Coalinga State Hospital (CSH), or Patton State Hospital (PSH) upon request from the SVP Coordinator at either California Men's Colony-East (CMC-E) or California Institution for Women (CIW).
- Provides formal training to CDCR staff.
- Serves as the CDCR liaison to the following:
 - BPH
 - CSU refers cases to BPH in which a final determination cannot be made based upon available information. These are commonly referred to as "MAYBE" cases and consist of any SVP package that does not contain complete and sufficient documentation necessary to address the SVP statutory commitment criteria. Typically, "MAYBE" cases will involve out-of-state and out-of-country sex offense convictions; California convictions of SVP offenses for which supporting documentation is missing or incomplete; juvenile adjudications for SVP under certain circumstances; mentally disordered sex offender commitments to DMH; military and federal convictions for any sex offenses, etc. BPH will attempt to obtain the necessary documentation related to the conviction. BPH will then provide the documentation to the California Department of Justice (DOJ), who will complete a legal analysis of the case, and make the determination whether the sex offense convictions outside of California contain the same elements as the qualifying SVP offenses listed in the W&IC. BPH shall advise CSU of the determination results.
 - If after completing their independent review, BPH determines the case meets the criteria for SVP, BPH will forward the case to DMH and provide CSU with documentation of their determination.
 - If after completing their independent review, BPH determines the case does not meet the criteria for SVP, BPH will notify CSU of the determination and provide documentation of the results.
 - The BPH may order that an inmate remain in custody for no more than 45 days beyond the inmate's release date for completion of the DMH process.
 - After release from CDCR, BPH may conduct Revocation Hearing proceedings for SVP pre commitments/commitments who are involved in serious revocable misconduct.
 - DMH
 - DMH conducts clinical evaluations of potential SVPs to determine if the inmate has a diagnosed mental disorder which makes the inmate a danger to the health and safety of others, in that it is likely that he or she will engage in sexually violent criminal behavior.
 - DMH refers individuals meeting SVP criteria to the inmate's county of commitment with a request for petition for a civil commitment.
 - DMH clinicians shall provide SVP treatment at CDCR to individuals who had been placed at ASH, CSH, or PSH for SVP processes and who subsequently return to CDCR as a result of serious misconduct.
 - DMH shall notify CDCR of the evaluation determination and provide documentation of the results.
 - C&PRs.
 - See Section 62130.5

62130.5 Classification and Parole Representative or Correctional Counselor III at Reception Centers

The C&PR or CC III at a RC is responsible for establishing a tracking system to ensure inmates who have been convicted of a PC Section 290

offense are screened at least nine months prior to release pursuant to the W&IC Section 6600 et seq. The C&PR/RC CC III is also responsible for:

- Ensuring CCs and designated Correctional Case Records staff have received training in the SVP screening processes.
 - Ensuring the Automated Release Date Tracking System is used at least bimonthly to identify PC 290 cases that require screening.
 - Reviewing and signing the completed CDCR Form 7377, Sexually Violent Predator Screening, ensuring the veracity of the information provided and that all supporting documentation is attached.
 - Ensuring "sex related" reports and documents are requested from appropriate agencies and departments upon receipt of an inmate from the RC for purposes of determining "R" suffix designation.
 - Ensuring additional information is obtained from the Strategic Offender Management System (SOMS)/Electronic Records Management System (ERMS) for "MAYBE" cases.
 - Ensuring inmates with less than 120 days to release shall be processed within 24 hours of discovery to the CSU prior to review of archive documents unless the documents are in the central/electronic file.
 - Ensuring attachments of supporting documents are pertinent to the SVP qualifying offense.
 - Ensuring CSU is advised of release date changes for "YES" and "MAYBE" cases within 24 hours of the date change via facsimile of the CDC Form 112, Chronological History.
 - Ensuring CSU is advised via facsimile of transfers of "YES" or "MAYBE" cases within 24 hours of completed transfer.
 - Ensuring CSU is advised via facsimile of inmates who are out to court (OTC) for SVP proceedings within 24 hours of departure.
 - Notifying CSU and the receiving institution of the need for an SVP screening when an inmate who appears on the monthly download has transferred prior to the receipt of the monthly list from CSU.
 - Completing and attaching a CDCR Form 1884, Justification Referral Sheet, to the CDCR Form 7377, if less than six months are remaining to the scheduled release date.
 - Ensuring the completed CDCR Form 7377 SVP supporting documentation subsequently received are filed on a drop board under the fingerprint card in the legal section of the central file or scanned into the legal section of the electronic file using SOMS/ERMS.
 - Notifying CSU upon the placement of a BPH Temporary Hold and again upon placement of a 45-day Hold.
 - Coordinating with the Institution Personnel Officer for State identification cards/gate clearance issuance for DMH Evaluators conducting SVP clinical evaluations.
 - Arranging for DMH evaluators to have access to specified central/electronic and medical files. Identify an appropriate location to conduct the file review and the clinical evaluation of an inmate.
 - Approving review of an inmate's confidential information by a DMH clinician, if that information is germane to the SVP evaluation. Direct DMH evaluators to limit the use of the information so as not to disclose in any later written report, information that is specifically derived from a confidential document. Require a court order to provide a copy of a confidential document.
 - Coordinating with the Transportation Unit and CMC-E, the transfer of male inmates to ASH or CSH, via CMC, and with CIW the transfer of female inmates to PSH, via CIW, based on the following determinations:
 - Court order for housing at ASH, CSH, or PSH.
- Note: Transportation of inmates to ASH, CSH, or PSH shall be expedited in compliance with a court order.
- Providing CMC-E information necessary for receipt of a male inmate transferring to ASH or CSH, via CMC-E.
 - Providing CIW information necessary for receipt of a female inmate transferring to PSH, via CIW.
 - Providing updated PC 3058.6 and 3058.8 notifications to law enforcement agencies and requesting individuals, respectively, and ensuring the following has been completed:
 - Contact the individual requesting notification pursuant to PC 3058.8 by telephone or other communication the next working day upon release of the inmate if a county, district attorney, court, DMH, or other agency assumes custody of the inmate, if other than originally noticed. The information should include:
 - The receiving agency's name.
 - The agency contact person's name and telephone number, if known, to assist the victim/witness, etc. further.

- Document the date, time, and staff name of the person providing updated information to the PC 3058.8 requesting individual on the CDCR Form 863-A, Confidential Notice of Release. Recommended statement to be included on the CDCR Form 863-A, "Requestor notified on _____ (date) of release to the agency."
- Forwarding the central file to CMC-E, regarding an inmate who has reached his scheduled release date and is released to another's custody pursuant to W&IC 6600 et seq.

CMC-E's C&PR shall arrange transportation of parolees from ASH to the designated location for Revocation Hearing proceedings.

CIW's C&PR shall arrange transportation of parolees from PSH to the designated location for Revocation Hearing Proceedings.

62130.6 Time Constraints

In the interest of public safety, staff shall adhere to the following time frames:

- Cases shall be screened nine months prior to the scheduled release date, unless inmate is received with less than nine months to release.

If the case is identified with less than nine months remaining to release, the following action shall be taken:

- Cases identified within 45 days of release must be faxed to the CSU with a follow-up telephone call within 24 hours of discovery.
- Cases identified between 46 and 120 days of release must be prepared immediately and sent via overnight mail to CSU within 24 hours of discovery.
- Cases identified between 121 days and 8 months of release must be prepared immediately and sent via overnight mail to CSU within 5 working days of discovery.
- Cases identified with release dates between 8 to 9 months must be mailed to CSU within 30 days.

A CDCR Form 7377, SVP screening, submitted with less than six months remaining to release shall require the following additional attachments:

- A CDCR Form 1884, Justification Referral Sheet, containing a concise written explanation describing why the potential SVP case was not submitted according the above noted time frames. There are two authorized exceptions to referring a case for evaluation with less than six months remaining to serve. They are as follows:
 - The inmate was received into CDCR with less than six months to serve.
 - The inmate's release date is modified by a judicial or administrative action.
- A copy of the inmate's CDC Form 112, Chronological History.
- A copy of the judicial action or administrative action that modified the inmate's release date, if applicable.

62130.7 California Department of Corrections and Rehabilitation Form 7377, Sexually Violent Predator Screening

The completion of the CDCR Form 7377, SVP screening, shall not be delegated to a staff member below the level of CC I. The CDCR Form 7377 must be prepared neatly, legibly, and accurately. Detailed instructions for completing the CDCR Form 7377 are located on the reverse of the document. Designated staff shall be accountable for accuracy and completed staff work.

The CDCR Form 7377 reflects the case review and completion of the form includes, but is not limited to, the following:

- Inmate's name and CDC number.
- Criminal Identification and Information (CI&I) number.
- County of controlling case (listed on the Legal Status Summary (LSS)).
- Type of release/release date.
- Controlling discharge date.
- Selection of one SVP determination.
- Reference documents include: the Abstract of Judgment (AOJ)/Minute Order, Felony Information/Complaint, etc.
- Comments on the CDCR Form 7377 if any potential reference documents are not available for review.
- The screener's name and date printed legibly.
- "YES" and "MAYBE" determinations require the submission of the CDCR Form 7377 and copies of all SVP qualifying supportive documentation, to include:
 - LSS.
 - Institutional Staff Recommendation Summary.
 - Probation Officer's Report.
 - AOJ/Minute Order.

- Felony Information/Complaint.
- CI&I.
- Federal Bureau of Investigation printout.
- Archive files (sex related).
- Sex related CDC Form 115s, Rule Violation Reports (including disciplinary violations from prior terms).
- Parole violation charge(s), if charge includes an element of illegal sexual conduct (including prior sex related parole violations).
- Parole violation(s) and conviction(s) for failure to register pursuant to PC 290.
- Previously processed "YES" cases, also known as "RECYCLED," require a new CDCR Form 7377 and a copy of the inmate's parole violation charge(s) or new commitment information to be submitted to the CSU.
- "NO" determinations require only a current completed CDCR Form 7377 be submitted to CSU.
- CDCR Form 7377 distribution:
 - Original to CSU SVP Coordinator.
 - Copy placed in central file or scanned into the legal section of the electronic file using SOMS/ERMS.
 - Copy to inmate upon request.

62130.8 Sexually Violent Predator Penal Code and Statutory Law Qualifying Offenses

The following statutory criteria are SVP qualifying offenses. Qualifying offenses include, but are not limited to, the following:

- PC 261, Rape-Acts Constituting (all subdivisions).
- Note: A defined "Rape by Threat" conviction regardless of the PC Section is an SVP qualifying offense.
- PC 262, Rape of Person Who Is Spouse of Perpetrator (all Subdivisions).
- PC 264.1, Rape or Penetration of Genital or Anal Openings by Foreign Object in Concert by Force or Violence.
- PC 269, Aggravated Sexual Assault of a Child (all Subdivisions).
- PC 286, Sodomy (all subdivisions).
- PC 288, Lewd Act on Child or Dependent Person (all Subdivisions).
- PC 288a, Oral Copulation (all Subdivisions).
- PC 288.5 Engaging in Three or More Acts of Substantial Sexual Conduct With a Child Under Age 14 (Continuous Sexual Abuse of a Child Under 14).
- PC 289, Anal or Genital Penetration by Foreign Object (all Subdivisions).
- Felony convictions for any of the following acts with the intent to commit PC 261, 262, 264.1, 269, 286, 288, 288a, 288.5 or 289 are also qualifying offenses under Proposition 83, the Sexual Predator Punishment and Control Act, better known as Jessica's Law:
 - PC 207, Kidnapping Defined.
 - PC 208(d), Kidnapping; Punishment (old law).
 - PC 209, Kidnapping for Ransom or Extortion.
 - PC 220, Assault.
- Convictions prior to July 1, 1977, for an offense described in any of the previously delineated PC sections (even if the PC section is different, i.e., Rape by Threat).
- Conviction(s) (sex related or not) (misdemeanor or felony) resulting in a Mentally Disordered Sex Offender (MDSO) designation, including dispositions resulting in State hospital placement, mental health treatment, credit for time served, county jail, probation, unknown disposition, etc.
- Not Guilty by Reason of Insanity findings that involved a qualifying offense.
- Qualifying convictions dismissed, expunged or voided due to receipt of a Certificate of Rehabilitation pursuant to PC 1203.4.
- Out-of-state and out-of-country conviction(s) of any sex offense that after a thorough review by the DOJ are determined to be equivalent to the above noted offenses.
- Conviction(s) by a military or federal court of any sex offense that after a thorough review by DOJ are determined to be equivalent to the above noted offenses.
- PC qualifying offenses regardless of the degree of force, violence, duress, menace, or fear of injury indicated within the Probation Officer's Report or court documents.
- Felony Convictions for "Attempts" or "Accessory" to the above listed offenses are not qualifying offenses.
- Misdemeanor convictions for the above listed offenses are not qualifying offenses (exception: MDSO criteria explained above).

- Juvenile Court Adjudication. A prior juvenile adjudication of a sexually violent offense may constitute a prior conviction for which the person received a determinate term if all of the following applies:
 - The juvenile was 16 years of age or older at the time he/she committed the prior offense.
 - The prior offense is a SVP offense as specified in W&IC 6600, subdivision (b).
 - The juvenile was adjudged a ward of the juvenile court within the meaning of PC Section 602.
 - And the juvenile was committed to the California Youth Authority now known as the Division of Juvenile Justice (DJJ) for the sexually violent offense.

62130.9 California Men's Colony-East/California Institution for Women Sexually Violent Predator Coordinator

Upon the arrival of transferring inmate(s) enroute to ASH, CSH, PSH, the California Men's Colony-East (CMC-E)/California Institution for Women (CIW) Sexually Violent Predator (SVP) Coordinator shall be responsible for:

- Reviewing the confidential section of the central/electronic file to ensure that the sending institution documented a subsequent contact with the PC Section 3058.6 and/or 3058.8 law enforcement agency and/or requesting individual(s), respectively, when the inmate/parolee was released to another custody than originally noticed.
- Contacting the CSU SVP Officer of the Day, to request a teletype to receive an SVP enroute to ASH, CSH, or PSH.
- Arranging transport from CMC-E to ASH or CSH for male inmates or from CIW to PSH for female inmates.

62130.10 Central File Custody During SVP Processes

The central file of a male inmate who is OTC for SVP processes is subject to standard OTC procedures. Upon the inmate reaching his release date, the C&PR shall ensure the central file is forwarded to CMC-E for custodial care.

62130.11 Sexually Violent Predator Release Allowances and Personal Funds

The paroling institution is responsible for preparing the CDC Form 102, Release Statement, upon the release of an inmate, who has been ordered by a court to be committed as a SVP pursuant to the W&IC Section 6604, to ASH or CSH, via CMC-E for male inmates, or to PSH, via CIW for female inmates. The paroling institution shall prepare a check for the amount of personal funds reflected on the CDC Form 102 and forward the check and original CDC Form 102 to ASH, CSH, or PSH. The CDC Form 102 shall record the following information:

- The individual was not given the release allowance at the time of parole due to transfer to ASH, CSH, or PSH pursuant to W&IC Section 6604. Upon release from ASH, CSH or PSH, the parolee shall be issued the release allowance.
- No deduction for clothing. (Clothing will be provided by the DMH.)
- No deduction for transportation costs. (Upon release, the parolee will pay for transportation costs from issued release allowance.)
- The amount of personal funds due and state that the personal funds were forwarded to the appropriate parole unit.
- The date the individual will leave the paroling institution and the scheduled arrival date at ASH, CSH, or PSH.

If an inmate paroles to ASH, CSH, or PSH as an SVP, Case Records staff will note on the CDC Form 102 that the inmate is paroling to ASH, CSH, or PSH as an SVP and send CDC Form 102, personal and release funds, in check form to the designated Parole Agent II at the appropriate parole unit.

In the event an inmate is released to hold at a county jail, and reaches his/her parole date while in custody, the designated Parole Agent or Probation Officer will be contacted and shall coordinate the issuance of funds upon the parolee's release. If the inmate's controlling discharge date has expired, upon release, he/she may report to the previously designated Parole or Probation Office to request release funds pursuant to the Department Operations Manual Section 81010 in accordance with PC Sections 2713 and 2713.1.

62130.12 Personal Property

Each institution will process and store the personal property of inmates who are OTC for SVP proceedings in accordance with current procedures. The personal property of inmate's who reach their scheduled release date while OTC for SVP proceedings shall be sent directly to ASH, CSH, or PSH by the inmate's previous institution.

Personal property should be transferred with the inmate when the transfer is within CDCR institutions, in accordance with current procedures.

Prior to transfer, the sending institution will ensure the inmate disposes of any unauthorized property in accordance with California Code of Regulations, Sections 3190(c) and 3191(c)(1), (2), and (3). The following

property is not allowed at ASH, CSH, or PSH and shall be disposed of prior to the inmate's transfer to ASH, CSH or PSH:

- Razor blades or disposable razors.
- Any item which is corrosive, flammable or explosive.
- All cigarette lighters.
- All products in aerosol containers.
- Radios and/or cassette players equipped with an external telescopic antenna, or that operate by an external electrical power cord, or require a D cell battery or larger.
- Headphones with a metal headband and/or a cord greater than four feet in length.
- Television sets other than solid state LCD three-inch diagonal screen televisions with mirror attached.
- Any electrical appliance which requires a cord to operate.
- Chewing gum, fruits or perishable foods of any type.
- Personal mirrors, including hand mirrors.
- All food products in glass containers, unless factory sealed.
- All caffeinated beverages.

62130.13 Revisions

The Director, DAI, or designee shall ensure that the contents of this Article are accurate and current.

W&IC § 6600 et seq.

CHAPTER 7 — ADULT CASE RECORDS INFORMATION**ARTICLE 1 — UNIFORM CASE RECORDS SYSTEMS***Revised January 7, 1993***71010.1 Policy**

PC 2081.5 requires that the Director shall keep complete case records of all prisoners under custody of the Department, which records shall be made available to the BPT at such times and in such form as the BPT may prescribe.

Case records shall include all information received from the courts, probation officers, sheriffs, police departments, DAs, State DOJ, FBI, and any other interested agencies and persons.

Case records shall also include a record of diagnostic findings, considerations, actions, and dispositions with respect to classification, treatment, employment, training, and discipline as related to the facility correctional program of each prisoner.

71010.2 Purpose

This Section defines the authority for and the implementation of the Department's Uniform Case Records System.

71010.3 Administration of Case Records System

The Chief, Correctional Case Records Services, plans, develops, and administers the Department's Uniform Case Records System.

71010.3.1 Case Records Administrator Duties

Correctional Case Records Administrators (CCRA) provide direct technical support to the CCRM within the administrator's assigned facilities and parole regions.

71010.3.2 Case Records Staff Duties

CCRMs, supervisors, and specialists perform a variety of activities in the receiving, maintaining, interpretation, and disposition of inmate, resident, parolee, and releasee records in a records unit of a facility, parole region, or headquarters.

71010.4 Responsibility of Case Records Staff

Interpret court commitment orders; initiate criminal identification process; analyze inmate legal status to determine crime and sentence with applicable enhancements, aggravations, limitations, and good behavior credits; compute parole and discharge dates; direct preparation of legal forms for transfer, extradition, parole, and discharge of persons under the jurisdiction of the Department.

Analyze and act for the Department on subpoenas and collateral court orders, certify departmental records required by law, review individual case actions of various term-fixing and release-granting authorities to assure legal and policy compliance.

Direct the preparation of paroling authority calendar schedules, minutes, and implementation of their decisions.

Act as consultant to departmental staff, court officers, inmates, and other governmental agencies or authorized persons regarding:

- Departmental responsibility under pertinent laws and administrative standards.
- Interpretation and application of laws and standards related to inmate receipt, sentencing, paroling, and release.

71010.5 Signing of Documents

Pursuant to the provisions of PC 5055, persons in the below-listed positions are authorized to sign, on behalf of the Director, the documents as indicated:

Certification of criminal records pursuant to PC 969(b).

Letters authorizing transfer to another jurisdiction under court decision *In re Stoliker* (49 Cal. 2d 75,78) and *In re Riddle* (3 Crim 4056,66).

- Chief, Correctional Case Records Services.
- CCRAs.
- CCRMs.
- Correctional Case Records Supervisors (CCRS).
- Correctional Case Records Specialists (CRS).

Certification of criminal records pursuant to PC 969(b).

Letters authorizing transfer to another jurisdiction under court decision *In re Stoliker* (49 Cal. 2d 75,78) and *In re Riddle* (3 Crim 4056, 66).

- Wardens.
- RPAs.

Letters designating other states or federal facilities as the place of confinement for California prisoners in accordance with PC 2900(2)(3).

- Chief, Correctional Case Records Services.
- CCRA.
- Region I Interstate Unit:
 - CCRM.
 - CCRS.
 - CRS.

71010.6 Written Communications to CCRMs

Written communication shall be directed to the Warden or RPA from the respective Deputy Director for action. Copies shall be distributed simultaneously to the affected CCRM in order to expedite dissemination of information.

71010.6.1 Telephonic Communications

Direct telephone communication shall be maintained between the Chief, Correctional Case Records Services, and the CCRM on technical matters related to case records functions.

71010.6.2 Follow-Up Procedures

Any telephonic instructions that deviate from established procedures shall be followed up by written communications.

71010.7 Uniformity

Variations in the methods of recording vital information regarding inmates/parolees shall not occur.

Differences of opinions between facilities or parole regions concerning methods of recording shall be brought to the attention of the CCRA for resolution.

Facility and PAs shall suggest methods for resolution of problems.

The final decision on all such issues shall be made by the Chief, Correctional Case Records Services.

CCRAs and CSRs shall check all files reviewed to ensure that the material in such files is in the order specified and that a reasonable effort is being made to bring about uniformity.

Employees reviewing the records shall consult with the proper facility/PA concerning the contents of the case file, attempt to assist the local facility/parole region in solving any problems relating to these files with a view to their proper organization, and to report uncorrected variations to the Director by the Chief, Correctional Case Records Services.

71010.8 File Definitions

The following sections shall define and describe some of the different files used by case records:

71010.8.1 C-File

The master file maintained by the Department containing reports, evaluations, and correspondence regarding each person committed to its jurisdiction is commonly referred to as the C-File.

71010.8.2 Auxiliary File

Auxiliary files maintained by the indicated sections of the facility for the specific function of those sections:

- Education File.
- Health Record.
 - Medical File.
 - Psychiatric File.
 - Dental Record.
- Visiting File.

71010.8.3 Field File

The file maintained by the assigned Parole Agent in the unit parole office.

71010.8.4 Discharge Files

Files maintained after a person has been discharged from supervision and jurisdiction of the Department.

71010.9 Accuracy

The CCRM of a CRU is responsible for the accuracy and content of the legal portion of the C-File as it relates to the sentence, parole, and release date calculations.

Assigned counselors, Parole Agents, and supervisory staff responsible for generating evaluations and reports, including work time cards and chronos, are responsible for the validity and accuracy of information contained in such reports.

If an error causes an inmate, resident, parolee, or releasee to be released from a facility or the jurisdiction of the Department prior to or later than the correct release date, a complete report with appropriate recommendation to eliminate such incidents shall be submitted through the local chain of command to the Warden. The Warden or RPA shall submit the report to the Chief, Correctional Case Records Services.

71010.10 Priorities

Establishment of priorities for case records is a departmental function.

The Chief, Correctional Case Records Services, shall determine the needs of the departmental case records system and assign the appropriate priorities.

When local available resources are inadequate to accomplish all assigned case records functions and any omission of certain duties may have an impact upon other facility or parole region functions or programs, the Chief, Correctional Case Records Services, shall determine the needs of the departmental case records system and assign appropriate priorities.

Local variations shall occur only with the knowledge and approval of the local Warden, RPA, and the Chief, Correctional Case Records Services, and may be permitted only on a temporary basis.

71010.11 File Security

Only personnel as outlined in the DOM 13030.3.1 shall read, handle, transport, or have access to an inmate/resident/parolee's C-File or copies of its contents.

Except in an emergency, all C-Files are to be housed in or returned to the case records office at the close of business each work day and as soon as possible after an emergency.

Under no circumstance will files be taken off State property without the express permission of the Warden, RPA, their designee, and/or the Chief, Correctional Case Records Services.

All C-Files removed from the case records office shall be kept in a secure environment under supervision of personnel authorized to handle such materials.

Inmate/residents are not to have access to any file or file material other than copies of file material in their own file.

Inmates shall not have access to any file or documents classified as confidential.

71010.11.1 Inmate Access to Files

Inmates, parolees, residents, or releasees shall not be assigned to handle or transport C-Files, except under direct supervision and escort.

Files are to be contained in a secure container, and control procedures shall guarantee the safe transportation of files.

Inmates/residents shall not be assigned in case records offices or in any area where there is ready access to case files or material except that when they are under constant and direct supervision.

Appropriately classified and assigned inmates may be permitted in case records offices to perform such duties as building maintenance or janitorial services.

71010.11.2 Release of Files to Other Agencies

Inmate records shall not be released to any agency, except the office of the Attorney General, or person outside the Department without a court order.

In response to a court order, the inmate record(s) shall be transported by and remain under the control of a delegated departmental employee as designated by the Warden or RPA.

C-Files may be transferred with the approval of the local administrator between offices of the Department to facilitate response to a court order or to an office of the Attorney General for their review. In these instances, the file(s) shall be returned to the sending office at the earliest possible time.

Any requests not covered above shall be referred by the local CCRM to the Chief, Correctional Case Records Services, for approval.

71010.12 Location of Records—Inmates/Residents

All files of inmate/residents are maintained at the facility of confinement except:

- Felons sentenced pursuant to the W&I 1731.5(c) and housed in a CYA facility are maintained in the LPU.
- The files of felons serving a California term and housed in another state or federal prison are maintained in the Sacramento Control Office Unit, Region I (also known as SACCO).

71010.12.1 Location of Records—Parolees/Releasees/Community Correctional Facilities

All files of parolees and Community Correctional Facilities (CCF) inmates are maintained in the regional parole office.

All files of releasees are maintained at the California Rehabilitation Center.

71010.13 Case Record Audits

The Department's policy regarding accuracy and content of the legal portion of the C-File prompts thorough audits at various times during a person's incarceration and parole. CCRMs shall ensure that audits are completed:

- Upon arrival after transfer to a facility, CCF, or parole unit.
- Prior to transfer to another facility or CCF. (Time Collection, Hold/Want/Detainer records only.)
- 60 days prior to a scheduled release date.
- 10 days prior to a scheduled release date.
- At other times as determined by the CCRM.

71010.13.1 Audit Special Interest Cases

In addition to the audits listed above, the records of high notoriety or other special cases shall be audited every 30 days during the last nine months of incarceration.

71010.13.2 Criteria

Audits shall include, but are not limited to, the following:

- Receipt of all appropriate legal documents from the court.
 - Abstract of Judgment or Minute Order as the commitment document.
 - Transcript of Proceedings at Time of Sentencing.
 - PORs and Notices.
- Proper recording of goodtime/worktime credit documentation including computer entries of time cards/chronos, credit gains, losses, restorations, and dead time. (Computer entry of time cards/chronos is sufficient documentation.)
- Audit of time cards shall only be from the date of last worktime credit gain.
- Postings on CDC Form 112, Chronological Inmate History, to ensure that they are correct and accurately reflect the status of the inmate/parolee.

71010.13.3 Audit Check Sheet

The Audit Check Sheet shall be used by case records staff whenever an audit is being performed. It is a checklist of various factors that must be reviewed while completing case records audits.

The checklist indicates that the auditor has reviewed, calculated, and posted the records and the records properly reflect the correct status of the inmate/parolee at the time of the audit.

- The checklists shall be filed on top of the legal section of the C-File and retained until the parole region has completed its intake audit or the subject has been discharged from the facility.
- In some instances, more than one staff person may be involved in the total audit; e.g., pulling, posting, and refileing the CDC Form 144, Control Card, after a credit loss. If a clerical employee does this function, they shall initial the checklist at the applicable lines.
- Use of the checklist will enhance the credibility of prior audits by other case records offices and thereby eliminate the redundancy of auditing the complete records when completing the various audits.
- When a file has been previously audited by case records staff and a checklist completed and initialed as required, only new case-factor material needs to be reviewed at subsequent audits.
- At the time of the 60-day prerelease and final audits, all case factors shall be reviewed.
- The CCRM shall ensure that the C-Files are cross-audited by a CRS, other than the person having primary responsibility for the case.
- The CDC Form 112 shall be posted following each audit as follows: (date) file audited, (initials of auditor).

71010.14 Revisions

The Deputy Director, Institutions Division, or designee shall be responsible for ensuring that the contents of this section are kept current and accurate.

ARTICLE 2 — CASE RECORDS SERVICE UNIT*Revised August 21, 1992***71020.1 Policy**

Uniform CRUs are established which have statewide operational responsibility.

71020.2 Purpose

This section sets forth the procedures of the CRUs which have statewide functions and application.

71020.3 Case Records Service Units

The Identification/Warrants (ID) Unit, Archives Unit, Sacramento Control Office (SACCO), and the LPU are departmental records units. These units provide centralized services to departmental staff, other law enforcement agencies, and interested persons on the status of persons committed to the Department.

71020.4 Identification/Warrants Unit Hours of Operation

The unit operates 24 hours a day, seven days a week.

71020.4.1 Identification/Warrants Unit Supervision

Indirectly supervised by a correctional case records administrator.

Directly supervised by an Office Services Supervisor II.

71020.4.2 Functions of Identification/Warrants Unit

The functions of the ID/Warrants Unit include:

- Locator.
- Identification number/research.
- Warrant dispatch.

71020.4.3 Duties of Identification/Warrants Unit Staff

Staff assigned to the unit:

- Locate the region of a parolee's supervision.
- Identify inmate's assigned facility housing.
- Provide commitment data to law enforcement and other authorized agencies with a need to know.
- Provide information on persons discharged from the Department since 1957.
- Place holds pursuant to PC 3056 and/or W&I 3151 for the P&CSD.
- Conduct file searches and issue new identification numbers for newly received felons and civil addicts committed to the Department.
- Respond to telephone inquiries that require nonconfidential information concerning felons/civil addicts.
- Aid facilities and parole regions in identifying and locating inmates/parolees when the identification number is unknown.
- Maintain the Department's warrants register.
- Maintain the FAX services for the Department and the BPT .
- Act as headquarters' duty officer. Receive facility duty officer reports by telefax service.
- Dispatch BPT and NAEA warrants issued on parolees-at-large, releasees-at-large, and facility escapes. Warrants shall be abstracted by FAX upon request.
- Microfilm and maintain the file of confidential material on discharge cases.

71020.4.4 Resources Available to Determine Status of Individuals

The below-listed resources are available to unit staff to identify, locate, and determine the status of individuals:

- OBIS.
- DDPS.
- Microfiche commitments 1976 to current.
- Microfilm commitments prior to 1976.
- Warrants register.
- CLETS.

71020.4.5 Procedures for Issuing Departmental Numbers

All departmental identification numbers shall be issued by the ID Unit.

- All identification numbers shall be issued in numerical order.
- Receiving facilities shall telephone the unit for assignment of a CDC identification number.

- To facilitate processing the volume of persons received at reception centers, the ID/Warrants Unit shall issue blocks of numbers.
- In exceptional cases, inmates may be received at a facility other than a reception center. In those instances in which an inmate is received after normal working hours, the facility shall hold the person without a CDC number until the morning of the first workday. On the first workday, a CDC number shall be obtained.

71020.4.6 Confirmation of Numbers Issued

OBIS shall forward a printout of all facility admits at the close of "moves" each day.

The printout shall include:

- CDC number.
- Full name.
- Date of birth.
- Old CDC numbers (if known).
- CI&I number (if known).

Upon receipt of this printout, ID Warrants Unit staff shall research all the available resources to determine whether or not the person has previously been committed to the Department.

Due to the possible effect on the classification and housing of the new inmate, this research shall be given a high priority.

ID Warrants Unit staff shall promptly advise facility case records staff of the results of the research for old CDC numbers.

71020.4.7 Types of Departmental Numbers

An "H" shall prefix all numbers issued to male felons. When all "H" numbers have been issued, a "J" shall prefix all numbers issued to male felons.

A "W" shall prefix all numbers for female felons.

An "N" shall prefix all numbers issued to civil addicts.

- Numbers 1 to 19999 shall be reserved for female civil addicts.
- Numbers 20000 to 99999 shall be reserved for male civil addicts.

71020.5 Archives Unit Location

The Archives Unit is a departmental function located at CMF.

71020.5.1 Archives Unit Supervision

Directly supervised by a Correctional Case Records Supervisor.

Indirectly supervised by the CCRM at CMF.

Functionally supervised by a Correctional Case Records Administrator.

71020.5.2 Functions of Archives Unit

Discharge file section:

- Receive and account for case records of discharged inmates delivered to the unit.
- Audit incoming files for completeness and documentation of administrative and release board actions on the CDC Form 112, Chronological Inmate History.

Document request and certification section:

- Process requests for documents authorized pursuant to the IPA. See CC 1798 for further details.
- Process requests for proof of prior convictions for inmates/residents discharged from the Department. See PC 969(b).

71020.5.3 Requests for Information From Archives Unit

Requests for information, documents, or certifications shall indicate:

- Name.
- CDC number.
- Date of discharge as records are filed in date order.

71020.5.4 Microfiling of Records Going to Archives Unit

The complete case record of all persons discharged shall be microfilmed at the assigned parole region prior to transfer to the Archives Unit. See DOM 71020.5.6 and 71020.5.7 for exceptions.

71020.5.5 Transferring Records to Archives Unit

All records and documents forwarded to the unit shall be identified by name, number, and discharge date on the CDC Form 134, Records Transfer Checksheet.

71020.5.6 Archives File Retention

Health records. Retain in hard copy for seven years after discharge, then destroy (CCR (22) 70751[c]).

Fingerprint cards and photographs. Retain in hard copy for 30 years, then destroy.

All other remaining case records retain in microfiche 30 years, then destroy.

71020.5.7 Records Transfer Exceptions

Discharge cases that need to be retained in hard copy one year and then processed as in DOM 71020.5.6, include:

- Out-to-court discharges.
- Prisoners from other agencies.
- Prisoners from the federal prison system or a federal agency.
- DMH patients received pursuant to W&I 7301.
- Prisoners from other states received pursuant to PC 2902 or 11190.
- Safekeeping cases pursuant to PC 4007.

Hard-copy files of "N" number residents not amenable for treatment shall be retained at the facility/region for six months after discharge and then processed as above.

Hard-copy files of discharged diagnostic study "Z" cases shall be retained in reception centers six months and then forwarded to the Archives Unit where they shall be retained an additional two and one-half years.

Hard-copy files of discharged public interest cases shall be transferred to the Archives Unit and retained for 30 years prior to referral to the State Archives.

71020.5.8 Procedures for Disposing of the Records of a Deceased/Discharged Individual

Records of the deceased shall be handled according to the following:

- Retain in the facility or parole region for six months or until conclusion of any litigation.
- Forward files to the Archives Unit where they shall be retained intact for three years from the date of death or conclusion of any litigation, whichever is later.
- The CCRM shall determine the status of the litigation prior to transfer.

71020.5.9 Procedures for Reviewing a Discharged Individual's Records

Requests for review of discharge records originating outside the Department shall be submitted to the supervisor of the Archives Unit for processing.

Discharge records shall be forwarded to the CCRM of the facility or parole region nearest the requester's office for subsequent review.

Case records requested by the AG's Office shall be forwarded directly to the requesting deputy.

Case records shall be returned to the Archives Unit as soon as possible after the records have been reviewed.

The supervisor of the Archives Unit shall maintain a listing indicating:

- Name.
- CDC number.
- Discharge date.
- Name of requester.
- Location where file forwarded.
- Date file forwarded.
- Date file returned.

The supervisor of the Archives Unit shall follow up every 30 days to ensure that all records are returned to the unit.

71020.6 Sacramento Control Office

The SACCO Unit is located at Region I headquarters.

71020.6.1 Supervision of Sacramento Control Office

The SACCO Unit is directly supervised by a Correctional Case Records Supervisor.

Indirectly supervised by a Case Records Manager.

Functionally supervised by a Correctional Case Records Administrator.

71020.6.2 Sacramento Control Office Functions

Functions of the SACCO Unit include:

- Recording commitments and tracking inmates serving terms in other jurisdictions, including:
 - Escapees from the Department who have been convicted and received by another jurisdiction.
 - Consecutive cases.
 - Concurrent cases.

- In Re Stoliker cases.
- Western Interstate Corrections' Compact cases.
- Verify and document work history on inmates eligible for the work incentive program.
- Make arrangements to have inmates returned to the Department to complete their term when the other jurisdiction makes them available.

71020.7 Supervision of LPU

Directly supervised by a CCRM.

Indirectly supervised by the Chief, Correctional Case Records Services.

71020.7.1 LPU Functions

Manually process inmate legal status for all cases with life commitments, zero to one-year and one-day commitments, and other indeterminate terms.

Process commitment and legal status for persons committed pursuant to PC 1170 (a)(2) (excessive credit).

Review legal documents and computerized legal status of cases with sentence discrepancies and communicate with the court for resolution.

71020.7.2 Responsibility of LPU for Cases Housed in CYA

The LPU functions as a reception center and facility case records office for those cases sentenced to State prison pursuant to W&I 731.5(c), but housed in a CYA facility.

LPU staff shall communicate with CYA staff and coordinate the maintenance of the records and computation of the correct release date.

71020.7.3 LPU Discrepant Commitments Responsibility

Discrepant cases are those cases in which errors in sentencing are detected from the data entered into the OBIS or detected by case records staff.

LPU staff shall review legal documents and case material when received from a reception center or facility and communicate with the court to resolve the discrepancy.

- When no response is received from the court within 45 days, a second letter shall be sent to the trial court.
- When no response is received from the court within 30 days after the second letter, the case shall be referred to the DA's Office.
- After a case has been referred to the DA's Office, no further action shall be taken by LPU staff.
- When a court responds and states that the previous order shall stand, no further action shall be taken by LPU staff.

71020.7.4 LPU's Responsibility for Forwarding Material

Upon resolution of any discrepancies or completion of the legal status, the below-listed material shall be forwarded to the appropriate facility/region for inclusion in the C-File:

- CDC Form 188, Legal Status Summary.
- Original case summary and confinement calculation.
- Original, amended, or modified Abstracts of Judgments or MinuteOrders received in LPU.
- Copies of all correspondence to or from LPU regarding the case.

71020.8 Revisions

The Deputy Director, Institutions Division, or designee shall be responsible for ensuring that the contents of this section are kept current and accurate.

71020.9 References

PC §§ 969(b), 1170(a), 1203.03, 1731.5(c), 2902, 3056, 4007, and 11190.

ARTICLE 3 — TYPES OF RECORDS

Revised August 21, 1992

72010.1 Policy

The Department has developed and authorized the use of standardized forms and records. These forms and records prepared and used in various offices throughout the Department enable a uniform records system to be maintained.

72010.2 Purpose

This section defines the various forms and records and how they are to be prepared and maintained.

72010.3 CDC Form 131, Inmate Identification Card*Revised December 14, 2012*

A CDC Form 131, Inmate Identification Card, shall be prepared for each inmate received by the Department.

72010.3.1 Disposition of Inmate Identification Card When Transferring

Identification cards shall accompany inmates on transfer between facilities. Inmates may carry their identification cards or, at the discretion of the transporting officer, identification cards may be picked up and retained by the transporting officer while the inmate is in transit. If carried by the transporting officer, identification cards shall be immediately available to staff of any facility layover and to the receiving facility for reissue to the inmates upon arrival at their facility.

72010.3.2 Replacement of Lost Identification/Privilege Cards*Revised December 14, 2012*

Any inmate who loses, mutilates, or destroys an identification card shall be charged for making a new one.

72010.4 CDC Form 115, Rule Violation Report

CDC Form 115, Rule Violation Report, shall be prepared and distributed in accordance with the CCR Article 5, and DOM 52080.

A copy of the CDC Form 115 shall be numbered and filed in chronological order to constitute a register of facility violations in compliance with PC 2081.

One copy of the CDC Form 115, with the subsequent investigation reports, shall be given to the inmate and one copy shall be filed in the inmate's C-File.

Procedures for referring disciplinary reports to the BPT are outlined in this manual, CCR, and the BPT Rules.

State DOJ JUS Form 8715 shall be prepared when a violation is to be referred to the local authorities for possible prosecution. Upon return of the completed form from the local authorities, one copy shall be filed in the inmate's C-File, disciplinary section. The CCRM shall secure a copy of the commitment in any case where the authorities have indicated on JUS Form 8715 that the final disposition was a commitment to State prison.

72010.5 CDC Form 106, Visiting Questionnaire

The CDC Form 106, Visiting Questionnaire, shall be retained in a folder and maintained by visiting room staff.

- The Visiting Questionnaire folder together with the CDC Form 120, Visiting Card, shall be transferred with the inmate.

72010.6 CDC Form 128s, Progress Reports

The CDC Form 128 series (chronos) are used by staff to provide progress reports on inmates.

The original of all reports, except the CDC Form 128-G, Classification Chrono, and the CDC Form 128-E, Vocational Chrono, shall be mounted on CDC Form 108, C-File Chrono Sheet-General.

The chrono need not be typed. When handwritten, chronos shall be in black ink and legible.

Staff who have contacts of interest with inmates, relatives of inmates, or other persons interested in an inmate are encouraged to document these contacts on the appropriate CDC Form 128.

A route slip or similar device may be used when the chrono is directed to staff members before being placed into the C-File.

The last name of the person writing the report shall be placed on the bottom line on the far right-hand corner.

In addition to the date the report was written, the bottom line shall contain a descriptive title line indicating the subject matter contained in the report.

72010.7 CDC Form 128-A, Custodial Counseling Chrono

The CDC Form 128-A (white in color) shall be used only for the purpose of recording minor acts of nonconformance. The CDC Form 128-A shall be affixed to the CDC Form 108 in the disciplinary section of the C-File.

72010.7.1 CDC Form 128-B, General Chrono

The CDC Form 128-B (canary yellow in color) shall be used by staff when the subject matter to be reported involves matters of classification, parole, or social service.

- This form shall be used by counselors and chaplains when making reports on the religious activity or outside contacts of inmates.
- The number of contacts shall be indicated and any evidence of insight or change of attitude shall be noted.

- Staff shall use this form if none of the other forms in the CDC Form 128 series are applicable to record information regarding contacts with inmates or persons interested in inmates.
- Housing officers shall use the CDC Form 128-B to report such information as the inmate's relationships with fellow inmates, behavior, personal cleanliness, general attitude, and personality.
- The CDC Form 128-B-1 is initiated when an adverse classification action may occur or a major program change is anticipated.
- CDC Form 128-B shall be affixed to the CDC Form 108 in the general chrono section.
- CDC Form 128-B-1 shall be affixed to the CDC Form 108 in the classification section.
- The CDC Form 128-P, Credit Action, is prepared by the correctional case records staff when manually processing a change in release date.

72010.7.2 CDC Form 128-C, Medical/Psychiatric/Dental/Chrono

The CDC Form 128-C (pink in color) is used by the medical, psychiatric, and dental departments in place of a "memo." An exception is the psychiatric report prepared for the BPT.

- The CDC Form 128-C shall be affixed to the CDC Form 108.

72010.7.3 CDC Forms 128-D, E & F, Education Chronos

The CDC Form 128-D (white with blue ink) is used for reporting progress (not registration) in day or evening high school courses.

The CDC Form 128-E (blue) is used for reporting progress in day or evening vocational training courses.

CDC Form 128-F (green) is used for reporting progress in day or evening elementary school courses.

The appropriate forms are used for each course in which the student enrolls and shall be completed:

- At the end of each quarter.
- As a progress report prior to a parole board appearance.
- When the inmate drops out of class or for some other reason does not finish the course.
- With the bottom line containing the date and name of the course. The word "Day" or "Evening" (whichever does not apply) shall be crossed out.
- The CDC Forms 128-D and F shall be affixed to the CDC Form 108. The CDC Form 128-E shall be affixed to the CDC Form 109.

72010.7.4 CDC Form 128-G, Classification Chronos

The CDC Form 128-G (goldenrod in color) is used to record all classification committee decisions.

The CSR shall use CDC Form 128-G to record the approval or disapproval of transfers. This CDC Form 128-G shall become the official transfer authorization document.

The CDC Form 128-G shall be affixed to CDC Form 108-A.

72010.7.5 Classification Records

A "call sheet" serves as a notice of a committee meeting and is issued to all members of the classification committee by one member who is designated as committee secretary. This notice shall list the names of the inmates to be considered and the date and time of the meeting.

A "result sheet" noting committee decisions shall be prepared by the committee secretary and distributed to the CCRM and other facility staff on a need-to-know basis.

The committee recorder shall send notification of committee actions by memo or use of the "Result Sheet" to the Department heads responsible for carrying out the decisions of the committee.

72010.8 CDC Form 192, Custody Summary Folder

The CDC Form 192, Custody Summary Folder, is no longer prepared at reception centers. Wardens, however, have the option of preparing, using, and maintaining a custody summary folder during the inmate's stay at the facility.

Upon transfer, parole, or discharge, the custody summary folder shall be destroyed and not forwarded with the remaining departmental records.

Custody summary folders shall not be used for filing confidential information apart from information contained in the confidential folder of the inmate's C-File.

Nonconfidential documents in the custody summary folder shall be made available for disclosure at the time the inmate or the inmate's attorney is authorized to examine the nonconfidential portion of the inmate's C-File.

When screening the custody summary folder for confidential information, it shall be given the same care as a preview screening of the C-File.

72010.9 CDC Form 114-A, Detention/Segregation Records

The CDC Form 114-A, Detention/Segregation Record, shall be prepared for each inmate housed in lockup status. The record shall be prepared in the lockup housing unit and maintained inside the cell inspection log folder where the inmate is housed.

- Prior to forwarding the records to the case records office, documents shall be placed in an 8 1/2" x 11" manila folder. The inmate's identification number and name shall be affixed in ink to the folder.
- If the inmate is released to the general population, the records shall be forwarded to the case records office for retention with the C-File.
- If an inmate remains in lockup at the same facility for an extended period of time, the records shall be forwarded to the case records office every six months for filing and a new record created by the lockup housing unit staff.
- The case records office shall maintain this "satellite file" in close proximity to the C-File (similar to the manner in which "slough" files were maintained). If the inmate is transferred to another facility, the segregation record file shall be sent with all other records.

72010.10 CDC Form 101, Work Supervisor's Report

The CDC Form 101, Work Supervisor's Report, shall be routed to the records office for inclusion in the inmate's C-File on CDC Form 109, Work Report Chrono Sheet.

72010.11 CDC Form 144, Control Card

The CDC Form 144, Control Card, is prepared initially in the reception center and maintained by the case records staff in the facility and parole region.

When an inmate is transferred, paroled, or returned to custody, the card shall be forwarded with the C-File.

Definitions and instructions for completing the control card are discussed below:

Control Date

The control date is that date which next requires action or disposition regarding an inmate or parolee. The cards shall be filed in chronological order by the date in the control date section.

Number

The inmate's/parolee's departmental identification number (CDC number).

Name

The inmate's/parolee's commitment name.

Parole Unit

This section is for region case records staff to record the parole unit to which the parolee is assigned.

Lifer Court Notices Required

This section is marked to indicate that a notice to the court shall be sent prior to a BPT hearing on lifer cases or other indeterminate sentence law (ISL) cases as requested.

Parolee-at-Large/Releasee-at-Large (PAL/RAL)

This section is for region case records staff to record a parolee's/releasee's status and the date the parolee/releasee was declared PAL/RAL.

72010.11.1 Indeterminate Sentence Law (ISL) Data

The following information shall be entered on ISL cases:

Parole Date

An ISL parole date is entered in this block if the inmate has been granted an ISL parole date by the BPT.

Primary Term

The primary term discharge date is entered in this block if a primary term has been granted by the BPT.

Board Date/Civil Addict Program (CAP) Annual Review Date

The month and year in which an inmate is scheduled for their next ISL board hearing or, for a civil addict, their next annual review date or date specified by the NAEA .

72010.11.2 Determinate Sentence Law (DSL) Data

The following information shall be entered in DSL cases:

Maximum (Max) DSL Date/CAP Maximum Time in Program

The maximum (Max) date an inmate may remain in a facility on a DSL term or DSL recalculation or, in the case of a parolee, the Max date a parolee can

remain under parole supervision. For civil addicts, this date is the Max date a person can remain in the civil addict program.

DSL Release Date/CAP Max Time in Custody

The date an inmate is scheduled for release on a DSL recalculation or, in the case of a parolee returned to custody, the scheduled date for release from custody. For civil addicts, this date is the Max date a person can remain in custody.

Discharge Review Date/CAP Clean Consecutive Months on Outpatient Status (OPS)

The date one year after release to (or returned to) active parole status. For civil addicts, this is the date that shall indicate the conclusion of the clean consecutive months in outpatient status (OPS) for discharge consideration or the date the civil addict rolls over to civil addict parole.

72010.11.3 Miscellaneous Information

This section shall be used to record status of extended term screening. Case records staff may record other information in this section as needed.

72010.12 CDC Form 112, Chronological Inmate History

The CDC Form 112, Chronological Inmate History, shall be filed as the second sheet in the case summary section of the C-File.

If additional pages are needed, the inmate's name, CDC number, and chronological page number shall be entered at the bottom of each page.

72010.12.1 Corrections to CDC Form 112

Use of white-out or correction tape is prohibited.

When an entry is no longer valid (e.g., detainer dropped, release date changed, or posting error), a single line shall be drawn through the entry. The notation "No Longer Valid," the date and staff initials shall be placed adjacent to the lined-through material.

72010.12.2 Postings to CDC Form 112

Entries on the CDC Form 112 shall only include inmate movement/location, data affecting legal status, release and discharge date, length of parole, requests from law enforcement agencies, courts, or interested parties requiring responses, and all BPT and NAEA actions.

All entries on the CDC Form 112 shall be clear, legible and in black ink except those which are specifically designated to be in red ink.

All entries shall be initialed.

Only the abbreviations listed below and the standard facility abbreviations shall be used to provide uniformity.

72010.12.3 Departmental Rubber Stamp Specifications

Rubber stamp specifications:

- All capital letters in plain bold type. Average six characters per inch, letters one-quarter inch high.

72010.12.4 Rubber Stamp Postings/Red Ink Stamp

Red ink stamp:

- WANTED BY ___ (Write in the agency warrant/hold/detainer number, expiration date. Date stamp document when received and post this in left column.)
- NO LONGER WANTED BY _____ (Write in the agency warrant/hold/detainer number. Use date received. Cross out original wanted notice.)
- NOTICE REQUESTED ___ (Write in kind of request. Note if CDC Form 128-R is confidential.)

72010.12.5 Rubber Stamp Postings/Black Ink Stamp

Black ink stamp:

- Report requested, PC 1170(d).
- Report mailed, PC 1170(d).

72010.12.6 Postings/Handwritten in Red Ink

Handwritten in red ink (sample abbreviations as noted):

- Escaped.
- Escaped while on temporary community leave (TCL).
- Apprehended by ___.
- Apprehended by ___ after expiration of TCL.
- Public interest case.

72010.12.7 Postings/Handwritten in Black Ink

Handwritten in black ink (sample abbreviations as noted):

- Received (rec'd) reception center, SQ (condemned), other jurisdiction.
- Rec'd facility–interfacility transfer.

- Rec'd reception center as parole violator returned to custody (PVRTC).
- Rec'd reception center as parole violator returned with new term (PVWNT).
- Rec'd community correctional facility.
- Out-to-court (OTC)–witness, new trial/new charge (NT/NC), further proceedings.
- Court-return to finish term (Crt Ret TFT).
- Court-return with new term (Crt Ret WNT).
- Released to TCL.
- Returned from TCL (Ret'd from TCL).
- Ret'd from escape.
- Paroled to Region ___, unit name (Par to Reg).
- Ret'd to Parole, Region ___, unit name (Ret'd to Par Reg) (after release on appeal bond/bail, court order, including while out-to-court.)
- Discharged.
- Deceased.
- Pardon granted.
- Commutation of sentence.
- File audited.
- Additional commitment rec'd.
- Amended abstract of judgment rec'd, case #____ (specify what was amended).
- Discharged from previous term, case #____ (BPT Rule 2649).
- Commitment vacated/recalled/judgment suspended, case #_____.
- Arrested/located.
- Waiver of extradition (out-of-state arrest).
- Reinstate on parole effective _____.
- Schedule for revocation.
- Continue on parole.
- Earliest possible release date (EPRD).
- Current release date.
- Max release date (MRD).
- Minimum (MIN)/MAX DSL date.
- Projected revocation release date (PRRD).
- All Board actions, hearing date, dead time, parolee-at-large (PAL) date, discharge review date (DRD), controlling discharge date (CDD), revocation release date (RRD), ISL date.

____Days Credit Lost. CDC 115, Dated ____ Log # ____

____Days credit Restored. CDC 115, Dated ____ Log # ____

72010.12.8 Items Not Posted to CDC Form 112

The following items shall not be posted:

- Release to out-to-court and return same day.
- Optional/unconditional waiver signed (this shall be part of the BPT action).

72010.12.9 Other Postings to CDC Form 112

Any entries not listed above shall be written out and not abbreviated to provide a clear understanding and meaning of the entry.

72010.13 Purging/Retention of C-File Material

When using C-Files, the counselor shall purge assigned case files of nonessential documents in accordance with the following procedures to maintain the C-File at a more manageable and less costly size and to improve the validity of case information.

72010.13.1 General Purge/Retention Guidelines

Eliminate duplication by retaining no more than a single copy of any item.

Retain all legal documents and one copy of all parts of the case summary.

Discard mail envelopes received with items placed in the file after the return address is copied onto the item.

Apply departmental criteria for determining confidentiality before disposing of material.

- All nonconfidential material removed from the file shall be given to the inmate unless otherwise indicated.

- Confidential material removed from the file shall not be given to the inmate but shall be destroyed.

No material shall be removed from the C-File which affects the facility security or the health and safety of inmates or others. If material does affect either, the specified retention schedule for that item is waived and the item shall be retained in the file. For example:

- A threat on a person's life might be documented on an informational chrono, which according to the retention schedule is due for purging. Because of the safety issue, the reviewer shall retain that chrono in the file.

Do not use local "in-house" forms in lieu of departmental forms. In cases where a local form was used, purge it according to the criteria established for the departmental form.

72010.13.2 Specific Purge/Retention Instructions

Revised July 22, 2013

The following instructions apply to the types of documentation which may be found in a case file and shall be followed in the purge processes:

Board Report

Retain in hard copy; microfiche at discharge.

Psychiatric Evaluation

Retain in hard copy; microfiche at discharge.

Responses to PC 3042 Notice

Retain in hard copy; microfiche at discharge.

Statement by Judge and DA

Not usually received on CDC form, but is the PC 1203.1 statement which shall be retained in hard copy; microfiche at discharge.

Writs Filed by Life Prisoners

Regardless of the issue raised or the named parties, writs shall be retained until discharge. Numerous writs filed by litigious inmates may be retained in a separate file. Microfiche at discharge.

Correspondence Regarding the Prisoner and the Offense

Retain in hard copy; microfiche at discharge.

CDC Form 101, Work Supervisor's Report

Retain in hard copy; microfiche at discharge.

CDC Form 102, Release Statement and Clothing Authorization

Purge all but most recent one.

CDC Form 104, Property and Cash Receipt-- Arrival

Do not file in C-File. Maintain current copies in property room.

CDC Form 105, Application for Mail and Visiting Privileges

Do not file in C-File. Retain in visiting office.

CDC Form 106, Mail and Visiting Privilege Questionnaire

Do not file in C-File. Retain in visiting office.

CDC Form 112, Chronological History

Retain in hard copy; microfiche at discharge.

CDC Form 114-A, Isolation-Segregation Record

Retain in hard copy; microfiche at discharge.

CDC Form 114-D, Order and Hearing for Placement in Segregation Housing

Retain in hard copy; microfiche at discharge.

CDC Form 115, Rule Violation Report (Administrative)

Retain in hard copy; microfiche at discharge.

CDC Form 115-A, Serious Rule Violation Report

Retain in hard copy; microfiche at discharge.

- Incident reports attached to CDC Forms 115 retained in hard copy; microfiche at discharge.

CDC Form 122, Property and Cash Receipt--Release

Do not file in C-File. Retain in property room.

CDC Form 123, Body Receipt

Retain in hard copy; microfiche at discharge.

CDC Form 126, Certificate of Driver Eligibility

Retain in hard copy; microfiche at discharge.

SOMS - Notification in Case of Inmate Death, Serious Injury, or Serious Illness

CDC Form 128-A, Custodial Counseling

Retain in hard copy; microfiche at discharge.

CDC Form 128-B, General Chrono

Retain in hard copy; microfiche at discharge.

CDC Form 128-B-1, Notice of Classification Hearing

Retain in hard copy; microfiche at discharge. These are needed for accreditation.

CDC Form 128-C, Medical-Psych-Dental

Retain in hard copy; microfiche at discharge.

CDC Form 128-C-1, Reception Center Medical Clearance/Special Instructions

Retain in hard copy; microfiche at discharge.

CDC Form 128-D, E, and F, Education Progress Reports

Retain in hard copy; microfiche at discharge.

CDC Form 128-G, Classification Chrono

Retain in hard copy; microfiche at discharge.

CDC Form 128-L, Education—College

Retain until BPT hearing (documentation, parole consideration, progress or rescission) which occurs after the conduct documented on the form, then purge.

CDC Form 128-M, Group Test Results

Retain in health records.

CDC Form 128-O, Document Receipt

Retain in hard copy; microfiche at discharge.

CDC Form 128-P, Loss of Credit Notification

Purge all but most recent notice.

CDC Form 128-P-1, Notice of Work Credits

Purge all but most recent notice.

CDC Form 128-R, Requested Notice of Escape or Transfer of Custody

Retain in hard copy; microfiche all but most recent notice.

CDC Form 138, Fingerprint Card

Retain in hard copy.

CDC Form 146, Release—Motion Pictures, etc.

Retain in hard copy; microfiche at discharge.

CDC Form 158, Certification of Education Achievement

Do not file in C-File. Retain in education/vocational office.

CDC Form 161, Warden's Checkout Order

Do not file in C-File. Retain in separate record office file for one year in addition to the current year.

CDC Form 188, Cumulative Case Summary—Face Sheet

Retain in hard copy; microfiche at discharge.

CDC Form 191, Inmate Time Card

Retain in hard copy; purge 60 days after last credit gain unless an appeal is pending.

CDC Form 193, Trust Account Withdrawal Order

Do not file in C-File. Retain in trust office.

CDC Form 198-A, Source of Information

Retain in hard copy; microfiche at discharge.

CDC Form 202, Request for Education Record

Do not file in C-File. Retain in education office.

CDC Forms 203, 204-A, 205-A, 206, 207-A, and 208

All these forms are obsolete.

CDC Form 209, Psychological Test Results

Retain in health record.

CDC Form 241, Request for Military Service Data

Purge when answer received.

CDC Form 248-A, Letter of Inquiry Re: Application for Employment

Retained in C-File only until reply is received, then purge.

CDC Form 255, Off-Reservation Work Assignment Eligible List

Do not file in C-File. Retain in custody office.

CDC Form 260, Personal Clothing Disposition

Do not file in C-File. Retain in property room.

CDC Form 279-L, Facility Appearance Evaluation Sheet

Retain in hard copy; microfiche at discharge.

CDC Forms 294 and 295, Western Interstate Corrections Compact Agreement and Cooperative Transfer Agreement

Retain in hard copy; microfiche at discharge.

CDC Forms 341, 342, 343, and 344, Discharge Certificates

Retain in hard copy; microfiche at discharge.

CDC Form 345, Power of Attorney and Authorization for Deposit

Retain latest in hard copy; microfiche at discharge.

CDC Forms 360, 360-A, 361, 362-A, and 362-B, NAEA Vote Sheet

Retain in hard copy; microfiche at discharge.

CDC Form 600, Wanted Persons System Notification—Addendum A

Retain current wants in hard copy. Purge upon cancellation.

CDC Form 602, Inmate/Parolee Appeal Form

Retain in hard copy; microfiche at discharge.

CDC Form 611, Release Program Study

Purge all but most recent one. Microfiche at discharge.

CDC Form 616, Form Letter--Request for Disposition of Probation, Waiver of Appearance and Right to Attorney

Purge when adjudicated.

CDC Forms 629-A and 629-B

SHU term of initial confinement, and re-determination of SHU confinement term. Retain in hard copy attached to CDC 115, microfiche at discharge.

CDC Form 643, Demand for Hearing and Trial

Retain in hard copy; microfiche at discharge.

CDC Form 644, Notice of Presumptive Death

Microfiche at discharge.

CDC Form 661, Form Letter to Inmate Re: Wanted by Other Agencies

Retain in hard copy; microfiche at discharge.

CDC Form 669, Motion to Dismiss Criminal Charges Pending

Retain in hard copy; microfiche at discharge.

CDC Form 678, Confinement Computation

Retain in hard copy; microfiche at discharge.

CDC Form 679-A Credit/Term Computation

Retain in hard copy; microfiche at discharge.

CDC Form 679-A Credit/Term Computation

Retain in hard copy; microfiche at discharge.

CDC Form 695, Appeals Office Screening Decision

Retain in hard copy; microfiche at discharge.

CDC Form 801, Notice of Detainer

Retain in hard copy, purge when returned to Department custody or paroled.

CDC Form 802, Interstate Compact/Placement Agreement

Retain in hard copy; microfiche at discharge.

CDC Form 804, Notice of Pending CDC 115

Retain in hard copy; purge when CDC 115 is adjudicated.

CDC Form 810, Confidential Information Listing

Retain latest in hard copy; microfiche at discharge.

CDC Forms 811 and 811-A, Confidential Information Removal Notice

Retain latest in hard copy; microfiche at discharge.

CDC Forms 812, Notice of Critical Case Information-- Safety of Persons; 812-A, Notice of Critical Information--Prison Gang Identification; and 812-B, Notice of Critical Information--Disruptive Group Identification

Retain in hard copy; microfiche at discharge.

CDC Form 813, Release From Liability

Retain in hard copy; microfiche at discharge.

CDC Form 819, Personal/Confidential Information Disclosure/Access Log

Retain in hard copy; microfiche at discharge.

CDC Form 833, Record Release Authorization

Retain in hard copy; microfiche at discharge.

CDC Form 839, Initial Classification Score Sheet

Retain in hard copy; microfiche at discharge.

- CDC Form 840, Reclassification Score Sheet**
Retain in hard copy; microfiche at discharge.
- CDC Form 850, Detainer Summary**
Retain in hard copy; microfiche at discharge.
- CDC Form 888, Notice of Request for Search**
Do not file in C-File. Retain in visiting office.
- CDC Forms 913 and 914, Override and Sentence Date Entry**
Do not file in C-File.

Remittitur

Retain in hard copy; microfiche at discharge.

Board Decision

Retain in hard copy; microfiche at discharge.

Requests for Notice of Board Hearings and Correspondence From Victims and Next-of-Kin

Retain in hard copy; microfiche at discharge.

General Correspondence

Purge at review for documents two years old except items containing crucial information in the judgment of the reviewing counselor; microfiche at discharge.

Current CI&I SSCH

Retain in hard copy; microfiche at discharge.

Current FBI Reports

Retain in hard copy; microfiche at discharge.

Arrest Reports Re: Instant Offenses or Requested by NAEA

Retain in hard copy; microfiche at discharge.

All Violation Reports

Retain in hard copy; microfiche at discharge.

All Referrals to Outpatient Status/Civil Addict Parole

Retain in hard copy; microfiche at discharge.

All Release Program Studies (Outpatient Status/Civil Addict Parole)

Retain in hard copy; microfiche at discharge.

72010.14 CDC Form 135, Transfer Record

A CDC Form 135 shall be prepared listing the number and name of each inmate being transferred.

A separate CDC Form 135 shall be prepared for each facility or facility of a complex.

Under "Remarks," the sending facility shall note those cases requiring emergency or special handling (e.g., emergency psychiatric, serious escape risk, SHU placement) but not confidential information.

The inmate's privilege group shall be indicated in the remarks.

The CDC Form 135 shall be prepared in quintuplicate, signed by case records staff, and forwarded with the case records to the receiving and release (R&R) sergeant for further processing.

The CDC Form 135 shall be signed by the transporting officer as a receipt for the inmates and their records.

72010.14.1 Distribution of CDC Form 135

One copy of the CDC Form 135 shall be returned by R&R to the case records office of the sending facility where it shall be retained for one year in addition to the current year.

One copy of the CDC Form 135 shall be delivered to the sending facility control room.

The remaining three copies of the form shall be carried by the transportation officer to the receiving facility for the following distribution:

- One copy and any confidential information to the receiving facility's control room.
- One copy with the inmate's records to the case records office of the receiving facility where it shall be retained for one year in addition to the current year.
- The remaining copy is retained by the transporting officer.

72010.14.2 New CDC Form 135 For Layovers

Case records staff of a layover facility shall prepare a new CDC Form 135 listing all inmates being transferred from their facility including those enroute.

The new CDC Form 135 shall be used as a receipt for the inmates and their records on departure from the layover facility.

Notations shall be made under "Remarks" to indicate the origin of the transfer (e.g., en route from CIM).

When it is apparent that the departmental transportation vehicle shall arrive at a layover facility after regular working hours, the sending facility shall FAX the names, numbers, and destination of those inmates who are stopping over.

This shall enable the case records staff of the layover facility to prepare the CDC Form 135 in advance.

72010.14.3 Parole Violators Returned From County Jail

For each parole violator picked up at a county jail by departmental transportation, the receiving facility's staff shall prepare a CDC Form 123, Body Receipt, upon arrival.

Any confidential memos/chronos shall be delivered to receiving facility staff for immediate evaluation.

72010.15 CDC Form 134, Records Transfer Checksheet

A CDC Form 134 shall be prepared in duplicate listing the records for transfer to another facility or parole region and using the inmates listed on the CDC Form 135 or the CDC Form 161.

An entry shall be made in each square of the sheet after the inmate's name to indicate that the record is enclosed, delayed, or nonexistent. The disposition of the Form 134 is as follows:

- The original of the Records Transfer Checksheet shall accompany the records to the records office of the receiving facility/region where it shall be retained one year in addition to the current year.
- The duplicate shall be retained by the records office of the sending facility/region one year in addition to the current year.

72010.16 IW/TIP Records

The IW/TIP requires proper recording and documentation of an inmate's participation in a work/training assignment for the purpose of granting worktime credit.

DOM 73030 of this manual provides detailed procedures for the completion and processing of the CDC Form 191, Inmate Time Card, and worktime credit chronos.

- Time cards shall be filed in the general chrono section of the inmate's C-File.

72010.16.1 Transfer of Time Cards

If a time card is received in the case records office after an inmate and his records have been transferred, the information from the card shall be entered into the computer.

After entry into the computer, the time card shall be mailed immediately by first-class mail to the receiving case records office for placement in the inmate's C-File.

72010.16.2 Missing Time Report

The time collection computer program does not permit granting of worktime credits when there are gaps in an inmate's record.

Timely entry of correct worktime data for each day is absolutely necessary.

A missing time report is computer-generated which enables each facility and parole region (community correctional center cases only) to receive a monthly listing of missing computer entries of worktime records.

The missing time report provides a method for staff to make immediate follow-up of any missing time thereby enabling case records staff to grant accurate worktime credits in a timely manner.

The missing time report shall be routed to facility department heads for further distribution to supervisor(s) for follow-up.

Staff shall review their timekeeping records and prepare a time card or chrono for inmates under their supervision who are listed on the report.

72010.16.3 Missing Time Report Format

The missing time report is printed in CDC numerical order within the following categories:

- Not vested.
- Vested.

Missing time information shall continue to be shown on each monthly listing until a time card or time chrono has been received and entered into the computer by case records staff.

72010.17 Revisions

The Deputy Director, Institutions Division, or designee shall be responsible for ensuring that the contents of this section are kept current and accurate.

72010.18 References

PC § 2081.5.

CCR (15) (3).

DOM §§ 52080 and 73030.

ARTICLE 4 — INITIAL INTAKE PROCEDURE

Revised July 22, 2013

72020.1 Policy

Inmates received by the Department must be accompanied by proper documentation and authorization, and their identity must be verified to prevent inadvertent acceptance of persons not legally committed to CDCR.

If CDCR Intake Control Unit (ICU) has been notified by a county that a new commitment prisoner or a referral pursuant to Penal Code (PC) Section 1203.03 is ready to be transported, the Department is unable to accept delivery by the fifth working day, and the abstract of judgment or minute order has been completed, PC Section 4016.5(d) states that county shall be reimbursed for costs incurred resulting from the prisoner's detention.

California Code of Regulations (CCR), Title 2, Division 2, Financial Operations, Chapter 1, Victim Compensation and Government Claims Board, Section 776, states a county is entitled to reimbursement for allowable expenses incurred in the transportation of a State prisoner to a State institution.

72020.2 Purpose

This Section establishes standard procedures for the orderly acceptance and processing of inmates in a controlled, expedient manner into departmental institutions.

This Section establishes standard procedures for the reimbursement to a county when the county has notified CDCR of the detention of a new commitment State prisoner in a county facility in excess of five working days from the date of county notification to ICU.

This Section also establishes standard procedures for reimbursement of allowable expenses incurred in the transportation of State prisoners.

72020.3 Types of Inmates/Cases Received by the Department

Inmates received by CDCR include:

- New commitments.
- Diagnostic commitments [PC 1203.03].
- Safekeepers (PC 4007).
- Out-to-court returns with new terms or to finish terms.
- Parole Violators With New Terms (PVWNT) or Parole Violators Returned To Custody (PVRTC).

- Outpatient returnees with new commitments or to finish commitments.

72020.3.1 New Commitment County Reimbursement

CDCR shall reimburse a county for each day of a prisoner's detention, starting on the day following the fifth working day (Monday through Friday, excluding holidays as outlined in Government Code Section 19853) after the county notifies CDCR it has a prisoner ready for transfer to CDCR and delivery is denied.

Reimbursement begins for each day in excess of five working days from the date the county notified CDCR ICU that delivery of the prisoner was denied.

The county will not be reimbursed for the detention of a prisoner for any period of time prior to notification and within the five working days after notification.

Notification Processes:

Notification to CDCR ICU shall be on or before the Friday prior to the week of transport. If a county's designated Receiving Center (RC) is unable to accept delivery of the prisoner, the county shall contact ICU. ICU will either:

- Direct the county to deliver the prisoner to an alternate RC with available beds; or
- Verify that CDCR is currently unable to accept delivery of the prisoner at any RC.

If a county refuses or is unable to deliver the prisoner to the designated or alternate RC, the county will no longer be eligible for reimbursement. Upon notification from CDCR ICU of the inability to accept delivery of the prisoner at any RC, the county shall e-mail, in CDCR's approved format, the following information to CDCR ICU:

- The name of each detained prisoner denied delivery to CDCR, along with his or her criminal investigation and identification number, and date of birth;
- The certified abstract of judgment date or minute order date for each prisoner denied transfer;
- Verification the prisoner denied delivery by CDCR is medically fit for transport.

Priority shall be given to inmates incurring non-routine medical expenses who are otherwise medically capable of transporting to CDCR. If a county attempts to deliver a prisoner to CDCR without notifying ICU and the RC is unable to accept delivery of the prisoner, the date of notification will be the date the county attempts to deliver the prisoner to CDCR. In the event beds become available at an RC for the prisoner whose delivery was initially denied, CDCR will notify the county of the bed availability and the county shall arrange for delivery of the prisoner to the identified RC. The county shall deliver the prisoner within two working days of CDCR's notification of bed availability. If the county is unable to deliver the prisoner within two working days, reimbursement will not be authorized for any additional days.

72020.3.2 Allowable Expenses

CDCR is responsible for reimbursement to counties for expenses incurred for the transportation of the State prisoner from a county facility to CDCR as outlined in CCR, Title 2, Section 776. Reimbursement claims must be submitted to CDCR within six months of the end of the month in which the costs were incurred.

72020.4 Intake Procedures

Reception centers or receiving institutions shall prepare required departmental forms on inmates received with new commitments.

In processing arrivals at institutions, standard procedures shall be followed.

72020.4.1 Receiving Responsibility: Receiving and Release (R&R)

In processing arrivals the R&R sergeant shall:

Verify that new/additional commitments are valid and certified. The court order is deemed certified if it has any two of the following:

- Original judge's signature.
- Original county/court clerk's signature.
- Original county seal.

Refer to Correctional Case Record Manager (CCRM) any questionable documents for verification.

Make a print of arrival's right index finger on the commitment document.

Assign a CDC identification number (CDC number) for new commitments.

Record each newly admitted inmate's number and name in the reception center roster.

Prepare Forms

Prepare a Body Receipt in duplicate and distribute:

- Original to person delivering inmate.
- Copy to C-File.

Receive new arrival's cash, securities, and other personal property and complete a CDCR Form 104, Property and Cash Receipt Arrival, in quadruplicate and distribute:

- White, retained in R&R.
- Yellow, to inmate.
- Green, to trust office with case/securities.
- Pink, to remain with valuable property envelope.

Have inmate complete a CDCR Form 345, Authorization for the Secretary to Maintain Trust Account, and forward to C-file.

Prepare the Strategic Offender Management System (SOMS) - Notification in Case of Inmate Death, Serious Injury, or Serious Illness, on all new commitments.

- The CCRM shall prepare the SOMS-Notification in Case of Inmate Death, Serious Injury or Serious Illness for commitments received by mail.
- This information is used to prepare the FBI Form FD-249; Fingerprint Cards, and then the form is destroyed.
- The chrono section of the "Notification in Case of Inmate Death, Serious Injury, or Serious Illness" shall be removed and forwarded to Case Records for the C-File.

CDC Form 103-B

The CDC Form 103-B, Associate Warden--Custody Inmate Record Card, may be used in a facility at the discretion of the Warden. This form is not a part of the inmate C-file and shall not be retained therein.

72020.4.2 Disposition of Personal Clothing

New arrivals may send civilian clothing out of the facility at their own expense or designate that the facility dispose of it.

72020.4.3 Fingerprints

Four sets of fingerprints and complete information shall be provided on four FBI Form FD-249, except for 90-day placements (PC 1203.03).

R&R Responsibility

On 90-day placements, only one FBI Form FD-249 shall be sent to California Department of Justice (DOJ) on an FBI card.

Required Information

The following information is required on all FBI Form FD-249s:

- Date subject was received by the facility.
- County of commitment.
- Commitment offense(s).
- Court case number(s), crime(s) including probation revocation when applicable, proper code section(s), and sentence(s) shall be specified.
- For diagnostic cases, the charge shall be "PC 1203.03." The charge resulting in PC 1203.03 commitment shall not be reflected.
- Inmate's full commitment name [see DOM 73010.6.1], CDC number, contributing facility's identification number, and the name of the facility submitting the card.

Additional Commitments

If an additional commitment is involved, indicate the type.

- Court return with new term.
- Additional commitment received by mail.
- Escape return with new term.
- PVWNT.
- Civil Addict cases shall specify outpatient return with a new commitment.

Parole Violators

PVRTC:

- In the charge box, note "Parole Violator" or "Outpatient Returnee."
- In the final disposition box, note "P.R.T.C."

PVWNT:

- In the charge box, note "Parole Violator with New Term" and include county, case number, code and section number, and offense in narrative form.
- In the final disposition box, place the new term(s) (i.e., Parole Violator with New Term and years of term. Do not include code number).

Audit of Information

All FBI Form FD-249s shall be audited to ensure that they are proper, accurate, and complete in form.

FBI Form FD-249s that do not contain all the required information shall be returned to the processing facility by DOJ.

Returned FBI Form FD-249s shall be forwarded to the facility of confinement for correction and resubmission to DOJ.

On a daily basis, and no later than four working days after receipt of the inmate, two of the FBI Form FD-249s shall be mailed to:

Bureau of Criminal Information and Analysis
4949 Broadway
Room F-109
Sacramento, CA 95820-1528

Records Office

The remaining two FBI Form FD-249s will be filed in the C-file. One shall be permanently retained there, and the other one shall be sent out to the Division of Adult Parole Operations (DAPO) when the inmate is released on parole.

72020.4.4 Inmate Photograph Specifications

Inmate photographs must meet the following specifications:

Photographs and negatives produced for other than institutional use shall have both the front and side views of the inmate. The size of the picture and negative shall be three inches (height) by four inches (width) with no border. The side view shall be on the left side of the photograph facing the front view.

All photographs shall be taken in a reduction scale of 7:1. The ground glass on the camera will be marked to provide 2 3/8 inches from the top of the head to the bottom of the number board.

- Number boards shall be used on all front view photographs and be approximately eight inches (width) by four inches (height). They shall contain only the following information:
- "CALIFORNIA PRISON" in 1/2 inch letters. Civil addict commitments will show as "CALIFORNIA REHABILITATION CENTER."
- Inmate's CDC number in one inch numbers.
- Inmate's name in 1/2 inch letters (initials and last name).
- Date photograph taken in 1/2 inch numbers.

Photographs shall reflect as nearly as possible the normal appearance of the inmate. Excessive smiles or squints that distort the shape of the eyes and mouth shall be avoided.

- Inmates shall be photographed every five years or when there is a distinct change in physical appearance.

Staff Responsibility

Staff shall refer inmates to the institutional photo lab for a new photograph when their appearance differs markedly from the photograph on their privilege or identification card or in the C-file.

Referrals shall be in writing with a copy to CCRM.

72020.4.5 Confidential Folders

Upon receiving information that an inmate has a prior CDC number and was discharged on or after 1-1-80, the following shall be done.

Reception Center Case Records Staff

Query Offender Based Information System (OBIS) for confidential file flag.

- If there is a confidential flag, immediately contact ID/Warrants Unit Confidential Folder clerk.
- Request the Confidential Folder and have pertinent information relayed immediately for use by custody and counseling staff prior to receipt of the folder.

ID/Warrants Unit

Mail Confidential Folders by First Class Mail the same day request is received.

- If the material in the Confidential Folder is deemed nonconfidential (see DOM 61020) the ID/Warrants Unit, Confidential Folder clerk, shall be notified to remove the confidential flag from OBIS.
- The Confidential Folder, with the notation "Deemed Nonconfidential," shall be returned to the Archives Unit with the discharged file.

72020.4.6 Case Files for Parole Violators/CCRM Responsibility

The CCRM shall communicate with the appropriate regional CCRM, using the telephone, FAX, or OBIS, advising them of the receipt of the parole violator(s) and shall request that the case files be forwarded immediately.

- Case files on parole violators (PVRTC or PVWNT) shall be requested daily.
- Parole regions shall forward requested files to the institution immediately.

72020.4.7 Parolees With New Commitments

Non-life commitment parolees who have been revoked and returned to prison with a new commitment shall not be automatically discharged.

Case Records Staff

Case Records staff shall determine whether or not to discharge a prior commitment for a parolee returned to prison with a new commitment in accordance with BPH Rule 2649.

A parolee who has been returned with a new commitment but whose parole has not been revoked shall be presented to the BPH on the Miscellaneous Proceedings Calendar at the reception center or receiving facility.

72020.4.8 Safekeepers

The PC 4007 provides for housing of county prisoners in State prisons for safekeeping, hospitalization, or because the county jail is unsafe or unfit. The Warden shall immediately, upon receiving such prisoner, advise The Director in writing.

Records Office Responsibility

The ID/Warrants Unit will issue all "S" numbers and the headquarters OBIS staff will enter all "Admission" movements.

The following information shall be telephoned to the ID/Warrants Unit prior to receiving an "S" number:

- Reviewing facility's name.
- Name, title, and telephone number of person requesting the "S" number.
- Safekeeper's date of birth.
- Safekeeper's ethnicity.
- Safekeeper's CI&I number (or state that the CI&I number is unavailable).
- Admitting agency.

The C-file shall be processed in accordance with DOM 71020.5.7.

72020.5 Case Summary

Information from the following documents may be used in the preparation of the case summary. Upon receipt they shall be placed in the C-file.

- Abstracts of Judgment or Minute Orders.
- Statements of judge and DA.
- POR.
- Transcript of proceedings at the time of sentence.
- Copy of the indictment or information.
- CI&I SSCH.
- All correspondence pertaining to the inmate's case.

Responsibility of Case Records Staff

The CCRMs are responsible for incorporation into the case summary all legal information pertaining to the inmate's case, e.g., statement of the judge and DA.

72020.5.1 Legal Status

Instructions for completion of the legal status section of the case summary are in DOM 73010.

72020.5.2 Commitments Not Processed Through a Reception Center

Newly received commitments not processed by the reception center or for whom a recent case summary is not available shall have a case summary prepared by the C&PR or designee of the facility to which the inmate is assigned.

72020.5.3 Former "Z" Cases (PC 1203.03) Case Records Staff

When an inmate is received on a felony sentence and was previously a "Z" case, the following shall occur:

Request the "Z" file from the Archives Unit if it has been shipped to that unit. When it is received:

- Destroy the following material from the "Z" file:
 - All worksheets used by staff during processing.
 - CDC Form 112, Chronological History.
 - SOMS-Notification in Case of Inmate Death, Serious Injury or Serious Illness.
 - FBI Form FD-249, Fingerprint Card.
 - CDCR Form 345, Authorization for the Secretary to Maintain Trust Account.
- Draw a line through the "Z" number on the medical file; place the new CDC number on the file and forward it to the medical department.
- If part of the case summary is used, the new CDC number shall be typed above the "Z" number and the "Z" number lined out.
- Draw a line through the "Z" number on all remaining material and

incorporate it into the new C-file. Materials not used shall be destroyed.

72020.5.4 PC 1170 (A)(2) Commitments

The Legal Processing Unit (LPU) records commitments for persons sentenced pursuant to PC 1170(a) (2) and not delivered to prison.

The PC 1170(a) (2) provides for disposition of cases in which the amount of pre-prison credit exceeds the sentence under the Determinate Sentence Law (DSL). The BPH rules provide the same provisions for cases sentenced under the Indeterminate Sentence Law (ISL).

72020.5.4.1 Procedures for Processing Commitments

DSL

Upon receiving a judgment under the provision of PC 1170(a)(2), LPU shall process the case as follows:

To conform with DSL commitments:

- Term(s) shall be calculated and a CDC Form 188 prepared.
- If the preprison credit exceeds the DSL term including period of parole, the CCRM shall notify the sentencing court that the person has completed the prison term and period of parole and should be released from custody.
- If the preprison credit exceeds the DSL term, but not the period of parole, the case shall be presented to the BPTH for consideration of waiver of parole. The court shall be advised of the BPTH decision. If parole is not waived, the court shall be advised to order the individual to the appropriate parole office for parole supervision.
- If the preprison credit does not exceed the DSL term, the CCRM shall notify the court. The notification shall include information reflecting the computation and the amount of time remaining to be served.

ISL

To conform with ISL commitments:

- Term(s) shall be recalculated pursuant to PC 1170.2(a) using a CDC Form 678, Cumulative Case Summary Confinement Computation, and the case screened for possible extended term hearing.
- The CDC Form 678, Probation Officer Report (PRO), Information, and related documents shall be presented to the BPH for review and disposition.
- If the person is not scheduled for an extended term hearing and is overdue for release on the date calculated under PC 1170.2(a), the CCRM shall notify the sentencing court that the prison term is completed and the person should be released from custody. If the preprison credit does not satisfy the period of parole, the court shall be advised to order the person to report to the appropriate parole office for parole supervision.
- If the person is not overdue for release or if the person is scheduled for an extended term hearing, the CCRM shall notify the court that the person must be delivered to the Department. The notification to the court shall include a copy of the CDC Form 678 or BPH Form 1091, Screening Form, and include the amount of time remaining to be served unless the person is scheduled for an extended term hearing.

Person Not Delivered

Those cases that require a person **not** be delivered shall be processed as follows:

- Assign CDC number.
- Route to OBIS for input of commitment information.
- Prepare departmental records.
- If discharged, microfiche and forward all documents to the Archives Unit.
- If paroled, forward all documents to the appropriate parole region CCRM.

Note: CDC numbers and departmental records shall not be issued and/or prepared until it has been determined that the pre-prison credit exceeds the term and the person will be discharged or placed under parole supervision.

72020.5.5 Direct Release to Parole From Court

In certain situations courts will sentence a person directly to the Department for parole supervision. The appropriate parole authority will make the final decision to retain or waive parole supervision.

72020.5.6 Former Division of Juvenile Justice Files

If a new arrival is identified as a former Division of Juvenile Justice (DJJ) ward or is being discharged to the Department's jurisdiction, the CCRM shall contact DJJ ward master files.

The DJJ will provide a copy of the clinical summary for use by the counselor. If a complete file is needed, it will have to be specifically requested.

72020.6 Processing Inmates Tried Under Interstate Agreement on Detainers

Individuals confined in facilities outside California's jurisdiction may request disposition of charges pending in California pursuant to PC1389, Interstate Agreement on Detainers. Upon completion of court proceedings, these individuals must be returned to the sending jurisdiction.

If a California commitment is received to run concurrent with previously imposed terms, the Director is authorized to designate a facility of another jurisdiction as the place of reception on the California term (PC 2900).

72020.6.1 Processing Procedures - Concurrent Commitments

Region I, Case Records Office is responsible for processing these cases.

The received date on the CDC Form 188, Legal Status, shall be either:

- The date of receipt by the other jurisdiction after sentencing by California.
- The date of sentencing in California if the subject was not present.

The term's start date shall be the same as the received date except for probation revocation cases.

The term's start date on probation revocation cases shall be the date the inmate was originally received by the other jurisdiction.

The CDC Form 112 shall be posted as follows.

Example:

- 01/01/73-Received at Colorado State Prison.
- (Date of Detainer)-Colorado State Prison designated as place of reception on this term pursuant to PC2900.
- 01/01/74-Received at NRC-CMF (transfer from Colorado State Prison).

72020.7 Revisions

The Director, Division of Adult Institutions, or designee shall be responsible for ensuring that the contents of this Section are kept current and accurate.

Government Claims Board Section 776.

ARTICLE 5 — CENTRAL FILE AND TRANSFER OF RECORDS

Revised April 1, 1992

72030.1 Policy

Uniform records shall be maintained on persons under the jurisdiction of the Department.

72030.2 Purpose

This section sets forth the procedures for the uniform preparation of an inmate's C-File and other departmental records pertaining to an inmate.

72030.3 C-File

The C-File is the central depository for copies of all documents, correspondence, and reports pertaining to each inmate.

A C-File is inaugurated for each new inmate upon admission in the Department.

72030.4 Filing Order

The C-File is divided into 11 sections. Specific items are designated to be filed in respective sections.

Like documents shall be grouped together in chronological order, most recent information on top.

72030.4.1 Case Summary Section

- CDC Form 261, Order of Filing.
- CDC Form 112, Chronological Inmate History.
- Legal status sheet.
- Case summary/POR or police report if POR is not available.
- Latest report to paroling board.
- CI&I/FBI SSCHs.
- Other related forms and documents.
- PC 1203.03 reports.
- PC 1170(d) reports.
- CDC Form 916, Time Credit Waiver.

72030.4.2 Legal Documents Section

- CDC Form 1151, Legal Status Audit Sheets.
- CDC Form 1130, LPU Document/Transmittal.
- CDC Form 819, Personal/Confidential Information Disclosure/Access Log.
- Minute Order.
- Abstract of Judgment.
- Court remittitur(s).
- Court decisions.
- Sentencing transcript.
- PC 1203.01 statements.
- Information.
- Legal correspondence.
- CDC Form 123, Body Receipt.
- Other related forms and documents.
- CDC Form 138, Fingerprint Card(s).

72030.4.3 Classification Section

- CDC Form 262, Custody Classification - Assignment.
- CDC Form 840, Reclassification Score Sheet.
- CDC Form 812, Notice of Critical Case Information – Safety of Persons.
- CDC Form 812-A, Notice of Critical Information – Prison Gang Identification.
- CDC Form 812-B, Notice of Critical Information – Disruptive Group Identification.
- CDC Form 128-B-1, Notice of Classification Hearing. (Filed on a CDC Form 108-A, Chrono Sheet - Classification.)
- CDC Form 114-D, Order and Hearing for Placement in Segregated Housing.
- CDC Form 839, Classification Score Sheet.
- CDC Form 108-A, Chrono Sheet - Classification (all CDC Form 128-G Chronos).
- Other related forms and documents.

72030.4.4 Disciplinary Section

- CDC Form 804, Notice of Pending CDC 115.
- CDC Form 115s, Rules' Violation Reports and attached Incident Reports.
- CDC Forms 629-A, Segregation Housing Unit (SHU) Term of Initial Confinement, and 629-B, Redetermination of SHU Confinement Term.
- DA response.
- Other incident reports.

72030.4.5 General Chronos Section

- CDC Form 108, Chrono Sheet - General (CDC Form 128-A).
- CDC Form 958, Application for Restoration of Credit.
- CDC Form 108, Chrono Sheet – General (SOMS - Notification in Case of Inmate Death, Serious Injury, or Serious Illness and all CDC Form 128s except for A, B-1, E and G).
- CDC Form 109, Chrono Sheet - Work Reports (all CDC Forms 101 and 128-E Chronos).
- Other related forms and documents.

72030.4.6 Miscellaneous Section

- CDC Form 191, Inmate Time Cards and Time Chronos (taped on an 8" x 11" sheet of paper).
- CDC Form 602, Inmate/Parolee Appeal Form.
- Miscellaneous correspondence.
- CDC Form 345, Power of Attorney and Authorization for Deposit.
- CDC Form 601, Temporary Community Leave Request.
- CDC Form 1604, Agreement to Participate in Community Work Furlough Program.
- Other related forms and documents.

72030.4.7 Detainers Section

- CDC Form 850, Detainer Summary.
- Detainers (all documents related to specific detainers together).

- All nonconfidential notices.
- Advance release notices.
- Other related forms and documents.

72030.4.8 Parole Section

- Parole violation/activity reports.
- CDC Form 102, Statement Release.
- CDC Form 1515, Notice and Condition of Parole.
- DOJ Form SS 8047, Notice of Registration Requirement.
- CDC Form 611, Release Program Study.
- Other related forms and documents.

72030.4.9 BPT and NAEA Section

- Addenda.
- Permanent addenda.
- Board decision forms.
- BPT /NAEA Appeals.
- Board generated psychiatric reports.
- Other related forms and documents.
- Like documents grouped together.

72030.4.10 Microfiche Section

- Microfiche duplicate copy of previously filmed records.

72030.4.11 Confidential Section

- Confidential file folder containing material designated as confidential.

72030.5 Movement of Records

All inmate case records, C-File, subsidiary records, and inmate records' cards shall be moved with the inmate at time of transfer.

72030.5.1 Transfers

See DOM 72010 for use and preparation of CDC Form 134, Records Transfer Check Sheet.

- The facility case records office shall provide an advance transfer notice to each facility department of the names and identification numbers of each inmate scheduled for transfer.
- The notice shall include the inmate's destination, date, and time of transfer, and the date and time the records are required to be delivered to the case records office.
- Each facility department shall deliver to the case records office their respective records at the time stated.
- In the event of emergency transfer and/or time does not permit advance written notice, case records staff shall telephone the departments and request immediate delivery of the records.
- The sending facility/parole region shall affix all material in C-File prior to transfer.
- All case records for each inmate shall be transferred with the inmate to the receiving facility, except as provided in DOM 72030.7.
- Legal documents and worktime records received after the case records have been transferred shall be forwarded expeditiously by First Class Mail to the CCRM of the receiving facility.
- Parole violators will have files returned from parole regions to the receiving facility as provided in DOM 75010.14.3.

72030.6 Transfer of ID Cards

Revised December 14, 2012

The receiving and release (R&R) sergeant of the sending facility shall collect and process inmates' identification cards.

Cards are retained for immediate return to the inmate upon arrival at the receiving facility.

The receiving facility shall ascertain that all ID cards have been delivered by the transporting staff and are returned to the inmates upon arrival at the facility.

72030.7 Transfers Out-to-Court

Revised October 2, 1992

When an inmate is transferred to another facility for out-to-court release, the following listed records only shall be transferred with the inmate:

- CDC Form 103-B Card.
- Health Record (medical/psychiatric file).
- CDC Form 120, Visiting Records Card.

- Chrono or memos setting forth any special handling or needs.
- Photocopy of transfer FAX or removal order.
- Photocopy of last CDC Form 128-G.
- Photocopy of CDC Form 812/812(a)/812(b).
- Photocopy of CDC Form 839/840.
- Photocopy of up-to-date legal status summary.
- Photocopy of current Abstract of Judgment(s).
- CDC Form 801, Departmental Detainer.
- Two photographs.

The records shall be placed in a manila envelope clearly labeled with the inmate's name and CDC number.

All other case records shall be retained at the sending facility/region (community correctional facility cases).

Sending facility staff shall be responsible for all casework and term computations.

The en route facility shall ensure that any body receipts, court documents, or any other case material is forwarded with the inmate at the time of their return to the sending facility.

72030.7.1 Parole/Discharge While Out-to-Court

If an inmate paroles/discharges while out-to-court, the sending facility shall notify the en route facility and the holding law enforcement agency to remove the Department's detainer.

The sending facility shall notify the parole unit and region staff of the change in status and the parolee's location.

Both facilities shall ensure that all of the inmate's records are forwarded to the designated region case records office.

If the inmate discharges while out-to-court, the en route facility shall return all of the records to the sending facility where they shall be retained in hard copy one year and then processed as in DOM 71020.5.4.

Both facilities shall ensure that all of the inmate's records are forwarded to the sending facility.

72030.7.2 Paroled Cases

Revised October 2, 1992

When an inmate is released to parole, all case records shall be forwarded to the appropriate region case records office no later than 10 working days after release.

Facility departments shall review the daily movement sheet each day and shall immediately forward the records of each released inmate to the case records office.

Miscellaneous File Material

Miscellaneous file material received in the case records office, after the records have been forwarded to the region case records office, shall be screened by supervisory staff. Only material that may affect the security of the facility or inmate shall be forwarded to the region for filing.

A CDC Form 134 shall be prepared and completed.

All records for each inmate shall be secured together for packaging and shipping.

Legal Documents

Legal documents received after the records have been forwarded shall be expeditiously mailed by first-class mail to the CCRM of the appropriate parole region.

72030.7.3 Discharged Cases

Revised October 2, 1992

Region case records staff shall microfiche each inmate's/parolee's records within 30 days of discharge.

Records of all inmates/residents discharged directly from the facility shall be forwarded to the appropriate region to be microfiched.

Region I	Region II	Region III	Region IV
FSP	SQ	CCI	RJD
MCSP	CTF	COR	CVSP
CCC	PBSP	CIM	CRC
NCWF	DVI	NKSP	CIW
SCC	ASP	WSP	CMC
CMF	CCWF		LAC
SOL	VSPW		CAL
			ISP

If the microfiching is contracted to a private vendor, the region case records office shall ensure that the records are processed and forwarded to the Archives Unit.

The microfiche format shall follow the order of filing for C-Files.

File material from satellite records, visiting, education, etc., which are included in the C-File, shall be microfiched on the appropriately designated or miscellaneous microfiche.

Not to be Microfiched

The following records shall not be microfiched and the hard copies of these files shall be forwarded to the Archives Unit with the microfiches of the C-File:

- Medical and psychiatric files.
- Fingerprint cards.
- Photographs.
- Files of discharged "Z" cases (those referred for diagnostic commitment under PC 1203.03).

Facility/region case records staff shall process cases of deceased inmates as provided in DOM 71020.5.8.

72030.7.4 Previously Microfiched Cases

C-Files that contain fiches in the old microfiche format:

- The previous master and duplicate fiches shall be placed in envelopes labeled "old format."
- All new fiches shall be made in the revised format and placed in separate envelopes.
- The envelope containing the old master fiches shall then be securely fastened together with the envelope containing the new master fiches to form one file for shipment. The envelopes containing the old and new duplicate fiches shall likewise be secured together to form another file for shipping.

One master and one duplicate set of fiches, excluding the confidential folder, shall be made and sent to the Archives Unit located at CMF in Vacaville.

72030.7.5 Confidential File Folder

The C-File confidential folder, the folder master, and the duplicate fiches (fiche #10, confidential) shall be sent to the ID/Warrants Unit. The ID/Warrants Unit shall fiche the confidential material.

72030.7.6 Shipping Files to Archives

Any files (master or duplicate fiche, or hard copy) sent to the Archives and ID/Warrants Units shall be accompanied by a CDC Form 134, Records Transfer Check sheet, which clearly indicates the inmate's/parolee's full name, CDC number, and the date of their discharge. Microfiche and hard copy files shall be forwarded from the parole regions to the Archives Unit no less than once a week.

All masters and duplicates shall be shipped and stored in such a manner as to prevent mutilation or destruction. Masters shall be packaged and mailed separately from the duplicates to prevent chemical damage to the masters and to reduce the risk of loss.

Case records staff shall determine if the used C-File folders are reusable. Serviceable folders shall be shipped to the nearest reception center for reuse and unserviceable folders discarded.

72030.7.7 Disposition of File Material After Microfiching

Upon completion of microfiching, the DGS or the State-approved local contractor shall be contacted to destroy the original file documents.

72030.8 Revisions

The Deputy Director, Institutions Division, or designee shall be responsible for ensuring that the contents of this section are kept current and accurate.

72030.9 References

PC § 2081.5.
DOM § 71020.

ARTICLE 6 — DETAINERS

Revised April 1, 1992

72040.1 Policy

Detainers shall be processed in a uniform manner to ensure proper disposition.

72040.2 Purpose

This section sets forth the procedures for the uniform processing of detainees placed against inmates by other agencies or those placed with another agency by the Department.

72040.3 Detainers

Detainers are written documents received from any facility or law enforcement agency indicating that an inmate is wanted by that agency and specifies the basis for the detainer.

Detainers are placed by the Department on any inmate released to another agency prior to their parole or discharge date. These detainers are covered in the DOM 72040.10. Detainers may also be referred to as "holds" or "wants". However, they shall be referred to as "detainers" for this manual.

72040.4 Detainers From Other Agencies

A letter or FAX from any facility or law enforcement agency requesting that a detainer be placed on an inmate shall be considered sufficient authority for placement of a detainer.

If a detainer is received after an inmate has been released to parole or discharge, the following action shall be taken:

- If the detainer indicates felony offense and the inmate has been released to parole, case records staff shall telephonically notify the receiving parole regional office as soon as possible and shall send an omnifax copy of the detainer to the parole regional office within three working days.
- Case records staff shall also notify the detainer issuing agency by FAX or telephone as soon as possible advising them of the released person's status and the address of the supervising parole office. Within three working days after notification, the detainer shall be returned by USPS to the issuing agency.
- If the inmate has been released to discharge, the case records staff shall notify the issuing agency by telephone or FAX of the released person's status and return the detainer by USPS.
- If the detainer indicates other than a felony offense, the detainer shall be returned by USPS to the issuing agency within three working days after notification advising them of the released person's status. In the case of parolees, the issuing agency shall be advised of the address of the supervising parole office.
- All such actions shall be entered in the holds/warrants/detainers (HWD) log.

Unless authorized by the Director, no employee of the Department shall request that a detainer be lifted or make an appeal on behalf of an inmate.

If a justifiable hardship is placed on an inmate because of the continuance of a detainer, the Warden shall present a factual statement concerning the circumstances to the Director. Further action shall be taken only with the Director's approval.

72040.5 HWD System

The HWD system ensures that information regarding any specific or potential detainer is recorded and called to staff attention within four hours of receipt to determine what effect, if any, the hold might have on the inmate's custody.

HWD Coordinator

A correctional case records specialist (CRS) shall be designated as the HWD coordinator and shall be under the direct supervision of the correctional case records supervisor (CCRS).

CCRS

In the absence of the HWD coordinator, the CCRS shall be the HWD coordinator. They shall also review, for completeness and accuracy, the HWD log weekly as well as sign each line entry of the log.

Designated HWD Evaluator

Designated staff are responsible for evaluating holds and determining whether or not immediate action is necessary. This action may include notifying the watch commander for consideration of higher custody placement and/or notifying the Correctional Counselor or C&PR for casework follow-up. This decision shall be recorded on the CDC Form 850, Detainer Summary, under section "Initial Action Taken" and signed.

- Designated staff shall also review detainers received on inmates temporarily housed (en route and out-to-court), as the receiving facility may no longer be appropriate based on the offense. In such cases, the C&PR at the receiving facility shall be contacted.

The Warden or RPA is authorized to designate staff to evaluate detainees. However, this responsibility shall not be sub-delegated. Those delegated to evaluate detainees shall come from one of the following staff positions:

- C&PR
- Watch Commander
- Captain
- Captain/AW
- Assistant RPA
- CC-II

The designated evaluator shall immediately restrict the inmate's movement to ensure the security of the facility and the public if the evaluation warrants.

Note: The title of the position designated shall be submitted to the Deputy Director, Institutions, with a copy to the LAD-PMU.

72040.5.1 Responsibility

The following positions have certain responsibilities to ensure that the detainer system works accurately:

Mail Room Supervisor

The mail room supervisor shall establish a procedure to ensure that all correspondence to the facility which may include actual or potential hold information is immediately delivered to appropriate records personnel. Such correspondence includes communication from other law enforcement agencies, the DA, USINS and any out-of-state prison or parole division.

Note: Inmate mail from the above agencies shall not be delivered to the records office.

Case Records Staff

All HWD correspondence received by mail, FAX or included in the prison package (reception center cases) shall be immediately opened, date/time stamped, initialed and delivered to the HWD coordinator. Telephonic communication that indicates an inmate may be wanted shall be referred to the HWD coordinator or to designated staff, if the coordinator or CCRS is not available.

HWD Coordinator

The coordinator shall prepare letters of inquiry or initiate FAX requests to resolve potential holds based on the CDC Form 850's completed by facility staff and complete necessary follow ups on any communication received from law enforcement agencies. The CDC Form 850 shall be attached to the top of the detainer section of the C-File and all such actions shall be entered in the HWD log.

- The coordinator's initial request to obtain information (i.e., to request issuance of the hold to the Department) shall be completed within two working days with follow up at the nine-month, 60-day and 10-day audits prior to release. Telephonic follow up should be used at the 10-day audit.

If a detainer exists or is believed to exist on an inmate, the HWD coordinator shall prepare a CDC Form 850 documenting the pertinent facts, further identifying, by placing a "P" for a potential hold or an "A" for an actual detainer; in the upper right-hand corner of the form, and immediately contacting the designated staff person responsible for evaluating the potential detainer. The designated staff person shall note the immediate action taken on the CDC Form 850, sign the entry and return the document to the HWD coordinator.

- The coordinator shall record any information regarding an actual or potential detainer on a CDC Form 976, HWD Log. This includes information received in the form of documentation, telephonic information, untried indictments, hearsay, inmate statements, etc.. Each line entry on the log shall be initialed by the HWD coordinator, and the log shall be reviewed by the CCRS.

The HWD coordinator and OBIS operator shall follow the same procedures outlined in DOM 72040.5.2.

Correctional Counselor

Upon an inmate's arrival the counselor shall interview the inmate and review all available reports, including, but not limited to:

- POR
- Abstract of Judgment
- Sentencing transcript
- Parole reports
- Arrest history from CI&I and FBI SSCHs.

The counselor shall complete and sign the CDC Form 850 for all felony arrests without dispositions that occurred within two years of the date the

inmate was last received by the Department. The counselor shall also complete and sign the CDC Form 850 for misdemeanor offenses that occurred during the same period for inmates who are within three months of release at reception.

- The form shall also reflect comments made by the inmate which pertain to recent criminality or references to criminal acts that might be found in the C-File.

This form shall be promptly forwarded to the HWD coordinator for follow-up.

Note: Counselors at receiving facilities shall review the inmate's C-File and complete an additional CDC Form 850 if information is found to warrant such.

Watch Commander

The watch commander shall review the CLETS terminal every four hours during first watch, third watch, and on weekends. They shall complete a CDC Form 850 on all actual or potential detainees received.

They shall also designate the inmate's custody based on potential or actual detainees received and send a notice to the inmate's counselor, requesting proper and immediate classification action. The CDC Form 850 shall be delivered to the HWD coordinator for follow up.

When the records office is closed the watch commander or AOD shall contact the Identification (ID)/Warrant Unit at (916) 445-6713 or ATSS 485-6713 and request an OBIS inquiry of detainees before moving any inmate to lower custody placement.

C&PR

Prior to any temporary community leave (TCL), the C&PR or other designated staff shall review the inmate's C-File for hold information and complete the request for temporary leave/removal form.

Prior to release to work furlough or parole, the C&PR shall review the inmate's C-File for detainer information and complete the CDC Form 128-G for community correctional center/parole.

CSR

Before approval for transfer of any inmate, the CSR shall review the inmate's C-File for detainer information and, if appropriate, take the required action.

72040.5.2 Information on Detainers/Potential Detainers at Reception Centers

Incoming mail or other communication from a police department, sheriff or DA's office, the USINS, any federal law enforcement agency, or an out-of-state prison or parole division shall be immediately opened, time stamped, and initialed. The inmate's location shall be determined immediately.

Case Records Staff

All detainees shall be promptly hand-carried to the HWD coordinator.

All information received either at the time of an inmate's arrival or prior to the inmate's arrival, which indicates the subject may be involved in other crimes where a detainer may exist, shall be given to the HWD coordinator (except traffic violations.).

Letters of inquiry shall be initiated on matters meeting the criteria for a potential detainer.

Potential Detainer Criteria

Information considered as a potential detainer shall be:

- Felony arrests, without disposition, that occurred within two years of the date the inmate was received by the Department.
- Inmate comments about recent criminal acts.
- References to recent criminal activity in file material.
- Misdemeanor offenses, without disposition, that occurred within two years of the date the inmate was last received by the Department, if the inmate is within three months of release at the time of reception.
- Any indication the inmate may be wanted by USINS.

Actual Detainer

In the reception centers, actual detainees that are included with the "prison package" or arrive before the counselor has begun processing the case shall be reviewed by the HWD coordinator who will sign off the HWD log in the "Initial Disposition" section as an unprocessed case. These detainees shall not be referred to the designated staff member unless there is an apparent security risk such as a potential life term or extremely long determinate sentence.

HWD Coordinator

A detainer included with information received at the time of the inmate's reception or the detainer arrives before the case has been processed, the

HWD coordinator shall review it, prepare a CDC Form 850, and document receipt on the HWD Log as an unprocessed case (as noted above) with necessary paperwork to resolve. The detainer shall then be processed as part of the inmate's prison package by the counselor during the reception center processing.

72040.5.2.1 Permanently Assigned Inmates to Reception Centers

Reception centers shall not be required to initiate or follow-up potential HWD requests except for those inmates who are permanently housed at the reception center or pending imminent release. It shall be the responsibility of the receiving facility to review the inmate's C-File for any CDC Form 850s initiated at the reception center and to complete the initial inquiry and any required follow-up as previously specified.

- If a move to work furlough, parole, or TCL is approved, the HWD coordinator shall query the OBIS HWD file within 24 hours of the actual move. If there are no holds, the approval of the move shall not be affected. If a "hold" is received on the same day or subsequent to the approval of a move, the HWD coordinator shall immediately notify the C&PR or the Assistant Regional Administrator for review of the move approval and action in accordance with aforementioned procedures for processing detainees.
- CLETS inquiries shall be made on all inmates prior to parole or discharge to determine if the inmate is wanted.

72040.5.3 Inmate Housed at Facility/Community Correctional Facility

If a detainer is for an inmate housed at a facility/community correctional center, the following shall be accomplished:

OBIS Operator

The OBIS operator shall enter the information into the computerized HWD file which sets a "flag" in OBIS and on the computer output microfiche (COM). They shall date and initial the "Computer Input" section of the HWD log when information is entered by them.

HWD Coordinator

The HWD coordinator shall:

- Indicate in the HWD Log that the information has been placed into the HWD file, initial the entry, and note the name of the OBIS operator.
- Verbally notify the facility counselor or community correctional center Parole Agent and/or designated evaluator, and promptly follow-up with a written notice.
- Notify the inmate in writing that a detainer has been received and recorded using a CDC Form 661, Detainer Memorandum. A copy of the detainer shall be provided to the inmate and they shall be advised what action may be taken to request disposition of the detainer.
- Acknowledge receipt of the detainer with a letter sent by First Class Mail to the issuing jurisdiction.
- Request additional information, if information not contained in the original letter or document is needed for classification, clarification or other purposes.
- Post the information on the CDC Form 112, Chronological Inmate History, and CDC Form 144, Control Card.
- File the detainer, CDC Form 850, and related correspondence in the HWD section of the C-File.
- Enter the actions in the HWD Log.

72040.5.4 Inmate Not Housed at a Facility

If a detainer is for an inmate at another departmental location, the following shall be accomplished:

OBIS Operator

The OBIS operator shall enter the information into the computerized HWD file.

HWD Coordinator

The HWD coordinator shall:

- Promptly notify the affected location by telephone or FAX and forward the detainer by First Class Mail to the attention of the HWD coordinator.
- Enter the actions in the HWD Log.

72040.5.5 Potential Detainer

Revised February 28, 1995

Counselor

Where there is any indication of a potential detainer, the counselor shall provide as much information as possible on the CDC Form 850 and hand-carry it to the HWD coordinator.

HWD Coordinator

The HWD coordinator shall:

- Immediately contact the designated staff member responsible for evaluating the necessity for immediate action.
- Within two working days after receipt make initial contact with the agency which may hold the warrant/detainer using the FAX or a letter of inquiry to request issuance of a detainer.
 - A copy of the supporting document (from which the inquiry information is obtained) is to accompany the information request.
- Follow-up at the 60-day and 10-day audits. (Follow-up at the 10-day audit shall be by telephone.)
- Complete the CDC Form 850 and attach it to the top of the detainer section of the C-File.
- Enter action taken in the HWD Log and note with a "P" (potential).
- When a detainer is received, update the log, file information, and change the status to "A" (active) following the appropriate steps (see DOM72040.3.2).

72040.5.6 Detainer Not Identified as Department Inmate

If a detainer is received for a person not identified as being in the Department's custody, the HWD coordinator shall:

- Telephone the jurisdiction which issued the detainer for possible additional identification data.
- If still unable to identify, return the detainer to the issuing jurisdiction and advise that the subject is not in the Department's jurisdiction.
- Enter the action in the HWD Log.

72040.5.7 Detainer Review Prior to Parole/Release to Community Correctional Center

Prior to parole or transfer to a community correctional center, the HWD coordinator shall query the HWD file within 24 hours of actual movement. If a detainer arrives on the same day or subsequent to the approval of the move:

- The HWD coordinator shall immediately notify the C&PR and the Assistant RPA for review of the move.
- The C&PR or Assistant RPA shall notify the HWD coordinator of their decision from the review.

72040.5.8 Detainer Received After Release or Discharge

If a detainer is received after an inmate has been released to parole or discharge, the following action shall be taken:

If it indicates a felony offense and the inmate has been released to parole, case records staff shall telephonically notify the receiving parole regional office as soon as possible and shall send an Omnifax copy of the hold to the parole regional office within three working days.

- Case records staff shall also notify the detainer issuing agency by FAX or telephone as soon as possible advising them of the released person's status and the address of the supervising parole office. Within three working days after notification, the detainer shall be returned by USPS to the issuing agency.

If the inmate has been released to discharge, the case records staff shall notify the issuing agency by telephone or FAX of the released person's status and return the detainer by USPS.

If the detainer indicates other than a felony offense, the detainer shall be returned by USPS to the issuing agency within three working days after notification advising them of the released person's status. In the case of parolees, the issuing agency shall be advised of the address of the supervising parole office.

Note: All such actions shall be entered in the HWD log.

72040.6 Inmate Notification of Detainer and Request for Disposition

An inmate may request disposition of a detainer, in writing, directed to case records staff who shall prepare the required legal forms for signature by the inmate. Counseling staff are responsible for delivery of the forms to the inmate, witnessing the signature of the inmate, and return of these forms to records.

72040.6.1 Disposition of California Detainers

If the detainer is from a California agency for untried charges, the inmate may request disposition of pending charges by filing a CDC Form 643, Demand for Trial in accordance with the provisions of PC 1381.

Untried Charges

Demands for trial should not be initiated in the reception centers.

Case Records Staff

Case records staff shall mail the CDC Form 643 to the DA by certified mail, return receipt requested.

Trial Within 90 Days

PC 1381 stipulates a person must be brought to trial within 90 days after written notification of the place of confinement. The 90-day period starts the day the DA acknowledges receipt of the CDC Form 643.

Case Records Staff

If the inmate is not brought to trial at the conclusion of the 90-day period, case records staff shall prepare:

- A CDC Form 668, Affidavit in Support of Motion to Dismiss Pending Charges.
- A CDC Form 669, Motion to Dismiss Criminal Charges Pending.
- A CDC Form 670, Order of Dismissal.
- A CDC Form 1006, Cover Memo - Motion to Dismiss.

All of these forms shall be forwarded to the court having jurisdiction of the matter.

Violation of Probation

If the detainer is for violation of probation in a California county, the inmate may file a request for disposition of probation in accordance with provisions of PC 1203.2a.

A CDC Form 616, Request for Disposition of Probation, Waiver of Appearance and Right to Attorney (PC 1203.2a), shall be used to request disposition of probation.

Inmate

The inmate may fill out a CDC Form 616 and forward it to case records.

Case Records Staff

Upon the inmate's written request, case records staff shall:

- Prepare the form for signature by the inmate.
- Mail the completed form to either the Superior Court or probation officer by certified mail, return receipt requested.

72040.6.2 Out-of-State or Federal Detainers on Untried Charges

When a detainer for untried charges is lodged by an agency of the federal government or an agency of a member state of the interstate agreement on detainers (IAD), the interstate form provided shall be used to notify the inmate of the detainer and to request disposition of the pending charges.

The IAD does not apply to violation of probation or violation of parole.

PC 1389 provides for the surrender of temporary custody of a prisoner to the jurisdiction of the federal government or another state which is signatory to the IAD where they are wanted for prosecution, except Louisiana and Mississippi.

72040.6.2.1 Non-Member State of IAD

If a detainer is lodged for untried charges by an agency of a state which is not a member of the IAD, the inmate may only be released for trial in accordance with an executive agreement between governors in compliance with PC 1549.

72040.6.2.2 Custody Requested

When a prosecutor requests custody of an inmate pursuant to PC 1389, Article IV, the following shall be done:

Case Records Staff

Case records staff shall provide the inmate (by their counselor) with a copy of the explanation of inmate's rights under article IV of the interstate agreement.

Afford the inmates an opportunity to sign a form II of the IAD wherein the inmate waives extradition to:

- The proceedings contemplated in the requesting state.
- Serve sentence after completion of the California sentence.

Court Arraignment

If the inmate does not sign a form II, case record staff shall make arrangements for the inmate to be taken before a magistrate prior to the offer of temporary custody being issued (PC 1550.1).

The purpose of the court arraignment is to give the inmate an opportunity to waive their right to petition for a Writ of Habeas Corpus and to waive the 30-day period for the Governor's intervention.

Inmate Waiver

This waiver is accomplished by the inmate completing a CDC Form 1668-A, Agreement to Temporary Transfer of Custody in the presence of the court and the court signing the form.

Inmate Does Not Waive

If the inmate refuses to waive their rights, the court shall fix a reasonable time for the inmate to file a petition for a Writ of Habeas Corpus. When the time has elapsed, a hearing guided by extradition law shall be held.

72040.6.3 Inmate Demands Trial

If the inmate demands trial and waives extradition by executing Form II, a court arraignment is not required and case records staff shall proceed on the basis of the inmate's demand for trial pursuant to PC 1389, Article III.

72040.6.3.1 Guidelines/Instructions

Instructions for the preparation, distribution and use of the various forms are contained in the heading of each form.

Case Records Staff

The case records office shall mail all forms by certified mail, with a return receipt requested.

72040.6.4 Out-of-State or Federal Detainers for Un-Sentenced Convictions

Tinghitella v. California (9th CC, 1983) held that an inmate has a statutory right under the IAD to be sentenced in absentia within 180 days after delivery of an appropriate demand for sentencing.

The court held that the IAD applies to sentencing as well as to untried indictments and thus where there is proper demand for return for sentencing said demand must be met.

The court held however that an inmate is not entitled to demand to be transferred to another jurisdiction for the purpose of sentencing if they fled that jurisdiction after conviction but before sentencing.

72040.6.4.1 Inmate Demands Sentencing in Absentia

If an inmate demands sentencing in absentia to any agency of the federal government or an agency of a member state of the IAD, case records staff shall notify the inmate of their rights by CDC Form 1673, "Notice of Conviction..." A request for sentencing shall also be executed by CDC Form 1674, "Inmate's Notice of Place..."

72040.6.4.2 Detainer Lodged

If a detainer is lodged by an agency of the federal government or an agency of a member state of the IAD, case records staff shall notify the inmate of the detainer and their right to demand sentencing.

72040.6.4.3 Request for Temporary Custody

If a request for temporary custody is received from any agency of the federal government or an agency of a member state of the IAD, the following shall be done:

Case Records Staff

Case records staff shall advise the prosecuting officer that the inmate waived the right to be present for sentencing by absconding from the jurisdiction of the court and may be sentenced in absentia on CDC Form 1675, "Notice of Inmate's Right to..."

72040.6.4.4 Forms/Instructions

Instructions for the preparation, distribution and use of the forms are contained in the heading of each form.

Case Records Staff

Case records staff shall mail all forms by certified mail, with a return receipt requested.

72040.6.5 Out-of-State or Federal Incompleted Sentence

If a detainer is lodged on the basis of an incompleted prior prison term by a facility or paroling agency of another state or the federal government, the provisions of the court decision *In re Stoliker* are applicable (see DOM 72040.9 for instructions).

72040.7 Notification to Filing Authorities

Revised February 28, 1995

Each agency that filed a detainer against an inmate shall be notified of the inmate's pending release or parole 90 days prior to the tentative release date.

The Department shall release an inmate to the agency that placed the first detainer. However:

- If multiple detainees are on file, and one is based upon a judgment and sentence to a prison term, the initial offer of custody shall be to the agency holding the prison term detainee.
- The USINS will not assume custody of inmates for deportation proceedings unless the inmate has completed/taken care of all pending legal issues, including misdemeanor charges, or if other agencies which have placed a detainee have declined to take custody.
 - When multiple detainees are on file and the inmate is released to one of the detainees, the remaining detainees shall be given to the transporting officers. The other agencies shall be notified of the release and of the agency that assumed custody.

In the case of an inmate's death, the detainee shall be returned to the notifying agency. Subsequently, the HWD coordinator shall delete the inmate's entire HWD computerized history.

72040.7.1 Notification Letter to Federal Agency

Case records staff shall send the notification letter to the U.S. Marshal of the district in which the facility is located. The letter shall state which marshal's office filed the detainee, the inmate's current release date, and whether the inmate is eligible for a parole date advancement.

A copy of the letter shall also be mailed to the:

- U.S. Marshal's office that filed the detainee.
- Bureau of Prisons, U.S. Bureau of Prisons Correctional Programs, 1301 Shoreway Road, Fourth Floor, Belmont, CA 94002.

72040.8 Release to a Detainee

Revised February 28, 1995

An inmate/parole violator may be released directly to the agency lodging the detainee. Pursuant to PC 4755, any inmate who has a detainee lodged against them by law enforcement or other agency may be:

- Released within five calendar days prior to or five calendar days after the scheduled parole release date. If more than 400 miles away, release may be five court days prior or five court days after the scheduled parole release date.
- Released within five calendar days prior to the scheduled discharge date. PC 4755 does not authorize CDC to hold an inmate beyond their discharge date.

This release procedure permits other agencies to pick up departmental inmates and transport them during regular business hours or, in some instances, at a more convenient time. (Exception: See DOM 72040.8.1 for USINS requirements.)

These parolees are entitled to release funds under PC 2713.1. In these cases, P&CSD staff shall delay in requesting release funds from the facility of release either until after the parolee is released from local custody or until the release date from local custody has been determined. Cash assistance or vouchers shall be provided pending receipt of release funds.

72040.8.1 USINS

The USINS regulations prohibit retention beyond 48 hours after the scheduled parole release date.

Parolees released to USINS are not entitled to release funds under PC 2713.1. However, they shall be provided cash assistance in a like amount by parole staff in the event they are released pending or following deportation hearings.

72040.8.2 Release to Another State by Violation of Parole

PC 11177 provides that a parolee from another state may be returned to the state of original conviction for violation of parole if the parolee is residing in California pursuant to the provisions of the interstate parole compact.

An inmate being discharged or paroled may be released directly to an agent of another paroling agency only if:

- The detainee is for violation of parole.
- The inmate was legally residing in California and under supervision of the P&CSD, Interstate Unit, at the time of their incarceration on the California term.

Prior to releasing any inmate to an agent of another state, case records shall confirm that both of the above conditions exist by writing to the compact administrator of the other state.

When an inmate is to be released to an agent of another state, case records staff shall arrange for the inmate's release at a time convenient to the transporting officers within normal business hours.

72040.8.3 Release to Subsequent Prison Commitments

Revised October 2, 1992

An inmate may be released on parole directly to the agent of another jurisdiction when the detainee is based upon a conviction and sentence only if:

- The commitment in the receiving state is subsequent to the California commitment.
- The inmate had initially demanded trial in the receiving state in accordance with the provisions of the IAD or waived their rights before the court by signing CDC Form 1688A, Form V-A.
 - A copy of the inmate's request (Agreement on Detainees, Form II) or inmate's waiver (Agreement on Detainees, Form V-A) is in the inmate's C-File.

If, however, the inmate's initial release to the receiving state was under Article IV of the Agreement on Detainees (the prosecutor requested temporary custody and the inmate did not sign the Form II of the Agreement on Detainees), the executive authority of the receiving state shall forward a requisition to the Governor's office to initiate formal extradition procedures and an extradition hearing shall be held.

Case Records Staff

When an inmate is to be released to an agent of another state, case records staff shall arrange for release of the inmate at a time convenient to the transporting officers within normal business hours.

72040.8.4 Extradition

See DOM 72050 of this manual for information.

72040.9 Deletion of HWD Computerized History

The HWD coordinator shall ensure that an inmate's entire HWD computerized history is deleted whenever they are paroled/discharged to hold.

When the records office receives notification that a detainee previously placed on an inmate has been dropped or expired, the HWD computerized history for that detainee shall be deleted.

72040.10 Concurrent Jurisdiction Transfer

In re Stoliker (1957) 49 Cal. 2d 75 requires that the Department make an inmate available to the U.S. Attorney General or their authorized representative for concurrent service of a previously imposed federal term.

While the decision referred specifically to federal terms, subsequent interpretation by the courts has applied the decision to states as well. A superior court order and Attorney General's Opinion applies In re Stoliker to any concurrent case regardless of which term was first imposed.

In re Stoliker does not apply to California sentences ordered to run consecutively with other jurisdiction sentences.

72040.10.1 Processing of Requests

Revised October 2, 1992

Inmates with detainees for unexpired sentences from other jurisdictions may submit a written request to the Director for transfer to the other jurisdiction for service of their sentence concurrent with the California sentence. The request shall be submitted to the facility CCRM for processing.

Case Records Manager

The CCRM shall process the inmate's request on a CDC Form 1168, Nature of Transfer Availability--In re Stoliker to officials of the other jurisdiction to determine if that jurisdiction agrees to assume custody of the inmate.

Information on referrals shall be sent to the correctional agency or department of the state placing the detainee or the U.S. Bureau of Prisons (see DOM 72040.7.1) and shall include:

- The California offense.
- The California sentence.
- The anticipated California release date.
- A copy of the most recent progress report.
- A copy of the detainee and accompanying documents.

Agency Declines Custody

If the other agency declines to take custody after notification of availability of the inmate, case records staff shall notify the inmate.

Transfer of Records

Upon transfer of an inmate to another jurisdiction, the case records staff shall place a CDC Form 801, Notice of Detainee, with a certified copy of the commitment papers and transfer all records to Region I, Attention: Sacramento Central Office (SACCO). An appropriate entry shall be entered into OBIS.

If an inmate escapes, is subsequently convicted and sentenced to a period of confinement to another jurisdiction, whether it's consecutive or concurrent to

the California sentence, and if the inmate remains in the other jurisdiction, the case records staff shall place a CDC Form 801, with a certified copy of the California commitment papers and transfer all records to Region I, Attention: SACCO. An appropriate entry shall be entered into OBIS.

72040.10.2 Return of Inmate to the Department

Inmates transferred under In re Stoliker shall be returned to the Department's custody when ready for release from the other agency if their California term has not been completed.

Inmates transferred In re Stoliker shall waive extradition prior to leaving the state of origin.

If the inmate shall not waive extradition, formal extradition procedures shall be initiated. Region I staff shall be kept advised of the status of each case so extradition papers can be processed before the release date.

72040.10.3 Concurrent Federal Sentences

Case records staff shall notify federal authorities when a prisoner serving a federal sentence concurrent with a State term is received at a facility and/or transferred within the Department. Notification shall be mailed to the U.S. Bureau of Prisons (see DOM 72040.7.1).

Case Records Staff

When an inmate is transferred to federal custody under In re Stoliker, case records staff shall send a certified copy of the judgment(s) and a letter to the facility where the inmate is confined.

72040.11 Departmental Detainers

A CDC Form 801 shall be placed with the receiving agency for the following inmates released to another agency:

- Escapees who are apprehended and in the custody of another agency.
- Inmates released under the interstate agreement on detainers (PC 1389).
- Inmates released under executive agreement (PC 1549).
- Inmates released under the uniform act to secure witnesses from outside the State in criminal acts (PC 1334).
- Inmates serving sentences in other jurisdictions.
- Inmates released to California agencies for trial, witnesses in criminal cases or civil proceedings in parental or marital cases (PC 2620, 2621, and 2625).
- Inmates released to another jurisdiction's detainer pending parole (PC 2690 and 4755).

The detainer shall be placed to ensure that the inmate is returned to Department custody to serve the unexpired portion of existing sentences or ensure that the inmate remains in custody until the California scheduled parole release date.

Case Records Staff

Case records staff shall prepare the CDC Form 801 in triplicate:

- A notation shall be made to contact the Department's case records office prior to release of the inmate by the receiving jurisdiction.
- If the inmate is released to a detainer pending parole, a notation shall be made not to release prior to the actual parole date.
- If an inmate paroled/discharges while out-to-court, the sending facility shall notify the en route facility and the holding law enforcement agency to remove the Department's detainer.
- The sending facility shall notify the parole unit and region staff of the change in status and the parolee's location.
- If the inmate is released out-of-state or to the federal government, the Region I, SACCO address shall be used as the unit to be notified of pending release.

Receiving and Release

One copy shall be retained in the C-File until the second copy is returned by Receiving and Release staff, who shall verify that the inmate was released.

The original and second copy shall be signed by the transporting officer or agent of the receiving jurisdiction at the time of release acknowledging receipt. The original shall be given to the officer/agent assuming custody and the second copy forwarded to case records.

Case records staff shall file the signed copy in the C-File and destroy the unsigned copy.

Case Records Staff

Upon the physical return of the inmate to Department custody, the CDC Form 801 shall be removed from the C-File and destroyed.

72040.12 Revisions

The Deputy Director, Institutions Division, or designee shall be responsible for ensuring that the contents of this section are kept current and accurate.

ARTICLE 7 — EXTRADITIONS

Revised February 23, 1995

72050.1 Policy

The Department shall comply with the Uniform Criminal Extradition Act for the surrender of inmates or for extradition of inmates in custody outside the state.

72050.2 Purpose

This section sets forth the uniform procedures for processing extradition requests.

72050.3 Extradition Upon Release to Parole

It is unlawful under PC 1550.1 and 1550.2 to deliver an inmate to an agency of a demanding state until the inmate is taken before a magistrate.

There is no legal provision for the Department to take an inmate before a magistrate to consider extradition prior to the parole release date. Therefore,

most inmates shall be released to the custody of a local law enforcement agency with the accompanying warrants.

Occasionally, an extradition hearing may be held at the institution by a local magistrate prior to the inmate's release. These inmates shall be delivered directly to the out-of-state agents when paroled or discharged, on the authority of a waiver signed by a judge or upon a judge's approval.

72050.3.1 Case Records Responsibility

The CCRM shall contact and arrange for the appropriate agency to take custody of the inmate on the scheduled parole release date:

- The local law enforcement agency if the inmate has to be taken before a magistrate.
- The out-of-state agency if a waiver has been signed by a judge or upon the judge's approval.

An inmate/parole violator may be released pursuant to PC 4755 for the convenience of an out-of-state transporting agency. [See DOM 72040.8].

Arrangements must be made sufficiently in advance of the scheduled parole release date to ensure that the appropriate documents (as described in this section of the manual) are available for delivery to the agency assuming custody.

72050.3.2 Extradition Upon Executive Agreement

PC 1549 provides that when an inmate is wanted in another state for prosecution and is held in this state, the Governor of California and the Governor of the other state may enter into an Executive Agreement. The Department temporarily surrenders custody of the inmate to the other state for prosecution on the condition that the inmate is returned when prosecution is terminated.

Inmates under sentence of death and wanted in another state shall be processed under Executive Agreement.

Upon receipt of an Executive Agreement the CCRM shall arrange to take the inmate before a magistrate, prior to offering him/her to the out-of-state agent. The Executive Agreement is sufficient authorization to remove the inmate from the institution for the hearing.

The CCRM of the releasing California institution shall maintain contact with the other state to ensure the inmate is returned.

If the CCRM finds that the inmate was placed in prison in the other state to serve a sentence, the prosecuting attorney in the other state shall be contacted and an attempt made to have the inmate returned to California in accordance to the Executive Agreement. If the prosecuting attorney refuses to cooperate, the AG's Office shall be contacted for assistance in having the inmate returned to California.

72050.4 Extradition From Out-of-State

PC 1547 through 1558 contain information regarding the Uniform Criminal Extradition Act. These provisions are used when the Department requests extradition to return California escapees or parole violators from outside the state.

72050.4.1 Documents

When the parole violator or escapee refuses to waive extradition, a number of documents must be supplied to initiate a Governor's warrant for their return to California.

When returning inmates from outside the state, the following documents shall be supplied to the Interstate Unit which shall prepare the package for the Governor's warrant:

- Four certified copies by case records staff of each of the information(s)/complaint(s), indictment(s), and Judgment(s)/commitment(s). Each document must bear two of the following thereon:
 - Signature of the county clerk.
 - Signature of the judge.
 - County seal.

Each document must also be certified by case records staff as a true and correct copy of the original in the C-File.

- Four exemplified (by the Superior Court) copies of each of the information(s)/complaint(s), indictment(s), Judgment(s)/commitment(s) pursuant to PC 1207. Each must be signed by the duly elected county clerk and by the judge of the Superior Court of the county of commitment. Exception: The State of Florida requires an affidavit by the judge stating the judgment and sentence against the individual.
- Four copies of an affidavit executed under penalty of perjury by the CCRM to certify the records covering the inmate's commitment,

subsequent actions by the parole board, subsequent transfers between institutions, assignment to camp, if any, and circumstances of escape.

- Four copies of fingerprints, pictures, and description.
- Statement of where and by whom the fugitive is being held and the means by which the institution has been notified of such facts.

Parole Violators Additional documentation

- The extradition package for the return of a parole violator must include documentation that the parolee is still subject to the jurisdiction of the paroling authority. Therefore, certificates of term fixing actions from the date the parolee was originally received by the Department shall be included.

72050.4.2 Waiver of Extradition

When the fugitive has waived extradition before a magistrate and agrees to accompany the Department's agent, staff of the P&CSD Interstate Unit shall be contacted to arrange pickup of the fugitive. One copy of the waiver shall be forwarded to the Interstate Unit as a necessary document to the state agent's appointment as the agent authorized to take custody and deliver the fugitive to the proper California authorities (*nunc pro tunc*). Except in unusual circumstances, the fugitive will be transported by private transportation agents.

72050.5 Interstate Transportation Cases

Parolees

At the time transportation is arranged on a parolee, Interstate Unit will contact the regional case records staff requesting that, no later than the next working day, a telecopy of the following documents be sent to the designated reception center:

- Cumulative Case Summary.
- Photo.
- Fingerprint.

A cover memo boldly marked "Interstate Transportation Case" shall accompany the packet and a copy of the memo shall be telecopied to the attention of the Interstate Transportation Unit.

Inmate

Upon notification that an inmate/escapee is to be delivered to a designated reception center, a packet will be compiled by the jurisdiction holding the C-file. The packet shall be boldly marked "Interstate Transportation Case" and shall contain in addition to the above named documents the commitment orders.

The packet will be sent by courier to the designated reception center.

72050.6 Revisions

The Deputy Director, Institutions Division, or designee, shall ensure that the contents of this section are accurate and current.

72050.7 References

PC §§ 1207, 1549.1 - 1558, and 4755.

ARTICLE 8 — NOTICES

Revised October 6, 1993

72060.1 Policy

Notification of the release of an inmate may be provided upon written request and shall be provided as mandated by law.

Notification of Release

Notification shall be provided pursuant to PC 3058.6 and 3058.8 on any person convicted of a violent felony listed in PC 667.5 (c), and pursuant to PC 11155 (b) upon the escape of an inmate.

72060.2 Purpose

The purpose of this procedure is to provide guidelines for acceptance and processing of requests for notification of an inmate's release.

72060.3 Mandatory Notification

Notification shall be provided to the sheriff, chief of police, and DA pursuant to PC 3058.6.

72060.4 Requests For Notification

Revised September 25, 2007

Written requests for notification shall be accepted from:

- Public or other law enforcement agencies.
- Paroling authority of another jurisdiction.
- DAs (pursuant to PC 270).

- Victim, witness, next-of-kin, immediate family member as defined in Section 3000 of the Title 15.
- Individuals, when the inmate's release or escape presents a potential for harm to the person.

72060.5 Types of Release Notices

When a request for notification has been made a matter of record, the requester shall be notified of the inmate's:

- Escape.
- Authorized release from departmental custody.
 - Release to a CCF For the purposes of this Section, a CCF means a Work Furlough (WF) facility, a facility which houses a Community Prisoner Mother Program, and the Restitution Community Correctional Center.
 - Release to parole.
 - Discharge.
 - Release from custody for any other reason (e. g., bail).
 - Transfer of custody to another agency.
 - Death.

The notice of transfer of custody is required to inform the requester that the Department shall no longer assume responsibility to notify them of the inmate's release or escape from custody.

72060.6 Public or Other Law Enforcement Agencies' Requests For Notification

Counselor

The inmate's counselor shall process requests from public or law enforcement agencies and those pursuant to PC 270 and 11155.

The counselor shall prepare a letter acknowledging receipt of the request for notice and forward it and a copy of the letter to the requestor and to the C-File by case records staff.

Case Records Staff

Case records staff shall:

- Send the letter to the requestor acknowledging the receipt of the request.
- Post the CDC Form 112, Chronological Inmate History.
- Post the CDC Form 144, Control Card.
- File the request and a copy of the letter of acknowledgment in the Holds/Warrants/Detainers (HWD) section of the C-File.
- File CDC Form 128-R, Requested Notice of Escape or Transfer of Custody, in the C-File.

72060.7 Victim, Witness, Next-of-Kin, or Immediate Family Member Notification

Revised September 25, 2007

Victims, witnesses, next-of-kin, or immediate family members as defined in Section 3000 of the Title 15 who request notification shall be notified of the inmate's/parole violator's death, escape, scheduled release to parole, discharge, release from custody for any other reason, or transfer of custody to another agency including a CCF. Requests shall be made in writing by letter or CDC Form 1707, Request for Victim Notification/Special Conditions of Parole.

Written requests from victims, witnesses, next-of-kin, or immediate family members shall be processed in the following manner:

CC-III/C&PR/Parole Region CCRM

The CC-III (Reception Center), C&PR, or Parole Region CCRM shall send an acknowledgement letter to each victim, witness, next of kin, or immediate family member as defined in Section 3000 of the Title 15 upon receipt of the initial correspondence. **This letter will serve only as an acknowledgement letter, not the official notification letter.**

The acknowledgement letter shall include the offender's most current scheduled release date or BPT hearing date and shall include a brief qualified statement that release dates are an estimate and subject to change. The letter shall state that the requestor shall **AGAIN** be notified 45 days prior to release of any type.

The letter shall also include:

- Request for additional information if needed.
- Inform the requestor of the responsibility to provide the Department with a current address and telephone number which will remain confidential.

- Confirmation of the confidential status of the request.

Notices to a victim, witness, next of kin, or immediate family member as defined in Section 3000 of the Title 15 shall be done by return-receipt mail. In the event that the requestor does not reside at the last known address provided to the Department, the CC-III/C&PR/CCRM shall make a diligent, good faith effort to learn the whereabouts of the requestor.

If notification of an inmate's release, death, escape, placement in a CCF/WF, or transfer of custody to another agency is returned undelivered, staff shall attempt to locate the person requesting notification using the following means:

- A telephone call to person requesting the notification.
- Directory assistance.
- CDC Victim Services.
- Local law enforcement.

Staff shall complete CDC Form 1722, Notice of Release Returned Undelivered and staple it to the undelivered notice, and insert the materials in the confidential section of the inmate's C-File. If the current address is discovered, staff shall send a new notice to the person requesting notification.

Notification Procedures

Those persons requesting information regarding offenders convicted of felonies shall be notified by the CC-III/Reception Center, C&PR, or CCRM in writing, at least 45 days prior to the inmate's/parole violator's scheduled release to parole, discharge, release from custody for any other reason, or transfer of custody to another agency. The notification will be done by a completed CDC Form 863-A, Confidential Notice of Release to Parole, pursuant to PC3058. If there is any change in the release date after the 45-day notice has been sent, the victim, witness, next of kin, or immediate family member as defined in Section 3000 of the Title 15 shall be notified immediately by the most expeditious means. A copy of the completed CDC Form 863-A shall be filed in the inmate's/parole violator's confidential folder with the request and response.

Parole agents can determine if the proper victim/witness notification has been sent from the releasing facility by reviewing the confidential section of the field-file for request and response documentation. If not completed, the Parole Agent shall send immediate notification to the victim/witness by information provided in the confidential section.

Death

The CDC Form 1796, Notice of Inmate/Parole Violator's Death shall be utilized for notification in the event of the inmate's/parole violator's death.

Escape

In the event of an inmate's/parole violator's escape, the victim, witness, next of kin, or immediate family member as defined in Section 3000 of the Title 15 shall be notified by the most expedient means possible. Either by telephone, through the local law enforcement agency of record, or by telegram.

C&PR

The C&PR shall have the responsibility for notifying the requestor within 30 days of the return to custody of an escapee. A CDC Form 1716, Notice of Return to Custody of Escapee shall be used to notify the requestor of the escapee's return.

Parole Staff

The regional CCRM shall have the responsibility for notifying requestors of the death, release, or escape of parole violators who are serving revocation time in county jails.

72060.8 Requests For Notification From Individuals

Requests from individuals shall be processed as follows:

The Warden or designated staff member at not less than the level of Lieutenant or CC-I shall:

Warden

- Evaluate the request in terms of the potential harm the inmate's release or escape shall present to the requestor.
- Evaluate the need to maintain the confidentiality of the requestor's identity and information contained in the request.
- Write a letter to the requestor informing them of:
 - Action taken by the Department.
 - Additional information required before any further action can be taken.

- Their responsibility to inform the Department of any change in address or phone number.
- To what degree the request is confidential and the amount of information which is disclosed to the inmate concerned.
- If the request warrants confidentiality, staff shall send the letter requesting the notice, copies of all staff correspondence, and the CDC Form 128-R to the staff person designated (CCR 3321[d][2]) to review confidential material. The reason given for confidentiality shall be: "Material relates to a person's fear of subject's escape or release/transfer from departmental custody." This person shall:
 - Review the material and, if appropriate, stamp as "Confidential."
 - Forward the material to the case records office.

Case Records Staff

Case records staff shall:

- Make an appropriate entry on the CDC Form 112 and CDC Form 144, in view of status as confidential or nonconfidential.
- File the request, letter of acknowledgment, and CDC Form 128-R in the C-File.

72060.9 Responsibility For Giving Requested Notice

A promise or implied promise to give notice of an inmate's release from custody or escape imposes that responsibility upon the staff of the facility from which the inmate is released or escapes.

Counselor

The counselor shall periodically review the inmate's file to evaluate the need or requestor's desire for notice. If necessary, the counselor shall contact the person(s) requesting the notice.

72060.9.1 Notice Announcing Escape

The staff person who reviews the C-File for information required in notifying law enforcement officials of an inmate's escape (pursuant to PC 11155 and the DOM 55040) shall also notify persons requesting notice by the most expedient means. If possible, by telephone or by telegram.

C&PR

The C&PR staff shall send written notice to the person requesting notification within 30 days after regaining custody of an escapee.

Case Records Staff

Case records staff shall file a copy of any written notice with the original request for notice in the C-File.

72060.9.2 Notice Announcing Release to Community Correctional Center or Work Furlough

Revised September 25, 2007

When notification is requested, CCF/WF staff shall send written notice at least 60 days before placement of an inmate in a CCF/WF program to the:

- Chief of police of the city in which the inmate shall reside or in which placement shall be made.
- Sheriff of the county in which the inmate shall reside or in which placement shall be made.
- Victim, witness, next-of-kin, or immediate family member as defined in Section 3000 of the Title 15.

This notice shall identify the inmate, the name, and the address of the facility, the county of release, and the address of the controlling parole region.

Case records staff shall file a copy of the written notice with the original request for notice in the C-File.

72060.9.3 Notice Announcing Release of Inmates Convicted of Violent Felonies

Any inmate serving a term of imprisonment after conviction for an offense listed in PC 667.5(c) or who is serving a period of parole revocation following release from such imprisonment is subject to the provisions of PC 3058.6 and 3058.8, and notification of release must be made.

The CDC Form 863 shall be completed and mailed no later than 45 days prior to release to the:

- Sheriff of the county to which paroled.
- Chief of police of the city in which the inmate shall reside (if known).
- DA of the county to which paroled.

A copy of the completed CDC Form 863 shall be routed to the:

- HWD section of the inmate's C-File.

- BPT executive officer if the inmate/parolee was sentenced pursuant to PC 1168(b).
- Inmate/parolee.

If residency plans are unresolved at the time of notification, staff shall enter "Community Unknown" on the CDC Form 863 and shall ensure that the parole unit address and telephone number are included.

When the community of residence is learned, the releasing facility records staff shall inform the above-listed agency(s) as soon as possible.

Comments From Other Law Enforcement Agencies

Comments received from law enforcement agencies regarding the release of an inmate to parole are reviewed by the RPA. After consideration of the comments, the original decision of placement may be changed.

A copy of comments received shall be forwarded to the BPT's executive officer for review in all cases of inmates being sentenced under PC 1168(b).

The law enforcement agency submitting the comments shall be notified of the BPT or Department's decision.

Notifications required by PC 3058.6 and 3058.8 shall be posted to the CDC Form 112 and CDC Form 144 by records office personnel.

After consideration of the comments, the original decision regarding the community in which the person is scheduled to be released may be modified pursuant to PC 3003.

72060.10 Revisions

The Deputy Director, Institutions Division, or designee shall be responsible for ensuring that the contents of this section are kept current and accurate.

ARTICLE 9 — WANTED PERSONS SYSTEM

Revised August 19, 1997

72070.1 Policy

The Wanted Persons System (WPS) shall be used to ensure prompt notification to other agencies of persons wanted by the Department.

72070.2 Purpose

This section sets forth uniform procedures for processing notifications on escapees, parolees who have absconded from parole supervision, or inmates who have been released prior to their scheduled release dates and must be returned to custody.

72070.3 Definition of Wanted Persons System

The WPS is an automated data system providing information on persons wanted by various law enforcement agencies. It encompasses:

- CLETS.
- DOJ WPS.
- The National Crime Information Center (NCIC).
- All Points Bulletin (APB).
- The CDC WPS.

72070.4 Definition of CLETS

The CLETS is a data computer system that facilitates entries into the following systems:

- DOJ WPS. Entries into this system shall not appear outside the state. A WPS notification remains in the system until cancelled.
- NCIC. This system is maintained by the FBI with State DOJ assuring proper statewide operation. A want entered into NCIC shall appear nationwide upon inquiry. A requirement of a want entered into NCIC is that the person shall be extradited.

72070.4.1 Definition of All Points Bulletin (APB)

The APB is a separate system that operates through CLETS. APBs are routed to statewide terminals programmed to receive them. APBs are sent after regular working hours, holidays and weekends, to the Identification (ID)/Warrants Unit to enter the APB into the WPS/NCIC. The APB is automatically purged after 72 hours.

72070.5 Escape Procedures

Facility/parole staff shall follow these procedures when an inmate escapes, or fails to return from a temporary community leave, or is released prior to his/her scheduled release date and should be returned to custody.

72070.5.1 Notification of Escape Procedures

- Prepare a CDC Form 140, State Prison Escape Bulletin, in accordance with the Department's escape plan.
- Initiate an APB at the earliest possible time. FAX a CDC Form 600-A, APB FAX Worksheet, to the ID/Warrants Unit.
- The ID/Warrants Unit shall enter the want into the CLETS/WPS which automatically generates entry into the NCIC system, and OBIS using the escapee's CDC number as the warrant number. These wants shall indicate the escapee is wanted to finish their term.
- Facilities shall not enter the "permanent" want; however, they retain responsibility for:
 - Presenting the facts to the DA within 72 hours and obtaining a warrant for the escapee's arrest. The local sheriff's office is responsible for entering a want on the escape charge.
 - Teletyping notice to the Chief, Correctional Case Records Services, giving escape information, county warrant number and whether the county has entered a want on the escape charge.
 - Prompt notification to the Chief, Correctional Case Records Services, of an escapee's apprehension.
 - Canceling any APBs issued by the facility when the escapee is apprehended within 72 hours.
 - Making notifications pursuant to the DOM 72060.

72070.5.2 Uniform Escape Notices

Escape notices shall adhere to the following:

- CDC Form 600, Wanted Persons System Notification--Addendum A, shall be available for use in preparing APBs.
- The descriptive information shall be completed in the order shown as adopted by agencies of State DOJ.
- APBs and cancellations on escapes from conservation camps or emergency firefighting crews shall clearly indicate that the escape was from a Department facility.
- The CDC Form 140 shall be 8 1/2" x 11". List the descriptive information in the order shown. Where case records material describes tattoos or other physical oddities, give adequate descriptive detail. The use of the term "multiple tattoos" shall not be used unless preceded by a specific description and location of one or more of them. The name of co-escapee(s), if any, shall be noted under "additional data."
- Escape bulletins posted in public places shall have the personal information removed (lower portion of the form). The IPA prohibits posting of personal information in a public place without the consent of the person. Other law enforcement agencies posting these forms assume responsibility for removal of this information.

72070.5.3 Escape Bulletin Distribution/Cancellations

Facility staff shall ensure that local law enforcement each receive:

- A minimum of 12 escape bulletins.
- A minimum of six glossy photographs.
- A copy of the escapee's CI&I SSCH report.
- A case summary.
- A list of visitors, correspondents and addresses, if known.

Escape bulletins shall also be distributed to headquarters, special services units, facilities, and parole regions so mutual assistance may be given in the apprehension and return of escaped prisoners.

If the escapee has a close relative or crime partner on parole, an escape bulletin shall also be forwarded to the appropriate parole unit office.

Escape bulletin cancellations shall be distributed to the same agencies that receive the escape bulletin, immediately following the apprehension of the escapee. The original escape bulletin shall be used by stamping "cancelled" across the bulletin along with the effective date of the cancellation.

72070.5.4 Presumptive Death Policy

To close an escapee's records under the "presumption of death," their age shall be 70 years or older and whereabouts unknown for 7 years or more.

72070.5.4.1 Presumptive Death Procedures

The CCRM shall initiate the presumptive death procedure:

- Obtain a current FBI SSCH.
- Complete a CDC Form 644, Certificate of Presumptive Death.
- Forward the original and one copy to the Chief, Correctional Case Records Services, for approval.

The original certificate shall be returned to the facility for permanent retention in the inmate's C-File. The copy shall be forwarded to State DOJ, CI&I. Upon receipt of the signed certificate, the CCRM shall:

- List the "presumptive death" on the daily report of arrivals and departures.
- Post the action to the CDC Form 112, Chronological History.
- File the original certificate in the inmate's C-File.
- Send the C-File to the designated region records office for microfiling. They shall forward the microfiche to the archives unit.

This acts to remove all departmental active records on the inmate.

72070.5.5 Interstate Compact Unit Escapees

When notified of the escape of a Department inmate housed in another state or federal prison, Region I case records staff shall send a FAX to the Chief, Correctional Case Records Services.

Follow the same procedures as for any other escapee except:

- Obtain a warrant from the DA for the escapee's arrest on escape charges.

The interstate compact unit shall make every effort to encourage the authorities of the facility where the escape occurred to:

- File local charges.
- Enter a want on escape charges, including the Department as an agency to be notified when the escapee is apprehended.

72070.5.6 Escape From a Civil Addict Facility

Pursuant to the W&I 3002, escape from a civil addict facility is a felony. Follow the same procedures as for any other escapee.

If sentenced to state prison on the escape charge, the civil addict commitment shall be referred back to the committing court as unsuitable. Discharge procedures shall be followed.

After an escapee has been at-large one year, and their whereabouts remain unknown, an exclusion letter shall be prepared and sent to the court of commitment pursuant to W&I 3053. Upon completion of the exclusion process, a FAX shall be sent to the ID/Warrants Unit requesting removal of the want from the WPS and the departmental warrants' register.

72070.5.7 Disposition of an Apprehended Escapee

An escapee apprehended by departmental personnel cannot be released to county officials for prosecution on an escape charge until a superior court issues an order as provided in PC 2620. A warrant issued by a municipal court for apprehension and return of an escapee is not sufficient authority for surrendering custody of an inmate.

An escapee apprehended and released to a departmental employee shall be returned to a facility as soon as possible for safekeeping until released in accordance with PC 2620.

An escapee arrested by officials not connected with CDC shall be held by the arresting agency for prosecution.

72070.5.8 Warrant For Unlawful Flight

18 USC 1073 provides for the issuance of a warrant for the apprehension of a person under commitment for murder, kidnapping, burglary, robbery, mayhem, arson, rape, assault with a dangerous weapon, extortion by threat or coercion, or an attempt to commit any of the above offenses. When an inmate committed for one of these offenses escapes and there is reason to believe the escapee left the state, the Warden shall notify the resident agent of the FBI.

The U.S. Attorney of the district in which the facility is located shall be notified by letter of the issuance of the warrant of arrest and that the prisoner shall be extradited if apprehended. They shall be provided with the information outlined in the escape report and requested to issue a warrant in accordance with the 18 USC 1073.

72070.5.9 Placing of Holds on Apprehended Escapees

Upon apprehension of an escapee, the Warden shall request immediate custody, and if the request is granted, the escapee shall be returned immediately to the facility. If immediate custody cannot be obtained, the Warden shall place a hold using a CDC Form 801, Notice of Detainer, for the return of the prisoner when they become available for return.

72070.5.10 Grand Jury Indictments Pertaining to Escapees

County warrants charging escape expire after three years. The CCRM shall review the list of escapees monthly. Any escapee at-large for two-and-one-half years shall be referred to the DA to obtain a Grand Jury indictment prior to the expiration of the three-year period.

72070.5.11 Purpose of an Affidavit of Escape

When extradition procedures are initiated, an "affidavit of escape" shall be prepared and forwarded to the Captain, Transportation Unit. This document is required by the controller's office so that the transportation officers may be reimbursed for expenses incurred in returning the escapee to California.

72070.6 Parolee-At-Large

A parolee is an absconder when it is determined by the BPT that the parolee's whereabouts are unknown.

72070.6.1 Placement in Wanted Persons System

When it has been determined that the parolee is at-large, the Parole Agent shall prepare a CDC Form 600 and submit it to the regional records staff with a CDC Form 1524, Parolee At Large Report (PAL Report).

The CDC Form 600 shall be reviewed for completeness by an office technician or higher and sent to the BPT Central Office Calendar with the PAL Report, or returned to the Parole Agent for completion. The following information shall be included on the CDC Form 600:

- Known aliases (AKA).
- Social Security Numbers (SSI) and additional date(s) of birth (ADB) which are recorded on the CI&I SSCH report.
- Scars, marks, and tattoos - indicate location and description.
- Caution codes shall be included in the caution field. If multiple caution codes are required, enter the most serious caution in the caution field and type out the second caution, in English, as the first item in the miscellaneous field. The "X" caution code shall be entered in the miscellaneous field with an explanation. Use prior history to determine caution. The following caution codes shall be used:

A	=	Armed and dangerous
E	=	Escape risk
M	=	Mentally disturbed
S	=	Suicidal
X	=	Miscellaneous

- Miscellaneous field shall contain the commitment offense, not the felony code numbers.
- The agent's name and telephone number shall be used by ID/Warrants Unit staff, but not entered into CLETS. This information shall be provided to the arresting agency upon apprehension.
- The reference field shall be used to indicate the region and unit office.

The facility/region case records office shall maintain a log of the CDC Form 600/entry and cancel requests.

ID/Warrants Unit

When a CDC Form 600 is received from the BPT, the ID/Warrants Unit shall:

- Date stamp the CDC Form 600.
- Compare the name and date of birth and contact region case records staff concerning any major discrepancies. Change CI&I and FBI numbers to conform to the CI&I SSCH.
- Enter the want in OBIS and perform a QC review of the FAX entry.
- Send a list daily of wants entered and cancelled to each regional case records office.

72070.6.2 Purge/Validation of Warrants

A NCIC warrant review shall be completed on all suspended PAL cases after 60 months in PAL status.

72070.6.3 Purge/Validation Procedures**Parole Agent (4-6 Weeks Prior to Annual and 60-Month review)**

Secures and reviews current CI&I and FBI arrest records for any arrest during period parolee has been PAL.

(At 60-Month Review)

Reviews case files of all PAL cases for commitment offense and prior criminal history if no arrests are noted on CI&I sheets.

Forwards copy of original CDC Form 1524, with completed CDC Form 1524-A attached, to BPT recommending:

- Discharge and recall warrant (if commitment offense and prior criminal history were property offenses with minimum or no history of violent behavior).
- Discharge and recall warrant (if determined there is minimal chance of parolee being located or committing new crimes, and a minimal history of violence or arrests are indicated by CI&I or FBI records).
- Retain in PAL status and in NCIC (if there is a history of violence; CI&I records show arrests; and there is a probability of parolee being located).

Current CI&I and FBI arrest records and legal status summary sheet shall be attached to PAL report.

Submits report to unit supervisor.

Unit Supervisor

Reviews and submits report to BPT for action.

72070.6.4 Cancellation of Wants**Parole Agent**

The Parole Agent forwards CDC Form 1676, Charge Sheet/Revocation Tracking/Scheduling Request, by FAX to the ID/Warrants Unit to cancel a warrant.

The ID/Warrants Unit

Cancels the warrant in the CLETS thereby removing the want from NCIC and WPS, and cancels the warrant in the OBIS.

72070.6.4.1 Parole Agent Requests For PC 3056 Holds

During normal business hours, the Parole Agent shall contact the region case records office to place a PC 3056 hold on a PAL in custody. After normal duty hours, the agent shall contact the ID/Warrants Unit to request that a hold be placed and the want cancelled.

72070.6.4.2 Hold Placed by ID/Warrants Unit

When a law enforcement agency requests a hold, the ID/Warrants Unit shall abstract a warrant to the agency with a copy to the region case records office.

Holds and warrant abstracts forwarded to requesting law enforcement agencies shall include the name and telephone number of a staff contact person. The abstract shall also include the charges, any AKAs and the requesting agency's booking or case number, if known, on the wanted person.

The region case records office shall notify the Parole Agent of the hold by the next working day. The agent shall immediately identify the subject.

72070.6.4.3 Hold Placed in Error

A warrant is no longer active once it has been cancelled in State DOJ CLETS. Once a warrant has been cancelled, it must be reissued for cause by the BPT in order to be used as the basis for entering a want into the state WPS or NCIC. Some warrants for suspended parolees are inadvertently cancelled due to:

- A warrant abstract has been sent to a law enforcement agency on the wrong subject.
- The parolee has been released by a local agency over a CDC hold or detainer.
- Data entry error.

72070.6.4.3.1 Procedures For Reissuing Cancelled Warrants**Parole Agent**

Submits a copy of the original CDC Form 1524, the BPT Form 1135, Miscellaneous Decision, and completed CDC Form 600, to regional records upon determining that a warrant has been incorrectly cancelled.

Records Staff

Forwards PAL package to BPT central office.

BPT Staff

Reissues warrant, FAX signed copies of the BPT Form 1135 and CDC Form 600 to ID/Warrants Unit and forwards a copy of the BPT Form 1135 to the parole unit.

Regional Records Staff

Posts BPT action to CDC Form 112.

ID/Warrants Unit Staff

Reenters want into CLETS and OBIS.

72070.6.4.4 Parolee-At-Large Located**Parole Agent**

Forwards CDC Form 1676 by FAX to ID/Warrants Unit to cancel warrant.

ID/Warrants Unit Staff

Cancels warrant in the CLETS thereby removing the want from NCIC and WPS, and cancels warrant in OBIS.

72070.6.4.5 Parolee-at-Large Reinstated

If a PAL is arrested or located in California and there are no violations of the type reserved for decision by the BPT, the RPA may order reinstatement on parole.

72070.6.4.6 Parolee-At-Large Located Out-of-State

The interstate parole office shall abstract a warrant during the normal workday. The ID/Warrants Unit shall abstract a warrant on weekends and after normal work hours on PALs where a code two warrant has been issued by the BPT.

The ID/Warrants Unit shall forward, to the Interstate Unit, three certified copies of the BPT warrant on any case where an abstract warrant has been issued or when the BPT has acted to issue a warrant as a detainer only.

The Parole Agent shall submit a written report to the BPT recommending a disposition. The BPT shall determine whether the parolee shall be discharged, referred for supervision in the other state, or scheduled for revocation proceedings.

72070.6.4.7 Emergencies and Emergency Procedures

Emergencies include:

- A parolee/PAL is apprehended out-of-state and shall be released unless a warrant is immediately issued. The Department's verbal or regular FAX request to detain shall not suffice to hold the subject.
- The parolee/PAL's misconduct is of such a serious nature that any delay incurred by requesting a hold through regular channels would amount to gross negligence on the part of the Department.
- The parolee/PAL is located/arrested out-of-state and the existing code one warrant needs to be upgraded to code two and a return-to-prison order shall be completed.

These emergencies require submittal to the BPT on a BPT Form 1135.

The Parole Agent shall initiate action for a want by telephoning the region CCRM or other region staff as determined by the RPA.

Depending on the need, the agent shall relay such information as is required for the BPT Form 1135, and if needed, the information for filling out a CDC Form 600 for issuance of a warrant. The region CCRM may determine the type of information needed for the agent.

The CCRM shall:

- Maintain control over regional emergency requests.
- Prepare the BPT Form 1135 and/or CDC Form 600, if a want is to be issued.
- Telefax the BPT Form 1135 and a CDC Form 600 to the BPT for action.

The BPT shall:

- Sign the BPT Form 1135.
- Issue a warrant number and complete the entry level and date of warrant.
- Send the CDC Form 600 to the ID/Warrants Unit for entry into the WPS.
- Notify the region CCRM of the action by telefax.
- Telefax the CDC Form 600 to ID/Warrants Unit. Send the original CDC Form 600 and the warrant to the ID/Warrants Unit.

72070.7 Releasee-At-Large Want

Upon receiving a request from the supervising Parole Agent for a releasee-at-large (RAL) want, the region CCRM shall complete the CDC Form 600, then forward it, along with the NAEA action to suspend outpatient status, to the ID/Warrants Unit.

The date of the warrant section shall reflect the date the action was taken by the NAEA. The "miscellaneous field" of the CDC Form 600 shall indicate "civil addict commitment." The criminal charges that were suspended shall also be included for entry into the WPS. RAL wants are code one only. Incomplete forms shall not be processed but returned to the originator for completion.

The ID/Warrants Unit shall enter the want into the WPS.

The Parole Agent shall contact the region case records office during normal business hours to place a W&I3151 hold on a RAL in custody and instruct them to request cancellation of the want. After normal business hours, the agent shall contact the ID/Warrants Unit to request that a hold be placed and the want cancelled.

Upon notification that the RAL has been apprehended and is in custody, the region CCRM shall FAX the ID/Warrants Unit requesting the removal of the want upon reinstatement action of the NAEA.

72070.8 Revisions

The Deputy Director, Institutions Division, or designee shall be responsible for ensuring that the contents of this section are kept current and accurate.

ARTICLE 10 — LEGAL STATUS INFORMATION

Effective September 22, 1989

Updated February 16, 2008

73010.1 Policy

Revised June 16, 1995

Uniform legal status information shall be maintained on persons under the jurisdiction of the Department.

73010.2 Purpose

Revised June 16, 1995

This section sets forth the procedures for the uniform preparation of an inmate's legal status.

73010.3 Legal Status Information

Revised June 16, 1995

Legal status information contained in the C-File includes:

- CDC Form 112, Chronological History.
- Legal Status Summary.
- POR or Circumstances of Offense.
- FBI Report.
- CI&I SSCH Report.

73010.4 Preparation and Audit Requirements

Revised June 16, 1995

Legal status information shall be assembled and prepared on all newly arrived inmates by the reception center case records staff.

Case Records Specialists (CRS)

Legal data used in the preparation of the CDC Form 188, Legal Status Summary, shall be audited by CRSs. They shall:

Review

- Review, compare, and analyze all available legal documents, such as: Abstracts of Judgment, Minute Orders, transcripts of proceedings at time of sentencing, charging documents, appellate court opinions, remittiturs, and other court orders to ensure accuracy, compatibility, and intent of the sentencing court.

Determine

- Determine sentence case relationship and appropriate application of credit for entry into OBIS and preparation of the Legal Status Summary.

Request

- Request missing documents, necessary to complete the legal portion of the case summary, from the county clerk's office. Requests for proceedings at time of sentencing should not be made until the third or fourth week after the inmate's arrival to permit routine transcribing and mailing by the courts. PC 1203.01 statements shall be requested from the court of commitment for cases not referred to the probation department.
 - Occasionally, an inmate may transfer from the reception center prior to receipt of documents and completion of the legal section. The receiving facility specialist shall ensure all pertinent documents/corrections are subsequently received and processed, and that amendments to the legal status summary are made.

Forward

- Forward to the Health Care Manager a weekly list of those inmates who are required to provide blood and saliva samples pursuant to

PC 290.2. Such samples shall be collected as soon as possible after the inmate leaves the reception center.

Review

- Review all computer generated Legal Status Summary Sheets and commitment documents for data entry error.

Correct

- Correct Legal Status Summary Sheets which are discrepant due to the lack of computer program edits, e.g., consecutive sex offenses, by causing a manual (M) calculation entry of the data. Cases discrepant due to an error in sentencing shall remain discrepant in OBIS until an amended document is received.

Refer

- Refer discrepant cases which require communication to the trial court to the LPU for resolution. Referrals shall include an analysis of the case factors and photocopies of complete court documents necessary for the unit to communicate with the court.
 - Copies of any amended/new legal documents subsequently received on discrepant cases shall be forwarded to LPU following correction of, or addition to, the legal status summary.

Determine

- Determine statutorily required reports, referrals, notices, and registration requirements. Make appropriate entries on the CDC Form 112; CDC Form 144, Control Card, and cause entry into OBIS, as program edits allows, for:
 - Arson offenses, as specified in PC 457.1 and 11150.
 - Sex offenses, as specified in PC 290.
 - Controlled substance offenses, as specified in H&SC 11590.
 - Reports to the court, as specified in PC 1170(d).
 - Notices, as specified in PC 3058.6 and 3058.8.

Edit Error PC 457.1

OBIS programming for entry on the Legal Status Summary is available only for PC 290, 1170(d), and 11150 and H&SC 11590 requirements. Due to a program edit error, PC 457.1 shall be indicated on the Legal Status Summary as PC 11150 and, unless registration is ordered by the court and reflected on the commitment document(s), the entry shall be modified manually to read "Notification required per PC 11150."

Continue To Audit

Facility/region specialists shall continue to audit legal status information, and make necessary records/corrections/amendments. They shall:

Time Cards

- Audit inmate time cards for recorded work credit.
 - Minimum met bubbled on the scannable time card is a combination of actual time worked, ETO, and security time for both fulltime and halftime assignments.

Holiday Credit

- Holiday credit shall be granted for all State holidays in the appropriate credit earning status for inmates in credit qualifying groups. Holiday credit shall be automatically posted to OBIS from scanned time cards.

ETO

- An inmate assigned for a minimum of 20 days in any month shall earn 16 hours of ETO in full-time assignments and 8 hours in half-time assignments for each month. An additional 8 hours of credit for full-time and 4 hours of credit for half-time shall be granted for any time actually worked on any State holiday. A maximum of 192 hours for full-time and 96 hours for half-time may be accrued. ETO shall be used in increments of 2 hours. ETO used in excess of ETO earned shall be recorded as an absence.

Review

- Review recording of all other worktime documentation including CDC Form 115, Rule Violation Reports; CDC Form 128-G, classification actions; general and medical chronos; and computer entries of credit gains, losses, restorations, and dead time.

Calculate

- Make appropriate calculations and recordings of BPH decisions.

Respond

- Respond to inquiries from inmates and answer inmate appeals on legal status issues.

Record

- Make proper recordings of all actions/decisions affecting an inmate's legal status on the CDC Form 112.

Disposition

- Determine disposition of Holds/Wants/Detainers and take appropriate action for resolution.

73010.4.1 Audit Schedule

Revised June 16, 1995

Periodic audits of the C-File shall be made by CRSSs. Audits which include all requirements previously listed in this section shall occur whenever the following exist:

- Upon initial intake at any receiving facility.
- Sixty days prior to an inmate's scheduled parole/release date.
- Ten days prior to an inmate's scheduled parole/release date.
- Upon receipt of an additional commitment following initial intake.
- Upon transfer to facilitate federal deportation.
- Every 30 days beginning 9 months prior to release on notorious or special interest cases.

Prior to Transfer

An audit prior to any transfer, except for deportation purposes, shall consist of proper recording and disposition of Holds/Warrants/Detainers/Notices, proper recording of worktime documentation, and the generation of an updated Legal Status Summary as a result of a work credit gain.

Three Months Prior to BPH Hearing

Three months prior to any scheduled BPH hearing, an inmate's C-File shall be audited for accurate computation and recording of the Minimum Eligible Parole Date (MEPD) and any decisions previously made by the BPH.

73010.5 Chronological History Form

Revised June 16, 1995

The CDC Form 112 is the first page of the case summary.

73010.6 Manually Prepared Legal Status Summary

Revised June 16, 1995

A CDC Form 188 shall be prepared manually by the LPU to record the legal status of inmates committed to the Department with an active life term or Indeterminate Sentence Law term pending implementation of a computer generated legal status program for these cases.

73010.6.1 Identifying Data

Revised February 16, 2008

Identifying data on the CDC Form 188 shall include, but not be limited to, the following:

Department Identification Number

- Show the assigned departmental identification number (CDCR Number).

Name

- Commitment Name.
 - The commitment name shall be recorded as reflected on the original Abstract of Judgment/Minute Order by which the inmate was delivered to the custody of the Department.
 - If the Abstract contains two or more names, the first name shown shall be used as the commitment name. If one of the names is documented as the true name, the true name shall be shown as the commitment name.
 - Names on subsequent commitment documents which differ from the original commitment name shall be recorded as Also Committed As (ACA), e.g., Jones, George; ACA: Jones, John.
 - If the individual is received with multiple cases, use the name on the case sentenced the earliest.
 - If the individual is received with cases from multiple counties, use the name on the Abstract prepared by the county which delivered the individual.

Name Change Procedures

Subject to Section 1279.5 of the California Code of Civil Procedure, no person under the jurisdiction of the California Department of Corrections and Rehabilitation shall be allowed to file a petition to change his or her name

except as permitted by the Department. Delegation of the Secretary's authority to permit an inmate or parolee to file a petition for a change of name has been granted to the Associate Directors (AD) of the DAI and to the Deputy Director of the DAPO. The following procedures shall be followed:

- Each inmate or parolee request for a legal name change shall initially be reviewed and approved or denied by either the responsible Warden or RPA.
- If circumstances do not exist to grant approval, the Warden or RPA shall respond to the inmate or parolee in writing stating the reasons for the denial. A copy of the response shall be placed in the inmate's/parolee's central file.
- If the Warden or RPA determines the request should be granted, the request shall be forwarded to the appropriate AD or to the Deputy Director, DAPO, along with a cover memo stating the reasons for granting the request. A copy of the memo shall be placed in the miscellaneous section of the inmate's/parolee's central file.
- If approved, the AD, DAI, or the Deputy Director, DAPO, shall forward a letter to the court accompanying the inmate's or parolee's request explaining why the Department is recommending approval for the legal name change. A copy of this letter shall be placed in the miscellaneous section of the inmate's or parolee's central file.
- If the AD, DAI, or Deputy Director, DAPO, does not approve the request, a letter will be forwarded to the inmate or parolee stating the reasons for the denial, a copy of which will be placed in the miscellaneous section of the central file.
- When a court ordered name change is received as a result of a department approval, the Correctional Case Records Manager shall notify the facility mailroom and visiting room of the change if the person is an inmate, or the agent of record if a parolee. The court order shall be filed along with the other documents regarding the request for name change in the person's central file.
- The mailroom and visiting room staff of the facility shall update their records to reflect the additional name of the inmate.
- The original commitment name of the inmate or parolee shall remain on all departmental records and shall continue to be used on all Department records.
- The new legal name shall be recorded in the OBIS as an "Also Committed As..."
- The inmate shall be notified to inform all persons who may visit or write him/her that they must use the inmate's departmental identification number when using the inmate's new name.
- If an institution or parole office receives a court ordered legal name change that had not been recommended for approval by the Department, but the order was not the result of a successful court challenge against a previous departmental disapproval of the name change, the appropriate Warden or RPA shall forward the order to the Department Secretary or his or her designee for appropriate action pursuant to Section 1279.5 of the Code of Civil Procedure. If an institution or parole office receives a court ordered name change as the result of a successful court challenge against a previous departmental disapproval of the name change, the Warden or RPA shall process the name change in accordance with this section.

Ethnicity

- Ethnic Group: American Indian, Black, Cambodian, Chinese, Columbian, Cuban, Filipino, Guamanian, Guatemalan, Hawaiian, Indian (from India), Jamaican, Japanese, Korean, Laotian, Mexican, Nicaraguan, Puerto Rican, Salvadorian, Samoan, Thai, Vietnamese, and White (includes Hindu, Portuguese, Spanish, and West Indian).

73010.6.2 Term Start

Revised June 16, 1995

The date the controlling term starts is as follows:

- The term start date shall be the same as the date received by the Department on the controlling commitment.
- If an additional commitment is received by mail and the date of sentence is prior to the original received date, the original received date shall be the term start date.
- If a concurrent commitment which becomes the controlling case is received by mail where the inmate is sentenced in absentia, the date the commitment was received shall be the term start date and postsentence credit shall be calculated and applied to the term.

- If an additional commitment which becomes the controlling case is received, where the inmate has gone out to court for sentencing, the term start date is the date the inmate returns to the Department from the prosecuting jurisdiction.
- If an additional commitment is pursuant to a probation revocation, the original received date shall be the term start date.

Federal or Out-of-State Prisoner

If a federal or out-of-state prisoner goes out to court and receives a California Controlling Commitment term, the term start date is the date the prisoner is received in the other jurisdiction after sentencing on the California case.

If a federal out-of-state prisoner is sentenced in absentia to a California Controlling Commitment term, the term start date is the date sentenced.

If a federal or out-of-state prisoner receives a California Controlling Commitment term pursuant to a probation revocation, the original received date in the other jurisdiction shall be the term start date.

73010.6.3 Release Data

Revised June 16, 1995

Maximum Release Date

The Maximum Release Date (MRD) is calculated by adding the controlling term to the term start date, minus preprison custody credits, and plus any dead time (at-large on escape status/while released on appeal bond or bail).

The facility CCRM shall ensure that the MRD is calculated and entered. On manually prepared CDC Form 188s, any subsequent adjustment to the original MRD shall be entered in pencil to permit correction or change.

If one of the controlling offenses is a life term, the maximum release date shall be shown as "to be determined."

If one of the controlling offenses has an ISL sentence, the maximum release date shall be calculated and entered after the BPH has set the term.

Minimum Release Date/MIN DSL/EPRD/MEPD

An inmate's release date or parole eligibility date may be recorded as a Minimum Determinate Sentence Law (DSL) Release Date (MIN DSL), Earliest Possible Release Date (EPRD), or Minimum Eligible Parole Date (MEPD), depending on the controlling term.

DSL Non-IW/TIP

Non-IW/TIP DSL terms have a MIN DSL date which is the maximum release date minus goodtime credit plus any credit losses or dead time.

DSL IW/TIP

IW/TIP DSL terms have an EPRD. The EPRD is the maximum release date minus vested credits, plus credit losses or dead time and less the potential amount of goodtime credit to be earned based upon credit earning status.

Information relating to the IW/TIP is found in DOM 73030.4 and 73030.6.3.

Indeterminate/Life Term

If one of the controlling offenses has an indeterminate or life term, manual entry of the MEPD into OBIS will be made at the time of initial audit and changed as necessary due to any recalculation.

Parole Period

The parole period entry shall reflect the maximum parole period required by law (e.g., one year, three years, five years, life).

Sosa Credit

Any preprison credit in excess of the term assessed for a particular offense must be used to reduce the maximum parole period (*In re Sosa* (1980) 102 Cal. App. 3d 1002). This entry shall read: "_____ years minus _____ days *In re Sosa*." If additional credits are received, which are applicable under *In re Sosa*, the entry shall be changed accordingly.

73010.6.4 Term Data

Base Term

For the base term, show the base term for the controlling offense.

- If the controlling offense has a determinate term, the entry shall be a four digit entry.

EXAMPLE:

5 Year Term = 05-00
5 Year 8 Months Term = 05-08

- Whether the controlling offense has an indeterminate or determinate term of one-year-and-one-day, show the base term as 1-year-and-1-day.
- If the controlling offense has a life term, show the base term as life.

- If the controlling offense has an indeterminate life term of 25-life, 20-life, 15-life, etc., the base term shall be recorded as such.

Enhancements/Consecutive (CS) Terms

Enter the total sentence for any enhancement(s) and/or CS term(s) added to the controlling term, including:

- Prior prison terms or prior felony convictions.
- Enhancements pursuant to PC §§ 12022, 12022.2, 12022.3, 12022.4, 12022.5, 12022.6, 12022.7, 12022.75, 12022.8, 12022.9; H&SC §§ 11370.2, 11370.4, 11379.8, etc..
- CS subordinate terms (PC 1170.1).
- Wholly CS DSL terms.
- CS ISL terms.

The entry for this section shall be a four digit entry.

EXAMPLE:

8 Months = 00-08
 4 Years = 04-00

Whether the CS term is for an indeterminate or determinate term of one-year-and-one-day, show the term as 1-year-and-1-day.

If the CS term is for a life term, show the term as life.

If the CS sentence is for an indeterminate term of 25-life, 20-life, or 15-life, show the term as such.

If the CS sentences/enhancements are combined, they shall be recorded as:

Life + 4 years = Life + 04-00
 25-Life + 4 years = 29-Life
 25-Life + 25-Life = 50-Life
 4 years + 1-year-and-1-day = 04-00 + 1-year-and-1-day

Total Term: Show the total term for the controlling case(s). This is the sum of the base term and enhancements/CS sentences.

73010.6.5 Preprison Credit

The preprison credit entry shall reflect the credit granted by the court(s) and reflected on the Abstract(s) of Judgment/Minute Order (s) for the controlling principal term and any CS counts or cases, plus credit administratively granted by the Department. The credits shall be recorded by the specific type of credit, whether accurately reflected on the Abstract/Minute Order and/or administratively granted.

Preprison credit includes:

PC 2900.5

- PC 2900.5. Reflect only actual days in local custody even if the Abstract of Judgement reflects a combination of PC 1203.03 and PC 2931 credit.
- Whether included in whole or in part on the Abstract of Judgement, reflect the following:

PC 1203.03

- PC 1203.03. Actual days in the Department's custody as a "Z" case.

PC 2900.1

- PC 2900.1. Actual amount of time served in the Department for the same offense.

CRC

- CRC credit. Actual days confined under the Civil Addict Program, including time in custody on parole hold (our hold only).

Mental Health

- Mental health credit. Days confined as incompetent to stand trial (PC 1375.5).

PC 4019

- PC 4019. Reflect days of goodtime credit granted by the court for time spent in local custody, as a condition of probation or pursuant to People v. Sage.

PC 2931

- Reflect goodtime credit granted for prior departmental time served on the same offense as PC 2900.1. The CDC Form 112, for the prior term shall be reviewed to determine if there are losses of credit.

Total Credit

- Total preprison credit. Reflect the total days of credit granted excluding credit applied pursuant to In re Sosa.

In re Sosa

- Credits applied pursuant to In re Sosa shall not be reflected in this section but shall be applied to the parole period as specified in DOM 73010.6.2.

73010.6.5.1 Preprison Credit and Multiple Abstracts on CS Cases

Abstracts of Judgment combining CS terms shall reflect the combined amount of preprison credit applicable to the total term. In those instances where the preprison credit is not combined on the last Abstract, record the preprison credit from the other Abstract(s) in order to reflect the total amount of preprison credit to which the inmate is entitled. Any preprison credit which is clearly and totally overlap credit shall not be applied in this manner.

In some cases the principal offense on an earlier Abstract may become the subordinate offense on the Abstract combined pursuant to PC 1170.1 (a). If the preprison credit on the first Abstract exceeds the term imposed as a subordinate term, only the amount of credit equal to the subordinate term shall be applied, as stated above. Any preprison credit in excess of the term assessed shall be used to reduce the maximum parole period.

73010.6.6 Notification/Psychiatric Referral/Registration Required

These entries shall reflect the appropriate code and section when a psychiatric referral, notice or registration is statutorily required prior to release on parole.

PC 3002

- PC 3002 requires a psychological evaluation prior to parole of persons convicted of child abuse or neglect.

H&SC Code 11590

- Narcotic offender registration pursuant to H&SC 11590 is required for the current offense only. A person is required to register with the Chief of Police or sheriff of the county of residence for five years following discharge from prison or release on parole.

PC 290

- Sex offender registration requirement pursuant to PC 290 is with the Chief of Police or sheriff of the county of residence and is applicable whether the sex offense is for the current offense or for a previous registerable offense. This requirement is for life.

PC 457.1

- Arson offenders sentenced pursuant to PC 451 and/or 453, whose crimes were committed on or after 1-1-85, if so ordered by the court and reflected on the commitment document, are required to register with the police in the city or the sheriff in the county of residency pursuant to PC 457.1. This requirement shall terminate five years after discharge.

PC 11150

- PC 11150 requires notification of release of persons convicted of any arson offense to the State Fire Marshal, all police departments, and the sheriff of the county in which the person was convicted and, if known, of the county of residence. The notice shall indicate the name of the person to be released, the county in which they were convicted and, if known, the county of residence.

73010.6.7 BPH Hearings

All BPH hearing dates will be shown by month and year. BPH hearings shall be scheduled as outlined in DOM 74030.

Record the month and year of the scheduled documentation hearing, initial parole consideration hearing, and/or BPH review.

73010.6.8 Offense Data

The offense section of the CDC Form 188 is divided into two parts as follows:

- Controlling principal, wholly CS terms and CS subordinate terms, including enhancements.
- Non-controlling terms.

Record

The information listed below shall be recorded for each case:

- Date received.
 - Date inmate was received by the Department.
 - If an inmate returns from out-to-court with a new term, the received date is the date the inmate returns from out-to-court. If the subject returns from out-to-court without the Abstract of

Judgment and the Abstract is received by mail after the inmate returns from court, the received date shall be the date returned from out-to-court.

- If an additional commitment is received by mail on a case sentenced prior to the date received in the Department or sentenced in absentia after the inmate has been received in the Department, the received date shall be the date of receipt by mail.
- If a federal or out-of-state prisoner goes out-to-court and receives a California Controlling Commitment term, the received date is the date the subject is received in the other jurisdiction after sentencing on the California case.
- If a federal or out-of-state prisoner is sentenced in absentia to a California Controlling Commitment term, the sentencing date is the received date, unless the sentence is the result of revocation of probation. In probation revoked cases, the date the inmate was received in the other jurisdiction is the term start date.

- County: Show committing county.
- Case number: Show committing court case number.
- Count number: Show count number.
- Code and section: Show GC number, i.e., PC, H&SC, W&I, B&PC, VC, etc.
- Offense: Show as listed on commitment document(s). OBIS language may vary somewhat from the document entry.
- Type of weapon: If a weapon enhancement was charged and/or found and whether imposed or stayed, or a weapon was an integral part of the offense, record the weapon type.
- Date of offense: Show date as recorded in the Information/charging document.
- Sentence date: Show date of hearing as recorded on the upper left block of the Abstract of Judgment.

73010.6.9 Recording Controlling Principle and CS Subordinate Terms

Record in this portion of the offense section all cases and/or counts, including enhancements, which make up the controlling term. Prior prison term and prior prison felony conviction enhancements shall also be recorded here.

The count designated as the principal offense shall be recorded first. Record any CS, subordinate, in-prison offense counts and/or cases in numerical sequence. Record enhancements to specific counts immediately beneath the offense.

EXAMPLE:

Date Rec'd	County Case Number	Ct	Code & Off	Type WPN	Date of Offense	Sen-tence Date
09-16-99	Ala 12345	02	P211 Robbery		07-20-99	09-12-99
		03	P211 Robbery	CS		
			P12022.5	CS		
			W/Use F'arm (Pistol)			

Record the number of prior prison terms for which the person was sentenced, if applicable, immediately below the county case number.

EXAMPLE:

_____	VPPT	PC 667.5(a)
_____	PPT	PC 667.56(b)
_____	PPT 667.51(a)PC	PC 667.51(a)
_____	SPPT 667.6(b)PC	PC 667.6(b)

Record below the county case number, if applicable, the number of prior felony convictions.

EXAMPLE:

_____	PFC	PC 667a
_____	PFC	H&SC Code 11370.2
_____	SPFC	PC 667.6(a)

If the sentence imposed was pursuant to PC 667.51(c) or 667.7, record this below the county case number.

73010.6.10 Recording Non-Controlling Offenses

Record in this portion of the offense section any additional Controlling Commitment counts or cases that have no effect on the controlling principal term. This heading will not be preprinted but added by staff, when applicable.

EXAMPLE:

Non-Controlling Offense:

09-16-99	Ala 12345	04	P459 Burglary	07-20-99	09-12-99
09-16-99	Ala 12345	01	P459 Burglary	07-21-99	09-12-99

73010.6.11 Recording Additional Commitments

Additional commitments received by mail, or court returns with a new term(s), shall be added to the appropriate section of the original CDC Form 188, except when the new commitment results in a new controlling principal term.

EXAMPLE: (Added as subordinate.)

Controlling Principal and CS Subordinate Offenses:

Date Rec'd	County Case Number	Ct	Code & Off	Type WPN	Date of Offense	Sen-tence Date
09-16-99	Ala 12345	02	P211 Robbery		07-20-99	09-12-99
		03	P211 Robbery	CS	07-20-99	
11-21-99	CC 23456	01	P211 Robbery	CS	07-18-99	11-19-99

EXAMPLE: (After a change of principal term.)

Controlling Principal and CS Subordinate Offenses:

Date Rec'd	County Case Number	Ct	Code & Off	Type WPN	Date of Offense	Sen-tence Date
11-21-99	CC 23456	01	P211 Robbery		07-18-99	11-19-99
			P12022.5	W/use F'arm (Pistol)		
09-16-99	Ala 12345	02	P211 Robbery	CS	07-20-99	09-12-99
		03	P211 Robbery	CS	07-20-99	

Additional commitments which result in a change of principal term require the preparation of a new CDC Form 188.

73010.6.12 DSL In-Prison Offense Term CS to DSL Terms

Pursuant to PC 1170.1(c), in-prison offenses which are CS by law or ordered by the court to run CS are wholly CS to the prior term(s).

People v. McCarthy (1982, 32 Cal. 3d 388) held that PC 1170.1(c), read as a whole, called for computation of a single term of imprisonment for all convictions of felonies committed in prison and sentenced CS, whether multiple convictions occur in the same court proceedings or in different proceedings.

In re Haygood (1985, 769F 2d 1350) held that in some cases CS sentences for escape charges are not CS to sentences for offenses committed while at large.

While multiple offenses committed in prison or while subject to reimprisonment for escape may be sentenced to run CS to each other as provided in PC 1170.1(a), that combined term is wholly CS to the prior term, and may exceed the five-year limitation on CS sentencing.

These wholly CS terms are not CS subordinate terms; they become a part of the total controlling term. Therefore, the fully additional term shall be recorded in the controlling principal term section and the total term added into the controlling term computation.

Since the decisions in McCarthy and Haygood there have been various interpretations and application of the holdings in these cases. The Department has determined to accept the court's decision, whether it sentences wholly CS pursuant to PC 1170.1(c).

73010.6.13 DSL Probation Revoked Cases in Conjunction With Other Terms

For determinate sentence probation revoked terms received by mail or upon return from court, the term start date is the date of receipt on the original commitment.

Goodtime credit on probation revoked cases shall be computed from the date of receipt on the original commitment.

73010.6.14 ISL or ISL/DSL Recalculated CS Cases

The full term for an ISL or ISL/DSL recalculated case sentenced CS to a DSL case shall be recorded and included and/or added as an enhancement to the base term to determine the total term.

The release dates shall be calculated and recorded for the aggregate term.

In these cases, the inmate continues to have eligibility for parole and term setting consideration by the BPH on the ISL Term(s) only.

- If an ISL parole date or discharge date is granted on the ISL term(s) only, the case must be recomputed using the ISL parole or discharge date as the term start date for the DSL term.
- The inmate shall then be scheduled for release on the earliest of the release dates: ISL release date plus the DSL term or the minimum release date on the totally calculated term.

73010.6.15 Recording Life Terms

Life term cases shall be recorded manually on a Legal Status Summary by the LPU. The following procedures will be followed in the preparation of these cases.

73010.6.15.1 Life Terms With Possibility of Parole

Life terms with the possibility of parole are governed by PC 3046, requiring a 7-year minimum service of term, without benefit of goodtime, before eligibility for parole consideration.

The term shall be entered below the offense and shall be recorded as Life.

EXAMPLE:

Date Rec'd	County Case Number	Ct	Code & Off	Type WPN	Date of Offense	Sen-tence Date
09-10-99	LA A123456	01 03	P209 Kipnap For Robb Life	CS CS	06-30-98	09-02-99

73010.6.15.2 Life Terms/15 and 25 Year Minimums

For crimes of Murder 1st or Murder 2nd committed on or after 11-8-78, terms changed to 25 and 15 years to Life, respectively.

EXAMPLE:

Date Rec'd	County Case Number	Ct	Code & Off	Type WPN	Date of Offense	Sen-tence Date
09-16-88	SF 23456	01 03	P187 Murder 1 st 25-Life P12022.5		01-03-87	09-06-88

73010.6.15.3 Merged Life Terms

For crimes committed prior to January 1, 1969, PC 669 provided that all terms sentenced prior or subsequent to life terms merge with a sentence of "Life". Following the last count, an explanation of how the terms are affected by PC 669 shall be shown.

Exceptions: Commitments under PC 4500 between 1965 and 1973 and under PC 4530(a).

EXAMPLE:

Date Rec'd	County Case Number	Ct	Code & Off	Type WPN	Date of Offense	Sen-tence Date
09-16-84	LA A123456	01	P187 Murder 1 st Life		06-30-77	09-02-84
		02	P459 Burg. 2 nd	CS	06-30-77	
		03	P470 Forg.	CS	06-30-77	

Pursuant to PC 669, cts 2 and 3 merge with ct 1.

Judgments received with orders in conflict with this section shall be recorded in the sentencing data section as specified by the court.

73010.6.15.4 Life Terms With CS Enhancements and/or Terms

PC 669, amended by 1978 statutes, provides that life sentences may be imposed to run CS to one another or to any other term of imprisonment.

For crimes committed on or after 1-1-79 whenever life terms and determinate terms or enhancements are ordered to run CS to each other and have the same received date, the determinate term(s) and/or enhancement(s) shall be served first, and no part thereof shall be credited towards the person's eligibility for parole on the life term as calculated pursuant to PC 3046. This applies to terms and/or enhancements imposed pursuant to PC 667, 667.5, 1170, 1170.1, 12022, 12022.2, 12022.4, 12022.5, 12022.6, 12022.7, 12022.75, and 12022.9.

A life term with CS enhancement(s) shall be recorded as follows:

EXAMPLE:

Date Rec'd	County Case Number	Ct	Code & Off	Type WPN	Date of Offense	Sen-tence Date
Controlling Principle And Consecutive (Including Enhancement) Offense						
07-24-99	SAC 3478	01	P187 Murder 2 nd 15-Life		03-12-99	07-21-99
	1 VPPT		P12022.5 W/Use F'arm (Rifle)	CS		

A life term with CS DSL terms shall be recorded as follows:

EXAMPLE:

Date Rec'd	County Case Number	Ct	Code & Off	Type WPN	Date of Offense	Sen-tence Date
Controlling Principle And Consecutive (Including Enhancement) Offense(s)						
12-10-99	LA A137890	01	P187 Murder 2 nd 15-Life		03-14-99	12-04-99
		02	P211 Robbery P12022.5 W/Use F'arm (Pistol)	CS		
		03	P211 Robbery P12022.5 W/Use F'arm (Pistol)	CS		

This method of recording shall be used when CS commitments are received with the controlling life term, and/or when an additional commitment(s) is received by mail where the sentence date on the new term is not later than that of the original term.

73010.6.15.5 Life Term With CS DSL in-Prison Offense Term

A life term with a CS DSL in-prison offense term shall be recorded as follows:

Base Term	Enhancements	Total Term
25-to-life	04-00*	= 29-to-Life

EXAMPLE:

Date Rec'd	County Case Number	Ct	Code & Off	Type WPN	Date of Offense	Sen-tence Date
Controlling Principle And Consecutive (Including Enhancement) Offense(s)						
01-02-99	LA A12345	01	P187 Murder 1 st 25-Life P12022.5 W/Use F'arm (Gun)		09-10-99	12-31-99
5-02-99	MAR 1234*	01	P211 Robbery P4502.5 Wpn. By Prisoner (knife)	CS	03-02-99	04-30-99

*Terms on Mar 1234 to commence upon completion of term on LA A12345 pursuant to In re Thompson.

When additional commitments are received a new CDC Form 188, shall be prepared to reflect the aggregate term as shown above. The received date shall reflect the date of receipt of the new commitment with a term starts as of the date of original receipt.

73010.6.16 DSL Indeterminate Terms

Several sentences remain indeterminate since passage of the DSL in 1977. The most common is the one-year-and-one-day sentence.

DSL indeterminate cases will be placed on calendar for an initial parole consideration hearing by the BPH within 120 days of reception into the Department if the MEPD is within 120 days from the reception date. If the MEPD is more than 120 days from reception, the initial hearing shall be scheduled one month prior to the MEPD (BPT 2273).

These cases require special processing following determination by the BPH. The procedures for producing a manually prepared Legal Status Summary as outlined in DOM 73010.6 will be followed.

These procedures shall be followed in preparing, computing, and recording BPH actions for DSL indeterminate terms.

DSL Indeterminate Term Only

Regular ISL procedures shall be followed using the BPT Form 1010 for recording the determination and making the period of confinement computation.

DSL Indeterminate Controlling Commitment with DSL Term

If the minimum release date for the DSL term is later than the statutory maximum for the DSL indeterminate term, no BPH parole hearing is required. If the DSL minimum is earlier than the maximum term for the indeterminate offense, the inmate shall be scheduled for an ISL parole hearing. The later release date shall be the controlling release date.

DSL Indeterminate Controlling Commitment with ISL Term

Regular ISL procedures shall be followed using the BPT Form 1010 for recording the determination and making the period of confinement computation. In addition, a PC 1170.2(a) recalculation shall be made for the ISL terms.

DSL Indeterminate CS with DSL Term

Schedule the DSL indeterminate case for the first available ISL parole consideration hearing for determination of the indeterminate case only. A BPT Form 1010 shall be used for this determination. The reception date for the ISL computation shall be the date originally received on the offenses involved.

The release date for the DSL indeterminate offense shall be the term start date on the DSL term. A DSL computation shall then be completed for the remaining DSL term.

DSL Indeterminate CS with ISL Term

Schedule an ISL parole consideration hearing on the first available ISL hearing calendar. The ISL portion of the BPH determination shall be processed in accordance with existing ISL hearing procedures.

Combined DSL Recalculation and ISL Hearing for the DSL Indeterminate Case

During the ISL parole consideration hearing, the BPH hearing panel shall enter in the comments section of the BPT Form 1010, a determination of the amount of time assessed for the DSL indeterminate offense for the purpose of determining the CS factor of the recalculation.

A separate BPT Form 1010 shall be used by the specialist to compute the release date for the DSL indeterminate case. This BPT Form 1010 shall be attached to the original form with a notation, "see ISL BPT Form 1010 dated _____."

This release date shall be used as the term start date in the computation on the CDC Form 678, Confinement Computation, for the recalculation of the remaining counts or cases.

A PC 1170.2(b) (extended term) screening shall be made at the time of initial processing to ensure completion prior to 90 days after receipt.

Upon completion of the recalculation of the counts or cases, the CDC Form 678 shall be presented to a BPH panel for signature.

73010.6.17 Determinate One-Year-and-One-Day Terms

PC 4532(a), Escape From County Jail Without Force, where the crime was committed on or after 1-1-85, has a determinate sentence of one year and one day.

The procedure for producing a manual face sheet as outlined in DOM 73010.6 shall be followed except for DOM 73010.6.3, Release Data. Release dates shall not be calculated by the LPU on these cases. The specialist at the institution housing the inmate shall compute the release date upon receipt of the manual face sheet.

No referral to the BPH is required and those cases are calculated in the same manner as for other DSL terms.

73010.6.18 Information Recorded on Bottom of CDC Form 188

On cases with life terms, enter the following information above the name, number, etc., at the bottom of the first page:

- Defense Counsel.
- Investigating agency.

Record on each page of the Cumulative Case Summary the last name, number, unit of the Department, date, the initials of the CRS who calculated the case and the initials of the typist.

EXAMPLE:

JONES A50000 RC-C 1-12-88 RO/cs

73010.7 Computerized Legal Status Summary

A computerized legal status summary is generated only on cases which have determinate sentences, including cases recalculated pursuant to PC 1170.2(a).

73010.7.1 Identifying Data

Identifying data on a computerized legal status summary is the same as specified for manually prepared Legal Status Summary sheets in DOM 73010.6.1 with the addition of the Date of Birth on the computerized version.

73010.7.2 Release Dates

The OBIS Computer will calculate, with exceptions, the following release dates and reflect them on the face sheet.

DSL Non-IW/TIP and Non-Vested DSL IW/TIP Cases:

- Maximum Release Date.
- Minimum Release Date.
- Maximum Adjusted Release Date.
- Minimum Adjusted Release Date.

DSL IW/TIP Cases:

- Maximum Release Date.
- Maximum Adjusted Release Date.
- Current Release Date.
- Earliest Possible Release Date.

Manual Calculations

Maximum release dates, maximum adjusted release dates and EPRDs must be manually calculated and verified for manual entry into OBIS or manual correction on the Legal Status Summary in the following circumstances:

- When the offense data on a case(s) requires manual entry into OBIS because of program edit errors.
- When computation of a concurrent additional commitment results in a controlling maximum date on other than the controlling case.
 - The non-controlling maximum date shall be lined through and the

Tran Type	Date	End Date	Log Number	Rule Number	DAYS			
					Assessed	Lost	Rest	Dead
					*****BEG BAL*****			
Beg	_____							
Current PC Balance:	_____			Current BC Balance	_____			

IW/TIP Data

IW/TIP cases will reflect the following information at the bottom of the Legal Status Summary:

IW/TIP Waiver Date	Beginning Balance	Credit Applied	Total Lost	Total Restored	Net Total
_____	_____	_____	_____	_____	_____

Credits Auto (or Manually) vested (or revested) per PC 2934

Tran Type	Date	End Date	Log Number	Rule Number	Viol. Cat.	Days
ETO Balance	=	_____		as of	_____	
EPRD is	_____	Based on Credit Applied Through _____		and Work Group	_____	

is a manual entry.

The EPRD on a Legal Status Summary generated by a work credit gain shall not be correct in the following circumstances:

- When credit losses exceed credit earned at the time of the gain.

- When the gain is through the last day prior to a change in work credit earning status.
- When the correction of time collection data results in a negative balance of a fraction of .5.

Following manual calculation, the incorrect EPRD shall be lined through and the correct date as manually calculated shall be entered on the Legal Status Summary.

73010.7.3 Term Data

The face sheet shall reflect as the base term, the term for the controlling offense. The entry for this section shall reflect the term in years and months.

EXAMPLE:

5 years = 05-00
 1 year 4 months = 01-04

The face sheet shall reflect the total term for all enhancements included in the controlling total term.

73010.7.4 Parole Period

Based on the commitment data the OBIS computer will determine the appropriate parole period. Credits pursuant to In re Sosa will be reflected in the section next to the parole period section.

73010.7.5 Preprison and Postsentence Credit

Refer to DOM 73010.6.5.

73010.7.6 Notification/Psychiatric Referral/Registration Required

Refer to DOM 73010.6.6.

73010.7.7 Offense Data

The offense data section is divided into three parts.

- Controlling case. Offenses and enhancements in the case with the principal term which are included in the controlling term.
- CS factors. Offenses and enhancements from other cases which are included in the controlling term.
- Non-Controlling offenses. Offenses and enhancements which are not included in the controlling term.

Record

The following information will be recorded for each count:

- Received date.
- County of commitment.
- Case number.
- Sentence date.
- Count.
- Offense code.
- Offense description.
- Offense date.

EXAMPLE:

Date Rec'd	County Case Number	Ct	Code & Off	Type WPN	Date of Offense	Sen- tence Date
Controlling Principle And Consecutive (Including Enhancement) Offense						
— CONTROLLING CASE —						
11-03-99	LA A123456 PPT-V	01	P667.5(A) 15-Life .P211 Robbery P12022(A) ARM/A	CS	10-27-99	07-21-99
— CONSECUTIVE FACTORS —						
08-08-99	RIV 12345	01 02	P211 Robbery P211 Robbery	CS	03-23-99 04-16-99	07-19-99
— NON-CONTROLLING CASES —						
08-08-99	SBD 54321	01 02	P211 Robbery P211 Robbery		03-22-99 04-10-99	07-02-99

73010.7.8 Goodtime/Worktime Credit And DSL EPRD

Non-IW/TIP or non-vested IW/TIP cases will reflect the following information at the bottom of the Legal Status Summary:

73010.8 Circumstances of Offense

A POR is prepared by the probation officer in the county where the offense was committed and is considered the main body of the Case Summary. The circumstances of the offense are included in the POR.

The statements of views submitted pursuant to PC 1203.01 by the sentencing judge, DA, defense attorney, and law enforcement agencies shall be included in the Case Summary if a POR is not available. A copy of the arrest report shall be requested and included in the Case Summary if the POR or statement of views does not contain circumstances of the offense.

73010.9 CI&I Report

This section is an actual reproduction of the CI&I SSCH.

PC 11120-11126, relating to the SSCH Information maintained under a person's name by DOJ, provide that any person desiring a copy of this record may make application to State DOJ for such record, and upon such request, State DOJ shall furnish that person with a copy.

Statutes prohibit the Department from providing an inmate with a copy of their SSCH. However, an inmate may retain a copy of the record which they obtained from State DOJ.

73010.9.1 Destruction of CI&I Arrest Records Pursuant to H&S Code 11361.5

H&S 11361.5(c) states: "Destruction of records of arrest and/or conviction pursuant to subdivision (a) or (b) of this section shall be accomplished by permanent obliteration of all entries or notations upon such records pertaining to the arrest or conviction, and the records shall be prepared again so that it appears that the arrest or conviction never occurred".

Application for destruction of records as indicated above, must be submitted to and processed by State DOJ. Upon being advised by DOJ that an application has been approved, these procedures shall be followed in removing the information from all departmental records:

- Upon receipt of the information from CI&I that an item(s) has been removed pursuant to H&S 11361.5, institution/region case records staff shall obliterate all references to the removed material from the Legal Section of the C-file. The new SSCH shall be inserted into all copies of the Case Summary.
- Facility case records staff shall then forward the C-File to the assigned counselor. The counselor shall review the entire C-File and other Department records and remove all references to any arrest or conviction which has been removed from the SSCH pursuant to H&S 11361.5. Revisions to material in the Case Summary shall require complete redistribution of the corrected material.
- Region case records staff shall forward the C-File to the regional "Olson" coordinator who shall review the entire C-File and other departmental records and remove all references to any arrest or conviction which has been removed from the SSCH pursuant to H&S 11361.5. Revisions to material in the Case Summary shall require complete redistribution of the corrected material. A corrected copy of the Case Summary shall be forwarded to the Parole Agent for placement in the field file.

73010.10 FBI Report

Revised June 16, 1995

The FBI provides the Department with a reproduction of criminal history similar to the State criminal history with the addition of arrests and/or convictions which were reported in all and any other state and/or for federal offenses.

73010.11 Revision of Legal Status Sheet

Revised June 16, 1995

Many cases are complicated by multiple commitments and/or amended judgments received while the individual is in the reception center, facility, or on parole. The receipt of a new commitment requires modification of the Legal Section as follows:

- A new Legal Status Summary shall be prepared showing each additional commitment and/or modification.
- A new CI&I report replaces the previous CI&I report.
- A new FBI report replaces the previous FBI report.

An entry shall be recorded on the CDC Form 112, reciting the date of the change, the authority for the change, the county, and the case number (e.g., 3 Pcs stricken; degree of Burg modified from 1st to 2nd).

73010.11.1 Appellate Court Decisions

Revised June 16, 1995

In instances where the sentence is modified by the appellate court, the Legal Status Summary shall be changed in accordance with the decision of the appellate court upon receipt of a certified copy of a Remittitur from the appellate court.

Where the appellate court directs the case to the Superior Court for re-sentencing, and by opinion leaves open-ended the structure for re-sentencing, the Legal Status Summary shall be changed upon receipt of an amended Abstract of Judgment and/or Minute Order from the Superior Court. Information related to judgments on appeal is found in PC 1258, et. al.

73010.12 Revisions

Revised June 16, 1995

The Director, Division of Adult Institutions, or designee shall be responsible for ensuring that the contents of this Article are kept current and accurate.

Code of Civil Procedure Section 1279.5

ARTICLE 11 — UNASSIGNED

ARTICLE 12 — TIME COMPUTATIONS

Effective September 13, 1989

73030.1 Policy

Time computations shall be completed in a uniform manner to ensure that release dates are true and correct.

73030.2 Purpose

This section sets forth uniform procedures for the computation of terms.

73030.3 Computation of Time

The phrase "Time Computation" describes the Department's uniform method for determining and computing an inmate's term, minimum and maximum release dates.

An inmate's time is calculated and computed in years, months, and days.

73030.4 Sentencing and Credit Laws–Non-life Terms

The method of time computation and appropriate application of credit to a term of a sentenced felon is governed by whichever law or set of laws apply on the date a crime is committed.

The primary sentencing laws applicable to non-life terms are the:

- Indeterminate Sentence Law (ISL) [PC1168(b) and 1170.2].
 - Crime committed prior to 7–1–77.
- Determinate Sentence Law (DSL) [PC 667.6(c), 1168(a), 1170, and 1170.1].
 - Crime committed on or after 7–1–77.

The primary laws affecting credit on a term of imprisonment are:

- PC 2931 and 2934 (DSL).
- PC 1168(a), 1170, and 1170.1].
 - Crime committed on or after 7–1–77 and prior to 1–1–83.
- PC 2933 DSL-IW/TIP.
 - Crime committed on or after 1–1–83.

73030.5 Credit For Time Served/Pre-prison Credit

Credit for the total of any time served prior to reception into departmental custody, and good time credit on those days is called "pre-prison credit."

Pre-prison credits apply to the time period as if the time credited had been served in State prison.

All credits ordered by the sentencing court shall be applied when calculating the term(s).

73030.5.1 Pre-sentence Credit and Good time

Pre-sentence credit, credit for prior time served in county jail or other county facilities pursuant to PC 2900.5, and good time on those days pursuant to PC 4019 is ordered by the court and will be reflected on the legal document.

73030.5.2 Credit For Time Served–Other Commitments

Credit for time served shall be granted and administratively applied if the credits are not reflected on legal documents for:

- Prior time spent under indeterminate commitment as a mentally disordered offender (PC 1600.5).
- Commitment received on or after September 15, 1965, where there was prior confinement for diagnostic observation and recommendation (PC 1203.03).
- Prior time served under commitment pursuant to the W&I 3200.
- CYA time in custody for the same offense (W&I 1782).

73030.5.3 Credit For Time Served–Invalid or Modified Judgment

Credit for time served under a judgment subsequently declared invalid or modified shall be granted and administratively applied if a person is recommitted for the same criminal act or acts and the credits are not reflected on the Abstract(s) of Judgment (PC 2900.1).

73030.5.4 Post-sentence Credit and Good time

Revised March 16, 1995

Credit for the number of days between sentencing and actual delivery to departmental custody and good time on post-sentence credit shall be administratively granted and applied pursuant to PC 2900.5(e).

- Postsentence credit shall not apply to a term ordered to run consecutively to another term presently being served.
- Postsentence credit shall not apply to the case of an inmate who returns from court with an additional commitment which occurs after/as a result of revocation of probation.
- Postsentence credits shall not apply to a term if due to a plea bargain the court stipulates that PC 2900.5 credits are not to be granted.

73030.5.5 Additional or Modified Pre-prison Credits

Upon receipt of an amended Abstract of Judgment or Minute Order modifying credits, the CCRM shall re-compute the release date, minimum eligible parole date (MEPD), minimum term or maximum term, and make appropriate changes in all records.

- On ISL cases, if the inmate has not appeared for an initial parole consideration hearing, place on appropriate calendar in accordance with BPT Rule 2304. If the inmate has had an Initial Parole Consideration Hearing, schedule for Subsequent or Progress Hearing on the next available calendar.

73030.5.6 Application of Pre-prison Credit and Person Overdue For Release

Upon receipt of a judgment or an amended judgment or court order, if after application of pre-prison credit the inmate is overdue for release, the inmate shall be released within five working days.

Five working days are allowed to provide records staff sufficient time to correct and audit the records and to prepare necessary release documents.

Work time credits shall be entered only to the date calculated as the earliest possible release date (EPRD). Credit from the calculated release date to the date of actual release will be entered into OBIS as "Sosa Credit."

The entry on the CDC Form 112 shall read, "Parole period _____ years minus _____ days In re Sosa."

73030.5.7 Resolution of Pre-prison Credits Issues

People v Montalvo (2 Crim 38558 1982) stated that the matter of granting pre-sentence credit at time of sentencing is done in open court and any challenges to the amount of credit granted should be made by counsel at that time.

Only the following credit issues shall be referred to the sentencing court for resolution:

- Any case that has credit granted which is prohibited by In re Rojas. This includes in-prison offenses, crimes committed while on escape, and consecutive cases sentenced after initial receipt in CDC which includes credit for time served after initial receipt.
- Resentenced cases wherein the court has granted erroneous time spent in CDC.
- Probation revocation cases that include more than 60 days custody credit that is also being given by the Department.
- Cases that reflect differing amounts of credits on the legal documents.
- Cases wherein the court has granted "day-for-day" PC 4019 credit.

73030.5.8 Application of Pre-prison Credit To DSL Term

The procedures set forth in this section shall apply to determinate sentence law terms and cases recalculated pursuant to PC 1170.2(a)(b).

73030.5.8.1 Single DSL Term

All pre-prison credit shall be deducted from the DSL term, including enhancements for use of weapons, possession of a weapon, or great bodily injury and enhancements for prior prison terms and any other enhancements.

73030.5.8.2 Concurrent DSL Term

Pre-prison credit is applicable only to the term to which it is attributable; i.e., court case number to that particular crime.

Concurrent terms are computed separately, applying the applicable pre-prison credit to each term.

73030.5.8.3 Consecutive DSL Terms

All pre-prison credit attributable to the DSL principle term shall be deducted from that term only.

Pre-prison credit attributable to each consecutive case or count shall be applied only to the subordinate term to which it is attributable.

Any pre-prison credit attributable both to the principal term crime and to any subordinate term crime shall be deducted from the total term.

73030.5.9 Pre-prison Credit in Excess of DSL Term

Any pre-prison credit in excess of the term assessed for a principal and/or subordinate term shall be used to reduce the maximum parole period (*In re Sosa*).

73030.5.10 Pre-prison Credit Application -- ISL Terms

Pre-prison credits do not change the statutory requirement for the minimum eligible parole date (MEPD), minimum term or maximum term, but apply to the time periods as if the time credited had been served in State prison.

Applicable pre-prison credit shall be applied to any parole date or term of imprisonment no later than one week after it has been established or fixed by the BPT. The total number of days to be credited shall be contained in the Abstract of Judgment or Minute Order as the commitment document.

No pre-prison credits shall be used to offset time assessed for prior prison terms.

Single offense. All pre-prison credit attributable to the base offense shall be deducted from the base period of confinement determined by the BPT.

Multiple offenses. Pre-prison credit shall be deducted from the base period of confinement and the multiple crime adjustment established by the BPT.

Pre-prison credit shall not be deducted from any other adjustment.

No overlapping pre-prison credit shall be applied.

- Preprison credit attributable only to the base offense shall be deducted from the base period confinement.
- Preprison credit attributable only to multiple crimes shall be deducted from the multiple crime adjustment.
- Preprison credit attributable both to the base offense and to multiple crimes shall be deducted from the base period of confinement.
- Any preprison credit in excess of the base period of confinement shall be deducted from the multiple crime adjustment for each multiple crime to which the preprison credit is attributable.
- Preprison credit attributable to multiple crimes shall be deducted from the adjustment beginning with the adjustment for the earliest crime and deducting any remaining preprison credit from the adjustments following the chronological order of the crimes.

Pre-prison credit in excess of the base period of confinement or the multiple crime adjustment shall be deducted from the maximum period of parole (*In re Sosa*).

Time spent under outpatient status on an "N" commitment is not applicable to parole dates or secondary discharge date.

Time spent as a civil addict outpatient shall apply to ISL maximum terms.

CYA time in custody for the same offense is applicable to the parole date or secondary discharge date.

73030.5.10.1 Application of Pre-prison Credit To Specific BPT Actions

A BPT action granting parole effective on a specific date is not affected by pre-prison credits.

A BPT action, fixing/re-fixing a term to discharge as of a specific date is not affected by pre-prison credits.

A discharge date fixed/re-fixed by a BPT action cannot fall beyond the expiration of the statutory maximum of the term less pre-prison credits, or occur prior to the statutory minimum term less pre-prison credits.

73030.6 Good time Credit Earning Capability

Good time credit earning capability after reception into departmental custody is the calculated number of days that can be deducted from a sentence for good behavior and for participation in a work/training program.

73030.6.1 Good time Credit DSL Term (PC 2931)

The determinate sentence law provides for a one-third reduction of sentence for inmates who function satisfactorily while incarcerated subject to the provisions of PC 2931.

This one-third reduction is divided into behavior credits (BC) and participation credits (PC), collectively called good time/work time credits.

Any case factors that cause the term of the inmate to be modified shall necessitate the recalculation of good time/work time credit.

73030.6.2 DSL Good Time Credit and ISL Recalculations

The provisions of PC 2931 apply to any term that was sentenced pursuant to PC 1170 for offenses committed between 7-1-77 and 12-31-82 or for all offenses if committed prior to 7-1-77 and recalculated pursuant to PC 1170.2.

73030.6.3 DSL Work time Credits (PC 2933)

Revised December 24, 1992

Inmates serving a sentence(s) for an offense committed on or after January 1, 1983, or on offenses committed prior to January 1, 1983 in which the inmate has exercised a waiver pursuant to PC 2934 shall serve the entire or remaining portion of the sentence imposed by the court, except for a reduction in time served for performance of work, training, and/or education programs.

Earned work time for inmates in fulltime credit-qualifying programs is a reduction in sentence of one day for each day worked/participated in an education or training program. A minimum of six hours must be recorded each assigned workday to earn fulltime credit.

- Worktime credit earned pursuant to PC 2933 shall not apply to life terms with the following exceptions:
 - Sentences for attempted assassinations as specified in PC 217.1(b).
 - Habitual offenders sentenced pursuant to PC 667.7(a)(1) and PC 667.75.
- Worktime credit earned pursuant to PC 2933 shall not apply to terms where the court has found that the provisions of PC 2933.5 apply.

The policy and procedures relating to the IW/TIP are contained in the CCR 3043, 3044, and 3045.

73030.6.4 Waiver of Good time Credits (PC 2934)

Those inmates whose commitment offenses occurred after 7-1-77 and prior to 1-1-83 and those whose terms were recalculated pursuant to PC 1170.2, and are in full-time credit-qualifying work/training assignments, have the option to waive rights to good time credits under PC 2931 and to earn work time credits pursuant to PC 2933. (Inmates in less than full-time assignments will not benefit from waiving such rights.) See DOM 73030.8.11.

73030.6.5 Good Time/Work Time Credit Terminology

The recording and computing of good time/work time credits that are earned, forfeited, and restored are essential elements in the keeping of accurate inmate term information.

Credits earned are the recorded number of days that have been reported indicating the inmate's daily participation in assigned work, training, and/or education programs.

Credit forfeited is the number of good time/work time days that are assessed for a disciplinary infraction(s).

Any person serving a SHU term as a result of any serious disciplinary infraction shall, in addition to any forfeiture of time credits, be ineligible to receive work time credits for the length of the credit loss or the SHU term, whichever is shorter.

Credit liens are those credits assessed by the disciplinary hearing officer/committee and confirmed by proper classification committee action that are in excess of credits already earned and will be recorded as a lien against credits to be earned.

Credits restored are those forfeited good time/work time credits that are:

- Restored through the review or appeal process.

- Reinstated by a classification committee to the inmate following a clean disciplinary period pursuant to PC 2933 and DOM 52080.

73030.6.6 Automated Time Collection and Time Adjustment System

Revised March 16, 1995

The IW/TIP Time Collection and Time Adjustment Systems for DSL inmates are automated and are part of OBIS.

Time collection for credit-earning lifer cases may be maintained in the computer; however, time adjustments for determining the MEPD shall be calculated manually.

The time collection and time adjustment systems permit direct input of IW/TIP work time, credit losses and restorations, and the scanning of the CDC Form 191, Inmate Timecard, using the DDPS.

The systems will not interface with the DSL commitment and Good time Credit (GTC) systems until commitment data have been modified and GTC has been vested.

Classification chrono information relating to IW/TIP and inmate timecard data shall be entered or scanned into the system upon receipt in the case records office.

All timecards shall be filed on top of the general chronos. This shall eliminate the possibility of losing timecards prior to purge. See DOM 73030.10.2 and 73030.16.9 for purge requirements.

73030.7 Commitment Data and Sentencing Rules

Commitment data and the rules for sentencing as prescribed by statute are outlined in this section.

73030.7.1 Commitment Data and OBIS Entry

All commitment data will be entered into OBIS as instructed in DOM 41020.

73030.7.2 Commitment Documents

When a judgment has been pronounced, the sentencing court directs forwarding of certified copies of the commitment documents (PC 1216):

- Abstract of Judgment and/or Minute Order pursuant to PC 1213 and 1213.5.
- Charging document/Information pursuant to PC 1203.01.
- Transcript of proceeding at time of plea, if the defendant pleaded guilty pursuant to PC 1203.01.
- Transcript of proceedings at time of sentencing pursuant to PC 1203.01.

73030.7.3 Principal Term

The principal term consists of the greatest term of imprisonment imposed by the court for any of the crimes, including any enhancements imposed pursuant to PC 667.8, 667.85, 12022, 12022.2, 12022.3, 12022.4, 12022.5, 12022.6, 12022.7, 12022.75, 12022.8, or 12022.9; and, H&SC 11370.4 or 11379.8. (Refer to PC 1170.1(a) for any additional enhancements.)

73030.7.4 Wholly Consecutive Terms

A full consecutive (CS) sentence is an enhancement (Cal Rules of Court, Rule 405(c)). Wholly consecutive terms include in-prison offenses pursuant to PC 1170.1(c), certain sex offenses as specified in PC 667.6(c), multiple felony convictions as specified in PC 1170.15, and any other offense fully CS by statute.

73030.7.5 Consecutive Subordinate Terms

The subordinate term for each consecutive offense shall consist of one-third of the middle term of imprisonment prescribed for which a CS term of imprisonment is imposed, except those subordinate terms for specific offenses as specified in PC.

Subordinate terms for "Violent Felonies" defined in subsection(c) of PC 667.5 shall include one-third of any enhancement imposed pursuant to those sections set forth in PC 1170.1(a).

Subordinate terms for any offense not listed in subsection (c) of PC 667.5 shall exclude any enhancements. (PC 1170.1(a)).

The total term for subordinate non-violent felonies shall not exceed five years, except when a CS sentence is being imposed pursuant to PC 1170.1(b) and (c)). PC 1170.95 and other code sections providing exception.

The term of imprisonment shall not exceed twice the number of years imposed as the base term pursuant to PC 1170(b) unless the person has been convicted of a felony listed in PC 667.5(c) or enhancements are imposed pursuant to PC 1170.1 (b), (c), and (g) or H&SC 11370.4.

73030.7.6 Concurrent Terms

Concurrent (CC) terms are terms for multiple cases or counts that are served simultaneously or terms which can be served at the same time.

When an additional commitment is received by mail or after an inmate is returned from court with additional commitment where the trial and conviction occurred prior to imprisonment, or the commitment is a concurrent probation revoked case, the additional commitment shall be considered as wholly concurrent.

Term starts as of the date the inmate initially was received on the original term.

73030.7.7 Partially Concurrent Terms

When an inmate is removed from prison for trial on an additional charge which was committed before his original receipt by the Department, and he/she is returned to prison with an additional commitment in which it is specified that the additional commitment is CC with the preceding commitment(s), the additional commitment shall be considered a partially CC term.

Time on the new term starts as of the date of return with the new CC term.

73030.7.8 Computation of CC Terms

CC terms require a separate computation for each term or count.

The term which retains the person in custody the longest shall be the controlling term.

73030.7.9 DSL Enhancements

In addition to the penalty imposed for crimes on a sentence, terms may be enhanced for:

- Possession and/or use of weapons as specified in PC 12022, 12022.2, 12022.3, 12022.4, and 12022.5.
- A felony committed while released on bail pursuant to PC 12022.1.
- Felony taking, damaging, or destroying of property as specified in PC 12022.6.
- Infliction of great bodily injury (GBI) pursuant to PC 12022.7, 12022.8, and 12022.9.
- Felony offenses involving controlled substances as specified in H&SC §§ 11356.5, 11370.2, 11370.4, 11379.8, and PC § 12022.75.

73030.7.10 Enhancements—Prior Prison Terms

Pursuant to PC 667.5 (g), a prior prison term (PPT) is a prior felony conviction which resulted in a continuous completed period of prison incarceration imposed for a particular offense alone, or in combination with CC or CS sentences received before release on parole or discharge, whichever occurs first.

- If the person was returned to prison on revocation of parole, which is not accompanied by a new commitment to prison, the period shall count as a single PPT.
- If any inprison offense is required by law to be served after completion of an earlier prison commitment, the original commitment and the inprison commitment count as separate PPT's.
- If the inmate was returned to prison from parole with a new term, the new term shall count as a second PPT.
- A commitment to DMH as a mentally disordered sex offender (MDSO) following a felony conviction is a PPT if the commitment exceeds one year. If the inmate subsequently is committed to prison for the same offense after termination of the MDSO commitment the time in DMH and CDC shall count as a single PPT.
- When an inmate subject to the custody, control, and discipline of the Director is incarcerated at a facility operated by the CYA, that incarceration shall count as a prior prison term.

Time spent in any state or federal penal institution, including any time which is credited as service of prison time in that jurisdiction may count as a prior prison term. If served other than in California, the inmate must have actually served at least one year, and it must have been for a crime that is punishable by imprisonment in state prison in California.

A violent PPT with a violent commitment offense shall be enhanced by three years for each pled and proved PPT, unless the inmate remained free of both prison custody and the commission of an offense which results in a felony conviction for a period of 10 years immediately preceding the commission of the current commitment offense. (Violent felonies are defined in PC 667.5(c).)

73030.7.11 Enhancement—Prior Felony Convictions (Habitual Criminal)

Pursuant to PC 667(a), any person convicted of a serious felony who has previously been convicted of a serious felony (as listed in PC 1192.7(c)) in this state, or of any offense committed in another jurisdiction which includes

all the elements of any serious felony shall receive a five year enhancement for each such prior conviction on charges brought and tried separately.

There is no requirement of prior incarceration or commitment for a prior felony conviction (PFC).

PC 1385(b) prohibits a judge from striking any prior conviction of a serious felony for purposes of enhancement of a sentence under PC 667 for any sentence for crimes committed on or after May 6, 1986. This was added to the PC in 1986 which abrogates the holding in People v. Fritz.

There is no limit on the number of PFCs imposed under PC 667(a).

73030.7.12 DSL Total Term

The total term shall be the aggregate term of imprisonment for all of the convictions and shall be the sum of the principal term, the subordinate term(s) and any additional term imposed for enhancements and/or prior prison terms.

73030.8 DSL Term Calculation

The procedures set forth in this section shall apply to DSL terms and cases recalculated pursuant to PC 1170.2(a)(b).

73030.8.1 Starting of Term

The term of imprisonment fixed by a judgment commences upon actual delivery of the inmate into the custody of the Director at a place designated for reception of convicted felons (PC 2900).

- The Director shall designate a facility of another jurisdiction as the place of reception:
 - When pursuant to the Interstate Agreement on Detainers, an inmate of another jurisdiction has been sentenced to a CC California term.
 - When a person committed to a facility of another jurisdiction is subsequently ordered to serve a CC California term.

The date of reception is included in its entirety regardless of the time of reception.

An inmate must serve the full 24-hour period to receive credit for any succeeding day.

73030.8.2 Received Date

The received date is the date of initial receipt into a facility of the Department, usually a reception center or a facility of another jurisdiction as designated by the Director.

The received date into a facility may be verified by checking the following documents:

- CDC Form 123, Body Receipt.
- Date and time stamped on the Abstract of Judgment or Minute Order.

73030.8.3 Time Served

Time served is the total time in years, months, and days from the date of receipt in the Department to a given date.

73030.8.4 Ceasing of Time

Time ceases to run as of the date of escape or parole suspension.

The date of the event is excluded in its entirety.

Time ceases to run when a person is released on bail or appeal bond pursuant to PC 1272 or 1506 or any other provision of law permitting legal release and shall not be credited as service on the prison term. [PC 2900 (c)(1).]

73030.8.5 Dead Time/at-Large Time

Revised December 24, 1992

Time which is not credited as time served.

Dead time or at-large time is accrued while on escape status [PC 2900(c)(2)], while parole/release has been suspended, or while released on bail or appeal bond and shall be computed in total number of days.

The number of days of dead time shall be posted on the CDC Form 112 and entered into OBIS.

Dead time or at-large time ceases upon:

- Return to a departmental facility.
- Date of arrest in California of an escapee.
- Date available for return from out-of-state.
- Date of arrest in state of parole jurisdiction.
- Date bail is exonerated and inmate is remanded to custody.

73030.8.6 Escape or Parole Violators

PC 2900(c)(2) states: "...the prisoner shall be deemed an escapee and fugitive from justice, until the prisoner is available to return to the custody of the Director or the State of California . . ."

An escapee or parole violator is entitled to credit on their sentence for time in custody of another jurisdiction when they are held on "our Hold only" and are available for pickup by the Department's agents.

An escapee or parole violator held in custody in another state on "our Hold only," but who is not available because they are resisting extradition, is not entitled to credit (on the California term) served in jail while resisting extradition (In re Pearce, 1974 40 Cal App 3d 399).

A parole violator in local confinement is deemed available on the date our hold was placed or, if previously declared at-large and suspended from parole supervision, on the date of arrest.

An escapee or parole violator in local confinement (California jail or DMH) is deemed available to the Department except when they are serving a sentence in lieu of a fine or a sentence expressly ordered to run consecutively to the existing prior prison term.

73030.8.7 Maximum Release Date

The maximum release date is calculated by adding the term ordered by the court to the term starts date and subtracting applicable pre-prison credits.

73030.8.8 Minimum Release Dates

ISL (crime committed prior to 7-1-77):

- The minimum term is established by statute.
- The MEPD is determined by adding the statutory minimum term of confinement or the result of computation of aggregate minimum terms to the received date and subtracting any applicable preprison credits.

DSL (PC 2931, crime committed on or after 7-1-77):

The minimum DSL (MIN DSL) release date is calculated by subtracting all applicable days of good time credit from the maximum release date.

- This date shall be adjusted by any credits forfeited and/or restored in the disciplinary process.

DSL IW/TIP (PC 2933, crime committed on or after 1-1-83):

The EPRD is determined in these steps:

- Subtract all earned worktime credit, adjusted by any loss/restoration, from the maximum release date, the result of which is the current release date.
- Subtract from the current release date the date through which credit was applied.
- Divide the remaining number of days eligible for credit based on credit earning status.
- Subtract the resulting number of days from the current release date. That date is the EPRD.

An EPRD is a projected date contingent upon the inmate remaining in the same credit earning work group, having no unexcused absences, and no forfeited or restored credit.

73030.8.9 Calculation of Good time Credit (PC 2931)

To determine the total amount of good time credit to be applied to reduce a term pursuant to PC 2931:

- Add the term to the term start date for that particular case and subtract applicable presentence and postsentence credit. The resulting date is the maximum release date.
- Determine the number of days eligible for goodtime credit by subtracting the term start date from the maximum release date and adding postsentence credit.
- Divide the number of days by three. The resulting number is the total number of days of goodtime credit to be granted.
 - Fractions shall be increased to the next whole number.
- Subtract the total goodtime from the maximum release date. The resulting date is the MIN DSL release date.

73030.8.10 Good Behavior and Participation Credit

The total good time credit shall be further divided into behavior credit and participation credit.

- The amount of participation credit is determined by dividing the total amount of goodtime credit by four.
- The remaining number of days of credit is behavior credit.
- When calculating participation and behavior credits, fractions shall be changed to the closest whole number except when the fraction is one-half. A fraction of one-half shall increase behavior credits to the next whole number.

73030.8.11 Waiver Processing

Inmates electing to waive PC 2931 credits shall be required to sign a CDC Form 916, irrevocable Time Credit Waiver Form, to be witnessed by their counselor. The effective date shall be documented on the CDC Form 916.

The waiver shall become effective when accepted by the Department.

A waiver shall not be accepted if the inmate is within 30 days of their current release date.

The counselor witnessing the waiver shall verify the inmate's work status and current release date and shall fill in the date the waiver shall become effective. The counselor shall immediately forward the completed and signed waiver to the CCRM for processing.

Inmates who were assigned to less than a full-day assignment on January 1, 1983, and are subsequently reassigned to a full-day assignment shall be given the same option at the time of their reassignment.

73030.8.12 Vested Credit

Following acceptance of a waiver, the specialist shall compute the amount of good time credit already earned on the controlling term pursuant to PC 2931 from the date of reception into the Department on or after 7-1-77, to the effective date of waiver.

The credit earned, minus any credit previously forfeited and/or restored by classification action on disciplinaries received prior to the effective date of waiver, shall be vested and not subject to future loss.

Vested credit on cases sentenced pursuant to PC 2933 (crime committed on or after 1-1-83) is good time on post-sentence credit.

The application of vested credit will generate a new Legal Status Summary, a copy of which will be sent to the inmate.

73030.8.13 Calculation of Work time Credit (PC 2933)

The following steps shall be taken to determine the release date on a term eligible for work time credit:

- Add the controlling term to the term start date on the controlling case and subtract applicable preprison credit. The resulting date is the maximum release date.
- The maximum release and current release dates are the same until vested credit and/or worktime credits are applied to the term.
- The adjusted maximum release date is arrived at by subtracting vested credit from the original maximum release date.
- The current release date is changed as earned worktime credits are applied and/or credits are forfeited or restored.
- The EPRD is projected each time earned worktime credits or forfeited or restored credits are applied to the current release date or there is a change in credit earning status. The application of worktime credits, adjusted by any credits forfeited or restored, through any working month or portion thereof, results in a new current release date. Subtracting the date through which credit was applied from the new current release date determines the remaining number of days eligible for goodtime then divisible based on the inmate's credit earning status. The resulting number of days subtracted from the new current release date is the EPRD.

73030.9 Work Credit Gains

Work time credits shall be applied/gained at least once every six months.

The work credit gain will appear on subsequent work credit query computer screens.

73030.10 Legal Status Summary

This will generate a Legal Status Summary, a copy of which shall be given to the inmate. Staff other than case records staff shall have the inmate acknowledge receipt of the revised Legal Status Summary by signing a CDC 128-B.

73030.10.1 Legal Status Summary Appeal

The contents of the Legal Status Summary may be appealed by the inmate through the Department's appeal process and within the established time frames.

73030.10.2 Purging of Time Cards

If no appeal is taken by the inmate the action shall become final and all timecards for the time worked prior to the credit gain shall be purged from the C-File.

73030.11 OBIS Entry of 1983/Pre 1983 Mixed Cases

A computer program enables identification of 1983/pre-1983 mixed cases and permits case records staff to set a "flag" to alert counseling staff that an IW/TIP Waiver is needed on the pre-1983 case(s).

A line, "Eligible for PC 2934 Waiver," has been added to the auto or manual vesting computer screen.

When entering 1983/pre 1983 mixed cases at the time of initial processing, the operator shall enter "Y".

This entry will set the flag, and a computer-generated notation "Eligible for PC 2934 Waiver" shall be printed on the Legal Status Summary page.

In those cases in which a waiver has been processed, the operator shall remove the flag deleting the notation from the Legal Status Summary page.

73030.12 OBIS Entry- Credit Loss

As CDC Form 115 credit losses are received, case records staff shall make a Work Credit Loss entry directly into the system.

The system will edit the entry to ensure that the log number has not been previously entered and the violation category and days lost are appropriate for the category and vice versa.

Should errors occur during the editing process, the error will be identified on the terminal screen.

The operator shall ensure any error is not an entry error.

If the error is not an entry error, the matter shall be referred to the chief disciplinary hearing officer for correction.

If no errors are found, the entry will be processed by the system resulting in a new Legal Status Summary being generated.

The credit loss will appear on subsequent work credit queries.

73030.13 OBIS Entry- Credit Restoration

Modifications or reversals of a credit loss action by a classification committee or through an appeal review shall be reported immediately to the records staff. This shall be done in writing to alert staff of a pending modification of the inmate's release date.

When a credit restoration chrono is received, case records staff shall make a Work Credit Restoration entry directly into the system.

When entered, the transaction shall be edited to ensure that the loss entry for which the time is being restored is in the system and the time restored does not exceed the original time loss.

Should errors occur during the editing process, the entry will not be accepted by the system and referral to the case records specialist for resolution and subsequent reentry is required.

If no errors are found, the entry will be processed by the system, resulting in a new Legal Status Summary being generated.

Credit restorations will appear on subsequent work credit queries.

73030.14 OBIS Entry- Meritorious Credit

When a Meritorious Credit Grant (MCG) chrono is received, the operator shall make an MCG entry directly into the system.

Meritorious credit shall not be granted in an amount which, when applied, will make the inmate overdue for release.

This entry will be processed by the system and a revised Legal Status Summary generated.

Meritorious credit grants shall be reflected on the CDC Form 188, Legal Status Summary.

73030.15 Retention in Custody Past Scheduled Release Date

Revised December 24, 1992

CCR 3323 provides that in some instances a person may be retained in custody beyond their scheduled release date because of a serious disciplinary infraction for which credit may be lost though the CDC Form 115 may ultimately be dismissed or reduced to an administrative infraction.

It is necessary that the C-File reflect the reason the person was retained in custody.

The following procedures are authorized by CCR 3323 and should be used to properly record this information:

- On the scheduled release date, prepare a CDC Form 128-B chrono indicating "Subject being retained in custody pending disposition of CDC Form 115 Log # _____ for which _____ days may be lost."
- Post entry on CDC Form 112, "Retained in custody pending disposition of CDC Form 115 Log # _____."
- If the CDC Form 115 is dismissed, prepare another CDC Form 128-B indicating "CDC Form 115 of (date) dismissed. Subject released on parole."
- Post entry on CDC Form 112, "Disciplinary dismissed. Released on parole. Parole period starts (indicate scheduled release date)."

- Any days attributed to time held past release date on a pending CDC Form 115 subsequently dismissed shall be deducted from the maximum parole period.

73030.15.1 Dismissed Disciplinary Reports

CCR 3326 provides that all references to dismissed CDC Form 115s must be removed from the records.

73030.16 Parole Violator Returned To Custody (PVRTC)

A parolee may be returned to custody in the following circumstances:

- After revocation of parole by the BPT for violating a condition(s) of parole pursuant to PC 3056 (PVRTC).
- Upon conviction for a new term of imprisonment (also known as PVWNT).

73030.16.1 PVRTC Work time Credits

Except for parolees specifically excluded in DOM 73030.16.3, any period of revocation time imposed by the BPT may be reduced by work time credits earned in accordance with the CCR 3044(b).

Work time credits for PVRTCs shall only be earned for time served on or after 9-30-1987.

73030.16.2 Work time Credits For PVRTC County Jail/Community Correctional Centers

PVRTCs detained and/or serving parole revocation time in a county jail or community correctional center are eligible to earn work time credits pursuant to PC 2933 provided they qualify under criteria set forth in PC 3057(d)(1).

73030.16.3 PVRTC Work time Credit Exclusion Criteria

Parolees serving a period of revocation time are not eligible to earn work time credits if:

- Sentenced under PC 1168 with a maximum term of life.
- Found unsuitable by the BPT to earn worktime credits.
- The condition of parole violation related to association with specified persons, entering prohibited areas, failure to attend POC, or failure to obtain psychiatric attention.
- Found guilty and revoked on parole violation charge(s) for conduct described in, or that could be prosecuted under, one or more of the offenses, attempted offenses, or enhancements listed in PC 3057(d)(2)(C).
- The current prison commitment, for which the parolee was serving a period of parole, was for one or more of the offenses, attempted offenses, or enhancements listed in PC 3057(d)(2)(C).

73030.16.4 PVRTC Credit Forfeited

Work time credit earned by PVRTCs may be forfeited for disciplinary infractions as provided for in the CCR 323 [PC 3057(d)(1)].

A PVRTC who commits a disciplinary infraction for which credits may be forfeited is subject to a parole revocation extension hearing. At that hearing, the BPT will determine whether to suspend eligibility for work time credits for the number of days forfeited for the infraction, in addition to any extended period of revocation.

73030.16.5 PVRTC Credit Restoration

Work time credit forfeited by PVRTCs for disciplinary infractions shall not be restored (PC 3057(d)(1)).

73030.16.6 PVRTC Meritorious Credit

PVRTCs are not eligible to be granted meritorious credit.

73030.16.7 Computation of PVRTC Release Date

Revised December 24, 1992

Time on a revocation period starts on the date a parole violator is available for return to the custody of the Department. See DOM 73030.8.6 for availability criteria.

Computation of parole revocation release dates will be done manually.

Revocation release date (RRD)—ineligible for PC 2933 credit.

Add the assessed revocation period to the date of arrest/hold placed/ available for return to custody of the Department.

- Pursuant to BPT Rule 2635.1, the revocation period for a parolee whose original crime was committed on or before 12-31-78 may not exceed six months. The revocation period for a parolee whose original crime was committed on or after 1-1-79 may not exceed one year.

Projected revocation release date (PRRD)—eligible for PC 2933 credit.

The maximum revocation release date (MRRD) is determined by adding the assessed revocation time to the date of arrest/hold placed available to the

Department. The MRRD is adjusted by credits forfeited and number of days during which eligibility was suspended.

The application of work time credits to the adjusted maximum, through any working month or portion thereof, results in the number of days left to serve, then divisible based on the inmate's credit earning status. The resulting number of days is then subtracted from the date of application. That date is the PRRD.

A projected revocation release date (PRRD) is calculated each time earned work time credit and/or forfeited credit is applied or when there is a change in legal status or credit earning status.

73030.16.8 Parole Violators With New Terms

Separate computations of release dates for parole violators with new terms shall be completed on both the old and new term to determine the controlling release date.

If, after calculation of both cases, the release date on the new term controls, the previous case shall be discharged pursuant to BPT 2649.

If the release date (RRD, PRRD) on the original term controls, the case will be referred to the BPT for determination of the controlling release date.

- Prior terms of nonrevoked violators returning with new terms will be discharged without a revocation hearing if the new commitment resulted from behavior which occurred prior to the parole date on the prior term.

If the BPT decision is to retain the inmate on the original case, separate release dates will be maintained on both terms, and the inmate will be released on the case that retains them in custody for the longest period of time.

People v. Mitchell (244 Cal Rpt 803 1988).

The ruling in this case allows for consecutive sentencing of a new term to parole revocation time. If the court orders a new term to run CS to parole revocation, the term start date on the new commitment will be the RRD/PRRD and the original case will not be discharged.

73030.16.9 OBIS Processing Parole Violators Work time

Parole violators, returned to custody or returned with new terms, and/or inmates receiving additional controlling CC terms who have previous work incentive credit on the earlier term(s) cannot be accurately processed by the DSL/GTC computer system since the previous work history/credit is incorrectly brought forward to the new term. Therefore, additional processing is required:

A parole violator returned to custody to serve a revocation period and eligible for credit pursuant to PC 2933 is processed by entering work time credit on the revocation period, sequential to the existing credit history, beginning on the date of arrest/hold placed/available to CDC, whichever is appropriate.

A parole violator returned to custody with a new controlling term, whose previous term is discharging (BPT 2649), is processed by obtaining a hard copy printout from OBIS of all previous work time credit history using the Timecard Query Screen and Work Credit Query Screen. The hard copy is filed in the C-File under the general chronos.

- Telephone LPU at (916) 323-7373 or ATSS 473-7373 to request a deletion of previous worktime and credit history. Upon deletion, all entries will be eliminated from the computer.

A parole violator with a new non-controlling term, i.e., whose revocation period exceeds that of the new term, will be processed by obtaining a hard copy and deleting the previous credit history. Credit on the new term is then entered in the normal manner, but only to the date calculated as the EPRD.

Timecards on revoked cases will be destroyed only after a hard copy of the previous history is obtained and previous credit history is deleted.

73030.16.10 PVRTC Controlling Discharge Date

Revised December 24, 1992

Unless the BPT waives the parole period, inmates shall serve a period of parole as specified in PC 3000(a) or (b).

Pursuant to PC 3000(a), an inmate subject to three or five year parole periods may not be retained under parole supervision for longer than four or seven years, respectively, except for periods of suspension.

The maximum statutory period of parole shall be computed from the date of initial parole, or July 1, 1977, whichever is later, and shall be a period chronologically determined.

Time during which parole is suspended because the parolee has absconded or has been returned to custody as a parole violator will not be credited toward the period of parole unless he/she is found not guilty of the parole violation.

A period of return to custody for psychiatric treatment will not be added to the parole period unless so ordered by the BPT.

Calculate the projected controlling discharge date (PCDD) of a PVRTC eligible for PC 2933 credit by adding the applicable parole period, the actual time projected to be served on the revocation period, and any suspension to the parole period.

Calculate the controlling discharge date (CDD) of a PVRTC not eligible for PC 2933 credit by adding the applicable parole period, the actual time served on the revocation period, and any suspension to the parole board.

- In the event the maximum discharge date precedes the revocation release date, the inmate will be discharged from departmental custody on the maximum date.

73030.16.11 Waiver of Parole

Revised March 16, 1995

Pursuant to PC 3000, the parole authority may waive the parole period of inmates sentenced under PC 1168, 1170, or at the expiration of a term reduced under PC 2931 and/or 2933.

The C&PR shall submit any case, using the following criteria, staff deem acceptable for waiver of parole to the parole authority for consideration of waiver of parole.

Cases may be referred to the parole authority for consideration of waiver of parole unless the term consists of three or more offenses, or where the commitment offense(s) was committed while subject to youth or adult parole supervision, or if the commitment offense(s) included any of the following PC: 187, 192, 203, 207, 209, 212.5(a), 214, 217, 217.1, 220, 236, 243, 245, 245.3, 261(2)(3)(4), 264, 264.1, 286(c), 286(d), 288, 288A(c), 288A(d), 288.5, 289, 452(a), 459/461.1, 4500, 4501, 4501.5, 4503, 4574(a), 12020, 12021, 12022, 12022.5, 12022.7, 12022.9, 12560, 23101, and 23153.

73030.16.12 Discharge Review

Revised March 16, 1995

Pursuant to PC 3001, the parole of any person who was not imprisoned for committing a violent felony as defined in PC667.5(c) and has been on parole continuously for one year since release from confinement, shall be discharged unless the Department determines that the person shall continue on parole. At the final pre-parole audit prior to either original release on parole or release after service of a revocation period, a discharge review date will be set at one year after the actual release date unless the maximum discharge date precedes the review date, in which case no date for further review will be set.

The discharge review date shall be posted to the CDC Form 112.

73030.17 ISL Terms

Terms for offenses committed prior to 7-1-77 under the Indeterminate Sentence Law pursuant to PC 1168(b), where release was determined by the paroling authority are called ISL cases.

73030.17.1 Recalculation of ISL Terms

The majority of terms under the ISL require recalculation based on the Determinate Sentence Law (DSL) pursuant to PC 1170.2.

The DSL provides several indeterminate sentences for specific crimes. Those crimes that remain indeterminate do not require recalculation.

- Any case for which the statutory penalty is one-year-and-one-day, except as specified determinate in PC, is an indeterminate sentence under this section. See DOM 73010.6.16 on DSL indeterminate terms.

73030.17.2 ISL Primary Term Fix

In re Rodriguez (14 Cal 3d 639 1975) held that the paroling authority must determine the time of incarceration based on the severity of the crime(s).

73030.17.3 Extended Term Considerations

PC 1170.2(b) gives the BPT authority to hold hearings for the purpose of possibly extending an inmate's normally recalculated DSL term. These are called Extended Term Hearings (ETH).

73030.17.3.1 First Screening

The CCRM (CCRM) is responsible for the first screening of an inmate's case dynamics to determine if an ETH may be necessary. The CCRM shall be guided by the law in determining if the inmate fits the criteria for an ETH.

A CDC Form 678 shall be completed in all applicable cases even for those not meeting the criteria for an ETH. The CDC Form 678 shall accompany the C-File through the screening process.

73030.17.3.2 Criteria For Extended Term Hearings

The CCRM shall indicate an ETH is required if the inmate was convicted of any of the following crimes, or in the following circumstances, whether the count was stayed or resulted in a commitment to State prison:

- PC 187, Second degree murder.
- PC 192, Voluntary manslaughter.
- PC 203, Mayhem.
- PC 211/213, First degree robbery or robbery with great bodily injury.
- PC 217, Assault with intent to commit murder.
- PC 243, Battery with serious bodily injury.
- PC 245, Assault with a deadly weapon.
- PC 261(2), 261(3), and 261(4), Forcible rape.
- PC 261/264, Rape with great bodily injury.
- PC 286(c), Sodomy on child or by force.
- PC 286(d), Aid sodomy with force.
- PC 288, Lewd acts on a child under 14.
- PC 288a(C), Oral copulation with force.
- PC 288a(D), Aid oral copulation with force.
- PC 459/461, First degree burglary or burglary with great bodily injury.
- PC 4501, Assault by a prisoner.
- PC 4501.5, Battery on a prisoner.
- CS sentences. Any case in which a CS sentence has been imposed.
- Multiple convictions. Any case in which the person has suffered three or more felony convictions either in a single or separate proceeding for the crimes of robbery, first degree burglary, burglary with explosives, arson, assault with intent to commit murder, extortion, kidnapping, or escape from a state prison with force or violence; or, any case in which the person has suffered five or more felony convictions either in a single or separate proceeding.
- PPTs. Any prisoner with two or more PPTs.
- Arming, use of weapon, GBI. Any case in which the factual circumstances of any current crime indicate that the prisoner was armed with a deadly weapon, used a firearm, or inflicted or attempted to inflict GBI on the victim.
- Early release. Any case in which the ISL parole date is more than one year later than the DSL release date.

73030.17.3.3 Not an ETH Case, PC 1170.2(A)

The CDC Form 144, DSL Control Card, shall be checked in the appropriate space to indicate it is not an ETH case and it will be filed with other CDC Form 144 cards in the normal manner, with earliest release dates first.

73030.17.3.4 Initially An ETH Case

If the CCRM, during the first screening, determines that the inmate meets ETH criteria, the CDC Form 144 card shall be marked to reflect it as a PC 1170.2(b) case. The DSL Control Card shall be filed with other ETH DSL Control Cards.

73030.17.3.5 Subsequent Screening

The BPT may do second and third ETH screenings. Frequently, the third BPT screening will take place without second screening. The BPT can designate a case a PC 1170.2(a) case at any point during the screening process.

If the BPT determines that an inmate is a PC 1170.2(a) (no ETH necessary), then the CCRM shall update the CDC Form 144 to reflect that change.

The third BPT screening shall be reflected on BPT Form 1091. The original shall remain with the C-file with copies going to BPT Headquarters, Research, and the inmate.

If the case is an overdue PC 1170.2(a) case, or scheduled for release within 60 days according to the DSL calculation, the case shall be referred to P&CSD within five days of discovery. The CDC Form 611 shall be identified as a priority case.

73030.17.3.6 Extended Term Hearing

PC 1170.2(b) and 3041.5 require that the inmate be notified within 90 days of receipt into the Department if he/she is scheduled for an ETH and the hearing must be held within 120 days of receipt. The 120 days is computed from the latest of the date:

- Of reception.
- Of return to prison from court.
- On return to prison from another jurisdiction following service of a commitment to which a California term is ordered to be served consecutively.
- An amended Abstract of Judgment is received by CDC.

The screenings will be expedited and submitted to the BPT within the time frames set forth in this section.

A BPT Form 1080, Notice of Date, Time and Place of Hearing, and BPT Form 1092, Extended Term Hearing Notice, shall be prepared in duplicate and forwarded to the inmate's counselor who shall have the inmate acknowledge receipt of the forms and return the original to the C-File.

73030.17.3.7 PC 3022/3042 Notices

For those inmates who will have an ETH (after final determination is made by the BPT), notices shall be sent to the judge and DA only. The notice shall indicate that a hearing will be held "no earlier than 30 days after the date of this notice." No ETH shall be held until the statutory 30 days have elapsed after mailing of the notice.

73030.18 Computation of ISL Terms

The following procedures and forms shall be used in determining the release date of inmates sentenced under the Indeterminate Sentence Law and recalculated pursuant to PC 1170.2.

73030.18.1 CDC Form 679, ISL Computation Work Sheet For Retroactive Calculations

The CDC Form 679, Computation Worksheet, shall be used to determine the controlling count in retroactive calculations when multiple counts and/or commitments are present.

The form shall be completed in pencil. Doing one count at a time, enter all case and count numbers and the offense title(s) (Robb. 1st, Burg. 2nd, etc.) under the appropriate heading for each offense.

The middle base term for the offense shall be entered on the form. All time entries shall be written out in years-months-days. The PC shall be used to determine the middle base term.

Add any enhancements for being armed, use of a weapon, or great bodily injury (GBI). See DOM 73030.18.2.1 for criteria on enhancements. If there is no enhancement, enter a zero.

Enter the pre-prison credits that are applicable to the individual count. The received date is listed next in year-month-day order.

Some computations are necessary to finish the process. First, add the middle base and the weapon enhancement, if any. From that total, subtract the net credit. To this figure, add the received date.

EXAMPLE:

Middle base, 3 years, recorded as		02-11-30
Weapons enhancement, 1 yr.	+	01-00-00
	=	03-11-30
Net credit to be subtracted	-	00-01-18
	=	03-10-12
Received date	+	77-03-02
	=	81-01-14

The date calculated (in the example, 81-01-14) is entered in the "Date" column. Any prior prison term enhancement(s) is added in the "CS Adj. w/Credits" column. Record that enhancement if appropriate. If the figure represents one-third of the middle base term (plus enhancements under certain circumstances) refer to the enhancements part of this section minus applicable pre-confinement credit for cases ordered to run consecutively with the count being computed. If there is any applicable "dead time," that year-month-day figure is added. Reflect the proper and final date on the "Final Date" line.

EXAMPLE:

Date		81-01-14
Priors (Assuming non-violent)	+	01-00-00
	=	82-01-14
(A) CS adjusted with credit (assuming a three year middle base crime with No preincarceration credits	+	01-00-00
	=	83-01-14
Dead Time	+	00-01-01
Final Date	=	83-02-15

This process shall be done for all counts, computing each case fully. When computation of all the counts is completed, the controlling principal count shall be the one with the latest expiring final date. After determining the controlling principal count, proceed to the CDC Form 678, Confinement Computation.

73030.18.2 Confinement Computation CDC Form 678

The CDC Form 678, after being signed by the BPT, shall be filed in the BPT Section of the C-file.

The top of the form (from the double horizontal lines upward) shall be completed legibly using black ink. The bottom portion of the form "Parole Board and DSL Data Control Information" shall be completed in soft-lead pencil.

The required information shall be the case number, count number, offense, base term, and adjusted base term for the controlling count. The adjusted base term shall be the same as the base term.

73030.18.2.1 Enhancements - Part I - Weapons

Under DSL provisions, an additional enhancement will be added to the base term in certain circumstances.

- If a firearm was present during the commission or attempted commission of a felony, all principals in the crime receive an additional one-year enhancement, unless such arming is an element of the offense of which convicted.
- A principal is defined as any person who assists, aids, or abets before or during the commission of the crime. The person does not have to be personally armed, and the weapon does not have to be separately pled and proved.
- Any person who personally uses a deadly or dangerous weapon (all weapons other than a firearm) in the commission or attempted commission of a felony shall receive an additional one-year enhancement unless use of a deadly or dangerous weapon is an element of the offense of which convicted. The weapon does not need to be separately pled and proved. In this case "use" is defined as showing or displaying the weapon in a threatening or menacing manner.

EXAMPLES:

- A man enters a market with a knife on his belt and states he wants the money or else and motions to the knife. This is a valid use. If the subject made a statement concerning using a deadly or dangerous weapon, but no weapon is observed, the subject's declaration is accepted and the one-year enhancement applied.
- Suspect A and Suspect B enter a store and commit a robbery. Suspect B had an axe and Suspect A was not armed. In this case Suspect B does get a one-year enhancement for personal use of a deadly or dangerous weapon and Suspect A does not because he did not personally use the weapon.
- PC 3024 and 12022. If the inmate had a separate court finding under PC 3024 or 12022, the facts of the offense need to be reviewed.
- If the finding was due to a firearm, a one-year enhancement shall be added to the terms of all principals in the felony.
- If the finding was due to a deadly or dangerous weapon (all weapons except firearms), a one-year enhancement shall be added only if the weapon was personally used.
 - Use is defined as displaying or showing a weapon in a menacing or threatening manner.
 - Principal is defined as any person who assists, aids, or abets before or during the commission of the crime.
- PC 12022.5, Use of Firearm. If a prisoner has a separately pled and proved PC 12022.5, a two-year enhancement shall be added unless use of a firearm is an element of the offense of which convicted. A finding of PC 12022.5, of the commitment offense, makes the crime a violent felony. Violent felonies have different limitations.
- Circle the appropriate PC(s) and record the year-month-day enhancement on the double line provided. Record the enhancement on the corresponding line on the right side of the form.

73030.18.2.2 Enhancements- Part II – Great Bodily Injury

An enhancement of three-years must be added to the middle DSL term for the underlying crime if the injury involved is GBI under PC 12022.7, and the prisoner was convicted of:

- First Degree Robbery by torture under former PC 211(a) and 213.
- Robbery with GBI under former PC 211(a) and 213.
- Rape with GBI under former PC 264.

- Burglary with GBI under former PC 461.

A three-year enhancement must be added to any ISL case of robbery, burglary, or rape with GBI pled and proved.

When GBI is pled and proved and not an element of the offense of which convicted, an additional enhancement can be added if a PC 12022 or 12022.5 was also pled and proved. If both PC 12022.2 and 12022.5 are present in conjunction with GBI only the largest shall be used.

Circle the appropriate Penal Code Section(s) and record the year-month-day enhancement on the double line provided. Also record the enhancement on the corresponding line on the right side of the form.

73030.18.2.3 Enhancements - Part III – Prior Prison Terms - Violent

Record a PPT that is a violent felony PPT.

Refer to DOM 73030.7.10 for PPT information.

An enhancement shall be added for a violent PPT as follows:

- Violent PPT with a violent commitment offense will be enhanced by three years for each pled and proved PPT. Violent felonies/priors are defined in PC 667.5(c).
- Violent PPT with a nonviolent commitment offense will be enhanced by one year for each pled and proved PPT.

On the line under "Date Last Released or Felony Conviction," enter the appropriate notation.

EXAMPLE:

- If a person was released from prison on July 12, 1969, and did not have a subsequent felony conviction, then the date last released, July 12, 1969, would be indicated.
- If that same individual had a felony conviction on October 3, 1972, but did not go to prison, then the proper notation would be October 3, 1972 (the last conviction date).
- If there are more priors than the CDC Form 678 will accommodate, write "See Attachment" and list them on the CDC Form 678-A. If more room is still needed, use additional CDC Form 678-As. There is no limit to violent PPT enhancements.

73030.18.2.4 Consecutive In-Prison Sentences (Net) - Part III B

An offense which is committed while the inmate is housed in state prison, or subject to re-imprisonment for escape, and which is ordered to run CS with the original commitment offense(s), shall be placed in this portion of the CDC Form 678.

- List the case and count number. Consult the Offense Edit Table or the Penal Code for the middle base term. Enter the middle term on this line.
- If there are more CS cases than the CDC form will accommodate, write "See Attachment" and list the cases on the CDC Form 678-A. If more room is still needed, use additional attachments.
- If there are two or more in-prison offenses and they are ordered to run CS to each other, then a principal and subordinate-type computation shall be required.

EXAMPLE:

An inmate is convicted on PC 4502, Possession of a Weapon, and PC 4530(a), Escape with Force, CS with each other and CS with the original term. The escape shall be considered the principal term with a middle base term of 48 months. The possession of the weapon shall be considered the subordinate term with one-third of the middle base term that totals eight months.

In such cases, record the principal or controlling in-prison case first, showing the middle base term, then the subordinate term showing the one-third figure. There is no limitation on the number of in-prison CS cases.

73030.18.2.5 Consecutive Violent Subordinates (Net) -

When the subordinate offenses are violent felonies, the term is one-third the middle base plus one-third of any enhancement for being armed with a deadly weapon, using a firearm, or inflicting GBI. There is no limitation on the number of CS violent subordinates.

If there are more CS cases than the CDC Form 678 will accommodate, write "See Attachment" and list the cases on the CDC Form 678-A.

If the inmate has CS sentences, but has different received dates, both the CS computation and the CC computation are necessary to obtain the proper DSL date.

- The CS sentence shall be computed as outlined in this section.
- CC sentences or single counts shall be computed as outlined in this section.

- The latest expiring release date under the CC calculation is compared to the release date under the CS calculation. The calculation that resulted in the latest release date is the proper one to record on the CDC Form 678, irrespective of the CS order.

73030.18.2.6 Prior Prison Term - Other - Part III D

Record in this section any PPT that is not a violent felony PPT.

Refer to DOM 73030.7.10 for PPT information.

All valid nonviolent PPT's carry an enhancement of one year. There are no limits on the actual number of PPTs that can be pled and proved as PFC, but the total years of enhancement cannot exceed the middle base term of the controlling or principal term.

The CDC Form 678-A is to be used if the CDC Form 678 does not have enough lines to accommodate the enhancements (see this section for information on the CDC Form 678-A).

If the PPT enhancement column exceeds the base, make a single large "X" over the year-month-day column and enter the middle base term of the principal/controlling term year-limitations.

On the line under "Date Last Released or Felony Conviction," put the appropriate notation.

EXAMPLE:

- A person was released from prison on June 12, 1973, and remained free of felony conviction and prison custody until the current difficulty. In this case, June 12, 1973, would be recorded on the line.
- If that same person had a felony conviction on November 3, 1975, but did not go to prison, then the date November 3, 1975, would go on the line.

73030.18.2.7 CS Nonviolent Subordinates (Net) - Part III E

Nonviolent subordinate terms (those counts ordered to run CS with the principal term) are recorded in this area. Assuming that all have the same received date, the enhancement for the subordinate term is one-third of the middle DSL sentence.

- If the CS sentences have different received dates, both CS and CC calculations are necessary to determine the proper method of recording.
- No additional time can be added to nonviolent CS counts for arming. If the principal term is nonviolent with no arming, then the CS nonviolent subordinate terms cannot exceed the base. If the principal term is violent or has arming then the non-violent CS subordinate cannot exceed five years.
- If more space is required to record the subordinate terms than provided for on the CDC Form 678, write "See Attachment" and record the counts on the CDC Form 678-A.

73030.18.2.8 Limitations - Part III F

Exceeds base.

Regardless of the number of pled and proved prior felony convictions and CS nonviolent sentences, the total of Items D and E cannot exceed twice the base term unless the term has an enhancement for: arming; use of weapon; GBI; or if the commitment offense is for a violent felony or the term includes a CS sentence for in-prison crimes.

More than five years.

The total enhancement for non-violent CS sentences cannot exceed five years.

73030.18.2.9 Total Section III

Total all enhancements (taking into consideration limitations) in Section III, Parts A, B, C, D, and E. The total is to be recorded on the space provided. That total figure is also to be recorded on the corresponding line on the right side of the form.

73030.18.2.10 Term Enhancements Computation and Date

Total all terms and enhancements and compute the actual dates.

73030.18.2.11 Total Confinement Time - Line 1

The total year-month-day figure arrived at by adding the adjusted base term with the enhancement totals is recorded on the right side of the form.

73030.18.2.12 Original Received Date - Line 2

Record the appropriate received date in year-month-day order (if consecutive cases are involved, the earliest reception date is used).

73030.18.2.13 Unadjusted Maximum DSL - Line 3

Record the received date plus the total confinement time minus pre-prison credits.

73030.18.2.14 At-Large Time - Line 4

If the inmate has any at-large time, the number of days of at-large time are added to the unadjusted maximum DSL to reflect the adjusted maximum DSL. If no at-large time is involved, place a zero.

73030.18.2.15 Adjusted Maximum DSL Date - Line 5

This date reflects the maximum DSL date with application of at-large time. If there is no at-large time, Lines 3 and 5 will read the same. If there is at-large time, Line 4 added to Line 3 will produce the answer for Line 5.

73030.18.2.16 Good time Credits Available - Line 6

Inmates earn good time credits from July 1, 1977 or from the received date if after July 1, 1977. A one-third reduction of sentence is allowed. To compute this reduction of sentence with a calculator the following formula is used:

- Enter the unadjusted maximum DSL date.
- Subtract the received date, or July 1, 1977, whichever is later.
- Add the number of days granted as post-sentence credit if the post-sentence credit is for time in custody on/after July 1, 1977.
- Divide by 3 = total goodtime/worktime credits available. This calculation may result in a fraction of either one-third or two-thirds. When this happens, the prisoner is given a full day (the fractional number is raised to the next whole number.)
- Enter into memory of the calculator.
- Divide by 4 = days of participation credit (round off to the nearest whole number).
- Multiply PC x 3 = days of goodtime credit (round off to the nearest whole number).
- Record this figure in the "Goodtime Credits Available" space.

73030.18.2.17 Minimum DSL Date - Line 7

Subtracting the good time/work time from the adjusted maximum DSL will provide the minimum DSL date. Occasionally, when computing a case, the inmate will have an overdue maximum DSL date (the DSL date is earlier than the date the computation is done). In these cases, it is not necessary to compute the minimum DSL date.

73030.18.2.18 Minimum Term – ISL Computation

Minimum term is computed as follows:

Single commitment, not aggravated. Same as specified for offenses in the Penal Code and records chart, e.g., five years, three years, six months, etc. (PC 3023). EXCEPTION: If the court specifies a six-month minimum term under PC 1202(b) (prior to 7-1-77), the minimum term will be recorded at "6 months (PC 1202(b))" even for Robb. 1st or CS cts. On a mandatory life, minimum term is life.

Single commitment, Aggravated. Prior Felony (PC 3024). If a PFC is charged and proved, the minimum term is aggravated to two years. EXCEPTION: (PC 667) Petty Theft w/ PFC; (PC 663(3)) Petty Theft with prior Petty Theft; (PC 12025) Carrying Firearm Without License; and (PC 12021) Ex-Felon with a Gun; the minimum term remains six months.

H&SC Priors. If the instant offense is a violation of the H&SC, a prior narcotic conviction (PNC) may be charged and proved. This may be either a felony or misdemeanor conviction.

- Refer to the H&SC section(s) to determine if the PNC aggravates the sentence. If it does, record the prior conviction as a PNC instead of a PFC.

If the instant offense is NSF Checks (PC 476a), record only the prior felony convictions which are charged and proved but do not record a prior misdemeanor (check) conviction, even if it is charged and proved.

Deadly Weapon. If deadly (as distinguished from dangerous) weapon is charged and proved, the minimum term is two years (PC 3024(a)).

Prior and deadly weapon (PC 3024(b)). If both a PFC and a deadly weapon are charged and proved, the minimum term is four years (exceptions noted as applicable). The PFC and/or deadly weapon must be first charged in the accusatory pleading (information, indictment, etc.) and subsequently proved or admitted in court per PC 969, 969c, 1158, and 3024. The minimum term may exceed the maximum sentence by reason of weapons enhancements and priors being charged and proved.

If the Abstract of Judgment is unclear, correspondence shall be directed to the committing court asking for clarification.

Multiple Commitments CS counts (Aggregate Legal Minimums).

- Consecutive sentences are one continuous term.

- The BPT has the authority to refix an earlier consecutive sentence(s) even though the statutory maximum has passed on the earlier sentence(s).
- The first of two consecutive sentences shall not be set to expire prior to the date the person was received for the second sentence.

EXAMPLE:

Inmate received from Los Angeles County for Ct. 1, Forgery W/PFC and Ct. 2, Forgery (Prob. Rev.). Show method used to arrive at minimum term: (Ct. 1: 2 years) + (Ct. 2: 6 months) = 2 1/2 years.

- When all felonies of which the inmate was convicted have minimum terms of ten years or less, and the aggregate of such minimums exceeds ten years, the minimum will be recorded as ten years (PC 3024(d)). The only exception is where a mandatory CS sentence is imposed by statute such as PC 12022.5.

- When one or more of the sentences imposed has a statutory minimum term exceeding ten years, the minimum term will be set at the longest minimum term imposed.

The only exception is where a mandatory CS sentence is imposed, such as PC 12022.5.

- Where an additional consecutive sentence is imposed, such as PC 12022.5, such penalty will be in addition to the minimum term as indicated in subsection above.

CS Terms (Post-Imprisonment Offenses).

EXAMPLE:

Inmate received from Los Angeles County on 10-1-50 for Robb. 1st, 2 cts. CS, and went out-to-court and returned from San Francisco County 12-1-50 for Robb. 1st, 2 cts. CS with present term: Minimum term in this instance is ten years, CS with present term. (Los Angeles County term must expire before San Francisco County term commences because this is a post-imprisonment offense.) In re Cowan (1946, 27 C2d 637, 166 P2d 279). In re Byrnes (1948, 32 C2d 843, P2d 685).

Additional Penalties.

Additional penalties pled and proved under PC 12022 and 12022.5 are CS by statute with the crime of which they are a part. Unless specifically ordered otherwise, the additional penalties are CC with any other offense. It is important that the judgment be followed in recording the terms and computing the minimum term.

73030.18.2.19 Minimum Eligible Parole Date - ISL

Computation.

- Show the minimum eligible parole date (in years and/or months) and the actual date computed with benefit of preimprisonment credits BPT can legally impose by law.
- When a person has been at-large or CDC time stops after commencement of the term but prior to reaching the minimum eligible parole date, the MEPD must be recomputed immediately after his/her return to CDC to include the time lost. The legal status will show a footnote: e.g., "MEPD includes 122 days time lost on escape."
- When differing credits are involved in multiple count (or old multiple case) commitments, it is important that each MEPD be computed, using appropriate credits, and that the controlling (or longest) MEPD be shown. These are: CS counts; two years or 1/3 of aggregate minimum terms, whichever is the greatest (PC 3049).

Exceptions.

- The provisions of PC 3049 do not apply to increase the MEPD in cases where an additional penalty under PC 12022 or 12022.5 established the CS nature of the terms (e.g., Ct. 1, Attempted Robb. 1st W/Use of Firearm, 6 mos. 20 yrs., CS W/5-Life: minimum term 5-1/2 yrs.: MEPD: Ct. 1: 1 yr. 10 months).
- Minimum term in excess of 1 year: 1/3 of minimum term (PC 3049).

EXAMPLE: (Assume arrival date 1-1-90)

<u>Min Term</u>	<u>MEPD</u>	
6 Months	6 mos.	7-01-90
6 months and 6 month CS or 1 year	2 yrs.	1-1-92
1 year	1 yr.	1-1-91
2 yrs. (if CS are not involved)	8 mos.	9-1-90
5 yrs.	1 yr. 8 mos.	9-1-91
5 yrs and 5 yrs. CS	3 yrs. 4 mos.	5-1-93
Life w/ possibility of parole	7 Cal. Yrs.	1-1-97
Habitual Criminal (PC 644a)	9 yrs.	1-1-99
Habitual Criminal (PC 644b)	12 yrs.	1-1-2002

H&SC violations. Following changes to the Code in 1961, most violations carried a specified minimum period of confinement prior to release on parole and the provisions of the Penal Code were not applicable to reduce that time (except PC 1202B).

- Since 1974, a series of court rulings resulted in modifications to those minimum parole dates and were fully retroactive.
- H&SC statutes effective 1-1-76 eliminated mandatory minimum periods of parole for persons sentenced on or after 1-1-76 under H&SC 11350, 11351 and 11352, thus making provisions of the Penal Code regarding minimum terms and MEPDs applicable to those sections only.

73030.18.2.20 Parole Board and DSL Date Control Information

The lower portion of the form "Parole Board and DSL Date Control Information" shall be filled in. This part of the CDC Form 678 is to be done in pencil only. The information on the left side, current calendar, parole date, etc., refers to ISL data. Enter the minimum term, maximum term, maximum controlling discharge date and current calendar year. As the inmate proceeds through his/her departmental incarceration, the ISL date will change as he/she appears before the BPT.

73030.18.2.21 Initial Board Appearance

Enter month and year of first BPT calendar unless inmate must be seen within 120 days, then enter actual date the 120 days expires; e.g., by 6-6-75 (PC 3041).

73030.18.2.22 Change in Parole Board and DSL Date Control Information

As case dynamics change, reflect the change(s) on the form:

On the right side of the box is "Minimum DSL Date Adjusted by Credits Lost _____." If an inmate loses good time/work time credits, the adjusted date is to be placed in the space provided.

After the computation has been completed, if the inmate has an overdue DSL date, check the "As soon as possible after Board 1170.2(a) PC decision" space on the form.

If the prisoner is not overdue, then either the ISL or DSL date controls, and the "Controlling Release Date _____" box is to be checked (controlling release date means the date that releases the prisoner from prison earliest). Enter the controlling release date on the line.

On the "(as of _____)" line, enter the date the computation was made or the date of the subsequent change of the controlling date.

Occasionally, the controlling release date will change.

An ISL parole hearing may result in a change in a previous ISL parole date. For example, if the minimum DSL date controls and an inmate loses good time/work time credits, the minimum DSL date may pass the ISL date. At the time the DSL date passes up the ISL date then the ISL date will be the controlling.

Whichever date releases the inmate from prison the earliest is the controlling date.

73030.18.2.23 Confinement Computation CDC Form 678-A

This form is used when the CDC Form 678 is not adequate to list multiple PPT or CS cases. It shall be computed the same as outlined in this section.

73030.18.2.24 Subsequent Changes on Computed CDC Form 678/678-A

From time to time a CDC Form 678/CDC Form 678-A will need to be changed for various reasons. The CDC Form is an official document, and if changes are necessary, a new form shall be prepared.

Upon receipt of court ordered pre-confinement credits received after the BPT has signed the form, it is necessary to re-compute the DSL dates on a new

CDC Form 678. Indicate "Refer to signed CDC Form 678 dated _____" on the new form, attach to corrected copy and file in permanent addenda.

- Should the application of such credit change the base term, return the case to the BPT for re-review and signature.
- The new CDC Form 678 is to be labeled "recalculated" above the CCRM signature block.

Whenever the controlling release date changes, that change will need to be reflected on the "Controlling Release Date _____" line.

Additionally, the "(as of _____)" will be recorded as of the date the change is made.

When the CDC Form 678 is found to have an error, a new form shall be prepared and marked "corrected copy" above the CCRM signature block.

- Send a copy to the inmate.
- Amend the information in OBIS to reflect the change(s).

If the BPT takes an action that changes the ISL data on the CDC Form 678, it is necessary to update the original CDC Form 678. When updating the ISL data, change the "as of _____" date to the date the change is made. If the controlling release date changes due to a BPT action, only the inmate needs to be given a copy of the updated CDC Form 678.

73030.18.2.25 CDC Form 678 Distribution

After the BPT signs the form, a photocopy shall go to OBIS and the inmate. The original shall be filed in the BPT Section of the C-file.

73030.19 Life Terms

Those terms for which the statutory maximum penalty is life in prison with the possibility of parole, terms for which the maximum is life and the minimum is 15 or 25 years and habitual offenders sentenced pursuant to PC 667.7 and PC 667.75 are calculated in this section.

73030.19.1 Parole Consideration

The BPT shall conduct hearings for consideration for parole of life prisoners pursuant to PC 5076.1 and PC 5076.2. Specialists shall schedule hearings based on calculations of minimum eligible parole dates.

73030.19.2 Good time/Work time Credit - Life Terms

Work time credit pursuant to PC 2933 shall be applied to reduce the minimum term of life prisoners sentenced only under PC 217.1(b) and habitual offenders sentenced under PC 667.7(a)(1) and PC 667.75.

Good time/work time credit pursuant only to PC 2931 shall be applied to reduce the minimum term of all other life prisoners on terms with 15 or 25 year minimums, except those convictions for second degree Murder where the victim was a peace officer (PC 190(b)).

Work time credit pursuant to PC 2933 shall apply to DSL enhancements and DSL consecutive cases on all life terms.

- Goodtime credit shall be administratively granted for time in custody after 7-1-77 on first degree Murder and Kidnap offenses committed prior to 11-8-78 if the commitment is subsequently ruled invalid and the inmate is recommitted on a lesser offense arising from the same case.

73030.19.3 "7-Year" Life Terms

Pursuant to PC 3046, persons sentenced to life terms with the possibility of parole must serve at least seven calendar years without benefit of good time. The MEPD for these cases is calculated by adding seven years to the life term start date and subtracting pre-prison credit ordered by the court and post-sentence credit.

- The initial Parole Consideration Hearing (PCH) will be scheduled 13 months prior to the MEPD (BPT 2268).
- If parole is denied at the initial PCH, a Subsequent Parole Hearing will be scheduled annually thereafter, or as determined by the BPT pursuant to PC 3041.5, until parole is granted (a parole date is set).
- Following any hearing at which parole is granted, Progress Hearings will be scheduled as specified in BPT 2269.

73030.19.4 Computation of MEPD 15 and 25 to Life Terms

Life term only

If the life term is the only commitment offense and has no DSL enhancements or DSL consecutive cases, calculate the MEPD as follows:

- Add the minimum term to the date received into the Department (the term start date).
- Subtract presentence and postsentence credit.

- Determine the number of days eligible for goodtime credit by subtracting the received date from the date obtained after application of preprison credit and adding postsentence credit.
- Divide the result by three (fractions shall be increased to the next whole number).
- Subtract the total goodtime from the date obtained after application of preprison credit. The resulting date is the minimum eligible parole date.

Life Terms With DSL Enhancements/DSL CS Cases

If the life term has DSL enhancements or a consecutive DSL term(s) with the same received date as specified in PC 669, the enhancements/CS term(s) must be served before the life term. Calculate the DSL enhancement/term(s) to determine the life term start date for the purpose of scheduling a documentation hearing on the life term.

Calculate the MEPD in these steps:

- Calculate the DSL release date on the DSL enhancement(s)/CS Case(s) in the normal manner, applying appropriate goodtime/worktime credit.
- Using the resulting DSL release date as the term start date for the life case, calculate the MEPD by proceeding with the steps previously described for the life term only computation.

If the life term has a consecutive post-imprisonment offense(s), the life term will not be interrupted and the DSL case shall be served consecutively to the life term. In re Thompson, 172 Cal. App. 3d 256, 218 Cal. Rptr. 192 (11-8-85).

Concurrent Non-Life Terms

Non-life terms concurrent to life terms shall be computed on a CDC Form 679.

73030.19.5 BPT Hearings - 15 and 25 Year Minimums

A BPT Documentation Hearing will be scheduled for prisoners serving life terms with 15 or 25 year minimums three years after the life term starts, and subsequently at three year intervals until the initial Parole Consideration Hearing (BPT 2269.1). Initial, subsequent and progress parole consideration hearings will be scheduled as outlined in DOM 73010.6.6.3.

73030.19.6 Life Terms Legal Status CDC Form 188-C

A Legal Status Summary, CDC Form 188-C, will be manually prepared by the LPU on all life cases as described in DOM 73010.6.

73030.19.7 Life Term Time Collection

Time collection data on life terms will be entered in OBIS in the same manner as for DSL cases for use in the manual calculation of minimum eligible parole dates.

73030.19.8 Disciplinary Actions and Life Terms

Completed disciplinary reports received by inmates serving life terms will be forwarded by custody staff for screening by C&PR to determine whether referral to the BPT will be required.

- If a parole date had previously been granted by the BPT, the disciplinary will be reported to the BPT who will determine whether to initiate rescission proceeding which may result in postponement or rescission of the release date (BPT 2451).

Completed disciplinary reports with credit losses on credit eligible life cases will be forwarded to case records staff who will re-compute the MEPD and reschedule hearing dates based on the recalculation.

- If a documentation hearing preceded the disciplinary action, only the initial parole consideration hearing date will be changed.

73030.20 Posting The Chronological History CDC Form 112

All entries on the CDC Form 112 will be dated in the left-hand column.

Entries of any legal status change, BPT decisions, BPT hearing dates, or classification actions effecting a change in release dates will be entered and briefly described in the "Chronological Listings" column.

The number of days forfeited or restored and any dead/at-large time will be entered in the appropriate column.

Release dates, minimum eligible dates, discharge dates, maximum revocation dates, and discharge review dates will be posted in the right-hand column.

- Release dates/minimum eligible release dates: EPRD, MIN DSL, ISL PD, RRD, PRRD, MEPD.
- Maximum revocation dates: MRRD.
- Discharge dates: DD, CDD, PCDD.
- Discharge review dates: DRD.

All entries on the CDC Form 112 will be posted in black ink with the exception of the MEPD, which will be posted in pencil. See DOM 72040 and 72060 for instructions on other postings.

73030.21 Revisions

Revised June 16, 1995

The Deputy Director, Institutions Division, is responsible to prepare revisions and ensure that this section is current.

ARTICLE 13 — COURT DECISIONS, ORDERS, AND RELEASES

Revised March 16, 1995

73040.1 Policy

Court decisions and court orders shall be processed in a uniform manner to ensure proper disposition.

73040.2 Purpose

This section sets forth uniform procedures for handling and processing court orders and court decisions.

73040.3 Decisions and Orders/General

Unless otherwise stated in the opinion or order, decisions of the District Courts of Appeal in criminal matters are final 60 days after filed. Decisions of the Supreme Court are final 30 days after filed unless further appeal or rehearing is in process.

A copy of unpublished Appellate or Supreme Court opinions received in headquarters, shall be reviewed by a Correctional Case Records Administrator and forwarded to the facility or parole region where the inmate/parolee is located for appropriate disposition and/or follow-up with the trial court at such time as the opinion is final.

Published opinions become case law and shall be evaluated, and instructions issued by an Administrative Bulletin, revision to this manual or regulation change if applicable.

A decision that reverses a "judgment" on appeal is remitted to the superior court on the date the decision becomes final.

A reversal of "judgment" on appeal is deemed an order for new trial, unless otherwise directed [reference: PC 1262]. The case will usually be brought to trial within 60 days after the reversal is final (PC 1382).

Removal from departmental custody by the sheriff after reversal on appeal does not act as a discharge from departmental records until confirmation from the court or AG's Office is received.

If a defendant is on parole, departmental jurisdiction ceases on the date the decision of reversal is final. See the DOM 71020.3 for issuance of a new registry number if the defendant is returned from court. The old

departmental registry numbers can be reactivated upon approval of the Chief, Case Records Services.

A judgment may be reversed in whole or in part and the order of reversal may include specific instructions to the trial court. Judgments may be affirmed and the matter remanded for the limited purpose of re-sentencing. In those instances where a person is removed from departmental custody and the court orders and/or Appellate Court opinion reflects that the judgment is affirmed but the sentence is reversed for the limited purpose of re-sentencing, the case will remain under departmental jurisdiction as out-to-court (OTC).

CCRM shall contact the trial court every 30 days to determine the status of the case if the defendant has not been returned to departmental custody.

The Appellate Court may modify a judgment in which a count(s) is ordered stricken per PC 654 or an improper penalty or enhancement has been applied to a term.

In these instances, where a trial court can do nothing about the sentence as modified by the Appellate Court, the legal status shall be changed in accordance with the opinion upon receipt of a certified copy of the remittitur from the Appellate Court.

73040.4 Habeas Corpus

An order in Habeas Corpus proceedings may vacate the judgment in whole or in part or grant other relief including discharge from custody.

Where removal of a prisoner occurs for return to court pursuant to an order to reverse or vacate the judgment and/or sentence, this acts to discharge the case from departmental records.

Where the judgment and sentence remain valid, but the removal is pursuant to an order for further proceedings, time on the sentence continues to run and the case remains under departmental jurisdiction as OTC.

As provided in PC 2620, the order for removal shall recite the purpose for which the person is to be brought before the court. When this information is not included and there is not sufficient time or information on hand to resolve the question as to the purpose for removal, the prisoner shall be noted as "OTC for further proceedings."

The records can be corrected later when the purpose for removal has been conclusively determined.

Sources for such information include:

- The County Clerk.
- Clerk of the Appellate Court.
- DA.
- LAD.
- Chief, Correctional Case Records Services.
- The Deputy AG who handled the case at the appellate court level.

Superior Court

The Superior Court of the county where a facility is located has jurisdiction to consider petitions filed by inmates of that facility regardless of the commitment county. Resulting orders must be complied with when final.

These orders shall be immediately reviewed by the LAD to determine such questions as proper procedures or whether to appeal, etc.

Such actions would generally be confined to whether the inmate is illegally held, portions of the judgment are defective, or whether the Department administrative handling of the case is proper under law.

The case may be ordered back to the trial court for further proceedings to correct or modify the judgment.

Such actions are legally different in purpose and scope than the authority of the Appellate Courts to review and act on the validity of a judgment of a Superior Court.

Superior Court orders do not establish precedents or rules of general application but are limited in application to the specific case or issue ruled upon.

Differences and conflicts between Superior Courts in different counties have to be resolved by a higher court.

73040.5 Published Decisions

Published Appellate Court decisions are effective the date they become final and have the same application on all similar cases and circumstances. They only apply prospectively unless ordered in the decision or in subsequent related decisions to be applied retroactively.

Unpublished Appellate Court decisions apply only to the individual case considered.

73040.6 Court Orders

A Superior Court order shall be signed by a judge, bear the seal of the court, and be certified by the county clerk (two of the three requirements will suffice).

PC 2620, 2621, and 2625 specify that court orders must show the reason for release. When an order is received for an inmate to give testimony in a criminal proceeding, compliance is mandatory.

The order shall recite a specific date plus may recite, "at such other times as may be ordered by the said court"; and such persons may properly be released more than once on the same court order.

In Payne v. Superior Court, the California Supreme Court held that in certain circumstances an inmate should be released from prison to attend trials in civil matters. Facility administrators are authorized to grant temporary community releases to appropriate inmates to appear in civil matters when the following conditions are met:

- The inmate must be eligible for an escorted release to the community.
- The inmate must be willing to accept such release.
- An order must be obtained from the court in substantially the following form as stated in PC 2625. Such an order shall be to the following effect:

County of _____. The people of the State of California to the Warden of _____. An order having been made this day by me that _____ be produced in this court as a party in the case of _____, you are commanded to deliver into the custody of _____ for the purpose of (recite purposes). Dated this _____ day of _____, 19 ____.

The order shall also require the sheriff to pick up and return the inmate within 72 hours.

State Supreme Court or Appellate Court orders must bear the seal of the court and certification by the clerk of said court.

73040.7 Referrals to the AG's Office

Any referrals that may require advice, review, or representation by the AG shall be forwarded to the Supervising Deputy, Criminal Law Section, of the appropriate office as indicated:

- Sacramento, Assistant AG:
 - Alpine.
 - Madera.
 - Shasta.
 - Amador.
 - Mariposa.
 - Sierra.
 - Butte.
 - Merced.
 - Siskiyou.
 - Calaveras.
 - Modoc.
 - Stanislaus.
 - Colusa.
 - Mono.
 - Sutter.
 - El Dorado.
 - Nevada.
 - Tehama.
 - Fresno.
 - Placer.
 - Trinity.
 - Glenn.
 - Plumas.
 - Tulare.
 - Kern.
 - Sacramento.
 - Tuolumne.
 - King.
 - San Joaquin.

- Yolo.
- Lassen.
- San Luis Obispo.
- Yuba.
- San Francisco, Assistant AG:
 - Alameda.
 - Mendocino.
 - San Mateo.
 - Contra Costa.
 - Monterey.
 - Santa Clara.
 - Del Norte.
 - Napa.
 - Santa Cruz.
 - Humboldt.
 - San Benito.
 - Solano.
 - Lake.
 - San Francisco.
 - Sonoma.
 - Marin.
- Los Angeles, Assistant AG:
 - Los Angeles.
 - Santa Barbara.
 - Ventura.
- San Diego, Assistant AG:
 - Imperial.
 - Inyo.
 - Orange.
 - Riverside.
 - San Bernardino.
 - San Diego.

The letter shall contain a thorough explanation of the referral with copies of the documents questioned.

73040.8 Suspension of Judgment

An inmate may be released to the custody of the sheriff pending appeal on a court order granting a writ of supersedes or a stay of execution of judgment.

The inmate shall be released to the custody of the sheriff pursuant to PC 1245 and discharged from departmental records upon presentation of the Superior Court order granting a stay or a certificate specified in PC 1243.

73040.9 Release on Bail

All court orders for the release of an inmate on bail received from an individual other than a deputy sheriff, or bail bond orders received by mail, shall be confirmed before the inmate is released by contacting the clerk of the issuing court.

Court orders releasing an inmate on bail pending appeal serve as a suspension of judgment. The release shall not be recorded as a discharge on departmental records.

When an inmate is released on bail pending appeal, the CCRM shall contact the Superior Court of the committing county on a semiannual basis to determine the status of the case.

If a copy of an Appellate or Supreme Court opinion is received, which specifies that the judgment is reversed and is final, the CCRM shall discharge the case. CDC Form 112 posting shall reflect, "subject discharged by Appellate (Supreme) Court decision reversing judgment while free on bail."

If an inmate is returned to departmental custody subsequent to posting bail pending appeal, the period of time the inmate was released on bail shall be dead time on departmental records.

73040.10 Removal Orders Under PC 1170(D)

Upon receipt of a removal order pursuant to PC 1170(d), the inmate shall be discharged only if the removal order specifies that the judgment (commitment) is vacated or recalled.

When the removal order does not specify that the commitment is recalled, the CDC Form 112 shall be recorded as "OTC for further proceedings." The CCRM shall maintain contact with the courts and secure a copy of the court order that provides the final disposition of the case. A subsequent court order placing the defendant on probation shall be recorded as a discharge on departmental records retroactively to the date the inmate was released to the custody of the sheriff.

73040.11 Release on Habeas Corpus

Inmates may be released from a facility for hearing on a Writ of Habeas Corpus.

An order granting a Writ of Habeas Corpus and ordering discharge from custody serves to release an inmate from custody.

The AG has 60 days to file an appeal; if not appealed, the inmate may be released at once on discharge.

In the event a release order is received, the CCRM shall contact the AG's Office to determine if an appeal is to be filed. If so, the AG will be requested to file immediately to stay the release order.

On State Supreme Court or Appellate Court orders for appearance at a referee hearing on a Writ of Habeas Corpus, the Warden is directed to produce the inmate.

Any order for the return of an inmate to the county of commitment resulting in the discharge of the inmate must be executed by the sheriff.

Departmental records shall reflect a "discharge" on the commitment effective the date the sheriff assumed custody.

73040.12 Release Under PC 2625

When an action is pending in a Superior Court in which an inmate's parental or marital rights are subject to adjudication, the Superior Court may issue an order for the production of the inmate as specified in PC 2625.

A copy of the order shall be transmitted to the Warden of the facility where the inmate is confined 48 hours before the order is to be executed. The order shall be executed by the sheriff of the county in which the order was issued.

An order for such a release must be signed by a Superior Court justice.

When a court order is received it is to be presented to the inmate by the appropriate facility personnel. If the court order includes a waiver section, the inmate must sign if they choose to waive their appearance. When an inmate refuses to sign but clearly indicates they are waiving their appearance, the facility personnel shall fill out the "Acknowledgement of Refusal to Appear" section of the court order. Two copies of the court order are made; one for retention in the inmate's C-File and one for the inmate. The original order shall be returned by mail or FAX to the court.

If the court order does not include a waiver section or if a notice of proceedings and request for removal for out-to-court are made by telephone and the inmate refuses to appear a CDC Form 1750, Waiver of Court Appearance Form, shall be completed. Case records staff shall mail or FAX the top copy of the completed CDC Form 1750 and court order, if provided, to the court. The second copy shall be filed in the inmate's C-File and the third copy forwarded to the inmate. A telephone call to the sheriff to advise the inmate has waived their appearance shall be made in those cases with close pick-up dates.

73040.13 Municipal and Justice Court Appearance

Inmates may be released by the order of a municipal or justice court to appear as a witness in a case that involves an offense which is triable only in a municipal or justice court.

An inmate may also properly be released under PC 1567 with a proper order from a municipal or justice court for further court action if they were previously tried for a misdemeanor but failed to appear for their probation/sentencing hearing.

73040.14 Federal Writ Ad Prosequendum

Federal Writ of Habeas Corpus Ad Prosequendum orders may recite a specific date plus "at such other times as may be ordered by the said court"; and such inmates may properly be released more than once on the same court order.

73040.14.1 Federal Writ Ad Testificandum

A federal Writ of Habeas Corpus Ad Testificandum directs the release of an inmate to the temporary custody of the U.S. Marshal to testify as a witness in a criminal matter, at a civil court proceeding, or non-judicial matter such as a legislative committee hearing.

- When a federal Writ of Habeas Corpus is received, the Writ shall be reviewed carefully, as it is at the discretion of the federal judge as to whether the U.S. Marshal shall provide any of the transportation. In some orders, the responsibility of the Department to transport may be

only to jail, in others, it may be to the courthouse. The U.S. Marshal shall be responsible for the inmate while they are in the federal courthouse or local jail. If the judge does not exercise their discretion to order the transportation and costs shared, then the Department shall incur the total costs and responsibility of transporting.

73040.14.2 Federal Writ Civil Case

If a federal Writ of Habeas Corpus orders an inmate into court in a civil case, the Department shall transport the inmate to court, keeping a record of all costs incurred. The facility's business manager shall send a bill to the person who requested the inmate's appearance.

73040.14.3 Federal Court Jurisdictions Validity of Orders

The writ may be honored only when served on a facility within the issuing court's territorial jurisdiction directing the production of the inmate within that territorial jurisdiction.

When an order that extends outside the territorial jurisdiction of the issuing court is served, the matter shall be referred to the LAD for consultation with the Attorney General's staff prior to honoring the writ.

Federal court orders shall bear the seal of the court and certification by the clerk of the court.

73040.14.4 Transportation and Release

Inmates released to the custody of the U.S. Marshal or a Deputy Marshal are transported by the U.S. Marshal at no expense to the State.

The Department shall transport inmates in all federal civil rights cases.

Periodically the U.S. Marshal's office or a sheriff's office may request that an inmate be released without service of the court order to the releasing facility.

- These are normally in instances when a transporting agent is in the area of a facility but the court order is in the marshal's or sheriff's office some distance away.

Such releases are to be authorized by the Chief, Correctional Case Records Services. Telephone approval may be given after it has been ascertained that a valid court order does exist and shall be confirmed by FAX.

73040.15 Witness in Out-of-State Criminal Cases

An out-of-state release as a witness in a criminal case is authorized per PC 1324 through 1334.6.

- The out-of-state certificate or subpoena is delivered to the Superior Court in the county in which the offender's facility is located. The Superior Court may issue a release order per PC 2621 authorizing the offender's release to the local sheriff. The offender shall be returned to the facility with no expense to the State.

73040.16 Trial on Criminal Charges in Other States

The release of an inmate to an agent of another state for trial or pending criminal charges is authorized under the Interstate Agreement on Detainers, as specified in PC 1389.

Release of an inmate to an agent of another state for trial on pending criminal charges is authorized upon receipt of an executive agreement between the Governor of California and the Governor of the other state pursuant to PC 1549.

73040.17 Follow-Up for OTC Inmates

A tickler file shall be established and maintained for each inmate on OTC status.

The court shall be contacted at least every 60 days to ascertain the inmate's status. The information developed by the contact shall be recorded in the tickler file.

If the court orders the inmate released from custody while OTC, the necessary certified court documents shall be obtained immediately.

Upon receipt of these documents, appropriate entries shall be made on the Offender Basic Information Service, the CDC Form 112, and CDC Form 144, Control Card.

If an inmate is returned from OTC, case records staff shall contact the court as necessary, ascertain case disposition, and obtain required certified documents.

The inmate's tickler file shall be purged after completion of the OTC status.

73040.18 Revisions

The Deputy Director, Institutions Division, or designee shall be responsible for ensuring that the contents of this section are kept current and accurate.

73040.19 References

PC §§ 654, 1170(d), 1243, 1245, 1262, 1324 - 1334.6, 1382, 1389, 1549, 2620, 2621, and 2625.

Payne v. Superior Court.

DOM § 71020.

ARTICLE 14 — RELEASING AUTHORITIES

Revised February 23, 1995

74010.1 Policy

The Department shall cooperate and communicate with, and provide necessary services to the BPT (BPT, Board) and the NAEA .

74010.2 Purpose

This section sets forth the responsibilities of the BPT and NAEA and the procedures for communication to and from the boards.

74010.3 Authority - BPT

The BPT consists of nine commissioners appointed by the Governor, with advice and consent of the Senate.

By statute and practice there is a cooperative relationship between The Director and the BPT. Each is empowered to advise and make recommendations to the other on specific policies and procedures relating to the duties of the other.

BPT Functions

The function of the BPT consists of term decisions, parole releases, parole supervision, (delegated to the Department) parole revocation, and executive clemency.

Deputy Commissioner Functions

The BPT employs deputy commissioners, to whom it assigns appropriate functions not restricted by law; only to commissioners of the BPT.

Such functions include but are not limited to:

- Determine PC 1170.2(a) sentence for ISL prisoners;
- Conducting the initial disparate sentence review screening;
- Conducting documentation hearings and making recommendations;
- Requesting that a life, non-life PC 1168 or ISL prisoner be transferred for diagnosis and treatment;
- Reviewing the Department's denial of time credits;
- Waiving parole and reconsidering the length and conditions of parole;
- Suspending parole;
- Conducting rescission hearing on life prisoner, revocation and revocation extension hearings [CCR (15)(2)].

74010.4 NAEA

Functions

The NAEA consists of seven members appointed by the Governor, with advice and consent of the Senate.

The NAEA is responsible for granting release of residents, establishing conditions and terms of release and returning the releasees from outpatient status/parole.

74010.5 Policy

Wardens and designated staff within institutions or Headquarters shall communicate with the BPT or the NAEA about problems or scheduling as they affect areas of operations or institutions.

74010.6 Correspondence Addressed to BPT/NAEA

Letters requesting information and addressed to BPT in an institution shall be answered using the BPT letterhead and shall include the signature line of the board; countersigned by the C&PR of the institution, followed by the name, address, and telephone number of the institution.

Letters addressed to the NAEA shall be forwarded to the Administrative Officer of the Board for response.

Correspondence received at an institution regarding term-fixing and/or parole granting functions of the Board, which is addressed to other than the Board officials, shall be referred to the C&PR for reply.

Communications received by the BPT concerning parolees are screened by the Executive Officer of the Board. The Executive Officer shall be responsible for the response.

Correspondence pertaining to inmates in reception centers and addressed to the BPT shall be answered over the signature of the AW in charge of the reception center.

The appropriate Board letterhead shall be used for such correspondence if the request for information concerns a board's action or function. The name, address, and public telephone number of the institution where the reception center is located shall follow the signature.

All correspondence addressed to institutions which concerns policies and overall functions of a paroling board shall be referred to the appropriate board's headquarters office for reply.

74010.7 BPT Rules

The rules and policies of the BPT are contained in the CCR (15) (2).

To ensure that the inmate population has knowledge of the rules and regulations of the Board, responsibility for the receipt, storage, accountability and distribution is assigned to the institution's C&PR.

All inquiries relating to the BPT rules shall be made through the designated C&PR to the Chief Deputy Commissioner or to the Chief Legal Counsel, BPT.

Prior to the bulk shipment of the board rules the legal counsel of the BPT shall send a notice to the designated C&PR advising of the pending arrival.

Assigned staff shall provide prompt distribution of notices of intent, to change the rules, hold public hearings, etc.

A copy of current BPT rules and any revision thereto shall be sent to the inmate law library or libraries for inmate review.

Parole Regional Administrators shall distribute the Board rules to staff and parolees of their respective region.

74010.8 NAEA Rules

The rules and policies of the NAEA are found in the CCR (15) (5).

In addition, the NAEA prepares Administrative Directives that govern NAEA policy. These directives are published from time to time as policy changes.

The distribution of NAEA rules is made by the administrative office of the NAEA.

Inquiries concerning NAEA rules should be directed to the administrative office of the NAEA.

74010.9 BPT/NAEA Rules Proposed Changes

Notice of proposed changes in the rules of the BPT or the NAEA shall be submitted to the Board liaison person in Headquarters for review and dissemination to affected institutions and parole regions on policy matters.

Wardens and RPAs shall submit their responses to such proposed changes to the Director through the appropriate Deputy Director.

After review at the Deputy Director's level, and with any significant comment or suggestions, the administrator's response(s) shall then be referred to the Headquarters staff member designated as the Department's liaison officer for the Board.

The liaison officer shall prepare a letter requesting changes or modification of proposed rules, directed to the Board chairman, for the Director's signature.

A copy of the Director's letter shall be routed to the Regulation and Policy Management Section. Headquarters staff who receive notices of proposed changes in the rules of a paroling board are expected to review the proposal(s) and submit any comments to the liaison officer for consideration.

Nothing in this section is intended to prevent any employee of the Department from submitting their personal comments, suggestions, or arguments directly to the BPT or NAEA in response to the Board's public notice of intent to change its rules.

74010.10 Executive Officer BPT/ Administrative Officer NAEA

The BPT Executive Officer is the official custodian of records relating to the BPT and as such is empowered under statutory provisions to attest and certify all actions and documents.

The NAEA Administrative Officer is the official custodian of records relating to the NAEA.

74010.11 Institutional Recording/General Considerations

Institutional recording is a continuance of the reception center study and provides additional information for management and evaluation of each inmate.

Setting of release dates and the length of time an offender may serve can be influenced by institutional reports when an individual has been received under the ISL or the Determinate Sentence Law (DSL). Staff shall ensure that the information reported is accurate and that only relevant facts are reported.

Reports shall be objective and unemotional.

74010.12 Objectives of Institutional Recordings

There are three main objectives for institutional recordings:

- To present a summarized statement of essential information indicating adjustments and accomplishments which can be used to make classification and management decisions.
- To provide the BPT with information needed for release and other BPT decisions.
- To provide information required for prerelease and release processes.

The reports prepared by the institution become a permanent part of the Cumulative Case Summary.

74010.13 Revisions

The Deputy Director, Institutions Division, or designee shall ensure that the contents of this section are current and accurate.

74010.14 References

CCR (15) (2).

CCR (15) (5).

ARTICLE 15 — UNASSIGNED

ARTICLE 16 — SCHEDULING APPEARANCES

Effective October 2, 1989

74030.1 Policy

BPT hearings shall be scheduled pursuant to BPT regulations.

74030.2 Purpose

This section sets forth procedures for scheduling hearings as mandated by the BPT.

74030.3 Individual Case Decisions

The Chairperson of the BPT shall assign commissioners or deputy commissioners to make individual case decisions. A hearing panel is comprised of one or more (usually three) of these members.

74030.4 Institution Hearing Decisions

The BPT will make individual case decisions affecting release or parole and postponement or rescission of parole release dates at hearings conducted at the institutions. The Board may also hold hearings on Department denial of good time/work time credit (BPT Rule 2120).

Other matters which do not require a hearing, including reviewing the case of an inmate who does not participate in a program recommended by the BPT, shall be placed on the Miscellaneous Proceedings Calendar for review by the BPT when a panel convenes for a regularly scheduled hearings at an institution.

74030.5 BPT Headquarters Decisions

Individual case decisions regarding disparate sentence review and review of inmate or parolee behavior to determine the need to order the scheduling of postponement, rescission, revocation or revocation extension hearings, shall be made by the BPT at the Headquarters Calendar.

74030.6 Community Decisions

Individual case decisions regarding revocation of parole shall be made by the BPT at hearings normally conducted in the community near where the alleged violation occurred.

74030.7 Official Decisions Individual Cases

If two of the three BPT members on a life parole consideration hearing panel agree to grant or deny a parole date, that is "a proposed decision".

Any proposed decision setting or denying a parole date for a life prisoner shall become effective 60 days after the decision unless the provisions of BPT Rule 2041 occur (BPT 2043).

All other decisions shall become effective 15 days after signed by the panel member(s) making the decision unless the order states a different effective date for the decision (BPT 2043).

74030.8 En Banc Meeting of the Board

When one member on a hearing panel dissents from a decision setting or denying a parole date, at the time of the decision, that the full BPT meet to consider the case.

Such a request shall be reviewed by the full Board within 45 days of the hearing at which the dissenting decision occurred.

The case shall be referred to the Executive Officer or Chief Deputy Commissioner of the BPT for any preparation that is necessary prior to the En Banc meeting (BPT 2044).

The majority opinion at the En Banc meeting will determine whether the original decision remains in effect. If the full BPT disagrees with the hearing

panel's majority opinion, they shall order a new hearing, the result of which will become the decision in the case.

74030.9 Decision Review Committee

The BPT decision review committee is composed of three commissioners designated by the Chairperson or Vice-Chairperson.

The committee shall review cases to assure complete, accurate, consistent and uniform decisions.

The review committee is authorized to order a new hearing or to make any decision that does not require a hearing (BPT 2042).

74030.10 Initial Parole Hearing

At an initial parole consideration hearing an inmate shall be considered for parole for the first time.

The hearing panel shall first determine whether the inmate is suitable for parole.

If the inmate is found unsuitable, parole shall be denied, and a written statement of the specific factual reasons for the denial shall be given to the inmate.

The hearing panel may recommend to the inmate certain steps that may be undertaken to enhance the possibility of a grant of parole at a future hearing.

If an inmate is found suitable for parole, a tentative parole date shall be set.

74030.10.1 Initial Parole Hearing - ISL Cases

The Initial Parole Consideration Hearing for a non-life ISL case shall be scheduled pursuant to BPT 2304 as follows:

- Within 120 days of reception if the Minimum Eligible Parole Date (MEPD) is within 120 days.
- One month prior to the MEPD if the MEPD is more than 120 days after reception.

The Initial Parole Consideration Hearing for non-life PC 1168 inmates shall be no later than 60 days after reception (BPT 2271). These hearings are conducted by a panel consisting of two deputy commissioners.

74030.10.2 Initial Parole Hearing - Life Cases

The Initial Parole Consideration Hearing for life cases shall be held during the 13th month prior to the prisoner's MEPD.

- The MEPD for inmates with 15- and 25-to-life terms may change depending on credit earned or lost.

Any changes in an inmate's MEPD, which occur within six months of the scheduled hearing date, shall not change the scheduled hearing date.

74030.11 Subsequent Parole Hearings

An inmate who was previously denied parole shall be reconsidered for parole in the same manner as at the Initial Parole Hearing. The hearing panel shall consider the information developed since the last hearing.

This hearing shall be scheduled as provided by PC 3041.5 and may be 12, 24, or 36 months after the most recent hearing as determined by the BPT.

If the inmate has a confirmed Determinate Sentencing Law (DSL) release date within 60 days of a scheduled Indeterminate Sentencing Law (ISL) hearing, the parole hearing shall be cancelled and the inmate will be released on the DSL date.

74030.12 Progress Hearings Non-Life Cases

Following any parole consideration hearing at which parole has been granted, progress hearings will be scheduled.

- During the fourth month prior to the parole date if parole date is between 10 and 14 months from the date of the last parole consideration hearing.
- On the twelfth month after the hearing at which a parole date was set if the parole date is 15 months or more from the date of the last parole consideration hearing.
- Any time department staff feels an earlier parole date would be appropriate. Staff shall refer the case to the C&PR to place the case on the institutional Miscellaneous Proceeding Calendar with documentation of the reasons for requesting the progress hearing. The Board may deny the department request or may order a Progress Hearing scheduled.

If the parole date is within 9 months from the date of the last parole consideration hearing, no progress hearing shall be scheduled.

A Progress Hearing shall not be scheduled for an inmate with an ISL parole date which is later than a confirmed DSL date if the maximum advancement that could be granted at the progress hearing (four months per year) plus

a 60-day advancement would not result in advancing the ISL parole date to a date earlier than the DSL date (BPT 2305).

74030.12.1 Progress Hearings - Life Cases

Following any parole consideration hearing, on a life case, at which parole has been granted:

- If the parole date is less than 10 months from the date of the last parole consideration hearing, no Progress Hearing shall be scheduled.
- If the parole date is between 10 and 14 months from the date of the last parole consideration hearing, a Progress Hearing shall be scheduled during the sixth month after the parole hearing.
- If the parole date is between 14 and 18 months from the date of the last parole consideration hearing, a Progress Hearing shall be scheduled during the ninth month after the parole consideration hearing.
- If the parole date is between 18 and 26 months from the date of the last parole consideration hearing, a Progress Hearing shall be scheduled during the twelfth month after the parole consideration hearing.
- If the parole date is between 26 and 34 months from the date of the last parole consideration hearing, a Progress Hearing shall be scheduled during the eighteenth month after the parole consideration hearing.
- If the parole date is between 34 and 50 months from the date of the last parole consideration hearing, a Progress Hearing shall be scheduled during the twenty-fourth month after the parole consideration hearing.
- If the parole date is 50 months or more from the date of the last parole consideration hearing, a Progress Hearing shall be scheduled during the thirty-sixth month after the parole consideration hearing.

Any time department or board staff believes an earlier parole date would be appropriate the case may be placed on the Miscellaneous Proceedings Calendar with documentation of the reasons for requesting a Progress Hearing. The Board may deny the request or order a Progress Hearing scheduled (BPT 2269).

74030.13 Initial/Subsequent Hearings New Criminal or Disciplinary Charges - Life Cases

A life inmate with new criminal or disciplinary charges pending prior to an Initial or Subsequent Parole Hearing shall be scheduled for that hearing. If it is determined during the course of the hearing that a decision cannot be made because of the pending charges, the hearing panel shall discontinue the hearing (BPT 2272).

Department staff shall then place the case on the Miscellaneous Proceedings Calendar every 90 days from the date of the originally scheduled hearing and include a report of the status on the case. Following conclusion of the criminal or disciplinary charges, the case shall be scheduled for the next regular calendar.

74030.13.1 Non-Life Cases

A non-life or PC 1168 inmate with new criminal or disciplinary charges pending immediately prior to a scheduled hearing shall be removed from the calendar (BPT 2307).

Department staff shall place the case on the Miscellaneous Proceeding Calendar every 90 days from the date of the originally scheduled hearing and include a report of the status on the case.

Following conclusion of the criminal or disciplinary charges, the case shall be scheduled for the next regular calendar.

74030.14 Progress Hearings New Criminal or Disciplinary Charges

Staff shall postpone the Progress Hearing of any inmate who has new criminal or serious disciplinary charges pending immediately prior to a regularly scheduled hearing.

Department staff shall place the case on the Miscellaneous Proceedings Calendar every 90 days from the date of the originally scheduled hearing and include a report of the status of the case.

Following conclusion of the criminal or disciplinary charges, the case shall be scheduled for the next regular calendar.

74030.15 Hearings For Prisoners With Changes in Legal Status

Changes in legal status include:

- A final court decision altering the inmate's commitment status.
- Modification of the judgment or Abstract of Judgement.
- New commitments.

Before an Initial ISL Parole Hearings, if an inmate's legal status changes, the change in legal status shall be considered at the initial parole hearing as regularly scheduled after considering the change in legal status.

If an inmate's legal status changes after an Initial ISL Parole Hearing, staff shall immediately schedule the prisoner for a progress or subsequent ISL parole hearing as appropriate.

74030.16 Postponement or Rescission of Release

The ISL parole date of an Indeterminate Sentence Law inmate or the parole date of a life or non-life PC 1168 inmate may be postponed or rescinded for good cause at a rescission hearing.

Rescission proceedings refer to any proceedings that may result in the postponement or rescission of a release date.

The C&PR shall report to the BPT Headquarters Calendar, any conduct that may result in rescission proceedings. The BPT shall determine whether to initiate rescission proceedings.

Conduct that must be reported to the BPT includes:

- Assault with a weapon.
- Escape.
- Physically assaultive Behavior.
- Possession of a weapon without permission.
- Possession of controlled substances without a prescription.
- Attempt to escape.
- Urging others by words or acts, with the intent to cause a riot, at a time and place under circumstances which produce and present an immediate danger of a riot which results in acts of force or violence.
- Active participation in a riot that results in acts of force or violence.
- Intentional destruction of state property valued in excess of \$50.00.
- Falsification of a significant record or document.
- Possession of escape tools without permission.
- Manufacture or sale of intoxicants.
- Unauthorized possession or use of alcoholic beverages or any substance which, when inhaled, ingested or breathed, can cause a person to be under the influence of or intoxicated from such substance.
- Urging others by words or acts, with the intent to precipitate a riot, at a time and place under circumstances which present a clear and present and immediate danger of a riot.
- Any inmate whose mental state deteriorates to the point that there is a substantial likelihood that the inmate would pose a danger to himself or others when released and who is within 90 days of release.
- Any new information which indicates that parole should not occur.
- An inability to meet a special condition of parole, such as failure of another state to approve an interstate parole.
- Information significant to original grant of parole was fraudulently withheld from the Board.
- Fundamental errors occurred resulting in the improvident granting of a parole date.

If an inmate with a previously established parole date (life, ISL, non-life PC 1168) receives a new commitment to state prison, the parole date shall be rescinded; no hearing or other BPT action is required.

The inmate may appeal the rescission only on the grounds that he/she is not the person sentenced to state prison by the new judgment.

The CCRM, when processing the new commitment, shall post an entry onto the CDC Form 112, Chronological History Page, indicating the parole date has been rescinded.

The CDC Form 112 posting shall read:

"(Indicate date of posting) Parole date of (indicate date of parole) rescinded per BPT Rule (indicate applicable BPT Rule number)".

- BPT Rule 2273 will be cited in the case of life prisoners; and
- BPT Rule 2308 for ISL and non-life PC 1168 prisoners.

The inmate shall be scheduled for a new Parole Consideration Hearing.

- If the new commitment is for a determinate term, the Parole Consideration Hearing shall be conducted within 60 days of receipt of the new commitment.

74030.17 Procedures For Reporting Disciplinary Behavior To BPT

The C&PR shall report serious disciplinary behavior to the BPT Headquarters Calendar, for any life, non-life PC 1168 or ISL inmate, pursuant to BPT 2451.

All cases shall be reported to the BPT prior to the inmate's scheduled parole date.

- If a case has not been referred to the DA for prosecution, the case shall be reported within 15 days.

If the case has been referred to the DA for prosecution, the case shall not be reported to the BPT until:

- Within 15 days after the DA has refused to prosecute; or
- Within 15 days after the criminal prosecution has terminated; or
- The prisoner is within 60 days of his/her parole date.

The BPT, Headquarters Calendar, shall either note the report and take no action or shall order the matter scheduled for rescission proceedings.

The date and title of any reports relied on in making the decision shall be noted.

The decision shall be documented by the BPT, Headquarters Calendar, and a copy shall be sent to the institution.

74030.18 Pre-Rescission Hearing

If the inmate is scheduled to be released within 20 days, a criminal prosecution is pending, and the criminal prosecution will not terminate before the scheduled release date, department staff shall schedule a Pre-rescission Hearing. The inmate may waive the Pre-rescission Hearing.

An inmate who has had or has waived a Pre-rescission Hearing on any one charge that alone is sufficiently serious to postpone or rescind the release date is not entitled to a Pre-rescission Hearing on any other charges.

Pre-rescission Hearings should occur before the scheduled release date. Any delay beyond the scheduled release date must be authorized by the BPT, normally at the Headquarters Calendar.

74030.19 Scheduling Rescission Hearing

If no criminal prosecution is pending, the inmate shall be scheduled for a Rescission Hearing prior to the parole date or within 60 days of the incident or discovery of the information.

When a criminal prosecution is pending, a Rescission Hearing shall be scheduled within 60 days of the termination of the criminal prosecution.

The C&PR shall notify the BPT Headquarters Calendar anytime an inmate submits a written demand for a rescission hearing.

The BPT may order a hearing as appropriate.

The decision to order, or not to order, a hearing scheduled shall be documented and reported to the institution.

Each case shall be referred to the institutional hearing coordinator, with appropriate reports, who shall telephone the Headquarters Calendar to secure appropriate actions.

Such actions shall be recorded on a BPT form and forwarded immediately to the institution. All normal postings, duplicating and distribution shall be handled by the case records office staff.

74030.20 Extended Term Hearings PC 1170.2(B)

CCRM shall identify and recalculate an ISL term as if sentenced under the DSL. The case shall then be referred to the BPT Headquarters for determination of whether the case should be scheduled for an Extended Term Hearing.

Extended Term Hearings shall be heard within 120 days of reception by the department or the date the department received a new or amended abstract, or any court order which modifies the original commitment.

74030.21 Parole Hearing For Cases With ISL and DSL Terms

An inmate serving concurrent ISL and DSL terms shall be scheduled for an ISL parole consideration only if the minimum recalculated DSL release date on the ISL term is:

- Later than the release date on the DSL term, and earliest eligible release date (EERD). (See BPT 2310.)
- More than 60 days later than the MEPD on the ISL term.

An inmate serving consecutive ISL and DSL terms shall be scheduled for an ISL Parole Consideration Hearing only if the minimum DSL release date on the combined recalculated ISL and DSL term is:

- Later than the release date on the DSL term considered alone [as if it were concurrent (CC)], and
- More than 60 days later than the earliest eligible parole date computed by adding the ISL MEPD and the minimum DSL release date on the DSL term standing alone.

74030.22 Previously Calculated Retroactive Term

All legal status changes that might require a recomputation of a previously calculated retroactive term under PC 1170.2(a) or 1170.2(b)) shall be referred to a BPT panel for review and disposition.

Changes to retroactive PC 1170.2(a) or (b) terms include:

- Change in the base term for the base offense used in the calculation.
- Change in the enhancements on the principle offense used.
- Changes in consecutive (CS) offense or their enhancements used in the calculations.
- Additional commitments whether CC or CS.

Changes that do not affect retroactive term include:

- Certification or changes in PC 2900.5 credit or other such credit.
- Changes in CC terms which are not part of the previously approved PC 1170.2(a) recalculated term.

The legal status changes which may affect the term shall be set forth in the "facts" section of BPT Form 1135, Miscellaneous Decision.

The Recommendation Section shall contain the recommended action.

The BPT Form 1135 and related material shall be presented to a BPT panel for consideration and action.

The determination made by the hearing panel shall be recomputed by case records staff using a BPT Form 1094, Serious Offender Decision Face Sheet.

The Miscellaneous Section of the Face Sheet shall be used by case records staff to explain the method of computation. Full distribution of the computation must be completed. BPT Forms 1094 and 1135 shall be stapled together and filed in the Permanent Addenda.

74030.23 Life Without Possibility of Parole

All inmate's serving sentences of life without possibility of parole (LWO) shall be scheduled for BPT "review" 30 years after reception by the Department and every fifth year thereafter (BPT 2817).

74030.24 Lifer Documentation Hearings

Cases with 25-life or 15-life terms: During the 36th month following receipt in the Department, without regard for pre-prison credit.

Cases with 25-life or 15-life terms consecutive to enhancements and/or a DSL term: During the 36th month after commencement of the life term. In those cases in which the pre-prison credit exceeds the terms for the enhancement and/or the DSL term, the Documentation Hearing will be scheduled as above (BPT 2269.1).

Inmates committed as habitual offenders under PC 667.7 shall be scheduled for Documentation Hearings in accordance with BPT 2269.1. The initial Documentation Hearing shall be held during the 36th month after the life term begins.

Subsequent Documentation Hearings shall be held at three-year intervals until the Initial Parole Consideration Hearing.

If the latest Documentation Hearing falls within one year of the scheduled Initial Parole Consideration Hearing, then the Documentation Hearing shall not be required. This may in some cases require the Initial Parole Consideration Hearing panel to consider a four-year in-prison conduct review instead of the normal three-year span of time for Documentation Hearing reviews.

74030.25 Community Revocation Hearings

Revocation Hearings are normally held in the community near where the alleged violation occurred, except in the case of institutions operating Parole Violator processing units, unless the parolee has been transferred to an institution for custodial reasons or because of county jail overcrowding.

74030.25.1 Revocation Procedures

Revocation Hearings shall be held within court mandated time frames from date of arrest or date of hold. Pre-revocation Hearings may be held as provided in BPT 2646.

Upon receipt of the violation report, case records staff shall determine if the case must be forwarded to the Revocation Screening Calendar.

74030.25.2 Waiver of Revocation Hearing

Parolees, except those scheduled for psychiatric attention and return, are permitted to waive the Revocation Hearing.

74030.25.3 Unconditional Waiver of Revocation Hearing

An Unconditional Waiver includes a waiver of any right to a personal appearance before the BPT to contest the charges against the parolee but shall not be an admission of guilt. The parolee shall not later request a hearing, but may appeal the amount of time assessed by the BPT.

74030.25.4 Optional Waiver of Revocation Hearing

Revised December 24, 1992

A parolee who is undergoing criminal prosecution may conditionally waive the Revocation Hearing, but retains the option to later request a hearing.

Upon receipt of a signed Optional Waiver, the BPT shall determine whether there is good cause to revoke parole. This determination shall be made without a hearing or personal appearance by the parolee.

If the BPT orders parole revoked and the parolee returned to custody, the parolee then may request a Revocation Hearing following adjudication of criminal charges.

A hearing request shall be submitted no later than two months before expiration of the revocation period.

74030.25.5 Post Revocation Hearing Procedures

Revised December 24, 1992

Upon receipt of the BPT Form 1103, case records staff shall review the action including eligibility/ineligibility to earn applicable credit for accuracy and post it to CDC Form 112.

The Revocation Release Date (RRD), Projected Release Date (PRRD), Discharge Review Date (DRD), Controlling Discharge Date (CDD), and the Projected Controlling Discharge Date (PCDD) shall be computed and posted to the CDC Form 112, BPT Form 1103, and the CDC Form 144.

One copy of the BPT Form 1103 and one copy of the first page of the BPT Form 1103 shall be sent to the Parole Agent. The Parole Agent shall provide a copy of the first page of the BPT Form 1103 to the affected parolee.

One copy of the BPT Form 1103 and a copy of the violation report shall be sent to research. The canary copy of the BPT Form 1103 shall be sent to the BPT.

Once any action is taken by the BPT, case records staff shall post the action to the CDC Form 112. The PRRD, RRD, DRD, and the CDD shall be computed and posted to the CDC Form 112, the BPT Form 1104, and the CDC Form 144.

Two copies of the BPT Form 1104 shall be sent to the Parole Agent, one copy of the BPT Form 1104 shall be sent to the BPT, and one copy of the BPT Form 1104 and one copy of the violation report shall be sent to research.

74030.25.6 Revocation Screening Calendar

Revised December 24, 1992

If the BPT takes action to schedule the matter for revocation, post the action to the CDC Form 112 and wait for the revocation results (BPT Form 1103).

If the BPT revokes parole for a specified amount of time, hold the BPT Form 1104 until a signed Unconditional Waiver is received.

Upon receipt of the BPT Form 1101 and if parolee accepts offer, then post the action to the CDC Form 112.

Compute the RRD, PRRD, DRD, PCDD, and the CDD and post to the CDC Form 112, BPT Form 1104, and CDC Form 144.

If parolee rejects the offer, post the date of the rejection and the schedule for revocation proceedings on the CDC Form 112.

Dates shall be recomputed upon receipt of the BPT Form 1103.

74030.26 The Call Sheet

Revised December 24, 1992

Approximately three days prior to the scheduled meeting of the BPT, a final Call Sheet shall be prepared showing the order of calendar appearance of each inmate.

Distribution shall be as follows:

- Original to AW, Custody.
- Balance as required by local procedures.

The Call Sheet, listing the order of calendar appearance, psychiatric referral cases, caseload identification, and other related data is used as an administrative tool by both the BPT and facility staff.

74030.27 Removal of Cases From Calendar

Revised December 24, 1992

If a calendared case does not appear as scheduled due to an emergency transfer, hospitalization, refusal to appear, etc., the name shall be lined out on the panel's copy and the reason for the nonappearance listed.

In such cases, the Cumulative Case Summary shall be removed to preclude its unnecessary review by the panel.

However, if an "absentia determination" is to be made, the Cumulative Case Summary will be left for that purpose. (Specific information pertaining to the case may be obtained from the C-File if required.)

74030.28 Absence of Inmate at Hearing

The C&PR shall inform the officers handling the BPT line to inform the panel whenever an inmate may not be able to appear in regular calendar order.

This notification shall be given to the panel at least one case in advance of the absent inmate's scheduled appearance in order to prevent an unnecessary review of the case.

74030.29 Inmate Refusal to Appear For Hearing

Revised December 24, 1992

In all cases where an inmate refuses to appear on a BPT Calendar, a CDC Form 110--A, Waiver of Release Consideration, shall be prepared. Whether or not signed by the inmate, this form shall provide the inmate's stated refusal to appear and the reason if known.

If signed by a staff member, it shall denote the fact that the inmate has been contacted in person and has refused to appear, stating the reason if known.

This form shall be presented to the BPT panel before any determination is made and shall be subsequently filed in the inmate's C-File.

74030.30 Revisions

Revised December 24, 1992

The Deputy Director, Institutions Division, or designee shall be responsible for ensuring that the contents of this section are kept current and accurate.

ARTICLE 17—PREPARATION OF CALENDARS

Revised March 29, 2006

Updated November 18, 2008

74040.1 Policy

Department records shall be made available to the Board of Parole Hearings (BPH) at such times and in such form as the BPH may prescribe.

74040.2 Purpose

This Section sets forth procedures for scheduling, case preparation, and processing of cases for BPH hearings.

74040.3 Preparation

Preparation of a hearing calendar begins months in advance of the hearings. The processes shall be completed within the specified time frames.

74040.3.1 90-to-120 Days before Month of Hearing

A tentative computer listing shall be furnished to facilities by the BPH of life prisoners who should be scheduled for a hearing during a two-month period.

- The BPH shall continue to provide new and updated printouts every two months.

Facility staff shall review the listings and advise the BPH of the names and departmental identification numbers (CDC numbers) of prisoners who are:

- Entitled to a hearing during the period, but not included on the list.
- In need of rescheduling from previous months.
- On the list, but facility records reflect the inmate should not be scheduled.
- Ordered by the BPH to have an extended term hearing.

74040.3.2 90 Days Prior to Hearing

Prepare a tentative BPH calendar of those persons scheduled for hearings. The calendar shall include:

- Inmate's name.
- CDC number.
- Type of hearing.
- Psychiatric report designation (when appropriate).

The tentative calendar shall be widely distributed throughout the facility.

The C&PR's copy of the calendar shall contain the following information:

- County of commitment.
- Minimum Eligible Parole Date (MEPD).

A request for preparation of the appropriate report to the BPH shall be sent to the caseworker of each inmate.

74040.3.3 30-to-60 Days Prior to Hearing

The Correctional Counselor shall interview the life term inmate prior to the hearing and shall:

- Prepare a BPH report.
- Advise the inmate of hearing rights.

- Advise the inmate of the right to request an attorney. The BPH shall appoint an attorney if the inmate is indigent.
- Advise the inmate of their right to waive a hearing or ask for a continuance.

For life term cases, records staff shall prepare a BPT Form 1002, Life Prisoner: Parole Consideration Hearing Notice, and send an original and one copy for the inmate's signature.

The caseworker shall verify the trust fund balance to determine if the inmate is indigent or able to pay for an attorney. (See BPH Rule 2256.)

If the inmate declines representation, the inmate shall complete a BPT Form 1003, Life Prisoner: Waiver of Attorney or Withdrawal of Request.

If the inmate has a private attorney or had a private or State-appointed attorney at the previous hearing, the caseworker shall verify the attorney's availability for the hearing.

74040.3.4 45 Days Prior to the Hearing

The C&PR or designee shall prepare and transmit a FAX, or mail a copy of the calendar to the BPH scheduling unit containing the following information:

- Inmate's full name.
- CDC number.
- Attorney designation.
- Attorney's name and telephone number.
- Previous attorney (if applicable).
- County of commitment.

Hearings shall be scheduled according to the proximity of the counties from which the inmate has been sentenced.

- Schedule inmates from the same county in succession. This shall accommodate the DAs who plan to attend.

Restrictions

The following restrictions shall be considered:

- Microfiche cases shall not be scheduled on Mondays or Fridays.
- The Executive Officer or Chairman shall approve the scheduling of three subsequent hearings in one day.
- If three hearings are scheduled, ensure that none are microfiche cases.
- No more than one initial, rescission, or extended term hearing or any combination of the three shall be scheduled in one day.
- Normal starting times for hearings are as follows:
 - 9:00 a.m. and 2:00 p.m. (two hearings).
 - 8:30 a.m., 10:45 a.m., and 2:30 p.m. (three hearings).

The inmate shall be given copies of BPT Forms 1002, 1003, if applicable, and 1080, Notice of Date, Time, and Place of Hearing.

- Records staff shall make five photocopies of each form to be included in hearing packets.

Crime partner information shall be photocopied and placed in the miscellaneous section of each packet.

74040.3.5 35 Days Prior to Hearing

Revised September 25, 2007

Pull the C-File and prepare PC 3042 and 3043 notices. Mail notices to the following persons prior to any parole consideration or rescission hearing on a life prisoner:

- The judge who presided at the trial and conviction of the inmate.
 - Complete BPT Form 1087-A, Notice of Hearing – Judge (If the judge is retired, deceased, etc., send the notice to the presiding judge of the committing county.)
- The DA's office which prosecuted the case.
 - Complete BPT Form 1087-B, Notice of Hearing – DA, and mail to the DA of the county of commitment.
 - Fill in the exact date and time of the hearing in the space provided should the DA wish to attend.
- The law enforcement agency which investigated the offense.
 - Complete BPT Form 1087-C, Notice of Hearing. Include the location of the offense on the form.
- The attorney who defended the inmate at the time of trial.
 - Complete BPT Form 1087-C.
- The AG's Office.

- Complete BPT Form 1087-C. Include the county case number and victim(s) name. Indicate any change of venue cases.
- The law enforcement agency which employed the murder victim if the victim was a peace officer.
 - Complete BPT Form 1087-C.
- Victim, next of kin, immediate family member as defined in Section 3000 of the Title 15, support person, or counsel who has requested notice and has provided a current address. (Does not apply to rescission hearing.)
 - Complete BPT Form 1087-D, Victims Notice of Hearing.
- BPT Form 1006, Advance Information Sheet, shall be attached and sent with the BPT Form 1087-D.

BPH and C&PR Responsibilities

- The BPH shall notify the Office of Victim and Survivor Rights and Services (OVSS) of the authorization for the victim next of kin, immediate family member as defined in Section 3000 of the Title 15, support person, or counsel to attend the hearing.
- The OVSS shall notify the respective C&PR of the authorization and provide the necessary information to process a clearance for the scheduled attendee.
- Upon notification, the C&PR shall initiate a gate clearance per institution/facility procedures.
- A scheduled attendee shall only be excluded from attending a hearing based upon the criteria established in Title 15, Section 3176.3.
- The Warden/Designee shall immediately notify the Director, Division of Adult Operations, whenever a determination is made to exclude a scheduled attendee.
- Should a scheduled attendee be denied access, the Victim Services Representative (VSR) shall make personal contact and provide an explanation as to the denial. The VSR shall also provide a written notice to the denied attendee detailing the reasons for denial and the process for appealing the denial.
- The C&PR shall be designated as the institution/facility's VSR, with the Assistant C&PR as the back-up to the VSR. The Warden may identify additional staff to act as a designee for the VSR.

Reports

Psychiatric reports from the medical department and board reports from the caseworker are due for completion.

- C&PR is to be advised of any board reports not completed.
 - Photocopy six copies, one of each to the inmate and one in each of the five hearing packets.
- Schedule a C-File review upon the request of the inmate's attorney.
 - Schedule the inmate to review their C-File prior to the attorney review if requested.
- If the inmate waived the right to an attorney, the caseworker shall arrange a C-File review upon request of the inmate.
- Remove confidential folder from the C-File and check contents.
 - Complete CDC Form 819, Personal Information Disclosure Log.
 - Place a copy of the form in the confidential section of the C-File.
 - Original to the C-File.
- Records staff shall review all hearing packets for completeness.
 - Forward one packet each to the DA and the inmate's attorney by certified mail.
 - When returned, file the certified receipt in the inmate's C-File.

74040.3.6 10 Days Prior to Hearing

Revised November 18, 2008

Ten days prior to the hearing is the deadline for incorporating or sending material to the DA or the inmate's attorney for inclusion in the hearing packet.

- Any material received after this date shall be placed in an envelope to be given to both attorneys on the date of the hearing.
- The BPH Forensic Assessment Division's (FAD) evaluations must be delivered to the inmate whether or not it is received within ten (10) days of the hearing. (When available, the BPH FAD evaluation is delivered with the board report by the correctional counselor.)
- Immediately upon notification from BPH FAD that the evaluation has been completed, records staff will print the report from LSTS, attach

the CDC Form 128-B, General Chrono, with the inmate name and number already included, and forward to the mail room for priority legal mail service.

- Staff serving the BPH FAD evaluation via the legal mail process will have the inmate sign the CDC Form 128-B and return it to the mail room for delivery to the Case Records Board Desk.
- Mail Room staff will deliver the CDC Form 128-B within 24 hours to Case Records Board Desk staff for priority filing.
- Upon receipt of the CDC Form 128-B, the Board Desk staff will immediately file it in the Central File.

74040.3.7 5-to-7 Days Prior to the Hearing

Review hearing packets for completeness. Sign and date the BPT Form 1008, Life Prisoner Parole Consideration Hearing Checklist.

Update the master calendar with the names of attorneys who will attend the hearings.

74040.4 Documentation Hearing

The documentation hearing is conducted for the purpose of monitoring and recording the inmate's conduct, adjustment, and progress while incarcerated and occurs prior to the initial parole consideration hearing.

74040.4.1 Panel Composition

The documentation hearing shall be conducted by one deputy commissioner. A facility staff representative, knowledgeable about the individual case and facility programs, shall be available to advise and assist the panel in its evaluation and documentation of the inmate's progress.

74040.4.2 BPH Hearing — Victim Escort Procedures

Revised September 25, 2007

Victims, next of kin, immediate family members as defined in Section 3000 of the Title 15, support person, or counsel upon arrival at the correctional facility shall be processed and escorted to the hearing in accordance with the Department Operations Manual Chapter 6, Article 13, BPH.

74040.4.3 Inmate Hearing Rights

The inmate shall have the rights enumerated in BPH Rules 2246 through 2254.

74040.4.4 Documents Required

The material to be presented at these hearings shall consist of the:

- C-File.
- BPT Form 1009, Life Prisoner: Documentation Hearing, with the inmate's name, number, facility, sentence information, maximum term, and MEPD typed on the form.
- Parole documentation hearing board report.
- Psychiatric reports.

74040.4.5 Post Hearing Procedures

The CCRM shall schedule the inmate for a subsequent documentation hearing or parole consideration hearing as appropriate. Documentation hearing results shall be posted to the CDC Form 112, Chronological Inmate History.

The BPT Form 1009 shall be completed by the panel at the time of the hearing and shall be effective at that time.

A copy shall be given to the inmate.

The BPT Form 1004, Life Prisoner: Post-conviction Progress Report, the BPT Form 1009, the psychiatric evaluation, and any other documents designated by the panel shall be incorporated as a part of the "Board Addenda" to ensure availability to the initial parole consideration hearing panel.

74040.5 Initial and Subsequent Parole Consideration Hearings

If the inmate is found unsuitable, parole shall be denied and a written statement of the specific factual reasons for the denial shall be given to the inmate.

At the subsequent hearings, the panel shall consider the information developed since the last hearing.

The hearing panel may recommend to the inmate certain steps that may be undertaken to enhance the possibility of a grant of parole at a future hearing.

If an inmate is found suitable for parole, a tentative parole date shall be set.

74040.5.1 Panel Composition

Life

The panel shall be composed of three BPH staff, two of whom shall be commissioners.

Nonlife

The panel shall be composed of three BPH staff, two of whom shall be deputy commissioners.

74040.5.2 Inmate Hearing Rights**Life**

The inmate shall have the rights enumerated in BPH Rules 2245 through 2256.

Nonlife

The inmate shall have the rights enumerated in BPH Rules 2245 through 2252, 2254, and 2255.

74040.5.3 Required BPT Forms (Life Cases)

The following forms shall be available for use for life cases:

- BPT Form 1000, Life Prisoner Parole Consideration Worksheet.
- BPT Form 1000(a), Setting a Term-Life Prisoner Parole Denied.
- BPT Form 1000(b), Setting a Term-Life Prisoner Parole Granted.
- BPT Form 1001, Life Prisoner Decision Face Sheet.
- BPT Form 1001-A, Life Prisoner Hearing-Extraordinary Action and Decision.
- BPT Form 1002.
- BPT Form 1003.
- BPT Form 1004.
- BPT Form 1005, Life Prisoner: Parole Consideration Proposed Decision (BPH 2041).
- Life Prisoner: Parole Consideration Proposed Decision.
- BPT Form 1008.
- BPT Form 1080.
- BPT Form 1082, Continuation Sheet.
- BPT Form 1087-A, B, C, and D.

74040.5.4 Hearing Package Preparation

Three packages plus the original hearing material listed on the CDC Form 822 shall be prepared for use during the parole consideration hearing for non-life cases.

Four packages plus the original hearing material as listed on BPT Form 1008 shall be prepared for use during the parole consideration hearing for life cases.

Lifer and non-lifer packages shall contain letter-size dividers with side index tabs, divided into categories. Within each category, documents shall be filed together in reverse chronological order, beginning with the most recent dated document. The packages shall be divided into the following categories:

- Case Summary.
- BPH report(s) (all).
- Psychiatric report(s) (all).
- Prior BPH decisions (Adult Authority, Community Release Board [CRB], BPH).
- Notices and responses (current hearing) including official letters, fearful letters, and supporting letters.
- Legal documents:
 - POR.
 - Crime report(s).
 - Abstracts of judgment/Minute orders.
 - Charging documents.
 - Appellate court decisions.
 - Sentencing transcripts.
- Miscellaneous:
 - Crime partner decision forms, if any.
 - Notice of hearing rights.
 - Disciplinary reports since last hearing.
 - Other pertinent information developed since the last hearing.
 - Photographic evidence.
- For subsequent hearings include the last hearing transcript, not indexed.

Prior to Hearing

Prior to the hearing, the case records staff shall prepare the following forms:

- BPT Form 1000.

- BPT Form 1000(a).
- BPT Form 1000(b).
- BPT Form 1001.
- BPT Form 1004.
- BPT Form 1005.
- BPT Form 1081, if applicable.
- BPT Form 1082.

74040.5.5 Distribution of Packages

The following distribution is mandatory:

- One for each commissioner.
- One for the inmate's attorney.
- One for the representative of the DA's office.

74040.6 Parole Board Rules Hearings (In re Stanworth)

The California Supreme Court held that life prisoners who committed their offenses prior to July 1, 1977, are entitled to have parole dates established under the guidelines in effect prior to July 1, 1977.

The court further held that denial of the establishment of parole dates of these prisoners under the earlier guidelines violated the constitutional prohibitions against ex post facto laws.

74040.6.1 Eligibility

A life-term inmate is entitled to a parole consideration hearing under Parole Board Rules (PBR) if:

- The offense was committed on or before June 30, 1977, and
- The inmate presently has a parole date that was granted under BPH or CRB Rules, but has not received a parole date under PBR.

74040.6.2 Hearing Guidelines

The BPH shall use the parole consideration guidelines in the PBR 2200 through 2360 (CCR (15) (2) Reg 76, No. 21, 5/22/76).

74040.6.3 Panel Composition

The hearing shall be conducted by two deputy commissioners.

74040.6.4 Inmate Hearing Rights

The inmate shall have the rights specified in PBR C 2110 through 2119 [CCR (15) (2) Reg 76, No. 21, 5/22/76].

74040.6.5 Hearing Packets

Two hearing packets detailed in DOM 74040.3.7 shall be prepared for these hearings.

74040.7 Progress Hearings

A progress hearing shall be scheduled periodically after a life-term inmate has had a parole date established.

The panel shall determine whether a previously set parole date should be advanced because of the inmate's positive conduct in prison or whether there are changes in circumstances that might lead to an earlier parole date.

74040.7.1 Panel Composition for Progress Hearings

Progress hearings shall be conducted by a panel of three, two of whom shall be commissioners.

74040.7.2 Hearing Procedures

The inmate is not entitled to an attorney.

A representative from the DA's office of the committing county shall not attend.

No PC 3042 notices are required.

Progress hearings are scheduled as "trailers" to the regular lifer calendar or they may be formally scheduled.

74040.7.3 Procedures Prior to the Hearing

Reports required:

- BPH reports.
- Psychiatric report (when a previous panel has requested one for this hearing).

Completion of the report and disclosure to the inmate shall occur 30 days prior to the hearing.

Three hearing packets shall be prepared and include the documents listed on the CDC Form 823, Indeterminate Sentencing Law (ISL) Progress Hearing Checklist.

Complete the information required on the BPT Form 1007, Life Prisoner Progress Hearing Decision Face Sheet.

Complete the required information on the BPT Form 1004.

74040.8 Postponement or Rescission of Release

The parole date of an ISL inmate or of a life or nonlife PC 1168 inmate may be postponed or rescinded for good cause at a rescission hearing.

The BPH shall determine whether to initiate rescission proceedings.

74040.8.1 Procedures for Reporting

Staff shall report serious disciplinary behavior to the BPH, headquarters calendar, pursuant to BPH Rule 2451.

Cases shall be reported prior to the inmate's scheduled parole date.

- If a case has not been referred to the DA for prosecution, the case shall be reported within 15 days.

If the case has been referred to the DA, the case shall not be reported to the BPH until:

- Within 15 days after refusal to prosecute.
- Within 15 days after the criminal prosecution has terminated.
- The inmate is within 60 days of their scheduled release date.

The BPH shall note the report, take no action, or order the matter placed on calendar.

The decision shall be documented by the BPH, headquarters calendar, and a copy sent to the facility.

74040.8.2 Postponement or Rescission of Release Date

If an inmate with a previously established parole date receives a new commitment to prison, the parole date shall be rescinded and no hearing by the BPH is required.

The inmate may appeal the rescission only on the grounds that they are not the person sentenced by the new judgment.

The CCRM shall process the new commitment, post the CDC Form 112 indicating the parole date has been rescinded.

The CDC Form 112 posting shall read: _____ (Date of posting) parole date of (date of parole) rescinded per BPH Rule _____ (indicate applicable BPH Rule number).

- BPH Rule 2273 in the case of life inmates.
- BPH Rule 2308 for ISL and nonlife PC 1168 inmates.

74040.9 Hearings for Inmates with Changes in Legal Status

The inmate shall be scheduled for a parole consideration hearing pursuant to BPH Rule 2308(c).

- If the new term is for a determinate term, the parole consideration hearing shall be conducted within 60 days of the receipt of the new commitment.
- The legal status change shall be considered at the initial parole hearing as regularly scheduled or as would be scheduled considering the change in the legal status.

After the initial ISL parole hearing if a legal status change occurs, the inmate shall be scheduled immediately for a progress or subsequent hearing as appropriate.

74040.9.1 Pre-hearing Procedures

An inmate shall have the right to request the presence of friendly and/or adverse witnesses at a rescission hearing, BPT Form 1015, Notice of Right to Rescission Hearing.

The witnesses shall be called unless the hearing panel has specified reasons to deny the request.

Witnesses shall be screened under the procedures of BPH Rule 2668.

An inmate may request, subpoena, or subpoena duces tecum witnesses as provided in BPH Rules 2675 through 2682. If denied, the specific reason(s) for the denial shall be documented and a copy given to the inmate.

During the hearing, the inmate has the right under the direction of the hearing panel to question all witnesses.

An inmate is entitled to an attorney and may request assistance (BPT Form 1015).

PC 3042 notices shall be sent according to procedures outlined in DOM 74040.3.5.

74040.9.2 Documents Required

Prepare five hearing packets containing the following:

- A cover sheet with the following information:
 - Inmate's name.
 - CDC number.
 - Reception date.
 - Offense.

- MEPD.
- BPH parole date granted and parole date.
- PBR parole date granted, if applicable, and parole date.
- Dates of progress hearings, if applicable, and new parole dates.
- Copies of CDC Form 115s and Department investigative reports only.

If the basis for the rescission hearing is psychiatric deterioration, include copies of recent psychiatric chronos or other necessary information.

Copies of BPT Form 1080 and CDC Form 833, Record Information Release Authorization, shall be included.

Prepare BPT Form 1016, Summary of Rescission Hearing and Decision, with name and CDC number on the bottom of the form.

The C-File shall be available in the hearing room.

74040.9.3 Panel Composition

The rescission hearing for life prisoners shall be conducted by a panel of three, at least two of whom shall be commissioners.

For ISL inmates, the hearing shall be conducted by two deputy commissioners.

74040.10 Extended Term Hearings

The CCRM shall refer the case of any inmate for screening as ordered by the BPH.

The second screening shall be conducted by deputy commissioners who shall review the case including the retroactive calculation, CDC Form 678, Cumulative Case Summary Confinement Computation.

If the panel determines that the inmate shall receive PC 1170.2(a) recalculated Determinant Sentencing Law (DSL) release date, that shall be the decision and the inmate shall be notified in writing of the decision, CRB Form 1091, Third Screening Decision.

The cases referred for extended term hearings shall be reviewed by two commissioners within 90 days of reception by the Department.

Extended term hearings shall be conducted within 120 days of reception by the Department or 120 days from the date the Department received a new or amended abstract or any court order which modifies the original commitment.

A prisoner scheduled for an extended term hearing has the rights enumerated in BPH Rules 2245 through 2256.

The panel shall be composed of three BPH staff, two of whom shall be commissioners.

74040.10.1 Previously Retroactively Calculated

All legal status changes that might require a re-computation of a previously recalculated term shall be referred to a BPH panel for review.

Changes to retroactive PC 1170.2(a) or (b) terms include:

- Change in the base term used for the calculation.
- Change in the enhancements on the principal term used.
- Changes in consecutive (CS) offenses or their enhancements used in the calculation.
- Additional commitments, whether concurrent (CC) or CS.

Changes that do not affect retroactive term(s) include:

- Certification or changes in preprison credits.
- Changes in CC terms which are not part of the previously approved PC 1170.2(a) calculation.

Legal status changes which may affect the term shall be set forth in the "facts" section of BPT Form 1135, Miscellaneous Decisions.

The recommendation section shall contain the recommended action.

The BPT Form 1135 and related material shall be presented to a BPH panel for consideration action.

The determination of the hearing panel shall be computed by case records staff using CRB Form 1089, Serious Offender Face Sheet.

The miscellaneous section of the face sheet shall be used by case records staff to explain the method of computation.

Full distribution of the computation shall be completed.

The CRB Form 1094, Serious Offender Decision Face Sheet, and BPT Form 1135 shall be stapled together and filed in the addenda.

74040.11 Parole Hearing for Inmates Serving Life Terms

All inmates serving sentences of life without possibility of parole shall be scheduled for BPH review 30 years after reception by the Department and every fifth year thereafter (BPH 2817).

74040.12 Revisions

The Director, Division of Adult Institutions, or designee shall be responsible for ensuring that the contents of this Article are kept current and accurate.

74040.13 References

PBR §§ 2110 - 2119 and 2200 - 2360.

ARTICLE 18 — UNASSIGNED

ARTICLE 19 — PRE-RELEASE REFERRALS

Effective August 21, 1989

74060.1 Policy

Revised June 16, 1995

Prerelease referrals shall be processed within established time frames to assure timely reentry screening and assignment to Parole Agents.

PC 6264 requires that each inmate be reviewed for work furlough consideration at least 120 days prior to their scheduled parole date.

74060.2 Purpose

Revised June 16, 1995

This section sets forth the time frames and procedures for processing prerelease referrals.

74060.3 Release Defined

Revised June 16, 1995

Release on parole is the legal and physical transfer of an inmate from confinement in an institution to the supervision of a Parole Agent of the P&CSD.

Discharge is the termination of custody of any person committed to the Department accomplished either by expiration of the maximum sentence prescribed by law, official BPT/Narcotics Addict Evaluation Authority (BPT/NAEA) action or court order.

74060.4 Time Frames for Referral to P&CSD

Revised June 16, 1995

An inmate's case shall be scheduled for a prerelease referral to the appropriate parole region nine months prior to the anticipated release date.

Regular Cases

Cases having less than seven months remaining prior to the anticipated release date shall be processed as soon as possible.

Imminent Release

Where a calculated release date indicates release on parole must occur in the immediate future the procedures in DOM 82010 shall be followed.

A CDC Form 611, Release Program Study (RPS) is an informational document which specifies the inmate's:

- Proposed residence.
- Employment.
- Available resources.
- Interest in reentry/work furlough.
- Institutional adjustment.
- Prognosis for parole adjustment.

The completed RPS shall be returned to the facility case records office within the time frames established in DOM 81010.

Counselor

The counselor shall interview the inmate and prepare the RPS including:

- Special information pertinent to parole.
- Boldly document in the "C&PR Comments" section whether or not the inmate is subject to PC 2933 credit earnings and current work group assignment.

C&PR

After completing the RPS, the counselor shall forward the RPS to the C&PR by their supervisor.

Public Interest Case

The C&PR shall ensure that the RPS reflects the inmate's status. If the inmate is designated a "Public Interest Case" by Classification Services

pursuant to DOM 62010.4.3.3, a copy of the RPS and any supporting documentation shall be forwarded to the:

Assistant Director, Communications
California Department of Corrections
P.O. Box 942883
Sacramento, CA 94283-0001

Case Records Staff

Case Records staff shall forward the RPS and other material pursuant to DOM 74060.4.2 and 74060.4.3 to the parole region of the county of commitment at least 210 days prior to the scheduled release date.

While preparing the prerelease lists, Case Records staff shall identify and notify the CMO of those inmates who are required to provide blood and saliva samples pursuant to PC 290.2 and who have not yet complied with the requirement.

Dual Referral for Out-of-State

Dual referral prerelease packages for inmates referred for out-of-state placement shall be forwarded to both the parole region of the county of commitment and the Interstate Unit pursuant to DOM 74060.9.

74060.4.1 Location for Referral

Revised June 16, 1995

Pursuant to PC 3003, all inmates shall be paroled to the county of commitment as defined in DOM 81010 unless the case complies with the exception criteria in that section.

County of Commitment

Exceptions to placement in the county of commitment may be permitted in very unusual cases by P&CSD staff.

Counselor

When a pre-parole case is referred or re-referred to the county of commitment contrary to the inmate's expressed desires, the counselor shall include detailed information in the RPS as to the inmate's alternative release program.

If a RPS is returned to the facility and the inmate is not satisfied with the decision to release to a county other than that preferred by the inmate, the inmate may appeal that decision. See DOM 54100.

74060.4.2 Material Forwarded

Revised June 16, 1995

Case records staff shall forward the material specified in DOM 83000 to the appropriate parole region.

POC

If attendance at the POC is a special condition of parole or the case is referred "to be evaluated by POC," one completed and stamped "POC" copy of CDC Form 611, one inmate photo, and one copy of the Case Summary shall be sent to the region office.

74060.4.3 Photos

Revised June 16, 1995

Case records staff shall forward three inmate photos with the prerelease referral material sent to the parole region.

74060.5 Retention in the Department for Another Jurisdiction

Revised June 16, 1995

Occasionally, a California inmate may be paroled on their departmental term and retained within a Department facility under contract with another jurisdiction.

The following procedures have been developed to provide a uniform method of recording such transactions:

- The C-File shall be retained at the facility.
- A dummy file shall be forwarded to the Region I Records Office, including copies of:
 - CDC Form 112.
 - Case Summary.
 - Abstract/Minute Order.
 - Fingerprint Card.
 - Photograph.
- A Field File shall be forwarded to the Interstate Unit Office in accordance with established procedures.

- Under no circumstances shall the inmate/parolee be assigned an additional departmental identification number.
- The Daily Report of Arrivals and Departures will show the following entry under "Notices:"
 - B-12345 Doe, John Paroled 12-5-77 and retained on Oregon commitment pursuant to WICC/IC Federal Contract. Parole period: _____ DD: _____ CI&I: _____.
- CDC Form 112 shall be posted as follows:
 - **(Date)** Paroled-Interstate and remains under Oregon commitment per PC 11190 parole period _____ discharge date _____.
- Should the inmate/parolee be transferred, transfer information shall be forwarded to the Region I case records office for inclusion in the dummy file.
- Upon parole from custody under the other state's commitment, standard parole transfer procedures shall be initiated.
- Should an active parolee be accepted and received in a departmental facility on a contract basis, facility staff shall contact the appropriate region's case records office and request the C-File.
- The region's case records office shall have the responsibility of preparing the dummy file for their use prior to shipping the C-File.
- Upon discharge from parole on California term and remaining on contract case only, refer to DOM 72020 for procedures to be followed for processing the case.

74060.6 Parolees Released From Institution Subsequent To Revocation or Limited Placement

Revised June 16, 1995

Parolees may be released to parole subsequent to revocation or limited placement as follows:

- When a parolee is serving time in local custody, the Parole Agent shall aid the parolee to return to the previous parole program or develop a different program.
- When a parolee has been returned to a departmental facility for revocation, facility staff shall inform the agent-of-record at least 15 days prior to the scheduled release date of the inmate's proposed residence and other significant program information.

74060.7 Reentry Referral of Direct Discharge Cases

Revised June 16, 1995

To ensure that direct discharge cases are referred to the P&CSD for reentry screening, facilities shall:

- Identify inmates under PC 1170 commitments where the period of parole has been waived by the BPT.
- Complete Section A of the RPS on these cases and refer them to the parole region.

Inmates with direct discharge dates may request reentry consideration. Direct discharge cases shall be referred to P&CSD in the same manner as pre-parole referrals.

As a means of distinguishing direct discharge cases from pre-parole referrals, institution staff shall ensure that the parole date block of Section A of the RPS includes the word "DISCHARGE" in capital letters after the release date. Additionally, the C&PR comment section shall include the notation "Direct Discharge." Attachments to the RPS shall be the same as pre-parole referrals. Direct discharge cases shall not be referred to the parole units.

74060.8 Referral of Cases With Detainers

Revised June 16, 1995

Prior to prerelease referral case records staff shall ascertain the status of any detainer and the agency's intent.

If a detainer is to be exercised by a California agency, referral shall be made in accordance with procedures in DOM 74060.4. The RPS shall contain information that the inmate is scheduled for release to a detainer. When the release is imminent, the reentry coordinator of the region shall be contacted and advised of the status.

Case Records

If a detainer is to be exercised by an out-of-state or federal agency, referral shall be made to the appropriate region as determined in DOM 74060.4.1. The region shall be kept informed of the status of the detainer and/or pending release.

Files of inmates released to detainers shall be forwarded pursuant to DOM 74070.

74060.9 Referrals For out-of-state Placement

Revised June 16, 1995

The Interstate Probation and Parole Compact permits the placement of parolees out-of-state. Certain criteria are involved:

- The parolee was a resident of the receiving state.
- Has family ties in that state.
- Is able to obtain employment there.

74060.9.1 Transmittal Documents

Revised June 16, 1995

Pre-parole material shall be sent to the region designated according to the guidelines in DOM 74060.4.1. The additional documents specified in DOM 81010 for out-of-state parole referrals shall be forwarded to the Interstate Unit not more than 90 days prior to the scheduled release date.

Note: Forms must be complete and include necessary signatures.

Signatures

It is important that the signature element of the form carry the names of the California "Deputy Compact Administrator, Paroles" and "Supervisor, Interstate Unit" to ensure that the replies from out-of-state are directed to the Interstate Unit for appropriate follow-up. In the event the administrator of the out-of-state facility fails to reply on the date in closest proximity of the release date, the Interstate Unit shall attempt to expedite the matter and shall notify the institution accordingly. Practices differ among states and, therefore, the referral shall specifically indicate whether the parolee has a home, an offer of employment and legal residence in the proposed receiving state.

74060.9.2 Acceptance

Case Records Staff

If the proposed out-of-state placement is accepted by the receiving state, the Interstate Unit shall advise the institution, provide reporting instructions and authorize release to the out-of-state program. At the time of release, prepare a CDC Form 1532, Probation Form II-Report of Sending State Upon Probation and/or Parole Being Sent to Another Jurisdiction in quadruplicate; original to the C-File, three copies to the Interstate Unit (one copy for the receiving state and one copy for the inmate/parolee).

74060.9.3 Rejection

Counselor

If the proposed out-of-state placement is rejected, the Interstate Unit shall advise institutional staff of the rejection. A copy of the rejection form shall be forwarded to the institution. The counselor shall share the reason for the rejection of supervision out-of-state with the inmate unless restricted from doing so by the other state.

74060.10 BPT Investigation and Program Development Requests on ISL Cases

Occasionally the BPT will require additional information concerning a particular case because the information either was not available or was not included in the Case Summary at the time it was prepared.

In general, a request for a special investigation and/or program development shall be made when direct contact with an outside party or agency appears necessary.

When such a report is requested, the information furnished shall include:

- The background and purpose of the referral.
- Suggested or required deadline for completion (unless there are extenuating circumstances, at least 30 to 60 days shall ordinarily be allowed for the completion of the report).
- Commissioner or Deputy Commissioner requesting the investigation.
- The general and specific areas to be included in the report.

If a specific agency, official, or person is involved in the investigation, the request shall include the name of the agency, official, or person to be contacted. In some instances, the request shall delineate the specific information required. In other instances, only a general request shall be made.

74060.10.1 Types Of Requests

Before a parole date is set or an affirmative action is taken by the BPT, the matter is usually referred to the BPT, Investigation Unit.

After a parole date has been set or an affirmative action is taken by the BPT, the matter is usually referred to the appropriate parole region.

Categories of Program Development Reports.

- P&CSD.
 - Home and Care placement information.
 - Availability of benefits (e.g., retirement, Social Security).
 - Hospitalization or similar release possibilities.
 - Other release assistance.
- BPT, Investigation Unit.
 - Additional details of instant offense.
 - Information on prior arrest or conviction.
 - Official advice of inmate's progress.
 - Community and/or official attitude with regard to a specific case.
 - Other similar possibilities.

74060.10.2 Determination of Unit for Investigation

The primary reason for the referral shall govern the unit to which the referral is sent. In any case where the institutional staff have a serious doubt as to whether the P&CSD or the BPT Investigation Unit, should handle the investigation, the matter will be referred to the BPT's Executive Officer.

74060.10.3 Material Forwarded With Request

The following material shall be forwarded with the request:

- Two copies of an up-to-date case summary.
- Photos of the inmate.
- Second and third copies of CDC Form 247, Request for Special Investigation and/or Program Development.
- Copies of any other material pertinent to the investigation.
- Material for referrals to P&CSD shall be sent to the RPA.

74060.10.4 Channeling Of Completed Investigations

The results of the investigation and a copy of the initial CDC Form 247, Request for Investigation and/or Program Development, shall be routed to the region for review, approval and transmittal to the institution. All attachments submitted by the institution at the time of the referral shall be returned to the institution with the report.

The unit office shall retain a copy of the CDC Form 247, a copy of their investigation results and the case summary.

This material shall be retained for six months and, if no further information requests are received, destroyed.

74060.11 Revisions

The Deputy Director, Institutions Division, or designee shall ensure that the contents of this section are current and accurate.

74060.12 References

ARTICLE 20 — INSTITUTION RELEASES

Revised February 23, 1995

74070.1 Policy

It is the policy of the Department to release inmates on their properly calculated release date.

74070.2 Purpose

This section sets forth uniform procedures for the release of individuals.

74070.3 Uniform Procedures

All inmates shall be released on the scheduled Indeterminate Sentencing Date (ISL) or Determinate Sentencing Date (DSL) release date. This includes Saturdays, Sundays, and holidays.

Paperwork and routine dress-out procedures on cases with release dates on weekends or holidays shall be completed prior to the weekend or holiday.

74070.4 Released To Holds

Inmates that have ISL/DSL release dates may be released to a "Detainer" placed by another jurisdiction.

Refer to DOM 72040.6 and 72040.7.

The CDC Form 161, Wardens' Checkout Order, shall be prepared as outlined in DOM 74070.21 of this manual and shall reflect both the release to custody date and the actual parole date to facilitate proper OBIS entry.

A CDC Form 801, Detainer, shall accompany the inmate upon release to ensure that he/she remains in custody until their actual parole date.

Parole agents, when submitting releasing instructions to the institutions, shall make special note of cases that, due to medication needs or other case factors, require immediate contact with the Parole Agent upon release.

- The Parole Agent shall initiate Temporary Community Release (TCR) procedures to allow release on a regular business day, or shall make arrangements to pick up the inmate on the actual release date.

74070.5 Out-of-State Releases

Revised January 4, 2006

Authorization for parole to another state is reported to the Division of Adult Parole Operations, Interstate Parole Unit by the receiving state. The Interstate Parole Unit shall transmit, to the appropriate institution, an official memorandum or FAX that outlines release date and reporting instructions.

74070.6 Release or Discharge

The release of a prisoner from an institution upon expiration of the maximum sentence (discharge) or upon completion of sentence prior to parole may occur at anytime after 12:01 a.m. on the date of their scheduled release.

74070.7 FAX Authorization for Release

The routine use of FAXs for parole release authorization is discouraged; however, it may be used in emergencies.

When FAXs are used, the agent shall prepare a parole release authorization and route the original to the regional office with a copy to the institution.

For FAX releases, the unit supervisor shall notify the institution by FAX no later than 10:00 a.m. (sending time from the unit) on the day preceding such release, and send a copy of the FAX parole release authorization to the region.

Refer to DOM 74070.5 and 74070.9 of this manual for information.

74070.8 Modification of ISL Release Up To 60 Days

BPT Rules permit a 60-day advancement of a previously established ISL parole date.

Conditions for advancement of release date are:

- The release date shall not be prior to the inmate's Minimum Eligible Parole Date (MEPD).
- The Board determination granting release on parole does not specifically direct that the parole date not be advanced. A prior advancement by the BPT shall not, in itself, preclude the advancement per parole procedures in the BPT Rules.
- There are no unresolved or administrative prohibitions to a release on parole, such as notices, pending disciplinary or incident reports, rescission proceedings, etc.
- Any condition upon which the parole date has been specifically conditioned has been fully met.
- The Department's staff have authorized, in writing, the earlier release in accordance with the BPT Rules.

74070.9 Modification of ISL Release by FAXs

In unusual cases, when time factors make it impossible to process a parole release authorization advancing a parole date through normal channels, the unit supervisor is authorized to certify to their review of the record and compliance with BPT Rules.

- The C&PR may also certify to BPT Rule compliance.
- These procedures shall only be used in critical time factors.

In such cases, a regular CDC Form 1504 shall be immediately prepared, signed by the unit supervisor, and forwarded to the institution for certification and appropriate processing.

74070.10 Modification Of ISL Releases Over 60 Days

Institutional or regional staff may refer, to the C&PR, a case for consideration of advancement of release date.

The C&PR shall place the case on the BPT Miscellaneous Proceedings Calendar when circumstances warrant an early Progress Review Hearing. Examples of such circumstances are:

- Terminal illness.
- New or modified material which might have significantly altered the panel decision had the information been available at the time of the hearing.
- Completion of requirements specified by the BPT.
- Exceptional employment offer which would not be available at the time of established release date.
- Long-term psychotherapy cases whose progress dictates an earlier release consideration.

Sixty-Day Maximum Advancement to Foreign Jurisdiction ISL Releases Only

Advancements may be granted to inmates with Detainers from other jurisdictions, including deportation orders.

CCRM shall ensure that all legal requirements have been met, and in appropriate cases, the inmate shall either have waived extradition or extradition proceedings shall have been completed.

74070.11 Release Program Study (RPS)

P&CSD staff shall return the completed RPS and the Conditions of Parole to the institution no later than 60 days prior to the inmate's scheduled release date.

The RPS shall include specific instructions as to when, where and to whom the parolee should report.

The prospective parolee may have a legitimate reason for a delay en route to the parole program. The Parole Agent's decision in these matters shall be part of any parole release authorization instructions.

Any delay en route to the parole region shall not exceed seven calendar days unless the unit supervisor authorizes a longer delay.

A copy of the RPS shall be given to the inmate.

74070.12 Conditions Of Parole

A CDC Form 1515, Notice and Conditions of Parole shall be prepared setting forth the conditions of parole or release.

The BPT shall establish and impose the special parole conditions and the length of parole within the statutory maximum for all life prisoners, non-life PC 1168 prisoners, and ISL prisoners released on ISL parole dates.

Under guidelines specified by the BPT, the department shall establish and impose the special conditions of parole and the length of parole within the statutory maximum for all DSL prisoners and ISL prisoners released on DSL release dates as retroactively calculated.

Distribution of the form is:

- Original to C-File.
- One copy to the Field File.
- One copy to the releasee at time of release.

74070.13 Advising Inmate

At least 45 days prior to the scheduled release on parole, a CC-I shall explain the RPS, the conditions of parole and the reporting instructions to the inmate.

The inmate shall also sign the Notice and Condition of Parole Form.

74070.14 Inmate Refusal to Sign Form 1515

If an inmate in an institution refuses to sign the CDC Form 1515, the CC-I shall prepare a CDC Form 115, Rules Violation Report; a brief CDC Form 1521-A, Charge Sheet; and a CDC Form 1521-D, Recommendation Review Decision Sheet; and advise the C&PR.

The inmate shall be charged with violating CCR (15) (3) 3315(a)(3), by the specific act of "Refusing to Sign Conditions of Parole". The C&PR shall telephone BPT, Scheduling Unit, and schedule the case for a revocation hearing which should be conducted prior to the inmate's release date.

See DOM 76010 for procedures that relate to Civil Addict cases.

74070.15 Direct Releases From Court

An inmate released on parole directly from court, placed in a reentry facility, or otherwise released and who has not previously signed the CDC Form 1515, or who has not signed the Notice and Conditions of Parole after special conditions of parole have been added to the form, shall be asked to do so by the Parole Agent during the next interview.

If they refuse to sign the form, the assigned Parole Agent shall inform the unit supervisor.

The unit supervisor shall:

- Ensure that the inmate/parolee is placed in custody.
- Direct the agent of record to prepare a Violation Report and refer the case for a revocation hearing.

When the inmate reads and signs the conditions of parole, they shall also be given a copy of the CDC Form 1570, Guidelines to Parole, and a copy of the communication packet from the Deputy Director, P&CSD, and the Chairperson of the BPT.

74070.16 Release Statement and Clothing Authorization

Prior to releasing an inmate to either discharge or parole, the C&PR of the releasing institution or the appropriate CC-I shall have a CDC Form 102, Clothing Room and Accounting Office, prepared with the assistance of the releasee.

Upon release, the inmate/releasee shall sign the CDC Form 102, acknowledging receipt of cash, check, and/or clothing, or any combination thereof.

Distribution of this form is printed thereon.

74070.17 Release Clothing

Inmates should be encouraged to supply all or a portion of their release clothing.

Institutions may offer alteration services on garments privately furnished for release purposes.

State-issued release clothing shall be kept to a minimum.

Any state-issued release clothing shall be charged against the inmate's release allowance.

74070.18 Transportation

All transportation to the desired location shall be arranged by the institution.

Funds for the transportation are derived from the inmate's release budget.

Family or friends who wish to meet the parolee at the institution shall be instructed to write or telephone the institution several days prior to the scheduled release, confirming their intent and indicating their time of arrival.

The Parole Agent shall indicate on the parole release authorization if the parolee plans to travel from the institution by private transportation.

74070.19 Property Receipt Release

The receiving and release sergeant shall complete the CDC Form 122, Property Receipt Release, on all inmates and distribute the form as follows:

- Original to the inmate.
- Copy to the Property Room.
- Copy retained by the Receiving and Release (R&R) Room.

74070.20 Release Clearance

Prior to physical release of the inmate, the CDC Form 162, Release Clearance, shall be prepared. It shall be taken by the inmate to various institution units for clearance.

When completed, it shall be returned to the releasing officer in R&R.

74070.21 Check Out Order

Prior to release of the inmate, records office staff shall prepare the CDC Form 161, Checkout Order, and arrange distribution as required by institution operations.

The following data shall be typed on the CDC Form 161:

- Date and time of release.
- Type of release.
- CDC number.
- Commitment name.
- Controlling Discharge Date.
- Name of parole unit and county of residence.
- Parole region.
- Length of parole period.

Audit

The CDC Form 161 shall be typed by clerical staff. As part of the prerelease audit, the release information on the form, shall be verified at a level not less than that of a Case Records Specialist as the form is used by the institution as the source document for OBIS input and therefore, its accuracy determines the accuracy of parole information in OBIS.

Staff at a level not less than Case Records Specialist shall sign the CDC Form 161 as the preparer after completing the prerelease audit of the C-File.

The final approval of the release for the Wardens and the final signature on the CDC Form 161 shall be by staff at not less than the CC-III level.

Forward

After the inmate's release, a copy of the Checkout Order shall be forwarded by the facility records office to the assigned parole unit along with the rest of the release package.

The package of documents to be forwarded to the parole unit is to include the following:

- CDC Form 102, Release Statement and Clothing Authorization.
- CDC Form 1515, Conditions of Parole.
- DOJ, Notice of Registration Requirements.
- Copy of CDC Form 161, Warden's Checkout Order.
- CDC Form 138, Fingerprint Card(s).

After receipt and review of the CDC Form 161 by parole unit staff, if corrections are required, a completed CDC Form 1506, Notice of Transfer/Correction, shall be submitted to the Regional Records Office. After the OBIS data has been corrected, the CDC Form 1506 is to be destroyed.

74070.22 Registration Requirements

PC 290(b), PC 457.1(c), and H&SC 11590, mandate that officials in charge of the place of confinement shall inform the inmate of their registration requirement if convicted of certain sex, arson, and narcotics offenses upon their discharge, parole, or release.

Any inmate committed as a Mentally Disordered Sex Offender (MDSO) must register, even if the MDSO commitment was due to a seemingly non-sexual offense, e.g., arson, pursuant to W&I 6316.

74070.22.1 Released On Appeal Bond

Prior to release on appeal bond or release to out-of-state or federal custody, or to any other hold, the official in charge of the place of confinement shall inform inmates of their registration requirements pursuant to PC 290, 457.1 and/or H&SC 11590.

Inmates taken out-to-court who are subject to registration shall have that requirement noted next to the release date on the Department's Detainer, e.g., "individual subject to registration requirements pursuant to PC 290 or 457.1 and/or H&SC 11590."

74070.22.2 Interstate Compact Parolees

Revised January 4, 2006

An inmate paroled to California from another state or a federal facility whose criminal history indicates any offense, which if committed or attempted in California would have been registrable pursuant to the above Sections, shall be informed of their duty to register by the Interstate Parole Unit.

74070.22.3 CYA Ward Requirement

Pursuant to PC 290, any juvenile paroled or discharged after January 1, 1986, who was made a ward of juvenile court and committed to the CYA for a specific sex offense is required to register.

A juvenile's duty to register for offenses adjudicated by a juvenile court shall terminate upon reaching age 25.

74070.22.4 Civil Addicts

Inmates committed to the custody of The Director under the Civil Addict Program are not required to register as narcotic offenders (W&I 3054).

74070.22.5 Notifying Inmates of Duty to Register

Staff shall notify inmates of their duty to register by requiring them to read and sign the SS Form 8047, Notice of Registration Requirement.

74070.22.6 Refusal To Sign Notification Form

If an inmate refuses to read and/or sign the SS Form 8047, staff shall order the inmate to comply with the law.

If the inmate refuses to obey the direct order, staff shall prepare a CDC Form 115, citing CCR 3005 (b), Conduct, Obeying Orders.

74070.22.7 Registration Time Limits

The requirement to register pursuant to PC 290 is ongoing, except as provided for juveniles and for persons who have obtained a Certificate of Rehabilitation.

Facility staff shall notify inmates of their registration requirements upon each discharge, parole, or release regardless of whether their records indicate that they were notified upon release from a previous commitment.

Staff shall notify inmates of their requirement to register pursuant to PC 457.1 only if they are currently being confined for that offense and ordered to do so by the court.

They shall be required to register for five years after discharge or expiration of parole on a first-time conviction and shall have a lifetime requirement for subsequent PC 457.1 convictions in which case the procedures described for PC 290 above shall apply.

Staff shall notify inmates of their requirement to register pursuant to H&SC Code 11590 only if they are currently being confined for that offense.

74070.22.8 Residency Plans

PC 290 and 457.1 and H&SC Code 11590 requires that the official in charge of the place of confinement shall obtain the address where the inmate expects to reside upon discharge, parole or release not later than 45 days prior to the scheduled release.

Notification forms shall then be distributed so as to be received by the appropriate agencies no more than 60 days and at least 30 days prior to the inmate's discharge, parole or release.

Residency plans may be unresolved in advance of the scheduled release.

Institution staff shall diligently attempt to obtain address information, but if the address cannot be established, staff shall enter "No Address Known" on the notification form and shall ensure that the parole unit's address and telephone number are included on the form.

If prior to release the address becomes known, staff shall expeditiously notify the agencies to which the form was sent. The SS Form 8047 must be completed in all respects, signed and a copy given to the inmate at the time of their release with a copy placed in the C-File.

74070.22.9 Distribution of Notices

Copies of the SS Form 8047 shall be distributed by the institution as follows:

- Goldenrod original:
 - To DOJ, Registration Unit.
 - Yellow Copy:
 - To police department or Sheriff's Office where the person will reside.
 - Blue Copy:
 - To DA's Office where case was prosecuted.
 - Green Copy:
 - To the court of conviction.
- Note:* Blue and Green copies not required for PC 457.1 or H&S Code 11590 registrations. Discard.
- Pink Copy:
 - To Parole Agent in unit of supervision.
 - White Copy:
 - To the inmate.
 - One additional photocopy:
 - To C-File.

74070.23 Release Allowances

Inmates that have served in excess of six months shall be given a total of \$200.00 cash, minus the cost of release clothing and public transportation to the release program.

This provision is not applicable if the inmate is released to the custody of another state or to the custody of the federal government.

Payment of any remaining balances of release funds shall be forfeited by the parolee who willfully absconds after release on parole.

74070.23.1 Mental Health

Inmates paroled to DMH are entitled to release funds.

Those inmates transferred to and subsequently paroled from DMH shall be provided release funds from the "hub" institution.

- CMF is the hub institution for northern state hospitals.
- CMC is the hub institution for southern state hospitals.
- CIW is the hub institution for all female inmates in mental hospitals.

74070.23.2 Work Furlough

A furlougee may receive advances of up to \$100 of the \$200 total release funds.

- A furlougee subject to PC 1168 who is returned to the institution and whose parole date is rescinded shall receive an amount of release funds determined in part by the amount of time served after rescission.
- A furlougee who serves six months or more after rescission shall receive \$200.
- A furlougee who serves less than six months may receive up to \$200 with the specific amount subject to the Parole Agent's decision.
- A furlougee subject to PC 1170 who is returned to the institution for administrative reasons shall receive \$200, minus any amount previously advanced during work furlough.

Repayment of program costs, such as food and rent provided by the facility, must come from sources other than the release funds advancement.

74070.23.3 Releases To USINS

Inmates released to the custody of immigration authorities for the purpose of deportation shall not receive any release funds unless it is subsequently determined they will not be deported. Funds shall be disbursed by the Parole Agent.

74070.23.4 CYA Awards

Wards of the CYA released in-state shall be given a maximum of \$10 cash, transportation expenses and, if necessary, up to \$20 worth of clothing for which cash cannot be substituted.

If a ward is being released to an independent placement, a maximum of \$25 cash may be given.

To ensure that the ward received the \$25 for an independent placement, the placement report shall clearly indicate that the ward is being independently placed.

Funds may come from the ward's trust fund money if it was not earned for work in an institution and the ward gives his/her authorization (per W&I Code 1752.81) or from institution support funds.

74070.23.5 Disbursements of Funds

It may be appropriate to give the inmate a portion of the release allowance as they depart from the institution with the remainder sent to their Parole Agent to be given to them within 60 days of the inmate's release date.

This disposition shall be specified in the parole release authorization.

Inmates released to the custody of another state or to the federal government shall not receive a release allowance.

Inmates released to the jurisdiction of a city or county are eligible for release allowance.

74070.23.6 RTC Allowances

All parole violators assessed revocation time by the BPT are entitled to receive release allowance funds.

RTC's or Civil Addict Out-Patient Returnees serving six consecutive months or more shall, upon subsequent release from confinement, be provided \$200 in release allowance monies (less cost of release clothing and public transportation).

RTC's or Civil Addict Out-Patient Returnees serving less than six months shall be granted a pro rate share of the allowance of \$1.10 for each day or part thereof in custody on revocation status not to exceed \$200.

If the person is serving a local concurrent sentence that exceeds the BPT-ordered revocation time, the monies shall be granted to the inmate only upon completion of the local concurrent term and subsequent release from jail.

Parolees serving local jail sentences and who have not had their parole revoked by the BPT do not qualify for the release allowance. These cases shall be provided out of P&CSD assistance funds.

74070.24 Daily Parole FAX

Prior to noon each workday, the institution CCRM will transmit a FAX to each parole region, giving the number, name, region, and unit code of persons released on parole the previous day.

74070.25 Material Forwarded To Parole Unit

When an inmate is released on parole, the following items shall be forwarded to the appropriate parole unit:

- Any correspondence and progress reports.
- A copy of the Notice of Registration if required.
- A copy of Notice and Conditions of Parole.
- A copy of CDC Form 102, Release Statement and Clothing Authorization.
- Any recent medical, psychological, or psychiatric reports.

On re-parole cases, parole supervision reports, BPT reports, parole account records, and readmission summaries shall also be contained in this folder. Where applicable, a copy of the Notice of Registration form required under PC 290 shall be included.

The CCRM shall ascertain that the revocation release date and the new DSL discharge date are posted to the CDC Form 112 on re-parole cases.

74070.26 Records Forwarded To Regional Offices

Immediately following notification of the release of each inmate, all facility records including medical records, except the inpatient hospital chart and X-rays, shall be forwarded to the facility records office.

The Records Office shall forward the complete file on the parolee to the appropriate region no later than ten working days after release.

Any material received after the records have been forwarded shall be reviewed by a supervisor and only critical case information shall be sent to the regional records office as miscellaneous mail.

74070.26.1 Disposition Released to Custody

The complete file of parolees released to custody shall be forwarded to the appropriate regional office as follows:

- **Paroled to California Detainer.** The complete file shall be forwarded to the region in which preparole referral was accepted.
- **Paroled to a California County Sheriff Pending Extradition.** These are cases in which the inmate is fighting extradition. The complete file

shall be forwarded to the region in which the preparole referral was accepted.

The regional reentry coordinator of that region shall be contacted and advised of the release to custody so the matter can be followed by the assigned Parole Agent.

Upon extradition, the case shall be transferred to the Interstate Unit in accordance with established transfer procedures.

- **Paroled to Local Sheriff for Pick-Up by Another County or State.** These are cases in which the other agency could not arrive at the institution on the release date. In California cases, these records shall be forwarded to the region of referral.

- **Parole to U.S.Marshall or USINS.** The complete file shall be forwarded to the region of referral.

74070.27 Certificate Of Discharge

A CDC Form 163, Certificate of Discharge, shall be prepared by the Records Office, extracting necessary data from the C-File for all inmates/parolees whose legal jurisdiction of the Department has been terminated either by expiration of maximum term or expiration of the BPT's term.

One CDC Form 163 shall be prepared. The form shall provide the following information only:

- Dischargee's departmental identification number.
- Dischargee's legal commitment name.
- Dischargee's official date of term(s) expiration.

74070.27.1 Facility Distribution

The CDC Form 163 shall be given to the inmate prior to departure from the facility.

74070.27.2 Parole Distribution

The Regional Records Office shall forward the CDC Form 163 to the parole unit for transmittal to the parolee. The Parole Agent shall mail the certificate to the parolee after the discharge date.

74070.28 Exchange Of Prisoners

GC 12012.1 allows the Department provisions for inmates who request transfer to their own country to complete a prison sentence.

Refer to DOM 62040 for criteria and referral procedures.

74070.28.1 Case Records Responsibilities

Upon an inmate's transfer to a federal prison prior to transferring to a foreign country, the CCRM shall post to the CDC Form 112, "Transferred to (name of federal prison) for verification hearing pursuant to Treaty on the Execution of Penal Sentences."

When notified that the inmate has actually transferred to the foreign country, the CCRM shall:

- Enter on the Daily Report of Arrivals and Departures "Discharged effective date; transferred to (name of foreigncountry)."
- Post discharge on CDC Form 112.
- Forward all records to the nearest regional parole records office for microfiling and subsequent transfer to the Archives Unit.

74070.29 Revisions

The Deputy Director, Institution Division, or designee shall be responsible for ensuring that the contents of this section are kept current and accurate.

11368.	Forging, Altering, etc., Prescription
11550	Prohibited Using, or Being Under Influence of, controlled Substance.

ARTICLE 21 — PAROLE PROCEDURES

Effective September 12, 1989

75010.1 Policy

Pursuant to PC 3000, sentences pursuant to PC 1168 or 1170 shall include a period of parole unless it is waived by the BPT.

75010.2 Purpose

The purpose of this section is to provide the procedures for processing cases after inmates are released on parole.

75010.3 Audit and File Procedures

Cases are received either upon parole from a facility or upon inter-regional transfer. Cases released directly to parole from court [PC 1170(a)(2)] are forwarded from the Legal Process Unit (LPU) after processing.

Records received for each parolee shall be reviewed for accuracy of content and compliance with all legal and policy requirements by the CCRM within the Department.

The CCRM shall ensure accuracy of content and compliance with all legal and policy requirements of each case record in their region and ensure that records are received for each parolee.

The CCRM shall ensure that the complete C-File is audited, including:

- Verification of calculations for parolee-at-large (PAL) revocation time on CDC Form 112, Chronological Inmate History.
- Check for registration requirements and PC 3058.6 and 3058.8 notices.

If a file is received that does not reflect the correct discharge date or a court document is received amending the term or credits; or at-large time is applied, a change of CDC Form 683, Discharge Date Notification, shall be prepared and disseminated. See DOM 75010.14.2 for distribution of forms.

75010.3.1 CDC Form 144, Control Card

The CDC Form 144, Control Card, shall be updated and filed alphabetically according to the controlling discharge date (CDD) or discharge revised date (DRD) whichever is earliest on each case. Information posted to this card shall be posted in pencil.

On PAL cases, the CDC Form 144 shall be removed from the active file and placed in a separate section. These control cards shall be filed alphabetically.

75010.4 Direct Release to Parole From Court

Refer to DOM 72020, Initial Intake Procedures, and DOM 81010, Release Procedures and Conditions for Parole, for information on processing cases released directly to parole by the courts.

75010.5 Outgoing Cases

Cases are transferred from regions by:

- Case transfer to another region.
- Parole violation and return to prison.
- Discharge by the BPT or court order.
- Expiration of sentence.
- Death.
- Pardon.
- Commutation of sentence.

See DOM 71020 for processing after discharge.

75010.5.1 Transfer To Another Region

The transfer of a case from one region to another or one unit to another, within the region, is initiated by the Parole Agent completing a CDC Form 1506, Notice of Transfer. The original shall be sent to the sending region by the unit office.

The transfer shall immediately be entered into OBIS.

Case Records

The original CDC Form 1506 shall be placed in the C-File and the C-File shall be shipped immediately to the receiving region case records office.

75010.5.2 Transfer To Department/Mental Facility

Revised March 16, 1995

Refer to DOM 75010.14.3 for procedures on processing parole violators returned-to-custody (PRTC) or DOM 75010.14.4 with new term.

C-Files for parolees placed in mental institutions shall be retained in the respective parole region's case records office until final disposition of the case.

Within three days after being advised of a parolee's return to a Department institution the C-file and satellite records shall be forwarded to the institution of confinement.

75010.5.3 Preparation of Files for Transfer

Prior to transfer of a C-file:

- All loose material shall be properly filed and fastened down.
- Duplicate material shall be purged.
- The CDC Form 112 shall be current and audited for completeness and accuracy.

A copy of the CDC Form 611, Release Program Study (RPS), and any report to the BPT following release shall be retained in chronological order most recent on top in the parole section of the C-file.

A CDC Form 134, Records Transfer Check Sheet, shall be completed in duplicate, showing date records are shipped and each case shall be listed by number and name. Retain one copy for reference, and place one copy in each package of files, indicating which cases are enclosed.

75010.6 Parole Violations/Regional Hearing Calendar

A CDC Form 1521(A), (B), (C), and (D), Parole Violation Reports, are prepared in the parole unit by the Parole Agent and sent to regional case records. These reports shall be received by the eighth working day following arrest/hold/discovery.

Regional Screening

For all cases, except PAL or psychiatric attention to be screened by the BPT at the regional office, case records staff shall prepare the following:

- BPT Form 1104, Summary of Revocation Division: Hearing Waived/Screening Offer.
- BPT Form 1116, Eligibility of Parolees for Worktime Credit.
- BPT Form 1132, Headquarters Calendar Control Log.

The cases shall be presented to the BPT by the tenth working day from the date the hold was placed on the parolee.

If parole has previously been suspended/PAL, the case shall require a BPT Form 1130, Headquarters Calendar Decision, if "reinstate" action is taken by the unit supervisor.

After the BPT makes a screening offer or takes an action to schedule for a revocation hearing on the BPT Form 1104, case records staff shall notify the revocation unit of the results for service or the acknowledgment of the offer to the parolee. A copy of the BPT Form 1104 shall be sent to the BPT at this time.

If the parolee signs the Waiver of BPT Form 1101, Revocation Hearing, requesting a revocation hearing, the BPT shall schedule a hearing. The hearing panel may take an action based on their findings on the BPT Form 1103, Summary of Revocation Hearing and Decision. Upon receipt of the BPT Form 1103, case records calculate revocation time, posting the CDC Forms 112 and 144 accordingly.

Waiver of Revocation Hearing (Unconditional)

If the unconditional waiver is signed, BPT Form 1101, the documents shall be forwarded to the case records for calculation of the revocation time and the posting of CDC Forms 112 and 144.

A parolee undergoing criminal prosecution may waive a revocation hearing but retain the option to request a hearing at a later date.

Waiver Of Revocation Hearing (Optional)

When a parolee has signed an optional waiver, BPT Form 1101, the case shall be submitted to the BPT by case records, accompanied by the BPT Forms 1104, 1116, and 1132 for determination whether there is good cause to revoke parole. The determination shall be made without a hearing or personal appearance by the parolee.

Upon receipt of a signed BPT Form 1104 revoking parole, case records shall make the appropriate calculations and post the CDC Forms 112 and 144 accordingly.

The parolee may request a revocation hearing no later than two months prior to the expiration of the revocation period or after adjudication of pending charges. Upon receipt of a hearing request, the BPT shall schedule a revocation hearing. The hearing panel may take an action based on their finding on the BPT Form 1103, but shall not order the parolee returned to custody for a greater period than previously ordered. Upon receipt of the BPT Form 1103, case records shall calculate the revocation time and post the CDC Forms 112 and 144.

See DOM 75010.14.2 for distribution of reports and forms.

75010.7 Parole Violations/Headquarters Calendar

When the initial PAL report(s) or PAL review report(s) are sent to regional case records from the unit office, a BPT Form 1130 shall accompany it.

A daily BPT Form 1132 shall be prepared by case records and include each of the following:

- Parolee's departmental identification number.
- Parolee's name.
- Type of report submitted.

75010.7.1 Material Forwarded To BPT

Revised December 24, 1992

The original BPT Form 1132 shall be sent by first-class mail or messenger to the BPT Headquarters' calendar and shall include a packet of material for each parolee. The packet shall contain and be assembled as follows:

- One copy of the CDC Form 600, Wanted Persons System Notification-Addendum, prepared only for initial PAL report.
- One copy of Parole Agent's report.
- BPT copy of permanent addenda if requested by the unit.
- BPT Form 1130 (no copy placed in C-File until signed by BPT).

75010.7.2 Results Of Headquarters Calendar

When the BPT returns the BPT Form 1132 and the signed BPT Form 1130, case records staff shall review the BPT Form 1130 and post each action to the CDC Forms 112 and 144 if applicable.

75010.8 Revocation Hearings

Revised December 24, 1992

Regional Hearing Coordinator Technical Violation

The Regional Hearing Coordinator shall follow the procedures set forth in DOM 84000 for scheduling and conducting revocation hearings.

A Revocation Hearing should be held within 45 days of parole hold or discovery of parole violation pursuant to BPT Rule 2640(1)(f). A technical violator may be returned and placed in a departmental facility pending a Revocation Hearing.

75010.9 Revocation Extension Hearings

Revised December 24, 1992

The BPT may assess additional revocation time for parolees in RTC status who commit law violations or a serious jail or CCR (15) (3) violation.

RTCs in Department Facilities

Violations committed by parolees in RTC status in Department facilities shall be handled by Department staff (CDC 115s) as specified in DOM 52080.

RTCs in Nondepartment facilities

P&CSD staff shall handle violations committed by parolees in RTC status in local custody.

The specific procedures for initiating/processing a BPT Form 1135-A, Report of In Custody Misconduct, are contained in DOM 84000.

When the unit supervisor submits the BPT Form 1135 and the BPT Form 1135-A, the case records staff shall prepare a BPT Form 1104, BPT Form 1116, and a BPT Form 1132 before presenting the package to the Regional Hearing Officer calendar. After the BPT makes an offer or takes an action, the case records staff shall notify the revocation unit of the results for service of the offer to the parolee.

- Recalculate the revocation release dates accordingly if the BPT extends a revocation period.
- Post the BPT action to the CDC Form 112.
- Post the CDC Form 144 card if the Revocation Release Date (RRD), Projected Revocation Release Date (PRRD), Controlling Discharge Date (CDD), and/or the Projected Controlling Discharge Date (PCDD) change.
- Update OBIS with new RRD.

See DOM 75010 for form distribution.

75010.10 Discharge Review

Revised March 16, 1995

Discharge reviews shall be conducted on parolees whose offense occurred on or after January 1, 1979. Discharge review schedules and procedures are specified in DOM 81080.

The Discharge Review Report from the Parole Agent must be received in the case records office within 20 calendar days of the discharge review date. Case records staff shall submit the case to the BPT Regional Screening Calendar for decision at least 20 days prior to the appropriate calendar anniversary date.

Following the BPT action, the results of the hearing shall be forwarded to the parolee by the Parole Agent.

Retain on Parole

If a retain-on-parole action is taken, the discharge review date shall be extended for one year unless it exceeds the CDD or is stated differently in the BPT action.

Discharge

If a discharge action is taken, the effective date will be at least 15 days from time the discharge is granted or otherwise specified by the BPT. A CDC Form 163, Certificate of Discharge, shall be prepared by case records and mailed to the Parole Agent for delivery to the parolee.

Posting Discharge and Review actions

Case records staff shall post the discharge or new discharge review dates on:

- The CDC Form 112.
- The CDC Form 144 card.

75010.11 Emergency Actions

The parole unit may request various "emergency" actions from the BPT through the case records office.

The unit supervisor shall contact records by telephone and dictate a brief, concise report and the requested BPT action.

Case records staff shall type the report on a BPT Form 1135 and Omnifax it to the BPT for action.

Requests, other than PAL, may be acted on at the region if a BPT Deputy Commissioner is present. Otherwise, the request is to be FAXed to BPT Headquarters.

Upon receipt of the BPT action, case records shall notify the unit supervisor by phone of the action taken. The CDC Forms 112 and 144 card shall be posted accordingly. The BPT Form 1135 shall be filed in the C-File.

75010.12 Emergency Psychiatric Attention Cases

Emergency psychiatric treatment cases may be returned to a facility for treatment upon written authorization of the BPT and acceptance by facility medical staff.

Regional CCRM

- The regional CCRM shall telecopy the BPT Form 1135 to the facility CCRM.
- Inform the parole unit staff the results of the BPT action.
- Forward the C-File to the facility in accordance with DOM 75010.14.3.

A parolee may be returned for psychiatric attention for the maximum period (six months or one year) to allow treatment by medical staff (refer to DOM 73030.16.7).

- The time starts upon date of hold or date of arrest if parole was previously suspended.
- Clinical services staff shall notify the C&PR or appropriate counselor when a parolee's psychiatric condition has improved enough to warrant BPT consideration of release from psychiatric return placement.
- The parolee may be released at an earlier date than specified at the revocation hearing if their psychiatric condition improves.
- The C&PR shall submit a BPT Form 1135 to the BPT recommending a release date at least ten working days in the future to allow sufficient time for the Parole Agent to finalize details of the release program.

75010.13 Special Regional CCRM Responsibilities

The regional CCRM shall:

- Review all BPT actions to ensure appropriate decisions have been made by the hearing panel.
- Return of pertinent documents to the Headquarters Calendar for clarification and/or correction in cases where inappropriate actions were taken.
- See that all computations are completed and posted accordingly.
- See that BPT actions are posted to CDC Forms 112 and 144 (if applicable).

75010.14 Records Functions After BPT Decisions

Case records staff shall process cases after BPT hearings.

75010.14.1 Time Computations

The appropriate CCRM shall compute the RRD, PRRD, if eligible to earn work time credits, PCDD (if applicable), CDD, and DRD in accordance with the BPT order. For time computation see DOM 73030.16 et al.

Time during which parole is suspended because the parolee has absconded shall not be credited toward period of parole pursuant to PC 2900(c)(1). The revocation period of parole starts from the date arrested/date hold is placed/date available for return to California from out-of-state.

When revocation of parole extends the period of parole, the recomputed PRRD (if applicable), RRD, PCDD (if applicable), CDD and DRD shall be posted to the first page of the BPT Form 1103; or BPT Form 1104, top right corner, prior to distribution.

75010.14.2 Distribution of Reports and Forms

The original of all board reports and BPT decision forms shall be filed in the C-file.

The below listed forms shall be distributed by case records staff, as follows:

- BPT Form 1101, Waiver of Revocation Hearing.
 - Parole agent.
 - Parolee.
 - BPT, immediately after parolee signs the form.
- BPT Form 1103, Summary of Hearing.
 - Parole agent.
 - Parolee.
 - Research, accompanied by current CDC Form 112.
- BPT Form 1104, Summary of Revocation Decision, Hearing Waived.
 - Parole agent.
 - Parolee.
 - Research, accompanied by current CDC Form 112.
- BPT Form 1116, Eligibility of Parolees for Worktime Credit.
 - Parole agent.
 - Parolee.
- BPT Form 1130, Headquarters Calendar Decision.
 - Parole agent.
 - Parolee.
 - BPT, if action taken by unit supervisor to "reinstate".
- BPT Form 1132, Headquarters Calendar Control Log.
 - Retained in the Log File.
- BPT Form 1135, Miscellaneous Decisions.
 - Parole agent.
 - Parolee.
- BPT Form 1135A, Report of In-Custody Misconduct.
 - Parole agent.
 - Parolee.
- CDC Form 683, Change of Discharge Date Notification.
 - Parole agent.
 - Parolee.
 - Offender Information Service Branch.
- CDC Form 1521 (A, B, C, and D), Violation Report.
 - Research, accompanied by current CDC Form 112.

75010.14.3 Processing Of Cases Ordered Returned To Custody

When a parole violator (PV) is received at a PVs' processing unit the CCRM shall:

- Identify the PV and send a FAX to the appropriate region indicating the subjects Name and CDC number.

Upon notification from the PV processing units of the receipt of PVs, the regional CCRM shall:

- Within three working days ship the C-file by courier service to the institution receiving the parolee.

If a parolee reaches their statutory discharge date while pending adjudication of criminal charges, the case shall be discharged.

75010.14.4 Revoked Parolees With New Commitments

Revoked parolees who were on parole for a non-life commitment and are returned with a new commitment shall not be discharged automatically.

Reception Center PV Unit

The prior commitment shall be discharged only if the RRD and the parole have been revoked. If the release date for the new commitment is later than the RRD, case records shall discharge the former term. If the RRD is later than the release date on the new commitment, the case shall be presented to the BPT on the Miscellaneous Proceedings Calendar for a decision on whether or not to discharge the prior commitment.

75010.15 Discharge

The procedures in DOM 71020.5.4 through 71020.5.8 shall be followed.

75010.15.1 Deaths

Upon the death of a releasee/parolee a copy of the following shall be obtained and placed in the C-file:

- Death certificate.
- Closing case summary.
- In some cases an autopsy report or certification by the Parole Agent that the death certificate was reviewed.

The CCRM shall post the CDC Form 112 as to the date and the notation "deceased". This officially closes actions on the CDC Form 112 and the file shall be closed. The procedures in DOM 71020.5.4 through 71020.5.8 shall be followed. Files shall be microfiched; however, those involved in litigation shall be retained in the regional records office until litigation is completed.

Case records staff shall make the entry into OBIS.

75010.15.2 Pardons And Commutations

Pursuant to PC 4800 and Article V of the State Constitution, reprieves, pardons and commutations are granted by executive authority of the Governor.

Investigations and reports related to such actions are prepared by BPT staff as provided in PC 4810 and 4812. Notices of executive clemency actions are transmitted by the Governor's Legal Affairs Secretary to the BPT. The case records office is notified with data furnished for records keeping and necessary departmental action by the BPT.

When a pardon or commutation terminates the sentence, this acts as a discharge on Department records. The date the pardon or commutation is granted and by whom is posted to the CDC Form 112, and entered into OBIS. The file shall be closed following procedures in DOM 71020.5.4 through 71020.5.8.

75010.15.3 WICC/ICC/Federal Contract Cases

In some instances parolees may have completed their California parole while remaining under departmental jurisdiction in accordance with WICC/ICC/Federal contract. The following procedures shall apply in these cases:

- Upon expiration of the period of parole on the California term, the parolee shall be discharged on the California term(s) and remain on the contract case only.
- A new departmental identification number shall be issued. Routine identification and intake procedures shall be followed (See DOM 72020).
- A new CDC Form 188 shall be prepared indicating that the inmate is a WICC/ICC/Federal contract case only. This shall be attached to the old cumulative case summary and placed in the new C-File.
- All correspondence and reports shall reflect the new number and be filed in the new file.
- The old C-File and related records on the discharged California term shall be microfiched and forwarded to Archives. The contract case records shall be forwarded to Archives upon discharge.

75010.16 PC 969(b) Certifications

Revised March 16, 1995

Due to the involvement of parole cases in criminal and civil actions, the case records office is required by law to furnish certified copies of various departmental records to county and court officials. Under PC 969(b), certifications constitute proof of a prior felony conviction. The DA of any county or the prosecuting authority of jurisdictions in other states or from the federal level, or Alcohol, Tobacco and Firearms may request a "PC 969(b) certification."

These requests are either sent directly to the Identification (ID)/Warrants Unit who shall forward them to the appropriate region. In response to California requests, a photocopy is made of the fingerprint card, each abstract of judgment pertaining to the case, CDC Form 112, Chronological History, and photo. A certification letter is prepared by the CCRM, as the

custodian of records, and is typed, signed and sealed. Each of the documents shall also be signed and sealed. The material is then forwarded to the requesting office.

In response to requests from out-of-state, the above material, excluding certification of the records shall be prepared and forwarded to headquarters records for processing. Materials shall not be stapled together but paper clipped. It is imperative that a photocopy of the fingerprint card be made and included in this material. If a fingerprint card is not available, a request for a certified copy shall be directed to State DOJ. When received, it, along with the above material, shall be forwarded to headquarters records.

Exemplified Certifications

CCRA shall have the records exemplified by the local court and process the documents to the requesting state.

Records on discharged persons are retained in the Archives Unit at CMF. Requests for certified copies of discharged records as provided in PC 969(b) shall be sent to CMF. Such requests shall contain the date on which the person was discharged. It is imperative that the Archives Unit include a photocopy of the fingerprint card with the discharged records. If none is available, a request for a certified copy shall be directed to State DOJ. When received, it, along with the other discharged records material shall be forwarded to the office requesting such records.

75010.16.1 Miscellaneous Certifications

Revised March 16, 1995

The Department is required at various times to furnish certified copies of departmental records as ordered by subpoena or as established by intra-agency relationships. Certification statements shall be stamped, typed, or written on each copy prepared, and certification letter may be typed separately and attached to all the copies. A notation is made in the C-File of compliance, with the request. The certification is then signed, sealed, and forwarded to the requesting agency.

75010.17 Application Of Court Decisions

All cases are reviewed at various times and primarily in preparation for BPT review to see that all court decisions affecting each case have been complied with and that the appropriate changes were made with notification sent to interested divisions.

75010.18 Response To Subpoenas

Refer to DOM 14010.

75010.19 Revisions

The Deputy Director, Institutions Division, or designee shall be responsible for ensuring that the contents of this section are kept current and accurate.

75010.20 References

PC §§ 969(b), 4800, and 4812.

CCR (15) (2)

ARTICLE 22 — CIVIL ADDICT COMMITMENTS

Revised February 28, 1995

76010.1 Policy

The W&I provides for civil commitment to the Department of certain persons found to be addicted to the use of narcotics or in imminent danger of becoming addicted to the use of narcotics. Commitments are made by a Superior court pursuant to W&I 3050, 3051, or 3100.

The NAEA Board shall have the power to release to outpatient status/civil addict parole those individuals certified as having recovered from addiction or imminent danger of addiction pursuant to W&I 3150.

Reception and transfer of all persons committed as civil addicts shall be in accordance with classification procedures.

76010.2 Purpose

The purpose of this section is to provide procedures for the processing, release or return of civil addict commitments.

It also establishes standard procedures for conducting required NAEA hearings and preparation of civil addict commitment reports.

76010.3 Commitments to the Civil Addict Program

Commitments pursuant to W&I 3050 or 3051 indicate conviction of a crime or probation revocation and criminal proceedings have been suspended/adjourned and the individual found to be a narcotic addict or in imminent danger of becoming a narcotic addict.

W&I 3050 and 3051

Commitments pursuant to W&I 3050 indicate conviction in a Municipal or Justice court and certified by a Superior court.

Commitments pursuant to W&I 3051 indicate conviction in a Superior court. Terms of these commitments are in accordance with W&I 3201(a). For offenses that occurred prior to July 29, 1980, the term is recorded as seven years pursuant to W&I 3201(a).

W&I 3100

Commitments pursuant to W&I 3100 may be involuntary or voluntary. If anyone believes a person is addicted to the use of narcotics or by repeated usage is in imminent danger of becoming addicted or any person who believes himself to be addicted or about to become addicted may report to the DA, who may petition the Superior court for commitment. Terms of commitment shall be recorded as 12 months pursuant to W&I 3201(b).

Dual Commitments

Departmental parolees under the jurisdiction of both the BPT (BPT, Board) and the NAEA are referred to as dual commitments. These persons have a commitment to:

- State prison as a result of a conviction while on outpatient/civil addict parole status.
- A civil addict program as a result of a conviction while on felony parole status.

76010.4 Male/Female Commitments

All commitments must be accompanied by a certified copy of the Judgment and Commitment, Minute Order, and POR.

Registry of narcotics (N) numbers shall be issued by the ID/Warrants Unit.

Male civil addict commitments shall be accepted from court at:

- Reception center, CRC, Norco.
- Reception center, CMF.

Female civil addict commitments shall be accepted from court at the women's unit of CRC.

76010.5 Cumulative Case Summary

Information compiled in the Cumulative Case Summary (Cum Sum) originates both inside and outside the institution and is prepared and placed in the following order by the following staff:

Case Records Staff

- Legal.
- Circumstances of commitment.
- Sentence data and offense.
- Prior commitments.
- CI&I SSCH.

CC-I

- Social history.
- Initial study.

76010.5.1 Cum-Sum Face Sheet Composition

The CDC Form 188L, Cum Sum Face Sheet, is the legal information section of the Cum Sum. This information is abstracted from the commitment documents received from the court. The legal data below "Received" through "Pre-confinement Credits" shall be recorded for each commitment.

Narrative of revised CDC Form 188-L is as follows:

- **Name:** The name on the original commitment document. (If two names are indicated on the commitment document and one is the "true name", then the "true name" shall be used.) Subsequent commitments, with different names, shall be recorded as "Also Committed As" (ACA).
- **Birthdate:** The subject's actual date of birth, no age need be shown.
- **Birthplace:** The state or the country of birth.
- **Ethnicity:** Subject's ethnic derivation.
- **Received:** The date subject was received in the Department for the specific commitment.
- **Commitment:** The total period of commitment as shown on the Abstract of Judgment or civil commitment document shall be recorded in years and months (In addition, the type of commitment shall be noted in parentheses: e.g., Indeterminate, SB 1878 or SB 176).
- **County:** The county of subject's commitment.

- **Custody Time:** The maximum amount of days a person may be retained in custody represents two-thirds of the total commitment including preconfinement and postsentence credits.
- **Civil Case No.:** The case number on the civil addict commitment form which may, or may not, be the same as the criminal case number.
- **Program Expiration Date (PED):** The total commitment time added to the received date less the total preconfinement and postsentence credits including conduct credit. It is also referred to as the commitment expiration date.
- **Section and Code:** The appropriate W&I section of the commitment.
- **Custody Expiration Date (CED):** The latest date a person can be retained in custody. This date changes once the person has been released to outpatient status (OPS) and must be recalculated when the person has been returned to custody. This date is calculated by adding the number of remaining custody days to the date the person was taken into custody. Custody expiration date cannot exceed PED.
- **PC 2900.5 Credits:** Credits granted by the court.
- **PC 4019 Credits:** conduct credits granted by the court.
- **Postsentence:** Credit administratively granted by the Department for time between date of sentence and delivery to the Department.
- **Total credits:** The number of credits applied to the term.

Discrepancy in Credit

Any discrepancy in credits granted by the court shall be referred to the Civil Addict Legal Process Unit (CALPU) located at CRC.

Information recorded below double line shall include:

- Date released to outpatient status and/or civil addict parole.
- Custody parole.
- Custody days remaining. The number of days subject may remain in custody less time spent in local custody, from date of hold, prior to return. This shall be computed by institution case records staff upon receipt of the records reflecting the number of custody days remaining as of date last received as an outpatient releasee to finish term (OPRTFT).
- Subsequent NAEA actions.
- Date received at CRC from outpatient and/or parole status (if applicable).
- PED is the latest date subject may remain in program for each commitment. This date is computed upon initial receipt of the commitment by institution case records staff. This date may only be increased by the number of days a person has been suspended, releasee-at-large (RAL) (if applicable).
- CED (if applicable).

Civil Addict Parole Violator

In the event the person is a civil addict parole violator, the maximum parole discharge date shall be recorded.

- **Maximum Parole Discharge Date:** The maximum eligible parole discharge date represents three years from date of original civil addict parole plus one year additional custody time. The date is computed upon receipt of records by CRC as Civil Addict Parolee Return.

Bottom of Each Page

Information recorded at the bottom of each page of the Cum Sum shall include the last name, first initial, number, civil addict program branch, date typed, and the corresponding correctional case records specialist (CRS) and typist's initials.

EXAMPLE:

JONES, B.N-00000 CRC-Norco 7/7/99 MSS/Ab

76010.5.2 Computation of Time

Time runs from date of arrival at CRC or designated institution or to a civil addict program agent.

On civil addict commitments, time runs while under treatment and jurisdiction in a civil addict program designated institution or under supervision on outpatient status.

Maximum custody time on CRC commitment will be reduced by:

- Time spent in local custody on Our Hold Only (OHO).
- Time spent in local custody under a Hold (W&I 3151), except the period of time that represents the serving of a local sentence.

Dead Time

Time does not run under the following circumstances and is computed as "dead time":

- Time between date of escape and RTC.
- Time between suspension of outpatient status/parole and removal of at-large status.
- Time elapsed between court pick-up and return, unless the exclusion request is withdrawn.

Court ordered pick-ups from institution custody resulting from a reversal on appeal, the granting of a writ, and exclusion referrals shall act to discharge the case from all departmental records. Where the immediate result of the subsequent court proceedings is to return to the civil addict program, a new "N" number shall be issued. If another disposition is made and, at a future date, the case is recommitted to CRC a new "N" number will be issued. No credit is granted for time spent under the previous "N" number.

76010.5.3 Circumstances of Commitment - Sentence Data and Offense

The circumstances and significant information regarding the criminal offense(s) shall be recorded as follows:

EXAMPLE: SENTENCING DATA AND FACTS:

CASE #A448113 CT1 BURG 2ND (459 PC) 6-30-80 (POR)

Subject was observed by witnesses exiting a burglarized residence carrying a colored television set valued at \$500.

CASE #A588055 CT1 BURG 2ND (459 PC) 7-6-80 (POR)

The victim returned to her residence and found numerous items of her property stacked near the front door. Officers found subject hiding under a bed. Search of subject revealed two balloons of heroin.

The commitment information of discharged cases shall remain in the case summary until the person has been discharged on all cases.

76010.5.4 CI&I Report

The SSCH is provided by CI&I, at the request of the records office, after submission of CDC Form 138, Fingerprint Cards.

76010.5.5 Social History

The Case Summary [GA Form 2] is compiled by the counselor from available material and an interview with the resident. Each time the inmate is returned to the institution the case summary is reviewed and updated as needed to provide accurate information.

76010.5.6 Initial Study

Revised September 25, 2007

A narrative report is compiled by the counselor discussing facts, or relationship between facts, which may be applicable to the treatment and controlling of the resident. A treatment plan is formulated from these assessments and evaluations:

Employment Assessment

This section responds to the questions:

- Does the individual have stable or sporadic work history?
- Do they claim work skills?
- If a member of a union, is the individual skilled at journeyman or apprentice level?
- If a welder, for example, are they certified, etc.

Verify Employment

Verification of prior employment is required through correspondence with former employers, indicating pay scale, future employability, etc.

- Does the individual need additional training to become employable?

Education Assessment

Highest grade completed.

- What is tested grade level?
- Considering age and claimed work skills, is General Education Development (GED) requirement appropriate?
- Does he/she require vocational or academic training?

Note: If the resident cannot read and/or write, the need for remedial education should be assessed.

Drug/Alcohol Assessment

Assessment as follows:

- Is the individual an alcohol abuser in need of Alcoholics Anonymous?
- Are there conflicts in the POR's and doctor's court report regarding drug use?
- Are they a poly-drug user?
- How old was the person when usage began?
- Are there specific concerns regarding drugs used?
- Are they in need of Narcotics Anonymous?

Social Evaluation

This section should speak to the individual's relationships with family members who are defined in Section 3000 of the Title 15.

- Are there problem areas with any family members, including mother, father, siblings, wife, husband, registered domestic partner, children, etc., which need to be resolved?
- Have any family members ever been incarcerated?
- If so, who and for what offense?

Evaluation and Program Plan

Considering the above factors, which program at CRC will best equip the individual for success on OPS/parole?

This area should include any special needs and/or problems, including any medical/psychiatric problems, exclusionary concerns, or legal concerns that would preclude the individual from participating in a particular program.

Within 35 Days

The program information shall be compiled within 35 days after the individual's reception.

Based on the information contained in this report, a recommendation shall be made as to what the person should accomplish while at CRC, the anticipated period of time needed to complete the program, when the program should be available, and whether the individual agrees to complete the program. Other factors that may be included are:

- Relationship of narcotic use to other criminal activity.
- Their associate in use, such as:
 - Siblings.
 - Peers.
 - Parents.
- Inconsistencies regarding the individual's narcotic usage between various reports such as:
 - The POR.
 - Court appointed medical examiner's report.

Casework Follow Up

Does the individual need to be referred to psychiatric services for violence potential evaluation? Is an initial field study in order? If a dual commitment, does the individual need to be scheduled for a BPT hearing? Are arrest reports needed? If no follow-up is necessary, indicate "none".

76010.6 Miscellaneous Reports**Headings**

Centered at the top of the report should be the title of the report, usually phrased in terms of a particular decision-making recommendation. Examples of headings are:

- Referral to OPS/Civil Addict Parole.
- Annual Review.
- Closing Summary.

76010.7 CDC Form 611, Release Program Study (RPS) Report

CDC Form 611 reports shall contain the following sections and headings:

- Program Plan. One or more brief paragraphs which summarize appropriate program planning information as recorded on the Classification Chrono (CDC Form 128-G) and Initial Program Study. Note any program changes made that differ from the original recommendations on the Initial Program Study.
- Administrative Review. All levels of administrative review shall be chronological and include program changes, confirmation and exclusion review.
- Institutional Assignments. Summarize the individual's assignments during his stay in the institution. State specifically the duration of the assignment and grades received.
- Institutional Behavior/Response to Dormitory Program. Describe the individual's response to the above summarized treatment plan as it

applies specifically to dormitory behavior and activities. Those activities may include Alcoholics Anonymous, Narcotics Anonymous, self-help groups and psychotherapy groups. Also included in summary form are all Rule Violations Reports (CDC Form 115); or Counselling Chronos (CDC Form 128-A) received. Major infractions of the rules will be listed individually.

- Evaluation. This section will analyze and evaluate the individual's progress in terms of the above factual information and the occasion for the progress review report. If a referral to release status is a part of the recommendation, then the appropriateness of the release plans which are contained in the following section shall be evaluated.

Final Section of the Referral

The final section of the referral describes residence and employment plans that have been developed by the individual.

Residence Plans

- List either "Parole Agent to develop near place of employment", or a statement describing the proposed residence, including address, telephone number, names, and relationships of those living therein. Alternative residence plans shall be included if there is a possibility that the first plan may be unacceptable.

Employment Plans

- List either "none" with an explanation as to the type of work preferred, the work skills possessed, and the community where employment is desired, or a statement covering the following:
 - Name of company and person's position making the employment offer, address and telephone number at which the Parole Agent can make contact, type of work and wage involved.
 - Other information related to the position offered that may be of help to the Parole Agent, such as length of prior employment experience, education, or vocational training and union status. The same type of information shall be listed for each separate employment offer or lead.

Counselor's Comments

- Include, when applicable, the plans and arrangements made by the resident to pursue academic or vocational training programs. Resources such as veteran's benefits or financial aid from some source should be included along with names, addresses and file numbers. All significant debts and anticipated child support or alimony payments shall be listed. Plans on how to meet these obligations shall be spelled out. Assets, such as money in institutional trust account, are to be listed.

Legal Interests

- Unresolved legal matters shall be listed and clarified, which may include welfare interest in the resident or their family; names, titles, telephone numbers, addresses, file numbers and other identifying information about each interested agency.

Medical or Psychiatric

- When community follow-up is indicated for either medical or mental disorders, these are to be identified and explained.

Release Resources

- List the name, relationship, and address on each significant person in the community if this information is not contained in an earlier section.

Supplemental Evaluation

- This evaluation shall be added as a current addendum summary to the program response summary and evaluation section when the NAEA decides that the referral of an annual review case is appropriate for release. This section shall be evaluated in terms of the prior recommendation and plans. Regarding prior appearance cases postponed by the NAEA, a current section addendum summary shall be added before the next NAEA appearance.

Signatures

- The name and title of the counselor and supervisor are typed below the body of the report. Each shall sign the report above his/her name after review.

Prerelease

- Prerelease case assessment and planning is accomplished by the assigned supervising Parole Agent who verifies the above information as viable release plans. The Parole Agent shall approve, modify or disapprove release plans, depending upon prior failures, successes,

significant recent changes in community resources or plans that have not proven valid.

Signatures

- The title of the assigned Parole Agent and unit supervisor are included on the proposed RPS, and each shall review and sign the report.

76010.8 Processing Dual Commitments

When it is determined that a new civil addict commitment was on felony parole:

- The regional case records staff, upon notification of the civil addict commitment, shall immediately send the felony C-file to the records office at CRC.
- Within 60 days of arrival at CRC a determination shall be made by the classification committee to recommend retention in or exclusion from the civil addict program.

Retain in Program

- If the decision is to retain in the program, an CDC Form 1502, Activity Report, shall be submitted to the BPT for possible discharge of the felony commitment.
- If the felony commitment is discharged, the subject shall remain under the jurisdiction of the NAEA. Refer to DOM 76010.8.1 for processing.

Exclude from Program

- If CRC classification committee's decision is to exclude the person from the civil addict program, institution staff shall prepare an exclusionary letter referring the civil commitment back to the committing court, recommending vacation of commitment.
- If an outpatient/civil addict parolee is subsequently committed to state prison, P&CSD shall refer the civil addict commitment back to the committing court.

Unusual Dual Commitment

If the decision is made to retain a felony commitment to the Department in the civil addict program or in the rare event that the committing court refuses to vacate the civil commitment, the status will remain a dual commitment.

These cases will not be eligible for release consideration by the NAEA until the BPT ordered parole revocation period has expired.

76010.8.1 Felony or Civil Addict Discharge

The BPT's action discharging the felon case shall be posted to the CDC Form 112, Chronological History, in the felons C-file. A civil addict Cum Sum and C-file shall be completed. Actions affecting the resident's movement in and out of the institution, detainees and cancellations of same entered on the CDC Form 112 in the felony file shall be transferred to the civil addict file. The discharged felon C-file shall be sent to the designated region to be microfilmed then forwarded to the Archives Unit.

Felony/Civil Addict

Upon the resident's release to custody of the sheriff of the committing county as an unfit subject for the civil addict program, CRC case records staff shall place a Hold for the Department. A copy of the court order and of the CDC Form 123, Body Receipt, shall be placed in the "N" number case file. The original shall be forwarded to the designated reception center to be placed in the felons C-file.

Daily Reports of Arrivals and Departures

CRC case records staff shall make a notation on the Daily Report of Arrivals and Departures (DRAD) showing the discharge from the "N" number commitment(s) [and remaining on the departmental number (CDC number)]. The CDC Form 112, in the "N" number case file and the Control Card (CDC Form 144) shall also be posted to this effect.

76010.9 Unsuitability for Program

The Director or designated representative may:

- Return persons charged with a crime and committed to the civil addict program to committing court as unsuitable for the program (W&I 3053).
- Order discharge from the civil addict program for persons not charged with a crime who prove unsuitable for confinement or treatment in the program (W&I 3109).

W&I 3053 provides for automatic termination of a civil addict commitment upon a subsequent felony conviction and a commitment to state prison pursuant to PC 1168 or 1170.

76010.9.1 Removal From Civil Addict Program

Criteria for determining suitability for the civil addict program is set forth in W&I 3052.

76010.9.2 Procedure for Referring Cases to Committing Courts Pursuant To W&I 3053

After the decision has been made by the Director or designee that a person is unsuitable or has been committed to state prison in another matter, a letter from the Warden or RPA shall be directed to the presiding judge of the superior court of the county of commitment. This letter shall set forth the reasons for the determination of unsuitability.

If a person has been committed from two or more different counties, letters shall be directed to each of the committing courts.

When the referral resulted from a subsequent commitment to state prison and the person is an outpatient, the receipt of a court order by CRC or regional case records staff vacating the civil addict commitment is sufficient documentation to discharge the commitment on departmental records.

- Entries shall be made on CDC Forms 112 and 144 and the DRAD to reflect the discharge. The date of the court order shall be recorded as the discharge date. On multiple commitment cases, the entries shall indicate "Discharged on Case #00000 and remains on # _____."
- Reception center and institution case records staff shall forward a copy of any removal orders, executed by the sheriff, to CRC or appropriate regional case records staff to ensure appropriate disposition of the civil addict commitment records.

When the referral resulted from a determination of unsuitability other than a subsequent felony commitment, the commitment(s) shall not be discharged until the person is removed from the Department's custody for further proceedings on the suspended criminal charges. Upon receipt of a court order and removal for further proceedings, CRSs shall make an appropriate entry onto the CDC Forms 112 and 144 and DRAD to reflect the removal from custody and discharge on the civil addict commitment. On multiple commitment cases, the entry shall indicate "Discharged on Case #00000 and remains on # _____."

76010.10 Transfers Of Civil Addicts

Persons committed to the civil addict program shall be housed at CRC or institutions designated as branches of CRC.

Approval for transfer of a civil addict between institutions designated as CRC branches is delegated to the chief deputy Warden of the institution where the inmate is housed. A CDC Form 128-G shall be prepared by classification staff, recommending the transfer and the chief deputy Warden shall make the appropriate endorsement.

A limited number of northern county exclusion cases may be transferred to the northern reception center (NRC) to await completion of the exclusion process and return to the committing court. The approval of the CSR is required prior to such a transfer. This approval shall be documented on a CDC Form 128-G.

Transfer of a civil addict to CMF for medical reasons shall require the additional approval of CMF's CMO and the Chief, Classification Services.

The C-file, the slough file, health and educational files, CDC Form 103-B, and the CDC Form 144 shall accompany all civil addicts transferred to CRC branches.

76010.11 Escape From Civil Addict Institution

Pursuant to W&I 3002, escape from a facility for civil addicts is a felony.

Pursuant to PC 4530(c), escape from a temporary community release (TCR) is a felony.

76010.11.1 Escape Procedures

Departmental escape procedures shall be followed and a complaint shall be filed with the appropriate criminal justice agency pursuant to the appropriate section.

Upon notification of an escapee's apprehension, the CCRM shall place a Hold with the arresting agency for the Department pursuant to the existing civil addict commitment. Following prosecution of the escape charge, if sentenced to state prison, the civil addict commitment shall be referred back to the committing court as unsuitable. Discharge procedures shall be followed.

After an escapee has been at-large over one year and their whereabouts are unknown, an exclusion letter shall be prepared and forwarded to the court of commitment pursuant to W&I 3053. Upon completion of the exclusionary process, the information for the deleting of the Want is to be FAXed to the ID/Warrants Unit for the removal of the Want from the Wanted Persons System (WPS) and the Department Warrants Register

76010.12 Readiness for Release Criteria

The primary factor to be considered when a counselor is considering referral to outpatient status/parole is the resident's readiness for release to the

community. In making this determination, the counselor shall take into consideration the following:

- Did the resident successfully complete the program outlined by the counselor, initial classification committee, or subsequent classification actions?
- Does the resident meet the criteria for certification to the NAEA?

The intent is to have the person meet the set expectations in a measurable manner and for this to be documented in chrono form for review by the certifier and the NAEA. The documentation is to provide the reviewer with the necessary data to evaluate the individual's readiness for release to the community.

76010.13 Civil Addict Program/Expectations

In accordance with W&I 3000, a person shall not be placed on referral status simply because they have completed a certain amount of program time but has not otherwise met the expectations set for them. Every effort will be made to encourage utilization of program opportunities. However if the resident refuses to program, they can and shall be kept in the program for control purposes and not be placed on referral status.

76010.14 Scope Of Case Review Procedures

Case review procedures are those to which the release readiness criteria will be applied and the individual evaluated for release consideration. The Case Summary format shall be utilized to report and document the residents' progress in C-file.

If both the CC-I and CC-II concur in a recommendation for release consideration, the summary, which will include the referral, shall be forwarded to the appropriate parole office for release program study investigation.

When the Warden or designee approves an early release, the information shall be relayed to the Parole Agent telephonically.

76010.15 Director Certification

The Warden or designee of CRC shall review the entire summary (including the RPS) and determine whether certification for release is in order.

If so certified, the case shall be placed on the next NAEA hearing calendar accompanied by an NAEA Board Order:

- Institution Calendar (CDC Form 360).
- Outpatient Releasee Limited Placement (CDC Form 362).
- Civil Addict Parolee Limited Placement (CDC Form 362-A).

If the NAEA concurs, dependent somewhat upon the specifics of the release plan, it is anticipated that the individual will be released within seven days following the decision of the NAEA board.

In the event the Warden does not feel certification is indicated, he/she shall state the findings on the NAEA hearing certification work sheet and return case responsibility to the CC-I. A duplicate copy of the work sheet shall be forwarded by the records office to the appropriate parole office.

If there is deterioration in the behavior and/or adjustment, the case shall be referred to the program unit classification for review.

76010.16 Classification Committee/Responsibility

If this committee recommends for release, referral procedures are initiated and the counselor shall complete the Referral to OPS/RPS worksheet. The date of the committee action and those participating on the committee shall be listed. The evaluative summary shall be listed and include the committee's evaluation.

If the resident is not considered ready for release, this committee establishes the next review date and returns case responsibility to the CC-I. The committee shall submit an evaluation and recommendation(s) for change(s) or addition(s) to the plan.

In the event that the program unit classification committee is split in its opinion, the case shall be referred to the Institution Classification Committee for final determination.

76010.17 Annual Review by NAEA of Uncertified Cases

W&I 3151 provides that if a case has not been certified "...within the preceding 12 months, in the anniversary month of the commitment of any person committed under this chapter, their case shall automatically be referred to the authority for consideration of the advisability of release in outpatient status..." It is the policy of the NAEA that review of such cases will be on an appearance basis, unless the case has already been referred for release consideration.

The material presented to the NAEA for this review shall consist of the Cum Sum, complete with all previous staff reviews and recommendations. In

addition, a summarization and evaluation of the case shall be prepared and added to the Cum Sum.

All cases in the civil addict program, including those in out-to-court and escape status, shall be reviewed by the NAEA in the anniversary month of their receipt by the institution. Cases unavailable for personal appearance shall be presented in absentia.

76010.18 CYA Wards

By law, CYA wards must appear before the CYA Board at the end of one-year following reception by CYA, if not certified earlier. A report shall then be completed with recommendations for the CYA Board. The annual review report shall be used for this purpose.

A CYA case shall not be referred to the CYA parole division until ordered by the CYA board.

76010.19 Recertifying Cases Denied by NAEA

If a case has been denied release, it shall be considered for recertification when the counselor is satisfied that a significant behavioral change has occurred but no earlier than 60 days from the date of the last release hearing unless approved by the Warden.

76010.20 Release Return Report

Whenever a releasee is returned to CRC, the field agent's report and evaluations of the circumstances shall become a part of the summary.

76010.21 Limited Placement Cases/P&CSD Notification/Patient Appeal Rights

Limited placement cases shall be submitted to the NAEA prior to the 60-day delimiting date on a Limited Placement Classification/Referral Summary (CDC Form 1139) prepared by the counselor.

Certification decisions regarding limited placement cases shall include the recommendations of the field agent assigned to the case and whether the inmate was of "gate-turn-in status".

If limited placement status is removed for any reason, the appropriate field agent shall be notified of the action as soon as possible.

Denial of limited placement shall have the concurrence of the CC-II and the captain. This decision may be appealed by the individual.

76010.22 NAEA Personnel, Rules and Responsibility

Members of the NAEA are appointed by the Governor and by law are given responsibility for conducting hearings to consider the advisability of releasing individuals committed to the civil addict program to outpatient status/civil addict parole. The rules and manner in which these responsibilities are carried out are contained in CCR (15) (5) as well as the Administrative Directives (ADs) of the board.

The NAEA board has the following specific responsibilities:

- Cases reviewed annually from date of arrival at CRC for release consideration.
 - New commitment.
 - Outpatient returnee.
 - Civil addict parolee returned TFC.
- Conduct P&CSD hearings to review the cases of outpatients/civil addict parolees to determine whether the individual should be returned to the institution or retained in outpatient/civil addict parole status.
- To issue an Oral Order of Return, (CDC Form 1607) which may be made by a single member of the NAEA, suspending the release/parole status of an individual, when the facts indicate an immediate return to the institution is necessary, prior to a regularly scheduled NAEA board hearing.
- Recommend discharge from the civil addict program for those persons who have successfully completed outpatient status and discharge individuals who successfully complete parole.

76010.22.1 Institutional Hearing Liaison

The C&PR is the liaison for the NAEA and the institution staff and shall be familiar with the NAEA rules and Administrative Directives which pertain to internal procedures. The C&PR shall coordinate the hearings.

If the NAEA board members take any action that conflicts with policy, the C&PR shall call the discrepancy to the members' attention.

If complex issues need clarification, the C&PR or the assistant C&PR shall be contacted.

The resident's counselor shall attend the NAEA hearing whenever possible, to provide information which may have developed since the referral, clarify information in the C-file or answer questions that may arise concerning the individual or institution policy.

76010.23 NAEA Hearings

Institution and any other relevant reports shall be provided to the NAEA for the following types of hearings:

- Release hearing.
- Annual review hearings.
- Rescission hearings.

76010.23.1 NAEA Hearing Room Accommodations

Hearing rooms shall be as quiet and comfortable as possible. Paper, pencils, vote sheets, reference materials, other official documents and necessary supplies shall be available in the hearing rooms. Cold drinking water will be available. All aspects connected with the mechanics of the hearing shall be attended to so that the members of the NAEA can devote their full attention to consideration of the cases presented.

76010.23.2 Scheduling

Scheduling shall be accurate, with NAEA members being informed in advance of any deviations from the schedule. Relevant case materials shall be available for reference.

76010.23.3 Visitors

Visitors shall not attend NAEA hearings, except as authorized by the chairperson or their designee.

76010.24 Case Records Preparation for NAEA Hearings

Prior to an NAEA board hearing, case records staff shall prepare an addenda folder, for each resident, with the following material from the C-file:

- Current Work Supervisors Report (CDC Form 101) or Educational/Vocational Chronos (CDC Forms 128-D, E, F and/or L).
- Urine Analysis Report (UA).
- Confirmation of the Civil Commitment Education Program consisting of 120 hours.
 - Thirty hours of physical fitness recorded on a CDC Form 128-B.
 - Ninety hours of classroom participation recorded on a CDC Form 128-D.
- Medical clearance stated on a CDC Form 128-C.
- Institution Appearance Evaluation Sheet (CDC Form 279-L) on prior hearings, if applicable.
- CDC Form 115 (if applicable).
- Review of certification prepared by counseling staff.
- CDC Form 1139.

Addenda Folder

The addenda folder shall also contain:

- Two Cum Sums.
- CDC Form 279-L.
- NAEA Board Order, whichever is applicable:
 - CDC Form 360.
 - CDC Form 360-A, Annual Review Calendar.
 - CDC Form 361, Institution Calendar, Rescission Hearing.
 - CDC Form 362.
 - CDC Form 362-A.
- Condition of Release (CDC Form 1515-L).

76010.24.1 Case Records Responsibility Following NAEA Hearings

Immediately following the hearings, case records staff shall post the NAEA board actions to the CDC Forms 112 and 144.

The applicable NAEA Board Order shall be distributed as follows:

- Original to C-file.
- NAEA.
- Resident.
- Parole agent.

The material in the addenda folder shall be refiled in the C-file by CRSs immediately after the hearing.

Case records staff shall type the NAEA board results on the CDC Form 244-B, NAEA Minute Sheet. The minute sheet is retained at NAEA headquarters.

76010.25 Forms Used By NAEA

Forms used by NAEA include, but are not limited to:

- CDC Form 244-B, NAEA Minute Sheet, (retained at NAEA Headquarters located at CRC).
- CDC Form 279-L, Institutional Appearance Evaluation Sheet.
- CDC Form 341, Certificate of Discharge and Release.
- CDC Form 342, Certificate of Discharge and Release.
- CDC Form 343, Recommendation and Certificate of Discharge.
- CDC Form 344, Recommendation and Certificate of Discharge.
- CDC Form 344-A, Recommendation and Certificate of Discharge.
- CDC Form 360, NAEA Board Order-Institution Calendar.
- CDC Form 360-A, NAEA Board Order-Annual Review Calendar.
- CDC Form 361, NAEA Board Order-Review of Previous Board Order.
- CDC Form 362, NAEA Board Order-Confirmation of Oral Order (Outpatient Violator).
- CDC Form 362-A, NAEA Board Order-Confirmation of Oral Order (Parole Violator).
- CDC Form 919, NAEA Conditions of Parole.
- CDC Forms 1085 through 1093, Outpatient/Parolee Violation forms.
- CDC Form 1515-L, NAEA Conditions of Release.
- CDC Form 1521, Report to NAEA.
- CDC Form 1607, Oral Order of Return.
- CDC Form 1608, NAEA Board Order-P&CSD (Outpatient/Civil Addict Parolee) Calendar.
- CDC Form 1628-A, NAEA Report.

76010.26 Release On Outpatient Status/ Civil Addict Parole

Persons committed to the civil addict program shall be certified and referred for release consideration to the NAEA.

Annual Review

Any person (whether a new commitment or an outpatient/parolee returned to CRC or CRC branch) who has not been certified within the preceding 12 months shall be scheduled for a personal appearance before the NAEA for release consideration to OPS/civil addict parole.

In Absentia Hearing

In absentia hearings may be held for:

- Individuals on release referral status.
- Individuals unable to attend a hearing.
- Individuals on escape status.
- Confirm oral order of return.

Certification

Upon proper certification by the Warden or their designee of the individual's readiness for release, the individual shall appear before the NAEA. The appropriate vote sheet shall be prepared.

Any person committed pursuant to W&I 3051 (amended statutes September 17, 1981) who has spent a period of confinement/custody (excluding time spent on OPS, equal to that which he or she would have otherwise spent in state prison had sentence been executed, including application of good behavior and participation credit) shall upon reaching such accumulation of time, be automatically released on civil addict parole under the jurisdiction of the NAEA.

76010.26.1 Persons Placed On Felon Parole Pursuant To PC 1170(2)(a)

When a person is placed on felony parole under the jurisdiction of the BPT, the following procedure shall be followed:

- To minimize the delay in transmitting information to P&CSD when these individuals are placed on felony parole, immediately upon receipt of the Minute Order from the court, the CCRM at CRC shall forward this document to the CCRM at the appropriate regional case records office. Copies of CDC Form 343 (DOM 80000), Recommendation and Certification for Discharge, shall also be forwarded. P&CSD shall track the court actions for these cases to determine when placement on felony parole is ordered.
- The unit supervisor or designee shall request a copy of the Minute Order and Abstract of Judgment from the court or CRC case records, if the person was released from facility custody as a result of a court action. The CDC Form 138, Cum Sum, and photograph shall be requested from facility records. If the person was on active nonfelony parole when the commitment was vacated and the person was put on felony parole, the current C-File shall have the documents.

- When requested documents are secured, two copies of each document shall be prepared.
 - The original certified court documents shall be sent to regional case records.
 - One copy of the documents shall be retained in the field file.
 - Regional case records shall contact ID/Warrants Unit by telephone for a felon ID number, and advise the respective parole unit of the following information:
 - CDC number.
 - Date of issue.
 - Court sentencing date (placing case into active status).
 - Discharge information and review date.
- Regional case records shall then send a FAX to the ID/Warrants Unit providing the person's name, former "N" number, the parole unit to which the person is assigned, the effective date of the action that placed the person on parole and the new felony ID number of the person.

In Re Morales

If an active, non-felony outpatient, under supervision in the community or in local custody, is placed on felon parole by the court as a result of an In re Morales review, which discharged the civil commitment, but placed the person on felony parole, the procedures shall be:

- The parole unit supervisor shall assign the case to a Parole Agent in the unit. The parolee shall sign a CDC Form 1515 as evidence of parole status. The existing "N" number unit file shall become the felony C-File.
- Regional records shall be notified that a former civil addict by name and "N" number is now a felony parolee. If the parolee petitioned for a review under In re Morales, regional case records shall obtain a copy of the court's Minute Order or Abstract of Judgment placing the person on parole. Regional case records shall contact ID/Warrants Unit and follow the same process as above.

76010.26.2 Persons Placed On Civil Addict Parole Under the NAEA

For inpatients who reached their maximum custody/PED:

- Case records shall recompute the time.
- The outside of the C-File and the Cum Sum shall be marked "Civil Addict Parolee."

For outpatients who reached their maximum custody/PED:

- The CDC Form 919, Civil Addict Conditions of Parole shall be completed including any special conditions and distributed as follows:
 - Original to C-File.
 - Parole agent.
 - Parolee.
- CRC CRS's shall recompute the time.

76010.26.3 Records Disposition

Within five working days following release of an individual to OPS/civil addict case records staff shall:

- Post CDC Forms 112 and 144.

The slough file shall contain at least two copies of the Cum Sum. The C-File shall include the CDC Form 144 and three photos.

The C-File shall be retained at CRC until discharge, at which time it shall be processed as in DOM 71020.5.4.

76010.27 Responsibility for Obtaining Oral Order

When an outpatient/parolee surrenders to CRC or CRC branch without the agent's knowledge on a weekend or legal holiday and the next day is not a working day, facility staff shall be responsible for contacting an NAEA member to request an oral order of return.

At all other times, the Parole Agent's supervisor shall contact the NAEA member to request an oral order. If the outpatient/parolee surrenders during normal working hours without the Parole Agent's knowledge, facility staff shall obtain all pertinent information and notify the appropriate Parole Agent or unit supervisor who shall contact the NAEA member requesting the oral order of return.

In the event an oral order of return or Releasee-at-Large (RAL) is obtained by P&CSD staff and circumstances develop which require that the order be rescinded, the Parole Agent shall submit a report to the NAEA indicating the reasons and requesting that action be taken. In the event a duplicate oral order is obtained by facility staff at the time the outpatient/parolee surrenders at the gate and the oral order has not been confirmed, no further action on the

part of the NAEA is necessary. The date, time, and NAEA member who granted the request, as well as the reasons, shall be noted on the original copy of the CDC Form 1607.

Upon return of an individual from OPS/parole, the case file shall be updated and the Cum Sum revised in accordance with DOM 76010.5.1.

Case Records

The CCRM shall enter the appropriate data on the CDC Form 112, indicating NAEA actions.

- Suspending releasee/parolee status.
- Date of return to the facility.
- At-large time.
- Recalculate discharge date.

The legal page of the Cum Sum shall reflect the new discharge date and updated "custody time remaining" in accordance with DOM 76010.5.1 or if a person is a civil addict parole violator, the maximum eligible parole date shall be added.

76010.28 Return From OPS/Parole

A civil addict may be returned from OPS/parole as a technical violator, as a voluntary return, or with an additional civil addict commitment from the courts.

76010.28.1 Voluntary Return

Civil addicts may turn themselves in to the facility (CRC only) requesting return to inpatient status.

During regular working hours, the CCRM shall be notified upon arrival of the resident at the gate. If it is after regular working hours, the CCRM shall be notified at 8:00 a.m. the next regular working day.

Case Records

The CCRM shall:

- Ascertain the resident's number of custody days remaining, PED, etc., by contacting the regional CCRM.
- Determine whether an oral order has been obtained. If not, contact the Parole Agent.

Parole Agent

The Parole Agent shall obtain the oral order and notify the regional CCRM.

Case Records

The regional CCRM shall:

- Notify the facility CCRM.
- Post the CDC Forms 112 and 144.
- Cancel the Want if one is outstanding.
- Forward the files immediately to CRC.
- Place the case on the next NAEA calendar for action "continue of oral order of return."

76010.29 Limited Placement Return Policy

Outpatients and civil addict parolees may either voluntarily return or be involuntarily returned to CRC for a limited placement of up to 60 days for the purpose of detoxification, meeting special program needs, or dealing with cooperative cases whose behavior is deteriorating. Limited placement status is a privilege and may be removed by reclassification by CRC staff if there is a difference of opinion between the NAEA and the counselor, or if the civil addict's behavior is not conducive to limited placement. A limited placement return case must be recommended for limited placement by a CRC classification committee and subsequently granted a release date by the NAEA in order for confirmation to occur.

The unit supervisor of the assigned parole unit shall obtain the oral order of return (an NAEA member shall be contacted for an oral order between 8:00 a.m. and 10:00 p.m. unless an emergency arises). Both the assigned Parole Agent and the assigned counselor share the responsibility for development and implementation of a limited placement program plan while the case is at CRC.

76010.29.1 Limited Placement Return Eligibility Criteria

Limited placement denial shall occur if a case does not meet eligibility criteria or if an outpatient or civil addict parolee accumulates disciplinarys at CRC.

In order to be accepted for limited placement, an outpatient or civil addict parolee [including RALs or Parolees-at-Large (PALs)] must:

- Have no felonious criminal involvement other than illegal drug use.
- Either turn themselves in at CRC gate or surrender to the Parole Agent.

- Be recommended for limited placement by a CRC classification committee and granted a release date by the NAEA.

If the outpatient or civil addict parolee did not surrender or volunteer to return to CRC for limited placement, they must have cooperated with the Parole Agent and the Parole Agent shall indicate the outpatient or civil addict parolee does not require a lengthy stay at CRC in order for the case to be accepted for limited placement.

76010.30 Suspend/Return Cases

Upon receipt of a suspend/return report and a "Bye" hearing package from the parole unit, case records staff shall:

- Post on the CDC Form 112, the resident's/parolee's decision regarding a Bye hearing.
- Type resident's/releasee's decision regarding a "Bye" hearing on the NAEA Board Order-P&CSD [Outpatient/Civil Addict Parolee] Calendar, and the CDC Form 1608, Vote Sheet.
- Forward the complete "Bye" hearing package, violation report, addenda material, and updated Cum Sum to CALPU at CRC.

76010.31 Oral Orders Obtained

The parole unit office shall notify the regional case records office immediately following receipt of an oral order and shall also advise them of the releasee's/parolee's decision regarding a "Bye" hearing.

76010.31.1 Region Case Records Staff

Upon being advised of an oral order, case records staff shall:

- Prepare the CDC Form 1608.
- Post the CDC Form 112, "Oral Order Obtained on DATE from MEMBER."
- Pull and place the CDC Form 144, in the C-File.
- Obtain a complete up-to-date Cum Sum attaching a copy of the CDC Form 1608. This material shall be used at the NAEA hearing.
- Place the case on the next NAEA calendar for confirmation.
- Limited placement oral orders shall be confirmed at CRC hearing calendar.

76010.32 Process Cases For Bye Hearing

The provisions of the California Supreme Court case, In re Bye, extended certain hearing rights on alleged revocation of OPS/civil addict parole to the civil addict program.

If the releasee/parolee desires a hearing or refuses to sign the "Bye Papers," the action shall be referred to CALPU at CRC.

With the exception of voluntary returns, two Cum Sums shall be updated, one to remain in the C-file and the other to be forwarded to the NAEA calendar.

The regional CCRM shall make sure that a current Violation Report Fact Sheet, (CDC Form 1521), accompanies each case to be presented to the NAEA calendar.

76010.33 Suspended RAL/PAL

Suspended RAL/PAL reports with vote sheets attached shall be presented to the NAEA calendar.

After the NAEA has taken action on the RAL/PAL report, a Want shall be issued effective the date of the NAEA action.

The case shall be classified as either an exclusion category I or II and this classification shall be included in the violation report.

Example:

- Category I. Cases shall be reviewed for exclusion no later than six months after the date of suspension.
- Category II. Cases shall be reviewed for exclusion when they have been in RAL/PAL status for 12 months. A pending file, by month, shall be maintained for RAL reports. A copy of the report shall be filed in the current month.

Further:

- Category I cases shall be pulled within five months to notify the agent and the appropriate superior court(s) that the releasee/parolee shall be RAL/PAL six months on (date).
- Category II cases shall be pulled within 11 months to notify the agent and the appropriate superior court(s) that releasee shall be RAL 12 months on (date).

76010.34 NAEA/P&CSD Calendar Order

Cases presented to the NAEA on the P&CSD calendar shall be in order as follows:

- Confirm oral order of return (Include remove RAL/PAL if applicable).
- Suspend - return (Include remove RAL/PAL if applicable).
- Suspend - return with new commitment.
- Suspend - reinstate (Include remove RAL/PAL if applicable).
- Continue on OPS/civil addict parole.
- Suspend - RAL/PAL.
- Remove RAL/PAL status.
- Defer pending adjudication.
- Miscellaneous order.
- Discharge from parole (civil addict).
- Recommend discharge (outpatient).

Calendar List

A typewritten list of those persons scheduled, in calendar order, shall be prepared.

NAEA Board Order

A CDC Form 1608 shall be prepared for each resident scheduled on the calendar and stapled to the front of one copy of the NAEA board report.

Institution Appearance Evaluation Sheet

A copy of any CDC Form 279-L, which was prepared at a release calendar postponing release, shall be included in the hearing packets.

76010.34.1 Contents Of Hearing Packets

The hearing packet for the chairperson shall contain:

- Copy of calendar list.
- NAEA board reports.
- Prior CDC Form 279-L (if applicable).
- CDC Form 1608 (vote sheet).

The hearing packet for the RPA shall contain:

- Copy of calendar list.
- NAEA board reports.
- Prior CDC Form 279-L (if applicable).

The hearing packets shall be enclosed in a manila envelope in calendar order.

76010.34.2 Processing Vote Sheets

Immediately upon receipt of the signed CDC Form 1608, CRSs shall:

- Post CDC Form 112.
- Post CDC Form 144.
- Distribute copies of the CDC Form 1608 as follows:
 - Original to C-file.
 - Copy 1 to NAEA.
 - Copy 2 to Parole agent.
 - Copy 3 to Parolee/releasee.

76010.35 Outpatient Exclusions Unsuitable

When the decision is made by P&CSD to exclude a releasee from the civil addict program, the unit supervisor shall forward the exclusion letter and closing case conference to the CCRM. The unit supervisor shall send a notification letter to the outpatient/civil addict parolee advising them of the plan to exclude.

After the exclusion letter has been proofread and legal data verified, the letter shall be forwarded to the RPA for approval.

Upon receipt from the RPA, the exclusion letter shall be retained for 15 calendar days to allow time for the releasee to file an appeal.

If an appeal is not received by the end of the 15th calendar day, the CRSs shall make the following distribution:

- Original and one copy to the committing superior court, along with the updated Cum Sum. If there is more than one county of commitment, a letter shall be prepared for each county, with a copy of the letter to the other committing counties.
- Copy to DA of the county of commitment.
- Copy to the supervising Parole Agent.
- Copy to C-file.
- Copy to pending file.

An exclusion recommendation based upon unavailability for reasons of deportation or for a felony commitment to prison is not appealable.

When the superior court provides a certified copy of the Minute Order, vacating the commitment, the original shall be retained in the C-file and one copy forwarded to the Parole Agent.

76010.36 Outpatient Exclusions Resulting From State Prison Commitment

If the exclusion is a result of a releasee receiving a felony commitment to state prison, the procedure above shall apply.

In addition, a copy of the Cum Sum and a copy of the CDC Form 112 shall be forwarded to the appropriate reception center case records office.

The CCRM in the reception center shall forward a copy of the court removal order and a copy of the body receipt to the CCRM of the parole region when the releasee is taken out-to-court for further proceedings on the criminal charges.

The civil commitment shall be discharged from OPS on the date of the removal order.

In addition to the above listed documents, a copy of the certified Minute Order from the court shall be forwarded to the appropriate reception center.

The civil addict case may be discharged on either the Minute Order or the documents from the reception center, whichever is received first.

76010.36.1 Processing L.A. County Exclusionary Cases

When sending an exclusionary package to Los Angeles County DA's (LADA) Office, it will expedite matters to address the material to the appropriate LADA's office as determined by the superior court case number.

76010.37 Outpatient Early Discharge

Upon receipt of a board report from the parole unit, the CCRM shall ascertain that the discharge time is correct by auditing the previous actions on the CDC Form 112. The time period begins as of the date of release to OPS/parole or reinstatement, whichever occurs last.

To qualify for early discharge:

Commitment Offense Prior to 7-29-80

- An outpatient committed to civil addict program pursuant to W&I 3050 or 3051 whose offense occurred prior to July 29, 1980, must abstain from narcotics and otherwise comply with the conditions of release for 24 consecutive months. If the individual is participating in a methadone maintenance program, this time frame is extended to 36 consecutive months.

Commitment Offense On or After 7-29-80

- Outpatients committed to civil addict program pursuant to W&I 3050 or 3051 for a period of 24 months or less whose offense occurred after the enactment of SB 1878 (effective July 29, 1980) must abstain from narcotics and comply with the conditions of release for 12 consecutive months (W&I 3200).
- Outpatients committed under W&I 3051 for more than 24 months must abstain from narcotics and comply with the conditions of release for 16 consecutive months (W&I 3200).

Two Cum Sums shall be updated; one shall remain in the C-file and the other shall be forwarded to the NAEA calendar with the following:

- NAEA board report.
- CDC Form 1608.
- CDC Form 343 for W&I 3051 and 3051 commitments.
- CDC Form 342 for W&I 3100 and 3100.6 commitments.

If the NAEA acts favorably regarding the recommendation for discharge, the original discharge certificate and two copies, accompanied by a cover letter for each, shall be attached to an updated Cum Sum and referred to the committing court in the case of W&I 3050 and 3051 commitments.

One copy of the cover letter shall be mailed to the DA, one copy to C-file, and one copy to the appropriate parole unit.

76010.38 W&I 3100 Discharge

If an outpatient is committed under W&I 3100 or 3100.6 (no crime), the CDC Form 342 (DOM 80000) shall be completed and submitted to the RPA for approval. The above procedure shall apply, with the exception of forwarding the CDC Form 342 to the committing court. Favorable action by the NAEA acts as a discharge.

76010.39 Civil Addict Parolee Early Discharge

Individuals in this category must abstain from narcotics and otherwise comply with the conditions of parole for one year continuously or must have been under continuous parole supervision without interruptions, including OPS, for 16 months, whichever occurs first.

76010.40 Discharge For Felony Commitment

Upon receipt of a court order reflecting that the civil addict commitment has been vacated, the case records staff shall make appropriate entries on the CDC Form 112 indicating the discharge.

When all W&I commitments have been discharged, the records shall be retained at CRC six months, then forwarded to the assigned region to be microfilmed prior to being forwarded to the Archives Unit.

76010.41 W&I 3109 Discharge

The W&I 3109(a) institution exclusion or W&I 3109(b) new felony commitment shall be discharged upon receipt of a court order.

76010.41.1 Expiration of Commitment W&I 3100

Fifteen days prior to expiration of 12-month commitment, the CCRM shall prepare and sign the CDC Form 341 (DOM 80000). Signature by the CCRM acts as a discharge.

Distribution of the CDC Form 341:

- Original to dischargee.
- Copy to parole unit (if applicable).
- Copy to C-file.

76010.41.2 Expiration of Commitment W&I 3201

Forty-five days prior to expiration of commitment, the CCRM shall forward to the units a list of all persons scheduled for discharge, requesting a closing case summary.

Thirty days prior to the discharge date, the CCRM shall prepare a CDC Form 344-A (DOM 80000).

The RPA shall approve and sign the certification for the Director.

The CCRM shall forward the original and five copies, along with an updated Cum Sum, to the committing court(s) for further proceedings on the suspended criminal offense(s). For multiple commitments, a Cum Sum and copy of the certificate of discharge shall be sent to each committing court.

Upon receipt of the CDC Form 344-A signed by a judge of a superior court(s), case records staff shall make the following distribution:

- Original to parolee.
- Copy to parole unit (if applicable).
- Copy to C-file.

The CDC Forms 112 and 144 shall be posted to reflect discharge effective the date of the expiration of commitment. The discharge date shall be input into OBIS.

76010.42 Methadone Maintenance Program

The W&I 3200 provides that an outpatient may be discharged if they have abstained from the use of narcotics for at least two consecutive years; or is in a methadone program and has abstained from the use of narcotics for at least three consecutive years while in such program. W&I 3154 provides that participation in a methadone maintenance program shall not be construed to break the abstinence from the use of narcotics referred to in W&I 3200.

Being in or having been in a methadone program extends the time for discharge eligibility to three years; dropouts from the methadone program do not affect the discharge target date if the releasee remains drug free.

The three-year period starts on the date of the person's release to OPS or reinstatement, whichever occurs last.

An outpatient may be discharged if they have abstained from the use of narcotics (as in DOM 76010.15) for periods of time pursuant to W&I 3200 (amended Statutes, July 1980).

76010.43 Revisions

The Deputy Director, Institutions Division, or designee shall ensure that the content of this section is accurate and current.

ARTICLE 23 — CYA WARDS

Effective September 26, 1989

76020.1 Policy

CYA wards may be accepted for placement in the Department pursuant to PC 2037 and Welfare and Institution Code (s) (W&I) 1731.5 and 1755.5.

Inmates under the age of 21 years sentenced to the Department may be transferred to CYA to serve their commitments pursuant to W&I 1731.5(c).

In cases other than "court ordered", the director of CYA and/or The Director may require a "Director's Agreement" prior to transfer of wards or inmates between departments.

76020.2 Purpose

This section provides instructions for the processing of CYA wards in Department facilities and the transferring of Department inmates to CYA.

76020.3 Placement Requests

A request for transfer of a CYA ward or a Department inmate shall be initiated by the Director or their designee of the requesting department.

- Requests for a CYA ward placement in a Department facility pursuant to W&I 1755.5 and 1755.5(c) shall be reviewed by the Departments' Classification Services section.
- Classification Services shall process CYA orders placing wards at DVI pursuant to PC 2037 without delay.

The Chief, Classification Services shall review and recommend approval/denial of each case. Upon notification the Chief, Classification Services shall notify the CYA pursuant to the following:

- Whether the case is accepted or denied.
- Reasons for denial (if applicable).
- Reasons for any delay in transfer of more than ten working days.

76020.4 Acceptance Documents

Upon approval, CYA wards transferring to Department institutions shall be accompanied by the following documents:

- A copy of the CYA Form 1.310, YOPB Order, directing the transfer.
- The parole district case folder containing documents concerning the ward (if applicable).
- A case summary (Cum Sum) with a photograph.
- The wards C-File containing all relevant information.

76020.5 Placement of CYA Wards in the Department

Classification Services shall review all information available and place CYA wards who are not juvenile court commitments under PC 2037 at one of the following approved facilities:

- CMF.
- CTF.
- CIM.
- DVI.
- CIW.
- CRC (over age 18 only).

Normally, such placement for males shall be DVI and CMF. Wards whose paramount problem is narcotic involvement shall be placed at CRC.

Wards committed to the Department pursuant to PC 2037 shall be placed at DVI.

76020.5.1 Records Maintained

Case records shall prepare and maintain the following records:

Fingerprints

- One copy of CDC Form 138, Fingerprint Card, on all CYA wards except those received by transfer from another departmental institution. File this card in the C-file.
 - The only number on the card shall be the CYA number.
 - The card shall show the same entries as indicated in the DOM 72020.4.3 in the space provided for "county", "crime", and "crime and term".

Photographs

- Photographs as indicated in DOM 72020.4.4 except:
 - Use the word "CALIFORNIA" on the first line of the number card on photographs instead of "CALIFORNIA PRISON". Show the CYA number.

C-file

- C-files in accordance with instructions pertaining to departmental commitments.

76020.5.2 CYA Wards With a Department Prison Term**Case Records**

If a consecutive (CS) state prison commitment is received on a CYA ward, case records staff shall:

- Notify CYA of the CS prison commitment.
- Place a Department detainer, if the ward goes out-to-court for discharge on the CYA commitment specifying upon completion of the court hearing, the county shall deliver the inmate to a Department reception center for processing.

When a CYA ward receives a concurrent (CC) prison commitment, case records staff shall:

- Notify CYA of the commitment.
- Request a departmental identification number (CDC number).
- Request immediate transfer of the ward to a Department reception center for processing.

76020.5.3 CYA Board Hearings

Follow the CYA Board manual for procedures to conduct YOPB hearings.

76020.5.4 Escape/Disturbance Serious Disciplinary Violations

If a CYA ward is involved in an escape or serious disturbance, send two copies of the report made for the Director to the CYA, Attention: Clerk's Office, 4241 Williamsborough Drive, Sacramento, CA 95823. These shall be in addition to the copies sent to the Director or other departmental institutions.

If a ward is found guilty of any serious offense or conduct requiring placement in a SHU notify appropriate CYA staff. Departmental staff may refer the case to the DA's Office for prosecution or recommend that CYA consider returning the ward to court.

76020.5.5 Emergency Transfers

Transfer CYA wards only upon authorization of the CYA, except under emergencies. General emergency transfer provisions apply to CYA wards.

Direct requests for emergency medical/psychiatric transfers, to the Case Records Services Specialist of the Population Management Section of the CYA.

When an emergency transfer of a CYA ward is for the security and safety of the institution, the superintendent or their designee shall notify the Director/Chief Deputy Director or the Deputy Director, Institutions; who shall coordinate with the Case Records Services Specialist, CYA, to make arrangements for the review and authorization for transfer.

76020.5.6 Release

The assigned CYA Parole Agent shall handle the release of CYA wards. At the time of release, case records staff shall forward prerelease/field file to the appropriate CYA parole unit and the C-file to the designated regional case records office.

76020.6 Court Placement of a Department Commitment in CYA

The court may commit certain felons who were under the age of 21 years at the time of their apprehension with actual housing in a CYA facility. CYA may accept the case or refer it back to the court for resentencing.

This placement shall be solely for the purpose of housing and participation in available CYA programs. The inmate, in all other respects, is under the jurisdiction of The Director and the BPT.

76020.6.1 Transfer of a Department Inmate to CYA

Transfer of any inmate under 21 years of age to CYA, by the Director with the approval of the Director of CYA pursuant to PC 1731.5(c) shall meet but is not limited to the following criteria:

Criteria

- The inmate is unable to cope in the Department's general population.
- The inmate voluntarily signs a CDC Form 128-B, General Chrono, indicating their desire to transfer to CYA and acknowledging an understanding of CYA's structure and program.

76020.7 Processing Transfers

Institutions shall refer transfer agreement cases meeting the proper criteria to the Chief, Classification Services for review and forwarding for approval of the directors of CYA and the Department. Such referrals shall include:

- A memorandum endorsed by the Warden indicating significant case factors and reasons for the proposed transfer.
- The inmate's Cum Sum.
- The inmate's next scheduled board date, if applicable.
- The latest BPT report and preboard psychiatric evaluation, if applicable.
- The current medical and dental reports (CDC Form 128-C).
- A current photograph.

Classification Services shall notify the requesting institution of the referral's approval or denial in writing. The Chief, Classification Services, shall coordinate the actual transfer with the transportation unit (of the Department) and notify the institution of the date and time of the projected move.

76020.8 Department Inmates in CYA Facilities

Inmates transferred to CYA shall remain with CYA until:

- The Director of CYA orders their return to the Department.
- Released on parole.
- Discharged on their commitment.
- Returned to the Department upon their 25th birthday.

Note: An inmate being transferred to CYA shall be given the opportunity of reviewing their C-file prior to transfer.

76020.8.1 Programs/Responsibility

While housed in a CYA facility, Department inmates shall:

- Use the CYA ward's grievance procedure for any appeals.
- Have access to all available CYA programs, assignments, and medical/dental services.
- Be subject to CYA's Disciplinary Decision Making System (DDMS). CYA shall use the Department, Disciplinary Credit Loss Schedule when assessing a credit loss.
- Be given all credits and restoration opportunities as afforded all Department inmates.

76020.8.2 Escapes

CYA shall be responsible for initiating escape procedures when a Department inmate escapes from a CYA facility. Such procedures shall include:

- Notifying the Department's Law Enforcement and Investigations Unit by the Headquarters ID/Warrants Section.
- Notifying the Departments' LPU-(LPU).
- Alerting the Department if the escapee is a public interest case.

Upon apprehension of the inmate, CYA shall:

- Return the inmate to a CYA facility.
- Determine if the inmate shall be prosecuted and if they shall be transferred to the Department.

76020.9 Process of Maintaining Records

The Department's LPU is the hub institution and shall maintain the inmate's C-file while they are at CYA. Upon transfer of an inmate to CYA, case records staff shall forward the C-file to LPU.

- Each inmate without an existing CDC number shall be issued a departmental identification number upon acceptance by CYA.
- Headquarters OISB is responsible for commitment and movement data entry into OBIS until the release, return to the Department, or parole of the inmate. OBIS shall show the location of inmates in CYA facilities as SACCO (Sacramento Central Office), secondary unit, CYA/LPU.
- LPU is responsible for the entry of time collection and IW/TIP credits into OBIS.

Upon an inmate's release, parole or return to a Department facility, LPU shall forward the C-file to the appropriate institution or parole region. Any subsequent return of the inmate to custody shall be to a departmental facility. CYA shall be responsible for forwarding all documents regarding these inmates to LPU.

76020.10 BPT Hearings

LPU staff shall contact the BPT Scheduling Unit to determine board dates for inmates at CYA.

All required reports and documents shall be available for the Board hearing.

76020.11 Prerelease

CYA shall follow the Department's prerelease referral procedures for Department inmates nearing their Minimum Eligible Parole Date (MEPD)/Earliest Possible Release Date (EPRD).

76020.12 Parole

Department inmates housed in CYA facilities are paroled to CYA parole supervision and the CYA file shall be forwarded to the parole unit. If an inmate reaches the age of 25 prior to discharge, the Department will assume supervision.

LPU shall forward the C-files on these inmates to the appropriate Department regional case records office.

76020.13 Parole Violator Housing

Department reception centers shall process "returned to the Department" parole violators who had been serving their term and were paroled from a CYA facility.

76020.14 Revisions

The Deputy Director, Institutions Division, shall ensure that the content of this section is accurate and current.

CHAPTER 8—ADULT PAROLE OPERATIONS

ARTICLE 1—RELEASE PROCEDURES AND CONDITIONS OF PAROLE

Effective December 28, 1989

81010.1 Introduction

Parole is a critical period in the life of an offender. Through the application of controls and the provision of services, the Parole Agent helps to create favorable conditions for the parolee's successful adjustment. Community protection is the paramount concern and is effectively achieved if the parolee makes a favorable transition to society. A Parole Agent has broad discretion over the life of a parolee and in exercising that discretion, will act as a professional. During this period of supervision and observation, it is imperative that the Parole Agent be knowledgeable about the parolee's activities and significant others in the parolee's life. The Parole Agent's task is to maintain in the community, those parolees who can perform acceptably in the community and to remove those who cannot.

81010.2 Policy

Revised September 25, 2007

All inmates shall be paroled to the county of commitment unless the case complies with an exception criteria. County of commitment is the county where the crime for which the parolee was committed occurred, except for crimes committed in prison. Commitments to prison for an in-custody (prison) felony shall not be used as the basis for determining the county of commitment. If the parolee has been discharged from all previous terms, consideration shall be given to placement in another, more appropriate county in accordance with exception criteria. An inmate may be paroled to another county if it would be in the best interest of the public and of the parolee. The reasons for parole to another county shall be specified in writing in the parolee's C-File.

Another County

The following factors shall be considered in determining if parole to another county is justified:

- The need to protect the life or safety of a victim, the parolee, a witness or any other person.
- Public concern that would reduce the chance that the individual's parole would be successfully completed.
- The verified existence of a work offer, or an educational or vocational training program in another county that encompasses the following:
 - Permanent employment that will enable parolee to be financially self-sufficient. (Minimum wage jobs, such as busboy or short-term jobs such as cannery worker, are not self-supporting or of sufficient duration to qualify.)
 - Training or educational program that will: be full time; materially upgrade the parolee's employment skills or educational level and thus substantially improve employability; and will provide sufficient funds to preclude the parolee from relying on welfare, CDC cash assistance or similar programs.
- The last legal residence of the parolee having been in another county.
- The existence of family in another county with whom the parolee has maintained strong ties and whose support would increase the chance that parole would be successfully completed.
 - Family members are defined in Section 3000 of the Title 15 as the parolee's legal spouse, registered domestic partner, natural parents; adoptive parents, if the adoption occurred and a family relationship existed prior to the parolee's incarceration; step-parents or foster parents; grandparents; brothers and sisters; the parolee's natural and adoptive children; step-children or grandchildren. Aunts, uncles and cousins are not considered as immediate family members unless a bonafide foster relationship exists.
- The lack of necessary outpatient treatment programs for parolees receiving treatment pursuant to PC 2960.
- An inmate who is released on parole shall not be returned to within 35 miles of the actual residence of a victim of, or a witness to, a violent felony as defined in paragraphs (1) to (7) inclusive of subdivision (c) of PC 667.5 and any, felony in which the

defendant inflicts great bodily injury on any person other than an accomplice which has been charged and proved as provided for in PC 12022.7 or 12022.9, if the victim or witness has requested additional distance in the placement of the inmate on parole, and if the BPT or the P&CSD finds that there is a need to protect the life, safety or well-being of a victim or witness.

- Preparole referrals for out of state placement shall not be made unless the inmate is a resident of the other state or has relatives in the receiving state and it is clear that the inmate will be self-supporting.

81010.3 Release on Parole Definitions

Release on parole: The actual transfer of an inmate incarcerated in a CDC institution, reentry facility or housed temporarily in a county or city jail, to the supervision of the P&CSD on a date established by operation of law (PC 1170) or by the BPT (PC 1168).

Release dates:

- Indeterminate Sentence Law (ISL) release date: Date from which an ISL prisoner may be released from confinement pursuant to the ISL.
- Determinate Sentence Law (DSL) release date: The date a prisoner sentenced under PC 1170 is released to parole or discharged; also the date a prisoner sentenced prior to July 1, 1977, and recalculated by the BPT under the provisions of PC 1170.2 is released to parole or discharged.
- Life Prisoner ISL release date: A prisoner serving a sentence of life with the possibility of parole. The parole date is determined by the BPT.

CDC Form 611, Release Program Study: An informational document that specifies the inmate's proposed residence and employment, institutional adjustment, and prognosis for parole adjustment.

County of commitment means the county where the crime for which the inmate was committed occurred.

Inmates Housed in CYA facilities ("M cases"): The W&I authorizes a Superior Court to order that certain offender (aged 18-21 years) committed to prison be housed and programmed in CYA institutions.

81010.4 Imminent Release Policy

The Penal Code requires all cases to be referred to the parole region of the inmate's county of commitment for reentry screening. CDC policy requires referrals to be forwarded to the Regional Reentry Coordinator 210 days prior to the earliest possible release date (EPRD).

However, in those cases where recalculation of the EPRD indicates release on parole must occur in the immediate future, it is the C&PR's responsibility to make immediate telephone contact with the appropriate parole unit to arrange release procedures.

81010.4.1 Imminent Release Procedures

Institution C&PR (Immediately upon Learning of Imminent Release)

Telephones Regional Records to determine unit of assignment and advise region of new release date.

Telephones unit supervisor for release program information and reporting instructions.

Provides inmate with written release program reporting instructions.

Regional Records Staff

Advises Regional Reentry Coordinator of inmate's new release date.

81010.5 Release Program Study (RPS) Policy

The Parole Agent shall investigate all proposed programs. If a proposed program is determined by a Parole Agent not to be suitable for a parolee, efforts shall be made by the Parole Agent to develop an appropriate alternate program in the county of commitment.

P&CSD staff shall return the completed RPS Form, CDC Form 611, and Conditions of Parole to the institution housing the inmate 60 days before the inmate's EPRD. However, if the RPS, CDC Form 611, is not received by the parole unit at least 75 days before the EPRD, the parole investigation shall be returned within 15 days of receipt.

81010.5.1 Release Program Study Procedures

Regional Screening Agent

Reviews case to determine compliance with county of commitment law.

Sends parole package to appropriate unit office.

Notifies sending institution's C&PR of assigned unit.

Unit Supervisor or Designated Parole Agent

Assigns case to a Parole Agent.

Parole Agent

Reviews case and prepares CDC Form 1659, Risks and Needs Assessment for felon cases.

- Investigates residence program to determine:
 - Type of residence (apartment or single family dwelling) and neighborhood.
 - Other persons residing in the home, their ages, occupations, income and relationship to parolee.
 - Willingness of persons in the home to assist and their understanding of limitations on a parolee and the Conditions of Parole.
- Investigates employment, training or school plans by contact with employer or other appropriate individuals to determine:
 - Validity of any offer.
 - If the proposed job is appropriate for inmate's prior experience, skills, training and criminal history.
 - Evaluates any behavior problems and prescribed treatment or medication.
 - Sends letter to inmate requesting information about alternative residence or employment if proposed program is unsatisfactory.
 - Contacts relatives or other persons who may offer support or employment, or makes arrangements for halfway house, motel or other accommodations if there are no resources.
- Forwards file with cover memorandum by unit supervisor to appropriate unit within county of commitment if investigation reveals case is incorrectly assigned.
 - Forwards copies of cover memorandum to regional screening agent and to C&PR of sending institution.
- Reviews case file and recommends imposition of any appropriate special conditions of parole to the unit supervisor.
- Completes CDC Form 611, Release Program Study, indicating inmate reporting instructions and distribution of release funds.
 - Clearly specifies county of residence in section B "Assigned Agent's Comments and Reporting Instructions to Inmate."
- Returns preparole case file and completed CDC Form 611 and CDC Form 1650D, Record of Supervision, documenting the preparole investigation, to the unit supervisor if case is High Control or High Services Category or a special condition of parole is recommended.

Unit Supervisor

Reviews preparole material for High Service or High Control case or imposes special condition of parole, if appropriate, and signs CDC Form 611.

Returns RPS package to Parole Agent with instructions for additional investigation if required.

Unit Clerical Staff (60 Days Prior to EPRD or Within 15 Days of Receipt)

Forwards completed CDC Form 611 to C&PR of institution where inmate is housed.

81010.6 Release Funds Policy

Inmates paroled or discharged from a CDC institution or reentry facility shall be given \$200 in release funds. Parolees released to a local hold who are subsequently released from custody are entitled to release funds under PC 2713.1. In these cases, P&CSD staff shall delay requesting release funds either until after the parolee is released from local custody or until the release date from local custody has been determined. Cash assistance or vouchers to assist the parolee will be provided, pending receipt of release funds. Parolees released from county jail following a period of BPT ordered revocation shall be given release funds at the rate of \$1.10 per day in revocation status to a maximum of \$200. Parolees released directly to custody of another state or the federal government including releasees to the USINS shall not be given release funds under PC 2713.1 (Cash assistance funds equal to release funds under PC 2713.1 shall be used to meet the release needs of these parolees if they are subsequently released from custody). All personal funds should accompany parolee being released to hold.

Check Log

A check log shall be maintained documenting the name of the agent who was given the check for distribution, the date it was given, the date

it was delivered by the agent or the disposition of the undelivered check.

Revocation Unit

Parolees and civil addicts released from a CDC revocation unit due to dismissal of charges, a finding that the charges are unsubstantiated, or ordered continued on parole without being assessed a revocation term shall be provided a budget equal to bus transportation to their area of residence plus \$10.00 for incidentals if traveling up to 200 miles and \$15.00 for incidentals for greater distances. The individual shall be directed to report to the assigned parole unit for further instructions and further assistance as required.

Release funds are intended to aid the parolee in reintegrating into the community and shall not be provided until the parolee is released to the community. A maximum of one-half of the \$200 can be given to an inmate when the inmate enters a reentry facility. Parolees in a DMH institution are not considered to be in custody.

No remaining portion of the release funds shall be provided to a parolee who absconds prior to receipt of the total release monies.

81010.6.1 Release Funds Procedures

Parole Agent

Specifies amount of money to be given to parolee at release and the amount to be forwarded to parole office on the CDC Form 611.

- Request for release funds for parolees released to a local hold shall be delayed until actual date of release from custody is determined.

(Within 30 Days After Release)

Provides second check to parolee.

Returns all undelivered checks, including release fund checks, more than 30 days old from the date of issue, receipt or release; whichever comes later to the originator of the check.

81010.6.2 Revocation Release Funds Procedures

Parole Agent

Computes amount of money parolee is to receive at rate of \$1.10 per day based on the actual revocation time served.

Prepares CDC Form 102, Release Statement and forwards it to Headquarters Accounting.

(No Later Than 60 Days After Revocation Release Date)

Provides release funds to parolee.

81010.7 Verification of Employment Authorization Policy

All persons, including parolees, must present potential employers with certain documents that prove their identity and right to work. It is illegal for employers to knowingly hire, recruit or refer for a fee unauthorized aliens for employment. An unauthorized alien includes anyone who is not a U.S. citizen, is not a permanent resident alien, or is not authorized to work by the Immigration Reform and Control Act or the U.S. Attorney General. In order to be lawfully employed, all persons, including parolees, must prove their identity and right to work by presenting one of the following documents to future employers:

- Driver's license with individual's photograph.
- Identification card with individual's photograph.
- Social Security card which authorizes employment.
- U.S. birth certificate.

If the above listed documents are unavailable, an individual may present one of the following:

- U.S. passport.
- Certificate of U.S. citizenship.
- Certificate of Naturalization.
- Unexpired, foreign passport authorizing employment.
- Resident alien card or other alien registration card with individual's photograph.
- Any other document the U.S. Attorney General finds acceptable.

The verification of employment authorization shall occur within 24 hours of an individual's hiring, recruitment or referral.

81010.7.1 Verification of Employment Authorization Procedures

Correctional Counselor

Reviews case file to determine if inmate has document(s) required to prove identity and right to work.

(Prior to Inmate's Parole)

Obtains copies of appropriate required document(s).

(Upon Inmate's Transfer to Reentry or Release on Parole)

Provides inmate or parolee with required document(s).

Parole Agent (During Initial Interview)

Advises parolee of requirement and assures that parolee has required document(s).

Assists parolee in obtaining the required document(s).

81010.8 Length of Parole

Parole period is five years for persons serving life sentences whose commitment offenses occurred on or after January 1, 1979. Maximum parole period, including time under parole supervision and time under revocation status, shall not exceed seven years.

Parole period is three years for persons serving life sentences whose commitment offenses occurred on or before December 31, 1978. Maximum parole period, including time under parole supervision and time under revocation status, shall not exceed four years.

Parole period is three years for persons serving a non-life sentence whose commitment offenses occurred on or after January 1, 1979. Maximum parole period, including time under parole supervision and time under revocation status, shall not exceed four years.

Parole period is one year for persons serving a non-life sentence whose commitment offenses occurred on or before December 31, 1978. Maximum parole period, including time under parole supervision and time under revocation status, shall not exceed 18 months.

81010.8.1 CYA "M" Case Policy

"M" cases are felon offenders age 16-21 years committed to prison but ordered housed in a CYA facility. As felon commitments, CYA "M" cases are subject to CCR, BPT Rules and Regulations, and all laws applicable to CDC inmates and parolees. CYA may transfer an "M" case to CDC jurisdiction at any time it is determined that CYA jurisdiction is no longer appropriate (usually on the basis of serious disciplinary or additional law violations). Jurisdiction automatically transfers to CDC when an "M" case reaches age 25, if still under correctional supervision.

If the BPT revokes the parole of a CYA "M" case and assesses a revocation term, a decision will be made by CYA staff to either retain the case in the "M" program or have jurisdiction revert to CDC. The case will be placed in either a contract RTC facility (e.g., Tulare, Hidden Valley, etc.) or a CDC institution to serve the revocation term. "M" cases being retained under CYA jurisdiction will usually be placed in a contract RTC facility. "M" cases serving revocation terms in CDC facilities will, in many cases, be transferred to P&CSD supervision upon release.

81010.8.2 "M" Case Procedure**Regional Records Staff (If a Community Hearing and Region has File) or Institutional Records Staff (If an Institutional Hearing and Institution has File)**

Calculates revocation release date (RRD) if "M" case reverts to CDC jurisdiction.

Classifies case for CSR endorsement.

CYA Regional "M" Coordinator (If Case Reverts to CDC Jurisdiction)

Forwards case file to regional Reentry Coordinator.

Regional Reentry Coordinator

Assigns case to appropriate P&CSD parole unit.

Notifies institution C&PR in writing of unit assignment.

Forwards field file to assigned parole unit.

Parole Agent

Prepares and forwards a "Notice of Transfer from CYA to CDC Jurisdiction" letter to the former "M" case

Provides reporting instructions for former "M" case to institution C&PR.

81010.9 Effect of Revocation and Suspension on Parole Period

Time during which parole is revoked extends the parole period automatically by amount of time ordered for the revocation. When parole is revoked, any time credited toward continuous parole is lost. Time on continuous parole begins again when parolee is released after serving revocation period.

Time during which parole is suspended because parolee has absconded will not be credited toward the parole period. When parole is suspended, any time credited towards continuous parole is lost. Time

on continuous parole begins again when parolee is reinstated on parole by BPT action.

81010.10 Establishing Length of Parole Policy

Length of parole will be established within specified statutory maximums by the BPT for persons subject to PC 1168 and by CDC for those persons subject to PC 1170.

The BPT will set length of parole for inmates sentenced under PC 1168 at the Parole Consideration Hearing. The parole period specified by the BPT shall be on CDC Form 1515, Notice and Conditions of Parole. The inmate shall be given a copy of the CDC Form 1515 prior to release on parole.

The length of parole is one year for inmates sentenced under PC 1170 whose commitment crime was prior to January 1, 1979.

The length of parole is three years for inmates sentenced under PC 1170 whose commitment crime was after January 1, 1979.

The Parole Agent shall note the appropriate length of parole on the Conditions of Parole prior to sending the RPS to the institution. Institution staff will serve the Conditions of Parole on the inmate a minimum of 45 days before the inmate's EPRD.

81010.11 Exception to Parole to County of Commitment Policy

An inmate shall be paroled to county of commitment. Notwithstanding this policy, an inmate may be paroled to another county when this would be in the best interest of the public and parolee. If a decision is made to allow parole to another county, the reasons shall be specified in writing.

81010.11.1 Parole to Other County Procedures**Parole Agent (Sending Unit)**

Reviews case with the unit supervisor to determine if it meets an exception to the county of commitment policy.

Prepares a CDC Form 1551, Transfer Investigation Request, and CDC Form 1681, Exception to County of Commitment specifying the specific criteria allowing inmate to parole to a county other than the county of commitment and stating how the inmate meets the criteria.

Unit Supervisor (Sending Unit)

Sends preparole file with CDC Form 1551 to the appropriate parole unit.

Unit Supervisor (Receiving Unit)

Reviews preparole file and CDC Form 1551 outlining exception to parole to County of Commitment Policy and reasons for exception.

Assigns case to Parole Agent to conduct preparole transfer investigation.

Parole Agent (Receiving Unit)

Conducts preparole transfer investigation.

Completes CDC Form 1681, Exception to Placement or Parole to County of Commitment and returns preparole file with copy of CDC Form 1551 to sending unit if case meets criteria for parole to other county.

Indicates specific reasons on CDC Form 1551 why program does not meet criteria to allow parole to other county if case is rejected.

Unit Supervisor and PA (Receiving Unit)

Review and complete CDC Form 1681.

Unit Supervisor (Receiving Unit)

Forwards CDC Form 1551 and CDC Form 1681 to sending unit indicating acceptance of case with copies to C&PR of sending institution if case is accepted for parole supervision.

Unit Supervisor (Original Sending Unit)

Reviews CDC Form 1551 rejecting transfer to other county if case is rejected.

Contacts unit supervisor of receiving unit and attempts to work out difference of opinion if one exists.

Sends copies of a memorandum to PAs of both regions for resolution of any difference of opinion.

Designated PA

Reviews memorandum.

Investigates to determine accuracy of memorandum and discusses the proposed program with the corresponding administrator.

If administrators agree, decision is final.

If agreement is not reached, both administrators prepare memoranda outlining the reasons for their decision and forward them to the Deputy Director, P&CSD.

Deputy Director, P&CSD

Reviews memoranda and file materials and makes final decision.

81010.12 Parole of Inmates Sentenced Under 1168 PC Policy

The BPT establishes parole dates for cases sentenced under PC 1168. The BPT can establish a fixed date or, if inmate has what appears to be a valid program, order a parole date advancement of up to 60 days.

81010.12.1 Parole of Inmates Sentenced Under PC 1168 Procedures**Parole Agent**

Reviews RPS report.

(Immediately)

Completes preparole investigation if the BPT has ordered a parole date advancement.

(Within 60 Days of Receipt)

Completes investigation and returns the preparole investigation to institution. (If parole date is less than 60 days from date of case assignment, returns preparole materials within 15 days of receipt).

(Within 15 Days of Receipt)

Completes preparole investigation and returns the RPS Form, CDC Form 611, to the sending institution.

81010.13 Direct Release to Parole From Court Policy

The sentencing court, under certain circumstances, may sentence a person directly to parole supervision. The P&CSD shall provide supervision as outlined below as if the person had been paroled from an institution.

81010.13.1 Direct Release to Parole From Court Procedures**Officer of the Day (OD)**

Interviews parolee, completes the CDC Form 1650B, Initial Interview/Transfer, and obtains a complete address and the names of two or more persons to be contacted in an emergency.

Forwards case materials to Unit Supervisor.

Unit Supervisor

Assigns case to a Parole Agent when parolee reports to unit office.

Parole Agent

Contacts sentencing court to secure:

- Certified copy of order sentencing parolee to parole [Abstract of Judgement (AOJ)].
- Copy of POR.
- Copy of arrest reports and other pertinent information.

Telephones LPU staff to advise legal documents are being FAXed.

FAXs all legal documents, including POR (personal data if no POR available), and the identity of the assigned unit, to LPU, CDC headquarters.

Secures fingerprint cards, photographs and arrest record.

Requires parolee to sign copy of Conditions of Parole.

(Until Case is Reviewed by BPT)

Provides supervision.

LPU Staff (On Day of Receipt of AOJ or no Later Than Morning of Following Work Day)

Verifies that there is no existing active CDC number on commitment name and FAXs CDC number to parole unit.

Provides Headquarter OBIS with the following information in order to enter the admit and parole moves and the legal commitment:

- AOJ.
- Sentence Data Entry form.
- Race.
- CI&I SSCH, if available.
- Date of birth.
- Parole unit assigned.
- Parolee's county of residence (if other than county of commitment, approval if applicable).
- Controlling discharge date.

Reviews and refers those appropriate cases to the BPT for consideration for discharge review.

Unit Clerical Staff (Day of Receipt of CDC Number)

Makes three copies of all documents.

- Develops unit field file with one set of copies.

- Forwards original and one set of copies to regional records.

Forwards one black and white fingerprint card and two red and white fingerprint cards, original Conditions of Parole, CDC Form 1515, and parolee photo to regional records.

Regional Records Staff

Sends original set of documents to LPU in central office.

Advises Parole Agent of BPT action and date, court sentencing date (date case becomes active on parole), discharge date, discharge review date, special conditions imposed by BPT (if appropriate), and any registration requirements when notified of BPT action by LPU.

Prepares Discharge Certificate and mails copy to Parole Agent if BPT has waived parole.

Parole Agent

Gives or mails Discharge Certificate to parolee if BPT has waived parole and closes case.

Completes Risks and Needs Assessment and continues supervision, if parole not waived.

81010.14 Delay In Reporting Policy

The Parole Agent may allow a parolee to delay reporting for an initial interview if there is a valid reason for the delay. High Control cases shall not be granted delays.

81010.14.1 Delay In Reporting Procedures**Parole Agent**

Reviews request for delay in reporting for initial interview.

Determines whether delay in reporting is appropriate based on:

- Stated reason for the delay.
- Background of parolee requesting delay.
- Character and relationship of any persons parolee proposes to contact en route.
- Any factor which Parole Agent determines to be a good reason for delay.
- Submits any request for delay in excess of seven days to unit supervisor for approval.
- Specifies in instruction section of the CDC Form 611 that delay in reporting for initial interview is approved and specifies new reporting date.
- Notifies, by CDC Form 1526, Visitation Permit, unit offices covering the area where parolee will be stopping.

81010.15 Conditions of Parole Policy

The general conditions of parole, as established by CDC or the BPT, are the same for persons sentenced to either a determinate or an indeterminate term of imprisonment. These conditions of parole are not a contract, but are a means of informing parolees of the specific rules governing their behavior. The conditions apply whether or not an inmate signs the CDC Form 1515, Notice and Conditions of Parole.

Non-English

A Spanish language translation of the CDC Form 1515-B shall be provided to Spanish speaking parolees. If the parolee is a non-reader, staff shall interpret or read the form to the parolee.

Other non-English speaking parolees shall be provided with an adequate interpretation of the Conditions of Parole.

- A statement shall be typed on the CDC Form 1515-B that the inmate (identified by name and CDC number) has been provided with an adequate interpretation of the Conditions of Parole. The interpreter or reader shall sign and date the statement. The same procedure shall be followed if special conditions are imposed at a later date.

A violation of any condition of parole may result in arrest, suspension or revocation of parole and return-to-custody.

81010.16 Special Conditions of Parole Policy

The BPT or P&CSD may impose special conditions of parole in addition to the general conditions of parole prior to or after parole.

The BPT will establish and impose the special parole conditions for persons subject to PC 1168. The BPT may impose any special condition of parole at the hearing where parole is granted. The special condition and reasons for its imposition will be typed on the CDC Form 1515 given to the inmate prior to release. A special condition imposed by the BPT is removed or modified only through BPT action.

The P&CSD will establish and impose special parole conditions for persons subject to PC 1170.

All special conditions of parole will be specified in writing with the reason for their imposition and must be issued to the parolee in writing prior to becoming effective.

- To participate in psychiatric treatment. This special condition will be imposed whenever the BPT or CDC staff determine that treatment is required.
- To abstain from alcoholic beverages. The Penal Code requires that this special condition be imposed on all parolees convicted of any of the offenses listed in PC 290 who were intoxicated or addicted to the excessive use of alcohol at the time the offense was committed. This special condition may also be imposed whenever BPT or CDC staff determine that there is evidence alcohol use was a major contributing factor in the commitment offense or evidence that the continued use of alcohol over a long period of time contributed to involvement in numerous criminal acts.
- To participate in anti-narcotic testing. This special condition may be imposed if there is a documented history or admission of illegal use of controlled substances within five years prior to the present commitment or during incarceration.

Any other restriction or instruction may be imposed as a special condition if warranted by the circumstances of the case. The behavior to be controlled must be sufficiently documented in the parolee's file to support imposition of a special condition.

A special condition of parole shall be imposed only if the condition is:

- Related to the crime for which the prisoner was convicted.
- Related to conduct that is not in itself criminal, but is reasonably related to potential future criminal behavior.

81010.16.1 Imposition of Special Conditions of Parole Procedures

Parole Agent

Reviews case to determine whether special conditions are appropriate. Determines whether inmate is capable of understanding the Conditions of Parole in English. Prepares the Conditions of Parole in appropriate language if inmate is unable to understand English.

(At Least 60 Days Prior to EPRD)

Includes specific recommended special condition of parole and reason for recommendation on CDC Form 1515 in appropriate language and forwards to unit supervisor with preparole materials.

Unit Supervisor

Reviews recommended special condition(s) of parole and signs Notice and Conditions of Parole thereby imposing special conditions.

Parole Agent (At Least 60 Days Prior to EPRD)

Forwards original and copy of Notice and Conditions of Parole to institution.

- Retains copy for unit file.

Institution Staff (Prior to Inmate's Parole)

Serves inmate with CDC Form 1515 and has inmate sign form.

Parole Agent (After Release on Parole)

Includes specific recommended special conditions of parole and reasons for recommendation on CDC Form 1515 and forwards to unit supervisor.

Prepares an Activity Report titled: Modification of Special Condition of Parole, indicating recommended special condition of parole and reasons for recommendation and forwards to unit supervisor if parolee is ISL case.

Unit Supervisor

Reviews CDC Form 1515 and signs or:

Reviews Activity Report and signs if approved for ISL case.

- Forwards Activity Report with Headquarters Calendar Decision Form, BPT Form 1130, attached to BPT Headquarters Calendar by regional records.

Parole Agent

Serves parolee with CDC Form 1515 and has parolee sign form.

Provides parolee with written notification of appeal rights.

Distributes original CDC Form 1515 to regional records, copy to parolee and copy to unit file.

81010.17 Removal of Special Conditions of Parole Policy

The unit supervisor may remove or modify special conditions of parole not imposed by the BPT.

Special condition to participate in psychiatric treatment may not be removed without concurrence of POC staff. The special condition prohibiting use of alcoholic beverages may not be removed if imposed pursuant to the Penal Code.

81010.17.1 Removal of Special Conditions of Parole Procedures

Parole Agent

Presents case for supervisor review to determine if special conditions of parole should be removed.

Records, dates, and signs decision on CDC Form 1650D, Record of Supervision.

Prepares revised CDC Form 1515.

- Obtains unit supervisor's signature on form.

Serves parolee with CDC Form 1515 and has parolee sign form.

Distributes original CDC Form 1515 to regional records, copy to parolee and copy to unit file.

Prepares a CDC Form 1502, Activity Report, recommending removal of special conditions of parole, to participate in POC, reasons for recommendation and POC staff recommendation.

- Forwards Activity Report to PA if unit supervisor disagrees with POC recommendation.

PA

Makes final decision.

81010.18 Inmate or Parolee Refusal to Sign Notice and Conditions of Parole Policy

The BPT shall revoke the parole of any inmate or parolee who refuses to sign the CDC Form 1515, including any added special conditions of parole.

81010.18.1 Inmate or Parolee Refusal to Sign Notice and Conditions of Parole Procedures

Parole Agent

Requests inmate or parolee to sign Notice and Conditions of Parole.

Places offender in custody if inmate or parolee refuses to sign CDC Form 1515, if so directed by unit supervisor.

Prepares and submits a CDC Form 1521, Violation Report, recommending referral to screening calendar.

81010.19 Parole Agent's Verbal and Written Instructions Policy

A verbal instruction requiring or prohibiting specific behavior is to be confirmed in writing within five working days after notifying the parolee and may be processed and issued as a special condition of parole.

Only the BPT can impose instructions requiring or prohibiting specific behavior for more than 30 days on life sentenced parolees, ISL release date parolees, and parolees serving a year-and-a-day sentences.

81010.19.1 Parole Agent's Verbal and Written Instructions Procedures

Parole Agent

Verbally instructs parolee and assures that parolee understands

(Within Five Days of Verbal Instructions)

Prepares instructions in written form and gives copy to the parolee.

Prepares a special condition of parole using the procedure outlined above for any action to be performed by a parolee for more than 30 days.

- Verbal imposition of special conditions will take the place of written notice as long as the new conditions of parole are served on parolee within five days of issuing verbal instruction.

81010.20 Dual Referral Preparole Policy

Preparole packages for inmates in CDC institutions referred for out-of-state placement will be forwarded to both the appropriate parole region and the Interstate Unit (ISU) for investigation. Field unit staff will conduct the RPS in the same manner as other preparole referrals until notified by institution staff of acceptance by the other state. If the inmate is not accepted for supervision by the other state prior to release on parole, the inmate shall report to the release program developed by California parole unit staff.

81010.21 Warrant Pending Preparole Policy

Preparole referrals for inmates with pending Warrants will be forwarded to the appropriate regional office.

Field unit staff will conduct the RPS in the same manner as other preparole referrals.

If the Warrant is exercised by a California agency or a federal agency (other than USINS) upon the inmate's parole and the parolee is housed in custody in

California, the assigned Parole Agent is responsible for monitoring case status and providing service in the same manner as other Minimum Supervision cases in local custody.

If the Warrant is exercised by an out-of-state agency or by a federal agency (excluding USINS) and parolee will be in custody outside California, the case shall be transferred to the ISU.

If the Warrant is exercised by an out-of-state agency or by a federal agency (excluding USINS) and the inmate is paroled to local agency pending extradition, the assigned Parole Agent is responsible for monitoring case status and providing services in the same manner as for other Minimum Supervision cases in local custody. The case shall be transferred to the ISU when extradited.

81010.21.1 Inmates Paroled to Warrant Procedures

Parole Agent

Assures that length of parole and special conditions of parole for DSL cases are included in the completed CDC Form 611.

Determines name, address, warrant number Also-Known-As (AKA) (if applicable) for agency taking custody out-of-state.

Transfers case to ISU.

Institution Staff

Notifies field unit on or before scheduled release date if Warrant is not exercised (Field unit assumes responsibility for the case).

Enters release unit into OBIS.

Parole Agent

May request another unit to provide courtesy supervision if parolee will be in custody outside assigned unit's area of supervision.

81010.22 Release to Deportation Policy

The RPS shall specify if an inmate will be paroled to USINS hold. The assigned Parole Agent is responsible for monitoring case status both prior to completion of deportation proceedings and after deportation.

81010.22.1 Deportation Case Procedures

Parole Agent

Includes clear reporting instruction in CDC Form 611 for parolee to follow if released on bail.

(Within Three Days of Inmate's Parole)

Contacts non-CDC institutions housing inmates released to USINS hold and obtains USINS "A" number and other information relative to case.

Forwards request with inmate's name and USINS "A" number for information on status of deportation proceedings to:

- USINS, Los Angeles, CA (for inmates released from an institution south of CTF).
- USINS, San Francisco, CA (for inmates released from CTF and institutions north of CTF).

(Each 60 Days)

Contacts USINS office to determine parolee's status and date of deportation hearing.

(Every 90 Days)

Obtains CI&I and local SSCHs after parolee has been deported.

(45 Days Prior to Lapse of Jurisdiction)

Develops and submits CDC Form 1635, Discharge Review Report, to unit supervisor.

Unit Supervisor

Reviews and includes discharge recommendation on Discharge Review Report.

- Submits discharge review reports on deportation cases to the BPT.

Parole Agent

Places parolee in custody if parolee is located and has not been discharged.

Places a parole hold and submits a Violation Report to the BPT if a deported parolee is located in custody. (The parolee will be charged with violation of 8 USC 1326, Illegal Reentry of a Previously Deported Alien; Failure to Report to the Parole Agent; and any violation of parole conditions that may have been committed).

81010.23 Release From Revocation Status Policy

The BPT may set a specific period of revocation time following a finding of good cause. The parolee shall be released from custody the

day of completion of the revocation period. The Parole Agent will assist the parolee in readjusting to the community.

81010.23.1 Release From Revocation Status Procedures

Parole Agent

Retains field file of parolee serving a revocation period.

Reduces case to minimum supervision and maintains parolee as active case when serving a revocation period in local custody.

Removes from active status and places on roster as RTC case any revoked case in a CDC institution or RTC facility.

Monitors the case in local custody during the RTC period.

[At Least 30 Days Prior to Revocation Release Date (RRD)]

Submits a CDC Form 102, Release Statement, requesting release funds for parolee serving revocation term in local custody.

Contacts parolee in local jail to develop a proposed release program.

Investigates proposed program and provides parolee with specific reporting instructions.

Requests an updated release program by memorandum to institution for parolee serving revocation period in CDC institution or RTC facility.

Investigates proposed program if different than parolee's previous program.

Informs institution regarding release plans, reporting instructions and distribution of release funds.

(Prior to RRD)

Updates parole plan for High Control or High Service case.

81010.24 Parole of Psychotic Inmate Policy

A psychotic inmate will be retained at the releasing institution pending BPT emergency action if, on the day of parole release, it is determined that the inmate is so mentally ill as to be unable to function while en route to the parole program. Emergency psychiatric return procedures shall be implemented immediately by appropriate P&CSD staff.

81010.24.1 Parole of Psychotic Inmate Procedures

Institution or Transportation Staff

Requests qualified institutional staff to conduct immediate psychiatric examination of the inmate if inmate appears to be too mentally ill to proceed to parole program.

Contacts P&CSD staff if examination confirms that inmate is too mentally ill to proceed to parole program.

- Makes contact by C&PR to unit supervisor if release is during normal business hours.
- Makes contact by institutional AOD to region of release (Identification/Warrants Unit, telephone: (ATSS) 485-6713 or (916) 445-6713).

The Regional Administrator will be contacted if the AOD cannot be contacted.

Unit Supervisor or AOD

Authorizes institution staff to detain mentally ill inmate pending BPT emergency action by telephone.

FAXs written verification of P&CSD authorization to detain mentally ill parolee in institution.

Unit Supervisor or Designee

Obtains emergency BPT psychiatric action.

81010.25 Revisions

The Deputy Director, Paroles and Community Services Division, is responsible for ensuring that this section is current and accurate.

ARTICLE 2 — CASE SUPERVISION*

Effective December 28, 1989

Not Cleared For Statewide Use

81020.1 Policy

Legal Basis of Parole

The California Legislature has found and declared "...that the period immediately following incarceration is critical to successful reintegration of the offender into society and to positive citizenship. It is in the interest of public safety for the State

to provide for the supervision and surveillance of parolees and to provide educational, vocational, family and personal counseling necessary to assist parolees in the transition between imprisonment and discharge".

Objectives of Parole

The objectives of parole supervision are to reduce the frequency and severity of incidents of parolees' criminal behavior and to facilitate their community adjustment.

Responsibility for Supervision

Each parolee, whether on active, suspended Parolee-at-Large (PAL), or revoked status, shall be assigned to a Parole Agent. Parole agents are responsible for case supervision, surveillance and services delivery to parolees assigned to their caseloads. The primary means through which Parole Agents fulfill these responsibilities are through contacts with parolees and persons involved with the parolees. Parole agents shall cooperate with other law enforcement and human services agencies that may be involved with their parolees. Case contacts (field, office or collateral) shall be carried out to accomplish supervision objectives.

81020.2 Case Supervision Definitions

Case Contacts

Collateral contact - Any communication with other people concerning a parolee.

Face-to-Face Contact - Personal contact with a parolee.

Phone Contact - Telephone call to a parolee.

Field Contact - Face-to-face contact with a parolee away from the parole office.

Home Contact - Face-to-face contact with a parolee at the parolee's residence.

Office Contact - Face-to-face contact with a parolee at the parole unit office.

81020.3 Parole Agent Responsibilities

Parole Agent

Obtains information about a parolee's activities and needs.
Intervenes if a parolee's behavior violates the Conditions of Parole or jeopardizes public safety.

Conducting control activities mandated by policy or ordered by the unit supervisor.

Refers parolees for needed services such as counseling, residence placement, employment, drug counseling, detoxification or maintenance, and any other indicated services which may aid in parolee's rehabilitation.

Shares information about parolee with other law enforcement and human service agencies that demonstrate a need-to-know.

81020.4 Supervision Categories

Each parolee will be assigned to a specific supervision category. There are four categories of supervision emphasis: High Control, High Service, Control/Services, or Minimum Supervision. Scores obtained on Risk and Needs Assessments determine the initial supervision category to which parolees are assigned.

Initial Case Assignments

Supervision Emphasis	Risks Score	Needs Score
High Control	7.5 - 10	
High Service	0 - 7.4	7.5 - 10
Control/Services	3.75 - 7.4	Less than 7.5
Minimum	0 - 3.74	Less than 7.5

81020.5 Change In Supervision Category Policy

Each felon parolee who completes 180 days of satisfactory parole under control/services supervision shall, absent a case review, be assigned to minimum level supervision. The exception will be PC 290 registrants, POC, known institutional gang cases, and high notoriety cases. These cases will require a case review with the unit supervisor to reduce the case to minimum supervision. Other cases may be maintained at the control services level with unit supervisor approval subsequent to a case review. Cases may be reduced to Minimum Supervision prior to six months on parole by case review providing at least 30 days of successful parole have been completed. The parolee's current residence shall be verified by personal field contact by the Parole Agent prior to assignment to Minimum Supervision. No outpatient or civil addict parolee shall be assigned to Minimum

Supervision until a report has been submitted and approved by the NAEA. Changes in supervision levels to or from High Control or High Services shall only be made with unit supervisor approval subsequent to a case review.

All parolees in custody will be automatically reduced to Minimum Supervision after final BPT' action unless an exception is approved by the unit supervisor. Parolees will automatically return to their previous supervision level upon release from custody.

81020.6 Case Contact Policy

Each parolee will receive the level of supervision required by the assigned supervision category and the specific needs of the individual case.

Case contacts will be carried out for the purpose of accomplishing case objectives. Additional specific purpose contacts, when deemed appropriate, will be spelled out in the parole plan as will any special supervision requirements. In any instance where the Parole Agent is unavailable due to vacation, illness or other reasons for a period sufficient to prevent timely field contacts and case reviews, the unit supervisor will assign those responsibilities to another agent.

Unusual Circumstances

In unusual circumstances (e.g., a parolee residing in a geographically remote area), the unit supervisor may establish contact requirements for a specific case that varies from mandated supervision requirements. The reason for such variations shall be documented in the CDC Form 1650-D, Record of Supervision form.

81020.7 High Service And High Control Case Supervision Procedures

Parole Agent (On First Working Day After Release)

Conducts High Control case face-to-face contact. Any exceptions to this requirement shall receive prior unit supervisor approval and documented on CDC Form 1650-D.

(Within 7 Working Days of Release)

Conducts one face-to-face contact at parolee's residence.

(Each 30 Days)

Conducts two face-to-face field contacts, one of which is at parolee's residence.

Conducts two collateral contacts.

81020.8 Control Services Supervision Procedures

Parole Agent (On First Working Day After Release)

Conducts control/services face-to-face case contact.

(Within 15 Working Days of Release)

Conducts one face-to-face field contact at parolee's residence.

(Each 30 Days)

Conducts face-to-face contact, at least one of which each quarter will be at the parolee's residence, another in the field, and a third at a location of the agent's choice, including the office.

81020.9 Minimum Supervision Procedures

Parole Agent (Within 30 Days of Release or Assignment)

Conducts one face-to-face field contact at parolee's residence. (If initial interview was conducted at parolee's residence, this requirement is considered satisfied.)

(Within 30 Days of Assignment to Minimum Supervision)

Conducts one face-to-face contact at parolee's residence (This requirement is waived if there has been a face-to-face contact at parolee's residence within 30 days.)

Contacts parolee by mail to advise of transfer to new Parole Agent.

Instructs parolee to submit a monthly report by fifth working day of each month.

Instructs parolee of testing requirements.

Monitors monthly reports.

(By First of the Month Prior to Discharge Review)

Obtains a current CI&I SSCH.

(During Month Prior to Discharge Review)

Conducts face-to-face contact.

(Annually, if Continued on Parole)

Conducts two face-to-face contacts.

81020.10 Custody Case Supervision Procedures

Parole Agent

Conducts collateral contact with appropriate agencies to track court status and other changes.

(Prior to Release From Custody)

Communicates reporting instructions to parolee either in writing or in person.

81020.11 Anti-Narcotic Testing Policy

Special supervision techniques must be utilized to supervise effectively parolees with a history of drug abuse. These techniques include, but are not limited to, observation in the field and urinalysis testing. The Parole Agent must also make direct examination for symptoms of drug abuse such as hypodermic injection marks, physical condition of the parolee (signs of withdrawal), the condition of the parolee's eyes (dilated or constricted pupils) and unusual or bizarre behavior.

If no specific level of testing has been ordered by the BPT or NAEA, high control and high service cases will be tested twice each 30 days. Felon control services cases required to test will be tested once every 30 days.

Prior NAEA approval is required to reduce testing frequency below twice each 30 days for civil addict cases.

Anti-narcotic testing is by urinalysis and shall be on an unscheduled basis (less than 72 hours notice) except for cases being tested twice weekly.

A written, signed, dated and witnessed CDC Form 1527, Statement of Admission Form may substitute for a required anti-narcotic test.

A parolee scheduled for urinalysis testing shall be asked to show proper identification if the testing staff are not familiar with the parolee. Also, a photograph of the parolee to be tested shall be available to the testing staff to assure accurate identification.

Contractor Testing

The following assays may be conducted by contractor testing:

- Routine screen detects Morphine, Cocaine, Amphetamine, Methamphetamine, Phenobarbital, Pentobarbital, Secobarbital and Phencyclidine (PCP).
- Routine screen plus Marijuana (THC test).
- Routine screen plus alcohol.
- Routine screen plus THC and alcohol.
- THC only.
- Alcohol only.
- THC and alcohol.
- Confirmation of specimens determined "positive" by Enzyme Multiplied Immunoassay Technique (EMIT).
- Qualitative analysis for unknown substances.

Urine Samples

Urine samples shall be taken under direct observation. If this is not possible, steps shall be taken to reduce the possibility of manipulation, including checking restroom for other individuals or contraband before allowing parolee to enter, prohibiting parolee from taking anything other than specimen container into restroom, and noting general temperature and color of sample immediately after securing it. The person securing the sample will be responsible for handling and routing the sample.

Urinalysis samples are usually taken in 30cc bottles. The bottle needs to be filled to at least two thirds to permit analysis. The label of each urinalysis sample bottle must be completed and samples mailed in contractor-provided container. Bottle label will be completed as follows:

- Date - Print date sample was obtained.
- Sample Identification (I.D.) - Print inmate's or parolee's last name, followed by first name and CDC number. If inmate or parolee is in custody, add "IN CUSTODY" to this section of label.
- Office - Print unit number.
- Test Request - Check appropriate box for type of analysis desired. Routine screen involves screening for eight controlled substances. If a qualitative analysis of an unknown substance is needed, laboratory shall be contacted for packaging and mailing instructions.

Fails to Report

If a parolee fails to report for anti-narcotic testing as instructed and has no valid reason, failure will be considered a violation of parole and will be reported to the unit supervisor. If manipulation of testing is detected, behavior will be considered a violation of parole and will be reported to unit supervisor.

When doubt arises as to the accuracy of a test indicating drug use, the Parole Agent shall make an effort to validate the test result through retesting and checking for other physical symptoms of drug use. If efforts fail to confirm the positive test and, in the judgment of the Parole Agent or unit supervisor, an error has occurred, the matter will be submitted to the NAEA with a recommendation "continue on outpatient status" or "continue on parole". The report must document efforts made to validate test results including: results and dates of three follow-up tests within three weeks of the positive tests, and a summarization of test dates and results during the last six months, or results from the last board action (whichever occurred last).

81020.11.1 Anti-Narcotic Testing Procedures**Parole Agent**

Tests parolee per policy.

Prior NAEA approval is required to reduce testing frequency for civil addicts.

Takes urinalysis samples, labels samples, specifies tests and forwards samples to laboratory per contract requirements.

Substantiates parolee's admission of use by checking for puncture wounds or urinalysis.

Completes a CDC Form 1527, when appropriate. Documents on CDC Form 1650-D any verbal admission of use by parolee.

Documents test results and actions taken on CDC Form 1650-D.

Unit Supervisor or AOD (Immediately Upon Learning Test Results)

Notifies other unit office by telephone of any positive test results reported for a parolee being tested for another unit.

81020.12 Alcohol and Marijuana Testing Policy

Testing for alcohol or THC use shall be limited to parolees whose commitment offenses were clearly alcohol or THC related. A special "no alcohol" condition of parole shall be imposed if alcohol testing is required. Testing for alcohol or THC must be stipulated in the parole plan and approved by the unit supervisor.

81020.13 Notification of Testing Results Policy

Notification of positive results will be telephoned to the office indicated on sample label. Test results for in-custody cases will be reported promptly. Notification will normally occur the morning of first working day following analysis. Written follow-up of all tests performed for a unit will be in summary form indicating names, CDC numbers, tests ordered, and results.

81020.14 Case Review Policy

A case review is a planned and structured concurrent analysis of a case by the Parole Agent and unit supervisor. Case reviews will specify factors such as job adjustment, employment, residence, compliance with special conditions, response to supervision, violations, patterns of testing and individualized supervision goals.

Case reviews shall be conducted as follows:

- When a Parole Plan is initially developed for a High Control or High Services case.
- Cases classified to High Control and High Services will be reviewed after 30 calendar days following first assignment to that classification, then each 60 days thereafter (as long as they remain in that classification). Case reviews of High Control and High Service cases every 60 days are intended to determine the necessity for continuing as High Control and High Services cases. These case reviews will be brief. The focus will be on verifying current information or specifying changes being made in the Parole Plan. It need not cover all areas of the Parole Plan.
- Changes in supervision level from or to High Control or High Services.
- When requested by either the Parole Agent or unit supervisor.

Results of the case review shall be documented by the Parole Agent on the CDC Form 1650-D if routine, or a CDC Form 1502, Activity Report or CDC Form 1521-A-D, Violation Report.

81020.14.1 Case Review Procedures**Parole Agent (After Case Review)**

Records following information on CDC Form 1650-D:

- Date of review.
- Case classification.
- Current program.
- Contact and testing requirements if above minimums.
- Adjustment factors.
- Specific instructions regarding controls or services.
- Any noted supervision deficiencies.

Unit Supervisor (After Case Review)

Initials and dates review.

Records specific instructions from unit supervisor on the CDC Form 1502 if used in place of case review.

The title "Case Review" shall be added to top of CDC Form 1502.

81020.15 Parole Plan Policy

A Parole Plan documenting case status and supervision goals shall be developed for each parolee by the assigned agent and recorded in legible form on the CDC Form 1650-D.

The Parole Plan shall specify factors such as employment, residence, special conditions, anti-narcotic testing patterns and compliance, response to supervision and parole violations. Parole plans for cases assigned to either High Control or High Services shall be developed by the Parole Agent and reviewed by the unit supervisor prior to the inmate's release on parole.

81020.15.1 Parole Plan Procedures

Parole Agent (Prior to Inmate's Parole)

Develops Parole Plans for cases assigned to High Control and High Service.

(Within 15 Days of Parole)

Develops Parole Plans for cases assigned to Control/Services and Minimum Supervision.

Records each Parole Plan on the CDC Form 1650-D.

81020.16 Initial Interview Policy

The Parole Agent shall conduct the initial interview with the parolee within three working days of parolee's release from prison. The objectives of the initial interview are to establish positive rapport with the parolee, to inform the parolee of available assistance and services and to advise the parolee of his or her responsibilities while under parole supervision.

81020.16.1 Initial Interview Procedures

Parole Agent (Within Three Days of Parolee's Release)

Conducts initial interview including the following items:

- A review of the general conditions of parole and any special conditions.
- Instructs parolee to sign Conditions of Parole (if not previously signed) and informs parolee that failure to sign Conditions of Parole will result in revocation.
- Instructs parolee of testing requirements.
- Determines during the initial interview if releasing institution prepared and served parolee with Notice of Felony Registration Requirement.
- Prepares and serves the parolee immediately in those instances where the institution staff failed to do so.
- Instructs a parolee required to register per PC 290 of the registration time limit of 14 days from date of parole or change of address and advises of requirement that failure to register per PC 290 will result in parole revocation.
- Photographs the parolee:
 - Standing against a neutral background, with hat and non-prescription glasses removed.
 - Parolee's name, CDC Number and date photo was taken shall be printed on plain white paper and will be held by parolee at chest level.
 - Photos to be no smaller than 3-1/8" x 3-1/8" in size.
 - Tattoos may be photographed if deemed appropriate.

Completes the CDC Form 1650-B, Record of Initial/Transfer Interview.

81020.17 Clearance of Driver's License Procedures

Parole Agent

Reviews preparole file to determine if driver's license has been cleared.

Refers parolee to Driver's License Improvement Analyst, DMV, with a letter which specifies:

- Current parole adjustment.
- Any anti-narcotic testing requirements.
- A recommendation regarding issuing a driver's license.
- Attaches Driver's Record Information Form to letter if available.
- Clears outstanding Traffic Warrants by sending a letter to issuing court per VC.

81020.18 Information Furnished to Local Law Enforcement

Upon request, the P&CSD is required to furnish the following information within ten days to the local sheriff or chief of police:

- Name, CDC number and address of parolee.
- Photograph of parolee no smaller than 3-1/8 x 3-1/8 inches in size.
- Copies of fingerprints.

If the sheriff or chief of police requests additional parolee information, the Regional Administrator or a designee shall meet with the appropriate agency staff to develop mutually acceptable procedures for providing the necessary information. The following information may be furnished:

- Parolee CI&I number.
- Commitment offense(s) and discharge date.
- Date of birth.
- Car license and description.
- Any special condition of parole.
- Parole agent's name.
- Address and telephone number of parole unit.

81020.19 Arson Registration

Parolees who have been convicted of arson offenses specified in PC 4587.1 that occurred on or after January 1, 1985, and have been ordered by the court to register, shall register with the sheriff or chief of police within 30 days of coming into any city or county.

81020.20 Controlled Substance Offender Registration Policy

Any person convicted in California of any offense listed in H&SC 11590(a), or convicted in Federal Court or another state, of an offense which would have been punishable as one of the offenses in H&SC 11590 (a) if committed in this State must register with the police department or sheriff's office within 30 days of establishing residence in any California city or county.

81020.20.1 Controlled Substance Offender Registration Procedures

Parole Agent

Determines during the initial case assessment whether:

- Institution staff identified the parolee as a case required to register.
- Parolee's commitment crime requires registration.
- Parolee has prior convictions that require registration.

During the initial interview:

- Determines whether the institution served parolee with Notice of Registration.
- Prepares Notice of Registration if parolee not served.
- Instructs parolee where to register based on parolee's residence address.

(30 Days After Parole)

Verifies that parolee registered as required and records date, agency and number from registration certificate on the Face Sheet.

Prepares Activity Report if parolee fails to register as required and reviews case with unit supervisor for appropriate action.

81020.21 Sex Offender Registration Policy

Within 14 days of being paroled or transferred to or visiting any California city or county, any person convicted of an offense listed in PC 290 must register with the police department or sheriff's office which has jurisdiction where that person resides.

Within ten days of changing residence any person so registered must report new address to law enforcement agency with which last registered.

Any person required to register under this section will be relieved of this requirement only upon receipt of a Certificate of Rehabilitation or a pardon, unless that person has been declared a Mentally Disordered Sex Offender (MDO).

If a parolee is required to register under this section, the Parole Agent will advise parolee of this requirement, the procedure for registering and will verify parolee's registration. The Parole Agent will also verify that parolee has notified local law enforcement of any change of address.

Whenever a parolee fails to register under PC 290 within specified time limits, the parolee may be taken into custody. Any parolee who fails to register as required shall be processed as a parole violator and scheduled for revocation proceedings.

81020.21.1 Sex Offender Registration Procedures

Parole Agent (Prior to Release)

Determines from preparole file whether parolee has been convicted of any crime that requires registration per PC 290.

Notifies assigned Correctional Counselor by Mini Memo if file does not clearly indicate institution staff are aware of PC 290 registration.

(At Initial Interview)

Determines during initial interview if releasing institution prepared and served parolee with Notice of Felony Registration Requirement.

Informs parolee of following:

- Where to register, based on parolee's address.
- That parolee has 14 days from release to register and ten days after changing residence to register.
- That failure to register within required time limits shall result in BPT revoking parole.

(15 Days After Release)

Requires parolee to present proof of registration showing parolee registered within 14-day time limit.

Submits Activity Report and Case Review on parolee who fails to register within time limits.

May place a parolee who failed to register into custody pending revocation proceedings by the BPT.

Submits a Violation Report to BPT for parolee who fails to register within required time limits.

81020.21.2 Notification and Disclosure of HIV Infected Parolee Policy

Revised September 25, 2007

Information regarding the HIV, AIDS or ARC status of a person is confidential and shall not be disclosed except as provided by law. Willful or negligent disclosure of HIV information by a peace officer is a misdemeanor.

Designated Department institution medical representatives shall inform the assigned Parole Agent of the pending parole of an inmate who has tested positive for HIV infection or who has been diagnosed with ARC or AIDS and of the appropriate medical precautions to be taken. The Parole Agent is responsible for ensuring that the parolee who has tested positive for HIV infection or who has ARC or AIDS contacts the county health department or his or her own physician in order to receive appropriate counseling and medical treatment for AIDS.

If it becomes known to a Parole Agent that a parolee who has tested positive for HIV infection, or has ARC or AIDS has not informed his or her spouse or registered domestic partner, the Parole Agent shall ensure that the spouse or registered domestic partner is informed. In addition, the Parole Agent shall seek to ensure that the person providing this information also provides counseling to the spouse or registered domestic partner. The Parole Agent may request that the information and counseling be provided only by the CMO of the parolee's releasing institution, or by the treating physician for the spouse, registered domestic partner, or parolee.

In the apprehension of a parolee diagnosed with ARC or AIDS, the Parole Agent shall inform local law enforcement officers assisting him or her in that activity of this information in order to protect themselves from potential HIV exposure or transmission.

81020.21.3 Notification and Disclosure of HIV Infected Parolee Procedures

Revised September 25, 2007

Performed by designated institution medical representative prior to parolee's release:

- Notes inmate's HIV infection status on the CDC Form 611, Referral Release Program Study and on a CDC Form 128-C for the Medical Record.
- Conveys the appropriate medical precautions to the Parole Agent.

Performed by Parole Agent:

- Ensures that HIV infected parolee contacts the county health department or his or her own physician in order to receive appropriate counseling and medical treatment for AIDS.
- May request institution CMO or the physician treating the spouse, registered domestic partner, or parolee to inform the spouse, or registered domestic partner of the parolee's HIV positive status if parolee has not informed the spouse of HIV infection.
- Informs assisting law enforcement officers of parolee's diagnosis with ARC or AIDS.

81020.22 Notification of Release of Parolees Convicted of a Violent Felony Policy

P&CSD staff have the responsibility for notification of victims, or witnesses who request notification of the death, release, or escape of parole violators, convicted of a violent offense, serving revocation time in county jails or RTC facilities.

Any parolee who has served a term of imprisonment after conviction for an offense listed in PC 667.5(c) and who is serving a period of parole revocation is subject to the provision of PC 3058.6 and 3058.8.

Notification

Notification of release from revocation status must be made to law enforcement officials and, if a request has been made, to certain witnesses, victims or their next of kin. Institution Division staff are responsible for providing the notice for those persons first released from prison to parole and for those persons released from an institution following a period of parole revocation.

The P&CSD staff is responsible for providing the notices for parolees released from a revocation period served in a county jail or community RTC facility. For this group, P&CSD staff must notify local law enforcement, including the DA of the county the parolee will be released to, of the release of parole violators at least 15 days prior to the scheduled revocation release date if to the county of commitment, or 45 days prior to release if to a county other than the county of commitment.

The notification shall include the name of the person who is scheduled to be released, whether or not the person is required to register with local law enforcement, and the community in which the person will reside. In the event the court, BPT, or P&CSD orders the immediate release of a parolee in local custody, the P&CSD shall notify the sheriff or chief of police (or both), and the DA having jurisdiction over the community in which the person is scheduled to be released on parole at the time of release. In no case shall notice required by PC 3058.6 and 3058.8 be made to the appropriate law enforcement agency or person requesting notice later than the day of release on parole.

81020.22.1 Notification of Release of Parolees Convicted of a Violent Felony Procedures

Revised September 25, 2007

Regional Screening Coordinator

Reviews CDC Form 611, Release Program Study (RPS) to determine if parolee was convicted of a violent offense per PC 667.5(c). (Listing follows).

Completes and attaches PC 3058.6 Notice Memorandum to RPS package.

Parole Agent

Makes notations that case requires PC 3058.6 and 3058.8 notice on Field Book Face Sheet and Parolee Roster.

Notes PC 3058.6 Notice Requirements on Risks and Needs Assessment Form.

(At Least 15 Days Prior to Release)

Notifies sheriff or chief of police and DA of parolee's release from local custody facility and Revocation Release Date (RRD) or Projected Revocation Release Date (PRRD) by CDC Form 863, Notice of Release to Parole, if parolee is returning to county of commitment.

Notice is made 45 days prior to release if parolee is returning to county other than county of commitment.

Includes parole unit address and telephone number and "address to be determined upon release" in CDC Form 863, if parolee's specific residence is not established.

PC 667.5(c):

- Murder or Voluntary Manslaughter.
- Mayhem.
- Sodomy by force, violence, duress, menace, or fear of immediate and unlawful bodily injury on the victim or another person.
- Oral copulation by force, violence, duress, menace or fear of immediate and unlawful bodily injury on the victim or another person.
- Rape as defined in subdivision (2) of PC 261.
- Lewd acts on a child under 14 as defined in PC 288.
- Any felony punishable by death or life imprisonment in the state prison.
- Any other felony in which the defendant inflicts great bodily injury on any person other than an accomplice which has been charged and proved as provided for in PC 12022.7 or 12022.9 on or after July 1, 1977, or as specified prior to July 1, 1977, in PC 213, 264 and 461, or any felony in which the defendant uses a firearm, of which the use has been charged and proved as provided the of which in PC 12022.5.
- Any robbery perpetrated in an inhabited dwelling house or trailer coach, as defined in the VC or in the inhabited portion of any other building, wherein it is charged and proved that the defendant personally used a deadly or

dangerous weapon, as provided in subdivision (b) of PC 12022, in the commission of that robbery.

- Arson, in violation of subdivision (a) of PC 451.
- The offense defined in subdivision (a) of PC 289 where the act is accomplished against the victim's will by force, violence, duress, menace, or fear of immediate and unlawful bodily injury on the victim or another person.

Notifies Victim

Notifies victims, next of kin, or witnesses of parolee's release from custody, if such notice has been requested, by CDC Form 863-A, Confidential Notice of Release to Parole.

- The notice shall inform those persons of the fact that the person who committed the violent offense is scheduled to be released and specify the proposed date of release.
- Notice of the community in which the person is scheduled to reside shall also be given only if it is:
 - In the county of residence of a witness, or family member including a registered domestic partner of a victim who has requested notification, or
 - Within 25 miles of the actual residence of a witness, victim, or family member including a registered domestic partner of a victim who has requested notification.
- If, after providing the witness, victim, or next of kin with the notice, there is any change in the release date or the community in which the person is to reside ...the Parole Agent shall provide the witness, victim, or next of kin with the revised information.
- Requests received pursuant to PC 3058.8 will be processed in accordance with the provisions of case records procedures.
- Notifies the witnesses or victims of any change in release date or community of parole for preparole referrals.
- CDC Form 863-A, Notification of Release Letters sent to victims and witnesses, shall be deemed confidential.

(Immediately Upon Determining Residence)

Notifies agency of specific residence of parolee if this was not included on original Notification of Release letter.

Regional Records Staff

Posts notification requirements on CDC Form 112, Chronological History and CDC Form 144, Control Card if not posted by institution staff.

Files Notification of Release letter in the Hold, Warrants and Detainers section of the C-File.

Forwards copy of completed Notification of Release to Executive Officer, BPT, if Indeterminate Sentence Law (ISL) case.

Regional Administrator or Designee

Reviews any comments received from a law enforcement agency regarding the release of an inmate or parolee.

Forwards copy of comments to Executive Officer, BPT, if ISL case.

Modifies original decision regarding community of release per PC 3003 after consideration of comments, if appropriate.

Regional Reentry Coordinator

Notifies law enforcement agency submitting comments of decision on release plan.

81020.22.2 Response to Written Request for Victim or Witness Notification Policy

Written requests for notice of an inmate's/parole violator's death, release, or escape will be responded to in writing by the Regional Administrator, or designated staff members not less than the level of a PA-I.

Each request will be evaluated in terms of the potential risk of harm the parolee's release or escape will present to the requester, as well as the need to maintain the confidentiality of the requester's identity and of information contained in the request.

81020.22.3 Response to Written Request for Victim or Witness Notification Procedures

Regional Administrator or Designee

Acknowledges request and advises requester:

- Of actions taken by CDC;

- Of additional information, if any, required before an action can be taken.
- Of his or her responsibility, pursuant to PC 3058.8, to inform CDC of any change in the address (or telephone number) to which a notice is to be sent or a call is to be made; and
- That the request is considered confidential.
- Forwards copies of request and response to regional records.

Regional Records

Makes entry on the CDC Form 112, Chronological History, in bold red ink "REQUESTED NOTICE OF DEATH, RELEASE, OR ESCAPE FROM DEPARTMENTAL CUSTODY" and to the CDC Form 144, Control Card.

Stamps, with letters no less than one-quarter inch high, may be used.

81020.23 Parolee Restrictions

Parolees are prohibited from owning, using, having access to or having under their control any firearm or other weapon as defined in state or federal statutes. This includes any weapons used for hunting, self-defense or display, whether or not the weapon is operable.

The following state and federal statutes continue to apply after discharge from parole:

- The Penal Code prohibits anyone who has been convicted of a felony, or is addicted to any narcotic drug from owning or possessing any firearm capable of being concealed upon the person.
- The Penal Code also prohibits those who have been convicted of using a firearm in the commission of the felony, from owning, possessing, or having under their control or custody any firearm.
- Federal law prohibits persons convicted of felonies from owning, possessing or having under their control any firearm or ammunition.

According to California law the right to possess a firearm may be restored by a Governor's pardon unless the person was ever convicted of a felony involving use of a firearm. The right to possess a firearm under federal law is not restored by a Governor's pardon but may be requested through application to the United States' Secretary of the Treasury.

Parolees should be referred to County Registrar for specific requirements.

A person convicted of a felony may be ineligible to hold certain public offices but may request a determination from the official who certifies candidates for the office in question.

The California Probate Code excludes a person convicted of "an infamous crime" from acting as an executor or administrator of an estate.

81020.24 Parolees Employment Restriction Policy

A parolee's criminal, psychiatric or drug abuse history may indicate that the parolee will pose a serious threat to the person or property of others in certain employment situations. The Parole Agent shall prohibit specific employment by a special condition of parole if a parolee:

- With a narcotics record would have access to drugs.
- With a record of embezzlement would have access to a large amount of funds.
- With a history of violent or aberrant sexual behavior would be in a situation which is likely to prompt similar behavior.

The Parole Agent will disclose the parolee's status to an employer if it is necessary for the safety or well being of the employer, the employer's property, the parolee or others.

81020.24.1 Disclosure of Parolee Status Procedures

Parole Agent

Requires the parolee to inform the employer of the conviction(s) within a set time (or notification will be done by Parole Agent) if disclosure is indicated.

Contacts employer to verify whether parolee informed the employer and makes disclosure if necessary.

Discloses no more information than is necessary to safeguard employer or others.

(Immediately)

Confers with unit supervisor and advises employer if parolee's employment poses an immediate and serious threat to the safety of employer or others.

81020.25 Parolee Contact With Prisoner Policy

A parolee or former parolee may not enter grounds of any jail, camp or prison in California without the consent of the Warden or official-in-charge (OIC).

81020.25.1 Parolee Contact With Prisoner Procedures

Parole Agent

Sends a letter to the Warden or OIC of the institution where the parolee wishes to visit with a recommendation.

Informs parolee not to visit until the Warden or OIC responds to the letter and consents to the visit.

Advises parolee of Warden's or OIC decision.

81020.26 Parolee Financial Matters

P&CSD is not a collection agency. Parole staff will not collect money for any other agency or person and will not threaten a parolee with sanctions to compel payment of a debt. If a Parole Agent is contacted by a creditor, the agent shall verify the identity of the creditor and indicate that the parolee will be advised of the obligation to pay debts. On occasion, institution staff will contact the field to verify debts or financial obligations by an inmate. Field staff may also be contacted by the institution to verify trust fund withdrawal information. It is the policy of the P&CSD to investigate all such requests as expeditiously as possible.

P&CSD staff will not handle funds of individual parolees except:

- The disbursement of release funds forwarded to unit office.
- The disbursement of cash assistance.
- Managing funds of a physically or mentally incompetent parolee pending establishment of a conservatorship. The Parole Agent shall obtain unit supervisor approval for such management and will document approval on the CDC Form 1650-D.
- The repayment of cash assistance loans by parolee.

81020.27 Parolees Acting As Informers Policy

P&CSD shall cooperate with law enforcement agencies regarding the use of parolees as informers. Information regarding a releasee's or parolee's activities as an informer shall be restricted to parole staff and law enforcement personnel on a need-to-know basis. Any documents regarding informer activity shall be classified as confidential. A reentry inmate shall not be permitted to act as an informer.

81020.27.1 Parolees Acting As Informers Procedures

Parole Agent

Advises law enforcement agency to submit request (on official letterhead stationery) signed by an agency command person with the following specific information:

- Activity parolee will be involved in.
- Duration of activity.
- Scope of the activity.
- Travel from area required by activity.
- Planned procedures to protect parolee during and after activity.

Contacts parolee and determines:

- If parolee wishes to act as an informer.
- If parolee knows potential danger involved.

Informs parolee that supervision will continue and all violations shall be reported to BPT for action.

Reviews case with unit supervisor.

Prepares specific plan of supervision, including anti-narcotic testing, to be followed while parolee is in informer status.

Places law enforcement agency letter of request, written case review and report in envelope marked "Confidential".

All documents dealing with parolee informer status shall be marked "Confidential" and processed per instructions on handling confidential documents.

Prepares written report to BPT if required.

Submits entire package to BPT for review and decision through the unit supervisor in any of the following circumstances:

- Parolee is in custody with a hold.
- Parolee has been suspended.
- Pending violation requires a report to BPT.
- Parolee has been ordered returned.
- Revocation proceeding has been scheduled.
- Parolee is serving a revocation term.

Unit Supervisor

Reviews package and forwards it with recommendation to PA.

PA

Reviews package and determines whether request is approved as submitted, disapproved or to be forwarded to BPT for approval.

Parole Agent

Releases hold and completes specified program upon unit supervisor approval or notification that BPT has approved the action.

81020.28 DAPO Use of Informants Policy

Revised September 23, 2010

Parole agents assigned to the Office of Correctional Safety (OCS) and whose peace officer status is defined in Penal Code Section 830.2(d)(1) are exempted from this section. OCS parole agents shall report any preplanned or pre-arranged use of a parolee informant to the supervising parole agent or unit supervisor in advance of such use.

Parole agents will not recruit, develop, or utilize individuals on a preplanned, pre-arranged basis solely for the purpose of acting as informants. Under no circumstances will an agent:

- Pay or offer to pay an individual for information.
- Make any promises of immunity, dismissal of charges, or reduced charges in exchange for information.
- Have operational control over any individual whose primary role is that of an informant, except in supervising a parolee who may be operating as an informant for a law enforcement agency.

81020.29 Visitation Permit Policy

Parolees who leave their county of residence for more than two days require travel permits. A travel permit will not be used to seek employment or a program in another county. Visitation permits will not exceed 30 days. Travel that exceeds 30 days will require use of case transfer policy. Parolees who routinely travel to another county for employment or other approved purposes will not require visitation permits, but must have prior approval from their Parole Agents.

81020.29.1 Visitation Permit Procedures

Parole Agent

Reviews travel request to determine:

- Need for visit.
- Details of the visit (name, address, date, time of return).
- How visit may affect employment.
- Need for reporting to other unit office (Depending on time, location, testing requirements, gang membership.).

Reviews case file to determine parole plan requirements (Therapist contact required if POC is a special condition of parole.).

Documents permission for parolee to travel routinely to another county on the CDC Form 1650-D.

Completes CDC Form 1526, Visitation Permit.

Includes reporting instructions on visitation permit.

Tells parolee to report upon return and what to do if emergency delays return.

Distributes copies of CDC Form 1526:

- Original and copy to receiving unit.
- Copy to parolee.
- Copy to unit file.

Verifies parolee's return by face-to-face contact.

Prepares letter addressed to parolee (if approving ongoing interstate travel for employment purposes) documenting time limits, any reporting instructions, and names of states to which parolee is authorized to travel.

Unit Supervisor

Reviews and approves or disapproves visitation permit request.

81020.30 Merchant Marine Travel Policy

A parolee employed by the Merchant Marine will advise parole staff of his position, union, union number, name of ship and name of shipping company. The case of a parolee employed by the Merchant Marine will be kept in the San Francisco, Long Beach, or San Diego unit offices with the following exceptions:

- If the parolee is at sea and port of embarkation is outside of California the case will be processed for transfer according to Interstate procedures.
- If parolee resides with a person or family within 50 miles of the port of embarkation, case will be assigned to unit covering area of residence providing that case meets county of commitment exception criteria.

81020.30.1 Merchant Marine Travel Procedures

Parole Agent

Instructs parolee to submit monthly reports while at sea, giving estimated date of return to California.

Instructs parolee to report to Parole Agent within seven days of return to California.

81020.31 Case Transfer Policy

Transfer of parolees between units usually will be permitted only if the parolee is transferring to the county of commitment unless the parolee's case meets county of commitment exception criteria as documented on CDC Form 1681, Request For Exception To Placement Or Parole To County Of Commitment. County of commitment is the county where the crime for which the parolee was committed occurred except for crimes committed in prison. Commitments to prison for an in-custody (prison) felony shall not be used as the basis for determining the county of commitment. If the parolee has been discharged from all previous terms, consideration may be given to placement in another, more appropriate county in accordance with exception criteria. The parolee shall not be allowed to proceed to the new program until the transfer investigation request is approved. Prior telephonic approval may be requested from the unit supervisor in urgent situations per DOM 81020.32, Emergency Transfer Investigation Policy. If a request to transfer is rejected, it is the parolee's responsibility to file an appeal.

Appeals of inter-regional transfer decisions will be processed by the region denying the transfer. The Informal Appeal Level will be reviewed by the Unit Supervisor denying transfer; First Appeal Level will be reviewed by the Field Administrator of the denying unit; Second Appeal Level will be reviewed by the Regional Administrator; Third Appeal Level will be reviewed by Headquarters Inmate Appeals Branch. Copies of all decisions will be sent to the respective level of the sending unit.

The reasons for granting parole or transfer of a parolee to a county other than county of commitment shall be documented and the exception to policy approved by the unit supervisor and PA prior to granting such exception. County of commitment means the county where the crime for which the inmate was committed occurred. A copy of the Request for Exception to Placement or Parole Transfer to County of Commitment shall be completed by the Parole Agent and, if approved by the unit supervisor, included with the completed CDC Form 611, RPS or the CDC Form 1551, Transfer Investigation Request. Receiving unit supervisor and PA approval is required prior to actual transfer.

Transfers of parolees between units to an approved program within a P&CSD region and within the county of commitment shall be by direct transfer only if the parolee's last urinalysis test was negative and there are no known parole violations pending.

81020.31.1 Case Transfer Between Counties or Regions Procedures**Parole Agent (Transferring Unit)**

Reviews request by a parolee to transfer for compliance with county of commitment policy.

Denies any transfer request which does not meet county of commitment criteria or prepares a CDC Form 1551, citing the specific exception to county of commitment policy under which a transfer is authorized in Reason for Request Section and attaches following documents:

- Completed CDC Form 1681, Request for Exception to Placement or Transfer to County of Commitment.
- POR.
- Cumulative Case Summary.
- Photo.

Submits transfer package to the unit supervisor.

Unit Supervisor (Transferring Unit)

Reviews the Transfer Investigation Request for complete information and validity of any exception to county of commitment policy.

Rejects transfer investigation if it is determined the exception is not valid.

Signs Transfer Investigation Request and sends it to the receiving unit.

Parole Agent (Receiving Unit)

Investigates proposed program to determine if residence and employment programs are acceptable and whether any proposed exceptions to transfer policy are valid.

Notes results of the investigation on CDC Form 1551.

Recommends rejection of transfer if not acceptable, or accepts the case for transfer.

(Within 10 Days of Receipt of CDC Form 1551)

Submits completed transfer investigation to unit supervisor for review and signature.

Unit Supervisor (Receiving Unit) (Within 15 Days of Receipt)

Reviews completed transfer investigation and signs and returns it to the sending unit.

Completes CDC Form 1681, if case meets exception criteria.

PA

Reviews Transfer Investigation Request to assure that the case meets the exception to the county of commitment policy criteria.

Signs CDC Form 1681 if case meets criteria.

Parole Agent (Receiving Unit) Upon Approval of Transfer)

Notifies Sheriff or Chief of Police of approved transfer by CDC Form 863 if the case is designated P.C. 667.5(c).

Parole Agent (Sending Unit) (Within 5 Days of Receipt)

Reviews Transfer Investigation Request.

Prepares case for transfer and if accepted:

- Updates recording by CDC Form 1502.
- Completes and forwards CDC Form 1506 to regional records.
- Informs parolee of the outcome of Transfer Investigation Request.
- Forwards case file to receiving unit.

81020.31.2 Transfer Within County of Commitment Procedures**Parole Agent (Sending Unit)**

Evaluates appropriateness of new program.

Provides parolee with reporting instructions to receiving unit.

Instructs parolee to register, if required by law.

Notifies law enforcement, if required per PC 3058.6.

Updates recording.

Completes case review on CDC Form 1502, Parole Activity Report, and documents transfer information.

Unit Supervisor (Sending Unit)

Reviews file and signs Parole Activity Report.

Approves CDC Form 1506, Notice Of Transfer form, and forwards original to region records.

Forwards case file to receiving unit.

Unit Supervisor (Sending Unit)

Assigns case to Parole Agent.

Parole Agent (Receiving Unit) Within 10 Working Days of Receipt of Field File

Verifies residence.

Verifies compliance with registration requirements.

Completes investigation and documents results on CDC Form 1650-C, Parole Record of Supervision.

Documents reasons for rejection on Parole Activity Report, if transfer is to be rejected for cause.

81020.32 Emergency Transfer Investigation Policy

In an emergency situation, when a parolee presents proof of a need to move to county other than the county of commitment and the situation appears to meet transfer policy, authorization to move pending completion of investigation may be granted.

81020.32.1 Emergency Transfer Investigation Procedures**Parole Agent (Sending Unit)**

Verifies parolee's statement of emergency need.

Prepares an Activity Report outlining the emergency and results of the investigation.

Presents case materials to the unit supervisor.

Unit Supervisor (Sending Unit)

Reviews Activity Report and case file to determine if an emergency transfer need exists.

Telephones receiving unit supervisor and verbally outlines proposed program, emergency situation, and means of verification.

Requests parolee be allowed to reside in receiving unit's area pending transfer investigation.

(Receiving Unit)

Decides if parolee is allowed to reside in receiving unit's area pending transfer investigation report.

81020.33 Parolee Violation of Transfer Policy

When a Parole Agent becomes aware that an assigned parolee is in a county in violation of transfer policy, the parolee may be placed in custody. The parolee may be either retained in custody or ordered released and instructed to return to the unit immediately with approval of the supervisor of the unit of record.

A decision not to place a parolee violating transfer policy in custody will be predicated on the apparent meeting of transfer policy criteria. The fact that the parolee was not placed in custody will not imply acceptance of the transfer. Parolee may be ordered to return to the unit of record or may be permitted to stay pending full investigation into parolee's activities while in that area.

81020.34 Transfer of Parolees In Custody

The fact that a parolee is held in custody outside the area serviced by the unit of record does not constitute a change of residence. However, a parolee in custody serving either a local sentence or a combination of local sentence and revocation time may be transferred providing the parolee will be released to a program in another unit's area. Parolees shall not be transferred under the following circumstances:

- Pending revocation.
- Pending criminal charges.
- Failure to meet requirement for transfer outside county of commitment.

81020.35 Parolee-At-Large Policy

A parolee is an absconder PAL when it is determined that the parolee's whereabouts are unknown. A CDC Form 1524, Violation Report Form recommending suspension of parole shall be submitted immediately when:

- A parolee is suspected of being involved, or is involved, in serious criminal behavior.
- A parolee, regardless of Risk Score, is known to have left the jurisdiction without an apparent intent to return.
- A High Risk parolee (Risk Assessment Score of 7.5 or above) is unavailable for supervision or if the parolee's whereabouts are unknown for a maximum of ten days.
- A Control/Services or Minimum Supervision parolee (Risk Assessment Score of 0.00 to 7.4) is unavailable for supervision or the parolee's whereabouts are unknown for a maximum of 30 days.

Suspended PAL cases shall be retained on a Parole Agent roster as inactive cases. P&CSD staff shall continue to make efforts to locate and place PAL cases into custody.

81020.35.1 Parolee-At-Large Procedures**Parole Agent**

Prepares an Activity Report giving details.

Unit Supervisor

Reviews the Activity Report and case file.

Conducts a case review with the Parole Agent regarding proposed efforts to locate the parolee.

Documents instructions to agent on efforts to locate parolee.

Parole Agent (As Appropriate)

Visits parolee's residence to verify the parolee's absence.

Sends letters to the parolee's last address and to addresses listed for collateral contacts.

Contacts local law enforcement agencies regarding parolee's whereabouts.

Contacts the following organizations to secure any possible new addresses:

- Public utilities.
- Postal authorities.
- DMV.

Obtains the parolee's mailing and visiting cards for possible leads.

Contacts local jails and hospitals.

Refers case to High Control Agent and law enforcement liaison agents for intensive surveillance.

81020.35.2 Suspended PAL Case Procedures**Parole Agent**

Maintains the CDC Form 1503, Face Sheet and current record of supervision in a separate section of field book.

(First 90 Days Following PAL)

Places "WANT status" in local law enforcement systems where appropriate.

Distributes Wanted Person notices with description and picture to appropriate law enforcement agencies.

Requests periodic CI&I and FBI SSCH reports.

Contacts known collateral resources.

Surveys locations where the missing parolee may be living.

Conducts periodic checks with other law enforcement agencies with emphasis on intelligence units, narcotic agents, and other specialized details.

Checks appropriate law enforcement agency field interrogation files.

Unit Supervisor (End of 90 Day Period)

Checks the CDC Form 1650-D to determine if required activities were completed.

(End of 360 Day Period)

Determines future activities to be conducted by the agent.

Reviews activities carried out in an effort to locate PAL.

81020.36 Enemy or Gang Information Policy

Enemy or gang information is highly sensitive and shall be transmitted as rapidly as possible to those who have a need-to-know. The CDC Form 812, Notice of Critical Case Information Form shall be used to document gang membership, associations, enemies, assault on others or victim of assaults. This information is confidential and will be handled in accordance with procedures for handling confidential information.

81020.36.1 Enemy or Gang Definitions**Member**

A person whose gang affiliation is indicated by personal admission, a conviction involving gang activity, investigative reports or information from an informer.

Associate

A person who cannot be positively identified as a gang member but whose association with a gang is indicated by staff observation, information from informers or other sources.

Enemy or Victim

A person who is an enemy or a victim of a gang as indicated by personal admission, CDC records, other agencies' reports or information from informants.

81020.36.2 Collecting and Transmitting Enemy and Gang Information Procedures**Institution Staff**

Informs Regional Reentry Coordinator of parolee involved in gang activities or one who has enemies.

Regional ReEntry Coordinator

Informs unit supervisor where the case will be assigned, the reentry agent (if appropriate) and LEIU staff of a parolee's enemies, enemy status or gang affiliation.

Places confidential information in confidential folder in case file.

Parole Agent

Presents case to unit supervisor for case review to determine appropriate supervision methods and any special conditions that should be recommended. Considers the following factors:

- Information supplied by institution staff, LEIU staff, other law enforcement agency staff or other credible sources.
- Danger and safety factors associated with parole supervision.
- Special conditions prohibiting association with known gang members by specific name.
- Type of supervision required (collateral in-office only, in the field and where, always with another agent, etc.).

Notifies local jail staff of gang status and notifies LEIU staff if parolee is placed in custody.

Documents above contacts in CDC Form 1650-D.

Coordinates transfer of enemy/gang information to institution C&PR or receiving unit supervisor if parolee is returned to prison or transferred to another unit.

(Immediately)

Requests emergency action suspending parole (by unit supervisor) if parolee absconds.

Notifies appropriate law enforcement agencies and LEIU staff if parolee absconds.

Notifies above staff if parolee is located or placed in custody.

Notifies receiving institution C&PR if parolee is ordered returned to a CDC institution.

Notifies appropriate law enforcement agency and LEIU staff if parolee is discharged.

81020.37 Gang Member Supervision Policy

A thorough investigation, including contact with local law enforcement agencies, LEIU staff, and interviews with a gang member's relatives, associates and friends shall be conducted as part of the RPS. Case reviews and the parole plan shall focus on safety related factors such as:

- Extent that parolee is still involved in gang-related activities.
- Parolee's need for supervision and types of case contacts that assure agent safety.
- Ongoing contact with allied law enforcement agencies and LEIU staff shall be maintained for the duration of a gang member's supervision. Any arrest of a gang member shall include law enforcement backup.

81020.37.1 Gang Member Supervision Procedures

Parole Agent (Monthly)

Contacts LEIU and other appropriate law enforcement agency staff.

Consults with unit supervisor prior to granting a travel permit or verbal permission to travel.

Contacts LEIU staff and unit supervisor in other area prior to granting travel permit or verbal permission to travel.

(Immediately)

Requests emergency action suspending parole (by unit supervisor) if parolee absconds.

Notifies appropriate law enforcement agency and LEIU staff if parolee absconds.

Notifies above staff if parolee is located or placed in custody.

Notifies receiving institution C&PR if parolee is ordered returned to a CDC institution.

Notifies appropriate law enforcement agency and LEIU staff if parolee is discharged.

81020.38 Supervision of Mentally Disordered Parolee Policy

PC 2962 requires that specific convicted felons who are severely mentally disordered be provided psychiatric treatment by the State DMH as a condition of parole. There are also provisions for continuing mental health treatment as a new civil commitment after discharge from parole. Male parolees in this category are initially placed in Atascadero State Hospital (ASH), and female parolees are initially placed in Metropolitan State Hospital (MSH).

Parolees being treated pursuant to PC 2962 by DMH shall not be required to participate in POC unless a court or the BPT subsequently finds that the parolee does not meet the criteria set forth in PC 2962. If a parolee being treated as an outpatient under PC 2962 can no longer be safely or effectively treated in the community, the parolee may be placed in a secure mental health facility by the PC 2962 provider. Following such placement, DMH is required to hold a due process (re-hospitalization) hearing. If a parolee supervised in the community under PC 2962 commits a serious parole violation, after mandatory consultation with the PC 2962 DMH treatment provider, the Parole Agent will initiate revocation proceedings for parole violation, in which case the BPT will conduct the due process hearing.

81020.38.1 Mentally Disordered Offender (MDO) Definitions

MDO is a prisoner who meets the criteria for mental health treatment as a condition of parole pursuant to PC 2962.

Certification Hearing. A hearing conducted by the BPT for the purpose of determining whether or not a prisoner meets the criteria to be treated as a mentally disordered offender pursuant to PC 2962.

Placement Hearing. A hearing conducted by the BPT to determine whether a prisoner shall be treated as an inpatient or an outpatient.

Inpatient Treatment. Mental health treatment provided in a secure facility of DMH.

Outpatient Treatment. Mental health treatment provided by a local outpatient program specified by DMH. These programs are called Conditional Release Programs (CONREP).

Annual Review Hearing. A hearing conducted by the BPT to determine whether:

- The parolee's mental condition is in remission or can be kept in remission without treatment.
- The parolee shall be treated as an outpatient, if he or she is still being treated as an inpatient.

Parole Date. The date the inmate is placed on parole status. It is not the date the MDO parolee is released from DMH to a community placement.

81020.38.2 Responsibilities for MDO Parolees In DMH Hospital Facilities

Coordinating prerelease planning between DMH staff and P&CSD staff, including the early determination of the probable county of parole.

Dealing with serious law violations by parolees in a DMH inpatient facility as reported by DMH staff.

Coordinating the release of parolees from a DMH facility to parole supervision or joint parole supervision and Conditional Release Program (CONREP) treatment.

Preparing annual parole discharge reviews.

The hearing agent is responsible for:

- Preparing for and scheduling Certification, Placement and Annual Review Hearings before the BPT.
- Assuring that copies of all hearing packets including DMH and CONREP Reports and independent evaluations on PC 2962 cases are forwarded for inclusion in the C-File.

81020.38.3 CONREP Staff Responsibilities for MDO Parolees

The CONREP staff is responsible for:

- Ongoing supervision of the parolee in accordance with DMH CONREP requirements.
- Ongoing coordination with the assigned P&CSD agent of record, including reporting any special incidents involving a mentally disordered parolee, providing copies of positive urinalysis reports, and advising the Parole Agent of the parolee's participation and progress in the CONREP.
- Meeting periodically with the assigned P&CSD agent of record and unit supervisor to participate in case reviews and supervision category reassignments.
- Providing clinical reports required for the Annual Review Hearings and for providing testimony at hearings.
- Initiating rehospitalization of MDO if required.

81020.38.4 Parole Agent Supervision Responsibilities for Outpatient MDO Parolees

The assigned agent of record is responsible for:

- Ongoing supervision of the parolee in accordance with DOM requirements for felon parolees including revocation procedures, routine discharge reviews and all other routine supervision requirements.
- Ongoing coordination with the assigned DMH CONREP staff, including coordination of community mental health program placements, rehospitalization of MDO parolees, and consultation with the CONREP staff prior to instituting revocation actions.
- Meeting periodically with the CONREP staff and the unit supervisor to conduct case reviews and supervision category reassignment.

81020.38.5 Supervision Requirements for Parolees Released From State Hospitals Under PC 2962

The PC requires that an MDO parolee initially be treated by DMH as an inpatient. By policy, DMH is treating males at ASH and females at MSH. A parolee who has been treated as an MDO at a state hospital may arrive in the community to be supervised by P&CSD under any one of the following circumstances. It is imperative that the C-File reflect the exact circumstances and that the Agent of Record be made aware of the parolee's legal status to determine supervision requirements. The four circumstances are:

- The BPT finds at a Certification Hearing or at an Annual Review Hearing that the parolee does not meet the criteria set forth in PC 2962, removes PC 2962 Special Condition, and orders the parolee immediately released from the hospital to parole.
 - The parolee shall be immediately referred to POC for evaluation and POC treatment recommendation. These cases shall be initially assigned to High Control or High Service Supervision and supervised in accordance with DOM requirements for felon parolees. DMH will not be involved in the supervision of these cases.

- A Superior Court, rather than the BPT, at its required jury trials makes the same decision and orders the parolee immediately released from the hospital to parole.

The same supervision requirements indicated in above paragraph apply (A report to the BPT, recommending removal of the special condition of parole to participate in treatment under PC 2962, is required.).

- The BPT finds at a Placement Hearing or at an Annual Review Hearing that the parolee can be safely and effectively treated on a outpatient basis and grants the parolee's request to be treated by DMH as an outpatient.
 - These parolees shall be supervised in accordance with the below MDO procedures.
- DMH places the parolee in an outpatient program pursuant to PC 2964(a).
 - These parolees shall be supervised in accordance with the below MDO procedures.
- DMH discontinues treating the parolee pursuant to PC 2968.
 - The same supervision requirements as indicated above apply.
 - A report to the BPT, recommending removal of the special condition of parole to participate in treatment under PC 2962, is required.

81020.38.6 Supervision of Mentally Disordered Parolee Procedures

Unit Supervisor and Parole Agent (Receiving Unit)

Expedite acceptance of case if placement in receiving unit area is dictated by circumstances per PC 3003(b)(6.).

Parole Agent (Receiving Unit)

Assures that local law enforcement are advised of placement, particularly out-of-county placement, prior to release on parole in accordance with PC requirements.

Parole Agent (Sending Unit)

Completes and distributes CDC Form 1685, Notice Re: MDO Parolee Status Change if parolee's status changes.

Notifies local law enforcement per PC 3058.6 when county of placement will be changed from county of commitment due to DMH programming availability.

Provides complete copy of the Certification Hearing package to the receiving parole unit.

Transfers the C-File to the appropriate Regional Records Office, and the field file to the receiving unit.

Parole Agent (Receiving Unit)

Supervises MDO parolee in (Receiving Unit) accordance with DOM requirements.

Consults with the CONREP staff regarding any revocation action or other significant case change.

If a parole Violation Report is necessary the Parole Agent will consult with CONREP staff, obtain their report, and append it to the Violation Report.

- Any report to the BPT shall be flagged with bold lettering "MDO parolee" on the top right corner.

Coordinates case activities with CONREP staff.

Unit Supervisor and Parole Agent

Meet periodically with the CONREP staff to conduct case reviews and supervision reassignments.

81020.38.7 MDO Annual Discharge Review Report Policy

Annual discharge reviews shall be conducted for both inpatient and outpatient status parolees certified for mental health treatment pursuant to PC 2962. The CDC Form 1632, Discharge Review Report, shall include recommendations to "retain on parole" and "reaffirm the Special Condition of Parole to participate in treatment by DMH pursuant to PC 2962.

The CDC Form 1632 will be forwarded to the BPT Headquarters Calendar separately from other actions and specifically identified on the log as "MDO Retain." The telex system is to be used only for emergency cases that require immediate attention.

81020.38.8 MDO Outpatient Annual Review Hearing Policy

The MDO parolee shall be served with notice of results of the parolee's Annual Discharge Review by a copy of the BPT Form 1130 Decision Form and a copy of the CDC Form 1632.

The MDO parolee shall also be served by a hearing agent with BPT 1460(a), Notice of Right to Annual Review Hearing - Acknowledgment and BPT Form 1460, Notice of Right to Annual Hearing within 15 days of BPT decision to retain on parole. The Hearing Agent is responsible for coordinating the preparations for an Annual Review Hearing. The hearing shall be held in a parole unit office or other appropriate, non-jail facility.

81020.38.9 MDO Outpatient Annual Review Hearing Procedures

Regional Records Staff (60 days prior to Discharge Date)

Distributes list of parolees due for Annual Discharge Review.

Parole Agent (Beginning at 11th Month of Parole)

Follows usual discharge procedures but includes recommendations in CDC Form 1632.

- "Retain on Parole" or,
- "Reaffirm Special Condition of Parole to participate in treatment by DMH pursuant to PC 2962."

Regional Records Staff

Forwards Discharge Review Report to BPT Headquarters Calendar separate from other actions, specifically identifying case on log as "MDO Retain".

(When BPT Calendar Sheet is Received)

Provides copy of CDC Form 1632, Discharge Review Report and BPT Form 1130, Headquarters Calendar Sheet with BPT action to Regional Hearing Coordinator.

Regional Hearing Coordinator (Upon Receipt of BPT Action)

Assigns case to Hearing Agent for coordination of BPT Annual Review Hearing for MDO parolee.

Hearing Agent

Serves parolee with BPT Form 1460, Notice of Right to Annual Review Hearing and completes BPT Form 1460(a).

Initiates scheduling of hearing by BPT by submission of BPT Form 1430 - Mentally Disordered Offender Scheduling Request.

Notifies CONREP staff and Agent of Record of scheduled hearing, if MDO parolee requests hearing.

- CONREP staff will testify and provide status report.

Coordinates access to the parolee records by the independent evaluators and the parolee's attorney.

Coordinates and staff's hearings.

Forwards copy of hearing file DMH CONREP report(s) and independent evaluation to C-File.

Mails decision, hearing packet, and tape to BPT.

81020.39 Revision

The Deputy Director, P&CSD, is responsible for maintaining the accuracy and currency of this section.

CCR (15) (3) §§ 3001 and 3173(n).

ARTICLE 3 — ARREST AND PAROLE HOLD

Revised March 8, 1990

81030.1 Policy

A parolee shall be arrested and a PC 3056 parole hold placed when there is reasonable cause to believe a parolee has violated the conditions of parole and:

- Is a danger to self; or,
- Is a danger to person or property of another; or,
- May abscond.

A parolee will not be arrested either as punishment or as a means of instilling fear.

No Parole Agent will use physical force on another person unless it is in the defense of another person or in the defense of the Parole Agent. Physical restraint may only be used on an inmate or parolee to make an arrest, prevent an escape or prevent injury to persons or damage to property. Only the minimum amount of force required to accomplish these lawful objectives will be used.

A Parole Agent is not expected to attempt an arrest that cannot be successfully and safely executed.

The Parole Agent shall make a recommendation to the unit supervisor within one working day of placement of hold or learning that a hold has been placed to retain or release the parole hold.

A parole hold shall be maintained only when it is determined that the parolee's release from custody will pose a serious risk to the safety of other persons, the safety of the parolee, the security of property or when it is likely the parolee will abscond.

81030.2 Arrest Definitions

Peace Officer Status. Any Parole Agent employed by CDC is a peace officer pursuant to the provisions of PC 830.5.

Authority. A Parole Agent's authority to arrest extends to any place in the state as to any person committed to CDC or being supervised under the Interstate Parole Compact. A Parole Agent's peace officer status extends to enforcement of the conditions of parole, apprehension of an escapee from a CDC institution, the transportation of inmates or parolees, and to any violation of law which is discovered in the course of employment. A Parole Agent shall not preempt another law enforcement agency in enforcing the law.

Arrest of Non-Parolee. A Parole Agent may arrest a non-parolee observed committing a crime during the performance of a parole-related activity indicated in the section above. The Parole Agent shall consider alternatives and other resources, and be convinced that the immediate arrest of a non-parolee is in the public interest. The Parole Agent must also determine that the arrest can be made with a minimum of danger to others and the Parole Agent before making the arrest.

81030.3 Rights Of Arrestee

The Parole Agent shall inform the person being arrested of:

- Intention to arrest.
- Reason for arrest.

81030.4 Miranda Rights

A parolee has no right to silence during questioning by Parole Agent specifically regarding parole violations. The Parole Agent will not advise parolee of Miranda Rights in this situation as it may lead to a perceived right to silence which could be detrimental in securing all necessary information. However, if law violations are present and criminal prosecution is probable, Miranda Rights must be administered.

Parole Agent

Reads legal rights statement per Miranda v Arizona where criminal prosecution is likely or pending as follows:

- "You have the right to remain silent."
- "Anything you say can and will be used against you in a court of law."
- "You have the right to talk with a lawyer and have your lawyer present with you while you are being questioned."
- "If you cannot afford to hire a lawyer, one will be appointed to represent you before any questioning, if you wish one."
- "Do you understand each of these rights I have explained to you?"
- "Having these rights in mind, do you wish to talk to me now?"

81030.5 Planned Arrest Policy

Arrests are situations of high potential danger that require thoughtful planning. Every arrest, when possible, will be reviewed with the unit supervisor prior to the arrest. Arrests will not be made at all cost.

81030.5.1 Planned Arrest Procedures

Parole Agent (Prior to Arrest)

Reviews planned arrest with unit supervisor.

Presents facts about circumstances surrounding violation.

Recommends whether suspected violator requires custody.

Presents criminal history with emphasis on potential for weapons and violence.

Advises supervisor of location of arrest and potential interference by others.

Unit Supervisor

Determines which Parole Agents or other law enforcement agency personnel will assist in the arrest.

Arranges for call back upon completion of arrest to unit supervisor or, if after hours, to the Officer-of-the-Day (AOD).

Parole Agent

Briefs participating Parole Agents and other law enforcement agency personnel regarding the following:

- Names and descriptions of persons to be arrested, including photographs.
- Reason for arrest and current parole status.
- Arrest history, potential for violence and weapons.
- Information about others living in home or associates who may be present and pose a danger.

Describes or draws picture of arrest location showing escape routes and deploys assisting personnel.

Determines any special equipment needed.

Determines tactics to be used (as person in charge).

Plans route to and from arrest location.

81030.6 Unplanned Arrest Policy

The Parole Agent may unexpectedly find a parolee engaged in behavior that calls for arrest. The decision to arrest must be made quickly and without the opportunity to confer with the unit supervisor. Such an arrest is usually made without assistance and thus potential for injury may be increased.

81030.6.1 Unplanned Arrest Procedures

Parole Agent (Immediately)

Evaluates the following:

- Seriousness of violation.
- Necessity to make arrest at that time.
- Ability to make arrest successfully.
- Any alternatives to arrest.
- Danger parolee presents to self or others.
- Parolee's attitude.
- Location and presence of other persons.
- Ability to leave and return with appropriate assistance.

Takes appropriate action.

81030.7 Forced Entry Policy

Force will not be used routinely to enter buildings to arrest a parolee. Forced entry will be used when it is the only reasonable alternative to affect an arrest.

81030.7.1 Forced Entry Procedures

Parole Agent

Evaluates situation and determines if:

- Forced entry will enhance safety of agent, law enforcement, parolee, or other persons who might be present.
- Failure to act will result in harm to parolee or evidence being destroyed.

Knocks, announces and identifies self and demands entry before forcing entry except when:

- Danger to agent or others will be increased.
- Probability of evidence being destroyed is increased.
- Someone inside is in distress or in need of immediate assistance.
- Probability that person inside will flee.

May make forced entry if no one responds to knock and announcement.

Obtains sufficient personnel to accomplish forced entry with maximum safety.

Makes every effort to secure building where forced entry was made.

Notifies landlord or absent occupant that forced entry was made and damage occurred. Advises cost of repairs can be recovered from BOC.

(Next Working Day)

Confers with unit supervisor regarding the forced entry that was conducted without prior supervisory discussion.

Unit Supervisor

Provides property owner with appropriate BOC forms.

81030.8 Restraint Equipment Policy

A set of handcuffs, jacket and soft body armor will be issued to all agents. Each agent shall have handcuffs operational and available for use at all times. Two sets of waist chains and leg irons will be maintained in each office.

81030.8.1 Restraint Equipment Procedures**Parole Agent**

Checks out restraint equipment as needed.

Handcuffs person behind the back whenever there is an arrest.

Removes handcuffs only when arrestee is safely in a detention facility.

Handcuffs arrestee to a stationary object as a temporary emergency measure only.

Searches person being arrested for weapons or contraband.

81030.9 Medical Transfer to Prison Policy

When a parolee presents a serious custodial risk and requires medical treatment necessitating hospitalization (which cannot be provided locally because of lack of adequate detention facilities), the parolee may be returned to prison upon written order of the judge of the Superior Court as provided in PC 4007.

81030.10 Emergency Transfer to Prison Policy

If officials of a local jail cannot or will not retain a parolee in custody pending a hearing and a Violation Report is being submitted to the BPT, the parolee may be returned to a CDC institution without a hearing.

81030.10.1 Emergency Transfer to Prison Procedures**Parole Agent as Soon as Possible)**

Reviews case with Unit Supervisor.

Arranges for parolee's transfer to a CDC institution.

Ensures that identifying photograph and Parole Violator Return (CDC Form 1018) accompany parolee to institution.

Completes and forwards a written Violation Report, noting parolee's location.

- Hearing will be held in the institution as soon as possible.

81030.11 Removal of Parole Hold Policy

The parole hold shall be removed immediately when final decision on a parole violation does not require further time in custody, or when the unit supervisor concurs with the Parole Agent's recommendation to continue on parole. Whoever makes final decision on violation may approve maintaining the hold until the end of the next working day if arrangements must be made for an adequate release program.

In no case shall a parole hold be maintained past the parole expiration date or the revocation release date, or in any case longer than 12 months.

81030.12 Retaining Parole Hold Policy

When decision is made at a revocation hearing, the hold may be maintained for one working day following the decision only if the hearing panel approved the retention of the hold. If the hearing panel refuses to approve continuing the hold, the unit supervisor may contact the Chief Hearing Representative, BPT, to appeal the panel's decision.

81030.13 LEIU Interest in Custody Case Procedures**Parole Agent**

Contacts appropriate LEIU agent before removing hold.

Unit Supervisor and LEIU Supervisor

Resolve any difference of opinion regarding continuation of hold.

Parole Agent (Day Hold is Dropped)

Notifies appropriate LEIU agent of revocation term if hold must be removed.

81030.14 Transportation Policy

An arrested person shall never be secured to any part of a moving vehicle with any type of locking restraint.

81030.14.1 Transportation Procedures**Parole Agent**

Assures vehicle is fueled, in safe operating condition and free of contraband.

Assures handcuffs are double locked and properly applied on arrestee.

Uses waist chains when transporting long distances or from one custody setting to another.

May use leg irons if arrestee is an escape risk or potentially violent.

Secures arrestee with seat belt.

81030.15 Cooperation With Other Law Enforcement Policy

Cooperation with other law enforcement agencies in the arrest or investigation of parolees suspected of new crimes or parole violations is expected of all employees of the P&CSD.

81030.15.1 P&CSD Initiated Arrest Procedures**Parole Agent**

Reviews proposed arrest with unit supervisor.

Participates in arrest and investigation of parolees suspected of committing new crimes or parole violations.

Shares information with law enforcement.

Requests assistance of other law enforcement agency in situations where violence or weapons are anticipated (Assistance also may be requested in any other situation.)

Assumes tactical command of P&CSD initiated arrest.

Shifts tactical command to other if agent believes it is safest way to handle situation.

Releases other law enforcement agency to regular duties as soon as possible.

81030.15.2 Other Law Enforcement Agency Initiated Arrest Procedures**Parole Agent**

Evaluates information provided by other law enforcement agency personnel and makes an independent judgment whether a parole violation or criminal act has occurred.

Briefs unit supervisor.

Unit Supervisor

Determines whether safety of other law enforcement agency personnel or community will be enhanced by agent's involvement.

Determines whether Parole Agent's presence is required by such factors as:

- Ability to identify parolee or other suspects.
- Ability to provide information about parolees or others and about arrest location.
- Ability of Parole Agent, through contacts with parolee, to alleviate a situation.

Parole Agent

Acts under tactical command of other law enforcement agency when assistance is provided.

81030.16 Delegation of Search and Arrest Authority to Other Law Enforcement Policy

A Parole Agent, who, based on reasonable belief concludes that a parole violation has occurred, can delegate P&CSD's authority to search and arrest a parolee. The agent is not required to be personally present during the other law enforcement agency's arrest or investigation of a parolee.

81030.16.1 Delegation of Search and Arrest Authority Procedures**Parole Agent**

Evaluates information concerning alleged violations provided by other law enforcement agencies and makes independent judgment whether a parole violation or criminal act has occurred.

Delegates parole authority to other law enforcement agency to arrest or search a parolee if reasonable belief exists.

81030.17 Arrest Authorization Assistance Policy

The Parole Agent, in emergency situations, may orally summon as many persons as necessary to aid in making an arrest. The authority to summon aid is authorized by the Penal Code.

81030.18 Motor Vehicle (DMV) Inquiry Policy

Between 8:00 a.m. and 4:30 p.m., Monday through Friday, emergency computer inquiries will be made through regional records. After 4:30 p.m., and on weekends or holidays, computer inquiries will be made through the ID/Warrants Unit, in Headquarters (phone (916) 445-6713 or ATSS 485-6713). An emergency is defined as an immediate threat to the safety of persons or property.

The information available from DMV through CLETS is:

- Vehicle registration by license plate.
- Vehicle registration by name of owner.
- Driver's license by number.
- Driver's license by name.
- Stolen vehicle information.
- Vehicle identification number.
- Parts numbers.

- Automated firearms information.

This list is not inclusive. Region or ID/Warrants Unit staff secures most of the items provided by DMV.

81030.18.1 Motor Vehicle Emergency Inquiry Procedures

Parole Agent (During Normal Work Hours)

Telephones emergency inquiry to regional records.

(Outside Normal Work Hours)

Telephones inquiry to ID/Warrants Unit, Headquarters, and provides the following information:

- Name and badge number.
- Unit and last four digits of home telephone number.
- Kind of vehicle whose plates are being run (i.e., van, truck, motorcycle, automobile, etc.).
- Type of plates (standard plates, environmental plates or other special plates).

Advise person taking call that agent will remain on the phone while plates are being run (Failure to do this results in a much longer response time).

Radios request for vehicle information to local enforcement agency if permitted by agreement.

81030.19 Search Policy

A parolee's person, residence and property may be searched without a warrant by an agent of CDC to determine whether a parolee is complying with the conditions of parole; or a reasonable belief that the parolee has violated the conditions of parole and that the search may produce evidence to support the alleged violation. Any evidence of illegal activity or contraband will be seized. Whenever possible the decision to search a parolee's residence will be made after conferring with the unit supervisor. A search will normally be conducted by two or more agents.

Good judgment and respect for personal property will be shown at all times. Only those areas occupied solely by the parolee and those areas of common habitation may be searched. An effort to determine property ownership shall be made so that property belonging to others is not removed.

81030.19.1 Search Procedures

Parole Agent #1

Conducts search.

Parole Agent #2

Collects contraband as discovered.

Marks each piece of evidence as follows:

- Date item was seized.
- Name or initials of person who seized item.
- A description of item, including serial number or weight and quantity of suspected illegal drugs.
- Completes three copies of Inventory Receipt Form.
- Provides copy of Inventory Receipt to parolee, to a responsible adult, or leaves copy at scene before departing with any seized items.
- Maintains original copy for file and one copy to unit supervisor.

Maintains physical custody of evidence until turned over to another law enforcement agency or unit supervisor for secure storage.

81030.20 Handling Evidence Policy

The test of the integrity of the chain of evidence requires that procedures used to seize, record and store evidence substantiate that evidence presented in any proceedings is actually evidence which was seized at time of search. If local police are assisting in a search, the Parole Agent shall request them to make the actual search, especially when criminal charges are likely to result from the search. The Parole Agent will then obtain a copy of the police agency's inventory for use in any subsequent revocation proceedings.

When conducting a search without police assistance, the Parole Agent shall temporarily halt the search, secure the scene to extent possible, and request assistance from local police if preliminary observation indicates presence of any of the following:

- Evidence of a major crime.
- Weapons.

- Large quantities of stolen merchandise.
- Large quantities of illegal drugs.
- Evidence that persons other than parolee may be involved in criminal activity.

81030.20.1 Handling Firearms Evidence Procedures

Parole Agent

Handles any firearm as if loaded.

Records serial number, make and model.

Collects all ammunition, both expended and non-expended.

Takes firearm to other law enforcement agency with jurisdiction.

Runs record check on firearm.

Encourages local authorities to prosecute parolee for possession of a firearm.

Unit Supervisor

Receives and stores firearms in evidence locker until turned into local law enforcement.

81030.20.2 Handling Narcotics Evidence Procedures

Parole Agent

Collects controlled substance in a safe manner.

Records quantity, appearance and packaging on inventory receipt.

Records name or initial of person who seized material and date and time of seizure on package.

Requests local law enforcement to conduct analysis and obtains results as soon as possible.

Subjects seized contraband to laboratory analysis if other law enforcement agency will not perform analysis.

Requests other assisting law enforcement agency to take control of illegal controlled substance in parolee's possession.

Records information on Record of Interview Form (CDC Form 1650D) and submits Activity Report Form (CDC Form 1502).

Unit Supervisor

Receives and stores narcotics in evidence locker.

81030.21 Surveillance Policy

Surveillance is intended to obtain or verify information about a parolee's behavior in the community. The proper use of surveillance can be effective in gathering information not obtainable through other sources. Spot surveillance may be conducted at an agent's discretion when information can best be obtained from observation; and when not more than 15 minutes will be spent; and when there are no apparent safety problems.

The Parole Agents shall confer with the unit supervisor and other agents prior to conducting fixed or moving surveillance (Moving surveillance is difficult and requires the use of several agents or other law enforcement agency staff with communications equipment.).

81030.21.1 Surveillance Definitions

Surveillance is the process of keeping a parolee, parolee's residence or vehicle under observation to gain information about parolee's activities, associates or contacts.

Spot surveillance is the observation of a specific location for a short period of time (e.g., driving or walking by to determine current activity, who is present and potential safety hazards).

Fixed surveillance is the observation of a specific location for a long period to determine parolee's associates, traffic to and from location, and whether the location is parolee's actual residence.

Moving surveillance is following a specific parolee from place to place to secure information about parolee's activities.

81030.21.2 Surveillance Procedures

Parole Agent

Obtains unit supervisor approval prior to conducting fixed or moving surveillance.

- Approval can be indicated either in the Parole Plan or through a case review.
- The AOD will be contacted before beginning fixed or moving surveillance after hours.

Presents sufficient information regarding surveillance to allow unit supervisor to allocate resources:

- Reason for parolee surveillance:
 - Supervision category.
 - Prison gang member or affiliate.
 - Suspected large scale drug sales or transportation.

- Violent behavior or sexual offenses.
- Suspected large scale property or fraud offenses.
- Organized crime activities.
- High Risk PAL cases.
- Expected outcome of surveillance.
- Location of surveillance.
- Duration of surveillance.
- Other participants.

Unit Supervisor or AOD

Reviews request to conduct surveillance.

Specifies duration and type of surveillance to be conducted.

Instructs Parole Agent to notify unit supervisor or AOD upon completion of surveillance.

Parole Agent

Contacts unit supervisor when the surveillance is completed.

81030.22 Pretext Interview Policy

A pretext interview is an interview where a false identity is used to obtain information that would not be given if Parole Agent's identity were known. Trademarks or equipment of a company or organization shall not be used in a pretext interview without consent. A pretext interview may not be conducted to gain entry, arrest, and search or secure a confession. Pretext interviews shall not be attempted with persons who cannot legally or morally disclose information.

81030.22.1 Pretext Interview Procedures

Parole Agent

Reviews case with unit supervisor to evaluate need for pretext interview.

Identifies specific people involved and information to be secured.

Determines false identity to be used.

Establishes specific time frame.

Documents results of conference on Record of Supervision Form.

81030.23 Referral to DA for Prosecution Policy

When a Parole Agent discovers a major crime, it shall be brought to the attention of the local law enforcement agency having jurisdiction so that the agency can pursue the investigation and subsequent criminal prosecution. However, if police are not available, it may be more appropriate for the agent to continue investigation and subsequent referral to the DA. The agent shall consider the following factors before deciding to make the referral:

- Which agency has the majority of the information relative to the crime.
- The reasons local law enforcement is unwilling to prosecute.
- Likelihood of successful prosecution.
- The nature of instant offense(s).
- Availability of Parole Agent's time and resources to continue investigation.

Local Requirements

Local requirements for criminal prosecution vary. Parole staff need to determine what is required for prosecution by the DA and the time limits for referring such cases.

Issues to be addressed to support criminal prosecution are:

- Elements of each crime to support charge(s) that a crime has occurred (List crimes committed by Penal Code sections and titles).
- Reasonable belief, probable cause or circumstantial indicators if a felony charge is to be filed.
- The Parole Agent must have personally observed the crime or a complaining victim or witness must have observed the crime if a misdemeanor charge is to be filed.
- Evidence to link parolee to crime and how it ties to parolee.
- Witnesses and facts to which they can testify (A short summary shall be prepared outlining facts of crime, names and addresses of witnesses, and their willingness to cooperate in investigation and to testify in subsequent court proceedings).

Legal Issues

The following legal issues are to be included in Parole Agent's report to DA:

- Basis for parolee's arrest.
- Relationship between Parole Agent and parolee e.g., parolee is a member of Parole Agent's caseload.
- Parole agent's peace officer powers as defined in PC 830.5.
- An explanation of whether arrest notice was given and whether Parole Agent complied with PC 844 (knock and identify requirement).
- The point during investigation that Miranda Rights were given. (If not given, the reason they were not must be explained).
- Circumstances under which parolee's statement or confession was taken (Was it voluntary? Made under duress or coercion? Were promises made? Was it signed and dated?)
- Conditions under which a search was conducted and authority for search. If police were involved, whether they assisted an agent of P&CSD or whether a search warrant was issued. If P&CSD initiated search, the information relied upon for reasonable belief to search.
- Circumstances under which any evidence was seized and which agency conducted analysis Type of analysis and results (drug analysis, fingerprint match, handwriting analysis).

81030.23.1 Referral to DA for Prosecution Procedures

Parole Agent and Unit Supervisor

Conduct case review to determine if case should be referred for prosecution.

Parole Agent

Advises parolee of rights and obtains statement using parolee's own words. If parolee grants permission to tape the statement, the date statement was taken, the fact that permission to tape was granted and a summary of tape's contents shall be included.

Prepares and submits memorandum to DA for prosecution, including all required information.

- Any known inconsistencies in the case will not be included in the memorandum, but will be discussed in person with the deputy DA.

Forwards copy of the parolee's CI&I arrest record with referral for prosecution.

81030.24 Revision

The Deputy Director, P&CSD or designee, shall ensure that this section current and accurate.

ARTICLE 4 — REPORTING VIOLATIONS

Revised June 23, 1992

81040.1 Policy

The Parole Agent is responsible for reporting all arrests and violations of parole. Behavior reported as a violation of parole shall determine the level at which a final decision shall be made. The decision to report a violation to the BPT or to make disposition at the unit level shall be made by a unit supervisor and agent of record at a verbal conference.

81040.2 Limits Of Confinement

A parolee shall not be kept in custody longer than the time ordered revoked by BPT. A parolee with a commitment crime that occurred before December 31, 1978 shall not be held in continuous custody on a parole violation for more than six months. A parolee with a commitment crime that occurred on or after January 1, 1979 shall not be held in continuous custody on a parole violation for more than 12 months.

81040.3 Suspension of Parole

A parolee shall not receive credit toward the parole period while in suspended status. When parole is suspended, any time credited toward continuous parole is lost. Time on continuous parole begins again when parolee is reinstated on parole. The BPT shall specify the date a suspension starts based on date Parole Agent determines parolee is not available for supervision. The period of suspension shall end when:

- Parolee is located in California and is available for parole supervision.
- Parolee is arrested in California.

- Parolee located outside of California is available for extradition or the BPT has ordered the case continued on parole.

81040.4 Revocation of Parole

Revocation time extends the parole period automatically by the amount of revocation time ordered. When parole is revoked, any time credited toward continuous parole is lost. The time a parolee is in revocation status shall be added to the parole period with the following limits: commitment crime occurring on or before December 31, 1978, six months; after January 1, 1979, 12 months. The BPT may extend the revocation term for an additional 12 months for in-custody misconduct [Pursuant to PC 3057(c)]. Time on continuous parole begins again when parolee is released after serving a revocation period.

81040.5 Violations Requiring Report To The BPT

- Murder.
- Voluntary manslaughter.
- Mayhem.
- Forcible rape as defined in PC 281(2) and (3).
- Sodomy by force, violence, menace or threat of great bodily harm.
- Oral copulation by force, violence, menace or threat of great bodily harm.
- Lewd acts on a child under 14 years old, as defined in PC 288.
- Failure to register within time limits specified in PC 290(g).
- Behavior in violation of parole which results in serious injury to victim.
- Possession, control or use of any firearm, explosive, or weapon as defined in federal or state statutes, and any knife or blade longer than two inches, except as provided in other portions of this manual.
- Involvement in fraudulent schemes over \$1,000.
- Sales, transportation or distribution of a narcotic drug or other controlled substance as defined in Division 10 of H&SC.
- Failure to advise Parole Agent of parolee's whereabouts and remaining unavailable for contact for 30 days.
- Behavior in violation of parole when a parole hold is placed and parolee has less than 30 days remaining on the parole period.
- Violations of special conditions of parole which were imposed by BPT.
- Escape from a local custody facility by a parolee serving revocation time.
- Major rule violations by a parolee serving revocation time in a local custody facility.
- Refusal of a parolee to provide a blood specimen or saliva sample per PC 290.2.
- Refusal of a parolee to sign the CDC Form 1515, Conditions of Parole.

81040.6 BPT Actions

- Continue on parole.
- Cancel want and remove warrant from file.
- Retain on parole.
- Remove parole hold as of _____.
- Schedule for revocation proceedings.
- Retain parole hold.
- Retain on parole pending revocation proceedings.
- Schedule for revocation screening calendar.
- Revoke parole and return to custody.
- Suspend parole.
- Reinstate on parole (this action only restarts a suspended parolee's period of parole and shall always be accompanied with another action).
- Dismiss charges and discharge.
- Discharge.
- Schedule for revocation - psychiatric attention.
- Schedule for revocation - psychiatric referral.
- Extend parole period to maximum pending parole revocation.

81040.7 Unit Supervisor Review of Violations

The unit supervisor shall review all violation reports and may decide to continue-on-parole for all violations not reserved for decision by the BPT. The unit supervisor may refer a parolee for revocation proceedings (even though referral is not required by BPT policy) if a parolee is a danger to person or property of others or a parolee is a danger to self.

Recommendation of revocation of parole is only one control method available to parole staff. Unit supervisors should consider application of progressive sanction to resolve parole violations. Referral to the BPT for revocation action shall be reserved for cases where there is a threat to public safety or the parolee cannot be managed safely in the community.

Technical violations shall be considered for referral to the BPT if:

- The current violation constitutes a potential threat to others considering the serious offense background of similar nature.
- The violation of a special condition of parole poses a threat to others.
- No plan for eliminating violation behavior can be developed.

Technical violations shall be dealt with at the unit level if:

- The parolee has made an otherwise good parole adjustment.
- The violations are minor.
- A control/treatment program is available.

Drug violations shall be considered for referral to the BPT if:

- The parolee is readdicted or unable to control drug use while in the community.
- The parolee has been at-large or is likely to abscond.
- The parolee refuses to test or refuses a drug treatment program.
- The parolee is a threat to others or property of others.
- Evidence suggests that criminal activities are the parolee's means of support.

Drug violations shall be dealt with at the unit level if:

- The parolee has previously made a good parole adjustment or has a favorable community program.
- The parolee is willing to enter available community drug treatment program or to continue in drug treatment program.
- The violation is an isolated incident of drug use or there is minimal drug use.
- Local custody or prosecution is sufficient to interrupt drug use.
- There is minimal risk to person or property.

81040.8 Unit Supervisor Actions

The unit supervisor's actions against the parolee include, but are not limited to:

- Continue-on-parole.
- Extend parole period to maximum pending parole revocation.
- Refer to revocation screening calendar.
- Remove the parole hold.
- Deferred pending (state the specific action to be completed; state the date the report is to be completed).
- Reinstate on parole a suspended parolee-at-large (PAL) located within California; cancel want and remove warrant from file. This action only restarts a suspended parolee's period of parole and shall always include other actions such as continue on parole--no time lost, continue on parole--time lost, or refer to revocation proceedings.
- Schedule for good cause hearing (cooperative parole).
- Schedule for revocation - psychiatric attention.
- Return to prison for further proceedings (for parolee arrested outside California).
- Maintain in community pending revocation proceedings.

81040.9 Activity Report Policy

The activity report is a multipurpose document that can be used:

- To document a unit supervisor's final action of "continue-on-parole."
- To give Parole Agent instructions.
- To document case reviews.
- To document unsubstantiated allegations of parole violations.
- To document a decision to add or remove a special condition of parole.
- To document a case transfer.
- To reinstate a suspended parolee.

81040.9.1 Activity Report Procedures

Secures information to determine if a parolee's behavior violated parole. Desirable information is:

Parole Agent (Within One Working Day of Hold or Discovery)

- Date, time, description and location of behavior.
- Injuries or property damage.
- If parolee was arrested: arresting agency, including names and ID numbers of arresting officers, and jail number and booking where parolee is held.

Conducts verbal conference with unit supervisor to determine if activity report is required.

Unit Supervisor

Enters appropriate information on unit jail list if parolee was arrested.

Parole Agent (Within Six Working Days of Hold or Discovery)

Completes activity report including recommendations such as:

- Complete investigation and submit supplemental activity report or violation report by (date).
- Continue-on-parole.

Submits activity report to unit supervisor.

Unit Supervisor (Within Six Days of Hold or Discovery)

Reviews activity report and determines if additional information is needed, investigative activities needed to secure information, and specifies date a report is to be submitted. Takes final action to continue on parole when appropriate.

81040.10 Emergency BPT Action Policy

The unit supervisor shall request emergency action from the BPT whenever a parole violation occurs and:

- Less than 30 days remain on a parole period.
- A parolee has been involved in serious criminal behavior and it is evident parolee has absconded from supervision. (A retain on parole report shall not be required after the emergency action if a violation report shall be submitted.) A discharge review report shall be submitted within ten days of emergency action if a violation report is not submitted.

81040.10.1 Emergency BPT Action Procedures**Unit Supervisor and Parole Agent: No Later Than the Next Working Day)**

Conducts a verbal conference to determine if an emergency BPT action is required.

Unit Supervisor (Immediately)

Contacts regional records staff to have emergency action request to the BPT prepared and FAXed to the BPT, Central Office Calendar.

Regional Records Staff (Immediately)

FAXs information supplied by unit supervisor to BPT.

BPT Staff

Takes emergency action.

Regional Records Staff

Notifies unit supervisor of BPT action by telephone.

81040.11 Parolee-At-Large Report Policy

A CDC Form 1524, Parolee-at-Large Report, (PAL recommending suspension of parole) shall be submitted no later than the prescribed time limits. If it is evident that the parolee has absconded and may be involved in criminal activity, a PAL Report shall be submitted immediately.

81040.11.1 Parolee-At-Large Report Procedures**Parole Agent**

Prepares and submits PAL Report on high risk case (assessment score of 7.5 or above) when parolee's whereabouts become unknown.

(Within 10 Days From Discovery)

Prepares and submits PAL Report on any case with a risk score between 0 - 7.5 when a parolee's whereabouts are unknown.

(Within 30 Days From Discovery)

Includes in PAL Report:

- Date it was discovered parolee absconded.
- How it was discovered parolee absconded.
- Dates and brief description of efforts made to locate parolee.

Parole Agent

Prepares and submits CDC Form 600, Wanted Persons System Notification - Addendum A, along with the violation report to region records.

81040.11.2 BPT Warrant Policy

The BPT may issue a warrant ordering a parolee placed in custody or retained in custody. BPT warrants are used following an order to suspend an absconder's parole. BPT warrants are entered either into State DOJ Wanted Persons System (WPS) or into both the WPS and the National Crime Information Center (NCIC) computer system.

WPS Warrant - (Code 1) is used to arrest a PAL case in California. This warrant is entered into the WPS by the Identification (ID)/Warrants Unit staff to notify all law enforcement agencies within California that the parolee is wanted.

NCIC Warrant - (Code 2) is used to arrest a PAL case likely to go out of state or considered dangerous. This warrant is entered in the NCIC computer by ID/Warrants Unit staff to notify all law enforcement agencies in the U.S. that the parolee is wanted.

The detainer has no arrest powers and is only used to detain. Detainers are used only when a PAL case is in custody in another state and the warrant for the parolee's arrest has not been placed in State DOJ WPS (Code 1) or NCIC (Code 2) computer system by ID/Warrants Unit staff.

Note: A detainer shall be made a warrant before it can be upgraded to a Code 2 want.

81040.11.3 Warrant Issuance Procedures**Regional Records Staff (Prior to Calendar Review)**

Reviews WPS notification (CDC Form 600) for accuracy and returns it to the Parole Agent for correction, if necessary.

Prepares calendar control log (BPT Form 1132) listing all cases prepared for BPT review.

Attaches PAL Reports, necessary BPT forms and the CDC Form 600, to calendar control log.

BPT Panel

Reviews PAL Report (CDC Form 1524), orders parole suspended and warrant issued either Code 1 - WPS or Code 2 - WPS and NCIC.

Regional Records Staff (Daily)

Reviews BPT actions for signature and completeness prior to Deputy Commissioner's departure.

Forwards completed CDC Form 600, Wanted Persons System Notification - Addendum A, to ID/Warrants Unit by express mail.

Forwards calendar control log with BPT actions to BPT headquarters by courier (excluding Region I which may use interdepartmental mail).

Posts BPT actions to the CDC Form 112, Chronological Inmate History.

BPT Headquarters Staff (Daily)

Reviews packages for completeness.

(Within One Working Day of Receipt)

Enter all BPT actions into Central Office Calendar action file and print warrant.

Daily

Hand delivers warrant to ID/Warrants Unit.

81040.11.4 BPT Warrant Cancellation Procedures**Parole Agent (Within One Working Day of Locating PAL)**

Forwards CDC Form 1676, Revocation Tracking Form, by FAX to ID/Warrants Unit to cancel warrant.

ID/Warrants Unit Staff

Cancels warrant in the CLETS thereby removing the want from NCIC and WPS, and cancels warrant in OBIS.

81040.11.5 Reissuing Cancelled Warrants Policy

A warrant is no longer active once it has been cancelled in State DOJ CLETS. Once a warrant has been cancelled, it shall be reissued for cause by the BPT in order to be used as the basis for entering a want into the state WPS or NCIC. Some warrants for suspended parolees are inadvertently cancelled due to the following:

- A warrant abstract has been sent to a law enforcement agency on the wrong subject.
- The parolee has been released by a local agency over a CDC hold or detainer.
- Data entry error.

81040.11.6 Reissuing Cancelled Warrants Procedures**Parole Agent**

Submits a copy of the original CDC Form 1524, PAL Report; BPT Form 1135, Miscellaneous Decision Form; and the completed CDC Form 600, Wanted Persons System Notification Form - Addendum A to regional records upon determining that a warrant has been incorrectly cancelled.

Records Staff

Forwards PAL package to BPT central office.

BPT Staff

Reissues warrant, FAXs signed copies of the BPT Form 1135 and CDC Form 600 to ID/Warrants Unit and forwards a copy of the BPT Form 1135 to the parole unit.

Regional Records Staff

Posts BPT action to CDC Form 112, Chronological Inmate History.

ID/Warrants Unit Staff

Reenters want into CLETS and OBIS.

81040.11.7 BPT Warrant System Audit Policy

Warrants for the arrest of suspended parolees shall be maintained on an accurate and current basis. BPT staff, ID/Warrants Unit staff, regional records staff and parole unit staff are jointly responsible for maintaining current, accurate warrants. All staff shall assist in the warrant audit process as appropriate.

81040.11.8 BPT Warrant System Audit Procedures**BPT Warrants Staff (Daily)**

Matches BPT actions against active warrants file to automatically cancel active warrant when parolee is revoked, discharged or continued on parole.

(Weekly)

Prepares and distributes listing of warrants issued during previous week to parole units.

Monitors BPT warrants by computer to automatically cancel old warrants upon receipt of BPT action (BPT Form 1130) to issue a new warrant.

(By 25th of Each Month)

Prepares and distributes computer printout of NCIC Code 2 warrants active for 12 months to parole units.

Cross-matches active BPT warrants file with the revocation tracking system and OBIS files to identify warrant errors.

(Quarterly)

Prepares and distributes listing of active WPS Code 1 warrants to parole units by regional records.

CDC OBIS Staff (Weekly)

Distributes (by electronic mail) report on newly cancelled wants to regions and field units.

Unit Staff (Within Seven Working Days of Receipt of Listing)

Reviews and corrects warrant listing and forwards to regional records for updating of OBIS and BPT warrants files.

81040.12 Violation Report Policy

All reports shall be completed at the earliest possible time, but no later than the specified time limits. Time limits for reporting violations are based on time constraints for a revocation hearing. See Revocation Process Chart. Unless a parolee waives a revocation hearing, it should be held within specified time limits. To ensure the parolee receives a timely hearing, violation reports shall be completed within the specified time limits. A report is not completed until typed, errors corrected, and information is accurately presented in appropriate format. All time limits are in working days from hold or discovery, whichever occurs first. When the date falls on a weekend or holiday, the violation report shall be completed in time to reach the hearing agent by the last working day within the stated time limit.

81040.12.1 Violation Report Procedures

Completes CDC Form 1676, Revocation Tracking, and forwards to Region Revocation Unit.

Parole Agent (Within One Working Day)

Investigates behavior that may be in violation of parole.

Secures supporting documents showing behavior in violation of parole such as law enforcement arrest, investigation and incident reports, and statements from victims and witnesses.

Interviews parolee. (Failure to complete this interview shall not delay completion of report within required time limit.)

Reviews information collected.

Determines what violation of parole has occurred. Use charge codes in DOM 86020.

Prepares CDC Form 1521-A through D, Violation Report.

Submits violation report for typing in sufficient time to allow for typing and review if not handwritten.

Reviews typed report for accuracy, typing and spelling errors and proper format.

(Within Six Working Days)

Signs and submits report to unit supervisor.

Unit Supervisor (Within Seven Working Days)

Reviews report for correct charges, format, and accuracy.

Takes action or recommends action to be taken.

(By Eighth Working Day)

Signs and sends original report to regional records, and forwards appropriate documents to hearing agent and unit file.

Parole Agent (Within Ten Working Days of Continue on Parole Decision)

Provides parolee with copy of violation report.

Regional Records Staff (Within Ten Working Days)

Files "continue-on-parole" reports in C-File; unit supervisor has taken final action.

Places "schedule for revocation screening calendar" case on next revocation screening calendar.

Forwards "continue on parole" reports requiring BPT action (and cases under hold more than 20 days if not eligible for revocation screening calendar) to BPT, Central Office Calendar for action. (Late violation reports assigned to the revocation screening calendar shall not be forwarded to the BPT.)

Hearing Agent (Within 15 Working Days)

Serves parolee with notice of rights and advises regional hearing coordinator of service results.

81040.13 Privacy Of Witness Information Policy

In order to encourage victims and witnesses to participate in the revocation process and to assist in providing for their safety, the addresses and phone numbers of victims and other potential witnesses shall be deleted from the violation report and any other documents which may be attached to the violation report and to which the parolee shall have access. Victim and witness names shall be withheld for confidential witnesses.

81040.13.1 Removal Of Witness Information Procedures

Deletes all references to addresses and phone numbers of victims and witnesses from the parolee's copy of the violation report and any attachments to the report.

Parole Agent & Unit Supervisor

Reviews all attachments to assure that the removal of all addresses and phone numbers have been completed.

81040.14 Violation Report Format

Violation reports shall be submitted on the appropriate form (CDC Form 1521-A through D). These forms shall also be used to submit complex cases for decisions to the unit supervisor.

Violation reports consist of two parts. Part I deals exclusively with the validity of the alleged parole violation charge. Part II provides information for the disposition portion of the hearing.

PART I - completing charge sheet(s):

- Location of parolee on date report is written: 1) either the facility in which he or she is incarcerated, or 2) home address and telephone number.
- Booking number: Include booking number if parolee is in custody in a city or county jail.
- Include date parolee was arrested by law enforcement or P&CSD (P&CSD) staff. Include two dates if arrested, bailed and rearrested.
- Also Known As (AKA): Include any name booked under other than CDC commitment name.
- Hold date: Date the parole hold was placed by CDC staff, agent of record (AOR), officer-of-the-day (AOD), ID Unit, LEIU, etc.
- Our hold only (OHO): Mark appropriate box.

- Discovery date: Date CDC staff (e.g., AOD, AOR) became aware of the parolee's arrest or violation where hold has not been placed or parolee is not in custody.
- Region: Use Roman numerals (I, II, III, IV).
- Unit: Include parole unit office title.
- Discharge Review Date (DRD): Enter DRD (if suspended, enter date with notation "Prior to Suspension").
- Controlling Discharge Date (CDD): Enter CDD (if suspended, enter date with notation "Prior to Suspension").
- Charges: List all serious charges with appropriate BPT codes, e.g.:
 - Condition 4 Burglary (500).
 - Condition 1 Consuming Alcoholic Beverages (011). (Any minor charges discovered after completion of the report should be handled at the unit level by a "noted" action on an Activity Report.)
- Supporting Evidence: Reports shall specifically detail the supporting evidence relating to the acts charged. (You may consolidate supporting evidence for two or more related charges.) The reports shall completely but briefly set out the facts and actions that show:
 - When the event or action took place.
 - Who was involved in the event or action.
 - What happened.
 - How the behavior or act charged caused harm. How the behavior violated the conditions of parole.
 - Any pending court actions.
 - Parolee's statement. (Provide parolee's explanation.)
 - Witnesses: Either list witnesses scheduled to testify or attach a witness list.
 - Attachments:
 - List any attachments, i.e., police reports (include agency name, and report number and date) written statements, photographs, POC evaluations, anti-narcotic testing (ANT) records, etc., to be relied upon in the hearing process. Remember to "Olsonize" (obliterate witnesses' addresses, etc.).
- Name: Include parolee's complete name and CDC number (I-Number if opened interstate case).

PART II - Completing the CDC Form 1521-B, Summary of Parole Adjustment Sheet:

- Commitment offense(s): Attach legal summary face sheet.
- Prior commitment offense(s): List any prior commitment offenses by offense title code section and dates of commitment.
- Initial parole date: Enter first release on parole for this commitment.
- Last revocation release date (RRD): Enter last revocation release date on current commitment.
- Special conditions: Enter any special conditions of parole, imposed BPT or CDC and date imposed.
- Prior parole violations: Enter all prior parole violations during current parole and unit level and BPT dispositions. Reports shall not include names of BPT members who have taken prior action(s) against parolee (e.g., "this condition was imposed by the BPT on 3/11/87," not "this condition was imposed by BPT panel Jones and James").
- Current residence: Enter last known address, with whom residing, and a brief description of residential pattern since last released.
- Means of support: Indicate how supported while on parole; e.g., employer, supplemental security income, welfare, family, etc. If employed, provide employer's name and work address, dates employed and position held.
- Evaluation: Cover the period from date of parole release to date of current report. Include positive and negative factors on this parole, community programs available if continued on parole or alternative programs in lieu of revocation; e.g., drug programs, psychiatric inpatient or outpatient, etc.

81040.15 Charging Multiple Violations Policy

If there are multiple violations arising out of one incident, charges shall be brought separately. For example, during the course of an armed robbery, a parolee steals a vehicle to flee and resists arrest when apprehended. These charges shall be made separately in relative order of seriousness; e.g., Charge 1 - Robbery with Use of Firearm;

Charge 2 - Auto Theft; and Charge 3 - Resisting Arrest.

Illegal behavior included in one charge shall not be cited in another charge. For example, if charge is Robbery with Use of Firearm (210), the firearm shall not be separately charged (because gun is an included offense in primary charge).

If all evidence for all charges is presented in Charge 1, the agent need only refer to the evidence in subsequent charges; e.g., "see charge #1 for supporting information."

If there are multiple counts of the same crime (e.g., a series of burglaries or car thefts) charges shall be listed separately in chronological order beginning with the earliest offense and moving forward in time to most recent offense.

81040.16 Violation Report Recommendations

A Parole Agent may make the following recommendations on the CDC Form 1521, Recommendation, Review and Signature Sheet:

- Reinstate on parole (if suspended) as of (date arrested or located, if in the State of California).
- Cancel want (remove warrant from file).
- Extend parole period (to maximum pending parole revocation).
- Continue on parole (COP). This recommendation may be made when the violation charge is not serious enough to warrant reincarceration or there are substantial mitigating circumstances.
- Remove parole hold as of _____.
- Retain parole hold.
- Maintain in community pending revocation hearing.
- Refer to screening calendar. This recommendation is appropriate when the violation is serious, or parolee is a threat to the person or property of another, or when parolee is within 30 days of statutory maximum discharge and agent believes parolee should be maintained in custody until discharge.
- Schedule for revocation hearing - psychiatric treatment. This recommendation is appropriate when a parolee, who has not violated parole, exhibits a mental disorder which impairs his/her ability to function in the community and treatment is not available in the community or a state hospital.
- Suspend parole effective (date). This recommendation is made when a parolee fails to report, a parolee's whereabouts are unknown, or when a parolee is arrested outside of California and is not under terms of the interstate compact. The effective date shall be the date the Parole Agent determines the parolee is no longer available for supervision.
- Suspend parole and revocation period effective (date). This recommendation is appropriate when a parolee serving revocation time in local custody escapes or is released in error, and fails to report immediately to a Parole Agent. The effective date of this action is the date the parolee is no longer in custody.

- Schedule for good cause hearing (cooperative parolee).

81040.17 Supplemental Violation Report Policy

Supplemental violation reports shall be submitted in the same format as violation reports (a notation at the top of first page shall identify report as a supplemental report). A supplemental violation report may be used to report:

- Additional charges for a previously submitted violation report.
- Additional or new information on a previously submitted charge. This supplemental report shall be submitted before a revocation hearing on the original violation report is completed.
- A recommended modification of a previous BPT order if new information justifies such a recommendation.

81040.18 Witness Information Policy

In order to encourage victims and witnesses to participate in the revocation process and to assist in providing for their safety, the addresses and phone numbers of victims and other potential witnesses shall be deleted from the violation report and any other documents which may be attached to the violation report and to which the parolee shall have access. Victim and witness names shall be withheld for confidential witnesses.

81040.18.1 Witness Information Procedures

Deletes all references to addresses and phone numbers of victims and/or witnesses from the parolee's copy of the violation report and any attachments to the report.

Parole Agent & Unit Supervisor

Reviews all attachments to assure that the removal of all addresses and phone numbers has been completed.

81040.18.2 Parolee Crime Victim Policy

All staff shall be sensitive to the concerns and needs of crime victims, particularly safety concerns or needs of the victims of parolee violations. Parole staff shall attempt to ensure that victims do not suffer additional harm or injury as a result of their participation in the revocation process. Managers and unit supervisors shall ensure that staff are aware of local victims of crime programs and other appropriate community program resources and refer crime victims to these resources as appropriate.

81040.18.3 Parolee Crime Victim Procedures

Interviews victim of parole violation when appropriate to the circumstances of the case.

Parole Agent

Refers victim (or other eligible witnesses) to local victim's program or to other appropriate community program if needed.

Determines if victim is willing to participate in the revocation hearing.

Conducts and records "fearful witness" interview with victim if appropriate.

Interview shall be taped (preferred) or written.

Victim shall voice specific basis of fear (e.g., "parolee will assault me again if he learns that I am giving testimony") for the taped or written record.

Victim shall also be interviewed on tape (or with written record) regarding the alleged parole violation.

One original written or recorded version of victim's recorded statements only shall be completed.

Original written or recorded version of the fearful victim interview shall be presented to the BPT panel prior to the revocation hearing.

Advise hearing agent of victim being a fearful witness and of any victim concerns.

Hearing Agent

Reviews violation charges to identify potential victim issues.

(One Week Prior to Hearing)

Contacts victim to determine if victim shall attend revocation hearing.

Determines if victim requires transportation to the hearing and notifies AOR that transportation is required.

Ensures that victim program posters and brochures are available at revocation hearing location and advises victims and other eligible witnesses of local programs and community resources, if appropriate.

Separates victim from other witnesses at the hearing if indicated by circumstances.

81040.19 Return of Parolee in RTC Status to Facility Policy

Parolees in RTC status may be returned to a CDC facility to serve the revocation term. Severe overcrowding in some county jails shall require the expeditious return of parolees who have been assessed revocation time to designated CDC facilities. CSRs shall review each case to designate the CDC facility to which the parolee shall be returned.

If any significant change in case factors occurs pending the parolee's transfer to a CDC facility, or if a parolee is not transferred to a CDC facility within 30 days of a CSR review, another CSR review shall be conducted. The C-File shall arrive at the designated CDC facility either prior to, or no later than, the parolee being returned to the facility. If significant delays are experienced in the receipt of the files by the designated facility, special procedures such as contracting for courier service shall be implemented.

81040.19.1 Return of Parolee in RTC Status to Facility Procedures

Completes CDC Form 812, Notice of Critical Case Information - Safety of Persons and forwards it with summary of revocation hearing.

Hearing Agent (Day of Hearing)

Forwards BPT Form 1103 or CDC Form 1104, Waiver of Revocation Hearing, to regional case screener and regional records. (Regional case screener when parolee becomes OHO.)

Regional Case Screener (When Parolee Becomes OHO)

Reviews CDC Form 812 and parolee's C-File and completes the CDC Form 839, CDC Classification Score Sheet for CSR review.

Regional Classification Agent

Forwards copies of CDC Form I28-G, Classification Chrono; CDC Form 812; and CDC Form 839 with the parolee being transported to the CDC facility. (The originals of these forms shall be included in the C-File being forwarded to the designated facility.)

One copy of the CDC Form 839 shall be forwarded to Offender Information Services Branch, P.O. Box 942883, 1515 S Street, Sacramento, CA 94283-0001.

Reception Center Records Staff

Contacts regional records staff if parolee is returned to CDC reception center prior to a revocation hearing.

81040.19.2 Revoked Parolee Retained In Custody Procedures**Parole Agent (30 Days Prior to RRD)**

Maintains revoked parolee on active roster pending adjudication of new crimes or serving of a local sentence.

(Each 30 Days)

Contacts appropriate justice agency staff to determine adjudication or custody status.

Contacts parolee to confirm parolee's program upon release.

Fills out CDC Form 102 requesting release funds based on \$1.10 per day up to a maximum of \$200.

Drops hold per PC 3056.

Monitors case status to assure hold is removed and parolee is no longer being held for parole violation.

Unit Supervisor

Maintains case on active jail list.

Monitors case status to assure Parole Agent carries out above actions.

81040.19.3 New Commitment To CDC Procedures**Parole Agent (Within Ten Days of Court Action)**

Destroys field file after removing all activity reports and current face sheet.

Unit Supervisor

Sends all CDC Form 1502s to regional records for inclusion in the C-File.

Regional Records Staff (Immediately)

Forwards C-File to facility housing inmate when informed of parolee's movement.

81040.19.4 Commitment To Another State Or Federal Prison Procedures

Secures following information:

- Name, case number and location of sentencing court.
- Name of facility where parolee is presently incarcerated.

Parole Agent (Within 15 Days of Final Sentence)

- Crime of which parolee was convicted.
- Length of sentence.

Prepares and submits a supplemental violation report to BPT, including above information and recommending discharge, if appropriate.

81040.19.5 Civil Addict Or Commitment To Mental Health Procedures

Considers the following factors:

- Time remaining on parole term.
- Nature of commitment offense.

Parole Agent

- Adjustment to parole.

Prepares and submits a report to BPT if a discharge from CDC commitment is recommended.

81040.20 Reporting RTC Parolee's Escape From Local Custody Policy

If an RTC parolee escapes from local custody, P&CSD and CDC headquarters shall be informed through the chain of command.

81040.20.1 Reporting RTC Parolee's Escape From Local Custody Procedures

Prepares and submits to unit supervisor a CDC Form 1502 giving all known details of the escape.

Parole Agent (Within One Day of Discovery of Escape)**Unit Supervisor (Within One Day of Discovery of Escape)**

Documents on the CDC Form 1502 the activities to be performed by the Parole Agent.

Contacts regional records staff to request emergency action to suspend revocation period effective (date of escape).

Regional Records Staff (Immediately)

Requests emergency BPT action.

Prepares CDC Form 600-A, All Points Bulletin (APB) FAX Worksheet.

Parole Agent (Next Working Day)

Verifies that an APB has been issued by the sheriff's department.

Requests sheriff's department to include the parole region as an agency to be notified when the escapee is apprehended.

Secures a copy of the warrant for the escapee's arrest.

Requests assistance of law enforcement. Then goes to the residence of record, other collateral residences and places where parolee could be located, and, if located, places parolee in custody.

Prepares BPT Form 1135-A, In-Custody Misconduct Report. Reports to the BPT with circumstances of escape and with the recommendation "suspend revocation time effective (date of escape)."

81040.20.2 Reporting RTC Parolee's Release Over Parole Hold Procedures

Parole Agent (Within One Day of Discovery of Release)

Prepares and submits to unit supervisor a CDC Form 1502 giving all known details of the escape.

Unit Supervisor (Within One Day of Discovery of Release)

Documents on the activity report the actions to be taken by the Parole Agent.

Contacts regional records staff to request emergency action to suspend revocation and parole periods effective (date of escape).

Regional Records Staff (Immediately)

Requests emergency BPT action.

Prepares CDC Form 600-A.

Parole Agent (Within Four Days After Release)

Requests assistance of law enforcement. Goes to residence of record and other collateral residences and places where the parolee could be located. Places parolee in custody if located.

Prepares BPT Form 1135-A with circumstances of the release over P&CSD hold with one of the following recommendations:

- "Suspend revocation time effective (date of release)" if parolee is not located and placed in custody.
- "Continue in revocation status" if parolee is located and returned to custody.

Submits In-Custody Misconduct Report to unit supervisor.

Unit Supervisor (Within 12 Days After Release)

Reviews report and takes appropriate action.

Sends report to regional records.

81040.20.3 RTC Parolee Apprehension Procedures

Parole Agent (Immediately Following Notification of Apprehension)

Places a hold per PC 3056.

Telephones regional records to cancel want.

Gives report to unit supervisor.

Regional Records Staff

Prepares an In-Custody Misconduct Report which states the circumstances of the parolee's apprehension and any crimes committed while the parolee was an escapee. The recommendation is "reinstate revocation time effective (date available)."

Sends notice to ID/Warrants Unit to cancel want.

Unit Supervisor

Reviews In-Custody Misconduct Report and takes action "reinstate on parole and revocation period effective (date available)."

81040.21 Psychiatric Treatment For Mentally Ill Parolees Policy

Parolees in need of psychiatric treatment who commit serious violations shall be referred to the BPT for a standard revocation action. These parolees shall not be referred to a screening calendar but shall be scheduled for a revocation hearing with an attorney. A POC evaluation is not required for the revocation hearing. The hearing agent shall be advised of the parolee's need for attorney assistance and the CSR shall

be advised of the need for evaluation for category program assignment on the CDC Form 1521-D (10/88), Recommendation, Review and Signature Sheet.

Parolees in need of psychiatric treatment who are not involved in serious violations shall be provided such treatment in the community or in a State DMH facility under voluntary placement or civil commitment, if at all feasible. If neither of these two alternatives is available, a parolee may be scheduled for a revocation hearing - psychiatric treatment providing that:

- No other violations of parole are charged;
- A POC or other CDC psychiatric staff has completed a psychiatric evaluation; and,
- The psychiatric evaluation indicates that the parolee suffers from a mental disorder which seriously impairs the parolee's ability to maintain himself or herself in the community, or which makes the parolee a danger to himself or herself or others, and necessary treatment cannot be obtained in the community.

81040.21.1 Return for Psychiatric Treatment Procedures

Determine if parolee is a danger to self or others or unable to function in the community.

Decide to:

Parole Agent, Unit Supervisor and POC Staff

- Place the parolee in a mental health facility in accordance with applicable law.
- Allow the parolee to remain at liberty. (Parolee shall be allowed to remain at liberty only if there is sufficient support for the parolee to stay safely in the community.)

Parole Agent

Refers case for POC evaluation.

POC Staff

Conducts evaluation and submits completed evaluation for parole revocation for psychiatric treatment, CDC Form 873 (10/88), with recommendation to Parole Agent.

Parole Agent

Prepares and submits the parole revocation proceedings report - psychiatric treatment, consisting of CDC Form 872, CDC Form 872 A, CDC Form 873, CDC Form 1521-B, and CDC Form 1521-D recommending schedule for revocation hearing - psychiatric treatment.

BPT Staff

Conducts revocation hearing to determine if revocation for psychiatric treatment is proper.

81040.22 Emergency Psychiatric Transfer Policy

A parolee who cannot be retained locally pending a revocation hearing-psychiatric treatment, due to acute psychosis, may be transferred to prison upon authorization from the BPT Central Office Calendar for an emergency return. Transfer of the parolee to prison in no way changes the requirement for timely completion of the violation report and completion of the revocation hearing.

If it is determined that based upon psychiatric reasons (acute psychosis), a parolee cannot be retained locally or local custody is unavailable pending revocation hearing, authorization for emergency return to a CDC treatment facility for treatment may be requested from the BPT Central Office Calendar. Written psychiatric evaluation is required for Central Office Calendar action.

If immediate emergency return to a CDC facility for treatment is required and BPT staff are not available to authorize emergency return then:

- A male parolee may be transported to a facility after the chief psychiatrist or medical AOD approves the emergency placement.
- A female parolee may be transported to a women's facility after the medical AOD approves the emergency placement.

81040.22.1 Emergency Psychiatric Placement Procedures

Parole Agent

Briefs unit supervisor by case review, recommending a course of action.

(Immediately)

Obtains psychiatric evaluation if emergency psychiatric placement is indicated.

POC Staff (Immediately)

Conducts psychiatric evaluation.

Parole Agent

Requests facility staff for authorization for parolee's emergency return if BPT staff is not available and immediate return is required.

POC therapist shall contact facility staff to determine if psychiatric unit housing is available.

Arranges for parolee's transportation if emergency return is approved by facility staff.

Ensures that following materials are forwarded with parolee when transported to CDC facility:

- Copy of cumulative case summary.
- Identifying photograph.
- Written description of behavior which led to placement and listing of prescribed medications.
- Statement including date of emergency return approval and person who approved placement.
- Reference to any enemy or gang information.

Unit Supervisor (No Later Than Next Working Day)

Requests emergency BPT action by regional records, if not previously requested.

Regional Records Staff

FAXs completed BPT Form 1135, Miscellaneous Action Sheet, to appropriate facility case records manager.

BPT Form 1135 shall include statement that emergency psychiatric placement has been cleared with appropriate hospital staff (usually the chief psychiatrist) and hospital bed available for the parolee.

Advise unit staff to forward a copy of violation report (CDC Form 872, CDC Form 872-A, CDC Form 873, CDC Form 1521-B, and CDC Form 1521-D), and a copy of memorandum indicating emergency return circumstances to the facility case records manager.

Parole Agent (Within Six Working Days)

Forwards full violation report and copy of memorandum that accompanied parolee to facility case records manager.

Both violation report and memorandum shall prominently indicate: "Psychiatric Treatment Case: Revocation Hearing Required."

Reviews case and updates parole plan to specify activities required to monitor parolee's progress and prepare for parolee's eventual release.

(After Revocation Hearing)

Arranges for parolee's transportation to CMF or other facility.

Contacts C&PR at receiving facility for acceptance of revoked parolee for psychiatric treatment.

81040.22.2 Psychiatric Treatment Release Procedures

Assigned Facility Psychiatrist (Prior to Expiration of BPT Return Order)

Forwards report indicating termination of psychiatric treatment to C&PR if parolee no longer meets psychiatric treatment criteria or is not being actively treated in a psychiatric program or DMH hospital.

C&PR or Designee

Notifies unit supervisor or Parole Agent of pending release and jointly determine specific release date.

Prepares and submits BPT Form 1135, Miscellaneous Decision Report, by FAX to BPT, Central Office Calendar, recommending that revocation release date be modified and parolee be re-released.

Recommended release date shall be set based on placement availability.

BPT Central Office Panel (Within Four Days or Receipt of Report)

Takes an action to release parolee if appropriate.

BPT Staff

FAXs BPT action to C&PR.

C&PR or Designee (Within One Day of BPT Action)

FAXs BPT action and release date to parole unit.

Parole Agent

Updates parole plan.

(Three Days Prior to Release Date)

Develops and notifies facility of release program.

81040.23 State Hospital Transfer Policy

Parolees revoked and returned for psychiatric treatment may be processed for transfer to a state hospital under provision of PC 2684. Such processing, if appropriate, is initiated by staff at CMF or CIW. The revoked parolee may remain hospitalized under this provision only for duration of the revocation period. When the revocation period ends, the revoked parolee shall be released to the community or processed under PC 2974 (which incorporates W&I 5150 and 5152).

81040.23.1 State Hospital Transfer Procedures

Unit Staff (Unit of Assignment)

Transfers case file of parolee in state hospital to parole office in the state hospital area.

Parole Agent (Receiving Unit)

Conducts case monitoring, supervision and liaison with hospital staff.

Returns case file to original unit upon parolee's release from state hospital.

Parole Agent (Unit of Assignment)

Develops release program for parolee.

81040.24 Direct Commitment to State Hospital Policy

If a parolee appears to be psychotic (as indicated by evidence of hallucinations, delusions, inappropriate emotional state, bizarre behavior, inability to test reality, suicidal ideation, etc.) and possibly in need of hospitalization in a DMH facility, the POC chief psychiatrist or clinic administrator shall be contacted to determine if direct commitment to a state hospital is appropriate. If state hospital commitment is deemed appropriate, clinic staff shall make arrangements for the parolee's commitment to a state hospital (Camarillo State Hospital for cases serviced by Southern POC; Napa State Hospital for cases serviced by Northern POC). Ventura Parole Unit (Camarillo State Hospital) and the Santa Rosa Parole Unit (Napa State Hospital) are responsible for monitoring the status of cases while parolees are state hospital patients.

81040.24.1 Direct Commitment To State Hospital Procedures

Parole Agent

Contacts chief psychiatrist to determine whether parolee shall be admitted directly to a state hospital.

POC Staff

Evaluates case to determine if commitment to state hospital is appropriate.

Contacts state hospital staff to arrange commitment and advises Parole Agent of arrangements.

Parole Agent

Arranges parolee's transportation to state hospital.

Copy of PC 5150 commitment document and POC report shall accompany any parolee to state hospital.

(Immediately Upon Parolee's Movement to State Hospital)

Forwards field file to either Ventura or Santa Rosa Parole Unit, as appropriate.

Parole Agent (Santa Rosa or Ventura Unit)

Monitors case status and notifies sending unit of parolee's discharge date.

Parole Agent

Arranges transportation from state hospital upon parolee's discharge from hospital.

81040.25 Reinstatement of Suspended Parolees Arrested in California Policy

Unit supervisors shall take one of three actions in reinstating a suspended parolee who is arrested in California:

- Order "Reinstate and Continue On Parole - No Time Lost."
 - The result of this action shall be return of the parolee to active status with no break in the parole period and no change in the discharge review date.
- Order "Reinstate On Parole" and "Continue On Parole - Time Lost."
 - This action shall be referred to the regional screening calendar for BPT review. The recommendation to the BPT is to continue the case on parole with the parole period extended.
 - This action shall require the submission of the following documents to the regional screening calendar:
 - Copy of the CDC Form 1502, Activity Report, containing the single charge of absconding only.
 - Completed BPT Form 1130, Central Office Calendar Decision.
 - BPT Form 1102-A, Absconders: Waiver of Personal Appearance at Revocation Hearing Parolee-at-Large: Time lost, signed by the parolee.
 - The screening calendar shall take the action to continue on parole, add at-large time or order the case scheduled for revocation proceedings. (The Parole Agent shall submit a violation report by normal revocation procedures if the case is ordered for revocation proceedings.)
- Order "Reinstate On Parole" and "Schedule For Revocation Proceeding." This action is a referral to the BPT for revocation.

81040.25.1 Reinstatement of Suspended Parolees Arrested in California Procedures**Parole Agent and Unit Supervisor (Within First Working Day of Hold or Discovery)**

Conduct case review.

Parole Agent (Within Six Working Days of Hold or Discovery)

Completes CDC Form 1502 and BPT Form 1130, Central Office Calendar Decision Form if recommendation is to "Reinstate and Continue On Parole - No Time Lost."

Completes CDC Form 1502, Activity Report, BPT Form 1130, Central Office Calendar Decision; BPT Form 1104, Summary of Revocation Decision; Hearing Waived/Screening Offer and BPT Form 1102-A, Absconders: Waiver of Personal Appearance at Revocation Hearing Parolee-at-Large: Time Lost signed by the parolee, if recommendation is to "Reinstate On Parole" and "Continue On Parole - Time Lost."

Completes CDC Forms 1521-A through D if recommendation is to refer to BPT for revocation action.

Forwards completed report to unit supervisor for review and signature.

81040.26 Revisions

The Deputy Director, P&CSD, or designee shall be responsible for ensuring that the contents of this section are kept current and accurate.

81040.27 References

PC §§ 2684, 2962(d), 2964, 2968, and 3000(d).

ARTICLE 5 — SPECIAL REPORTS

Revised March 8, 1990

81050.1 Special Report Policy

Special Reports are prepared when behavior occurs affecting staff safety or when a situation involving staff or offenders may produce unusual community reaction. The purpose of the reports is to provide the P&CSD with information to facilitate effective responses to these situations.

There are four types of incidents requiring Special Reports:

- Special incidents.
- Threats against public officials.
- Shots fired by agent.
- Altercations.

81050.2 Special Incident Reporting Criteria

The Deputy Director, P&CSD, will be notified the same day of any behavior by an offender which receives major media attention or which is likely to stimulate significant interest because the behavior is notorious, bizarre or meritorious. The Deputy Director requires timely, factual information regarding such incidents in order to provide accurate responses to administrative, media and legislative inquiries.

81050.2.1 Special Incident Reporting Procedures**Parole Agent (Same Day)**

Obtains all available information regarding incident.

Notifies unit supervisor or Administrative Officer-of-the-Day (AOD).

Unit Supervisor or AOD (Same Day)

Notifies deputy Regional Administrator of incident.

Deputy Regional Administrator (Same Day)

Determines if immediate telephone reporting of incident to P&CSD, Headquarters is necessary.

Unit Supervisor (Same Day)

Completes CDCR Form 1662, Field Incident Report: Preliminary Incident Notification, and FAXs to deputy Regional Administrator.

Deputy Regional Administrator (Same Day)

Notifies Regional Administrator and P&CSD Headquarters.

FAXs Special Incident Report to Assistant Deputy Director, P&CSD Headquarters, if incident report is required.

Assistant Deputy Director (When Incident Report is Received)

Assesses incident information and determines if additional information is required.

Summarizes and forwards very serious incident reports to Director.

Parole Agent (As Soon as Possible)

Obtains additional information requested and forwards to P&CSD, Headquarters.

81050.3 Altercation Reports Policy

A report shall be prepared and submitted if a parole staff person is involved in an altercation.

81050.3.1 Altercation Reports Format

Synopsis (One sentence description of incident).

Parties Involved (List all persons involved in incident, noting their status as staff or parolees, inmates or other persons).

Injuries to Person or Property (A description of injuries to any person, medical aid given and prognosis). When reporting injuries, differentiate whether female or male by placing (F) or (M) in front of name of injured person. Damage to property of a staff person, parolee, inmate or any other person will be listed with a damage estimate in dollar value (A claim may be submitted for damages to personal property per SAM).

81050.3.2 Altercation Reporting Procedures**Parole Staff Person (Immediately)**

Notifies Unit Supervisor.

Prepares and submits altercation report and submits to Unit Supervisor.

Unit Supervisor

Prepares written critique and evaluation of incident on a separate sheet, attaches it to the report and forwards report to PA and RPA.

- Notes concurrence on report, if in agreement.

PA and RPA (Within 20 Days of Incident)

Prepare separate written critiques and evaluations of incident; attach to report and forward to Deputy Director, P&CSD.

81050.4 Shots Fired- Policy

Whenever a peace officer's firearm is discharged in the course of employment (except as permitted for training purposes), whether on-duty or off-duty, the employee shall prepare a Shots Fired Report (Confidential). The immediate supervisor shall also prepare an analysis of shooting incident and attach the analysis to Parole Agent's report.

81050.4.1 Shots Fired Report Format (Confidential)

Synopsis. Brief description of what happened when the firearm was discharged, number of times fired and the consequences of being fired; e.g., injuries sustained.

Parties Involved. List all incident participants and witnesses, including full names, home addresses, telephone numbers and places of employment, noting status as employees, parolees, inmates or other persons. Include statements from all witnesses and participants. Physical positions of all persons at time of incident will be noted on a schematic and appended to report.

Death, Injury or Property Damage. Describe injuries and wounds sustained by any person, including names, addresses and telephone numbers of injured persons. List estimated dollar value of any property damage, and names and addresses of owners. A supplemental report shall be submitted if an injured person dies after original report is submitted.

Weapons Used.

- Describe employee firearms, including CDC and serial numbers, type of ammunition, number of rounds fired, type of holster and disposition of employee weapon. Indicate date employee last qualified on a approved range.
- Describe weapon used by other person, and type of ammunition, number of rounds fired, and statement as to whether weapon was stolen or how other person came into possession of weapon. If the above information is not available when the report is submitted, make a statement to that effect and submit the information when available in a supplemental report.

Assisting Departments

Other departments assisting or responding. List names and telephone numbers of other departments of law enforcement and other participating agencies; paramedics, ambulances, hospitals, doctors, etc. Append copies of reports of incident prepared by all other departments or agencies to the report. If other agency reports are not available when Shots Fired Report is submitted, the reports shall be submitted with a supplemental report when available.

Details of Incident. Include a detailed, chronological account of incident with a narrative description of scene and physical positions of all persons involved and present at shooting. Include presence and positions of all witnesses.

P&CSD Notification. Indicate date and time that the supervisor or Administrative AOD was notified of event, including name of person notified.

Analysis. The immediate supervisor shall indicate cause of incident and degree of each person's involvement. The analysis will be an addendum to main Shots Fired Report so it can be easily removed to facilitate wider distribution of remainder of the report. If subsequent information causes analysis to be modified or changed, revised analysis will be submitted in a supplemental report that includes basis for the revision. Although other sections of Shots Fired Report may subsequently receive wide distribution for training and informational purposes, analysis section distribution will be restricted to the Unit Supervisor, PA, Regional Administrator, Assistant Deputy Director and Deputy Director, P&CSD. Copies of reports intended for a wider audience will have analysis section removed prior to duplication and distribution.

81050.4.2 Shots Fired Reporting Procedures

Parole Staff Person (As Soon as Safety Permits)

Obtains any needed medical aid and requests law enforcement agency assistance if injury, death or property damage occurred.

Reports any discharge of a firearm to local law enforcement agency.

Telephones immediate supervisor or AOD to report incident.

Unit Supervisor (Immediately)

Notifies PA.

Proceeds to scene of incident and conducts complete investigation of incident in cooperation with local law enforcement staff.

- Investigation will include an examination of firearm of any involved P&CSD staff person.

Reports incident through channels to Regional Administrator and Deputy Director, P&CSD. If weapon is discharged outside normal working hours the AOD shall be contacted and Deputy Director or Assistant Deputy Director also contacted by Headquarters ID/Warrants Section at (916) 445-6713.

All P&CSD Staff at Scene (No Later than 24 Hours after Incident)

Individually prepare separate written statements that chronologically document all facts of incident.

Submit reports to immediate supervisor.

Staff Person Who Fired Weapon

Prepares and submits Shots Fired Report.

Supervisor of Employee (Within Four Days of Incident)

Prepares an analysis of the incident and attaches it to the Shots Fired Report and submits to the Director on P&CSD memorandum.

Supervisor of Employee (Within Five Days of Incident)

All staff reports of incident shall be appended to the supervisor's Shots Fired Report.

Regional Administrator (Within Three Days of Receipt of Report)

Reviews Shots Fired Report.

Provides direction to involved staff members regarding appropriate corrective actions.

Forwards report to Deputy Director, P&CSD.

Forwards new information to Deputy Director, P&CSD if subsequent information causes a change in original views, recommendations or actions.

Deputy Director P&CSD

Reviews Shots Fired Report.

Forwards report to the Director.

81050.5 Threats Against Public Officials or Their Families Policy

Any written or oral threat by an inmate or parolee against the President or Vice-President of the United States, the Governor of California, other state, county or city officials, or other elected state officials, appointees of the Governor, BPT Commissioners, or judges shall be immediately reported. A written report, prepared by the Parole Agent and approved by the Unit Supervisor, shall be made on same day that threat was made or discovered.

81050.5.1 Threats Against Public Officials Notification Procedures

P&CSD Staff Person (Immediately)

Reports threat to Unit Supervisor and PA.

Unit Supervisor (Immediately)

Directs Parole Agent to place inmate or parolee in custody.

Notifies the Regional Administrator.

Regional Administrator (Immediately)

Notifies the Assistant Deputy Director, P&CSD by telephone.

Assistant Deputy Director (Immediately)

Notifies the following by telephone:

- The Director of Corrections.
- The Deputy Director, P&CSD.
- Executive Officer, BPT, if a BPT Commissioner is threatened.
- FBI, local office.
- U.S. Secret Service (local office).
- Assistant Director, Organized Crime and Criminal Intelligence, Department of Justice, 4949 Broadway, Sacramento, CA 95813. Attention: Homicide Threats. Telephone: (916) 739-5744. ATSS: 497-5744; [24-hour Command Center: (916) 739-2771, ATSS: 497-2771].
- Assistant Director, LEIU.
- CHP required per PC 76. Notification to the CHP can be made by any of the following offices:
 - CHP-Division Headquarters: (916) 445-1150.
 - CHP-Executive Protection Bureau-North: (916) 445-9636.
 - CHP-Executive Protection Bureau-South: (213) 620-3216.

Parole Agent (Immediately)

Places inmate or parolee in custody.

(Same Day Threat is Discovered)

Prepares Threats Against Public Official Report and forwards copies as directed by Unit Supervisor.

81050.6 Threats Against P&CSD or BPT Staff Policy

Any threat against a P&CSD staff person shall be immediately reported to a supervisor. The supervisor shall evaluate the seriousness of the threat and, if the threat is deemed a danger to employee's safety, shall initiate prompt measures to minimize or eliminate the danger. These measures may include, but are not limited to, placing the person who made the threat in custody, recommending 24-hour arming of the threatened staff, reassigning the employee to regional office or other work location; or requesting 24-hour protection from local law enforcement or the LEIU.

If reentry inmate covered under this section escapes, discharges or is released on parole, or parolee covered under this section absconds or discharges from parole, the Parole Agent shall immediately notify the employee against whom the threat was made, the unit supervisor and PA. The PA will notify the Regional Administrator, Deputy Director, P&CSD, and the Assistant Director, Law Enforcement Liaison.

81050.6.1 Threats Against P&CSD or BPT Staff and Public Official Report Format

Synopsis of threat.

Parties Involved.

- Name, classification and work assignment of staff member threatened.

If threat was from parolee, name and location of the person making threat including CDC number, term status and risk score at the time of the incident.

Legal information:

- Date received by CDC.
- County of commitment.
- Commitment offense(s).
- Date paroled or received in reentry facility and from which institution.
- Parole date of inmate.
- Discharge date.
- Special condition(s).

Criminal Background

Criminal Background. Short summary of criminal background that relates to violence potential (This part should not be a general summary of the offender's prior record.).

Inmate or Parole Adjustment. Short summary of the inmate or parolee's behavior while on parole or in reentry that may relate to the threat (A detailed review of the inmate's or parolee's adjustment is not required).

Supervision category.

Circumstances

Circumstances of threat:

- Date, time and location of threat;
- Details and circumstances relating to the threat; report shall also include information in narrative section regarding what may have led to parolee or inmate's involvement in incident and whether special conditions were being met by parolee or inmate.
- Source of information regarding the threat (if in written form) or a verbatim statement of the threat (if made verbally) will be included in the report.

81050.6.2 Threats Against P&CSD or BPT Staff Procedures P&CSD Staff (Immediately)

Reports threat to unit supervisor.

Unit Supervisor (Immediately)

Attempts to identify source and context of threat.

Determines if recipient of threat views threat as serious and recipient's recommended response.

Reviews background of person making the threat for history of violence, assaultive behavior or emotional instability if source of threat is known.

(Same Day)

Notifies local law enforcement of threat if threat is determined to constitute a danger.

Notifies Deputy Director, P&CSD, of threat by channels, providing following information:

- Name, classification and work assignment of staff member threatened.
- Name and location of person making the threat.
- Date, time and location of threat.
- Actions taken by supervisor.

PA (Same Day)

Telephones information to Deputy Director.

Deputy Director

Determines if additional information is required.

Notifies Executive Officer if a BPT employee is threatened.

Unit Supervisor (Within Ten Days of Request)

Prepares and submits Threats Against Staff Report by channels, to Deputy Director.

81050.6.3 Analysis of Threat by Administrator

On a separate (detachable) page, the PA will summarize: an analysis of the situation, the result of management's investigation of threat circumstances, including the involved staff's view of the situation; and what immediate steps, if any have been taken to reduce any risk to the involved staff person(s). The PA will also indicate any additional short range steps that will be taken to reduce staff risk and, if the threat is judged to constitute a potential long-term safety issue, the long range steps that will or should be taken (e.g., permanent transfer of the staff person to another geographical area or CDC unit; imposition of a special condition that the parolee participate in POC, etc.).

The Regional Administrator will conduct an independent analysis of the situation, noting both short and long range actions taken and assessing the adequacy of the actions and other recommended actions, to be forwarded to the Deputy Director, P&CSD.

81050.7 Revision

The Deputy Director, P&CSD or designee, shall ensure that this section is current and accurate.

81050.8 References

PC § 76

ARTICLE 6 — INTERSTATE PROCEDURES

Revised March 8, 1990

81060.1 Interstate Policy

California is a member of the Interstate Compact. This compact is the legal authority that permits a parolee convicted of a crime in one state (sending state) to be supervised on parole in another state (receiving state). Acceptance of compact cases is predicated on the availability of

resources within the receiving state, including family, employment or other assurance of financial independence. Cooperative parolees shall receive the same supervision and service as California parolees.

CDC does not have the authority to place cooperative parolees in a California prison.

81060.2 Interstate Definitions**California Adult Compact Administrator**

The Regional Administrator, Region I.

California Parolee

A person convicted and sentenced to prison in California and under parole supervision in California.

California Interstate Parolee

A person convicted and sentenced to prison in California but under parole supervision in another state according to the provisions of the Interstate Compact.

Concurrent Parolee

A person convicted and sentenced to prison both in California and another state and under parole supervision on both commitments in either California or the other state.

Cooperative Parolee

A person convicted and sentenced to prison in a state other than California but under parole supervision in California according to the provisions of the Interstate Compact.

Interstate Compact

The agreement by which all 50 states, the District of Columbia, the Virgin Islands and Puerto Rico function cooperatively in the supervision of probationers and parolees. California's participation is authorized by the Penal Code.

Interstate Unit (ISU)

The Unit at Region I Headquarters that coordinates functions of the Interstate Compact.

Resident

A parolee who was an actual inhabitant of the receiving state continuously for a year or more before going to the sending state, and who was not a resident of the sending state for six continuous months immediately preceding the current commitment offense.

Sending State

The state where the parolee was convicted and which sends the parolee to another jurisdiction.

Receiving State

The state which supervises a parolee for another state.

81060.3 Interstate Areas of Responsibility

The Compact Administrator is responsible for implementing the following functions through the ISU under provisions of the Interstate Compact:

- Administrative control of California interstate parolees under the supervision of other states or in custody (state or federal) outside California [excluding Parolee-at-Large (PAL) cases].
- Informal assistance to California Parole Agents supervising the parolees of other states.
- Referral of requests for supervision of other states' parolees in California.
- Referral of other states' requests for information on one of their cases to the appropriate field unit.
- Assistance to California Parole Agents in processing reports on California parolees confined in other states.
- Processing of extradition requests.
- Transfer of California inmates to other state or federal institutions.
- Administrative control of California inmates serving sentences in other state or federal institutions.

81060.4 Distribution of Interstate Forms

All forms referred to in this chapter will be distributed according to the Distribution Chart.

81060.5 Cooperative Parolee Transfer Acceptance Policy

It is not intended that California accept all cases referred. Acceptance is based on the parolee's ability to function without becoming a burden on the local jurisdiction. Legal residents of California, or parolees with family residing in California who can locate employment may be accepted for cooperative supervision.

Parolees who are not residents and do not have family residing in California must have a compelling circumstance to be accepted for cooperative supervision.

81060.5.1 Cooperative Parolee Transfer Procedures**ISU Staff (Within Three Days of Receipt)**

Refers investigation request from other state to appropriate parole region.

Regional Screening Staff (Within Three Days of Receipt)

Refers investigation request to appropriate unit office.

Parole Agent

Reviews investigation request to determine whether it meets acceptance criteria.

Determines whether parolee is resident of California.

Investigates proposed residence and determines:

- If parolee is expected and residence is confirmed.
- If there is anything in parolee's background which precludes placement (e.g., a child molester in a residence with several children).

Investigates proposed employment program and determines:

- Any possibility of criminal activity on proposed job.
- If prospective employer is aware of parolee's criminal background.

Determines if special circumstances exist that allow acceptance of a case that does not meet criteria.

(Within 30 Days of Receipt of Case)

Completes CDC Form 1529, Reply to Investigation Request. States reporting instructions if case is accepted; states the reason for rejection if case is rejected.

Provides Investigation Request material and completed CDC Form 1529 to the unit supervisor for review and signature.

Unit Supervisor

Reviews CDC Form 1529 and investigation material and takes following actions:

- Reviews case with Parole Agent to resolve any differences of opinion.
- Signs and distributes CDC Form 1529 if case accepted.
- Signs and returns Form A to ISU if case is rejected (original plus two copies).

ISU Supervisor

Reviews CDC Form 1529 and investigation package and:

- Orders "rejected" case accepted if case meets criteria for transfer per Interstate Compact and returns accepted case materials to original unit for supervision.
- Forwards Form A (rejection) plus copies to sending state.

Parole Agent

May cancel acceptance of cooperative case if the parolee does not report within the time frame, by completing CDC Form 1534, Progress and Conduct Report. Forwards the report to the sending state with the reason for canceling acceptance.

81060.6 Cooperative Parolee Case Supervision Policy

Parolees in California under cooperative or concurrent supervision shall receive the same supervision and services accorded a California parolee.

81060.6.1 Cooperative Parolee Case Supervision Procedures**Parole Agent (When a Cooperative or Concurrent Case Reports)**

Completes CDC Form 1650, Record of Initial or Transfer Interview Form.

Completes CDC Form 1515, Notice and Conditions of Parole, including any special conditions to be imposed by sending state or unit supervisor.

Requires parolee to sign CDC Form 1515.

Completes CDC Form 1538, Opening Notice Form, specifying effective date as date cooperative or concurrent parolee reports to parole unit, or date case is accepted if parolee is already in California.

Sends CDC Form 1538 directly to the Interstate Unit.

Completes and forwards CDC Form 1534 to sending state.

Interstate Unit Staff

Secures an "I" number upon receipt of CDC Form 1538.

Returns CDC Form 1538 with assigned "I" number to unit opening the case and forwards two copies of fingerprint card for completion.

Enters cooperative case openings, closing, and transfers into OBIS.

Completes CDC Form 1538 specifying effective date as that date which the cooperative or concurrent parolee reports to parole unit or that date on which the case is accepted if parolee is already in California.

Parole Agent

Fingerprints parolee and returns one completed fingerprint card to Interstate Unit (ISU).

ISU Staff

Reviews fingerprint card to make certain all needed information is included.

Mails card to California DOJ.

Parole Agent (Each Six Months)

Supervises case in accordance with P&CSD Case Supervision and Violation Procedures.

Forwards Progress Report to sending state.

Closes case by completing CDC Form 1538A, Closing Notice whenever any of the following occurs:

- Parolee discharged by sending state.
- Parolee placed on summary parole by other state.
- Death of parolee.
- Transfer of parolee to another state.
- Parolee is at-large.
- Parolee committed to CDC.
- Parolee extradited to another state.

Advises sending state on CDC Form 1534 of cases being closed and that case material will be maintained for 120 days, then destroyed (except for cases where parolee has absconded).

81060.7 Cooperative Parolee Conditions of Parole

Cooperative parolees are subject to parole conditions of both California and sending state. When parolee signs the "Application for Compact Services" and case is accepted, it is understood under the Interstate Compact that parolee must obey parole rules of receiving state as well as rules of sending state. Cooperative parolees who violate the conditions of parole of either state, or who are a danger to others, themselves, or to property of others, shall be placed in custody under California parole hold (PC 3056/11177.1).

81060.8 Cooperative Parolee Transfer Between Units Policy

Procedures for transferring cooperative parolee cases between units are not subject to county of commitment policies. Transfer will only be made on the basis of an approved residential, employment or education program.

81060.8.1 Cooperative Parolee Transfer Between Units**Parole Agent**

Prepares transfer summary on CDC Form 1534.

Prepares a CDC Form 1506, Notice of Transfer Correction Residence Change, (only if case has been opened and has an "I" number). Mails CDC Form 1506 to ISU.

81060.8.2 Cooperative Parolee Transfer and Travel to Third State Procedures**Parole Agent**

Contacts ISU and obtains reporting instructions when a Cooperative parolee requests a transfer to another state.

Issues CDC Form 1535, Travel Permit to parolee if the sending state approves transfer.

Informs sending state of transfer on a CDC Form 1534.

Closes case on a CDC Form 1538A if case is transferred.

Issues CDC Form 1535 when Cooperative case requests travel to a third state, if approved. Reporting instructions are not required.

81060.8.3 Cooperative Parolee Move to Third State Without Permission Procedures**Parole Agent**

Informs sending state of parolee's location and requests instructions by submission of CDC Form 1534.

Advises that California will close interest.

Completes CDC Form 1538A sending if no instructions received from sending state.

Retains file for 120 days and then destroys it.

81060.8.4 Cooperative Parolee Arrest Prior to Reporting Procedures**Parole Agent**

Opens case officially on CDC Form 1538.

Places hold per PC 3056/11177.1.

Follows revocation procedures.

81060.8.5 Cooperative Parolee-At-Large Procedures**Parole Agent (Within 10 Days After Parolee is Missing)**

Prepares and submits an Activity Report to unit supervisor.

(No Later Than 30 Days After Parolee is Missing)

Prepares a CDC Form 1534, Closing Case Summary and forwards to sending state with a copy to ISU.

Notes effective date of closing as date of Closing Case Summary (Cases are re-opened and will get a different "I" number for compact purposes if parolee reappears).

Maintains unit file for 12 months.

(At 12 Months After Parolee Absconds)

Prepares and forwards a CDC Form 1534 to sending state advising that file will be destroyed within 30 days unless advised otherwise.

81060.8.6 Apprehension of Cooperative Parolees-At-Large Procedure**Parole Agent**

Contacts ISU by telephone and requests parolee's current status before placing parole hold or placing parolee in custody.

ISU Staff

Contacts sending state and requests current status of parolee and action to be taken.

Advises assigned Parole Agent of parolee's status and sending state's requested action.

Parole Agent

Carries out requested action of sending state (Reopens by submitting a new CDC Form 1538 if further action is required).

81060.9 Cooperative Parolee Revocation Hearing Policy

Revocation hearing procedures for a cooperative parolee will, with minor exceptions, be initiated and processed in the same manner as for a California parole violator except that the original of the Violation Report must be sent to the other state. Cooperative parolees shall not be transferred to a CDC prison pending revocation action. Final disposition is deferred to sending state. The procedures for California parolees (as contained in DOM 84000) apply to cooperative parolees regarding advice of rights, attorney determination, scheduling a hearing and rules for witnesses.

81060.10 Cooperative Parolee Identification Hearing Policy

PC 11177.1 requires that a cooperative parolee, prior to being returned to sending state under the Interstate Compact, shall have right to counsel and to a hearing before a magistrate. At the hearing the magistrate shall accept certified copies of parole documents showing that parolee has been ordered returned to sending state, and these documents shall constitute conclusive proof of their contents. The hearing will determine:

- Whether person is, in fact, a parolee who was allowed to reside in this or any other state pursuant to Interstate Compact (signed compact forms).
- Whether parolee's return to sending state has been ordered (warrant ordering return).
- Whether there is probable cause to believe parolee is same person whose return is sought (positive identification).

81060.10.1 Cooperative Parolee Violation and Hearing Procedures**Parole Agent**

Books cooperative parolee, files a PC 3056 Parole Hold, and notes on booking slip that parolee is subject to PC 11177.1 if a decision is made to recommend return to sending state.

Completes and submits Violation Report for a revocation hearing. (All reports and forms will include parolee identification number from both states).

Hearing Agent (Following BPT Hearing)

Distributes BPT Form 1103, Summary of Revocation Hearing Decision.

Attaches CDC Form 1534 and original of BPT Form 1103, Hearing Results, to form letter re: Return of Parole Violator and sends directly to sending state's Interstate Compact Office.

Informs sending state that taped recording of revocation hearing is available upon request from the BPT.

Parole Agent

Monitors case and determines when subject is picked up by sending state.

Completes CDC Form 1534 advising other state that subject was picked up by their agents and that California is closing the interest.

Completes CDC Form 1538A and places file materials in inactive file to be disposed of in same manner as a California case file.

81060.11 Cooperative Parolee Unconditional Waiver Policy

When a cooperative parolee under California supervision signs an unconditional waiver of revocation hearing, the hearing agent will proceed as if the person was a California parolee facing a revocation hearing and had signed an unconditional waiver.

81060.11.1 Cooperative Parolee Unconditional Waiver Procedures**Hearing Agent**

Forwards unconditional waiver and revocation package to Parole Agent.

Parole Agent

Forwards original BPT Form 1103, Waiver, Violation Report and attachments, and Identity Hearing Form letter to sending state. CDC Form 1534 will be used as a cover letter.

81060.12 California Interstate Parolee Transfer Investigation Policy

A request by a California parolee to move to another state will be evaluated to determine compliance with Interstate Compact requirements before submission of a transfer investigation request. The parolee shall not be allowed to proceed to the receiving state pending investigation unless prior approval is obtained from the ISU. Receiving state shall not be contacted directly by Parole Agent. Any necessary telephone contact with receiving state shall be made by ISU. Parolees with special condition of parole shall not be allowed to transfer to another state unless receiving state indicates ability to enforce special condition or special condition is removed.

81060.12.1 California Interstate Parolee Transfer Investigation Procedures**Parole Agent**

Completes CDC Form 1531, Parole and Probation Form 1, Parole Investigation Request Form.

Completes and has parolee sign CDC Form 1533, Parole and Probation Form 3, Agreement to Return Form and Parole and Probation Form 5, Application for Compact Services located on opposite side of CDC Form 1533.

Sends original copy (if available) and attachments to Regional Records (one copy will be retained in field file):

- CDC Form 1521, Parole and Probation Form 1.
- CDC Form 1533, Parole and Probation Form 3.
- CDC Form 1553, Parole and Probation Form 5.
- Signed CDC Form 1515, Notice and Conditions of Parole.
- POC reports if available.
- Contacts ISU to request approval for travel if it is necessary for parolee to proceed to receiving state prior to investigation of program.

Regional Records Staff

Prepares four packages of following Staff documents:

- CDC Form 1531, Parole and Probation Form 1.
- CDC Form 1533, Parole and Probation Form 3.
- CDC Form 1553, Parole and Probation Form 5.
- CDC Form 1515, Parole and Probation Form 1.
- Fingerprint Card.
- Photo.
- Cumulative Case Summary.
- Other information or reports specified by Parole Agent.

Forwards three packages to Interstate Unit.

Files one copy in C-File.

ISU Staff

Forwards completed investigation packages to receiving state.

Forwards Investigation Request response to field unit.

Determines if receiving state can comply with special conditions of parole.

Parole Agent

Advises parolee if request is rejected.

Proceeds as follows if case is accepted:

- Special conditions will be removed or transfer will be denied if receiving state cannot provide compliance with special conditions of parole.
- Notifies parolee of transfer decision and gives specific reporting instructions.
- Completes and distributes CDC Form 1532, Parole and Probation Form 2, Report of Sending State.
- Completes Summary of Activities.
- Completes CDC Form 1506, Notice of Transfer/Correction/Residence Change Form and transfers case to ISU.

Regional Records Staff (When CDC Form 1506 is Received)

Forwards C-File to Region I Records Office.

81060.12.2 California Interstate Parolee Return to California Procedures

ISU Parole Agent

Requests supervising state: to advise Agent parolee returning to county of commitment of reporting instruction; to close interest; and to send case materials to ISU.

Transfers case to county of commitment upon verification of subject's return.

Sends Transfer Investigation Request to appropriate parole unit if parolee is requesting return to county other than county of commitment.

Parole Agent

Investigates Transfer Investigation Request following transfer procedures found in case supervision chapter.

81060.13 California Interstate Parolee-At-Large Policy

A California Interstate parolee (a California parolee supervised in another state) absconds when the parolee becomes unavailable for supervision. A suspension action and warrant are necessary to arrest and detain any California Interstate Parolee who is not in California or the authorized receiving state. California Interstate absconders will be reported to the BPT.

81060.13.1 California Interstate Parolee-At-Large Procedures

ISU Parole Agent

Determines date of suspension (day parolee was discovered to be missing).

Prepares and submits PAL report to BPT.

BPT Staff

Takes appropriate action and issues a warrant.

81060.13.2 Apprehension of California Interstate Parolee-At-Large Procedures

ISU Parole Agent (Immediately)

Contacts regional records staff and requests cancellation of want after verifying parolee's identity.

Prepares and submits Activity Report to ISU supervisor with recommendation to submit BPT report upon request from other state if California parolee is located or arrested in compact state.

- Reinstate on parole effective _____ (date) (reinstatement period starts date of arrest or date parolee reports to a Parole Agent).
- Continue on parole.
- Return to prison for further proceedings.

Prepares report to BPT if California parolee located outside California or compact state.

81060.14 California Interstate Parolee Violation Policy

California interstate parolees arrested in the supervising state are entitled to a prerevocation hearing with further proceedings when returned to California.

81060.14.1 California Interstate Parolee Violation Procedures

ISU Parole Agent

Requests cooperation of other state in providing prerevocation hearing to determine probable cause.

Presents prerevocation documents of other state to the BPT.

BPT

Makes determination and disposition after reviewing records and recommendations of hearing official of other state.

81060.15 California Parolee Arrested Outside California Policy

A parolee is an absconder anytime the parolee leaves California without permission or does not return to California on date specified on a travel permit or is arrested outside California. All arrests and parole violations committed by California parolees outside California shall be reported to the BPT. A California hold cannot be issued to arrest or detain a California parolee who is outside California until the BPT issues a warrant, suspends parole, and orders return to prison. A California parolee who is suspended (PAL) and is in custody outside California (with no criminal prosecution pending in the other jurisdiction) must be returned to California if the recommendation is to refer to the BPT for revocation proceedings. A parolee is not entitled to a revocation hearing in another jurisdiction. Parolees arrested outside California who have charges pending in the arresting state shall be provided with an opportunity to waive a personal appearance at a revocation hearing.

81060.15.1 California Parolee Arrested Outside California Procedures

Parole Agent (Within One Day Following Arrest)

Secures an emergency BPT action ordering parole suspended, parolee's return to prison for further proceedings and issue warrant as detainer on non-suspended parolees.

Secures an emergency action ordering parolee's return to prison for further proceedings and upgrade warrant to NCIC (Code 2) on suspended parolees in WPS only (Code 1).

Notifies ISU of California parolee's arrest in another state and faxes copy of emergency action ordering return of parolee to ISU for extradition process.

Notifies ISU of California parolee's arrest in another state on those parolees in suspended status with an active NCIC warrant.

(Within 72 Hours of Notification)

Secures all available information regarding arrest and parolee activities from arresting agency and request mailing address for parolee.

Cancel want, after verifying parolee's identity.

(Within Six Working Days of Receipt of Notice of Parolee's Arrest)

Prepares CDC Form 1521 A-D Violation Report.

Forwards to the parolee a copy of CDC Form 1521 A-D, Violation Report and original and two copies of BPT Form 1102, Absconders Arrested Out of State: Waiver of Extradition and Waiver of Revocation Hearing by certified mail.

- A stamped, self-addressed envelope to be returned to appropriate regional hearing coordinator is enclosed.
- Retains certified mail receipt on unit copy of BPT Form 1102.

Sends original Violation Report, any Supplemental Reports and all other relevant documents to regional records for inclusion in parolee's C-File.

Monitors California parolee serving sentence or undergoing criminal prosecution in other states.

Regional Hearing Coordinator (Upon Receipt of Signed BPT 1102)

Enters case into REVTRAC.

Forwards signed original of BPT 1102 to regional records for BPT review.

BPT Hearing Panel

Reviews and takes appropriate action.

Conduct in Absentia Hearing

Parolee is reinstated on parole as of the date of the in absentia hearing.

Region Records Staff (Within One Working Day of Receipt of BPT 1104)

Prepares and distributes copies of the summary of revocation decision: Hearing waived/screening offer (BPT 1104), including one copy FAXed to Interstate Unit: Attention parole absconder agent.

Parole Agent

Forwards copy of BPT 1104 to parolee with reporting instructions.

Interstate Unit Staff

Removes detainer on parolee revocation release date.

ISU Parole Agent

Arranges extradition proceedings for California parolee ordered returned by the BPT.

Makes appropriate transportation arrangements upon being advised of a parolee's availability for return from outside of California.

Notifies Parole Agent when parolee has been scheduled for return from outside California to a CDC institution.

Submits BPT Form 1135, Miscellaneous Decision Form to BPT on those parolees who have waived their revocation hearing and subsequently refuse to waive extradition in court.

- Recommendation will be to rescind BPT action revoking parole, and return to prison for further proceedings.
- Forwards original BPT 1135 to Regional Records and copy of BPT 1135 to Parole Agent.

Note: Existing procedures for parolees arrested out-of-state will be followed on those parolees who do not have charges pending in the arresting state or who refuse to waive their revocation hearing.

Regional Records Staff

Forwards C-File to receiving institution upon notice from institution that parolee has been returned to California.

Institution

Schedules revocation hearing when necessary.

81060.15.2 Reinstating Suspended California Parolee Arrested Outside California Procedures

Revised November 28, 1990

Parole Agent

Contacts ISU to request permission for subject to remain in receiving state pending investigation for supervision.

Unit Supervisor (When Transfer Investigation is Authorized)

Requests emergency action by BPT to recall warrant or detainer pending Supplemental Violation Report.

Parole Agent (Upon Receipt of Acceptance by Other State)

Submits Supplemental Violation Report recommending reinstatement on parole effective (date of acceptance) and continue parole.

Transfers case to ISU if accepted by receiving state and approved by BPT.

Orders parolee returned to California if rejected by receiving state.

Requests warrant be reissued if parolee fails to return.

81060.16 California Parolee Revocation Period Policy

If a parolee is extradited to California for revocation proceedings, the revocation period begins when the parolee detained by BPT warrant is available for return to California. A parolee is available for return to California when any local prosecution or sentence is completed, and one of the following occurs:

- Extradition is waived.
- Extradition is ordered by court.
- If the parolee waives extradition to California but is not available for return due to pending local prosecution or sentence, the parolee is eligible for a waiver of personal appearance. Contact ISU for specific instructions.

81060.17 Concurrent Parolee Supervised in California Violation Policy

The BPT may revoke the California parole of any concurrent parolee supervised in California.

81060.17.1 Return of Concurrent Parolee Supervised in California to CDC Institution Procedures**Parole Agent (When Parolee is Returned)**

Completes CDC Form 1538A effective date parolee was received at CDC institution.

Completes CDC Form 1538 effective date parolee is released from CDC institution.

Sends CDC Form 1538 to ISU.

ISU Staff

Assigns new "I" number to parolee.

Returns copy of CDC Form 1538 with new "I" number to Parole Agent.

81060.18 Appeal Policy

A California parolee, whether supervised in California or in a receiving state, may appeal decisions, actions or policies of the CDC or BPT that the parolee can demonstrate adversely affect the parolee. A cooperative parolee may also appeal decisions, actions or policies of CDC staff that the parolee can demonstrate adversely affect the parolee's welfare.

81060.18.1 Appeal Procedures**Parole Agent (During Initial Interview)**

Provides copy of CDC Form 1570, Guidelines for Parole, to interstate parolee.

81060.19 Special Investigation Policy

Special Investigation Requests are from another state seeking information about a parolee who has been arrested in California and may be in a local custody facility. Other types of information may also be requested by other states.

81060.20 Special Investigation Procedures**ISU Staff**

Forwards Special Investigation Request to appropriate region.

Regional Screener

Forwards Special Investigation Request to appropriate unit.

Unit Supervisor

Assigns Special Investigation to Parole Agent.

Parole Agent (Within 30 Days of Receipt of Investigation)

Secures information requested by other state.

Prepares report for requesting state on CDC Form 1529.

Forwards original of Investigation Report and any supporting documents to requesting state and copy to ISU.

81060.21 Interstate Revocation Policy

In reviewing any CDC Form 1521 regarding a California parolee or California interstate parolee located outside California, the BPT may suspend parole, issue a warrant for parolee's arrest and order revocation proceedings. Procedures for revocation hearings for these parolees are contained in BPT Rules. California interstate parolees not in state of compact agreement are not entitled to revocation proceedings until returned to California.

81060.22 Revisions

The Deputy Director, Parole and Community Services shall ensure the contents of this section are accurate and current.

81060.23 References

PC §§ 3059, 11175, 11176, 11177, 11177.1, 11184, 11192, 11193, 11194 and 11195.

CCR (15) (2) §§ 2731, 2732 and 2733.

ARTICLE 7 — CASEWORK SERVICES

Effective August 28, 1989

81070.1 Policy

Cash assistance funds are loans to parolees or dischargees intended to be used when other funds or resources are not available. Cash assistance loans are not part of the bank draft system. A determination of how much money is needed is a matter of judgment, and circumstances will generally differ from case to case. Care shall be taken in deciding whether to make a loan. Repayment of loans is expected when the person's employment and personal circumstances permit. It is the agent's responsibility to periodically review cash assistance records and request parolee to make repayment where possible. A clerical staff (not the fund custodian) shall be designated as the cash assistance clerk.

81070.1.1 Cash Assistance Procedures**Cash Assistance Clerk**

Issues Cash Assistance Loan Receipt Book and Cash Assistance Repayment Receipt Book to Parole Agent.

Parole Agent

Reviews request for cash assistance loan to determine the need for a loan.

Obtains unit supervisor's approval for any loan in excess of \$50.

Obtains unit supervisor's prior approval if loans to an individual parolee within any 30-day period will exceed \$150.

Completes CDC Form 1509.

Releases loan funds to parolee and obtains receipt.

Distributes completed copies of CDC Form 1509, Loan Receipt to:

- Original attached to Parole Agent travel expense claim;
- Yellow and pink copies are provided to the cash assistance clerk.

- Green copy remains in the receipt book.

Delivers all monies collected from parolees or dischargees to cash assistance clerk.

Unit Supervisor

Verifies that the Cash by Agent portion of the Loan Receipt agrees with the Parole Agent's request for reimbursement on travel expense claim for that month.

81070.2 Bank Draft Usage Policy

Bank drafts are to be used for casework services. Bank drafts shall state the specific purpose for which the loan is intended; e.g., housing, food, clothing, etc. The intent of the Bank Draft System is to improve vendor-user-state agency relations by allowing parolees and dischargees to pay immediately for over-the-counter purchases. The bank draft can be made payable to:

- Vendor.
- Parolee with (CDC number).
- Parolee and vendor (jointly).

Approval for use of the Bank Draft System shall be obtained from Financial Management and Support Services staff prior to establishing such a system in a parole unit. Bank drafts are only to be used in situations where cash purchases would normally be made. Under no circumstances will bank drafts be mailed to vendors or used for employee expenses or for purchase of supplies for state offices. Bank drafts shall not exceed \$500. In accordance with SAM 8124, multiple bank drafts to the same vendor, to avoid the \$500.00 limit or use of bank drafts to void using contracts are not proper uses of the bank drafts. Bank drafts shall not be used for release (gate) money under PC 2713.1. It is the responsibility of the unit supervisors to assure that agents make proper use of the bank drafts.

All loans and repayments must be posted to appropriate parolee account sheets, including loans made to reentry inmates that were not repaid.

Instructions contained herein meet state fiscal requirements and conform to generally accepted accounting principles. Each step is intended to safeguard state funds and to protect employees should any transaction concerning issuance of a bank draft for cash assistance be questioned. However, employees involved are still responsible for performing their respective duties and will be held responsible for all monies, bank drafts, receipts, and bank draft stock entrusted to their possession.

81070.2.1 Bank Draft Usage Procedures

Unit Supervisor

Submits memorandum (by channels) specifying need for use of bank drafts to Financial Management and Support Services Branch to obtain approval to implement Bank Draft System.

Contacts local bank using CDC Form 910, Form Letter, if approval to implement Bank Draft System is obtained.

Designates a clerical staff person, fund custodian and two additional employees who have authorization to sign bank drafts.

Ensures each employee designated above signs CDC Form 910A, Individual Issuance and Cancellation of Authorization to Sign Bank Drafts, on line "Restricted Signature Specimen".

Cancels authorization when a designated person's status changes.

Forwards CDC Form 910A, Authorization to Sign Bank Drafts, in duplicate to Headquarters, Accounting when authorizing or canceling Authorization to Sign Bank Draft.

Designates clerical staff person (other than fund custodian) as collection clerk (A Parole Agent may be assigned collection responsibilities).

Ensures that in absence of fund custodian bank drafts are signed by two employees who can authorize cash assistance expenditures (The number of employees authorized to issue or countersign bank drafts will not exceed three in any field parole office).

Ensures that a person other than fund custodian is thoroughly familiar with forms, records and procedures so that a fully trained replacement is always available.

Completes listing of CDC Form 1197, Authorized Bank Draft Personnel, and maintains in unit.

81070.3 Bank Draft Stock Supply Policy

Cash receipts, including checks, warrants and currency should be kept in a safe. The field unit supervisor will ensure that the unit fund custodian has access to a safe in which the supply of CDC Form 898s, Bank Draft Purchase Vouchers, are stored. Supply of bank drafts on hand will not exceed three months. Bank Draft Purchase Vouchers stock shall not be transferred between field offices without prior approval from Headquarters, Accounting staff.

The Fund Custodian shall maintain a Bank Draft Stock Memorandum Register that identifies the person receiving the draft, the date of receipt, the Fund Custodian's name, and the press-number(s) of bank draft(s) issued. A new register will be established each month and the verified receipts will be kept until an audit is performed.

A back-up fund custodian shall be identified and trained in Fund Custodian duties. The back-up Fund Custodian shall be provided with authorization for bank draft signature and access to the unit safe.

Safe combinations shall be changed when an employee knowing the combination leaves.

Records shall be maintained documenting dates when safe combinations have been changed and the names of persons knowing the present combination.

81070.3.1 Bank Draft Stock Supply Procedures

Fund Custodian

Requests estimated three month supply of (initial start) CDC Form 898s from Headquarters, Accounting.

(As Needed)

Orders additional CDC Form 898s.

Headquarters Accounting Staff

Issues transfer receipts showing bank draft numbers of CDC Form 910Bs, Stock Transferred Forms and forwards to field office by certified mail.

Mails CDC Forms 910Bs to field office separately from CDC Form 898s.

Person Receiving Certified Package (Upon Receipt)

Opens sealed package and signs CDC Form 910B, Accountability after verifying and Fund Custodian accuracy of contents.

Fund Custodian

Notifies Headquarters, Accounting staff if information on CDC Form 910B does not agree with contents of package containing CDC Form 898s.

Retains CDC Form 910B until audit is conducted by Headquarters, Internal Audit staff.

81070.4 Bank Draft Purchase Voucher Safekeeping Policy

All CDC Form 898 stock shall be kept in a safe when not being used or processed. The combination of the safe will be known by at least two but not more than three field office employees. The safe combination shall be changed within five days after an employee having knowledge of the combination transfers or combination becomes known to more than three employees.

81070.4.1 Bank Draft Purchase Voucher Safekeeping Procedures

Unit Supervisor

Prepares memo providing names of persons knowing present safe combination and date of last combination change and forwards to Headquarters, Accounting.

Updates memo as changes occur and forwards to Headquarters, Accounting.

81070.5 Bank Draft Purchase Voucher Issuing and Recording Policy

CDC Form 898s shall be completed by filling in all required information. Bank draft vouchers shall identify the purpose, the unit office, payee's name, and department number. It is essential that bank drafts be issued in ascending numerical order. Bank draft purchase vouchers shall be typed only on non-correctable typewriter ribbon (SAM 8041) if a typewriter is used. Corrections shall not be made. Bank drafts with errors shall be voided, the signature blocks removed and then returned to CDC accounting. No alterations are allowed on the actual bank draft. If an error is made, "VOID" will be marked across the face of bank draft and signature section will be cut off.

The parolee's CDC identification number should be written on the face of the bank draft in addition to the Bank Draft Purchase Voucher. Bank drafts shall be signed by an employee authorized to sign bank drafts and countersigned by the Fund Custodian.

All receipts shall have press numbers. An inventory control must be kept for all press-numbered receipts.

The loan receipts will contain an authorizing signature, the parolee's signature, and CDC number.

The person authorizing a loan to a parolee will sign the authorization. Each unit office will establish a method for parolees to sign for checks and verify that a check has been delivered to the parolee.

81070.5.1 Bank Draft Purchase Voucher Issuing and Recording Procedures*Revised March 8, 1990***Parole Agent**

Prepares CDC Form 1509, Loan Receipt.

Unit Supervisor or Designee

Signs CDC Form 1509 if approving loan.

Parolee or Dischargee

Signs CDC Form 1509 before receiving loan.

Parole Agent

Gives completed CDC Form 1509 to fund custodian if a CDC Form 898 is to be issued.

Fund Custodian

Obtains CDC Form 898, Bank Draft Purchase Voucher and prepares it from written CDC Form 1509.

Establishes CDC Form 1618, Parolee Account Sheet at the time first loan is made to parolee or dischargee. Appropriate entries will be made as repayments or additional loans occur.

Enters CDC Form 898 number on CDC Form 1509.

The Fund Custodian shall compare and reconcile the previous month's bank draft activities. Reconciliation shall include comparison of the most recent invoice for Bank Draft Stock, the previous month's loan receipts, and the CDC Form 910G, Bank Draft Stock Daily and Monthly Reconciliation Form by the fifth of each month.

Checks records and makes necessary adjustments to bring forms into agreement if the two amounts do not agree.

Enters monthly grand total for all loan receipts, cash, and bank drafts in CDC Form 1619, Cash Assistance Expenditures Record.

Detaches yellow copy of CDC Form 898 and files for forwarding to Headquarters, Accounting.

Gives remainder of completed CDC Form 898s and CDC Form 1509s to employee authorized to sign bank drafts.

Employee Authorized to Sign Bank Draft

Compares name, amount and bank draft number with CDC Form 1509. Signs and returns CDC Form 898 and returns it with Loan Receipt to fund custodian.

Fund Custodian

Countersigns bank drafts and makes distribution to payees or Parole Agents after they sign in space provided on CDC Form 1509s.

Weekly

Forwards white and yellow copies of Loan Receipts (85-92665) and CDC Form 898s with corresponding receipts to Headquarters, Accounting, using CDC Form 910E.

Parole Agent

Gives blue copy of CDC Form 898 to recipient of assistance.

Fund Custodian

Files green copy of CDC Form 898 and CDC Form 1509 together and retains copies at field office until audited.

81070.6 Bank Draft Purchase Voucher Verification Policy

Bank draft stock shall be verified on a monthly basis to assure that no unauthorized CDC Form 898s have been used. A reconciliation shall also be made when there is a change in employees responsible for bank draft stock. The employee verifying CDC Form 898 stock cannot be the same person preparing, issuing and responsible for safekeeping of the bank draft stock. Whenever a CDC Form 898 is stolen or missing, Headquarters, Accounting shall be notified.

81070.6.1 Bank Draft Purchase Voucher Verification Procedures**Fund Custodian**

Signs CDC Form 910C, Bank Draft Stock Memorandum Register.

Person Receiving Bank Draft

Signs CDC Form 910C.

Fund Custodian (Monthly)

Establishes new register and retains verified receipts until an audit is performed by Internal Audit Unit.

Unit Supervisor

Ensures reconciliation is made when there is a change in employee(s) responsible for bank draft stock using CDC Form 910D, Change of Responsibility for Bank Draft Stock Receipt.

Unit Supervisor (Immediately)

Telephones Headquarters, Accounting staff whenever a CDC Form 898 is stolen or missing, giving description of bank draft and circumstances of disappearance.

(Within One Day)

Confirms missing or stolen voucher in a memorandum to Headquarters, Accounting.

81070.7 Repayment of Cash Assistance by Parolee or Dischargee Policy

A Loan Repayment Receipt shall be made for every repayment made by a parolee or dischargee. The designated collections clerk shall receive repayment from parolees or dischargees and Parole Agents and deposit such collections in accordance with established procedures. If a repayment receipt is spoiled, all copies will be marked "VOID". An inventory shall be maintained of the supply of Loan Repayment Receipt Books. Headquarters, Accounting staff shall be notified if a partially used or unused book is lost or stolen.

81070.7.1 Repayment of Cash Assistance by Parolee or Dischargee Procedures**Employee Receiving Money**

Completes CDC Form 1510, Loan Repayment Receipt and distributes copies:

- Green to parolee.
- Blue to collection clerk. (Clerk initials agent's bank copy to indicate repayment received.)
- Pink remains in agent's receipt book.

Collection Clerk

Posts individual's repayment to CDC Form 1618, Parolee Account Sheets, and places receipt in "batch" envelope for the week.

(End of Week)

Writes total amount received on outside of "batch" envelope and files until end of month.

(End of Month)

Enters total amount collected during month as one posting to CDC Form 1619, Cash Assistance Expenditure Record.

Files repayment batches for subsequent audit by Internal Audit Unit.

Maintains inventory of Loan Repayment Receipt Books on hand in field parole office.

Posts inventory as Loan Receipt Books are issued to and returned from Parole Agents.

Parole Agent

Returns Loan Receipt Book to collection clerk when last receipt is used.

Unit Supervisor (Immediately)

Telephones Headquarters, Accounting staff if a partially used or unused book is stolen or lost, giving description of book and circumstances relating to disappearance.

(Within One Day)

Confirms above information in memorandum to Headquarters, Accounting staff.

81070.8 Deposit of Repayment Policy*Revised March 8, 1990*

All loan repayments and other deposits shall be deposited when the individual or cumulative amount equals \$500.00 or within seven days whichever comes first. A report of deposit shall be prepared for each deposit made.

81070.8.1 Deposit of Repayment Procedures*Revised March 8, 1990***Designated Employee**

Prepares typewritten STD Form 441, or STD Form 442, and CDC Form 910F, Report of Deposit providing following information:

- Starting each July 1, number each deposit in sequence beginning with #1.
- Indicate name, branch and location of bank.
- "Agency" is always "Department of Corrections/P&CSD."
- "Location" is name of unit office.
- "Account No." is always "057" when depositing cash assistance repayments.
- Enter amount for "currency," "coins" and "checks," and enter quantity of "checks" being deposited in asterisked box on the Report of Deposit.

- Employee making deposit shall sign Report of Deposit. Employee's name and date of deposit shall be typed.
- Space in center of form is for use of bank teller in acknowledging receipt of deposit.

Unit Supervisor

Dates and initials green copy of Report of Deposit and verifies deposit was made.

Distributes STD Form 441, CDC Form 910F and STD Form 442 after making deposit at bank, as follows:

- Bank teller will keep original (white).
- Second and third copies (pink and canary) are to be immediately forwarded to that state agency or office whose name is printed on right hand margin of form.
- Fourth copy (goldenrod) is for Headquarters, Accounting, Attention: Accounting Officer.
- Fifth copy (green) is stapled to blue file copy of "Repayment Receipt" covered in specific deposit.

81070.9 Record Retention and Disposition of Parolee Account Sheet Policy

The cash assistance receipt book, and vouchers shall be retained by field units for audit by Internal Audit Unit for at least two years. After two years, destroy after audit or four years whichever comes first. When a parolee is transferred to another parole unit, the Parolee Account Sheet shall be forwarded to receiving unit.

The following records shall be retained by the field units for audit by the Internal Audit Unit:

- 85-92665, Combined Loan Receipt/Request for Bank Draft.
- CDC Form 898 (10/81), Bank Draft Purchase Vouchers.
- CDC Form 910-A, Issuance/Cancellation of Authorization.
- CDC Form 910-B, Mailing of Bank Draft Purchase Voucher Stock Report.
- CDC Form 910-C, Bank Draft Stock Memorandum Register.
- CDC Form 910-D, Change of Responsibility for Bank Draft Stock Receipt.
- CDC Form 910-E, Bank Draft Voucher/Receipts Report.
- CDC Form 1510, Loan Repayment Receipt.
- CDC Form 1618, Parolee Account Sheet.
- CDC Form 1619, Cash Assistance Expenditure Record.
- CDC Form 1620, Unit Inventory of Repayment Receipts.
- STD Form 441/442, Record of Deposit.

81070.10 Contracts for Correctional Services for Parolees Policy

Each region is allocated funds to contract with private and public groups or agencies for services for parolees.

Contracts may be developed for:

- Private halfway house services.
- Training and educational services to pay for tuition and materials at various schools.
- Employment placement services to purchase services from private employment agencies for placement of cases which are not amenable to efforts of public placement agencies.
- Specialized medical or psychiatric treatment services.
- Contracts for medical or psychiatric services shall be cleared with the Assistant Deputy Director, P&CSD.

Parolees placed in privately operated reentry facilities will have assistance received posted to their parolee account sheets as cash assistance loans; however, it is not necessary to prepare "Loan Receipts" for such assistance. Arrangements with privately operated reentry facilities, whether by formal contract or an "informal direct billing", will provide that the monthly invoice from the reentry facility will be accompanied by a "Register of Participation" indicating those persons referred to the reentry facility by the P&CSD during the month. Occasionally a special type contract will be arranged between P&CSD and a privately operated facility. Such arrangements may require departure from the foregoing policies. In these cases, the field office shall contact Headquarters, Accounting for guidance.

81070.11 POC Policy

The major purposes of the POC are to provide:

- Outpatient treatment and supervision to mentally ill parolees and members of their families.
- Consultation and evaluation of special cases for Parole Agents, BPT and NAEA

POC staff shall provide psychiatric diagnosis, evaluation and treatment for all parolees referred by parole staff. Some treatment services may be provided through contractual or other agreements with county mental health programs or other agencies.

Parolees with the following mental problems should be referred to POC:

- Delusions, hallucinations, bizarre behavior, persecutory feelings, or disjointed or incoherent speech.
- An apparent lessening of control over behavior.
- Suicidal tendencies or attempts.
- Extreme anxiety, tension or depression arising out of a situation similar to one which led to past problems.
- Excessive anxiety, tension, alcoholism, paranoia or belligerence on part of a parolee.

If psychiatric treatment is mandated by a special condition of parole and treatment will be provided by another agency, written approval from a POC psychiatrist is required. The Parole Agent maintains responsibility for the case management for cases provided treatment by an outside agency.

The Parole Agent shall maintain regular contact with parolee's therapist. The therapist will contact the Parole Agent to advise of any serious deterioration.

81070.11.1 POC Procedures

Parole Agent and Unit Supervisor

Conduct case review to determine course of action if parolee exhibits evidence of mental problems.

Submit CDC Form 1548, Parole Outpatient Referral, Cumulative Case Summary and photo if decision is to refer for POC services.

POC Staff (Within Ten Days of Evaluation)

Forwards completed Initial Psychiatric Evaluation report, including patient evaluation, diagnosis and recommendation to Parole Agent.

(When Evaluation Completed)

Telephones Parole Agent to provide information from emergency psychiatric evaluation, addressing concerns that prompted referral.

Submits written evaluation report.

81070.12 Warning Potential Victim of Threat by Parolee Policy

The POC psychotherapist shall immediately contact and warn a potential victim if a parolee indicates an intent to commit bodily harm to an identifiable individual.

81070.12.1 Warning Potential Victims Procedures

POC Therapist (Immediately Upon Termination of Interview)

Telephone unit supervisor regarding threat and potential victim.

Attempts to contact potential victim by telephone to advise of the threat.

Documents warning or efforts to warn.

Forwards copy to unit supervisor, and copy for inclusion in parolee's psychiatric file by the chief psychiatrist.

Unit supervisor (Immediately)

Ensures that appropriate steps are taken to warn potential victim. Takes other appropriate actions (e.g., arrest of parolee, notification of local law enforcement of threat and potential victim, submission of an Activity Report and Violation Report, etc.).

Notifies PA, and the Deputy Director, P&CSD, of the incident.

POC Therapist

Consults with the chief psychiatrist if therapist becomes aware of violent propensities of a parolee towards an identifiable potential victim without an actual threat of violence having been made against that individual.

Resolves any doubts about need to notify potential victims and parole staff in favor of notification.

Documents both consultation and decision to notify potential victims and parole staff of parolee's violent propensities towards an individual and includes documentation in parolee's file.

81070.13 Post Discharge Service Policy

When continued treatment and services are indicated after discharge, the Parole Agent and therapist shall assist the parolee in obtaining these from an appropriate

community mental health agency. If needed services are unobtainable through community agencies, the parolee may continue with POC services.

81070.13.1 Post Discharge Service Procedures

POC Staff

Refers parolee's case to local mental health agencies.

Parole Agent (At Discharge)

Advises parolee of eligibility for continued POC services.

Continuation in POC treatment is dependent on sufficient availability of POC staff and at discretion of POC therapist.

Requires an ex-parolee electing to continue POC participation to sign a statement indicating that continued POC participation is voluntary.

POC staff will retain signed statement for three years after treatment is terminated.

81070.14 Revisions

The Deputy Director, P&CSD shall ensure that this section is current and accurate.

81070.15 References

Not Applicable.

ARTICLE 8 — DISCHARGE AND PARDON

Revised March 8, 1990

81080.1 Policy

Revised July 23, 2002

A parolee may be recommended for discharge at any time when case factors or other considerations support early discharge. The factors to be considered are:

- First term with no prior convictions.
- Legally self-supporting or self-sufficient.
- Currently drug free.
- Stable residence.
- Effort to satisfy restitution obligations.

A parolee should be recommended for early discharge if:

- Parolee is under other supervision [e.g., probation, federal probation, other prison system, Department of Mental Health (DMH) facility, or long-term drug treatment program]; or
- Verifiable changes in physical abilities or health, which are rendered no longer a danger to society; or
- Special circumstances (e.g., parolee's life in danger, job offer in another country).

81080.1.1 Annual Discharge Review Policy

Revised July 23, 2002

Discharge review periods are specified in the Penal Code (PC).

Discharge review periods and maximum parole jurisdiction, depending on date and type of commitment offense, are:

PAROLE AND REVOCATION PERIODS

Date of Commitment Offense	Type of Offense	Discharge Review	Max Period of Parole	Max Revocation Period *	Max Period of Parole Jurisdiction
Commitment Offense on or before 12-31-78	Life	None	3 years	6 months	4 years
Commitment Offense on or before 12-31-78	Non-Life	None	1 year	6 months	18 months
Commitment Offense on or after 1-1-79 but prior to 12-31-82	Life	During 37 th month of cont. parole	5 years	1 year	7 years
Commitment Offense on or after 1-1-79	Non-Life	During 13 th month of cont. parole	3 years	1 year	4 years
Commitment Offense on or after 1-1-83	Life (Murder 1 st Degree	Within 30 days of completion of 7 years cont. parole	Life	1 year	Life
Commitment Offense on or after 1-1-83	Life (Murder 2 nd Degree	Within 30 days of completion of 5 years cont. parole	Life	1 year	Life
Commitment Offense on or after 9-26-88	Violent Felony PC 667.5	Within 30 days of completion of 2 years cont. parole	3 yrs. or 5 yrs.	1 year	4 years or Life based on commitment offense

* Multiple revocation terms may be imposed

Continuous Parole

“Continuous parole” means the Board of Parole Hearings (BPH) has not interrupted the parole period by suspending or revoking a parolee who has been found guilty of an offense. Suspended Parolee-at-Large (PAL) time does not count toward maximum time limits unless the BPH makes a good cause finding to exclude at-large time from the parole period.

The assigned parole agent shall review each case within the specified review period, and recommend either to retain the case on parole or allow the case to discharge by operation of law.

The following factors shall be considered in conducting discharge review:

- Commitment offense.
- Parole adjustment.
- Recent drug use.
- Restitution obligations.
- Stable residence and employment.
- Prior criminal history.

Report

A Discharge Review Report shall be prepared and submitted to the unit supervisor at least 20 days prior to completion of one, two, three, five, or seven years of continuous parole, based on commitment category, and at least 20 days prior to completion of each year of continuous parole thereafter.

Parolees committed to prison for a "violent felony," under PC 667.5(c), shall be referred to the BPH for discharge review.

"Violent felony" means any of the following:

- Murder or voluntary manslaughter.
- Mayhem.
- Rape as defined in PC 261 Subdivision 2.
- Sodomy by force, violence, duress, menace, or fear of immediate and unlawful bodily injury on the victim or another person.
- Oral copulation by force, violence, duress, menace, or fear of immediate and unlawful bodily injury on the victim or another person.
- Lewd acts on a child under 14 as defined in PC 288.
- Any felony punishable by death or imprisonment in state prison for life.

- Any other felony in which the defendant inflicts great bodily injury on any person other than an accomplice, which has been charged and proved as provided for in PC 12022.7 or after July 1, 1977, or as specified prior to July 1, 1977, in PC 213, 264, and 261 or any felony in which the defendant uses a firearm in which use has been charged and proved as provided in PC 12022.5.
- Any robbery perpetrated in an inhabited dwelling house or trailer coach, as defined in the Vehicle Code, or in the inhabited portion of any other building, wherein it is charged and proved that the defendant personally used a deadly or dangerous weapon, as provided in subdivision (b) of PC 12022, in the commission of that robbery.
- Arson in violation of PC 451(a).

Parolees committed to prison for the following felonies, unless specifically included under PC 667.5(c), shall be referred to the Parole Administrator for final discharge decision:

- Robbery.
- Child Molestation.
- Assault with a deadly weapon.
- Rape.
- Large scale narcotics sales.
- Kidnapping.
- Attempts to commit a violent felony listed in PC 667.5(c).

Parolees committed to prison for all felonies not included under the last two bullets above shall be referred to the unit supervisor for final discharge decision.

By law, a parolee, unless committed to prison for a "violent felony" under

PC 667.5(c), is discharged if the BPH does not order the parolee retained on parole by the 30th day after completion of one, two, three, five, or seven years of continuous parole as appropriate to the commitment category. For example: A parolee sentenced for a non-life offense committed on January 1, 1984, and paroled on June 30, 1986, has a discharge review date of June 30, 1987, and would discharge 30 days later during the 13th month of continuous parole (on July 30, 1987) if a "retain on parole" action were not taken during that 30-day period.

A parolee committed to prison for a "violent felony" under PC 667.5(c) that occurred prior to September 26, 1988, discharges by law upon reaching the maximum Controlling Discharge Date.

81080.1.2 Discharge Procedures

Parole Agent

Secures and reviews CI&I SSCH for unreported arrests since release to parole or last discharge review.

Requests current POC psychiatric evaluation if parolee has a special condition of parole requiring POC attendance.

Reviews case file and Record of Supervision to evaluate parolee's fitness for discharge.

(20 Days Before the 1st or 3rd Year Anniversary)

Prepares and submits CDC Form 1632, Discharge Review Report Form, to unit supervisor recommending either:

- Retain on parole supervision.
- Discharge effective _____ (date)_____.

Unit Supervisor

Reviews Discharge Review Report and supplemental materials and makes a decision either to discharge or recommend retain on parole. Effective date of discharge is 30 days following completion of one year of continuous parole.

Decision to allow parolee to discharge completes discharge review process. Parolee will discharge by action of law on date specified.

Submits any Discharge Review Report requiring PA decision to PA.

Unit supervisor shall include a recommendation to either discharge or retain on parole supervision.

Submits any Discharge Review Report recommending "retain on parole supervision" and any report requiring BPH decision to BPH.

PA (Prior to 30th Day Following Any Anniversary Date Specified Above)

Reviews Discharge Review Report and takes an action to recommend retain on parole supervision; or, discharge effective _____ (date)_____. Effective date is 30 days following completion of one year of continuous parole; or,

Submits any Discharge Review Report recommending "retain on parole supervision" to the BPH.

BPH (Prior to the 30th Day Following Any Anniversary Date Specified Above)

Reviews Discharge Review Report and takes an action to either:

- Retain on parole supervision; or
- Discharge effective _____ (date)_____. Effective date is 30 days following completion of one year of continuous parole.

Parole Agent (Within 10 Days of Final Action)

Provides parolee with copy of CDC Form 1632, Discharge Review Report; BPH Form 1130, BPH Decision; and CDC Form 602, Inmate/Parolee Appeal; if decision is "retain on parole supervision."

81080.2 Cancellation of Discharge Policy

Any parole violation requiring a mandatory report to the BPH, which was committed by a parolee either previously recommended for discharge or ordered discharged shall immediately be reported to the unit supervisor. An Emergency Action Report shall be immediately submitted to the BPH. Other violations shall also be reported to the unit supervisor for review and decision. An order to discharge may be cancelled by BPH action at any time prior to 12:00 Midnight on date scheduled for discharge.

81080.2.1 Cancellation of Discharge Procedures

Parole Agent and Unit Supervisor

Review behavior that violated parole and determine whether discharge action should be cancelled.

Behavior requiring BPH decision shall result in decision to cancel discharge.

Parole Agent

Prepares handwritten Emergency Action Report that briefly describes behavior that violates parole.

Submits Emergency Action Report to unit supervisor.

Unit Supervisor

Reviews Emergency Action Report and telephones report to region office for FAX to the BPH.

BPH

Reviews report.

Makes decision to either extend term to maximum of four years or seven years pending revocation hearing or discharge case.

Notifies parole region of action.

Region Staff

Notifies unit supervisor of BPH action.

81080.3 Parole Appeal of BPH Action to Retain on Parole

The parolee may appeal any action by the BPH to retain on parole supervision through the BPH appeals procedures.

81080.4 Parolee-at-Large Purging Policy

An annual National Crime Information Center (NCIC) warrant review shall be completed on all suspended Parolee-at-Large (PAL) cases assigned Code 2 and placed in the NCIC system. A review shall be completed on all suspended PAL cases after 60 months in PAL status.

81080.4.1 Parolee-at-Large Purging Procedures

Parole Agent (4-6 Weeks Prior to Annual and 60 Month Review)

Secures and reviews current CI&I and FBI SSCH records for any arrest during period parolee has been PAL.

(At Annual NCIC review)

Forwards copy of original Parolee-at-Large Report, CDC 1524 with completed Parolee-at-Large Review Report, CDC 1524-A attached for suspended parolee with warrant entered into NCIC, dates report and recommends either retain or remove want from NCIC.

- CI&I and FBI arrest records and legal status summary sheet will be attached to PAL report.

(At 60-Month Review)

Reviews case files of all PAL cases for commitment offense and prior criminal history if no arrests are noted on CI&I sheets.

Forwards copy of original PAL report (CDC 1524) with completed CDC 1524-A attached to BPT recommending:

- Discharge and recall warrant (if commitment offense and prior criminal history were property offenses with minimum or no history of violent behavior).
- Discharge and recall warrant (if determined there is minimal chance of parolee being located or committing new crimes, and a minimal history of violence or arrests are indicated by CI&I or FBI records).
- Retain in PAL status and in NCIC (if there is a history of violence; CI&I records show arrests; and there is a probability of parolee being located).

Submits report to unit supervisor.

Unit Supervisor

Reviews and submits report to BPH for action.

81080.5 Discharge to Other Jurisdiction Policy

Revised July 23, 2002

If a parolee receives a commitment to federal prison, another state's prison, or to a local jurisdiction that exceeds the parole term, the parole agent may submit a report recommending discharge to the other jurisdiction. The following information shall be included in the Discharge Review Report:

- Anticipated minimum and maximum term of incarceration of new term.
- Anticipated length of parole or whether parolee discharges upon release.
- If sentenced to county jail, length of county jail sentence and anticipated release date.
- If parolee was granted probation, whether parolee was placed on formal or informal probation.
- If placed on formal probation, length of formal probation.
- Outstanding restitution obligations.

81080.5.1 Discharge to Other Jurisdiction Procedures

Parole Agent

Secures copies of commitment documents or other documented proof of sentence.

Prepares and submits report by unit supervisor to BPH with documented proof attached.

81080.6 Certificate of Discharge and Release Procedures

Regional Records (Prior to Discharge Date)

Prepares Certificate of Discharge and Staff Release, CDC Form 163.

Sends certificate to Parole Agent.

Parole Agent

Mails Certificate of Discharge and Release to parolee's last address of record or makes arrangements to hand deliver to parolee.

Advise parolee that all rights except the following are restored upon discharge.

- To act as executor of an estate.
- To hold public office.
- To possess or own a firearm.

Advise parolee of eligibility to receive parole services in any DAPO office.

Degree of service will depend on request and availability of funds to meet need.

81080.7 Certificate of Rehabilitation and Pardon Policy

Authority to grant reprieves, pardons, and commutations of sentence is conferred upon the Governor by Section 8, Article V, of the Constitution of California. A person may file for pardon either by obtaining a Certificate of Rehabilitation or applying directly to the Governor's Office.

81080.7.1 Certificate of Rehabilitation Eligibility

Revised July 23, 2002

Any person convicted of a felony and released from confinement in a California prison who has not been re-imprisoned since release from confinement, and who has waited the specified time period, may file for a Certificate of Rehabilitation.

The period of rehabilitation starts to run upon release to parole or direct discharge from custody.

The period of rehabilitation shall constitute three years residence in this state; plus, four years in case of any person convicted of violating PC Sections 187, 209, 219, 4500 or 12310, or 1672(a) of the Military and Veterans Code, or committing any other offense which carries a life sentence.

Two years in case of any person convicted of committing any offense not listed above.

The petitioner shall not be eligible to file for a Certificate of Rehabilitation until the period of rehabilitation stipulated has passed.

During the rehabilitation period, petitioner shall live an honest and upright life, conduct a life of sobriety and industry, make reasonable effort to satisfy restitution obligations, exhibit a good moral character, and obey all laws.

81080.7.2 Certificate of Rehabilitation Procedures

Petitioner

Files a petition for ascertainment and declaration of fact of petitioner's rehabilitation with Superior Court in county of petitioner's residence after meeting period of rehabilitation requirements.

Notifies DA of county in which petition was filed and DA of any counties which petitioner was convicted of a felony.

These persons must be notified of petition and date and time of hearing in Superior Court.

Superior Court

Determines if petitioner has demonstrated rehabilitation.

Grants Certificate of Rehabilitation and recommends that Governor grant a full pardon if rehabilitation was demonstrated.

Clerk of Court

Transmits certified copies of Certificate of Rehabilitation to:

- Governor.
- BPH.
- DOJ, CI&I.
- State Supreme Court if petitioner was convicted of a felony two or more times. (A majority of State Supreme Court must give written concurrence with pardon in these cases).

81080.8 Pardon Policy

Any person, including one who is ineligible to file for a Certificate of Rehabilitation, may apply directly to the Governor for a pardon.

81080.8.1 Pardon Procedures

Petitioner

Requests an application for pardon from Governor's Office, Legal Affairs Secretary.

Submits written notice of intention to apply for pardon to DA of county of conviction.

Signs and submits to Governor, notice or proof by affidavit that DA was notified.

Submits, with application for pardon, full statement of any compensation being paid any attorney or any other person assisting with application for pardon.

81080.8.2 Pardon Limitations

A pardon entitles a person to exercise all civil and political rights of citizenship except:

- Persons convicted of use of a dangerous weapon may not own, possess or keep any type of firearm.
- Federal statute prohibits ex-felons from owning or possessing firearms.
- A pardon will not abridge or impair the power or authority conferred by law on any board or tribunal to revoke or suspend any right or privilege or franchise.

The CDCR shall ensure caseload records are updated in a timely manner, accurate, readily available, and maintained in a manner that permits retrieval of information and statistical data by authorized personnel.

81090.2 Purpose

This procedure establishes guidelines for uniform interpretation, application, and administration of caseload management plans.

81090.3 Transfer and Correction Notice Policy**Cases Under California Supervision Including Co-ops**

A CDC Form 1233, Transfer Investigation Request/Travel Permit/OBIS Notification, shall be prepared for Inter-unit transfers, and for changes in county of residence with or without a change in Parole Agent.

Upon receipt of a CDC Form 161, Warden's Checkout Order, the information shall be compared with information in the parole unit database. A revised CDC Form 1233 shall be forwarded to regional records if corrections are required.

Custody Cases

A CDC Form 1233 shall not be used to transfer cases in local custody. Transfer of these cases, if necessary, shall occur after the parolee's release from custody. A CDC Form 1233 shall be used at that time.

Transfer to Interstate Unit

Upon parolee's transfer to the Interstate Unit, the CDC Form 1233-A, Interstate Compact Form 1, Transfer Investigation, Request/Travel Permit, shall show the new state of residence. If the parolee later transfers to another state (e.g., Utah to Colorado), a new CDC Form 1233-A shall be prepared, noting the new state of residence. If the case returns to California, the CDC Form 1233-A shall show the parole unit and new county of residence.

Deportation Cases

If a parolee is deported, but not discharged by the BPT, the case shall be transferred to the appropriate Regional United States Immigration and Naturalization Service Unit utilizing a CDC Form 1233.

81090.4 Caseload Count Policy

A case shall be included on the active count as of:

- The date the CDC Form 611-C, Civil Addict Release Program Study, reaches the unit office.
- The date that a felon parolee, civil addict parolee, or releasee is released from a CDCR institution/facility following a period of revocation, new commitment, commitment to CRC, or a 90-day diagnostic study.
 - A releasee or civil addict parolee ordered returned for limited placement remains on the active count.
 - A parolee (on nonsuspended status) ordered returned to custody by the BPH for placement in a Substance Abuse Treatment Control or Substance Abuse Treatment Unit shall remain on active count.
- The date the suspended PAL, civil addict parolee, or suspended Releasee-at-Large releasee is located in California.
 - PALs that are deemed High Control shall remain on the active count for the entire time they are at large.
- The date the suspended felon, civil addict parolee, or releasee was located outside of California is ordered reinstated or continued on parole.
- The date the case file is received on transfer. (If a transfer occurs after the 25th of any month, it shall be dated effective the first of following month.)
- The date noted on CDC Form 1538, Interstate Cooperative Case Opening/Closing Notice, as the opening date.
- The date a PAL who is arrested out-of-state waives extradition and is available to California.

Cases shall be taken off the count as of:

- The date the felon, civil addict parolee, or releasee is returned to a CDCR institution/facility to serve a revocation term, 90-day diagnostic study, commitment to CRC, or a new commitment.
- The effective date of discharge.
- The date of BPHs or NAEA's action to suspend a felon parolee, releasee, or civil addict parolee on outpatient status.
- The date on a death certificate indicating a parolee, releasee, or civil addict parolee's date of death.
- The date of transfer as listed on the CDC Form 1233. (If a transfer occurs after the 25th of any month, the effective date is the first of the following month.)
- The date noted on a CDC Form 1538 as the closing date.
- The date the Minute Order was issued by the court of commitment on discharge and field exclusion cases.

81090.5 Caseload Roster Policy

Each field Parole Agent shall maintain a current roster of all assigned cases on a Caseload Roster. The roster shall be submitted to the unit supervisor for review by the last working day of each month. All rosters shall include:

- Preparole inmates' or parolees' names and CDC identification numbers.
- Supervision category and point value assigned to each case.
- Compliance with case contact and supervision and other case requirements.
- Additional information as required by unit supervisor (e.g., case contact dates, testing dates, employment status, custody status etc.).

81090.5.1 Caseload Roster Procedures**Parole Agent**

Maintains current caseload roster of all assigned cases.

(Last Working Day of Month)

Reviews caseload roster for accuracy and submits roster to unit supervisor for review.

81090.6 Field File Policy

All case material shall be filed chronologically in the Field File with the current material on top. Filing shall be two sided with materials distributed as follows:

Left Side of Folder (Bottom to Top)

- Photo packet (taped to back cover).
- CDCR Form 1515, Notice and Conditions of Parole.
- Any special instructions.
- Initial Interview/Transfer Form.
- Memoranda.
- Other letters regarding parolee.
- Monthly Report Forms.
- Referral and transfer material.
- Registration Form.
- Record of Supervision materials.
- Testing Records.
- Referral Forms.
- Other current miscellaneous.

Right Side of Folder (Bottom to Top)

- Confidential Folder shall be attached to the inside back cover of file. For additional information refer to DOM §§ 86050.2 and 86080.9.
- CDC Form 174, Probation Officer Report.
- CDC Form 188, Legal Status Summary.
- Reentry materials. (Chronos, summaries, case conferences, CDC Forms 115, Report of Rules Violation.)
- CDC Form 611, Release Program Study.
- Board Reports.
- Activity Reports.
- POC Evaluations.
- DAPO actions.
- Official Board Minutes.
- CDC Form 1244, Parole Violation Dispositions (including BPH).
- Any other legal forms.

81090.7 Discharged Parolee Face Sheet Retention Policy/Procedures

Policy

The Face Sheet of a discharged parolee shall be retained in a unit office file for a minimum period of one year.

Parole Agent Procedures

Attaches most current picture of parolee to the Face Sheet

Reviews the Face Sheet to ensure the following information is included:

- Last known address.
- Last place of employment.
- All collateral sources with addresses and phone numbers.
- CI&I.
- FBI, Social Security, and driver license number.
- Registration requirement(s) and date(s) of compliance.
- Special condition(s) of parole (if applicable).
- Description and license plate number of parolee's current automobile.

81090.8 Field File Disposition Policy

When a case is closed by reason of discharge or death, the Field File shall be retained for 120 days and then destroyed by burning or shredding. Field Files for parolees returned with a new commitment shall be destroyed after the face sheet and activity report (Closing Summary) have been removed. The Closing Summary shall be forwarded to regional records.

81090.9 Parole Agent Field Book Policy

The Parole Agent shall maintain a Face Sheet and CDC Form 1650-D, Record of Supervision (DAPO), for each assigned felon and civil addict case. Information contained in these records shall be current and legible.

Parole Agents shall record the following information on the CDC Form 1650-D:

- Name of the person contacted.
- Location of contact.
- Date (including year).
- Beginning and ending time of contact.
- Signature or initials at the end of the entry.

Recording this information as well as other essential case information is important as Parole Agents are called upon to testify in court as well as to appear routinely at revocation hearings. This information is also vital as an operational and safety tool in planning field contacts.

81090.9.1 Parole Agent Field Book Procedures (upon receipt of preparole referral)

Clerical Staff

Obtains accurate and current information from the preparole packet and enters it into the database. Prints out Face Sheet from parole unit database.

Parole Agent (At Time of Initial Interview)

Attaches current photographs to the Face Sheet.

Updates the Face Sheet information as needed.

Completes CDC Form 1650-D.

ARTICLE 16 — RE-ENTRY POLICY

Effective August 23, 1989

83010.1 Introduction

Community Correctional Centers provide the opportunity for transition from close confinement to less restrictive living for selected soon-to-be paroled inmates. Placing inmates in such facilities also reduces prison overcrowding. The P&CSD administers the re-entry program through policies and procedures designed to minimize accomplishment of program objectives in a cost-effective manner.

Re-entry specialists monitor facility practices through a range of techniques intended to assess policy compliance and provide for corrective action. These specialists help inmates to make the transition from prison to parole by providing a range of services. Additionally, they initiate the necessary action to interrupt any inmate behavior that threatens the facility or the community. They also provide those services necessary to begin a successful transition to parole.

83010.2 Policy

The Penal Code authorizes the Director to operate community correctional centers and to contract with public agencies and private vendors for the operation of re-entry facilities. Inmates who reside in community re-entry facilities may participate in programs that are provided through these facilities.

The Re-entry Program is composed of three basic subprograms as follows:

- **WORK FURLOUGH:** Selected inmates who are within 90 to 120 days of parole may reside in community re-entry facilities and participate in employment, vocational training, or educational programs in the community. The inmate is expected to establish employment, stable residence and family ties.
- **PRISONER-MOTHER PROGRAM:** The PC requires the Director to establish community treatment programs for qualified female inmates with pre-school children. The intent of the program is to establish a wholesome environment for the child and a stable parent-child relationship.
- **RETURN-TO-CUSTODY:** The RTC parole violator program will house selected low-risk parolees who violate the conditions of parole and are revoked by the BPT.

The P&CSD operates three types of re-entry work furlough programs:

- State work furlough facilities operated by CDC staff.
- Community work furlough facilities operated by a county sheriff or probation department through a contract with CDC.
- Private work furlough facilities operated by a private organization through a contract with CDC. CDC contracts with the private vendors to house, feed and control inmates while inmates are on facility property. Vendors also provide employment counseling and referral services.

Re-entry specialists are assigned to each facility to monitor inmate activities in the community through face-to-face contacts with the inmate and contacts with other persons. The re-entry specialist is responsible for placing an inmate into a higher level of custody if an inmate must be removed from the program. The re-entry specialist also monitors the facility for compliance with contractual requirements.

83010.3 Areas of Re-entry Responsibility

Re-entry Administrator and Re-entry Staff

- Coordinate Re-entry Programs statewide.
- Solve re-entry problems between P&CSD and institutions.
- Establish criteria to evaluate facility compliance with contracts, policies and procedures.
- Develop contracts for the operation of new facilities.
- Develop new re-entry facilities.
- Monitor the operations of facilities in the region.
- Monitor disciplinary and classification actions for compliance with established policies.
- Screen inmates to be paroled to the region for eligibility to participate in re-entry.
- Transport inmates to facilities within the region.

Re-entry Specialist

Conducts case management with emphasis on supervision, approval and verification of the inmates' activities outside the facility.

83010.4 Facility Operational Manual

State and private re-entry facilities shall maintain an operations manual. The format for the manual is contained in contracts with the vendor.

83010.5 Revisions

The Deputy Director, P&CSD shall ensure that this section is current and accurate.

83010.6 References

PC § 6250.

ARTICLE 17 — RE-ENTRY COMPLIANCE AND AUDIT

Effective August 7, 1989

83020.1 Policy

Compliance audits and inspections are designed to determine the degree with which a re-entry facility complies with legal policy and contractual requirements in the areas of custody, security, physical plant maintenance, program delivery and administrative practices. The audit will be conducted by a standard format.

83020.2 Audit and Inspection Procedures**Regional Re-entry Staff (Quarterly)**

Audits each re-entry facility.

Submits audit reports to Headquarters by Regional Administrator.

Inspects each re-entry facility.

P&CSD Headquarters Reentry Staff (Annually)

Conducts program audit and review of all facilities.

83020.3 Revisions

The Deputy Director, P&CSD shall ensure that this section is accurate and current.

83020.4 References

Not applicable.

ARTICLE 18 — RE-ENTRY REFERRAL*

Revised January 26, 1990

Not Cleared For Statewide Use**83030.1 Policy**

Revised September 25, 2007

The Penal Code requires the Department to screen all inmates prior to parole to determine possible eligibility for community re-entry program. All qualified inmates will be encouraged to participate in Re-entry Program.

All preparole cases (including cases with pending warrants or those being considered for out-of-state parole) shall be referred to the parole region containing the inmate's county of commitment. County of commitment is the county where the crime for which the inmate was committed occurred, except for crimes committed in prison. Commitments to prison for an in-custody (prison) felony shall not be used as the basis for determining the county of commitment. If the inmate has been discharged from all previous terms, consideration shall be given by regional staff to placement in another, more appropriate county in accordance with exception criteria. If an inmate requests placement in another county, detailed information on the inmate's proposed alternative release program shall be included in the CDC Form 611, Release Program Study (RPS).

Exceptions

All inmates shall be paroled to the county of commitment unless the case complies with exception criteria. An inmate may be paroled to another county if it would be in the best interest of the public and of the inmate. The reasons for parole to another county shall be specified in writing in the inmate's C-File.

The following factors shall be considered in determining if parole to another county is justified:

- The need to protect the life or safety of a victim, the inmate, a witness or any other person.

- Public concern that would reduce the chance that the individual's parole would be successfully completed.
- The verified existence of a work offer, or an educational or vocational training program in another county that encompasses the following:
 - Permanent employment that will enable inmate to be financially self-sufficient. (Minimum wage jobs, such as busboy or short-term jobs such as cannery worker, are not self-supporting or of sufficient duration to qualify.)
 - Training or educational program that will: be full time; materially upgrade the inmate's employment skills or educational level and thus substantially improve employability; and will provide sufficient funds to preclude the inmate from relying on welfare, CDC cash assistance or similar programs.
- The last legal residence of the inmate having been in another county.
- The existence of family in another county with whom the inmate has maintained strong ties and whose support would increase the chance that parole would be successfully completed.

Family members are defined in Section 3000 of the Title 15 as the inmate's legal spouse, registered domestic partner, natural parents; adoptive parents, if the adoption occurred and a family relationship existed prior to the inmate's incarceration; step-parents or foster parents; grandparents; brothers and sisters; the inmate's natural and adoptive children; step-children or grandchildren. Aunts, uncles and cousins are not considered as immediate family members unless a bonafide foster relationship exists.

- The lack of necessary outpatient treatment programs for parolees receiving treatment pursuant to PC 2960.
- An inmate who is released on parole shall not be returned to within 20 miles of the actual residence of a victim, or a witness to, a violent felony as defined in PC 667.5 (c) if the BPT or the P&CSD finds that there is a need to protect the life, safety or well-being of a victim or witness.
- Preparole referrals for out of state placement shall not be made unless the inmate is a resident of the other state or has relatives in the receiving state and it is clear that the inmate will be self-supporting.

83030.2 Institution Time Limits

The institutions will send preparole material to the parole region in accordance with the following time limits (all time limits are in calendar days unless otherwise specified):

- Routine Referrals: No later than 210 days, the RPS Form will be forwarded by the C&PR to the region containing the inmate's county of commitment, attention: Regional Re-entry Coordinator (RRC).
- Overdue Referrals: Cases in the institution which, after computation of time credits, have less than 210 days remaining prior to the earliest possible release date (EPRD) will be given special attention. The RPS packet will be processed as soon as possible upon discovery of being overdue and sent to the region containing inmate's county of commitment for re-entry screening and preparole processing.
- RTC/PV Referrals: All RTC/Parole Violation (PV) cases will be forwarded to the region of commitment 45 days prior to the revocation release date.

83030.3 Notice of PC 2933 Credit Eligibility Procedures**Institution Staff**

Indicates inmate's current Work Group assignment and whether inmate is subject to PC 2933 credit earnings by including appropriate notation on RPS, in the C&PR Comments section:

- Not subject to PC 2933 credits; or,
- Subject to PC 2933 credits - signed waiver.

83030.4 Institutional Referral Procedures**Institution Staff (240 Days Prior to Parole)**

Prepares a preparole file consisting of original and three copies of:

- RPS with Section A completed.
- Probation Officer Report and supplemental reports.
- Most recent CI&I report.
- Summary of institutional adjustment, including serious disciplinary actions.
- CDC Form 128-G, Classification Chrono for last classification hearing.
- Four identification photos (front).
- Copy of CDC Form 812, Notice of Critical Case Information.
- Requests for notification required by PC.
- Legal Status Summary Sheet.

- CDC Form 112, Chronological History.

(At Least 210 Days Prior to Parole)

Forwards preparole file to re-entry coordinator of region of county of commitment.

- Also forwards Cumulative Case Summary, with two copies of signed CDC Form 1515, Notice and Conditions of Parole, and two copies of Parole and Probation Form I - CDC Form 1531, Investigation Request, and Parole and Probation Form III & V - CDC Form 1533, Agreement To Return, to the Interstate Unit (ISU), if referral for out-of-state placement is made.

(Immediately Following Inmate's Release to Parole)

Forwards release package to parole unit consisting of:

- CDC Form 102, Release Statement and Clothing Authorization.
- CDC Form 1515, Conditions of Parole if applicable.
- Notice of Registration Requirements, DOJ
- Copy of CDC Form 161, Warden's Checkout Order.

83030.5 Exclusionary Criteria

Except in unusual circumstances, including, but not limited to the remoteness in time of the commission of the offense, inmates shall be excluded from re-entry if one or more of the following circumstances exist:

- Current commitment is enhanced by PC 667.5 (Violent Offender Status).
- Current commitment is for violation PC 451(a), (b), or (c) (Arson).
- Current commitment is for violation of PC 4530, 4532, 4533, 4534 or 4535 (Escape).
- Current commitment is for violation of PC 12020 (Weapons).
- Current commitment is for violation of H&SC 11380.5, 11352, 11353, 11379.5 and 11380 (Sale and Possession for Sale of Controlled Substance). This section applies only if the sale, possession for sale, manufacturing or transportation of controlled substance was large scale for profit.
- Current commitment was for robbery, kidnapping or assault where the inmate personally discharged a firearm or personally caused serious injury to the victim, whether or not term is enhanced.
- Current commitment or past convictions which require the inmate to register pursuant to PC 290.
- The inmate has:
 - An active civil addict commitment.
 - An active hold or detainer.
 - MCU or SHU assignment.
 - CDC Form 115, Rules Violation Report, pending in which criminal charges are anticipated or have been filed.
 - Documented, active prison gang relationships.
- Gang affiliation or enemies who might jeopardize security of the re-entry facility or the community.
- Within past ten years, has two or more convictions for PC 451(a), (b), or (c) (Arson).
- Within past ten years, has two or more convictions for PC 12020, manufacture, sale or possession of weapons.
- Within past ten years, has two or more convictions for H&SC 11352, 11353, 11379.5, 11380 or 11380.5, unlawful sale, possession for sale, manufacture or transportation of controlled substances if large scale for profit.
- Within past five years, has two or more convictions for PC 4530, 4532, 4533, 4534 or 4535 (Escape).

Inmates may be excluded from re-entry if one or more of the following circumstances exist:

- Predatory sexual behavior, including annoying children.
- Three or more separately occurring felonious acts of violence or use of weapons within past ten years, whether during incarceration or not.
- Use of narcotic or dangerous drugs within six months of screening. The use of marijuana is excluded.

- Recent escape attempts.
- Current medical or psychiatric problems which cannot be managed in a re-entry facility, or which require ongoing medical treatment.
- Recent serious disciplinary problems.
- No re-entry program in the area where inmate will parole.
- Extreme public notoriety.
- Planned program not in county of commitment or county of last legal residence.
- Any crime that resulted in death to the victim.
- RTC parole violators serving revocation time only.

83030.6 Re-entry Screening Procedures

Re-entry Screening Agent (Within 30 Days of Receipt of RPS Packet)

Screens RPS package to determine eligibility to participate in re-entry.

Contacts C&PR of referring institution regarding any Level IV case meeting screening criteria.

- Presents case to Regional Administrator for final approval or disapproval.
- Notes reasons for approval or disapproval on CDC Form 128-B, obtains Regional Administrator's signature, and attaches CDC Form 128-B to RPS being returned to institution.

If eligible:

- Completes screening, transportation and parole placement sections of the RPS.
- Checks box for approved.
- Specifies program(s) for which inmate is eligible.
- Specifies transportation to be used.
- Specifies assigned parole unit.
- Forwards copy of RPS and CDC Form 1604, Agreement to Participate in Community Work Furlough Program, to C&PR of sending institution.
- Forwards copy of RPS and preparole file to parole unit with one copy to re-entry agent.

If not eligible:

- Completes screening and placement section of RPS.
- Checks box for denied.
- States criteria for denial.
- Specifies assigned parole unit.
- Forwards copy of RPS to C&PR of sending institution.
- Forwards copy of RPS and preparole file to assigned parole unit.

83030.7 Inmate Appeal Policy

The institutional caseworker may ask for reconsideration of denial of re-entry placement from the Regional Administrator only if one or both of the following factors apply:

- It is evident that an error was made which might have affected approval for re-entry.
- Inmate has presented new information or factors verified by the caseworker which might have resulted in approval for re-entry if they had been known at the time of screening.

Inmates not accepted for re-entry placement may file an appeal to the regional re-entry coordinator of the parole region that screened the case and denied placement if:

- The institution caseworker declines to request reconsideration of a denial of re-entry placement.
- If the Regional Administrator rejects a request for reconsideration of a denial of re-entry placement.

83030.7.1 Inmate Appeal Procedures

Assigned Institutional Case Worker (Within 15 Days of Receipt of Appeal)

Reviews inmate's C-File to determine if denial meets exclusionary criteria or if new information exists that might change the decision.

Meets with inmate and explains denial.

Writes CDC Form 128-B, Informational Chrono, explaining discrepancy or new information and sends chrono attached to copy of CDC Form 602, Inmate/Parolee Appeal Form to Regional Administrator.

Inmate (Within 10 Days of Interview)

Submits appeal, with counselor's review, to Regional Administrator if dissatisfied with results of review by institutional caseworker.

Regional Administrator (Within 15 Days of Receipt of Appeal)

Reviews file for accuracy and either affirms or overrules denial.

Returns appeal to inmate.

Inmate (Within Ten Days of Receipt of Appeal)

Sends appeal with attachments to Director if dissatisfied.

CDC Inmate Appeal Staff

Reviews case for compliance with exclusionary criteria and may grant or deny appeal.

Returns appeal with decision to inmate. This is the final level of appeal.

83030.8 Revisions

The Deputy Director, P&CSD, or designee shall ensure that this section is current and accurate.

CCR (15) (3) § 3084 et seq.

ARTICLE 19 — RE-ENTRY TRANSFER

Effective August 29, 1989

83040.1 Policy

Each region shall have procedures to transfer inmates from a Department institution to a re-entry facility. A waiting list for each facility in the region will be established. The list will have the names of all inmates approved to participate in Re-entry Program in the region. If feasible, the list will be in chronological order by earliest possible release date. On occasion, it will not be practical to transport an inmate by CDC bus. On those occasions, commercial transportation may be authorized. When an inmate using commercial transportation fails to report to a re-entry facility, escape procedures will be implemented.

83040.1.1 Transfer Procedures**Designated Regional Staff**

Determines when vacancy will occur at a re-entry facility.

Sends FAX to institution advising of date of proposed move to re-entry. Arranges for regional transportation officer to pick-up and deliver inmate to re-entry facility.

83040.1.2 File Transfer Procedures**Institutions Records Staff**

Transfers inmate's C-File to records office of designated region and enters Daily Report of Arrivals and Departures (DRAD), OBIS movement information.

Regional Records Staff (Within Five Days of Inmate Removal from Re-entry)

Returns C-File to receiving CDC institution.

83040.2 Notification of Other Law Enforcement and Victim Policy

CDC is required by the Penal Code to notify the local chief of police and sheriff and (if requested) the victim of an inmate's crime when an inmate is transferred to a re-entry facility.

Notification is also required if an inmate is transferred to another re-entry facility.

83040.2.1 Re-entry Placement Notification Procedures**Screening Agent (Within Seven Days of Case Acceptance for Re-entry)**

Prepares form letter advising local sheriff or chief of police of inmate's approval for re-entry.

Prepares form letter advising victim or victims' next-of-kin of inmate's approval for re-entry if notification has been requested.

Forwards copies of form letter(s) to regional records and assigned re-entry specialist.

Re-entry Specialist or Regional Records Staff

Marks inmate's re-entry facility or C-file with a red tab next to inmate's name if victim notification has been requested.

Prepares a 5" x 7" manila envelope, marked "Confidential" in large letters, and seals and attaches envelope (containing copy of form letter to victim, name, address and telephone number of victim, and law enforcement officials to be contacted if inmate escapes) to left inside cover of inmate's facility and C-file if victim notification has been requested.

Facility Staff

Prepares a CDC Form 600-A, Wanted Persons System Notification, and places the form in facility file.

Prepares a list of names, addresses and telephone numbers of law enforcement officials to be contacted in the event of escape and attaches list to partially completed CDC Form 600-A if there is no request for victim notification.

83040.3 Inmate Property Policy

An inmate transferred to re-entry may bring a total property volume of six cubic feet. Due to space limitations at some re-entry facilities, the inmate may have to store some items of property elsewhere.

83040.3.1 Inmate Property Procedures**Regional Transport Officer**

Secures an inventory of each inmate's property from institution receiving and release officer.

Provides a copy of inventory to the re-entry facility manager.

Facility Manager

Checks inventory to assure that all listed property arrives with inmate.

Maintains a property inventory for each inmate.

83040.4 Inmate Orientation Policy

Inmates will receive an orientation to re-entry and facility rules within three days of arrival. Inmates shall not leave the facility grounds until they have completed orientation. The orientation will consist of:

- CCR.
- Facility rules and procedures for:
 - Disciplinary actions.
 - Classification actions.
 - Work Incentive Program.
 - Inmate or parolee appeals.
 - Community leave and pass policy.
 - Escapes.
 - Anti-narcotic and alcohol testing.
 - Contacting the facility or re-entry Parole Agent in an emergency.
 - Program participation fee collection.

83040.4.1 Inmate Orientation Procedures**Re-entry Specialist (Within Three Days of Inmate's Arrival)**

Assures that facility staff conduct an orientation for each inmate.

Assures that inmate's date of arrival, date and place of orientation, persons participating in orientation, information and any documents provided to inmate are recorded on the, CDC Form 1650-D, Record of Supervision.

83040.5 Inmate Identification Policy

Inmates shall be issued a standard identification card when they arrive at a re-entry facility. Inmates are required to carry the card at all times. The card shall include:

- Current photo of the inmate.
- Identifying information:
 - Name.
 - CDC number.
 - Date of Birth.
 - Color eyes and hair.
 - Height and weight.
 - Race.
 - Name, address and phone number of the re-entry facility.

83040.6 Revisions

The Deputy Director, P&CSD, or designee shall ensure this section remains current and accurate.

83040.7 References

PC § 11155

CCR (15) (3) §§ 3000 (2), 3019, 3109.

ARTICLE 20 — INMATE FUNDS**Effective August 29, 1989***Not Cleared For Statewide Use****83050.1 Policy**

Parole regions are responsible for provision of release funds for inmates transferred to re-entry work furlough. Inmates transferred to re-entry shall be issued up to \$100 of their release allowance. Inmates shall not be allowed to have more than \$50 in their possession at any one time. The release funds advance is intended for personal expenses to obtain employment, clothing, tools or other personal needs. The release allowance advance may be used to purchase state issued clothing if inmate has no street clothing. Inmates may establish regular or long term passbook savings or investment accounts and shall be advised of procedures for opening such accounts. The Regional Administrator shall designate a staff person at the PA-III level or above (usually the Regional Re-entry Coordinator) to be responsible for coordinating the procurement, distribution and accounting of release funds issued to work furlonghees.

83040.1.1 Procedures**Designated Regional Re-entry Staff**

Enters inmate's name, CDC number and Earliest Possible Release Date (EPRD) on Request for Release Allowance Warrants Form as soon as inmate is cleared and scheduled for transfer to re-entry facility.

FAXs cumulative request for Release Allowance Warrants List each Friday to Re-entry Administrator, P&CSD Headquarters.

P&CSD Headquarters Re-entry Staff (Upon Receipt of Request)

Requests accounting services to prepare two \$100 release allowance warrants for each inmate who has an EPRD of 90 days or less.

Requests accounting services to prepare one \$100 release allowance warrant for each inmate who has an EPRD of more than 90 days.

- A second check may be ordered when inmate is within 15 days of release to parole or discharge.

Headquarters Accounting Staff (Within Seven Days of Receipt of Request)

Prepares and forwards warrants and copy of request to region, Attention: Regional Administrator.

- Issue dates shall be indicated on each warrant.

Designated Regional Staff (Within Three Days of Receipt)

Receives and processes warrant and forwards to re-entry specialist.

Re-entry Specialist (Within Seven Days of Receipt)

Distributes warrant to re-entry inmate and completes CDC Form 102, Release Statement Form.

Designated Regional Staff

Posts each warrant, indicating when and by whom each warrant was given to the re-entry inmate.

(Seven Days after 90 Day Expiration Date)

Transmits original warrant, warrant listing, three copies of each CDC Form 102, and unissued warrants to Headquarters Accounting by First Class mail.

- Returned checks shall be clearly marked "VOID" on each face.
- Reason warrant was not issued shall be specified in the "comments" section of listing.

Headquarters Accounting Staff

Reviews CDC Form 102's and audits against listing.

Institution Trust Officer (Within Two Days after Transfer)

Closes out trust account.

Prepares a check and transmittal document CDC Form 102, and forwards to regional re-entry coordinator.

Regional Re-entry Coordinator (Within Two Days of Receipt)

Logs and sends check to re-entry specialist. The log shall include:

- Inmate name and number.
- Check number and amount.
- Issuing institution.
- Date released and person who released check.

Re-entry Facility Manager (Within Two Days of Receipt)

Delivers check to inmate and obtains receipt for check.

Requires inmate to deposit check into either a facility trust account (and gives inmate a receipt), or into a savings institution.

Controls savings passbook.

Re-entry Specialist

Gives inmate written consent for withdrawals from savings account.

83050.2 Inmate Program Contribution Policy

An inmate participating in re-entry shall pay a daily participation fee based on ability to pay. Authorization to collect fees is in the Penal Code.

The following policies apply:

- Participation fee collected will be \$4.15 per day or 25% of the inmate's gross wage, whichever is greater.
- Participation fee shall not exceed the per diem cost as specified in the contract.
- Fees are to be prorated over the entire time the inmate participates in re-entry.
- Fees based on inmate's gross wages will be collected for each eight hours worked or portion thereof in accordance with the Financial Management Handbook.
- Release funds will not be used to pay participation fees.
- No participation fees may be collected following an inmate's release to parole.
- No inmate may be denied participation in re-entry because of inability to pay fees.
- Failure to pay participation fees may result in disciplinary proceedings.

83050.2.1 Inmate Program Contribution Procedures*Revised March 8, 1990***Re-entry Agent**

Determines inmate's ability to pay (All sources of income will be considered).

Documents inmate's ability to pay on CDC Form 1650-D, Record of Supervision.

Gives copies of the Record of Supervision Form to inmate and facility manager and includes copies in inmate's file.

Facility Manager (Weekly)

Collects participation fee for each day employed.

83050.3 Purchase of Clothing and Tools Policy

Cash assistance funds may be used to purchase tools or clothing only when trust and release funds have been depleted.

83050.4 Inmate Indebtedness Policy

Inmates are prohibited from incurring any type of continuing indebtedness or entering into any purchase agreements involving periodic payments, lease arrangements, credit cards, charge accounts, and deferred payment purchases, or co-signing for purchases by another individual without prior approval by the re-entry specialist.

83050.5 Revisions

The Deputy Director, P&CSD, or designee shall be responsible for ensuring that this section is current and accurate.

83050.6 References

PC §§ 1208(e), 6253(a), 6266.

ARTICLE 21 — INMATE FURLOUGH**Effective August 28, 1989***Not Cleared For Statewide Use****83060.1 Policy**

The Penal Code permits the Director to grant furloughs to residents of community correctional centers for the purposes of employment, education (including vocational training), or to arrange a suitable employment and residence program. These furloughs may be granted if the following requirements are met:

- The inmate is within 120 days of parole or discharge.
- The inmate has completed orientation.
- The inmate requests the furlough in advance and submits a definite itinerary with specific departure and return times.
- The inmate shall only be allowed the time necessary to complete the itinerary.

83060.2 Furlough Definitions*Revised September 25, 2007*

An approved sponsor may be:

- An immediate adult family member as defined in Section 3000 of the Title 15.
- A responsible adult with a specific interest in assisting the inmate, such as an M-2 sponsor, church affiliate, a civic group affiliate or potential employer. A "responsible adult" sponsor shall not be used as a means of circumventing the common-law exclusion for overnight passes.

An immediate family member as defined in Section 3000 of the Title 15 includes any of the following:

- Legal spouse.
- Registered domestic partner.
- Natural parent.
- Adoptive parent (if the adoption occurred prior to the inmate's incarceration).
- Stepparent.
- Foster parent.
- Grandparent.
- Brother or sister.
- Natural child (all children must be at least 18 years of age).
- Adoptive child (if the adoption occurred prior to the inmate's incarceration).
- Stepchild.
- Grandchild.
- Aunt, uncle or cousin if a bona fide foster relationship existed prior to incarceration.

A common-law spouse will not be recognized as immediate family.

83060.3 Temporary Community Leave (TCL) Policy

The re-entry specialist may grant a temporary community leave of not more than 36 hours to an inmate for the purposes of reestablishing family ties or developing a release program providing the inmate:

- Has been in the facility a minimum of seven days.
- Has exhibited a pattern of stability and responsibility.
- Has no disciplinary proceedings pending.
- Is up-to-date on facility maintenance fees.
- Has demonstrated the financial ability to pay the expenses of the TCL.
- Has an approved pass sponsor.

There shall be a minimum break between TCLs of 12 hours.

83060.3.1 TCL Time Limits

The maximum time for an inmate's prerelease planning TCL shall not exceed:

- Sixty hours during the first month in Re-entry Program.
- Ninety-six hours during the second month in Re-entry Program.
- One hundred and forty-four hours during the third and subsequent months in re-entry program.

Hours granted for an inmate to conduct personal business on a pass from the facility will not be deducted from TCL time.

These limits may be reduced due to disciplinary actions or for other reasons following case conference with the unit supervisor.

83060.3.2 TCL Procedures**Inmate**

Requests a TCL pass for an overnight or weekend a minimum of 48 hours in advance.

Requests a TCL of less than 12 hours a minimum of 12 hours in advance.

Pays own expenses (Lack of funds may be grounds for TCL denial).

Prepares a detailed leave plan on Temporary Community Leave Request, CDC Form 601 prior to any TCL. The plan shall include:

- Purpose of the TCL.
- Destination.

- Inmate's method of travel.
- Address and phone number where inmate may be contacted at all times.
- Budget.
- Inmate's signature accepting conditions of TCL.

Re-entry Facility Staff

Maintains TCL log.

Re-entry Specialist

Monitors TCL log to assure compliance with policy.

83060.4 Emergency TCL Policy*Revised September 25, 2007*

Emergency TCL may be granted for a maximum of 72 hours for attendance at the funeral of a immediate family member or a bedside visit to a critically ill immediately family member. An immediate family member includes any of the following:

- Legal spouse.
- Registered domestic partner.
- Natural parent.
- Adoptive parent (if the adoption occurred prior to the inmate's incarceration).
- Stepparent.
- Foster parent.
- Grandparent.
- Brother or sister.
- Natural child (all children must be at least 18 years of age).
- Adoptive child (if the adoption occurred prior to the inmate's incarceration).
- Stepchild.
- Grandchild.
- Aunt, uncle or cousin if a bona fide foster relationship existed prior to incarceration.

Inmates in a high level of custody for major violations of the CCR may be escorted from the custody facility for the above two purposes. The inmate will have to pay for the service of the escort and all transportation costs involved. Lack of funds will prohibit an emergency TCL.

Inmates shall not leave the State of California, must demonstrate the ability to return within the 72 hours, and have sufficient funds to travel and maintain themselves.

83060.4.1 Emergency TCL Procedures**Re-entry Agent**

Requires inmate to fill out a request for emergency TCL on CDC Form 601.

Inmate

Provides name, address and phone number of funeral director or attending physician on the CDC Form 601.

Re-entry Agent

Verifies inmate's claim by personal contact by phone with funeral director or attending physician.

Contacts in person (or has an agent in the area contact) the hospital or funeral establishment to verify need for an emergency TCL if there are any questions regarding authenticity of information.

Determines inmate's mode of travel and route.

Assures that inmate has funds to complete the travel.

Issues authority to travel only for the time necessary to accomplish intent of the TCL.

Informs inmate how and when to make contacts with the re-entry facility.

83060.5 Facility Pass Policy

The facility manager may grant short term passes, of no more than six hours between 0700 and 2100 hours. No more than one pass per day may be granted. Passes may be for the following purposes:

- Purchase of needed personal items (clothing, sundry shaving items, food, tools).
- Medical or dental appointments.
- Developing parole or discharge plans with the Parole Agent or social service agencies.
- Participation in legitimate, scheduled recreational or social activities (The appropriateness of the activity must be cleared by the re-entry specialist prior to granting the pass).

- Attending religious services.
- Arranging employment.

83060.5.1 Facility Pass Procedures

Facility Staff

Maintains log indicating facility pass requirements have been met.

Logs actual time of departure and return for each facility pass.

Re-entry Specialist

Monitors log monthly to assure facility compliance with pass policy.

83060.6 Employment and Training Pass Policy

The re-entry specialist may approve an ongoing itinerary that specifically provides time for an inmate to travel to, attend, and return from a particular job or academic or vocational training program. There shall be a 30-mile limit from the facility to place of employment unless the unit supervisor grants an exception. The ongoing itinerary will normally not exceed 12 hours in any one-day unless prior approval is obtained from the re-entry specialist.

83060.6.1 Employment and Training Pass Procedures

Re-entry Specialist

Evaluates the proposed employment program.

- Determines that employer is reputable; e.g., possesses a business license, pays by check and withholds State and Federal Income Tax and State Disability Insurance (SDI).
- Assesses distance of job from facility.
- Identifies means of transportation to and from job.
- Determines that inmate's criminal background does not preclude the job.
- Verifies that the job will not require the inmate to be away from the facility more than 12 hours at a time.

Evaluates proposed educational or vocational training program:

- Determines whether educational or vocational training program will lead to employment before or shortly after the inmate is paroled.
- Determines that inmate demonstrates a well-defined need to participate in the program.

Records the following information on a CDC Form 128-G, Classification Chrono (See Sample).

- Program or job.
- Job compensation.
- Hour inmate will leave and return to the facility.
- Means of transportation.
- Specific instructions to be given to inmate.

Distributes original CDC Form 128-G to C-File, one copy to the inmate, one copy to the facility manager for the facility file, and one copy to the re-entry specialist.

Re-entry Facility Manager

Maintains a daily roster at the front desk of all ongoing itineraries which contain:

- Names of all inmates approved for ongoing itineraries that day.
- Scheduled departure times.
- Scheduled return times.
- Phone number & address where programs are located.
- Name of responsible person to be contacted at each program site.

Requires a staff member to contact program representative by telephone daily to confirm inmate's compliance with approved itinerary.

Re-entry Specialist (Weekly)

Monitors daily rosters.

(Within 48 Hours of Inmate Starting Job)

Contacts and informs the employer of:

- Inmate's status.
- Limits placed on inmate.
- Frequency of contacts.
- Need for cooperation between employer and agent.

83060.7 Revisions

The Deputy Director, P&CSD shall be responsible for ensuring the accuracy and completeness of this section.

ARTICLE 22 — RE-ENTRY CASE PLANNING AND SUPERVISION*

Effective August 28, 1989

Not Cleared For Statewide Use

83070.1 Policy

The development of an individualized inmate program plan will be the primary responsibility of P&CSD staff. The program plan for each inmate will include the following areas:

- Degree of control and supervision required.
- Participation in available programs (drug, alcohol, counseling, etc.).
- Employment.
- Methods for meeting special program conditions.
- Temporary Community Leave (TCL) (frequency and with whom).

The Initial Program Plan and any subsequent modifications in the program will be developed through a series of scheduled case reviews.

83070.1.1 Procedures

Re-entry Specialist (Within 72 Hours of Inmate's Arrival)

Conducts initial interview and records results on CDC Form 1650-D, Record of Supervision.

Verifies that inmate has received appropriate orientation.

Re-entry Specialist and Supervisor (Within Seven Days of Inmate's Arrival)

Conferences case and develop Initial Program Plan.

Record and sign Initial Program Plan on CDC Form 1650-D.

Distributes CDC Form 1650-D:

- Original to C-File.
- Copy to inmate.
- Copy to assigned re-entry specialist for inclusion in case book.
- Copy to local facility for inclusion in their program file.

Unit Supervisor & Re-entry Specialist (Each 60 Days)

Review inmate's progress and any program changes at least once during program.

Re-entry Specialist

Records results of case review on the CDC Form 1650-D.

- Distributes CDC Form 1650-D per above.

83070.2 Re-entry Closing Summary Policy

Whenever an inmate leaves a Re-entry Program (parole, discharge, return to institution), a Closing Summary will be prepared by the re-entry specialist and recorded on the CDC Form 1650-D.

The Closing Summary will summarize the inmate's overall adjustment to the program; e.g., work experience, disciplinary actions, family relationships, adjustment to program.

83070.2.1 Re-entry Closing Summary Procedures**Re-entry Specialist (14 Days After Inmate Leaves Re-entry Program)**

Prepares Closing Summary.

Supervisor

Reviews and signs completed Closing Summary.

- Copy forwarded to regional records for C-File.
- Copy to Parole Agent.

83070.3 Re-entry Field Supervision Policy

The re-entry specialist is responsible for case management and field supervision of inmates in re-entry programs. Supervision of inmates shall include face-to-face field contacts. When it is not feasible to have face-to-face field contacts, other methods of verifying information shall be used; e.g., telephone calls, reviewing time cards, paycheck stubs, or other written documents.

83070.3.1 Re-entry Field Supervision Procedures**Re-entry Specialist and Unit Supervisor**

Determine case supervision requirements through case reviews.

Re-entry Specialist (During First 30 Days of Inmate's Residence in Re-entry Program)

Conducts a minimum of two face-to-face field contacts with inmate.

(After 30 Days)

Conducts a minimum of one face-to-face field contact each month.

Conducts a minimum of one collateral contact each week for any inmate participating in an out-of-facility program (Collateral contacts may be with employer, school or training staff members).

Verifies that an inmate is expected at a TCL location prior to approving a leave.

Verifies that inmate conforms to pass itineraries.

Institutes appropriate control measures if an inmate on pass violates law or policy (Control measures may be arrest, disciplinary action, restriction, program modification, counseling or criminal prosecution).

Verifies inmate's activity information through telephone calls, review of time cards, paycheck stubs or other written documents if face-to-face contacts are not feasible.

Conducts visits to inmate's place of employment in a manner that does not draw unnecessary attention to inmate.

Verifies an unemployed inmate's itinerary.

83070.4 Re-entry Inmate Out-of-State Referral Policy

If the re-entry inmate requests supervision in another state, the re-entry specialist will conduct the Release Program Study (RPS) in the same manner as other re-entry inmate preparole referrals. If the inmate is accepted for supervision by the other state, regional records staff are responsible for entering the appropriate notation Interstate Unit (ISU) ___(receiving state)___ in OBIS.

83070.5 Release From Re-entry to Parole Procedures**Re-entry Specialist (30 to 15 Days Prior to Inmate's Parole)**

Contacts assigned Parole Agent and unit supervisor to schedule case conference.

- Contact may be by telephone.

Re-entry Specialist, Parole Agent and Unit Supervisor (30 to 15 Days) Prior to Inmate's Parole

Review inmate's progress, prospective program and possible problems.

Re-entry Specialist

Records conference results on CDC Form 1650-D.

(At Least 15 Days Prior to Inmate's Parole)

Updates RPS.

- Original to Regional Records for inclusion in C-File.
- Copy to unit supervisor.
- Copy to regional re-entry coordinator.
- Copy to inmate.

(At Least 45 Days Prior to Inmate's Parole)

Reviews CDC Form 1515, Conditions of Parole and has inmate sign.

(If Inmate Refuses to Sign Conditions of Parole)

Places inmate in secure custody.

Prepares CDC Form 115, Rule Violation Report, a CDC Form 1521-B, Brief Charge Sheet, and a CDC Form 1521-D, Recommendation Review Decision Sheet.

- Inmate shall be charged with violation for specific act of "refusing to sign Conditions of Parole", a serious violation subject to loss of good-time credits.

Notifies regional hearing coordinator to schedule case for revocation hearing.

Regional Hearing Coordinator

Contacts BPT Scheduling Unit to schedule revocation hearing for date prior to inmate's Earliest Possible Release Date (EPRD).

Re-entry Specialist (45 Days Prior to Inmate's Parole)

Submits CDC Form 102, Release Statement by regional re-entry coordinator, to Headquarters Accounting to obtain balance of inmate's release funds.

- One or more checks for total amount may be requested.

(When Inmate is Paroled)

Sends facility case file to assigned unit office.

Sends facility file to regional records for inclusion in C-File if inmate is discharged.

83070.6 Revisions

The Deputy Director, P&CSD shall be responsible for ensuring that this section is accurate and current.

83070.7 References

Not applicable.

ARTICLE 23 — MEDICAL SERVICES*

Effective August 29, 1989

Not Cleared For Statewide Use**83080.1 Policy**

Inmates in re-entry facilities shall be provided emergency medical treatment, routine medical or dental treatment and prescribed medication in the community by private physicians or hospitals at CDC expense.

Re-entry facilities shall maintain agreements with hospitals, physicians, dentists and pharmacists for emergency and routine care of inmates. The name and address of medical service providers shall be given to the regional re-entry coordinator to process payment of invoices for medical services.

Re-entry facilities will provide emergency treatment by:

- Maintaining an approved First-Aid Kit.
- Clearly displaying the telephone number of the paramedical, ambulance and hospital service for the facility.
- Assuring that all staff and inmates are aware of the location of First-Aid supplies.

Inmates will be referred for medical treatment based on seriousness of the injury or illness and the location of the inmate.

Emergency treatment shall be provided in life-threatening situations or to prevent a more serious problem should treatment be postponed. Staff shall seek treatment whenever there is any question regarding the seriousness of the situation.

All injuries or illness shall be reported.

83080.1.1 Facility Medical Services Procedures**Facility Staff (Immediately)**

Determines whether emergency treatment is necessary.

Arranges transportation of the inmate by the most appropriate means:

- Paramedic ambulance service.
- Re-entry agent.
- Facility staff member.
- Relative of the inmate.

83080.1.2 Inmate Work-Related Injury or Illness Procedures**Facility Staff or Parole Agent**

Obtains instructions of employer in seeking treatment.

Requests the employer to notify the re-entry facility of injury or illness, where the inmate is being treated, and anticipated duration of treatment.

Bills employer for cost of treatment.

Employer

Notifies facility staff when an inmate is hospitalized and when inmate is expected to be released.

83080.1.3 Inmate Injury or Illness on Pass Procedures*Revised March 8, 1990***Facility Staff or Re-entry Parole Agent**

Instructs inmate to contact the facility as soon as possible.

Determines nature of injury or illness and instructs inmate to return to the facility or to proceed directly to the designated medical provider.

Phones medical provider and advises of inmate's injury and expected time of arrival.

Requests the medical provider to telephone the following information:

- Time inmate arrives.
- Nature of injury or illness.
- Whether hospitalization will be required.
- When inmate should be released.

83080.2 Emergency Medical Treatment (Inmate Injury or Illness Outside Facility)**Re-entry Facility Staff**

Contacts local hospitals providing medical coverage.

Asks the medical provider:

- Nature of injury or illness.
- Present condition.
- Course of treatment.
- Estimated duration of treatment.

Asks treating physician to notify facility staff when inmate will be available for medical release.

Informs medical provider where to send invoices.

Notifies re-entry specialist during normal business hours or the re-entry standby agent during night or weekend hours of the emergency.

83080.3 Use of CDC Medical Consultants Policy

Medical consultants from CDC shall be contacted by the regional re-entry coordinator in complicated or serious medical cases to ensure cost-effective utilization of medical resources.

The Assistant Deputy Director, Health Services, Headquarters, is available to advise the regional re-entry coordinator. Issues that may require consultation are:

- Appropriate medical resources.
- Appropriate follow-up care.
- Cost of medical treatment and a decision as to whether the treatment should be in a CDC hospital.
- A decision regarding the best course of treatment.

Consultation is to be carried out by telephone. On rare occasions the Assistant Deputy Director, Health Services will need to interview or examine the inmate. Contacts with the Assistant Deputy Director, Health Services will be documented on an informational chrono with a copy to the Assistant Deputy Director, Health Services.

Psychiatric consultation for re-entry inmates will be provided by the POC Staff.

83080.4 Medication Policy

Both prescription and nonprescription medication shall be stored in a locked cabinet and dispensed according to medical instructions. A record of receipt and disbursement shall be maintained for all prescription and nonprescription medication.

83080.4.1 Prescription Medication Procedures**Facility Staff**

Interviews each inmate following medical treatment to verify prescription medication.

Assists in filling legal prescriptions.

Records the receipt and disbursement of any medication.

Stores medication in a locked cabinet.

Releases medicine to the inmate according to physician instructions.

83080.5 Reporting Injury or Illness Procedures**Facility Staff (Who Observes or Receives Injury Report)**

Completes a STD Form 620, Supervisor's Injury Prevention Report if injury is at a re-entry facility.

Sends STD Form 620 to Regional Safety Coordinator.

Facility Staff

Fills out SCIF Form 67, Employer's Report of Occupational Injury or Illness if injury occurs at a re-entry facility while inmate is on work assignment.

Distributes SCIF Form 67 per instructions.

Fills out a CDC Form 7219, Medical Report of Injury or Unusual Occurrence and gives to attending physician.

Fills out STD 620.

Attending Physician

Fills out CDC 7219 and returns it to re-entry facility.

Re-entry Specialist

Completes STD Form 268, Accident Report in case of death or serious injury and sends it to AG's Office by Deputy Director, P&CSD.

83080.6 Processing Medical Invoices Procedures**Re-entry Facility Staff**

Instructs medical service provider to send invoices directly to re-entry facility.

Verifies validity of invoices.

Writes inmate's CDC number and parole date on invoice.

Attaches a brief statement indicating why medical treatment was necessary.

Sends invoice to regional re-entry coordinator.

Re-entry Coordinator

Checks invoice for complete information.

Copies and sends all invoices received to Accounting, Headquarters, on a weekly basis.

83080.7 Death of an Inmate in a Re-entry Facility**Re-entry Specialist**

Notifies local law enforcement.

Notifies Regional Administrator.

Notifies inmate's next-of-kin.

Obtains a copy of:

- Coroner's report.
- Death Certificate.
- All law enforcement reports concerning inmate's death.

Notifies parole unit to which the pre-parole material was assigned.

Inventories all personal property of deceased and assures that property is placed in secure storage.

Prepares an incident report.

Prepares STD Form 268.

Prepares a memorandum to the Regional Administrator indicating:

- Deceased's name and CDC number, date, location and cause of death.
- Names, relationships and addresses of relatives, friends, organizations or individuals who might be interested in the burial of deceased.
- Memberships in fraternal orders and lodges having possible burial or death benefits.
- If there are any veteran's or Social Security benefits, pension or insurance plans or any funds not held in trust at the facility.

Regional Administrator (Within Ten Days)

Forwards copy of memorandum with attachments to:

Office of the Attorney General
Department of Justice—Public Inquiry Unit
P.O. Box 944255
Sacramento, CA 94244-2550.

Re-entry Specialist

Processes personal funds and property of deceased in accordance with PC 5061.

Forwards copy of death report and related materials to Health Services, Attention: CMO.

83080.8 Revisions

The Deputy Director, P&CSD shall be responsible for ensuring this section is current and accurate.

83080.9 References

SAM §§ 965, 966, 967, 968, 973.

DOM § 61400.

PC §§ 2082, 5061.

ARTICLE 24— CUSTODY AND SECURITY**Effective August 29, 1989***Not Cleared For Statewide Use****83090.1 Policy**

Reentry facilities shall conduct a minimum of four counts daily. One of these counts shall be at 2400. The results of this count shall be phoned to the regional reentry coordinator no later than 0900 each working day. The regional reentry coordinator shall have this count entered into OBIS daily. A minimum of one count shall be conducted during each shift.

83090.1.1 Count Definition

The count is either the physical observation of each inmate at a reentry facility or accounting for inmates who are at a specified location away from facility.

83090.2 Visiting Policy

The reentry facility shall have visiting procedures that conform to CCR 3170, 3171(a), 3172 and 3173 and shall include:

- A procedure to pre-screen visitors and ensure visitors' names are on inmate's Visitor Card.
- A designated time and place at the facility for visiting.
- A visual search of visitors for contraband such as weapons, alcohol and drugs.
- A search of handbags and all packages in which contraband could be brought into the facility by visitors.
- Continuous, direct supervision of all visits by a staff member.
- A log of all visits maintained by the facility. The log will show:
 - Name, address and phone number of each visitor.
 - Form of identification presented.
 - Purpose of the visit.

Visitors suspected of bringing contraband to the facility shall be prohibited from visiting.

83090.3 Custody Policy

Reentry inmates requiring higher levels of custody shall be booked into a city or county jail pending classification and disciplinary hearings.

83090.3.1 Custody Procedures**Reentry Specialist**

Reviews case with supervisor to determine if a higher level of custody is appropriate and if indicated, how inmate will be moved. Assesses need for backup, and whether resistance should be anticipated.

Note: When an agent is unable to discuss custody situation with supervisor contacts Administrative Officer-of-the-Day (AOD), the agent carries out Sections 2 through 5 and notifies supervisor next working day.

Briefs backup regarding the inmate's potential for violence and where and how the inmate will be placed in custody.

Places inmate in custody.

Transports inmate to custody facility and books per PC 6253(b).

- Informs booking officer of no-bail booking status.

Prepares CDC Form 128-B, General Chrono advising inmate of right to classification hearing.

Supervisor or AOD

Reviews potential arrest situation with reentry agent.

Supervisor

Instructs another agent not involved in the custody situation to conduct a classification hearing within ten days of date of arrest.

83090.4 Search Policy

Inmates must sign a CDC Form 1604, Agreement to Participate in Community Work Furlough Program prior to participating in reentry and agree to warrant-less searches of their persons, property and vehicles.

Searches of reentry inmates may be by Officers, peace officers of other law enforcement agencies, or employees of reentry facilities.

Places being visited by the inmate while they are on pass cannot be searched without the consent of the owner unless a search warrant has been obtained.

Inmates returning to a reentry facility shall be randomly searched.

A clothed body search may be performed by reentry facility staff. All unclothed searches will be performed by reentry specialists or officers of the same sex as the inmate and in a place providing privacy.

Body cavity searches shall only be undertaken by licensed medical personnel.

83090.5 Incidents and Arrest Policy

Each region shall have a procedure that provides for Parole Agents to respond to a reentry facility during non-working hours if an altercation or incident occurs.

Private reentry facility staff are not peace officers and will not arrest inmates. In an emergency situation, the reentry specialist or other law enforcement personnel can command facility staff to assist in an arrest under PC 839.

Reentry facility staff shall use force only to the degree necessary for the preservation of life or the safety of self or others.

83090.5.1 Arrest Procedures**Reentry Facility Staff**

Obtains the name and location of the arresting agency, the name of the arresting officer, the Penal Code section, charges, and the booking number if a reentry inmate is arrested.

Contacts and informs appropriate Department employee of the arrest.

Reentry Specialist or Standby Parole Agent

Obtains complete arrest information from reentry facility staff and verifies all information for accuracy.

Conveys the information to the unit supervisor or AOD to determine whether a detainer shall be placed.

Places detainer per PC 6253(b) if so requested.

- Contacts ID/Warrants Unit to place a detainer if arrest is after hours.

Standby Parole Agent (Next Working Day)

Notifies reentry specialist of the circumstances of arrest.

Reentry Specialist

Reviews the arrest and detainer with the unit supervisor. (A decision will be made to retain or release the detainer.)

Contacts DA staff to seek complaint if appropriate.

83090.6 Escape Policy

All staff assigned to reentry programs, including contract staff, shall become familiar with all escape procedures and shall follow the procedures if an escape occurs.

Facility staff shall notify a P&CSD staff person within two hours of discovery of an escape.

P&CSD staff shall initiate escape procedures and process a CDC Form 600-A, All Points Bulletin (APB) when notified of an escape.

An APB shall be issued by P&CSD staff within six hours of being notified of an escape and no later than eight hours after facility staff's discovery of an escape.

If it is anticipated that an escape will generate an unusual amount of publicity, an immediate report will be conveyed by telephone to the Director's Office by the Regional Administrator and the Deputy Director, P&CSD. Outside normal working hours the report will be conveyed by the ID/Warrants Unit. The Assistant Director, Communications, shall also be notified by telephone, and sent a written copy of any press release or newspaper report.

83090.6.1 Reentry Escape Definitions**Persons Deemed Confined in Prison**

PC 4504 provides that persons are deemed confined in a state prison if they are confined by an order made pursuant to law in any of the institutions and facilities of the Department regardless of the purpose for such confinement. Such persons are deemed confined in prison although they may be temporarily outside the boundaries of the institution or facility. Reentry inmates in P&CSD operated, county operated or private facilities are deemed confined in prison. Prisoners who have been released on parole are not deemed confined in prison for the purpose of defining offenses committed by prisoners.

Escape or Attempt, With or Without Force

PC 4530(a) and (b) provide that any prisoner who by force or violence escapes or attempts to escape may be punished by imprisonment for a term of two, three or four years. The term of imprisonment, if imposed, begins at the time he or she would otherwise have been discharged from prison. If no force or violence is used, the sentence is 16 months, two years or three years, to be served consecutively with the current term(s).

Failure to Return

PC 4530(c) provides that the willful failure of a prisoner to return to the place of confinement before the expiration of the period during which the prisoner is authorized to be away from the designated place of confinement, is an escape and is punishable in accordance with PC 4530(a) or (b).

Aiding or Abetting Escapees

PC 4533 and 4534 provide that any person who willfully aids a prisoner to escape or attempt to escape is guilty of a felony which is punishable by imprisonment in a state prison, and a fine not exceeding ten thousand dollars.

Escape by City and County Inmates

PC 4532 pertains solely to city and county inmates and will not be used in filing charges on escapes. If a state inmate assigned to a county operated work furlough facility escapes, he or she is to be charged under PC 4530(a) or (b), depending on whether the escape was with or without force. PC 4530(c) is to be used whenever an inmate is charged with escape as a result of failure to return.

83090.6.2 Escape Procedures

Escape without force or failure to return.

Facility Staff (Immediately)

Verifies that an escape has occurred.

Checks file for victim notification request.

Notifies P&CSD staff person that an inmate is missing or has failed to return from a pass and provides information necessary to complete a CDC Form 600-A. If an escape occurs during normal working hours (0800 to 1700 Monday through Friday) facility staff will report the escape to the reentry specialist; escapes occurring outside normal working hours will be reported by facility staff in Regions I and II to Sacramento Valley Community Correctional Center staff. Facility staff in Regions III and IV will report escapes to Central City Community Center staff.

Provides P&CSD staff with the names, addresses, and telephone numbers of any victims or next-of-kin requesting notification and the law enforcement officials to be notified.

P&CSD Staff

Verifies that an escape has occurred and that appropriate efforts have been made to locate or apprehend the inmate. (Count, search of facility, check with local hospitals and jails etc.)

(Within Six Hours of Escape Notification and no Later than Eight Hours after Discovery)

Completes APB I including Caution Codes and requests issuance of APB by regional records staff, or ID/Warrants Unit staff (if after hours) as soon as feasible.

**Regional Records Staff (During Normal Work Hours)
ID/Warrants Unit Staff (After Normal Work Hours)**

Verify all information on APB I and FAX APB to Areas 100, 200, 300, CRN, DOJ and local LEIU Office.

P&CSD Staff (Within Seven Days)

Contacts DA staff regarding filing an escape complaint.

83090.6.3 Escape Notification to Law Enforcement and Victim Procedures**Reentry Specialist, AOD, Unit Supervisor or Alternate
(Immediately)**

Contacts victim or next-of-kin by telephone and reports escape. (If request has been made.)

Sends confirming letter to victim reporting escape with copies to the reentry facility and reentry records, if telephone contact with victim is made.

Contacts the chief of police and sheriff of the victim or next-of-kin's city or county of residence.

Sends a telegram to the victim or next-of-kin advising of the escape if telephone contact was not successful.

- Provides Western Union with the first name, initial and last name of the next-of-kin and requests physical delivery of the telegram.
- Sends a copy of the telegram to regional records.
- Charges telegram to:

Account No. CSF01743
Department of Corrections
P.O. Box 942883
Sacramento, CA 94283-0001
Attention: P&CSD.

(24 hour number for Western Union is 1-800-325-6000.)

Regional Records Staff

Forwards copy of telegram to reentry facility for inclusion in its confidential envelope.

83090.6.4 Issuance of APB Procedures**P&CSD Staff (Usually Reentry Specialist)**

Requests issuance of an APB by telephone contact to regional records during normal working hours or by telephone contact to the ID/Warrants Unit [ATSS 485-6713 or (916) 445-6713] outside normal hours. The APB is a precautionary measure used to alert law enforcement pending permanent entry of the wanted person's record.

Requests that APB be sent to:

- Agencies routinely notified of escapes.
- Chief of police and sheriff of city and county of commitment.
- Chief of police and sheriff of city and county of reentry facility.
- Chief of police and sheriff of city and county of victim's residence (if request for victim or next-of-kin notification is on file).

(Next Working Day)

Notifies regional records of escape if the APB request was telephoned to ID/Warrants Unit.

83090.6.5 Escape Bulletin Procedures**Regional Records Staff (No Later Than the Close of Next Working Day After Notification of Escape)**

Prepares a CDC Form 140, State Prison Escape Bulletin.

ID/Warrants Unit

Enters permanent WANT into state and federal Wanted Persons System (WPS).

Note: Only the sheriff of the county in which escape occurred and the Chief, Correctional Case Records, can enter a permanent WANT into the WPS or National Crime Information Center (NCIC).

Reentry Specialist

Obtains a copy of the warrant for escapee's arrest if escape is from county work furlough facility.

Requests sheriff to include Department on the permanent WANT as an agency to be contacted if escapee is apprehended.

Regional Records Staff (No Later Than the Close of Next Working Day After Notification of Escape)

Distributes State Prison Escape Bulletin:

- Six copies to local LEIU.
- Five copies to sheriff and police department(s) with jurisdiction for the geographic area where facility is located, sheriff's department of county of commitment and to original arresting agency if other than sheriff's office.
- One copy to Chief, Correctional Case Records Services, with a copy of Abstract of Judgment attached.

83090.6.6 Apprehension of Escapee**Reentry Specialist**

Reviews case with unit supervisor to determine course of action when an escapee's whereabouts become known or suspected.

Contacts local LEIU staff for assistance, if such assistance is required.

Reentry Specialist or P&CSD Community Center Manager

Places a Department hold per PC 6253(b) "en route to the Director of Corrections" after an APB has been issued and an escapee apprehended.

(Immediately)

Telephones regional records and requests cancellation of the APB and Escape Bulletin if an inmate is apprehended during working hours.

Submits prompt notice of an escapee's apprehension to the agency (sheriff's office) that originated the permanent WANT, and to the appropriate LEIU Office.

Contacts appropriate community correctional center to report an escapee's apprehension if the escapee is apprehended outside normal working hours.

Community Center Staff

Telephones reentry facility to confirm apprehension and requests cancellation of the APB and WANT by ID/Warrants Unit.

(Next Working Day)

Notifies regional records of apprehension.

Regional Records Staff

Completes form letter to notify victim or next-of-kin of escapee's apprehension for regional reentry coordinator's signature.

Cancels Escape Bulletin by stamping "cancelled" across the original date and indicating effective date of cancellation.

Send Escape Bulletin cancellations to same agencies that received original bulletins.

Reentry Specialist or Designated Staff

May return apprehended inmate to the custody of the Director pending trial for escape, retain inmate in local custody or return the inmate to the county of escape if requested by prosecuting county.

83090.6.7 Escape With Force or Very Serious Incident Involving Escape**Facility Staff (Immediately)**

Notifies P&CSD staff and requests APB.

Notifies AOD if outside normal work hours.

P&CSD Staff (Within Two Hours)

Notifies local law enforcement and personally delivers current photograph as well as following identifying information to law enforcement agencies:

- Name and CDC number.
- Commitment offense.
- Date and time of escape.
- Circumstances of escape.
- Facility phone number and contact person.

Notifies P&CSD, Headquarters, of incident.

P&CSD Headquarters Staff (Immediately)

Notifies Director of incident, if appropriate.

83090.7 Classification Policy

Classification is not a punitive action. It is a hearing to determine whether the inmate should be maintained at the current custody level or be placed into another custody level. A hearing is required any time an inmate is moved from one custody level to another.

83090.8 Return-to-Custody Parolee Work Incentive Credit Policy

Certain parole violators may earn work incentive credits that are applied toward reducing their period of parole revocation, including parole revocation extension time. The revocation period of any parolee, except those specifically excluded, may be reduced by work time credits in the same manner and to the same extent as a term of imprisonment may be reduced pursuant to PC 2933. Work time credits must be earned and may be forfeited pursuant to the provisions of PC 2933.

Parole violators who have had their parole revoked and who are serving a period of parole revocation in a county jail or a community correctional facility are eligible for PC 2933 credits. However, they must be serving a period of parole revocation determined to be eligible pursuant to PC 3057 and participating in an approved work incentive program.

Work time credits forfeited by parole violators shall not be restored. Parole violators who forfeit earned work time credits are also subject to BPT Parole Revocation Extension Hearings.

Parole Revocation Extension Hearing procedures continue to apply to those parole violators not eligible for the benefit of earned work incentive credits, but who commit an act of misconduct while in custody.

83090.8.1 RTC Parolee Work Incentive Screening Procedures**Case Records Staff**

Reviews Parole Revocation Screening Criteria form. If a parolee is excluded (based on "Yes" answers on form):

- Places the completed original Parole Revocation Screening Criteria form in the BPT Section of the C-file.

- Processes the hearing results.
- Forwards a copy of Parole Revocation Screening Criteria and parolee's copy of hearing results to the parolee.

If parolee is not excluded (based on "No" answers on form):

- Completes Parole Violator Revocation Release Date (PVRRD) worksheet (not in Day for Day Earning Status) based on one-third credit earning status.
- Files worksheet on top of Inmate Legal Status.
- Posts the following to the CDC Form 112, Chronological History, the CDC Form 144, Control Card and the BPT Form 1103 or 1104, Hearing Results:
 - Projected Revocation Release Date (PRRD) (recorded above the Maximum Revocation Release Date (MRRD)).
 - MRRD.
 - Discharge Review Date (DRD).
 - Controlling Discharge Date (CDD).

- Files Parole Revocation Screening Criteria in the BPT section of the C-file.
- Processes Hearing Results in accordance with COM.

If a parolee is placed in Workgroup A-1:

- Completes PVRRD worksheet (in Day-for-Day Earning Status).
- Files original of PVRRD worksheet (in Day-for-Day Earning Status) on top of PVRRD worksheet (not in Day-for-Day Earning Status).
- Routes copy of worksheet to parolee to advise the parolee of revised date.
- Posts the new PRRD on the CDC Form 112 and the CDC Form 144.
- Calculates and applies work time credit using the Parole Violator Time Calculation worksheet in conjunction with OBIS time collection printout.
- Files Parole Violator Time Calculation worksheet on top of Inmate Legal Status.
- Completes pre-release audits.

83090.9 Forfeiture of Work Time Credits Policy

Work time credit forfeited by RTC parolees shall not be restored. Division "F" violations are reported at the discretion of the agent of record and the unit supervisor following a case review. Return-to-Custody parolees are entitled to due process.

Parole violators who forfeit earned work time credit are still subject to BPT Parole Revocation Extension Hearings. Parole Revocation Extension Hearings procedures continue to apply to those parole violators not eligible for the benefit of earned work incentive credits, but who commit an act of misconduct while in custody.

83090.9.1 Forfeiture of Work Time Credits Procedures**Contract Employee (Within 2 days of Discovery of Incident)**

Writes rule violation on appropriate form.

Submits report to Agent of Record or Reentry Specialist.

Agent of Record/Reentry Specialist (Within 5 Days of Discovery of Incident)

Transposes information to the CDC Form 115, Rules Violation Report and signs as reporting staff member.

Attaches original rules violation report to CDC Form 115.

Submits completed CDC Form 115 to unit supervisor.

(Within 6 Days of incident)

Completes Revocation Extension Hearing documents.

Unit Supervisor, Reentry Coordinator or Designee (Within 10 Days of Discovery of Incident)

Reviews report for completion and accuracy.

Classifies level of violation.

Assures completed CDC Form 115 is served on parolee.

Determines need for staff assistance or investigator.

Refers completed CDC Form 115 to Senior Hearing Officer.

Senior Hearing Officer (Within 30 Days of Discovery of Incident)

Conducts rules violation hearing.

Makes credit loss determination.

83090.9.2 Supplemental Parole Violation Work Incentive Procedures

Case Records Staff

Includes PRRD and the MRRD and whether the credit loss (assessed on the current CDC Form 115) has been computed in the projected PRRD, if eligible, on the BPT Form 1135-A.

ARTICLE 25 — INMATE OPERATION OF MOTOR VEHICLE*

Effective September 13, 1989

Not Cleared For Statewide Use

83100.1 Inmate Operation of Motor Vehicle Policy

A re-entry inmate may be granted permission to operate a motor vehicle by a PA-II, Re-entry Specialist if:

- Commitment offense is not vehicle related.
- Inmate does not have a history of driving associated with alcohol or substance abuse.
- Inmate does not have any outstanding traffic warrants or history of serious VC violations.
- Inmate has a valid California Driver's License, and the vehicle is registered and insured.
- Parole agent determines that commitment offense and driving history present no significant driving risk and that operation of a motor vehicle is advantageous to inmate's program participation.
- Driving privileges may be suspended whenever a resident is found to be under the influence of alcohol and or a controlled substance or a positive test is received.

83100.1.1 Inmate Operation of Motor Vehicle Procedures

Re-entry Specialist

Requires inmate to complete CDC Form 1663, Request by Work Furlough to Operate a Motor Vehicle.

- Inmate's Drivers License, copy of vehicle registration and copy of face page of insurance policy shall be attached.

Reviews request to operate a motor vehicle for compliance with policy.

Conducts DMV records check for inmate's driving record.

Approves or denies permission for the inmate to operate a motor vehicle. (Re-entry inmate may appeal decision to unit supervisor/center manager.

83100.2 Revisions

The Deputy Director, P&CSD is responsible for the accuracy of this section.

83100.3 References

Not Applicable.

ARTICLE 26 — REVOCATIONS

Effective August 28, 1989

84010.1 Introduction

A revocation hearing is an administrative proceeding where the Parole Agent presents to the BPT all of the known facts regarding a parole violation. The presentation shall include substantiation of the parolee's statement, as well as information developed through investigation of the charges.

The agent is neither a prosecutor nor a defender, but is present to give a complete picture of the parolee's violation and behavior while on parole. The Parole Agent describes the parolee's conduct and makes recommendations appropriate to the case. The BPT makes the decision as to whether or not parole should be revoked.

The P&CSD hearing agent provides for service of the hearing documents and meets due process considerations with respect to prior notice and advising of parolee rights. All P&CSD staff are expected to comport themselves, in behavior and attire, in a manner consistent with professional standards for an administrative hearing.

84010.2 Revocation Hearings

A revocation hearing may be ordered by the BPT or a unit supervisor following review of a violation report or an emergency action by the BPT. The hearing provides the parolee with an opportunity to respond to the charges by presenting evidence, and examining witnesses, and presenting circumstances in mitigation of the violation.

84010.3 Revocation Definitions

Revocation hearings are administrative proceedings. A preponderance of evidence is sufficient for a finding of good cause. Courtroom standards of evidence and burden of proof do not apply. All relevant evidence is admissible, including hearsay.

There are six types of hearings conducted by the BPT:

- Pre-revocation: A hearing to determine if there is probable cause that a parole violation has occurred.
- Revocation: A hearing to determine if there is good cause to believe that a parole violation has occurred. If it is determined that a parole violation has occurred, the panel will also make determination as to the penalty.
- Revocation Screening Calendar (RSC): A review of criminal acts and parole violations to determine if there is good cause to believe that a parole violation has occurred and decide on an appropriate revocation assessment term to offer a parolee. A revocation hearing is not held if the parolee accepts the BPT offer. The review (screening) may be conducted either face-to-face with the parolee or in absentia. Face-to-face screenings are conducted at designated locations.
- BPT Headquarters Calendar Reviews: A review of a Board Report submitted to the BPT. This is a non-appearance hearing.
- Revocation Term Extension Hearings: A hearing to determine if there is good cause to believe that a parolee serving a revocation term has committed a new crime or a serious jail or CCR (15) violation. These decisions are made upon review of a report of in-custody misconduct.
- Schedule for Revocation-Psychiatric Treatment: A hearing to determine if:
 - A parolee is unable to continue in the community.
 - The disorder cannot be treated in the community.

84010.4 Revocation Hearing Locations

The hearing will normally be held within 50 miles of the location where the violation is alleged to have occurred. A hearing may be conducted in a CDC institution if the parolee is:

- Returned to the institution due to local overcrowding or on an emergency basis.
- Ordered scheduled for a hearing, but returned on a new commitment or other court order before the hearing could be conducted.
- In suspended or revoked status due to an arrest outside of California and is returned to California for a revocation proceeding.
 - Refer to DOM on Interstate Procedures for Revocation Process.
- Return to an institution by special action of the BPT psychiatric treatment.

84010.5 Areas of Revocation Responsibility

Hearing Agent

Serves hearing forms.

Takes pleas.

Conducts attorney determination.

Advises regional hearing coordinator regarding case progress.

Furnishes copies of necessary reports and supporting documents.

May schedule hearings with BPT Scheduling Unit.

Notifies staff and witness of hearing and processes subpoenas.

Ensures that required documents, forms and materials are available for hearing.

Attends hearings.

Provides security and control at hearing.

Forwards all hearing materials and forms to the regional hearing coordinator when hearing is complete.

Regional Hearing Coordinator

May schedule hearings with BPT Scheduling Unit.

Monitors and maintains high quality revocation process within the region.

Coordinates hearing process with hearing agent, records staff, the BPT, other regions, AG's Office, respective CDC institutions, local jails and courts, the parolee and the parolee's counsel.

Assures that trained replacements are available to staff revocation hearings in the hearing agent's absence.

Maintains revocation data on all hearings.

Enters data on Holds, Screenings and Hearings into the Revocation Tracking System.

Parole Agent (Day of Hold or Discovery)

Submits CDC Form 1676, Revocation Tracking to Regional Revocation Unit.

(Within 6 Work Days of Arrest or Discovery)

Prepares Violation Report.

Deletes all confidential information and addresses and phone numbers of victims and witnesses from copies of Violation Reports and attachments to be provided to parolee and attorney.

- Prepares, dates and signs a memorandum specifying reasons for confidential classification of material (usually for protection of victims or witnesses).

Assists in locating and notifying witnesses.

Interviews fearful witnesses.

Notifies parolees not in custody of scheduled hearings and requests their presence for service of forms by the hearing agent.

Arrives at hearing site at least 15 minutes prior to scheduled time of hearing.

Attends hearings with up-to-date field files, field notes and current information regarding adjudication of any case before the court. Indicates parolee status on CDC Form 1655, Court Disposition Update. Any notes or field files used by Parole Agent at the hearing are subject to review by attorney. In the absence of the assigned Parole Agent, the unit supervisor or a designated Parole Agent will attend.

Arrests parolee if ordered returned to custody.

Assists in providing security at hearing from and remains on site until parolee is removed.

Notifies Regional Hearing Coordinator (RHC) if parolee has been moved prior to the hearing.

Regional Records Staff

Processes parole Violation Reports.

Computes projected Revocation Release Date, Revocation Release Date (RRD), Discharge Review Date (DRD), Controlling Discharge Date (CDD), and posts actions and distributes forms.

84010.6 Serving Procedures

Unit Supervisor (Within 8 Working Days of Hold)

Forwards revocation package, with attachments to a hearing agent for service.

Forwards appropriate copies of revocation package, with attachments, to the appropriate regional hearing coordinator if an out-of-region case.

Hearing Agent (When Parolee is Served)

Reviews Violation Report and attached documents.

(Within 15 Working Days or 20 Calendar Days of Hold)

Serves parolee with BPT Form 1100, Notice of Right to Hearing and BPT Form 1079, Request for Interpreter if it is believed that parolee will need language assistance at hearing.

Maintains a supply of BPT Form 1083, Attorney Determination and Appeal, CDC Form 1122, Request for Hearing Format, and extra BPT Forms 1100's and 1101's for use when a parolee is being served.

Provides the parolee with a copy of the Violation Report and related non-confidential attachments.

Handles the case if the parolee refuses to sign notice of hearing as if a hearing had been requested, and makes a statement on the Notice of Hearing Form.

- Signs and dates statement if parolee refuses to sign any papers or is uncooperative at time of service.

Makes an independent judgment relative to witnesses and attorney.

(Within Four Days or Receipt of Notice of Right to Hearing)

Denies or approves request for an attorney days or receipt or witnesses.

(When Parolee is Served)

Notifies parolee of requirement to decide within four days whether to waive or a hearing will be scheduled.

(Within 16 Days of Hold)

Notifies regional hearing coordinator of service results, and updates P&CSD Form 1676 when parolee requests a hearing.

Notifies regional hearing coordinator and BPT of service results and updates P&CSD Form 1676 if a second service is required by additional charges.

Regional Hearing Coordinator (Within 23 Days of Hold)

Forwards Revocation Scheduling Request by FAX to BPT Headquarters if a revocation hearing is being requested.

BPT Staff (Within Time Limits)

Appoints an attorney.

Conducts hearing.

84010.6 Revisions

The Deputy Director, P&CSD shall ensure that this section is current and accurate.

84010.7 References

CCR (15) (2) §§ 2615, 2635.

ARTICLE 27 — HEARING WAIVERS

Effective September 8, 1989

84020.1 Policy

Parolees are permitted to waive the revocation hearing. Psychiatric treatment-return cases may not waive.

84020.2 Waiver Definitions

Unconditional Waiver

An unconditional waiver is a waiver of any right to a personal appearance before the BPT to contest the charges, but is not an admission of guilt. The BPT may extend the period of parole up to the statutory maximum. The parolee may not later request a hearing, unless the case has been referred to the screening calendar, but may appeal the assessed time.

Optional Waiver

A parolee in custody who is undergoing criminal prosecution may conditionally waive the revocation hearing. Upon receipt of an optional waiver, the BPT will determine whether there is good cause to revoke parole. This is a non-appearance hearing. A revocation hearing may be requested later.

- A hearing request must be submitted no later than two months before expiration of the revocation period. At a hearing, the BPT may not order the parolee returned to custody for a period longer than previously assessed.

Timeliness Waiver

A parolee with pending criminal proceedings (who is not in custody) may waive a timely hearing until the completion of the criminal proceedings.

84020.3 Waiver Procedures

Parole Agent (Within Seven Days of Adjudication)

Monitors adjudication process and advises hearing agent of results if parolee has waived timely hearing.

Hearing Agent

Requires parolee to sign BPT Form 1101, Waiver of Revocation Hearing as either unconditional, optional, or timeliness waiver of revocation hearing or a hearing will be scheduled.

May complete BPT Form 1101-A, Waiver of Notice of Revocation Hearing if parolee requests a hearing but waives witnesses.

Completes BPT Form 1101, Revocation Plea Summary if parolee requests a hearing.

Forwards BPT Form 1101 and all other reports and forms to regional hearing coordinator.

Regional Hearing Coordinator

Forwards above material to regional case records.

Regional Records Staff

Prepares case for next waiver calendar per DOM.

BPT Staff

Notes panel action on BPT Form 1104, Summary of Revocation Decision: Hearing Waived and returns form to regional case records.

Regional Records Staff

Notes Projected Revocation Release Date (PRRD) and discharge date at top of Summary of Revocation Decision Form.

Sends Parole Agent two copies of Summary of Revocation Decision Form.

Parole Agent

Sends one copy of BPT Form 1104 with Revocation Release Date (RRD) to parolee.

84020.4 Parolee Request for Delay of Revocation Hearing**Hearing Agent**

Requires parolee to complete last page of BPT Form 1100, Notice of Right to Revocation Hearing when a parolee, at time of service, requests an extension of more than four days for decision.

BPT Scheduling Unit Staff

May schedule hearing.

Notifies regional hearing coordinator of hearing date.

Regional Hearing Coordinator

May notify hearing agent of scheduled hearing date.

Hearing Agent

May schedule hearing and notify BPT scheduling unit.

Notifies parolee of scheduled date by written notice.

Notifies unit supervisor and Parole Agent of scheduled hearing date.

(Immediately upon Notification)

Notifies the regional hearing coordinator if parolee scheduled for a revocation hearing elects to waive hearing.

Regional Hearing Coordinator

Notifies BPT Scheduling Unit of cancelled revocation hearing.

84020.5 Revisions

The Deputy Director, P&CSD shall ensure that this section is current and accurate.

84020.6 References

CCR (15) (2) § 2641 (a) (b) (c).

ARTICLE 28 — REVOCATION SCREENING

Effective August 28, 1989

84030.1 Policy

All cases except psychiatric treatment cases will be referred to the Revocation Screening Calendar (RSC).

Revocation cases with less than 30 days remaining on the parole period that do not meet RSC criteria will be referred to BPT Central Office Calendar by an Emergency Action Request.

Face-to-face screening will be conducted in designated locations, and all other screening will be done in absentia.

84030.1.1 Procedures**BPT Staff**

Reviews referred cases at regional records office or CDC institution in which the parolee is located.

Prepares BPT Form 1104, Summary of Revocation Decision: Hearing Waiver and makes a proposed assessment of time for RTC. (The panel may assess up to 11 months.) A PC 3057 determination will be done at the same time.

Hearing Agent

Serves parolee with Violation Report and attachments and advises parolee of rights.

Notifies parolee that BPT will assess a specific RTC time as indicated on BPT Form 1104.

Obtains parolee's signed unconditional waiver if offer is accepted.

Initiates revocation-scheduling procedures if parolee rejects the offer.

Parole Agent

Places parolee in custody if offer is accepted.

Regional Records

Forwards a copy of BPT Form 1104 to parolee after computing the time factors.

84030.2 Revisions

The Deputy Director, P&CSD shall ensure that this section is current and accurate.

84030.3 References

PC § 3057

CCR (15) (2) § 2637(7).

ARTICLE 29 — ATTORNEY DETERMINATION

Revised August 24, 1995

84040.1 Policy

The Department shall operate in compliance with the statutes and regulations established by the Legislature and control agencies.

Appropriate assistance shall be provided when CDC or its employees receive a request for assistance of an attorney.

84040.2 Purpose

This section establishes guidelines for the CDC to follow when a parolee requests the assistance of an attorney.

84040.3 Definitions**Appeal**

A formal request for, or the act of requesting, an official change of a decision, action, or policy.

BPT

The State agency which is responsible for the administration of paroles for those persons committed to the Department under PC 1168 and those committed under PC 1170 who also meet the criteria found in PC 2962.

Central Office Calendar

The calendar that is composed of administrative hearing officers as designated by the Deputy Director, P&CSD. They are authorized to make decisions regarding matters reported to the P&CSD, including the decision to order a hearing scheduled.

Central Office Hearing Coordinator

The P&CSD employee at headquarters who is responsible for hearing schedules, attorney appointments, and other hearing-related services.

Conditions of Parole

The specific conditions under which an inmate is released to parole supervision.

Field File

A working file maintained by a parole unit office containing information about a parolee and their current parole.

Hearing Agent

The P&CSD employee responsible for application of specific procedures pertaining to the parole revocation hearing process; the primary liaison between the P&CSD and the releasing authorities in matters and procedures pertaining to the parole revocation hearing process.

Hearing Coordinator

An employee assigned to coordinate the revocation process within a facility or a P&CSD region.

Indigent Parolee

A parolee who is wholly without funds at the time they violate the conditions of parole or otherwise provides good cause for the modification or revocation of parole.

Parole Agent

An employee and their supervisors in the Department who are assigned to supervise those persons released from incarceration to the supervision of the P&CSD.

Parolee

A felon or civil addict commitment released from confinement in State prison to supervision in the community.

Parole Violation

Conduct by a parolee that violates the conditions of parole or otherwise provides good cause for the modification or revocation of parole.

Parole Violation Extension

An extension of return-to-custody time for a parolee in revoked status.

Parole Violator

A parolee who is found to have violated parole and who may be returned to custody pursuant to PC 3057.

RPA

The Department's administrator of a P&CSD geographical region.

Relevant Evidence

Evidence which tends to prove or disprove an issue or fact in dispute.

Review

A formal investigation into facts related to appeal allegations, and documentation of the findings and the decision to grant or deny the appeal.

Unit Supervisor

A supervisor of case-carrying Parole Agents in the P&CSD.

8404.4 Procedures

When a parolee requests the assistance of an attorney, the guidelines for making a determination are found in the BPT Rules Section(s) 2690 through 2701.

Hearing Agent

The hearing agent shall:

- Review the parolee's field file.
- Approve or deny the parolee's request for counsel.
 - If the request for an attorney is denied, staff must inform the parolee that they may appeal the denial to the BPT within five days of receipt of the decision. No forms need to be completed for this appeal. The parolee may appeal by notifying the C&PR (if in a facility) or the district hearing agent if on parole. The parolee has the right to a telephone appeal to the BPT.
- Make a determination if the parolee is indigent or not.
- Complete a BPT Form 1083, Attorney Determination.
 - Sign, date the BPT Form 1083.
 - Provide a copy of the signed BPT Form 1083 to the parolee.
- Provide a copy of the parole violation report and all nonconfidential supporting attachments to the parolee's attorney.

BPT Staff

The BPT staff shall:

- Provide the parolee an attorney if indigence is declared.

8404.5 Criteria for Determining if a Parolee is Indigent

Parolees may be considered to be indigent when the following conditions prevail:

- The parolee is wholly without funds.
- The parolee has no job or any prospects of a job in the near future.
- The parolee has no other visible means of support.

8404.6 Staff Assistance to Parolees

CDC employees shall not assist a parolee in the preparation of any legal document except as provided for in the CCR 3160, for parolees who are illiterate or physically incapable. Employees shall not give any form of legal advice. Employees are permitted to help parolees find qualified assistance for their legal problems, but only through referrals to the California Bar Association, the local county bar association, or a local attorney referral service listing in the telephone yellow pages. Referrals to specific attorneys are prohibited.

8404.7 Revisions

The Deputy Director, P&CSD, and the Deputy Director, LAD, or their designees are jointly responsible for ensuring that the contents of this section are kept current and accurate.

ARTICLE 30 — WITNESSES

Revised July 1, 1996

8405.1 Policy

It is the policy of the Department to allow friendly or adverse witnesses to testify at revocation hearings.

8405.2 Purpose

This section describes the procedures that have been developed to enable departmental staff to implement and comply with requirements for witnesses testifying at revocation hearings.

8405.3 Definitions**Friendly Witness**

A witness who's expected testimony tends to support the parolee's arguments.

Adverse Witness

A witness whose expected testimony supports the violation charged. The primary adverse witness (victim, on-the-scene police officer, complainant, etc.) should be present at the hearing.

Confidential Witness

An informant whose identity is unknown to the inmate or parolee and who could be subject to harm if the person's identity were known.

Fearful Witness

A person who has given adverse information against the inmate or parolee and because of fear is unwilling to appear personally at the hearing.

Both the identity of the fearful witness and the adverse information are known by the inmate or parolee. However, the person's fear and trauma of facing the inmate or parolee outweighs the inmate or parolee's right to cross examination.

In order to encourage victims to participate in the revocation process and to assist in providing for their safety, the revocation hearing coordinator shall ensure that the policy and procedures as outlined in DOM 81040.13 and 81040.13.1 are adhered to.

8405.4 Procedures**Hearing Agent (At Least Seven Days Prior to Hearing)**

Reviews CDC Form 1676, P&CSD Charge Sheet/Revocation Tracking/Scheduling Request, to determine witnesses required at a hearing.

Notifies inmate or parolee of a scheduled hearing using BPT Form 1080, Notice of Date, Time and Place of Hearing.

Notifies unit supervisor and Parole Agent of the scheduled hearing by letter or CDC Form 1654, Parole Revocation Hearing Notice and Witness Determination. The method of notification shall be by FAX or messenger mail system. This notification shall be followed up by telephone notification within 48 hours of the scheduled hearing. The order of notification shall be as follows:

- The unit supervisor.
- In the absence of the unit supervisor, the agent of record.
- In the absence of the agent of record, the officer of the day.

All notification efforts shall be documented on a CDC Form 1676.

Adverse Witnesses

The hearing coordinator is responsible for making every effort to ensure the attendance of any requested adverse witness deemed necessary by the hearing coordinator.

Friendly Witnesses

The hearing coordinator should assist the inmate or parolee in notifying friendly witnesses if they will have difficulty doing so themselves and if they are not represented by an attorney. If assisted by an attorney, the attorney must be advised that they are responsible for notifying friendly witnesses who are not confined in prison. The attorney should notify the hearing coordinator or witnesses so that arrangements can be made to have them enter custodial facilities.

Fearful Witnesses

Adverse witnesses who refuse to attend the hearing either because they would be subject to risk or harm if their identities were disclosed or who, even if their identities were known, fear for their safety should they attend the hearing, shall be interviewed by a Parole Agent prior to the hearing, and their information documented in writing or on tape. The reasons for their fear shall also be documented. The hearing panel shall determine whether there is good cause to excuse the witnesses' attendance and shall document the decisions, including the reasons.

Law Enforcement

Notifies other law enforcement officers of their scheduled appearance at revocation hearings by subpoena. Only with the approval of their agency representatives will FAX or form letters be used. Notification must be made seven days prior to the scheduled hearing date.

Documentation

All efforts to locate adverse witnesses shall be documented on CDC Form 1676. Any efforts made to locate friendly witnesses for an inmate or parolee unassisted by counsel shall also be documented.

If a witness is located, but refuses to attend, the reason for the refusal shall be documented to give the hearing panel sufficient information to determine whether it is reasonable to excuse the witness' attendance.

Transportation

Adverse witnesses who need transportation should be transported to the hearing where feasible. Friendly witnesses for an inmate or parolee without counsel may be provided transportation.

Interviewing Witnesses

Inmates, parolees, or their attorneys have a right to speak to possible witnesses, but it is completely within the discretion of individual witnesses whether to speak to or disclose their whereabouts to inmates, parolees, or their attorneys. No attempt should be made by staff to influence the witnesses' decisions.

Decision

The hearing agent advises the inmate or parolee of the decision on a CDC Form 1654.

84050.5 Revisions

The Deputy Director, P&CSD, or designee is responsible for ensuring that the contents of this section are kept current and accurate.

84050.6 References

CCR (15) (2) § 2668.

DOM § 81040.

ARTICLE 31 — SUBPOENAS

Effective August 11, 1989

84060.1 Policy

Subpoenas may be issued to require the attendance of witnesses or the production of documents at revocation hearings. The parolee, the parolee's attorney, P&CSD staff, or BPT staff may request that a subpoena be issued. The hearing agent may reject the subpoena request if inappropriate. All requests for subpoenas shall be made to the hearing agent. Subpoenas will not be issued to CDC employees unless ordered by the BPT.

To secure a subpoena duces tecum, a declaration which shows good cause for production of documentary evidence and specifies precisely the documentary evidence to be produced must accompany the request. The declaration shall state the relevance of the evidence to the hearing, and state the requested witness has possession or control of the documentary evidence.

84060.2 Revisions

The Deputy Director, P&CSD shall ensure that this section is current and accurate.

84060.3 References

CCR (15) (2) §§ 2675 – 2682

ARTICLE 32 — REVOCATION HEARINGS

Effective August 28, 1989

84070.1 Revocation Hearing Policy

The hearing agent shall staff the revocation hearing and coordinate P&CSD staff participation in the hearing.

Any information from a parolee supporting a request for an attorney shall not be made available to the hearing panel unless parolee appeals denial to the panel. In such cases, the hearing panel will advise what information they require.

Physical evidence ordinarily will not be required at a hearing. Photographs of physical evidence, such as a knife or gun, can often be used in place of the actual item. The hearing agent may bring physical evidence to the hearing if:

- Parolee has requested it and it appears necessary for the hearing.
- Hearing room security is not endangered.
- There is no other means of presenting the information.

84070.1.1 Revocation Hearing Procedures**Hearing Agent**

Arrives at least 30 minutes prior to the hearing to ensure the hearing room is ready, to greet and instruct attorney and witnesses and advise panel members of any unusual security concerns.

(Prior to The Hearing)

Assures that all documentary evidence (unless designated confidential) has been made available to parolee and attorney in a timely manner and is available at the hearing.

- Evidence includes the Rules Violation Report, arrest report, special services reports, psychiatric reports and statements of witnesses.

Provides specific written description of unavailable documentary evidence and reasons for unavailability.

(If Hearing is Not Completed)

If a hearing has been continued, hearing agent maintains BPT Form 1103, Summary of Revocation Hearing and Decision with hearing tape and presents to subsequent hearing panel for their review prior to reconvening the hearing.

84070.2 Court Disposition Update Procedures**Parole Agent (One Day Prior to Hearing)**

Completes CDC Form 1655, Court Disposition Update.

(At Revocation Hearing)

Provides BPT hearing staff with completed CDC Form 1655.

84070.3 Hearing Security Policy

The hearing agent has the responsibility for security at the parole revocation hearing. The hearing agent may obtain assistance from jail personnel, other Parole Agents or other law enforcement personnel. The Parole Agent is responsible for security at the revocation hearing in the absence of a hearing agent.

84070.3.1 Hearing Security Procedures**Hearing Agent (Prior to Hearing)**

Advises BPT staff and facility staff of security concerns.

Searches and places parolee in restraints until individual is returned to a secure area or released from custody.

- Under normal conditions, the type of restraints should permit limited hand movement in order for parolee to read and handle material necessary to the hearing.
- Institutional policy will prevail at CDC institutions.

Advises BPT hearing representative if agents are armed.

May conduct an exterior body search of non-peace officers for weapons. (If a metal detector is available, it may be used.)

Requires participants to leave purses or briefcases in a secure area.

Requires that witnesses wait in an area separate from hearing room where supervision and control can be exercised.

Separates friendly and adverse witnesses to minimize potential for conflict or intimidation.

Places fearful witnesses in a waiting area completely isolated from other witnesses (friendly or adverse) and out of view of parolee.

(Immediately)

Reports any threats against staff to person threatened and to P&CSD Headquarters.

84070.4 Staffing Revocation Hearing in Hearing Agent's Absence

The regional hearing coordinator is responsible for maintaining a high quality revocation hearing process. If the hearing agent will not be available to attend a hearing, the hearing agent, or in the hearing agent's absence, the regional hearing coordinator or designee shall thoroughly brief any Parole Agent assigned to a revocation hearing of staff responsibilities and hearing procedures.

84070.5 Revocation Hearing Procedures in Hearing Agent's Absence**Assigned Parole Agent (Prior to Hearing)**

Reviews DOM on Revocation Procedures and the BPT Hearing Agent Manual.

Determines name and location of person with keys to hearing room and information regarding facility.

Ensures that all relevant documents, forms and materials are available for hearings. Attends hearings.

Advises Regional Hearing Coordinator regarding hearing results.

(When Hearing is Completed)

Forwards all materials and forms to the Regional Hearing Coordinator.

84070.6 Physical Evidence at Parole Revocation Hearing

Although parolees charged with parole violations have a right to have "evidence against them disclosed" and a right to confront and cross-examine adverse witnesses, they do not have an absolute right to compel the production of physical evidence at a hearing or to examine physical evidence before the hearing. However, under extraordinary circumstances, when there is no other means of presenting information and the physical evidence is needed to judge a factual issue at the hearing, the Parole Agent may either bring the physical evidence to the hearing or arrange for the parolee's attorney to examine the physical evidence before the hearing.

The Parole Agent may accept a request for use of physical evidence at a hearing if:

- The parolee has requested the evidence be made available or the evidence appears necessary for the hearing.
- Institutional security will not be endangered and there is no other means of presenting the evidence.

If the request for physical evidence is denied, the reason(s) for denial shall be documented and made available to the hearing panel.

84070.7 Post Hearing Policy

Decisions made at revocation hearings shall be effective on the date signed by the BPT panel. The Parole Agent shall implement the decision immediately.

84070.7.1 Post Hearing Procedures**Parole Agent**

Places parolee in custody if return-to-custody is ordered.

Removes parole hold if BPT does not order further custody and parolee is not out to a hearing from a CDC institution.

Hearing Agent

Forwards the original tape recordings and yellow copy of BPT Form 1103 to BPT.

Distributes BPT Form 1103 copies as follows:

- Original to C-File.
- Copy to CDC Research.
- Copy to Parole Agent for field file.
- Copy to parolee.

If BPT does not order further custody and parolee is out to a hearing from a CDC institution, immediately notify appropriate Regional staff.

Regional Records Staff

Notifies Institutional Records staff of the BPT action so that the Department detainer can be removed if there are no other holds on file.

84070.8 Revisions

The Deputy Director, P&CSD shall ensure that this section is accurate and current.

84070.8 References

CCR (15) (2) §§ 2665 - 2667.

ARTICLE 33 — REVOCATION EXTENSION HEARING

Effective August 28, 1989

84080.1 Policy

The BPT may assess additional revocation time for parolees in RTC status who commit violations of law, violate a serious jail rule, or who violate any of the sections of the CCR. Violations committed by parolees in RTC status in CDC institutions will be handled by CDC institution staff. P&CSD staff will handle violations committed by parolees in RTC status in a non-CDC facility.

84080.1.1 Procedures**Parole Agent**

Reviews facility report of in-custody misconduct to determine if a reportable violation was committed (e.g., conduct prosecutable as a felony or misdemeanor or any misconduct defined as a serious disciplinary offense under CCR 3315).

(Within 6 Days of Learning of the Incident)

Prepares and submits BPT Form 1135, Miscellaneous Decision, BPT Form 1135-A, Report of In-Custody Misconduct and attaches a copy of the facility report.

Notes on the BPT Form 1135-A when misconduct has been referred to DA for prosecution.

Unit Supervisor (Within 15 Days of Misconduct)

Reviews and signs report.

Submits BPT Form 1135-A to Region Records.

Distributes copies of BPT Form 1135-A as follows:

- Original to Regional Records for inclusion in C-File.
- Copy to Regional Hearing Coordinator.
- Three copies to hearing agent for service and other purposes.

Requests an emergency action by the BPT if BPT Form 1135-A will arrive at BPT, Central Office Calendar, within five days before parolee's revocation release date.

Regional Records

Places case on revocation extension screening calendar (RESC).

BPT Staff

Reviews Report of In-Custody Misconduct and:

- Notes report and takes no action, or
- Orders matter scheduled for a parole revocation extension hearing, or
- Refers case to RESC.

Informs Regional Hearing Coordinator of action.

Regional Hearing Coordinator

Directs Hearing Agent to serve parolee with notice of all applicable rights.

84080.2 Classification of Disciplinary Rule Violations

Disciplinary rule violations, subject to punishment pursuant to parole revocation extension hearing proceedings, include acts of misconduct punishable as felonies or misdemeanors and acts of misconduct defined as serious disciplinary offenses.

Classification of a disciplinary rule violation, punishable as a felony, misdemeanor or serious disciplinary rule violation, will determine the appropriate punishment that may be assessed by a BPT hearing panel.

84080.3 Disciplinary Rule Violations Schedule

When a BPT hearing panel finds good cause that a prisoner has committed an act of misconduct subject to punishment pursuant to PC 3057, the panel may assess additional time to the prisoner's parole revocation period in accordance with the following schedule:

Upon a finding of good cause to believe that a parolee, confined pursuant to a parole revocation, has committed an act of misconduct punishable as a felony, whether or not prosecution is undertaken, a BPT panel may assess from zero to 180 days of additional revocation time. Acts of misconduct punishable as felonies include:

- Murder, manslaughter, or attempted murder.
- Aggravated assault by life prisoner or non-life prisoner.
- Possession or manufacture of any firearm, deadly weapon, or explosive device (includes any sharp instrument).
- Battery of non-prisoner by prisoner.
- Assault with a deadly weapon or caustic substance.
- Rape, sodomy or oral copulation accomplished against victim with force.
- Arson involving the burning of a structure.
- Possession of flammable explosive or combustible material with intent to burn any structure or property.
- Solicitation of murder, assault with a deadly weapon by means of force likely to produce bodily injury, arson or a forcible sex act.
- Taking of a hostage.
- Escape or attempted escape with force.
- Escape from any prison, institution, camp or reentry facility.
- Escape or attempted escape without force from a prison, institution, camp or reentry facility.
- Willful and intentional destruction of public property valued in excess of \$400 in a state prison or county jail.
- Conspiracy to commit any felony or misdemeanor offense.
- Assault or battery on a peace officer, not involving the use of a weapon.
- Furnishing equipment or aiding and abetting an escape or escape attempt.
- Extortion.

- Bribery.
- Solicitation of extortion, bribery or forgery.
- Arson of land or property of another, not involving a structure.
- Forgery, falsification or alteration of any official record or document, prepared or maintained by CDC, which could result in imprisonment.
- Possession of any narcotic, drug or controlled substance in a reentry facility.
- Manufacture of alcohol.
- Possession of any alcoholic beverage or intoxicating substance in any prison, institution or camp including a reentry facility.
- Possession of any container, device, contrivance, instrument or paraphernalia intended for unlawfully injecting or consuming narcotics, drugs or alcoholic beverages.
- Commission of any felony offense not otherwise mentioned in this schedule.

Misdemeanors

Upon a finding of good cause to believe that a parolee, confined pursuant to a parole revocation, has committed an act of misconduct punishable as a misdemeanor, whether or not prosecution is undertaken, a BPT Panel may assess from zero to 90 days of additional revocation time. Acts of misconduct that are punishable as misdemeanors include:

- Participating in a riot, rout or unlawful assembly.
- Inciting a riot.
- Indecent exposure.
- Battery on a prisoner in which no serious bodily injury is inflicted and no weapon is used.
- Theft or embezzlement involving funds or property valued less than \$400.
- Intentional destruction of state property valued less than \$400.
- Consensual participation in an act of sodomy or oral copulation.
- Gambling in any prison, institution, camp or reentry facility.
- Commission of any misdemeanor offense not otherwise mentioned in this schedule.

Serious Disciplinary Offenses

Upon a finding of good cause to believe that a parolee, confined pursuant to a parole revocation, has committed an act of misconduct defined as a serious disciplinary offense, a BPT panel may assess from zero to 30 days of additional revocation time. Serious disciplinary offenses include, but are not limited to:

- Any act a prisoner commits is a serious disciplinary offense if the act involves force or violence against another person, breaches or threatens institution security, seriously disrupts institution operations, introduces or uses dangerous contraband or controlled substances; or if the prisoner attempts to commit any such act coupled with a present ability to carry out the threat or attempt if not prevented from doing so.
- Any act of misconduct which is reportable to the BPT.
- Intentional destruction of state property valued at \$50 or more, or intentional damage to State property requiring more than \$50 to repair or replace.
- Hideout or preparation to escape.
- Possession of escape paraphernalia.
- Possession of more than five dollars without proper authorization.
- Acts of disobedience or disrespect which by reason of intensity or context create a potential for violence or mass disruptive behavior.
- Willfully inciting or attempting to incite other persons to commit an unlawful act of force or violence.
- Refusal or failure to perform work or participate in programs as ordered or assigned.
- Participation in a strike or work stoppage.
- Mail or visiting violations that create a threat to the safety of any individual or to institutional security, including the introduction of dangerous contraband or a controlled substance, or the

obtaining or attempt to obtain a family visit by falsification of information.

- The throwing of any liquid or solid substance on a non-prisoner.
- Unauthorized possession of official departmental records or documents which could affect any prisoner's sentence.
- Refusal to be tested for controlled substances.
- Late return or failure to return from authorized temporary release.
- A pattern of administrative rule violations indicating significant maladjustment, which are of increasing seriousness or are of special significance in light of an existing release date.
- Involvement in a conspiracy to do any or all of the above.

84080.4 Revocation Extension Screening Calendar

BPT Staff

Approves report for action by RESC.

Prepares and signs BPT Form 1104.

Notes report and takes no action.

Makes a proposed assessment for extending revocation time period.

- The panel may extend a revocation period to a maximum of 30, 90 or 180 days, depending on the severity of the offense.

Hearing Agent

Informs parolee that the BPT will assess the number of days indicated on BPT Form 1104 for the in-custody misconduct charge if parolee agrees to accept the assessment and waives a parole extension hearing.

Has parolee sign a BPT Form 1101-B, Unconditional Waiver if parolee agrees to waive the hearing.

Gives a copy of BPT Form 1104 and BPT Form 1101 to parolee.

Forwards copies of BPT Forms 1101 and 1104 to BPT Data Processing Unit.

Distributes record of the hearing per post-hearing procedures.

84080.5 Parolee Rights

Parolees will be afforded the same rights at a parole revocation extension hearing that are afforded to parolees at parole revocation hearings.

84080.6 Revisions

The Deputy Director, P&CSD shall ensure that this section is current and accurate.

84080.7 References

PC § 3057.

CCR (15) (2) § 2742.

ARTICLE 34— DMH COMMITMENT

Effective August 28, 1989

84090.1 Policy

The Penal Code requires that specific 1987 convicted felons who are severely mentally disordered be provided psychiatric treatment by DMH as a condition of parole. Continued treatment is also required upon termination of parole.

A parolee shall receive inpatient treatment, in a DMH facility, as a condition of parole if:

- The offender has a severe mental disorder which is not in remission or cannot be kept in remission without treatment.
- The severe mental disorder was a cause or an aggravating factor in the commission of a crime for which the offender was sentenced to prison.
- The offender has been in treatment for severe mental disorder for 90 days or more within the year prior to release.
- The crime for which the offender was sentenced to prison was a crime in which the prisoner used force or violence or caused serious bodily injury. The injury was a serious impairment of physical condition which includes, but is not limited to, loss of consciousness, concussions, bone fractures, protracted loss or impairment of function of any bodily member or organ, a wound requiring extensive suturing, or serious disfigurement.
- A CDC Chief Psychiatrist has certified to the BPT that the offender meets all of the above criteria.
 - If the BPT determines the inmate meets certification criteria, it will order treatment by DMH as a condition of parole. The inmate shall be served with the special condition of parole and be informed, in writing, of his or her options regarding their Certification Hearing.

Psychiatric Treatment Ordered

If psychiatric treatment is ordered by the BPT as a condition of parole, the inmate shall be served with the Conditions of Parole including the special condition to

undergo mental health treatment in a DMH facility and shall be informed, in writing, of the right to request a Certification Hearing. If applicable, the inmate shall also be processed for transfer to a designated DMH facility on or before the earliest possible release date (EPRD). The inmate has the following options:

- Accept the special condition(s) of parole and be transferred to a DMH facility.
- Refuse to accept the special condition(s) of parole and be scheduled for a parole revocation hearing with counsel pursuant to PC 3060.5.
- Sign the CDC Form 1515, Conditions of Parole and request a Certification Hearing before the BPT.

Placement Hearing

The parolee also has a right to a placement hearing after 60 days at a DMH hospital. The purpose of the placement hearing is to determine if the state hospital is the appropriate place for treatment. (This hearing is separate from the above mentioned Certification Hearing and may occur any time after the parolee has been in the DMH hospital over 60 days.)

At all hearings the following persons must be present:

- Parolee/inmate.
- Hearing Agent.
- Parole Agent.
- Attorney of parolee/inmate.
- Interpreter, if required.
- Any other person required by parolee's attorney.

Treatment not Required

If the Certification Hearing at the DMH hospital results in a decision by the BPT that PC 2962 criteria are not met, the parolee shall be immediately released from the facility to P&CSD field supervision.

If a Placement Hearing results in a decision by the BPT Panel to place the parolee on outpatient status, the parolee shall be immediately released from the facility to P&CSD field supervision. Outpatient psychiatric treatment for these cases shall be arranged by DMH staff.

Certification for mental health treatment does not alter P&CSD and BPT violation and other reporting requirements (including discharge review), regardless of whether parolee is on inpatient or outpatient treatment status. Additionally, a parolee receiving treatment on outpatient status may be ordered placed in a secure mental health facility by the outpatient program director if it is determined that the parolee can no longer be safely or effectively treated in the outpatient program.

84090.1.1 Mentally Disordered Parolee DMH Commitment Procedures

Institution C&PR

Serves inmate with special condition of parole "to participate in treatment by the state DMH pursuant to PC 2962".

Serves inmate or parolee with BPT Form 1410, Notice of Right to Certification Hearing and completes BPT Form 1410-A.

Forwards C-File to CMC if inmate or parolee (male) will be housed at Atascadero State Hospital, or retains file at CIW if parolee (female) will be housed at Metropolitan State Hospital (MSH).

Forwards release fund check to either the San Luis Obispo (SLO) Parole Unit or Region IV Office.

Arranges for transfer of parolee or inmate to either Atascadero or Metropolitan State Hospital as appropriate.

- Notifies appropriate P&CSD staff of transfer by memorandum.

Parole Agent (SLO Parole Unit or Region IV Hearing Agent)

Reviews C-File to assure that parolee has been served with BPT Form 1410.

- Serves parolee with BPT Form 1410 as soon as possible, if not previously served.
- Initiates scheduling of hearing by BPT by submission of BPT Form 1430, MDO Scheduling Request.

Contacts BPT to schedule PC 2960 Hearing and requests independent psychiatric evaluation (if requested by parolee or parolee's attorney).

Prepares hearing package consisting of:

- Legal Status Summary Sheet.

- Certification of Chief Psychiatrist.
- Psychiatric Reports.
 - DMH certifying reports.
 - CDC certifying reports.
 - Any independent evaluations.
 - Other psychiatric or psychological evaluations.
- Legal documents (pertaining to current commitment offense).
 - POR.
 - Abstract of Judgment.
 - Arrest reports, if available.
 - Sentencing transcript, if available.
 - Any other documents relevant to sentencing.
- Miscellaneous.
 - BPT Form 1410, Notice of Hearing Rights.
 - BPT Form 1400, BPT Certification(s) Review.
 - CDC Form 1654, Parole Hearing and Witness Determination.
 - Any other documents pertinent to PC 2960 determination.

Advises CDC Chief Psychiatrist of hearing date prior to distributing CDC Form 1654 if Chief Psychiatrist is to be a witness.

(At Least 10 Days Prior to Leaving)

Provides copies of hearing package to parolee's attorney and Chief Psychiatrist.

Assures that C-File, including medical files and hearing package for BPT panel members are available at hearing.

Distributes copies of certification package to:

- C-File.
- Agent of record.
- BPT.
- Parolee.
- Parolee's attorney.
- Mails decision hearing packet, and tape to BPT.

Provides parolee with BPT Form 1040, Application for Appeal and written instructions for Filing a Petition for Judicial Review of BPT Finding of Severe Mental Disorder Requiring Treatment, if parolee is certified for inpatient treatment.

Assists the parolee in completing above documents if necessary.

Advises parole unit supervisor of hearing results if parolee is not certified for inpatient treatment.

Advises Regional Reentry Coordinator and parole unit supervisor of hearing results if parolee is not certified for inpatient treatment.

(Immediately Upon Completion of Hearing)

Advises parolee of reporting instructions on basis of CDC Form 611, Release Program Study in file if parolee is ordered released.

- Serves parolee with new conditions of parole.
- Arranges parolee's release and parolee's transportation to program. (DMH staff will arrange parolee's psychiatric treatment program if parolee is placed in outpatient status at a Placement Hearing.)
- Provides release funds to parolee.

84090.1.1 Placement Hearing Policy

A parolee has the right to request a Placement Hearing anytime after receiving treatment by the State DMH pursuant to PC 2962 for more than 60 days after the parole date.

84090.1.2 Placement Hearing Procedures

Parole Agent (SLO Parole Unit or Region IV Hearing Agent)

- Serves parolee with BPT Form 1420, Notice of Rights of Placement Hearing and completes BPT Form 1420-A.
- Initiates scheduling of hearing by BPT by submission of BPT Form 1430, Scheduling Request for a Mentally Disordered Offender.
- Requests BPT to obtain independent psychiatric evaluation if requested by parolee.

Prepares Placement Hearing package consisting of:

- CDC Form 112, Chronological History.
- Abstract of Judgment.
- Legal Status Summary.

- DMH hospital and CONREP Evaluation (addressing placement).
- Independent Evaluations if applicable.
- Notice of Hearing Rights Acknowledgement (this hearing only).
- BPT Form 1415, Prior Decisions, BPT Form 1400, BPT Certification Review and CDC Chief Psychiatrist Certification.

Notifies parolee, parolee's attorney and DMH representative of hearing date and time by CDC Form 1654.

Furnishes hearing package to parolee's attorney.

Assures that C-File, including medical files, and hearing package for BPT and panel members is available at hearing.

Provides parolee with BPT Form 1040, Application for Appeal.

Distributes copies of placement package and BPT results.

ARTICLE 35 — UNIT SUPERVISOR RESPONSIBILITIES

Revised September 27, 1996

85010.1 Policy

It is the policy of the Department that all work produced by unit staff is subject to supervisory review.

85010.2 Purpose

The purpose of this section is to specify the role, functions, and responsibilities of the unit supervisor.

85010.3 Definitions

Conditions of Parole

The conditions under which an inmate is released to parole supervision, including any added special conditions.

Field File

A file maintained by a parole unit office containing pertinent information regarding a parolee's criminal history, current commitment offense, and adjustment to parole.

Parole Agent

A departmental peace officer employee who is assigned to supervise those persons released from incarceration to serve a period of parole.

Parolee/Releasee

A felon or civil addict released from confinement in State prison to supervision in the community.

Parole Violation

Conduct by a parolee that violates the conditions of parole or otherwise provides good cause for the modification or revocation of parole.

RPA

A CDC administrator of a P&CSD Region.

PA

A CDC administrator of a P&CSD unit, units, or geographical area.

Unit Supervisor

A supervisor of Parole Agents or supervisor of a unit office in P&CSD.

85010.4 Responsibilities

Supervisors are responsible for monitoring the quantity and quality of the work of Parole Agents under their supervision and are expected to take appropriate actions when necessary to ensure that agents' work conforms to P&CSD policy and procedures.

At times, certain responsibilities may be assumed by a PA or another unit supervisor in the event of the primary unit supervisor's extended absence.

Responsibilities that shall not be delegated below the level of unit supervisor are:

- Grievances.
- Adverse actions.
- Performance appraisals.
- Hiring personnel.

85010.5 Features

The supervisor of a parole unit is one of the most critical and influential persons in P&CSD.

The supervisor ensures that Parole Agents accomplish the mission of community protection and the brokerage of casework services.

The supervisor is in the best position to assist agents in developing the knowledge and skills needed to be effective in supervising parolees.

A supervisor's effectiveness is demonstrated by the work the agents produce and how well the parole mission is accomplished.

All work is subject to supervisory review.

85010.6 Arrest Training

The unit supervisor shall ensure that training regarding arrest procedures is provided for all Parole Agents and that a plan for anticipated office arrests is formulated.

All staff present in the office, including clerical staff, shall be advised of any anticipated arrest in the office.

85010.7 Employee Probationary Appraisal Policy

A report of the probationer's performance shall be made to the employee at sufficiently frequent intervals to keep the employee adequately informed of progress on the job. If the employee is rejected during the probationary period, a final report may be filed for the period not covered by the previous reports. A written notice of rejection shall be served prior to the conclusion of the prescribed probationary period. The report shall be treated as a confidential document.

85010.8 Employee Probationary Appraisal Procedures

Unit Supervisor (Within Ten Days After the End of Each One-third of Probationary Period)

Prepares probationary performance report.

Discusses report with employee.

(Before Report is Filed)

Provides employee with a signed copy of the probationary report.

Forwards signed report to PA.

PA

Reviews report.

- Interviews and discusses report with employee if requested.
- Treats report as confidential document.
- Returns the signed report to the unit supervisor for distribution.

85010.9 Annual Performance Appraisal Policy

SPB rules require that a supervisor prepare a written performance appraisal on each employee's overall work performance at least once every 12 months after the end of the employee's probationary period. The performance report shall be treated as a confidential document.

Annual performance appraisals shall be completed for employees who have completed at least one year in non-probationary status based on their birthday with a report due that month and each year thereafter.

85010.10 Annual Performance Appraisal Procedures

Unit Supervisor (Once Every 12 Months)

Prepares written performance appraisal on each employee.

Discusses report with employee.

Provides a signed copy of the performance appraisal to the employee.

85010.11 Apprenticeship Program Policy

All employees entering a rank and file peace officer job classification are apprentices unless they have already attained journey-level status in the same classification accepted by C.P.O.S.T.

The apprenticeship program for all PA-I rank and file apprentices requires the completion of a minimum of 3600 hours in the respective work processes and a minimum of two years on the job, unless qualifying credit is awarded by the local C.P.O.S.T. subcommittee pursuant to the C.P.O.S.T. guidelines. These apprentices are required to complete the academy appropriate to their classification, but the time spent at the academy is included in the 3600-hour work process requirement.

The Unit Supervisor ensures apprentices over a two-year period have the opportunity and training to perform the following work processes:

- Supervision of parolees (600 hours).
- Report writing/Record keeping (500 hours).
- Investigating (600 hours).
- Arrests (400 hours).
- Additional experience (300 hours).

The Unit Supervisor evaluates the apprentice's performance and takes corrective action when necessary as part of the evaluation process. The apprentice's record sheet shall be reviewed and approved monthly and forwarded to the Regional Training Coordinator.

In addition, the Unit Supervisor shall prepare a written performance appraisal on each employee's overall work performance once per quarter for the entire apprenticeship period.

85010.12 Contact With Legislators Policy

Meetings with members of the State or U.S. Legislature or their staff shall be cleared by channels by the Deputy Director, P&CSD. Contacts by legislative members or their representatives with P&CSD staff shall be made a matter of written record by a CDC Form 967, Legislative Contact Report. Staff in institutions and parole regions are to FAX reports involving policy issues, public interest, or high notoriety cases to the appropriate personnel within eight working hours. Reports on routine inquiries should be sent by regular mail.

85010.13 Payroll Warrant Policy

The person who receives and handles payroll warrants shall not perform any duties outlined in the SAM 8580.1, Duties Incompatible with Handling of Salary Warrants.

85010.14 Revisions

The Deputy Director, P&CSD, or designee is responsible for ensuring that the contents of this section are kept current and accurate.

ARTICLE 36 — WORKLOAD

Revised January 8, 1996

85020.1 Policy

Standard workload for a case-carrying agent shall be in accordance with the current Memorandum of Understanding (MOU) for Bargaining Unit Six.

85020.2 Purpose

The purpose of this section is to establish uniform guidelines for determining workloads.

85020.3 Workload Calculation Procedures

Unit Clerical Staff (By 25th Day of Month)

Prints Caseload Roster Report and gives it to the Parole Agent.

Parole Agent (By Last Working Day of Month)

Parole agent reconciles the Caseload Roster Report and submits the roster to the unit supervisor.

Unit Supervisor (On the First Working Day of Month)

Reviews all active and non-active cases on the roster.

Reviews workload assigned to each agent on the Unit Workload Summary Report.

(During Next Five Working Days)

Decreases workload for agents if required by MOU by using available options.

85020.4 Revisions

The Deputy Director, P&CSD, or designee is responsible for ensuring that the contents of this section are kept current and accurate.

85020.5 References

The MOU for Bargaining Unit Six.

ARTICLE 37 –WORK WEEK GROUPS AND WORK HOURS

Revised June 1, 2006

85030.1 Policy

It is the policy of the California Department of Corrections and Rehabilitation (CDCR) to abide by the California State Civil Service Rules and Regulations and the individual bargaining unit contracts governing work week groups and work hours.

85030.2 Purpose

It is the purpose of this Section to establish guidelines for the work week and work hours in the Division of Adult Parole Operations (DAPO) and its subordinate units.

85030.3 Disclaimer

If provisions in this Section conflict with any statute(s) or Memorandum of Understanding (MOU), the statute(s) or MOU shall prevail as it relates to the specific represented group. Any exceptions to this policy will be considered at the Chief Deputy Secretary, Adult Operations, level.

85030.4 Definitions

To clarify terminology used in the work week and work hours process, the following definitions are included as a guide. These are not inclusive, and any definitions contained in statutes shall supersede those contained in this Section.

Administrative Officer-of-the-Day

Parole Agent III or above assigned to maintain the authority and responsibility for making administrative decisions and disseminating information during non-business hours regarding serious incidents in the absence of the Regional Parole Administrator.

Agent-of-Record

Parole Agent assigned to supervise a specific parolee or civil addict releasee.

Assistant Unit Supervisor

Parole Agent II at a field parole unit, more commonly referred to as an Assistant Unit Supervisor.

Deputy Regional Parole Administrator

A CDCR administrator in a DAPO parole region.

District Administrator

A CDCR administrator of a DAPO unit, district, or geographical area.

Parole Agent

A departmental peace officer who is assigned to supervise those persons released from incarceration to serve a period of parole.

Regional Parole Administrator

A CDCR administrator of a DAPO Parole Region.

Unit Supervisor

A supervisor of case-carrying Parole Agents in DAPO. More commonly referred to as the Unit Supervisor.

85030.5 Responsibilities

Director

The DAPO is managed by a Director who reports to the Chief Deputy Secretary, Adult Operations, and is responsible for establishing and maintaining CDCR's overall parole supervision efforts.

Regional Parole Administrator

The Regional Parole Administrator reports to the Director, DAPO, and is responsible for managing and overseeing the overall parole supervision efforts in their parole region.

The Regional Parole Administrator shall ensure that parole units establish procedures for staff to be available for off-hour response to parolees, law enforcement, and other interested agencies.

Deputy Regional Parole Administrator

The Deputy Regional Parole Administrator reports to the Regional Parole Administrator and is responsible for managing and overseeing specific parole supervision efforts within the parole region.

District Administrator

The District Administrator reports to the Deputy Regional Parole Administrator and is responsible for managing and overseeing the overall parole supervision efforts in their parole district.

Unit Supervisor

The Unit Supervisor reports to the District Administrator and is responsible for managing and overseeing the overall parole supervision efforts at the field parole unit level.

The Unit Supervisor is responsible for establishing procedures and ensuring staff are available for off-hour response to parolees, law enforcement, and other interested agencies.

Parole Agent

The Parole Agent is responsible for reporting to work on the date and at the time indicated on the approved work schedule or when called for off-hour response to parolees, law enforcement, and/or other interested agencies.

The Parole Agent who anticipates a deviation from the approved work week schedule shall contact the Unit Supervisor or, in the absence of the Unit Supervisor, the Assistant Unit Supervisor, for approval of the change.

A Parole Agent is not precluded from responding to an emergency in a timely manner if neither the Unit Supervisor nor Administrative Officer-of-the-Day (AOD) can be contacted. If this occurs, the Parole Agent is expected to respond to the emergency and report the circumstances to the appropriate person as soon as possible.

85030.6 Primary Responsibilities

The parole office is the primary unit in CDCR with the following responsibilities:

Unit Supervisor

- Ensures Identification/Warrants Unit and all contracted answering services for the unit has a list of home telephone numbers for each assigned Parole Agent, Assistant Unit Supervisor, and Unit Supervisor assigned to the parole unit.
- Monitors and audits program operations.
- Makes changes as necessary.

85030.7 Specific Responsibilities

Parole Agent

Specific functions of the Parole Agent shall include, but is not limited to, the following:

- Providing assistance to the public.
- Assisting law enforcement.
- Handling emergencies.
- Conducting initial interviews.
- Addressing needs of walk-in parolee's.
- Assisting needs of other departmental personnel when the Agent-of-Record is not available.
- Responding to emergencies within the parole office.
- Maintaining office security.
- Supervising felons and civil addicts on his or her caseload.
- Other duties as assigned.

85030.8 Unit Office Hours

All Parole Offices shall be kept open for business from 8:00 a.m. to 5:00 p.m., Monday through Friday, except on holidays.

Sub-unit office hours shall be established to meet area service needs as approved by the RPA.

Extended office hours may be established with approval of the RPA.

Reduced office hours may be established with approval of the RPA.

85030.9 Unit Officer-of-the-Day

Each parole unit shall be staffed during normal work hours by an assigned Parole Agent who is designated as the Officer-of-the-Day (OD). See DOM Section 87010 for additional information regarding the role and responsibilities of the OD.

85030.10 On-Duty Status

A Parole Agent is on duty when the agent is conforming to a monthly work schedule that has been approved by the Unit Supervisor prior to the commencement of. A Parole Agent who anticipates a deviation from the approved work period schedule shall contact the Unit Supervisor for approval of the change.

85030.11 Office Day

A Parole Agent whose day begins and ends at the unit office is on duty upon arrival at the unit office and off duty upon leaving the office.

85030.12 Field Day

If a Parole Agent leaves his or her home and travels to a field contact, hours of work shall start on the arrival of the Parole Agent at the field contact location. If it takes longer to travel from the Parole Agent's home to the field contact location than the amount of time it takes the Parole Agent to travel from his or her home to the office, then the Parole Agent's work time shall start at the interval of time the Parole Agent usually uses to get to work.

85030.13 Staggered Hours

As contained in the current Memorandum of Understanding (MOU) for Bargaining Unit Six.

85030.14 Emergencies/Call Back

As contained in the current MOU for Bargaining Unit Six.

An agent is not precluded from responding to an emergency in a timely manner if neither the Unit Supervisor nor Administrative Officer-of-

the-Day (AOD) can be contacted. If this occurs, the Parole Agent is expected to respond to the emergency and report the circumstances to the appropriate person as soon as possible.

If the Parole Agent is requested to respond to an emergency or suffers any other work before arriving at the office, field contact location, or traveling for the period of time it usually takes to get to the office, the Parole Agent's work day shall start at the moment he or she suffers work.

85030.15 Travel

When a Parole Agent or other staff member must travel beyond unit boundaries for training, attendance at meetings, or for other official reasons, the Parole Agent will be on-duty until arriving at lodging. After that time, the Parole Agent will be considered on-duty only when attending scheduled activities or carrying out approved duties.

85030.16 Off-Duty Status

Except for those situations noted in the DOM Section 85030.9, periods of training or special assignments, a Parole Agent is considered off-duty.

85030.17 Work Rules

As contained in the current MOU for Bargaining Unit Six.

There will be a minimum of one Parole Agent in the office assigned as OD Monday through Friday, 0800 – 1700. Necessary modifications can be made in sub-unit offices.

Case carriers will not be scheduled for work on holidays, whether weekdays or weekends, except to handle emergency situations.

In working the expanded schedule (weekends, evenings) it is expected that the time will be spent in the field, in the office, or a combination of both with approval of the Unit Supervisor.

For safety reasons, Parole Agents working on a Saturday or Sunday are required to submit to the Unit Supervisor, no later than the preceding Friday, a written general itinerary of field calls planned for the weekend day.

If an arrest is required during this expanded schedule, Parole Agent(s) shall contact the Unit Supervisor or AOD and conduct a pre-arrest planning conference. In arrests or investigations where there is potential danger, Parole Agents shall utilize law enforcement assistance.

85030.18 Overtime Policy

Overtime, except for emergencies, must be authorized by the Unit Supervisor in advance. Informal time off shall not be given. Overtime shall be authorized only when circumstances do not permit use of other options. The use of overtime is at management discretion subject to contract guidelines.

85030.19 Work Week

The work hours for the OD are from 8:00 a.m. to 5:00 p.m., unless otherwise specifically identified.

The MOU states that Parole Agents with the Unit Supervisor's approval may elect the daily start and stop time, with the exception of the OD duty.

The normal work schedule for Parole Agents shall be a four (4) or five (5) day work week, as dictated by the workload, and approved by the Unit Supervisor in accordance with the MOU for Bargaining Unit Six.

The Parole Agent may schedule with supervisory approval, other than an eight (8) or ten (10) hour day.

The workweek shall start on Monday and end on Sunday.

As per the MOU for Bargaining Unit Six.

85030.20 Work Hours

Work hours, subject to Unit Supervisor approval, will be scheduled between 6:00 a.m. and 10:00 p.m., except as emergency and operational needs dictate.

No work will be routinely scheduled between the hours of 10:00 p.m. and 6:00 a.m.

Each work day will be a minimum of at least four (4) work hours and a maximum not to exceed twelve (12) work hours, except as emergency and operational needs dictate.

As per the MOU for Bargaining Unit Six.

85030.21 Lunch Hours

The workday may include, at the employee's discretion, no meal break, or an optional one (1) hour, or one-half (1/2) hour meal break.

The lunch period, if authorized, is from noon to 1:00 p.m., unless otherwise specifically identified.

As per the MOU for Bargaining Unit Six.

85030.22 Rest Periods

The contracts for the various bargaining units govern rest periods for those employees who are covered by these contracts.

As per the MOU for Bargaining Unit Six.

85030.23 Evening Hours

Work schedules shall include a minimum of four (4) evenings per month.

These mandated evenings shall be in the field, except if previously waived by the Unit Supervisor. The waiver will be the exception rather than the rule.

These mandated evenings each month will be worked until at least 7:00 p.m.

Nothing in this Section shall prohibit Parole Agents from scheduling additional voluntary evenings.

As per the MOU for Bargaining Unit Six.

85030.24 Work Schedule

Each Parole Agent shall submit a proposed work schedule to the Unit Supervisor for each month at least seven (7) calendar days, but no more than fourteen (14) calendar days, prior to the beginning of the scheduled month for supervisory approval.

The State shall develop and standardize a work schedule to be utilized statewide.

The schedule will represent all work hours, which shall include all workdays, weekend work, evening work, days off, OD duties, lunch or no lunch, and other special assignment responsibilities.

The Unit Supervisor shall ensure that all Parole Agents comply with the scheduling requirements of the MOU Bargaining Unit Six and the meeting of operational needs.

The Unit Supervisor shall approve the work schedule at least three (3) days prior to the scheduled month, unless it can be documented that the scheduled work hours as submitted would be detrimental to the needs of the office or would hinder the Parole Agent in the performance of his or her duties and responsibilities. This documentation shall be provided if requested by the Parole Agent.

If the Parole Agent does not submit a monthly work schedule, the Unit Supervisor will assign the work schedule.

As per the MOU for Bargaining Unit Six.

85030.25 Adjustments to Work Schedule

During the scheduled month, the Unit Supervisor may occasionally adjust the work hours based on operational needs with written justification to the Parole Agent.

This adjustment shall not be intended to avoid the assignment of overtime.

Parole Agent requested changes in the work schedules, excluding emergencies, will require prior supervisory approval.

Parole Agents will advise the Unit Supervisor of emergency changes no later than the next work day.

As per the MOU for Bargaining Unit Six.

85030.26 Revisions

ARTICLE 38 — HOSTAGES

Effective August 15, 1989

85040.1 Policy

The following employee information will be kept current and immediately available in each unit office:

- Recent color photograph of each employee with physical description and date of birth legibly printed on back, and current telephone and address.
- Current list of vehicles assigned to personnel with diamond "E" and undercover license plate numbers, and description of each auto, including year, make, model, type and color.
- Manufacturer's and CDC serial numbers of firearms issued or personal weapons carried by each employee or a statement that no weapon was issued or is carried by the employee.

If a P&CSD employee is taken hostage and a staff member is contacted or notified by the hostage taker, the staff member notified will not attempt to engage in negotiations. The staff member will attempt to obtain information regarding the incident; e.g., location, telephone number, persons involved, number of hostages and their physical condition, weapons involved. Any attempt to manage the situation or enter into negotiations will be the responsibility of the other law enforcement agency notified. When a staff member is notified that an employee has been taken hostage, the Deputy Director, P&CSD will be immediately advised through channels and will be kept apprised of the hostage situation.

85040.1.1 Hostage Procedures

P&CSD Staff (During Contact by Hostage Taker or Immediately Thereafter)

Makes no commitment but attempts to delay hostage taker by stating that someone with more authority will get back in touch with him or her as soon as possible if the hostage taker demands weapons, additional hostages, freedom of a prisoner, clemency or dismissal of criminal charges or parole violations.

Contacts nearest local law enforcement agency and requests assistance.

- All available information will be provided to the local law enforcement agency
- If the staff member contacted is not the supervisor, the supervisor will be notified immediately.

Engages individual in conversation as long as possible, obtains information and encourages the release of the hostage(s) if the hostage taker makes no demands but simply wants to talk.

- The staff person will not attempt to negotiate the release. The nearest local law enforcement agency will be contacted and given all available information.

85040.2 Notification by Another Law Enforcement Agency of Hostage Situation Policy

If a staff member is notified by another law enforcement agency that an employee has been taken hostage, the supervisor or designee will be notified immediately. The supervisor or designee will be the primary contact person with the other law enforcement agency. The supervisor or designee will provide all information requested by the other law enforcement agency's personnel to assist in the management of the hostage situation.

85040.3 Treatment for Released Employee Hostage

When the hostage situation has been resolved, the employee taken hostage may be referred to the Chief Psychiatrist, POC, for any immediate assistance that may be needed. The Chief Psychiatrist, POC, will, when appropriate, refer the employee for volunteer follow-up assistance or counseling through medical insurance, private therapist, mental health agency, etc. The Chief Psychiatrist, POC, may also make a recommendation to the Regional Administrator regarding the advisability of time off or reassignment. The Regional Administrator will advise the Deputy Director, P&CSD, and recommend appropriate follow-up action. The Deputy Director, P&CSD, may authorize Administrative Time Off with pay or reassignment for the employee, subject to controlling SPB Rules.

85040.4 Revisions

The Deputy Director, P&CSD shall ensure that this section remains current and accurate.

85040.5 References

Not applicable.

ARTICLE 39 — PAROLE AGENT EQUIPMENT

Effective August 30, 1989

Revised August 1, 2014

85050.1 Policy Standard Equipment

Each Parole Agent is furnished with the following standard equipment.

- Pair of handcuffs and keys.
- "Ready bag."
- Parole Agent badge.
- Identification card.
- Parole Agent windbreaker-type jacket.
- Parole Agent tactical mesh vest.
- Protective Vest.
- Oleoresin Capsicum MK3 canister.

- Firearm, holster, and ammunition carrier, if requested by a Parole Agent hired prior to January 1, 1988. All Parole Agents hired after January 1, 1988 will be furnished these materials.
- Department of Motor Vehicles Form INV 171, A Card.

The Parole Agent will retain above issued equipment upon transfer.

Safety Equipment

Each Parole Agent assigned a State vehicle is furnished with the following safety equipment:

- Set of reflectors.
- Jumper cables.
- Fire extinguisher.
- Flashlight.
- First-Aid kit.

Optional Equipment

Each Parole Agent is issued the following equipment if there is a need related to climate or other special conditions:

- Fog lights.
- Studded snow tires.
- Spotlight (plug-in type).
- Blanket.
- Automobile hood lock.
- Locking gas cap.

Approval for optional equipment items may be granted by the Unit Supervisor. Approved items, with the exception of snow tires, are ordered by the Unit Supervisor on a STD Form 5. Snow tires are ordered through the nearest State garage.

If General Services reassigns a vehicle, the Unit Supervisor will retain any optional equipment and assign it to another parole unit vehicle.

Parole Unit Equipment

The following items will be assigned to each parole unit and subunit:

- Two sets of leg irons.
- Two sets of waist chains with attached handcuffs, padlock and keys.

Each parole unit will establish an equipment log to track the usage of parole unit equipment. When using parole unit equipment for an arrest or transport, the Parole Agent will complete and sign a unit equipment log.

85050.2 Parole Agent Attire Policy

Because of many confidential investigatory and supervisory activities of a Parole Agent, no uniform is to be worn by Parole Agents. GC 19850(a) describes a uniform as "...outer garments excluding shoes, which are required to be worn exclusively while carrying out the duties and responsibilities of the position and which are different from the design or fashion of the general population. This definition includes items that serve to identify the person, agency, functions performed, rank, or time in service."

The Department shall furnish all protective equipment required to be worn. Protective equipment is described in GC 19850(d) as "...equipment or attire worn by law enforcement personnel for the purpose of protecting themselves or the public from overt actions of others or to assist in the carrying out of related duties..."

85050.3 Belt Badge Policy

Parole Agents may, while assigned to the Division of Adult Parole Operations (DAPO) wear a belt badge subject to the following requirements:

- Badge and badge holder must be purchased at Parole Agent's expense. When the Parole Agent leaves DAPO, CDCR will purchase the badge and badge holder at current replacement costs. Parole Agents who retire may keep the badge and holder so long as word "Retired" is placed on the badge at employee's expense.
- If the Parole Agent leaves DAPO (other than through retirement), the Unit Supervisor will take the belt badge and departmentally issued badge and note possession on employee's equipment record. The Parole Agent will submit an expense claim via the California Automated Travel Expense Reimbursement System, showing current replacement cost of badge and holder. Before approving the expense claim, the Unit Supervisor will verify current cost of the badge and holder with the vendor.

- The badge must meet the same specifications and have the same number as the one issued by CDCR except that the badge may be molded so it can be worn on a belt.
- A letter of authorization must be prepared and signed by the Unit Supervisor before the badge can be purchased.
- The badge must be inspected by the Unit Supervisor to assure that it meets all requirements. The Unit Supervisor will also note on the employee equipment record that the Parole Agent has purchased a belt badge.
- The badge must be concealed while worn, except when: The Parole Agent is in another law enforcement facility where continuous identification is required; in a field situation when continuous identification as a Parole Agent is required for safety; or when a firearm is unholstered or otherwise displayed.

85050.4 Retention of Equipment Policy

Parole Agents will retain individually assigned safety equipment issued to them until separation from employment within DAPO or as otherwise instructed.

85050.5 Equipment Responsibility Policy

Parole Agents are responsible for all items assigned to them. If a Parole Agent separates from DAPO, the last paycheck will not be issued until all equipment has been returned. Optional equipment issued to a Parole Agent will be retained in the Parole Agent's vehicle and will be the Parole Agent's responsibility as long as the vehicle is assigned to that person. If a Parole Agent is reassigned, optional equipment will be returned to the Unit Supervisor who will assume responsibility for it until reassigned to another vehicle.

The Parole Agent may be required to reimburse the State for the cost of replacement equipment for losses due to negligence or culpability.

85050.6 Use of Private Automobile Policy

A Parole Agent may be allowed to operate a private automobile on official State business and receive reimbursement if authorized by the Unit Supervisor. The Parole Agent must have on file in Headquarters Accounting, a STD Form 261, Authorization to Use Privately Owned Vehicles on State Business, before permission is given.

85050.7 Home Storage of State Vehicle Policy

Upon date of employment and annually thereafter, all Parole Agents issued a Home Storage Permit shall, complete and have on file a Department of General Service STD Form 377, Home Storage Request/Permit.

85050.7.1 Home Storage of State Vehicle Procedures

Parole Agent (Date of Employment and Annually Thereafter)

Completes Department of General Service STD Form 377 and provides to Unit Supervisor.

Unit Supervisor (Upon Receipt)

Sign form and forward to the Regional Administrator.

Regional Administrator (Upon Receipt)

Sends completed form to Department of General Services, Office of Fleet Administration.

85050.8 Identifiable Clothing Policy

Each Parole Agent, Unit Supervisor and Parole Administrator will be issued both a DAPO windbreaker-type jacket and a tactical mesh vest that clearly identifies the wearer as a Parole Agent. Both the windbreaker-type jacket and the tactical mesh vest are to be worn only by the person to whom they are issued while on duty in situations where the Parole Agent's safety is enhanced by being continuously identified as a Parole Agent and peace officer, or as otherwise approved by the DAPO Director.

Approval to wear the jacket and tactical mesh vest will be by prior planning conference between the Unit Supervisor and Parole Agents who will be involved in the intervention (e.g., arrest, search, investigation). If a situation develops and immediate supervisory authorization is not possible, a Parole Agent may exercise independent judgment as to whether wearing the jacket or tactical mesh vest will increase safety. In such instances the circumstances, including wearing the identifying garments will be reported to the Unit Supervisor at the earliest possible time.

The following are circumstances where authorization to wear the jacket or tactical mesh vest may be granted:

- Arrests, searches or investigations where there is other agency involvement, and where the number of personnel involved make continuous identification important from a management or safety standpoint.
- Situations where there is a parole-related hostage incident and a DAPO Parole Agent is dispatched to the scene as a liaison with law enforcement hostage negotiation and management team.
- While engaged in authorized firing range qualifications.

- Other situations where, in the Parole Agent's or Supervisor's judgment, identifiable attire increases the Parole Agent's safety.

Under no circumstances will the jacket or tactical mesh vest be worn in off-duty situations.

Storage

The jacket and tactical mesh vest will be stored in the parole unit, or in the trunk of State or private vehicle authorized for use on State business. If carried in the trunk, the jacket and tactical mesh vest will be stored in such a way as to minimize soiling. Under no circumstances will the jacket and tactical mesh vest be stored in the Parole Agent's home.

Unit Supervisors and Parole Administrators

Unit Supervisors and Parole Administrators will be authorized to wear the jacket or tactical mesh vest only when they are required to go to field situations where continuous identification is necessary from a management or safety standpoint; e.g., responding to a hostage situation, conducting an investigation at the scene of a shooting, or as tactical commander of an arrest situation where other agencies may be involved.

85050.9 Protective Vest Policy

Protective Vests are designated as safety equipment. Protective Vest types include Ballistic Vests, Combination Vests, and Stab Resistant Vests. Parole Agents, Supervisors, and Parole Administrators shall wear Protective Vests in situations when safety and effectiveness will be enhanced by the wearing of the Protective Vest.

The DAPO Director shall determine when a Protective Vest shall be worn by DAPO staff while on duty. In addition, the DAPO Director determines the following:

Wear requirements such as concealed or unconcealed.

Storage requirements.

Accountability and replacement requirements.

DAPO peace officer staff shall ensure the vests, not the inserts, are laundered when required.

85050.10 Property Control Policy

One person in each parole unit shall be assigned responsibility for control and accountability for property.

85050.11 Revisions

The Deputy Director, DAPO shall ensure this section remains current and accurate.

ARTICLE 40 — EVIDENCE STORAGE AND DISPOSAL

Effective August 24, 1989

85060.1 Policy

Each unit or multi-unit complex shall have a secure storage facility to store seized evidence. The unit supervisor is responsible for security, control and inventory of stored evidence. This function shall not be delegated. All evidence shall be maintained in secure storage.

85060.1.1 Procedures

Parole Agent (The Day of Seizure or Next Working Day)

Packages evidence by placing in a clear plastic bag or standard envelope.

Attaches a copy of the inventory receipt to the bag or envelope.

Gives the bag or envelope to the unit supervisor.

Unit Supervisor

Fills out the inventory log.

Places bag or envelope into evidence storage.

Returns evidence to Parole Agent if needed for revocation hearing or criminal prosecution.

Enters date, time and to whom evidence was given on the log.

85060.2 Disposal of Evidence Policy

All evidence in the evidence locker shall be inspected quarterly. Items determined not illegal and not needed for revocation hearing or criminal proceedings shall be returned to the owner or destroyed if no legal no legal owner can be identified. A receipt shall be obtained for all property returned to owner. The disposition of all evidence shall be shown on the bottom of the inventory receipt.

Illegal weapons and drugs shall be taken to local law enforcement for disposal. If local law enforcement will not accept the illegal weapons or drugs, they shall be taken to the nearest DOJ Regional Laboratory for disposal. A receipt shall be obtained for any item turned over to another agency.

Controlled substances turned over to State DOJ for disposal must be accompanied with CSD Form 16, Controlled Substance for Destruction. This form is submitted to the Superior Court of Jurisdiction for issuance of an order authorizing destruction pursuant to H&SC 11474.4.

85060.2.1 Disposal of Evidence Procedures

Unit Supervisor or Assistant Unit Supervisor

Inspects all items in evidence storage quarterly to determine if they must be maintained for a revocation hearing or criminal proceedings.

Returns to the owner all items that are not illegal to possess.

Obtains a receipt from the owner for all items returned.

Destroys or arranges for destruction of items which are illegal or whose valid owner cannot be identified by local law enforcement.

Completes CSD Form 16 on all controlled substance to be destroyed.

Secures a Superior Court order for the destruction of controlled substance.

Takes the Superior Court order and controlled substance to be destroyed to State DOJ Regional Laboratory.

Enters disposition of all items on the bottom of the inventory receipt.

85060.3 Revisions

The Deputy Director, P&CSD shall ensure that this section is current and accurate.

ARTICLE 41 — LAW ENFORCEMENT & INVESTIGATIONS

Revised February 16, 2006

85070.1 Policy

It is the policy of the California Department of Corrections and Rehabilitation (CDCR) to interact with other law enforcement agencies in order to accomplish the desired goal.

85070.2 Purpose

The purpose of this Article is to clarify staff responsibilities and delineate guidelines for handling certain allegations of parolee misconduct.

85070.3 Definitions

Conditions of Parole

The conditions under which an inmate is released to parole supervision, including any added special conditions.

District Administrator

A CDCR Administrator of a Division of Adult Parole Operations (DAPO) unit, district, or geographical area.

Field File

A file maintained by a parole unit office containing pertinent information regarding a parolee's criminal history, current commitment offense, and adjustment to parole.

Parole Agent

A CDCR special agent or peace officer who is assigned to supervise those persons released from incarceration to serve a period of parole.

Polygraph Examination

The procedure by which a polygraph examiner renders an opinion as to the veracity of statements made by an examinee.

Polygraph Examiner

A person with expertise in reading a polygraph machine, which records simultaneously changes in blood pressure, respiration, and pulse rate to determine the truthfulness of statements made by the examinee.

Parolee/Releasee

A felon or civil addict released from confinement in State prison to supervision in the community.

Parole Violation

Conduct by a parolee that violates the conditions of parole or otherwise provides good cause for the modification or revocation of parole.

Regional Parole Administrator

A CDCR administrator of a DAPO Region.

Unit Supervisor

A supervisor of case-carrying Parole Agents in DAPO.

85070.4 Law Enforcement and Investigations Unit

The Law Enforcement and Investigations Unit (LEIU) provide liaison and the exchange of information with other law enforcement agencies, the courts, and District Attorneys throughout California. Special Agents and Peace Officers of the LEIU may also conduct surveillance on parolees.

- LEIU Special Agents and Peace Officers may conduct surveillance at the request of other law enforcement or a DAPO Unit Supervisor.

LEIU Special Agents and Peace Officers shall advise the appropriate Unit Supervisor of any surveillance or investigation of a parolee.

Parole Agents shall immediately notify Special Agents and Peace Officers of any change of status of a parolee undergoing LEIU investigation or surveillance.

The Parole Agent shall not arrest or release a parolee who is under surveillance or investigation except in unusual circumstances. Should an arrest be effected, the Parole Agent shall immediately notify the Unit Supervisor and LEIU Special Agent or Peace Officer. Special Agents and Peace Officers should always be notified prior to arrest or release of a parolee under LEIU investigation.

85070.5 Polygraph Examination

Polygraph examinations of parolees shall be employed when necessary, with the parolee's consent, if approved by a Unit Supervisor. Failure of a parolee to consent to an examination will not in itself constitute grounds for parole violation. Polygraph examinations may be administered by either LEIU or non-departmental examiners. Examinations by non-departmental personnel must be given at no expense to the DAPO. Requests for polygraph examinations by LEIU shall be submitted by the Regional Program Administrator to the Assistant Director, LEIU. For further information concerning polygraph examinations, the reader is directed to the Department Operations Manual (DOM) Chapter 1, Article 20, Polygraph.

85070.6 Revisions

DOM §§ 14030 and 31140.

Penal Code §§ 830.2 and 830.5.

ARTICLE 42 — SUBPOENA

Revised September 4, 1996

85080.1 Policy

It is the policy of the Department to abide by all applicable laws relative to the serving of subpoenas on its employees and staff.

85080.2 Purpose

The purpose of this section is to establish guidelines and outline responsibilities for the handling of subpoenas.

85080.3 Definitions

Affidavit

A written declaration made under oath before a notary public or other authorized officer.

Attorney General

Represents CDC and/or its employees in court when CDC becomes involved in legal proceedings.

Defendant

One against whom an action is brought.

District Administrator

A CDC administrator of a P&CSD unit, district, or geographical area.

Parole Agent

A CDC employee who is assigned to supervise those persons released from incarceration to serve a period of parole.

Parolee/Releasee

A felon or civil addict released from confinement in State prison to supervision in the community.

Parole Violation

Conduct by a parolee who violates the conditions of parole or otherwise provides good cause for the modification or revocation of parole.

Plaintiff

The party that institutes a suit in court.

RPA

A CDC administrator of a P&CSD Region.

Subpoena

A means of legal process compelling a witness to appear and give testimony at the time, date, and place specified.

Subpoena Duces Tecum

A means of legal process compelling the keeper of a record, document, or file to make the record, document, or file available for examination at the time, date, and place specified.

Unit Supervisor

A supervisor of case-carrying Parole Agents in P&CSD.

Writ

A written order issued by a court, commanding the party to whom it is addressed to perform or cease performing some specified act. A party seeking a writ must file a petition for a writ before the court can issue the writ. A petition for a writ is frequently, but inappropriately, referred to as a writ.

85080.4 Responding to Subpoenas

If a subpoena requiring a Parole Agent's personal appearance is received, the nature of the information being sought shall be determined by contact with the appropriate attorney. If the Parole Agent's appearance is not in the best interest of the CDC, the departmental counsel shall be contacted by the unit supervisor for referral to the appropriate deputy attorney general who will attempt to have the Parole Agent's attendance excused.

Unit Supervisor

Writes and submits follow-up letter to the deputy attorney general requesting that Parole Agent's attendance be excused. The letter shall include the following information:

- Title of the action.
- Court name and file number.
- Name of person subpoenaed.
- Date of appearance.

The unit supervisor shall attach a copy of the subpoena to the letter.

Refer to DOM 14010, Legal Matters, for further details.

85080.5 Release of Case Information

If a Parole Agent receives a request for case information from an attorney or other interested party, it must be determined that the person making the request has a legitimate right and compelling reason to have the requested information. Care shall be exercised that confidential information is not divulged under any circumstances.

When it has been established that the person making the request has a need-to-know the specific information requested, only information specified in the request shall be provided. When practical, requests for information shall be written on the requesting party's letterhead stationery. Requests by parolees shall be in writing, signed and dated. It is important to note that disclosure of confidential information to persons outside CDC or its counsel may constitute an involuntary relinquishment of the privilege outlined in the EC.

If there is any question regarding release of information that appears to be of a confidential nature, LAD shall be contacted to provide advice on the release of information of a confidential nature.

See DOM 13030, Information Practices, and DOM 13040, Public Records, for additional information regarding the release of information.

85080.6 Informal Contacts With Defense and Prosecution Attorneys and Other Interested Parties

The release of information, absent a subpoena, to these persons is governed by the IPA, CC 1798 et seq., especially CC 1798.24(e) and 1798.24(o). Information may only be released to certain categories of individuals when it is necessary for these

individuals to perform their constitutional or statutory duties, or when it is necessary for an investigation of unlawful activity. These individuals are:

- Attorneys or their designated representative.
- Other law enforcement or regulatory agency personnel.

Under no circumstances may medical information be released pursuant to an informal request.

The EC requires the trial court to weigh public interest served by nondisclosure of relevant information. If an agent adheres to guidelines contained in the EC, confidential information will ordinarily be disclosed to trial court alone in non-adversary in camera (judge, attorneys, agent) hearing. In order to qualify for the privilege, information must be:

- Acquired in confidence by a public employee.
- Acquired by a public employee in the course of the employee's duties.
- Not open or officially disclosed to public prior to time claim of privilege (in court) is made.

85080.7 Official Information Privilege

Parole agents may receive information that may be crucial in future criminal prosecutions. It is important that the Rules of Evidence concerning handling of confidential information be followed.

The EC requires the trial court to weigh public interest served by nondisclosure of relevant information. If a Parole Agent adheres to guidelines contained in the EC, confidential information will ordinarily be disclosed to the trial court in an in camera, non-adversarial hearing before the judge by the attorneys and the Parole Agent. In order to qualify for the privilege, information must be:

- Acquired in confidence by a public employee.
- Acquired by a public employee in the course of the employee's duties.
- Not open or officially disclosed to public prior to time claim of privilege (in court) is made.

Refer to EC 1040, et seq., for further details.

85080.8 Revisions

The Deputy Director, P&CSD, or designee is responsible for ensuring that the contents of this section are kept current and accurate.

85080.9 References

CC § 1798 et seq.

PC § 1543.

ARTICLE 43 — EMERGENCY PROTECTION

Revised September 28, 1995

85090.1 Policy

Emergency and employee protection plans and procedures shall be developed and maintained.

85090.2 Purpose

The purpose of this section is to establish duties and responsibilities for emergency coordinators, and to ensure comprehensive plans and procedures are developed and maintained to protect State offices.

85090.3 Regional Emergency Preparedness and Employee Protection Plans

Regional Emergency and Employee Protection Plans will encompass:

- Emergency training to employees.
- Emergency call lists.
- General information.
- Medical and first-aid.
- Emergency equipment locations.
- Bomb threat and explosion, fire, earthquake, and facility evacuation plans.

85090.4 Regional Emergency Coordinator's Duties

Assisting the RPA in selection of local Emergency Coordinator and alternate local Emergency Coordinator for each field office or facility.

Assisting local Emergency Coordinator in developing Emergency Employee Protection Plans for approval by the PA.

Ensuring that relocated, new, or substantially modified facilities and field offices submit an Emergency Employee Protection Plan within 60 days of relocation or opening.

Ensuring all regional facility and field offices maintain updated Emergency Employee Protection Plans.

Monitoring each facility and field office periodically to ensure that all employees are receiving appropriate training in emergency preparedness procedures.

Assisting each local Emergency Coordinator in utilization of county and community agencies, publications, and periodicals to maximize emergency preparedness of employees.

Reviewing and updating Regional Emergency Employee Protection Plans each odd year for submittal to the Operations Administrator, P&CSD headquarters, by the Regional Administrator.

Keeping a copy of the Emergency Employee Protection Plan for each facility and field office.

Maintaining a copy of the CHP Model Emergency Plan Guideline for developing emergency plans.

85090.5 Facility or Field Office Emergency Coordinator's Duties

Directs and supervises activities of building occupants during an emergency.

Recommends staff for appointment as emergency floor personnel to deal with emergency situations.

Schedules training.

Acts as liaison agent with local law enforcement, fire, and related support agencies.

Notifies Regional Emergency Coordinator of any change of assignment or employment that precludes carrying out the required responsibilities or the Emergency Coordinator's assignment.

85090.6 Facility or Field Office Alternate Emergency Coordinator's Duties

Serves as principal assistant and acts for the Emergency Coordinator in their absence.

- Officer-of-the-Day (OD) will assume Emergency Coordination responsibilities in the absence of the Emergency Coordinator and the alternate.

85090.7 Emergency Preparedness and Employee Protection Plans for Facilities and Field Offices

Emergency Preparedness and Employee Protection Plans for facilities or field offices with 50 or fewer persons assigned to the facility or field office will consist of the following completed documents:

- CHP Form 57.1, Emergency Plan Poster. This poster may be obtained through the Forms Coordinator, P&CSD headquarters.
- Block diagram showing evacuation routes, fire extinguishers, and first-aid equipment.
- CHP Form 621, Notice to State Employees.

85090.8 Emergency Preparedness Procedures

Facility or Field Office Emergency Coordinator (Each Odd Year)

Sends two sets of the Emergency Preparedness and Employee Protection Plan for facility or unit office to Regional Emergency Coordinator.

Posts Emergency Preparedness and Employee Protection Plan in a conspicuous place in the appropriate unit or facility following inspection and approval by CHP.

Completes emergency call cards and forwards to Regional Emergency Coordinator.

Regional Emergency Coordinator

Reviews Emergency Preparedness and Employee Protection Plan and forwards to RPA.

RPA

Designates Regional Emergency Coordinator.

Reviews Regional Emergency Preparedness and Employee Protection Plan and forwards approved plan to P&CSD headquarters.

Operations Administrator

Reviews updated Emergency Preparedness Plans and forwards to Deputy Director, P&CSD, for approval.

Submits two copies of approved Emergency Preparedness and Employee Protection Plans to Policy Documentation for departmental approval.

Forwards copy of approved plans to CHP, Employee Protection Coordinator.

CHP

Conduct facility and field unit inspections to determine that staff of each facility and field unit are adequately prepared for an emergency situation.

85090.9 Updating Personnel Information Procedures

A confidential memorandum shall be completed and forwarded to the P&CSD headquarters indicating any change in personnel, badge assignment, identification number assignment, Parole Agent home telephone number, and pager telephone number. The information is required for the Identification/Warrants Unit to update and maintain the Confidential File used to identify field personnel who call the unit.

85090.10 Updating Administrative Officer-of-the-Day Roster Procedures

A confidential roster, indicating the regional Administrative Officer-of-the-Day (AOD), specifying the AOD for each week of the next quarter in calendar order, and each AOD's name, home, answering service, and pager telephone number shall be forwarded to P&CSD headquarters at least seven days prior to the start of each quarter. A copy shall be routed to the Identification/Warrants Unit. Each roster shall include the telephone number of the Deputy RPA to be contacted in the event the AOD cannot be contacted and there is an event requiring an immediate response.

85090.11 Revisions

The Deputy Director, P&CSD, or designee is responsible for ensuring that the contents of this section are kept current and accurate.

85090.12 References

DOM § 85040.

Emergency Employee Protection Plan.

CHP Model Emergency Plan Guideline.

ARTICLE 44 — FAMILY OF MANUALS AND DIRECTIVES

Effective August 28, 1989

85091.1 Policy

A complete and current set of CDC and related agency manuals shall be maintained by the senior clerical staff in each unit office. DOM and related directives consist of the following:

- DOM.
- P&CSD Operations Manual.
- Case Records Manual.
- Classification Manual.
- Business Administrative Manual.
- CCR.
- Administrative Bulletins.
- Interim Instructional Memorandums.
- BPT Rules.
- NAEA Regulations.
- Prisoner Transportation Manual.
- P&CSD Operations Procedures.
- Department Master Subject Index.

85091.2 Parole Operations Revision Policy

A P&CSD policy or procedure may be added, deleted or modified by a revision of this manual. The Deputy Director, P&CSD, will review departmental directives and publications (and those of other agencies), court decisions, and legislative bills for impact upon parole procedures and policies. If a P&CSD policy or procedure is affected, the Deputy Director, P&CSD will circulate a draft manual change for field input.

A field initiated suggestion for a revision to the DOM may be submitted in writing and routed through channels to the Deputy Director, P&CSD. The Deputy Director may approve and recommend the field-initiated suggestion as a manual change.

Revisions will be issued in the form of new manual pages that will be substituted for the outdated pages. A transmittal letter will accompany each manual revision, indicating which manual is being revised, summarizing the revision and stating the reasons for the revision. Each person receiving the revision shall include the revision in the manual and update the revision record.

85091.3 Manual Distribution Procedures**Regional Training Coordinator**

Submits request to the Deputy Director, P&CSD, Attention: Manual Coordinator.

P&CSD Manual Coordinator

Assures that manuals are forwarded to senior clerical staff in each unit office.

Assures that the appropriate distribution list is revised.

Regional Training Coordinator (As Changes Occur)

Revises the DOM/Document distribution list for region and forwards to P&CSD Manual Coordinator.

85091.4 Distribution Procedures for Other Policy Documents**P&CSD Headquarters Staff (Annually)**

Distributes revised Penal Codes to regions and units.

(As Changes Occur)

Forwards manual revisions, CCR, BPT Regulations and NAEA Administrative Directives to regions.

Regional Training Coordinator (Within 5 Days of Receipt)

Distributes manual revisions, CCR, BPT Regulations, NAEA Regulations, NAEA Administrative Directives within regions.

Maintains an accurate log or card file system on the distribution of regulations, manuals and revisions.

Coordinates with the LAD-RMU regarding shipment, quantity or distribution of the CCR and revisions.

Designated Staff

Completes and signs "Declaration of Posting Service" and submits in a timely manner to LAD-RMU through P&CSD Headquarters.

Regulation and Policy Management Staff

Assures that sufficient copies of revisions are forwarded to the Regional Training Coordinators for distribution to all employees and facilities in the region.

Assures that CCR Revision Bulletins are forwarded for immediate posting in all field parole offices and community correctional centers.

85091.5 Manual Maintenance and Auditing Procedures**P&CSD Manual Coordinator (Each July)**

Compiles manual distribution list and submits to LAD-PMU.

Regional Training Coordinator or Designated Staff Person (Each June)

Updates manual distribution list as changes occur at least annually.

Audits manual distribution using the regional master distribution list. Ensures proper distribution and manual maintenance, including dissemination and insertion of all revisions.

Assures that the following manuals are available for public review at Regional Headquarters and unit offices.

- CCR.
- BPT Regulations.
- NAEA Regulations and NAEA Administrative Directives.
- Administrative Bulletins.
- Penal Codes.
- Parole Operations Manual.
- DOM.
- Business Administrative Manual.
- Case Records Manual.
- Classifications Manual.

Unit Supervisor

Assures that manuals assigned to each agent are properly maintained and that the following manuals are maintained by unit clerical supervisor:

- DOM.
- Business Administrative Manual.
- Classification Manual.
- Parole Operations Manual.

Unit Clerical Supervisor

Establishes local distribution list containing the number of manuals assigned, the date issued and the incumbent in position.

Updates distribution list to reflect revisions received for each manual and date distributed.

Unit Clerical Supervisor (Within Two Working Days of Receipt)

Distributes all revisions and any new or revised manuals.

Parole Agent

Maintains a current DOM.

85091.6 Progress Review Policy

Regional Administrators will monitor their operations and organizational structure to determine the efficiency with which they meet the objectives of their parole region and CDC. This monitoring process will include an annual review by administrators and functional managers to assure that the present structure and procedures are efficient means of accomplishing CDC goals. Executive staff will review this progress each June, using the results of the annual regional reviews to evaluate progress.

85091.7 Communication of Policies and Procedures

All personnel should participate in staff meetings to facilitate a better understanding of policies, procedures and progress for effective performance of their respective duties.

- Regional staff shall meet with administrators and supervisors at least monthly.
- Field administrators and supervisors shall meet at least weekly.
- Unit supervisors, Parole Agents and other personnel in each unit shall meet at least monthly.
- Summary minutes of staff meetings shall be taken and distributed to appropriate staff members.
 - Unit meeting minutes shall be forwarded to the Regional Administrator.
 - Regional meeting minutes shall be forwarded to P&CSD Headquarters.

85091.8 Revisions

The Deputy Director, P&CSD shall ensure that this section is current and accurate.

85091.9 References

Not applicable.

ARTICLE 45 — ADMINISTRATIVE OFFICER-OF-THE-DAY

Revised May 4, 2015

85092.1 Policy

The Regional Parole Administrator (RPA) shall be responsible for the implementation of the Administrative Officer-of-the-Day (AOD) procedures. An AOD shall be assigned at each parole region during non-business hours. The AOD shall maintain the authority and responsibility for making administrative decisions and disseminating information regarding serious incidents in the absence of the RPA.

85092.2 Purpose

To standardize the AOD's functions, authority, duties, and responsibilities.

85092.3 Responsibility

The AOD shall be a field administrative staff member, possessing supervisory experience and authority to make decisions in the absence of the RPA. The AOD shall be responsible for ensuring administrative requirements are met and appropriate notifications are made relative to operational issues during other-than-normal duty hours.

Those staff designated as AOD shall not hold a classification level less than Parole Agent II, Supervisor.

The below listed classifications will be assigned the functions of the Regional AOD:

Parole Agent II, Supervisor.

Parole Agent III.

85092.4 Administrative-Officer-of-the-Day Duty Schedule

RPAs are normally exempt from AOD duty; however, they may serve as AOD if needed. RPAs shall publish the AOD duty schedule in advance, every three months. The AOD schedule shall specify the name and period of time that each AOD shall be assigned the duties.

The Chief Deputy Regional Parole Administrator shall not normally be required to be assigned to the AOD rotation schedule, but may be added at the discretion of the RPA.

Parole Administrator Is shall not normally be required to be assigned to the AOD rotation schedule, but may be added at the discretion of the RPA.

Staff assigned to division or regional headquarters shall not normally be required to be assigned to the AOD rotation schedule, but may be added at the discretion of the director, RPA, or designee.

Any anticipated change in the AOD duty schedule shall be approved in advance by the RPA or their designee.

AOD personnel are permitted to request a "trade" in assignment coverage. The "trade" arrangement between AODs shall be submitted by memorandum to the RPA for approval not less than 24 hours prior to assigned period of duty.

The AOD period of duty shall commence at 5:00 PM Friday and shall conclude at 5:00 PM the following Friday. The AOD shall call the Warrant Unit prior to the beginning of their first AOD shift and provide the Warrant Unit with their name and contact numbers.

Each designated AOD shall familiarize themselves with the duties and responsibilities unique and particular to their own regional instruction packet.

85092.5 Training

RPAs shall assure all new AODs are provided with the proper training and job orientation.

The AOD should be knowledgeable of the following procedures relative to their duties as the AOD:

- Staff death or serious injury.
- Parolee death.
- Field incident reports.
- Use of deadly force.
- Employee relations/grievances/discipline.
- Natural/man-made disaster plans.
- Mutual aid requests.
- Incidents involving high notoriety/public interest.
- Incidents involving negative contact with the public.
- Media contact or presence.
- Information Practices Act.
- Any other procedures unique to their region.

85092.6 Instructional Packet

Twice annually, RPAs shall communicate expectations and duty requirements to all staff designated as AODs.

An AOD instructional packet shall be developed for each parole region. The packet shall include specific examples of:

- Situations and how they are handled.
- Departmental/institution/parole region changes.
- Current parolee functions.
- Activities involving outside agencies.

The packet shall provide a list of telephone numbers of the following:

- Administrative staff.
- Appropriate outside agencies.
- Medical facilities.
- Police/Sheriff departments.
- Institutional AODs.
- Departmental AODs.
- Parole Agents.
- Unit Supervisors.
- Assistant Unit Supervisors.
- District Administrators.
- Judge/District Attorney for after-hours warrant requests.

85092.7 AOD Duties/Responsibility

The AOD shall become familiar with any special circumstances or existing situations occurring in the parole region prior to assuming the AOD duties.

In all circumstances or incidents of a serious nature where the AOD is contacted regarding a region incident, he/she shall communicate the incident, action taken, and current status of the situation to the RPA, or their designee, on the first working day following the incident. A written report shall be prepared and submitted within twenty-four hours of the incident regarding AOD contact.

On the first working day following the incident, the Unit Supervisor (US) of the responsible parole unit shall gather all of the CDCR Form 1662, Field Incident Reports, or notices of unusual occurrences that are completed by parole staff. As required by local procedures, a written report shall be prepared for the RPA. The AOD shall maintain a daily call log detailing all phones calls received.

85092.8 Administrative Officer-of-the-Day Unit Supervisor Relationship

The parole region AOD shall be contacted when any unusual incident/situation occurs and when the US is not available. From the information provided, the parole region AOD shall determine the necessary staff/resources, outside agencies, and other resources required to establish and maintain control of the situation.

85092.9 Administrative Officer-of-the-Day Contact Responsibilities

The US shall contact the AOD on questions of policy, and all matters of unusual occurrences. Accurate information, details, and recommendations shall be provided by the US to enable the AOD to make sound decisions and complete necessary reports.

The AOD shall be contacted in all incidents involving, but not limited to:

- Staff death or serious injury.
- Staff arrests.
- Parolee death.
- Use of deadly force or any use of force that could have caused death or great bodily injury.
- Any strike to the head of a person with a baton and/or impact munitions.
- Threats against public officials.
- Natural/man-made disasters.
- Mutual aid requests.
- Incidents involving high notoriety public interest.
- Incidents involving the public.
- Media contact or presence.
- Other items outlined in the instructional packet.

When the US is unable to contact the AOD, notification of an incident shall be communicated to the RPA or their designee. It is the responsibility of each AOD to keep the Warrant Unit informed of their whereabouts during their tour of duty.

85092.10 Written Reports

Incidents/events occurring during non-business hours and deemed serious in nature, which are of public or departmental interest, shall be reported to the AOD. The AOD shall prepare a written report concerning the contact to the RPA, prior to the start of the next business day.

85092.11 CDCR Form 1662, Field Incident Report: Preliminary Incident Notification

The CDCR Form 1662, Field Incident Report: Preliminary Incident Notification, is the parole region's initial report to the Division of Adult Parole Operations that an incident of departmental interest has occurred. This form shall be used by the AOD to provide written documentation of all reportable incidents. It is essential that all information available at the time of the incident be entered into this report and shall be completed in accordance with the DOM Sections 81030, 81040, and 81050.

85092.12 Revisions

The Director, Division of Adult Parole Operations, or their designee shall be responsible for ensuring the contents of this article are current and accurate.

ARTICLE 46 — WEAPONS POLICY

Effective September 28, 1989

86010.1 Policy

Revised March 11, 1993

The greatest caution and conservative judgment shall be exercised when carrying and using firearms. If and when it becomes necessary to resort to the use of firearms, two concerns shall assume primary

importance: the preservation of public safety and the safety of staff involved. For purposes of this Article, the term "Parole Agent" shall include any P&CSD staff person in the Parole Agent series who is authorized to carry a firearm. Also for the purposes of this Article, the term "other person" includes those individuals who may be involved in or connected with a parole-related incident.

Public Safety

The need for the preservation of public safety compels staff to use extreme caution in the use of firearms. When firearms are used, the peril of injury or death to bystanders is always present. If clear and present danger to another person or to the Parole Agent does not exist, other means, including later apprehension, shall become the alternative. Circumstances may arise when it becomes necessary for a Parole Agent to use a firearm in a populated area. A circumstance may exist where, if positive action is not taken a parolee or other person may inflict great bodily harm upon a hostage, a bystander or the Parole Agent. In those instances, it is the Parole Agent's duty to take those measures necessary to prevent death or injury to a member of the public or to the agent.

Staff Safety

If there is a reasonable belief that clear and present danger to the life of the Parole Agent or another person exists, and if the Parole Agent feels that immediate action must be taken to dissipate that danger, it is the Parole Agent's responsibility to take that action. A Parole Agent is expected to use good judgment in evaluating the existing situation and then to act in accordance with that evaluation. A decision made and action taken in response to field conditions are the responsibility of the Parole Agent involved. It is not expected that the Parole Agent will hesitate when hesitation would result in death or serious injury to the Parole Agent or to some other person.

The fact that the Parole Agent is or is not armed will not be the primary determinant of whether or not the agent responds to a given situation or whether the agent should remain at the scene of a potentially dangerous situation. These decisions, along with when and under what conditions an agent should become involved in cooperative efforts with another law enforcement agency, shall be based on safety and tactical judgments exclusive of the firearm. A Parole Agent is not expected to engage in activities that are unreasonably hazardous simply because the agent is armed with a firearm.

86010.2 Policy

Revised September 25, 2007

Authorization

A Parole Agent appointed after January 1, 1988, whose work assignment is within the P&CSD (PA-I -- through Deputy Director) will, after completion of the P&CSD's firearm training program, be issued and carry a firearm while on duty. A Parole Agent appointed prior to January 1, 1988, may exercise the option to be issued a firearm and carry it while on duty after completion of the P&CSD's firearm training program.

A Parole Agent will carry and use only that weapon that is issued to him or an approved, personally owned 9mm weapon as defined in this Article. If a Parole Agent voluntarily chooses to carry an approved personally owned 9mm weapon while on duty the agent will be required to relinquish the state issued firearm. Any time the firearm is carried on the person, the approved chemical agent dispenser will also be carried.

Only in an immediate life-threatening emergency situation may a Parole Agent be permitted to use another agent's or other law enforcement officer's firearm. A Parole Agent working outside the P&CSD will not have the option of being armed. The armed Parole Agent is not authorized to carry the firearm issued by P&CSD while off duty except as specifically authorized.

Defensive Weapon

Firearms will be regarded as defensive weapons and will be discharged only when the Parole Agent is compelled to do so by existing circumstances. The armed Parole Agent will not discharge a firearm in the course of employment except as permitted in this Article. The improper use of firearms will result in adverse action and may result in civil or criminal sanctions being taken.

Unholstering of the Firearm

The firearm will not be removed from the holster or otherwise displayed unless there are sufficient and compelling reasons for doing so. In making that determination, it is not necessary for the agent to wait until the agent or another person is actually being assaulted or otherwise under attack before the firearm may be drawn. Rather, if the agent determines or otherwise believes that there is or will be a clear and present danger to the agent or another person, the firearm may be drawn in preparation for that danger. If, however, that clear and present danger fails to materialize or is otherwise controlled, the firearm will be immediately reholstered. To determine if a clear and present danger exists, the agent will consider and give relative weight to the following factors:

- The display by an individual of a weapon or any item that can be used as a weapon in a threatening manner.
- Information from a reliable source (e.g., spouse, registered domestic partner, law enforcement, employer, landlord), that an individual is or may be armed, making threats, acting abnormally or dangerously, or has already injured or killed another person.
- Auditory or visual indications at the scene of potential danger; e.g., sound of gunshot(s), screaming, cries, sounds of or signs of an altercation in progress.
- Situations where, in a Parole Agent's judgment, there is observed or known behavior which places the safety of the Parole Agent or another person in danger, and the drawing of the firearm will render the situation less dangerous.

Constraints on Unholstering of a Firearm

In addition to clear and present danger, before unholstering or otherwise displaying a firearm, the agent will consider:

- Are there more reasonable alternatives available?
- Can the firearm be tactically utilized (e.g., crowds, small children, hostage)?
- Will the firearm escalate rather than control the situation?

Discharge of the Firearm

It is the policy of the P&CSD for a Parole Agent to discharge a firearm only when other reasonable alternatives have been exhausted and then only with legal authority and under the following conditions:

- When the Parole Agent has a reasonable belief that the use of deadly force is necessary for self-defense or to defend another person from immediate and serious bodily harm.
- To determine when discharge of a firearm is clearly necessary, the following three elements must all be present:
 - Opportunity; e.g., does the other party have the opportunity to do the agent or others harm?
 - Ability; e.g., does the other party have the ability and means to do the agent or others harm?
 - Jeopardy; e.g., does the other party's opportunity and ability actually place the safety of the agent or others in danger? Jeopardy requires that the other party has the clear intent to do the agent or others harm.
- Warning shots are not authorized.
- The firearm will not be fired at or from a moving vehicle unless the Parole Agent's life or that of another person is in immediate danger.

86010.2.1 Firearms Training Policy

Firearms Issuance Policy

While all Parole Agents appointed after January 1, 1988 are required to have a firearm issued to them, they will retain the right to determine when and under what job related conditions they may choose to actually carry the weapon. As such, there is no requirement for them to be continuously armed while on duty. However, unit supervisors have the authority to compel agents who are mandatorily armed to carry the firearm if, in the supervisor's judgment, the activity being planned is deemed as especially hazardous. There is, however, no such authority with agents who are discretionally armed (appointed before January 1, 1988).

Firearms Course and Range Qualification

Compliance with the following training schedule is required before a firearm will be issued to any employee at any level in the Parole Agent series:

- Successful completion of the training mandated by PC 832 will be required of all Parole Agents.
- Successful completion of the P&CSD's classroom training course on firearms will be required of all Parole Agents.
- Prior to the issuance of a firearm, the employee will achieve a qualifying shooting score as determined by the P&CSD on an approved range. Additional qualification shooting scores will be attained quarterly thereafter.

Personnel will fulfill firearms qualification during regular working hours when possible. Qualification outside of regular working hours will be approved by a Parole Agent's immediate supervisor.

If recommended by a P&CSD rangemaster, an agent will be authorized additional hours for practice to improve proficiency in the use of a firearm. The agent's supervisor will make the arrangements for additional firearms practice with a P&CSD qualified rangemaster as soon as possible. Such practice will be on an approved range and under the supervision of a qualified rangemaster.

Firearms Disqualification

Any Parole Agent who fails to achieve a qualifying score will surrender the firearm to the rangemaster or other person designated by the Regional Administrator. The weapon will be reissued to the Parole Agent when a qualifying shooting score is achieved or, in the case of agents appointed on or after January 1, 1988, the steps described in this section will be taken.

Parole Agent Absence for 90 Days or Longer

The unit supervisor will recall the firearm of any employee who will be absent (illness, educational leave, etc.) for 90 days or longer and will deliver it to the person designated by the Regional Administrator for safekeeping until the employee returns to duty.

Parole Agents Appointed Prior to 1-1-88

Any P&CSD staff person in the Parole Agent series appointed prior to January 1, 1988, who requests reissue of a firearm after being absent for a period of six months or longer, must complete the standard P&CSD divisional range familiarization course. Agents appointed on or after January 1, 1988, who return from a leave of absence of any length, will be reissued a firearm after completing the divisional range familiarization course. In addition, the agent will requalify on the approved range before any firearm will be reissued. The returned employee must also receive and review all firearms training material that was provided to other staff personnel during the employee's absence.

Any agent who missed the regularly scheduled firearm training for legitimate reasons, such as an emergency situation, sick leave, revocation hearing, etc., will be required to participate in a make-up session. The make-up sessions will be made available by the regional training staff in the P&CSD. Any agent missing the training in the agent's own region will be rescheduled for the next available make-up session wherever conducted in the P&CSD.

Compliance Review

At least semi-annually the supervisor will review with the Parole Agent compliance with the prerequisites for continued authorization to be armed. This review will focus on the following areas:

- Requalification as required by policy, both score and time frames.
- Attendance at annual classroom and range training and achievement of a passing score on any required exams.
- Demonstrated ability to safely handle the firearm.
- Any incident where the individual agent may have unholstered or fired a firearm (for compliance with policy).

Revocation of Firearms Authorization

If any of these requirements are not being met, the supervisor may, for cause, remove the authorization for the agent to be issued a firearm. If the weapon being removed involves an agent who is mandatorily armed and the problem is not resolved within 30 days, the sanctions specified in this section will be imposed. In making the determination regarding criteria in this section, the supervisor will consider information provided from the written training records by the rangemaster and regional training coordinator. The firearm will be reissued if requested in writing when the requirements specified above are met.

Under no circumstances will a P&CSD rangemaster permit an employee to fire or qualify with, nor certify an employee as qualified with other than the departmentally issued firearm while on state time, with the exception of a personally owned 9mm weapon subject to policy.

Parole Agents Appointed on or After 1-1-88

In addition to adhering to the policy as outlined above, agents appointed on or after January 1, 1988, are subject to the following policy conditions:

- While at the Parole Agent's academy, each new agent will qualify on the P.O.S.T. certified course. Should an agent fail to qualify on the scheduled firearms qualification day, they will be scheduled for a "Shooter's Clinic" later in the academy.
- Failure to meet the 832 PC P.O.S.T. qualification standard by the end of the 90th day from the date of appointment will result in the employee's termination from the Parole Agent position.
- Once an agent has qualified at the academy or subsequently in the region, the agent will be required to qualify quarterly during the normal quarterly qualification period (i.e., first quarter - January, February, March; second quarter - April, May, June; etc.).

- The Parole Agent has the entire quarter in which to qualify. Therefore, the firearm will be removed from the agent during the requisite quarter only if the agent demonstrates unsafe handling of the firearm or if personal circumstances require removal of the weapon. A weapon will not be removed for failure to achieve a qualifying score until the end of the quarter.
- If the firearm is removed at the end of the quarter for failure to achieve the requisite standard (70%), the agent will remain on paid work status for up to 30 days. During this 30-day period, the region will provide the agent with reasonable opportunities to raise his or her competence level and to qualify on the standard P&CSD range.
- If, following 30 days after the end of the quarter, the agent has still failed to qualify, the agent will be placed on unpaid leave for up to 60 days. During this 60 day period the burden to raise his or her skill level is with the agent. The region is not required to expend resources during this period to raise the employee's competency. However, the agent may contact the region when the agent believes he or she is ready and able to achieve a qualifying score. The region will then schedule a qualification range for the individual at the earliest possible time (based on range and rangemaster availability).
- If the agent still has failed to achieve a qualifying score 90 days after the end of the quarter, the agent will be separated from state service pursuant to GC 19585 or other applicable GC section(s). However, the employee shall receive at least five days written notice of separation from state service if personally served, and at least ten days written notice if served by mail.

86010.3 Approved Firearm Ammunition and Holster Policy

The following firearms, ammunition, and holster are for use within the P&CSD:

Model 64

The firearm of general issue for a Parole Agent whose work assignment is within the P&CSD is the Smith and Wesson, .38 caliber, military and police special, 2" barrel, Model 64, stainless steel revolver. This weapon will be issued to a Parole Agent who exercises the option to be armed and to those required to be armed.

Ammunition

The ammunition approved for the Model 64 is .38 caliber special "HP" plus "P", 125-grain, lead-jacketed, hollow point.

Ammunition Carrier

The approved ammunition carrier for .38 caliber revolver ammunition is the loop snap-on or "dump pouch," or "Speed Loader®".

Holsters

The approved holsters are of the outside belt or shoulder type. All holsters must have thumb break safety straps.

Shoulder holsters may be approved for use only after the agent has successfully completed the required training program focusing on the safe unholstering and retention of a firearm from a shoulder holster and has achieved a qualifying range score using the actual holster carried while on duty.

Agents may alternate between the hip-type and shoulder holster while on duty. If agents exercise this option to alternate between the types of holsters they are required to inform the supervisor and rangemaster and are required to qualify out of each type of holster twice during the year.

Optional Equipment

A Parole Agent may purchase certain optional equipment at the agent's own expense which may be carried on-duty. Any optional equipment purchased must be approved by the unit supervisor. Included as authorized optional equipment are grips and grip adapters, speed loaders, speed loader carrying cases, any holster of the paddle, pancake, or clip-on style, and shoulder holsters. All holsters must be equipped with safety straps and must be of a type worn on the hip or shoulder.

Firearms Maintenance Policy

All repairs and servicing of departmental weapons will be performed by or under the direction of a rangemaster. The only exception will be the normal cleaning of weapons. Any Parole Agent with a firearm which has been dropped, or who has a question regarding the safety condition, timing or proper functioning of the firearm will have the

weapon checked by a rangemaster or other person designated by the Regional Administrator.

Cleaning the Firearm

All cleaning necessary to maintain the firearm in good working order will be the responsibility of the assigned Parole Agent. A firearm will be checked at least semi-annually by a rangemaster to assure that it has been properly cleaned, maintained, and is in good working order.

Carrying the Firearm Policy

When the firearm is carried, it will be concealed at all times. The firearm will be fully loaded when it is carried. When not being carried, the firearm and ammunition will be stored in a designated safe and locked place that is not accessible to unauthorized persons.

The Parole Agent will always have in possession the personally assigned badge and identification card and the assigned tear gas canister when the firearm is carried.

The Parole Agent will carry only the firearm and ammunition that have been issued or approved by CDC. The firearm will be registered to the person to whom it is issued and will be marked with both the CDC's and the firearm serial numbers. Hideout, or carrying a second, concealed firearm, is prohibited.

The firearm and ammunition issued by the CDC will not be altered in any manner, except through the use of personalized grips or grip adapters.

All safety devices on the firearms provided by the manufacturer will be intact and functioning at all times.

If an armed agent does not wish to carry the firearm into a certain residence or public building, the firearm may be stored for short periods of time in a locked automobile luggage compartment. Care will be exercised that the agent is not observed by passers by or others when placing the firearm in the luggage compartment.

Under no circumstances may a firearm, ammunition, chemical weapon or other item of equipment that may threaten the security of a correctional facility be left in any unattended vehicle, including the vehicle trunk, while parked on the institution grounds. At such facilities, the weapons and attending equipment will be checked into the specific area designated by facility staff for safekeeping and temporary storage.

For community correctional facilities, the following will apply:

- If the facility has a clearly defined security perimeter, the firearm and chemical agent will be stored in a designated secure location outside the security area. No firearm will be permitted inside the security area without the authorization of the CDC staff person in charge.
- If the facility does not have a clearly defined security perimeter (work furlough, mother-infant facility) the firearm and chemical agent may be carried into the facility as long as both are properly concealed.
- If an agent does not wish to carry a firearm or chemical agent into a community correctional facility, both may be temporarily stored in the locked trunk of the state vehicle as long as the parking area cannot be seen from the facility.

Access to Firearm

If a firearm is issued to an agent, it will be accessible to the agent at all times.

In the office the firearm will be carried either on the person in a concealed manner or locked in the locker provided.

In the field the firearm will be carried either on the person in a concealed manner or in the locked trunk of the vehicle.

At home the firearm will be stored in a safe and secure location.

Firearms assigned to individual agents will not be stored overnight in a unit office without the prior approval of the unit supervisor. This requirement will be waived for agents who are temporarily assigned to a special project or training that is outside their normal area of assignment or to any other temporary assignment that does not include direct parolee or inmate contact.

If it becomes necessary to carry a firearm on an airplane, the Parole Agent will, in advance, obtain a letter from the supervisor on P&CSD letterhead stating the reason for the weapon being carried on the airplane. The letter must be presented to an airline agent at least one hour prior to the flight's scheduled departure. The captain of the airplane (pilot) will make the final determination whether the weapon is carried in a locked container in the baggage compartment (with the weapon and ammunition stored separately), on the flight deck under the control of the captain, or on the agent's person in the passenger compartment. A weapon may not be stored in carry-on luggage. No alcoholic beverages may be consumed by an armed person aboard a commercial airliner. The agent is required by Federal Aviation Administration (FAA) regulations to comply with the procedure.

Withdrawal of Authorization to be Armed

In addition to the supervisor's review, the supervisor may, for cause, remove the agent's authorization to be armed at any time. The following policy violations will require the supervisor to withdraw authorization to be armed and to immediately take the agent's firearm:

- Failure to requalify in the required time frame or failure to achieve a minimum qualifying score.
- Demonstrated inability to safely handle the firearm either on the range or in a field situation.
- Serious violation of the divisional firearm policy; e.g., improper drawing of the firearm, improper discharge of the firearm; and, the carrying of P&CSD firearm while off duty.
- Failure to attend required classroom training or range course.
- Minor violations of the P&CSD firearm policy; e.g., failure to properly conceal firearm, use of nonapproved holster; and, failure to respond to corrective action.
- Administrative reassignment of an agent as a result of a certified stress related condition.

Written Notice

The reasons for withdrawing authorization to be armed will be provided in writing to the agent by the supervisor. The agent may appeal such action through the regular grievance process.

If a Parole Agent who, as a condition of employment must be issued a firearm, does not qualify within 30 calendar days following the end of the calendar quarter in which the agent had failed, or if the firearm is removed for other reasons and the problem is not resolved, the Parole Agent shall be placed on leave without pay for a maximum of two months (until the agent is qualified or the problem resolved). Failure to meet the required standards during this period of time will result in the Parole Agent being separated from state service pursuant to GC 19585 or other applicable GC Sections. The Parole Agent shall receive at least five days written notice of separation from state service if personally served, and at least ten days written notice if served by mail.

86010.4 Optional 9mm Semi-Automatic Pistol Program

Participation in the 9mm semi-automatic pistol program is voluntary. Prior to participation, the Parole Agent must sign the participation agreement.

Once the agent has completed the required training and been approved to carry and use a personally owned 9mm weapon while on duty, the agent may at any time exercise the option to discontinue participation in this program. However, once the agent drops out of the 9mm program, the agent will not have the option to again become involved in this program during the remainder of the three-year period.

The following firearms, ammunition and holster are approved for use with the 9mm weapon.

The firearm approved for the optional 9mm program within the P&CSD is any second or third generation Smith and Wesson 9mm, auto loading, double action, Lugar (parabellum). These pistol(s) are purchased and owned by the individual agent and remain the personal property of the agent/owner.

The serial numbers and model numbers of each Smith and Wesson 9mm weapon intended for use in this program will be recorded and verified by the supervisor, rangemaster, or Regional Administrator's designee. The serial numbers and model numbers will also be recorded on the participation agreement.

Ammunition

The service ammunition approved for the Smith and Wesson 9mm caliber, 147 grain, jacketed hollow point. Requalification ammunition may be service or 110-115 grain ball or hollow point.

All ammunition is to be purchased by participants in this program at no cost to the state.

Ammunition is not to be modified in any way and must be factory fresh. No reloaded or remanufactured ammunition may be used or carried.

Ammunition Magazines

Each participant in the 9mm program is required to have at least two magazines for their 9mm weapon.

Holsters

The approved holsters are of the outside belt or shoulder type. All holsters must have thumb break safety straps.

Shoulder holsters may be approved for use only after the agent has successfully completed the required training program focusing on the safe unholstering and retention of a firearm from a shoulder holster and has achieved a qualifying range score using the actual holster carried while on duty.

Agents may alternate between the hip-type and shoulder holster while on duty. If agents exercise this option to alternate between the two types of holsters, they are required to inform the supervisor and rangemaster and are required to qualify out of each type of holster twice during the year.

The holsters used in the 9mm program are to be purchased by the participants and approved by the supervisor or rangemaster.

Optional Equipment

A Parole Agent involved in the 9mm program may purchase certain optional equipment at the agent's expense that may be carried on duty. Any optional equipment purchased must be approved by a rangemaster. Included as optional equipment are grips and grip adapters, extra magazines, carrying cases, magazine pouches and the "Davis Adapter" factory option which allows for two additional rounds in magazines on models 669, 6904, and 6906, for an improved overall grip.

Maintenance

It is the responsibility of the participant in the 9mm program to maintain the weapon according to factory specifications. The weapon is not to be modified or altered in any manner except for specialized grips or grip adapters, changes necessary for left-handed shooters or modification of fixed sight for low lighting condition visibility.

The P&CSD will be permitted to inspect a participant's 9mm weapon prior to the weapon being repaired, modified or serviced. Further, the P&CSD will be permitted to reinspect the weapon after repairs, modifications or service has been completed.

P&CSD will be permitted to inspect the participant's 9mm weapon on the range prior to each qualification or more frequently if the rangemaster or supervisor deems it necessary. This may include temporary relinquishment of the weapon to P&CSD for further inspection at P&CSD's option.

P&CSD retains the right to remove authorization to participate in the voluntary 9mm program for failure to maintain the weapon per factory standards or other violations of this policy.

Cleaning the Firearm

All cleaning necessary to maintain the 9mm firearm in good working order will be the responsibility of the participant/owner of the firearm. The firearm will be checked quarterly by a rangemaster to assure that it has been properly cleaned, maintained, and is in good working order.

9mm Semi-Automatic Pistol Course and Range Qualification

Compliance with the following training will be required before the use and carrying of a personally owned 9mm weapon will be approved for any employee in the Parole Agent series:

- Successful completion of the training mandated by PC 832 is required of all Parole Agents.
- Successful completion of the P&CSD's classroom training course on firearms is required of all Parole Agents.

In addition, all Parole Agents exercising their option to carry and use a 9mm weapon shall attend the prescribed initial 9mm training program on their own time. Quarterly requalification shall be on state time but shall not cause the state to incur overtime costs.

All subsequent attempts by the agent to qualify with the 9mm weapon, or other training ordered by the rangemaster shall be on the agent's own time.

Each agent exercising their option to carry and use a 9mm weapon will be required to purchase all ammunition deemed necessary to qualify with the weapon, as well as ammunition for service use.

Prior to the granting of approval for any employee to use and carry a personally owned 9mm weapon, the employee will achieve a qualifying shooting score as determined by the P&CSD on an approved range. Additional qualification shooting scores will be attained quarterly thereafter.

Any Parole Agent who fails to achieve a qualifying score during routine quarterly requalification will lose their approval or authorization to be armed. Approval or authorization to be armed will be restored when a qualifying score is achieved.

The unit supervisor will remove the approval/authorization to be armed from any employee who will be absent (illness, educational leave, etc.) for 90 days or longer.

Reissue of Approval or Authorization to be Armed

Any P&CSD staff person in the Parole Agent series who request a reissue of approval or authorization to be armed after being absent for a period of six months or longer must complete the standard P&CSD firearms range familiarization course. Additionally, if involved in the 9mm program, the person must complete the prescribed firearms training course on their own time. The employee must also requalify on the approved range before approval or authorization will be renewed. The returned employee must also receive and review all firearms training material that was provided to other staff during the agent's absence.

Any agent who missed their regularly scheduled firearm training for legitimate reasons, such as emergency situation, sick leave, revocation hearing, etc., will be required to participate in a make-up session. The make-up sessions will be made available by the regional training staff in the P&CSD. Any agent missing the training in their own region will be rescheduled for the next available make-up session wherever conducted in the P&CSD.

At least semi-annually the supervisor will review with the Parole Agent for compliance with the prerequisites for continued authorization to be armed. This review will focus on the following areas:

- Requalification as required by policy, both score and time frames.
- Attendance at annual classroom and range training and achievement of a passing score on any required exams.
- Demonstrated ability to safely handle the firearm.
- Any incident where the individual agent may have unholstered or fired the firearm (for compliance with policy).

If any of the requirements noted in this index are not being met, the supervisor may, for cause remove the approval or authorization for the agent to be armed. In making the determination regarding criteria in this index, the supervisor will consider information provided from the training records by the rangemaster and regional training coordinator. The approval or authorization will be reissued if requested in writing when the requirements specified above are met.

Under no circumstances will a P&CSD rangemaster certify an employee as qualified with any firearm other than a personally owned, departmentally approved 9mm weapon or the departmentally issued weapon while on state time. P&CSD rangemasters shall not permit an employee to fire or qualify with a non-departmentally issued or non-approved weapon during a parole range activity.

86010.5 Shooting Incidents

Procedures

As safety permits the Parole Agent at the scene of a shooting will immediately report any discharge of a firearm to the local police or sheriff's department. The Parole Agent at the scene will make all necessary arrangements for any medical aid that may be required and will request law enforcement assistance in the event of injury, death or property damage. After the scene is secured with law enforcement assistance, the Parole Agent whose weapon was fired, whether intentionally or accidentally, will report the fact to the immediate supervisor by telephone. The report will be made as soon as safety permits.

Upon notification that a firearm has been discharged, the supervisor will notify the PA by telephone and, whenever possible, the supervisor will proceed directly to the scene of the incident. At the scene, and in cooperation with the local law enforcement jurisdiction, the supervisor will conduct a complete investigation of the circumstances surrounding the incident including an examination of the firearm of any involved P&CSD staff member.

Upon completion of the investigation, the supervisor will report the incident immediately through channels to the Regional Administrator and Deputy Director, P&CSD, by telephone. If a weapon is discharged after normal working hours, the agent will attempt to notify the unit supervisor who will, if possible, comply with the above paragraph if the agent involved in the discharge of the weapon is unable to contact the supervisor or a designee, that agent will contact the 24-hour Central Office, ID/Warrants Unit telephone number (916-445-6713). The agent will leave a telephone number and location where the agent can be reached. The ID/Warrants Unit will immediately notify the Deputy Director, P&CSD, or the Assistant Deputy Director, P&CSD, and advise where the involved agent may be reached. If the information is

available, the telephonic report to the Deputy Director or Assistant Deputy Director, P&CSD, will include:

- Preliminary synopsis. A brief description of the number of times the firearm was discharged and the consequences of the firing; e.g., injuries sustained by employee, parolee, or other person.
- Parties involved. The complete names, addresses, and telephone numbers of all persons present during the incident, noting their status as employees, parolees, work furloughees, or other persons.
- Death, injury or property damage. Names, addresses and telephone numbers of any person killed or injured. Description of any property damage and names and address of owner.
- Other departments assisting or responding. The names, telephone numbers, and departments of law enforcement personnel and other participating agencies, including paramedics, ambulances, hospitals, doctors, etc.

A written report will be prepared and submitted for review through channels to the Deputy Director, P&CSD, no later than four days after the telephonic notification.

Temporary Reassignment of Agent

When a shot fired by a Parole Agent results in injury or death to another person, the agent will be immediately relieved of field responsibilities and temporarily reassigned to perform administrative duties in regional headquarters or given other reasonable assignments. Reassignment will be in the interest of Parole Agent safety by removing the agent from the geographical area of regular assignment where controversy may exist. Normally, the Parole Agent will remain on reassignment until members of the Departmental Inquiry Board complete their investigation of the shooting and make their recommendations to the Director. However, upon the recommendation of the Regional Administrator, the Deputy Director, P&CSD, may approve returning the Parole Agent to regularly assigned field duties before the members of the Departmental Inquiry Board complete their investigation.

In the event an agent is participating in an arrest or attempted arrest and a shot fired by an officer of another department results in injury or death to another person, the agent may be relieved of field responsibilities at the discretion of the Regional Administrator. When circumstances appear appropriate, the Regional Administrator will approve returning the Parole Agent to regularly assigned field duties.

Media Inquiries

The Regional Administrator, a designee, or the Assistant Director, Communications, will respond to media inquiries.

Retention of Records and Reports

All records and reports regarding the use of firearms will be maintained by the Regional Administrator for five years. These records and reports will not be destroyed until five years after they are dated and then only after approval is obtained from the Deputy Director, Legal Affairs.

Relinquishment of Weapon; Policy Tactics Review

Injury or Death

When a shot fired by a Parole Agent results in injury or death to another person or persons, the agent's service firearm or approved personally owned 9mm weapon will be surrendered within 72-hours after the incident to the local law enforcement agency for the purpose of running a ballistics test, or for other investigative purposes. At the same time the agent will request an inspection of the agent's service weapon or approved personally owned 9mm weapon, to determine the mechanical or functional condition.

In the event that the local law enforcement agency cannot or will not perform the above requested tests, the unit supervisor will immediately take possession of the service firearm or personally owned 9mm weapon and ship it by United Parcel Service (illegal to send through USPS) to the CHP Academy, Attn: Gunsmith Inspector and Coordinator, 3500 Reed Avenue, West Sacramento, CA 95691. The unit supervisor will include in the shipping package a memo with a brief statement of circumstances of use, any suspected mechanical or functional problems, and instructions to return the firearm and the report directly to the sending unit supervisor.

No Injury or Death

When a shot fired by a Parole Agent does not result in injury or death to another person or persons, the unit supervisor will take charge of the firearm within 72-hours after the incident and arrange to have an inspection made by the CHP Academy as outlined in the above section.

Issuance of Supplemental Firearm

During the period of time that a Parole Agent's firearm is being tested, the unit supervisor will arrange through the regional firearms coordinator for the temporary issuance of another Smith and Wesson, Model 64, .38 caliber revolver, or permit the carrying of another approved personally owned 9mm weapon that will be

registered to the agent with serial numbers recorded by the CDC. When the testing of the agent's firearm is completed, it will be returned to the agent. The state owned firearm that was temporarily issued will be returned to the regional firearms coordinator from whom it was obtained. The approved, personally owned firearm will be returned to the agent. In a case where an element of doubt pertaining to negligence or intent may exist, this procedure will not be followed. In such a case, the Parole Agent may not be re-armed by the P&CSD until the element of doubt pertaining to negligence or intent is removed through investigation, administrative hearing or court action.

Need for Policy Review

It may become apparent through the review process that the dynamics of a particular shooting incident lie outside P&CSD policy, but that the Parole Agent involved in the incident believed that they performed within policy guidelines. In that instance, the Regional Administrator may direct the regional training coordinator to conduct a retraining program on policy guidelines for field staff who were involved.

Need for Tactics Review

Each shooting incident will be reviewed by regional and P&CSD staff for the purpose of considering and developing alternative tactics for the use of deadly force. Alternative tactics will be included in the P&CSD's firearms refresher training as they are developed.

86010.6 Shooting Review Board

The Deputy Director, P&CSD, may convene a Shooting Review Board (SRB) to investigate and review all incidents when firearms are discharged. If the Deputy Director, P&CSD, convenes an SRB, it will be the responsibility of the SRB to conduct a full and complete investigation of the incident and make appropriate recommendations to the Deputy Director, P&CSD. An SRB will consist of three to five parole supervisors or administrators selected by the Deputy Director, P&CSD. Administrators or supervisors who are assigned to a unit or regional investigation of an incident, or who were involved in the incident, will not be selected to sit on the SRB.

The Deputy Director, P&CSD, will defer convening an SRB if it is determined that the Director will convene the Departmental Inquiry Board to investigate an incident where a firearm has been discharged. The Director will convene the Departmental Inquiry Board in all cases where death or injury resulted from a shooting.

86010.7 Off-Duty Arming With Departmentally Issued Firearm

General

An employee in peace officer classifications may receive written permission from the Regional Administrator to be armed off-duty with the departmentally issued firearm for not more than 30 days if it has been confirmed that there is a serious, clear and present danger to the employee's personal safety and it has been determined, after considering available alternatives, that arming is warranted.

Procedures

If an employee in the peace officer series requests permission to be armed with the departmentally issued firearm while off-duty, the following steps will be followed:

- The agent will notify the unit supervisor of the threat and provide as much specific information as is known at the time.
- The unit supervisor will institute an investigation to ascertain the seriousness of the threat. The investigation is to be given the highest priority and is to be completed at the earliest possible date.
- If, as a result of the investigation, the agent and the unit supervisor believe it is warranted for the employee to be armed with the departmentally issued firearm while off-duty, the unit supervisor will immediately advise the Regional Administrator of the threat, the circumstances involving the threat, the details of the investigation, and the conclusions thereby reached.
- If the Regional Administrator agrees that the agent should be armed with the departmentally issued firearm while off-duty, the administrator will telephone the Deputy Director, P&CSD, to inform him of the threat, the results of the investigation and the Regional Administrator's recommendations.
- If the Regional Administrator approves, the administrator will provide the peace officer with written authorization to be armed off-duty with the departmentally issued firearm and ammunition for a period of 30 days. If the threat still remains after that time

period, authorization for such additional periods as are necessary may be permitted by the Regional Administrator.

- The agent will be provided with written authorization to be armed with the departmentally issued firearm while off-duty. That written authorization will be carried by the agent whenever armed off-duty with the departmentally issued weapon.

Grievance

If the request to be armed off-duty with the departmentally issued firearm is denied at any level, the agent may institute a grievance.

Reports

A written report, describing in full detail all the circumstances and events relating to the threat, will be prepared by the unit supervisor by the conclusion of the next working day, and submitted through channels to the Deputy Director, P&CSD.

86010.8 Carrying Employee Owned Firearm Off-Duty

Revised March 11, 1993

General

PC 830.5 provides that peace officers employed by CDC may carry concealed firearms off-duty subject to certain terms and conditions. This Penal Code section also authorizes the Director to revoke or deny a departmental peace officer's authority to carry concealed firearms.

Conditions

Before a peace officer employed by the P&CSD may carry a concealed weapon off-duty, the peace officer must meet the following conditions:

- Have completed the firearms training required by PC 832.
- Qualify quarterly with the weapon the peace officer is carrying. It is the responsibility of the individual employee to meet the quarterly qualifications requirement. (It is recommended that an employee electing to carry a concealed firearm also carry proof of the latest quarterly qualification.)
- Unless additional specific authorization is given by the Deputy Director, P&CSD, no peace officer employed by the P&CSD is authorized to carry a departmentally issued concealed firearm off-duty.

Revoking an Employee's Authorization to Carry a Concealed Firearm

A P&CSD employee's authorization to carry a concealed firearm may be revoked by the Regional Administrator if the employee:

- Is found to lack the physical capability or mental stability to exercise this privilege.
- Is arrested for a felony.
- Is subject to adverse action.
- Is placed on Administrative Time Off during the processing of an adverse action.
- Abuses the privilege of carrying a concealed firearm off-duty; e.g., displaying a firearm in a threatening manner in an inappropriate situation.

Appeal

A rank-and-file or non-represented peace officer employee may appeal the decision to revoke their authorization to carry a concealed firearm in accordance with the following procedure:

- Within ten working days following receipt of notice revoking authorization to carry a concealed firearm off-duty, an employee may appeal the decision to the Director by writing and expressing reasons why the decision to revoke should be reviewed.
- Within 15 working days following receipt of an appeal the employee will be notified of the final decision. There is no appeal beyond the Director's level.
- Employees are expressly directed not to carry a concealed weapon off-duty during this appeal period.

Privately Owned Firearms

Unless an employee has complied with policy in this section and has been approved or authorized to carry a personally owned 9mm weapon, privately owned firearms will not be carried on the person while on-duty, nor will privately-owned firearms be carried in a state vehicle or taken into any state office or facility. Parole agents who choose to carry a privately-owned firearm while off-duty, whether or not the firearm is carried in a concealed manner, do so at their own risk, and in doing so, assume the same liability as any other citizen so armed.

State Vehicle or State Facility

The policy prohibiting an agent from carrying an off-duty firearm in a State vehicle or taking it into a State facility will not apply when the agent is required to travel overnight on State business. In that instance, the agent may transport the off-duty firearm in the State vehicle and bring the firearm into a State facility (the Academy, for example) to have it available during the hours the agent is off-duty.

86010.9 Use of Department's Firearm Ranges by Off-Duty Personnel*Revised March 11, 1993*

See DOM 32010.19.9 for further details.

86010.10 Stolen or Lost Firearm**Reports and Records**

A stolen or lost firearm will be reported by telephone to the immediate supervisor and to the Deputy Director, P&CSD, through channels. A written report by the agent and approved by the supervisor will follow within one working day after discovery that a weapon is missing. The immediate supervisor will notify local police of the loss or theft and provide any other information required upon discovery that a weapon is missing.

86010.11 Less Than Lethal Chemical Weapons Policy**Parole Agents**

Whenever they are armed, the approved chemical weapon shall be carried. If not armed, the Parole Agent may carry the approved chemical weapon at the Parole Agent's discretion.

Parole Services Associates

Permanent full-time P&CSD employees working as Parole Services Associates (PSA) may carry chemical weapons on duty provided that the employees:

- Complete four hours of departmental training on the legal, security and ethical aspects of the use of these weapons.
- Carry cards indicating completion of the chemical training as required by 12403.7 PC.
- Purchase their own non-lethal chemical weapons of a type previously approved by CDC.

Approved Weapon

While on duty, those employees authorized by policy to carry chemical weapons shall only carry dispensers approved and issued by the P&CSD.

Training Requirements

All Parole Agents shall be required to complete an eight-hour course of instruction in chemical weapons approved by the Commission on Peace Officer Standards and Training (P.O.S.T.), and the P&CSD training in the use and effects of chemical weapons, legal issues and reporting procedures.

86010.12 Policy Regarding Use of Less Than Lethal Chemical Weapons

A less than lethal chemical weapon is potentially dangerous and shall be used prudently. The P&CSD employee who is authorized to carry a less than lethal chemical weapon shall:

- Use the weapon only for purposes of defense when some person's physical safety is threatened, and only after all reasonable alternatives have been exhausted.
- If safety permits, provide First-Aid if certified or, if not, obtain First-Aid or other necessary follow-up medical treatment.
- Carry the chemical weapon in a concealed manner, except when it is being used.

Following the Use of

Following use of the chemical weapon, the employee shall:

- Notify the appropriate law enforcement agency and, if necessary, request that agency's assistance or investigation.
- As soon as practical, notify the unit supervisor and provide information regarding the circumstances of use.
- Submit an Altercation Report.
- Maintain the chemical dispenser in a secure place where it is not accessible to other people when it is not being carried.
- Be subject to possible adverse action in the event of improper or illegal use of the chemical weapon. Improper use of the weapon may constitute the commission of a crime and the employee may be subject to prosecution.

86010.13 Relinquishing Chemical Weapons Policy

Parole agents leaving the P&CSD through retirement, termination or transfer, or agents who no longer wish a weapon issued to them, shall surrender their chemical weapons to their unit supervisor. The unit

supervisor shall deliver the weapons to the person designated by the Regional Administrator for storage or reissue.

The unit supervisor shall recall the chemical weapon of any agent who will be absent (illness, educational leave, etc.) for 90-days or longer, and shall deliver it to the person designated by the RPA for safekeeping. Upon the agent's return to duty, the weapon shall be reissued if requested.

The chemical agent is only effective for a certain period of time (designated by the manufacturer). When this "shelf life" period has elapsed, the agent shall be required to relinquish the weapon and shall be issued a replacement of the type and brand authorized for use by CDC.

Whenever a less than lethal weapon is turned in the record of issuance shall be amended to reflect the date the weapon was surrendered.

86010.14 Transportation Officer Arming**General**

Departmental Transportation Officers shall be armed with the departmentally approved firearm while transporting RTC cases (parole violators) between holding facilities or reentry inmates back to a CDC facility. While armed, Transportation Officers shall wear an approved CDC uniform. While arming is not required when transporting reentry inmates from a CDC institution to a community reentry facility, if this is being done on the return trip after delivery of RTC case to a CDC facility, the officer may remain armed for operational efficiency.

Policy

With exception in this article regarding carrying firearms, the policies and procedures detailed in this article regarding firearms shall pertain to transportation officers as well as employees in the Parole Agent series.

Equipment

The following firearm, ammunition and attending equipment are authorized for use by transportation officers:

- Firearm. The approved departmental firearm for Transportation Officers is the second or third generation Smith and Wesson 9mm, auto loading, double action, lugar (parabellum).
- Ammunition. The approved departmental ammunition for Transportation Officers is 9mm caliber, 147 grain, jacketed hollow point.

Holster

The approved holster is a black basket weave belt loop, outside holster with a safety strap.

Chemical Agent

The approved less than lethal chemical weapon shall be designated by the Deputy Director, P&CSD.

86010.15 Revisions

The Deputy Director, P&CSD, or designee shall be responsible for ensuring that the contents of this section are kept current and accurate.

721	Possession of marijuana for sale	840	Possession of a tear gas gun/dispenser
722	Sale of marijuana	843	Use of tear gas gun or dispenser
724	Possession of marijuana for sale	845	Brandishing/displaying a weapon (other than a firearm)
725	Voluntarily admitted to use of marijuana	847	Brandishing a firearm
726	Sale of marijuana	848	Other offenses involving the use/possession of firearm or deadly weapon (specify statute & violated)
727	Possession of marijuana (1oz or 28.5 grams, or less)	849	Other weapon violations (specify statute & violated)
728	Possession of marijuana (more than 1oz or 28.5 grams)	850	Driving under the influence of alcohol/drugs
729	Use of marijuana	855	Driving under the influence of alcohol/drugs (with injury)
730	Sale of PCP to a minor	865	Reckless driving w/no personal injury
731	Possession of PCP for sale	867	Reckless driving (situation posed extreme risk to others)
732	Sale of PCP	869	Reckless driving (injury)
734	Possession of PCP for sale	873	Property hit and run
736	Manufacture/sale of PCP	874	Driving with revoked or suspended license (previously 995)
737	Possession of PCP	875	Vehicular manslaughter
738	Voluntarily admitted to use of PCP	880	Evading peace officer (CVC 2800.1)
739	Use of PCP	899	Other driving violations (specify statute & violated)
740	Sale of other illicit drugs to a minor	900	Child stealing
741	Possession of other drugs for sale	907	Hostage taking
742	Sale of other drugs	911	Kidnapping
744	Possession of other drugs for sale	915	Threaten/harass another (must be a law violation; specify statute & violated)
746	Manufacture/sale of other illicit drugs	922	Possession of alcohol/controlled substances in a detention facility
747	Possession of any other illicit controlled substance	924	Bringing alcohol/controlled substances in a detention facility
748	Voluntarily admitted to use of any other illicit controlled substance	926	Arson - inhabited dwelling
749	Use of any other illicit controlled substance	928	Arson - other structure, property, forest lands
750	Possession of drug paraphernalia (related to drug use)	929	Bribery
752	Possession of paraphernalia utilized in drug trafficking	931	Contributing to the delinquency of a minor
753	Possession of a substance in lieu of a controlled substance for sale	934	Destroying public property
755	Sale of a substance in lieu of a controlled substance	937	Disturbing the peace
760	Forgery of a prescription	938	Resisting arrest
770	Sale of amphetamine/methamphetamine to a minor	939	Drunk in public
771	Possession of amphetamine/methamphetamine for sale	940	Escape without force
773	Sale of amphetamine/methamphetamine	943	Escape from jail/prison with force
774	Voluntarily admitted to use amphetamine/methamphetamine	947	Failure to register per H&& 11590
775	Possession of amphetamine/methamphetamine for sale	948	Failure to register - Arson (PC 457.1)
776	Possession of amphetamine/methamphetamine	950	False identification to a police officer
777	Manufacture/sale of amphetamine/methamphetamine	952	False information to peace officer (VC 31)
778	Use of amphetamine/methamphetamine	953	Illegal entry into the USA
779	Loitering in area of drug-related activity	961	Prostitution
780	Under the influence of a controlled substance	962	Soliciting for prostitution/sexual acts
790	Use of drugs in jail or prison	963	Incite another to participate in a riot
793	Other violations of law relating to drug use (specify statute & violated)	964	Failure to participate in or complete a batterer's program (PC 3053.2)
795	Other controlled substance offenses (specify statute & violated)	965	Participation in a riot
797	Other controlled substance offenses (specify statute & violated)	967	Soliciting another to commit nonviolent crime
810	Possession/manufacture/sale of a deadly weapon (other than a firearm)	969	Trespassing
815	Possession of a deadly weapon (PC 12020)	972	Vandalism/malicious mischief
822	Use of a deadly weapon	976	Committing any non-violent felony not listed (specify statute & violated)
823	Use of deadly weapon in the commission of a felony	977	Conspiracy to commit any non-violent felony not listed (specify statute & violated)
825	Possession of a firearm	978	Attempt to commit any non-violent felony not listed
827	Use of a firearm	979	Accessory to any non-violent felony not listed
		985	Conspiracy to commit a violent crime
		986	Attempt to commit a violent crime

987	Accessory to a violent crime
988	Soliciting another to commit a violent crime
990	Possession of caustic chemicals with intent to harm others
991	Carjacking
992	Criminal threats
993	Stalking
996	Refusal to sign forms required by law (Assessment up to 6 months per PC 3060.5)
997	Other misdemeanors not listed (specify statute & violated)
998	Other violent crimes not listed (specify statute & violated)
999	Other nonviolent crimes not listed (specify statute & violated)

ARTICLE 48 — GLOSSARY OF PAROLE TERMS

Effective September 12, 1989

86030.1 Rules of Construction

Enumeration of some for making a discretionary decision does not prohibit application of other reasonably related criteria.

Order in which criteria are listed does not indicate relative weight or importance.

"Inmate", "prisoner" or "parolee" apply to any person who is or has been committed to the custody of the Director, including inmates, parolees, and dischargees, regardless of person's present status.

"Resident", "inpatient", "releasee", "outpatient" or "civil addict parolee" apply to any person who has been committed to the Civil Addict Program.

Responsibilities specified for a particular level of supervision or administration may be delegated within any limits specified unless expressly prohibited.

"Shall" is mandatory; "should" is advisory; and "may" is permissive.

Unless otherwise indicated, reference to part or section refers to the DOM.

86030.2 Definitions**"A's"**

ABSCONDER: Any parolee, outpatient or civil addict parolee whose whereabouts are unknown (whether suspended by BPT or NAEA action or not suspended), or any parolee, outpatient or civil addict who is not available for supervision, whether whereabouts are known or not known. A parolee, outpatient or civil addict parolee in custody in another jurisdiction who is not available for supervision falls into this category.

ADDENDA: Files containing information regarding an individual case presented to the NAEA.

ADVERSE WITNESS: A person whose expected testimony supports the violation charged. The primary adverse witness (victim, on-the-scene police officer, complaining person, etc.) should be present at the hearing.

ANNUAL REVIEW: Hearing conducted by NAEA to determine advisability of release to outpatient or civil addict parole status of an inpatient who has not been certified for release consideration by the Director within the preceding 12 months (see W&I 3151).

AUTHORITY: NAEA.

"B's"

BOARD ACTION: Official decision of NAEA or BPT in an individual case.

BPT : Administrative board responsible for setting parole dates, establishing parole length and conditions, and discharging sentences for certain felon prisoners and parolees; granting, rescinding, suspending, postponing, or revoking paroles; conducting disparate sentence

reviews; advising on clemency matters; and handling miscellaneous other statutory duties. Persons under BPT jurisdiction are adult felons committed by superior courts to the Director under PC 1168 and 1170.

BPT CENTRAL OFFICE CALENDAR REVIEW: A review of a Board Report submitted to the BPT. This is a non-appearance hearing.

CI&I: The SSCH from DOJ containing the arrest and disposition information defined in PC 11105 or FBI report containing arrest history.

"C's"

CALENDAR: A list of those individuals whose cases are scheduled to be heard by the BPT.

CALPU: Civil Addict LPU.

CALIFORNIA ADULT COMPACT ADMINISTRATOR: The Regional Administrator, Region I.

CALIFORNIA INTERSTATE PAROLEE: A person convicted and sentenced to prison in California but under parole supervision in another state according to the provisions of the Interstate Compact.

CALIFORNIA PAROLEE: A person convicted and sentenced to prison in California and under parole supervision in California.

CAP: Civil Addict Program.

CASE SUMMARY: Written summation of a case at specified points in the parole period.

C-FILE: Master file maintained by CDC containing records regarding each person committed to its jurisdiction. This file is maintained by the institution or parole region to which person is assigned.

COLLATERAL CONTACT: Any communication with another person concerning a parolee.

CONCURRENT PAROLEE: A person convicted and sentenced to prison both in California and another state and under parole supervision on both commitments in either California or the other state.

CONDITIONS OF PAROLE (Civil Addict): The conditions under which a person who has spent a maximum period of confinement (excluding any time spent on outpatient status) or who has reached the expiration of commitment to the Civil Addict Program is released to parole supervision under the jurisdiction of the NAEA.

CONDITIONS OF PAROLE (Felon): Specific conditions regarding behavior required or prohibited during parole.

CONDITIONS OF RELEASE: Conditions under which a resident is released from the California Rehabilitation Center to outpatient supervision.

CONFIDENTIAL WITNESS: An informant whose identity is unknown to the parolee and who could be subject to harm if the informant's identity were known.

CONFINEMENT PURSUANT TO REVOCATION: Continuous time in custody, under a parole hold in local custody or in a CDC institution in the absence of a new commitment to prison. Limited to no more than six months for a parolee whose crime was committed on or before December 31, 1978, or to no more than 12 months for a parolee whose crime was committed on or after January 1, 1979. The six or 12 months are considered to begin at the placement of a parole hold.

CONTINUE ON PAROLE: Final action in response to a parole violation that allows a parolee to remain in the community rather than be returned to prison. Once this action is taken parolee may not be charged again with the same violation.

CUMULATIVE CASE SUMMARY: Permanent and specific summary of portions of the record maintained by CDC regarding each prisoner from reception to discharge.

COUNSELOR: Caseworker of the CDC who is assigned to supervise and provide counseling for inmates, civil addicts or parolees confined in a CDC facility.

"D's"

DAYS: Unless otherwise specified "days" refers to calendar days when used in specifying time limits. When due date falls on a weekend or holiday, report will be deemed due on next working day.

DETERMINATE SENTENCE LAW (DSL) RELEASE DATE: Date a prisoner sentenced under PC 1170 is released to parole or discharge; or, Date a prisoner sentenced prior to July 1, 1977, (and whose sentence was recalculated by BPT under the provisions of PC 1170.2) is released to parole or discharge.

DIFFERENCE OF OPINION: Difference of opinion regarding a prisoner's or parolee's case.

DIRECTOR: Director of Corrections. Executive/Administrative head of the Department appointed by the Governor. (See PC 5050 and 5051).

"E's"

EXPIRATION OF PAROLE: Date on which specified parole period expires.

"F's"

FEARFUL WITNESS: A person who has given adverse information against the parolee and, because of fear, is unwilling to appear personally at the hearing. Both identity of the fearful witness and adverse information are known by the parolee. However, the witness fear and potential trauma due to facing the parolee outweigh the parolee's right to confrontation.

FIELD CONTACT: Face-to-face contact with a parolee away from the parole office or office parking area.

FIELD FILE: Working file that is maintained in parole unit office which contains information about a parolee.

FRIENDLY WITNESS: A person who's expected testimony tends to support the parolee's arguments.

"G's"

GOOD CAUSE: Finding by a neutral hearing officer (based upon a preponderance of the evidence) that there is a factual basis and good reason for the decision made.

GOOD TIME CREDITS: Credits for PC 1170 prisoner's good behavior and participation in prison programs earned pursuant to PC 2930, et seq. Earned good time credits advance parole date of PC 1170 prisoners.

GOOD TIME RELEASE DATE: Determinate Sentence Law (DSL) release date as advanced by good behavior and participation credits.

"H's"

HEADQUARTERS (Central Office) CALENDAR: The Headquarters Calendar is composed of BPT commissioners or deputy commissioners as designated by the Chairman of the BPT. They are authorized to make decisions on matters reported to the BPT.

HEARING OFFICER: Any neutral person who is authorized to conduct a hearing.

HOLD: A request that a releasee or parolee be held in custody until further notice. A person under a hold is not eligible for release on bail.

HOME CONTACT: Face-to-face contact with a parolee at the parolee's residence.

"I's"

INDETERMINATE SENTENCE LAW (ISL): Refers to sections of the Penal Code and other codes as they were operative prior to July 1, 1977.

INDETERMINATE SENTENCE LAW (ISL) RELEASE DATE: Date on which an ISL prisoner may be released from confinement pursuant to the ISL. Release may be to parole or to discharge.

INSTITUTIONAL APPEARANCE EVALUATION SHEET: Form used to provide a summary of the content and decisions made during release hearings, rescission hearings and annual reviews. Also known as CDC Form 279.

INTERSTATE COMPACT: Agreement by which all 50 states, District of Columbia, Virgin Islands and Puerto Rico function cooperatively in supervision of probationers and parolees.

INTERSTATE (COOPERATIVE) PAROLEE: Person convicted and sentenced to prison in a state other than California but under parole supervision in California according to provisions of Interstate Compact.

INTERSTATE UNIT (ISU): Unit at Region I Headquarters that coordinates functions of Interstate Compact.

"L's"

LIFE PRISONER: Prisoner serving sentence of life with possibility of parole. Parole date is determined by the BPT.

LIFE PRISONER (INDETERMINATE SENTENCE LAW) RELEASE DATE: A prisoner serving a sentence of life with the possibility of parole. Parole date is determined by the BPT.

LOCATED: A suspended parolee-at-large (PAL) is located when parole staff have reestablished face-to-face contact with the parolee in the State of California, or know parolee's whereabouts in another state's jurisdiction, and verify parolee is available for supervision.

"N's"

NARCOTIC ADDICT EVALUATION AUTHORITY: Releasing authority for persons committed to custody of Director for treatment of narcotic addiction pursuant to W&I 3150, et seq.

"O's"

OFFICE CONTACT: Face-to-face contact with a parolee at parole unit office.

OPTIONAL WAIVER: Parolee who is undergoing criminal prosecution may conditionally waive revocation hearing. Upon receipt of an optional waiver, the BPT will determine whether there is good cause to revoke parole. This is a non-appearance hearing. A revocation hearing may be requested later.

ORAL ORDER: Verbal order obtained from single member of NAEA which results in suspension of outpatient status or parole and authorizes person to be retaken. (See W&I 3151 and 3201[c]).

"P's"

PAL (Parolee-at-Large): Legal status of a parolee whose parole time has been suspended by BPT action and a WANT issued for arrest and detention; or a parolee under jurisdiction of NAEA who has absconded from civil addict parole supervision and whose parole has been suspended by an official act of the NAEA.

PAROLE AGENT: Each outpatient and parolee will be assigned to a Parole Agent. The assigned Parole Agent shall be responsible for the delivery, or referral for delivery, of all services and controls contained in the parole plan, including legal requirements that may be unique to an outpatient or parolee by operation of law or policy as specified by the BPT, NAEA or P&CSD.

PAROLE AGENT AUTHORITY: A Parole Agent's authority to arrest extends to any person committed to CDC or being supervised under the Interstate Parole Compact. A Parole Agent's peace officer status extends to enforcement of the conditions of parole, to apprehension of an escapee from a CDC institution, to the transportation of inmates or parolees, and to any violation of law that arises or is discovered in the course of employment. A Parole Agent shall not preempt another law enforcement agency in enforcing the law.

PAROLE HOLD: Authorization by departmental employee to hold a parolee in custody pursuant to PC 3056.

PAROLE VIOLATION: Conduct by a parolee that violates the conditions of parole.

OHO (Our Hold Only): Parolee in custody under a PC 3056 parole hold who has no other charges or detainers pending.

P&CSD HEARING: Hearing conducted by the BPT or NAEA to consider the cases of individuals on outpatient status or parole.

PEACE OFFICER STATUS: Any Parole Agent employed by CDC is a peace officer pursuant to the provisions of PC 830.5.

PHONE CONTACT: Telephone call to a parolee.

PRE-RESCISSION HEARING: Hearing conducted for the purpose of determining whether there is probable cause to believe an outpatient or parolee has violated the conditions of release or parole.

PRE-RETURN HEARING: Hearing conducted for the purpose of determining whether there is probable cause to believe an outpatient or parolee has violated the conditions of release or parole.

PRE-REVOCATION HEARING: A hearing to determine if there is probable cause that a parole violation has occurred.

PROBABLE CAUSE: Statement of facts that would lead a person of ordinary caution and prudence to believe and conscientiously entertain a strong suspicion that the charges are true.

PV-RTC (Parole Violator-Return-to-Custody): The status of a parole violator who has been convicted of a new crime and sentenced to a new prison term by a court of law.

"R's"

RAL (Releasee-at-Large): An outpatient who has absconded from outpatient supervision and who has had outpatient status suspended by an official act of the NAEA.

RECEIVING STATE: The state that supervises interstate (cooperative) or concurrent parolee.

REGIONAL ADMINISTRATOR: Administrator of a geographical region in the P&CSD.

RELEASE HEARING: BPT or NAEA hearing conducted to consider advisability of releasing person to outpatient status or parole.

RELEASE ON PAROLE: Actual transfer of an inmate incarcerated in a CDC institution, or a re-entry facility, or one housed temporarily in a county or city jail, to the supervision of the P&CSD on a date established by operation of law (PC 1170) or by the BPT (PC 1168).

RESCISSION HEARING: Hearing conducted by the NAEA to determine whether new information warrants rescission of release.

RESIDENT: Parolee who was an actual inhabitant of California continuously for a year or more before going to the sending state and who was not a resident of the sending state for six continuous months immediately preceding the current commitment offense.

RETURN HEARING: Hearing conducted following an outpatient's return to the California Rehabilitation Center (or branch thereof) to determine whether there is good cause to believe an individual has violated the conditions of release or parole. In addition, the hearing officer shall consider any mitigating circumstances and make a recommendation to the NAEA regarding disposition if good cause is found.

REVOCAION HEARING: Hearing to determine if there is good cause to believe that a parole violation has occurred. If it is determined that a parole violation has occurred, the panel will also make determination as to the penalty. Revocation hearings are administrative proceedings at which preponderance of evidence is sufficient for finding good cause. Courtroom standards of evidence and burden of proof do not apply. All relevant evidence is admissible, including hearsay.

REVOCAION RELEASE DATE (RRD): The date on which a parolee is to be released from custody as specified by BPT in an order of revocation.

REVOCAION SCREENING CALENDAR (RSC): Review of certain criminal acts and parole violations to determine if there is good cause to believe that a parole violation has occurred and to decide on an appropriate revocation assessment term to offer a parolee. A revocation hearing is not held if parolee accepts the offer.

REVOCAION TERM EXTENSION HEARING: Hearing to determine if there is good cause to believe that a parolee serving a revocation term has committed a new crime or has violated a jail regulation or has violated CCR. This decision is made upon review of a Report of In-Custody Misconduct.

RPS (Release Program Study): CDC Form 611, Release Program Study. An informational document that describes inmate's proposed residence and employment, institutional adjustment, and gives a prognosis for parole adjustment.

RUAP: Release upon approved plans.

"S's"

SCHEDULE FOR REVOCAION-PSYCHIATRIC ATTENTION: Hearing to determine if a parolee is unable to maintain self in the community; or is a danger to self or others; or has a disorder which cannot be treated in the community.

SENDING STATE: State in which an interstate (cooperative) or concurrent parolee was convicted.

SLOUGH FILE: File supplemental to C-File containing bulky or seldom needed records.

SPECIAL CONDITION OF RELEASE OR PAROLE: Condition placed by the BPT or NAEA and restricted to the individual.

SUBJECT TO PC 1168.

- All persons sentenced to prison for a life term or for a term of not more than one year-and-a-day for a crime committed on or after July 1, 1977.
- All persons sentenced to prison for a crime committed on or before June 30, 1977, who are not released on a parole date recalculated by the BPT under PC 1170.2.
- All persons released on parole prior to July 1, 1977.

SUBJECT TO PC 1170

- All persons sentenced to prison under PC 1170 for a crime committed on or after July 1, 1977, except for persons sentenced to a life term or to a term of less than one year-and-a-day.
- All persons sentenced to prison for a crime committed on or before June 30, 1977, who are released on a parole date recalculated by the BPT under PC 1170.2.

SUMMARY PRE-RETURN HEARING: Hearing conducted to determine whether a conviction of a crime occurred, whether conviction constitutes a violation of conditions of release or conditions of parole, and whether individual was the person convicted of the crime.

ARTICLE 49 — RISK ASSESSMENT

Effective August 31, 1989

86040.1 Policy

The parole process starts with an assessment of the parolee's or outpatient's probable risks to the community and the parolee's need for assistance to make a successful transition to the community.

The Risks and Needs Assessment is completed after prerelease materials have been received and the unit supervisor has determined that the unit assignment is appropriate. A Risks and Needs Assessment for a reentry case will be completed by the Parole Agent during the last month of the reentry phase.

86040.2 Risk Assessment

The Risks Assessment is designed to evaluate the type, frequency, and severity of criminal behavior and provide indicators of the probability of further criminal involvement. The Parole Agent shall include a brief statement of the inmate's or outpatient's case history and experience for each category and factor within the categories. If unknown or not applicable, so state. Assign each category a score of zero to ten, with higher scores representing more serious crimes, circumstances and risks.

Complete the heading on the form (last name, first name, middle initial, age as of the parole or release date, and CDC number).

Latest Commitment Offense(s)

This category is intended to assess the dimensions and severity of the commitment offense as indicated on the legal status sheet, the POR, and the first page of the Cumulative Case Summary.

List only active offenses for which the inmate was sentenced to prison, including concurrent commitments for offenses committed prior to this incarceration. Omit commitment offenses listed but since discharged.

Enter brief comment on nature of the offense (injury to victim, crime against person, property crime, narcotics, etc.).

Aggravating/Mitigating Circumstances: Describe any action during the crime that resulted in physical injury to victim or resulted in the victim's fear of harm or physical violence. Note the use of firearms or other weapons in a crime. Note the original or real behavior in the original charges filed by the DA against the offender.

Other relevant information: Include information that allows a more accurate judgment of the severity of the commitment offense such as a peculiar modus operandi or series of events leading to or related to the crime.

Considering all factors of the commitment offense and using the Risks Assessment Guide (revised February, 1986), assign a score from zero to ten that best fits the seriousness of the offense(s).

Criminal Behavior Pattern

This category is intended to assess the dimensions and severity of past criminal behavior, other than the commitment offense(s). The primary sources of information will be the Cumulative Case Summary, POR and the CI&I.

Include a concise statement identifying patterns, trends, frequency, and severity of prior criminal behavior for appropriate offense types.

Refer to the scoring ranges in the Risks Assessment Guide for indications of severity, and score this category zero to ten based on the following:

8.0 to 10.0	Long history of predatory or violent crimes.
5.0 to 7.99	Long history of non-violent crimes or brief history of predatory or violent crimes.
0.0 to 4.99	Brief history of non-violent crimes.

Prior Patterns

This category is intended to assess the frequency and severity of behavior that is related to the inmate's or outpatient's criminal behavior pattern. The primary sources of information will be the Cumulative Case Summary, social and psychological evaluations, and the POR.

Indicate incidence and degree of drug use or alcohol use directly related to criminal behavior (moderate/severe/ occasional/frequent) and describe the type of substance and the relationship to criminal behavior.

Describe any documented history of crime-related psychological problems, the duration of the condition, and present status.

Indicate any associations with undesirable persons that tend to lead to criminal behavior.

Score this category from zero to ten depending on the presence and degree of seriousness of any problem which may result in renewed criminal involvement based on the following guidelines:

Frequent or severe incidents in three or more areas.	8.0 to 10.00
Frequent or severe incidents in one or two areas.	5.0 to 07.99
Moderate or occasional incidents.	0.0 to 04.99

Prior Patterns of Response to Custody and Supervision

This category is intended to determine how the inmate or resident has performed when in custody and how the parolee or outpatient has adjusted when under supervision in the community; e.g., probation, CYA or prior adult parole. The primary sources of information are the Cumulative Case Summary and the POR.

Briefly describe incidents or crimes committed during any incarceration that required either court, BPT or NAEA or Disciplinary Committee action and, if the inmate or resident has been under prior community supervision, list negative behavior and parole or outpatient adjustment and violations.

Score this section from zero to ten depending on the seriousness of prior behavior and the expected adjustment to parole/outpatient status based on the following guidelines:

Frequent or severe incidents (escapes, gang affiliations, altercation, new crimes, major parole violations).	8.0 to 10.00
Moderately frequent or severe incidents (suspension and reinstatement, minor parole violations, etc.).	5.0 to 07.99
Minor or infrequent incidents (nuisance).	0.0 to 04.99

The process for developing the Base Risks Score is as follows:

- The Raw Score is the sum of the scores for the four Risk Assessment categories divided by four. Enter this sum at the right-hand margin.
- The Base Score is the Raw Score ± override/underride.
- Override/Underride: The Base Score is on a scale of zero to ten. If the Base Score appears too high or too low based on your case assessment, you may override or underride the score without limit within the range of the scale, provided that the reasons of your override/underride are documented. Enter a score of zero to ten, assigned as the override/underride in the space provided on the right-hand margin.
- Add/subtract your override/underride score from the Raw Score to fix your Base Risks Score. This final number will be on a scale of zero to ten and shall be entered in the space provided at the bottom of the right-hand margin.
- The Risks Assessment preparer shall legibly sign and date the assessment.
- The Risk Assessment Score and Needs Assessment Score, coordinated on the classification/work allocation grid, determine the level of supervision to which the case is assigned. A small grid is in the upper right-hand corner of each side of the form for quick reference. Put a check in the grid cell that reflects the level of supervision assigned. This check should be in the same grid cell on both sides of the form; e.g., High Control, High Service, Control/Service Emphasis, or Minimum Supervision.

86040.3 Needs Assessment

Revised September 25, 2007

The Needs Assessment is designed to evaluate the parolee's or outpatient's past patterns of community adjustment and to determine the type or severity of problems that may affect the parolee's or outpatient's ability to succeed on parole. The Parole Agent shall include a brief statement of past patterns, noting the type and severity of any problems or deficiencies. Assign each category a score from zero to ten based on the severity of problems encountered in each of the

categories. If the information requested for any factor is unknown, so state and assign a score of five to that factor.

Complete the headings on the form (last name, first name, middle initial, and CDC number).

Residence

Past Pattern: Describe parolee's or outpatient's past residential patterns (e.g., lives alone, with others, with parents, legal or common-law spouse, registered domestic partner, friends, etc). Note whether the pattern has been nomadic, transient or stable.

Suitability: Indicate whether past residential pattern has been a positive, marginal, or negative aspect of the parolee's adjustment and if the pattern is related to the parolee's criminal involvement.

Make any other comments that will contribute to assessing the type and severity of problems with living arrangements.

Score from zero to ten based on the following:

8.0 to 10.00	Negative pattern (major problems).
5.0 to 07.99	Marginal pattern (moderate problems).
0.0 to 04.99	Positive pattern (minimal problems)

Means of Support

Describe how the parolee or outpatient has met financial needs in the past. Note whether the parolee has relied on criminal activity or on employment earnings for money, or relied on family or public agency stipends.

Describe specific employment skills the parolee or outpatient has developed and prior job experiences.

Identify vocational training received while incarcerated, whether the training was completed, and whether parolee is employable in that field.

Identify any income parolee or outpatient receives such as Supplemental Security Income (SSI), trust funds, wife and children on Aid to Families with Dependent Children (AFDC), etc.

Include other comments regarding parolee's or outpatient's employability and type and severity of past or present problems with means of support.

Score from zero to ten based on the following:

8.0 to 10.00	No work history/no skills.
5.0 to 07.99	Moderate work history/skills.
0.0 to 04.99	Good work history/skills/training.

Health

Describe the presence and degree of any physical, psychological, mental, or emotional problems.

Include other comments that will contribute to an assessment of the type and severity of any health problems. For example, any prescribed medications or recommendations for POC shall be indicated.

Score from zero to ten based on the following guidelines:

8.0 to 10.00	Serious problems detrimental to adjustment.
5.0 to 07.99	Moderate problems.
0.0 to 04.99	Slight problem or no problems.

Transportation

Indicate if the parolee or outpatient will rely on public transportation, have a car available or rely on others for transportation, and whether transportation difficulties will contribute to other community adjustment problems.

Score from zero to ten based on the following:

8.0 to 10.00	Major transportation problems.
5.0 to 07.99	Moderate transportation problems.
0.0 to 04.99	Minor problem or no transportation problems.

Community Survival Skills

Indicate whether the parolee or outpatient was previously able to fulfill his basic needs in the community such as food, clothing, shelter, employment, transportation and social outlets. Include specific deficiencies such as low education, non-reader, language barriers, poor self-image or physical disfigurement.

Score from zero to ten based on the following guidelines:

8.0 to 10.00	Major problems.
5.0 to 07.99	Moderate problems.
0.0 to 04.99	Minor problem or no problems.

Patterns of Social Activity

Describe the parolee's or outpatient's social activities, associations, and leisure time activities and indicate whether the activities are satisfactory, delinquent, or contribute to other community adjustment problems.

Score from zero to ten based on the following guidelines:

8.0 to 10.00	Major problems.
5.0 to 07.99	Moderate problems.
0.0 to 04.99	Slight problem or no problems.

The process for developing the Base Needs Score is as follows:

- **Raw Score:** The sum of the scores for the six Needs Assessment categories above divided by six. Enter this sum at the right-hand margin.
- **Base Score:** The Raw Score \pm override/underride score.
- **Override/Underride:** The Base Score, as determined above, is on a scale of zero to ten. If this relative score appears to be too high or too low, based on case factors, you may override or underride that score within the range of the scale (zero to ten) provided that the reasons are documented. Enter the score you have assigned as the override/underride in the space provided on the right-hand margin.
- **Add/subtract your override/underride score from the Raw Score.** This final number will be on a scale of zero to ten and shall be entered in the space provided at the bottom of the right-hand margin.
- The preparer of the Needs Assessment will legibly sign and date the assessment.
- The Risks Assessment Score and Needs Assessment Score, coordinated on the classification/work allocation grid, determine the level of supervision to which the case is assigned. A small grid is in the upper right-hand corner of each side of the form for quick reference. Put a check in the grid cell that reflects the level of supervision assigned. This check should be in the same grid cell on both sides of the form; e.g., High Control, High Service, Control/Service Emphasis, or Minimum Supervision.

Not Applicable.

ARTICLE 50 — INFORMATION PRACTICES

Effective August 31, 1989

86050.1 General

CDC is authorized by statute to collect, maintain and utilize information on individuals (including current and former inmates, parolees and releasees, employees and other individuals) necessary to accomplish its statutory purpose and function.

Information collected and maintained by the P&CSD and CDC will generally consist of three categories by content:

- Exempt.
- Personal.
- Non-personal.

All information will be maintained by the P&CSD with integrity, timeliness, accuracy and security. Persons or agencies to whom the P&CSD discloses information will be requested to maintain similar standards. Departmental policy and procedures set forth in this Article and other departmental regulations and directives are intended to safeguard the privacy and the right of review of information under

CDC's control and are established pursuant to existing statutory and case law requirements.

No record or file containing personal or exempt information on an individual or individuals will be established or maintained by any division, section, unit, institution or field operation unless the authority for same is found in CDC's approved procedural manuals, directives or bulletins, or has been specifically approved in writing by the Director.

Procedures in this Article will apply to any authorized departmental records, files, system of records or files containing information on present or former inmates, parolees, residents, releasees and employees where such information is retrievable by the subject's name, identification number or other identifiable means.

Any employee who intentionally violates any provisions of the CCR or any departmental procedural requirement relating to information practices may be subject to adverse action, including termination of employment.

Civil action may be brought against CDC for failure to comply with an individual's lawful request for record review, including failure to respond within specified time limits, for failure to maintain recorded information with accuracy, timeliness, completeness and security, and for failure to comply with any provisions of the IPA which adversely affects the individual.

Any person who willfully requests or obtains any record containing personal or exempt information from an agency under false pretenses will be guilty of a misdemeanor and may be fined for not more than \$5,000 or imprisoned for not more than one year, or both.

P&CSD, Headquarters staff will submit an Information Practices Report to the Departmental Information Practices Coordinator, on June 1st each year.

86050.2 Definitions

The following definitions will apply in this Article to personnel and parolee records:

Confidential Information

Information which is classified as confidential by the CDC under the authority of statute and case law, and depending on the contents, may be withheld from the data subject and any other unauthorized person, agency and entity. Confidential information includes but is not limited to information which, if disclosed, would:

- Endanger the health and/or safety of the subject or other persons (may include medical and/or psychiatric information which, if known to the subject of the information, would prove detrimental).
- Endanger the security of any departmental facility.
- Disclose personal or confidential information pertaining to a person other than the subject of the information when the information would not reasonably be a part of the subject's knowledge or experience.
- Impede an investigation or preclude CDC from accomplishing its statutory purpose and function in criminal, civil or administrative matters.
- Compromise the objectivity or fairness of the testing, appointment or promotion process.
- Release information required by statute to be withheld from the individual to whom it pertains.

Personal Information

Information which any person could assume the data subject would not want released to persons and entities who are not authorized and who do not have need-to-know. Personal information includes but is not limited to education information, financial transactions, and medical or employment history and excludes that information designated as confidential or non-personal by departmental standards.

Non-Personal Information

Information contained in a record that, if disclosed, would not detrimentally or adversely affect the subject of the information or other individuals. Non-personal information may be released to a member of the general public in response to specific inquiry on a need-to-know basis or to the news media covering a newsworthy event involving the individual. The distinction between personal and non-personal information is not always clear and care should be taken in making any disclosure.

Access

An individual's request to see his/her own records. (Any review of information contained in a record by the subject of that information or any other person reviewing the information on behalf of or as an agent of the data subject.)

Disclose

To divulge, reveal, release, transmit, transfer, disseminate, or communicate all or any part of any record orally, in writing, electronically, or by any other means, to the data subject or any other person, agency or entity by CDC.

Need-to-Know

Refers to a person having both a legitimate right and a reason to have information from a file.

Data Subject

Any person about whom CDC maintains a record or file and includes current and former inmates, parolees, residents, current and former employees, whether they are permanent, part-time, temporary or contractual; and any other person without regard to the individual's current status.

Record or File

The terms "record" or "file" are synonymous and mean any collection of confidential or personal information regarding an individual which is maintained or retrieved by name or other identifying particular assigned to the subject of that information.

Information Practices Coordinator

The person designated as the departmental official responsible for ensuring that CDC and its various components comply with all the provisions of this Article.

86050.3 Training

All departmental employees will be provided training regarding departmental policy, procedures and regulations governing the use of departmental records and/or record information as a part of their orientation, as well as ongoing training during the period of their employment.

Any employee designated as an authorized discloser of departmental record information will be provided specialized training in departmental information practices prior to actively disclosing information. Training for designated employees will be provided on a semiannual basis and as changes in policy, procedures or staffing may require.

86050.4 Handling and Processing of Information

Only authorized persons will be permitted to handle and/or process personal or confidential information relating to personnel or parolees. Authorized individuals are employees of CDC for whom a criminal records check has been completed. CDC employees include those full-time, civil service and exempt positions, part-time employees, student assistants, aides, contractual personnel and consultants whose duties with the P&CSD or departmental section require access to files and records.

86050.5 Revisions

The Deputy Director, P&CSD shall ensure that this section is current and accurate.

86050.6 References

DOM § 13030.

ARTICLE 51 — DISCLOSURE OF INFORMATION

Effective August 31, 1989

86060.1 General

Information about a parolee is usually not public information. The procedures in this Article govern any disclosure of information about a parolee.

Parole Records

Parolee records maintained by CDC include the following:

- Field file.
- C-File.
- Methadone clinic patient record.
- POC record.

86060.2 Responsibilities for Disclosure Determination**Field File**

Field staff will disclose information only to persons permitted to have the information.

C-File

The regional records staff will disclose information only to persons permitted to have the information.

POC File

Only the chief psychiatrist or designee may disclose information maintained in the POC file.

P&CSD employees authorized to disclose parolee field file and C-File information to departmental and non-departmental persons are designated by the respective Regional Administrator.

With the exception of designated employees, no other P&CSD employee will disclose any personal or confidential information from any parolee/outpatient record to anyone not employed by CDC, BPT or NAEA.

86060.3 Authorized Disclosures

The disclosure of parolee record or file information by oral or written means will be made only when a definitive need-to-know has been ascertained and the identity of the requester has been verified. Only those departmental employees who have been trained and specifically designated may disclose information contained in any departmental parolee record. Disclosures of information may be made to:

Departmental Employees

- To those officials, employees, contractual employees, and authorized volunteers of CDC if such disclosure is relevant and necessary in the ordinary course of the performance of their official duties and is related to the purpose for which the information was acquired.

Public Agencies

- To a person or to another agency where the transfer is necessary for CDC to perform its constitutional or statutory duties, and such use is compatible with a purpose for which the information was collected.
- To a governmental entity when required by state or federal law.
- To another law enforcement agency when required for an investigation of unlawful activity, unless such disclosure is otherwise prohibited by law.
- To another person or governmental organization when necessary to obtain information for an investigation by CDC of a failure to comply with a specific state law which CDC is responsible for enforcing.
- To the state Archives as a record which has sufficient historical or other value to warrant its continued preservation by the state or for evaluation by the director of General Services or the archivist or his designee to determine whether the record has such value.
- To a committee or a member of the Legislature, or to a member of a legislator's staff when authorized in writing by the legislator, where the subject of information has given his or her permission for such disclosure, or where the legislator provides reasonable assurance that he or she is acting in behalf of the subject to whom the information pertains.

Statistical and Scientific Researchers

To a person who has provided CDC with adequate written assurance that the information will be used solely for statistical research or reporting purposes, but only if the information to be disclosed is in a form that will not identify any individual.

To the University of California or a non-profit educational institution conducting scientific research, provided the request for information includes assurances of the need for personal or confidential information and assurances that the personal identity of the subject shall not be further disclosed in individually identifiable form.

Persons Under Compelling Circumstances

Pursuant to a determination by CDC that compelling circumstances exist which affect the health or safety of an individual, if upon such disclosure notification is transmitted to the individual to whom the information pertains at his or her last known address. Disclosure will not be made if it is in conflict with other state or federal law.

Other Persons

With prior written voluntary consent of the individual to whom the record pertains, but only if such consent has been obtained not more than 30 days before the disclosure, or in the time limit specified by the individual in the written consent.

Courts

If a court orders disclosure of a file or issues an order to show cause why a file should not be disclosed, or pursuant to a subpoena or other compulsory legal process, the staff person responsible for the file will contact departmental counsel before responding to the order.

CDC must reasonably attempt to notify the parolee, if such notification is not prohibited by law.

86060.4 Notification to Director

All news media inquiries will be reported through the immediate supervisor to the Regional Administrator or designee. If an employee has any doubt regarding the proper response, the matter shall first be discussed with or referred to the employee's immediate supervisor.

The supervisor will immediately notify the Regional Administrator and the Deputy Director, P&CSD, of any occurrence or situation of unusual public interest that involves a parolee, work furlougee, parole operations, or staff. The Deputy Director, P&CSD, will notify the Director or the Assistant Director, Communications.

86060.5 Information That may be Released to the Public or News Media

CDC records and files pertaining to any individual are not public records and will not at any time or under any circumstances be made accessible to the general public or the public news media. Non-personal information obtained from such records and files may be disclosed to individual members of the general public and to representatives of the public news media. Information will be disclosed only by those departmental employees who have been trained and specifically designated to disclose this type of information.

When responding to written or verbal requests from the general public, the identity of the requester will be determined and an identifiable need-to-know must exist.

When responding to a request from the news media, the identity of the requester shall be determined and the information disclosed must be related to a current newsworthy event.

The following non-personal information may be released pursuant to the above criteria: name; age; photograph; date of birth; race; birthplace; CDC number; commitment offense(s) for current term of imprisonment and any prior commitments to prison; the county(s) from which committed; any pending court action of record; institution or field office having jurisdiction of the case; transfer information (after the fact); anticipated date of release to parole or discharge; BPT and NAEA hearing schedules and actions; general state of health; and nature of injury.

Criminal History

By law, information on the SSCH may not be used to furnish information concerning an inmate or parolee to an agency or person not authorized to receive it.

Adult Probation Report

PC 1203.05 prohibits disclosure of this report to the general public.

86060.6 Accounting of Parolee Record Disclosure

Revised November 28, 1990

Except for those disclosures made to departmental personnel, every unit of the P&CSD that maintains records on parolees will also maintain, as part of each record, a CDC Form 819, Personal/Confidential Information Disclosure Access Log. Entry on the form will be made regarding any disclosure of information from the record.

The accounting will be retained in the record or file for at least three years after the disclosure is made or until the record is destroyed, whichever is shorter.

The P&CSD must inform any individual or agency to whom personal or confidential record information has been disclosed within the previous three years of any amendment, correction of error, or notation of dispute, if:

- An accounting of that disclosure is available.
- The accounting contains the name of the person or agency to whom the disclosure was made.
- The subject of the information provides the name of the person or agency to whom the disclosure was made.
- Exceptions.
 - An accounting (entry on log) is not required for copies routinely routed to the data subject; e.g., board reports, etc.
 - An accounting is not required when disclosures are made to agencies authorized by PC 1105a to receive state criminal history information or when disclosures are made between law enforcement officers on field duty.

86060.7 Collection of Information

Revised November 28, 1990

Personal and confidential information will be collected to the greatest extent possible directly from the individual who is the subject of the information rather than from other sources.

Exception: CDC is required by PC 2081.5 to collect and maintain information on parolees obtained from any interested agencies or persons.

When information is collected from other than the parolee, the sources of the information shall be maintained in the information or clearly referenced to another section of the file/record.

All parolees from whom information is collected will be notified per departmental procedures. For the purpose of meeting this requirement:

- Parolees will be notified by the CCR. Prior to issuance of the CCR written and/or verbal notification will be given. Upon issuance of the CCR, it will serve as continuing notification.
- Individuals other than personnel and parolees will be provided notification, with the CDC Form, or form letter, used to collect the information.
- Notification requirements are met if the individual from whom information is collected received notice within one year of the last request.

86060.8 Revisions

The Deputy Director, P&CSD, shall ensure that this section is current and accurate.

ARTICLE 52 — ACCESS TO INMATE RECORDS

Effective August 31, 1989

86070.1 General

While all departmental case record information is designated as confidential and not accessible for general inspection, case law (In re Olson) and CC 1798 provide access to the parolee and to other specific individuals with written consent of the parolee.

86070.2 Levels of Decision

Field File

A written request to examine a parolee's Field File will be referred to the unit supervisor for approval.

C-File

A written request to examine a parolee's C-File will be referred to the Regional Administrator (or designee) for approval.

POC File

A written request to examine a parolee's POC File will be referred to the Chief Psychiatrist (or designee) for approval.

Time Limits

Within seven days of receiving a request to examine a parolee file, the person (or designee) specified in above paragraphs will notify the person requesting the examination whether the request is denied or approved.

Scheduling an Examination of Parolee File

The record or file will be made available as soon as possible for review, but no later than the following limits from the date of request.

- Active records, 30 days.
- Inactive records, 60 days.

86070.3 Persons Permitted Access

Departmental, BPT and NAEA staff have access to all information about a parolee.

Parolee

A parolee has access only to information in the parolee's own file that is not classified as confidential.

Attorney

An attorney has access to a parolee's file only if authorized by the parolee. Access is limited to information that is not classified as confidential.

Designated Person

This term refers only to an attorney or the investigator for the attorney who is designated and authorized by a parolee to examine that parolee's records. A designated person may not be a parolee or an inmate in any jail, prison, or similar institution. A designated person has access only to information that is not classified as confidential. Additionally, information received from another agency that is classified as confidential by that agency shall not be disclosed to a

designated person. (The parolee or designated persons may be referred to the agency that originated the document.)

CI&I Report

A parolee and/or parolee's attorney may examine the parolee's CI&I report. If the CI&I transcript is the only document needed, the parole staff will refer the parolee and/or parolee's attorney to State DOJ, local police department or sheriff's office to file an application to request a SSCH pursuant to PC 11122.

86070.4 Approved Request

If the person specified above approves a request to examine a parolee file, that person or designee will:

- Notify the person requesting the examination of time and place scheduled for the file examination.
- Designate a reviewer with casework experience who will screen the file for confidential material or determine what, if any, material will be disclosed on the basis of the person's need-to-know. The person designated to review the file will also supervise the examination of the file.

86070.5 Denied Request

The person denying a request to examine a file will document the denial and the reasons in a letter to the person making the request. A copy of the letter will be placed in the C-File and field file.

- A parolee who is denied permission to review the file will be given written notification of the right to appeal.

86070.6 Scheduling an Examination of Parolee File

Date

The examination will be scheduled as soon as possible but no later than ten days from the date the request is approved.

Place

Examination of a parolee file will take place where the file is usually maintained with the following exceptions:

- If a court orders a file to be examined at another location, the order will be complied with.
- If an attorney requests to examine a file at a location near the attorney's office, the request may be granted provided the examination is supervised by a P&CSD staff person.
- The person approving a request for examination may also approve an alternate site for the examination.

86070.7 Charges for Staff Services

There will be no charge for staff services in supervising examination of a file by a parolee, a parolee's attorney or any person designated by a parolee during regular business hours. The person requesting to examine a file outside these hours will be advised that a fee established by CDC will be charged for supervising the examination.

86070.8 Screening a Parolee File

The reviewer will screen all material in the file prior to examination by a parolee, a parolee's attorney or a designated person. The existence of a Confidential Material Folder or a Confidential Case Records Form will not preclude a thorough screening of all material in the file. The purpose of the screening is:

- To locate material already classified as confidential.
- To classify other material as confidential according to the guidelines and procedures contained in this Article.
- To prepare the list of confidential material.
- To ensure that all confidential material is placed in the Confidential Material Folder.

86070.9 Preparation of Confidential Information

If a parolee, a parolee's attorney or a designated person is permitted access to a file, the following procedure will apply:

- If an entire document is classified as confidential, it will be marked "confidential," noted on the Confidential Case Records Form, and placed in the Confidential Material Folder and not disclosed.
- If a document contains a mixture of confidential and non-confidential information, it will be marked "contains confidential information," the confidential portions will be covered, and a photocopy made which will be included in the non-confidential portion of the file to be disclosed. Reference to the confidential information will be made on the Confidential Case Records Form.

The original document will be placed in the Confidential Material Folder and will not be disclosed.

86070.10 Authorization for Attorney or Designated Persons

The person approving examination of a file by a parolee's attorney will notify the attorney of the following requirements for the examination:

- The attorney must provide written and signed acknowledgement that the attorney is acting on the parolee's behalf.
- The parolee must give written consent for the attorney to examine the file.

Designated Person

A designated person (parolee's attorney or the investigator for the attorney) must obtain an authorization signed and dated by the parolee before being given access to the parolee's file.

86070.11 Supervising Examination of a File

Supervision by Reviewer

Generally, the person designated by the Regional Administrator or unit supervisor to review the file will supervise the examination.

Purpose

A departmental staff person will maintain the file under direct observation during the entire examination to prevent loss, destruction, mutilation or alteration of the file's contents and to ensure compliance with the examination procedures contained in this Article.

Confidential

The folder will be removed from the file and not disclosed to the person examining the file.

List of Confidential Information

The person examining a file will be given a copy of the Confidential Case Records Form and will acknowledge receipt by signing another copy. If the examiner refuses to sign, the person supervising the examination will so note on the form.

Answering Questions

The staff person supervising the examination may give non-confidential information in response to questions during the examination or refer the questioner to the person who approved examination of the file. Debates and justifications of departmental actions will be avoided.

Notes

The person examining the file may take notes but may not copy verbatim information from the CI&I record. Only the parolee or the parolee's attorney may review the CI&I record.

Copies of Documents

A copy of an arrest report or the CI&I record will only be given to the requesting party pursuant to PC 11124. Copies of other non-confidential information may be given as follows:

- If the parolee needs them for a hearing, appeal or application.
- If the parolee's attorney requests them.

86070.12 Accounting of Parolee Record Access

Entry on the CDC Form 819, Personnel/Confidential Information Disclosure Access Log, will be made regarding any access to information to the parolee or a designated representative.

Note: Exception. An accounting (entry on form) will not be required for copies routinely routed to the parolee.

86070.13 Requests to Amend Records

Subsequent to examination of file or record information, the parolee will be permitted to request, in writing, an amendment of the information contained in the file. Such requests will be directed to the originator of the contested information, if the originator is an official or employee of CDC. The departmental employee will, within 30 days of receipt of the request to amend, either:

- Make each correction as requested by the parolee (or the designated representative) of any portion of a record which the individual believes is not accurate, relevant, timely or complete.
- Inform the parolee (or designated representative) of the denial to amend the record and the reasons for the denial. Also to be included in the notification is the right to appeal and the procedures for filing an appeal.

86070.14 Appeals Procedure

A parolee who is denied permission to review a file or to amend record information will be given written notification of the right to appeal.

86070.15 Statement of Disagreement

If after the appeal process is completed, including the Director's level review, and the individual's request to amend the record is denied, the individual shall be permitted to file a statement of disagreement of reasonable length setting forth the

reasons for the individual's disagreement. Specifically exempt from the provisions of this section are decisions, determinations and findings arrived at in judicial and administrative hearings relating to the disputed information, as well as other disputed information which includes and adequately reflects the individual's views, beliefs or positions relative to the disputed information.

When a statement of disagreement is submitted, a concise statement of CDC's reason(s) for not making the requested amendment(s) will be prepared. Copies of both statements shall be filed in the record or file that contains the disputed information. The disputed information shall be annotated with a cross-reference to the individual's statement of disagreement.

86070.16 Revisions

The Deputy Director, P&CSD shall ensure that this section is current and accurate.

PC §§ 11122 and 11124.

ARTICLE 53 –UNASSIGNED

ARTICLE 54 — CONFIDENTIAL MATERIAL

Revised March 6, 1995

86080.1 Responsibility and Occasions for Classifying Information as Confidential

Classifying information in a parolee's record as confidential will be done as follows:

When a File is Reviewed Prior to Examination

At any time a parolee, an attorney, or a designated person is given approval to examine a file, a reviewer will be designated to screen the file and classify as confidential all information meeting the criteria.

When a Document is Written

Departmental staff who write or review a document that is included in a parolee's file may classify the document as confidential.

When a Document is Received

The staff person who receives a document from a source outside the Department may classify it as confidential when placing it in a parolee's file.

86080.2 Marking of Confidential Information

Any document designated as containing confidential information, either in total or in part shall be conspicuously stamped at its top and bottom with the word confidential in red ink. If the document consists of more than one page, each page shall be so marked.

86080.3 Basis for Classifying Material as Confidential

Revised September 25, 2007

Material will be classified as confidential according to the information that it contains and not according to its title, label, or origin. The following criteria will apply to classifying material as confidential:

Confidential by Statute

Access to CI&I SSCH is restricted to the parolee, the parolee's attorney, and persons and agencies listed in PC 11105.

Medical, Psychological, and Psychiatric Reports

A report prepared by departmental medical or psychiatric staff will be classified as confidential only if it meets the criteria below. Possible disturbance to the parolee or impairment of the treatment relationship is not a valid reason for classifying material as confidential unless disclosure might result in suicide attempts by the parolee. A report classified as confidential will contain a statement of the reason for the classification.

Victim/Witness Notification

All requests by a victim, witness, next-of-kin, or immediate family member as defined in Section 3000 of the Title 15 for notification/special condition of parole, and any responses to such requests shall be classified as confidential and filed in the confidential section of the inmate's/parolee's file. (Refer to DOM 72060, Notices.)

Threatens the Safety of a Person

Information which, if disclosed, might lead to retaliation against any person will be classified as confidential.

Another Person's SSCH

Information regarding another person's criminal history, which is not a matter of public record (e.g., a crime partner's cumulative case summary), will be classified as confidential.

Promised or Implied Confidentiality

Information should be classified as confidential only if it is judged to be highly sensitive and there was a promise of confidentiality.

Threatens the Security of a Facility

Information that, if disclosed, might threaten the security of any jail, prison, or similar facility will be classified as confidential.

Information Classified as Confidential by Other Agencies

If departmental staff retains a confidential classification imposed by the agency that originated the information, the parolee may be referred to that agency for disclosure.

Department of Health

Information classified as confidential by the Department of Health may be declassified only if a departmental staff physician determines that its content does not warrant classification as confidential. If it is decided that the confidential classification will remain, the physician will note the reason on the report.

CYA

Information classified as confidential by the CYA will be reviewed and classified by departmental staff according to its content. The reviewer should contact the originator of the document or the CYA's Central Office before declassifying it.

Reports of Other Law Enforcement Agencies

Reports of other law enforcement agencies, which are classified as confidential by the originating agency, will retain that classification. The parolee, attorney, or designated person may be referred to the originating agency.

Departmental Staff Correspondence with Legal Counsel

If a parolee's record contains correspondence between departmental staff and legal counsel, the correspondence will be classified as confidential if it discloses CDC's position in potential or pending litigation. This criterion applies to correspondence that discusses the issue or facts of a case, requests an action that is not routine, suggests the outcome of a case, or recommends legal strategy.

86080.4 List of Confidential Case Records

The person designated to review a parolee's file will complete the Confidential Case Records Form listing all material classified as confidential.

The list will include the following information:

- The title and location of the file.
- The parolee's name and number.
- The name of the person who requested to examine the file.
- The general nature of each document classified as confidential, stated in such a way as to prevent the examiner from deducing the confidential information.
- A reason for the classification.
- The signature of the reviewer.
- The date the file was reviewed.

The information will be typed on the form, and a copy of the form placed in a Confidential Material Folder in both the C-File and the field file. A copy of the form will also be given to the parolee, the parolee's attorney, or a designated person when examining the non-confidential portion of the file.

Prior to any examination, the file will be reviewed and the list of confidential material updated. A copy of the updated list will be placed in both the C-File and field file to ensure that information contained in both files will not be classified as confidential in one and not the other.

86080.5 Confidential Material Folder

All documents which are classified as confidential or which contain confidential information will be placed in a folder attached to the inside of the back cover of the file.

The C-File and the field file will each contain a Confidential Material Folder if information in either file is classified as confidential. If the C-File contains information classified as confidential when the parolee is released to parole, the Regional Case Records Manager will prepare a Confidential Case Records Form, and a Confidential Material Folder. A copy of the Confidential Case Records Form will be sent to the Parole Agent for inclusion in the field file.

The Parole Agent will mark as confidential any information listed on the Confidential Case Records Form that is in the field file and place it in the Confidential Material Folder in the field file.

The P&CSD staff person who classifies a document as confidential will place it in the Confidential Material Folder, replace it in the file with a completed Notice Form, and update the Confidential Case Records Form.

A copy of the most recent Confidential Case Records Form will be placed in both the C-File and field file.

The P&CSD staff person who classifies a document as confidential will ensure that all copies of it are also classified as confidential and placed in the Confidential Material Folder whether in the central, field, or any other file.

86080.6 Declassification

The person designated to review a file prior to its being examined may declassify information previously classified as confidential.

The reviewer should discuss the intended declassification with the person who originally classified the information as confidential.

A difference of opinion regarding the need for classification as confidential will be referred to the RPA for a final decision.

86080.7 Correcting Erroneous Information in a Parolee File

The validity and accuracy of file information is the responsibility of all P&CSD staff. The staff person discovering any erroneous or misleading information will mark it as such and attach a correction or explanation.

Only the RPA may authorize removal of erroneous or misleading information from the C-File. Approval will be granted only under the following conditions:

- The information is clearly shown to be erroneous or misleading.
- The information has not been considered in any deliberation, determination, or action affecting the parolee.
- If the information has been considered as indicated above, the information may not be removed, but an explanation or correction will be attached.

86080.8 CI&I SSCH Limited Access

PC 11105 lists the persons and agencies allowed access to CI&I SSCH. P&CSD staff will not provide copies of SSCHs and will not provide information directly from the SSCH to any person or agency not specified in PC 11105. If P&CSD staff believe a person or agency not listed in PC 11105 has a legitimate reason to know information about a parolee, that information must be derived from records other than the CI&I Record or the POR.

Access on the Basis of a Need-to-Know

Access to the SSCH by persons and agencies listed in PC 11105 is on the basis of their need-to-know related to the official function of that person or agency. These persons and agencies may obtain copies of SSCH through the Regional Case Records Manager or from the Parole Agent.

Other Agencies' SSCH

Disclosure of SSCH from agencies other than State DOJ is not limited by statute. P&CSD staff will observe the confidentiality policies of agencies from which information or documents are received, especially other law enforcement agencies.

86080.9 Safekeeping and Storage of Confidential Parolee Material

Confidential parolee record information will be kept in the Confidential Material Folder and attached to the inside of the back cover of the field file or C-File.

An authorized person reviewing confidential material is responsible for it while it is in that person's control.

Preliminary drafts, carbon sheets, stenographic notes, worksheets, etc., and any item containing confidential information will be destroyed by the individual responsible for their preparation immediately after having served their purpose.

86080.10 Revisions

The Deputy Director, P&CSD, or designee is responsible for ensuring that the contents of this section are kept current and accurate.

86080.11 References

ARTICLE 55 — DISCLOSURE TO AGENCY OR PERSONS

Effective August 31, 1989

86090.1 General Guidelines for Disclosure to Other Agencies and Persons

With Consent

If the patient gives prior written consent, designated clinic staff may disclose necessary patient information, whether recorded or not, to the following persons:

- Medical personnel or to treatment or rehabilitation programs when the disclosure is needed to furnish services to the patient.
- Medical personnel able to provide continued methadone maintenance when the patient is traveling, incarcerated or hospitalized. Any such disclosure must be documented with the name of the patient, or assigned program case number, the date and time of the disclosure, the information disclosed and the names of the individuals by whom and to whom it was disclosed; and the purpose for the disclosure.
- The patient's attorney.
- The patient's family or close personal relations, unless the person responsible for treatment believes the disclosure would be harmful to the patient.
- Employers and employment agencies, when it is believed that the information may assist in the patient's rehabilitation.
- A criminal justice agency which requires methadone maintenance as a condition of release, probation or parole, or as the disposition or status of any criminal proceedings against an individual, or pursuant to the execution or suspension of any sentence imposed upon him or her. Consent may not be revoked for 60 days or until the condition for which it was given has terminated, whichever is later.

Without Consent

Without the patient's written consent, designated clinic staff may disclose necessary information to the following persons:

- Medical personnel to the extent necessary to meet a bona fide medical emergency.
- To qualified persons conducting authorized scientific research, management audits, financial audits or program evaluation. The identity of individual patients may not be disclosed, either directly or indirectly, in any resulting report.
- Persons or agencies authorized by a court order to receive such information.

86090.2 Revisions

The Deputy Director, P&CSD shall ensure that this section is current and accurate.

86090.3 References

DOM § 13030.

ARTICLE 56 – RESERVED (REHABILITATION & PARDON)

ARTICLE 57 – WORK SCHEDULES

Effective October 20, 2006

87210.1 Policy

It is the policy of the California Department of Corrections and Rehabilitation (CDCR) that work schedules shall be accomplished in a uniform manner consistent with applicable laws, policies, and sound personnel practices.

87210.2 Purpose

This Section outlines the procedures and requirements that shall be followed for work schedules.

87210.3 Responsibilities

Unit Supervisor

The Unit Supervisor reports to the District Administrator and is responsible for managing and maintaining CDCR's overall parole supervision efforts at the field parole unit level.

The Unit Supervisor is responsible for ensuring that all Parole Agents comply with the scheduling requirements of the contract and the meeting of operational needs.

The Unit Supervisor shall approve the work schedule at least three (3) days prior to the scheduled month, unless it can be documented that the scheduled work

hours as submitted would be detrimental to the needs of the office or would hinder the Parole Agent in the performance of his/her duties and responsibilities.

The Unit Supervisor shall provide the Parole Agent with the written documentation if requested by the employee.

The Unit Supervisor may assign the work schedule if the Parole Agent does not submit a monthly work schedule.

Parole Agent

The Parole Agent reports to the Unit Supervisor and is responsible for supervising parolees on their caseload.

The Parole Agent is responsible for submitting a proposed work schedule to the Unit Supervisor for each month at least seven (7) calendar days, but no more than fourteen (14) calendar days, prior to the beginning of the scheduled work month.

The Parole Agent is responsible for complying with the scheduled work hours once they are approved by the Unit Supervisor.

Parole Agent requested changes in the work schedule, excluding emergencies, will require prior Unit Supervisor approval.

Parole Agents will advise their Unit Supervisor of emergency changes in their approved work schedule no later than the next working day.

87210.4 Work Rules

Case carriers will not be scheduled for work on holidays, whether weekdays or weekends, except to handle emergency situations, as specified in the current Memorandum of Understanding (MOU) for Bargaining Unit Six.

87210.5 Work Week

The work hours for the Officer-of-the-Day (OD) are from 8:00 a.m. to 5:00 p.m., unless otherwise specifically identified.

The MOU states that Parole Agents with the Unit Supervisor's approval may elect the daily start and stop time, with the exception of the OD duty.

The normal work schedule for Parole Agents shall be a four (4) or five (5) day work week, as dictated by the workload, and approved by the Unit Supervisor in accordance with the MOU for Bargaining Unit Six.

The Parole Agent may schedule other than an eight (8) or ten (10) hour work day, with supervisory approval.

The work week shall start on Monday and end on Sunday, as specified in the current MOU for Bargaining Unit Six.

87210.6 Work Hours

Work hours, subject to Unit Supervisor approval, will be scheduled between 6:00 a.m. and 10:00 p.m., except as emergency and operational needs dictate.

No work will be routinely scheduled between the hours of 10:00 p.m. and 6:00 a.m.

Each work day will be a minimum of at least four (4) work hours and a maximum not to exceed twelve (12) work hours, except as emergency and operational needs dictate.

87210.7 Lunch Periods

The workday may include, at the employee's discretion, no meal break, or an optional one (1) hour, or one-half (1/2) hour meal break.

The lunch period, if authorized, is from 12:00 p.m. to 1:00 p.m., unless otherwise specifically identified, as specified in the current MOU for Bargaining Unit Six.

87210.8 Evening Hours

Work schedules shall include a minimum of four (4) evenings per month.

These mandated evenings shall be in the field, except if previously waived by the Unit Supervisor. The waiver will be the exception rather than the rule.

These mandated evenings will be worked until at least 7:00 p.m.

Nothing in this Section shall prohibit Parole Agents from scheduling additional voluntary evenings, as specified in the current MOU for Bargaining Unit Six.

87210.9 Work Schedule

Each Parole Agent shall submit a proposed work schedule to the Unit Supervisor for each month at least seven (7) calendar days, but no more than fourteen (14) calendar days, prior to the beginning of the scheduled month for supervisory approval.

The schedule will represent all work hours, which shall include all workdays, weekend work, evening work, days off, OD duties, lunch or no lunch, training, and any other special assignment responsibilities, as specified in the current MOU for Bargaining Unit Six.

87210.10 Work Schedule Approvals

The Unit Supervisor shall approve the work schedule at least three (3) days prior to the scheduled month, unless it can be documented that the scheduled work hours as submitted would be detrimental to the needs of the office or would hinder the Parole Agent in the performance of his/her duties and responsibilities. This documentation shall be provided if requested by the Parole Agent.

If a Parole Agent does not submit a monthly work schedule, the Unit Supervisor will assign the work schedule, as specified in the current MOU for Bargaining Unit Six.

87210.11 Work Schedule Adjustments

During the scheduled month, the Unit Supervisor may occasionally adjust the work hours based upon operational needs with written justification to the Parole Agent.

This adjustment shall not be intended to avoid the assignment of overtime.

Parole Agent requested changes in the work schedules, excluding emergencies, will require prior supervisory approval.

Parole Agents will advise the Unit Supervisor of emergency changes no later than the next work day, as specified in the current MOU for Bargaining Unit Six.

87210.12 Revisions

The Director, DAPO, or designee, is responsible for ensuring that the contents of this Article are kept current and accurate.

Department of Personnel and Administration Rules and Regulations.

Department Operations Manual Section 85030.

MOU for Bargaining Unit Six.

CHAPTER 9 – HEALTH CARE SERVICES*Effective June 16, 1995***ARTICLE 1 – RESERVED FOR MEDICAL SERVICES****ARTICLE 2 – MENTAL HEALTH SERVICES***Revised July 11, 1995**Updated March 9, 2015***91020.1 Policy**

The Department shall receive, evaluate, house, treat, and/or refer all psychiatrically disturbed inmates who by virtue of their mental illness are unable to appropriately function within the constraints of the usual correctional processing or program assignments.

91020.2 Purpose

To provide for the detection, diagnosis, treatment, and referral of inmates with mental health problems and to assist each facility's Warden during all stages of each inmate's period of incarceration.

91020.3 Plan for Mental Health Programs

The Deputy Director, HCSD, shall maintain the delivery of mental health services and programs to inmates and parolees. Such services and programs shall include the following:

- Provisions for mental health care to all inmates and parolees with emphasis on identification of need while in reception and prerelease processing.
- Provision for diagnosis and treatment of voluntary patients.
- Provision for involuntary diagnostic and treatment services with appropriate safeguards against abuse and means for appeal and relief.
- POCs shall provide mental health services to parolees, reporting administratively to P&CSD, and reporting professionally to the Deputy Director, HCSD.
- An ongoing program to assess the needs of current departmental population.
- Priorities for the use of limited resources and plans for improving existing programs or initiating new programs.
- Criteria for referring for services within the Department and to other agencies.
- A program review and evaluation activity.

91020.4 Services

Each institution shall provide staff, space, equipment, and supplies for the treatment and/or referral of inmates with mental disorders requiring care. Each institution shall provide 24-hour emergency service.

- All departmental staff, by their supervisors, shall apprise institutional management when this procedure and/or professional standards are not being followed or met.

91020.5 How Services are Obtained

Departmental employees may refer an inmate to an institution's mental health services or the inmate may submit a request for such services.

91020.6 On-Site Services

Inpatient psychiatric services shall be provided at the:

- CMF.
- CIM.

Outpatient services or arrangements for appropriate referrals shall be provided at all institutions.

91020.7 Routine Referrals

The treating physician at any facility may initiate a referral to any psychiatric resource by contacting the designated facility Chief Psychiatrist (CP) or equivalent. The referring facility shall arrange transportation. The receiving facility may request further evaluation prior to transfer.

Placement and assignment procedures for psychiatric treatment categories, including documentation and CSR endorsement, shall be as outlined in the DOM 62050 and 62080.

91020.8 Category "I"

A classification of Category "I" for males and "I" or "Psychotic" for females is assigned to inmates who are believed to be:

- Acutely psychotic, severely depressed, or suicidal.
- Mentally ill inmates who are management problems, providing the psychosis warrants treatment in a hospital setting.

91020.8.1 Category "I" Transfers

Category "I" care is provided at CMF or at the CIW. Category "I" designation shall only be made by CMF or CIW staff. Other institutions with inmates who appear to meet Category "I" criteria shall transfer such cases to CMF or CIW for psychiatric observation.

When an inmate believed to be mentally ill is transferred to a psychiatric program and later found not to be mentally ill, they shall be returned to the sending institution without CSR review.

The DMH provides inpatient services for inmates transferred from the Department in accordance with PC 2684 and at CMF by interdepartmental contract.

91020.8.2 Mental Health Evaluations

When an inmate is transferred for a comprehensive mental health evaluation by a multiple disciplinary mental health team, it shall take place within 14 days after the date of transfer. The evaluation shall include at least the following:

- Review of mental health screening and appraisal data.
- Collection and review of additional data from staff observation.
- Individual diagnostic interviews and tests assessing intellect and coping abilities.
- Compilation of individual's mental health history.
- Development and overall treatment/management plan with referrals.

91020.9 Off-Site Services

The Department maintains interdepartmental agreements to transfer mentally ill or mentally deficient inmates or parolees to DMH or the Department of Developmental Services for treatment.

91020.10 Records

Records for each inmate housed by DMH shall be maintained by the respective "hub" institution (refer to DOM 62030). The "hub" institution and P&CSD staff shall make all contacts with the designated DMH facility to secure reports, schedule BPT hearings, and to process an inmate's parole or discharge. Any report needed for BPT hearings, Superior Court, or other such proceeding shall be requested of DMH to prepare the report or send the departmental staff person to the hospital to complete the report.

91020.11 Inpatient Facility

The psychiatric inpatient unit shall treat mentally disordered patients with any psychiatric illness or disease, whether functional or of organic origin, requiring inpatient-level care.

91020.11.1 Inpatient Facilities Requirements

The CP shall:

- Administer medical care and services for the unit, including all acts of diagnosis, treatment, prescribing, and ordering of drugs.
- Develop a plan for treating and/or referral of patients with emergency medical problems.
- Chair a committee to identify and recommend to administration necessary equipment and supplies.

91020.11.2 Psychiatrists

The psychiatrist shall:

- Prepare the diagnostic formulation for each inmate.
- Develop and implement individual treatment plans.
- Determine frequency of medical examinations.

Reports of all medical examinations shall be placed in the inmate's medical record file.

Only medical staff shall order an inmate removed from general housing status for medical or psychiatric reasons.

91020.11.3 Clinical Psychologists

Psychological services shall be provided by clinical psychologists. Clinical psychologists are members of the medical staff and shall have admitting privileges within departmental medical facilities.

91020.11.4 Social Worker Services

A social worker shall be used for the rendering of social services:

- At the request of the patient's attending physician.
- At the request of management staff.

91020.11.5 Psychiatric Nursing

A nurse with at least two years experience in psychiatric nursing shall provide the nursing management of the psychiatric unit.

There shall be an RN with training and experience in psychiatric nursing on duty at all times in an institution having a psychiatric unit.

There shall be sufficient nursing staff including RNs, MTAs, Licensed Vocational Nurses (LVN), and mental health workers to meet the needs of inmates. Nursing activity documentation shall be forwarded to the unit CP.

91020.12 Therapeutic Programs

Every inpatient unit shall:

- Provide and conduct organized programs of therapeutic activities in accordance with the interests, abilities, and personal and custodial needs of the inmate.
- Develop and record an individual evaluation and treatment plan which is correlated with the total therapeutic program.

Qualified therapists shall be employed to conduct the therapeutic activity program that may include:

- Occupational.
- Music.
- Art.
- Dance.
- Recreation.

91020.13 Inmate Patient Rights

Each inmate patient shall have the same rights as all other inmates unless the physician has good cause to deny an inmate any of the rights specified. The denial and reasons shall be entered in the inmate's medical record.

91020.14 Due Process for Psychiatric Patient Transfers to CMF

Due process for inmates transferred to CMF for psychiatric reasons shall be accomplished by CMF staff.

The inmate shall:

- Be given written notice indicating a hearing shall be held within seven days after arrival at CMF.
- Be assisted by his caseworker for and at the hearing which includes available documentation relating to the transfer.
- Have the information and/or justification for ordering the transfer disclosed at the hearing.
- Have the opportunity to present either oral or written testimony of witnesses.
- Be informed in writing of the decision.

The chairperson shall:

- Be an independent decision maker.
- Not be the treating psychiatrist at the referring or treating facility.
- Have the discretion to limit witnesses.
- Have the discretion to continue the hearing if additional information is needed.

91020.14.1 Appeal

The inmate may appeal the decision within 30 days using CDC Form 602, Inmate/Parolee Appeal Form.

Note: DOM 54060.15 through 54060.34 are now incorporated into DOM 91090.

91020.15 Control of Inmate

Revised August 17, 2011

Refer to the CCR, Title 15, Section 3268, Use of Force policy.

91020.15.1 Contained Situation

Contained or controlled situations (such as a recalcitrant inmate in a locked cell or room) with no apparent likelihood of immediate danger or injury to any person shall be evaluated and alternatives to the use of force, considered. In such controlled non-emergency situations, the use of force may be authorized only by personnel at the level of lieutenant or above. On psychiatric wards, the approval of a psychiatrist shall be required.

91020.16 Staff Responsibility

Staff persons shall:

- Orally report to the immediate supervisor all incidents where physical force is used to subdue, contain, or control an inmate.
- Fully document the incident prior to leaving the facility.

91020.16.1 Supervisor's Responsibility

Supervisors shall:

- Provide supervision of the incident, when possible, to ensure only minimum amount of force is used to control the situation.
- Not become actively involved in the use of force unless absolutely necessary.
- Report incident verbally and in writing to the immediate supervisor.

Supervisor in charge shall:

- Ensure medical attention and care is provided.
- Have personnel evaluated by medical staff and first-aid administered if required.
- Have injured inmates treated by medical staff and documented on a CDC Form 7219.
- Have photographs taken of all persons involved and verify photographs are true depictions.
- Log and maintain negatives and pictures for two years before obliteration.

91020.17 Restraint and/or Seclusion

Application of mechanical equipment and/or seclusion for psychiatric reasons shall be:

- Used only to protect the inmate and others from injury.
- To prevent property damage.

Mechanical Equipment

An inmate shall:

- Be placed in restraint only by written order of a physician.
- Be placed in restraint at the discretion of a RN, MTA, or LVN and an oral order obtained, recorded, and signed by a physician.
- Be observed every 15 minutes by medical staff.
- Be easily removable in the event of fire or other emergencies.

A record of type of restraint, application, and removal shall be in the inmate's medical record.

Seclusion

An inmate placed in seclusion requires the same orders as mechanical equipment restraint.

91020.18 Electronic Control Device

Revised August 17, 2011

Procedures for the use of an Electronic Control Device (ECD) are contained in the Restricted Volume (55000 Series) of the DOM.

91020.18.1 Review of Medical/Psychiatric Records**Custodial Staff**

A taser shall not be utilized until the following occurs:

- Custodial staff shall notify the CMO or designee that use of the taser is being considered on a particular inmate. Custodial staff shall identify the inmate to medical staff by name, CDC number, and housing location.

CMO

- The CMO or designee is responsible to review the medical and psychiatric sections of the inmate's health record to ascertain whether there are any medical conditions that preclude the use of the taser. **Use of the taser is prohibited if the inmate received any psychotropic medication in the prior six weeks, is being treated for a cardiac arrhythmia, or has a pacemaker.**
- If no prohibitive medical or psychiatric condition exists, medical staff shall inform the appropriate custodial authority that there are no medical/psychiatric factors which preclude the use of the taser on the inmate at this time.

91020.18.2 Documenting Review of Medical/Psychiatric Records**CMO**

- The CMO or designee is responsible to document their findings in the general medical and psychiatric sections of the inmate's health record.

Facility Administrative Staff

- The facility administrative staff is responsible to document compliance with these procedures within the CDCR Form 837 series, Crime/Incident Report, which is submitted to the Institutions Division at headquarters.

See DOM 32010, Taser Certification/Recertification Requirements; 51030, Reportable Incidents; and 55050, Authorization/Use/Limitations and Storage, for additional information on the taser.

91020.19 Inmate in AD-SEG

When an inmate remains in AD-SEG beyond 30 days, a personal interview shall be conducted and a written report, CDC Form 128-C, shall be prepared by a psychologist or psychiatrist to evaluate any psychological sequel, need for medications, and/or reassurance about external circumstances. If the inmate confinement continues beyond three months, a psychological assessment shall be made every three months.

91020.20 Clinical Evaluation by Counselors

There may be occasions when large numbers of psychiatric referrals and limited psychiatric staff may require that qualified CC-IIs prepare clinical records in lieu of psychiatric evaluations for selected cases and under supervision of a psychologist or a psychiatrist. A psychiatric council shall be established to review such evaluations prepared by counselors. The council shall be comprised of:

- Chairperson: facility's chief or program psychiatrist/consulting psychiatrist.
- Clinical psychologist.
- PA, CC-III, or CC-II who prepared the evaluation.

91020.21 Inmates With Death Sentences

Three appointed psychiatrists shall:

- Conduct a psychiatric examination and submit a written report to the Warden in time for the report to be transmitted to the Governor at least 20 days prior to the scheduled execution date.
- Have all information available pertinent to the inmate's sanity.
- Prepare a report at least 20 days prior to scheduled execution to be submitted in triplicate to the Director.
- Evaluate the electroencephalogram examination with an interpretation of the results in lay wording.

91020.22 Psychiatric Serious Disciplinary Hearings

For serious disciplinary hearings in a psychiatric unit, a subcommittee shall include a psychiatrist or psychologist. A full disciplinary committee shall include a psychiatrist and a psychologist.

91020.23 Psychiatric/Psychological Evaluations--General Instructions

For efficient use of evaluations for BPT, Superior Court, etc., the psychiatric/psychological portion of the cumulative case summary shall:

- Be brief and concise.
- Use lay terminology and explanations.
- Avoid detailed recapitulation of material available elsewhere in the cumulative summary.
 - If the previous report is virtually identical to the current evaluation, do not rewrite the entire report.
 - Indicate the case has been reviewed, the previous report is still applicable, and there is no significant change.

91020.23.1 Content

The evaluation shall also indicate:

- Whether this is the first, second, etc., report to the authority.
- Length of time since the last report.
- What was the nature of author's contact with the inmate.
- If first report, note pertinent previous psychiatric history with a short digest of essential conclusions and treatment.
- Summarize current essential development and progress.
- Delineate the psychopathology present which supports the diagnosis and prognosis.
- Reevaluate previously reported psychiatric conclusions.
- Comments on causative factors, self-understanding, attitudes, motivation for change, emotional stability, social identification, sincerity, and rehabilitation.
- A neurological appraisal (or reference to prior appraisal or note that such appraisal is needed) if organicity is present.
- The observed effect of medication or note if not on medication.

91020.23.2 Conclusions

All evaluations shall list the reasons for general conclusions. The diagnosed psychopathology is related to criminal behavior:

- Directly, the offense or offenses were largely a function of the psychopathological state.
- Indirectly, the psychopathology directly and clearly predisposed to the offenses but did not determine them.
- No significant relationship, criminal behavior, and psychopathology have been unrelated. Continuation of the psychopathology does not substantially increase the likelihood of criminal behavior.

Observation in the Facility

During observation in the facility, the inmate has:

- Psychiatrically improved slightly, moderately, greatly, or entirely.
- Psychiatrically deteriorated slightly, moderately, or greatly.
- Psychiatrically has shown no significant change.
- No conclusions may be drawn because of insufficient time and observation by evaluation.

Return to Community

In a less controlled setting such as return to the community, the inmate is:

- Considered likely to continue improvement.
- Considered likely to hold present gains.
- Considered in all probability to deteriorate because of (list reasons).

91020.23.3 Suggested Actions

From a psychiatric standpoint, the inmate should:

- Remain in present rehabilitation program as continued benefit is likely. State recommended specific treatment.
- Be removed from special (psychiatric evaluation) calendar because:
 - Psychopathology is not significantly related to future criminal behavior and psychiatric opinion will not contribute to release decision.
 - Two or more favorable psychiatric reports (having conclusions favorable for release) have been written within the last three years. The two favorable reports shall have been written by more than one examiner or had psychiatric council review.
 - There have been repeated psychiatric reports describing chronic mental pathology which cannot be expected to change. The conditions under which parole would be possible or become possible shall be spelled out with this recommendation.
- Be considered for transfer to DMH as needing treatment not available in the Department. Recommendations shall state whether it is anticipated that such treatment may result in the inmate being able to be returned to society.

91020.23.4 Parole and Release

If the inmate is to be paroled or released, consideration shall be given to the following:

- Violence potential outside a controlled setting in the past considered to have been serious (specify) and at present estimated to increase, decrease, or be comparable. In this context, violence is equated with inflicting physical harm on others or great emotional harm, as by creating fear.
- Conditions of parole such as outpatient clinic (parole or local), halfway house, no alcohol, and other special attention or special supervision needs. Indicate whether evaluator recommends:
 - Mandatory for parole from facility.
 - Necessary after release to parole.
 - Desirable.
- Continuation of medication on parole. Specify name of medication, dosage, frequency, and route of administration.

91020.23.5 Contingency Recommendations

Indicate recommendations to the classification committee if parole is denied. If a parole date is set, give pertinent information for the period in the facility prior to parole (e.g., whether further psychiatric evaluation should be made prior to release). Indicate basis for all recommendations.

91020.24 Progress Reports

After the report is written, new psychiatric developments in the case shall be reported on CDC Form 128-C and sent to the C&PR for inclusion in the report.

91020.25 Psychiatric Evaluations—Life Prisoners

A full psychiatric evaluation on life prisoners shall be prepared for all initial and subsequent parole hearings. An evaluation shall be prepared for any rescission hearing based on psychiatric problems or assaultive/sexual behavior. Inmates shall be retained on psychiatric referral status unless specifically removed by a BPT panel and the reasons specified in the hearing decision.

91020.25.1 Category X

Inmate cases ordered to category X shall be calendared to appear in one year, unless the panel specifically instructs that the inmate be calendared upon completion of the evaluation. Inmates who refuse to cooperate with a requested evaluation shall also be retained on psychiatric referral status and calendared on the one-year schedule.

91020.25.2 Distribution

Psychiatric evaluation reports shall be completed and copies distributed to the inmate, their attorney, and the DA at least 15 days before the hearing.

91020.26 PC 1170(d) Evaluations

When a request for a PC 1170(d) is received, staff shall prepare a diagnostic study and recommendation. This report, together with the current psychological evaluation if indicated, and a transmittal letter shall be reviewed by the program's Associate Warden. If any staff recommendations are in conflict, the method by which this conflict was resolved shall be described in the transmittal letter to the court. Excluding reception centers and emergencies, inmates shall not be transferred until the PC 1170(d) report is completed.

91020.27 PC 273(a)(d) and 1203.03 Evaluations

Reception center staff shall prepare a psychiatric/psychological evaluation for each PC 1203.03 case and each inmate who, after observation or based on the information from the county, appears to have a psychiatric problem that may affect facility placement. Prisoners convicted of PC 273(a) (willful cruelty toward child/jeopardizing life, limb, or health) and/or PC 273(d) (inflicting corporal punishment upon a child resulting in traumatic injury) shall undergo a psychiatric/psychological evaluation to determine whether counseling may be recommended as a condition of parole.

91020.28 Work/Training Incentive Program

An inmate with documented long-term medical/psychiatric work limitations shall be processed in the following manner:

- The inmate shall receive a psychiatric or psychological evaluation to determine the extent of the inmate's disability and to delineate the inmate's capacity to perform work and/or training programs for either a full or partial work day. If the inmate is deemed capable of working only a partial work program, they shall be awarded full-time credit for participation in such a program.
- The psychiatric or psychological evaluation shall be reviewed by the facility's classification committee.

91020.29 Revisions

The Director, DHCS, or designee is responsible for ensuring that the contents of this article are kept current and accurate.

ARTICLE 3 –DENTAL SERVICES

Revised March 11, 1993

91030.1 Policy

The Department dental care policy is to provide only the most essential treatment for the greatest number of inmates.

Basic minimum services shall be accomplished first. Elaborate or extensive care for one patient that cannot be provided for all shall not be undertaken.

Availability of funds, facilities, and staff shall govern the level of treatment provided.

Dental services provided shall be diagnostic, preventive, and corrective procedures legally performed by lawfully qualified dental health professionals.

91030.2 Purpose

To provide care necessary to diagnose, prevent, control, and correct dental conditions that are detrimental to the health or the dental well being of the inmate.

91030.3 Policies

The chief dentist (CD) shall develop and maintain written policies and procedures for the dental service in consultation with other health professionals and administration.

In hospitals:

- Policies shall be approved by the governing body.
- Procedures shall be approved by the medical staff and administration.

Written statements defining responsibility and accountability of the dental service to the medical staff and administration shall:

- Be available at all health facilities.
- Include an organization chart.

Written procedures shall be developed assuring inmate access to dental health services covering inmates housed in disciplinary and special housing units as well as general population.

91030.4 Dental Services Provided On-Site

Each designated dental site shall be provided with sufficient space, staff, equipment, and supplies to provide the following services:

- Examinations and X-rays.
- Oral hygiene and prevention instructions.
- Fillings: silver alloys and composites.
- Temporary crowns: acrylic and stainless steel.
- Oral surgery.
- Limited periodontal treatment.
- Prosthodontics: removable full and partial dentures.

91030.4.1 Dental Services Available Off-Site

For essential services that are not provided on-site, each dental service site shall make contractual arrangements for services to be provided off-site.

91030.5 Personnel

Each dental service site shall have professional and auxiliary staff to meet the needs of the facility. This staff shall be composed of:

- Full-time facility employees.
- Part-time facility employees.
- Contract employees.
- Volunteers.

Policies and procedures of the Department for the utilization of these personnel classes shall prevail.

91030.5.1 Staff Responsibilities

All dental services shall be under the professional supervision of a dentist licensed to practice in the State of California who is responsible for dental services to the Deputy Director, HCSD.

Wardens

Wardens have supervisory responsibility of CDs with regard to custody, security, and administration of facility rules. Wardens shall be consulted on major changes in dental services programs.

Chief Dentist

The dental service shall be under the immediate supervision of a designated dentist referred to as the CD who shall be licensed by the State of California and who is fully qualified. Responsibilities shall include:

- The organization and administration of the dental service.
- The supervision of staff assigned to the dental service.
- The mechanism for providing dental care.
- The coordination of dental services with medical, psychiatric, nursing, and custodial services.
- The recruitment and training of staff members.
- Clarifying policies in all aspects of dental care.

- Duty statements for each position utilized. The duty statement shall include:
 - Job title.
 - Full or part-time position.
 - Temporary or permanent position.
 - Duties to be performed and percentage of total time spent in each.
 - Hours of work.
 - Position's immediate supervisor.
- Developing and implementing a process whereby the facilities, the process of care, and the outcome of care are evaluated to ensure that the dental service performed meets acceptable standards.
- A process whereby the programs for delivering dental care are evaluated to assure the appropriate allocation of dental resources.
- Keeping copies of current licenses for all free dental staff.
- Filing copies of current drug enforcement administration certificates for dentists with the pharmacy.
- Establishing dental sick call to accommodate the IW/TIP.

Dentist

Dentists employed by the Department shall be licensed and fully qualified to practice dentistry in California. They shall adhere to the Code of Ethics published by the American Dental Association.

Dentists shall:

- Provide dental care in a facility setting.
- Be in charge of facility dental services.

Auxiliary Personnel

The duties of dental auxiliary personnel shall be limited to such tasks as can be performed legally.

Inmate Personnel

Inmates shall not be used for:

- Direct patient care services.
- Scheduling of appointments.
- Determining access of other inmates to health care services.
- Handling or having access to:
 - Surgical instruments.
 - Syringes.
 - Needles.
 - Medications.
 - Health records.
- Duties requiring the operation of equipment for which they are not trained and/or not certified.

91030.5.2 Liability and Malpractice

Employees of the Department may choose to be represented by the AG's Office if involved in litigation relating to their employment. In general, the State shall be liable for damages caused by persons while acting as agents of the State. The State is not responsible for punitive damages.

91030.6 Clinical Privileges

In facilities that have organized medical staffs, dental members shall participate in the development of the scope and extent of clinical privileges granted to dentists. Privileges shall be granted on the basis of:

- Training.
- Experience.
- Demonstrated competence.
- Judgment.

91030.6.1 Denial of Clinical Privileges

Specific clinical privileges shall not be denied to individuals possessing professional qualifications without following due process procedures.

91030.7 Operating Room Responsibility

Surgical procedures performed by dentists in the medical operating room shall be under the overall responsibility of the chief of surgery or other responsible person or committee in the same manner as pertains to all other medical staff members having surgical privileges.

91030.8 Examination

A dental examination shall consist of:

- Visual and manual inspection of the oral cavity utilizing:

- Adequate light.
- Mouth mirror.
- Explorer.
- Periodontal probe.
- Checking both hard and soft tissue.
- X-rays and other diagnostic aids as indicated.

Outpatient Dental Record

Information shall be recorded on the CDC Form 237-B, Health Record--Dental, and filed in the outpatient dental record (OPD) folder. The OPD is part of the medical record and contains:

- Health histories.
- Consent/refusal forms.
- Consultation requests.
- X-rays.

91030.9 Reception Centers

Dental care provided by reception centers shall be limited to dental screening and completion of CDC Form 237-A, Record of Original Dental Examination and Formulation and Progress of Dental Program, and such treatment as necessary to meet basic needs. This may include, but is not limited to, the treatment of:

- Injuries.
- Acute infection.
- Severe pain.
- Spontaneous bleeding.
- Repairs of dental prosthetic appliances.

91030.9.1 Health Appraisal

Within 14 days after arrival at the assigned facility of each newly committed inmate, a dentist shall:

- Complete a review of dental records.
- Develop a treatment plan.

91030.9.2 Facilities

The facility to which the inmate is transferred when he leaves the reception center shall:

- Provide treatment according to departmental policy.
- Afford treatment within the limits of available staff and facilities.

91030.9.3 Screening

Upon arrival at a facility, all inmates shall be evaluated by a qualified health professional for oral conditions needing immediate attention. The information shall be recorded on a CDC Form 237-B.

91030.9.4 Sick Call

Time shall be set aside for treatment as follows:

- Urgent/emergency care.
 - For inmates in considerable pain or acutely ill needing immediate dental services.
 - Available 24 hours a day, 7 days a week.
 - Occurrences outside usual clinic hours are managed by medical services who shall contact the on-call dental officer.
- Immediate care.
 - For conditions prohibiting inmates from carrying out daily assignment requiring treatment by a dentist at the earliest time available during clinic hours (within 24 to 48 hours).
- Routine care.
 - For conditions not requiring immediate treatment by a dentist.
 - Requires inmates to be listed and called for treatment in chronological order at a time not interfering with the IW/TIP.
 - Receiving routine treatment, inmates shall keep their mouth and teeth clean and demonstrate the ability and willingness to maintain clean oral conditions.

Routine treatment shall not be provided during sick call.

91030.10 Classification

At the time of screening or examination, the inmate shall be classified according to the severity of their dental problems as follows:

- Class 1--requires no dental treatment.
- Class 2--requires routine but not early treatment of conditions such as:

- Moderate calculus.
- Minor dental defects.
- Periodontal disease--incipient.
- Class 3--requires early treatment of conditions such as:
 - Calculus--heavy deposits causing irritation.
 - Caries--extensive or advanced.
 - Periodontal disease.
 - Chronic infections.
- Class 4--requires immediate or urgent care for conditions such as:
 - Acute infection.
 - Severe pain.
 - Spontaneous bleeding.
 - Trauma.
- Class 5--requires dental prosthetic appliances.

Class 5 does not mean that a prosthesis shall be completed before Class 3 or 4 treatment. The successful placement of a removable partial denture is generally dependent upon completion of Class 3 or 4 treatment and in the case of abutment teeth, Class 2 treatment as well.

91030.10.1 Combination Classification

When the treatment plan requires both prosthetics and other treatment, a combination classification is used; 1-5, 2-5, 3-5 or 4-5 as is appropriate.

91030.11 Examination and Treatment Planning

Each facility shall initiate only the treatment plan that can be completed. Treatment requiring extended office calls shall be carefully evaluated to ensure completion prior to transfer of inmate. Dentists shall not be expected to provide treatment that they believe is not in the best interest of the patient.

91030.11.1 Health History

A health history shall be:

- Completed and available for each inmate prior to treatment.
- Signed by the inmate and witnessed by a dental staff member.
- Placed in the OPD.
- Reviewed prior to treatment.
- Updated at each recall visit.

91030.12 Informed Consent

A CDC Form 7203, Consent for Medical, Dental or Surgical Services--Inmate/Guardian, is the agreement by an inmate to have a procedure performed after being told in detail of possible risks. The CDC Form 7203 shall:

- Be obtained in writing prior to treatment.
- Become part of the OPD.

91030.12.1 Inmate Refusal of Dental Treatment

When a treatment plan is proposed, any advantages and/or disadvantages shall be explained to the inmate. The inmate may accept or decline any or all portions of the recommended treatment plan. The decision to accept or decline is reversible at any time and must not prejudice future treatment. Refusals shall be noted on a CDC Form 237-B and CDC Form 7225, Refusal of Examination and/or Treatment, and documented on the CDC Form 128-C, Medical/Psychiatric/Dental Chrono, for inclusion in the C-File.

91030.13 Use of Restraints During Dental Treatment

Inmates who must be in restraints when escorted in for treatment shall be in body restraints to facilitate sitting in the dental chair. Restraints shall remain in place during dental treatment. Exceptions to this policy may be made with the concurrence of the CD and the escort officer/program lieutenant.

91030.14 Oral Hygiene and Preventive Dentistry

Plaque removal by personal oral hygiene measures is considered to be basic in the prevention and control of oral diseases. Instruction in personal oral hygiene and prevention shall be a part of the treatment plan for each inmate.

Until adequate personal oral hygiene measures are practiced, an inmate shall receive only that care necessary to relieve pain and/or treat infection. Routine treatment of oral conditions shall not be undertaken.

91030.15 Restorative Materials

Restorative materials of choice shall be:

- Silver alloy.
- Composites.
- Stainless steel crowns.

- Plastic/Polycarbonate crowns.

Treatment filling materials are used for immediate or urgent treatment or where it is advisable because of the questionable prognosis of a tooth.

Gold

Gold is not used by facilities for restorations except:

- Where a facility has an agreement with a school of dentistry, whereby the facility is an extension of the school, gold may be used in restorations when placed by students supervised by faculty and at no expense to the facility.
- Where a fixed or removable gold bridge has failed and the CD determines no other treatment is acceptable or remaking the bridge is easier or more economical, he/she may authorize the use of gold.

91030.15.1 Removal of Gold

Upon removal of gold from an inmate's mouth, the inmate shall sign a CDC Form 238, Receipt for Dental Gold Removed From Inmate's Mouth, indicating a preference of three alternatives:

- To be deposited with inmate's valuables.
- To be sent to the inmate's nearest relative.
- To be donated to the State (for sale or surplus with proceeds to be placed in IWF at the discretion of the Warden).

91030.15.2 Repairs With Gold

When it is necessary to use precious metal to repair, remake, or alter any crown, bridge, or other prosthetic appliance:

- A CDC Form 240, Inmate Authorization To Pay For Prosthesis, shall be completed.
- All such services shall be paid for by the inmate from personal funds.
- Special services shall not be approved when materials on hand can be used as a reasonable substitute for the precious metal.

91030.15.3 Endodontics

Root canal fillings may be performed when deemed advisable by the dentist. This treatment should not be undertaken if:

- The tooth involved requires extensive restoration.
- Other missing teeth in the same arch are to be replaced with a removable prosthesis.
- Other teeth in the same arch are of questionable prognosis.
- The tooth concerned is not essential to maintain the integrity of the arch.

91030.16 Periodontal Treatment

Daily plaque removal is the key to prevention of both caries and periodontal disease, and instructions in oral hygiene and prevention should receive early continuing attention.

91030.16.1 Scaling

The presence of calculus increases the difficulty of plaque removal and should be removed early in the course of treatment.

91030.16.2 Prophylaxis

Polishing of teeth other than as a part of the scaling procedures is not done. Plaque removal:

- Is readily accomplished with the brush and other aids.
- By a health professional is no more effective or lasting than that accomplished by careful brushing.

91030.17 Periodontal Surgery

Periodontal surgery may be performed:

- When the prognosis is favorable.
- When the consent of the inmate has been obtained.

A CDC Form 7204, Consent for Surgical Operation, shall be completed in all cases where general anesthesia is to be used, and may also be used in all other cases where a consent form is deemed necessary.

91030.18 Fixed Dental Prostheses

Dentists shall not attempt to provide cast or laboratory processed crowns or fixed prosthetics except in those very rare instances where no other treatment is suitable.

91030.18.1 Removable Dental Prostheses

Limited dental prosthetic services shall be provided when facilities are available and approved by the CD or delegated subordinate.

Limited prosthetics shall consist of:

- Providing economical appliances necessary for improved mastication.

- Replacing missing anterior teeth.

Acrylic, removable partial dental prosthesis is the appliance of choice when the remaining teeth are sound and:

- Anterior teeth are to be replaced.
- The patient does not have at least eight functioning posterior teeth.

Appliances with cast metal framework may be used in those cases where the acrylic appliance will not suffice.

A complete denture shall be the appliance of choice when the prognosis for a partial denture is dubious.

91030.18.2 Refusal of Complete Dentures

If an inmate refuses the recommendation that a complete denture be provided, the inmate shall thereafter be treated as a treatment refused case as described in the DOM 91030.12.1.

91030.18.3 Prosthetic Listings

The CD shall maintain a list of inmates needing prosthetic appliances. Priorities are dependent upon factors such as:

- Numbers and distribution of missing teeth.
- Inability to chew with remaining teeth.
- Potential changes in tooth position.
- Laboratory workload.
- Facility transfers, releases, etc.

This is a judgment decision by the CD and is final.

91030.18.4 Denture Identification

All dentures provided to inmates shall be imprinted with the inmate's name and identification number.

91030.18.5 Replacement Dentures

New dentures shall not be provided for a denture that can be made serviceable by repair or modification unless in the judgment of the CD the fabrication of a new denture would be more appropriate.

91030.18.6 Loss, Destruction, or Mutilation of Dentures

Prescribed appliances shall be provided at State expense if an inmate is totally without funds. If an inmate has funds in their trust account, the inmate shall be charged for an appliance purchased by an inmate at the inmate's own expense through a vendor of the inmate's choice subject to approval of the CMO or CD.

91030.19 Oral Surgery

Oral surgery may be provided to correct a substantial functional defect or if an existing pathological process will threaten the well being of an inmate over a period of time. Cosmetic or elective surgery shall not be undertaken unless there are important underlying considerations or serious psychological impact. The extraction of asymptomatic teeth may be considered to be an elective procedure.

91030.19.1 Hospitalization

When it becomes necessary to hospitalize a dental patient, a physician of the medical staff shall be responsible for the care of any medical problems arising during the period of hospitalization.

91030.20 Medical Consultation

Consultation with the appropriate service or person shall be requested in the following cases:

- When the patient appears to be a poor health risk for the proposed procedure.
- When the diagnosis is obscure.
- When there is a question as to the patient's ability to give informed consent.
- When the patient has severe facial fractures or infection.
- For all critically ill inmates who require major oral surgery.

A CDCR Form 7243, Consultant's Record, shall be completed when requesting consultation between medical and dental staff.

91030.21 Referrals

When the inmate requires essential dental services that are not available at the confining facility, referrals shall be made by the CD or CMO.

91030.22 Medications Prescribed

The facility pharmacy shall be responsible for stocking and dispensing medicaments normally prescribed by dental services. It shall be the responsibility of the CD to keep the pharmacy informed of the items needed.

91030.23 Dental Diets

The CD shall act as a consultant to ensure nutritious diets are available to inmates unable to chew because of surgery, trauma, or infection. The absence of dentures in an otherwise healthy individual shall not warrant a special non-chewing diet.

91030.24 Use of Health Records

The inmate's health records shall be available for all dental treatment. The dental treatment rendered and orders are to be entered in the health record in addition to being entered on the CDC Form 237-B. This entry shall include the date, diagnosis, the procedure, anesthetic used, and the medication ordered.

91030.25 Radiation Safety

Radiation protection for staff and patients shall be strictly enforced. Protective devices and procedures shall be used to ensure minimum exposure to patients and staff.

91030.26 Infection Control and Hazardous Material

Each health care unit shall have a written supplement on:

- Infection control.
 - Identifying, controlling, and disposal of infectious materials.
- Hazardous materials.
 - Identification, control, and disposal.

91030.27 Disaster and Evacuation Plans

Each health care unit shall develop a plan that includes:

- Location and type of fire extinguisher available.
- Routes for evacuation.
- Drills as prescribed by facility regulations.

91030.28 Dental Laboratory Services

Each facility shall have dental prosthetic laboratory services available as either:

- Part of the local facility dental services.
- A central dental laboratory serving a number of facilities.
- A contracted private laboratory.

When a laboratory is operated as a part of the facility dental services, it shall be under the supervision of the CD.

When any departmental dental laboratory is operating in the capacity of a central dental laboratory, it shall be the responsibility of the laboratory supervisor to ensure that all cases are prioritized in reference to completion.

Each case being fabricated in a dental laboratory shall be accompanied by a CDC Form 239, Prosthetic Prescription, describing the work to be performed and signed by the requesting dentist.

91030.29 Notification of Next of Kin

When an inmate is to be hospitalized for serious illness or surgical treatment, consent for notification of next of kin shall be obtained prior to admission when possible. The next of kin or other identified individuals to be notified in emergencies shall be included in the facility admission forms.

91030.30 Staff Development

Forty hours of facility training/orientation shall be provided each new employee under the direction of the facility training officer. Further orientation of new employees in the hospital/dental area shall be the responsibility of the CD. Attendance at IST meetings applicable to the dental staff shall be required to meet individual facility requirements.

91030.30.1 Continuing Education

Time and reimbursement for professionally related training leave shall be granted as provided in the current collective bargaining agreements. Courses requested shall:

- Be submitted for each person planning to attend each course using a CDC Form 7260, Specialized Training For Continuing Medical Education.
- Be selected to strengthen the weaknesses of the staff as well as individuals.
- Be relevant to the services being provided.

91030.31 Cardiopulmonary Resuscitation

All members of the dental staff shall maintain a current cardiopulmonary resuscitation certificate.

91030.32 Staff Meeting

Meetings of the dental staff shall be held monthly for the purpose of reviewing the care and treatment of inmates and to perform administrative functions. Minutes of these meetings shall be maintained and include:

- Attendance.
- Recommendations.
- Conclusions.
- Actions taken.

91030.32.1 Chief Dentist Meeting

The Deputy Director, HCSD, shall be responsible for calling an annual meeting of the CDs to be held in Sacramento or another suitable location. The purpose of the meeting shall be to discuss and resolve problems common to departmental dental services.

91030.33 Inmate Appeals and Grievances

Every inmate under the jurisdiction of the Department has the right to appeal decisions, conditions, or policies affecting their welfare. There shall be no form of reprisal against an inmate/parolee for filing an appeal nor shall such action prejudice future treatment.

91030.34 Daily Treatment Log

A CDC Form 7282, Daily Dental Treatment Log, for each dentist shall be maintained showing:

- All dental treatment rendered.
- Time spent in IST and administrative functions.
- Downtime.
- Time of appointment.
- The patient's name.
- CDC number.

91030.34.1 Dental Statistics Quarterly Summary Report

A report of dental activities for each dental service provided shall be compiled at the end of each quarter on a CDC Form 7283, Dental Statistics--Quarterly Summary, and forwarded to the Deputy Director, HCSD. This report shall be compiled from the daily logs kept for each dentist.

91030.35 Referral Log

A CDC Form 7284, Dental Referral Log, shall be kept listing those inmates referred to consultants and other facilities for dental treatment. This log shall contain the following information:

- Name and number of inmate.
- Date of referral.
- Complaint.
- Referred by.
- Date seen or treated.
- Diagnosis.

91030.36 Budget and Inventory

All personnel, equipment, capital outlay, and supplies required to operate the dental service require budgeting through the facility business services manager. It is the duty of the CD to make adequate justification for these items to ensure that the services provided meet the needs of the inmate population.

The dental staff shall exercise care to prevent loss or misuse of supplies and/or equipment under its control.

The CD shall maintain an inventory of all supplies and equipment. Dental supplies are normally ordered quarterly. Special purchases for small amounts may also be made between quarterly orders. In each case a CDC Form 954, Procurement Worksheet/Local Request, is submitted through the division head.

91030.37 Clinic Area

There shall be adequate space provided for dental services to carry out procedures in accordance with accepted standards of practice. The area provided shall:

- Be in compliance with applicable fire, safety, sanitation, and H&SC.
- Not pose a threat to the safety of patients or staff.

91030.37.1 Equipment and Supplies

All equipment, instruments, and supplies shall be of the quality required by generally accepted standards of dental practice.

Sterilizing Equipment

There shall be equipment and supplies available for the sterilization and storage of dental instruments and supplies.

Radiographic Equipment

There shall be equipment for dental radiography. Such equipment and procedures shall be in accordance with the safety guidelines published by the National Council on Radiation Protection and Measurements.

91030.37.2 Emergency Drugs and Equipment

Standard emergency drugs and equipment shall be available in the dental treatment area. These shall be reviewed and documented on a regular basis to assure that drugs have not lost their potency and that equipment is in working order.

91030.38 Dental Library Service

Each dental service shall have available a selection of:

- Dental texts.
- Periodicals.
- Materials in general dentistry and specialty areas.
- An index to dental literature.

91030.39 Revisions

The Deputy Director, HCSD, or designee shall be responsible for ensuring that the contents of this section are kept current and accurate.

ARTICLE 4— NURSING SERVICES PROGRAM

Effective June 16, 1995

91040.1 Policy

Each facility shall plan for and provide quality nursing care that is commensurate with that provided in community health facilities.

Each facility shall establish an organized nursing services department to ensure the provision of quality nursing care.

91040.2 Purpose

The nursing services department shall be an organized system for the provision of individualized patient care based upon established standards of care utilizing the nursing process, i.e., assessment, planning, intervention, and evaluation.

Each facility shall establish written standards of care, that are consistent with the Department's Office of Health Care Services objectives and community care standards. These standards of care shall be utilized in planning, providing, and evaluating nursing care.

91040.3 Responsibility for Health Care Services

The CMO or other physician director shall be responsible for all health care services at each facility.

91040.4 Responsibility of the Director of Nursing Services

The nursing services department shall be directed by a qualified RN with training and experience in nursing administration and supervision.

- All Department general acute care hospitals shall be under the direction of a Supervising Nurse II/III. The Supervising Nurse II/III shall not serve as charge nurse.
- All Department infirmaries may be directed by either a Supervising Nurse II or an SRN as determined by patient care needs.

The nurse services director shall have authority and responsibility for all nursing services in the facility. The responsibility and accountability of the nursing services to the medical staff and administration shall be defined.

91040.5 Nursing Services Licensure and Certification

Each facility shall establish a method for verifying the current licensure of each RN, LVN, and MTA. Only those with current licensure shall be assigned patient care duties in hospitals or infirmaries.

Nurses working in expanded roles, i.e., nurse practitioners and nurse anesthetists, shall maintain current, appropriate certification.

91040.6 Nursing Services Organization

Nursing services shall be organized and staffed to ensure the supervision and coordination of nursing care by an RN.

All provisions of nursing care shall be under the supervision of an RN.

A sufficient number of RNs and MTAs shall be on duty at all times to provide nursing care according to patient needs.

91040.7 Nursing Services Organizational Plan

An organizational chart shall be developed defining lines of authority and accountability for each level and service of nursing staff.

91040.8 Nursing Services Procedures

Each facility shall develop and maintain written policies and procedures for the safe and effective provision of quality nursing care.

Nursing policies and procedures shall be developed in coordination with all departments and established for every patient service area.

Policies shall be approved by the governing body. Procedures shall be approved by the medical staff and administration.

Each nursing service employee shall be trained in the policies and procedures during orientation and whenever new policies or procedures are established.

Nursing policies and procedures shall be reviewed annually and revised as required to reflect current standards of nursing practice.

91040.8.1 Nursing Services Procedural Guidelines

Each nursing policy and procedure shall:

- Be established in writing.
- Identify the classification of staff approved to perform the procedure.
- Include a list of required equipment/supplies.
- Indicate any precautions or required special observations.
- Provide an easily understood, detailed, step-by-step procedure.
- State medical record and other documentation requirements.
- Include the dates of approval and revision.

91040.9 Nursing Scope of Practice

Each RN shall perform their duties according to the scope of practice as stated in the B&PC 2725, "Practice of Nursing Defined."

Specifically selected and trained RNs may perform beyond the normal scope of practice only by utilizing standardized procedures as defined in B&PC 2725(d)(2). Each standardized procedure shall be developed and supervised by a committee on interdisciplinary practice. Each standardized procedure shall be developed according to the California Board of Registered Nurses, "Standardized Procedure Guidelines."

Each MTA shall perform their duties according to the "Scope of Regulation," B&PC Article 2, 2959.

MTAs may perform patient care activities only under the direction of a physician or an RN.

91040.10 Nursing Services Staff Development Program

Each facility shall plan and conduct an ongoing nursing staff development program to ensure appropriate training of all nursing staff.

91040.10.1 Components of a Nursing Services Staff Development Program

Each staff development program shall include the following:

- Written attainable educational goals and objectives.
- An annual training plan.
- An orientation program for all newly hired nursing staff which includes orientation to all applicable institutional policies and procedures, to the medical services areas, and to the specific job assignment.
- Continuing IST based upon identified educational needs.
- An annual or more frequent review for all nursing staff of cardio-pulmonary resuscitation and infection control procedures.
- Specific area training for nursing staff required to work in specialized patient care areas, i.e., surgery, emergency, psychiatry, and hemodialysis.
- Training of nursing staff who are required to perform procedures which require additional training, i.e., intravenous fluid administration, cardiac monitoring, standardized procedures.
- An annual evaluation of the nursing education program for compliance with the standards of care and educational goals and objectives.

91040.10.2 Nursing Services Continuing Education Courses

Nursing staff shall participate in outside educational programs when required training cannot otherwise be obtained. Records of such training should be retained by the nursing services director or nurse instructor.

Facilities that employ a qualified nurse instructor may obtain approval from the Board of Registered Nurses and Board of Vocational Nurse and Psychiatric Technician Examiners to provide continuing education credit for nursing staff training.

91040.10.3 Nursing Services Training Documentation

Records of all orientation and IST shall be maintained which include:

- Date and time of presentation.
- Name and title of presenter.
- Course title and objective.
- Summary of course content.
- Signatures of staff attending.

91040.11 Nursing Services Reference Materials

Each facility shall maintain current reference materials including textbooks, journals, and periodicals to complement the training and staff education program.

91040.12 Psychiatric Nursing Services

Psychiatric nursing policy and procedures shall be established at all facilities providing inpatient and/or outpatient care for mentally disordered inmates.

91040.12.1 Psychiatric Nursing Services Requirements

An RN with training and experience in psychiatric nursing shall be immediately available whenever a patient is admitted to an inpatient unit for psychiatric care.

Nursing staff shall participate in psychiatric treatment planning.

Psychiatric nursing service policies and procedures shall be developed in consultation with other appropriate health professionals and administration.

91040.13 Nursing Services Job Descriptions

A written job description shall be established for each nursing position specifying performance standards, delineating functions, responsibilities, and specific qualifications.

91040.14 Nursing Services Staffing Requirements

Sufficient registered nursing personnel shall be provided to assure the direction and provision of nursing care at all times.

Each hospital nursing unit shall have an RN immediately available at all times.

An RN with training and experience in operating room techniques shall be responsible for operating room service.

An RN with training and experience in post-anesthesia nursing care shall be responsible for the nursing care in the hospital post-anesthesia unit.

An RN with training and experience in emergency room procedures shall be immediately available at all times to provide emergency nursing care in facilities providing emergency care.

MTAs may be utilized as needed to supplement RNs in ratios appropriate to patient needs.

Each infirmary shall have at least one RN immediately available 24 hours a day, seven days a week.

91040.15 Nursing Services Staffing Based on Patient Classification System

Each general acute care hospital shall establish and implement a patient classification system to ensure adequate and appropriate staffing based on patient needs.

The patient classification system shall include the following patient assessments:

- The patient's ability to care for themselves.
- The patient's degree of illness.
- The patient's requirements for special nursing activities.
- The skill level required by staff for their care.
- The patient's placement in the nursing unit.

The methodology used in making determinations shall be established and maintained in writing.

Written staffing records shall include the total number of nursing staff, the available nursing care hours for each nursing unit, and the categories of nursing staff available for patient care and shall be retained for a minimum of six months.

Each facility shall maintain a record for every nursing staff employed from an outside agency that includes the following:

- Documentation of orientation to facility policies and procedures and duties as assigned.

- Verification of current licensure with documentation of license number and expiration date.
- Records of dates and hours worked.

91040.16 Assignment of Nursing Services Patient Care: Inpatient Units

Each patient's nursing care shall be planned, supervised, and evaluated by an RN.

An RN shall assess the care needs of each patient admitted to a hospital or infirmary prior to assigning nursing staff.

Nursing staff shall only be assigned to duties that are commensurate with their training, experience, and skill.

91040.17 Assignment of Nursing Services Patient Care: Outpatient Services

An RN shall be responsible for the nursing care provided in the outpatient setting.

91040.18 Nursing Services Process: Patient Care Plan

Nursing process is a title used to describe a system of providing patient care that includes assessment, planning, implementation, and evaluation.

Patient care planning is the utilization of the nursing process for the provision of individual patient care.

A written patient care plan shall be initiated upon admission and developed within seven days in coordination with the total health team for each hospital and infirmary patient. The patient care plan shall be the basis for the provision of nursing care.

91040.19 Nursing Services Patient Assessment

Each patient upon admission to an inpatient unit shall be assessed by an RN for the identification of patient care needs.

The patient assessment shall include:

- Medical history.
- Physical condition.
- Social status.
- Emotional status.
- Knowledge deficit.

The nursing patient assessment shall be completed in writing, shall be included in the patient's medical record, and shall be used to identify patient care needs.

A continuing assessment of patient care needs shall be maintained throughout the patient's admission.

91040.19.1 Nursing Services Psychiatric Patient Assessment

An RN with training and experience in psychiatric nursing shall assess the mental health status, using behavioral terminology where appropriate, of all patients admitted to an inpatient psychiatric unit.

91040.19.2 Nursing Services Patient Assessment Guidelines

- The following guidelines should be utilized in performing the initial patient assessment.
- Conduct a patient interview in an area affording privacy and freedom from interruption if possible.
- Inform the patient that the requested information shall be used in planning their care.
- Inquire as to the patient's medical history and reason for admission to the unit. Assess their knowledge of their medical condition.
- Inquire as to the patient's emotional/spiritual condition. Are they angry, anxious, afraid?
- Be alert to the patient's non-verbal responses, mood changes, or hesitancy in answering. These may indicate social, emotional, or educational needs.
- Observe the patient's physical condition including vital signs, weight, height, nutritional state, skin condition, physical limitation, vision, hearing, injuries, wounds, infections, and other. Utilize a body systems approach. Document in detail in the patient's medical record all observations and findings.
- Document on the patient care plan all patient care needs identified by the patient assessment.

91040.20 Nursing Services Diagnosis

A nursing diagnosis is a clinical diagnosis made by an RN to describe actual or potential health problems which nurses, by virtue of their education and experience, are capable of and licensed to treat.

Nursing service departments may use nursing diagnoses or may describe patient needs in other terms.

91040.21 Nursing Services Patient Care Planning

A plan of care shall be developed in writing for every identified patient need. The plan of care shall include realistic, attainable goals for each identified patient need.

The plan of care shall include specific patient care activities designed to attain the goals.

Each patient care plan shall include the anticipated date for goal attainment and the staff member responsible for each element of patient care.

91040.22 Nursing Services Patient Care Plan Implementation

All nursing staff shall review the patient care plans of their assigned patient daily to ensure the provision of patient care as planned.

Nursing staff shall provide all patient care consistent with the patient care plan.

Medical record nursing notations shall reflect the implementation of the care plan.

91040.23 Nursing Services Patient Care Plan Evaluation

All patient care plans shall be maintained current.

A review and updating of the plan is required when any of the following occur:

- A change in patient condition.
- A change in the physician's plan of care.
- A failure of the current plan to accomplish the identified goals.
- A failure of the patient to accept or respond to the plan.
- The identification of any additional patient care needs.

The date anticipated for goal attainment has been reached.

91040.24 Nursing Services General Documentation Guidelines

All medical record documentation shall be consistent with the following guidelines:

- All entries shall be timed, dated and signed, including title, by the person making the entry.
- All entries shall be in chronological order except as a documented "late entry." All late entries shall include the date and time when written as well as date and time for which entry is made.
- All entries shall be typed or written in black ink.
- Error correction procedures shall include the use of a single line drawn through the entry and the initials or signature, if not otherwise present, of the individual making the correction.
- The entry made in error shall not be obliterated. "White-out" correction fluid shall not be used.
- All medical record forms shall include the patient's full name and CDC number.
- All entries shall be legible.
- Cellophane or other tape shall not be used to adhere any medical record form onto a medical record. Only permanent bond glue may be used for this purpose.
- The use of abbreviations shall be restricted to those included on an approved abbreviation list.

91040.25 Nursing Services Inpatient Documentation Guidelines

Nursing staff provide a significant portion of the clinical information contained in inpatient medical records. Consistent, accurate nursing documentation is essential for quality and continuity of patient care. All nursing staff shall adhere to the following documentation guidelines when making entries in inpatient records:

- Nursing notes shall be specific, pertinent, concise, and reflect the implementation of the patient care plan.
- Nursing notes shall include the following documentation:
 - All changes in patient signs, symptoms, or condition.
 - All physician communications and notifications.
 - Patient-expressed complaints or concerns.
 - Laboratory specimen collections.
 - Radiology procedures performed.
 - Diagnostic or other procedures performed.
- Patient visitor.

- Patient education or counseling.
- All patient-involved unusual occurrences.
- The inability to follow a physician's order with documentation of the reason and physician notification.
- Specific observations of the patient's behavior, activity, conversation, progress, or regression.
- Daily observations of tubes, catheters, wounds, drains, and dressings including changes.
- The initiation of intravenous fluid administration including site and type of needle/catheter.
- Postoperative observations including urinary output, breath sounds, and other as appropriate.
- Any treatment administration or procedure not documented on a treatment record.
- All documentation of medication and treatment administrations shall be exactly as ordered including time and frequency.
- All documentation of pro-re-nata (PRN - as required) medication administration shall include the reason for the administration and patient response.
- All documentation of medication injections shall include location and rotation of site.
- All documentation of intravenous fluid administration shall include the type of fluid, the quantity, and any additives.
- Vital signs, weights, clintesting, and physician-prescribed observations or care shall be documented as prescribed.
- Nursing staff receiving verbal or telephone physician's orders shall immediately document the order in the medical record including date, time, and name of physician making the order.
- Nursing staff noting physician's orders shall sign, date, and time the orders.
- Upon patient discharge or transfer, nursing staff shall complete a summary of information regarding the patients inpatient course for those responsible for the patient's continued care. When the patient is being discharged to a general housing unit, the summary may be limited to discharge instructions and the patient shall receive a copy of these instructions. A copy of the summary shall be retained in the patient's medical record.
- Food intake and patient personal hygiene shall be documented as provided.

91040.26 Nursing Services Outpatient Documentation Guidelines

Nursing documentation shall be included in the patient's outpatient medical record upon every patient visit.

The documentation shall be consistent with the inpatient documentation guidelines.

Nursing outpatient medical record documentation shall include:

- Date, time, and location of patient visit.
- Patient complaints.
- Observations of patient's condition.
- Vital signs whenever the patient complains of illness, major injury, or other acute symptoms.
- Notification of the physician if the physician is not present.
- Noting of physician's orders.
- Documentation of all medications, treatments, and procedures administered.
- Documentation of patient discharge instructions.

91040.27 Nursing Services Audit

Each nursing services department shall establish a nursing medical record audit procedure to evaluate the quality of medical record documentation on a regular ongoing basis.

The identified medical record documentation deficiencies shall be incorporated into the nursing staff development program.

91040.28 Nursing Services Staff Committee

A nursing committee or committees shall be established to assist in the planning, development, and evaluation of the nursing service.

The nursing committee shall be composed of RNs and MTAs.

The nursing committee shall meet as often as necessary, but at least every two months, to identify problems in the provision of nursing care and to develop and implement solutions to these problems.

A written, systematic method shall be developed and implemented for evaluating the quality of nursing care.

Minutes shall be recorded at each nursing committee meeting indicating the names of the members present, date, subject matter discussed, and actions taken.

The nursing staff committee may perform the nursing audit procedure.

91040.29 Responsibility of Nursing Services Toward Infection Control

An RN with training and experience in infection control shall be assigned to surveillance and monitoring for infection control.

The RN shall be a member of the hospital or infirmary infection control committee.

91040.30 Revisions

The Deputy Director, HCSD, or designee is responsible for ensuring that the contents of this section are kept current and accurate.

ARTICLE 5 — LABORATORY SERVICES

Effective June 16, 1995

91050.1 Policy

Each Department health care facility shall provide appropriate space, equipment, supplies, and personnel for the performance of clinical laboratory tests for the examinations, care, and treatment of inmates. Provisions shall be made for 24-hour emergency clinical laboratory services.

91050.2 Purpose

Clinical Laboratory Services shall provide operational guidelines for clinical laboratory practices consistent with the Department's administrative directives, ACA Standards, CCR, and B&PC.

91050.3 Responsibility of the Clinical Laboratory Services Staff

The clinical laboratory staff are responsible for:

- Developing policies and procedures to ensure the satisfactory collection, processing, and disposal of laboratory specimens.
- Developing procedures for the provisions of prompt and accurate examinations for each test to be performed.
- Developing procedures to ensure the safety and protection of all personnel.
- Providing consultation to clinicians in the interpretation of diagnostic tests/results.
- Participation in continuing education health care and infection-control programs.
- Maintaining accurate and complete records.
- Developing an effective communication system between the clinical laboratory and infirmary staff.
- Developing a peer review process to ensure that adequate laboratory standards are maintained.
- Demonstrating satisfactory performance in an ongoing proficiency testing program, as required by Laboratory Field Services.

91050.4 Clinical Laboratory Services Operational Requirements

To accomplish its purpose effectively and safely, each clinical laboratory shall have:

- An area large enough to accommodate laboratory equipment and staff movement.
- A preventive maintenance schedule for each piece of equipment.
- Clutter-free testing areas.
- Toilet facilities adjacent to or in the immediate vicinity.
- Sufficient area for storing supplies, filing data, and properly disposing of refuse.

- Twenty-four hour emergency coverage.
- If tests are to be performed on outpatients, outpatient access to the laboratory shall not traverse an inpatient nursing unit.

91050.5 Clinical Laboratory Services Provided On-Site

A list of services provided on-site shall be available to all medical staff. These services are laboratory procedures generally considered routine and may include, but not be limited to, the following:

- Urinalysis.
- Complete blood counts.
- Blood typing.
- Blood cross-matching.
- Chemistry.
- Microbiology.
- Serology.
- Hematology.
- Toxicology.
- Bacteriology.
- Specimen collection/processing/disposal.

91050.6 Clinical Laboratory Services Provided Off-Site

Clinical laboratory services are contracted if they require special equipment and/or specialized personnel unavailable on-site.

91050.6.1 Clinical Laboratory Services Off-Site Criteria

For services that are not provided on-site, each health facility shall make contractual arrangements for services to be provided off-site.

When necessity dictates clinical laboratory services to be provided off site, the contract shall specify:

- The contracted laboratory is licensed to operate in California and conform to the requirements of the B&PC and CCR (17).
- Time frames for regular and emergency pickup service.
- Time limits for the return of clinical laboratory reports for regular and emergency service.
- Access to clinical laboratory director for interpretation of reports.
- Competitive fee schedule.
- All other requirements necessary in the formulation of State contracts.
- DOM 22040, discusses contracts in detail.

91050.7 Clinical Laboratory Services Director

The pathologic and clinical laboratory shall be directed by a physician who is qualified to assume professional, organizational, technical, and administrative responsibility for the unit and the services rendered.

The physician shall be certified or be eligible for certification in clinical pathology and/or pathologic anatomy by the American Board of Pathology. If a full-time or regular part-time employee is unavailable to fill this position, a consultant with comparable qualifications shall be retained on a contractual basis to provide these services as often as required.

91050.7.1 Clinical Laboratory Services Technologist

The clinical laboratory technologists shall be licensed by the State of California. They shall display their valid license in a conspicuous area of the laboratory.

91050.7.2 Performance of Technical Clinical Laboratory Activities by Unlicensed Persons

CCR (17) explains in some detail the limited activities allowed unlicensed persons working in licensed clinical laboratories. Questions have arisen, however, related to some activities not specifically mentioned. The following are some of these activities:

- Unlicensed persons (including phlebotomists) shall not perform:
 - Bleeding times.
 - Urine dipstick tests.
 - Hematocrit tests.
 - Sedimentation rates.
 - Glucose testing by any method.
 - Any other clinical laboratory test.
- Unlicensed persons shall not make any decision related to the reading of standard or control results for any test procedure, automated or not.

- CCR (17) requires that all laboratory results shall be, "critically reviewed and verified for accuracy, reliability, and validity" by a duly licensed person prior to sending out any reports.

91050.7.3 Performance of Clinical Laboratory Medical Tasks by Inmates

Inmates shall not be permitted to perform duties such as:

- Obtaining blood samples.
- Administering blood.
- Introducing or discontinuing intravenous infusions.
- Any other task identified as medical or nursing functions.

91050.8 Authority for Clinical Laboratory Services

Clinical laboratory examinations shall only be conducted pursuant to the order of a person lawfully authorized to give such an order.

91050.9 Procedures for Clinical Laboratory Specimen Collection/Disposition of Data

Each clinical laboratory shall establish procedures to ensure that:

- Specimens are collected, processed, and disposed of in a medically acceptable manner.
- Examinations are performed accurately.
- Results are reported promptly upon completion of test.
- All clinical laboratory reports shall remain an integral part of the patient's health record. See also 91050.9.1.
- Each hospital shall maintain blood storage facilities in conformance with the provisions of CCR (17). Such facilities shall be inspected at appropriately short intervals every day to ensure fulfillment of the statutory requirements.

91050.9.1 Requirements for Retention of Clinical Laboratory Services Records

The following is a summary of the record retention requirements of the Department, Medi-Cal, and Medicare programs:

- All inmate and QC records shall be retained for two years except cytologic reports which shall be kept for ten years. Cytology slides shall be kept for five years.
- The Medi-Cal program requires all patient and QC records be retained for three years. This includes all written requests for laboratory tests.
- 42 CFR related to the Medicare program requires all patient and QC records be kept for two years.

91050.9.2 Requirements for Retention of Clinical Laboratory Services Printouts

For automated equipment where results of standards, controls, reaction limits, and patient information are recorded on printouts, these printouts along with all other records shall be retained for 90 days.

If the inmate and QC information on the printouts is transferred to other records, the printouts may be discarded after 90 days; otherwise they would fall under the mandates of DOM 91050.9.1.

91050.10 Information Required on Clinical Laboratory Forms

Only standardized departmental forms shall be used when requesting and recording any medical data. The request for a test shall identify the following information:

- The person making the request.
- The inmate.
- The test required.
- Time the request reached the laboratory.
- Date and time the specimen was obtained.
- Time the laboratory completed the test.
- Any special handling required.
- Name and address of laboratory.

91050.11 Clinical Laboratory Guidelines for AIDS, ARC, HIV, and Hepatitis

Employees having needle stick exposure (the accidental breaking of the skin of staff by an exposed hypodermic syringe) to suspected HIV, AIDS, ARC, and Hepatitis shall be reported to the facility CMO and ongoing records maintained for the staff exposed. The employee shall be treated by his or her own physician as a work-related injury.

All clinical laboratory specimens shall be labeled to allow for special handling. They shall be handled by trained personnel wearing gloves.

91050.12 Clinical Laboratory Services Infection Control Program

A formal infection control program shall be adopted and shall conform to the guidelines in the most recent edition of "Infection Control in the Hospital" published by the American Hospital Association.

91050.12.1 Clinical Laboratory Membership on the Infection Control Committee

A qualified staff member of the clinical laboratory service shall be a member of the hospital's infection control committee.

91050.13 Clinical Laboratory Services QC System

A QC system designed to assess functional efficiency in all facets of clinical laboratory operations, and to ensure reliability and proper handling of the data generated shall be established. QC activities shall be conducted on an ongoing basis.

91050.13.1 Staff Evaluation of Clinical Laboratory Services

In accordance with hospital bylaws, at least annually, a committee of hospital staff shall evaluate services provided and make appropriate recommendations to the medical executive committee and the health facility administration.

91050.14 Revisions

The Deputy Director, HCSD, or designee is responsible for ensuring that the contents of this section are kept current and accurate.

DOM § 22040.

ARTICLE 6 — RADIOLOGY SERVICES

Effective June 16, 1995

91060.1 Policy

Each Department health care facility shall provide appropriate space, equipment, supplies, and personnel for the performance of radiological services for the examinations, care, and treatment of inmates. Provisions shall be made for 24-hour emergency radiology services.

91060.2 Purpose

Radiological Services shall provide operational guidelines for radiological services consistent with the Department's administrative directives, ACA, and California Radiation Control Regulations.

91060.3 Radiological Services

Radiological service means the use of x-ray, other external ionizing radiation, and/or thermography, and/or ultrasound in the detection, diagnosis, and treatment of human illnesses and injuries. Ultrasound, although properly the province of physical medicine, may be considered part of the radiological service.

91060.4 Responsibility of Radiological Services

To achieve its purpose, the radiological unit shall:

- Take, process, and interpret radiographs and fluoroscopes.
- Establish and implement policies and procedures to ensure protection to all personnel in contact with radiation.
- Provide consultation and advice to clinicians.
- Interpret roentgenological findings.
- Plan and implement diagnostic x-ray procedures.
- Make additional postmortem examinations to complete records.
- Participate in hospital's educational program.
- Maintain and keep accessible, accurate, and complete records.
- Provide sufficient space, equipment, supplies, and personnel.
- Provide 24-hour emergency service.

91060.5 Radiological Services Provided On-Site

A published list of services provided on-site shall be available to all staff. These services are diagnostic radiological services up to and including fluoroscopic examinations.

91060.6 Radiological Services Provided Off-Site

The radiology unit shall make contractual arrangements for services to be provided off-site if these are specialized radiological procedures requiring staff and equipment unavailable on-site.

91060.7 Director of Radiological Services

A physician shall be responsible for the radiological service. The physician shall be a certified radiologist or eligible for certification by the American Board of Radiology. If such a person is not available on a full-time or regular part-time schedule, a physician with equivalent qualifications shall be retained on a contractual basis to provide supervision and direction for the service.

91060.8 Radiological Services Technologists

All radiology technicians shall be personnel licensed by the State of California as certified radiology technicians. All radiology staff licenses shall be valid and posted in a conspicuous place in the radiological unit.

91060.9 Requirements for Radiological Services

All radiological studies shall be performed under the order of the licensed physician or other licensed health professional lawfully authorized to prescribe the procedure.

91060.10 General Radiological Services Requirements

Written policies and procedures shall be developed and maintained by the person responsible for the service.

- The responsibility and accountability of the radiological service to the medical staff and administration shall be defined.
- A technologist shall be available to the unit during operational hours.
- The monitoring of radiology personnel and monthly recording of the cumulative radiation exposure of each individual shall be performed.
- The director shall be responsible for verifying the qualifications and capabilities of all radiological personnel.
- A QC program shall be maintained to minimize the unnecessary duplication of radiographic studies, and to maximize the quality of diagnostic information available.
- Positive proof of collimation (cut-off margins on radiographs) and gonad shielding (mark visible on radiographs) shall be present on all radiographs if gonadal shielding is indicated.
- Film shall not be "double exposed."
- Manufacturer's recommended guidelines shall be followed for the use and periodic maintenance of all equipment.
- Inmate's records shall be properly filed and retained for the same period as other parts of inmate's medical record.
- Sign-out procedures shall be stringently adhered to.

91060.11 Radiological Services Forms/Records

Only standardized departmental forms shall be used when requesting and recording radiological data. The request shall include:

- Proper identification of the requesting physician.
- Proper identification of the inmate.
- A history pertinent to the examination requested.

Radiological services staff shall maintain accurate and complete records/reports that shall be incorporated into the inmate's medical file and a copy maintained in the radiology unit.

When an inmate is transferred to another facility, all x-rays shall be forwarded to the receiving health facility.

Upon an inmate's death, discharge, parole, or interstate transfer, all records/film shall be retained by the last health facility for a minimum of seven years.

91060.12 Radiological Services Safety Procedures

Radiation protection for all staff and inmates shall be strictly enforced during all radiological examinations. Lead aprons and/or other safety devices shall be utilized to ensure maximum available protection.

The use, storage and handling of all radiation machines and radioactive material shall comply with the California Radiation Control Regulations and CCR.

All diagnostic equipment shall be calibrated annually. A physicist shall be available as needed for consultation.

If x-ray examinations are to be performed on outpatients, outpatient access to the radiological areas shall not traverse an inpatient-nursing unit.

91060.13 Infection Control Program for Radiological Services

A formal infection control program shall be adopted to conform to the guidelines addressed in the most recent edition of "Infection Control in the Hospital" published by the American Hospital Association. Activities of this program shall include:

- Ongoing surveillance of patients and staff.
- Prevention techniques.
- Treatment/referral.
- Documenting infection related incidences expeditiously.
- Reporting any occurrence which threatens the welfare, safety and/or health of inmates, staff, and/or visitors.

91060.14 Infectious Waste in Radiological Services

Infectious waste containers shall be provided for all:

- Examining rooms.
- Emergency care rooms.
- Dental operatories.

All infectious wastes, as defined in H&SC 25117.5, shall be handled and disposed of in accordance with the Hazardous Material Control Law, Chapter 6.5, Division 20, 25100 et seq., H&SC and the regulations adopted thereunder.

91060.15 Radiological Services Audits/QC

Refer to DOM 93053.13.

91060.16 Revisions

The Deputy Director, HCSD, or designee is responsible for ensuring that the contents of this Article are kept current and accurate.

ARTICLE 7 –HEALTH RECORDS

Revised March 11, 1993

91070.1 Policy

The medical record service shall maintain medical records that are documented accurately, in a timely manner, are readily accessible, and permit prompt retrieval of information and statistical data.

91070.2 Purpose

To serve as a basis for planning patient care.

To provide documentary evidence of the course of the patient's medical treatment.

To document interdisciplinary communication regarding patient care.

To protect the legal interest of the Department, hospital, patient, and provider.

To provide data for research, education, and evaluation of medical services provided.

91070.2.1 Documentation Principle

Each facility shall maintain health records for all patients treated by the facility. The records shall contain information to identify the patient, justify the diagnosis, to describe the patient's treatment and care, and to provide for continuity of medical care. The record shall serve as an accurate database for the evaluation of the quality of care provided, to provide documentation for business purposes, and to defend legal interests.

91070.2.2 Record Completion

Records shall be complete, legible, typed or in ink, signed, dated, and in compliance with licensing requirements in CCR (22).

Correctable deficiencies are those that can be completed by the individual responsible for the entry or in the absence of the responsible person by another member of the clinical staff with knowledge of the recorded events.

Non-correctable deficiencies are entries where it is not possible to determine if the staff member responsible provided care and treatment.

910710.2.3 Charting Guidelines

All entries in the medical record should be accurate, timely, objective, specific, concise, and descriptive. Only approved abbreviations shall be used. Additional information recorded on subsequent pages shall have "Continued" indicated. Entries are to be recorded consecutively, not leaving blank spaces for additions.

Error corrections are made with a single line drawn through the entry making certain not to obliterate the information. The word error is to be written with the date and writer's initials. An asterisk (*) next to the date of the incorrect entry and another to indicate location of the correction should be used for large corrections. For small corrections continue writing.

"White-out" or any other form of obliteration on hand or typewritten entries is not to be used. All entries are to be written in permanent ink.

All pages in the health record shall contain the patient's full name, CDC inmate number, and name of the facility where treatment or care is provided.

Signatures shall consist of the writer's first initial, last name, and professional title. Countersignatures are to be used when a facility's policy and procedure require such. Initials may be used where called for on specific forms.

Amendments to a record are additions that provide additional facts not available at the time the original entries were made. They provide evidence that the information originally recorded is in error or incorrectly represents the facts. Amendments also explain or clarify missing or incomplete entries.

For late entries, insert (*) in the margin or between lines to correspond with observation, action, or event.

91070.3 Services Defined

The medical record service shall maintain the inmate's health record in a system which allows for easy retrieval, shall assist in locating records on new arrivals, shall answer requests for medical information from other agencies, and shall transcribe various medical reports.

91070.4 Services Provided

Each departmental health care facility shall have a medical record service staffed by medical records personnel. The medical record service shall be conveniently located and adequate in size and equipment to facilitate the accurate processing, checking, indexing, and filing of all medical records.

91070.5 Centralized Outpatient Health Records

An outpatient health record shall be created and maintained for each inmate admitted to the Department. The outpatient health record shall contain both medical and psychiatric information. The reception centers shall initiate the record except in the case of condemned male inmates. SQ shall initiate the record on condemned male inmates.

91070.6 Inmate Access

Inmates shall not be used as workers in medical record services or in areas that would allow the inmate access to health records. An inmate shall not review or be given access to another inmate's health record.

91070.7 Supervision Health Records

In departmental health care facilities with a hospital, the medical records service shall be under the supervision of a registered record administrator or accredited record technician. In all other facilities, the medical record service shall be under the supervision of either a health record technician or a medical records director. When the services of either cannot be obtained on a full-time basis, consultation services shall be obtained.

91070.7.1 Health Record

The inmate's health record, including x-ray films, shall be the property of the Department and shall be maintained for the benefit of the inmate, the medical staff, the health care facility and the Department. The health care facility shall safeguard the information in the record against loss, defacement, tampering, or use by unauthorized persons.

Note: If a hospital ceases operation, DHS shall be informed within 48 hours of the arrangements made for safe preservation of inmate patient records.

91070.7.2 Accountability

A written statement defining the accountability of the medical records service staff and administration shall be available and shall include an organizational chart.

91070.7.3 Service Evaluation

Periodically an appropriate committee of the medical staff shall evaluate the services provided and make recommendations to the medical executive committee and administration of the health care facility.

91070.8 Confidentiality and Release of Information

All health records, either as originals or accurate reproductions of the content of such originals, shall be maintained in such form as to be legible and readily available upon the request of admitting physician; the non-physician granted privileges pursuant to CCR (22) 70706.1; the hospital, its medical staff, or any authorized officer, agent, or employee of either authorized representatives of DHS; or any other person authorized by law to make such a request.

91070.8.1 Valid Authorization

Revised September 25, 2007

A valid authorization for the release of an inmate's health care record shall follow these guidelines:

- Be handwritten by the person who signs it or is in typeface no smaller than 8-point type.
- Be clearly separate from any other language present on the same page and be executed by a signature which serves no other purpose than to execute the authorization.
- Be signed and dated by the inmate. If the inmate is deceased or incompetent, the legal representative, spouse or registered domestic partner of inmate or person responsible for the inmate, or the beneficiary or personal representative of the deceased inmate may sign the authorization.
- State the specific uses and limitation on the types of medical information to be disclosed.
- State the name or functions of the provider of health care that may disclose the medical information.
- State the name or functions of the persons or entities authorized to receive the medical information.
- State a specific date after which the provider of health care is no longer authorized to disclose the medical information.
- Advise the person signing the authorization of the right to receive a copy of the authorization.
- Statement of revocation.

91070.8.2 Requests From Outside Agency/Facility**Verbal Requests**

Upon receipt of a valid written authorization, health information shall be copied and sent to the requesting hospital, physician, or other agency.

Verbal requests for health information shall be referred to the medical records director, medical records supervisor, correctional health services administrator, CMO, or chief psychiatric officer if the request is for psychiatric information.

Within Department

It is not necessary to have a valid authorization when releasing health information to another facility within the Department or when releasing information to consulting health care personnel within the Department.

91070.8.3 Requests From State AG's Office

Copies of health records shall be made available for review at each facility at the request of the State AG's Office.

91070.8.4 Inmate's Request

Inmates have the right to review and receive copies of their own health record. This review shall take place in the presence of a health services staff member. A charge shall be made for all pages copied at rates specified in the DOM 13030. Inmates totally without funds and/or a pay number shall be provided copy service without charge.

An inmate shall not review or be given access to another inmate's health record.

91070.8.5 Requests From Inmate's Attorney

Upon receipt of a valid authorization from the inmate's attorney, health information can be copied and sent to the attorney. Representatives of the attorney shall have the same degree of access as the attorney providing the attorney designates so in writing. Designated representatives of an attorney are limited to licensed investigators, attorney-sponsored law students, a State Bar certified paraprofessional, or a full-time employee of the attorney. No charge shall be made to the attorney. (See DOM 71020 for more details.)

91070.8.6 Subpoenas

The "Protocol for Subpoenas" published by the California Medical Record Association shall be followed in preparing the records in response to a subpoena.

91070.8.7 Drug Abuse

Health records containing information of drug abuse subsequent to March 21, 1972 and alcohol abuse subsequent to May 14, 1974 are covered by federal laws, 42 CFR C and D. Valid authorization shall indicate that the patient knows that drug and/or alcohol abuse information shall be released if there is any in the record.

91070.8.8 Psychiatric Records

Valid written authorization shall indicate that the patient knows that psychiatric information shall be released if there is any record. Records shall be released by subpoena only if it directs the release of the information to the judge of the court and a subsequent court order is obtained when information is admitted as evidence. Records shall be released by court order. (W&I 5328 and 5328.19.)

91070.8.9 AIDS and AIDS-Related Condition (ARC) Information

Valid authorization shall indicate that the patient knows that AIDS and/or ARC information shall be released if there is any in the record.

91070.9 Coding

The most recent edition of the International Classification of Diseases shall be used for coding. In those facilities with psychiatric units, the most recent edition of the Diagnostic Statistical Manual shall be used for psychiatric diagnostic coding. Coders shall have completed an approved basic coding course.

91070.10 Indexing

Medical records shall be cross-indexed according to patient by:

- Disease.
- Operation.
- Physician.

94010.11 Standardized Health Services Forms

All forms filed in the inpatient or the outpatient health record shall be approved departmental forms.

91070.12 Inpatient Health Record

The inpatient record shall be in the following order:

- Patient identification.
- Face sheet/admitting form/patient identification.
- Narrative discharge and transfer summary.
- Death reports.
- Report of death.
- Coroner's report (autopsy).
- Medical reports.
- Refusal of examination and treatment.
- Emergency room reports (also known as ER reports).
- Medical history.
- Physical examination.
- Consultant reports.
- Informed consent.
- Human Immunodeficiency Virus (HIV) consent.
- Notice of transfer/transfer summary.
- Operative reports.
- Consent of surgical operation.
- Preop check list.
- Preanesthesia check list.
- Anesthesia report.
- Postanesthesia report.
- Report of operation.
- Pathology report.
- Physician's reports.
- Physician's progress notes.
- Doctor's orders.
- Psychiatric treatment plan.
- Material from outside facilities (same order):

- Staff reports.
- Laboratory reports.
- X-ray reports.
- Electrocardiograms (also known as EKGs).
- Other diagnostic reports.
- Physical therapy reports.
- Respiratory therapy reports.
- Social services.
- Occupational therapy.
- Dietary assessment.
- Nursing reports.
- Medication records.
- Graphic charts.
- Intake & output records.
- Intravenous flow charts (also known as IV flow charts).
- Diabetic record.
- Weight record.
- Nursing assessment.
- Bedside records (nursing notes).
- Patient care plan.
- Record of daily activities.
- Medical report of injury or unusual occurrence.
- Telegram.
- Suicide watch.
- Chronos.
- Miscellaneous.

91070.13 Discharge Analysis

Qualitative analysis shall be performed on all inpatient records. Each inpatient medical record shall consist of at least the following items:

- Identification sheets shall include, but are not limited to, the following:
 - Name.
 - Address on admission.
 - Identification number.
 - Age.
 - Sex.
 - Marital status.
 - Religion.
 - Date of admission.
 - Date of discharge.
 - Name, address, and telephone number of person or agency responsible for patient.
 - Name of patient's admitting physician.
 - Initial diagnostic impression.
 - Discharge or final diagnosis.
 - History and physical examination.
 - Consultation reports.
 - Physician Order to Admit/Discharge including medication, treatment, and diet orders.
 - Progress notes including current or working diagnosis.
 - A discharge summary which shall briefly recapitulate the significant findings and events of the patient's hospitalization, the condition on discharge, and the recommendations and arrangements for future care.

Nurses' Notes

- Nurses' notes shall include, but not be limited to, the following:
 - Concise and accurate record of nursing care administered.
 - Record of pertinent observations including psychosocial and physical manifestations as well as incidents and unusual occurrences and relevant nursing interpretation of such observations.

- Name, dosage, and time of administration of medications and treatment. Route of administration and site of injection shall be recorded if other than by oral administration.
- Record of type of physician-ordered restraint and time of application and removal. The time of application and removal shall not be required for soft tie restraints used for support and protection of the patient or required for seclusion for custody reasons.
- Vital sign sheet.
- Reports of all X-ray examinations performed.
- Consent forms when applicable.
- Anesthesia record including preoperative diagnosis if anesthesia has been administered.
- Operative report including preoperative and postoperative diagnosis, description of findings, technique used, tissue removed or altered if surgery was performed.
- Pathological report or laboratory report if tissue or body fluid was removed.
- Labor record if applicable.
- Delivery record if applicable.
- Nursing care plan.
- Psychiatric treatment plan if applicable.

91070.14 Incomplete Inpatient/Outpatient Medical Records

Medical records shall be completed promptly and authenticated or signed by a physician, dentist, or podiatrist within two weeks following the patient's discharge.

91070.15 Transfer of Inpatients to Different Levels of Care Within the Same Facility

The medical record shall be closed and a new record initiated when a patient is transferred to a different level of care within a hospital that has a distinct partially skilled nursing or intermediate care service.

91070.15.1 Transfer to Outside Facilities

A transfer summary shall accompany the patient upon transfer to another health facility. The transfer summary shall include essential information relative to the patient's diagnosis, hospital course, medications, treatments, dietary requirement, rehabilitation potential, known allergies, and treatment plan. The transfer summary shall be signed by a physician. A copy of the transfer summary shall be retained in the inpatient record.

Note: Patients transferred to an outside community health facility shall be considered discharged from the CDC health care facility. The inpatient record shall be closed and a discharge summary completed. Upon return of the patient, a new record shall be established. The history and physical from the outside community health facility may be used if the attending physician makes a notation that the history and physical has been reviewed.

91070.15.2 Transfers to Other Facilities

A narrative discharge summary or transfer summary shall accompany inmates who transfer from one acute care service in one health care facility to another within the Department.

91070.16 Filing System for Inpatient/Outpatient Health Records

All inpatient/outpatient records shall be filed by the inmate's prison identification number. The records shall be filed in numerical order by the last two digits and then in order by the first three digits. The alphabetical prefix is utilized only when two numbers are identical.

91070.16.1 Retention of Inpatient/Outpatient Records

Patient records including X-ray films or reproduction thereof shall be preserved safely for a minimum of seven years following discharge of the patient from a departmental health care facility.

91070.17 Outpatient Health Record

Documents are to be filed behind appropriate divider in reverse chronological order (most recent on top). The outpatient record shall be maintained in the following order:

Left Side of Folder

- Outpatient medication record.
- Daily diabetic record.
- Consultation/inpatient reports section (yellow).
 - Consultation reports—most recent on top.
 - Inpatient reports.

- Consent to operate—outpatient surgery.
- Operative reports—outpatient surgery.
- Refusal of treatment.
- Miscellaneous section (blue).
 - Reports from other (nondepartment) facilities.
 - Medical report of injury or unusual occurrence.
 - Requests for medical information from Department to outside facilities.
 - Receipts from inmate for receiving copies of records.
 - Memos.
 - Correspondence.
- Laboratory/pathology section (orange).
 - Laboratory reports—full page.
 - Laboratory reports.
 - Pathology reports.
- X-ray section (brown).
 - X-ray reports.
 - X-ray reports from nondepartment facilities.
 - Computerized Axial Tomography Scans (also known as CAT Scans).
- Other diagnostic section (pink).
 - Electrocardiograms.
 - Electroencephalograms.
 - Hearing tests.
 - Eye refractions.
 - Physical therapy.

Right Side of Folder

- Outpatient medical record.
- Physician orders for outpatient services.
- Chronos section (green).
 - CDC Form 128-C, Medical/Psychiatric/Dental Chronos.
 - CDC Form 128-C-1, Medical Clearance and Special Instructions Chronos.
- Physical exam section (red).
 - Periodic health reviews.
 - Prenatal records.
 - Immunization records.
 - Entry medical history.
 - Entry physical examination.
 - Record of original dental exam.
- Psychiatric section (purple).
 - Progress notes by psychologist and psychiatrists.
 - Psychiatric arrival screening forms.
 - Psychiatric chronos.
 - Board reports.
 - Psychiatric evaluations.
 - Psychiatric test results (multiphysical exam).
 - DMH outpatient partial day-care treatment reports.

91070.18 Transfer of Inmates

An inmate shall not be transferred to another facility unless accompanied by the outpatient health record.

91070.18.1 Paroles and Discharges

Outpatient health records of inmates who parole shall be forwarded to the appropriate regional parole office. Outpatient health records on inmates who have been discharged shall be forwarded to Archives.

91070.18.2 Deaths

Outpatient health records on inmates who expire shall be retained at the facility in which the death occurred. These records shall be maintained for a minimum of seven years. Health records on parolees who expire shall be forwarded to Archives.

91070.18.3 Health Record Tracking

All receiving facilities shall access inmate health records to ensure that a complete medical file has been received. The facility shall track and monitor receipt of all patients' health records. Temporary files are to be initiated only to file loose clinical reports. A complete permanent health record shall be on the file shelf within 30 days.

91070.18.4 File Audit

Each facility shall audit its file shelves quarterly to ensure that all outpatient health records have been forwarded to the inmate's current facility. Purged files are to be forwarded immediately to the facility where the inmate currently resides with a written explanation from the medical records supervisor.

91070.19 Statistics Admission and Discharge List

All admissions to the health care facility shall be listed by day. All discharges from the health care facility shall be listed by day. The admission/discharge list shall contain at least the following information:

- Inmate's name.
- Inmate's number.
- Previous housing.
- New housing.

91070.19.1 Daily Census Report

The following information shall be maintained on a daily basis:

- Number of admissions.
- Number of discharges.
- Transfers to community hospitals.
- Beginning census.
- Ending census.
- Inpatient daily census.
- Length of stay for patients discharged.
- Interwing/unit transfers.

91070.19.2 Monthly Statistics

The following statistics shall be maintained monthly and forwarded to the HCSD:

- For inpatient acute and infirmary hospitalizations:
 - Total admissions.
 - Total discharges.
 - Average daily census.

These statistics shall be maintained for all health care facility patients, all patients at outside hospitals, and all non-medical personnel housed in a health care facility.

91070.19.3 Death Log

The following information shall be maintained on all deaths:

- Inmate's full name.
- Inmate's number.
- Date of death.
- Cause of death.
- Place of death.

This log shall also include inmates who expire outside the facility.

91070.19.4 Master Patient Index

A master patient index shall be maintained on all patients. For patients previously hospitalized, current information shall be added to the master index.

The following information shall be maintained on each master patient index:

- Full name of inmate (last name, first name, middle initial).
- Inmate prison identification number.
- Social security number.
- CI&I fingerprint identification number.
- Race.
- AKA.
- Date of birth.
- Age.
- Comments.
- Date of admission.

- Date of discharge.
- Physician.
- Final diagnosis on discharge.

This is a permanent file and shall never be destroyed.

91070.20 Medical Staff Committees

The medical record service responsibilities to medical staff committees are:

- To submit statistical information as requested by the committee.
- To act as a resource.
- To obtain data at the request of the committee for their review.

91070.21 Approved Abbreviation List

Only those abbreviations approved by the Chief of DHS or the CMO shall be used in the inpatient or outpatient health record.

91070.22 Revisions

The Deputy Director, HCSD, or designee shall be responsible for ensuring that the contents of this section are kept current and accurate.

ARTICLE 8 — INMATE TUBERCULOSIS ALERT SYSTEM

Effective April 21, 1993

91080.1 Policy

The Inmate Tuberculosis (TB) Alert System is a critical component of the Department overall efforts to identify an inmate's TB status and to control TB within CDC.

91080.2 Purpose

The Inmate TB Alert System will ensure that inmates with unknown or questionable TB status are moved appropriately, and those on treatment regimes do not have interruptions in the treatment.

The Inmate TB Alert System is designed to address several major problems in controlling TB among inmates. The system will:

- Provide a rapid method for Medical Care Services, Classification Services, Case Records, and CDC Transportation staff to determine the most current TB status of an inmate.
- Provide a rapid method for Medical Care Services staff to identify inmates that require ongoing TB treatment at the receiving facility.
- Allow CDC Transportation, C&PR, and/or the CC-III to schedule transportation by the most appropriate method given the inmate's TB status.
- Provide reports that will assist facilities in the tracking and control of TB.

91080.3 Definition

TB is an infectious airborne disease that is a serious public health problem in correctional facilities around the country. The control of TB requires a program that emphasizes testing, treatment, and tracking.

Testing

CDC facilities have established TB testing programs to ensure that inmates are tested on an annual basis, as well as when circumstances warrant additional testing. The testing program ensures that inmates with TB are identified as quickly as possible.

Treatment

Control of TB requires aggressive and continuous treatment for extended periods of time. TB can be broadly divided into two stages: TB Infection and TB Disease. Unlike the sound of its name, TB Infection is not infectious. During this early stage of TB, the individual has been infected but has no symptoms. Without treatment, 10 percent of the individuals infected with TB will develop the more severe stage-TB Disease.

With treatment, only 2 to 5 percent will develop TB Disease. It is extremely important in TB control that individuals with TB Infection undergo a full course of treatment. Treatment for TB Infection requires regularly administered oral medications for up to 12 months. Interruptions in therapy can cause a multiple drug resistant strain of TB requiring more aggressive and expensive therapy. Inmates with TB Infection can be moved; however, the Medical Care Services staff at the receiving facility shall be notified that an inmate requiring continuous TB treatment has been transferred to the facility.

TB Disease is initially infectious. After diagnosis and initial treatment, it becomes noninfectious but requires aggressive treatment for up to 24 months. Inmates with TB Disease cannot be moved without respiratory precautions until the disease is noninfectious. Medical staff at the receiving facility must be notified prior to the inmate with TB Disease being transferred to the facility.

Tracking

Controlling movement of the inmate population is critical to TB control. The Inmate TB Alert System addresses the need to control this movement. No inmate shall move on regular CDC transportation until it is determined that the inmate's TB status allows movement without respiratory precautions. When an inmate is moved without knowledge of TB status, there is increased potential for the spread of TB Infection. This could result in unnecessary exposure to the staff and inmate population, and require extensive testing of all exposed inmates and staff.

91080.4 Inmate Tuberculosis (TB) Alert System Major Components

- The Inmate TB Alert System will implement the following major components:

TB Alert Code

- The Department's DDPS and Automatic Transfer System (ATS) shall contain a TB Alert Code for every inmate. This code shall be accessible to designated Medical Care Services, Classification, Case Records, and CDC Transportation staff. The code shall alert Classification, Case Records, and CDC Transportation of movement limitations and special transportation requirements. It shall alert Medical Care Services staff of the need to follow-up on inmates with unknown status, and shall alert Medical Care Services staff when an inmate on therapy is transferred to their facility.

CSR Endorsements

- CSR endorsements for movement shall require the inmate's C-File contain the inmate's TB Alert Code in order to complete the endorsement. This policy requires that the CDC Form 128-C, Medical/Psychiatric/Dental Chrono, or CDC Form 128-C-1, Reception Center Medical Clearance/Restriction Information Chrono, documenting the inmate's TB Alert Code be filed in the inmate's C-File at the time of endorsement. The inmate shall not be endorsed for movement if the C-File lacks a CDC Form 128-C or CDC Form 128-C-1 documenting the inmate's TB Alert Code.

Special Transportation Requirements

- Inmates with special transportation restrictions shall not be moved on regular CDC transportation. Inmates that have an unknown TB status shall not be transported on regular CDC transportation. These inmates, as well as infectious inmates, require special transportation using respiratory precautions. Special transportation is other than regularly scheduled CDC bus transportation which is normally arranged by the sending facility and provides medical respiratory precautions where required by the referring physician. Respiratory precautions require that masks are worn by those who come close to the patient, hands are washed after touching the patient or potentially contaminated articles and before taking care of another patient, and articles contaminated with infective material be discarded or bagged and labeled before being sent for decontamination and reprocessing.

Medical Advance Transfer Notice

- The CDC Form 7343, Medical Advance Transfer Notice, shall contain the most current TB Alert Code and TB Alert Transportation Instruction for each inmate. The TB status of all inmates scheduled for movement shall be reviewed by the facility's Medical Care Services staff prior to movement. This is to ensure that changes in TB status have not occurred since endorsement.

Transfer Record

- The CDC Form 135, Transfer Record, shall contain the most current TB Alert Code and TB Alert Transportation Instruction for each

inmate. CDC Transportation Sergeants shall be required to review the TB Alert Transportation Instruction of each inmate. Any inmate without a Clear for Transportation Instruction shall not be allowed to board the bus.

Telephone Alert System

- Each facility shall be required to implement a telephone alert system that allows Medical Care Services staff to quickly alert Classification and Custody staff of the need to schedule an inmate for special transportation. When Medical Care Services staff determine that an inmate is going to be moved inappropriately, a medical hold process shall be in place to allow the scheduled movement to be delayed or postponed. Since inmates can move at odd hours, a telephone alert procedure shall be rapid and responsive to the need in stopping inappropriate inmate movement.

The reports associated with the Inmate TB Alert System shall provide Medical Care Services staff with information necessary for immediate follow-up on inmates with unknown TB status. Medical Care Services staff's access to DDPS bed assignments should make reading TB tests more efficient. The transfer endorsement policy and the inclusion of the TB Alert Transportation Instruction for each inmate on the CDC Form 135 and the CDC Form 7343 shall provide additional security in stopping the transmission of TB through inappropriate inmate movement.

91080.5 The TB Alert Code

The current DDPS and ATS are used to collect information, transfer data, and track inmates throughout the CDC system. The DDPS is updated every day and selected information is downloaded to the ATS as required. When an inmate transfers to another facility, the DDPS information follows the inmate within 24 hours. The Inmate TB Alert System is an enhancement to the DDPS and ATS.

The Inmate TB Alert Code is a two-digit code that shall be entered in the Inmate TB Alert System daily by Medical Care Services staff. The code shall then be printed on the CDC Form 7343 and the CDC Form 135, along with the TB Alert Transportation Instruction for each inmate. DDPS shall also generate two reports that will be useful to Medical Care Services staff in monitoring testing activities and tracking inmates with TB Infection and TB Disease.

91080.6 Determining the TB Alert Code

Every inmate at any CDC facility shall be assigned a TB Alert Code to identify their TB status. When an initial TB Alert Code is established and every time the code changes, it shall be documented on a CDC Form 128-C or CDC Form 128-C-1.

91080.7 TB Alert Code Descriptions

Revised January 18, 1994

The TB Alert Codes are described below:

Code __

Status Unknown

No entry has been made into the Inmate TB Alert System. This code indicates the TB status of an inmate is unknown. Blank codes require immediate action of the Medical Care Services staff designated as the facility's Inmate TB Alert System Coordinator.

Inmates arriving at CDC reception centers can remain Code __ (blank) until the initial Mantoux Purified Protein Derivative (PPD) skin test has been read. The Code __ (blank) remains until the skin test has been read/interpreted. After test interpretation, the Code __ (blank) becomes either a Code 21 or Code 22. An inmate's TB Alert Code should not remain blank for over 72 hours.

Since an inmate entering the reception center shall be a Code __ (blank) until the PPD is read, it is imperative that designated Medical Care Services staff administer and interpret the Mantoux PPD skin test within 72 hours of inmate arrival. Failure to promptly administer, read, and document the PPD result could result in serious inmate movement problems.

TB Alert Transportation Instruction: Transfer and endorsement shall be deferred. Please refer to DOM 91080.16.

Code 11

Status Unknown/PPD Test Performed.

Code 11 denotes that the PPD skin test has been administered, but not yet read and/or interpreted. The inmate's TB status is unknown. Inmates should remain a Code 11 no more than 72 hours. This code is used when an inmate with an already established TB Alert Code has a subsequent skin test. The inmate must be coded as a Code 11 after the skin test is administered to assure that the inmate is not moved and to document the change in TB Alert

status. After the PPD is read/interpreted, the inmate shall be assigned one of the appropriate TB Alert Codes: 21 or 22.

Code 11 is used when:

- Inmates with a Code 22 receive their annual PPD skin test.
- When an inmate is given a PPD skin test as part of a case contact investigation.
- Any time an inmate with an existing TB Alert Code is given a skin test or becomes unknown status.

As specified under Code __ (blank) above, mandatory use of Code 11 in newly arriving reception center inmates is no longer required.

TB Alert Transportation Instruction: Inmates with unknown TB status shall be transported/moved by special transportation using respiratory precautions.

Code 21

TB Screening Test Result Significant--Inmate Under Diagnosis.

A Code 21 is used when the clinician has determined that an inmate requires diagnostic TB testing. While this is generally done in response to a significant PPD skin test, any time a clinician considers an inmate "under diagnosis" for TB, the inmate should be coded as a Code 21.

A Code 21 is used when:

- An inmate has a PPD skin test induration of 10 mm or more.
- An inmate has a PPD skin test induration of 5 mm or more and risk factors specified in the CDC TB Guidelines exist.
- An immunosuppressed inmate is determined skin test positive (without regard to the mm induration) based on anergy testing.
- An inmate with a previously significant PPD (prior history of TB Disease or TB Infection) is undergoing annual or other periodic TB evaluation. Inmates with a prior history of TB Disease or TB Infection should be evaluated once a year. At the time the inmate is evaluated for evaluation, the inmate's TB Alert Code should be changed to Code 21. It should remain a Code 21 until the medical evaluation is completed and the inmate is determined free from the disease.

A Code 21 is used only until appropriate diagnostic procedures establish a subsequent TB Alert Code.

After diagnostic procedures, the inmate shall be assigned one of the appropriate TB Alert Codes: either 31, 32, or 33.

Movement from Code 21 to Code 31:

Inmates should be coded 31 any time a clinician suspects infectious TB Disease, based on either symptoms, sputum smears, x-rays, or any combination. The inmate should be changed from Code 21 to Code 31 as soon as the clinician suspects that the inmate could be infectious. For example, if a sputum smear for Acid Fast Bacilli (AFB) returns as positive and the inmate is considered a suspect for infectious TB Disease, they should be immediately coded as a Code 31. It is not appropriate for the inmate to remain a Code 21 while awaiting confirmatory results of the culture and sensitivity.

Movement from Code 21 to Code 32:

Inmates should be moved from a Code 21 to a Code 32 when:

- Written documentation establishes that the positive skin test is the result of a prior exposure and the inmate does not require current prophylactic treatment.
- A clinician determines that a new exposure will not receive prophylactic treatment due to medical contraindications.

Movement from Code 21 to Code 33:

Inmates should be moved from a Code 21 to a Code 33 after the initiation of TB Infection prophylactic medication or upon a signed refusal by the inmate to take prescribed medications. Inmates with a negative chest X-ray must remain a Code 21 until the medical evaluation is complete and the medication initiated or refused.

TB Alert Transportation Instruction: Inmates with a Code 21 shall be transported/moved by special transportation using respiratory precautions.

Code 22

PPD Test Result Non-significant.

Code 22 is used when the PPD skin test is not significant and no follow-up treatment is required. Inmates with a Code 22 require annual PPD skin testing or testing upon exposure.

TB Alert Transportation Instruction: Inmates with a Code 22 shall be transported/moved by regular CDC transportation.

Code 31

Infectious TB Disease Suspected.

Code 31 is used when an inmate is suspected of having infectious TB Disease. An inmate should be made a Code 31 as soon as the clinician suspects infectious TB Disease. The inmate shall remain a Code 31 until they have received appropriate treatment and are no longer considered infectious.

Inmates that are considered a Class V TB case would immediately be coded as a Code 31. The inmate would remain a Code 31 until the clinician determines they are no longer infectious. After the inmate has been placed on TB Disease treatment and is no longer considered infectious, the inmate should be coded as a Code 43. (Please note that the inmate is still a Class V TB case until culture confirms the diagnosis. In most cases, however, the inmate's TB code would change to a Code 43 several weeks before obtaining the culture results.) The inmate should not remain a Code 31 until culture confirmation of the case. They should be coded as a Code 43 (TB Disease-On Medication) as soon as the inmate is no longer considered infectious.

Should an inmate initially considered infectious (and Coded 31) and later have TB Disease ruled out, the inmate would be coded to the appropriate TB Alert Code.

TB Alert Transportation Instruction: Inmates with a Code 31 shall be transported/moved by special transportation using respiratory precautions.

Code 32

PPD Test Result Significant From Prior Infection/Disease--Noninfectious.

Code 32 is used when:

- An inmate has a significant PPD reaction from prior exposure to TB that has already been prophylactically treated.
- An inmate has a significant PPD reaction from a prior case of TB Disease and the inmate has completed the required treatment.
- An inmate has a diagnosis of TB Infection, but after medical evaluation, is not receiving prophylactic treatment due to medical contraindications.

TB Alert Transportation Instruction: Inmates with a Code 32 shall be transported/moved by regular CDC transportation.

Code 33

TB Infection--Noninfectious, On Medication.

Code 33 is used when:

- An inmate has a diagnosis of TB Infection and is receiving prophylactic treatment.
- TB medication has been prescribed but the inmate refused the medication.
- TB medication has been prescribed but the inmate is only intermittently or partially compliant with the treatment regime.
- HIV inmates receiving multiple medication as prophylactic treatment for TB Infection.

When an inmate completes the course of prophylactic treatment for TB Infection, the inmate's TB Alert Code should be changed to Code 32.

TB Alert Transportation Instruction: Inmates with a Code 33 shall be transported/moved by regular CDC transportation. Medication shall be transported on the bus or Medical Care Services staff shall ensure the medication is available at the receiving facility.

Code 43

TB Disease, Not Infectious.

Code 43 is used for inmates currently under treatment for TB Disease when the inmate is no longer considered infectious. Inmates shall remain Code 43 through the entire treatment period for this episode of TB Disease. Upon completion of TB curative treatment, the inmates shall be coded Code 32.

Inmates receiving curative treatment for TB Disease should be coded Code 43 while the result of the culture is pending. If the culture result confirms TB Disease, the inmate will remain a Code 43 throughout the treatment period. If the culture rules out TB Disease, the inmate should, at that time, be coded Code 33 to reflect the inmate's TB Infection status. If the inmate is diagnosed with atypical Mycobacterium infection, the code should be changed to either Code 32 if the PPD status is positive or Code 22 if the PPD status is negative.

Code 43 is used for:

- Confirmed cases of TB Disease currently receiving curative treatment.
- Suspected cases of TB Disease (awaiting culture confirmation) currently receiving curative treatment and not infectious.

- Extrapulmonary TB Disease (confirmed Mycobacterium TB in other than a pulmonary site).

Upon completion of treatment for TB Disease, the inmate shall be coded as Code 32.

TB Alert Transportation Instruction: Inmates with a Code 33 shall be transported/moved by regular CDC transportation. Medication shall be transported on the bus or Medical Care Services staff shall ensure the medication is available at the receiving facility.

91080.8 Documenting the TB Alert Code and Entering the TB Alert Code in the DDPS

Every time an inmate's TB Alert Code changes, Medical Care Services staff shall complete a CDC Form 128-C or CDC Form 128-C-1. This shall be done within 24 hours of reading the PPD skin test results and diagnosing the inmate's TB status.

If the TB Alert Code is 31, the TB Alert Code shall be documented on the CDC Form 128-C or CDC Form 128-C-1 by the **end of the shift** in which the diagnosis was made.

The TB Alert Code shall be identified on the CDC Form 128-C or CDC Form 128-C-1.

Medical Care Services staff shall input the inmate's TB Alert Code into the DDPS file within **24 hours** of reading the PPD skin test results, diagnosis, or any change in the TB Alert Code.

If the TB Alert Code is 31, the TB Alert Code shall be entered into the DDPS by the **end of the shift** in which the diagnosis was made.

91080.9 Routing and Filing the CDC Forms 128-C and 128-C-1, Mainline Facilities:

- Medical Care Services staff in mainline facilities shall route the CDC Form 128-C documenting the TB Alert Code to Medical Records by the end of the shift in which the PPD skin test result was read, diagnosis made, or any change to the TB Alert Code.
- Medical Records in mainline facilities shall file the CDC Form 128-C in the inmate's Medical Record within 24 hours of receipt (or by the end of the next business day if received on a weekend or holiday) from Medical Care Services staff.
- Medical Records in mainline facilities shall route the CDC Form 128-C to Case Records within 24 hours of receipt (or by the end of the next business day if received on a weekend or holiday) from Medical Care Services staff.
- Case Records in mainline facilities shall file the CDC Form 128-C in the inmate's C-File as soon as possible. The CDC Form 128-C must be filed prior to transfer endorsement.

Reception Centers:

- Medical Care Services staff in reception centers shall route the CDC Form 128-C or CDC Form 128-C-1 documenting the TB Alert Code to Medical Records after reading the PPD skin test result, diagnosis, or any change in the TB Alert Code.
- Medical Records in reception centers shall file the CDC Form 128-C or CDC Form 128-C-1 in the inmate's Medical Record within five days of reading the PPD skin test, diagnosis, or any change in the TB Alert Code.
- Medical Records in reception centers shall route the CDC Form 128-C or CDC Form 128-C-1 to Case Records before the transfer endorsement can be completed.
- Case Records in reception centers shall file the CDC Form 128-C or CDC Form 128-C-1 in the inmate's C-File before the transfer endorsement can be completed.

91080.10 Reviewing Scheduled Inmate Movement on the CDC Form 7343, Medical Advance Transfer Notice**General Requirements**

A CDC Form 7343 generated at each facility shall contain the TB Alert Transportation Instruction for every inmate listed.

The facility's Associate Information System Analyst (AISA) routinely extracts (downloads) information from the DDPS and enables the ATS access to this information during the generation of the CDC Form 7343. ATS reads each inmate's TB Alert Code from the extracted information, generates the appropriate TB Alert Transportation Instruction based on the TB Alert Code, and prints the TB Alert Transportation Instruction on the CDC Form 7343.

Medical Care Services staff shall review the CDC Form 7343 to ensure the appropriate TB Alert Transportation Instructions have been identified and medications are prepared for transfer if appropriate.

CDC Form 7343 Medical Advance Transfer Notice Distribution Instructions

The Inmate TB Alert Coordinator shall walk to Case Records and obtain a copy of the CDC Form 7343 as soon as it is printed and as subsequent changes occur.

CDC Form 7343 Review Instructions

Medical Care Services staff shall review the CDC Form 7343. It is **not necessary** to compare the TB Alert Transportation Instruction with the DDPS TB Alert Code or documentation in the medical record. A visual check of the names and TB Alert Transportation Instructions printed on the CDC Form 7343 along with Medical Care Services staff's knowledge of inmates who are in the infirmary, quarantine, etc., shall be sufficient. This review is intended to ensure all inmates have a Clear For Transportation status and to identify that any recent change in the TB Alert Code not yet entered in DDPS can be identified and arrange transportation arrangements, if necessary.

Medical Care Services staff shall follow instructions for placing Special Transportation Requirements, as described in DOM 91080.11, for any inmate who is TB Alert Code 31, Infectious TB Disease.

Medical Care Services staff shall be responsible for securing medications for inmates who are TB Alert Code 33, TB Infection, Noninfectious, On Medication; or TB Alert Code 43, Diagnosis of Noninfectious TB Disease, On Multiple Medication.

Medical Care Services staff shall be responsible for ensuring transfer medications are at Receiving and Release (R&R) at the time of inmate transfer. If medications are not transferred on the bus, Medical Care Services staff shall telephone Medical Care Services staff at the receiving facility that medications did not transfer with the inmate.

If a TB Alert Code requires change, Medical Care Services staff shall contact Case Records before the end of the shift and document the name of the person contacted and the date of the contact next to the inmate's name on the CDC Form 7343.

Upon completion of review, Medical Care Services staff shall sign the CDC Form 7343 denoting approval and route the CDC Form 7343 to Case Records.

If Medical Care Services staff does not have 24 hours to review the CDC Form 7343, changes and approvals shall immediately be communicated with the appropriate staff by telephone.

91080.11 Special Transportation Requirements

General Requirements

Every inmate who has been diagnosed as Code 31, TB Disease, Infectious, shall be moved only by special transportation using respiratory precautions.

Each facility shall identify Medical Care Services staff who may issue and remove telephone medical holds pending special transportation arrangements. The facility shall also identify Classification and Custody staff who may receive special transportation instructions. The names and telephone numbers of all staff identified in this process shall be documented and distributed.

Medical Care Services staff shall place medical holds pending special transportation arrangements by the end of the shift in which the status was diagnosed. Once an inmate's TB status has changed, a release of special transportation arrangements shall be placed by the end of the shift in which the status was diagnosed.

Placing A Medical Hold Pending Special Transportation Arrangements

Every inmate who has been coded with a TB Alert Code 31, TB Disease, Infectious, shall have a medical hold pending special transportation arrangements. Medical Care Services staff shall place a telephone call to the C&PR, the CC-III, or their designee during regular business hours (the Administrator on Duty [AOD] or their designee during non-business hours) and:

- Identify the inmate as currently infectious.
- Require that the inmate be transferred using special transportation and using respiratory precautions until further notice.

Document the TB Alert Code as described in the DOM 91080.8.

Enter the TB Alert Code as described in DOM 91080.8.

Route and file the documentation as described in DOM 91080.9 .

Removing A Medical Hold Pending Special Transportation Arrangements

When an inmate is no longer Code 31, TB Disease, Infectious, the special transportation requirement shall be removed. Medical Care Services staff shall place a telephone call to the C&PR, the CC-III, or their designee during regular business hours (the AOD or their designee during non-business hours) and:

- Identify the inmate as no longer infectious.
- Remove the special transportation requirement.
- Discuss any additional special transport requirements if appropriate.

Document the TB Alert Code as described in DOM 91080.8.

Enter the TB Alert Code as described in DOM 91080.8

Route and file the documentation as described in DOM 91080.9.

91080.12 Inmate TB Alert System Reports

The Inmate Alert System provides two reports, 1) Medical Alert List by Arrival Date and 2) Medical Alert List by Medical Code and two screens 1) Medical Information Screen History--Diagnosis and 2) Medical Information Screen History--Movement. The reports and screens are useful in monitoring an inmate's TB status.

Medical Alert List By Arrival Date

The user of the Inmate TB Alert System selects the desired inmate arrival date. The selected date may be either one single day or a sequence of many days.

The **Medical Alert List by Arrival Date Report** provides the following data elements for every inmate in the facility by date of arrival:

- Bed/Cell--Most current housing status.
- CDC Number.
- Inmate Name.
- Birth Date.
- Age.
- Medical Code.

The **Medical Alert List by Arrival Date Report** may be generated daily and used for:

- Inmate Tracking--Immediate action shall be taken if the inmate's TB Alert Code remains 11 after 72 hours.
- Case contact investigation information.
- Identification of inmates with TB Alert Code 22 who require annual PPD skin testing.
- Identification of inmates with TB Alert Code 31, 32, 33, or 43 who require yearly evaluations for symptoms of coughing, night sweats, fever, and weight loss.
- Assistance with identifying inmates who require Directly Observed Therapy.
- Assistance in Confidential Morbidity Report and Verified Case Report card generation.

Medical Alert List by Medical Code

The **Medical Alert List by Medical Code Report** provides a list of every inmate grouped by TB Alert Codes. The report may be generated by selecting one or a combination of TB Alert Codes.

This report, sorted by medical alert code and description of code, provides the following data elements for every inmate in the facility:

- Bed/Cell--Most current housing status.
- CDC Number.
- Inmate Name.
- Birth Date.
- Age.
- Arrival.

The **Medical Alert List by Medical Code Report** may be generated daily and used for:

- Follow-up of inmates with a TB Alert Code 11 that should have progressed into another code.
- Data surveillance on a daily, weekly, monthly, and annual basis.
- Expediting follow-up care on inmates with TB Alert Code 21, 31, or 32.

Screens

The Medical Information Screen History--Diagnosis.

Medical Information Screen History Diagnosis

The user will read information regarding the inmate's TB history provided on the **Medical Information Screen History--Diagnosis** screen. Refer to the Medical Alert System User's Manual for detailed instructions.

This screen provides the following data elements for every inmate in the facility:

- CDC Number.
- Inmate Name.
- Bed/Cell--Most current housing status.
- Current TB Alert Code.
- Previous medical diagnosis and date of entry.

Uses of the Medical Information Screen History--Diagnosis screen include:

- Current TB Alert Code and date entry.
- Previous medical diagnosis history.

Once this screen is displayed on the DDPS terminal, a screen print may be executed on the printer. Refer to the Medical Alert System User's Manual for detailed instructions.

Medical Information Screen History Movement

The user will read information regarding an inmate's movement history provided on the **Medical Information Screen History--Movement** screen. Refer to the Medical Alert System User's Manual for detailed instructions.

This screen provides the following data elements for every inmate in the facility:

- CDC Number.
- Inmate's Name.
- Bed/Cell--Most current housing status.
- Current TB Alert Code.
- Transaction Message.
- Facility.
- Cell.
- Location.
- Date.
- Previous CDC Number.

Uses of the Medical Information Screen History--Movement include:

- Assistance with case contact investigations.

Once this screen is displayed on the DDPS terminal, a screen print may be executed on the printer. Refer to the Medical Alert System User's Manual for detailed instructions.

91080.13 Weekly Code Review

General Requirements

Medical Care Services staff shall conduct a weekly review of inmates with a TB Alert Code of ___ (blank), 11, 21, or 31. This review shall provide Medical Care Services staff with the ability to ensure that coding and medical follow-up is properly maintained.

Each facility shall identify the Medical Care Services staff who will generate, review, and follow-up on those inmates who are identified with TB Alert Codes 11, 21, or 31.

Weekly Code Review Instructions

Medical Care Services staff shall generate the **Medical Alert List by Arrival Date Report** on the DDPS each Monday morning using the arrival date for the Monday of the previous week and selecting TB Alert Codes of 11, 21, and 31. Refer to Medical Alert System User's Manual for details.

Medical Care Services staff shall review medical records for each inmate who reports a TB Alert Code of 11, 21, or 31.

If the TB Alert Code is 11, the Mantoux PPD skin test shall be read and interpreted or re-administered as appropriate.

If the TB Alert Code is 21, the reviewing Medical Care Services staff shall determine if the diagnosis has been confirmed.

If the TB Alert Code is 31, the reviewing Medical Care Services staff shall determine if the diagnosis can be updated.

If the TB Alert Code is updated to Code 31, Medical Care Services staff shall issue a medical hold pending special transportation arrangements as defined in DOM 91080.11.

Any TB Alert Code changes shall be documented and entered in the DDPS as described in DOM 91080.8.

Route and file the documentation as described in DOM 91080.9.

91080.14 Monthly Reporting

General Requirements

Each facility shall generate the **Medical Alert List By Medical Code Report** at the month's end and use the data to complete the **Interim Tuberculosis Case Report**. This report shall be submitted to the Infectious Disease Control Unit in headquarters.

Monthly Report Instructions

On the morning of the first day of each month, Medical Care Services staff shall generate the **Medical Alert List by Medical Code Report**. Refer to the Medical Alert System User's Manual for details for report generation.

Medical Care Services staff shall complete the **Interim Tuberculosis Case Report** using the information contained in the Medical Alert List by Medical Code Report.

Medical Care Services staff shall submit the **Interim Tuberculosis Case Report** to the Infectious Disease Control Unit in headquarters by the close of business on the 5th of the month.

91080.15 Case Contact Investigation

General Instructions

As soon as a diagnosis of Infectious TB Disease is reasonably established on laboratory, clinical and/or radiographic basis, investigation of contacts shall begin. The TB Alert System can assist facilities to manage case contact investigations.

- The **Medical Alert List by Arrival Dates Report** from the Inmate TB Alert System can assist in verifying all inmates (close contact) who were in the facility during the "period of infectivity."
- The **Medical Alert List by Medical Codes Report** from the Inmate TB Alert System can assist in identifying the TB status of all identified close contacts.

All inmates who have been identified as a close contact to the source inmate should immediately be coded TB Alert Code 11 with the appropriate documentation on the CDC Form 128-C or 128-C-1.

Documentation, coding, routing, and filing for this and subsequent TB Alert Code changes follows the procedures specified in DOM 91080.8 and 91080.9.

91080.16 TB Documentation for Transfer Endorsement

General Requirements

An inmate's transfer endorsement shall be deferred if the TB Alert Code is not documented on a CDC Form 128-C or CDC Form 128-C-1, Medical/Psychiatric/Dental Chorine, and filed in their C-File at the time of endorsement. The CSR or CC-III (for DPU cases) shall be responsible for deferring endorsement of any case with incomplete TB status information. The inmate's C-File shall have a documented TB Alert Code of 21, 22, 31, 32, 33, or 43. The C&PR or CC-III shall notify Medical Care Services staff of any missing documentation.

Medical Care Services staff is responsible for reviewing the inmate's Medical File, completing or providing the appropriate copy of the CDC Form 128-C or CDC Form 128-C-1 and forwarding it to Case Records within 24 hours from the date of notice by the C&PR or CC-III. Case Records shall file the CDC Form 128-C or CDC Form 128-C-1 in the inmate's C-File within 24 hours.

Classification Referral Instructions

As is current practice, the C&PR, CC-III, or their designee shall audit all files prepared for CSR review and endorsement to ensure proper casework. No case shall be presented for CSR action without a valid TB Alert Code of 21, 22, 31, 32, 33, or 43 documented on a CDC Form 128-C or CDC Form 128-C-1 in the inmate's C-File.

The C&PR, CC-III, or their designee shall notify the Inmate TB Alert System Coordinator in Medical Care Services of the missing CDC Form 128-C or CDC Form 128-C-1 within 24 hours of review. The Inmate TB Alert System Coordinator shall provide the CDC Form 128-C or CDC Form 128-C-1 within 24 hours of notification.

Should a case inadvertently be presented to a CSR for transfer endorsement and lack a valid TB Alert Code of 21, 22, 31, 32, 33, or 43 documented on a CDC Form 128-C or CDC Form 128-C-1, the case shall be deferred. The CSR shall notify the C&PR, CC-III, or their designee of the missing information that same day. The C&PR, CC-III, or their designee shall follow step two above.

Special Transportation Instructions

If an inmate with a TB Alert Code of 11, 21, or 31 requires movement, special transportation arrangements are required. A CDC Form 128-C or CDC Form 128-C-1 shall document a doctor-to-doctor agreement for appropriate housing, type of transportation, and any medical concerns and restrictions per DOM 62080.16. Following transfer endorsement by a CSR, transportation arrangements shall be coordinated by the C&PR, CC-III, or their designee.

The C&PR or CC-III shall refer to DOM 91080.19 for specific guidelines.

If an emergency transfer of an inmate is required for other than medical reasons and the TB Alert Code does not authorize a normal move, the C&PR, CC-III, or their designee shall contact Medical Care Services staff during regular business hours (the Medical Officer on Duty [MOD] during non-business hours) and receive verbal TB Alert Code verification for inclusion on the CDC Form 135, Warden's Check-out Order. If the transfer takes place after regular working hours, arrangements shall be made through the Watch Commander, AOD, MOD, and Supervising RN (SRN) if applicable. Transportation precautions shall be taken accordingly. Within 24 hours of verbal verification, Medical Care Services staff shall provide appropriate documentation on a CDC Form 128-C or CDC Form 128-C-1 to Case Records for inclusion in the inmate's C-File and update the TB Alert Code in DDPS if required. They will also contact the receiving facility's Medical Care Services staff with any relevant medical information pertaining to the transferred inmate.

91080.17 Distribution and Review of the CDC Form 7343

A CDC Form 7343 generated at each facility shall contain the TB Alert Transportation Instruction for every inmate listed.

The facility's AISA routinely extracts (downloads) information from DDPS and enables the ATS access to this information during the generation of the CDC Form 7343. The ATS reads each inmate's TB Alert Code from the extracted information, generates the appropriate TB Alert Transportation Instruction based on the TB Alert Code, and prints the TB Alert Transportation Instruction on the CDC Form 7343.

Medical Care Services staff shall review the CDC Form 7343 to ensure the appropriate TB Alert Transportation Instructions have been identified and medications are prepared for transfer if appropriate.

A description of the TB Alert Transportation Instructions can be found in DOM 91080.19.

CDC Form 7343 Using ATS

AISA shall download DDPS to ATS before the CDC Form 7343 is generated.

Follow the normal process to generate the CDC Form 7343.

CDC Form 7343 Distribution Instructions

The Inmate TB Alert System Coordinator shall walk to Case Records and obtain a copy of the CDC Form 7343 as soon as it is printed and as subsequent changes occur.

CDC Form 7343 Review Instructions

Medical Care Services staff shall immediately notify Case Records of any TB Alert Transportation Instruction changes by telephone.

Upon completion of review, Medical Care Services staff shall sign the CDC Form 7343 denoting approval and route the CDC Form 7343 to Case Records.

If Medical Care Services staff do not have 24 hours to review the CDC Form 7343, changes and approvals shall immediately be communicated with the appropriate staff by telephone.

91080.18 Deletion of Inmates From the CDC Form 7343

Medical Care Services staff shall notify Case Records if an inmate's TB Alert Code has changed.

Inmates remaining on the CDC Form 7343 with a TB Alert Code of 11, 21, or 31 shall not be moved on regular CDC transportation. The inmate's name shall be deleted from the CDC Form 7343 by telephone request. See DOM 91080.4 for additional information.

If it is necessary to move the inmate, a CDC Form 128-C or CDC Form 128-C-1, documenting the special transportation instructions, shall be requested from Medical Care Services staff.

91080.19 TB Alert Transportation Instructions

The TB Alert Transportation Instructions shall be found on the CDC Form 135. A description of each TB Alert Transportation Instructions is as follows:

TB Alert Transportation Instruction: Med Alert Sp Trans 11.

Meaning: TB status unknown.

Action: Inmates with Code 11 have an unknown TB status, either because their screening test has not yet been performed or has not been read and interpreted. These inmates pose a high risk of transporting TB Infection and cannot be put on regular CDC transportation, including buses and transportation used to move inmates from CDC facilities to CCFs. These inmates shall be transferred by special transportation using respiratory precautions.

TB Alert Transportation Instruction: Med Alert Sp Trans 21.

Meaning: The inmate's PPD was significant and the inmate is being diagnosed for suspected TB Disease.

Action: Inmates with Code 21 had a significant PPD and remain under diagnosis. These inmates pose a high risk of transporting TB Infection and cannot be put on regular CDC transportation, including buses and transportation used to move inmates from CDC facilities to CCFs. These inmates shall be transferred by special transportation using respiratory precautions.

TB Alert Transportation Instruction: Clear For Transportation 22.

Meaning: The inmate's PPD was non-significant and the inmate is cleared for transportation.

Action: Inmates with Code 22 had a non-significant PPD and are not infectious. These inmates shall be transferred by regular CDC transportation.

TB Alert Transportation Instruction: Med Alert Sp Trans 31.

Meaning: The inmate has been diagnosed with infectious TB Disease. Transfer should be done only under the approval and direction of Medical Care Services.

Action: Inmates with Code 31 have TB Disease and are currently infectious. These inmates pose a high risk of transmitting TB Infection and cannot be put on regular CDC transportation, including buses and transportation used to move inmates from CDC facilities to CCFs. These inmates shall be transferred by special transportation using respiratory precautions.

TB Alert Transportation Instruction: Clear For Transportation 32.

Meaning: The inmate's PPD was significant due to prior infection. The inmate is cleared for transport.

Action: Inmates with Code 32 had a significant PPD from prior TB Infection and are not currently infectious. These inmates shall be transferred by regular CDC transportation.

TB Alert Transportation Instruction: INH Medication 33.

Meaning: The inmate has TB Infection but is not infectious. The inmate is on INH medication.

Action: Inmates with Code 33 have TB Infection but are not infectious. Medications shall be transferred with the inmate or Medical Care Services staff shall arrange for medications with the receiving facility. These inmates shall be transferred by regular CDC transportation.

TB Alert Transportation Instruction: Multiple TB Medication 43.

Meaning: The inmate has TB Disease but is not infectious. The inmate is on medication.

Action: Inmates with Code 43 have TB Disease but are not infectious. Medications shall be transferred with the inmate. These inmates shall be transferred by regular CDC transportation.

91080.20 Review of Inmate TB Alert Transportation Instructions by the Transportation Sergeant

The CDC Transportation Sergeant shall be required to review the TB Alert Transportation Instructions of each inmate before boarding the bus. Inmates with TB Alert Codes of 11, 21, or 31 shall not be put on regular CDC transportation, which includes movement from CDC facilities to CCFs. These inmates shall be transferred by special transportation using respiratory precautions.

91080.21 Review of Inmate TB Alert Transportation Instructions by the Receiving and Release Staff

If an inmate arrives at the receiving facility with a TB Alert Code 11, 21, or 31, R&R staff shall immediately notify Medical Care Services staff. The inmate shall be placed in a separate cell until Medical Care Services staff move the inmate to the facility's infirmary.

91080.22 Coordinating With Medical Services-Special Circumstance Moves

If an emergency transfer of an inmate is required for other than medical reasons and the TB Alert Code does not authorize a normal move, the C&PR, CC-III, or their designee shall contact Medical Care Services staff during regular business hours and receive verbal TB Alert Code verification

for inclusion on the CDC Form 135 or Warden's Check-out Order. If the transfer takes place after regular working hours, arrangements shall be made through the Watch Commander, AOD, MOD, and SRN if applicable. Transportation precautions shall be taken accordingly. Within 24 hours of verbal verification, Medical Care Services staff shall provide appropriate documentation on a CDC Form 128-C or CDC Form 128-C-1 to Case Records for inclusion in the inmate's C-File and update the TB Alert Code in DDPS if required. They will also contact the receiving facility's Medical Care Services staff with any relevant medical information pertaining to the transferred inmate.

91080.23 Revisions

The Deputy Director, HCSD, or designee shall be responsible for ensuring that the contents of this section are kept current and accurate.

W&I § 1768.10

ARTICLE 9 — INVOLUNTARY PSYCHIATRIC MEDICATIONS

Revised May 6, 2015

91090.1 Policy

The Department may administer involuntary psychiatric medication to an inmate only if the procedures in Penal Code (PC) Section 2602 are followed.

91090.2 Purpose

The purpose of this article is to set forth CDCR's operational procedures and expectations of its employees concerning all aspects of involuntary psychiatric medication, including proper pre-court and post-court documentation, criteria for initiation, criteria for renewal, scheduling, initiation, renewal, non-renewal, interface with the inmate's attorney, interface with the Office of Legal Affairs (OLA), interface with the Office of Administrative Hearings (OAH), inmate post-hearing remedies, and proper use of electronic charting resources to document assessments, both what is observed and court results.

91090.3 General Provisions

Involuntary psychiatric medication should not be used in a psychiatric context:

- To control behavior that is not related to a diagnosable psychiatric disorder.
- When an inmate is capable of giving informed consent and objects to such medication, unless the inmate is a danger to self or others.
- Unless called for in a medical emergency as defined in CCR, Title 15, Section 3351, (a).
- In doses other than that for which the drug is approved by the Food and Drug Administration (FDA) or by community standards of professional practice or by nationally recognized guidelines or by legitimate scientific and medical opinion.
- In doses that diverge widely from appropriate dose recommendations, as defined by CCHCS care guidelines, nationally recognized guidelines, legitimate scientific and medical opinion, and by parameters provided by the FDA. Formulary decisions should conform to the CCHCS statewide formulary.

91090.4 Long-Acting Medication

When filing a non-emergency initial petition, clinical staff may not administer involuntary medication beyond the initial 72-hour emergency period.

When filing an emergency initial petition, clinical staff should administer no medications involuntarily that have substantial, clinically relevant actions due to the fact that they stay in the bloodstream longer than 10 calendar days, including the initial 72-hour emergency period. The medication or medications that cause the least restrictive effects yet accomplishes their purpose should be chosen. After the conclusion of the administrative hearing, if the court order is granted, clinical staff may administer long-acting medication.

91090.5 Medication Supervision and Observation

A physician, psychiatrist, licensed vocational nurse, registered nurse, licensed psychiatric technician, or psychiatric nurse practitioner should be physically present to observe the emergency administration of involuntary medication. That person should create a note in a health record, which should include:

- Personnel administering medication.

- Observation.
- Physical room or setting in institution where medication was administered.
- Resistance.
- Reason for medication.
- Time.
- Date.
- Form of medication (tablet, liquid, injection) and dosage.
- Injury.
- Force.
- Reaction.

If the inmate is not already in an inpatient setting, the inmate should be observed twice per day by a health care staff to monitor for side effects until the inmate is deemed at low risk for side effects by a psychiatric physician, medical physician, or nurse practitioner. Observations will be noted in appropriate health records.

Anytime force is observed or used by health care staff, the procedures and documentation requirements referenced in DOM Chapter 5, Article 2, Section 51020.17.6 must be followed.

91090.6 Documenting Evidentiary Factors

Danger to Self

Clinical and custody staff has an obligation to observe inmates and to note, document, and promptly report to their superiors, behavior that could be classified as a danger to self. Danger to self means the inmate has made a credible threat or has attempted to engage in an act of self-harm and the threat is ongoing; or has threatened, attempted, or inflicted serious physical injury to self, and, as a result of a serious mental disorder, the dangerous behavior is expected to likely reoccur given the limits of what can reasonably be predicted. Demonstrated danger to self may be based on an assessment of the inmate's present mental condition, including consideration of the inmate's historical course of serious mental disorder to determine if the inmate currently presents an elevated chronic risk or an imminent risk to his or her own safety. If these signs or symptoms of dangerousness to self are observed by any employee at any time, an immediate mental health referral should be made and the patient should be observed until a clinician makes an assessment. If a licensed clinician evaluates the inmate and believes there is an emergency, elevated chronic risk, or an imminent risk, psychiatry personnel should be contacted, psychiatric medication should be considered, and if it is thought that medication will help but the patient refuses these medications and is expected to continue to refuse medications, a CDCR MH-7363, Involuntary Medication Notice, or CDCR MH-7368, Renewal of Involuntary Medication Notice, should be started with inputs from any staff member familiar with, or observing, the inmate's behaviors. Referral to the crisis bed should be considered.

Danger to Others

Clinical and custody staff has an obligation to observe inmates and to note, document, and promptly report to their superiors, behavior that could be classified as a danger to others. Danger to others means the inmate has inflicted, attempted to inflict, or made a credible threat of inflicting physical harm upon the person of another, and as a result of a serious mental disorder, the inmate presents a demonstrated danger of inflicting physical harm upon others. Demonstrated danger may be based on an assessment of the inmate's present mental condition, including consideration of the inmate's historical course of serious mental disorder, to determine if the inmate currently presents an elevated chronic risk or an imminent risk of harming another person. If these signs or symptoms are observed by any employee at any time, an immediate mental health referral should be made. If a licensed clinician evaluates the inmate and believes there is an emergency, elevated chronic risk, or an imminent risk, psychiatry personnel should be contacted, psychiatric medication should be considered, and if it is thought that medication will help but the patient refuses these medications and is expected to continue to refuse medications, a CDCR MH-7363 or CDCR MH-7368 should be started with inputs from any staff member familiar with, or observing, the inmate's behaviors.

Grave Disability

Clinical and custody staff has an obligation to observe inmates and to note, document, and promptly report to their superiors, behavior that could be classified as gravely disabled. Photographs of trash in the cell, organic material on walls or windows, flooding of the cell, or unflushed toilets should be taken, if there is suspicion of grave disability. If a psychiatrist, medical physician, psychologist and/or social worker suspects that a patient is gravely disabled he or she must order relevant recording of information which may include: logs of missed showers, records of weights and weight

loss, documentation of catatonic behavior, documentation of the patient being taken advantage of by others, and/or other recording of relevant behavior or speech that corroborates grave disability. If the inmate is being victimized, or subject to being victimized, due to diminished cognitive capacity or due to mental health issues that diminish appropriate responses, being Developmentally Disabled (DD) or due to other diminished mental capacity, the circumstances demonstrating the lack of capacity and the ensuing dangerous victimization should be documented and steps should be taken to prevent victimization. Gravely Disabled means there is a substantial probability, due to a serious mental disorder and incapacity to accept or refuse psychiatric medication, that serious harm to the physical or mental health of the inmate will result. Serious harm means significant psychiatric deterioration, debilitation, or serious illness as a consequence of his or her inability to function in a correctional setting without the supervision or assistance of others, inability to satisfy his or her need for nourishment, and/or inability to attend to needed personal or medical care, seek shelter, and/or attend to self-protection or personal safety. The probability of harm to the physical or mental health of the inmate requires evidence that the inmate is presently suffering adverse effects to his or her physical or mental health, or evidence that the inmate has previously suffered these effects in the historical course of his or her mental disorder and that his or her psychiatric condition is again deteriorating. The fact that an inmate has a diagnosis of a mental disorder does not alone establish probability of serious harm to the physical or mental health of the inmate. If these signs or symptoms are observed by any employee at any time, an immediate mental health referral should be made. If a licensed clinician evaluates the inmate and believes there is an emergency, elevated chronic risk, or an imminent risk, psychiatry personnel should be contacted, psychiatric medication should be considered, and if it is thought that medication will help but the patient refuses these medications and is expected to continue to refuse medications, a CDCR MH-7363 or CDCR MH-7368 should be started with inputs from any staff member familiar with, or observing, the inmate's behaviors. Consideration should be given to referring the patient to a crisis bed.

Elevated Chronic Risk

Elevated chronic risk means the serious and persistent presentation of clinical factors that suggests an inability to adequately navigate within society or inability to effectively navigate within a structured environment such that, based on historical course of mental disorder, there is a reasonably foreseeable elevated risk of self-harm, violence, or grave disability.

Imminent Risk

Imminent risk means the presence of clinical and situational factors that suggest a significant risk of violence toward others, self, or grave disability and requires immediate intervention.

Determination of Capacity or Lack of Capacity

Clinicians must make a good faith attempt to engage the inmate to determine the inmate's capacity to voluntarily consent to medication, which requires capacity, other than in an emergency situation. Capacity should be evaluated by reviewing the inmate's (a) ability to communicate a choice; (b) ability to understand relevant information; (c) ability to appreciate the nature of the situation and its likely consequences; and (d) ability to use the information rationally.

Reporting Serious Mental Illness

Clinical and custody staff has an ethical obligation to observe inmates in all treatment and custody settings and to note, document, and promptly report to their superiors, behavior that aligns with the description of a serious mental disorder, danger to self, danger to others, or grave disability, as defined above.

A serious mental disorder means an illness or disease or condition that substantially impairs the person's thought, perception of reality, emotional process, or judgment; or which grossly impairs behavior; or that demonstrates evidence of an acute brain syndrome for which prompt remission, in the absence of treatment, is unlikely. Qualifying behaviors include, but are not limited to, clinical and custody staff observation of delusional behavior, catatonia, responding to internal stimuli, auditory or visual hallucinations, and paranoia.

When an inmate exhibits the above symptoms, an immediate mental health referral should be made. If a medical emergency, elevated chronic risk, or imminent risk exists, psychiatric medication should be considered if there are no less restrictive alternatives, and if it is thought that medication will help but the patient refuses these medications and is expected to continue to refuse medications a CDCR MH-7363 should be started with inputs from anyone familiar with the inmate's behaviors.

Consent and Refusal

Involuntary psychiatric medication should not be given to an inmate who has the capacity to consent to medication. Clinical staff should document the offer of medication and an inmate's refusal to consent to medication before proceeding to the involuntary medication process under PC 2602, except in the case of a medical and/or psychiatric emergency.

91090.7 Initiation Proceedings

Initiation of involuntary medication is accomplished by completing a CDCR MH-7363 (initial petition) and CDCR MH-7366, Inmate Rights Notice – Involuntary Medication, and serving the inmate, the inmate's attorney, the OLA, and the OAH via electronic transmission.

The OLA will maintain a master calendar of the available inmate calendar for PC 2602 hearings and the attorney rotation for the various high-volume institutions. Institutions that have only an occasional need for hearings should coordinate with the OLA first to arrange for attorney coverage to avoid calendar conflicts.

91090.7.1 Staff Disclosure of Prior Case Activity within Past 60 Days

If an institution is re-filing on a specific inmate who was the subject of a court proceeding in the immediately preceding 60 calendar days (court denial, withdrawal, request for dismissal), either the doctor filling out the CDCR MH-7363 or the OLA shall disclose this in one of the pleadings so that all parties are aware of the history of the case.

91090.7.2 Alert of Ex Parte Request and Medication Order in Health Records

If the institution submits an emergency initial petition asking for authority to administer involuntary medication pending the administrative hearing, the Medication Court Administrator (MCA) must scan the CDCR MH-7363 and Ex Parte Request (included in CDCR MH-7363) into the health records the same day it is filed so that physicians and pharmacists are aware of the pending request.

The MCA must then follow-up within ten calendar days and scan in the resulting order from the OAH either granting, or denying, interim medication authority, so that physicians and pharmacists will know the status of the case.

91090.7.3 Supplemental Petitions

The OLA will prepare a Supplemental Initial Petition for each case submitted by an institution, and may add or drop cases based upon legal review of the health records. This document should be served on the OAH and upon the inmate's attorney no later than three business days prior to the scheduled hearing, but optimally ten business days before the hearing.

91090.7.4 Ending A Case

Every case currently pending or filed in the future should terminate with either (1) a court order signed by an Administrative Law Judge (ALJ), (2) a Withdrawal Notice prepared by the OLA, (3) a Request for Dismissal prepared by the OLA, or (4) a CDCR MH-7370, Notice of Non-Renewal of Involuntary Psychiatric Medication form completed at the institution and submitted to the OLA documenting the reasons the case was not renewed.

Institutions who know an inmate is paroling or moving to Mentally Disordered Offender (MDO) status should complete the necessary forms documenting why a case is not being renewed before the inmate departs.

91090.8 Renewal Proceedings

No later than 90 calendar days before an order authorizing the administration of involuntary medication is due to expire, the clinical staff of the facility where the inmate is currently housed should assign the matter to a psychiatrist to interview the inmate and determine if the filing of a CDCR MH-7368 is warranted. Renewal is appropriate if the inmate, even after administration of psychiatric medication, has documented insufficient insight regarding his/her mental illness, refuses to accept that he or she has a mental illness, states that he or she knows that a court order is required to ensure medication compliance, or if it is clear from documented behaviors or statements over the past twelve months that the inmate, but for the medication, would become a danger to self or others, or gravely disabled and lacking capacity to accept or refuse psychiatric medication.

If a determination is made to renew involuntary medication, a CDCR MH-7368 and CDCR MH-7366 should be prepared and served on the inmate, the attorney for the inmate, the OAH, and the OLA no later than 30 calendar days before the current order expires.

If an individual psychiatrist does not want to renew the involuntary medication order, the institution should convene an Interdisciplinary Treatment Team (IDTT) and pursue the process described in DOM Section 91090.9, below.

91090.8.1 Supplemental Petitions

The OLA will prepare a Supplemental Renewal Petition for each case submitted by an institution, and may add or drop cases based upon legal review of the health records. This document should be served on the OAH and upon the inmate's attorney no later than three business days prior to the scheduled hearing, but optimally ten business days before the hearing.

91090.9 Non-Renewal Process

Every case currently pending needs to either to be renewed or not-renewed. Legitimate reasons not to renew a case include, but are not limited to, that the inmate has gained insight that he or she has a mental illness and is willing to reliably take medication, or that the inmate is transferring to another program that will take over the court order, such as an MDO program.

The starting point for a non-renewal is the treating psychiatrist, if available, who must fill out a CDCR MH-7370 documenting the reasons that non-renewal is being considered. The treating psychiatrist can recommend the non-renewal take effect immediately or upon the natural expiration of the existing court order. If the inmate transfers to a new institution prior to the effective date of the CDCR MH-7370, the receiving institution may independently review the case factors and may elect to rescind it based on the inmate's psychiatric case factors and presentation.

91090.9.1 IDTT Review

If an individual psychiatrist does not believe that renewal of an involuntary medication order is beneficial to the overall health of the patient, he or she should consult with treatment team members.

If there is disagreement amongst treatment team members, additional consultation from mental health statewide leadership can be sought, but ultimately the final decision about renewal or non-renewal lies with the evaluating psychiatrist.

91090.9.2 Health Records

The non-renewal shall be recorded in the electronic health record. This is accomplished using one of two methods A CDCR MH-7370 is considered local to the institution that adopted it. That institution can make the non-renewal effective immediately, in which case the CDCR MH-7370 must be scanned into the health records and central file within 24 hours. Alternately, an institution can make the non-renewal effective at the natural end date of the PC 2602 court date. In such cases, the CDCR MH-7370 shall be filed as of the effective date of the expiration.

91090.9.3 Office of Legal Affairs

If an institution's IDTT approves a CDCR MH-7370, and deems it active and ready to be scanned into the health records and central file, a copy should immediately be sent to the OLA. This form is not to be sent to the OAH.

91090.10 Hearings

Attendance and Timing

Every inmate scheduled for a hearing will be contacted by a sworn correctional officer or sworn MCA on the day of the hearing to determine if the inmate wishes to attend the hearing, refuses to attend, or to meet with their attorney. The inmate's capacity to engage in the conversation should be documented by the custody officer going to the cell on the OLA PC 2602 Refusal form or an institution equivalent refusal form. An inmate's request to meet with his/her attorney on the day of the hearing will be honored by facilitating an attorney client meeting. An attorney's request to force or impose a visit upon an inmate who has already waived the right to a hearing on the day set for the hearing will be evaluated by the ALJ, who will take into account the data pertaining to the inmate's waiver or refusal, as well as institutional security and operation. If the need arises and the ALJ agrees, the hearing may be conducted at cell side.

If an inmate lacks capacity to attend, the hearing should be conducted cell side or continued due to the inmate's medical inability to participate, and the reasons for the continuance should be documented on the record by a doctor or psychiatrist familiar with the inmate's condition.

The attorney for the inmate should meet with the clients in advance of the date set for the hearing so that hearings start at the scheduled time.

Institutions must permit attorneys to meet with clients in advance of the PC 2602 hearing. This is a due process requirement for the inmate and must be accommodated separate and apart from any legal visiting program. Attorney-client meetings should be handled according to local institution operating protocol, generally in a legal visiting room and not at cell side. If an inmate refuses to meet with the attorney, it will be documented and can be reviewed by the ALJ on the day of the hearing. If an inmate appears to be unable to communicate or attend to activities of daily living on the day of the attorney's visit, or on the day of the hearing, the attorney should be informed.

Recording

The attorney from the OLA should bring the necessary equipment into the institution and record each proceeding. Those recordings should be maintained in digital archives by CDCR for a minimum period of five years, provided to the OAH annually, or individually upon request.

Copies of Filings

Legal filings with the OAH are deemed public documents and are not filed under seal.

Transcripts

Paper transcripts of administrative hearings are not prepared. Inmates may purchase paper transcripts from the OAH with funds from their inmate trust account or request alternative accommodation upon proof of indigence. Other parties may obtain copies of transcripts under the policies and pricing structure the OAH prescribes upon request.

Facilities

Each institution should provide a room, or rooms, on the day of the hearing that can accommodate an administrative hearing with seven to ten persons, including correctional officer escorts, with adequate room to maneuver and adequate space to provide security for the judge and attorneys.

Custody Escorts

Each institution should provide at least two correctional officers to bring inmates to and from the hearing room, or to and from the holding cells outside the hearing room. At least one correctional officer should stay in the room with the inmate during the hearing.

Telepsychiatry Declarants and Testimony

If an inmate's psychiatric care has been primarily assigned to a telepsychiatrist for delivery of care, and specifically if a telepsychiatrist is the declarant on a CDCR MH-7363 or CDCR MH-7368, then the Department should coordinate any hearing for the inmate so that said telepsychiatrist is available to present the involuntary medication case. This presentation occurs via remote video or telephone connection into the hearing room on the day set for the hearing. The telepsychiatrist shall be available and prepared for cross-examination. The institution shall make every attempt to schedule on a day when the presenting witness is available. If the assigned telepsychiatrist is not able to appear, the ALJ has the discretion to grant up to one continuance not to exceed 14 calendar days to allow a new clinician at the inmate's institution to review the inmate's central file, health records, meet with the inmate, and prepare to present the case.

Notification of Next-of-Kin

The inmate's next-of-kin will not be notified of the hearing unless the inmate requests to have the specified individuals audit the hearing. The inmate will submit the request in writing and complete a waiver of confidentiality. The inmate will be responsible for supplying an address where the next-of-kin in the first-degree or second-degree can be contacted. The MCA will send a notice to the identified next-of-kin stating the type of hearing, date and time of hearing. Any questions regarding the upcoming hearing will be referred to the inmate's appointed attorney.

Requests by an inmate to have next-of-kin attend the hearing will be contingent upon those individuals completing a gate clearance packet and the subsequent approval of the gate clearance by the Chief Deputy Warden's office. Only the identified next-of-kin in the first or second-degree will be considered for approval. These individuals will be escorted directly to the hearing room by the MCA (or designee) when their relative's case is ready to begin. The next-of-kin will not be allowed to speak during the hearing unless directed by the ALJ to give sworn testimony. The inmate and next-of-kin will not be allowed to exchange any property. If these conditions are breached, the next-of-kin will be removed from the hearing by a custody escort. Upon completion of the hearing, the next-of-kin will be escorted out of the institution.

Appointment of Attorney

For every scheduled hearing, the MCA should assign an inmate attorney from the rotation calendar available from the OLA and the OAH, unless one of the following situations occurs:

If the inmate desires to retain an attorney or has retained an outside attorney, the MCA will verify that the outside attorney is in fact taking the case, and then serve the paperwork accordingly on the outside attorney.

If the inmate desires to appear in propria persona (as their own representation), the MCA should assign an inmate attorney from the rotation calendar available from the OLA and the OAH, and the matter of the inmate's capacity to engage in self-representation will be brought up at the first hearing with the ALJ.

91090.11 Documentation of Legal Paperwork**Pre-Hearing**

Institutions should provide supporting documentation to independently verify what is alleged in either the CDCR MH-7363 or CDCR MH-7368. The CDCR MH-7363 and CDCR MH-7368 are not evidence, and must be independently supported by health records, chronos, photographs, or other documentary evidence of the criteria alleged.

Such supporting documentation should be securely uploaded as a PDF to a secure Sharepoint or other secure site within three business days of the filing of either an initial or renewal petition, unless there is a justifiable business reason for not doing so. If the discovery cannot be provided to headquarters staff and to the inmate attorney within three business days of the filing of the CDCR MH-7363 or CDCR MH-7368, the institution should make a workstation available to the inmate's attorney to review the discovery on site, unless other arrangements are made with the inmate attorney for delayed electronic discovery.

Discovery will include six months of CDCR 7230 Interdisciplinary Progress Notes, any recent discharge summaries from the Department of State Hospitals, six months of psychiatrist progress notes, six months of primary clinician progress notes, recent suicide risk assessments, six months of relevant nursing notes documenting observations of behavior that could be classified as danger to self, danger to others or grave disability, any relevant Triage and Treatment Area or Mental Health Crisis Bed admission notes, and any relevant refusals of medication, food, showers, etc. Additionally, as relevant to the case(s) alleged, items from the central file may include a probation officer's report, Rules Violation Reports, CDC 128-G, Classification Chrono, or CDC-114A, and Isolation Log. Photographs will be provided, where relevant.

Institutions may supply discovery to the inmate attorney on CD-R media, or via secure electronic transmission media.

Post-Hearing

All court orders resulting from a hearing before an ALJ should be forwarded to the OLA either electronically as individual PDF files or by overnight mail within 24 hours of the conclusion of the hearing.

All court orders resulting from a hearing before an ALJ should be scanned into both the health records and the central file within 24 hours, with the appropriate alert sheet. This includes the ex-parte interim court ruling from the OAH, as well as continuance orders.

If the court has denied a case, the order for involuntary medication must be discontinued from the electronic record as soon as possible and the order for discontinuation added to all available charting resources and health records within 24 hours.

91090.12 Medication Court Administrator

The MCA is the liaison between the institution and headquarters OLA, the inmate attorney, and the OAH for all matters pertaining to involuntary administration of psychiatric medications to inmates pursuant to PC 2602. Each institution shall maintain a local operating procedure or duty statement setting forth the duties and responsibilities of the Medication Court Administrator to ensure that Penal Code section 2602 matters are timely served and filed pursuant to statutory mandate and in conjunction with the requirements set forth by the OLA and the OAH.

Pre-Hearing

Prior to the day of hearings, the MCA is responsible for completing or monitoring the following:

- Knowing which inmates at the institution need renewal notices started (assign renewal to psychiatrist 90 days before expiration of current order).
- Giving assignments to psychiatrists and tracking progress.
- Helping psychiatrists initiate new proceedings.
- Tracking whether an emergency petition has been submitted within the 72-hour deadline with ex parte request properly filled out.
- Checking that fillable CDCR MH-7363/CDCR MH-7366/CDCR MH-7368 forms are filled out correctly and completely.
- Helping obtain and print declarations created through central dictation as part of the CDCR MH-7363/CDCR MH-7368; service of papers on inmates.
- Determining if an inmate needs assistance responding to CDCR MH-7363 within two business days of being served.
- Determining if Ex Parte Request for Interim Medication Order has been granted or denied within three business days after the inmate's time period has run and promptly notifying pharmacy whether or not emergency medication can be continued.

- Filing all needed paperwork with OAH.
- Selecting inmate counsel based on master calendar sent by headquarters; properly using the statewide list created by OLA.
- Using the Sharepoint site maintained by OLA.
- Supplying timely copies of all petitions to headquarters staff the same day they are sent to OAH and inmate counsel.
- Supplying health records and ERMS information noted in DOM Section 91090.11 (Documentation of Legal Paperwork, Pre-Hearing), to inmate counsel and to headquarters staff, with available copy to testifying psychiatrist.
- Arranging for inmate counsel to meet confidentially with the inmate before the hearing.
- Ensuring, in cases where the inmate has private counsel, that private counsel sees the inmate, receives all discovery, and integrates seamlessly into the PC 2602 process.
- Tracking which CDCR MH-7363 and CDCR MH-7368 were sent to OAH (and the date), and knowing which have been completed by OLA (Supplemental Petition) and which have had Notice Setting Hearing (NSH) issued by OAH.
- Monitoring arrivals and departures from the institution, per the Strategic Offenders Management System (SOMS) Daily Movement Report, for any inmate on PC 2602 order. If an inmate departs, it is the responsibility of the sending institution's MCA to notify the receiving institution of the PC 2602 inmate and forward the most recent CDCR MH-7368 and order.
- Contacting headquarters and arranging to move up the PC 2602 hearing, if an inmate on emergency interim medication is deteriorating and needs to go to a higher level of care, rather than transfer the inmate.
- Placing a "hold" on an inmate, if the inmate is stable and is scheduled to move before a hearing date, unless medical conditions, or *Coleman* considerations, justify moving the inmate elsewhere.
- Notifying an institution of any inmate transfers if an inmate, with a case in process, transfers to another institution, and sending all supporting documentation to the receiving institution.
- Taking the lead and immediately gathering required material if an ALJ orders document production.
- Processing change orders timely when a hearing date or location needs to be changed.
- Monitoring psychiatry assignments to ensure psychiatric consults are completed on time and submitted to OAH/OLA within specified timelines to avoid a procedural default. Contacting, if necessary, the Chief of Psychiatry or a Senior Psychiatrist at the institution.
- Maintaining a current weekly log of all PC 2602 inmates for psychiatric staff, and monitoring as needed, to generate information necessary for *Coleman* reports.
- Responding to headquarter requests for information for copies of a missing order or other documents.
- Assisting with Probate 3200 service of documents and collection of medical documentation on patients as needed.
- Arranging for esoteric hearings, such as cell side hearings or hearings at a local hospital.
- Monitoring inmate's medical and dental appointments to ensure the inmate is present on the date scheduled for a hearing. Consulting with psychiatry and primary care providers to ensure the inmate is not subject to side-effects of other medications.

Day of Hearing

On the day of the administrative hearing, the MCA is responsible for monitoring or completing the following:

- Arranging for proper entry and clearance for the judge and inmate attorney (including requisite number of copies for gate passes).
- Arranging for proper and timely queuing of inmates.
- Checking accuracy of hearing results on the written court order, both on the day of hearing and subsequently on the statewide list, ensuring the results are properly recorded.
- Arranging to have necessary and late-developing documentation present.
- Filling out alert sheets correctly after a hearing and properly placing alert sheets in the electronic medical record health records and electronic ERMS promptly after the hearing.
- Inputting data and the scanning of records as needed.
- Updating the inmate's Unit Health Record (UHR) immediately and accurately to properly reflect PC 2602 status (i.e. emergency petition filed, non-emergency petition filed/do not medicate/do not extract,

hearing date, ex parte order granted, ex parte order denied, etc, ALJ order granted, ALJ order denied).

- Preparing packets for psychiatrists to use for testifying in court.
- Arranging schedules and assignments to ensure psychiatrists are present in court for the hearing at the appointed time.
- Investigating, if an inmate is not attending a hearing, the reason for not attending, via inmate interview, and preparing a statement of reasons for the judge.
- Testifying as a special investigator for all refusals and non-attending inmates with detailed information on the inmate's medical, verbal, and behavioral responses as to capacity.
- Obtaining physician prescription orders sent to pharmacy/UHR for renewal of psychiatric medications on granted petitions and stop orders for denied hearings from psychiatrists.
- Ensuring Notice Setting Hearing and Proposed Order is printed for ALJ to sign for each case.
- Facilitating patient consent forms on dropped petitions.
- Notifying pharmacy and yard staff on the day of hearings when petitions are dropped or denied to ensure an inmate is not involuntarily medicated when there is no involuntary medication order.
- Scanning all court orders to PDF, filling out alert sheets and emailing to headquarters, and delivering to health records personnel.
- Sending all court orders to headquarters staff within 24 hours as PDF files.

91090.13 Inmate Review and Appeal of PC 2602 Proceedings

Inmates seeking superior court review of a PC 2602 order should be directed to file a petition for habeas corpus or petition for writ of mandate in their local superior court. Inmates seeking to have the same ALJ take another look at the case should be provided a form CDCR MH-7369 Penal Code 2602 Reconsideration form. The inmate is responsible for filling out the form and returning the form to OAH.

91090.14 Revisions

The Division of Health Care Services, and the Office of Legal Affairs, or designee is responsible for ensuring that the contents of this section are kept current and accurate.

PC §§ 2600 and 2602

CCR (15) (3) §§ 3364, 3364.1, and 3364.2

ARTICLE 10 -ADVANCE DIRECTIVES AND DO NOT RESUSCITATE ORDERS

Effective July 2006

91100 Policy

The California Department of Corrections and Rehabilitation (CDCR) recognizes that an inmate has the fundamental right to control decisions relating to his or her own health care, including the decision to have life-sustaining treatment withheld or withdrawn. The CDCR shall provide general information to all inmates about the use of Advance Directives (AD).

91100.1 Purpose

The purpose of this Article is to inform inmates that they have the right to make decisions about their health care; may use advance directives to document these decisions; may execute a power of attorney for health care; and may appoint an eligible person to make health care decisions for them should they become incapacitated.

91100.2 Definitions

The following definitions shall apply to this Article.

“**Advance Health Care Directive**” or “**Advance Directive**” means either an individual health care instruction or a power of attorney for health care.

“**Agent**” means an individual designated in a power of attorney for health care to make a health care decision for the principal, regardless of whether the person is known as an agent or attorney-in-fact, or by some other term. “Agent” includes a successor or alternate agent.

“**Capacity**” means a person's ability to understand the nature and consequences of a decision and to make and communicate a decision, and includes in the case of proposed health care, the ability to understand its significant benefits, risks, and alternatives.

“**Conservator**” means a court appointed conservator having the authority to make a health care decision for a patient.

“**Do-Not-Resuscitate Order**” means a written order, which directs that resuscitation efforts (i.e., intubations and assisted mechanical ventilation,

cardiac compression, defibrillation, and administration of cardio-tonic drugs) not to be initiated in the event of cardiac and/or respiratory arrest.

“**Effective Communication**” is the means by which information is translated and is understood by the intended party through speech, signals, or writing. The method of communication, which may include auxiliary aids, shall be determined on a case-by-case basis and shall be documented when utilized for health care contacts.

“**Health care**” means any care, treatment, service, or procedure to maintain, diagnose, or otherwise affect a patient's physical or mental condition.

“**Health care decision**” means a decision made by an inmate-patient, or the inmate-patient's agent, conservator, or surrogate, regarding the inmate-patient's health care, including the following:

- Approval or disapproval of diagnostic tests, surgical procedures, and programs of medication.
- Directions to provide, withhold, or withdraw artificial nutrition, hydration, and all other forms of health care, including cardiopulmonary resuscitation (CPR).

“**Health care provider**” means an individual licensed, certified, or otherwise authorized or permitted by the law of this State to provide health care in the ordinary course of business or practice of a profession.

“**Individual health care instruction**” means a patient's written or oral direction concerning a health care decision for the patient.

“**Inmate**” means an adult inmate under the jurisdiction of the CDCR.

“**Licensed health care facility**” means a health care facility licensed by the California Department of Health Services, and includes Correctional Treatment Centers (CTC), Skilled Nursing Facilities (SNF), and General Acute Care Hospitals (GACH), and other facilities included in California Health and Safety Code § 1250.

“**Patient**” means an adult inmate whose health care is under consideration, and includes a principal under a power of attorney for health care and an adult inmate who has given an individual health care instruction or designated a surrogate.

“**Physician**” means a physician and surgeon licensed by the Medical Board of California or the Osteopathic Medical Board of California.

“**Primary Care Physician**” means a physician, nurse practitioner, or physician assistant designated to have primary responsibility for the patient's health care or, in the absence of a designation or if the designated physician is not reasonably available or declines to act as primary physician, a physician who undertakes the responsibility.

“**Principal**” means an adult who executes a power of attorney for health care.

“**Power of Attorney for health care**” means a written instrument designating an agent to make health care decisions for the principal.

“**Reasonably available**” means readily available to be contacted without undue effort and willing and able to act in a timely manner considering the urgency of the patient's health care needs.

“**Supervising health care provider**” means the Chief Medical Officer or other designated Physician Manager.

“**Surrogate**” means an adult, other than an inmate-patient's agent or conservator, authorized to make a health care decision for the inmate-patient.

91100.3 Promoting the use of Advance Directives.

Information and forms concerning AD will be provided/available to the inmate population in designated locations in the institutions (e.g., clinics, law library, CTC).

91100.4 Designation of Agents

Revised September 25, 2007

The inmate-patient may choose a family member as defined in Section 3000 of the Title 15 or close friend who is available and agreeable to assume the responsibility as an agent. If possible, the inmate-patient should get the consent of the potential agent before that person is designated and discuss his or her wishes with the agent in advance.

Supervising health care providers and CDCR employees (unless related to the inmate-patient by blood, marriage, or adoption, or is a registered domestic partner of the inmate-patient), may not serve as an inmate-patient's agent.

91100.4.1 Consent to Disclosure

A person then authorized to make health care decisions for an inmate-patient has the same rights as the inmate-patient to request, receive, examine, copy, and consent to the disclosure of any medical or other health care information as long as:

- The information is necessary to carry out his/or her duties.
- The person is not specifically excluded in an AD from doing so.

91100.4.2 Priority of Agents

An available agent has priority over any other person in making health care decisions, except where a surrogate has been designated. If a surrogate has been designated, the surrogate has priority over any other person, including a designated agent. If a court appoints a conservator for an inmate, CDCR shall comply with applicable court orders and/or mandates.

91100.4.3 Agent Revocation

An inmate-patient, having capacity, may revoke the designation of an agent by a signed writing or by personally informing the supervising health care provider.

91100.5 Designation of Surrogates

An inmate-patient may designate another adult as a surrogate to make health care decisions by personally informing the supervising health care provider. The health care provider shall promptly record the oral surrogate designation in the inmate-patient's health care record. A surrogate designation is only effective during the course of treatment for an illness or during the stay in the licensed health care facility when the designation is made or for sixty days, whichever period is shorter.

Supervising health care providers and CDCR employees (unless related to the inmate-patient by blood, marriage, or adoption, or is the registered domestic partner of the inmate-patient) may not serve as an inmate-patient's surrogate.

A surrogate must act in accordance with the inmate-patient's known desires or the surrogate's determination of the inmate-patient's best interests.

91100.5.1 Surrogate Revocation

An inmate-patient, having capacity, may disqualify another person at any time, including a member of the inmate-patient's family, from acting as the inmate-patient's surrogate by a signed writing or by personally informing the supervising health care provider of the disqualification.

91100.6 Revocation of an AD

An inmate-patient having capacity may revoke all or part of an AD in any manner that communicates intent to revoke, except the designation of an agent, which must be revoked in writing or by personally informing the supervising health care provider of the disqualification.

91100.7 Non-original copies of an AD

A copy of a written AD, revocation, or designation/disqualification of a surrogate, has the same effect as the original.

91100.8 Conflicting Advance Directives

A later AD that conflicts with an earlier AD revokes the earlier AD to the extent of the conflict.

91100.9 Verbal Health Care Decisions or Instructions

When an inmate-patient verbally expresses a health care decision or instruction to a health care staff person, the health care staff person shall ensure that the specific decision or instruction is documented appropriately.

Additionally, the health care staff person shall inform the inmate-patient of the AD process. If the inmate-patient wishes to complete an AD, the health care staff person shall provide the inmate-patient with the CDCR Form 7421, Advance Directive, and assist the inmate-patient in its preparation as necessary.

91100.10 Declining to comply with an Advance Directive, Health Care Decision, or Instruction

Health care providers may decline to comply with an inmate-patient's AD, health care decision, or health care instruction for such reasons as:

- Reasons of conscience.
- The AD health care decision or instruction is contrary to the CDCR policy.
- The AD health care decision or instruction requires medically ineffective health care and is contrary to health care standards.

A health care provider that declines to comply with an AD health care instruction or health care decision shall do all of the following:

- Promptly inform the inmate-patient, if possible, and any agent or surrogate authorized to make health care decisions for the inmate-patient of the decision.
- Document the decision in the inmate-patient's health record.

91100.11 Health Care Providers Responsibility

Health care providers caring for an inmate-patient shall:

- Request a copy of the AD for inclusion and maintenance in UHR.
- Communicate the health care decision and the identity of the person making the decision to the inmate-patient prior to implementation, if possible.
- Record the existence of an AD, revocation, or designation of a surrogate in the inmate-patient's UHR.
- Comply with an inmate-patient's health care instruction.
- Comply with the reasonable interpretation of the health care decisions made by the person authorized to make those decisions on behalf of the inmate-patient.

91100.12 Institution Staff Responsibility

The responsibilities of institutional staff concerning an AD are as follows:

Health Care Manager (HCM) or **Chief Medical Officer (CMO)** or designee shall ensure CDCR Form 7421 and instructions are provided for each inmate-patient as part of the admission procedure to any CDCR licensed health care facility.

Health Care Staff shall ask upon admission of an inmate-patient to a CDCR licensed health care facility, if an AD has ever been completed, either in California or any other state.

- If an AD has been completed, the health care staff shall:
 - Verify whether a current copy is in the UHR.
 - Notify the primary care provider.
 - Review the AD with the inmate-patient to determine if it is still current.
 - File a copy of the document in the inmate-patient's inpatient health care chart and ensure that the original document is filed in the inmate-patient's UHR.
- If an AD has not been completed the health care staff shall:
 - Explain the benefits of completing an AD.
 - If the inmate-patient wishes to complete an AD, the health care staff person shall give the inmate-patient the CDCR Form 7421.
 - Provide assistance to the inmate-patient, if necessary, for completion and understanding of the CDCR Form 7421.
 - Notify the physician staff of the CDCR Form 7421.
 - File a copy of the CDCR Form 7421, in the inmate-patient's inpatient health care chart and ensure that the original document is filed in the inmate-patient's UHR.

If the inmate-patient chooses not to complete an AD, health care staff shall document the offering and explaining the AD to the inmate-patient in the UHR.

91100.13 Screening for Effective Communications, Mental Health, Developmental Disability, and Physical Disability

For CDCR Form 7421 submitted by inmate-patients housed in a non-licensed bed, the HCM or designee shall review and screen the AD submitted by inmates as follows:

- HCM/designee shall review the institutions' roster of inmates who have Effective Communication (EC) needs.
- HCM/designee will complete the screening portion of CDCR Form 7421 identifying the inmate as one of the following:
 - No EC assistance needed.
 - Identify the type of EC assistance needed.
 - Mental Health, identified level of care.
 - Developmental Disability, identify designation.
 - Physical Disabilities, identify disability.
- If during screening it is determined that assistance is necessary, the HCM/designee will interview the inmate-patient with the CDCR Form 7421 to determine whether or not they understand the form. The HCM/designee shall document his/her findings.
 - If through the interview, the HCM/designee determines the inmate needs assistance with understanding the medical aspects of the CDCR Form 7421, the HCM/designee shall provide the needed assistance and will document the assistance provided on the form.
 - If the inmate-patient understands the medical aspects of the CDCR Form 7421, the HCM/designee shall forward the document to the Health Records Technician II (HRT-II).

- If the inmate-patient does not understand the CDCR Form 7421, due to mental health concerns, the HCM/designee shall refer the inmate-patient to the Chief Psychiatrist or designated mental health care professional. The Chief Psychiatrist or designated mental health care professional will meet with the inmate patient, meet with him/her to determine whether or not the inmate has the mental capacity to make a decision regarding future health care, advise the inmate-patient of their decision, and document it on the CDCR Form 7421.
- Upon completion, the mental health care professional will return the CDCR Form 7421 to the HRT-II.
- If the mental health care professional determines that the inmate does have the mental capacity to make the decision, the mental health professional will return the CDCR Form 7421. The HRT-II will then forward the form to the institution notary for further processing (i.e. verification of inmate identity and signature, notary public signature, and placement of official seal).
- If the mental health care professional determines that the inmate does not have the mental capacity, the HRT-II will file the document in the UHR, stamping the CDCR Form 7421 as INVALID in red ink, without further processing.

The HRT-II will process the CDCR Form 7421, as follows:

- The HRT-II shall maintain a tracking log of all AD.
- If no assistance is required to the inmate submitting an AD, the HRT-II shall request notary services to notarize the inmate-patient signature on the CDCR Form 7421.
- Upon completion, the notary will return the CDCR Form 7421 to the HRT-II who will log its receipt and place it in the inmate-patient's UHR.
- The HRT-II shall process the CDCR Form 7421 within 30 days of receipt.

91100.14 Prerequisites for a Valid Written CDCR Form 7421

All of the following criteria must be met in order for a CDCR Form 7421 to be legally sufficient.

- The AD must be signed by the inmate-patient.
- The signature must be dated.
- The AD must be notarized.
- The AD must comply with all requirements for agents (See §91100.4), if an agent is designated.

The use of a particular AD form is not necessary, and if a form is used, it is valid even if it has been changed and/or only partially completed. If the AD is executed and valid in another state or jurisdiction, it shall be enforceable to the same extent as an AD validly executed in California.

91100.15 Filing the AD in the UHR

Upon receipt of a valid AD, health records staff shall file it in the health record, flag the health record by stamping the cover "ADVANCE DIRECTIVE," and inserting a yellow sheet of paper in the green section (labeled "Medico-Legal"). The yellow sheet shall be clearly marked in red ink with the statement "This Record Contains an Advance Health Care Directive." A copy of the document shall be filed in the most current volume of the UHR.

91100.16 Do Not Resuscitate Order

CPR shall be initiated in all cases of cardiac and/or respiratory arrest except when a valid Do Not Resuscitate (DNR) order has been properly documented in the inmate-patient's UHR.

If an inmate-patient has capacity and wishes to have resuscitation measures initiated, that desire shall be followed. If an inmate-patient has capacity and decides to have resuscitation measures withheld, that desire should be followed. If an inmate-patient does not have capacity, a decision regarding the use of CPR shall be made by an agent or surrogate based on previously expressed desire of the inmate-patient. The treating physician shall seek the concurrence of the inmate-patient or the agent or surrogate before writing a DNR order.

A DNR order may be written in the UHR when, in the treating physician's judgment, an inmate-patient is terminally ill and no reasonable treatment for the underlying disease process remains available. The decision to write a DNR order shall be made by the treating and/or designated physician and shall be based on:

- The right of the patient or his/her surrogate decision-maker to refuse medical care, even when it could prolong life; and

- The medical judgment that the potential benefits of resuscitation, assessed in context of the inmate-patient's total medical condition, no longer justify initiation of resuscitation efforts.

A DNR order shall be implemented with the understanding that every effort shall be made to relieve the patient's suffering and maintain comfort. A DNR order does not imply that other therapeutic measures necessary to promote comfort should not be provided (e.g., palliative treatment for pain, dyspnea, major hemorrhage, or other medical conditions).

The treating physician shall be responsible for determining whether an inmate-patient is capable of making health care decisions and discussing the possibility of cardiopulmonary arrest. The physician shall describe the procedures performed during CPR, including the likelihood of success and the potential adverse consequences, and encourage the inmate-patient to express whether he/she would prefer resuscitation to be performed. These discussions should be initiated as early as possible during hospitalization or placement in a CDCR licensed health care facility. If there is a question concerning an inmate-patient's capacity to make informed health care decisions, the treating physician shall request a psychiatric consult.

If the inmate-patient is unable to communicate informed health care decisions, or lacks capacity to make health care decisions, and has not designated an agent or surrogate either orally or via an AD, the treating physician shall work with the Office of Legal Affairs to identify an appropriate surrogate. The physician shall advise the surrogate of the inmate-patient's diagnosis and prognosis, and request that a decision be made on behalf of the inmate-patient regarding the initiation of CPR.

91100.16.1 Documentation

The treating physician shall write the DNR order on the Physician's Order sheet in the inmate-patient's UHR, and briefly state the inmate-patient's terminal diagnosis. Additionally, the physician shall document the following in the patient progress notes:

- The medical diagnosis and prognosis at the time the order is written.
- The current mental and physical status of the inmate-patient at the time the order is written.
- The name of the agent or surrogate (if designated) and the relationship to the patient.
- A statement indicating the benefits, burdens, and risks of CPR, as well as the probable chances of successful outcome were discussed with the inmate-patient (or agent or surrogate if appropriate).
- Documentation of consultations with other physicians.
- A statement indicating the patient, or the agent, or surrogate concurs with the decision to withhold CPR in the event of cardiac and/or respiratory arrest.

If an inmate-patient requests that resuscitation measures be limited to specific interventions, the physician shall identify the intervention to be withheld, as well as the interventions to be initiated, on the Physician's Order sheet in the inmate-patient's UHR.

91100.16.2 Telephone Orders

Physician telephone orders to withhold CPR are acceptable when witnessed by one Registered Nurse and one other health care staff person who is not related to the inmate-patient. Both staff persons must sign the telephone order. Within 24 hours, the physician giving the telephone order shall co-sign the order sheet and document in the inmate-patient's progress notes the rationale for the DNR order, and that the decision was discussed with the inmate-patient or surrogate decision-maker prior to writing the order. If the telephone order is not co-signed by the treating physician within 24 hours of issuance, it shall automatically be discontinued.

91100.16.3 Periodic Review

In licensed CDCR beds the treating physician shall review the DNR order at least monthly and whenever a change in the inmate-patient's condition occurs. In those cases where the inmate-patient's condition or prognosis improves, the treating physician shall reopen discussion with the inmate-patient, agent, or surrogate and update or reverse the DNR order in accordance with the inmate-patient's wishes. The physician shall document any modification to the DNR order and supporting rationale in the inmate-patient's UHR.

91100.16.4 Anesthesia and Surgery

In CDCR licensed beds, the treating physician or other designated Primary Care Physician (PCP), shall be responsible for discussing and documenting whether a DNR order is to be maintained, or completely or partially suspended, during anesthesia and surgery. Discussions with the inmate-patient, agent, or surrogate should include:

- The goals of surgery.
- The possibility of cardiopulmonary arrest.
- A description of the procedures performed during CPR.
- Possible outcomes with and without CPR.

The treating physician shall document the inmate-patient's decision regarding the continuation or suspension of the DNR order during anesthesia and surgery in the UHR and communicate the inmate-patient's wishes to all health care providers potentially involved in the surgical procedure. If the inmate-patient requests that the DNR order be suspended during anesthesia and surgery, the physician or designated PCP, shall document when the order is to be reinstated.

91100.16.5 Accepting a DNR Order from another CDCR Institution

If a terminally ill inmate-patient with a DNR order transfers to another CDCR institution, the receiving institution may accept the sending institution's DNR order on a temporary basis. A physician at the receiving institution must discuss the resuscitation status with the inmate-patient within 72 hours of the inmate-patient's arrival and rewrite the DNR according to the inmate-patient's desires.

91100.16.6 Rescinding a DNR Order

The inmate-patient or surrogate decision-maker may rescind a DNR order at any time by simply informing health care staff of the desire to cancel the order. The cancellation becomes effective as soon as the inmate-patient, agent, or surrogate communicates his/her desire to rescind the order to health care staff. Health care staff who receive notification of an inmate-patient's desire to cancel a DNR order shall notify the treating physician immediately. The treating physician shall make a notation regarding the cancellation of the order on the Physician's Order sheet and patient progress notes in the inmate-patient's UHR. Following cancellation of a DNR order, full CPR shall be initiated in the event of cardiac and/or respiratory arrest.

91100.16.7 DNR Instructions Given to a Non-Health Care Staff Person

Any non-health care staff person (*i.e.*, clerical staff, administrative staff, correctional officer, *etc.*) who receives oral or written DNR instruction from an inmate-patient shall promptly notify the Supervising Registered Nurse. The Supervising Registered Nurse shall confirm the patient's request and immediately notify the patient's primary care provider, the physician on call, the Medical Officer of the Day, or the Health Care Manager/designee. The notified health care staff member shall ensure that a DNR order is promptly implemented or rescinded in accordance with the inmate-patient's wishes. Health care staff shall document all DNR instructions in the inmate-patient's UHR. This includes oral instruction given to a non-health care staff person concerning the use of resuscitation measures and designation of a surrogate.

91090.17 Authorizing Anatomical Gifts

Inmate-patients or their appointed agents may authorize post-mortem (after death) tissue or organ anatomical gifts. The HCM or CMO shall promptly notify the local donor agency of the decision to authorize tissue or organ anatomical gifts.

CDCR shall not be responsible for any costs associated with the organ donation process.

91090.18 Revisions

The Director of the Division of Health Care Services or designee is responsible for ensuring that the contents of this Article are kept current and accurate.

CHAPTER 10 – ADULT PROGRAMS

ARTICLE 1 — EDUCATION SERVICES*

Revised January 7, 1993

Updated April 5, 2007

Not Cleared For Statewide Use

101010.1 Policy

The Department supports quality academic and vocational education programs that meet the needs and interests of the inmate population consistent with the operational and security priorities of individual facilities.

Each facility shall provide academic education, vocational training, library services, recreation, physical education, hobby craft, and prerelease programs. The goal is to provide inmates with educational, occupational, and social skills to help them function better in the facility and upon return to society. These programs shall be coordinated statewide, accessible to inmates, consistent in quality and content, and in compliance with CCR, policies, and State and federal laws.

Educational staff shall meet the credential standards as set forth by the Commission on Teacher Credentialing and, as professional educators, are to be referred to as such in written procedures and policies.

Educational programs shall meet the Department's curriculum guidelines and shall use the competency based adult education curriculum. The curriculum shall be relevant to the practical needs of adults, both in facilities and the community.

It is departmental policy that the Warden shall ensure that inmates achieving below a 6.0 grade level or with limited English proficiency are assigned to adult basic education or English as a Second Language (ESL) programs.

The Warden shall make every effort to assign 15 percent of the inmate population to academic education and 18 percent to vocational programs.

Demonstrated competence of 80 percent on each certification test shall be the basis for certifying student progress and awarding educational credits.

101010.2 Purpose

The purpose of this procedure is to provide guidelines and standards for education services.

101010.3 Programs

Education includes academic and vocational instruction, industrial training, educational counseling, and apprenticeship.

Academic classes shall be offered to inmates from literacy through high school. Enrollment in classes shall be open-entry/open-exit if feasible. College classes may be offered based upon available funding.

Vocational programs shall offer training that teaches entry-level employment skills or upgrades current skills. Enrollment shall be on an open-entry/open-exit basis if feasible. TACs comprised of labor and management representatives from the community shall provide assistance to these programs.

Apprenticeship training programs for inmates shall be developed in cooperation with the local joint apprenticeship training committees, the California State Building and Construction Trades Council, and DAS.

101010.3.1 Responsibility

Headquarters

The Superintendent of Correctional Education and the Office of Correctional Education (OCE) shall provide technical and consultative services to the facilities for academic and vocational education. This consultation service shall include a curriculum specialist who shall provide the needed expertise in implementing and maintaining the competency-based curriculum.

The Superintendent, OCE, shall audit, evaluate, and report to the Director of Division of Education, Vocations and Offender Programs on the academic, vocational, and apprenticeship activities at each facility.

The Superintendent, OCE, shall be a member of the Secretary's executive staff.

The Superintendent, OCE, through the facility's Supervisors of Correctional Education Programs (SCEP) shall coordinate efforts in obtaining accreditation from the Western Association of Schools and Colleges for each facility's education program.

Facilities

The Warden is administratively responsible for the academic and vocational programs at their facility.

The SCEP shall be a member of each Warden's executive staff.

The SCEP is directly responsible for the academic and vocational programs at the facility.

The facility academic and vocational staff shall develop, supervise, operate, and evaluate inmate educational programs.

Educational Advisory Committee

Each SCEP shall establish an educational advisory committee for academic education and for vocational education comprised of inmates. The education supervisors involved shall meet with these committees on a regularly scheduled basis (at least once monthly).

The objective of these committees is to provide a means to establish and maintain positive relationships with the students. Through effective use of these committees, it shall be possible to maximize the student's contributions to the academic and vocational programs and enhance the quality and acceptance of the programs.

The Superintendent, OCE, the SCEP, and the educational staff in facilities and camps shall determine the types and content of courses consistent with the needs of students and policy of the Department.

101010.3.2 Credentialed Personnel

Personnel who teach and/or administer inmate education programs for which funds are provided shall possess an appropriate California teaching or service credential.

101010.3.3 Contracts

Facility staff may negotiate contracts with local school districts, county boards of education, and consultants if necessary.

101010.3.4 Classification of Inmates

Classification committees shall recommend inmates for education programs. An education representative shall sit on all initial classification committees. Recommendations shall be made on the basis of reception center studies, supplemental findings, and the inmate's needs, interests, and desires. In the event there is not a grade-level test score, the inmate shall be given the test of adult basic education prior to classification action to assist in determining appropriate program needs. Facility needs shall also be considered in making education assignments within established policy guidelines.

101010.3.5 Enrollment of Inmates

The SCEP and the educational staff shall enroll inmates in particular academic or vocational programs. After inmates are enrolled in a course, attendance shall be considered contractual on their part until completion of the course or removal by a classification committee.

A basic education program for functional illiterates shall be established in each facility. Every effort shall be made by the facility staff to encourage the functional illiterate to enroll and participate in the program.

101010.3.6 Inmate Occupational Licensing

The Department shall provide an opportunity for inmates to obtain licenses in occupations that require licensing.

When an inmate enrolled in an education program is qualified to take an examination for an occupational license, the facility shall pay for that examination.

101010.3.7 Termination of Assignments

An inmate may be terminated from a course with the recommendation of the teacher and the approval of the supervisor and the classification committee.

If a vocational student is being recommended for a drop, the supervisor shall schedule the inmate for a counseling interview. Inmates may have the option to enroll or be placed on the waiting list for another vocational program for which they are qualified.

101010.4 Vocational Education

Vocational education programs shall:

- Be provided so that individuals leaving a facility have had the opportunity to learn a salable skill.
- Provide for a realistic balance between the vocational interests of individuals and the needs of business, industry, society, and the facility.
- Include instruction in reading, oral and written expression, computation, and social interaction as required by the occupation.
- Provide occupational information and guidance and, whenever possible, assist in the placement of inmates who have successfully completed the program.
- Be designed (recognizing new and emerging occupations) to prepare students for initial employment or for advancement.
- Be provided to allow individuals the opportunity to enter, progress, and exit as their specific needs dictate.

- Be developed and periodically revised to reflect societal, economic, and occupational changes.
- Be developed and continued on the basis of identifiable needs, TAC recommendations, employment statistics, current occupational surveys, and facility needs.

To the extent possible education training programs shall:

- Provide training required for permanent employment in the community.
- Support facility plant operations, CALPIA and business services. This support work shall complement the inmate's training program through OJT and work experience and it shall be instructional in nature.
- Have equipment which meets current industry standards. The Warden shall ensure that updating of vocational equipment receives a high priority in the facility's annual equipment budget requests.
- Be accredited to allow qualified inmates an opportunity to earn community college credit for vocational courses.

101010.4.1 Standards for Vocational Education Programs

Vocational education programs shall maintain the following minimum standards:

- A curriculum outline and course of instruction shall be developed, approved by the Superintendent, OCE, and maintained in each vocational education area.
- The SCEP and/or the Supervisor of Vocational Instruction (SVI) shall review annually approved course outlines and courses of instruction. These shall be revised to keep current with changes in instructional materials, methodology, and course content.
- Each course of instruction shall have the necessary assignment information and job sheets as required in the curriculum outline.
- Each vocational instructor shall conduct and document not less than four hours of approved related, formal classroom instruction each week.

Each vocational instructor shall present a minimum of one hour of safety instruction per month. This instruction shall be appropriately documented and available for inspection. A safety committee comprised of inmate students shall conduct weekly safety inspections of equipment and facilities. Records of the safety inspections shall be maintained for one year.

101010.4.2 Procedures for Continuing Existing Programs

Vocational education programs shall be continued on the basis of identifiable facility needs, TAC recommendations, employment statistics, and a current occupational analysis. A facility planning to continue a vocational program after an instructor terminates employment shall complete the following procedures:

- Notify the Superintendent, OCE, in writing immediately upon termination of any vocational instructor and plans for continuing the program.
- If a TAC for the program does not exist, contact labor and management and reestablish their support for the program and solicit their participation in a TAC.
- If a TAC is active, its endorsement of the plan to continue the program shall be obtained.
- If the occupational analysis is negative, consider a program change. Request an exemption if the program provides facility support.
- If the vocational program is to be continued, the plan shall include:
 - A current job market analysis.
 - A curriculum outline.
 - The endorsement of the TAC.
 - A list of management and labor representatives who shall make up the TAC.

This plan shall be submitted to the Superintendent, OCE, for approval and returned to the facility for retention in the appropriate vocational shop.

101010.4.3 Procedures for Addition/Change of a Vocational Education Program

A facility planning to add or change a program of vocational instruction shall submit the following to the Superintendent, OCE:

- A summary of the job market analysis of the program, together with a copy of the survey instruments used.
- A list of potential employers.
- A list of labor and management representatives who have agreed to serve on the TAC.
- A tentative curriculum outline endorsed by management and labor.

- Lists of equipment available for training, a cost estimate of the equipment needed to meet course objectives, and a shop layout of the physical plant. If approved, the Superintendent, OCE, shall ensure necessary funds are provided to initiate the program.
- If the program operates in conjunction with CALPIA, plant operations, or business services, include an agreement for funding, the plan of operation, and the scope of activities that shall be used for training.

101010.4.4 Procedures for Conducting a Job Market Analysis

Every five years the Superintendent, OCE, shall assign job market analysis for existing programs to facility staff.

- The SCEP shall ensure completion of an accurate, comprehensive job market analysis for programs that have not had an analysis within the past five years.
- Job market analyses shall be assigned in January and completed and returned to headquarters by the end of March.
- The job market analysis shall contain each of the following:
 - A summary of the latest projections of employment for the State of California prepared by the State Employment Development Department (EDD).
 - A summary of the latest standard metropolitan statistical area employment outlook prepared by the EDD.
 - A job market analysis questionnaire shall encompass, but not be limited to, the following items:
 - General information on the vocational program to include a brief description of the program, location, major equipment, length of program, space occupied, and competencies offered.
 - The need for input and assistance from potential employers.
 - Question section to determine the employment potential, salary range, number of workers employed, turnover rate, licenses or certifications required, and the willingness to hire trained parolees.
 - A space for the name of the person responding, their title, the company's name, address, and telephone number.
 - A section for those persons desiring to serve as TAC members.
 - A section for comments.
- The survey questionnaire shall be sent to companies selected with an emphasis on major metropolitan areas. Retain the master lists of selected companies for a five-year update of job market analysis. The Superintendent, OCE, shall determine the size of the sample group and any change shall have his/her prior written approval.
- All job market surveys shall include a stamped, self-addressed envelope for the return of completed questionnaires.

Copies of the questionnaire shall be retained in the event few or no responses are received. Use these questionnaires for follow-up telephone contacts.

The Chairperson of the TAC shall annually review the job market analysis. It shall be signed by the Chairperson and the SCEP after review for current relevancy. The signed review shall be forwarded to the Superintendent, OCE, who shall review, comment, and return it to the facility.

101010.4.5 TACs

The Warden shall establish a representative TAC for each trade or occupation for which there is a vocational training program. Vocational TACs shall be composed of an equal number of representatives selected by management and labor. Local facility authorities shall appoint committee members from lists of names submitted by the groups represented. The objectives of the TAC shall be to provide advice and/or consultation on:

- Space and equipment requirements, instructor/student ratio training procedures, and instructor qualifications and selection.
- Establishing standards for inmate selection and training relevant to current methods and industry standards.
- Vocational guidance and evaluation of inmate trainees.
- Release employment opportunities.
- Improvement of mutual understanding among labor, management, and the Department.

The SVI shall ensure that each vocational instructor organizes and maintains an active TAC for their vocational training program.

Vocational instructors shall work closely with representatives of the TAC to ensure vocational training programs meet the changing employment needs and training trends in industry. The TAC shall meet at least quarterly. Exemptions to the quarterly meetings shall be requested from the Chief of

Education due to the feasibility of conducting meetings in certain geographic locations.

101010.4.6 Review of Vocational Education Programs

The maintenance of a QC system for vocational education requires the periodic review of the goals, processes, and products of the vocational instruction.

The Superintendent, OCE, shall review each facility vocational program.

The vocational education review teams shall involve, but not be limited to, supervisors, teachers, and students. These teams may include representatives of the community, labor, and management.

Vocational education programs shall be reviewed on the basis of criteria such as:

- The degree to which objectives are met.
- Job opportunities at State and local levels.
- Curriculum materials development/revision.
- Adequacy of physical facilities and equipment.
- TAC participation.
- Administrative support.

Instructors may be evaluated by:

- Self.
- Peers.
- Persons external to the system.
- Supervisors.
- Students.

101010.4.7 Policies Governing Apprenticeship Training

Apprentice training programs shall be developed in vocational education, plant operations, CALPIA, and business services where appropriate. These shall be submitted to the Superintendent, OCE, for approval.

Standards required by the local joint apprenticeship training committee shall serve to guide facility staff in establishing and maintaining effective apprenticeship training programs. Indentured inmates enrolled in vocational training programs shall complete competency based curriculum as a prerequisite to the curriculum standards required for the apprenticeship training.

Joint apprenticeship training committees shall meet regularly to provide advice and guidance to apprenticeship program staff and students.

Inmate apprentices receiving OJT with plant operations, CALPIA, or business services shall receive related and supplemental instruction through facility education departments.

DAS approved curriculum shall be used in all apprenticeship programs established by the Department and local joint apprenticeship training committees.

An inmate apprentice may be considered for assignment to day labor projects after six months in an apprenticeship program and recommendation by the education staff. Apprentices shall be given first priority in the assignment of inmates to day labor projects if they meet custody and classification criteria.

Inmate apprentices shall not be removed from an apprentice-training program for other than custodial, medical, or legal reasons unless approved by the facility apprenticeship coordinator.

An inmate is to be retained at the facility and in the apprenticeship program from the time their name is submitted to the joint apprenticeship training committee for indenturing.

The facility apprenticeship coordinator shall write a chrono notifying the classification committee, inmate's counselor, inmate assignment office, and the inmate of their apprenticeship assignment. The chrono is placed in the inmate's C-File. If the inmate fails to become indentured, the facility's apprenticeship coordinator shall inform the same individuals or committees as above. All apprenticeship assignments shall be made by the facility apprenticeship coordinator.

Inmate apprentices shall not be transferred to another facility for other than security, medical, or legal reasons unless the apprenticeship training can be continued at the receiving facility.

- Such transfer shall require a complete assessment of the inmate's training needs.
- It must be determined to be in the best interest of the inmate and their status as an apprentice.

Incentives shall be provided to inmate apprentices for participation and work performance.

Inmate apprentices shall be tracked to ensure that a continuity of apprentice training is maintained and to better match apprentices to available work experience projects. The facility apprenticeship coordinator shall notify the appropriate union and other assisting agencies before the inmate's release.

The Superintendent, OCE, shall maintain a file on each indentured inmate apprentice.

101010.5 Academic Education Policy

All curriculums shall be competency based and structured to require interaction between basic skills and life skills. Academic education curricula include the teaching of skills and information which shall enable the student to:

- Demonstrate mastery of basic skills.
- Demonstrate knowledge of effective life skills.
- Qualify for vocational training.
- Achieve self-awareness.
- Understand the role and responsibility of a citizen in free society.

Each facility's academic program shall establish an academic advisory committee comprised of teachers and other staff, inmates, outside educators and individuals from the community for the purpose of reviewing the academic program and make recommendations to the CDCR Assembly Bill 3005 advisory committee.

101010.5.1 Scope of Academic Education

Academic education includes, but is not limited to, the following:

- ESL.
- Adult basic education (ABE).
- Adult high school.
- Equivalency programs.
- College classes (where feasible).
- Prerelease classes.
- Special programs.

101010.5.2 English as a Second Language (ESL)

Non- or limited English speaking students are to be enrolled in an ESL program to learn to read, write, and speak English. The educational goal is to enable students to be integrated into other educational or facility programs. Certificates of completion shall be awarded each inmate successfully completing the ESL program.

101010.5.3 Adult Basic Education

Students achieving below sixth grade level are to be enrolled in ABE. The curriculum shall include, but not be limited to, the following:

- Reading.
- Writing.
- Speaking.
- Listening.
- Spelling.
- Language.
- Arithmetic.
- Life skills.

Certificates of completion shall be awarded each inmate successfully attaining the following levels of achievement:

- ABE I (0 through 3.9 grade level).
- ABE II (4.0 through 6.9 grade level).
- ABE III (7.0 through 8.9 grade level).

101010.5.4 Adult High School

Students achieving at or above the 9.0 grade level shall be eligible for enrollment in adult high school.

ABE III students may enroll in a General Education Development (GED) preparation course. Upon passing the GED predictor test, the student may sign up to take the GED test or the California High School Proficiency Examination (CHSPE). The cost per student for the examinations and equivalency certificates are to be borne by the facility.

Upon successful completion of the GED or CHSPE examinations, a certificate of equivalency shall be awarded.

Graduation ceremonies shall be scheduled for eligible students.

Upon satisfactory completion of high school graduation requirements, a high school diploma shall be awarded.

The adult high school curriculum shall include, but not be limited to, the following:

- Language (mechanics and usage of language).
- Reading (vocabulary /reading comprehension).
- Mathematics (reasoning/fundamentals).
- Life skills.
- High school courses which meet high school graduation requirements.
- Preparatory courses for the GED or CHSPE program.

101010.5.5 College

Students with a high school diploma, GED certificate, the CHSPE certificate, or a 10.0 grade level of achievement each in reading comprehension/vocabulary and general mathematics are eligible to enroll in lower division college credit courses leading to the Associate of Arts or Science degree.

The SCEP shall approve all college courses paid for with State funds.

Students who have Associate of Arts or Science degrees from accredited colleges or have completed 60 units of lower division course work are eligible to enroll in upper division college credit courses leading to the Bachelor of Arts or Science degree where feasible.

101010.5.6 Inmate College Education Leave

The Secretary may, under PC 2690, authorize the temporary removal from prison of certain inmates to attend college classes.

This leave is exceptional and shall be processed and approved as described in the DOM 62070.7.

101010.6 Prerelease Program

A prerelease program provides the opportunity for inmates to enhance the life skills necessary for success on parole. Through a systematic process, specific classes and services are provided to acquaint, prepare, and assist inmates for successful reentry into the community. A prerelease program is a process designed to bridge the gap from dependent facility living to successful, self-directed community adjustment. The prerelease program is available to inmates in prerelease status, regardless of their eligibility for work furlough or discharge.

101010.6.1 Responsibility

Each facility shall provide a voluntary prerelease program for inmates.

The prerelease program shall be under the direction of the SCEP.

The facility's CRM and facility's Community Correctional Center Coordinator shall assist in obtaining resources outside the facility. This shall include the input and participation of the P&CSD staff, making community contacts, and providing necessary support resources and materials to implement the prerelease program curriculum.

101010.6.2 Requirements

The departmental standardized curriculum for the facility's prerelease program shall be three weeks in duration. The teacher is to be provided one-week preparation time between each three-week prerelease class.

The prerelease program shall be a full-time work/training program for five days a week.

Inmates shall complete this education program no less than 15 days and no more than 45 days before parole from the facility.

Any inmate being paroled to a "federal hold," "hold from another state," or a "deportation hold" shall not participate in this program.

101010.6.3 Curriculum

The prerelease program curriculum shall include:

- Employability skills.
- Communication skills.
- Money management skills.
- Community resources.
- Parole resources.

For further curriculum detail, refer to the CDCR competency based prerelease curriculum.

101010.6.4 Evaluation

To provide for a standardized evaluation, at the conclusion of the prerelease program each participant shall have:

- A list of five objectives to achieve within the first 30 days of parole or release.
- The names and addresses of five public or private agencies available to assist the parolee/releasee in their county of parole.
- Participated in at least one mock job interview.

- A California driver's license/identification card or procedures to obtain one.
- Completed screening for DOR program(s).
- Completed review of PC 290 and H&SC 11590 for registration requirements.
- Received a copy of the "conditions of parole" and "pardon" information.
- Received a map of the location of the parole office to which they are to report.
- Received a pocket job application.
- Received an acceptance or rejection for unemployment insurance.

101010.7 Special Programs

Reasonable accommodation shall be made for those inmates who have documented physical, mental, psychiatric, or learning disabilities to provide access to educational programs.

Educational services may be provided to inmates housed in SHUs.

101010.8 Records

The facility's SCEP shall be responsible for the accuracy and completeness of educational records when inmates are received, transferred, or released.

The facility's SCEP shall maintain accurate records of all educational achievements and report these data annually on the year-end report.

Records to be Maintained and Data to be Reported

The following data shall be reported, and the certificates listed shall be issued. Other certificates, in addition to those required, may be issued:

- Number of:
- Certificates of completion ESL.
- Certificates of completion ABE I.
- Certificates of completion ABE II.
- Certificates of completion ABE III.
- GED high school equivalency certificates earned.
- High school diplomas earned.
- College courses completed.
- College degrees earned.
- Certificates of achievement, vocational education.
- Certificates of completion, vocational education.

An official copy of the GED test scores shall be maintained at the facility's education office as a permanent record on each inmate who takes the test.

An official copy of the State of California transcript of high school record shall be maintained as a permanent record at the facility's education office on each inmate working toward a high school diploma.

101010.8.1 Transcript of High School Record

Transcripts of educational records to outside agencies or schools shall be made on the State Department of Education Transcript of Record Form.

101010.9 CDC Forms, Records, and Reports

The following official CDC forms shall be:

- Posted daily:
 - CDC Form 151, Permanent Class Record Card.
 - CDC Form 191, Inmate Time Card.
 - CDC Form 1697, Inmate Work Supervisor Time Log.
- To report quarterly and at termination or at the end of the college term:
 - CDC Form 128-E, Education Progress Report.
- A CDC Form 153, Vocational Training Evaluation Report (recording section), shall be prepared for each inmate at the time of enrollment, retained by the instructor in the student file, updated quarterly, and completed at termination.
- Only file copies of CDC Form 154, Transcripts of High School Records, and official report of test results of GED shall be retained.

101010.10 Education Reports

Monthly

The SCEP shall prepare the monthly education report. One copy of the report shall be sent to the Superintendent, OCE, by the tenth working day of the month. The report shall reflect the month's educational activities. Changes in the format shall be permitted only with the specific approval of the Superintendent, OCE.

Quarterly

The SCEP shall prepare the quarterly report. One copy shall be sent to the Superintendent, OCE, by the tenth working day of the month following the end of the quarter. Changes in format shall be permitted only with the specific prior approval of the Superintendent, OCE.

The following reports are due quarterly:

- Budget report.
- Prerelease report.
- Library report.

Annually

The SCEP shall prepare the annual education report. One copy shall be sent to the Superintendent, OCE, by the tenth working day of the month following the end of the fiscal year. The report shall reflect the year's educational activities. Changes in the format shall be permitted only with the prior approval of the Superintendent, OCE.

101010.11 Regulations and Work Schedule Pertaining to Staff

State civil service rules provide for a minimum workweek of 40 hours.

The standard minimum hours of instruction for full-time civil service and contracting school district teachers shall be 30 hours per week. The Superintendent, OCE, shall approve in advance all exceptions to this schedule.

Preparation Time

In conformity with regularly accepted public school practice, all full-time academic and vocational instructors shall be allowed the equivalent of one hour per day preparation time. The SCEP, with the approval of the Warden, shall determine the time of day set aside for this purpose.

Time set aside for preparation shall be utilized for educational purposes. This shall include, but not be limited to, the following:

- Development of lesson plans.
- Prepare inmate timekeeping records.
- Writing or updating course outlines.
- Curriculum development, etc.

The SCEP, SVI, and the Supervisor of Academic Instruction shall see that the time is used for the purpose for which it is intended.

The education staff at each facility shall be given at least three days at the end of each quarter. This time may be used for such activities to include, but not limited to, the following:

- Complete quarterly student reports.
- Post student achievement on CDC Form 154.
- Attend facility/education training.
- Work on curriculum revision.
- Make industrial/program visitations.
- Prepare lesson plans.

Teacher Assignment

The SCEP shall assign teachers/instructors to educational programs.

Teachers/instructors shall be assigned to programs compatible with their credentials.

Special education programs shall be taught by appropriately credentialed teachers.

Teachers/instructors shall be provided duty statements and job descriptions for their assignments.

101010.11.1 Incentive Salary Increase

Teachers/instructors shall be considered eligible for an incentive salary increase if they:

- Receive less than Range F under the regular pay plan.
- Or receive less than Range P under the 10-12 pay plan (see Unit 3 contract).
- Complete six semester or nine quarter units of college level courses approved by their department, taken after appointment.

An employee shall receive only one incentive increase in any calendar year.

101010.11.1.1 Criteria for Course Selection for Incentive Salary Increase

Courses shall be selected to ensure direct contribution to the improvement and upgrading of the teacher/instructor in their work.

The teacher/instructor shall prepare a CDC Form 401, Request for Education Leave and/or Salary Incentive Courses, and route it to the SCEP after

supervisor approval. The teacher/instructor shall secure approval before enrolling in the course(s).

The SCEP shall determine that the course(s) will contribute to the improvement and upgrading of the teacher/instructor as it relates to their work before approving the request.

Incentive salary courses require the approval of the Supervisor of Academic or Vocational Instruction and the SCEP.

101010.11.2 Uniformed Personnel for Searches

The Department shall make efforts to provide uniformed personnel to perform required inmate searches. The Warden may require education staff to perform searches of their students on a temporary basis because of unavailability of uniformed personnel. In such cases, the facility shall provide instruction to the education staff.

101010.11.3 Facility Emergencies

During an extreme emergency, teachers/instructors shall be assigned as required to custodial or other duties for which they have received instructions.

During an emergency or lockdown, teachers/instructors may be required to perform other duties as needed, consistent with their professional skills or for which they have received instructions.

101010.11.4 Inmate/Student to Teacher/Instructor Ratios

Refer to Unit 3 Contract.

101010.11.5 Use of Teachers/Instructors for other than Instructional Purposes

The use of an academic teacher or vocational instructor for other than instruction of inmates requires prior written approval of the Superintendent, OCE (except during an emergency). The SCEP shall prepare such a request for the Warden's signature and submit to the Superintendent, OCE, for approval. The request shall contain:

- A clear and concise justification for the request.
- A description of the duties to be performed.
- The length of the assignment.
- An explanation of how the inmates currently assigned to the teacher/instructor shall be programmed.

101010.12 Business Budgetary Procedures

The SCEP shall, by the end of the third quarter, submit to the Superintendent, OCE, projected budgetary needs for the next fiscal year for each of the following areas:

- Law library.
- Inmate library.
- Academic operating expense.
- Vocational operating expense.
- Contract education.
- Education leave.
- Equipment.

101010.12.1 Preparation and Submission of the Academic Agreement and Contract Transmittal

Revised May 25, 1993

CDC Form 930, Academic Agreement shall be used in contracting academic education service with a school district.

Standard Form 15, Contract Transmittal and Pre-evaluation Form, shall be used and completed in the transmittal of the academic agreement.

Academic contract agreements shall be negotiated between the facility staff and school district boards of trustees or colleges for the ensuing fiscal year prior to the final date enacted for the initiation of the yearly contract for tenured teachers.

The total amount of the academic contract and/or contracts shall not exceed the facility's allotment for contractual services.

The academic agreement shall be negotiated within the maximum allowable amount. The maximum amount to be paid to the contractor, beyond that expended for teachers' salaries, shall be in keeping with the rules and regulations of the DOF.

101010.12.2 Accounting and Disbursement of Funds

Revised May 25, 1993

Each facility shall adopt and maintain the following attendance reporting procedure for day and/or evening contract teachers:

- The Graphic Arts Form 83, Daily Attendance Report, or the local cooperating school district's attendance form, if satisfactory to both the

local school district and the facility's Business Manager shall be used. After certification by the SCEP, one copy shall be forwarded at least once each month to the accounting office and one copy forwarded to the local school district.

- Invoices are to be submitted by the school district to the office of the Business Manager at least quarterly. The number of copies to be submitted is to be determined by the Business Manager.

The office of the Business Manager shall audit each invoice against the attendance records that have been credited by the education unit timekeeper.

For proper recording of payment for the services rendered, the school district shall record on the reverse side of the invoice a listing of salary payments to each district instructor showing name, date, and amount. The facility may also require the warrant number be shown on the invoice if local circumstances indicate this is desirable. The Business Manager shall record on the face of the invoice the date the contract is approved by the DOF.

The Business Manager shall maintain accounting records in order to keep the SCEP and the school district fully informed of the availability of funds specifically appropriated for maintaining the program.

The attendance records are to be retained with a copy of the invoice and shall remain on file with the Business Manager for a sufficient period of time to permit a complete audit by the DOF.

101010.13 Revisions

The Deputy Director, Division of Education, Vocations and Offender Programs, or designee shall be responsible for ensuring that the contents of this Section are kept current and accurate.

ARTICLE 2 — DIVISION OF ADDICTION AND RECOVERY SERVICES

Revised June 26, 1998

Updated April 5, 2007

101020.1 Policy

The Division of Addiction and Recovery Services (DARS) is established within the Department to serve as the centralized point of substance abuse program development, management, coordination, and administration of all program funds.

101020.2 Purpose

This Section describes the substance abuse program design, administration, goals, objectives, programs, and responsibilities of DARS.

101020.3 Responsibilities

Director

The DARS is managed by a Director who reports to the Chief Deputy Secretary, Adult Programs, and is responsible for establishing and maintaining CDCR's overall substance abuse program effort.

Primary Responsibilities

The DARS is the primary unit in CDCR with the following responsibilities:

- Develop CDCR standards for substance abuse programs to insure that inmates housed within CDCR's institutions/facilities and parolees supervised within the community receive consistent, quality programs likely to impact the drug use and crime continuum.
- Develop new and innovative programs and create pilot substance abuse programs in CDCR institutions/facilities and community settings.
- Monitor program implementation and audit program operation.
- Develop regulations implementing the operation of substance abuse programs in order to assure consistent program development.
- Serve as the centralized point of grant management for substance abuse related grant projects. In this role, DARS will seek and review potential grant sources that may provide assistance in furthering CDCR's plan.

- Establish a strategic plan to address offender need for substance abuse program services, strategic plan progress, and the status and delivery of program services to CDCR's offender population.

Resources

The DARS is responsible for maximizing the use of available resources to serve this critical population.

Linkages and Consults

The DARS establishes linkages and consults with other agencies and entities involved in associated activities, such as, the Department of Alcohol and Drug Programs (DADP), DMH, Department of Rehabilitation (DOR), and the Department of Social Services (DSS). Federal agencies, including the Center for Substance Abuse Treatment, Bureau of Justice Assistance, National Institute of Corrections, and the Department of Education, are also sought to consult in the expansion of CDCR's substance abuse effort.

New Programs

At the onset of the implementation of each new substance abuse program or effort:

Institutions/facilities and Parole Regions shall coordinate all new substance abuse program planning and implementation with DARS.

All programs shall include a plan, approved by DARS, to collect basic data that describes the inputs and outputs of the program. Program data are basic to determining the effectiveness of substance abuse programs for inmates and parolees, and to obtain and maintain public funding.

Annual Report

By December 31 of each year, DARS prepares an annual report describing and analyzing overall substance abuse efforts, including progress on the strategic plan and all available statistics. The report includes data for the fiscal year ending June 30.

101020.4 Substance Abuse Program Philosophy

Many factors influence the program philosophy of substance abuse program services in the correctional setting. The individual characteristics of program participants, expectations of correctional staff, demand for public safety, availability of funds, program content, program intensity, and cost-effectiveness of programs are principal elements influencing program philosophy and the utilization of services. The most effective strategy for addressing challenges posed by these diverse variables is the establishment of a comprehensive continuum of programs and services that are made available to inmates and parolees at various stages of their recovery from alcohol and other drugs.

The Department's comprehensive correctional substance abuse strategy provides a balanced distribution of services to both inmates and parolees by acknowledging that the participants represent the most severe segment of the substance abusing population. Extended exposure to a full array of substance abuse program services during periods of incarceration and parole provides the most favorable opportunity for reducing recidivism and criminal activity.

The program authorized by CDCR establishes an in-prison substance abuse service system that is fully integrated with a community-based service model. In addition, CDCR also agrees to administer and manage programs as described in cooperation with selected state and local government agencies.

101020.5 Substance Abuse Program Goals and Objectives

The primary goals of the substance abuse program are to reduce the incidence of relapse and recidivism among substance abuse program participants, promote pro-social behavior that will enable the participants to exhibit satisfactory conduct within the facility, and to successfully reintegrate back into the community.

The objectives of the substance abuse program are that services shall be made available to inmates and parolees addicted to alcohol and other drugs for their condition and its underlying causes.

101020.6 Program Administration

Program administration consists of the elements of interagency cooperation and program management.

Interagency Cooperation

In order to make effective use of existing community services and to accomplish the program design, CDCR works in cooperation with DADP, DOR, DMH, and DSS for the purpose of designing and funding programs and providing substance abuse program services.

The CDCR may disburse funds to local substance abuse service providers through an interagency agreement with DADP. DADP contracts with local government agencies to provide substance abuse program services through private and public providers.

Program Management

The DARS retains administrative responsibility for CDCR's substance abuse program contracts and serves as the primary liaison between private contractors and participating government agencies and representatives. DARS staff are responsible for coordinating private contractor access to institutions/facilities, parole field units, and offender records (when necessary/appropriate).

The DARS reviews and approves program content and operation to maintain a program structure within contract parameters and substance abuse program standards.

The DARS reviews and approves invoices submitted by contract agencies related to work performed on DARS managed programs.

The DARS monitors the collection of program and participant data and maintains records in cooperation with substance abuse program providers and participating government agencies. All programs funded through CDCR require the development, maintenance, and reporting of program management information as determined by DARS.

101020.7 Revisions

The Director, DARS, or designee, shall be responsible for ensuring that the contents of this Section are kept current and accurate.

CCR (15) (3) § 3901.9.4(e).

ARTICLE 3 — INMATE ACTIVITY GROUPS

Revised September 26, 1991

Updated April 5, 2007

101030.1 Policy

The facilities shall initiate leisure time inmate activity groups which promote educational, social, cultural, and recreational interests of inmates.

Group and individual activities which violate the law or rules and regulations of the Secretary shall not be permitted.

Inmate clubs, activity groups, associations, or other organizations within the facility are permissible only when specifically approved by the Warden and are in compliance with this Section. When reasonable cause exists, including but not limited to noncompliance with CCR, facility approved by-laws for the group, etc., the Warden has the authority to disband any previously approved club, activity group, association, or organization operating within the facility.

101030.2 Purpose

This Section provides standards for organization and proper administration of inmate activity groups.

101030.3 Approval of Activity Groups

Authority to approve the formation of inmate activity groups is restricted to the Warden.

101030.4 Group Plan of Operation

Any group of inmates desiring to organize and function as an activity group shall submit a plan of operation to the Warden for approval by the chain of command.

The group plan of operation shall conform to facility guidelines and include the following:

- The group's proposed name shall reflect the general nature and interest of the group.
- The purpose of the group, membership, frequency and type of meetings, size limitations, outside affiliation, and delineation of group's governing body.
- By-laws shall be reviewed at least annually by the Warden, or designee, and updated when changes are approved.
- The Warden can terminate an activity group for reasonable cause.

101030.5 Activity Group Criteria

Each activity group's plan of operation shall include and be consistent with the following criteria:

- Establishment and operation of any activity group requires agreement of a permanent full-time employee to serve as the group sponsor.
- One or more co-sponsors may also be required depending on the complexity of group activities.
- The activity group's purpose and activities shall not violate or conflict with laws, rules, and regulations of the Secretary, or the Department's procedures.

- The group members, or individuals representing the group, shall not advocate or support disruption of order or hinder lawful authority.
- Membership shall not be denied because of the inmate's race, color, creed, national origin, ancestry, sex, marital status, disability, religious or political affiliation, age, or sexual orientation.
- Membership fees, dues, or donations to the group shall not be a condition of membership or for participation in the group's activities.
- Any funds or property collected by the activity group shall be administered in accordance with DOM 101080, Charitable Fund Raising Campaigns.
- Group meetings and correspondence shall be conducted in a language readily understandable by the group's sponsor, co-sponsor, or other employee supervising the activity.
- A group shall be permitted only if it provides a benefit to the participants justifying the use of state staff time, materials and facilities. Determination of benefit shall consider the following:
 - Whether the group is unnecessary because the benefits are available through existing facility programs or activity groups.
 - Space is available for meetings and activities.
 - Participant's ability to repay state costs and meet future financial obligations.
 - Whether the group shall benefit or disrupt general facility operations and nonparticipating inmates.
 - Whether participation shall assist the inmate to return to a normal life upon release.
 - Whether the group shall interfere with normal programs established to meet the needs of the inmate work/training incentive program.

101030.6 Group Administrator

The Warden shall designate an associate Warden as Group Administrator to supervise the activities of all local inmate activity groups.

Responsibilities

The Group Administrator shall:

- Review proposed inmate activity group plan of operation and recommend in favor of or against approval by the Warden.
- Make personal contact with inmates, staff and outside participants to ensure that everyone concerned understands the plans of operation.
- Audit inmate group activities to ensure that plans of operation are followed.
- Select and train group coordinators and sponsors.
- Maintain a current list of approved inmate activity groups, including a list of members and officers of the groups, and a copy of their plans of operation.
- Review and approve or deny requests for outside participants to attend inmate group activities.
- Arrange for temporary supervision of groups when the sponsor cannot attend a scheduled meeting.

101030.7 Group Coordinator Responsibilities

The Group Administrator shall designate one or more staff members at not less than Lieutenant or CC-II level to function as Inmate Activity Group Coordinators.

The Group Coordinator shall:

- Schedule group meeting times and places.
- Assist in audit of group activities by frequent attendance of each group's meetings at least once each quarter.
- Screen requests for outside participant attendance at group meetings or special activities.
- Recruit and train personnel to act as Inmate Activity Group Sponsors and Co-Sponsors.
- Audit annually all group funds and expenditures.

101030.8 Group Sponsors and Co-Sponsors

Group sponsors and co-sponsors shall be full-time permanent employees who have completed probation.

Sponsors and Co-Sponsors shall:

- Submit a request to sponsor an inmate activity group to the group coordinator for approval.
- Learn their responsibilities as defined in this procedure.

- Review the group's constitution and by-laws to familiarize themselves with the group's philosophy, goals, and approved operating parameters.
- Review and approve all correspondence to and from the group.
- Assist inmates with preparation of proposed plans of operation which shall meet the criteria for approval by the Warden.
- Assist the group coordinator, the group administrator, and the Warden as necessary in their review and understanding of the proposed plan of operation.
- Ensure that constitution and by-laws are reviewed annually, updated when necessary, and submitted through the group administrator for approval by the Warden.
- Assist the group coordinator in scheduling meeting times and places.
- Attend all meetings held by the group or, if unable to attend, arrange for attendance and supervision by a co-sponsor or other authorized employee.
- Cancel any meeting for which proper supervision cannot be provided.
- Audit group's activities, attitudes and inclinations as reflected in the verbal and written matter of the group and its members.
- Report any deviation or diversion of the group's interest that are beyond acceptable limits or require the attention of other facility staff.
- Review requests for outside participation in group meetings or activities. Assist in identifying proposed guests and evaluate the impact of their presence on the group and security of the facility.
- Submit lists of proposed outside participants in advance of the meetings/activities to the group coordinator for approval.
- Require that outside participants receive orientation regarding participation in group activities.
- Supervise orientation of new group members on policies and procedures of the group.
- Maintain attendance records of outside participants and group members.
- Prepare and submit monthly activity report.
- Propose that publicity or promotional material shall not be distributed until approved and signed by the sponsor, who shall present it to the group coordinator before posting or distribution.
- Evaluate requests for copying or printing of group material. If a document is approved for reproduction, the sponsor shall sign each page and attach a signed note to the document indicating the number of copies authorized. Paper shall be provided by the group. The request shall be forwarded to the group coordinator for approval prior to duplication.
- Screen any written material, books, pamphlets, tracts or lesson plans, etc., including photographs, pictures, drawings or posters donated by outside participants as well as video cassettes, movies or other visual aids. Document approval or disapproval.
- Approve/disapprove and sign all group trust withdrawal requests.
- Submit pay vouchers to the group coordinator.
- Inform the group coordinator if no longer interested in sponsoring a group.

101030.9 Outside Participation in Inmate Activity Groups

The participation of outside guests in group meetings and activities shall be by the invitation of the group sponsor.

All guests shall be processed as described in DOM 101090, Volunteers.

The number of guests at any regular meeting or special event shall be approved by the Warden.

Annual Banquets

Each approved activity group may be allowed one banquet per year.

Charges for meals will be in accordance with DOM 54080, Food Services.

101030.10 Revisions

The Deputy Director, Facility Support, Division of Adult Institutions, or designee, shall be responsible for ensuring that the contents of this Article are kept current and accurate.

101030.11 References

CCR (15) §§ 3020, 3233, 3235, 3237, and 3263.

ARTICLE 4 – RECREATION AND PHYSICAL EDUCATION PROGRAMS

Revised July 1, 2003

Updated April 5, 2007

101040.1 Policy

Each Warden shall provide a recreation and physical education program that will maximize inmate participation under conditions that are safe and secure. Inmates may be afforded an opportunity to engage in a variety of activities consistent with their custody classification, privilege groups, security requirements, health status, and any documented or demonstrated special need.

Recreation and Physical Education programs are founded on six broad goals providing inmates opportunities for achievement through participation in a range of programs that promote the following:

- Physical activity.
- Physical fitness and wellness.
- Movement skills and movement knowledge.
- Social development and interaction.
- Self-image and self-realization.
- Individual excellence.

101040.2 Purpose

This Article provides staff responsibilities and criteria for the administration of institution/facility recreation and physical education programs.

101040.3 Responsibility Recreation and Physical Education Programs.

The Supervisor of Correctional Education Programs (SCEP) or designee shall provide overall supervision and coordination of recreation and physical education activities at their respective institutions/facilities. The SCEP shall:

- Coordinate all recreation and physical education activities.
- Prepare an annual operational budget.
- Supervise the selection, assignment, and training of inmate aides.
- Evaluate and utilize community resources.
- Maintain appropriate records of activities, inventories, and inmate participation.
- Ensure the security and control of program areas and scheduled activities.
- Maintain effective control and utilization of program equipment.

Arts-in-Corrections

Administrative oversight of the Arts-in-Corrections program is the responsibility of the Arts Program Administrator. Direct supervision of artist-facilitators and lead artists at each institution is the responsibility of the Community Resource Manager (CRM) or designee.

Handicraft Program

Administrative oversight of each institution's handicraft program is the responsibility of the Correctional Administrator, Business Services. Direct supervision of the program is delegated to an institutional handicraft manager.

101040.4 Recreational Activities

Inmate access to recreational programs shall be in accordance with the Inmate Work/Training Incentive Program (IWTIP) policy. Participation shall be voluntary, non-credit, accomplished during non-assignment hours, and be dependent on privilege level. Activities may include, but are not limited to, the following:

- Audiovisual programs.
- Visual and performing arts programs.
- Individual sports, such as track and field, jogging, and gymnastics.
- Dual sports, such as handball, horseshoes, table tennis, badminton, and shuffleboard.
- Team sports, such as baseball, basketball, soccer, softball, touch football, and volleyball.
- Social games, such as checkers, puzzles, dominoes, chess, and card games.

Precaution shall be taken to prevent injury during recreational activities. Activities involving unusual danger or risk shall not be permitted.

Gymnasium, field, and/or yard schedules shall be established to provide reasonable access for all eligible inmates. Recreational activities may be available seven days per week.

The Warden or designee may approve special events which feature visual and performing arts activities.

101040.4.1 Intramural Sports

Intramural sports may be offered for all eligible general population inmates.

Each institution shall establish guidelines to discourage inappropriate domination by any one inmate group. A designated staff person shall select and assemble individual teams.

Intramural sports may include handball, racquetball, basketball, softball, horseshoes, and similar group sports.

101040.4.2 Table Games

Table game leagues and tournaments may be organized institutionally. All eligible inmates may participate in such tournaments.

101040.4.3 Tournaments

Tournaments may be organized institutionally. The variety of competitive activities shall be rotated according to different interests, skills, and cultural considerations.

Announcements of upcoming special events shall be posted in designated areas accessible to all eligible inmates.

Awards and certificates of participation or accomplishment may be purchased with Inmate Welfare Fund monies and offered as awards to inmates participating in tournament activities.

Approved awards shall be delivered to the recipient inmate as soon as possible, but no later than 45 days following approval by the activity/contest coordinator.

101040.4.4 Handicraft

Refer to DOM Chapter 10, Article 5.

101040.4.5 Music Program

Musical activities are encouraged in those institutions with the appropriate facilities and equipment.

Under the supervision of designated staff, inmates may schedule practice sessions in designated areas.

101040.4.6 Movies/Videos

Movies and/or videos may be selected and scheduled for viewing, in advance, on a quarterly basis. This schedule shall be submitted through the established chain of command for approval by the institution head or his/her designee (reviewer) prior to the beginning of each quarter and the approved schedule shall constitute the institutional discretionary viewing list.

Only movies/videos with a Motion Picture Association of America (MPAA) rating of General (G), Parental Guidance (PG), or Parental Guidance (PG-13) may be considered for general viewing by the inmate population. Movies/videos with Specially Edited Down (SED) rating may be viewed in accordance with the provisions of this Section.

Movies and/or videos, which have not been rated or have been rated other than G, PG, or PG-13 and are intended for specified limited inmate viewing purposes, such as education or contracted service vendor programs, shall be previewed at the institution/facility level.

Previews shall be conducted by the Academic Teacher Recreation/Physical Education (ATRPE) or designee.

A movie or video not originally rated G, PG, or PG-13, but through editing has been "reduced" to the content equivalent of a G, PG, PG-13, or SED-R rating shall require no more than ATRPE previewing.

All other content or suitability issues may be resolved by the ATRPE through referral to an Institutional Movie Review Committee (IMRC). The IMRC will classify the movie as "acceptable" or "unacceptable." Movies/videos categorized "unacceptable" shall not be approved for general inmate viewing.

The IMRC membership designated by the institution/facility head shall minimally consist of the following individuals or staff representatives: female custodial staff, correctional custody ranks no less than sergeant, medical or mental health staff, and the Supervisor of Correctional Education Programs.

Regardless of a film's MPAA rating, those glorifying violence or considered inflammatory to the climate of the institution shall not be approved for viewing.

A department wide "discretionary showing list" and /or movie review committee may be established by the Secretary.

Inmate committees may be used to assist in the selection of specific movies/videos that are approved by the institution head.

Approval does not require that it be shown by an institution.

The selection or exclusion of a movie and/or video by an institution/facility may be challenged by members of the public by writing to the Secretary, appealed by inmates by following the inmate appeal process, and/or grieved by staff by pursuing grievance procedures in accordance with their collective bargaining unit's contract and/or memorandum of understanding.

101040.4.7 Television

State-owned television sets may be provided in dayrooms or other areas accessible to general population inmates. Televisions placed in these areas shall not be moved for service, repair, or replacement except by an authorized staff person.

Program schedules shall be decided by majority vote of the inmates in attendance in the dayrooms or other areas used for general population viewing at the time of the vote. A designated staff person shall supervise all inmate-voting activities and post the approved schedule near the television.

Program schedules shall not be moved or changed except by staff.

Any tampering with the television by an inmate, other than those necessary to adjust an approved program, shall be cause for disciplinary action.

101040.4.8 Activity Groups

Refer to DOM Chapter 10, Article 3 for educational, social, cultural, and community interaction-based activities.

101040.4.9 Arts-in-Corrections

The Arts-In-Corrections Program provides leisure time activities administered by the headquarters Arts Program Administrator (APA). This headquarters staff person provides overall supervision for the institutional artist-facilitators or lead artists who are the designated program contact persons. The APA shall provide support, assistance, and ensure activity compliance.

The CRM at each institution shall be designated as the immediate supervisor for the artist-facilitators and lead artists.

Art activities may consist of, but are not limited to, the following:

Literary arts, including poetry, creative writing, playwriting, and book arts.

Visual arts, including painting, drawing, printmaking, calligraphy, and graphic arts.

Performing arts, including music, theater, and dance.

101040.4.10 Weight Lifting

Inmate recreational weight lifting activities shall not be permitted at California Department of Corrections and Rehabilitation institutions/facilities.

101040.5 Recreation and Physical Education Programs

The institution's education department shall make available to eligible inmates a recreation and physical education program with adopted standards. These standards shall be based on six related disciplines: biomechanics and kinesiology; exercise physiology; motor learning; psychosocial development; growth and development; and the humanities.

An Academic Teacher, Recreation and Physical Education, shall coordinate and provide direct supervision of the recreation and physical education program.

The program shall be based upon the adopted Recreation and Physical Education Curriculum Framework adopted by the Board of Education. Course outlines shall be developed at each institution representing the institution's program. Daily lesson plans shall reflect the course outline.

Inmate access to physical education shall be in accordance with IWTIP policy and procedures. Participation shall be voluntary, non-credit, accomplished during non-assignment hours, and be dependent on privilege level.

Minimum unduplicated enrollment for physical education shall be determined by multiplying the adopted ratio and the adopted hours per day's factor, yielding total program participants.

Several components of the recreation and physical education program require specialized instruction and/or training. These components include, but are not limited to, the following:

Physical education (non-credit earning).

Physical fitness training program, (credit earning full-time assignment).

Fitness for life, (non-credit earning unless offered as part of a full-time education assignment).

Healthful living, (non-credit earning unless offered as part of full time education assignment).

Funding for these recreation and physical education components may be provided by the Education and Inmate Programs Unit, established by formula, and distributed as an annual allotment, which shall be made part of an institution's overall education program budget.

These education program components shall meet the adopted program-wide teacher/inmate ratio.

Whenever possible, instructional resources for these program components shall be compiled on a standard list and placed on contract.

101040.5.1 Physical Fitness Training Program

This training class is designed to evaluate, prepare, and test the physical and mental preparedness of inmates for admission into a Department of Forestry and Fire Protection Training Program and eventual assignment to a California State Conservation Camp as a firefighter, emergency transport vehicle attendant, or for support services.

Inmates shall possess a recent medical clearance authorizing their participation in emergency firefighting activities. This clearance, and the inmate's possession of a Minimum B custody designation, shall be conditions of transfer to any institution for placement in a Physical Fitness Training (PFT) class.

The SCEP or his/her designee shall provide supervision of PFT classes.

An Academic Teacher, Recreation and Physical Education, shall coordinate and/or instruct this program at each applicable institution. The assigned teacher shall be responsible for recording and reporting all training time and absences of inmates assigned under his/her supervision. A CDC Form 191, Time Card, shall be used to record the training time of assigned inmates.

The PFT involves competency testing in activities measured by specific count, time frame, or strength demonstration. These measured activities shall be specified in the adopted curriculum framework.

An inmate must successfully complete PFT prior to being admitted into the forestry training program.

101040.6 Recreation and Physical Education Equipment

Each institution/facility may provide the clothing, equipment, and supplies necessary for a variety of recreational and physical education activities. Strict accountability of items issued to inmates shall be maintained by utilizing a staff-supervised checkout system.

101040.7 Conservation Camp Programs

Conservation camps shall provide recreation and physical education program opportunities for their respective inmate populations. These opportunities shall be compatible with camp operations, staffing, and the geographic location of the camp.

101040.8 Inmate Aides

Inmate aides are valuable resources when trained and properly supervised. Inmate aides shall be selected on the basis of their relationships with other inmates, previous work record, attitude toward staff, and desire to work.

These aides may serve as program assistants, activity leaders, and sports officials performing the following functions:

Supply clerks, issuing program supplies under the supervision of designated staff.

Record keeping of equipment and supplies under the supervision of designated staff.

Preparation and distribution of program announcements and flyers.

Facility and equipment cleaning and maintenance duties.

101040.9 Recreation Committee

A recreation committee may be established at each institution. Composition should include staff and inmates. This committee may be used to provide input and offer recommendations on recreational and physical education programming.

Inmate participants shall be composed of a cross-section of inmates eligible to participate in the program.

101040.10 Community Interaction

Community participation in institutional recreation and physical education activities shall be encouraged. Community volunteers may be utilized in accordance with institution/facility's Operational Procedures.

101040.11 Revisions

The Superintendent, Office of Correctional Education or designee, shall ensure the contents of this Article are current and accurate.

ARTICLE 5 — HANDICRAFT PROGRAMS

Effective January 2, 1990

Updated April 5, 2007

101050.1 Policy

The Department permits inmates' constructive use of their leisure time activities. A handicraft program is established to provide a controlled means for obtaining the necessary materials and equipment and for the release of manufactured articles.

101050.2 Purpose

The handicraft program allows constructive use of the inmates' leisure time by affording them a program in which they may expand their creative potential. The program provides a means for the inmates to earn money to help supplement their financial resources. This Section provides for proper organization and administration of the handicraft program.

101050.3 Responsibility

Revised July 20, 1992

The inmate handicraft program is to be operated under the administration of the Associate Warden, Business Services. The handicraft manager provides direct supervision and implementation of the program.

101050.4 Inmate Eligibility

Inmates assigned Work/Training Group A or B, by a classification committee, are eligible to participate in the handicraft program. Any inmate who abuses their handicraft privileges shall be subject to loss of eligibility to participate. Inmates assigned to AD-SEG are not eligible to participate in the handicraft program.

101050.4.1 Approval of Inmate Applicants

Revised July 20, 1992

The handicraft manager, after interviewing applicants, shall approve/disapprove the CDC Form 165, Application for Handicraft Privilege.

The handicraft manager shall grant approval only after he/she is satisfied that the applicant:

- Possesses the manipulative potential required in the craft.
- Intends serious participation in the program.

If the application is disapproved, it is returned with an explanation to the inmate. If approval is granted, the handicraft manager shall forward the application to the captain for approval/disapproval.

101050.4.2 Revocation of Privilege

Inmates in violation of handicraft program policies shall be suspended from the program. Such suspension through disciplinary action shall be for a specific period of time in keeping with the seriousness of the specific violation. Participation in any handicraft program or project may be terminated or suspended as a result of classification committee action.

- Upon suspension or termination of handicraft participation through disciplinary action, classification committee action, or upon the inmate's voluntary termination, all personally owned handicraft tools and materials shall be shipped to any person in the community designated by the inmate at the inmate's expense. Tools and materials shall not be retained in long-term storage within any facility.
- The handicraft manager shall remove from the rolls those participants who have become inactive by:
 - Failing to place an order for three months; and/or
 - Failure to offer an item for sale for a three-month period.

101050.4.3 Number of Inmates Allowed to Participate

Inmate participation is limited by the available handicraft space in each facility. Fifty percent of the inmates participating in handicraft may be involved in in-cell hobby only. No waiting lists shall be maintained. When inmate participation drops, open enrollment periods shall become available on a first come/first serve basis.

101050.4.4 Indigent Inmate Loan Requests

Loan requests may be submitted to the handicraft manager and if approved, the manager shall sign the request and forward the request to the trust office for verification of indigent status. After verification the trust office shall sign and forward the request to Business Services for final disposition. If approved, the handicraft manager shall submit the request with a copy of the CDC Form 167, Handicraft Order, to the Inmate Welfare Fund accounting office. The loan shall be posted on the inmate's trust account as an obligation

for the hobby order until the loan is paid in full. The amount of the loan will reduce the available budget for the institution's hobby program.

- When the loan is made, the inmate shall complete a CDC Form 193, Trust Account Withdrawal Order.
- If the inmate is transferred, paroles, escapes or expresses a desire to withdraw from the program prior to repayment of the loan, all raw materials shall be retained by the handicraft manager.
- A loan will only be deemed uncollectible if/when the borrowing inmate has either paroled or discharged from the CDCR.

101050.5 Handicraft Activity

All activities in the manufacture of finished handicraft articles shall occur only during leisure hours. Inmates shall not participate in handicraft during their normal work assignments.

Shop Activity

- The handicraft manager shall publish a schedule of operations for the handicraft shop/classroom that allows maximum access by inmates during their off-duty hours.
- The area shall be cleaned daily prior to closing. Failure of any inmate to participate or assist in the shop clean-up shall result in suspension of their handicraft privileges.

Living Area Activity

Handicraft work done in-cell shall abide by the following guidelines:

- Shall have a handicraft inventory sheet listing all material authorized:
 - One copy shall be taped to the storage locker.
 - One filed in the participant's handicraft folder in the hobby shop.
 - One filed with the captain.
 - One in the inmate's possession when transferring material between in-cell area and the handicraft shop.

Inventory sheets require the following signatures:

- Handicraft Manager.
- Captain.

Only those items authorized and listed on the inventory sheets shall be allowed. All other handicraft items shall be confiscated. The volume of handicraft in the cell shall conform to CCR 3191.

101050.5.1 Handicraft Activity Card

All inmates approved for the handicraft program shall be issued a CDC Form 133, Inmate Activity Card. All CDC Form 133's shall have an expiration date of six months and it shall state the type of handicraft the inmate is authorized to perform. Requests for renewal shall be reviewed by the handicraft manager. Inmates who have not completed any finished articles shall be deemed disinterested and shall not be eligible for renewal for the next six months.

101050.6 Items to be Manufactured

Items to be manufactured shall be limited to those approved by the handicraft manager. Criteria for approval shall be the ability of the inmate, cost of the materials, size, tools, and availability of the finished items. Specific articles that may be manufactured are as follows:

- Leather craft: Wallets, purses, belts, change purses, key cases and holders, dog collars, moccasins, sandals, photo albums, bowling bags, brief cases, watchbands, pouches and whistle snaps.
- Woodcrafts: Picture frames, jewelry boxes, inlay and overlay work, lamps, chess sets and checker boards.
- Jewelry: Earrings, Necklaces, bracelets, pins, tie clasps, belt buckles, rings, broaches, pendants and key chains.
- Art: Painting (Oils, pastels, water colors, and charcoals), drawings, engravings, and black prints.
- Knitting and weaving: Caps, scarfs, purses, sweaters, afghans, pictures, mittens, doilies, bookmarks, glass cases, rugs, and baby items.
- Ceramics: Mosaics, cups, mugs, bowls, plates, wall plaques, statuary, lamps, figurines, ash trays, and jewelry boxes.
- Cellophane: Jewelry boxes, photo albums, and picture frames.
- Macramé: Wall hangings, plate hangers, belts, bags, mats, and curtains.
- Models: Cars, trucks, boats, and planes.

Any article not listed above shall be approved by the handicraft manager before the ordering of supplies and materials.

Handicraft File

A handicraft file shall be initiated for each inmate in the program. This file shall contain all documents pertaining to:

- Special orders.
- Agreements signed.
- Loan applications (if applicable).
- CDC Form 166.

Inventory sheet listing all material authorized for handicraft work done in-cell.

101050.7 Handicraft Tools and Materials

Approved tools and materials for the handicraft program shall be purchased through approved vendors only. Items received from other sources shall be returned to sender or donated to the Inmate Welfare Program. All orders for purchases of handicraft tools and material shall be submitted to the handicraft manager (see CDC Form 167, Handicraft Order, and CDC Form 167-A, Trust Account-Special Purchase Order Only). The handicraft manager and Associate Warden of Business Services shall determine the minimum dollar value for initial handicraft purchases.

Note: The manufacture or alterations of tools shall be prohibited.

101050.7.1 Surcharges

A ten percent charge shall be added to the cost of handicraft tools and materials for handling expenses and shall be deposited into the IWF. An additional charge determined by the handicraft manager shall be added to cover the vendor's handling, tax, insurance and postage. A "hold" to cover all costs shall be placed on the inmate's trust account while the order is being processed. All money left over after payment shall be refunded to the inmates account. Inmates submitting orders with non-sufficient funds shall not be allowed to reorder for 60 days.

101050.7.2 Funds of Inmates Transferred While Awaiting a Handicraft Order(s)

When an inmate transfers after placing an order, the merchandise upon arrival shall be inventoried by the handicraft manager and then forwarded to the institution of transfer. The funds to cover the cost of the purchase shall be retained at the sending institution's trust office until the vendor has been paid. Any money left over after payment shall be forwarded to the trust office at the new institution and accredited to the inmate's account.

- No orders shall be cancelled after submission to the vendor.
- To avoid possible complications and delays in preparing accurate release budgets, handicraft orders shall be submitted and ordered no later than 90 days prior to the inmate's release date.

101050.7.3 Handicraft Items from Other Institutions

The handicraft manager shall approve and inventory all handicraft items received from other institutions. He/she shall store the items until the inmate has been approved for the handicraft program. When the inmate receives the activity card, he/she shall be given the items and shall be permitted to keep them per institutional procedure. Approved tools that are not permitted outside of the handicraft shop shall be stored in appropriate lockers provided. Any tool with a cutting edge or sharp point in excess of 1-1/2" in length shall not be permitted to be in the possession of the inmate outside the hobby shop. No tools shall exceed 4-1/2" overall in length. Any item(s) not approved shall be disposed as follows:

- May be donated to the handicraft program.
- May be mailed to an approved correspondent at inmate's expense.

101050.7.4 Institutional Handicraft Equipment

Handicraft equipment supplied by the institution shall be operated only by inmates specifically authorized by the handicraft manager.

Tools and equipment shall be allotted to the handicraft participants on a first come, first serve basis, with a sign-up list kept by the handicraft manager. The Manager shall monitor the time spent on the machines and ensure that they are not monopolized for an unreasonable length of time by one person.

101050.7.4.1 Handicraft Equipment Safety Policy

Failure to safely operate the equipment with reasonable care and proficiency shall be reason for suspension of privileges for further use. All machines shall have safety devices in place when being operated. Safety goggles shall be worn at all times when operating equipment.

- No repairs shall be made by inmates on any of the equipment other than minor adjustments which shall be performed under the supervision of the handicraft manager.
- Misuse of equipment shall also be reason for suspension of privileges and could result in the inmate being charged for necessary repairs.

101050.7.5 Unauthorized Materials

Any handicraft materials, tools or projects in the possession of an inmate, who is not assigned to the handicraft program, shall be deemed contraband

and shall be confiscated. Inmates who loan or give their handicraft items to another inmate without prior specific approval in writing by the handicraft manager shall be subject to removal from the program, and the items confiscated.

- All correctional employees have the authority to confiscate unauthorized handicraft materials, tools, or projects. The confiscated items shall be tagged with the inmate's name and number and then placed in receiving and release for disposition by the handicraft manager.
- Items confiscated shall be disposed of in a manner which includes, but is not limited to the following:
 - Sale in the handicraft store with proceeds to IWF.
 - Donation to a charitable organization.

101050.7.6 Volatile Substances

No handicraft volatile liquids or substances shall be stored in any inmate's living quarters. All volatile substances shall be stored in the handicraft shop, adhering to the controls as set forth in DOM 52030.

101050.7.7 Tool Control

Tool control of state owned tools or inmate owned tools are subject to the provisions as stated in DOM 52040.

101050.7.8 Volume of Handicraft Items

An inmate's handicraft articles, tools, and materials shall not exceed the amount that can be stored in designated storage areas of the facility.

Handicraft materials and equipment when combined with other personal and state property shall not exceed six cubic feet in the inmate living area.

101050.8 Inventory Requirement Handicraft Ledger Card (CDC Form 166)

All handicraft tools and materials received for inmates (purchased or donated) shall be itemized on a CDC Form 166, Handicraft Ledger Card. Upon completion of a handicraft item, an entry shall be made on the CDC Form 166 stating what was completed, cost, and date of completion. The disposition of the item shall also be entered on the form, i.e., donated, sold, mailed out or transferred to individual's personal property. If the item is sold, the receipt number from the bill of sale shall be posted on the form.

If an inmate is authorized to have handicraft work in the cell, all handicraft tools and materials received shall be itemized on a CDC Form 166-A, In Cell Handicraft Ledger. The CDC Form 166-A shall be completed in the same manner as described above for the CDC Form 166.

101050.9 Paroled or Discharged Inmates

Inmates paroled or discharged shall ship, at their own expense, personal handicraft materials prior to their release date or may carry the materials with them upon release. All handicraft materials shall be inventoried and packed by the handicraft manager then delivered to the receiving and release officer. A copy of the list of inventoried materials shall be placed in the inmate's handicraft file and forwarded to the records office for further disposition.

101050.10 Transferred Inmates

Upon receiving notice that an inmate is to be transferred, the handicraft manager shall gather and inventory all the inmate's tools, and raw materials for packing. A copy of the inventory list shall be placed in the handicraft package, a copy in the inmate handicraft files and a copy forwarded to the records officer to be sent to the institution of transfer. Inmates, at their own expense, shall either ship materials to the institution of transfer or to an approved correspondent. They may also donate them to the inmate handicraft program. The handicraft manager shall make arrangements for the packages to be shipped.

Paroled, discharged or transferred inmates shall have thirty days prior to and thirty days after departure to contact the handicraft manager to determine disposition of their hobby materials and tools. If the handicraft manager is not contacted within the time limits, the inmate's hobby possessions shall be considered abandoned property and shall be turned over to the IWF.

101050.11 Inmate Death

Upon notification of the death of an inmate who was involved in the handicraft program, the handicraft manager shall gather, inventory and pack all of the tools, raw materials, finished and partially finished articles belonging to the deceased. The package(s) shall be forwarded to the institution property room. A copy of the inventory sheet shall be attached to the package and a second copy shall be forwarded to the institution's records office with the inmate's handicraft file.

101050.12 Stolen Articles

Stolen or lost handicraft materials, tools, and articles shall be reported immediately by the inmate to the handicraft manager. He/she shall record the missing items and route a memorandum to the unit/division administrator

listing the description and other information concerning the theft or missing articles.

101050.13 Repairs

Articles purchased in the handicraft store which are discovered to be defective may be returned with receipt within 60 days of purchase for necessary repair, alteration or renovation.

- Other repairs or alterations of purchased items may be done at a fair charge to the inmate. Sale slips shall accompany all items returned for repair.

101050.14 Donations Citizen

Only the Warden, delegated representative, or the institutional CRM may accept a gift/donation from private, local contributors. When a gift/donation is deemed appropriate for acceptance, the CRM shall complete the CDC Form 922, Authorization to Accept Gift/Donations, following the procedures set forth in DOM 101110.

Inmates

Inmates may also donate handicraft materials and tools to the institution handicraft program. Such articles shall be controlled by the handicraft manager, become the property of the State, and shall be utilized in the same manner as other state owned tools and materials.

101050.15 Gifts

Correspondent/Visitor

Inmates may give gifts of handicraft items produced by themselves to any correspondent or visitor by "gate pickups and mail outs" within the following limits:

- Gate pickups: No limit on gate pickups. Packages remaining at the entrance gate/reception desk for more than two weeks shall be returned to the inmate.
- Mail outs: No limit on mail outs, but all shipping and wrapping charges shall be prepaid by the inmate by signing a CDC Form 193, Trust Withdrawal Slip.
- All gifts shall be searched and sealed by the handicraft manager prior to mailing or gate pickups. All gate pickups and mail outs shall be at the inmate's risk.

Inmates

Inmates, with prior approval of the handicraft manager, may give, donate, or loan handicraft tools and materials to other inmates who are properly enrolled in an approved handicraft program. The recording of transactions shall be made by the handicraft manager.

No gift may be given to or be accepted by an employee of the Department.

101050.16 Inmate Personal Possession

Inmates in the handicraft program may transfer completed articles to their personal possession if such articles conform to DOM 54030. A personal property receipt shall be initiated by the handicraft manager and sent to the property room/Receiving and Release per institutional procedures. Stockpiling of finished products shall not be allowed.

101050.17 Handicraft Sales

Items to be placed on sale in the handicraft store shall be submitted to the handicraft manager for approval. The selling price shall be established jointly by the inmate and Manager. The maximum number of articles allowed to be placed in the handicraft store shall be determined by the handicraft manager based on available space and size of item.

- Inmates, 30 days prior to parole/transfer, shall notify the handicraft manager as to the disposal of such articles. Inmates shall not leave articles for sale after their departure.

101050.17.1 Handicraft Inventory Card

The CDC Form 168, Handicraft Inventory Card shall be filled out for each item placed for sale. Items shall be logged on the inmate's card, and shall be initiated by the inmate and the handicraft manager.

Sale items shall be issued an inventory number. The inventory card is a three-part form and all sections shall be completed by the manager when an item is placed in the handicraft store for sale.

The card shall be distributed as follows:

- Part one of the card with the item description and approved price shall be completed and forwarded to the trust office where it shall be retained.
- Part two shall be attached to the article showing sale price when it is placed for sale in the handicraft store. When the item is sold, a copy shall be attached to a copy of the sales receipt and forwarded to the trust office. The sale price shall be verified to correspond with the amount shown on part one of the inventory card prior to posting the income on

the inmate's account. If a discrepancy exists, it shall be resolved at that time by the trust office and the handicraft manager.

- Part three, the inmate's receipt, shall be given to the inmate when the item is placed in the handicraft store. The inmate shall retain this receipt in his/her possession and shall turn it in to the handicraft manager at the time the item is sold or removed from the store.

A proper balance and relationship shall exist between inventoried articles and mail out, sales, and purchases. If such a balance does not exist, an investigation shall be initiated per institutional procedures and directed by the handicraft manager.

101050.17.2 Sales of Displayed Handicraft (CDC Form 168)

Sales of handicraft items shall be limited to those items on display in the Handicraft Store, annual institutional arts and crafts shows, shows in public buildings, fairs or on property operated by a non-profit organization. All proceeds from handicraft sales shall be returned to the institution. No person or organization sponsoring a show shall receive a commission or profit from the sale of handicraft items directly or indirectly.

- A ten percent surcharge shall be added to the established purchase price on all articles placed on sale. When the article is sold this surcharge shall be deposited to the IWF.
- At the time of sale, a sales receipt shall be completed and include the following information:
 - Date.
 - Customer's name.
 - Inventory number.
 - Quantity and brief description of the item.
 - Net price.
 - Sales tax and total price.

Paintings shall include different types of pictures, drawings, sketches and etchings with any frames that are attached.

The following procedures and rules shall apply:

- Purchase of handicraft articles shall be paid for with cash, money order, or cashier checks.
- The IWF shall not be used to compensate any losses in the sales store operation.
- Handicraft articles on display for 3 months may be deemed as unsalable by the handicraft manager and returned to the inmate for approved disposition. Appropriate remarks shall be placed in the inmate's handicraft ledger at the time of disposition.
- The net money received by an inmate for the sale of handicraft articles shall be placed in the individual's trust account.
- All sales shall be recorded in the log book in the handicraft store at time of sale and the handicraft manager shall keep a duplicate log of sales receipts for inventory purposes.

101050.17.3 Special Orders

Special orders between employees and inmates shall first be approved by the handicraft manager and the Warden, or delegated representative, prior to the inmate commencing work on the item. Any contracts an inmate wants to enter into with other than an employee shall first be approved by the Warden or delegated representative. The following shall apply:

- Inmates shall use only material purchased from their own funds to manufacture items specified in the contract.
- The CDC Form 1230, Special Handicraft Contract, shall be assigned an inventory number and filled out in quadruplicate by the handicraft manager who shall obtain the signature of both the contracting employee and the inmate. The price of the item(s) being produced shall be agreed upon and stated on the contract before signing. Prices shall not be changed once they have been established.
- The handicraft manager shall sign the contract and submit it to the Warden or their delegated representative for approval. After acquiring the required signature, the handicraft manager shall distribute copies as follows:
 - Original: Associate Warden, Business Services.
 - Copies: Handicraft office, employee, and inmate.
- The inmate shall purchase materials and commence work on the contracted item(s).
- The handicraft manager shall notify the employee when the contracted items are completed and shall deliver them to the Handicraft Store where the employee shall pick up and pay for the items. No items shall

be given to an employee until payment is made in full. The receipt shall be completed and distributed accordingly with the original copy going to the employee.

- All contracted items must be picked up and paid for within thirty days of notification.
- The handicraft manager shall monitor the contracts and insure that they are completed within the time specified.

101050.18 Inmates' Sub-Contracting

Inmates shall not employ any other inmate(s) in the manufacturing of any handicraft article(s). Inmates may collaborate in the manufacturing of handicraft articles only with prior approval of the institution handicraft manager. All inmates involved in the production or creation shall share in any profit as determined by the institution handicraft manager.

101050.19 Handicraft Store

Completed handicraft articles shall be sold through the handicraft store. The sales shall be recorded on a CDC Form 169, Handicraft Daily Sales Report which shall be prepared in triplicate by the handicraft manager.

Distribution shall be as follows:

- Original to IWF, accounting officer.
- Duplicate to Trust Officer.
- Triplicate to handicraft file.

101050.19.1 Proceeds from Sales

The net amount of monies received by an inmate for the sale of handicraft articles after deductions for handling costs shall be considered as proceeds. Proceeds shall be placed in the inmate's trust account with the exception of those items manufactured from state owned material. Proceeds from these articles shall be deposited to the IWF.

101050.19.2 Sales Tax

Completed handicraft items when sold are subject to sales tax, which shall be collected and remitted to the BOE. Since there will be a duplicate payment of tax on the materials that go into handicraft items that are sold, an adjustment for this duplicate tax may be made when reporting to the BOE.

Materials purchased for handicraft items are also subject to sales tax. If the vendor does not operate under a sales tax permit, the "use tax" is to be accrued and reported to the BOE at the end of the fiscal year. If the handicraft item is not sold, no additional sales tax will be collected.

101050.19.3 Cash Shortages

The IWF shall not be used to reimburse cash or the value of handicraft items lost or stolen from handicraft stores or for checks received from handicraft sales that become uncollectible.

101050.19.4 Store Inventory

The store shall be inventoried at least quarterly by the handicraft manager and annually by the Accounting Officer of the specific institution.

101050.20 Arts and Crafts Shows and Exhibits

Institutions shall hold no more than two arts and crafts shows annually. All of the proceeds from handicraft sales shall go to the institution for disbursement per this Section. No individual or organization shall receive a commission or profit from the sale of handicraft, directly or indirectly.

Each institution or facility may hold one trade fair or art exhibit each year at the institution or facility, in addition to the approved arts and crafts shows, in public buildings, at fairs, or on property operated by nonprofit associations at which no sales are made.

101050.20.1 Length of Shows and Exhibits

Shows and exhibits at institutions shall be limited to four consecutive days, including Saturday and Sunday, outside exhibits may be extended to coincide with the normal period of the particular event, such as a state or county fair. It is desirable that institutions in the same general locale coordinate their plans for shows and exhibits in order to avoid conflict in dates.

101050.20.2 Number of Displayed Articles

In order that the maximum number of inmates have an opportunity to display handicraft items at art shows or public displays, the number of items which any one inmate shall be permitted to display, shall be limited to ten regardless of value.

101050.20.3 Sponsorship

The handicraft manager shall organize the exhibits/shows under the general supervision and sponsorship of the Associate Warden, Business Services.

101050.20.4 Participants

The exhibits/shows shall be restricted to inmate participants only.

- Each item offered for sale shall have the price established at the time it is submitted for entry. The price must be realistic and controlled by the handicraft manager. No price changes will be permitted. Ten percent is added to the inmate's asking price for deposit in the IWF.
- Sales shall be handled as described in DOM 101050.20.

101050.20.5 Publicity

Newspapers and TV stations are usually interested in the handicraft shows. Their staff is invited to review the entries and interview the inmate artists, if appropriate.

101050.20.6 Judges

The Associate Warden, Business Services and handicraft manager may select a panel of outside judges from the local community. Judging shall be prior to the public showing. The number of awards shall be based on entries.

101050.21 Revisions

The Deputy Director, Division of Support Services, or designee shall ensure that the content of this Section is accurate and current.

101050.22 References

PC §§ 2601(a), 2813, and 5006.

ARTICLE 6 — RELIGIOUS PROGRAMS

Revised July 20, 1992

Updated April 5, 2007

101060.1 Policy

The Department shall make a reasonable effort to provide for the religious and spiritual welfare of all interested inmates.

101060.2 Purpose

The purpose of this Section is to provide guidelines for the religious program.

101060.3 Responsibility

Wardens are responsible for the religious programs in the institution and conservation camps. They shall meet quarterly with staff chaplains and Native American Spiritual Leaders.

The Chief Deputy Warden or an AW, shall provide supervision of the staff chaplains, intermittent chaplains, and part-time chaplains.

Staff chaplains shall develop, supervise, and operate their assigned religious programs.

101060.4 Chaplain and Native American Spiritual Leaders' Duties

The pastoral duties of a chaplain and Native American Spiritual Leader shall consist of the following:

- Conducting worship:
 - Regular daily and/or weekly worship services, special religious services on religious and national holidays, interfaith services, memorial services, and funeral services.
- Administering Sacraments:
 - Baptism, Confession, Communion, Confirmation, Sacrament of the Sick and Marriage.
- Pastoral visiting:
 - Hospital, work programs, visiting areas, housing units, camps, group activities, and families of inmates.
- Religious education:
 - Scripture studies, liturgy, history, comparative religion, religious values, contemporary issues, and sacred music.
- Counseling:
 - Individual, family, marital, prerelease planning, and other pertinent counseling issues.

101060.4.1 Duties of Chaplain in Case of an Inmate Death

See DOM 51070, Death, for procedures.

101060.4.2 Privileged Communication

Clergy have the right to privileged communication in the performance of their duties to the extent that the information in no way threatens or hinders inmate lives, staff lives, or in any way breaches the security of the facility.

101060.4.3 Ecclesiastical Responsibilities

The staff chaplain is responsible in his ministry to the source of his ecclesiastical endorsement and to the Wardens. This dual role shall not impose upon the institution a program in conflict with good correctional management.

101060.4.4 Pastoral Duties—Officiating at Marriages

Staff chaplains may officiate at the marriage of inmates. However, the staff chaplain, by virtue of religious affiliation, shall establish the criteria consistent with the provisions of DOM 101070, which shall be met by the candidates, if the staff chaplain is to officiate. Staff chaplains shall provide their supervisors with these criteria.

See DOM 101070 for procedures.

101060.4.5 Funerals and Memorial Services

Chaplains and Native American Spiritual Leaders may, with authorization of the Warden, conduct or coordinate funerals and/or memorial services for deceased inmates and/or their families.

101060.4.6 Pastoral Services to Parolees

Staff chaplains and Native American Spiritual Leaders may minister to parolees and their families with the approval of the Warden and the RPA of the P&CSD.

101060.4.7 Pastoral Services to Employees

Staff chaplains and Native American Spiritual Leaders may minister to employees who make personal requests.

101060.4.8 Pastoral Administrative Functions

Staff chaplains and Native American Spiritual Leaders shall be responsible for management of their offices, preparing and submitting reports, incoming and outgoing correspondence, and record keeping.

Staff chaplains and Native American Spiritual Leaders shall:

Budget

Be required to submit their budgetary requests in writing through their supervisors.

Facility Emergencies

Be available to assist as required in institutional emergencies as far as the dignity of their office and conscience will permit.

Serve on Various Committees

Staff chaplains and Native American Spiritual Leaders may be called upon to serve on the institution classification committee, be a member of various institution committees, attend institutional staff meetings, and serve on departmental committees or task forces.

Working Hours and Training

They may be required to work irregular hours due to the nature of their profession, attend religious retreats and conferences to maintain ordination and certification status, develop training opportunities for clergy, theological students, and religious volunteers where such programs provide a helpful service to the religious activities of the institution.

They are not required to participate in firearm or physical training.

101060.5 Religious Program Activities

The religious programs shall include activities that will encourage inmate participation. The activities may include the following:

- Regular and special religious worship services.
- Special religious observances of the faith group.
- Religious education.
- National commemorative services.
- Interfaith services.
- Meditation services.
- Religious literature distribution.
- Outside religious group participation.
- Self study religious courses.
- Speech forums.
- Service projects.
- Religious interest groups.
- Religious societies and organizations.
- Participation in community betterment programs.

To implement the religious activities program, the Wardens may obtain the following qualified persons:

- Muslim, Jewish, Catholic, Protestant chaplains and a Native American Spiritual Leader on a full-time, part-time, or intermittent basis.

- Volunteer non-paid community clergy and/or religious or spiritual leader representatives.

- Inmates.

101060.6 Worship Services

Chaplains and Native American Spiritual Leaders shall be responsible for:

- Organizing, scheduling, and conducting the worship services and religious programs appropriate to their faith.
- Approving the scheduling and conducting of worship services and religious programs by volunteer community clergy and volunteer religious representatives.

101060.6.1 Scheduling of Worship Services

Reasonable time for religious services, in keeping with institution security and other normal and necessary operations and activities within the institution, shall be allowed.

Insofar as possible, other institutional activities shall not be planned which will conflict with or disrupt scheduled religious services.

101060.6.2 Inmate Assistant

Inmates may assist in conducting worship services and in the religious programs or as "Sweat Leaders."

101060.6.3 Use of Inmate Ministers

In the event an officially ordained chaplain of a particular faith cannot be obtained to conduct services within the institution for that faith, the Warden may at his/her discretion, and subject to such controls as are reasonably required for institution security, designate a qualified inmate to minister to the religious needs of that particular faith.

In determining the qualifications of an inmate to conduct such services, the Warden shall, wherever possible, seek the advice and counsel of outside religious leaders of that faith.

No inmate shall be assigned as a minister or as a religious counselor on a full-time basis in lieu of regular institution work and program assignment, nor shall any inmate who is approved to minister to the religious needs or interests of other inmates be considered as a state employee or be paid by the state for his or her services.

101060.6.4 Inmate Attendance

Revised October 14, 2009

Inmate attendance in the religious program shall be voluntary. Institution heads shall make every reasonable effort to provide for the religious and spiritual welfare of all interested inmates, including, but not limited to, affording inmates a reasonable accommodation to attend a scheduled Religious Service if they are unable to do so due to conflicting work/education assignments. Reasonable accommodation may include, but is not limited to, modified work schedule, use of accrued time or allowable breaks, granting of a job/assignment change, changes of regular days off, etc. Use of regular accommodation shall in no way adversely impact an inmate's credit earning status. The use of excused time off (ETO) for routine religious services shall be limited to instances where it is not possible to change the conflicting work/education assignment.

For inmates with work assignments outside prison grounds, a reasonable accommodation to attend religious programs shall be limited to an assignment change. Certain assignments may only permit the granting of a job/assignment change as a means of providing reasonable accommodation. This would apply when permitting an inmate to leave the job site is not practical and is unduly burdensome to program operations. Examples include, but are not limited to the following assignments:

- Conservation Camps during the course of firefighting efforts.
- Community Work Crews.
- Other Off Reservation Work Details.

101060.7 Special Religious Services/Programs

Religious services/programs may be conducted in special areas of the institution when an individual or a group of inmates cannot participate or attend the regular institution religious services/programs.

The staff chaplain and Native American Spiritual Leader shall be responsible for establishing religious services and instruction for individual inmates housed in a special housing unit. These services shall be coordinated through the unit captain and approved by the associate Warden.

101060.8 Location and Use of Chapel

Chapel facilities are designated for daily religious uses and programs. Use of the chapels for other than religious activities shall require the approval of the Warden.

Wherever feasible, multi-faith chapels or individual chapels for faith groups represented by a substantial number of inmates shall be provided at each facility.

Where only one chapel is available, a schedule for the use of the chapel shall be prepared by the staff chaplains and approved by the Warden or designee.

Where chapels are not available, the Warden shall designate a suitable area for the religious services and approve the scheduling of services in such temporary facilities.

101060.9 Location and Use of Sweat Lodge

The designated area in which the American Indian Sweat Lodge is situated is to be considered sacred. The sanctity must be observed and preserved, not only by inmates, but staff as well.

101060.9.1 Sweat Lodge Ceremonies

The designated pipe holder, volunteer spiritual persons or the leader of the religious group are responsible for organizing and conducting the sweat ceremonies.

A sacred pipe is used during sweat ceremonies and prayer offerings. It shall be retained by a designated pipe holder, who shall be responsible for the protection of the pipe and pipe bag.

All sacred items used in the sweat lodge ceremony may be acquired from the Native American community or from an approved vendor of Native American supplies. Only those items approved by the Warden or his/her designee shall be permitted.

The Sweat Lodge ceremonies consist of, but are not limited to, the use of the following sacred items.

- Sacred pipe and pipe bag.
- Kinnikinnick.
 - Mixture of red willow bark, cedar, tobacco, bear berries, yellow willow bark, and herbs.
- Eagle feathers.
- Sage.
- Sweet grass.
- Buffalo or deer skull.
- Antler.
- Lava or river rocks.
- Water.
- Non-metallic dipper and non-metallic bucket.

101060.10 Sacramental Wine and Religious Artifacts

Wine and religious artifacts approved by the Warden for sacramental and worship purposes may be brought into the institution.

Chaplains shall have prior written approval to purchase and bring into the institution the sacramental wine.

The approval, signed by the Warden or designee, shall accompany the wine through the normal security processing of each given facility.

The sacramental wine shall be maintained in a specified secured location inaccessible to inmates. The applicable chaplain shall remove the wine on the day of use and maintain control of the wine until the religious ceremony is concluded. The applicable chaplain will then return the unused portion and/or the empty container to the designated secured location.

Religious artifacts are those items which American Indians wear on religious/ceremonial occasions and include their tribal designations, personal and religious totems and items which have spiritual significance in their lives. The items may be distinguished by tribal colors and tribal totems.

These items include, but are not limited to, the following:

- Choker.
- Eagle feathers.
- Headband.
- Wristband.
- Medicine bag.
 - Medicine bags shall be small, constructed of soft leather or other natural material without lining, and shall not exceed 1 1/2 inches in diameter. They are usually worn around the neck or hung from the belt.
 - After inclusion of the individual's medicine in the bag, it may be either sewn shut or closed with a drawstring in the presence of staff. The medicine bag must be closed in such a manner that will allow for subsequent inspection of its contents.

The religious artifacts are not to be confused with items worn strictly for ornamental reasons. The religious leader from the community, the group chairman and the pipe carrier shall submit, in writing to the Warden for approval, the religious artifacts worn by their group.

Wearing of the artifacts at times other than during religious occasions, sweat days, and special ceremonies requires approval of the Warden or his/her designee.

101060.11 Chapel, Sweat Lodge, and Sacred Items Search by Custody Staff

Searches shall be conducted with dignity and due respect to the sanctuary and sweat lodge. When practical, the chaplain or Native American Spiritual Leader will be present.

Staff chaplains shall arrange through their supervisor for certain criteria to be met by custodial staff when conducting searches of the chapel facilities or sweat lodge.

Handling of a medicine bag, sacred items, sacred pipe, and pipe bag by staff is limited to those occasions when there is reasonable cause to believe it may contain unauthorized or dangerous items or substances.

Medicine Bag Search

Any routine search of the medicine bag shall be accomplished by having the owner turn the bag inside out in the presence of staff.

Spiritual leaders, volunteers, and visitors entering an institution, are subject to searches of their personal medicine bag in the same manner as described above.

Sacred Pipe and Pipe Bag Search

Handling of the sacred pipe and pipe bag will be limited to the designated pipe holder unless there is reason to believe they may contain unauthorized items or substances.

When a pipe bag search is necessary, the designated pipe holder shall remove the contents of the bag and spread it out for staff to visually inspect.

101060.12 Special Foods for Religious Ceremonies

See DOM 54080.10 for information.

101060.13 Revisions

The Deputy Director, Division of Community Partnerships, or designee shall ensure that the content of this Section is accurate and current.

ARTICLE 7 — MARRIAGES

Revised February 10, 1999

Updated April 5, 2007

101070.1 Policy

Revised September 25, 2007

PC 2601 provides that all persons sentenced to the Department have the right to marry.

Unless legitimate penological interest would dictate otherwise, inmates shall be permitted to marry when they meet all legal and departmental requirements. This Article does not apply to registered domestic partnerships, which are legally distinct from marriages. The CDCR does not assist inmates to establish registered domestic partnerships because inmates, while they are incarcerated, cannot meet the common residency requirement of the California Domestic Partners Rights and Responsibilities Act.

101070.2 Purpose

The purpose of this procedure is to provide guidelines for the processing of inmate marriage requests and the solemnization of marriages.

101070.3 Definition of Marriage

“Marriage” is defined in California Family Code (FC) 300, as follows:

“Marriage is a personal relation arising out of a civil contract between a man and a woman, to which the consent of the parties capable of making that contract is necessary. Consent alone does not constitute marriage. Consent must be followed by the issuance of a license and solemnization as authorized by (other provisions of this code).”

101070.4 Roles and Responsibilities

The FC sections relating to the issuance of marriage licenses and the solemnization and registration of marriages vary from county to county. In each county, the County Clerk is designated as a Commissioner of Civil Marriages and the County Recorder is the local registrar of marriages. These county officials may choose to deputize others to perform these functions. (Thus references in this Section to County Clerk, County Recorder, or Commissioner of Civil Marriages include any deputies they may have designated or appointed.)

The institution head (or designee) shall be responsible for ensuring that the facility adheres to the county’s marital guidelines as set forth by the Office of the County Clerk and the County Recorder within their respective jurisdiction.

101070.5 Legal Requirements for the Issuance of a Marriage License

Before marrying, the FC requires that a license be obtained from the County Clerk. Marriage licenses expire 90 days after issuance and must show the identity of the parties, their full names, places of residence, and ages. The County Clerk may issue a marriage license when all legal requirements have been met by the applicants, including payment of license fees. Marriage license applications require information regarding the parties State of birth, number of previous marriages and the manner and date of termination of the last marriage, usual occupation, years of education completed, and each party’s parents’ name and State of birth. This additional information is required by statute for the State’s Registrar of Vital Statistics, which registers marriages in this State.

Both parties must appear together before the County Clerk with appropriate identification, including proof of age. The County Clerk may examine the applicants for a marriage license under oath to ascertain whether they meet the legal requirements. The County Clerk may send a Deputy Commissioner to a CDCR facility, or deputize an employee of a CDCR facility as a Deputy Commissioner to collect this information from an inmate, and ascertain if the inmate meets the legal requirements to obtain a marriage license.

The FC prohibits granting of a marriage license if either applicant lacks the capacity to enter a valid marriage or is, at the time of making application for the license, under the influence of an intoxicating liquor or narcotic drug. A person lacks the capacity to marry if:

He/she is under age 18, unless that applicant has both the consent of his/her parent(s) and a court order granting him/her permission to marry.

He/she is already married to the other applicant. (A marriage license may not be issued to applicants who are already validly married either in California or in another State.)

He/she is already married to another person and no final dissolution has been entered. Such a marriage would be considered to be bigamous.

Note: The PC sets forth criminal penalties for persons who solemnize incestuous or other marriages forbidden by law.

Requirements for Confidential Marriages

The requirements for a confidential marriage are set forth in FC 500, which reads:

“When an unmarried man and an unmarried woman, not minors, have been living together as husband and wife, they may be married by a person authorized to solemnize a marriage...”

Procedures for Obtaining Confidential Marriage Licenses

The procedures for obtaining marriage licenses for confidential marriages are somewhat different. If either or both of the parties to be married is physically unable to appear in person before the County Clerk, the FC requires the County Clerk to issue a confidential marriage license to the person solemnizing the marriage upon that person’s presenting an affidavit to the County Clerk, signed by the person and the parties to be married, explaining the reason for the inability to appear. The FC also requires County Clerks to issue confidential marriage licenses to approved notaries public who pay the license fees and who are reimbursed by the applicants for these fees.

Note: The County Clerk has the authority to approve, for a limited term, a notary public to authorize confidential marriages. This person may be an employee of the CDCR facility. The notary public is required to attend a specified course of instruction, and pay a fee. This approval is subject to suspension in specified situations. (Refer to FC 530 through 536 for other applicable provisions.)

- Since confidential marriages are permissible only when the applicants have been living together as husband and wife, the applicants must understand they are stating under penalty of perjury that they have been living together as husband and wife.

As with other marriage licenses, a confidential marriage license issued by the County Clerk is valid only for a period of 90 days after its issuance, but unlike other licenses, a confidential marriage license may only be used in the county in which it was issued.

The form for the confidential marriage license is different from a conventional marriage license and includes a certificate of marriage that is used in solemnizing the marriage.

There is a statutory fee for filing of confidential marriage certificates that must be paid when the license is issued.

101070.6 Solemnization of Marriages

Marriages, whether conventional or confidential, may be solemnized at a CDCR facility by any of the following:

- A priest, minister, or rabbi of any religious denomination. This may include a facility chaplain, or a person not employed by CDCR who is chosen by the parties and who is able to obtain gate clearance.
- Staff may contact the inmate's religious denomination to determine whether the non-CDCR clergy is ordained to solemnize marriages. The denomination's decision shall be accepted. During contact with representatives of the inmate's religious denomination, staff shall be cautious to avoid making any statements or implications regarding the inmate's religious or secular qualification or responsibilities.
- A current or former State or federal justice, judge, or magistrate.
- A current or retired Commissioner of Civil Marriages.
- County Clerk or deputized designee.
- An official of a nonprofit religious institution, whose articles of incorporation are registered with the Secretary of State, and who has been licensed by the county to solemnize the marriages of persons affiliated with, or members of that religious institution. The official must possess the Degree of Doctor of Philosophy and must perform religious services or rites for that religious institution on a regular basis. These marriages shall be performed without fee to the parties.
- The FC provides that the requirements for solemnization do not apply to members of religious societies or denominations that do not have clergy to solemnize marriages. However, the FC requires that members of such groups make, sign, and attach to the marriage license, a statement showing:
 - The religious society or denomination of the parties and that the marriage was entered into in accordance with the rules and customs of that society or denomination.
 - The fact, time, and place of entering into the marriage.
 - The signatures and residential addresses of two witnesses to the ceremony.

Presentation of License

Statutes mandate that the person solemnizing the marriage require the presentation of the marriage license before solemnizing the marriage. Not to do so subjects that person to criminal penalties. The license is part of the certificate of registry given to marriage license applicants by the County Clerk.

Form of Ceremony

The FC does not require any particular form for the marriage ceremony, although it does require that the parties declare, in the presence of the person solemnizing the marriage and witnesses, that they take each other as husband and wife.

Witnesses

The FC requires, for conventional but not for confidential marriages, at least one witness other than the person solemnizing the marriage. There are no specific qualifications for witnesses. Those religious groups who do not have clergy to solemnize marriages (see above) must have two witnesses.

101070.7 Authentication of Marriages

When a couple obtains a marriage license, they also receive a certificate of registry of marriage. The purpose of registering a marriage is to provide a permanent record of the marriage for the State Registrar of Vital Statistics. This certificate must be presented to the person solemnizing the marriage along with the license. That person completes the certificate, signs it, and has at least one witness (for conventional marriages) sign it and record his or her address.

For confidential marriages, the confidential marriage license (including certificate) obtained from the county clerk is filled out by the parties to the marriage and authenticated by the person solemnizing the marriage. The form is printed in duplicate and a copy is required to be given to the parties at the time of the ceremony. The person solemnizing the marriage is also

required to give the parties an application to obtain a certified copy of the certificate, which shall be filled out and returned to the county clerk by the person solemnizing the marriage.

The person who solemnized the marriage is required by statute to return the marriage license and the completed certificate of registry to the county recorder in the county in which the license was issued within 30 days after the ceremony. The statutory fee for filing confidential marriage certificates should have been paid at the time the license was issued by the county clerk. Failure to file the license and certificate within this time frame may subject that person to criminal penalties. The original certificate is forwarded to the State Registrar of Vital Statistics.

If a copy of the marriage certificate is requested by the couple, the person solemnizing the marriage shall issue a ceremonial marriage certificate showing the fact, date, place of the marriage, names and residences of witnesses, and the name and official position of the person solemnizing the marriage. Such certificate has no official significance, but serves primarily as a memento.

101070.8 Processing the Marriage Request

The inmate's caseworker or a staff member designated by the facility head shall process the marriage request.

Processing the marriage request shall include:

Checking all available data on the inmate's current marital status.

Notifying the inmate of the legal requirements and assistance available in gathering documents and developing marriage plans. When necessary, this shall include verifying the recognized standing of a requested clergy.

Obtaining approval from the facility administrator for:

- The date and location of wedding.
- The allowance of up to two inmates and ten non-inmates, not including the officiant, bride and groom. Inmate guests may attend only if their Inmate Work Incentive Program is not interrupted.

Furnishing necessary information to the County Clerk or clergy. At the request of the County Clerk, the staff member facilitating the marriage may arrange for an evaluation by a CDCR psychiatrist to determine the inmate's mental competency.

Coordinating staff efforts necessary to perform the marriage when the wedding plan is approved by the institution head or designee for:

- Gate clearance of outside guests.
- Gate clearance of outside clergy.
- Arrangements for wedding photographs.

101070.9 Pastoral Duties/Officiating at Marriages

Facility chaplains may officiate the marriage. However, the facility chaplain, by virtue of their religious affiliation, shall establish the criteria which shall be met by the applicants if the facility chaplain is to officiate. Facility chaplains shall provide the criteria to their supervisors.

101070.10 Revisions

The Director, Division of Adult Institutions, shall ensure that the content of this Section is accurate and current.

ARTICLE 8 — CHARITABLE FUND RAISING CAMPAIGNS

Revised March 25, 1992

Updated April 5, 2007

101080.1 Policy

A Warden or RPA may grant authorization for inmate participation in campaigns for recognized charitable causes, (e.g., United Fund, Heart Fund, Cancer Fund, common local charities, etc.). Inmates may be authorized annual participation in a maximum of three campaigns for recognized charitable causes per inmate activity group.

101080.2 Purpose

This procedure implements policy for inmate donations and fund raising campaigns in accordance with the CCR and the designation of authority and responsibilities in conducting such fund drives.

101080.3 Warden's Responsibilities

Wardens shall designate an Associate Warden or community resources manager to review and recommend action on all requests for withdrawal and transmittal of inmate funds for charitable causes.

101080.3.1 Associate Warden's Responsibility

The Associate Warden, CRM, or designee should be sufficiently aware of illicit activities, within the facility, to detect trust withdrawal and transmittal of inmate(s) funds to support such activities. On the Associate Warden's or community resources manager's recommendation and approval of the Warden, the inmate trust office personnel shall process the transmittal of funds for charitable contributions.

101080.4 Individual Inmate's Responsibilities

An inmate may at any time request the Warden's permission to make a voluntary donation to a charitable cause. Approval shall be subject to the following conditions:

- There is no evidence of coercion.
- The amount is not disproportionate to the inmate's trust account balance.
- The inmate is not incompetent.
- The amount is \$1.00 or more.
- The cause in no way advocates any actions that could jeopardize the safety and security of the facility.

101080.5 Inmate Charitable Group Fund Drives

Inmate charitable group fund drives may be conducted through solicitation of inmate population or the sale of products, commodities, or services to the general population, as specifically approved by the facility head.

101080.5.1 Deductions for IWF

A ten- percent deduction shall be made from funds derived from the general population for deposit in the IWF to offset the cost of necessary trust office transactions. Wardens or RPAs may exempt any fund fee for the IWF when all proceeds of the group's fund drive are to be dispersed to an approved charity. Monies collected from sales of products, commodities, or services shall be subject to the deduction on gross sales.

101080.5.2 Procedures for Inmate Participation

Applications for participation in a charitable fund drive shall be submitted in writing to the designated Associate Warden or community resources manager by the staff sponsor of the inmate group. Applications shall be submitted two months in advance of the proposed fund drive. Also:

- Fund drives conducted by activity groups shall not compete with approved or recognized inmate charitable fund raising drives.

101080.5.3 Trust Withdrawal Approval Levels

Trust transactions may be approved in writing by the following personnel:

- \$25.00 or less by the group's principal staff sponsor.
- \$25.00 to \$300.00 by the designated Associate Warden or community resources manager.
- Above \$300.00 by the Warden or RPA.

101080.6 Procedures for the Sale of Product or Commodity

Charitable fund raising activities which involve the sale of a product or commodity shall be thoroughly screened prior to approval to prevent the introduction of contraband into the facility.

- The activity group's staff sponsor shall provide and arrange for supervision regarding all phases of the charitable fund raising activity and collecting of cash funds.
- Sales made to employees shall be paid in cash, either to the staff sponsor or the accounting office. Food sales shall be limited to \$50.00 per employee.

101080.7 Procedures for Accepting a Group Donation

Charitable donations shall require not less than two-thirds approval of the active membership of the inmate activity group and approval shall be determined by secret ballot vote under the supervision of the staff sponsor. A group representative shall be selected by the membership to assist the staff sponsor in tabulating and verifying the membership votes.

101080.8 Soliciting Contributions

Inmate solicitation for contribution to an approved charitable fund raising campaign shall be confined to the inmate population.

101080.9 Inmate Participation

Inmates are not obligated and shall not be coerced to participate in any charitable fund raising campaign or to make any donations, other than on a voluntary basis.

101080.10 Restrictions on Inmate Participation

All activity relating to a charitable fund raising campaign shall be conducted during the inmates' off-duty time and the staff sponsor's off-duty time.

101080.11 Revisions

The Director, Division of Adult Institutions, or designee shall ensure that the contents of this Section are kept current and accurate.

101080.12 References

PC §§ 2079, 5054, and 5058.

CCR (15) (3) §§ 3020, 3240, and 3241.

ACA Standards 2-4028, 2-4048, 2-4053, and 2-4459.

ARTICLE 9 — VOLUNTEERS

Revised February 19, 2009

101090.1 Policy

The Department shall maximize the interaction of varied cultural and socioeconomic members of the community through their use as volunteers.

101090.2 Purpose

This Article establishes objectives, standards, and operational procedures for the participation of volunteers.

101090.3 Definition

Volunteers are persons who provide a service to the Department without expectation of remuneration.

Volunteers who provide services on an ongoing basis are called long-term volunteers. Services provided by long-term volunteers are performed under supervision and are subject to performance requirements.

Persons who voluntarily perform a service for the Department on a temporary basis, such as to volunteer their talents for an entertainment show or participate in an athletic event, are called short-term volunteers.

101090.4 Objectives

The objectives of the volunteer program are:

- To increase participation in correctional programming.
- To actively encourage inmate/parolee interest and participation in available programs.
- To contribute toward the public's accurate knowledge of the Department's operations.
- To provide a needed interchange between the community and the Department.

101090.5 Responsibility

Hiring Authority

Wardens and RPAs (hiring authority) administer volunteer programs consistent with this policy. The hiring authority:

- Provides appropriate and sufficient numbers of employees for the effective development, coordination, and supervision of volunteer activities and programs.
- Delegates overall responsibility for the Volunteer Program as follows:
 - Institutions: to the CRM or other designated manager.
 - DAPO: to the RPA or designee.
 - Headquarters: to the Director, DCP, or designee.
 - Recruits new volunteers and develops volunteer/community programs in accordance with identified and prioritized needs of the location.
- Coordinates the screening of prospective volunteers.
- Obtains CI&I SSCH.
- Ensures that no security risks exist.
- Accepts verification of certificates or licenses if professional services are offered.
- Requests the issuance of identification cards for citizen volunteers as authorized by the local institution.
- Ensures that all CDCR Volunteer Identification Cards (VICs) are maintained at the institution's main entrance. Volunteers will be issued a VIC in exchange for their personal identification card when attempting to access their assigned locations. All volunteers will be processed into the institution in accordance with the institution's

procedures. Volunteers are required to check in/out of this area, regardless of work assignment locations. Upon exiting the institution, volunteers will surrender the VIC in exchange for their personal identification card.

- Ensures that the Correctional Captain or Watch Commander maintains an index card file and roster identifying all volunteers, their hours of participation, duties, and area of work.
- Ensures that the Human Resources Office maintains a personnel file to include record of training, duty statement, emergency notification, TB clearance, and other prescribed information on all volunteers issued a CDCR identification card.
- Develops policy governing job descriptions, recruitment, screening, training responsibility, and the use and supervision of volunteers in conjunction with division heads, IST, managers, and sponsors.
- Evaluates the use of volunteers and the volunteer program on a regular basis to ensure:
 - Volunteer efforts complement the activities of staff.
 - Selected volunteers are physically, mentally, and emotionally able to provide the desired service.
 - Compliance with this Article.
 - That all volunteers receive an orientation of the Department and their assigned location.
 - That incoming inmates and parolees returned to custody are encouraged to participate in the development of volunteer/community programs and are informed of these activities during their initial orientation.
- Posts in conspicuous and accessible areas a current schedule of volunteer services, where available, and a contact person. This information shall be updated at least every six months and as changes occur.

Institution/ Division Heads/PAs

- Directly solicit citizen volunteers and community programs to meet needs, coordinating such activity in an institution with the CRM or designated manager.
- Participate in screening, interviews, orientation, evaluation, and approval of volunteers when requested.

Community Resources Manager

Under the direction of the hiring authority, the CRM shall:

- Provide volunteers with the approved Volunteer Orientation Guide. These guides can be obtained from the Headquarters CRM Administrator.
- Review and approve the use of volunteers or outside resources in any local program when consistent with the goals and objectives of CDCR.
- Supervise the recruitment and training of volunteers.
- Review and approve/deny the CI&I via the CLETS and Automated Visitor Information System (AVIS) clearance for each volunteer.
- Maintain procedures and measures to facilitate the safety and security of volunteers.
- Verify certificates or licenses if professional services are offered.
- Request by memorandum the issuance of CDCR volunteer identification cards.
- Maintain an index card file or roster database identifying each volunteer, including:
 - Job description.
 - Scheduled work hours.
 - Telephone number.
 - Designated assigned area.
- Identify the community program volunteer coordinator who will work with the CRM and staff supervisor/sponsor to implement the institution community program.
- Monitor annual evaluation of volunteers and the volunteer programs on a regular basis to ensure:
 - Volunteer efforts complement the institution need, inmate activities, and activities of staff.
 - Selected volunteers are physically, mentally, and emotionally able to provide the desired service.
- Post information regarding volunteer/community programs in conspicuous and accessible areas. This information shall include a

current schedule of volunteer services, where available, and a contact person. This information shall be updated when changes occur.

- Submit a quarterly report to the Director, DCP, which includes:
 - Number of volunteers.
 - Number of inmates participating.
 - Number of hours of volunteer activity.
 - Summary of continuous, new, and discontinued programs and special events.
 - Evaluation of special events.
 - Summary of community contacts.
 - Review of procedural/administrative difficulties.
- Notify the Headquarters CRM Administrator in writing within 24 hours of the decision to deny access or termination of a volunteer's services.
- Notify the volunteer in writing within 72 hours of the decision to deny access or termination of their volunteer services.
- Collect VICs when volunteer service agreement has expired or upon termination of volunteer's services.

Headquarters CRM Administrators

Headquarters CRM Administrators shall:

- Identify program areas where volunteers and community resources are needed.
- Approve in advance volunteer duty statements or community program agreements operating within headquarters program area.
- Ensure the number of volunteers and volunteer hours are reported monthly to the DCP.

Human Resources Office

- Arranges for fingerprints and photographs.
- Maintains personnel file for volunteers who receive identification cards.

Local Training Officer

- Provides a minimum of four hours orientation and training to include staff/inmate relations, emergency procedures, IPA, and a tour.
- Infrequent volunteers may be oriented by their supervisor/sponsor with the approval of the CRM/RPA.

Supervisor/ Sponsor

- Develops all volunteer duty statements within their program area.
- Determines the specific services the volunteer is to provide and communicates this information to the volunteer.
- Takes action as necessary to ensure that volunteers understand their duties and responsibilities.
- Coordinates or conducts any necessary training so that the volunteer is familiar with CCR and is able to fulfill the requirements of the position.
- Notifies the volunteer of any changes in rules/procedures or in their duties/responsibilities.
- Reviews with the volunteer the Primary Laws, Rules, and Regulations Regarding Conduct and Association with State Prison Inmates, CDCR Form 181, ensures understanding of the material, and answers any questions.
- Supervises all volunteers in the supervisor's program area on a day-to-day basis.
- Maintains attendance records on each volunteer using State time reporting forms showing the number of hours and days worked each month.
- Reports the number of hours and days worked each month to the CRM.
- Records on the timekeeping form the number of inmates participating in each volunteer activity which involves a direct service to inmates.
- Ensures that the volunteer has an approved volunteer identification card or gate clearance. Renews these items when necessary and retains them upon expiration.
- Encourages volunteers to participate in IST programs and staff meetings.

Volunteer

- Performs the agreed upon service adequately, carefully, and diligently without the expectation of pay or allowances.
- Asks supervisors to explain duties.
- Seeks clarification of unclear items.

- Agrees in writing to abide by Department rules and regulations, including those pertaining to employee conduct (CCR § 3391-3416 et. al.).
- Completes satisfactorily:
 - Screening requirements.
 - Required forms/photograph/fingerprinting.
 - Orientation.
 - Verification of possession of credentials/licenses if a professional service is offered.
 - Annual evaluation.
- Reports to a higher level supervisor any information which may affect the safety and welfare of volunteers, employees, inmates/parolees, the program, or the community.

101090.6 Appointment Standards

Approval for a volunteer position or a new community program shall be based on:

- Need of service offered.
- Qualifications of individuals offering service.
- Background clearance of individuals participating.
- Time and frequency of service offered.
- Space and employees needed for proper supervision.

New Position Approval

New volunteer positions or programs require the review and approval of the hiring authority before implementation.

Initiating Requests

Requests for volunteer positions are initiated as follows:

- Citizens shall submit a letter to the hiring authority; or
- Sponsors shall submit a volunteer duty statement or Volunteer Service Agreement, CDCR Form 966, to the appropriate authority:
 - Institution program head; or
 - PA; or
 - Director, DCP.

Requirements of Sponsors

Primary group sponsors shall be full-time employees. Citizen volunteers may be used as co-sponsors under the supervision of full-time employees.

Retired departmental staff may be used if they achieved retirement under medical or longevity conditions. Other departmental retirees shall be reviewed and approved by the hiring authority prior to acceptance.

Upon approval of the position and selection of a potential volunteer, the sponsor shall escort the individual to the Human Resources Office for completion of required documents and initiation of the screening process.

101090.6.1 Screening

The same general practices, methods, and procedures used to select employees shall be used in screening volunteers.

- Basic educational background and work experience information shall be obtained.
- An interview shall be conducted.
- Credentials/certificate status of volunteers performing professional services shall be verified.
 - Tutoring or sponsorship of a craft or hobby program is not considered a professional service.

101090.6.1.1 Relatives and Visitors

Revised April 16, 2013

Inmate relatives and inmate visitors shall not be authorized to volunteer at the same institution in which the inmate is housed.

Wardens may approve a volunteer to meet with an inmate during regular visiting hours for the purpose of facilitating specific program services.

101090.6.2 Volunteer Files

A file similar to the official employee personnel file shall be maintained on each volunteer. At a minimum, the file shall include the following forms:

- CDCR Form 181, Primary Laws, Rules, and Regulations Regarding Conduct and Association with State Prison Inmates.
- CDC Form 894, Emergency Notification Information.
- CDCR Form 966, Volunteer Service Agreement.
- CDCR Form 1049, Certification of Volunteer Participation.

- STD Form 261, Authorization to Use Privately Owned Vehicles on State Business.
- STD Form 610-HQ, Health Questionnaire.
- STD Form 689, Oath of Allegiance.
- Statement acknowledging receipt of a copy of the CCRs and the IPA.

A separate record of each volunteer's name, address, and telephone number shall be kept in one of the following:

- Index card file.
- Register.

Unless litigation is pending, these records shall be destroyed as follows:

Index Card

Six months after the last date on which a service was provided by the volunteer.

Register Page

Six months after the last date on which a service was provided by any volunteer whose name appears on the page.

101090.6.3 Security Clearance

Prior to appointment, each volunteer shall satisfactorily complete the following security clearance procedures.

- Volunteers issued identification cards:
 - A CI&I check shall be processed.
 - Fingerprints shall be taken and processed through State DOJ if it is determined by the Investigative Captain to be necessary for a security clearance.
- Volunteers issued gate clearances only:
 - A CI&I clearance by CLETS shall be processed. Fingerprints shall not be required under normal circumstances.

Security clearance shall be renewed on an annual basis.

Ex-Felons

Wardens may approve ex-felons to serve as volunteers. Programs can often be enriched by the contributions of ex-felons who share their experiences and personal progress.

In addition to the guidelines for training and background investigations, the following steps must be completed before an ex-felon may be approved to serve as a volunteer:

- Documented period of at least three years of crime-free conduct after release or a favorable report upon completion of probation or parole.
- Documentation of current employment or academic status.
- Evidence of discharge from parole and resume.
- Ensure the ex-felon has no family or person with whom the volunteer has had either a personal or business relationship within the institution.
- Ex-felon volunteers shall disclose to the institution head, in writing, if they become aware that a relative or person with whom they have, or have had, a personal or business relationship, has been transferred or committed to the institution where they volunteer. This written disclosure must be provided to the institution head prior to the volunteer returning to the institution. The institution head shall be given sufficient time (at least 30 days) to investigate the nature of the relationship of the ex-felon volunteer with the inmate in order to determine if the ex-felon should be allowed to continue volunteer services at the institution or if restrictions should be placed on the volunteer's access to inmates.

Ex-felons must not be granted waivers from any training or investigative requirements, nor are they to be admitted to Special Housing Units, i.e., Administrative Segregation, Security Housing, Protective Housing, etc. Ex-felons shall not be granted waivers for unescorted status, passes, or volunteer identification cards.

Volunteers who are ex-felons shall additionally be required to have the written approval of the Warden prior to admittance for participation in activities or programs.

- If the volunteer is on parole or probation, the written approval of both the caseworker and the hiring authority is required.
- Ex-felons shall not, without the Director's written approval, be assigned to areas which enable them to access any employee records or inmate personal or medical information.

Identification Cards

Volunteers shall be issued identification cards for approved ongoing volunteer activities which will occur on a frequent long-term basis, a minimum of six months, with a frequency of more than one visit per month.

- Those who are involved with only one institution shall be issued a card by the specific Warden.
- Those who are involved with more than one institution and/or function shall be issued cards signed by the Director, DAI.

In institutions, gate clearances issued for each visit are used for individuals or groups providing occasional volunteer services, such as outside ball teams, visiting religious groups, and entertainment groups. (See DOM 31070, Personnel Identification Cards.)

Institutions - Gate Clearance

Gate clearance for outside guests shall be approved by the hiring authority or designee.

- The entrance gate officer shall be provided with a written gate clearance for outside guests.
- All outside guests shall have an identification document with a photograph, (i.e., valid driver's license; DMV identification card; or other official, valid, positive identification).
- Guests may be issued a temporary gate pass. They shall be processed through the metal detector and allowed to proceed to their destination with an escort.
- The senior manager on duty (e.g., watch commander, 3rd watch) may suspend prior approval with good cause (e.g., failure to adhere to Department rules/regulations). In such cases, a report explaining the reasons shall be routed to the hiring authority with a copy to the CRM or designated manager.
- An approved volunteer under the age of eighteen years shall be accompanied by CDCR staff and the minor's parent(s)/guardian(s) at all times while inside the institution. The CDCR Form 1887, Parent Consent for Participation, shall be signed by a parent or guardian and notarized. It must be on file prior to participation.

The gate clearance for all volunteers should specify the following:

- Services the volunteer will provide.
- Area(s) of access.
- Assigned work location.
- Days and hours of assignment.
- Escort / No Escort.
- Authorization, if any, to access institution keys.

101090.7 Volunteer Orientation

Orientation shall be completed prior to assignment as a volunteer.

- Volunteers shall attend the existing orientation offered at the assigned location.

At a minimum, orientation shall consist of:

History

- History and policies of the Department and the assigned location.
- Notification of the provisions of the worker's compensation fund.

Programs

- Overview of the existing programs so that volunteers may develop a sense of their role in relation to other programs, including the work incentive program.

Duties

- Description of the volunteer's duties, lines of communication, supervision, and accountability.
- Public safety shall take precedence over all other considerations in the operation of the programs and activities of the Department.

Service Population

- Review, in general terms, of the needs, attitudes, and lifestyles of the inmate population.

Rules

- Notification that volunteers are subject to the rules and regulations established by the hiring authority and the Secretary.
 - Information on the pertinent rules affecting the security of the institution/parole office/unit and the safety of volunteers, employees, and inmates/parolees.

Confidential Information

- Explanation of the IPA provisions.

- The confidentiality of records and other privileged information shall be maintained. (See Information Practices in Section 13030 of this manual). A copy of IPA shall be provided.
- Inform volunteers they may be required to divulge information told in confidence by an inmate/parolee. Explain that only certain confidential relationships are legally recognized, i.e., patient/physician, lawyer/client, husband/wife. Therefore, it is possible that a volunteer may be compelled in a court of law to testify about relevant conversations with inmates/parolees.

101090.8 Volunteer Evaluation

The hiring authority shall evaluate their volunteer programs annually to ensure:

- The volunteer activity complements the activities of employees.
- Volunteers are mentally and emotionally capable of providing the desired service.
- Duties are performed in a satisfactory manner with appropriate staff to supervise.
- Activities are consistent with departmental goals and objectives.

The term of service by volunteers shall be contingent upon satisfactory evaluation by management.

101090.8.1 Volunteer Recognition

Supervisors of volunteers shall periodically recognize exemplary volunteer services and programs in the following ways:

- Submission of a request for a certificate of recognition signed by the Director.
- Preparation of a letter of appreciation for the hiring authority's signature.

Letters and justification for the recognition shall be submitted to the CRM, PA, or division head before submission to the hiring authority.

Wardens, RPAs, and division heads are encouraged to prepare press releases in coordination with the CRM for exemplary activities of a volunteer or volunteer program.

101090.9 Termination

The hiring authority may limit or discontinue activities of any volunteer or volunteer group which may impede the security and/or orderly operation of the institution/region.

Criteria

A volunteer or community program shall be terminated if:

- The activity threatens the order and/or security of the program or facility.
- The activity threatens the safety of the volunteer, employees, public, or inmates.
- There is low inmate attendance.
- It is not consistent with the mission and objectives of the institution or office.
- There is no appropriate staff supervisor available.
- Formal evaluation is unsatisfactory.
- The volunteer is physically unable to safely perform required duties.
- There is evidence of volunteer misconduct.

For the purpose of this Article, misconduct shall mean behavior of an improper or unacceptable nature including, but not limited to, the following:

- Acts of inappropriate familiarity with inmates, parolees, or the family and friends of inmates or parolees.
- Inexcusable neglect of specified duties.
- Willful act(s) of insubordination or disobedience.
- Willful and malicious act(s) of discourteous treatment toward other volunteers, employees, inmates, parolees, or members of the general public.
- Act(s) involving the misuse of State property.
- Threat(s) of retaliation against other volunteers, employees, inmates, parolees, or members of the general public.
- Reporting for duty to an institution, facility, or office while under the influence of an intoxicating drug or illegal substance.
- Participating in behavior either on or off duty that is of such a nature that it may cause discredit to CDCR or to the services

being provided by volunteers under the volunteer service programs.

Volunteers or community group members shall receive written notification of their rejection or termination in an expeditious manner.

Volunteer Participation Certification

The CRM or PA shall provide a completed Certification of Volunteer Participation, CDCR Form 1049, with copy to file, to each volunteer annually or upon termination of participation.

101090.10 Volunteer Rights/Privileges

Revised April 16, 2013

Driving on State Business

Volunteers may drive a privately owned vehicle on State business providing an Authorization to Use Privately Owned Vehicles on State Business, STD Form 261, and Volunteer Service Agreement, CDCR Form 966, are completed and approved by duly authorized supervisory personnel. Rules, requirements, and regulations shall be explained in detail to the volunteer. (See DOM 22020, Travel.)

Appeal

Volunteers who wish to appeal a decision for termination of their position or program may write to the hiring authority.

101090.11 Advisory Committees

Advisory committees provide positive benefits to the Department in the following areas:

- Public information.
- Community relations.
- Parole placement.
- Development of trade and industrial training programs.

Consultants

Joint conferences of institutional and parole employees, other state agencies, and advisory committees shall be held periodically to promote understanding of the overall program.

Effectiveness Factors

The effectiveness of trade and parole advisory committees is enhanced by the following:

- Establishment of the committee as an affiliate of a larger community organization such as a service club or other established, reputable body.
- Membership in the advisory committees of an ideal cross-section of the community; i.e., ethnic groups, judiciary, clergy, law enforcement, business, labor unions, and community service groups.
- Tours of institutions/camps and committee attendance at pre-parole classes, parole board hearings, and other activities contingent upon Warden/RPA approval.
- Regular service of the membership account and demonstration of a personal interest in the activities of the group.
- RPAs' supervision and coordination of the planning and organization of committees in their regions.
- Understanding by employees of the purpose and goals of advisory groups so that better communication and public relations result.

101090.11.1 Trade Advisory Committees (TACs)

The Warden, where possible, shall establish TACs for vocational training programs in the area of vocational education, industries, maintenance, or food service. TACs shall be composed as closely as possible of an equal number of persons nominated by representatives of management and labor. Committee members shall be appointed by hiring authorities from recommendations submitted by the groups represented.

Functions

TACs shall provide:

- Consultation on space and equipment requirements, training procedure, and instructor qualifications and selection.
- Standards for inmate selection and training which are relevant to current methods and industry standards.
- Vocational guidance and evaluation of inmate trainees.
- Advice on employment opportunities upon release.
- A medium for better understanding between labor, private industry management, and the Department.

Organization

TACs shall be organized on the basis of one of the following:

- A master committee representing all vocational training areas within the institution with subcommittees for each trade or occupation.
- Individual TACs for each trade or occupation within the institution.

Institutional Coordinator

Each Warden shall nominate, for the approval of the Secretary, an institutional employee who shall:

- Obtain CI&I SSCH.
- Coordinate the organization and programs of the TACs within that institution.
- Maintain and circulate minutes of meetings to all participants and appropriate departmental staff.
- Ensure compliance with the Department's Operations Manual.

This coordinator shall be assisted by employees representing education, plant operations, industries, and other institutional services.

101090.11.2 Parole Advisory Committees

RPAs and their subordinate employees are encouraged to establish parole advisory committees.

These committees develop community interest and promote community support for parolees and correctional programs.

Functions

Parole advisory committees shall provide:

- A counseling and advisory resource to the Parole Agent.
- Knowledge of the community to assist newly released parolees in securing jobs or residency as follows:
 - Acting as voluntary consultants on release employment opportunities.
 - Giving practical assistance, vocational guidance, and evaluation of parolees.
 - Acting as consultants in vocational training of parolees.
 - Interpreting parole to the community leadership.

101090.11.3 Citizens Advisory Committees

Functions

Each Warden shall establish a Citizens Advisory Committee which shall be used to:

- Improve the public's understanding of correctional programs.
- Influence correctional directions.
- Suggest means to improve and participate in inmate programming.

The role of the committees is to:

- Provide an important opportunity for the Department to gain the support of interested and concerned citizens. Wardens shall extend an invitation to committee members to acquaint themselves with the institution's facilities and programs.
- Voice their concerns and make suggestions for facility and program enhancements as well as to support the institution or facility and its programs.
- Play a key role in furthering the Department's mission. Wardens shall regularly attend meetings and shall feel free to share information with the committee on problems, progress, and resolutions.
- Encourage community service projects, open houses, public education efforts, and any other appropriate activities aimed at strengthening the institution's partnership with the community.

Composition

Each Warden shall appoint a 12 member Citizens Advisory Committee from a list of nominations submitted as follows:

- Two persons from nominations submitted by the Assembly Member in whose district the prison is located.
- Two persons from nominations submitted by the Senator in whose district the prison is located.
- Two persons from nominations submitted by the City Council of the city containing or nearest to the institution.
- Two persons from nominations submitted by the County Board of Supervisors of the county containing the institution.
- One person from nominations submitted by the Chief of Police of the city containing or nearest to the institution and the County Sheriff of the county containing the institution.
- Three persons selected by the Warden including one who is a victim of a crime or a representative of a victim's organization.

Selection

Nominators shall submit biographical data for each nominee.

The Department's EEO policies shall be considered in the selection of nominees.

Orientation

Appointed committee members shall complete an orientation which shall include:

- A meeting with the Warden.
- Inmate, employee, and community safety procedures.
- A tour of the institution.

Committee Member Files

A file shall be maintained on each committee member which shall include:

- Oath of Allegiance.
- CDCR Form 181, Primary Laws, Rules, and Regulations Regarding Conduct and Association with State Prison Inmates.
- Statement acknowledging receipt of a copy of the CCR and the IPA.

Operation

Each committee shall select a chairperson by majority vote who shall:

- Call meetings.
- Prepare meeting agendas.
- Preside over meetings.

Term of Members

The term of office of all members shall be two years. Members shall not serve more than two years unless nominated and re-appointed.

The Warden shall solicit a listing of five nominees from designated nominators 90 days prior to the expiration of any member's terms.

Committee member resignations shall be submitted in writing to the chairperson.

Vacancies

Vacancies may result from a member's death, written resignation, or unexcused absence from three consecutive meetings. The Warden shall fill any vacancy upon receipt of written notification that a vacancy exists.

The Warden may fill a vacancy with a person selected from, but not limited to, the list of nominees originally submitted by nominators. Additional names may be requested from the nominators by the Warden.

Appointments to fill a vacancy shall be for the remainder of the unexpired term.

Meetings and Minutes

The committee shall meet at least once every two months or as necessary to carry out the purposes and duties of the committee.

The Warden shall meet with the committee at least four times per year. If the Warden is unable to attend, the Chief Deputy Warden shall attend. Attendance shall not be further delegated.

Committee meetings shall be open to the public. The date, time, and place of each meeting shall be published in a local newspaper at least one week prior to the meeting.

Meetings shall be held outside the prison security area. Meetings may be held in public buildings away from the institution. If held on institution property, the meeting shall be accessible to the public without compromising security.

Minutes of each committee meeting shall be kept and a copy forwarded to the Director, Division of Adult Institutions.

Visitation

Advisory committees shall have the power of visitation of prison facilities and personnel in furtherance of committee objectives except in situations where security would be jeopardized.

The Warden shall schedule all visits, and shall personally escort the visitor(s). Scheduled visit agenda shall be subject to change based upon institutional situations at the time of the visit.

Visits to other departmental facilities shall be authorized if, in the opinion of the chairperson and the Warden, such visiting will enhance the work of the committee.

Visits to other departmental facilities shall be only by advance arrangement between the affected Wardens.

The size of the visiting committee shall be determined by the committee itself and the Warden.

The head of the visited institution shall meet with the visiting committee delegation.

Travel Expenses

Travel expenses of the committee members shall be paid as authorized by DOM, Chapter 2, Article 11. Expenses shall be borne by the parent institutions.

101090.12 Revisions

Revised April 16, 2013

The Deputy Director, Facility Support, Division of Adult Institutions, or designee shall ensure that the content of this Article is accurate and current.

CCR (15) §§ 3260 - 3265, 3285, 3415.

ARTICLE 10—GRANTS

Effective December 4, 1989

Updated April 5, 2007

101100.1 Policy

The Department shall participate in grant projects when the Director, Division of Community Partnerships (DCP), in conjunction with the appropriate Chief Deputy Director, Warden, or RPA, determines the project is in the best interests of the Department and is consistent with current Department policy.

101100.2 Purpose

This Section clarifies provisions as set forth in the SAM 900, as they relate to departmental policy and procedures in the solicitation and awarding of grants.

101100.3 Definitions

To clarify terminology used in the grant process, the following definitions are included as a guide. These are not inclusive, and any definitions contained in statutes shall supersede those contained in this Section.

Grants

Grants are funds from sources other than the GF for operational and demonstration programs which involve the Department's facilities, employees, inmates, or parolees. These funding sources include, but are not limited to, the federal government, other state departments, local agencies, and other public and private organizations.

Service Project Proposals

Service project proposals are defined as technical assistance provided by public or private agencies.

101100.4 Responsibility

The Director, DCP, shall:

- Review and recommend to the Director the acceptance or rejection of all grant or services project proposals.
- Authorize submission of grant application/proposals and acceptance of grant awards for the Department.
- Monitor grant projects for program and fiscal compliance with granting agency.
- Assure specific requirements of departmental procedures are met.

Budget Management Branch

The Budget Management Branch and the Office Contract Service Unit of the Office of DCP shall coordinate all grant applications and projects for the Department. The Budget Management Branch shall:

- Assist in the preparation of grant application, contracts and other necessary documents.
- Identify potential funding sources and assure compliance with granting agency's requirements.
- Ensure that the following actions are completed:
 - Flow of grant application through Department's approval process.
 - Notification of award.
 - Establishment of guidelines for fiscal and programmatic report requirement.
 - Provision of technical assistance to project directors.
 - Receipts, review, and distribution of project reports and requests for reimbursement.
 - Coordination between grantee (institution/division) and Headquarters.
 - Coordination between grantee and grantor (granting agency).

- Ensure that the activities outlined in the DOM 101100.4 are performed in an efficient and timely manner by creating and maintaining a master file and register to control the processing, implementation and report cycles of grant projects.
- Review all reports required under DOM 101100.10 for compliance with program objectives, timeliness, and fiscal constraints. Recommendations and/or ongoing technical assistance shall be provided to project director as required.
- Conduct on-site review providing technical assistance on each grant project within four months of the project start-up. The on-site review shall include, but not be limited to, the following:
 - Initial interview with project director and staff.
 - Review of staffing and organizational structure.
 - Review of accounting system.
 - Review of reporting requirements and formats.
 - Review of program objectives and time lines.
 - Review of property management and procedures.
 - Review of evaluation plan to include data collection procedures.
 - Conduct an "exit interview" with the project director to discuss review findings, possible problem area and recommendation

Deputy/Assistant Directors, Wardens, RPAs

The appropriate deputy/assistant director, Warden or RPA shall:

- Review and approve initial concepts for grant projects that fall within their respective jurisdictions.
- Provide overall programmatic direction for each grant project.
- Designate a project director.

Project Director

The project director shall be responsible for the implementation and the daily management and supervision of the grant proposal/contract and the mandates of this chapter. The project director shall coordinate the implementation phase with the business manager/fiscal officer.

Business Manager/Fiscal Officer

The appropriate business manager/fiscal officer shall:

- Coordinate support activities such as procurement matters for grant projects.
- Review and approve appropriate grant expenditure report requests for funds and grant award modification requests that shall be submitted to the Budget Management Branch for action.

Accounting Officer

The accounting officer shall:

- Keep separate accounts for the expenditures and reimbursements related to the grant.
- Display this grant on a separate page on quarterly budget reports.
- Obtain budgetary approval from the budget section through the Budget Management Branch.
- Submit reports as described in DOM 101100.10.

Personnel Representative

The personnel representative shall:

- Establish the necessary project staff positions.
- Process appointments and other personnel transactions for project staff.

Procurement and Services Officer/Business Service Officer

The procurement and services officer/business service officer shall initiate and execute the necessary grant contracts/agreement.

101100.5 Grant Proposal Concept

When management staff identify a program need for which departmental funds are not available, a grant proposal concept that includes the following information may be prepared:

- Introduction. Clearly and concisely summarizes the request and describes the current situation.
- Program statement. Documents the needs to be met or the problems to be resolved by the proposed funding.
- Objectives. Establishes the benefits of the funding in measurable terms.
- Methods. Establishes the means of achieving the results desired and presents a timetable for accomplishing these results.
- Evaluation. Describes a plan to prove that the grant project was a success and that the objectives were reached.

- Budget. Presents an estimate of project costs in detail.

Submit To

The grant proposal concept shall be submitted to the Division for Community Partnership and Budget Management Branch for departmental review and approval. The two factors upon which approval shall be based are the following:

- Possible contribution of the grant project to departmental goals and objectives.
- Probable acceptance by a grantor.

Costs

Depending on grantor requirement and limitations, the following costs may or may not be included:

- Administrative costs.
- Personnel services costs.
- Budget administrative costs.
- Leasing costs.

101100.5.1 Impact Statement

In conjunction with the preparation of a grant proposal concept, a program impact statement shall be submitted with the proposal concept to the Budget Management Branch.

101100.5.2 Department Review

Upon receipt of a grant proposal concept and impact statement, the Budget Management Branch shall forward these documents to the appropriate deputy/assistant director for review and approval. Written notification of approval/disapproval shall be submitted by the appropriate deputy/assistant director to the Budget Management Branch no later than 14 days from receipt of the grant proposal concept and impact statement.

101100.6 Grant Application

The Budget Management Branch in conjunction with the sponsoring division shall develop a grant proposal based on the grant proposal concept after receipt of written notification of approval from the appropriate deputy/assistant director. The proposal shall follow the specific requirements and guidelines of the granting agency selected by the Budget Management Branch. The required grant application forms shall be completed and submitted to the Director, DCP, for signature and distribution.

101100.7 Governor's Review

All applications for federal funds shall be submitted through the Budget Management Branch to the Governor's Review Committee. The Budget Management Branch shall monitor all federal grant applications through the Governor's review process. Forty-five days shall be allowed for completion of this process.

101100.8 Grant Award Notification

Upon notification of a grant award, the Budget Management Branch shall notify the following departmental authorities:

- The affected deputy/assistant director.
- The affected Warden or RPA.
- The Deputy Director, Financial Management.
- The business manager of the affected institution.
- The specific project director.

Within 20 days of the notification of a grant award, the Budget Management Branch shall issue specific instructions for project implementation and fiscal requirement to all affected departmental units.

101100.9 Contracts Interagency Agreement

All contracts and/or interagency agreements for grant projects shall conform to the requirement of DOM 22040 and shall be submitted to the Budget Management Branch for review to assure compliance with granting agency requirements and program objectives.

101100.10 Reporting Requirement

Programmatic and financial reports and equipment inventory records are required for all grants awarded to the Department. When a granting agency provides specific reporting requirements, such requirements shall supersede this Section's provisions.

All reports shall be submitted directly to the Budget Management Branch for review and submission to the granting agency.

- Programmatic and financial reports for a calendar quarter shall be prepared and submitted within 15 working days following the end of the quarter.
- Grant award modifications shall be requested when necessary to achieve project objectives and shall include proper justification.

- Equipment inventory records shall be prepared when the equipment is received. Two copies shall be attached to the financial report for the quarter during which the equipment is received.
- All grant project records and supporting documents shall be complete, current, and available for audit during the grant period and for a period of five years from the date of the project's completion.
- Failure to submit required reports on time could result in the withholding of grant funds and/or the termination of the grant.

101100.10.1 Programmatic Reports

Programmatic reports shall:

- Describe activities and accomplishments during the reporting period, emphasizing project phases which have been completed (e.g., initial planning stage, completion of initial survey effort, purchases of required equipment, etc.).
- Cover major administrative development such as changes in personnel, project design, etc.
- Mention and discuss problem areas and critical observations, as well as project success.

Copies of any special reports, evaluation studies, publications, or articles prepared as a result of the project's operation shall be attached to the report.

101100.10.2 Financial Reports

The financial report shall provide a summary of the actual expenditures and anticipated expenditures (encumbrances) to date for each of the following categories:

- Personal services.
- Employee benefits.
- Consulting services.
- Operating expenses.
- Travel.
- Equipment.
- Minor capital outlay.
- Other (for any unusual items which do not fit into one of the other categories).

Budget Management Branches instructions for the particular grant project or the granting agency requirements provide directions for the types of expenses that are in each category.

If a grant award modification was made affecting the approved budget, then the financial report shall identify the modification by number and type.

The financial report shall be prepared using CDC Form 904, Financial Report for Grant Projects Summary.

A final financial report that includes all actual expenditures and no encumbrances shall be submitted within 90 days after the project termination.

101100.11 Budget Revision

A budget revision is required for a change within the approved budget that does not change the project scope, the total grant award amount, or the grant project period.

All budget revisions require Budget Management Branches prior approval. The granting agency's prior approval for budget revisions shall be required when:

- Transferring funds in or out of the equipment or minor capital outlay categories.
- Transferring funds into a category which has no funds budgeted.
- Transferring funds from one category to another in excess of the amount permitted by the granting agency.

Even though changes may not be requested in all categories, the current amounts of all categories shall be shown. Current category amounts refer to the amounts which were approved either originally with the grant award or subsequently as a result of a budget revision and/or grant award amendment. Parenthesis shall be used to indicate a decrease and the addition symbol "+" to indicate an increase of the category amounts in the proposed change column (3) of CDC Form 905, Grant Award Modification Request for Grant Projects.

101100.12 Grant Award Amendment

Grant award amendments are changes in the grant which affect the project scope, the total amount of the project budget, the date by which the project shall be completed, and the date by which all project debts shall be paid.

All grant award amendments require prior approval from both the Budget Management Branch and the granting agency.

When requesting additional funding, budget change column 4 of CDC Form 905 shall be used to indicate amount.

Substantial justification shall be provided for changes that require a grant award amendment.

CDC Form 905 shall be completed and submitted to the Budget Management Branch for grant award modification request.

101100.13 Equipment Inventory Records

All equipment purchases with grant funds for the project shall be inventoried and tagged in accordance with current departmental/institutional procedures and SAM 8630 through 8660.

Existing departmental/institutional inventory record form may be used. This form shall include:

- Grant project title.
- Grant award number.
- Grant contract number.
- A complete description of the equipment.
- Total cost of the equipment.

Two copies shall be submitted to the Budget Management Branch.

An equipment inventory record file shall be maintained for the life of the grant.

All subsequent changes to the equipment inventory, (e.g., changes in location, disposition, loss, etc.) shall also be submitted to the Budget Management Branch for updating purposes.

All equipment purchased with grant funds shall become departmental property at the end of the project period unless granting agency specifies otherwise.

101100.14 Project Evaluation

Each contract for a grant project shall contain a section that specifies an evaluation plan that shall, at a minimum, contain the following:

- The method by which each of the objectives shall be measured.
- The method that shall be used to determine the project's success in achieving its stated objectives; identification of the measures of success.
- Description of the method and type of data collection to include program participants and workload data.
- Description of any research techniques or methods which shall be used such as pre/post tests, control groups, and experimental groups, etc.

A completed evaluation report shall be presented to the Budget Management Branch no later than 90 days following the termination of the grant project.

The Budget Management Branch shall distribute the evaluation results to the appropriate deputy director, Warden, or RPA.

101100.15 Revisions

The Director, DCP, or designee, shall ensure the content of this Section is accurate and current.

101100.16 References

SAM § 900.

ARTICLE 11 — GIFTS AND DONATIONS

Revised March 11, 2003

Updated April 5, 2007

101110.1 Policy

The California Department of Corrections and Rehabilitation (CDCR) shall accept gifts or donations if it is in the best interest of the CDCR and is consistent with current statutes, laws, regulations, etc. Only those gifts or donations that supplement the CDCR budgets or provide cost avoidance to the taxpayer without incurring any future expenditure related to the gift or donation shall be accepted.

Property acquired through gifts or donations shall become property of the State. Gifts and donations should be used exclusively for the purpose for which they were originally donated.

No officer or employee of the CDCR may, for private gain, accept or receive money or other compensation from anyone other than the State for the performance of his or her State duties. Nor may any officer or employee of the CDCR solicit, accept, or receive any gift or donation from anyone doing or seeking to do business with the State.

101110.2 Purpose

This Article establishes the requirements for the acceptance of gifts or donations in the best interest of the CDCR.

101110.3 Responsibility, Headquarters**Secretary**

The Secretary of the CDCR may accept gifts or donations of goods or services not involving new expenditures of State funds.

Office of Fiscal Services

Acceptance of gifts or donations that generate a new expenditure of State funds is subject to approval of the Department of Finance (DOF). The Director or designee, Office of Fiscal Services (OFS) shall:

- Review and forward to DOF a CDC Form 922, Authorization to Accept Gifts or Donations, that has been approved and processed by Division of Community Partnerships (DCP).

Other Divisions/Offices

When a person or entity contacts a headquarters' unit with an offer of a gift/donation, the appropriate manager shall designate a staff person who shall:

- Complete the CDC Form 922.
- Obtain the signature of the appropriate Director/Deputy Director.
- Submit the signed authorization form to the DCP.

Division of Community Partnerships

The Director or designee, DCP, shall:

- Receive a quarterly report from each institution for the purpose of maintaining a statewide database on gifts and donations.
- Approve and process all gifts and donations that require DOF review.
- An assigned Manager in the DCP shall:
- Forward CDC Form 922 to the OFS, and monitor the approval process if the gift/donation has an impact on CDCR budgets.
- Approve all CDC Form 922s provided by the Division of Adult Parole Operations (DAPO) and headquarters.
- Maintain records of all approved gifts and donations to include donations identified on institutions quarterly reports.
- Provide technical assistance as needed.

101110.4 Institutions**Warden**

The Warden of each institution shall authorize the acceptance of gifts and donations not impacting the CDCR budgets.

If the gift or donation has an impact on CDCR budgets, the Warden shall forward CDC Form 922 to the CRM in the OCR for processing through the OFS.

Community Resources Managers, Division of Community Partnerships

The Community Resource Managers (CMR) shall:

- Identify the equipment, supply, or material needs of the institution that can be met by solicitations of gifts or donations.
- When feasible, solicit contributions from public agencies and private enterprise that meet the identifiable needs of the institutions.
- When notified of the availability of a gift and/or donation, contact any program or administrative staff who may be affected by the gift and/or donation to determine if the gift and/or donation shall be accepted.
- Process the gift and/or donation items for necessary approvals in compliance with the provisions of this Article.
- Place all cash donations in a special purpose trust account.
- Obtain the Warden's signature on a CDC Form 922 when a gift and/or donation is appropriate for acceptance by the institution.
- Forward the CDC Form 922 to the DCP for approval by OFS for donations impacting the CDCR budgets.
- Notify appropriate institution staff when CDC Form 922 is approved by the Warden or DOF, as appropriate.
- Arrange for the efficient receipt of the gift and/or donation, delivery to the appropriate location, and the addition of the gift and/or donation to the institution property inventory (if applicable).
- Acknowledge appreciation to the donor(s) through written communication from the Warden and provide a copy of CDC Form 922 upon request (for tax purposes).
- Verify donated vehicle(s) has been approved by Department of General Services (DGS), Fleet Administration Representative. Attach the inspected approval document to CDC Form 922.

- Maintain a copy of the approved CDC Form 922 for a minimum of five years.

Procurement Officer

The institution Procurement Officer shall keep inventory records for all non-disposable property received as a gift or donation, in accordance with the inventory control guidelines as set forth in the Correctional Business and Administrative Support Systems.

Food Manager

The Food Manager shall monitor food donations to ensure compliance with the CDCR regulations for food safety, and DGS procurement standards.

Associate Information Systems Analyst

The Institution's Associate Information Systems Analyst will review all computer-related equipment, materials, and applications to ensure compliance with institution requirements.

Staff

Institution staff, as authorized by the Warden, may maintain direct communication with persons or entities wishing to provide a gift and/or donation. Upon offer of a gift and/or donation to a specific facility, staff in contact with the donor shall:

- Notify the facility CRM of the offer.
- Complete and submit to the facility CRM a CDC Form 922.

101110.5 Division of Adult Parole Operations Field Units

When a gift and/or donation is offered to any field unit or institution in the DAPO, the appropriate manager or unit supervisor shall appoint a staff person who shall:

- Complete CDC Form 922.
- Ensure that the authorization form is forwarded through the unit supervisor and Regional Parole Administrator to the Director, DAPO, for signature prior to submission. Submit the signed CDC Form 922 to the OCR.

Verify donated vehicles have been approved by the DGS, Fleet Administration Representative.

101110.6 Revisions

The Director, DCP, or designee shall be responsible for ensuring that the contents of this Article are kept current and accurate.

California Code of Regulations, Title 15, Sections 3413 and 3409.

ARTICLE 12— LIBRARY AND LAW LIBRARY

Revised November 4, 2015

101120.1 Policy

An inmate library shall be maintained by each facility, reception center, and camp and shall operate according to an operation schedule approved by the Warden or officer in charge. The schedule shall be widely distributed to the inmate body and posted throughout the facilities, reception centers, and camps. The library program shall allow for maximum inmate access and participation.

101120.2 Purpose

There shall be a general library and at least one law library in each facility with space to provide service to all segments of the facility population. Such areas shall contain space to accommodate State-owned books and non-print materials and to allow individual study of the available materials. Access to each library shall take into consideration the needs of general population inmates and inmates assigned to security, segregation, and other restricted housing units. The program shall include opportunity for independent, informal study and research, general library services, e.g., recreational reading and interlibrary loan, legal library service, and circulation legal library services.

101120.3 Responsibility

The Director, Division of Adult Rehabilitative Programs, shall be responsible for the inmate library program.

Superintendent of Education

The Superintendent of Education shall develop and monitor departmental inmate library policy.

Senior Librarian

The Senior Facility Librarian shall implement the facility library program and shall report to the Supervisor of Academic Instruction, Supervisor of Vocational Instruction or the Supervisor of Correctional Education Programs, or such person as the Supervisor of Correctional Education may designate.

Librarian

A Librarian is supervised by a Senior Librarian, when applicable. The Librarian is an entry level professional who can operate a smaller correctional library, undertake law library functions or act as a lead on or perform more complex library tasks.

Library Technical Assistant

Library Technical Assistants are paraprofessionals who perform basic library services such as copy cataloging, circulation, overdue book notifications, book repairs, library inventories or train and direct inmate library workers in those tasks. The Librarian and Library Technical Assistant may also operate small libraries under the technical direction of a Senior Librarian or provide reasonable accommodation for Developmentally Disabled Program inmates.

101120.4 Replacement of a Librarian

The SPB and DOF established the librarian series as the appropriate series to provide library services to inmates. In an emergency, the Department is authorized to utilize non-librarians to provide library services.

When a librarian position is vacant, the facility shall actively recruit for a librarian to fill the position.

If a facility is unable to employ a librarian from the civil service list, the Superintendent of Education shall be notified. Approval may be given by the Superintendent of Education to fill the vacancy with a non-librarian who has adequate training in prison law library management if it can be shown that the facility has made every effort to recruit a librarian and has not been successful.

101120.5 Library Services Criteria

On-Site Staff

Facility library staff (includes Senior Librarians, Librarians, and Library Technical Assistants) shall provide library services and materials.

Access

Library services shall be scheduled to provide adequate inmate access, while maintaining institutional security and operational needs.

Collection Development

Library materials shall be selected and provided to meet the needs and interests of the entire inmate population. Materials provided shall encompass the American Correctional Association's and the American Library Association's recommended standards and shall be augmented by reference materials necessary to meet the needs of the facility. Suggestions and requests from inmates shall be solicited both informally by suggestion box and formally by an inmate library committee meeting with library staff on a scheduled basis.

101120.6 Inmate Welfare Fund

To be paid out of Inmate Welfare Fund appropriations:

- Publications: Purchase of newspaper and magazine subscriptions for library and entertainment purposes, and to supplement or support appropriation purchases.
- Fiction books, especially paperbacks, to supplement or support appropriation purchases.

101120.7 Establishing and Maintaining a General Library Collection

Required Reference Materials-Minimum Collection Facility

Each institution shall maintain at least one library that is accessible to inmates that contains the following reference materials in print or electronic formats:

- An encyclopedia purchased within the last 10 years.
- An unabridged dictionary purchased within the last 5 years.
- A sign language dictionary.
- A world almanac purchased within the last 5 years.
- A world atlas purchased within the last 5 years. A road atlas shall not be included within the library collection.
- A primary dictionary purchased within the last 5 years.
- A visual dictionary purchased within the last 5 years.

- A Spanish to English-English to Spanish dictionary purchased within the last 5 years.

General Library Book Circulation Collection

The following library book stock formulas should be used as general guidelines, and are based on the use of the book collection by 55 percent of the population. The actual size of the general library collections may vary based on budgetary constraints and limitations for shelving and storage.

Men's Facility

Total facility inmate library fiction book stock = .55 x population x 7 books.

Total facility inmate library nonfiction book stock = .55 x population x 5 books.

Men's Reception Center and Camp

Total inmate library fiction book stock = .55 x population x 10 books.

Total inmate library nonfiction book stock = .55 x population x 2 books.

The library book stock formula for female inmates is based on the use of the book collection by 85 percent of the population.

Women's Facility

Total facility inmate library fiction book stock = .85 x population x 7 books.

Total facility inmate library nonfiction book stock = .85 x population x 5 books.

Woman's Reception Center and Camp

Total inmate library fiction book stock = .85 x population x 10 books.

Total inmate library nonfiction book stock = .85 x population x 2 books.

For hardback books, the library book stock formula for female inmates is based on six hardback books by 85 percent of the population.

101120.7.1 Required Material to be Included in the General Library Collection

Multi-cultural material:

The general library collection must contain a selection of ethnically diverse titles.

Literacy Material

The general library collection must contain titles representing high interest/low level reading material.

Education Support Materials

The general library collection must contain textbooks representing vocational and academic programs, as well as current GED programs.

Life Survival Skills Materials

The general library collection must contain a selection of life skills materials, including, but not limited to:

- Anger Management.
- Building self-esteem.
- Substance abuse.
- Getting and keeping jobs.
- Parenting.
- Material related to living successfully inside and outside of prison.

101120.7.2 Donations to the General Library Collection

Library donations for the general library collection are encouraged at the institution level:

- Inmates as well as staff and the general public shall be allowed to donate materials to the library.
- Periodicals, hard back books, paperback books, pamphlets and non-print materials are acceptable. The covers of hard back books do not have to be stripped in order to be acceptable unless local written policy specifically addresses the issue.
- Senior or Lead Librarians shall coordinate library donations.
- Documentation of any donations is required. CDCR Form 922 is the standard form of donation authorization.
- All donated library materials shall be inspected for safety, security, appropriateness, and usefulness before being placed in the collection.
- The facility is under no obligation to accept all donations for placement in the library. Those items deemed unsuitable shall be officially discarded.

101120.7.3 Material Excluded From Inmate Libraries

Printed material which describes the making of any weapons, explosive, poison, destructive device, or which in the Secretary's sole discretion depicts, portrays, or describes a sexual assault upon a correctional employee shall be excluded from publications furnished to facility inmate libraries.

Obscene material and other forms of contraband, as described in CCR section 3006, shall be excluded from inmate libraries.

101120.8 Circulation of General Library Materials

To check out books and other library materials, inmates shall:

- Present their identification or privilege card to the librarian.
- Sign a trust account withdrawal order before any books are checked out to them.
- Inmates who lose or damage books or library materials shall pay for them.
- Inmates shall not loan books to other inmates.
- Display books or other materials to correctional staff upon exiting the library.

The standard check-out period will be two weeks. A library item can be renewed for an additional two weeks if there are no requests for the item. Check-out of materials can be performed either manually or via a computer. The maximum number of titles an inmate should be able to check out and have in their possession is two titles. Inmates should review any item they plan to check out to ensure that there is no unnoted damage already present. Inmates shall not loan books to other inmates.

101120.8.1 Overdue, Damaged, or Lost Materials

An inmate's check-out privileges are temporarily suspended when an inmate has an overdue, damaged, or lost book until the issue has been resolved.

Overdue Materials

One standardized overdue notice will be sent to the inmate no sooner than four to six weeks after the due date. If the inmate does not respond within two weeks of his or her overdue notice, the inmate will be charged with a non-refundable fee that is the newest list price available in a reputable trade publication. Payment of the fee does not constitute payment for the book.

Damaged Materials

Damaged material will be inspected by library staff to determine if the material remains unusable in its damaged state. A note will be placed in the body of the material noting observed damage, date and the initials of the library staff making the damage determination. If the damaged material requires repairs to continue to be usable, a non-refundable repair fee of five dollars will be charged to the inmate's trust account and a record of the repair will be maintained under the inmate's name. If the damaged material is not repairable, the replacement cost will be charged to the inmate. Payment of this fee does not allow the inmate to repossess the damaged item. Library staff will determine how to dispose of the damaged item and whether the damaged item will be repurchased for the collection.

Lost Materials

Inmates who lose books or library materials shall pay for them. Library staff will use the newest list price available in a reputable trade publication and a record of the loss will be maintained under the inmate's name. Payment of the non-refundable cost does not constitute payment for the book.

101120.9 The Law Library

The inmate law library is intended to provide inmates with meaningful access to the courts.

Abuse of Law Library

Disciplinary action for an inmate who is found to be guilty of a serious rule violation pertaining to law library resources, facilities, or staff may include a suspension of all access to the law library access for up to 90 calendar days. This action does not preclude an inmate from pursuing legal research through the reasonable use of law library paging, beginning three calendar days after the date of suspension and continuing until the suspension period ends.

101120.10 Inmate Access to Law Libraries

Law library access means entry into a facility law library for the purpose of using its legal resources. A facility law library includes print or electronic copies of the required legal materials. All inmates, regardless of their classification status, shall be entitled to law library access that is sufficient to provide meaningful access to the courts. Inmates on Priority Legal User (PLU) status may receive a minimum of 4 hours per calendar week of requested access, as resources are available, and shall be given higher priority to the law library resources. Inmates on General Legal user (GLU) status may receive a minimum of 2 hours per calendar week of law library access, as resources are available.

Operational Schedule

Each facility head shall formulate an operational schedule for the inmate law library. This schedule shall include:

- Daily hours of library operation.

- Consideration to needs of inmates assigned to day work, training, or education.
- Consideration to needs of inmates assigned to security, segregated, and other restricted housing units.

General Population Inmates

All inmates in the general population shall have access to the law library, consistent with this section. General population inmates who have received PLU status shall be given priority for passes to the inmate law library.

Restricted Housing Unit Access

All inmates confined in restricted housing units shall have access to the law library, consistent with this section. Inmates in restricted housing who have received PLU status shall be given priority for escort by correctional officers to the inmate law library.

Return-to-Custody (RTC) and Camps Inmate Access

RTC inmates who request access to law library materials shall be transferred to the nearest facility for the period of time needed to complete their legal work. Camp inmates requesting access to the law library shall be returned to their "hub" facility for the period of time needed to complete their legal research.

Inmates Identified as Disabled

Inmates with visual or hearing impairments shall be afforded reasonable accommodations as necessary to facilitate their access to law library resources.

Inmates in the Developmental Disability Program (DDP) shall also be afforded reasonable law library accommodations. DDP accommodations may include, but are not limited to, identification of legal research materials, and assistance in reading and scribing forms. Designated institutions shall have Library Technical Assistants who are assigned to assist DDP inmates in their use of the law and general libraries. DDP Library Technical Assistants and all other library staff shall not function as paralegals or provide any type of legal advice, explanation, opinion, or recommendation to an inmate about possible legal rights, remedies, defenses, options, selection of forms, or strategies.

Paging

When unable to access the law library, an inmate may request access to legal material through delivery of those materials to the inmate by library staff. This process is referred to as law library paging. An inmate shall not be limited to law library paging for access to legal materials except under extraordinary circumstances including, but not limited to, the following:

- The inmate is directly under a prison lockdown.
- The inmate is under restricted movement due to his or her medical status.
- The inmate has been suspended from access to the law library pending investigation of a serious rule violation.

When GLU inmates are limited to law library paging for any reason, law library staff must deliver the requested legal materials to their cells as soon as possible, but no later than 16 calendar days from the date of the paging request. Law library staff must deliver the requested materials to PLU inmates no later than 5 scheduled working days from the date of the paging request.

Lockdown Access to the Law Library by Inmates

GLU inmates who are limited to law library paging due to a lockdown shall, whenever possible, have their law library access restored within 16 calendar days unless a high security risk continues to exist to prohibit law library access. PLU inmates limited to law library paging due to a lockdown shall have their law library access restored within 5 working days unless a high security risk continues to exist to prohibit law library access.

101120.10.1 Access to the Law Library by Inmates with Established Court Deadlines

Inmates who have established court deadlines may apply for PLU status to the prison law libraries. Inmates who are granted PLU status shall receive higher priority to prison law library resources than other inmates. All inmates who are not on PLU status are on GLU status, unless otherwise restricted as set forth in DOM section 101120.10.

An established court deadline may be either a court imposed deadline for an active case or a deadline that is established by a statute or court order. Inmates who apply for PLU status based on a court imposed deadline must show documentation from the court to verify that deadline.

An inmate who is represented by an attorney for a case shall not be eligible for PLU status for any established court deadline pertaining to that case. An

inmate with attorney representation for the established court deadline shall be entitled to GLU status only.

Inmates shall complete and sign a CDCR Form 2171, Priority Legal User (PLU) Request and Declaration, to apply for PLU status. Except under extraordinary circumstances, law library staff shall have seven calendar days after receipt of the completed and signed Form 2171 to process an inmate's application. Staff members who disapprove an inmate's application shall provide the reasons for their disapproval on the form and shall provide a copy of that document to the inmate.

An inmate who is found to have provided false information on his or her application for PLU status shall be guilty of an administrative rule violation and shall not be able to obtain PLU status based on that application.

An inmate's PLU status shall begin no earlier than 30 calendar days before the established court deadline unless the inmate can demonstrate need for a longer period of PLU status based on extraordinary circumstances beyond the inmate's control.

PLU status is intended to assist inmates to do legal work in a quiet law library setting. An inmate on PLU status who, while in the law library, is observed by staff to act in an unreasonably disruptive manner or to engage in non-legal work shall be removed from the PLU list and shall be dismissed from the library for that day. Inmates who are removed from the PLU list for these reasons shall be ineligible to reapply for PLU status for 30 calendar days, but may continue to use the law library on GLU status.

Inmates may not trade, transfer, or delegate their PLU status to other inmates. An inmate who assists another inmate in the preparation of legal documents may not use the PLU status of the inmate being assisted.

101120.11 Establishment of the Law Collection and Description

Each institution shall maintain at least one law library for the use of inmates, in print format, electronic format, or a combination of both. Except for items that are out of print, the Law Library collection shall include, but shall not be limited to, the following current and updated legal materials or their equivalent from other publishers:

Codes

- Deering's California Codes Annotated.
- Michie, United States Code Service.

Reporters

- Michie, California Official Reports.
- Matthew Bender, California Criminal Defense Practice (latest edition).
- All Federal Appeals Court Cases as reported in the Federal Reporter.
- All Federal District Court Cases as reported in the Federal Supplement.
- All United States Supreme Court Cases.

Shepards

- United States Citations.
- Federal Citations.
- California Citations

Secondary Sources

- A recognized law dictionary, such as Black's or Ballentine's (latest edition).
- Matthew Bender, California Evidence Courtroom Manual (latest edition).
- Matthew Bender, California Forms of Pleading and Practice (latest edition).
- The Daily Journal (newspaper) 1 year back file.
- Matthew Bender, California Criminal Discovery (latest edition).

- California Juvenile Courts Practice and Procedure (latest edition).
- California Superior Court Local Rules.
- Judicial Council of California Civil and Criminal Jury Instructions.
- Matthew Bender, Moore's Federal Practice (latest edition).
- Anderson, Constitutional Rights of Prisoners (latest edition).

Electronic Collection

An institution may have as many copies of the electronic collection (LLEDS) of legal titles placed in their general population libraries as needed. Each computer loaded with a copy must be licensed. Supplemental titles that are required but not available on LLEDS must be made readily available to inmates through other resources.

101120.12 Maintaining a Current Law Library Collection

Print Law Library

Each set of case reports and statutes shall be kept current. Lost, stolen, or missing volumes that are damaged beyond use shall be replaced. A continuing subscription to advance sheets and new volumes shall be maintained for each set of reports or cases, and supplements to each set of codes, statutes, and other reference works shall be obtained and added to each library as they become available.

Law books not listed in DOM 101120.11, but currently existing at various facilities, may be retained in facility law libraries if they are not out of date, but need not be replaced in case of loss, theft, or mutilation.

Electronic Formats

Electronic collections shall be kept current. A continuing subscription to electronic law library material shall be maintained to ensure accuracy.

Desktop LLEDS computers shall be updated by institutions information systems staff within ten business days of receipt. Touch screen kiosks shall be updated by local library staff within ten business days of receipt.

101120.13 Law Library Budget/Legal Material Replacement Procedures

Purchasing procedures for replacement of lost or damaged legal materials, updating the collections, obtaining supplements, revisions, and subscriptions include:

- Purchases of the annual subscriptions required to keep each inmate law library collection current and materials to replace items lost or damaged shall be made by the Procurement Officer at each facility. Such purchases are to be made from inmate law library funds, not regular library funds.
- Purchases of mandated law materials lost, damaged, stolen, or missing from the facility law library shall be made by the facility. The law library supervisor or designated library staff shall complete an annual inventory of the inmate law library and report to the library coordinator any lost, stolen, or missing print or electronic items or items damaged beyond use.
- Any required legal materials borrowed from outside the local facility and subsequently lost, damaged, or destroyed at the facility shall be replaced by the local facility. The law library supervisor or designated library staff shall submit a written report to the facility Warden and OCE and request funds from the institution budget for replacement of the lost title.
- Purchases of law books and other legal materials not on the required list shall be the responsibility of the facility.

101120.14 The Circulating Law Library

The following legal materials or their equivalent from other publishers in either electronic or print format shall be available either through an outside source or through a circulating law library maintained by in the Department:

- Corpus Juris Secundum (latest edition).
- Federal Rules Decisions.
- California Jurisprudence (latest edition).

Function

The function of the circulating law library shall be to transfer law books or other printed or digital/electronic materials to facility law libraries for the temporary use of the inmates in those facilities.

Method

No inmate may request law library materials directly from the circulating law library. All requests must be processed through the library staff member designated to request materials from the circulating law library.

Upon receiving a request from an inmate for a particular volume in the circulating law library, a facility librarian shall immediately order that volume from the librarian of the circulation law library who shall dispatch it to the requesting facility librarian immediately upon receipt of the request or notify the requesting librarian that the volume is on loan. When the volume is received at the facility library, the librarian shall immediately notify the requesting inmate. The volume may be retained at the facility library up to three days during which time it shall be available for use by any inmate. If the requesting inmate demonstrates an inability to use the volume during the

three-day period, the facility librarian may retain the volume for an additional four days.

- No volume shall be retained at any facility law library for a longer period than seven days unless the librarian ascertains from the circulating law library librarian that the volume is not on request by any other (facility) library.
- The circulating law library librarian may direct that any volume from that library on loan to a facility library be transferred directly to another facility library in satisfaction of a loan request.
- No inmate shall request more than five volumes from the circulating law library during any one-week period.
- The circulating law library shall be operated in such a manner as to ensure maximum access by all inmates to the volumes contained in said library.
- When possible, the circulating law library shall send a duplicated copy of the requested material to the requesting library rather than send the entire volume.
- Said copy may be retained indefinitely by the inmate requesting the material.

CDCR may contract the actual operation of the circulating law library to another agency providing that the required standards of service are retained.

101120.15 Photocopying/Computer Print-outs

Legal duplication services may be provided to inmates for the purposes of initiating or maintaining a court action. The printed forms required by state and federal courts shall be made available to inmates. An inmate shall be required to pay for the duplication of printed forms and other written or typed materials, and for any special paper and envelopes required for mailing to the courts so long as the inmate has more than \$1.00 in their trust account or the inmate has attorney representation for the court action. An inmate who is indigent and is without attorney representation for the court action shall receive legal duplicating services without charge.

A legal document to be duplicated for any inmate, including all exhibits and attachments, shall be limited to the maximum number of pages needed for the filing, not to exceed 50 pages in total length. Inmates requesting copy services must clearly identify the pages to be copied. Requests by an inmate to duplicate a legal document exceeding 50 pages in length shall be granted when accompanied by a reasonable written explanation of the need. All inmate requests for duplication services must comply with applicable regulations and with DOM Chapter 1, Article 18, Sections 14010.21 through 14010.21.4.

An indigent inmate who does not have attorney representation may receive duplication services without charge, as described in CCR subsection 3162(d).

All documents submitted for copying must be complete and ready for mailing.

Copies of law book pages, law review articles, and other documents listed in DOM Section 14010.21.3 shall not be duplicated without charge to the inmate.

101120.16 Reporting Library Statistics and Activities

A Quarterly Library Operations Report shall be completed and submitted no later than the fifteenth day of the first month of each quarter for the preceding quarter and shall be sent to the Principal Librarian. The CDC 400 Quarterly Report form shall also be accompanied by a circulation report printed from Concourse or equivalent book tracking software, which may, at the written direction of the Principal Librarian, include but not be limited to the following data: total circulation of books, genre of books circulated, and inventory information.

At the end of the fiscal year, an annual report incorporating the statistics and information of the quarterly reports of the preceding year shall be completed and submitted no later than the last working day of the first month in the new fiscal year. The Annual Report should include a brief narrative, no longer than one page, describing the achievements and challenges of the library program during the preceding year.
