AB:	Administrative Bulletin
ABE:	Adult Basic Education
ACA:	American Correctional Association
ADA:	Americans with Disabilities Act
AD-SEG:	Administrative Segregation
AFC:	Asset Forfeiture Coordinator
AG:	Attorney General
AIC:	Agent-In-Charge
AIDS:	Acquired Immune Deficiency Syndrome
AISA:	Associate Information Systems Analyst
AOD:	Administrative Officer of the Day
AOJ:	Abstract Of Judgment
APA:	Administrative Procedure Act
APB:	All Points Bulletin
AR:	Activity Report
ARC:	AIDs Related Condition
AS:	Accounting Services
ASD:	<i>See</i> Division of Administrative Services (DAS)
ASH:	Atascadero State Hospital
ASP:	Avenal State Prison
ASU:	Automation Support Unit
ATO:	Administrative Time Off
ATS:	Automatic Transfer System
AUS:	Assistant Unit Supervisor
AW:	Associate Warden
AWOL:	Absent Without Leave
AWP:	Annual Work Plan
B	
B&PC:	Business and Professions Code
BCP:	Budget Change Proposal
BCS:	Budget Concept Statement
BMB:	Budget Management Branch
BOC:	<i>see</i> Victims Compensation and Government Claims Board (VCGCB)
BOE:	Board Of Education
BPH:	Board of Parole Hearings (formerly Board of Prison Terms)
BSB:	Business Services Branch (See Office of Business Services OBS)
BU:	Bargaining Unit
C	
C&PR:	Classification & Parole Representative
CA:	Correctional Administrators

CAC:	Commission on Accreditation for Corrections
CAL:	Calipatria State Prison
CalHR	California Department of Human Resources (formerly DPA and SPB)
CALPIA:	California Prison Industry Authority (formerly PIA)
CAL-OSHA:	California Occupational Safety and Health Act
CALSTARS:	California Statewide Accounting and Reporting Systems
CAP:	Corrective Action Plan
CAS:	Chemical Abstract Service
CASE:	Computer Assisted Software Engineering
CAT Scan:	Computerized Axial Tomography Scan
CBASS:	Correctional Business and Administrative Support Systems
CC:	Correctional Counselor
CCC:	California Correctional Center
CCF:	Community Correctional Facilities
CCI:	California Correctional Institution
CCCMS:	Correctional Clinical Case Management System
CCP:	Code of Civil Procedure
CCR:	California Code of Regulations
CCRA:	Correctional Case Records Administrator
CCRC:	Community Correctional Reentry Centers
CCRM:	Correctional Case Records Manager
CCRS:	Correctional Case Records Supervisor
CCWF:	Central California Women's Facility
CDCR:	California Department of Corrections and Rehabilitation (formally CDC)
CDD:	Controlling Discharge Date
CDO:	Chief Disciplinary Officer
CEA:	Career Executive Assignment
CEN:	Centinela State Prison
CFC:	California Film Commission
CFSTEP:	California Fire Service Training and Education Program
CHP:	California Highway Patrol
CHSPE:	California High School Proficiency Examination
CI:	Confidential Informant
CI&I:	Criminal Identification and Information

CIM:	California Institution for Men
CIW:	California Institution for Women
CLETS:	California Law Enforcement Telecommunications System
CLLR:	County of Last Legal Residence
CLS:	Correctional Law Section
CLU:	Correctional Law Unit
CMB:	<i>See</i> Office of Business Services (OBS)
CMC:	California Men's Colony
CMF:	California Medical Facility
CMO:	Chief Medical Officer
CO-BCP:	Capitol Outlay Budget Concept Proposal
COC:	County Of Commitment

FSB:	Fiscal Services Branch (<i>see</i> Office of Fiscal Services)
FSR:	Feasibility Study Reports
FUNA:	Field Unit Notice Agent
G	
GC:	Government Code
GED:	General Education Development
GF:	General Fund
GFE:	Good Faith Effort
GISO:	General Industry Safety Order
GLU:	Government Law Unit
GPS:	Global Positioning System
GSOP:	General Services Office of Procurement
GUME:	General Use Mobile Equipment
H	
H&SC:	Health and Safety Code
HAM:	Hiring-Above-Minimum
HASS:	Headquarters Accounting Services Section

ACRONYMS AND CROSSWALK

HC:	High Control
HCSD:	Health Care Services Division (see DCHCS)
HDSP:	High Desert State Prison
HIV:	Human Immunodeficiency Virus
HMIS:	Health Management Information System
HNC:	High Notoriety Case
HO:	Hearing Officer
HR:	Human Resources
HRSO:	High Risk Sex Offender
HS:	High Service
HSP:	Home Storage Permit
HWD:	Holds/Wants/Detainer
I	
IO:	Indirect Overhead
IAB:	Inmate Appeals Branch (See Office of Appeals OOA)
IAC:	Inmate Advisory Counsel
IAC:	Institution Advisory Counsel
IATS:	Inmate Appeals Tracking System
IB:	Informational Bulletin
ICC:	Institution Classification Committee
ICS:	Institution Contracts Section (see OBS)
ID:	Institutions Division (see DAI)
IDL:	Industrial Disability Leave
IDL:	Inmate Day Labor
IFB:	Invitation For Bids
IGI:	Institution Gang Investigator (see STG Investigator)
IM:	Instructional Memorandum
IMAP:	Information Management Annual Plan
IMS:	Interagency Mail Service
IPA:	Information Practices Act
IPO:	Institutional Personnel Officer
IPTS:	Interim Parolee Tracking System
IQSS:	Information Quality Support Section
IRS:	Internal Revenue Service
IS:	Information Systems
ISA:	Information Systems Analyst
ISC:	Information Security Coordinators
ISD:	Information Services Division (see EIS)
ISDRC:	ITS Disaster Recovery Coordinator
ISL:	Indeterminate Sentence Law
ISO:	Information Security Officer
ISOS:	Institution Standards and

Operations Section	
ISP:	Ironwood State Prison
ISRS:	Institutional Staff Recommendation Summary
IST:	In-Service Training
ISTS:	In-Service Training Section
ISU:	Institution Services Unit
IT:	Information Technology
ITCS:	Inmate Time Collection System
IV:	Intravenous
IWF:	Inmate Welfare Fund
IWTIP:	Inmate Work Incentive/Training Incentive Program
J	
JAC:	Joint Apprenticeship Committee
JIAAC:	Joint Inmate Apprenticeship Advisory Committee
JVP:	Joint Venture Program
K	
K-9:	Canine
KVSP:	Kern Valley State Prison
L	
LAC:	California State Prison, Los Angeles County
LAD:	Legal Affairs Division (see OLA)
LAN:	Local Area Network
LC:	Labor Code
LEAA:	Law Enforcement Assistance Administration
LEAP:	Limited Examination and Appointment Program
LEIU:	Law Enforcement and Investigation Unit (see OCS)
LLO:	Legislative Liaison (see OOL)
LMS:	Litigation Management Section
LPS:	Lanterman-Petris-Short Act
LPU:	Legal Processing Unit
LRB:	Labor Relations Branch (see OLR)
LSS:	Legal Status Sheet
LT:	Limited Term
LTO:	Local Testing Offices
LVN:	Licensed Vocational Nurse
LWOP:	Life Without Possibility Of Parole
M	
M&VC:	Military and Veterans Code
MAC:	Men's Advisory Council
MAR:	Master Assignment Roster
Max:	Maximum

MBE:	Minority Business Enterprises
MCSP:	Mule Creek State Prison
MCU:	Management Control Unit
MDO:	Mentally Disordered Offender
MERD:	Minimum Eligible Release Date
MH:	Mental Health
MIA:	Missing In Action
MIN:	Minimum
MIRS:	Management Information Retrieval System
MIS:	Management Information Systems
MOD:	Medical Officer of the Day
MOU:	Memorandum Of Understanding
MPAS:	Managerial Performance Appraisal System
MQ:	Minimum Qualifications
MRA:	Master Rental Agreement
MRD:	Max Release Date
MRDT:	Mandatory Random Drug Testing
MS:	Minimum Supervision
MSA:	Merit Salary Adjustment
MSAO:	Master Service Agreement Order
MSDS:	Material Safety Data Sheets
MSH:	Metropolitan State Hospital
MSS:	Material Services Section
N	
NAEA:	Narcotic Addiction Evaluation Authority
NC:	New Charge
NCDOM:	Notice of Change to Department Operations Manual

CHAPTER 1 — GENERAL ADMINISTRATION

ARTICLE 1 — OFFICE OF THE SECRETARY

Revised June 17, 2015

11010.1 Policy

The Secretary of the California Department of Corrections and Rehabilitation (CDCR) has established an organizational structure which provides for the efficient and effective management of all facets of the correctional system for all inmates, wards and parolees to include custody, care, treatment, discipline, training, rehabilitation, and employment.

11010.2 Purpose

This Article outlines the administrative organization of the Office of the Secretary, CDCR.

11010.3 Chain Of Command

The Secretary has line authority over all employees. The Undersecretaries, Executive Officers, Assistant Secretaries, General Counsel, Directors, and Chiefs have line authority over their respective divisions or offices.

11010.4 Secretary's Cabinet

The following positions have been designated as members of the Secretary's Cabinet:

- Undersecretary, Operations.
- Undersecretary, Administration and Offender Services.
- Undersecretary, Health Care Services.
- Assistant Secretary, General Counsel, Office of Legal Affairs (OLA).
- Assistant Secretary, Office of Public and Employee Communications (OPEC).
- Assistant Secretary, Office of Legislation (OOL).
- Director, Enterprise Information Services (EIS).
- Director, Division of Internal Oversight and Research (DIOR).
- Director, Division of Health Care Services (DHCS).
- Chief, Office of Labor Relations (OLR).
- Director, Division of Adult Institutions (DAI).
- Director, Division of Adult Parole Operations (DAPO).
- Director, Division of Rehabilitative Programs (DRP).
- Director, Division of Juvenile Justice (DJJ).
- Director, Division of Administrative Services (DAS)
- Director, Division of Facility Planning, Construction and Management (FPCM)

11010.5 Executive Staff

The Secretary's executive staff includes members of the Cabinet (above) and the following positions:

- Executive Officer, Board of Parole Hearings (BPH).
- General Manager, California Prison Industry Authority (CalPIA).
- Chief, Office of the Ombudsman (OOTO).
- Chief, Office of Correctional Safety (OCS).
- Chief, Office of Victim and Survivor Rights and Services (OVSRS).

11010.6 Secretary of Corrections and Rehabilitation

The Secretary is the chief executive and administrator of CDCR in the operation of its programs for the management and control of State juvenile and adult correctional facilities and supervision of parolees. The Secretary is also chairman of the Prison Industry Board. The General Manager of CalPIA reports to the Secretary.

11010.7 Office of Legislation

The Office of Legislation provides executive policy advice and assistance on all matters with legislative implications or impact on the CDCR. The Assistant Secretary performs the following:

- Coordinates the development of legislation, including drafting and preparation for the Secretary and the Governor's Office, and introduction in the Legislature.
- Identifies bills of CDCR interest, provides analysis, and recommends the CDCR's position to the Secretary and the Governor's Office.
- Presents CDCR's positions to legislators and provides direct advocacy through appearances before legislative committees.

- Coordinates the compilation and completion of Enrolled Bill Reports, recommending to the Governor whether to sign or to veto enrolled legislation.
- Coordinates and reviews responses to inquiries from State and federal legislators.
- With assistance from Human Resources, coordinates the Senate Confirmation process for Associate Directors, Assistant Secretaries, Undersecretaries and the Secretary.

11010.8 Office of Public and Employee Communications

The Office of Public and Employee Communications:

- Is the central point of contact for all external stakeholders.
- Acts as a liaison for the Department and several of its constituencies and maintains direct contacts with local, State, national, and international print, broadcast and other media.
- Provides functional supervision, training, and guidance to headquarters, facilities, and parole regions on public and community relations issues.
- Prepares and distributes brochures, videos, and other informational materials to legislators, the media, and the general public.
- Prepares and distributes printed and video training materials for headquarters, facilities, and parole regions.
- Coordinates and plans the annual Medal of Valor Awards ceremony.
- Distributes information to department employees.
- Responds to information requests under the Public Records Act and Information Practices Act from the media; prepares talking points for executive and division staff; and compiles the daily report.
- Reviews the content of the Department's website to ensure consistency with departmental policy, and oversees the Department's death row database to provide monthly reports.
- Develops, manages, implements, and evaluates the Department's public information, motion picture, radio and television, and community relations policies.
- Works closely with media representatives to visit the Department's institutions and facilities including conservations camps, community prisoner-mother, and community correctional facilities.
- Encourages print, broadcast and other media to tour and write stories about CDCR programs, activities, staff, and inmates.

11010.9 Revisions

The Secretary, CDCR or designee shall be responsible for ensuring that the contents of this Article are kept current and accurate.

ARTICLE 2 — UNASSIGNED

ARTICLE 3 — STANDING COMMITTEES

Revised January 24, 2011

11030.1 Policy

Standing committees are established by the Secretary as necessary, to facilitate the accomplishment of departmental goals and objectives.

11030.2 Purpose

This Article describes the standing committees that have been authorized by the Secretary.

11030.3 Agency Security Technology Transfer Committee

Agency Security Technology Transfer Committee (ASTTC) shall coordinate and guide the California Department of Corrections and Rehabilitation (CDCR) in the adaptation of existing and new technology to solve problems and improve institutional security, operation, and management.

11030.3.1 Responsibility

The ASTTC shall:

- Serve as a forum for the presentation of potential technological applications.
- Make recommendations to the Secretary on potential technological applications.
- Assure widespread dissemination throughout CDCR of information regarding new technological developments.
- Recommend standards and specifications for use in purchasing equipment items and systems, incorporating technology to facilitate institutional custody, security, and control.

11030.3.2 Equipment Purchases

Review of equipment requests:

- All requests for the budgeting and/or acquisition of new equipment items relating to perimeter security systems; contraband detection systems; personal alarms; and equipment items and systems incorporating technology to facilitate institutional custody, security, and control shall be referred to the CDCR's ASTTC for review. Final approval will be required by ASTTC and the Secretary.
- Each Warden is responsible to ensure that requests for approval to purchase new technology are submitted to the Chairman of ASTTC. This will result in a process that ensures standardization at CDCR institutions. No purchases or commitments to purchase shall take place until clearance is received by the Committee Chair of ASTTC.

11030.3.3 Membership

The ASTTC is comprised of the following staff:

Mandatory Participants

- Committee Chair: Director, Planning, Acquisition, and Design.
- Deputy Director, Facility Planning, Construction, and Management (will serve as Committee Chair in the Director's absence).
- One Associate Director (AD), Division of Adult Institutions,(DAI).
- Five Field Wardens, DAI.
- One Field Superintendent, Department Juvenile Justice(DJJ).
- Office of Correctional Safety.
- Deputy Director, Division of Adult Parole Operations.
- Executive Officer, Technology Management Unit: staff person to the Committee.

Discretionary Participants

- Division of Facility Management (Telecom Maintenance).
- Office of Training and Professional Development.
- Office of Fiscal Services.
- Enterprise Information Services.
- Office of Adult Programs.

All Warden's Regional Parole Administrators, and others are encouraged to attend and provide input at all ASTTC meetings and on all issues raised.

Non-agency Nonvoting Members

Non-agency nonvoting members include, but are not limited to, representatives from:

- Department of Justice (DOJ).
- Department of General Services (DGS).
- Federal Bureau of Prisons (FBP).
- California Highway Patrol (CHP).
- Sandia National Laboratories.
- National Law Enforcement and Corrections Technology Center.

Appointments

Appointments to the ASTTC shall be made through the Committee Chair with final approval by the Secretary of CDCR.

11030.3.4 Meetings

The ASTTC will meet quarterly or on an as needed basis. Attendance at scheduled meetings is mandatory; however, an alternate for each member is

allowed at the Captain level or above, and Associate Directors may rotate their attendance at the committee meetings.

11030.4 Victims Advisory Committee

Victims Advisory Committee (VAC) provides information and expertise to the Secretary and CDCR concerning the following issues:

- Victim notification.
- Victim restitution.
- Victim allocation.

11030.4.1 Membership

The VAC shall consist of 15 to 20 members appointed by the Secretary for an indeterminate period. They shall be a cross-section of staff from headquarters, facilities, and paroles.

The chairperson shall be elected by the membership.

11030.4.2 Meetings

Meetings shall be held annually.

11030.5 Career Technical Education Act Advisory Council

This is an advisory council on career-technical education and the council's general purpose is to advise CDCR on the programmatic use of the Federal Career-Technical Education Act (CTEA) funds and to advise on the development of strategies for securing employment for vocationally trained inmates.

11030.5.1 Responsibility

The council shall meet with appropriate departmental staff on a continuing and formal basis at least twice a year, to advise, analyze, and recommend policies, programs, and distribution of all CTEA funds to CDCR facilities.

- They shall emphasize career-technical education programs that involve business and labor organizations who employ ex-felons in the counties of the patrolling offenders.

11030.5.2 Membership

The Superintendent shall appoint 8 members and they shall serve at the Superintendent's pleasure.

The membership shall be governed by the committee's by laws as well as GC 1770.

- The chairperson and vice-chairperson shall be elected by the membership by a nomination committee.

11030.5.3 Meetings

The council shall meet a minimum of two times each year and all meetings shall be open to the public.

A special meeting can be called by the chairperson or upon written request of a quorum of the council members.

Fifty percent of the membership plus one member shall constitute a quorum.

11030.6 Advisory Committee on Correctional Education

The Advisory Committee on Correctional Education shall advise the Director on the following areas of departmental education:

- Educational program policy and planning.
- Program operations.
- Curriculum development.
- Staff training.
- Program evaluation.

The committee shall have statutory responsibility under the Education Code (Ed.C) 32500.

11030.6.1 Membership

The membership shall be appointed by the Director, and include a representative from the Chancellors of the California State University and Colleges, the Chancellor of the California Community Colleges, and the Superintendent of Public Instruction.

They shall serve until replaced.

- There shall be one representative from the California Postsecondary Education Commission and two instructors from a prison based education program.

11030.6.2 Subcommittees

There shall be subcommittees made up from the Advisory Committee and they shall be appointed to address specific issues in the following areas or as needed:

- Program policy and program planning.
- Program operations.
- Curriculum philosophy and strategy.

- Program evaluation.

11030.6.3 Meetings

The committee shall meet on a bi-monthly basis or at the call of the chairperson.

11030.7 Chaplains Coordinating Committee

The committee shall advise CDCR on the formation of religious policy, interpretation of religious procedures, the conduct of the religious programs in the institutions and on IST for the chaplains.

11030.7.1 Responsibility

The committee has the following responsibilities:

- Coordinating and conducting program reviews of the institutional religious programs every three years for each institution.
- Be available to staff chaplains, volunteer community clergy, and religious representatives for pastoral care.
- Coordinating the annual Chaplains' training conference.

11030.7.2 Membership

The membership shall be selected from nominations provided by each faith group (Protestant, Catholic, Muslim, Native American, and Jewish). The Chaplain selected shall be approved by the Warden of his/her institution. The size of the committee shall be determined by the Director of Adult Institutions and each member shall serve for a term of three years.

Individuals can serve multiple terms if re-elected by the respective faith group. The membership shall include at least one staff chaplain from each of the religious faith groups employed by CDCR and one volunteer representative from the community from each faith group that provides services to a facility.

The chairperson shall be appointed by the committee's faith group representatives.

11030.7.3 Meetings

The committee shall meet on a quarterly basis at a designated facility.

11030.8 State Advisory Committee on Institutional Religion

The State Advisory Committee on Institutional Religion serves to advise the Directors of Juvenile Justice, CDCR, DMH, and Veterans Affairs on the religious programs of the correctional schools, prisons, and mental hospitals.

11030.8.1 Responsibility

The committee has the responsibility of advising the Directors on such policy matters as chaplaincy, personnel, religious records, operating supplies, buildings, places for worship, selection, recruitment, and training of chaplains, and the standards for chaplaincy work in the several types of facilities.

11030.8.2 Contact/Attendance by Departmental Staff

Official contacts with this committee are made through the Community Resources Manager, Division of Adult Institutions, who shall serve as the departmental liaison to the committee.

The Director of Adult Institutions may also designate a member of the Chaplains Coordinating Committee or a staff chaplain to attend the meetings of this committee.

11030.9 Disability Advisory Committee

Revised February 5, 2013

The Disability Advisory Committee (DAC) shall provide advice and assistance to the Secretary, CDCR, and Deputy Director, Office of Internal Affairs (OIA), on disability issues, such as:

- Developing and maintaining Equal Employment Opportunity programs and activities for persons with disabilities.
- Making recommendations to improve the personnel practices and employment opportunities for persons with disabilities.
- Establishing contact with groups and organizations that are concerned with achieving equitable representation and utilization of persons with disabilities in the CDCR work force.
- Monitoring of disability issues identified by the committee, including but not limited to reasonable accommodation and accessibility, to ensure that necessary actions occur within reasonable time frames.
- Assisting the Department in complying with the Americans with Disabilities Act and other related statutes.

11030.9.1 Membership

Revised February 5, 2013

The Chief, Civil Rights Operations (CRO), OIA, is designated as the DAC chairperson. The DAC shall consist of volunteers selected by the CRO Chief

in OIA with input from the Hiring Authority of the candidate and current DAC members. Every effort will be made to include persons with disabilities and ensure geographic and program representation.

11030.9.2 Meetings

The DAC shall meet as called by the DAC Chairperson, at least annually.

11030.9.3 Resources

Members of the DAC shall be primarily involved with the duties and responsibilities of their specific assignments; local administrators shall make the necessary arrangements to allow members reasonable time to perform committee activities.

11030.10 Information Technology Governance Committee

Enterprise Information Technology (IT) Governance provides a framework for making decisions involving effective, efficient, and acceptable use of IT while ensuring organizational resources are targeted to deliver maximum business value. Enterprise IT Governance implies a process in which all stakeholders have clear accountability for their respective responsibilities in making decisions affecting IT. The ultimate decision making body in the Enterprise IT Governance structure is the CDCR IT Executive Council (CDCR Cabinet). The mission of the Council is to ensure that IT produces and supports solutions in direct alignment with the Agency's strategic direction while moving toward its Vision. Policy specific to Enterprise IT Governance is located in DOM Chapter 4, Information Technology.

11030.11 Revisions

The Secretary, Office of the Secretary, or designee is responsible for ensuring that the contents of this Article are kept current and accurate.

ARTICLE 4 — CALIFORNIA PRISON INDUSTRY AUTHORITY

Revised October 6, 1993

11040.1 Policy

The CALPIA establishes and operates various industrial, manufacturing, service, and agricultural enterprises in the facilities under jurisdiction of the Department.

11040.2 Purpose

This section delineates the membership of the PIB, outlines the objectives of CALPIA, and describes how CALPIA interfaces with CDCR, specifically within the facilities.

11040.3 Objectives

Objectives of CALPIA include:

- Reduce inmate idleness.
- Create and maintain working conditions for inmates much like those prevalent in private enterprise.
- Develop work habits and occupational skills in inmates for use upon release.
- Operate a work program for inmates which shall ultimately be self-supporting by generating sufficient funds from the sale of products and services to offset the program's expenses.
- Provide financial support to employed inmates.

11040.4 PIB

Policy for CALPIA is directed by a Board of Directors consisting of 11 members under the leadership of the Chairperson. The members are:

- Secretary of Corrections: serves as Chairperson.
- Director of the DGS or designee.
- Director of Commerce or designee.
- Two members from the general public that are appointed by the Speaker of the Assembly.
- Two members from the general public that are appointed by the Senate Rules Committee.
- Two representatives of organized labor that are appointed by the Governor.
- Two representatives of industry that are appointed by the Governor.

Meetings

The PIB shall meet regularly (at least four times during each fiscal year), and additionally, as deemed necessary by the Chairperson or majority of the PIB.

11040.5 Responsibility

CALPIA operates as a business venture, on a profit and loss basis, and thus extends commitments to deliver its products within specific time frames. As a result, the program demands the fullest cooperation between facility and CALPIA staff.

The shared responsibility of the General Manager for the Prison Industry Revolving Fund and the operation of the various enterprises, and of the Warden for administration of the facility, requires careful attention to the effect of any decisions by either, on the responsibility of the other, thereby making close communication imperative. Other responsibilities include:

Secretary

The Secretary shall be the administrative head of the PIB and shall exercise all duties and functions necessary to ensure that the responsibilities of the PIB are successfully discharged.

General Manager

CALPIA is headed by a General Manager who functions as the Chief Administrative Officer and has line authority over all facets of CALPIA's operations and activities.

California Prison Industries Administrators/ Managers

CALPIA's Prison Industries Administrators/Managers shall:

Assist the General Manager and staff in the study of proposed new enterprises and furnish data, plans, or specifications required for them.

- Establish and maintain procurement controls designed to ensure effective and timely delivery of necessary raw materials, commercial items, and equipment of a quality standard which shall ensure a high grade of finished product.
- Establish and maintain production controls designed to assure timely delivery of quality at a minimum cost.
- Establish and maintain records of inventory, accounting, and cost controls as required by established policies.
- Establish and maintain controls which shall ensure a minimum expenditure of CALPIA funds.
- Inform the Warden of all matters affecting industries.
- Report to the General Manager on events and problems in CALPIA programs, or any changes in plans or deviations from established standards or commitments.
- Establish and oversee the functioning of training programs capable of developing industry employees within their present position as well as for future promotional endeavors.

11040.6 CALPIA Organizational Structure

CALPIA consists of several divisions and branches many of which interface directly with, and/or provide assistance to, the facilities.

11040.7 Executive Office

The executive office of CALPIA is comprised of the:

- General Manager.
- Chief Assistant General Manager.
- Assistant General Manager, Administration Division.
- Assistant General Manager, Operations Division.
- Assistant General Manager, Waste Management Division.
- Chief, QAU.
- Chief, Marketing Division.
- Chief, Civil Rights and Community Affairs Office.
- Chief, Data Management and Information Systems.

11040.8 Civil Rights and Community Affairs Office

The CALPIA's affirmative action program provides for EEO in a discrimination-free work environment. The program is backed with a strong commitment from the General Manager and the Director.

11040.9 Quality Assurance Office

The Quality Assurance Office plans, develops, and directs the total quality management program for CALPIA statewide.

11040.10 Administration Division

As a service-oriented organization, the Administration Division provides for the fiscal management of CALPIA and the support services necessary for program operations. It works directly with all CALPIA services necessary

for program operations. It works directly with all CALPIA offices and relevant outside agencies including:

- State Legislature.
- CDCR.
- All facilities and CALPIA enterprises.
- Outside vendors.
- DGS.
- PIB.
- Other agencies and organizations as needed.

11040.10.1 Fiscal Services Branch (FSB)

FSB administers the budgeting, accounting, and financial reporting activities of CALPIA. FSB performs its various tasks and operations through three organizational units as follows:

- **Budget Bureau**--has primary responsibility for development and administration of the annual operating plan (budget); provides both service and control.
- **Accounting Services Bureau**--has primary responsibility for preparation of the quarterly (interim) and annual financial statements, as well as maintenance of the accounts receivable and payable; provides both service and control.
- **System Design Bureau**--has primary responsibilities in conducting the annual physical inventory, accounting systems design, system table maintenance, and providing technical support to the Accounting Services Bureau.

11040.10.2 Procurement and Business Services Branch

The Procurement and Business Services Branch serves as the focal point for all purchasing and business services functions within CALPIA field enterprises and headquarters.

11040.10.3 Human Resources Branch

The Human Resources Branch provides the full range of personnel and training related services to CALPIA employees. Primary functions include:

- Classification.
- Recruitment.
- Examination and selection.
- Pay, payroll, and transactions for headquarters only.
- Training.
- Labor relations.

11040.10.4 Management Analysis Unit

The Management Analysis Unit provides analytical support in the areas of legislation, program analysis, public relations, and other miscellaneous analytical projects as needed.

11040.11 Operations Division

The Operations Division provides:

- Direction for the operation of CALPIA production facilities throughout the State and for the development and implementation of new/expanded enterprises.
- Carries out the policies of the PIB.
- Directs and oversees research and analyses of existing operations.
- Maintains positive working relations with Wardens.
- Develops and implements safety and training programs for field operations.

The division works directly with all offices within CALPIA and relevant outside agencies/organizations as listed in the DOM 11040.10.

11040.11.1 Operations Branches

The four operations branches provide a headquarters' overview with technical assistance to CALPIA manufacturing, agricultural, and service enterprises in its facilities. The operations branches also ensure consistency of operations between similar factories and operating policies and practices of the factories, with the goals and objectives of CALPIA. The four operations branches provide technical expertise in various areas and exercise a major role in the planning and design of new products, equipment, and facilities. The four branches and their areas of expertise are:

- **Wood/Metal Products Branch.** The branch provides technical expertise in wood and metal products, general fabrication, textile mill, and engineering.

- **Soft Goods Branch.** The branch provides technical expertise in fabric products, knitting mill, shoes, fiberglass, mattress and bedding, and precast concrete products.
- **Service and Consumables Branch.** This branch provides technical expertise in laundry, detergent products, coffee, bakery, poultry, eggs, swine, meat processing, dairy, farm, and transportation.
- **Activation Branch.** This branch coordinates the onsite implementation of new CALPIA enterprises at facilities statewide. The branch also provides technical expertise in optical, dental, printing, bindery, paper products, micrographics, and key data entry.

11040.11.2 Product Design and Development Unit

The Product Design and Development Unit works directly with facility production staff, Headquarters Prison Industries Managers, and sales representatives in providing plans and specifications for new and existing products.

11040.11.3 Master Production Scheduler

The Master Production Scheduler provides overall production scheduling of CALPIA's manufacturing, agricultural, and service enterprises by managing the master production schedule.

11040.11.4 Lead Production Staff

The following levels of staff administer operations at the facilities listed below:

11040.12. Waste Management Division

The Waste Management Division plans, researches, designs, constructs, and operates Correctional Resource Recovery Facilities (CRRF) and secondary manufacturing enterprises at various correctional facilities (State prisons, return-to-custody facilities, and local jails) throughout the State.

11040.12.1 New Products/ Construction Development Unit

This unit conducts the research and development activities related to determining the feasibility of waste management programs within specific jurisdictions. It plans and designs the physical plant based on customer need, and represents CDCR in educating municipalities on CALPIA's CRRF program.

11040.12.2 Operations Unit

Achieves the start up and ongoing operation of the CRRF's and secondary manufacturing through the recruitment and hiring of free staff and inmates, the establishment of operational and management reporting procedures, and negotiation of recyclable commodities contracts.

11040.13 Marketing Division

Provides oversight for the Marketing and Sales program including marketing and sales activities, pricing, customer services, promotions, and research.

11040.13.1 Marketing Services Branch

The Marketing Services Branch is a service-oriented operation that provides product pricing and related support, promotional materials, and maintenance and market research services.

11040.13.2 Sales Branch

The role of the Sales Branch is to generate sales revenue, build market share, increase market base, build volume, develop sales outlets, provide consultation to public agencies for all CALPIA products and services, and promote special buying opportunities and new products.

11040.13.3 Customer Services Branch

The Customer Services Branch processes all incoming purchase orders and provides liaison between the customer, CALPIA operations, and the facility factories as well as enhances public relations.

11040.14 Data Management and Information Systems Division

The Data Management and Information Systems Division directs the implementation and operation of an automated manufacturing and accounting planning system that provides CALPIA with current information on manufacturing. The unit also provides EDP services in support of the CALPIA programs and works on the application and development of new projects while maintaining ongoing systems.

11040.15 Inmate Labor

Each inmate who is engaged in productive work under a CALPIA program shall receive pay as compensation.

Compensation schedules shall be determined by CALPIA and all compensation shall be credited to inmates' accounts.

All timekeeping shall be the responsibility of work supervisors and shall be in accordance with inmate work incentive policies and departmental procedures.

Inmates new to CALPIA or being assigned to a new job shall be trained on the job by a lead person (inmate) and/or a factory supervisor.

No employee or inmate shall sell or offer for sale any article manufactured by inmates or other prison labor, except sale of articles that is specifically sanctioned by law.

11040.15.1 Prison Industries Inmate Pay

Pay schedules, work classifications, position requirements, and other features of the Prison Industry Inmate Pay Plan are provided in DOM 51120.

11040.16 Purchases

All divisions and facilities under the Director shall purchase CALPIA standard and custom products in every category and of every type required for departmental use.

CALPIA shall keep the divisions and facilities informed of the availability of new products, and categories of products that can be provided on a special order basis. No purchase estimates shall be drawn to specify commercial products when CALPIA can furnish a product in the commodity category. CALPIA shall be guided, whenever feasible, in the development of new products and redesign of existing products by criteria that shall make them the most suitable for departmental use.

Any unresolved differences between the using division or facility and CALPIA as to the adequacy of a CALPIA product proposed for a given use shall be referred to the General Manager, CALPIA, for decision before any

purchase may be made from outside sources.

Divisions and facilities shall keep CALPIA advised of large and unusual requirements far enough in advance, in order to permit production and delivery in time to meet departmental needs.

11040.17 CALPIA Safety Committee

Each facility that operates one or more CALPIA enterprises shall establish a CALPIA Safety Committee. It shall be noted that inmates employed by CALPIA are considered "employees" for purposes of the California Occupational Safety and Health Act (CAL-OSHA) of 1973 and subsequent amendments.

Prison Industries Administrator/ Manager

Committee membership shall be determined by each facility's Prison Industries Administrator/Manager. Membership shall include inmate workers as well as supervisory employee representation. The size of each committee shall be dependent upon magnitude, complexity, geographic location, and diversity of the industry's operations.

Membership selection process shall be determined by Prison Industries Managers, keeping in mind the necessity of accomplishing objectives by the most effective means.

Any grievances regarding health and safety issues shall be initiated and handled in accordance with DOM 54100.

11040.18 Land Acquisition, Construction, Maintenance, Repairs, and Replacements

Distribution of costs for buildings, grounds and roads, equipment and machinery, irrigation and water control, utilities, and land acquisition and construction/alterations is shown in.

11040.19 Revisions

The General Manager, CALPIA, or designee shall be responsible for ensuring that the contents of this section are kept current and accurate.

ARTICLE 5 — EVACUATION AND EMERGENCY MANAGEMENT

Effective January 23, 1990

Headquarters and Parole

11050.1 Policy

When emergency situations occur, every reasonable effort shall be made to:

- Ensure the safety and protection of employees.
- Preserve the organizational structure.
- Provide for immediate resumption of essential departmental functions.

11050.2 Purpose

This section establishes specific steps to be followed in the event of various emergency situations occurring within Headquarters, regional parole offices, and field offices. Provisions for emergency preparedness and employee protection in institutions are found in DOM 55010 of this manual.

11050.3 Emergency Organization

Once the emergency plan has been activated, all emergency operations shall be directed by a predetermined command center (Command Center for Headquarters is located in the building manager's office).

The Command Center shall be manned by the emergency coordinator and staff who direct the operation of designated emergency floor personnel. These emergency floor personnel may include:

- Floor Wardens and alternates.
- Zone/area monitors and search personnel.
- Stairway monitors.
- Elevator monitors.
- Handicapped persons monitors.
- First-aid personnel.

A complete roster of building emergency personnel is located in building emergency directories that shall be posted on each floor. This directory also includes floor plans and designated evacuation routes.

11050.4 Responsibility

In the event of an emergency, designated employees have been assigned specific duties to be performed.

11050.4.1 CHP

SAM 2601 through 2667 outlines procedures to be used by CHP when responding to emergency situations in state facilities. In geographical areas where services of CHP are not available, emergency action shall be coordinated with local law enforcement agencies.

11050.4.2 Managers/ Supervisors

Managers and supervisors shall:

- Ensure that all employees possess a general knowledge of emergency procedures.
- Assign an emergency coordinator for each facility and office.

11050.4.3 Departmental Emergency Coordinator

The Chief, Emergency Operations, who serves as the Departmental Emergency Coordinator, shall:

- Prepare emergency plans, to include assisting in the preparation of plans for each subordinate facility and/or field office.
- Ensure the submission of all departmental facilities and/or field office emergency plans to the CHP every two years.
- Submit an emergency plan to the CHP within 60 days upon relocation or occupancy of new departmental facilities/field offices.

11050.4.4 Regional Parole Emergency Coordinators

Regional parole emergency coordinators shall:

- Assist each RPA in selection of emergency coordinators and alternates for each subordinate facility or field office.
- Ensure that relocated, new, or substantially modified facilities and field offices submit emergency/employee protection plans in a timely manner.
- Ensure that all regional facilities and field offices maintain updated plans.
- Retain one copy of each plan.

11050.4.5 Emergency Coordinators

Emergency coordinators shall:

- Coordinate the formulation and execution of emergency plans.
- Coordinate the selection, training and organization of adequate staff for conducting emergency operations.
- Direct and supervise the activities of building occupants during an emergency, and immediately following.
- Determine evacuation sites.
- Determine if, and/or when, employees may reenter the building.
- Assure that emergency directories are maintained and available to all employees.

11050.4.6 Alternate Coordinators

Alternate emergency coordinators shall serve as principal assistants to the emergency coordinators and act in that capacity in the absence of the coordinator.

11050.4.7 Floor Wardens

The floor Wardens report to the emergency coordinator and are in charge of the zone/area monitors, stairway monitors, handicapped persons monitors, first-aid personnel, and search personnel on their respective floors. They shall ensure:

- The safety of all occupants on their floors.
- Floor emergency personnel are designated and properly trained to perform their function safely and efficiently.

11050.4.8 Alternate Floor Wardens

Alternate floor Wardens shall serve as principal assistants to the floor Wardens and act in that capacity, in the absence of the floor Wardens.

11050.4.9 Zone/Area Monitors and Search Personnel

Zone/area and search personnel shall:

- Oversee the occupant search and report the results to the respective floor Wardens.
- Report any unsafe conditions or suspicious findings to the state/local police and emergency coordinator.
- Be the last person to leave their assigned area in the event of evacuation.

11050.4.10 Stairway Monitors

Stairway monitors shall:

- Regulate and expedite the orderly movement and flow of employees.
- Direct personnel to alternate stairways, if designated stairway is unsafe.

11050.4.11 Elevator Monitors

Elevator monitors respond to assigned elevators allowing only designated officials (i.e., police and firefighters) to use elevators during an emergency. The elevator monitors shall remain at the elevators until released by the zone/area monitors.

11050.4.12 Handicapped Persons Monitors

Handicapped persons monitors assist handicapped employees during emergencies. A monitor shall be assigned to each physically handicapped person.

11050.4.13 First-Aid Personnel

Trained first-aid personnel shall administer first aid when necessary.

11050.5 Emergency Notification

During all emergency situations, employees shall immediately notify the CHP or local law enforcement agency using the emergency numbers. The CHP, in turn, use their "hot line" for contact with the fire department, ambulance service, etc.

Immediately after reporting the emergency to the CHP, employees shall notify the emergency coordinator.

- This notification shall enable the coordinator to activate the building emergency plan. The employee making contact with the emergency coordinator shall inform the coordinator that the state/local police had been notified.

11050.6 After Hours/Holiday Notification

In the event of an emergency during evenings, weekends, or holidays, employees shall notify the state/local police using emergency numbers.

If evacuation becomes necessary during these hours, the state/local police shall act as floor Wardens and shall inform employees to evacuate. Employees shall follow the same designated evacuation routes as outlined in the emergency directory.

11050.7 Evacuation

When evacuation is necessary as determined by the state/local police or emergency coordinator:

- Employees shall leave the building immediately by the nearest designated exit.
- Bulletin boards contain maps of these exits.
- Emergency personnel shall be available to direct employees and ensure that all instructions are carried out.
- Evacuation of handicapped personnel shall be given highest priority in any emergency.
- Employees shall walk, remain quiet, use handrails, and follow any other emergency instructions.
- Women shall remove high heels.
- Employees shall gather in designated evacuation sites no less than one-half block from the building unless otherwise instructed.
- Following evacuation, police and other emergency personnel shall prevent entrance to the building.
- When an emergency is over, the emergency coordinator shall advise employees if/when they may return to the building.

11050.8 Damage Control

The emergency coordinator shall assess damage and determine if and/or what action is necessary to immediately control dangerous or potentially dangerous areas or situations. These actions may include:

- Fire suppression and standby.
- Disconnection of utilities and business machines.
- Medical standby.
- Protection or removal of flammables.
- Venting of doors and windows.
- Supervision of rescue and first-aid teams.
- Erection of barriers as necessary.
- Protection or removal of records.
- Identification and protection of hazardous substance exposure.

11050.9 Medical Emergencies

In the event of serious illness or injury, employees shall:

- Notify the State/local police and emergency coordinator. The CHP are equipped with resuscitator equipment and are trained in its use as well as trained in the area of first-aid procedures and cardio-pulmonary resuscitation. The CHP are not notified in the event of minor injury.
- Request assistance from first-aid personnel. These individual's names shall be posted on the emergency roster located on each floor.
- Not move victims unless absolutely necessary.
- Initiate first-aid action as deemed necessary.
- Arrange for injured employee, if necessary, to report to hospital emergency room.

If physician services are necessary, employees may contact their own doctor.

11050.10 Fire

In the event of a fire, employee(s) shall notify the CHP who in turn notify the fire department. Where CHP are not available, the local fire department shall be directly notified.

If fire is easily extinguishable, all attempts shall be made to put it out by using the hand fire extinguishers. Floor Wardens shall be oriented with the fire fighting equipment available on their respective floors.

If deemed necessary, evacuation of the hazardous area shall be initiated and the emergency coordinator advised of the evacuation immediately.

Elevators shall not be used during evacuation.

Employees shall ensure that all doors leading to the main hallways from all offices are closed in order to prevent fire from spreading.

11050.11 Explosions

In the event of explosions, employees shall take cover under tables, desks, or other similar objects that will offer protection against flying glass or debris.

After the effects of explosion have subsided, the police and the emergency coordinator shall determine if evacuation is necessary.

11050.12 Demonstrations

In the event of demonstration inside or outside, employees shall remain inside the building and conduct business as usual.

Employees shall not get involved in the demonstration, thus becoming a part of the problem.

11050.13 Earthquakes

In the event of an earthquake, employees shall:

- Remain in the building.
- Seek shelter under tables, desks, doorways, and similar places.
- Avoid overhead fixtures, windows, skylights, filing cabinets, book cases, or other items which could become falling or flying objects.
- Remain calm and wait for instructions from emergency personnel.

Ordered Evacuation

If evacuation is ordered, everyone shall:

- Evacuate as directed.
- Be aware of falling debris or electrical wires.
- Take precautions against possible aftershocks.
- Proceed to evacuation area and follow all instructions.

11050.14 Bomb Threats

In the event of a bomb threat, specific actions shall be taken depending upon the type of threat received.

11050.14.1 Bomb Threats (Phone)

Employees receiving a bomb threat by phone shall:

- Ask when bomb is scheduled to explode.
- Ask the location of bomb.
- Ask what it looks like.
- Ask reason for placing bomb.
- Keep caller on line as long as possible.
- Record following information:
 - Date and time of call.
 - An estimate of age, sex, race, child, or adult.
 - Exact words of caller.
 - Speech pattern, i.e., accent.
 - Background noises.

11050.14.2 Bomb Threats (Mail)

Employees receiving a bomb threat by mail shall:

- Not handle the letter, envelope, or package.
- Notify the emergency coordinator and state/local police.

Emergency coordinator shall preserve the evidence for law enforcement officials.

11050.14.3 Bomb Search

The safest method for handling a bomb threat is to institute an immediate and thorough search. During the search, employees are only looking for objects that do not belong in a specific area.

Occupant Search

- Occupant search is initiated by the command center and relayed by telephone to floor Wardens. This process involves a search by all

building employees of their immediate work areas. Results of search shall be reported to floor Wardens.

- Employees assigned to search teams shall search all public and common use areas to include lobbies, restrooms, hallways, stairwells, storage rooms, and evacuation routes. They too shall report their findings to the respective floor Wardens.
- Floor Wardens shall in turn report findings to the emergency coordinator.
- The CHP or local law enforcement agencies shall assist in all areas of the search as necessary.

11050.15 Suspicious Objects

Explosives can be packaged in a variety of containers, but in most cases are camouflaged. The container is likely to be a common article such as a shoe or cigar box, grocery bag, airline flight bag, athletic bag, suitcase, attaché/brief case, etc. Prior to a search, employees shall be informed to look for the unusual, or something that appears out of place.

- It is imperative that someone who is familiar with a specific area assist in the search of that area so that unusual or alien objects are immediately recognized. Anything that does not belong, or whose presence cannot be adequately explained, shall be considered a suspicious object.

Once a suspicious object is located, it shall not be touched, moved, or disturbed. The employee that discovers the object shall:

- Obtain a good description of the object, i.e., floor, room number, area of room.
- Notify emergency coordinator of findings and obtain further instructions.
- Begin clearing all occupants from immediate vicinity and clear area directly above and below the object.
- When feasible, remove flammables from the affected area and ensure that fuel lines are turned off.
- Cordon off the area to prevent reentry.

The emergency coordinator shall notify the bomb squad if the CHP or local police agency is not present to do so.

11050.16 Nuclear Threat

In the event of blackmail, threats, or attacks involving radioactive materials or nuclear weapons, employees shall:

- Immediately report these threats to the state/local police who in turn notify the local Federal Bureau of Investigation (FBI) office.
- Notify the emergency coordinator.
- Follow directions contained in any threats in order to assist law enforcement officials in locating objects or materials.

If a suspicious object is located, refer to DOM 11050.15 of this manual.

11050.17 Enemy Attack

Signals emitted by civil defense intended as a warning of impending enemy attack are sounded by sirens.

- Alert signal is a steady blast or tone, three to five minutes in length, signifying that essential emergency information is about to be broadcast.
 - If evacuation is necessary, employees shall evacuate according to the instructions of emergency personnel.
 - Employees shall take personal belongings and possessions with them when leaving work stations.
- Attack signal is a wailing tone or a series of short blasts for three to five minutes signifying that an actual attack against the country has been detected. Employees shall:
 - Seek cover under tables, desks, or any large objects which offer protection against flying debris; or
 - Remain against the wall nearest a window for protection,
 - Remain under cover, or in a shelter, until otherwise notified by emergency personnel.

11050.18 Revisions

The Deputy Director, Institutions Division, or designee, shall ensure that the content of this section is accurate and current.

11050.19 References

GC Title 2, Division 1, Chapter 7.

SAM §§ 2660 - 2667.

CCR (15) (3) § 3302.

ARTICLE 6—REGULATION AND POLICY DIRECTIVES

Revised December 21, 2015

12010.1 Policy

All divisions, institutions, camps, parole regions, community based correctional centers, and other departmental offices shall be promptly notified of changes in departmental regulations, Department operational policy, forms, and other matters of importance.

Changes to the regulations, the Department Operations Manual (DOM), bulletins, or forms shall not be processed without review by Department stakeholders and written authorization of the Secretary or designee.

12010.2 Purpose

This article describes the regulations, DOM policy, bulletins, and forms utilized to transmit departmental rules and operational directives, and establishes procedures for their development, review and approval, promulgation, distribution, and archiving. The process and procedures described here are intended to:

1. Allow Department stakeholders to have input on regulation and DOM development.
2. Define program responsibilities for the content and updating of regulations and DOM policy.
3. Ensure regulations (Title 15) meet and are adopted according to statutory standards and the public process described in the Administrative Procedure Act (APA) (Government Code 11340, et seq.).
4. Ensure revisions to DOM policies are developed and reviewed to meet standards for clarity and reference appropriate legal authorities and standards.
5. Set a priority for deliberate and timely regulation and DOM development, review, approval, and dissemination.
6. Provide that regulation and policy directives are available to staff and others who may request them.

12010.3 Regulation and Policy Directives

Only the directives listed below shall be used to document and announce official Department regulations, operational policy, and procedures:

- California Code of Regulations (CCR) (Title 15, Division 3). These are also called the Department's Rules. The specifications for the CCR are administered and overseen by the Office of Administrative Law (OAL), the State control agency for regulations and rulemaking for all State agencies.
- DOM.
- Bulletins.
 - Administrative Bulletin (AB), CDCR Form 1184.
 - Restricted Administrative Bulletin (RAB), CDCR Form 1184-A.
 - Informational Bulletin (IB), CDCR Form 1185.
 - Restricted Informational Bulletin (RIB), CDCR Form 1185-A.
 - Instructional Memorandum (IM), CDCR Form 1187.
- Notices.
 - Notice of Change to Regulations (NCR), CDCR Form 1189.
 - Notice of Change to DOM (NCDOM), CDCR Form 1189-A.
 - Restricted Transmittal Letter (REST), CDCR Form 1189-R.
- Forms. Only those forms that are approved for use, and on record in the official forms catalog maintained by the Department Forms Coordinator, shall be used to document and announce official Department regulations, operational policy, and procedures.

12010.4 Availability

All regulation and policy directives are public records which shall be made available to employees, volunteers, inmates, parolees, other governmental agencies, and the public unless specifically exempt pursuant to Government Code (GC) 6254 and Penal Code (PC) 5058(c)(1)(B).

Employees, parolees, and the general public may access all or any portion of the DOM or CCR in electronic form on the Department's intranet or internet websites as well as other Department directives, which are not exempt from disclosure.

The public may purchase copies of regulations, policy documents, and other public records, pursuant to the Public Records Act (GC 6250 et seq.). Cost is

determined by the current rate as identified CCR Section 3260.1, Public Records Duplication Services, and in DOM Chapter 1, Article 16, Public Records.

With the exception of inmate law libraries, no office is required to maintain the DOM, CCR, or other directive for the sole purpose of making it available for inspection. Any current copy of existing directives is adequate for public inspection.

Sections in DOM 55000 are classified as “Restricted” per GC 6254(f) and PC 5058(c)(1)(B), and specifically exempt from disclosure to persons other than employees with a need-to-know. “Restricted” sections shall not be made available to inmates, parolees, the general public, or staff that have not been assigned a copy of the Restricted DOM (R-DOM) or do not have a need-to-know.

12010.5 Responsibility for Revision of Regulation and Policy (DOM) Directives

The Director, Assistant Secretary, Deputy Director, Chief, or other executive designated in each article of DOM, under the “Revisions” section, shall ensure the DOM article is revised and updated as necessary. Each CCR (Title 15) section is the responsibility of the Director, Assistant Secretary, Deputy Director, Chief, or other executive whose functional area administers the specific rule.

Revision Requests

Directors, Assistant Secretaries, Deputy Directors, Chiefs, or other executives may initiate changes to the regulation sections and/or DOM articles for which they are responsible by forwarding a request to the Chief, Regulation and Policy Management Branch (RPMB), as follows:

Regulations

- Sections affected.
- A statement of the purpose, reasons, or justification for change.
 - Pursuant to Government Code 11346.2, proposed regulation changes, amendments, and repeals shall include an Initial Statement of Reason (ISOR) describing in detail the purpose, reasons, causes, and/or goals behind the changes, and any study, report, or data that support the proposed changes.
- Specified text change in underline (added text)/strikethrough (deleted text) format. (NOTE: text revised in Microsoft Word “Track Changes” format will not be accepted. Use of the Track Changes function potentially eliminates existing text, which must be preserved/shown when revising regulatory or policy text language.)
- The estimated fiscal impact of the change, if any. A STD. Form 399, Economic and Fiscal Impact Statement, must be completed, as well as a CDCR Form 1150, Fiscal Analysis Worksheet.
- All necessary references concerning the change.
 - State or federal law change, court agreement, legal settlement or decision, operational need, changes to regulations of other departments, etc.
- Name and telephone number of the lead program person/project manager to contact concerning the proposed revision.
- Authorization of the Director, Assistant Secretary, Deputy Director, Chief, or other Department executive over the functional area.

DOM

- Sections affected.
- A statement of the purpose, reasons, or justification for change.
- Specified text change in underline (added text)/strikethrough (deleted text) format. (NOTE: revisions in Microsoft Word “Track Changes” format will not be accepted. Use of the Track Changes function potentially eliminates existing text, which must be preserved/shown when revising regulatory or policy text language.)
- The estimated fiscal impact of the change, if any. A CDCR Form 1150, Fiscal Analysis Worksheet must be completed.
- All necessary references concerning the change.
 - State or federal law change, court agreement, legal settlement or decision, operational need, changes to regulations of other departments, etc.
- Name and telephone number of the lead program person/project manager to contact concerning the proposed revision.
- Authorization of the Director, Assistant Secretary, Deputy Director, Chief, or other Department executive over the functional area.

12010.5.1 Preparation of CCR Revisions

Rule revisions, with the necessary documents for filing with the State control agency over regulations, OAL, shall be developed by RPMB utilizing the revision request and in cooperation with staff from the responsible originating program/division/unit. The originating program/division/unit shall route the revision documents to their Director, Assistant Secretary, Deputy Director, Chief, or other executive, for final review and approval before submitting to RPMB.

Upon approval of the proposed regulations by the originating Director, Assistant Secretary, Deputy Director, Chief, or other executive, and after completion of stakeholder reviews, RPMB shall route the executive approval folder to the Secretary, or the appropriate rulemaking delegate of the Secretary on file with the OAL, for approval to submit regulations for public notice and comment.

12010.5.2 Revision Time Constraints and Stakeholder Reviews

Upon receipt of a revision request, RPMB shall log the document in and assign a project number and RPMB staff member. The time required to formulate regulations and policy, and review the draft directive from program shall be governed by the following constraints:

Regulations and DOM

- RPMB: Within approximately four weeks from receipt of requested revision from program, shall perform a thorough review and produce the final draft regulation or policy directive. The time frame it takes RPMB to produce the final documents is dependent on factors such as the completeness of the original revision request and participation/cooperation from the originating program. The RPMB will also complete a Regulatory Impact Determination and analysis for DOM and Form revisions.

- Director or executive submitting the policy/regulation change: Coordinates stakeholder vetting and review, allowing one day to four weeks for stakeholder review, depending on project priority. The RPMB will coordinate stakeholder review for the responsible program upon request. If the responsible program of the revision has not already completed a review by Department stakeholders, a memorandum shall be completed and forwarded by RPMB to the appropriate stakeholder programs informing them that RPMB has reviewed the document and requests their review and decision on behalf of the responsible program.

Stakeholder Reviews

The following three stakeholder review/vetting timeframes shall be used:

Level 1. Immediate – One to five days for review and decision by Department stakeholders. Level 1 review shall be used only when the Department must meet external time constraints (e.g., Court deadline, Legislative Mandate, Governor’s Executive Order) and only when authorized by Department executive management.

Level 2. Priority – Two calendar weeks for stakeholder review and decision.

Level 3. Standard – Three to four calendar weeks for stakeholder review and decision.

A Department stakeholder may choose to decline a request to participate in the stakeholder review process if they determine that there will be no impact (either positively or negatively) from the regulation or DOM policy change. The decision to decline shall be documented and retained within the rulemaking or DOM project file. The same stakeholder review/vetting timeframes used for proposed regulation and DOM revisions shall also apply to stakeholders reviewing proposed revisions to the R-DOM (Section 55000). At the request of any Director, Assistant Secretary, Deputy Director, Chief, or designee, they shall be provided an opportunity to review the final version of the draft before it is forwarded for final approval and signature by the Secretary or their authorized delegate.

Stakeholder Non-Response and Assumed Concurrence

Stakeholders who do not return a decision by the requested reply date shall be provided one reminder with a request for an alternate completion date. If the attempt to obtain a stakeholder decision fails, the program initiating the policy/regulation change and stakeholder reviews may “assume concurrence” for the non-responding stakeholder, note this in the regulation or DOM project package, and forward the package for final executive management review and approval. If the non-responding stakeholder subsequently raises an objection after “assumed concurrence,” they must raise the objection with the Director, Assistant Secretary, Deputy Director, Chief, or other executive that initiated the regulation or policy change, and also explain the reason(s) for not meeting the review due date and not requesting an extension.

Resolving Stakeholder Disagreements

It is the prerogative of the responsible program that initiated the regulation or DOM revision to accept or decline any suggested or recommended changes to the proposed text offered by Department stakeholders. If necessary, the

responsible program shall contact Department stakeholders who have provided the changes, and negotiate an agreed upon text. If concurrence on the regulation or DOM revision cannot be reached among the Department stakeholders and the responsible program that initiated the change, the outstanding issues shall be raised in writing or in a decision meeting with the Undersecretary or equivalent executive over the responsible program that initiated the change.

After Stakeholder Review

- Following each review and return of the vetting/coordination documents to RPMB, the following time frames shall apply:
- RPMB Analyst: Two weeks to modify, if necessary, or finalize the regulation or DOM policy document. The RPMB reviewer/analyst shall discuss any proposal for a substantial change to the draft, if any, with the originating program and shall note the result of such discussion.
- Chief, RPMB: Maximum one week for review and approval. The Chief shall then have the assigned RPMB analyst forward the regulation or DOM package for final executive review and approval.
- Undersecretary, Director, Assistant Secretary, Deputy Director, Chief, or designee with program responsibility: Two weeks for review and decision/approval.

Regulations

After clearing stakeholder reviews and executive approval from the Secretary or authorized rulemaking delegate on file with OAL, the RPMB shall prepare in cooperation with the originating program and the requirements of the APA, the required documents to submit to OAL, including the regulation text, Notice of Proposed Regulations, Economic and Fiscal Impact Statement, and the Initial Statement of Reasons (ISOR). The ISOR shall include an explanation for the regulation changes and any fiscal impacts as outlined in Section 12010.5 above. The submitting program shall be advised of the anticipated completion date.

DOM

After clearing stakeholder reviews and proper executive approval, the RPMB shall prepare the final NCDOM documents and publish to California Department of Corrections and Rehabilitation (CDCR) intranet/internet and distribute accordingly to CDCR staff electronically.

12010.6 CCR – Department Rules (Title 15)

The CCR contains the Department's regulations that are codified in Title 15, of the CCR. Division 3 of Title 15 governs Adult Institutions, Programs, and Parole. Properly adopted regulations have the force of law.

Regulatory Tests

A departmental rule, order, or standard of general application is considered a regulation if it meets one or more of the following tests:

- Implements, interprets, or makes specific the provisions of statute, case law, or regulations of controlling agencies.
- Is a mandate and applies equally to all inmates, parolees, and the public in similar situations.
- Imposes a standard of required behavior with stated or implied consequences for noncompliance.
- Imposes requirements which shall be met to qualify for any general entitlement or privilege available to inmates, parolees, or the public.
- Imposes criteria which govern staff decisions affecting inmate custody, discipline, classification, programming, release date, visiting, transfer, etc. or affect the terms or conditions of parole.
- Mandates fair and prompt staff response (due process) or entitlement (rights).

Underground Regulations

Rules, orders, or standards of general application that meet the definition of a regulation and that are being enforced by a State agency without first being adopted into the CCR are commonly called "underground regulations" and may be determined invalid by a court. State law prohibits departments from issuing and enforcing rules of general application without first adopting them into regulations: "No State agency shall utilize, enforce, or attempt to enforce any guideline, criterion, bulletin, manual, instruction, order, standard of general application, or other rule which is a regulation as defined in Government Code Section 11342.600 unless it has been adopted as a regulation and filed with the Secretary of State" (Government Code 11340.5).

12010.7 Issuance of Printed Publication of CCR

The CCR shall be issued to the below-specified persons at the designated places:

- New correctional officers and parole agents, by the academy.
- Other new employees without access to the on-line electronic version, by their assigned institution or office where hired and prior to assuming regular duties.
- Volunteers and contractors, by their designated institution or headquarters office.
- Inmates, within 14 days of reception by the Department. The inmate shall sign a Document Receipt, CDC Form 128-O. The completed form shall be placed in the inmate's central file (C-File).
- Parolees, including those confined in county facilities pending Board action, court action, or return to prison may request a copy from their assigned DAPO parole office.
- Any State agencies and Legislators, by the RPMB upon request.

Published Regulation Revisions

Institutions and all other facilities which house State adult inmates under the jurisdiction of the Department shall make available published rule revisions to inmates as soon as practical, but not later than ten working days, following receipt of the revisions.

DAPO parole offices shall make a copy available for parolees to examine. If a parolee requests a copy, they may purchase an up-to-date copy of the CCR from RPMB by the procedures outlined in DOM Subsection 12010.10, below.

12010.8 Rules Coordinator Responsibilities

For each institution, a custodial officer at the level of Correctional Counselor II/Lieutenant or above shall be designated as the Rules Coordinator.

For each parole region, the regional training coordinator shall be designated as the Rules Coordinator.

For Central Office and all other departmental offices, the Chief, RPMB, shall be the designated Rules Coordinator.

For DAPO headquarters, the Parole Agent III in charge of the Policy and Procedures Unit shall be the designated Rules Coordinator and will work with the Chief, RPMB, on those matters pertaining to DAPO.

The position designated as the Rules Coordinator shall be submitted to the RPMB whenever there is a change in designation.

Rules Coordinators or a designee, (e.g., Public Information Officer, Warehouse Manager, etc.) shall coordinate the ordering, receipt, storage, and distribution of the CCR in the institutions, parole regions, or departmental offices. The institution Rules Coordinators shall ensure sufficient copies of regulation revisions (NCRs) are copied for posting for all institutional staff and all inmates. The DAPO headquarters and parole region Rules Coordinators shall ensure sufficient copies of revisions are copied for posting for all parole staff and available for parolees to review.

Prior to the bulk shipment of an updated printed Title 15, the RPMB shall advise each Rules Coordinator of the estimated shipping date. Each Rules Coordinator shall:

- Arrange for distribution within five working days after receipt.
- Arrange for storage of copies needed for future issue.

Inquiries regarding shipment, quantity, or distribution of the CCR shall be made by the Rules Coordinator to the Chief, RPMB.

12010.9 Ordering CCR

The RPMB shall submit a formal reminder (memorandum) along with an order form, to: Wardens, Executive Staff, Undersecretaries, Directors, and the Chief Training Officer that it is time to submit their annual order for printed CCRs. The Rules Coordinators shall estimate the number of CCRs required for issue to inmates and staff for an annual supply. CDCR staff with access to the Title 15 electronically via the intranet/internet shall not be included in the annual order unless there is a compelling reason submitted for the need for a printed copy. The order form transmitted by the RPMB shall be completed and returned to the RPMB by the Rules Coordinator, which shall constitute the order for that facility.

12010.10 Replacement CCR/Copies for General Public

Inmates or parolees who have lost, misplaced, or not maintained their issued copy of the CCR, and the general public who desire a copy of the CCR, may purchase the most recent printed edition of the CCR by submitting a check or money order made payable to "State of California" with their request for CCR, Division 3, Title 15, to the RPMB. (Price is determined by cost per copy of latest available edition, plus mailing, and availability is limited.) Employees and the general public can access the Title 15 via the Department's intranet and internet websites respectively.

12010.11 Rules in Spanish

A Spanish language version of the CCR shall be made available for review by those Spanish-speaking inmates who cannot read English. Inmates shall not be issued personal copies of the CCR in Spanish.

A minimum of one copy of the CCR in Spanish shall be maintained at:

- Reception centers.
- Institutions.
- Community based correctional centers.
- Reentry facilities.
- Regional parole offices.
- Inmate law libraries.

Once the newest annual CCR, Title 15 is available in English, the RPMB shall arrange for the translation to be incorporated into the next annual Spanish CCR edition.

12010.12 Proposed Changes to CCR

A change to the CCR may be proposed through the chain-of-command to the affected Director, Assistant Secretary, Deputy Director, or Chief, by any employee.

The change requires approval of the Director, Assistant Secretary, Deputy Director, or Chief of the division or unit responsible for administering the rule revision material. The Secretary, or their authorized rulemaking delegate's approval and signature is required on all regulations submitted to the OAL.

An inmate, parolee, or member of the general public may submit a petition for change to the Director, Assistant Secretary, Deputy Director, or Chief administratively responsible for the area of desired change in accordance with Government Code 11340.6.

No special format is required for submitting a proposed revision; however, the proposed revision shall meet APA standards for regulations, which are:

- "Necessity"; there is a substantial need for the regulation as proposed.
- "Authority"; there is an existing statutory provision which permits or obligates the Department to adopt, amend, or repeal the regulation as proposed.
- "Clarity"; the regulation as proposed will be easily understood by those affected.
- "Consistency"; the regulation as proposed does not conflict with or contradict any existing statutes, court decisions, or other provision of law.
- "Reference"; there is a statute, court decision, or other provision of law which the Department will be implementing, interpreting, or making specific by adopting, amending, or repealing the regulation as proposed.

"Nonduplication"; the regulation as proposed does not simply repeat or serve the same purpose as an existing law or regulation.

12010.12.1 Notice of Proposed Regulations (Notice), Notice of Change to Regulations (NCR), - Public Notice, Posting, and Certification of Posting

At least 45 days prior to a public hearing on proposed regulation changes, a Notice shall be published in the California Regulatory Notice Register and shall be mailed to interested persons on the RPMB mailing list. The Notice shall also be posted on the Department's intranet and internet websites.

Any interested person is invited to submit written or electronic mail comments regarding proposed rule revisions to the RPMB.

At the same time the Notice of the Department's proposed regulatory change is submitted to the OAL, the Notice along with the NCR shall be prepared and e-mailed to the Rules Coordinator at each institution and parole region who shall:

- Post/issue the Notice and NCR. Such notices shall be posted in the institutions, parole offices, and facilities where inmates/parolees can view them.
- Institution Rules Coordinators shall complete a Certification of Posting, CDCR Form 621-A, and ensure it is forwarded to the RPMB within 10 calendar days of receipt.

GC 11346.4 requires that at least 45 days prior to the hearing and close of the public comment period on the adoption, amendment, or repeal of a regulation, notice of the action shall be mailed to interested persons.

12010.12.2 Posting Requirements

The NCR shall be posted by the Rules Coordinator or designee and made available for inspection by all inmates and staff within five calendar days

after receipt of the Notice. Penal Code 5058(a) establishes a duty for the Department to post copies of regulation changes in conspicuous places.

Notices shall be:

- Posted on staff and inmate bulletin boards.
- Posted in inmate housing units, corridors, and other areas easily accessible to inmates.
- Provided to inmate advisory committees/councils.
- Provided to inmate law libraries.
- Provided to inmate prison health facilities.
- Provided to inmate security housing and specialized housing units.

All inmates and employees shall be provided the opportunity or means to be informed of and review the Notice.

NCRs may be removed once the public comment period on the Notice ends. A copy of the NCR shall be retained in the institution's records by the Rules Coordinator.

12010.12.3 Public Hearing/Written Comments

A public hearing may be scheduled at which time all interested persons may present comments regarding the proposed regulation revision.

Any interested person may also submit written or electronic mail comments to the Chief, RPMB, regarding a proposed revision. Written comments must be received by the Department and postmarked no later than the published close of the public comment period.

Oral presentations at the public hearing shall be recorded. The recordings and all written comments are retained by the RPMB as a public record in the rulemaking file for at least one year from the date the regulation is filed with the Secretary of State.

12010.12.4 Actions after Public Hearing-Rulemaking File

The rulemaking file is an accumulation of all the documents and material required pursuant to the APA, which include: recorded or transcribed verbal comments, all written comments received by the Department during the public comment period, departmental comments on the accommodation or non-acceptance of the received comments (which are included in the Final Statement of Reasons), an updated informative digest, and the proposed final text of the regulation.

In response to the public comments received, the Department may:

- Comprehensively redraft the proposed regulation and schedule another 45 day comment period;
- Modify language with sufficiently related changes to the originally proposed regulation text and provide a 15-day re-notice and comment period; or
- File with the OAL the originally proposed regulation text without change.

Substantial modifications to the originally proposed regulation text shall not occur unless the change is sufficiently related to the regulation subject matter that was originally filed with the OAL and as appeared in the public notice.

A copy of the final rulemaking file shall be sent to the OAL. Upon receipt of the file, OAL has 30 working days to examine the rulemaking file for compliance with the provisions of the APA and to compare the cited authority and references. If the rulemaking file complies with the APA, OAL certifies that the regulations were properly adopted and files the regulation with the Secretary of State. Upon receipt of a stamped copy of the regulation filed with the Secretary of State, the RPMB shall post the final rulemaking documents on the internet and the Department's intranet informing all concerned of the adoption of the regulation.

Except as provided for Emergency regulations which are filed pursuant to PC 5058.3, regulations or order of repeals filed with the Secretary of State are effective on a quarterly basis, unless the regulation falls within one of the exemptions listed in Government Code 11343.4(b).

12010.13 Department Operations Manual

Department Operations Manual (DOM) contains statewide policy and procedures for uniform operation of the Department and informs staff of the approved procedures for program operations. The DOM is published electronically and can be accessed via the Department's intranet and internet.

Restricted sections of the DOM (Section 55000) shall not be available for public review (see Section 12010.13.2 below).

12010.13.1 DOM Revisions

Each article of DOM has a "Revisions" subsection which identifies the Director, Assistant Secretary, Deputy Director, Chief, or other executive responsible for ensuring that the content in the article is accurate and up-to-

date. The Director, Assistant Secretary, Deputy Director, Chief, or executive shall:

- Identify the need for and initiate a revision to DOM when necessary.
- Ensure other affected divisions are provided with an opportunity to review and comment on the proposed revision at the policy coordinator level. Upon request, the RPMB will assist with coordinating or “vetting” the proposed DOM revision with Department stakeholders.
- Incorporate the feedback from affected divisions and forward the completed proposed revision to the Chief, RPMB.

In completing this process, the RPMB will:

- Format, review, and analyze the proposed revision.
- Perform a Regulatory Impact Determination as needed to identify existing regulations that may need to be revised, or new regulation material contained in the proposed DOM policy that must be adopted before the DOM is implemented and enforced.
- Ensure necessary Director, Assistant Secretary, Deputy Director, or Chief level reviews are completed.
- Submit the proposed revision to the appropriate Director, Assistant Secretary, Deputy Director, Chief, or other responsible executive for final approval.
- Distribute the revision to the field and headquarters staff and post the information on the Department intranet and internet.
- Archive the project records and make them available for review by Department programs, legal staff, Attorney General’s office, etc.

12010.13.2 DOM Subchapter 55000, Restricted DOM: “Issuance and Responsibilities of Holders”

The Restricted DOM (R-DOM), Subchapter 55000, shall be issued only to specific Department positions that require the knowledge and use of the restricted content in order to perform their position’s duties and responsibilities (e.g., Watch Commander, Facility Captain, Associate Warden, Assistant Secretary, Director, etc.). Post Orders or job descriptions for those positions should reference responsibility for the R-DOM for accountability purposes. The R-DOM shall not be issued to individual persons but are issued to positions with a need for access to the information. Staff vacating a position that is authorized to have an R-DOM shall not remove the manual without the approval of the institution head and consent of the Chief, RPMB or the statewide R-DOM Coordinator. Staff in positions that have been issued an R-DOM are responsible for its updating when revisions are received, for its security and proper use. The R-DOM shall be secured in a locked cabinet and/or office when not being used. Contents of the R-DOM shall not be discussed in the presence of those who do not have a need-to-know, and copies of any portion of Subchapter 55000 shall not be made, emailed, or sent by FAX, unless authorized by specific restricted policy section(s) to do so (see DOM Chapter 4, Article 38, Electronic Mail, and “High Risk Confidential Information” in DOM Chapter 4, Article 45, Information Security). Violations of information security policies and procedures are subject to disciplinary action (see DOM Chapter 4, Article 45, Information Security). The R-DOM shall be viewed by CDCR employees on a need-to-know basis.

- Institutional/Parole region supplements to the R-DOM are not to be left unattended or in an office/work area that is not secured. They shall be maintained within the manual after the respective section being addressed.
- Transmittal Letters must be kept in numerical order and under the tab identified for transmittal letters.
- RABs must be kept in the front of the manual and in numerical order.
- The Revision Record to the R-DOM needs to be completed for every new addition or revision to policy that is incorporated into the R-DOM.
- The R-DOM shall be audited on an annual basis by the institutional or unit’s DOM Coordinator to ensure it is updated and current.
- The institutional or unit R-DOM Coordinator shall acknowledge receipt of each newly published revision of the R-DOM and attest that all authorized copies have been properly updated and are securely maintained by completing and signing a CDCR Form 621-R, Employee Certification of Receipt of Confidential Material, and returning it to the statewide R-DOM Coordinator at RPMB.

Department Restricted DOM Coordinator

The R-DOM shall remain with the assigned position unless, or until, the manual is reissued to another position by the Hiring Authority and the Chief of RPMB and/or the Department R-DOM Coordinator in RPMB is notified. Prior to vacating a position for which the R-DOM has been issued, the staff

member shall return the R-DOM to the R-DOM Coordinator or the Administrative Assistant to the Warden or Parole Administrator.

The R-DOM master copy shall be maintained by the Department’s R-DOM Coordinator assigned to the RPMB who oversees the secure development, approval, distribution, and records, of new and revised policy in Subchapter 55000. Any new policy and revision to current policy of the R-DOM shall be coordinated through the R-DOM Coordinator of the RPMB. Institutional/Parole region staff in need of current information/documents for their respective R-DOM(s) shall contact the R-DOM Coordinator to obtain those documents. The R-DOM Coordinator shall maintain a list of allocated R-DOMs for each Department institution, division, or office, authorized to hold the R-DOM, and update or revise that list as needed.

The R-DOM is a confidential document that is exempt from adoption as regulations (Penal Code 5058(c)(1)(B)) and is subject to the privilege for official information as described in Evidence Code (EC) 1040 and Government Code 6254(f). The R-DOM and its content are accordingly exempt from public disclosure.

Requests for a complete R-DOM shall be addressed to the Chief of the RPMB. The request shall include a justification for the need for the position to have an R-DOM and a statement that all R-DOM issued to the institution, division, or office will be updated, secured, and properly allocated.

Access to Subchapter 55000 by the California Correctional Peace Officers Association

An agreement between the CDCR and the California Correctional Peace Officers Association (CCPOA) allows CCPOA to have access to the DOM, Subchapter 55000, Restricted Procedures.

In order to resolve matters that may arise, the CDCR and the CCPOA agree that:

1. CDCR shall retain sole possession of that document known as the DOM Subchapter 55000.
2. CCPOA shall have access to DOM Subchapter 55000 (except Section 55030, Job Action Contingency Plan) in the following manner:
 - a) CDCR shall provide access to CCPOA representatives at both the institutional level and the headquarters level. Access shall be provided only on an appointment basis with a minimum of one hour’s notice. It is understood that normally such appointment at the institutional level will occur within 24 hours of the request.
 - b) The access described above shall be available to the following CCPOA representatives:
 - 1) Local Chapter Presidents
 - 2) Local Chapter Vice-Presidents
 - 3) Chief Job Stewards
 - 4) CCPOA Field Representatives
 - 5) CCPOA Legal Staff
 - 6) CCPOA Chief Administrative Officer
 - 7) CCPOA Statewide President
 - 8) CCPOA Statewide Vice-Presidents
 - 9) A member of any CCPOA bargaining team

In addition to the above, any Bargaining Unit (BU) 6 member or his/her designated representative, upon request, may have access to DOM Subchapter 55000 (except Section 55030) when the BU 6 member is being investigated as to matters covered by Subchapter 55000 or has been disciplined with regard to matters covered by Subchapter 55000.

3. In no event shall more than three of these persons have access at one location at the same time.
4. Under no circumstances shall access include the right to photocopy any portion of DOM Subchapter 55000.
5. CDCR Chief of the Office of Labor Relations shall notify the Chief Administrative Officer of CCPOA in writing of any changes to DOM Subchapter 55000.

CDCR is committed to upholding its agreement of providing CCPOA with access to DOM Subchapter 55000. To carry out this commitment, the Chief of RPMB shall coordinate CCPOA inspection of DOM Subchapter 55000 at CDCR headquarters. The Employee Relations Officer (ERO) is the representative at the institutional level to coordinate the requests for access to DOM Subchapter 55000. Any requests to individuals other than the ERO will not be honored and the requestor will be referred to the ERO. The ERO will not maintain a copy of DOM Subchapter 55000 for the sole purpose of having it readily available for CCPOA to review. Instead the ERO shall coordinate the review of a copy of DOM Subchapter 55000 from a copy allocated to the institution. The ERO shall ensure, however, that prior

to CCPOA reviewing DOM Subchapter 55000, that Section 55030 has been removed from the copy CCPOA will be reviewing.

The following procedures provide for statewide access by CCPOA to DOM Subchapter 55000 (except Section 55030):

The Chief of RPMB shall:

1. Maintain and control DOM Subchapter 55000.
2. Provide or coordinate the supervision of DOM Subchapter 55000 during any inspection by eligible CCPOA representatives or BU 6 members at the headquarters.

The Warden/Regional Parole Administrator shall:

1. Ensure that all requests from CCPOA representatives or BU 6 members for inspection of DOM Subchapter 55000 are processed through the ERO.

The ERO shall:

1. Arrange for the review of DOM Subchapter 55000.
2. Provide or coordinate the supervision of DOM Subchapter 55000 during any inspection by eligible CCPOA representatives or BU 6 members.
3. Document each time that DOM Subchapter 55000 is reviewed by an eligible CCPOA representative or BU 6 member as outlined above. The following information shall be recorded in the log book:
 - a) Full name of person reviewing DOM Subchapter 55000.
 - b) The position of the person reviewing DOM Subchapter 55000 (CCPOA affiliation) or rank of the BU 6 member.
 - c) Date DOM Subchapter 55000 was reviewed.
 - d) Time DOM Subchapter 55000 was reviewed.
 - e) Signature of CCPOA representative/BU 6 member(s) reviewing DOM.
 - f) The DOM section(s) reviewed.

12010.13.3 DOM Supplement Process

Policy

There may be a need at the facility/parole region level to clarify or supplement information in a section of the DOM. This need may arise from insufficient detailed information upon which to provide for day-to-day operation at the individual facility or parole office. When such need occurs, as determined by the Warden or Regional Parole Administrator, a DOM supplement shall be developed detailing the manual policy.

DOM supplements shall:

- Be brief and generally no more than two to four pages for any DOM article.
- Be attached to the applicable DOM article.
- Not create new policy.
- Clarify and not restrict, expand, or conflict with the DOM provisions.

Purpose

The purpose of this section is to provide a process by which facilities and parole regions shall clarify the DOM for local operational purposes.

12010.13.4 Supplements to the DOM

An operational supplement shall contain only specific information required for local day-to-day operation. It shall contain procedures required to accomplish the mandate of the DOM article. The DOM supplement could include such things as, who escorts certain groups of inmates within or from a specific housing assignment, or in which institution offices computers shall be located. Only when there is demonstrated need to add to the DOM article to provide for a specific local operational need as determined by the Warden of an institution or Regional Parole Administrator, shall a DOM supplement be used. DOM supplements shall be reviewed for policy compliance during the audit process. Supplements shall be in the same format as the DOM.

12010.13.5 Substantive Exemption to a Section of the DOM

It is the intent of the Department not to have substantive changes to requirements of the DOM in DOM supplements. However, on rare occasions there may be other mandates which require an exemption to some DOM provisions. Such mandated exemptions shall include court orders which affect only a particular facility's operation or a statutory requirement not required to be implemented statewide. Authorized pilot programs under Penal Code 5058.1 announced through an IM or AB may justify specific exemptions to regulations and/or DOM provisions.

When such an exemption is required for other than an authorized pilot program, a justification shall be submitted to the appropriate Assistant Secretary or Director for approval of the exemption. The justification for the

exemption shall include a description of the mandate requiring the exemption and an evaluation of the consequences if it is not approved.

12010.13.6 DOM Supplements are Distinct from Local Operational Procedures (OP)

Whereas DOM supplements provide detail for implementing statewide DOM policy locally (e.g., inmate visiting days and hours), OPs address localized policy only for which there is no statewide DOM policy (e.g., local parking privileges and restrictions, or local noise and light mitigation).

12010.14 Bulletins

Specific bulletins shall be used to announce policy for the Department. Each bulletin shall:

- Be reviewed by the appropriate Director, Assistant Secretary, Deputy Director, Chief, or other responsible executive prior to submission for approval.
- Be signed by the Secretary, Undersecretary, Assistant Secretary, Deputy Director, Chief, designee, or other executive staff member.
- Be processed through the RPMB for assignment of a number, forwarded for review by Department stakeholders and executive staff, and processed for printing and distribution.
- Contain an expiration date.

12010.14.1 Administrative Bulletins and Restricted Administrative Bulletins

An AB may be used to announce immediate or temporary revisions to departmental operational policy or new program initiatives, which will be subsequently included in the DOM. ABs are not to be used to implement new or revised policy that has regulatory impact unless enabling regulations have first been adopted. Each AB will have a cancellation date not more than one year from the effective date of the AB, by which time the policy in the AB shall be adopted into DOM or rescinded. An RAB may be used when the change in policy or procedure will be incorporated into the R-DOM (Section 55000).

The Director, Assistant Secretary, Deputy Director, or Chief who administers the area in which a policy change is occurring is responsible for preparing the AB/RAB as follows:

- Determine that an AB/RAB is needed and initiate its preparation within their program.
- Contact RPMB and inform them of the proposed change.
- Ensure other affected divisions are provided an opportunity to review and comment on the draft AB/RAB at the policy coordinator level. RPMB may, upon request, assist with the coordination/vetting process.
- Accommodate comments from affected divisions.

In completing this process, the RPMB will:

- Format, review, and analyze the AB/RAB.
- Ensure necessary Director, Assistant Secretary, Deputy Director, or Chief level reviews are completed.
- Submit the AB/RAB to the appropriate Director, Assistant Secretary, Deputy Director, Chief, or designee for final approval.
- Policy modifications resulting from changes in statute or from court decisions shall be cleared through the Office of Legal Affairs and Fiscal Services prior to submittal for the Secretary's or Undersecretary's approval.
- Policy modifications which potentially affect more than one division shall be routed to the head of each affected division or office for review, comment, and approval.

12010.14.2 Informational Bulletin

The IB is prepared to transmit non-policy announcements of staff appointments, references, significant form revisions, and directory changes (e.g., addresses, telephone numbers), and events or activities about which departmental staff should be informed.

The process for completing IBs is as follows:

- The Director, Assistant Secretary, Deputy Director, or Chief who identifies the need for an IB initiates the IB.
- The IB is forwarded to the Chief, RPMB.
- The RPMB staff reviews, proofs, and formats the IB and submits it to the Chief, RPMB, for approval and signature.

The bulletin shall be maintained on the RPMB website for up to 2 years from date of publication.

12010.14.3 Instructional Memorandum

The IM is used to:

- Disseminate immediate and temporary policy or procedure modifications to the field via the Director, Assistant Secretary, Deputy Director, or Chief. The IM shall contain an expiration date no longer than 60 days.
- Implement a 24-month regulatory Pilot Program under the authority and conditions in Penal Code Section 5058.1, to individual institutions or parole offices via the RPMB, as directed by the appropriate Director, Assistant Secretary, Deputy Director, Chief, or Department executive.

12010.15 Pilot Programs

The Secretary of the California Department of Corrections and Rehabilitation may authorize pilot programs for up to two years using the authority granted in Penal Code (PC) 5058.1. Pilot programs are implemented using an IM or other policy directives as defined in DOM Chapter 1, Article 6, Regulation and Policy Directives. RPMB coordinates with the initiating program on the development and Department approval of pilot programs, and submits the pilot program documents to OAL for certification.

Under PC 5058.1, pilot programs may affect no more than 10 percent of the inmate or parolee population (e.g., female inmates, male inmates, total inmate population). The Secretary or rulemaking designee must certify that the pilot program's policies meet the criteria for adoption as a pilot under the Penal Code, provide an estimate of the fiscal impact, and describe the methods by which the pilot program will be evaluated.

Pilot programs have a duration of up to two years and are then automatically repealed by operation of law. In order for the program to continue beyond two years, regulations to codify the programs into the Title 15 must be adopted by the end of the pilot period.

12010.16 Forms

The departmental Forms Coordinator located in the RPMB will be responsible for implementing and managing all functions related to departmental forms control for Adult Operations, Adult Programs, and program support. The Forms Coordinator will be responsible for the following:

- Overseeing the development and revision of forms to ensure compliance with applicable laws and regulations.
- Assigning form numbers.
- Performing a determination of the impact of a form revision on regulations and the DOM.
- Developing and maintaining the departmental Forms Catalog.
- Providing assistance and information to departmental staff on revising and obtaining departmental forms.
- Acting as departmental forms liaison with other State departments.
- Gathering the necessary information from departmental staff for the completion of form management reports.

Forms must be revised with the approval of the Director, Assistant Secretary, Deputy Director, Chief, or designee that has responsibility over the operation and the regulations and/or DOM policy that the form supports, and processed through the RPMB Forms Coordinator. Forms that have not been approved and processed in this way, or authorized Department forms that have been altered without such approval and processing through the RPMB Forms Coordinator, are considered "bootleg" forms and may not be supported by existing Department regulations and/or DOM and are not available for order through CALPIA or the Office of State Publishing.

12010.17 Regulation and Policy Records

Each division shall maintain their own policy files. A retention schedule shall be established. Those documents that contain historical data shall be retained for the appropriate time frame and transferred to the State Archives.

The RPMB shall maintain rulemaking and policy files relative to printed policy adoptions; i.e., regulations, DOM revisions, and bulletins.

- A copy of any document(s) transmitted to clarify, implement, or enforce existing policy shall be sent to the RPMB to ensure that existing written policy remains current.
- A copy of any formal report (research, evaluation, study, etc.) shall be transmitted to the RPMB for retention as reference material.

12010.18 Revisions

The Director, Division of Administrative Services, shall ensure that the content of this article is accurate and current.

ARTICLE 7 — CONFERENCES AND CONVENTIONS

Revised July 17, 1996

12020.1 Policy

Departmental and non-departmental meetings, conferences, and conventions, when sponsored by the Department or other professional organizations, are positive methods to enhance general professional development and further CDC goals.

- Staff are encouraged to participate in authorized departmental and nondepartmental meetings, conferences, and conventions.

12020.2 Purpose

This section designates those responsible for selecting attendees, submitting of required forms, and approving authority for requests to attend meetings, conferences, and conventions.

12020.3 Authorized Meetings, Conferences, and Conventions

All meetings, conferences, and conventions of ten or more people that involve travel, per diem, or other expenditures shall require approval of the appropriate Chief Deputy Director. By June 30 of each year, all Deputy Directors and Assistant Directors shall submit to the Chief, VSRP, a schedule of meetings, conferences, and conventions to be conducted during the following fiscal year. VSRP shall coordinate the final review and approvals by the Chief Deputy Directors.

- The CDC Form 1328, Meeting/Conference Schedule, shall be used for submitting this information.
- These activities shall be considered business meetings or business conferences and expenses incurred shall not be charged to training budgets, but to other appropriate budget allotments (e.g., travel).

The Chief, SPB, shall submit the meeting, conference, and convention schedules to the appropriate Chief Deputy Director for departmental approval. A copy of the approved schedule shall be returned to the submitting Deputy Director or Assistant Director. SPB shall include the meeting, conference, or convention on the departmental master calendar.

No further approvals for departmental meetings, conferences, and conventions are required during the year provided no substantive changes occur in the previously approved schedule and the event is being held at a State facility.

Meetings, conferences, and conventions held at other than State facilities require YACA approval. (See DOM 12020.6.)

Any request requiring YACA approval shall first be approved by the appropriate Chief Deputy Director.

The SPB shall review and coordinate the approvals for submission to the Chief Deputy Directors and YACA.

12020.4 Schedule Changes Requiring Departmental Approval

Changes to approved schedules requiring departmental approval include:

- Any increase in the number of events.
- A location change requiring YACA approval.
- Additional costs exceeding the original estimate by 10 percent or more.

45 Days Prior

Details of the requested amendment shall be submitted to the Chief, SPB, 45 days prior to the meeting, conference, or convention to allow sufficient time for the necessary approvals.

12020.5 Agendas for Conferences, Conventions, and Meetings

With the aim of achieving program goals and objectives, an agenda shall be prepared for each meeting, conference, or convention. Specific benefits to CDC such as increased productivity, problem solving, or other staff improvements should be especially noted.

The agenda shall include the title of the event, the dates, meeting location, and an outline of the major items to be discussed.

30 Days Prior

The Deputy Director or Assistant Director shall submit the agenda to the appropriate Chief Deputy Director at least 30 days prior to the meeting, conference, or convention.

12020.6 Use of Off-Site Facilities

In compliance with criteria established by the Governor's Office, written approval from the Secretary of YACA, or designee, shall be obtained prior to scheduling any state-sponsored meeting, conference, convention, or training session which includes the rental of an off-site facility.

Request to Rent

Requests to rent an off-site facility shall include a comparison of costs from various private facilities and explain why it is not feasible to use a State facility.

60 Days Prior

The appropriate Deputy Director or Assistant Director shall submit to the Chief, SPB, a YACA Form 83-9-1, Request to Schedule Conference or Meeting, at least 60 days prior to the scheduled event. The SPB staff shall review the submitted paperwork to confirm that all necessary information is included. The appropriate Chief Deputy Director shall approve or deny the request and SPB shall return the request to the appropriate Deputy Director or Assistant Director.

12020.7 Non-departmental Meetings, Conferences, and Conventions

This section pertains to non-departmental meetings, conferences, and conventions sponsored by professional organizations including "bona fide associations" as defined by the DPA.

- Meetings, conferences, and conventions sponsored by professional organizations are to provide opportunities for general professional development.
- Meetings, conferences, and conventions sponsored by "employee organizations" are excluded from these guidelines per GC 3525.

Request and Approval

To achieve consistency and provide guidelines for attendance at the meetings, conferences, and conventions of professional organizations in California, each Deputy Director or Assistant Director is responsible for screening and submitting all non-departmental conference requests to the appropriate Chief Deputy Director for final review and approval.

- Programs involving partisan political speeches or activities or employee organization functions are not eligible for consideration.

Maximum of Ten

Normally CDC shall not send more than ten people to individual non-departmental meetings, conferences, and conventions. Attendance by more than ten people shall require separate approval by the appropriate Chief Deputy Director.

Upon Approval

Upon approval, a copy of the approval shall be sent by the requesting Deputy Director, Assistant Director, or designee to the Accounting Services Section in headquarters.

Note: This procedure applies only to headquarters and P&CSD staff.

- Additional employees participating in a nondepartmental meeting, conference, or convention program as speakers or panel members may be granted time and expenses as required, determined by the duration of their participation. Such expenses shall be paid from local travel budgets.

Attendance Without Reimbursement

If the request is to attend a non-departmental meeting without the sponsorship of CDC, the following guidelines apply:

- The attending employee shall pay all expenses including travel, per diem, and registration costs.
- The attending employee shall use vacation or other accrued time off, such as compensatory time off, holiday, etc.
- The employee's attendance at the meeting, conference, or convention shall not result in any cost to the State or create a burden on CDC operations.

Training Credit

An employee who attends formal training workshops at a conference or convention may request training credit. This credit can be applied toward the 40-hour annual training requirement that each employee is expected to complete.

How to Apply

In order to receive this credit after attending such an event, the employee must send the IST Manager or Regional Training Coordinator verification of attendance and a copy of the conference agenda detailing the workshops to be considered for credit.

Type of Credit

Only career-related out-service training credit may be granted.

Amount of Credit

Credit will be granted on an hour-for-hour basis, not to exceed a maximum of eight hours per year, per employee.

Reimbursement Not Allowed

The granting of training credit does not entitle an employee any reimbursement of expenses for attending a conference or convention. If an employee has been approved to attend on State time at State expense, no training funds may be used to cover the approved costs.

Restriction on Granting Credit

Training credits may not be granted for meetings, conferences, or conventions of "employee organizations" as stipulated in GC 3525.

Need Prior Written Approval (100 Miles)

Prior written approval shall be obtained from YACA when 10 or more employees are required to travel more than 100 miles from their headquarters in order to participate in a meeting, conference, or convention not sponsored by the State.

- This policy applies whether or not such a meeting, conference, or convention is paid in total or in part by State or federal funds.

60 Days Prior

A YACA Form 83-9-1 shall be prepared for the signature of the appropriate Chief Deputy Director and submitted to YACA 60 days prior to the date of the event by the requesting Deputy Director or Assistant Director.

12020.8 Meetings, Conferences, and Conventions Outside the State

To attend an out-of-state meeting, conference, or convention not already in the approved out-of-state travel blanket, all requests for attendance shall be submitted through the appropriate Deputy Director or Assistant Director at least 90 days prior to the date of the event. The request (by memorandum) shall include:

- The name of the meeting, conference, or convention.
- Location.
- Date(s).
- Costs.
- A copy of the agenda.
- A justification describing the benefit to the State and the consequences of not attending.
- An assurance that participation shall not interfere with service to the public or operation of CDC's programs.

The memorandum shall have an approved/disapproved signature block for the Deputy Director or Assistant Director.

Final Approval

Upon initial approval, the request shall be forwarded to Accounting Services Section for verification of funds. Accounting Services Section shall obtain final approval from the appropriate Chief Deputy Director and notify the appropriate staff. Any additional required approval shall be obtained by Accounting Services Section.

12020.9 Recruitment Activity at Conferences and Conventions

The CDC facility located in the geographic area of the conference or convention shall coordinate the placement of a CDC recruitment booth at that conference or convention. Other CDC facilities or divisions interested in participating in staffing the recruitment booth may do so by contacting the responsible recruitment coordinator.

Limit of Booths

Normally, there shall be no more than one CDC booth per conference or convention. But if the departmental recruitment manager concurs that a large number of applicants are anticipated for classifications being recruited, another booth and additional staff may be requested.

- The booths shall be placed side by side.
- No more than four recruiters shall be used to staff a booth.
- The recruiters shall not be conference and convention attendees or participants.

- The recruiters' function shall expressly be to staff the booth and respond to employment inquiries.
- The recruiters shall not need to be included in the conference and convention approval process.

Use of Booths

Recruitment booths shall only be used at those conferences or conventions in which it is reasonable to expect applicants. The appropriate staff shall also be used (i.e., sworn staff used in recruiting peace officers and medical staff used in recruiting medical professionals). The decision to send a recruitment booth team to the annual conferences and conventions of the following groups shall be made by the departmental recruitment manager:

- Asian State Employees Association.
- Association of Black Correctional Workers.
- Black Advocates in State Service.
- CAFE de California.
- Chicano Correctional Workers Association.
- Filipino American State Employees Association.
- Latino Peace Officers Association.
- Mexican American Correctional Association.
- Mexican American Political Association.
- United Black Correctional Workers.

Note: At these conferences and conventions, an advertisement in the conference or convention program shall be the extent of our recruitment participation unless it is determined to be in CDC's best interest to also use a booth. Should it be determined that a booth is needed, the responsible facility shall be advised and shall coordinate its placement and staffing.

12020.10 Revisions

The Assistant Director, OOC, or designee is responsible for ensuring that the contents of this section are kept current and accurate.

12020.11 References

- SAM §§ 0731, 0732, and 0733.
- GC § 3525.

ARTICLE 8 — CORRESPONDENCE

Revised July 19, 1995

12030.1 Policy

Employees shall prepare written correspondence in accordance with the provisions of the Secretarial Handbook.

12030.2 Purpose

This section establishes guidelines for preparing the following types of correspondence:

- Administrative reports.
- Correspondence on behalf of the BPT or NAEA. Correspondence from the Department to BPT or NAEA.
- Inmate correspondence.

12030.3 Preparing Correspondence

Employees shall properly prepare correspondence and shall follow these general requirements:

- All incoming correspondence shall be answered promptly. Employees who cannot promptly answer correspondence shall acknowledge that they have received it and offer an estimated date for a complete reply.
- All prepared correspondence shall be proofread before being forwarded for approval/signature.

Each outgoing article of correspondence sent by staff from a State correctional facility shall be clearly labeled or stamped with the words State correctional Facility on the face of the envelope or package. For the purposes of this section only, a State correctional facility also includes the Community Correctional Centers, Community Prison Mother Program facilities, Restitution Center, and Work Furlough Facilities. See DOM 54010.27 for additional details.

12030.4 Administrative Reports

Employees who assign an administrative report shall:

- Explain the project in detail to the designated employee, giving all available information.

- Suggest any known references.
- Carefully outline the scope of the project.

The employee to whom the report is assigned shall:

- Perform necessary research.
- Formulate a tentative plan or solution.
- Check the tentative plan or solution with the affected person and report their concurrences and disagreements in the recommendations section of the report.

The Report.

The report shall:

- Be prepared on a CDC Form 1617, State of California Memorandum, if a short report. If a lengthy report, the report shall be prepared on plain, white paper and transmitted with a CDC Form 1617 as a cover sheet.
- Be addressed to the employee who gave the assignment.
- Contain date and subject lines.
- Contain an introductory paragraph including a brief statement about the assignment.
- Contain a brief statement of recommendation(s), each followed by a justification.
- Fiscal or legislative implications shall appear in the recommendation and shall be elaborated on in the reasons for the recommendation.
- Documents needed to support the recommendation(s) shall be attached as appendices or exhibits.
- Any forms or directives needed to implement the recommendation(s) shall be attached.

The employee shall submit the completed project to their immediate supervisor for forwarding through administrative channels.

The employee who assigned the report shall notify the employee completing the report of the results.

12030.5 Correspondence Addressed to the BPT or NAEA

Facilities may receive correspondence addressed to the BPT or the NAEA requesting information. Employees shall:

- Answer such correspondence using the appropriate paroling board letterhead if the correspondence regards individual parolees/releasees.
- Include the signature line of the board countersigned by the C&PR of the facility, followed by the name, address, and public telephone number of the facility.

Employees shall forward correspondence addressed to facilities concerning policies and functions of a paroling board to the appropriate paroling board for reply.

Correspondence regarding term-fixing or parole-granting functions of a paroling board received at a facility but which is not addressed to paroling board officials shall be forwarded to the C&PR for reply.

Associate Wardens in charge of reception centers shall sign responses to correspondence addressed to a paroling board but concerning inmates in reception centers. If the request for information concerns the board's actions or functions, the appropriate paroling board letterhead shall be used. The name, address, and public telephone number of the facility where the reception center is located shall follow the signature block.

12030.6 Paroling Boards

Wardens and designated employees within facilities or Headquarters shall communicate with the appropriate paroling board (BPT or the NAEA) regarding scheduling or other problems.

Proposed changes in policy, procedure, or practice of the Department which may affect a paroling board's operations shall be coordinated by the following liaison persons:

Paroling Board	Institutions Division	P&CSD
BPT	Regional Administrator, Central/Operations	PA, Operations
NAEA	Regional Administrator, South/Programs	PA, Operations

12030.7 Inmate Correspondence

Employees may use form letters to respond to inmate correspondence. However, each letter shall be individually typed or printed, not photocopied.

Facilities/ Parole Regions

Appropriate facility and parole region employees shall respond on CDC Form 1617 to incoming correspondence from inmates. Correspondence received from external persons regarding inmates that has been addressed to or referred to their facility, shall be responded to using official Department letterhead.

All employees shall forward correspondence as follows:

IF	THEN
Inmate has been transferred or paroled.	Forward to appropriate facility or parole region.
Inmate has been discharged.	Forward by route slip to the Archives Unit, CMF for reply.
Departmental identification number is known (CDC number).	Use OBIS terminal to determine current location and status, and forward to the appropriate facility, parole region, or Archives Unit for reply.
CDC number is known.	Forward to the Identification not and Warrants Unit Headquarters, which shall identify and route to the appropriate facility, parole region, or Archives Unit for reply.

A copy of the reply shall be sent to the appropriate Warden or parole region for inclusion in the inmate's C-File.

Headquarters

Headquarters' replies to correspondence from inmates or regarding inmates shall be prepared on letterhead stationery.

Headquarters employees shall adhere to established due dates (if attached) set by the Business Services Correspondence Control Unit (BSCCU) when responding to correspondence from or regarding inmates. If no due date has been attached, the employee shall respond within 15 working days. A file copy of the reply shall be sent to the inmate's C-File.

If the correspondence was forwarded from BSCCU, the attached CDC Form 972, Correspondence Referral Cover Sheet, shall be returned to the Unit with an indication of the date the response was mailed.

12030.8 BSCCU

Correspondence received at Headquarters is reviewed first by the BSCCU. The BSCCU determines what correspondence will be controlled. Correspondence deemed necessary to control shall be handled as outlined in the DOM 12030.9 of this manual.

The following types of correspondence are not usually controlled by the BSCCU and shall be forwarded as shown:

Type of Correspondence	Forwarded to
Routine correspondence from facilities or parole regions	Mailroom
Correspondence marked "Confidential" or "Private"	Mailroom
Inmate appeal correspondence	Inmate Appeals Branch

12030.9 Controlled Correspondence

The BSCCU divides correspondence it controls into two categories-large and small actions.

Large actions include:

- Governor's Office transmittals.
- Legislative correspondence.
- Correspondence from Directors of other State departments.

Small actions are any other correspondence received by BSCCU that requires a reply from the Department.

The BSCCU assigns due dates to large actions as follows:

- Governor's Office transmittals.
 - Two days before any given due date by the Governor's Office or YACA.
 - Five working days for as-soon-as-possible (ASAP) requests.
 - Ten working days if no due date is requested.

No extensions shall be allowed on Governor's Office transmittals.

- Legislative correspondence and correspondence from other Directors.
 - Two days before any requested due date--no extensions.
 - Five working days for ASAP requests--no extensions.
 - Ten working days if no due date is requested--an extension of up to three working days provided the request is made on or before the due date.

The BSCCU assigns due dates to small actions as follows:

- Two days before given due date (providing the due date is reasonable). No extensions shall be given if a reasonable due date has been requested.
- Fifteen working days for correspondence without a requested due date. An extension of up to five days may be given if requested on or before the due date.

The BSCCU shall:

- Handle Governor's Office transmittals by logging the date received, the information received, and the unit assigned.
- Assign the correspondence or Governor's Office transmittal to the appropriate Deputy Director or Assistant Deputy Director for response.
- Staple the CDC Form 972 to the incoming correspondence.
- Establish the due date and the date of referral on the CDC Form 972.
- Provide Chief Deputy Directors and Director with a weekly listing of overdue controlled correspondence.

12030.10 Revisions

The Assistant Director, OOC, or designee shall be responsible for ensuring that the contents of this section are kept current and accurate.

12030.11 References

- SAM § 1641.11.
- GC §§ 7525 and 7526.
- Secretarial Handbook.
- DOM § 54010.

ARTICLE 9 — UNASSIGNED

ARTICLE 10 — STATE BUSINESS MAIL

Revised March 6, 1995

12050.1 Policy

An effective and efficient flow of written communication shall be maintained throughout Headquarters, institutions, and the parole division.

12050.2 Purpose

This section outlines specific requirements for sending and receiving departmental mail throughout the various divisions within the Department. In addition, it outlines steps to be taken to obtain reproduction services for departmental written material.

12050.3 Mail Distribution (Headquarters)

The mailroom messengers deliver the mail to each office two times daily as follows:

- Headquarters - 10:00 a.m. and 2:00 p.m..
- Other Sacramento buildings except Region I Headquarters and Parole field offices - 10:30 a.m. and 2:45 p.m..

Outgoing mail is picked up at the same time the mail is delivered.

There are two scheduled mail runs daily between the YACA and the Department at 10:30 a.m. and 2:30 p.m.

A mail tray is available in The Director reception area for mail to the YACA.

Interagency Mail Service (IMS)

Interagency mail to be sent to other state departments or facilities throughout the Sacramento area shall be placed in messenger service envelopes. On the envelope the following items shall be placed:

- IMS code number.
 - The use of the code number expedites delivery of mail to state departments, as interagency mail is sorted by these numbers.
- Name of department.
- Name of the person or position title.
- Address (or building).
- Room number (or floor).

This mail is collected on regular departmental mail runs and picked up by IMS at approximately 10:00 a.m. daily. Mail addressed to any location not on the current "IMS Listing of Locations" shall not be delivered by IMS.

Correspondence shall be properly addressed and routed directly to the mailroom from all Headquarters locations within the Sacramento area as all departmental mail is sent out directly from the mailroom. The mailroom uses pre-labeled envelopes for sending routine correspondence; however, large envelopes in excess of 10" x 12" and all packages too large for consolidated mailing shall be packaged and labeled by the sending unit.

All mail sent to the institutions (with a route slip attached or in an envelope) shall be combined in the mailroom into a bulk rate, first class envelope unless otherwise specified.

Processing Deadline

Mail received in the mailroom after 4:00 p.m. is processed the following day unless it is classified as an "expedite." Expedite mail shall be accommodated based on mail deadlines set by the Department's private contract carrier and/or the USPS.

Express Mail

Express mail shall only be used when it is imperative that delivery be made the following day. The express mail carrier that is specified in the current statewide master service agreement shall be used for mail between locations subject to the master service agreement. For telephone or FAX use refer to DOM 12070.

Personal Mail

Mailroom personnel shall pick up personal mail for Headquarters employees during their daily scheduled mail runs. However, this pertains to envelopes and small packages only. Large personal packages and large bulk quantities, such as Christmas mail, shall not be handled by the mailroom. All personal mail shall have proper postage and address ready for delivery. The mailroom does not stock nor sell postage stamps and shall not meter personal mail.

USPS Delivery

Outgoing mail is delivered once daily to the USPS, 801 I Street, at approximately 4:20 p.m.

Re-Use of Envelopes

For distribution purposes, whenever possible, all sizes of clasp-type manila envelopes shall be saved for re-use if the envelope has not been sealed with tape or damaged.

12050.4 Institutional Mail (Employee)

Institution mailroom supervisors shall ensure timely processing and delivery of employee mail on a daily basis.

All intra-institutional mail shall be processed through the mailroom. Inmates shall not be used for delivery of mail. All inter-institutional mail and correspondence with the public shall be handled by the USPS by the institution mailrooms.

Institutions shall also restrict the use of express mail in accordance with the provisions of DOM 12050.3.

Mailrooms shall not meter personal mail.

Employees who have business or private letters which will be mailed by institutional mailrooms shall deliver their mail to the mailroom in person or shall place their title or rank with the return address on the outside of the envelope. Use of institution business mailing address for personal mail, however, is discouraged.

Inmate mail is addressed in DOM 54010 of this manual.

12050.5 Mail Distribution P&CSD

All inter-office mail for the P&CSD shall be handled by the USPS or contract courier service.

The restrictions in DOM 12050.3 apply to use of express mail service.

12050.6 Route Slip Usage

Various forms designated as route slips are used within the Department for distribution purposes. These forms may be obtained by ordering from supply. A partial list is:

- Message (STD. Form 7).
- Headquarters Route Slip (CDC Form 27).
- Institution Route Slip (CDC Form 29).
- Messenger Route Slip (CDC Form 832).
- P&CSD Route Slip (CDC Form 271-B).

12050.7 Referral Memorandum (CDC Form 982)

This form, which is often called a "blue referral", is used to forward any type of written communication that requires an action on the part of the recipient

(e.g., letters, memorandums, bulletins, manual revisions, reports, etc.) through administrative channels.

Addressees' position or name shall be placed on the line that immediately follows each number. After receipt, addressees shall initial next to their name or position and add the date signed.

- See DOM 12010 of this manual for the routing of policy directives (e.g., bulletins and manual revisions).
- See DOM 12030 of this manual for the routing of correspondence to the Director and Chief Deputy Director.

12050.8 Incident Reports

Per DOM 51030, two copies of all incident reports occurring in the institutions are sent to Headquarters (three copies in event of an assault resulting in death).

The incident reports are distributed by the Institutions Division:

- One copy is routed to OISB for entry of necessary data into computerized database maintained by OISB. This copy is then forwarded to archives.
- The second copy is reviewed by the staff of Institutions Division, who route a copy to other Headquarters staff depending on the type of incident.

12050.9 Institutional Staff Meeting Minutes

Per DOM 31120, various staff meeting minutes are routed to Headquarters for informational purposes. Three copies are mailed to Headquarters to the following:

Type of Meeting	Mailed to
Warden	Deputy Director Institutions Division
Associate Warden Business Services Program Services Staff	Deputy Director Administrative Services Division
Prison Industry's Staff	Deputy Director Institutions Division General Manager CALPIA
Medical and Psychiatric Staff	Assistant Deputy Director HCSD
Trade Advisory Committees (TAC)	Chief, Education and Inmate Program Services

The LAD-PMU, Headquarters, maintains one copy of institution staff meeting minutes.

12050.10 Reproduction

Reproduction (other than forms) for institutions and parole units shall be accomplished using local office copiers and/or vocational/industrial printing programs. Large reproduction needs which cannot be handled by the above shall be met by submitting requests directly to the Office of State Publishing (OSP).

All material to be reproduced (other than forms) for Headquarters units shall be submitted to the departmental reproduction center, with a completed STD. Form 51, Reproduction Order.

All material being submitted shall be ready to be reproduced (i.e., no staples, removed from binders, separated from material not being reproduced).

State owned copying and duplicating equipment shall not be used for other than official state business.

12050.10.1 Departmental Reproduction Center Capability

The departmental reproduction center is capable of providing the following services:

- One-sided or two-sided copies.
- Copies from originals using paper of weights ranging from 16 pounds to 110 pounds, (i.e., letterhead to cover stock) and from pasted or taped originals.
- Reduction from originals as large as 11" x 17."
- Copies of continuous computer forms.
- Stapling (a maximum of 100 pages) and arranging in sequence (collating).
- Duplication of manuals, reports, etc., as long as the originals provided do not have book binding and are not copyrighted.

All reports of more than one page shall be duplicated on both sides of the paper. This reduces the bulk in handling, mailing, and filing.

12050.10.2 Completion Schedules

All jobs shall be completed within five working days. Expedite jobs shall be delivered to, and approved by, the reproduction center supervisor. Very large jobs needing to go to OSP may require additional days.

12050.10.3 Quantity Limits

The number of copies to be made from each original determines where the copies shall be made as follows:

No. of Copies Per Original	Equipment
20 copies or less	Office or floor copiers
21 to 350 copies	Departmental Reproduction Center
Over 350 copies	OSP

12050.10.4 Mass Mail Orders

All reproduction orders that shall be mass mailed by OSP shall be submitted to the reproduction center supervisor with a completed STD. Form 50.

12050.11 Revisions

The Deputy Director, Administrative Services, or designee shall ensure that the contents of this section are accurate and current.

12050.12 References

SAM §§ 2200 and 2800.

12050.13 Forms

- CDC Form 27, Headquarters Route Slip.
- CDC Form 29, Institution Route Slip.
- CDC Form 832, Messenger Route Slip.
- CDC Form 271-B, P&CSD Route Slip.
- CDC Form 982, Referral Memorandum.
- STD Form 7, Route Slip.
- STD Form 51, Reproduction Order.
- STD Form 50, Mass Mailing.

ARTICLE 11 — PUBLICATIONS

Revised March 14, 1995

12060.1 Policy

The United States (U.S.) Copyright Act establishes requirements for publication and reproduction of published material. The Director requires adherence to the Copyright Act in preparing manuals, booklets, leaflets, and other written material.

12060.2 Purpose

This section provides guidelines for the printing or reprinting of local procedures, manuals, and other written material to avoid copyright infringement and expense of litigation against the Department and to ensure that their content is consistent with departmental goals and objectives.

12060.3 Publications Written By Employees

Any manual, leaflet, book, newsletter, or other publication on a subject related to the Department which would normally qualify as a public record and involve distribution to staff, organizations outside the Department, Legislature, general public, news, media, and/or for submission to an outside professional journal/paper shall require review by the Assistant Director, Communications, and approval in writing by the Director prior to submission, issuance, or distribution.

Any such articles written by employees for submission to professional journals or other outside publications shall be forwarded through administrative channels to the Assistant Director, Communications, who may request comments from interested Deputy or Assistant Directors before the article is forwarded to the Chief Deputy Director.

When any employee prepares a manual, book, leaflet, newsletter, or other publication as part of the employee's official duties, the employee may obtain a copyright on such publication at the employee's own expense. However, that copyright shall be deemed to be held in trust for the Department, as the works copyrighted shall directly or indirectly have pertinence to the Department.

See DOM 14020 for the publication of research reports and findings.

12060.4 Production of Publications in the Facility Print Shops

Publications for public distribution may be produced in a vocational graphic arts print shop, but only with the prior approval of the Director. Publication of a sensitive nature (based on the IPA) shall **not** be produced in the

CALPIA or Vocational Education print shops as it would allow inmates access to such material.

Public Distribution

"Public distribution" means documents that qualify under the Public Record Act, GC 6250 for distribution to the public, exceptions are specified within the Act but generally do not include the types of materials included in this Section. Publications for public use will be printed by OSP, CALPIA, facility vocational education or commercial printer with approval from the Director or designee. These publications may include the annual report of the Department.

Local Materials

Booklets and other written material (i.e., IST pamphlet, newsletter, etc.) reviewed by the Assistant Director, Communications, and approved by the Director may be produced within the facility, utilizing the facility vocational graphic arts print shops, and distributed locally upon written approval of the Warden. A copy of this approval shall be forwarded to the Assistant Director, Communications, for filing with the PMU at headquarters.

The vocational graphic arts print shops may print or reprint local procedures and the various IST manuals.

Funds

Funds for the printing expenses must be available prior to the production of such books, reports, leaflets, or documents in the vocational graphic arts print shops of the facilities or by OSP, DGS, and CALPIA or a commercial printer.

Prior to the submission of any copy to the vocational graphic arts print shop, the provisions of DOM 22040 shall be followed.

12060.5 Depository Libraries

Publications produced by Department or at the State Printing Plant shall be sent to each complete depository library in the State.

- Depository libraries are those libraries that apply to contract with the State, through DGS, to maintain all State publications.

SAM 3122.2 et seq., address the distribution of publications outside the Department.

Copies of the CCR are sent to depository libraries by OSP.

12060.6 U.S. Copyright Act

Rights of Copyright Owner

In the reprinting of copyrighted articles, or duplication of copyrighted films, video, or audio tape recordings, careful review and caution shall be exercised to protect the State and this Department from censure or civil suit. The U.S. Copyright Act states precisely which uses or rights are reserved exclusively to the copyright owner. Employees using or reprinting copyright materials shall have specific knowledge of copyright laws.

Exclusive Rights

The Copyright Act gives to the copyright owner of books, periodicals, and all related contributions, the following exclusive rights:

- To print and reprint. To print is not only to print in type but also to multigraph, write, duplicate on video or audiotape, film, or reproduce by any other means.
- To publish. To publish means to reproduce in copies for sale or distribution to staff, inmates, parolees, or the public.
- To copy. To copy includes any wholesale rewriting of the material, whether literal copying or not, and is not confined to literal repetition but includes various methods in which the matter of any publication may be adopted, initiated, or transferred with more or less colorable alteration.
- To vend. To vend refers to the control by the copyright owner not only of the first sale but also of leases, licenses, and assignments.
- To translate or make other versions.
- To deliver or present in public for profit.
- To make any transcription or record by which it can be exhibited, presented, or reproduced.
- To play or perform it for profit, and to exhibit, represent, or reproduce it in any manner or any method whatsoever.

Permission

Permission in writing shall be obtained in every case where a copyrighted item is reprinted. The original of the permission to copy shall be filed in the requestor's division.

Permission to use copyrighted works must be granted by the copyright owner or the owner's agent. If the copyright has been assigned, the assignee's

permission is needed. If it has been licensed, the copyright owner's permission is needed. With joint owners, one will do, but both are better. Approval of requests to use copyrighted material may be delegated to the publisher.

For any extended reprint or quotation, specific rights that are given (i.e., periodical publication, use in a trade or text book, use of material from a specific edition or any other edition, etc.) should be in writing.

For all practical purposes, "copyright" and "all rights reserved" are one and the same.

12060.7 Infringement

Magazine articles, short stories, poems, films, videotapes, audiotapes, television programs, motion pictures, computer software, video games and contributions to periodicals, newspapers, are usually copyrighted as part of the magazine, book, periodical, newspaper, video recording, motion picture, television program, computer software, video game, audio recording, if never before published.

Illustrations, cuts, or pictures in a book are protected by the book copyright.

Pictures that are not attached to the binding, but are in a separate pocket or folder, are protected by the book copyright.

News, as such, is not subject to copyright since it is "fact" and therefore belongs to the public but reproduction of articles and television news segments for distribution may infringe on copyrights. Consult with the Assistant Director, Communications, or Deputy Director, LAD, for guidance in advance of such reproduction.

Material that has previously been copyrighted does not lose its copyright by being included in a government publication that is in the public domain.

The copy does not have to be "sold" to be an infringement of the original.

12060.8 Use of Material

A distinction must be made between use for libraries and classrooms and by other entities. Copies may be made by libraries and classrooms in the following situations:

Libraries and Classrooms

- To repair damaged printed works already contained in the library.
- No copies of video or audio recordings, films, motion pictures, computer software are permitted without the expressed written permission of the copyright holder or possession of a license from the copyright holder for such reproduction.
- To provide a small number of copies for in-house administrative work in the particular agency.
- To provide attorneys and courts with a single copy for use in litigation.
- To provide copies for library or classroom as long as the portion copied is not a substitute for the entire original work.

Other Entities and Individuals

For entities other than libraries and classrooms:

- No quotation over 500 words should be used without permission.
- Use of anthologies, compilations, collections, symposia, digests, reprints, etc., should never occur without a notice which acknowledges the copyright status of borrowed material and without the written permission of the copyright owner.
- Use of copyrighted material from periodicals or newspapers should be done only with written permission of the copyright owner.

Quotations or material under foreign copyright should be handled the same as domestic copyrighted items.

Any extensive, typewritten, multi-graphed, or privately printed copy, abridgment, outline, or digest of copyright material for distribution to a school, church, club, or similar group should be made only with the consent of the copyright owner.

Department Publications

When copyrighted material is used in a Department publication, each facility, parole region, and division shall forward the printing request, and the original copy of the material to be printed and of the permission to copy to the Assistant Director, Communications, in headquarters.

The Assistant Director, Communications, shall have the original of the permission to copy filed in LAD-PMU.

12060.9 Audiovisual Works

The Department will adhere to all copyright requirements related to audiovisual works.

12060.10 Employee Association Publications

The provisions of this section shall not stop any association of employees from publishing an association newspaper or other publication. The provisions of DOM 12060.6 apply to Department employees when they contribute articles for association publications. Such publications shall be at the expense of the associations and shall not be prepared or reproduced, in whole or in part, at any facility vocational graphic arts print shop.

12060.11 Facility Publications

For further information, readers are referred to DOM 53100, which covers facility publications.

12060.12 Revisions

The Assistant Director, Communications, or designee, shall ensure that the content of this section is accurate and current.

ARTICLE 12 — TELEPHONE, FACSIMILES, AND CELLULAR TYPE

TELEPHONES

Revised April 22, 2005

12070.1 Policy

State issued telephones, facsimile (Fax) machines, and cellular type telephones shall be used for Official State Business only except for emergency situations where no other alternatives are available.

12070.2 Purpose

The purpose of this Policy is to establish requirements regarding California Department of Corrections and Rehabilitation (CDCR) employee use of State issued telecommunication equipment and outline boundaries and security measures where this equipment is subject to inmate proximity. This Article refers to cellular telephones to include, but is not limited to, cellular, portable, mobile, etc., as cellular type telephones.

12070.3 Telephone

Use of any State issued telephones as defined above shall be limited to conducting CDCR business with exceptions for employee's personal calls provided; however, that such use of State telephones shall not incur additional charges to, or interfere with, the operation of the State and requires advance approval by an employee's supervisor.

12070.4 Responsibility

Headquarters', Division of Support Services (DSS), Business Management Branch (BMB) is designated as the coordination point for telephone listings. BMB shall ensure that telephone directories are current.

Communications Representatives

Communications representatives at the facilities shall review and sign the Standard (STD) Form 20, Telecommunications Service Request, prior to submission to the Department of General Services (DGS) or service provider. For all other operations, BMB shall serve as the communications representative.

Supervisors

Supervisors shall inform employees of expectations and requirements regarding the use of all State issued telephones and shall monitor the use of them. This includes, but is not limited to:

- Ensuring appropriate use of all State issued telephones.
- Determining when permission may be granted for an employee to make a personal call on any State issued telephone.
- Reviewing toll calls made by employees under their supervision (checking for abuses), as requested by Accounting Office personnel, and if deemed appropriate, initiating necessary corrective action, including a recommendation for disciplinary action.
- Arranging for the collection of charges for personal calls made by employees.

12070.5 Switchboard Placements and Coverage

Facility switchboards shall be placed in the control room or other location affording protection from the inmate population. Employees assigned to a particular shift, other than regular business hours and trained in the operation of the switchboard, shall provide coverage of the switchboard. A separate telephone operator shall be provided during regular business hours.

12070.6 Inmate Access to all State Issued Telephones

Safeguards shall be implemented to ensure that inmates do not have access to any State issued telephones with the capability of placing/receiving outside calls. These safeguards may include, but are not limited to:

- Locking rooms that contain telephones.
- Using locking devices on telephones.
- Unplugging telephones and removing them from inmate accessed locations.
- Disconnecting telephone extensions from switchboards.

State maintained facility telephone lines that have outside capabilities and which are accessible to inmates (to include residences on facility grounds) shall pass through facility switchboards.

- Switchboard operators shall ensure that a State employee is answering at a given location by requesting name identification.
- Inmates shall be required to answer a phone by saying, "inmate (name)."

12070.7 Emergency Lines (Facility)

Wardens residing on facility grounds shall be provided with private direct dial telephone systems for emergency use.

12070.8 Emergency Lines (Camp)

Based on the necessity for immediate availability of correctional employees in charge of camps, telephone service shall be provided to those camp lieutenants residing in State housing on the grounds. The cost of this telephone service shall be paid by the parent facility.

The employees shall pay any expenses of personal telephone calls made from their residences to the parent facility.

12070.9 Private Telephone Lines

Employees who live on facility/camp grounds shall make their own arrangements for personal telephone service directly with the telephone company. This service shall not pass through facility/camp switchboards.

At several facilities there are residence phones that are tied to an inside-the-prison (nonpublic) telephone system. Existing systems shall continue to be used, but those systems shall not be expanded to include additional residences.

12070.10 Modification

Facilities primarily own and operate their own telephone systems; however, some facilities may contract for certain telephone related services through local telephone companies. Any major modifications affecting the services rendered by telephone companies shall be submitted to the Telecommunications Division, DGS, through the facility business manager. Modifications to CDCR owned systems are not subject to the above.

12070.11 Telephone Credit Cards

Telephone credit cards shall be issued to supervisors and managers and used in lieu of third party or collect telephone calls when possible.

Telephone credit cards shall not be issued to staff except on a "need" basis with approval of the employee's Branch Chief (headquarters employees) or facility business manager (for facility employees). Facilities shall obtain credit cards from their local telephone companies.

Parole field agents, based upon the nature of their duties, shall be issued credit cards upon the approval of their unit supervisor.

12070.12 Telephone Listings

The headquarters' telephone directory shall be updated on a regular basis by the BMB.

Off site headquarters' buildings, facilities, and parole offices shall maintain separate telephone/employee information rosters. All changes, additions, or deletions shall be updated and retained locally.

All revisions to State directories shall be directed to the BMB via respective division heads (or designees) for approval and transmittal to the Telecommunications Division, DGS, or the telephone company concerned.

The Telecommunications Division, DGS, submits periodic revisions to the CDCR telephone listing coordinator for current updates of State telephone directories. Changes shall be forwarded to the facility or division's communications representative for review and returned to the BMB with appropriate changes.

12070.13 Personal Use of Telephone

When economically feasible for the local telephone company, pay telephones shall be made available for use by State employees and other persons who may need to make a personal call from CDCR facilities.

Personal long distance calls

Personal long distance calls shall not be made from State issued telephones (with or without telephone credit card issued by CDCR) unless:

- An employee's supervisor has authorized the call.
- Arrangements have been made for the call to be either:
 - Billed to the caller's home telephone.
 - Placed collect.

Personal local calls

Personal local calls shall be made:

- During breaks or lunch periods.
- Never on State issued cellular, portable, and/or mobile telephones, except in emergencies outlined below.

Emergency phone calls

Emergency phone calls shall be made when no other alternatives are available. If the emergency is of a personal nature, the employee shall reimburse the State. If the emergency is not personal and the employee uses their own telephone, the employees can be reimbursed using a travel claim.

12070.14 Privacy of Authorized Calls

Authorized personal phone calls by an employee shall not be monitored or recorded.

The wiretapping or monitoring of authorized/unauthorized personal calls, confidential or not, by CDCR employees over CDCR or State telephone systems is prohibited except as authorized by an order of a court having jurisdiction over the institution, facility, or office, and obtained under Penal Code (PC) Section 629.50 et seq., or as authorized under PC 633. These exceptions apply only to the investigation of cases involving criminal conduct by employees and/or inmates. In all cases where CDCR investigators request court orders under PC 629.50 et seq., or through local law enforcement involvement under PC 633, the Deputy Director, Law Enforcement and Investigations Unit will first be notified.

Wiretapping or monitoring of employee telephone calls in cases involving administrative violations is prohibited.

12070.15 Telephone Etiquette

When answering the telephone, certain rules of etiquette shall prevail as follows:

- Arrangements shall be made for staff to answer the telephone at all times during working hour (Monday – Friday, 8:00 a.m. – 5:00 p.m.). In noncustody environments, use of voice message systems may be used sparingly in absence of staff and ensuring all messages are responded to in a timely manner.
- Staff answering the telephone shall clearly identify themselves and the office in which they are working. Staff shall be courteous and tactful.
- If staff cannot assist the caller, they shall refer the caller to a knowledgeable source.
- Supervisors and/or staff shall keep employees who answer their telephones informed as to their whereabouts and/or approximate time of return.
- If the supervisors and/or staff requested are unavailable, the caller shall be asked if they wish to leave a message or be transferred to the employee's voice mail (if appropriate).
- Telephone messages shall be accurately recorded on STD Form 7, Message Transmittal.
- If supervisors or their staff want to know who is calling prior to accepting a call, the employee answering the phone shall ask who is calling in a polite manner.
- If it is necessary to place a caller on hold, let the caller know that this is being done. The caller should not be kept on hold for an extensive length of time. Check with the caller periodically to assure the caller that they have not been forgotten.

Office and facility directions should contain instructions for placing long distance calls, conference calls, and other services depending upon the system used.

12070.16 Transfer of Calls

If a party is calling from an outside number, the call may be transferred. Before transferring a call, the calling party should be informed of the number to which the call is being transferred in the event of disconnection.

12070.17 Facsimile

Numerous fax machines are located throughout the CDCR for transmitting urgent information between field locations and headquarters. These include, but are not limited to:

- Transmissions of all serious Incident Reports.
- Sending and responding to requests for emergency/urgent information needed by headquarters and/or facilities.
- Economic transmission of information.

General Information

Because of the nature of operations, the use of Signature stamps by officials and employees in the performance of official duties is prohibited in all facilities of CDCR when transmitting via fax. In order to reduce multiple signing requirements on the part of key personnel, assistants may be extended the authority to sign in their behalf.

Regional parole offices shall transmit emergency incident reports and other urgent information to the fax machine located in the Division of Adult Parole Operations, headquarters.

Incident reports received by the Division of Adult Institutions, Identification and Warrants Unit, shall be delivered to the appropriate employees.

The fax machines shall not be used as a substitute for the mail system unless economically feasible. Monthly reports, operational procedures, and general informational items shall not be transmitted unless specifically requested by a Deputy Director or Associate Director.

- Facilities: Fax machines shall be housed in a secure area, accessible only to staff.
- Regional parole offices and field offices: Fax machines in these locations shall be housed in a secure area, accessible only to staff.

As with telephones and other equipment, fax machines are to be used for official CDCR business only.

12070.18 State Issued Cellular (Portable, Mobile, etc.) Type Telephones

The following outlines classifications/titles and functions that have been designated for assignment of cellular telephones at management discretion:

- Secretary
- Undersecretary
- Executive Director
- Assistant Secretaries
- Chief Deputy Secretaries
- Directors
- Chief Deputy Director
- Regional Administrators
- Parole Regional Administrators
- Ombudsmen
- Chief Medical Officers
- All Case Carrying Parole Agents
- Special Agents
- Wardens
- Chief Deputy Wardens
- Associate Wardens
- Correctional Administrators
- Health Care Managers
- Crisis Response Team Commander
- Tactical Leader
- Negotiation Leader
- Units with staff involved in the transport of inmates and those units that are required to work at locations where there are no communication devices available.
- Staff who are required to travel outside of their office and/or outside of normal business hours. The cellular telephones will be assigned to each unit rather than an individual. The units will assign cellular telephones to individuals on an as need basis.

All requests for purchases of new cellular telephones outside of this policy require the written approval of the appropriate, Director, Deputy Director, Associate Director, or Warden or Chief Deputy Warden.

There will be no personal cellular type telephones, Personal Digital Assistants (PDA), or other equipment with these capabilities allowed within

any institution setting with the exception of a true medical condition approved by the Warden accompanied with a doctor's statement with a beginning and ending date.

If staff chooses to bring the above listed devices into an institution setting without prior approval, they may be subject to disciplinary action. Leave personal cellular type telephones, PDAs, or other equipment with these capabilities at home or in personal vehicles.

Purchasing/Replacing a State Issued Cellular (Portable, Mobile, etc.) Telephone

The Department of General Services has entered into a California Multiple Award Schedules (CMAS) and Western States Contracting Alliance (WSCA) with multiple providers for cellular type telephone equipment and service. For a current list of cellular type telephone equipment and service providers, contact the BMB. Institution staff will need to refer to the CMAS/WSCA for a current list of cellular providers and general terms and conditions.

If a field office/institution is outside of the service areas that the CMAS/WSCA covers, it is permissible to enter into a contract with a local vendor. Contact the Office of Contract Services for information and instructions.

To purchase or replace a cellular type telephone(s), submit a signed BMB Services Request (SR) with a completed Intra-Office Requisition, CDC Form 954, to BMB, signed by a Staff Services Manager III or above, or designee. Institution staff will need to submit the completed CDC 954 to their respective Business Services Office. All information will need to be included on the CDC 954. A rate plan guide will be provided by BMB upon request to the divisions/offices/regions telecommunications contact. Each Institution Business Services Office can request a rate plan guide directly from contracted service providers.

If a cellular type telephone is inoperable or obsolete and is no longer used, staff must notify BMB using a SR to have the service discontinued so that there are no further charges. Institution staff will need to contact their Business Services Office for direction. Cellular telephones must be surveyed out by completing a Request for Disposition of Equipment or Furniture (STD 152) form. Send the completed request along with the inoperable/obsolete cellular telephone(s) to BMB. Institution staff will need to submit their completed request to the Business Services Office.

Lost, Stolen, or Destroyed Property Equipment

If a cellular type telephone is lost, stolen, or damaged, the employee must notify BMB or the Business Services Office at the Institution to have the service discontinued so that there will be no further charges. Lost, stolen, or damaged cellular type telephones must be surveyed by completing a STD 152 form.

The State Administrative Manual (SAM) Section 8643 states: "Whenever property is lost, stolen, or destroyed, departments will prepare a STD 152 form. The department will adjust its property accounting records and retain the Property Survey Report as documentation." The report will contain: "(1) A description of the events; (2) Precautions to be taken to prevent repeat situations; and (3) A statement that the California Highway Patrol (CHP) has been notified. Losses of State Property due to fraud or embezzlement will be reported to Department of Finance, Office of State Audits and Evaluations and the Bureau of State Audits. See SAM Section 20060. Employees may be charged for any loss and damages to State Property due to negligence or unauthorized use."

It is at the discretion of the Hiring Authority for each Division/Parole Region to determine if an employee will be required to reimburse the State (CDCR) for the cost of replacement equipment.

Purchasing of Accessories

It is prohibited to purchase any accessories outside of the normal purchasing process. (DOM 22030.3 "No employee shall commit to a vendor for the purchase of merchandise or services prior to receiving approval and the preparation of a purchase document.") Purchases are not to be made through a local vendor and charged against cellular telephone accounts. Any purchases obtained by this means are subject to being charged back to the employee.

Issuance and Tracking of Cellular Type Telephones

When a cellular type telephone is purchased and received, BMB or the Institution Business Services Office will place a property tag on the cellular telephone to track as sensitive equipment. The cellular type telephone will be activated and assigned to the appropriate division/office/region/institution. BMB or the Business Services Office at the Institution will track the assignment of cellular type telephones by maintaining a tracking log.

Cellular type telephone service charges are billed monthly directly to the respective division/office/region/institution.

Changing Rate Plans

To change a rate plan, contact BMB by telephone or e-mail. A division/office/region can request the most recent rate plans offered by their service provider. After reviewing the plans and making a selection, the division's/office's/region's liaison must contact the BMB analyst with the new calling plan name(s) and all cellular numbers to be placed under the new plan. Institution staff will need to contact their Business Services Office for directions. Changes to calling plans will only be made once every three months.

Changing Service Provider

Changing service providers involves changing existing equipment, which can be costly and inconvenient. Service providers (i.e., AT&T Wireless or Nextel) will not activate cellular telephones not purchased directly from them. To change providers, submit SR to BMB accompanied by a CDC Form 954 purchasing new cellular telephone(s), accessories, and service provider. Institution staff will need to submit the completed forms to their respective Business Services Office.

12070.19 Revisions

The Director, DSS, or designee shall be responsible for ensuring that the contents of this Article are kept current and accurate.

PC §§ 629.50 et seq., and 633

State Administrative Manual, Chapter 4500

State Administrative Manual §§ 8643 and 20060

ARTICLE 13 — PUBLIC/MEDIA INFORMATION

Revised June 2, 2009

13010.1 Policy

Correctional institutions and programs are operated at public expense for the protection of society. The public has a right and a duty to know how such facilities are operated and programs are being conducted. It is the policy of the California Department of Corrections and Rehabilitation (CDCR) to make known to the public, through the media, through contact with public groups and individuals, and by making its public records available for review by interested persons, all relevant information pertaining to operations of the CDCR institutions. However, due consideration will be given to all factors which might threaten the safety of the institution in any way, glamorize crime or individual criminals, or unnecessarily intrude upon the personal privacy of inmates and staff. Wardens/institution heads, Regional Parole Administrators (RPAs), and their designees shall provide for a professional bridge of communication linking the public in a positive manner to the CDCR.

13010.2 Purpose

This Article defines staff responsibilities for relaying information to the public. It specifies who shall make contact with the media, how and when the media may enter facility grounds, and for what purposes.

13010.3 Requirements

The CDCR's Public Information Program attempts to make known to the public all relevant information pertaining to operations of the CDCR. This occurs through the media, through contact with public groups and individuals, and by making its public records available for review by interested persons. The CDCR's public information efforts require an attitude of cooperation and responsiveness in dealing with the media.

The CDCR also has the responsibility to protect the privacy, safety, and other rights of inmates and members of the staff. Furthermore, the CDCR is committed to protecting crime victims from the unnecessary disclosure of information that may traumatize victims, family, and friends or glamorize criminals and their actions. Accordingly, media access to an institution shall be regulated to ensure the orderly and safe operation of that facility.

Further guidance can be obtained from CCR, Title 15, Division 3, Sections 3141, 3170 through 3179, 3260 through 3262, and 3450.

13010.4 Designation of Public Information Officers (PIO)

Each institution and parole region shall designate an appropriate staff member as a Public Information Officer (PIO). The PIO shall coordinate public information and community relations programs. The Press Secretary, Office of Public and Employee Communications (Communications), or designee shall participate in all institution and parole region PIO interviews. Final selection is the responsibility of the Warden/institutional head or RPA

with the concurrence of the Assistant Secretary, Communications. Prospective vacancies require written notification to the Assistant Secretary, Communications, via the Director, Division of Adult Institutions (DAI) or the Director, Division of Adult Parole Operations (DAPO), or the Chief Deputy Secretary, Division of Juvenile Justice, as soon as the prospective vacancy is anticipated.

Each institution and parole region shall have a designated staff member on duty or available by telephone to the media at all times. Basic responsibilities include responding to media inquiries with factual details after consulting with the Administrative Officer of the Day (AOD) or the regular PIO.

Institution PIOs shall be the Warden's/institution head's Administrative Assistant, Correctional Lieutenant, or equivalent non-custody classification. Parole region PIOs shall be the RPA or Deputy RPA. PIOs in juvenile justice facilities shall be nominated by the Chief Deputy Secretary, Division of Juvenile Justice.

13010.5 Media Representatives

- Media representatives, as defined in CCR 3261.5(a)(1) and (2), includes news media representatives and non-news media representatives.
- News media representative means a journalist who works for, or is under contract to, a newspaper, magazine, wire service, book publisher, or radio or television program or station, or who through press passes issued by a governmental or police agency, or through similar convincing means, can demonstrate that he or she is a bona fide journalist engaged in the gathering of information for distribution to the public.
- Non-news media representative means an individual in the publishing and broadcasting media who is not a news media representative. A non-news media representative may include editorial researchers, freelance writers, authors of books, and independent film makers involved with the production of broadcast or print endeavors including, but not limited to, features, documentaries, commercials, and pilots for proposed news or entertainment programs.

A current list of the names, telephone numbers, fax numbers, and e-mail addresses of media representatives who usually cover the institution or parole region office shall be readily available to those officials authorized to issue news releases and statements. Media representatives shall be advised to contact the PIO when they are seeking information.

13010.6 Media Information Practices

The following provisions shall be considered as guidelines:

- News and all the factors associated with it are highly variable.
- No set of rules will cover all situations.
- Clarify what the reporter is seeking.
- Prepare your response.
- Know your policies and regulations.
- Never speculate or guess.
- Communicate clear and accurate information.
- Do not disclose confidential information about any individual.
- There is no substitute for good judgment.
- Confer with the Communications office for guidance and coordination.

Institution PIOs shall immediately notify the Secretary via the Assistant Secretary, Communications, and their respective chain of command within their division (e.g. Associate Director, Director), of any occurrence or situation of unusual, critical, significant, potential, and/or prolonged media interest. Examples include:

- Incidents involving fatalities, incidents involving a high profile inmate or parolee, crisis or high profile situations, mass disturbances, labor actions, issues or incidents that place the CDCR in an unfavorable or unpopular light, inmate homicides, employee arrests, issues or incidents that place the CDCR in a position of defending against incorrect perceptions or allegations of the media, any significant, potential, and/or prolonged inquiry by major, national or international media, a media investigation, anything else of concern to the CDCR and/or the administration including ballot measures, audit reports, lawsuits, regulation submission to the Office of Administrative Law, scheduled executions, major motion picture requests, and others.
- Incidents likely to attract routine media interest do not require notification. Examples include non-fatal incidents, unless a high profile inmate or parolee is involved, and regularly scheduled events or classes.

Written news/press releases and media advisories, except for escape bulletins, shall be approved before distribution by the Assistant Secretary, Communications, or designee.

- A written news/press release is a formal, typed document, usually in the form of a newspaper article, that is sent to the media and other interested parties and that contains newsworthy information. It is intended for mail, fax, online communication, or hand-carried delivery.
- A media advisory is a written document which alerts the media to a specific event. It is often sent out to alert the media of a news conference or some other event where their presence is desired or expected.
- A news conference is an event where PIO's or other speakers are present to tell the media about a newsworthy subject.

13010.7 General Inquiries

Requests for information shall be given prompt attention. Inquiries addressed to a specific facility requesting information about the history or operation of a facility shall be answered by the facility. However, if clarification regarding the communication or a matter of policy is involved, seek the assistance of the Assistant Secretary, Communications, or their designee in the Office of Public and Employee Communications.

Unusual or repeated inquiries or letters shall be reported to the Assistant Secretary, Communications. Requests for information about CDCR issues, requests involving other segments of the CDCR, or requests from other State agencies shall be referred for reply to the Assistant Secretary, Communications, or their designee in the Office of Public and Employee Communications. Requests for public records shall be processed in accord with DOM, Chapter 1, Article 16.

13010.8 Media Access to Institutions and Facilities

Access to an institution, facility, or contract facility for a news media representative shall require approval of either the institution head or the Assistant Secretary of Communications or designee. Access to an institution or facility for a non-news media representative shall require prior approval of both the institution head and the Assistant Secretary of Communications or their designees. For each request for access from a news media representative or non-news media representative, the institution head or the Office of Public and Employee Communications shall provide an initial response within two (2) working days.

Non-news media representatives must provide proof of employment by a bona fide publication or production company, or have evidence that such a company has contracted to purchase the completed project prior to approval. Non-news media representative requests for access to departmental facilities, on-duty staff, or inmates shall include project and production details as necessary to determine security and operational impacts. Non-news media representative film productions require a California Film Commission permit, along with evidence of financial responsibility and liability insurance or at least \$1 million indemnifying and defending the State of California, its offices, employees, and agents against any lawsuits.

Within an institution, all media representatives shall be under direct supervision of the PIO or their designee. Media representatives shall not enter security housing units, condemned units, execution chamber, Administrative Segregation Units, Psychiatric Services Units, or any area currently affected by an emergency situation without approval of the Secretary, or designee. Access to any secured area where lethal weapons are maintained requires prior approval of the institution head. The institution head may allow access to an area outside the secure perimeter of a facility to news media representatives. News media representatives shall be given general access to all areas of community based correctional centers and facilities under contract to DAPO only with prior approval of the RPA, and when accompanied by the regional PIO or designee.

No media representative or organization shall be barred for cause from a correctional institution without the advance approval of the Secretary or designee. Documentation relative to such a proposed action should be mailed, faxed, or delivered to the Chief Deputy Secretary, Adult Programs, and the Assistant Secretary, Communications.

Institutions, on-duty staff, inmates, or records under control of the CDCR, shall not be used in conjunction with filmmaking, radio, or television programs, or the writing of books, magazine articles, or syndicated stories, without prior approval of the Secretary.

All requests for transmission by microwave or satellite from a correctional facility shall be directed to the Assistant Secretary, Communications, for approval or disapproval.

Controlled access for media representatives may be permitted to seriously or terminally ill patients and their housing areas, subject to DOM Section

13010.15.3. There may also be limited and/or restricted access to other areas including towers, control booths, protective housing units, reception centers, and other areas that affect the security of the institution. The intent of this section is to encourage all reasonable cooperation with and access for media reporters and their technical crews within available resources consistent with the safe and secure operations of its institutions.

Institution heads and RPAs may impose limitations on or set conditions for media access when, in their judgment, such access would constitute an immediate threat to safety and security, or generate serious operational problems. In the event of a disturbance that may, in the opinion of the institution head or his/her designee, threaten the safety and security of the institution or any person, media representatives shall be escorted to safety. The Assistant Secretary, Communications, shall be notified as soon as possible of such occurrences. The Assistant Secretary, Communications, is available to mediate disputes with the media.

13010.9 Public/Media Notice of Escapes

In the event of an actual or suspected escape, the institution, regional PIO, RPA, or off-hours designee shall notify by the fastest means possible (i.e., fax, telephone), radio stations, television stations, and newspapers in surrounding communities as well as the escapee's home community of pertinent information about the escapee and shall make the information available for public posting on the CDCR Internet website. Such information shall include, but not be limited to, the missing escapee's:

- Name, CDC number, and date of birth.
- Physical description, including race, sex, height, weight, hair and eye color, and any scars or tattoos.
- Estimated time of disappearance and other pertinent details.
- Last known address.
- Commitment offense and current warrants or holds.
- Possibility of being armed or being a danger to the community.
- Most recent photograph (unless releasing the photograph poses a specific threat of imminent danger to the escapee), or short escape bulletin of the escapee to the notified television stations and newspapers.

If a photograph or short escape bulletin is not available for distribution, post the photograph at the institution or parole office's front entrance and notify the media that they may drop by and take pictures of the photograph for their use.

Inform the news media on the institution's and/or parole office's search efforts and cooperation with local law enforcement agencies to apprehend the escapee.

13010.10 Media Inquiries

Media inquiries shall be given high priority. Facts shall be gathered as quickly as possible and provided to the inquirer. If the requested facts are not known or are otherwise unavailable, the inquirer shall be so informed.

An official authorized to respond to media inquiries shall be available at all times. Officials shall be thoroughly familiar with CDCR, institution, or parole region policies and procedures.

Officials shall not speculate or guess when answering inquiries or in issuing releases. The facts shall be obtained as quickly as possible and communicated to the inquirer. If the information cannot be quickly secured, a progress report shall be given to the inquirer.

A person making an inquiry shall not be referred to another source by the PIO without clearing the referral with the appropriate authority and then discussing the matter with the staff contact person. The information shall be collected by the PIO receiving the inquiry, and then relayed to the inquirer. If the requested facts are not known or are otherwise unavailable, the inquirer shall be so informed.

When a media inquiry is received, the fact that the inquiry was made shall not be volunteered to another media representative. No information developed to answer a media person's inquiry shall be provided to another media person unless in response to a separate inquiry from them on the same subject.

Staff shall not comment on any active or pending lawsuit or other legal action. Responses to specific allegations of a lawsuit or legal action shall be directed to the appropriate Deputy Attorney General or the Assistant Secretary, Communications.

13010.11 Authorized Release of Information

The only data that may be released to the media or to the public about an inmate or parolee without a valid written authorization from the inmate/parolee includes the following:

- Name.
- Age.
- Birthplace.
- Place of previous residence.
- Commitment information from the adult probation report (as excerpted in the Cumulative Case Summary).
- Facility assignments and behavior.
- General state of health given in short and non-medical terms such as good, fair, serious, critical, or treated and released.
- Cause of death.
- Actions regarding sentence and release.

Generally, it is appropriate to provide all data which is a matter of public record. However, the Criminal Identification and Investigations Report (rap sheet) shall not be used as a source. Under law, information on the rap sheet is not a public record and shall not be used to furnish information concerning an inmate's or parolee's arrest history to any person other than a sworn member of a government law enforcement agency.

Except as provided by applicable federal and state law, no person shall disclose any protected health information that identifies an individual without a valid written authorization from the individual.

No person shall disclose specific inmate information involving medical history, educational test scores, psychological test results, classification scores, or information provided on employment or educational applications. Information on a CDC Form 115, Rules Violation Report, that has not been affirmed by administrative review should be general in scope and referenced as allegations, such as "inmate xxxx has been charged with...."

Information pertaining to a Division of Juvenile Justice ward shall be released to the news media or the public according to Sections 676, 1764, and 1764.1 of the Welfare and Institutions Code.

13010.12 Authority to Contact Media

The authority granted to institutions and parole region offices to release information regarding an institution incident or newsworthy event does not apply to individual employees unless specifically authorized by the Warden, institution head, or RPA.

Employees of CDCR shall not generate or initiate news media contact regarding incidents or newsworthy events without prior approval to do so. Employees who believe that a particular event is newsworthy shall first seek the guidance and permission of the PIO, who shall seek appropriate authorization and make prior notification to the Assistant Secretary, Communications, or their designee in the Office of Public and Employee Communications.

13010.13 Spot News

Through PIOs and with authorization from the Assistant Secretary, Communications, institutions and parole offices are encouraged to release spot news such as information about escapes and major incidents. The PIOs are authorized to release related photographs if available, subject to DOM, Sections 13010.16 – 13010.17.3.

The institution or parole office shall initiate release of spot news. It shall be done as soon as practical before or soon after the event. The release shall be made simultaneously to all reporters or media who cover the institution or parole office if possible. Each shall be provided the same information. Releases need not be provided to the news media in written form. When contacting the media by telephone, it is advisable to develop a well supported oral or written statement. This ensures consistency and accuracy in releasing spot news.

Information about an escape is routinely released. However, every effort shall be made to release constructive news concerning the institution or parole office. Information concerning programs and activities including blood donations, rescues, graduations, art shows, charitable activities, fundraisers for non-profit organizations, and concerts are possible subjects.

13010.14 Informing the Secretary

The Assistant Secretary, Communications, shall inform the Secretary of events likely to attract significant and/or prolonged news media attention. This includes statements, advisories, and releases given to news media, as well as instances in which reporters enter facilities or institutions to cover activities or randomly interview inmates.

13010.15 Routine Media Interviews

Media representatives may be permitted random face-to-face interviews with inmates housed in facilities under the jurisdiction of CDCR. Such interviews shall be conducted as stipulated by the institution head, including restricting

the time, place, and duration of interviews, and size of technical crews. No inmate shall be interviewed against his/her will.

Interview Conditions

Inmates may not participate in specific-person face-to-face interviews. Random interviews of individuals involved in a specific activity or program, or encountered while covering an institution activity or event shall be limited to the time, areas, and segments of the facility population designated by the institution head.

Cameras/Recording Equipment

The institution head or designee shall approve the use of cameras or recording equipment in advance. A location agreement and a film permit from the California Film Commission may be required for filming and photographing on state property.

Security Arrangements

Media representatives are to be accommodated, whenever possible, at the institution within regular work hours using on-duty personnel. In certain situations, CDCR may incur additional staffing costs. Media representatives or their organizations may be required to pay the reasonable security or escort costs directly associated with media's use of the location including benefits and overtime pay. Media will be notified of the approximate staff requirements and costs.

The Assistant Secretary, Communications, shall be consulted whenever a fee for the added supervision or security arrangement is contemplated.

13010.15.1 Inmate Declaration to News Media Contact (CDCR Form 146)

The CDCR Form 146, Inmate Declaration to News Media Contact, shall be completed when an inmate is the subject of an interview, still photograph, motion picture, or other recording intended for use by a television, radio station, newspaper, magazine, or other publication.

- Inmates under 18 years of age shall not be photographed, filmed, or videotaped.
- One employee shall witness the inmate's signature on the completed CDCR Form 146.
- In order to provide a permanent record of the incident, the signed copies of the CDCR Form 146 shall be distributed as follows:
 - Original - institution file.
 - Copy - inmate's central file.

13010.15.2 Writing, Telephoning, and Visiting an Inmate

Media representatives may contact any State prison inmate by mail. It is not necessary for media to notify the CDCR before communicating with an inmate. Incoming letters are opened, inspected for contraband, subject to be read, and then forwarded to the inmate. To ensure prompt processing, media representatives should address letters using the inmate's full name, CDC number, cell or location numbers if known, and the address of the institution where the inmate is housed.

Most inmates have access to telephones and can make outgoing collect calls on designated telephones according to their privilege group. Limitations are placed on the frequency of such calls to allow equal access to telephones by as many inmates as possible and as determined by the inmate's privilege group. When corresponding with an inmate, media representatives may provide a telephone number where an inmate can call them collect. It is up to the inmate to initiate the call. No restriction is placed on the identity or relationship to the inmate of the person called, provided that the person agrees to accept all charges for the call. Telephone calls are limited to 15 minutes and may be recorded. Media representatives may also record the call with the inmate's permission.

Staff will not take messages and faxes from the media to inmates.

If a media representative wishes to visit an inmate, it shall be in accordance with the visiting requirements in CCR Sections 3170-3176.3 and DOM section 54020. A completed questionnaire must be submitted and approved by the institution before the visit. Any member of the media, once approved, may visit; however, they may not bring in cameras or recording devices in a manner inconsistent with the DOM or State law. No inmate or parolee may have his or her visitation limited or revoked solely because of a visit or potential visit from a media representative, nor may an inmate or parolee be punished, reclassified, disciplined, transferred to another prison against his or her wishes, or otherwise retaliated against, solely for participating in a visit by, or communicating with, a media representative. During an interview, media representatives shall be allowed to bring up to three (3) pens, three (3) pencils, and one (1) pad of paper into the facility. These items shall be searched to protect against an immediate and direct threat to the security of the institution.

13010.15.3 Interviews with Seriously or Terminally Ill Inmates

- News media shall be allowed controlled access under institution escort to patients and their housing areas in order to safeguard the public's right to know.
- Random interviews in units housing patients shall be closely monitored and shall be terminated if a majority of the unit's inmates object.
- No more than two visits per calendar month to a unit housing seriously or terminally ill inmates shall be allowed so as not to disrupt the operation of the unit. These visits shall be on a first-come, first-served basis with a waiting list to be maintained by the institution's PIO. A pool of no more than 10 media persons per visit shall be permitted.
- Media interviews shall not be permitted with an inmate suffering from a mental illness when, in the opinion of a psychiatrist or psychologist, the inmate is not capable of giving informed consent or their condition may be worsened by such an interview.
- Assistant Secretary, Communications; Chief Deputy Secretary, Operations; and institution medical staff shall be notified in advance of all significant planned news media events with medically-confined inmates.

13010.16 Interviews with Employees

Accurate information within statutory guidelines shall be provided in response to media inquiries regarding employees. Incidents within facilities and institutions are often newsworthy events that involve staff as well as inmates. Other incidents include employees' acts of heroism, volunteerism, or community involvement that merit media attention.

The only employee data that may be released to the media or to the public by other than the employee concerning the employee's involvement in an institution incident or newsworthy event includes:

- Full name.
- Civil service classification.
- Age.
- Work assignment.
- Length of service with the Department and/or current division or unit.
- Past work assignments.
- Role or function in a newsworthy event.

Employee information shall not be released if the information would endanger the employee or if the employee is the victim of a crime.

Further information and directions for releasing information on employees is found in DOM, Chapter 1, Article 15, Information Practices.

13010.16.1 On-Duty Interviews

Media representatives may be permitted random or specific person interviews with on-duty staff who consent to the interviews, provided such interviews do not interfere with the security of the institution. Such interviews shall be conducted as stipulated by the institution head, including restricting the time, place, and duration of interviews, and size of the technical crews.

Use of cameras or recording equipment shall require prior approval of the institution head, or designee. (A location agreement and a film permit from the California Film Commission may be required for filming and photographing on State property.)

Photographing, filming, or video recording of CDCR staff within an institution, parole office, or other non-public area is permissible only with prior consent of each employee.

13010.17 Photographs, Films, and Videotapes

The Department has no control over photographs, films, or video recordings taken of CDCR facilities, employees, inmates, parolees, or CDCR equipment when the person taking the photograph is not on institution property. This includes, but is not limited to, inmate community work crews, inmate fire crews, inmate presentations in schools and other public locations, inmates being transported on public streets, highways, etc.

Persons are prohibited from interrupting, interfering, or communicating with an inmate being transported or working off institution grounds without prior authorization of the staff person in charge or institution head.

Photographs, films, videotapes, digital videotapes and photographs, floppy disks, compact disks, memory cards, memory sticks, or any other recorded media other than for official purposes, which reveal an inmate's identity, may be taken within an institution, camp, community correctional facility, or parole office subject to the following conditions:

- An inmate shall be required to sign a CDCR Form 146 before any photographing, filming, videotaping, or video recording that clearly identifies the individual.
- An inmate's consent is not required where individuals in such settings as an exercise yard or dining hall are not singled out or where the identity of the inmate is not revealed; however, before any photographs are taken or filming is done, inmates shall be advised so those who do not want to be recognized may turn away or leave the area.
- Photographs taken or filming of inmates may be in any appropriate location such as on their job or other assignment, with their artwork, playing an instrument, etc., depending on the news or feature story under development.

13010.17.1 Identification Photographs

- Unless there is a specific threat of imminent danger to an inmate or parolee by releasing their image, media representatives shall be permitted access to identification photographs without the inmate or parolee's consent. Media representatives shall pay for the facility's cost of providing such requested photographs. Current photographs of escaped inmates and parolees at large shall be provided without charge.
- If there is reason to believe release of a photograph will create an imminent danger to an inmate or parolee, the Assistant Secretary, Communications, and the Director of the division responsible for the inmate/parolee shall make the final decision about the photograph being released.
- No photograph which would reveal the identity of any inmate committed to the Division of Juvenile Justice (DJJ) shall be made available other than for official purposes such as an escape.

13010.17.2 Execution Chamber

- Photographs or any other audio or visual recordings of an execution are prohibited. However, stock CDCR photographs and videotape footage of the area are available upon request from the Communications Office.
- No camera, wireless microphone, or other recording device shall be permitted within the execution chamber area.

13010.17.3 Prohibitions

Before entering a facility, photographers, camera, and video operators shall be carefully instructed as to what cannot be filmed, photographed, video taped or video recorded. Prohibitions include photographing staff or inmates without consent and any procedure, equipment, or structure that compromises security. The photographers, camera, or video operators shall agree in writing to these conditions prior to entering a CDCR institution or facility.

Conditions

In rare instances, it may become necessary to seize film, videotape, digital videotape, floppy disks, compact disks, memory cards, memory sticks, or any other recording devices because of a clear violation of regulations on photography within CDCR institutions or facilities. For example: photographing an employee, inmate, or parolee after the employee, inmate, or parolee has refused permission, or photographing security facilities, procedures, or equipment without permission.

- Any seized film, videotape, digital videotape, floppy disks, compact disks, memory cards, and/or memory sticks, and any other recording devices shall be placed undamaged, undeveloped, and unviewed, in a secure area.
- The institution head and the Assistant Secretary, Communications, shall be notified immediately for disposition of the recorded material and/or devices.

Note: In no event shall film, audiotape, videotape, camera, or recording equipment be destroyed or harmed.

In the event of a disturbance, photographers, and videographers approved to visit an institution or facility shall not have their film, audiotape, videotape, digital videotape, floppy disks, compact disks, memory cards, memory sticks, or recording devices seized. The production may be halted at the request of the institution head or designee and personnel will be escorted to safety if the disturbance threatens the safety or security of the institution or any person. Should CDCR or another law enforcement agency have need of the recorded material in connection with any criminal, civil, or administrative investigation or proceeding, they may advise the photographer or videographer of the need for the recorded material.

13010.18 Legislative Hearings*Revised September 25, 2007*

Institutions shall allow legislative hearings to be held at predetermined locations as approved by the Secretary. The areas within an institution where legislative hearings can be held shall be determined according to the number of anticipated attendees, security needed for testifying inmates, and logistics.

Some authorized areas include visiting rooms, IST classrooms, visitors' processing centers, conference rooms, boardrooms, and staff dining rooms. Gymnasiums, chapels, libraries, education facilities, as well as other areas located within secure confines, shall not be utilized.

The hearing shall be held during the hours of 6:00 a.m. and 6:00 p.m., Monday through Friday.

Cessation of some institution programs may be necessary depending upon the area scheduled for the hearing. When suspension of visiting is required, the inmate population of the institution involved shall be notified in writing as far in advance as possible.

Preparation and Processing

Once an institution hearing is approved, the legislative committee initiating the request shall designate a coordinator to work with the CDCR's Legislative Liaison.

The coordinator shall make a formal request for any CDCR report, file, or other data needed at the hearing. The coordinator shall also provide the Legislative Liaison with the names of legislators, consultants, staff, and witnesses who will be in attendance.

The Legislative Liaison shall provide the coordinator a copy of any pertinent, public CDCR regulations relative to security and logistical concerns including the type of clothing not allowed on institution grounds and the permissible capacity of the designated hearing area to be used.

The institution shall make every reasonable effort to assist with the set up of seating, but are not obligated to furnish equipment, props, staff resources (other than security), or make any physical plant modifications for the hearing.

During the hearing, the legislative sergeant-at-arms shall coordinate all activities with the institution head or a designee. The institution head shall have the authority and responsibility for all matters relating to security and processing. The sergeant-at-arms shall act primarily as a liaison between the committee's chairperson and the institution head.

If the hearing requires inmate testimony, the hearing shall be scheduled in an area indicated above that will provide reasonable access to and from the inmate's housing unit. If the hearing requires the presence of inmates housed in a Level IV security housing unit or condemned row facility, the hearing shall be held in an approved area that provides the highest degree of security.

Classification and Processing of Attendees

The number of attendees shall never be allowed to exceed the established occupancy capacity of the designated hearing area.

All tours of an institution shall be conducted in accord with DOM, Chapter 1, Article 14.

Prospective attendees shall be classified in one of the following categories and processed accordingly:

- **ELECTED OFFICIALS**--This category of persons includes the Governor, Lieutenant Governor, Attorney General, United States Senators, and members of the United States House of Representatives, as well as State Legislators and other California Constitutional Officers. Elected officials shall:
 - Be processed promptly upon their arrival and shall not be subjected to search or other visitor processing requirements except as outlined in DOM Chapter 5, Article 42 (Visiting) DOM Sections 54020.5 – 54020.6.
 - Be afforded, upon request, access to any portion of the facility provided they are escorted. No arrest history inquiries shall be done for dignitaries.
 - Be required to sign the visitors' register and present an official photo identification card when entering and leaving the institution, and shall be accompanied by sworn staff at all times.

In cases of immediate need, and upon notification by the Secretary in writing, any prohibitions within this Article regarding elected officials may be suspended in the interest of public understanding of the CDCR operations and responsibilities.

- **MEDIA REPRESENTATIVES**--This group of persons includes any print, wire service, or broadcast reporter and corresponding technical crew, transcriber(s) of the proceedings, persons affiliated with the

elected officials in an official capacity, and the sergeant-at-arms. Other persons may be assigned to this group as determined by the institution head. Media representatives:

- Shall be required to sign the visitors' register and present verification of their employment.
- Shall be processed in accordance with the same rules and procedures pertaining to other visitors.
- Shall be subject to reasonable limitations as determined by the institution head, there shall be no restriction on the type, size, or amount of equipment allowed unless the institution head determines that such equipment would threaten the safety of the institution or would unduly impede normal operations. All equipment shall be searched for contraband.
- Shall make sure that photographers and camera operators be instructed carefully as to what cannot be filmed, photographed, or otherwise recorded prior to entering an institution. Prohibitions include photographing staff or inmates without their written consent and any procedure, equipment, or structure that may compromise security.
- May be granted a limited tour of nonsecure areas of the institution provided they have been cleared by an arrest history inquiry, do not tour with the elected officials, and are escorted by available institution staff.
- **LEGISLATIVE STAFF**--This group of persons includes any transcriber(s) of the proceedings, persons affiliated with the elected officials in an official capacity, and the sergeant(s)-at-arms. Legislative staff:
 - Shall be required to sign the visitors' register and present verification of their employment.
 - Shall be processed in accordance with the same rules and procedures pertaining to other visitors.
 - May accompany the officials by whom they are employed on any tour of the institution in all areas approved for tour by the institution head or not otherwise prohibited by CDCR regulations or policies, or may tour any areas of the institution separately from the officials as approved by the institution head, and escorted by available institution staff.
- **WITNESSES**--Witnesses are those inmates, parolees, or ex-felons who have been subpoenaed by the legislative committee and other persons invited by the committee. Such other persons may include family members including registered domestic partners, victims of crimes, expert or technical advisors, and past or present employees of CDCR, all of whom must have received written verification of the committee's directive to appear. Witnesses are subject to the following:
 - Witnesses who have been subpoenaed to testify shall be allowed to attend. The institution head shall decide the appropriateness and degree of restraint and security needed for inmates. For those inmates who would pose a clear threat to the safety of persons attending the hearing, the Secretary may approve use of the two-way audio/video communication system in lieu of the inmate's actual appearance.
 - Inmates who have been subpoenaed to testify shall not be allowed into the hearing area until the time he or she has been scheduled to appear. Prior to entering the hearing room, all inmates shall be searched and be properly attired in State-issued clothing. Inmates shall have no contact with other persons in attendance, be closely supervised, and be strictly limited to the hearing area at all times.
 - All witnesses except current CDCR employees shall be processed in accordance with same rules and procedures pertaining to other visitors to the institution.
- **INTERESTED PERSONS**--All other persons not mentioned above shall be considered interested persons and shall be subject to the following:
 - All interested persons shall be allowed to attend unless there are circumstances to indicate the person would pose an imminent threat to the safety and security of the facility.
 - Interested persons attending the hearing shall not be allowed to tour the facility nor have contact with any inmate. Interested persons shall be processed in accordance with the same rules and procedures pertaining to other visitors to the facility pursuant to CCR 3170 through 3179.

Exclusions

Because access must be restricted due to the established occupancy capacity, exclusions, if necessary, shall be made, first on a voluntary basis. If further measures are required, access shall be denied to those individuals identified as interested persons. When the hearing involves public comment, the institution head may prioritize access by interested persons over media representatives and may designate one or a limited number of accredited pool reporters to cover the event.

13010.19 Revisions

The Assistant Secretary, Office of Public and Employee Communications, or designee shall be responsible for ensuring that the contents of this Article are kept current and accurate.

ARTICLE 14 — COMMUNITY RELATIONS

Revised March 14, 1995

13020.1 Policy

The goodwill of the public is important to the Department, each facility, each parole region, and each employee.

13020.2 Purpose

- This section designates employee responsibility in representing the Department in the community, and describes practices to encourage and maintain good community relations.

13020.3 Definition of Community Relations

Community relations is the function of promoting positive interaction between the correctional community and the public in an effort to educate and develop public awareness. It is through better understanding of the Department's mission that public confidence will be increased.

13020.4 Community

Community as used in this section refers to the general public, local, and State government bodies, employee organizations, special interest groups, and community organizations. The Department, its divisions, facilities, and units deal with many different, though frequently overlapping communities.

Examples of communities with which the Department is involved include, but are not limited to, the following:

- The State, counties, and cities.
- Employees of the Department.
- Law enforcement personnel at the State, county, and local levels.
- Legal groups.
- Taxpayers groups.
- Religious organizations.
- Medical associations.
- Labor unions.
- Chambers of commerce.
- Schools.
- Neighborhoods.
- Athletic organizations.
- Entertainment groups.
- Service organizations.
- Special interest associations.

Each group has its own viewpoint, interests, needs, and background. Each group is influenced by and influences other groups. Together with other groups, they make up the general public of a nation, state, county, city, or town.

13020.5 Policy Decisions and Operating Procedures

The Department and its units were created and are maintained by the public to perform a task for the public. Policies and procedures of the Department, its divisions, facilities, and units shall be designed to serve the public's

interest. The effect of proposed policies and procedures on all public groups shall be carefully analyzed. Care should be used to ensure that steps taken to provide a service to one group does not harm some other group. In the event of conflict, alternative policy or procedure shall be sought to resolve it. If the conflict cannot be resolved and action is necessary, the alternative providing either the greatest good for the largest public group or the least inconvenience for the smallest public group shall be pursued.

13020.6 Public Inconvenience

Any policy or procedure which results in, or could appear to result in any of the following, shall be reexamined:

- Excessive noise.
- Smog, smoke, dust, bad odors, or other air pollutants.
- Dirt.
- Pollution of water.
- Traffic jams.
- Dangerous, unhealthy, or unsightly conditions.
- Unlawful discrimination, including harassment, on the basis of race, religious creed, color, national origin, ancestry, physical or mental disability, marital status, sex or sexual orientation, political affiliation, or age.
- Misuse of money, manpower, or resources.
- Brutality to or coddling of prisoners.
- Competition with business or labor.
- Favoritism to or discrimination against certain suppliers.
- Embarrassment to friends or relatives of inmates, to visitors, to passersby, or to nearby residents.

13020.7 Unfavorable Public Reaction

Policies or procedures that unexpectedly cause an unfavorable public reaction shall be reexamined as soon as brought to the attention of the Department, division, facility, or unit. Every effort consistent with the public interest shall be made to correct the situation as quickly as possible.

13020.8 Community Relations Representatives

The employees of the Department are the greatest single resource for building good relations. Every employee is a community relations representative both on and off-duty. Employees shall be properly informed, through IST and other appropriate means, of departmental and facilities or divisional philosophies and practices. Employees are regarded as experts in all phases of correctional work by those with whom they come in contact; therefore, it is important that they understand the reasons behind the practices of the Department and its broad organization, as well as the position in which they are employed.

The designated staff liaison for community-related activities shall be the Community Resource Manager (CRM).

13020.9 Facility Activities

Wardens or RPAs, through the facility/regional CRMs and PIOs, shall coordinate all facility/regional activities which are a part of this section unless those responsibilities have been designated as the sole responsibility of the Warden or RPA by statute or regulation.

Citizens Advisory Committee

Each facility/parole region shall organize a Citizens Advisory Committee whose primary objective shall be to promote communications between the facility/region and the community. The role and function of these committees are further defined in DOM Chapter 10, Article 9.

Positive programs to maintain premises well-kept and attractive shall be followed.

Reputable citizens of the community shall be encouraged to come to the facility. Good community relations cannot exist when the facility is a place of mystery, set apart from the community.

Reception of visitors shall be cordial and businesslike. Employees shall be courteous, pleasant, neat, helpful, and efficient.

Appropriate, identifiable parking shall be provided for visitors where possible. In the planning of any event expected to attract large numbers of visitors, adequate parking space shall be arranged.

The parking area shall be supervised. If the event may cause traffic problems off the grounds, the CHP and/or other appropriate agencies shall be notified in advance.

Employees shall not act as traffic officers on highways off Department property.

Employees shall be sensitive to possible misunderstandings by visitors. Where the possibility of misunderstandings exist, care shall be taken that an adequate explanation is made. Employees regularly meeting the public, conducting tours, or escorting groups shall make a particular effort to stay informed in order to make an effective presentation and provide accurate, complete answers to questions.

13020.9.1 Visits by Other Departments/ Agencies

In the case where a facility requests the services of other departments or agencies, or those departments or agencies request an official visit as part of their official duties, to interview staff or inmates, or to do follow-up work to ensure compliance with legal requirements, the facility shall make every effort to assist those individuals in completing their assignment.

Examples of visitors of other departments or agencies include, but are not limited to, employees of:

- State DOJ, Law Enforcement Division (investigators, forensic scientists, fingerprint specialists).
- DHS (environmental health specialists, vector, and sanitation experts).
- The Board of Prison Term (commissioners and Deputy Commissioners) if hearing cases in a special housing unit.
- The Legislative Analyst.
- The DOF.
- Auditors.
- DA investigators.
- Coroners.
- FBI agents.
- Court monitors.

If the visitor(s) is doing follow-up work or interviewing staff or inmates, the visiting department or agency shall notify the office of the Warden at least 24 hours in advance of the visit date and delineate the time of arrival and purpose.

The Warden, or designee, shall ensure the necessary gate clearance is forwarded to the gate officer.

Visitors shall be required to produce official identification and a standard search will be conducted.

Visitor Clearance

The Warden's office shall ensure that the visitor or visiting group is assigned a staff member to escort the visitor(s) while at the facility. The staff escort shall remain with the visitor(s) during the entire stay in the facility. The staff escort may be from sworn, non-sworn, or other personnel assignment.

Equipment

If the visitor has equipment that is required to complete their task, proper security of that equipment shall be maintained during the entire visit.

If necessary because of the size/weight of the equipment or weather conditions, transportation shall be provided by the facility to the area of the visit if possible.

Parking shall be provided.

13020.10 Tours

Service clubs, trade associations, labor unions, educational groups, and other civic organizations shall be encouraged to visit facilities and community correctional centers. Arrangements for group tours may include providing meeting facilities for the groups.

Facilities, camps, and community correctional centers may set aside a regular time one day each week for a conducted tour of individuals. These individuals shall be treated as a group.

- Facilities where the small number of individual requests or other reasons make weekly tours impractical may set aside one or two days a month for such tours.
- Spouses or other close relatives of employees may be conducted on a tour as a group at least annually.

TAC

TACs provide an important public information and community relations opportunity. Special efforts shall be made to keep the committees accurately informed through special tours and visits to the various trade areas.

TACs shall be encouraged and assisted in the preparation of special articles for trade publications covering their appropriate fields.

Distinguished Visitors

Distinguished visitors assist the Department in being visible to the community. Distinguished visitors include: the Governor, Lieutenant

Governor, Attorney General, U.S. Senators and Congressmen, State Legislators, foreign dignitaries, noted authors, and other national, State, and local officials. The Director shall be notified, when appropriate, of the impending visit of a distinguished visitor. In the event of a visit by the Governor, Lieutenant Governor, Attorney General or a State Legislator, a full written report of the visit shall be made promptly to the Director, with a copy to the Assistant Director, LLO. The report shall include the purpose of the visit, together with any comments or other information that may assist the Director in making any necessary response.

State Legislators, and other elected California Constitutional Officers shall be permitted to visit and tour facilities, camps, and community correctional centers without prior notice. Appropriate escorts shall be provided. All reasonable access and cooperation shall be given. Access for such officials may be denied only during emergencies, with the approval of the Director. Guests accompanying elected officials may be denied access in absence of prior approval by the Warden, or RPA.

An appropriate personal escort from either the YACA or CDC shall be provided for nonpublic tours of institutional facilities for the Legislature, Lieutenant Governor, State Controller, Secretary of State, State Treasurer, State Insurance Commissioner, State Superintendent of Public Instruction, State Attorney General, members of the State BOE, elected city and county officials, and candidates for political office and members of their staff.

A separate tour may be arranged for the news media and other members of the public through the office of the Warden, or RPA, according to provisions of DOM 13010.

13020.11 Grand Juries

PC 919 and 921 entitle Grand Juries to free access, at reasonable times, to the public prisons within their county for the purpose of inquiring into the conditions and management of these prisons and to examine public records. Each Warden shall, therefore, extend an invitation, at least once a year, to the Grand Jury of the county in which their facility is located. Such visits shall be coordinated with the BPT' schedule when possible and where practical.

Visits shall be scheduled as soon as possible after the impaneling of each new Grand Jury.

When visits to a facility are initiated by the Grand Jury, employees shall be made available as necessary to guide, orient, or otherwise assist the Grand Jury. A report of such visit shall be made to the Director.

13020.12 Exhibits

Exhibits depicting the activities of the Department, divisions, facilities, units, and the work or training involving inmates, may be displayed in Department facilities.

Properly planned and prepared exhibits (not including inmate handicraft) may also be displayed at conventions, banquets, and other appropriate locations where they may be helpful for educational or recruitment purposes. Care shall be taken that no commercial sponsorship or endorsement is stated or implied.

13020.13 Facility Participation in Community Activities

The facility may participate in some community activities either as a State agency or as a group of employees or inmates.

- Activities as a State agency (staff/inmates) can include, but are not limited to, the following:
 - Community service work crews.
 - Mutual aid, police, and fire agreements.
 - Provisions for informative material and speakers to schools, colleges, civic groups, and other organizations.
 - Appropriate assistance in the prevention of delinquency and crime.
 - Arts work crew.
 - Vocational shop repairs and construction products.
- Activities as a group of employees or inmates may include, but are not limited to, the following:
 - Participation in charity drives and blood donations.
 - Sponsorship of athletic teams, scout troops, or cultural groups.
 - Formation of employee teams, bands, and orchestras.
 - Sponsorship, support, and supervision of youth activities aimed at instilling good citizenship.

13020.14 Employee Participation in Community Activities

Employees shall be encouraged to participate in community functions. While the job shall come first, such encouragement shall include changes in

duty time or days off (when possible), for employee participation in specific community events.

Employees seeking approval to represent the Department in public appearances shall submit a request in writing to the Warden or RPA.

- The request shall include a complete description of the type of event, purpose, size of the audience, date of the event, and topics to be discussed.
- When a speaking engagement has been completed, the employee involved shall submit to the PIO a written summary of the event including:
 - Evaluation of the audience response.
 - Number of people present.
 - Presence of news media representatives.

13020.15 Revisions

The Assistant Director, Communications, or designee is responsible for ensuring that the contents of this section are kept current and accurate.

13020.16 References

DOM §§ 13010 and 31040

ARTICLE 15 — INFORMATION PRACTICES

Revised July 16, 1996

Updated April 11, 2014

13030.1 Policy

Information in all records and files of the Department which pertains to inmates, parolees, employees, or other persons shall be collected, maintained, amended, and disclosed in conformance with the IPA of 1977 and subsequent amendments.

13030.2 Purpose

This section specifies staff responsibility for the collection, maintenance, amendment, and disclosure of information in keeping with the right to privacy of inmates, parolees, employees, or other persons.

13030.3 General Review

When a request to disclose information from a departmental record, or to receive copies of information, is received, employees shall look first to the provisions of the DOM 13040 to determine if the information is in a public record. If the information is disclosable as a public record, and the record contains personal information, employees shall look to the provisions of this section to determine if the information is exempt from disclosure.

13030.3.1 Training

All employees shall be provided general training regarding the policies, procedures, and regulations governing the collection, maintenance, use, disclosure, and destruction of personal information. Only those employees with a "need to know" shall be permitted to have access to departmental records containing personal information.

13030.4 Definitions

Access

An individual's right to see their own records, or an individual's right to permit an agent, on their behalf, to review the individual's records.

Agency

Every state office, officer, department, division, bureau, board, commission, or other state entity exclusive of the following:

- The California Legislature.
- Any agency established under Article VI of the California Constitution.
- SCIF, except for any records which contain personal information about employees of SCIF.

Agency includes any local agency as defined in GC 6252(b).

Caseworker

A CC-I or PA-I.

Commercial Purpose

Any purpose which has financial gain as a major objective. It does not include the gathering or dissemination of newsworthy facts by a publisher or broadcaster.

Confidential Information

Information, other than exempt personal information, that is withheld from disclosure as a public record under DOM 13040.14 (Also see **Exempt** in this section).

Data Subject

See **Individual** in this section.

Department Employees

Full-time and part-time civil service and exempt employees, student assistants, aides, contractual persons/entities, consultants, or anyone whose duties with CDCR require or permit the use of records or information about other individuals.

Disclose

To divulge, release, transfer, disseminate, or otherwise communicate all or any part of any record orally, in writing, or by electronic or any other means to any person other than the one about whom the information is kept.

Examine a Record

The physical audit of a record by a departmental reviewer prior to an inspection or disclosure to determine if the record contains exempt personal information.

Exempt

Personal information that may, by law, be withheld from the individual to whom it pertains. This was formally referred to as confidential information (Also see **Confidential Information** in this section).

File

See **Record** in this section.

Government Entity

Any branch of the federal government or of state or local government as defined in GC 6254(b).

Individual

Any natural person about whom CDCR maintains any personal information.

Inspect a Record

The act of physically reviewing a record by the person about whom the record is kept or their authorized representative.

Person

Any natural person, corporation, partnership, firm, association, or government entity.

Personal Information

Any information that is maintained by an agency which identifies or describes an individual, including, but not limited to, an individual's name, social security number, physical description, home address, home telephone number, education, financial situation, and medical or employment history, including statements made by, or attributed to, the individual.

Record

Any records system or grouping of information about an individual that is maintained by CDCR by reference to an identifying particular, such as an individual's name, photograph, finger or voice print, or a number or symbol assigned to the individual. This includes all records systems maintained by CDCR.

Records System

Any grouping of records which pertains to one or more individuals maintained by CDCR from which information is retrieved by an individual's name, photograph, finger or voice print, or a number or symbol assigned to an individual.

13030.5 Responsibility: Office of Information Practices

The Office of Information Practices (OIP) operates under the direction of the Executive Officer of the CalHR. Its functions include, but are not limited to, the following:

- Assist an individual in identifying and accessing records which may contain information about the individual.
- Develop administrative guidelines and assist state agencies in implementing the IPA's provisions.
- Investigate alleged violations of the IPA.
- Mediate disputes arising under the IPA.
- Report uncorrected violations of the IPA to the Governor, the Legislature, and the appropriate law enforcement agency.

13030.6 Responsibility: Departmental IPA Coordinators

CDCR's IPA Coordinator shall:

- Ensure that CDCR complies with the provisions of the IPA.

- Act as liaison with the OIP.
- Provide training to those persons designated as local IPA liaison personnel.
- Collect information on records systems from all CDCR units that keep personal information for submission of necessary reports to the OIP as required by law.
- Coordinate individual requests for personal information to the appropriate CDCR division, facility, or office.
- Monitor record keeping practices of offices where personal information is collected, maintained, and disclosed.

CALPIA

The CALPIA's IPA coordinator, located in the Personnel and Training Unit, shall:

- Ensure that CALPIA complies with the provisions of the IPA.
- Act as liaison with the OIP.
- Collect information on record systems from all CALPIA headquarters units and CALPIA facility factories that keep personal information for submission of necessary reports to the OIP as required by law.
- Coordinate individual requests for personal information to the appropriate staff.
- Monitor record keeping practices of office where personal information is collected, maintained, and disclosed.

13030.7 Responsibility: Local IPA Liaison Personnel

Local IPA liaison personnel shall be the personnel manager from each facility, a unit/section chief from each headquarters division, or a staff services analyst or above from each regional parole office. Their duties shall include:

- Ensure that their division, parole region, or facility complies with all provisions of the IPA.
- Act as liaison with the departmental IPA coordinator.
- Coordinate individual requests for personal information to the appropriate office within their division, parole region, or facility for response.
- Monitor record keeping practices of offices where personal information is collected, maintained, and disclosed to ensure compliance with CDCR practices.

13030.8 Responsibility: CCRM

CCRM shall review the fingerprint card responses from State DOJ for persons appointed to positions which allow access to inmate records or EDP terminals usable to access electronically stored inmate records.

13030.9 Responsibility: All Employees

Employees responsible for the creation, use, maintenance, amendment, dissemination, and/or destruction of records containing any personal information shall take all necessary precautions to ensure that proper administrative, technical, and physical safeguards are established and followed in order to protect the confidentiality of those records and to preclude disclosure of personal information to unauthorized persons.

Shall

All CDCR employees who collect, use, maintain, amend, disseminate, and/or destroy personal information shall:

- Make every reasonable effort to respond promptly to inquiries and requests by persons desiring to receive or review personal information.
- Assist persons who are seeking personal information to make their inquiry specific and descriptive enough to facilitate locating the records requested.
- Respond, in a courteous and business like manner, to inquiries from persons seeking to review, obtain copies of, amend, correct, or dispute personal information kept by CDCR.

Shall Not

CDCR employees who collect, use, maintain, amend, disseminate, and/or destroy personal information shall not:

- Require individuals to disclose personal information which is not necessary and relevant to the lawful state function for which the employee is responsible.
- Improperly disclose personal information relating to any individual to any unauthorized person. The improper disclosure of personal information is cause for an adverse action, and it may subject the

employee and CDCR to legal action (See DOM 13030.33 for further information).

- Seek or use personal information relating to others for any purpose other than the lawful purpose for which it is collected. The intentional violation of this requirement is cause for an adverse action, and it may subject the employee and CDCR to legal action (See DOM 13030.33 for further information).

13030.10 Validity of Information

Every employee who collects, maintains, or receives personal information shall make reasonable efforts to ensure that the information is accurate, timely, relevant, and complete.

13030.11 Notification and Reporting Requirements

Each local IPA liaison person shall complete and file with CDCR's IPA Coordinator a fully complete T-SPB Form 103, Personal Records System Report. The steps to be followed to allow an individual to access records, request amendments, or dispute information about themselves shall be included with each T-SPB Form 103.

CDCR's IPA Coordinator shall complete and file with the OIP a completed T-SPB Form 103.

CDCR's IPA coordinator shall attach to the report submitted to the OIP a copy of CDCR's procedures on "How to Inspect and Correct Your Records" that shall explain the procedures to be followed by an individual wishing to access, inspect, amend, or dispute personal information kept by CDCR.

Initial Report

After the initial report is filed with CDCR's IPA coordinator and the OIP, only changes in the records systems and/or procedures need to be reported. If no changes have been made in the records system or procedures since the last previous report, a statement that there has been no change is sufficient. For this purpose, CDC Form 1020, IPA Notices of Records System Titles, shall be used and submitted. The local IPA liaison person shall compile and submit their respective reports to CDCR's IPA coordinator by March 1 of each year. By March 31, CDCR's IPA coordinator shall compile and forward CDCR's report to the OIP.

CDCR's IPA coordinator may report new records systems or changes anytime during the year to OIP.

Once the annual report is filed with the OIP, CDCR's IPA coordinator shall forward copies of the report to the Assistant Secretary, Communications and External Affairs, headquarters, and to all offices and/or units reporting that they keep personal information.

13030.12 Notice to Individuals

When CDCR collects personal information from individuals, by any means, including the use of forms, a CDC Form 1023, IPA Privacy Statement, shall be given to these individuals.

13030.12.1 Content of Notice

The notice shall cover all of the following:

- The CDCR name.
- The title, business address, and telephone number of CDCR official who is responsible for the system of records and who shall, upon request, inform an individual regarding the location of his or her records and the categories of any persons who use the information in those records.
- The authority, whether granted by statute, regulation, or executive order, which authorizes the maintenance of the information.
- With respect to each item of information, whether submission of such information is mandatory or voluntary.
- The consequences, if any, of not providing all or any part of the requested information.
- The principal purpose or purposes within CDCR for which the information shall be used.
- Any known or reasonably foreseeable disclosure which may be made of the information.
- The individual's right to inspect records containing personal information which is maintained by CDCR.

13030.12.2 Notice Methods

This notice shall be given by one of the following methods:

- A notice printed directly on the form requesting information.
- A written policy provided to the person with the form requesting information.
- A CDC Form 1023, filled out and given to the source person.

This notice shall be given at each contact when personal information is requested. When contact is of a regularly recurring nature, an initial notice followed by a periodic notice at not more than one-year intervals shall satisfy this requirement.

13030.12.3 Exceptions to Notice Requirements

This notice requirement shall not apply to the following:

- Any enforcement document issued by an employee of a law enforcement agency in the performance of his or her duties wherein the violator is provided an exact copy of the document.
- Any accident reportable under the Vehicle Code (VC) when the parties of interest may obtain a copy of the report pursuant to VC 20012.
- CDCR requirements for an individual to provide his or her name, identifying number, photograph, address, or similar identifying information, if this information is used only for the purpose of identification and communication with the individual by CDCR, except that requirements for an individual's social security number shall conform with the provisions of the Federal Privacy Act of 1974 and subsequent amendments.

13030.13 General Requirements for Information Collection

To the greatest extent possible, personal information shall be collected directly from the subject of the inquiry rather than from another source. All information collected must be relevant and necessary to accomplish the lawful purpose for which it is collected.

Reasonable efforts shall be made to ensure that all information about an individual is timely, accurate, relevant, and complete.

13030.13.1 Inaccurate Information

The CDCR shall correct, update, withhold, or delete any portion of a record that CDCR knows, or has reason to believe, is inaccurate before transmitting or communicating the information to an agency outside of state government.

13030.13.2 Record of Information Sources

When information is collected from an origin other than the individual about whom it is collected, a record shall be made of the information source. The record of the source shall be made available to the individual when they inspect the record. The document to be used in recording the origin of personal information shall be CDC Form 1022, IPA Record of Sources. For exceptions see DOM 13030.13.3.

13030.13.3 Exception to Disclosing a Source of Information

When the personal information is contained in a document and the individual about whom the information is being collected is given a copy of that document, the origin of the document need not be listed on the IPA Record of Sources. The identity of a source need not be recorded when the source is in a non-supervisory relationship with the individual and the information is given with the promise of confidentiality during an investigation of:

- An applicant for public employment or a state license.
- A grievance or complaint.
- A suspected civil offense.

See DOM 13030.19 and 13030.20 for further information.

13030.13.4 Using Inmates to Collect Personal Information

Inmates in assignments where they will type, file, or otherwise handle any non-confidential information pertaining to another inmate shall comply with all State IPA requirements.

13030.14 Conditions of Disclosure

Records containing personal information may be disclosed or transferred only under the following conditions:

- To the individual to whom the information pertains, unless the information is exempt from access to the individual (See DOM 13030.19).
- To other persons with the prior written, voluntary, and timely consent of the individual to whom the record pertains, if the information is not exempt from access and the consent to disclose has been obtained within 30 days before the disclosure or within the time limit specified in the written consent. The CDC Form 1021, IPA Voluntary Consent to Release Personal Information, shall be used for this purpose.
- To the guardian or conservator of the individual, or a person representing the guardian or conservator, if it can be proven with reasonable certainty that such person is the authorized guardian or conservator of the individual, or their authorized representative.
- To an employee of CDCR, as long as the disclosure is necessary for the performance of the employee's official duties and the use to be made of

the information is related to the purpose for which the information was obtained.

- To another State agency, when the disclosure is necessary for that agency to accomplish its constitutional or statutory mission and use of the information shall be compatible with a purpose for which the information was obtained.
- To any person where the disclosure is in accordance with the PRA (GC 6250, et seq.) and DOM 13040.
- To a governmental entity when required by State or federal law.
- To a person for statistical research or reporting purposes if adequate written assurance is obtained that the information shall only be disclosed in a form that will not identify any individual.
- To a person when compelling circumstances exist which affect the health or safety of an individual as determined by the agency maintaining the information, unless the disclosure conflicts with state or federal laws. Upon disclosure the individual to whom the information pertains shall be notified in writing through their last known address.
- To the California State Archives (CSA) as a record which has historical or other value which warrants its preservation by the State.
- To the Director of General Services, or their designee for evaluation to determine if the record may have further administrative, legal, or fiscal value.
- To any person pursuant to a search warrant [except that compliance with PC 832.7 shall be required for the record of a peace officer employee].
- To any person pursuant to the VC 1800, et seq.
- To any person for verification of eligibility and authorization for payment of government health care service claims pursuant to the W&I 1000, et seq.
- To a law enforcement agency when required for investigation of criminal activity unless such disclosure is otherwise prohibited by law. If the request is from a DA, the information shall be disclosed within ten days unless a court determines that the disclosure is not in the public interest or for good cause.
- C-Files (excluding medical, psychiatric, and confidential) are accessible to the DA or designee upon request, pursuant to GC 6263.
- Physical access by the DA or designee to medical and psychiatric files is prohibited, pursuant to PC 1543 through 1545 and W&I 5328.01, unless a court order from the court in the county where the files are located has been obtained or release authorization has been obtained from the inmate/parolee whose file is being sought.

The DA or designee is permitted to obtain copies of medical reports/records of the victim(s) and assailant(s) related to any in-custody incident(s)/assault(s) committed by inmates and subject to possible DA prosecution.

- The DA or designee is authorized to review Confidential files in the presence of designated facility staff to determine whether there is sufficient available information to file criminal charges for in-custody misconduct, (i.e., staff assault/inmate assault).

Requests by the DA or designee for copies of Confidential documents necessary to prosecute in-custody crimes shall be forwarded to the Warden or designee for authorization to release. Confidential documents identified by the Warden or designee as endangering the safety and security of staff, inmates, or the facility and/or deemed too sensitive for release to the DA or designee will not be released without a proper court order.

All other requests by the DA or designee for access to Confidential files to assess information for possible prosecution of crimes occurring in the community will be reviewed by the Warden or designee on a case-by-case basis. The Warden or designee shall factor the need of the DA or designee to obtain relative information and the need to ensure the safety and security of staff, inmates, and the facility.

In the event the DA or designee discovers exculpatory information in the Confidential file during their initial review, or any subsequent review, the DA or designee shall immediately notify the Warden or designee of the discovery and the DA's duty to disclose the exculpatory information to the defense per PC. The DA or designee shall notify the Warden or designee prior to disclosure of such information to the defense in order for the Warden or designee to determine any possible safety concerns and take appropriate action.

Subpoenas for inmate and parole records shall be referred, in accordance with DOM 14010.6.3 to the appropriate Attorney General's (AG) Office

identified in DOM 14010.13. Any questions regarding subpoenas or court orders for inmate/parolee records should also be directed to the local AG's office.

- To a person or government entity to the extent required to obtain information from that person or government entity, when necessary for an investigation of a failure to comply with a specific law which CDCR is responsible for enforcing.
- To the OIP with the written, voluntary, and timely consent of the individual when necessary for an investigation of a complaint regarding the IPA or for mediation of a dispute.
- To an adopted individual if the information is limited to the general background of the individual's natural parent and does not include or reveal the identity of the natural parent.
- To a child or grandchild of an adopted individual if the information is limited to medically necessary information pertaining to the adopted individual's natural parents and does not include or reveal the identity of the natural parents.
- To a committee or member of the Legislature with the written, voluntary, and timely consent of the individual.
- To the University of California or a nonprofit educational institution conducting scientific research when the request includes the following:
 - The need for the information.
 - Procedures protecting the confidentiality of the information.
 - Assurance that the identity of the individual shall not be disclosed in an individually identifiable form.
- To an insurer if authorized by VC 10900, et seq.
- To any person when the court issues a subpoena duces tecum or other compulsory legal process for the following:

Note: Before disclosure, if notification is not prohibited by law, CDCR shall reasonably attempt to notify the individual to whom the information pertains.

- A peace officer employee's record. It may be necessary to consult with the OLA, IPOLT, prior to disclosing a peace officer employee's record because of the restrictions imposed by PC 832.7 (See DOM 14010.6.10.2 for further information).
- Other employee's records. Only the documents specifically named shall be disclosed (See DOM 14010.10.1 for further information).
- An inmate's/parolee's record. Only the C-File shall be provided unless the court specifies other records by title.

13030.15 Accounting for Disclosures

Each operational unit within CDCR, including headquarters, division offices/sections/ units, field offices, facilities, and parole regions, shall keep an accurate accounting of the date, nature, and purpose of each disclosure made under the following circumstances:

- To persons or government entities when required by them to perform their constitutional or statutory duties. The use must be compatible with a purpose for which the personal information was collected.
- To a governmental entity when required by State or federal law.
- Under compelling circumstances which affect the health or safety of an individual.
- Under a subpoena, court order, or other compulsory legal process.
- Under a search warrant.
- To a law enforcement or regulatory government entity when required for an investigation of unlawful activity or for licensing, certification, or regulatory purposes, unless otherwise prohibited by law.
- To a person or government entity to the extent necessary to obtain information from the person or entity as necessary for an investigation by the person or entity of a failure to comply with a specific state law which that person or entity is responsible for enforcing.

Also Include

The accounting shall also include the name, title, and business address of the person or government entity to which the disclosure was made. Routine disclosures pertaining to crimes, offenders, and suspected offenders to law enforcement or regulatory government entities of federal, State, and local government require an accurate accounting. However, if disclosure is made to a government entity when required by state or federal law, it shall be sufficient to record the date of disclosure, the law enforcement or regulatory government entity requesting disclosure, and the purpose of the disclosure (e.g., investigation, licensing, certification, or regulatory purposes).

A CDC Form 819, IPA Personal Information Disclosure Log, shall be used to record disclosures. It shall be retained in the individual's file for three years from the date of disclosure or until the record is destroyed, whichever is earlier. The individual about whom information is disclosed is entitled to inspect this document, except information that is exempt pursuant to DOM 13030.19.

13030.16 Access to Records

Revised April 11, 2014

Each individual has the right to inquire and be notified whether CDCR maintains a record about him or her. Any inquiry shall specify the name and title of the records system as filed with the OIP. Inmates are granted access and review of information pertaining to themselves under case law (Olson v. Pope (1974) 37Cal.App.3d783, 112Cal.Rptr.579) and this section. Inmates may request an Olson review of their Central File (C-File) from their assigned Correctional Counselor (CC).

The individual shall be permitted to inspect and obtain an exact copy of all or any portion of any nonexempt personal information about themselves even when it might be kept under the name of another person, entity, event, or date or among other records systems.

The individual may permit another person of their choosing to inspect all nonexempt personal information in a record and have an exact copy of all, or any portion, of the record. The individual must sign a CDC Form 1021, before such disclosure may be permitted.

The individual shall be permitted to inspect the accounting of disclosures made in accordance with this section, except that exempt information contained in the accounting shall be withheld.

13030.16.1 Availability of Procedures to Access Records

Revised April 11, 2014

Upon written request, the office with the individual's record shall furnish the requester a copy of CDCR's procedures to be followed to gain access to or amend a record.

The information contained in this form shall include the following:

- The name, title, and business address of the person to contact for each record system and to whom to appeal if all, or any part, of the request is denied.
- Whether the request needs to be in writing.
- Where and when records may be inspected in person, including the regular office hours (See DOM 13030.21 and 13030.26 for further information).
- Fees to be charged for photocopying information (See DOM 13030.26.3 for further information).
- Notice that proof of identity, such as a valid driver's license or notarized signature, shall be required when the individual's identity (or the identity of the individual's representative) is not known to the keeper of the records.
- Example of information likely to be exempt from access.
- Approximate time frames in which CDCR shall:
 - Respond to a request for inspection.
 - Respond to a request for copies.
 - Respond to a request to amend a record.
 - Respond to a request to appeal a refusal to amend a record. (See DOM 13030.26, 13030.27, 13030.27.2, and 13030.28 for further information.)
- Limitation on what shall be accepted as a rebuttal to information in the record.

The individual requesting any record containing personal information shall sign an acknowledgment of penalties for requesting or obtaining records under false pretenses, CDC Form 1019, IPA Statement of Penalties.

13030.16.2 Requests to Review Electronic C-File for Inmate Attorney or Olson Review

Effective April 11, 2014

Requests for CDCR offender records, specifically the C-File, come from various entities such as inmates, attorneys, law enforcement agencies, Office of the Attorney General, District Attorneys, Office of the Inspector General, Governors Office, etc.

Requests are usually received and facilitated by CC's, Litigation Coordinators, and Case Records Managers. Previous to electronic offender records, the paper C-Files were reviewed onsite or photocopies of the C-File were made.

With the Implementation of the Strategic Offender Management System (SOMS) and the Electronic Records Management System (ERMS), the location of where information resides and the process for gathering and providing offender information has changed significantly.

All existing Departmental policies and regulations, Memoranda, Legal Affairs opinions, and state and federal laws currently in place for releasing offender information as well as redaction of specific information still apply.

SOMS and ERMS are web-based computer programs dependent upon a networked computer accessing a database. SOMS and ERMS contain data of inmates' case factors and other information that was formerly contained in a paper C-File. The Electronic File in ERMS is organized in sections similar to the former C-File (e.g. Legal, Classification, and Disciplinary). For security reasons, inmates are not allowed to access a networked computer.

In order to facilitate an ERMS version of an Olson review, the documents in each section can be saved to an encrypted compact disc (CD) or in the case of an Inmate Attorney review, a PDF file stored on the institution's data storage drive commonly referred to as the "Share Drive". Each section of the ERMS version of the Olson/Inmate Attorney review will contain a category of the File similar to the current paper C-File format (e.g. Legal, Classification, and Disciplinary). The ERMS Olson or Attorney Review CD or PDF file will contain all scanned documents for an inmate that are stored in the ERMS database not considered confidential.

SOMS contains the inmate's case data that is accessed via computer screens devoted to a specific topic (e.g. Initial Housing Review, Notification in Case of Inmate Death, Serious Injury or Serious Illness, or Physical Characteristics). In order to facilitate a SOMS Olson or Attorney review, the input screens relating to each specific topic can be printed from the SOMS application.

13030.16.3 Conducting an ERMS/SOMS Olson Review

Effective April 11, 2014

Assigned Correctional Counselor

When an Olson review request is received from an inmate or inmate's designee or a copy of the inmate's file is requested from an outside agency, the designated CC will review the inmate's C-File (as outlined in DOM Section 13030.17.2) and determine if any additional confidential information is to be exempt from review. In addition, the CC will review ERMS for any information that may have been misfiled, filed in the wrong inmate's file, confidential documents filed in a non-confidential section or non-confidential documents filed in the wrong section.

Per DOM Section 13030.17.4, the assigned CC will list any confidential documents withheld from the Olson/Inmate Attorney/Third Party review on a CDCR Form 810, Confidential Information Listing, and provide the inmate or third party with a copy.

Once the Olson CD is encrypted and copied, the assigned CC will be contacted by Case Records staff to retrieve the ERMS Olson Review CD, and schedule an appointment with the inmate to review it on a non-networked computer.

Facilitating the Olson Review with the Inmate

In order to facilitate the Olson Review, the CC will perform the following steps:

- Provide the inmate a copy of the CDCR Form 810; where confidential information exists, it shall be excluded from the review.
- Print the designated input screens and redact any information deemed confidential prior to the inmate's review.
- Place the ERMS Olson Review CD in the non-networked computer.
- Open the requested sections.
- Allow the inmate to take notes as requested (per DOM Section 13030.26.2).
- Should the inmate request copies of the documents, the CC will note which documents and require the inmate to pay the established per copy charge.
- Upon completion of the Olson Review the CD will be returned to Case Records for proper disposal.

Inmate Attorney Review

An Inmate Attorney review of an inmate's C-File utilizing the SOMS and ERMS applications is accomplished in the same manner as described in the previously listed Olson Review steps.

13030.17 Processing Requests for Personal Information

Employee Records

When a request is received for personal information regarding an employee, the request shall be forwarded to the employee's immediate supervisor. The supervisor shall:

- Contact the personnel assistant who maintains the employee's file.
- Request the file be examined for exempt information.
- Request that exempt information be properly identified and protected from disclosure in keeping with this section.
- Request that all nonexempt disclosable information be made available for the employee's inspection, or for inspection by the employee's authorized representative (See DOM 13030.14 for further information).
- If the information is exempt from disclosure, notify the requesting party that CDCR cannot comply with the request to disclose the information.

Inmate/Parolee Records

When a request is received for personal information regarding an inmate or parolee, the request shall be forwarded to the caseworker assigned to the case. The caseworker shall:

- Review the request to determine if the requested information is exempt from disclosure.
- If the information is not exempt from disclosure, make arrangements to disclose the information (See DOM 13030.21 for further information).
- If the information is exempt from disclosure, notify the requesting party that CDCR cannot comply with the request.

13030.17.1 Denial of Request

Any denial of a request to inspect a record shall contain the reason(s) for the denial and CDCR's policy, How to Inspect and Correct Your Record relating to requesting a review of the decision to deny access to a record. Appeals of this denial shall be the same as for an appeal of a refusal to amend a record (See DOM 13030.28).

13030.17.2 Screening a Record for Exempt Information

Revised April 11, 2014

A CDCR employee who has been trained and specifically designated (see DOM 13030.3.1 for further information) as an authorized discloser of exempt personal (formerly confidential) information shall examine all material in the file or record prior to any inspection by the requester, the requester's attorney, or any person designated by the requester. Caseworkers (for inmate/parolee records) or personnel assistants (for employee records) generally are designated to examine records for exempt personal information.

The purpose of the screening is:

- To evaluate material already classified as exempt or nonexempt to reaffirm the validity of the determination.
- To classify materials as exempt or nonexempt according to the CCR 3321 and DOM 13030.19 of this manual.
- To prepare CDCR Form 810, Confidential Information Listing; CDC Form 811, or Confidential Information Removal Notice.
- To ensure that all exempt material is removed from an employee's file or is placed in the Confidential Material Folder for inmate/parolee C-files, so as not to be improperly disclosed (See DOM 13030.3 and 13030.18 for further information).

13030.17.2.1 Identifying Exempt Information

When an employee feels a document in an inmate/parolee C-file contains exempt personal (formerly confidential) information, the document shall be forwarded to a staff person at the level of Correctional Counselor III (CC-III), Parole Agent III (PA-III), or higher, with a recommendation for approval of the designation of "Confidential." The staff person approving the designation shall ensure that the document is handled as required in DOM 13030.17.4.

- An employee who feels a document should be designated "Confidential" shall hand deliver the document to the CC-III/ PA III, if feasible. If not, follow instructions in DOM 13030.31.

13030.17.2.2 Classification Committee Review

Revised April 11, 2014

Every classification committee shall review the documents in the Confidential Section of each case being considered. If the designation of "Confidential" assigned to any document is no longer warranted, the document shall be reclassified. The classification committee chairperson shall ensure that the procedures for returning declassified documents to their assigned place in the C-file, as outlined in DOM 13030.17.4, are followed.

13030.17.3 Difference of Opinion About Confidential Designation

When the examiner disagrees with a prior designation of confidential or non-confidential, the examiner shall forward the document to the appropriate staff person for designation or declassification as outlined in DOM 13030.17.2.1.

Where a difference of opinion cannot be resolved in this manner, the examiner shall refer the matter to their immediate supervisor in headquarters, to the associate Warden in a facility, or to the assistant Regional Parole Administrator (RPA) in a parole region. When a significant and consequential difference of opinion between staff cannot be resolved, the matter shall be referred to the Warden, RPA or (in headquarters) the deputy or assistant director.

13030.17.4 Preparation of Exempt Personal Information in Inmate/Parolee Records

Revised April 11, 2014

If an entire document is classified as exempt, the originator of the document or the person designating it as confidential shall:

- Conspicuously stamp the document at its top and bottom with the word "Confidential" in red ink. If the document consists of more than one page, each page shall be so marked.
- Date and sign the designation of confidential.
- Note the document in the C-file on CDCR Form 810.
- Replace the document with a completed CDC Form.
- Immediately scan the document into the Confidential Section of the ERMS file.

Mixed Information

If a document contains a mixture of exempt and nonexempt information, the originator or the person designating it as confidential shall:

- Conspicuously stamp the document at its top and bottom with the word "Confidential" in red ink. If the document consists of more than one page, each page shall be so marked.
- Date and sign the designation of confidential.
- Cover the exempt portions and make a photocopy which shall be included in the nonexempt portion of the C-file to be disclosed.
- Immediately scan the document into the Confidential Section of the ERMS file.
- Note the exempt information on the CDCR Form 810.

Leave Information

The Confidential Information Listing and Confidential Information Removal Notice shall remain in the C-file when requester inspects the C-file.

When a designation of confidential is removed from a previously confidential document, the examiner shall ensure that:

- The document is removed from the Confidential Section and returned to its regular place in the C-file.
- A line is drawn through the identifying confidential designation.
- The redesignation as no longer confidential includes the date and signature of the examiner.
- The document is deleted from the CDCR Form 810.
- The CDC Form 811 is removed from the record.

Obsolete Information

Confidential Information Listing forms made obsolete by the designation, or re-designation of confidential material shall be removed from the record and destroyed and an updated Confidential Information Listing shall be inserted by the examiner.

13030.18 Confidential Section

Revised April 11, 2014

The responsibility for the preparation of the Confidential Section shall rest with the originator of a document or the examiner when the first instance arises which requires the separation of exempt personal (formerly confidential) information from the main body of the C-file. Staff remains responsible to ensure they complete the process of stamping the document "Confidential" top and bottom, and for ensuring the appropriate level of administrative approval is obtained and the document scanned to the Confidential Section of ERMS.

Retention of Folder

The Confidential Section shall remain a permanent part of the C-file. The contents of the Confidential Section shall not be returned to its normal position in the C-file until, or unless, the confidential designation is removed and the information is no longer exempt from disclosure. Exceptions may be

made on a temporary basis to facilitate special circumstances, i.e. confidential BPH/BPT addenda and permanent addenda.

Except for the temporary exceptions mentioned above, all information designated as confidential shall be placed, and retained, in the Confidential Section.

13030.19 Exempt Personal Information Withheld From Individual

Revised April 11, 2014

The CDCR is not required to disclose personal information to the individual about whom the information pertains, if the information meets any of the following criteria:

- Is compiled for the purpose of identifying individual criminal offenders and alleged offenders and consists only of identifying data and notations of arrests, the nature and disposition of criminal charges, sentencing, confinement, release, and parole and probation status.
- Is compiled for the purpose of a criminal investigation of suspected criminal activities, including reports of informants and investigators, and is associated with an identifiable individual.
- Is contained in any record which could identify an individual and which is compiled at any stage of the process of enforcement of the criminal laws, from the arrest or indictment stage through release from supervision, including the process of extradition or the exercise of executive clemency.

For Investigative Purposes

- Is maintained for purpose of an investigation of an individual's fitness for licensure or public employment, or of a grievance or complaint, or of a suspected civil offense, as long as the information is withheld only so as not to compromise the investigation or a related investigation. The identities of individuals who provided information for the investigation may be withheld when the provisions of DOM 13030.13.3 are met.
- Would compromise the objectivity or fairness of a competitive examination for appointment or promotion in public services, or to determine fitness for licensure, or to determine scholastic aptitude.

Condition of Individual

- Pertains to the physical or psychological condition of the individual, if determines that disclosure would be detrimental to the individual. The information shall, upon the individual's written authorization, be disclosed to a licensed physician designated by the individual. When a determination is made that information is exempt under this exclusion, it shall be documented as follows:
 - For employees, a physician shall make a statement on the document (or attach a statement to the document) that disclosure of the information would be detrimental to the person about whom it was prepared.
 - For inmates/parolees, a physician shall prepare a CDC Form 128C, Medical Chrono, stating that disclosure of the information to the inmate/parolee would be detrimental. The information shall be included in ERMS by designated staff as soon as possible.
 - Relates to the settlement of claims for work-related illnesses or injuries and is maintained exclusively by SCIF.
 - Is required by statute to be withheld from the individual to whom it pertains.

13030.20 Deletion of Source Information

Where a source person, not in a supervisory relationship to the individual, provides nonexempt information to CDCR under a promise of confidentiality, the information shall be fully disclosed unless the information is otherwise exempt from disclosure. However, the identity of the source shall, in this circumstance, be withheld. The individual must either be allowed access to an exact copy of the information with only the source person's identity deleted or they must be provided with a comprehensive summary of the substance of the information, with particular attention to providing any nonexempt personal information that could affect the individual's reputation, rights, benefits, or privileges (See DOM 13030.13.3 for further information).

13030.21 Scheduling Inspection of Nonexempt Records

Revised April 11, 2014

Upon receipt of a proper written request, the inspection of records shall be scheduled as soon as possible by the caseworker, or personnel assistant, but no later than:

- Thirty days from the date the request is received in CDCR for active records and discharged CDCR archive files already available on ERMS.
- Sixty days from the date the request is received in CDCR for inactive records in central storage or for records which are geographically dispersed.

Failure by CDCR to respond within these time limits shall be deemed a denial to access of the record. All inspections of departmental records shall be supervised by a Department employee.

Location of Review

Inspection of a file kept by CDCR shall take place at the location where the record is usually maintained. The following exceptions may apply:

- If a court orders a file to be inspected at another location, CDCR shall comply with the court order.
- An attorney, who has obtained written, voluntary, and timely authorization from the person about whom the personal information is kept, may request to inspect a record at a departmental office or facility near the attorney's office.
- The person approving a request to inspect a record at an alternate location may, upon written request, approve the alternate site for the inspection only after receiving permission from the head of the office where the proposed inspection is to take place.

13030.22 Inmate/Parolee Review of Case Records

Revised April 11, 2014

Upon proper written request, an inmate or parolee [or, with proper authorization (see DOM 13030.14 for further information), their attorney or representative] shall be permitted to review their record ten days prior to any BPH meeting for any of the following:

- Reviewing eligibility for parole, release, or return.
- Setting, postponing, or rescinding a parole/release date.
- Evaluating an appeal of good time credit denial.

Compliance with DOM 13030.17.4 and 13030.20 shall precede any disclosure of a record.

13030.23 Information Available to the Public or News Media

Although CDCR records and files containing personal information identifying an individual are not public records and shall not, at any time or under any circumstances, be made accessible to the public or news media, non-personal information obtained from such records and files may be disclosed to individual members of the public and the news media without the individual's consent. Information shall be disclosed only by CDCR employees who have been trained and specifically designated to disclose personal information (See DOM 13030.3.1 for further information).

When responding to a request from the news media, the identity of the requester shall be determined, and the information disclosed shall be related to a current newsworthy event.

13030.23.1 Guidelines: Employee Information

Released

The following information about employees may be released:

- Class title.
- Class salary range.
- Work location.
- Work telephone number.
- Role or function in a newsworthy event.
- Records of adverse actions. A notice of such action filed with SPB is accessible to the public, just as hearings on appeals are considered open to the public, with rare exceptions to protect minors, wards, and patients under special circumstances.

Not Released

The following information is exempt and shall not be released:

- Photographs of the individual or their family members.
- Home address and telephone number.
- Performance evaluations unless they are at issue in an adversarial proceeding.

13030.23.2 Guidelines: Criminal Offender Record Information

CDCR employees shall not use the SSCH Information from CI&I to furnish information about an inmate's arrest history to the inmate's family, friends, prospective employers, the news media, or the public. Persons who are not authorized by State DOJ to receive the CI&I SSCH but who have a

legitimate interest in the inmate's past history may be given information from other nonexempt documents in the inmate's C-file.

Any person authorized by law to receive the CI&I SSCH, who knowingly furnishes the record or information to a person not authorized by law to receive it, is guilty of a misdemeanor.

Only the CCRM of headquarters and each facility or regional parole office shall release CI&I SSCHs, and they shall be released only to those agencies authorized by State DOJ to receive CI&I SSCHs.

State DOJ Guidelines for Dissemination of Criminal Offender Records Information shall be maintained in the records office at headquarters, facilities and regional parole offices.

Photocopy

When an inmate seeks to obtain a photocopy of a CI&I SSCH, they shall be instructed to complete a BCID Form 8705, Application to Obtain Copy of State Summary Criminal History Record, and a Trust Account Withdrawal Form in the amount of \$25.00 payable to DOJ. If there is an extra completed fingerprint card in the inmates C-file, it may be used with this application. Otherwise the inmate shall be fingerprinted. The records office shall forward the BCID Form 8705, the inmate's check, and the fingerprint card to DOJ for the inmate. There shall be no charge for these services by CDCR employees.

When an employee, parolee, or their attorney seeks to obtain a photocopy of a CI&I SSCH, they shall be referred to DOJ, the local sheriff, or the local police department to file an application for a CI&I SSCH.

13030.23.3 Guidelines: Inmate/Parolee Information

Not Exempt

Unless inmate/parolee information is classified as exempt, it may be disclosed. The following inmate/parolee information is not exempt [See DOM 13030.23.4 for guidelines on DJJ/CYA ward information]:

- Age.
- Date of birth.
- Birthplace.
- Race.
- CDCR identification number.
- Commitment offense for the current term of imprisonment and any prior commitments to prison.
- County(ies) from which committed.
- Any pending court action or records of court proceedings.
- Facility or field parole office having jurisdiction of the case.
- Anticipated date of release to parole or discharge.
- BPH hearing schedule and actions.
- Nature of an injury.
- Cause of death.
- The individual's role, functions, or actions relating to a newsworthy event.

Exempt

The following information is generally exempt from disclosure:

- Personal information about the inmate/parolee, except as provided above.
- Personal information about the inmate's/parolee's family, relatives, friends, associates, or former employer.
- Any other information about the inmate/parolee which is not relevant, pertinent, or directly related to a current newsworthy event or which may affect the safety of the inmate.

13030.23.4 Guidelines: DJJ Ward Information

No photographs or other information which pertains to a DJJ ward or which identifies an individual as a ward shall be released to the media or to the public without DJJ approval. This includes adult Superior Court commitments as well as Juvenile Court commitments covered by specific statutes. When a compelling reason or need exists, CDCR shall obtain DJJ approval prior to disclosing any information concerning a DJJ ward.

13030.23.5 Guidelines: Methadone Patient Information

Revised September 25, 2007

With the Patient's Consent

If the patient gives prior written consent, designated employees (see DOM 13030.3.1 and 13030.17.2 for identifying designated employees) may disclose necessary written or verbal information to the following persons:

- The patient's attorney.

- The patient's immediate family members as defined in Section 3000 of the Title 15, unless the person responsible for treatment believes the disclosure would be harmful to the patient.
- Employers and employment agencies when the information may assist in the patient's rehabilitation.
- A criminal justice agency which requires methadone maintenance as a condition of release, probation, parole, the disposition or status of any criminal proceedings against the patient, or pursuant to the execution or suspension of any sentence imposed upon the patient.
- Licensed physicians when the disclosure is necessary for them to furnish medical services to the patient to whom the personal information pertains.
- Licensed physicians when necessary to provide continued methadone maintenance when the patient is traveling, incarcerated, or hospitalized.

Document

Such disclosures shall be documented as follows:

- The name of the patient or assigned program case number.
- The time and date of the disclosure.
- The information disclosed.
- The names of individuals by whom and to whom the disclosure was made.
- The purpose for the disclosure.

Note: Consent to disclose information under this section may not be revoked for 60 days or until the condition for which it was given has terminated, whichever is later.

Without the Patient's Consent

If the patient does not give prior written consent, designated employees may disclose information verbally or in writing to the following persons:

- Licensed physicians to the extent required to meet a bona fide medical emergency if, upon disclosure, CDCR sends notification to the patient's last known address and the disclosure does not conflict with other state or federal law.
- Persons authorized by a court order to receive such information if, before disclosure, CDCR attempts to notify the individual unless the notification is prohibited by law.
- Qualified persons conducting authorized scientific research, management audits, financial audits, or program evaluation. The identity of individual patients shall not be disclosed, either directly or indirectly, in any resulting report.

13030.24 Reporting no Record When a Record Exists

In limited instances CDCR may respond to a request for personal information that no records are kept by CDCR, even though nonexempt information is kept. This exception is very limited and requires a court order pursuant to CC 1798.41(c).

CDCR may seek to use this exception only if disclosing the information would:

- Seriously interfere with attempts to prevent the commission of crime, or
- Endanger the life of an informant or other person who submitted the information contained in this record.

In order to bar disclosure of nonexempt personal information under this rule, the presiding judge of the superior court in the county in which the record is maintained must review the record in camera. If the judge agrees that the information meets the above criteria, the court issues an ex parte order authorizing CDCR to respond to the requester that no record is maintained, even though CDCR maintains a record.

Duration of Court Order

The maximum effective life of such order shall be no longer than 30 days. CDCR may seek renewals of the order at 30-day intervals. If an order expires, and CDCR receives another request to disclose the nonexempt personal information, CDCR would be required to obtain another court order or disclose the information.

Requests for Court Order

When a request for disclosure of information is received and the reviewer feels that the one, or more, of the above circumstances exist, the reviewer shall:

- Contact the Office of the AG (see DOM 14010.18.1) and request that the Attorney General seek an ex parte order authorizing CDCR to

respond to the person requesting the information that no record is maintained by CDCR.

- Provide sufficient justification to the Office of the AG to allow that office to approach the court and show cause why the information (otherwise not exempt from disclosure) should be withheld and why the ex parte order should be issued by the court.

13030.25 Transfer of Personal Information

Prior to the transfer of a record, particularly to another jurisdiction, the record shall be reviewed, corrected, and updated, and any portion known or believed to be inaccurate or untimely shall be withheld. Records are cumulative, and the accuracy and validity of information in the record is accomplished through continual updating and scheduled purging of outdated and unneeded information.

13030.26 Method of Disclosure

The CDCR shall present the information in a form reasonably clear to the general public. When the person to whom disclosure is made has difficulty understanding material contained in a record, the employee supervising the inspection of the record shall make a reasonable effort to help the person understand the record.

13030.26.1 Charges for Staff Services

There shall be no charge for staff services in supervising the inspection of a file during normal business hours by the requester, a requester's attorney, or any person designated and authorized by the requester to inspect the file.

When a person requests inspection of a file or record outside of CDCR's regular business hours for the office in which the inspection will take place, CDCR may, at its discretion, grant or deny the request. When CDCR grants the request, the requesting person shall be notified that a charge may be made to reimburse CDCR for any costs incurred in supervising the inspection of records outside of regular business hours and the amount of any charge.

The decision to grant or deny a request to inspect a file or record outside of regular business hours shall be made by the deputy or assistant director over a headquarters unit or the Warden or RPA with administrative control of the unit retaining the file or record to be inspected.

13030.26.2 Note-Taking During Disclosure

Notes may be taken during the inspection of a record. Notes shall be limited to brief references to specific documents the person intends to question or discuss with employees after the completion of the file review or to specific documents the person may decide to have copied. Verbatim copies of completed documents or lengthy portions of documents shall not be permitted during the inspection.

No person shall be permitted to use any pen and/or ink writing instrument during note-taking in the process of inspecting a departmental record. Only pencils may be used for the taking of notes.

13030.26.3 Copies of Records

July 23, 1997

When copies of arrest reports are requested by the subject of the report, they shall be referred to the agency where the report originated.

Copies of nonexempt information shall be provided to the requesting party, or their designee, when permitted by this section. All requests for copies of any record shall be in writing, and it shall clearly identify the document or material to be copied.

Requests for photocopies of documents shall be referred to the person who reviewed the request prior to disclosure for exempt information (For additional information on copying services, see DOM 13030.16.1, and 13040.20).

Upon a showing of a reasonable need to have a copy of a document, and upon payment of ten (10) cents per copied page, the requested copies shall be made and transmitted to the requesting party within 15 days of receiving the request.

There may be instances where a request to review a record is based upon the requester's need to obtain a copy of one, or even several, specific documents contained in a file. In those cases it may best serve the needs of CDCR to provide those copies (if the information is disclosable) rather than have an employee supervise a full inspection of the record by the requesting party. No charge shall be made when copies are furnished in lieu of a physical inspection of the full record.

13030.26.4 Staff Answering Questions during Record Inspection

Revised April 11, 2014

An employee supervising the inspection of a record may answer questions about nonexempt information contained in or related to the records or refer

the requester to the person who examined and approved the record for inspection.

Employees shall not engage in debates, justification, or discussions regarding departmental actions. Employees shall make genuine, reasonable efforts, when requested, to assist the requester in understanding nonexempt information being inspected. This could include, but is not limited to, reading a document (if the requester is illiterate), and explaining abbreviations and acronyms used by CDCR.

13030.27 Requests to Amend Records

Any person seeking to correct or amend a record CDCR obtained from another agency shall be directed to make their request to the agency from which the record originated.

Any person about whom CDCR maintains any record of personal information may request that the information be amended to correct outdated, inaccurate or incomplete information.

Requests to amend any record maintained by CDCR shall be directed to:

- The source of the contested information if the source is a departmental official or employee who is responsible for the contested information's placement or retention in the record or file.
- The keeper of the record being contested if the source person is not as described above or if the source person is no longer available.

13030.27.1 Contents of Requests to Amend Records

Any request to amend a CDCR record shall be in writing and shall contain at least the following:

- Sufficient specific identifying information to permit CDCR to locate the record and the specific portion of the record that is to be considered for amendment.
- The information the requester alleges should be amended.
- Those amendments the requester feels should be made.
- Full documentation to support and justify the amendment.

13030.27.2 Responses to Requests to Amend Records

The CDCR shall, within 30 days:

- Make each amendment in accordance with the individual's request and inform the individual of the amendments; or
- Inform the individual of CDCR's refusal to amend the record, the reason for the refusal, and the process established by CDCR for the individual to request a review of any refusal to amend the record (See DOM 13030.28 for further information).

13030.28 Appeals on Refusal to Amend Records

Inmate/Parolee Appeals

When an individual disagrees with CDCR's refusal to amend a record, they may request CDCR review that decision. Requests submitted by inmates and parolees for CDCR to review a decision not to amend a record shall follow the inmate/parolee appeal process, and shall be submitted on CDCR Form 602, Inmate/Parolee Appeal (refer to DOM 54100 for information concerning inmate/parolee appeals).

For requests submitted by employees and other than inmates and parolees, the first level of review shall be the Warden, RPA or division head (in headquarters). The second level of review shall be the Director.

For appeals from employees and persons other than inmates and parolees, the request shall be in writing and shall include the following:

- A copy of all previous requests to amend and any prior correspondence concerning amending the record.
- A copy of all previous CDCR responses and any prior correspondence concerning the request to amend the record.
- A full statement explaining why the individual disagrees with CDCR's denial.
- Full documentation to support and justify the request to review the refusal to amend the record.

Length of Review Period

Responses to requests to review a decision denying a correction or amendment to a departmental record shall be made no later than 30 days from the date of receipt within CDCR. Upon a showing of good cause, CDCR may extend the review period up to 30 additional days (for a total of not more than 60 days from the receipt of the request). The individual requesting a review shall be notified that CDCR extended the response time and the reasons establishing good cause to extend the response time.

Inmate/parolee appeals shall be handled within the established time limits for appeals.

13030.29 Statement of Disagreement

If the individual continues to be dissatisfied after the above review process has been completed, and the denial of the request to amend has been upheld, a statement of disagreement may be placed in the record by the individual about whom the information pertains.

Where the disputed information is an opinion, diagnosis, etc., of another person, the individual may place in the record a rebuttal or a counter opinion, diagnosis, etc. While no arbitrary limit is placed upon the length of the statement, the statement must be limited to a length reasonable to the circumstance or information disputed (normally from one to three pages).

13030.29.1 Effect of Statement of Disagreement

When a statement of disagreement is placed in the record, the original record shall not be altered. The statement of disagreement shall be made available to any person eligible to review the disputed information, and when the disputed information is disclosed, the statement of disagreement shall be included with the disclosure. If the statement of disagreement contains exempt personal information, for the purpose of future disclosure, it shall be screened, classified, and treated like any other information in the record. Any decision based upon the disputed information shall include a review of the statement of disagreement and a consideration of its contents.

Any disclosure of disputed information and a statement of disagreement shall include a concise statement of the reasons for CDCR's decision not to alter the original record.

The statement of disagreement shall remain a part of CDCR's record as long as the disputed information is retained in the record.

13030.30 Security of Records

Inmates and parolees shall not be used to gather, process, maintain, or handle exempt personal (formerly confidential) information. The use of inmates to process nonexempt information shall be minimized.

Administrative, technical, and physical safeguards shall be established and implemented to ensure compliance with the provisions of this section, to ensure the security and confidentiality of records, and to protect against reasonably anticipated threats and hazards which could result in damage to, dissemination of, or destruction of departmental records.

Records shall not be taken from their usual place of use or storage unless specifically approved by policy or procedures. Records shall not be taken off state property without the express permission of the Warden; RPA; Deputy Director, OLA; or their designees.

Records containing exempt personal (formerly confidential) information shall be stored in locked areas designed to protect the privacy and integrity of the records. When exempt personal information is not under the physical control and observation of a person authorized to review it, the record shall be returned to the locked area.

The authorized person reviewing exempt personal information shall assure its security while it is under their control.

Immediately after they have served their purpose, all preliminary drafts, carbon sheets, plates, stencils, stenographic notes, work sheets, and similar items shall be destroyed by the person responsible for their preparation.

13030.31 Mailing Personal Information

Exempt personal information shall be mailed in two envelopes as follows:

- The outer envelope shall be addressed in the normal manner, and it shall not be marked with any indication that exempt personal (formerly confidential) information is enclosed.
- The inner envelope shall be marked in one of two ways:
 - "CONFIDENTIAL to _____ unit." This envelope may be opened only by unit staff and handled in the manner, or
 - "CONFIDENTIAL to _____ unit. Mr./Mrs. _____ only." This envelope shall be opened by the designated person. Employees should be aware that if the designated person at the address is not available, the package or envelope shall not be opened until that person is available or other permission is obtained from the sender.

13030.32 Retention and Destruction of Personnel Information

The CDCR records shall be retained only as approved on STD Form 73, Records Retention Schedule (RRS), and DOM 72010. Every effort shall be made to protect the privacy of the information when it is being destroyed. All personal information in departmental records shall be shredded by hand or by machine.

Personnel records shall not be combined with non-personal records when being shipped, mailed (see DOM 13030.30 for further information), or transported for destruction.

13030.33 Civil Remedies and Penalties

Any individual may initiate a civil action if CDCR:

- Refuses to comply with an individual's lawful request to inspect their records.
- Fails to maintain any record concerning an individual with accuracy, timeliness, and completeness where the failure results in a determination adverse to the individual about whom the information pertains.
- Fails to comply with the IPA in such a way that it has an adverse effect on the individual about whom the information pertains.

Court May

In any suit brought against CDCR, the court may:

- Examine the contents of any record to determine whether the records may be withheld as being exempt from the individual.
- Award to the individual reasonable attorney's fees and other litigation costs, including payment for mental suffering, if the court's finding is adverse to CDCR.

Penalties

Penalties for noncompliance with the IPA are as follows:

- Any employee of CDCR who intentionally violates any part of the IPA shall be subject to adverse action, including termination of employment.
- Any person who requests or obtains any record containing personal information from CDCR under false pretenses shall be guilty of a misdemeanor and may be fined up to \$5,000, or imprisoned up to one year, or both.
- The intentional disclosure of medical, psychiatric, or psychological information is punishable as a misdemeanor if the wrongful disclosure results in economic loss or personal injury to the individual, except when the disclosure is required or permitted by law.

13030.34 Revisions

Revised April 11, 2014

The Director, Division of Administrative Services, or designee is responsible for ensuring that the contents of this article are kept current and accurate.

ARTICLE 16 — PUBLIC RECORDS

Revised January 2007

13040.1 Policy

All records of the Department of Corrections and Rehabilitation (CDCR) shall be safeguarded, maintained, and disclosed in compliance with the Government Code (GC) Sections 6250, 6275, 6276, et seq., Public Records Act (PRA).

13040.2 Purpose

This Article specifies staff responsibilities for the collection, maintenance, and disclosure of records identified as public records.

13040.3 General Review

When a written request is received to provide access to or copies of a CDCR record, staff shall look first to the provisions of the PRA in this article to determine if the record may be disclosed. If it is a public record, and the record contains personal information, the employee shall look to the

provisions of Department Operations Manual (DOM), Chapter 1, Article 15, Information Practices, to determine if the personal information is exempt from disclosure under the Information Practices Act (IPA).

13040.4 Definitions

Public Record - Includes any writing containing information relating to the conduct of the public's business prepared, owned, used, or retained by any state or local agency regardless of physical form or characteristics.

Writing - Any handwriting, typewriting, printing, photostating, photographing, photocopying, transmitting by electronic mail or facsimile, and every other means of recording upon any tangible thing any form of communication or representation, including letters, words, pictures, sounds, symbols, or combinations thereof, and any record thereby created, regardless of the manner in which the record has been stored.

13040.5 Security of Records

When the public is inspecting any record, an employee who shall ensure the security and integrity of the record shall directly supervise the inspection. The removal of any document or the altering of any record during a public inspection is prohibited. Note taking shall be limited in accordance with the provisions of DOM Chapter 1, Article 15, Information Practices.

13040.6 Designation of Public Records Act Coordinator

Each CDCR Division, Branch, Office, Institution, Parole Region, and the California Prison Industry Authority (CalPIA) shall have a designated Public Records Act Coordinator.

13040.7 Public Records Request

When a request for records is submitted on CDCR Form 1432, Request to Inspect Public Records, or other method, the recipient of the request shall give the request to his or her PRA Coordinator for processing. If the requested records are maintained by the recipient location, then the PRA Coordinator for the recipient location shall process and respond to the record request. If the requested records are maintained at a different location, the recipient PRA Coordinator shall immediately forward the request to the appropriate PRA Coordinator for response.

13040.7.1 Responsibility of All Employees

All employees who are public liaisons shall be made aware of the procedures established for public inspection of CDCR records through this Article. Employees shall be sensitive to any request from the public for the review of any records.

13040.7.2 Responsibility of Public Records Act Coordinator

The PRA Coordinator shall:

- Determine whether requested records are publicly disclosable in whole or part. Any questions concerning whether a requested record may be publicly disclosed shall be directed to the Office of Legal Affairs.
- Log and track the request in the Public Records Act Tracking System (PRATS).
- Respond to the request within 10 days.
- Gather and perform any necessary redaction of exempt information contained in the requested records.
- Provide or coordinate the supervision of records inspection by the public.
 - Assist the member of the public to identify records and information that are responsive to the request or to the purpose of the request, if stated.
 - Describe the information technology and physical location in which the records exist.
 - Provide suggestions for overcoming any practical basis for denying access to the records or information sought.

13040.8 Guidelines for Inspecting Public Records

The CDCR's headquarters and each institution, facility, parole region, and field or CALPIA office shall maintain a supply of CDCR Form 1431, Guidelines for the Inspection of Public Records, and CDCR Form 1432, Request to Inspect Public Records. Upon written/verbal request from any member of the public or any inmate/parolee, a copy of either form shall be provided, free of charge for their use in making a request to inspect public records.

13040.9 Notice to the Public

The CDCR's headquarters and each institution, facility, parole region, and field or CALPIA office shall display a conspicuous notice to the public at each main point of entrance used by the public. The notice shall contain the guidelines for inspection of public records, as provided in CDCR Form 1431.

13040.10 Hours of Inspecting Public Records

When public records are disclosed, they shall be made available by appointment for inspection during regular business hours.

13040.11 Where to Make a Request for Records

A request to inspect a public record may be mailed, emailed, faxed, or personally delivered to any unit or office of CDCR, in writing or by completing CDCR Form 1432. Requests to inspect public records may also be submitted verbally in person or via telephone. To avoid a misunderstanding of the information requested, the receiver of the request should encourage the requester of a verbal request to submit the request in writing.

13040.11.1 Retention of Public Records Act Requests

Public Records Act requests shall be maintained for at least 3 years or until the requested record is destroyed, whichever is shorter.

13040.12 Specifically Included Public Records

The following CDCR records are included in the general category of public records:

- California Code of Regulations (CCR), Title 15, Crime Prevention and Corrections.
- Non-confidential DOM and CDCR procedures.
- Director's bulletins and directives.
- Non-confidential local operational plans and procedures.

13040.13 Disclosure of Information

The CDCR shall disclose information about an incident, arrest, or complaint as outlined below, unless the disclosure would endanger the safety of a witness or other person involved in the investigation or the successful completion of an investigation or a related investigation per GC 6254, et seq., or disclosure is prohibited by law (see Chapter 1, Article 15, Information Practices).

Disclosure of Information Concerning an Incident

The following information concerning an incident shall be disclosed to those persons listed in the next section: Who Can Receive Information Concerning an Incident.

- The name and address (use the business address for CDCR employees) of persons involved in or witnesses (other than confidential informants) to an incident.
- The description of any property involved.
- The date, time, and location of the incident and all diagrams.
- The statements of all parties involved in the incident and the statements of witnesses (other than confidential informants).

Who Can Receive Information Concerning an Incident

Only the following shall receive information concerning an incident:

- A judicial, law enforcement, or regulatory agency when required for the performance of their lawful duties.
- The victim of the incident.
- An authorized representative of the victim.
- An insurance carrier against which a claim has been or might be made.
- Any person suffering bodily injury or property damage or loss as a result of the incident caused by:
 - Arson.
 - Burglary.
 - Fire.
 - Explosion.
 - Larceny.
 - Robbery.
 - Vandalism.
 - Vehicle theft.
 - Use of a motor vehicle, aircraft, or water vehicle in a manner which intentionally inflicted death or injury.
 - Violation of Vehicle Code 23152 or 23153.
 - The immediate act of fleeing the scene of a crime in which the person knowingly and willingly participated.

Disclosure of Information Concerning an Arrest

The following information concerning an arrest shall be disclosed:

- Full name and occupation of every individual arrested.
- A description of every individual arrested which includes the following:

- Date of birth.
- Color of eyes and hair.
- Sex.
- Height.
- Weight.
- Time and date of the arrest.
- Time and date of the booking.
- The location of the arrest.
- The factual circumstances surrounding the arrest.
- The amount of bail set (if any).
- The time and manner of release or the location where the individual is currently being held.
- All charges upon which the individual is being held, including any outstanding warrants from other jurisdictions and parole or probation holds.
- The current address of every individual arrested by CDCR and the current address of the victim of a crime, where the requester declares under penalty of perjury that the request is made for a scholarly, journalistic, political, or governmental purpose, or that the request is made for investigation purposes by a licensed private investigator, EXCEPT that the address of the victim of any crime defined by Sections 220, 261, 261.5, 262, 264, 264.1, 273(a), 273(d), 273.5, 286, 288, 288(a), 289, 422.6, 422.7, 422.75, or 646.9 of the Penal Code shall remain confidential.

Disclosure of Information Concerning a Complaint

The following information concerning a criminal complaint received by the CDCR shall be disclosed:

- The time, substance, and location of all complaints received by the CDCR.
- The time and nature of the response.
- To the extent the information is recorded, the following may be disclosed:
 - The time, date, and location of the occurrence.
 - The time and date of the report.
 - The name and age of the victim-EXCEPT at the victim's request, the name of the victim of any crime defined by Penal Code Sections 220, 261, 261.5, 262, 264, 264.1, 273(a), 273(d), 273.5, 286, 288, 288(a), 289, 422.6, 422.7, 422.75, or 646.9 shall not be disclosed.
 - The factual circumstances surrounding the complaint.
 - A general description of any injuries, property, or weapons involved.

13040.14 Exemptions from Disclosure

Records exempt from public disclosure include, but are not limited to, the following:

Working Documents

Preliminary drafts, notes, memorandums, etc., which are not retained in the ordinary course of business, are exempt from disclosure provided that the public interest in withholding the record clearly outweighs the public interest in disclosure.

Litigation Records

Records pertaining to pending litigation in which CDCR is a party or to claims made under the California Tort Claims Act are exempt from disclosure until the pending litigation or claim has been finally adjudicated or otherwise settled. Records specifically created by the lawyer or agency (attorney work-product) for the litigation are exempt from disclosure.

Unwarranted Invasions of Privacy

Personnel, medical, or similar files are exempt from disclosure if disclosure would constitute an unwarranted invasion of personal privacy or would cause disclosure of exempt personal information under DOM, Chapter 1, Article 15, Information Practices.

Examination Data

Test questions, scoring keys, and other examination data used to administer a licensing examination, examination for employment, or academic examination, except as provided in the Education Code 99150(4), are exempt from disclosure.

Prohibitions in Other Laws

Records are exempt from disclosure when provisions of federal or state law, including, but not limited to, provisions of the Evidence Code 1040, et seq., relating to privilege, and of the Information Practices Act, Civil Code 1798, et seq., prohibit disclosure or establish an exemption from disclosure. See also DOM, Chapter 1, Article 15, Information Practices.

Financial Data

Statements of personal worth or personal financial data required by a licensing agency and filed by an applicant with the licensing agency to establish his or her personal qualification for a license, certificate, or permit applied for are exempt from disclosure.

Complaints, Investigations, and Intelligence Records

Records of complaints to, investigations by, or intelligence information or security files of CDCR, or such information in the possession of CDCR, but compiled by another state or local agency for correctional, law enforcement, or licensing purposes are exempt from disclosure. This exemption shall include plans and operating procedures that protect the internal security of CDCR and its operational units.

Adult Probation Reports

Disclosure of adult probation reports to the public is prohibited.

Analysis and Conclusions of Investigating Officers

The portion of investigative files that reflect the analysis and conclusions of the investigating officer are exempt from disclosure.

Extradition and Clemency Records

All records compiled in the process of extradition or the exercise of executive clemency are exempt from disclosure.

Correspondence of and to the Governor's Office

Correspondence of and to the Governor or employees of the Governor's office are exempt from public disclosure.

Balancing of Public Interests

A record is exempt from public disclosure if CDCR demonstrates that based on the facts of a particular case the public interest served by not disclosing the record clearly outweighs the public interest served by disclosure of the record. (Note: prior approval by the Governor's office is required whenever CDCR plans to invoke the balancing of public interests exemption. CDCR's Office of Legal Affairs shall facilitate the notification to the Governor's office upon notification from a PRA Coordinator of CDCR's intention to invoke this exemption).

13040.15 Locations for Inspecting Public Records

The location of records that may be inspected under the PRA is left to the discretion of the Agency Secretary; Undersecretary; Assistant Secretary; Director; Chief; Deputy Director; Warden; General Manager, CALPIA; PRA Coordinator; and/or Field Office Supervisor.

13040.15.1 Inmate Inspection of Specifically Included Public Records

Copies of the specifically included public records shall be located in the inmate law library and/or at other centralized locations at which they shall be available to all inmates.

13040.16 Duplicate Records for Public Inspection

The CDCR shall not maintain any record at a specific location solely for the purpose of inspection by the public. There may be instances where it is necessary, desirable, or advantageous to CDCR to maintain a duplicate record at centralized or more accessible locations for public inspection purposes. Any such duplicate record shall be as up-to-date and complete as the original or working record used by staff.

13040.16.1 Disclaimer Concerning the Validity of Duplicate Records

When separate copies of a record are maintained exclusively for public and/or inmate inspection, a disclaimer notice shall be affixed to the record's cover or folder. This notice shall read:

"THE CONTENTS OF THIS MANUAL/FILE/RECORD REPRESENTS THE LATEST INFORMATION RECEIVED IN WRITTEN FORM. CONTENTS MAY BE OUTDATED AS THE RESULT OF NEW OR REVISED INFORMATION WHICH HAS NOT BEEN RECEIVED OR FILED."

This disclaimer shall be given verbally when a record, which is maintained exclusively for public and/or inmate inspection and which does not have a written disclaimer attached, is disclosed.

13040.17 Copy Services

Upon receipt of payment of the cost of the reproduction, a copy of the disclosable public record, or any portion thereof, shall be provided to the

requester. The copy cost for public records is 12 cents per page plus postage. *Note:* The employee receiving the funds for providing copies of public records shall explain on the receipt the number of pages at 12 cents per page plus postage for the reproduction of public records.

13040.18 Time Limits for Responding to Record Requests

When a request for a copy of or to inspect CDCR records is received, CDCR shall notify the requester within 10 days of receiving the request whether CDCR will comply with the request. If a determination is made to release copies of public records to a requester, CDCR shall advise the requester of the copy cost and the copies of the requested records shall be provided to the requester upon receipt of payment of the copy costs. If a determination is made not to release copies to a requester, CDCR shall notify the requester the specific reasons for denying the request.

13040.18.1 Extension of Time Limits

In unusual circumstances, the 10-day time limit for determining and notifying the requester whether the request seeks copies of disclosable public records may be extended by written notice. When CDCR determines unusual circumstances exist (see below), the requester shall immediately be notified (and no later than 10 days from the date of receipt of the request) in writing of the extension, the reasons for the extension, and the date upon which a determination is expected to be dispatched. No such notice shall specify a date that would result in an extension of more than 14 days. For the purpose of this Section, "unusual circumstances" means, but only to the extent reasonably necessary for the proper processing of the particular request, the need to:

- Search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request.
- Search for, collect, and appropriately examine a voluminous amount of separate and distinct records which relate to a single request.
- Consult with another agency having a substantial subject matter interest therein. This consultation shall be conducted with all practicable speed.

13040.18.2 Justification for Denying Access to Records

Any time a request under the PRA is denied, CDCR shall justify withholding the record. The CDCR is required to demonstrate one of the following:

- The requested record is exempt under expressed provisions of the PRA.
- The requested record is exempt under expressed provisions of the IPA.
- On the facts of the particular case, the public interest served by not making the record public clearly outweighs the public interest served by the disclosure of the record. Any notification of a denial of any request under the PRA shall set forth the names and titles or positions of each person responsible for the denial.

13040.18.3 Appeals of Decisions Denying Access to Records

When a decision is made not to disclose a record, and the Inmate/Parolee requester disagrees, the requester may appeal the decision through the appeals process described in DOM, Chapter 5, Article 53, Inmate/Parolee Appeals.

13040.19 Revisions

The Assistant Secretary, Office of Public and Employee Communications, or designee shall be responsible for ensuring that the contents of this Article are kept current and accurate.

ARTICLE 17 — MOTION PICTURES, RADIO, AND TELEVISION

Revised September 28, 1998

13050.1 Policy

Any audio, video, or photographic production at any State correctional institution/facility, except those for a general interest daily newscast by a television or radio station holding a license to broadcast from the FCC, shall be governed by provisions of this policy section.

13050.2 Purpose

The purpose of this policy is to identify departmental and statutory requirements that production media shall satisfy prior to being granted an approval for any audio, video, or photographic production at any State correctional institution/facility, except those for a general interest daily newscast by a television or radio station holding a license to broadcast from the FCC.

13050.3 Objectives

Departmental objectives governing access for any audio, video, or photographic production at any State correctional institution/facility, except those for a general interest daily newscast by a television or radio station holding a license to broadcast from the FCC are to:

- Present the public with a true and accurate account of Department operations.
- Promote greater public awareness of the CDC's public safety mission, programs, and issues through the media.

13050.4 Authority

Approval to conduct any media production activity in a State correctional institution/facility is granted jointly by the Warden/RPA and the Assistant Director, Communications, with the approval of the Director.

13050.5 Definition

Media representatives are defined in the CCR 3000 and in the DOM 13010. Non news related production shall be synonymous with and include motion pictures, features, news magazine programs, public affairs programs, weekly or monthly programs, cable or Internet productions, documentaries, shorts, commercials, and any other production form that is not for general interest daily newscast purpose.

13050.6 Preliminary Screening and Referral

Upon receiving inquiries from production companies, the PIO for the institution/facility/parole region shall determine if the inquiry pertains to a news or non news related venture as defined above and in DOM 13010.

News Related

If the proposed production pertains to news, the PIO shall follow procedures identified in DOM 13010.

Non News Related

If the production activity proposed is non news related, the PIO shall refer the company to the office of the Assistant Director, Communications, for further processing.

13050.7 Approval Procedure/ Obtaining Permit

After the company has discussed the proposed activity with the Assistant Director, Communications, and received CDC approval for the project, the company shall also apply for and receive a Photography/Motion Picture Permit from the California Film Commission (CFC).

- The company shall produce evidence of financial responsibility and liability insurance.
- *Note:* Present industry practice and the recommendation of the DGS, Office of Risk and Insurance Management is for general liability coverage of at least one million dollars, with the State of California, its offices, employees, and agents as the "additional insureds" under the terms of the policy.
- The company shall be required to keep this permit readily available throughout location filming.
- Minor changes in the permit may be made at the site by the PIO who shall initial the change.
- Major changes shall be handled with a permit rider through CFC.
- The company shall file a formal application to film at a specific location with the Assistant Director, Communications.

13050.7.1 Applicant Screening

The assigned Communications Officer from the office of the Assistant Director, Communications, shall screen applicants and verify with CFC that the applicant has:

- A valid permit.
- Insurance coverage.
- No history of past complaints with CDC.

The assigned Communications Officer shall determine from the company:

- Production location needs.
- Production schedule and duration.

- Number of crew personnel required to be admitted.
- Security coverage needed.
- Type/quantity of production equipment on premises.
- Level of overcrowding at the institution/facility/housing unit to be used.
- Custody level of inmates at the institution/facility/housing unit to be used.
- Degree of institution/facility/housing unit program disruption as a result of the production's presence.
- Impact on surrounding homeowners.

13050.7.2 Script Screening

The company shall furnish a copy of the script and/or a production outline to determine whether the program/motion picture on CDC property will be consistent with the safety and security of the institution/facility, public, staff, and inmates, and will not unduly interfere with the operation of CDC. The Communications Officer shall reject the application if the proposed production activities compromise facility safety and/or security. In accordance with GC 14998.8(f), CDC shall have five working days to disapprove a film permit application or it is deemed approved.

No use of firearms (real or simulated), other weapons, or use of pyrotechnics on CDC property shall be permitted. In addition, it would, in general, be inconsistent with the above factors if the script proposed to produce the following on CDC property:

- Material which has been designed to glamorize crime or criminals or to intentionally invoke sympathy for them.
- Material which justifies or encourages criminal behavior.
- Display of criminal skills which appear to provide instruction in criminal behavior.

If portrayed in the program, CDC shall be presented in a true and accurate light.

13050.7.3 Script Handling

The script shall be handled in the form and manner prescribed for copyrighted material. It shall be used solely for the purpose intended and shall not be copied in any form and/or distributed to anyone without the expressed written permission of the Director.

13050.8 Criminal History Check

The CDC shall run a criminal history request through CI&I and the FBI on all reporters and crew members to determine eligibility for access onto institution/facility grounds/security areas in accordance to the CCR 3173, 3176, and 3177, DOM 31070, and good sound judgment.

13050.9 Formal Agreement

After all appropriate script changes, institution/facility/production agreements, and background checks have been made, the company shall:

- Sign a CDC Form 1846, Film Permit, with the Assistant Director, Communications, or designee.
- Receive a CDCR Form 181, Primary Laws, Rules, and Regulations Regarding Conduct and Association with State Prison Inmates (previously titled Digest of Laws Related to Association with Prison Inmates).

Originals of all signed documents shall be maintained in the office of the Assistant Director, Communications. Copies shall be given to the company and the Warden/RPA.

Requests for script changes after the signing of the location agreement shall be referred to the Assistant Director, Communications for approval.

13050.10 Basic Orientation Class

The PIO shall conduct a basic orientation class for all approved crew members. All crew members shall be apprised of expectations within a State correctional institution/facility.

13050.11 Communication Ground Rules

When resolving conflicts/issues during production, the PIO shall deal only with the pre-designated company representative (e.g., producer, director).

- The PIO shall advise the pre-designated company representative to communicate solely with the PIO's office in all matters.
- All previously arranged time frames, personnel, and production site(s), shall be adhered to.

13050.12 Institution/Facility Internal Notification

The PIO shall prepare appropriate memos and distribute them to all affected areas prior to any production activity or lack of any activity (in the event there are changes regarding the use of an area).

13050.13 Issuing Identification Cards

Approved crew members shall be required to wear identification (ID) cards issued by the institution/facility that shall be surrendered upon exiting the institution/facility. (See DOM 31070.)

Crew Processing

The PIO and Entrance Gate Officer(s) shall verify the identity of each crew member by ID, sample signature, and other visible identification prior to granting entry.

Crew members shall sign in and out at the entrance gate and, at all times, be escorted by the PIO or the PIO's designee to pre-approved locations. The PIO shall collect and maintain possession of all issued ID cards at the sign-out time, and shall reissue them during the next signing-in process.

13050.14 Cancellation of Approval

The Warden/RPA shall, in agreement with the Assistant Director, Communications, stop all production activity at any phase if, in their judgment, the production has:

- Compromised the safety and security of the institution/facility.
- Failed to adhere to the conditions stipulated in the agreement.
- Revealed evidence that indicates the company provided false information/documentation prior to being approved to conduct its planned activities.
- Violated State laws or CCR rules while on State grounds.
- Revealed (or staff have discovered) that production members conspired with an inmate(s) to circumvent CDC's policies/procedures.

13050.15 Custody Supervision/Escort

Appropriate peace officer personnel shall oversee and provide security for all production activity.

Crew members shall be under escort at all times and shall be supervised by specific peace officer personnel who are thoroughly familiar with CDC's public information and community relations policies.

13050.16 Employee Participation

No employee shall participate in any motion picture/radio/television or other production wherein their appearance is based primarily on the fact they are employed with CDC, unless prior written approval has been granted by the Director, or designee.

It shall be considered a conflict of interest for any employee to be in the employ of the production firm. (See CCR 3413 and PC 2540.) It shall be considered a conflict of interest for an employee in the approval or security clearance process to participate or appear in any motion picture/radio/television or other production. These employees include, but are not limited to, the Warden, institution/facility head, Chief Deputy Warden, Associate Warden, Facility PIO, Administrative Assistant to the institution/facility head, and Institution/Facility Chief of Security.

13050.16.1 Billing For Department Employees

When production activities disrupt the normal routine of the institution/facility/parole region and require special arrangements and/or the assignment of additional personnel to cover the activity of the production crew, the company shall be required to pay the cost of the additional personnel, rental fees for any props, inmate clothing, incidental damages, and other appropriate expenses, excluding a "user's fee."

FLSA

Approved "on duty" employee work hours shall be recorded on FLSA sign-up sheets and security coverage costs shall be billed at the current overtime rate for the top salary range in each classification represented plus benefits.

Billing

Billing shall be done as follows:

- The accounting office of the affected institution/facility/parole region shall prepare a statement of incurred expenditures on an OSP Form 132-A, the standard departmental invoice.
- The completed OSP Form 132-A shall be sent to CFC (Attention: Permit Coordinator/Billing) who shall bill the motion picture production company on the Department's behalf.

All fees collected by CFC, pursuant to this section, shall be deposited in the Film Transfer Account in the State's Special Deposit Fund for disbursement to the affected institution/facility/parole region.

13050.17 Inmate/Parolee Participation

If the production company wishes to utilize inmates or parolees returned to custody, the Joint Venture Coordinator may be contacted to determine whether inmate participation can be arranged under the Joint Venture program and if so, establish the necessary billing and payment instruments.

The PIO or designee shall exercise good judgment in screening and dealing with prospective inmate/parolee participants and exclude from consideration those who are:

- High interest.
- High risk.
- Condemned inmates/life parolees.
- Inmates/parolees awaiting trial.
- Under court ordered gag rule/minute order prohibiting the inmate/parolee from media contact.
- Inmates diagnosed as psychotic and/or, in the opinion of their attending psychiatrist/psychologist, such participation would be detrimental to their condition.

No inmate/parolee shall be photographed or have their voice recorded unless they have first properly signed the CDC Form 146, Inmate Declaration to News Media Contact. This form shall be a permanent part of the inmate's/parolee's C-File.

Controlled Conditions

Inmates and parolees shall participate under carefully controlled conditions as follows:

- The participating inmates/parolees shall be assigned as "extras" and/or to other non starring roles.
- Inmate/parolee participation, except for Joint Venture projects, shall be strictly on a volunteer basis. They shall not receive any remuneration or be entitled to any "day for day" privileges.
- The same inmate/parolee shall not be used repeatedly while they are under CDC's jurisdiction.
- The inmates/parolees shall not act their own "true life" parts or the part of other inmates/parolees.
- Random interviews with inmates are prohibited unless specifically authorized in the CDC Form 1846.
- The random inmate interviews shall take place at the location of the inmate program. (Inmates must sign a CDC Form 146.)
- The duration of the random interviews shall not exceed ten (10) minutes per inmate.

Additional guidelines addressing inmate/parolee participation are found in DOM 13010 and shall be adhered to.

Public Interest

Precautions shall be taken to avoid focusing public interest on individual inmates/parolees.

Contributions

The media/producers are welcome to contribute toward the IWF and/or make other Director approved contributions to the institution/facility/parole region. Gifts and gratuities shall not be given directly to inmates/parolees.

13050.18 Revisions

The Assistant Director, Communications, or designee shall be responsible for ensuring that the contents of this section are kept current and accurate.

PC § 2540.

FLSA.

ARTICLE 18 — LEGAL MATTERS

Revised November 4, 2008

14010.1 Policy

Appropriate legal representation and assistance shall be provided when the Department or its employees are subjected to legal proceedings.

Prompt action is required to resolve all legal matters because of time limits imposed by courts for responses in judicial proceedings.

14010.2 Purpose

This Section establishes guidelines for the Department to follow when legal issues arise and describes how to use the Department's OLA and the AG's Office in any legal proceedings involving the Department and/or its employees.

14010.3 Definitions**Civil Action**

An action brought to recover some civil right, or to obtain redress for a wrong, which is not a crime.

Complaint

A legal document setting forth the alleged charge or cause of action. It notifies the defendant that an alleged charge or cause of action has been filed.

Criminal Action

An action prosecuted by State or Federal agencies as a party against a person for the purpose of either preventing the commission of a crime, or for fixing the guilt for a crime already committed and punishing the offender.

Legal Process

As used in this Section, legal process is a generic term that refers to all lawful proceedings and the documents used in those proceedings. This includes writs, applications for writs, summons and complaints, orders to show cause, etc. It does not include subpoenas as they are described separately.

Personal Service

The delivery of legal process to a party, either a person or the Department, or a designee authorized to receive such service.

Subpoena

A means of legal process compelling a witness to appear and give testimony at the time, date, and place specified.

Subpoena Duces Tecum

A means of legal process compelling the keeper of a record, document, or file to make the record, document, or file available for examination at the time, date, and place specified.

Substituted Service

The delivery of legal process by any legal means other than personal service.

Summons

A legal document which, when properly served, gives the court jurisdiction over a defendant, and orders a defendant to appear in court at the time, date, and place specified to answer a complaint.

Writ

A written order issued by a court, commanding the party to whom it is addressed to perform or cease performing some specified act. A party seeking a writ must file a petition for a writ before the court can issue the writ. A petition for a writ is frequently, but inappropriately, referred to as a writ.

14010.4 Types of Litigation

Litigation may involve criminal charges against a party or it may be seeking to correct some civil wrong.

Generally, the Department and/or its employees become involved in judicial proceedings for one or more of the following reasons:

- An inmate is participating in litigation, which may or may not name the Department as a party. This may involve:
 - An active case in which the inmate is a party.
 - An active case in which the inmate is needed as a witness.
 - A recently filed case in which the inmate must be served as a party.
- The Department and/or its employees have been named as parties in a case arising from departmental activities.
- An employee has been named as a party in a case, which arises from the employee's duties with the Department.
- A party to a case requires some information in the possession of the Department or its employees, such as:
 - The testimony of an employee who observed an event (a percipient witness).
 - The testimony of an employee who has some expertise in a particular field but no direct knowledge of the event which is the subject of the case (an expert witness).
 - A record in possession of the Department or an employee.

Anytime the Department becomes involved in legal proceedings, the AG's Office acts as the attorney for the Department and/or its employees and represents the Department and its employees in court except when:

- The AG's Office authorizes the Department to hire outside counsel.
- The AG's Office asks a DA to represent the Department in a particular matter.

- The action is filed in small claims court as discussed in the DOM 14010.8.

14010.5 Notice to OLA

Anytime the Department, Secretary, Undersecretary, Chief Deputy Secretary, Assistant Secretary, Director, Warden, or RPA is named in a legal action, a copy of the summons and complaint or legal process shall be immediately forwarded to the OLA and the appropriate AG's Office by Correctional Case Records Administration (CCRA), the Litigation Coordinator, or the Correctional Case Records Manager (CCRM). Multiple copies on the same suit are not required.

Copies of all petitions for writs shall be forwarded to the OLA at the same time they are sent to the AG's Office.

14010.6 Subpoenas — in General

All employees of the Department are subject to being subpoenaed concerning actions arising from their employment with the Department.

Any employee subpoenaed in any action regarding an event or transaction which the employee perceived or investigated in the course of the employee's duties, or as an expert witness, shall immediately notify their supervisor of the time, date, location, and case upon which the employee must appear.

A person who fails to obey a subpoena, which is properly served, can be held in contempt of court. Employees shall appear in court, pursuant to a subpoena, unless they are directed not to appear by one of the following:

- The person issuing the subpoena.
- A representative of the AG's Office assigned to the case.
- An attorney from the OLA.
- A Litigation Coordinator working on the case in which the employee is subpoenaed.

When a subpoena is received, it is absolutely imperative that it is processed as quickly as possible to the appropriate unit. (See DOM 14010.6.9.)

14010.6.1 Subpoenas — Criminal

Revised September 26, 2011

Criminal subpoenas may be issued by any of the following:

- A magistrate before whom a complaint is filed or the magistrate's clerk.
- A District Attorney (DA), a Deputy DA, or the attorney's investigator.
- The defense attorney of record or the attorney's investigator.
- A judge in support of a complaint or an indictment.
- A judge acting at the request of a grand jury.

No person is obliged under a criminal subpoena to attend as a witness before a court that is out of the county where the witness resides or is served with the subpoena unless:

- The distance is less than 150 miles from the employee's residence to the place of trial, or
- The subpoena is endorsed by:
 - The judge of the court in which the offense is triable.
 - A judge of the Superior Court.
 - A justice of the Supreme Court

14010.6.2 Subpoenas — Civil

Civil subpoenas may be issued by a variety of jurisdictions and they compel either the production of a document or the attendance of a witness when the witness is a resident of the State at the time of service. Civil subpoenas are signed in blank by the issuing court and they are completed by the party seeking to examine the witness or document.

14010.6.3 Subpoenas — Who Can Accept Service

Not all employees are legally authorized to accept service of a subpoena on behalf of the Secretary, another employee, or an inmate.

Only employees who are authorized in writing to accept service of a subpoena for another, except as noted under DOM 14010.6.5.2, shall accept such service on behalf of another person.

14010.6.4 Subpoenas — Designating an Agent to Accept Service

Any employee of the Department may designate in writing another employee as their agent to accept service of a subpoena in legal matters related to the employee's work with the Department. No personal service of a subpoena shall be accepted for another person without written authorization from that person.

The designation of an agent to receive service under this Section authorizes that agent to receive service of legal process discussed later in this Section (see DOM 14010.7.2).

Any employee for whom service of a subpoena has been accepted shall immediately be notified and given a copy of the legal documents.

The transfer, resignation, or retirement of either the person authorizing another to accept service or the designee shall automatically revoke the authorization to accept service.

14010.6.5 Subpoenas — Types of Service

Subpoenas may be received by personal service in civil cases and by either personal service or substituted service in criminal cases.

14010.6.5.1 Subpoenas — Personal Service

Personal service implies giving the subpoena to the person to whom it is addressed. If the person to whom the subpoena is addressed has designated an agent in writing to accept service of subpoenas, service of a subpoena upon that person is the same as personal service upon the person to whom the subpoena is addressed. Personal service is permitted in all cases.

14010.6.5.2 Subpoenas — Substituted Service

Substituted service is the delivery of a subpoena to the person to whom it is addressed by any method other than personal service. Substituted service is not permitted in civil matters, but is permitted in criminal matters.

Substituted service of criminal subpoenas may be accomplished by the delivery of the subpoena by any of the following:

- USPS.
- Messenger.
- Delivery to the immediate supervisor of an officer.

Service given to an officer's immediate supervisor requires the delivery of two (2) copies to the supervisor. Substituted service upon the immediate supervisor may be refused, or returned, by the immediate supervisor as specified in DOM 14010.6.7 and 14010.6.8.

- For the purpose of this discussion, reference to the officer's immediate supervisor includes an authorized designee of the supervisor.

14010.6.6 Subpoenas — Accepting Substituted Service

Substituted service of a subpoena is effected only when the person to whom it is addressed acknowledges receipt of the subpoena. Acknowledgement of substituted service shall not be made without first checking with the OLA, unless the subpoena is for the prosecution of an in prison offense. Acknowledgement is made by telephone, mail, or in person, as directed on the subpoena.

Although substituted service is not completed until acknowledged by the person to whom it is addressed, an employee failing to acknowledge substituted service may be required, by the court, to pay the cost of undertaking another means of service.

A subpoena delivered by substituted service has the same force and effect as a subpoena received by personal service, once it is received and acknowledged.

An officer's immediate supervisor who accepts substituted service shall ensure delivery of the subpoena to the officer as soon as possible, but in no event later than such time as shall enable the officer to comply with the subpoena.

When substituted service for an officer is tendered to an immediate supervisor, the superior shall insure that:

- The addressee is an officer and that the supervisor is, in fact, the addressed person's immediate supervisor.
- Sufficient time remains to accomplish delivery of the subpoena to the officer.
- The supervisor can reasonably expect to deliver the subpoena to the officer in sufficient time to permit the officer to comply with the subpoena (taking into account regular days off and holidays for both the supervisor and the officer).

14010.6.7 Subpoenas — Refusing Substituted Service

When an immediate supervisor is tendered service of a subpoena for an officer less than five (5) days prior to the date of the scheduled appearance, and/or the supervisor is not reasonably certain they can complete service to the officer in sufficient time for the officer to comply with the subpoena, the supervisor may refuse to accept service of the subpoena. The supervisor shall notify the server of the reason for the refusal at the time service is being attempted.

14010.6.8 Subpoenas — Inability to Complete Substituted Service

Where an immediate supervisor has accepted substituted service of a subpoena for an officer, and it is subsequently determined that delivery to the officer is not reasonably possible within time to allow the officer to comply, the immediate supervisor shall notify the server, or the server's office (not less than 48 hours prior to the hearing date specified on the subpoena) that service can not be completed. No legal penalty shall arise in connection with

compliance with this procedure. First, however, all reasonable attempts to complete service shall have been made.

14010.6.9 Subpoenas — Instructions to Subpoenaed Employees

The OLA shall immediately be notified when:

- An authorized employee receives a subpoena for the Secretary, Undersecretary, Chief Deputy Secretary, Assistant Secretary, or Director.
- There is a need to quash a subpoena.
- The affected employee or the litigation coordinator believes the subpoena was not properly served.

The OLA shall provide directions on how to proceed.

Local litigation coordinators, CCRM's, or a CCRA shall immediately contact the AG's Office if the subpoena is connected to a case in which the AG's Office is representing the State, the Department, or an employee.

The procedure for referrals to the AG's Office is covered under DOM 14010.6.11.

Within one week of sending the transmittal letter to the AG's Office, case records personnel shall ensure that the employee, on whose behalf service had been accepted, has signed and forwarded to the AG's Office a Request for Representation.

When an employee receives a subpoena (other than as outlined above), there is no need to notify the OLA, unless there are reasons to attempt to quash the subpoena.

Anytime an employee is served with, or otherwise receives, a subpoena arising from employment with the Department, the employee shall:

- Contact the litigation coordinator, the CCRM or CCRA.
- Complete a Request for Representation, unless a request has previously been filed for the specific case.

Employees consulting or testifying as a specialist or an expert witness, based on experience gained in the course of their employment with the Department, should first review Department regulations governing incompatible activities, CCR Section 3413(a)(10).

Retired employees shall contact the appropriate staff person at their former institution, region, office, or the OLA.

14010.6.10 Subpoenas — Requests to Disclose Information

When an employee is requested to disclose information by any party to a lawsuit, either informally or by service of a subpoena, the employee shall consider the following:

- Information from public records shall only be disclosed in accordance with DOM 13040.
- Information from employee and inmate files shall only be disclosed in accordance with DOM 13030 and 13040.
- Only the documents specifically named shall be disclosed.

14010.6.10.1 Subpoenas — Non-Peace Officer Personnel Records

Response to a subpoena for information from non-peace officer personnel records shall be as follows:

- Provide the information if:
 - Employee consents in writing to the disclosure of the information; or
 - Disclosure is permissible as a public record or as non-exempt personal information (see DOM 13030 and 13040).
- Contact the OLA if:
 - Employee does not consent in writing to the disclosure of the information; and
 - Exempt personnel information is requested.

In civil actions in which the Department is not involved, and where only payroll or medical records are requested, a subpoena for non-peace officer records shall be complied with. No appearance shall be made on behalf of the Department to oppose a motion for non-peace officer records. Disclosure shall be made upon receipt of the subpoena.

Before disclosure, the Department shall reasonably attempt to notify the individual to whom the record pertains.

Disclosure of personnel records without a subpoena, or the employee's written consent, shall only be made to an attorney representing the Department's interest, as in worker's compensation matters when defending the Department or its employees, or in adverse personnel actions.

14010.6.10.2 Subpoenas — Peace Officer Personnel Records

Peace officer personnel files are considered confidential under PC 832.7 and 832.8. Disclosure shall occur only if:

- The employee consents in writing to the disclosure, or
- A subpoena is issued by a DA for the limited purpose of enforcing child support obligations; or
- The Department is served notice more than ten days in advance of a hearing on a motion for hearing held under EC 1043 and 1046. At the hearing, the court, not the Department, would determine if the record is to be disclosed.

Motions made to obtain information from peace officer personnel files shall be handled in accordance with the following:

- Upon receipt of a subpoena or notice that a motion has been requested, the employee whose records are being sought shall be sent a written notice mailed to the employee's last known address that a hearing is being scheduled to determine whether information in the employee's file is to be disclosed.
- All subpoenas in criminal and civil actions requesting peace officer records, other than those noted above, shall be referred to the AG's Office.

An attorney serving a subpoena for peace officer personnel records shall be informed of the provisions of PC 832.7 and 832.8.

14010.6.10.3 Subpoenas — Inmate/ Parolee Records

Subpoenas for inmate/parolee records shall always be referred to the AG's Office except under the following circumstances:

- The subpoena was issued by the inmate's/parolee's own attorney.
 - The attorney shall be informed that the inmate's/parolee's written consent is required for the attorney to review the record.
 - If the attorney is unwilling to fulfill this requirement, the matter shall be referred to the Department's OLA.
- Inmate/parolee medical records are sought in a civil action, not involving the Department, where the inmate/parolee is a party.
 - Notice shall be given to the inmate/parolee prior to disclosure.

14010.6.10.4 Subpoenas — Other Records

Subpoenas for public records such as a copy of non-confidential operating manuals shall be handled by informing the person issuing the subpoena of the method to secure public records as outlined in DOM 13040.

Subpoenas for other records such as copies of incident reports or confidential procedures shall immediately be referred to the AG's Office.

14010.6.11 Subpoenas — Referral to the Attorney General

Subpoenas shall be referred to the appropriate AG's Office (see DOM 14010.13) under the following circumstances:

- When issued to an employee because of their participation in, or preparation of, a diagnostic study under PC 1203.03 or 1170 (d).
- When an employee is subpoenaed to give an expert opinion (that is, the employee has some expertise in a particular field) in a case in which the employee has no direct knowledge of the event that is the subject of the case and an expert witness fee has not been tendered.
- When served at a time which is unreasonably close to the date on which the appearance is required.

A subpoena referral shall not be made to the AG's Office if:

- The employee who has been served is willing to appear at the employee's own expense, on the employee's own time; and
- The Warden, RPA, or division head authorizes the employee vacation time off to make the appearance.

14010.6.12 Subpoenas — Contacting the Issuing Attorney

The subpoenaed employee shall not make direct contact with an attorney issuing a subpoena unless directed to do so by the OLA. In any case where the employee was not a percipient witness, or lacks any relevant information concerning the event, the employee shall make direct telephonic contact with the OLA. The OLA shall make attempts to have the subpoena withdrawn by the attorney who issued it.

14010.6.13 Subpoenas — Failure to Comply

Failure to comply with any legal subpoena can result in contempt charges and sanctions (fines and/or imprisonment) by the court which issued the subpoena. Employees shall make every reasonable effort to comply with subpoenas.

14010.7 Legal Process — In General

Service of any documents used in civil proceedings (except subpoenas) is referred to as service of legal process in this section. The documents shall be handled in accordance with the provisions of this section anytime an employee receives such service.

14010.7.1 Legal Process — Who Can Accept Service

Only the following Headquarters staff shall accept service of legal process for the Department:

- Designated staff of OLA.
- The Chief, Correctional Case Records Services.
- CCRA's in Case Records Services.
- The CCRM, LPU.

14010.7.2 Legal Process — Designating an Agent to Accept Service

Each Warden and RPA shall designate an employee to accept service of process on behalf of the institution or region.

Designating an agent to receive service is accomplished in the same manner as described in DOM 14010.6.4.

14010.7.3 Legal Process — Types of Service

Service of legal process may be by personal service or by substituted service. Note that unlike the service of a subpoena in a civil matter, service of legal process in a civil matter may be accomplished by substituted service.

14010.7.3.1 Legal Process — Personal Service

Personal service is accomplished by delivering the legal process to the defendant in person, or to an agent designated by the defendant, in writing, to accept service of legal process on their behalf.

14010.7.3.2 Legal Process — Substituted Service

Substituted service is accomplished in any of the following ways:

- Leaving a copy of the legal process at the defendant's residence with a person over 18 years of age and, thereafter, mailing a copy to the defendant at the same address.
- Leaving a copy at the defendant's place of employment with a person in charge (this may be the officer on duty at the front gate or public entrance) and, thereafter, mailing a copy to the defendant at the place of employment.
- Sending the legal process to the person by mail, but this must include an acknowledgement of service. This is the method most commonly used by the U. S. Marshall for service of federal civil rights actions.

14010.7.3.3 Legal Process — Acknowledgement of Service by Mail

The acknowledgement shall not be signed or dated by the person receiving it. The acknowledgement shall be transmitted to the AG's Office with the legal process as provided in DOM 14010.7.6.

14010.7.4 Legal Process — Service Upon Inmates

No charge shall be made for the serving of legal papers on inmates by departmental staff. This shall preclude process servers from direct access to security areas of the institutions. This shall not preclude the proper service of papers by a sworn peace officer escorted into a security area.

Service may be completed as follows:

- Staff may accept the papers from the process server and then complete the service on the inmate.
- A sworn peace officer may be escorted into the security area to complete the service of papers.
- A non-sworn process server may be permitted to complete personal service if:
 - The server desires to make personal service and has made prior arrangements.
 - The inmate can reasonably be brought to the visiting area.
 - Permitting the personal service does not compromise the institution security.
- If a request for service is received by mail, institution staff shall serve the papers and complete the verification of service. If a fee accompanied the request for service, the fee shall be returned with the verification of service.

14010.7.5 Legal Process — Handling

Upon receipt of legal process, the employee served shall forward the document to the person designated by the Warden or RPA (normally the litigation coordinator or the case records staff).

Headquarters staff shall forward such documents to the OLA or the Case Records Office.

The employee served shall furnish the following information:

- Date of service.
- Place of service.
- Name, or title, of the person who served the documents.
- Method of service.

All employees shall receive training to ensure they are familiar with this process, and they shall be given written instructions in the format shown in.

Headquarters, each institution and each parole region shall process substituted service for an employee as follows:

- A process server who indicates they are leaving substituted service shall be allowed to leave it with an employee most convenient (such as the front gate or the receptionist) for Headquarters, the institution, the parole region, or field office. The legal process may be placed in the office mail system for delivery to the employee if there is a reasonable assurance service shall be completed in a timely manner, or it shall be delivered in person to the employee.
- If the legal process is job related, the employee to whom service is addressed may request representation at State expense or at the employee's expense as provided in DOM 14010.14.

14010.7.6 Legal Process — Transmittal to the Attorney General

Upon receipt of legal process and information concerning service, the litigation coordinator or case records staff shall prepare a transmittal letter to the assistant AG serving the court (see DOM 14010.13) which issued the documents. The appropriate assistant AG shall be contacted by telephone when it appears some action needs to be taken immediately or when a written referral will not give the AG's Office sufficient time to respond.

The transmittal letter shall contain the following information:

- The name of the employee served and for whom service was accepted.
- The method of service: personal delivery, mail, etc.
- The date and place of service.
- The name, or title, of the person who served the documents.
- A request for representation on behalf of the person named in the documents.

The employee on whose behalf service was accepted shall be given a copy of the transmittal letter and any other documents they had not previously been given.

14010.8 Small Claims Court

On occasion, an employee is served with a claim filed in small claims court against the Department, or against the employee arising from their employment with the Department. As attorney representation is not permitted in small claims court, neither the AG's Office nor any other attorney may appear to represent the Department or the employee. The employee served shall immediately contact the individual designated for processing legal documents as described in DOM 14010.7.5 and then provide that individual with a copy of the claim.

The Warden, RPA, Assistant Secretary, or their designee, shall write a letter to the clerk of the court in which the claim was filed, requesting that the claim be dismissed when either, or both, of the following appears to be true:

- The claimant failed to exhaust all administrative remedies.
- The claimant failed to file a California Victim Compensation and Government Claims Board (CVCGCB) claim.

Copies of the letter shall be sent to the OLA and the claimant/plaintiff.

If the claimant exhausted administrative remedies and filed a CVCGCB claim prior to filing the action, or if the court refuses to grant the request to dismiss, the Warden, RPA, Director, Assistant Secretary, Chief Deputy Secretary, Undersecretary, Secretary, or their designee (either the employee served or another staff member with relevant knowledge of the issue before the court), shall appear at the hearing to present the Department's response to the claimant's allegations.

Court Ruling

If the court rules in favor of the claimant, the defendant (the Department and/or the employee) has the right to appeal the finding to the Superior Court. The AG's Office shall represent the Department or the employee. Prior to deciding whether to appeal, the Warden, RPA, Director, Assistant Secretary, Chief Deputy Secretary, Undersecretary, Secretary, or their designee, shall contact the OLA. If the decision is made not to appeal, the person who appeared in court shall be required to obtain a copy of the order to justify payment of the claim.

14010.9 Not Reporting Home Address During Testimony

An officer may give the place of employment, rather than the actual residence location, in the following circumstances:

- Testimony is being given in a criminal proceeding.
- Testimony is likely to become a matter of public record.
- The testimony concerns an event or transaction the employee perceived or investigated in the course of employment with the Department.

14010.10 Transfer of Original Documents

Original documents shall not be transferred to the custody of a Deputy AG, or anyone outside the Department, without the consent of the Assistant Secretary, OLA, or the Chief, Correctional Case Records Services.

14010.11 Cooperation with the Attorney General

Departmental employees shall cooperate fully with the AG's staff who are representing the Department, or a departmental employee, in any legal action.

Cooperation shall include, but not be limited to:

- Producing documents.
- Completing interrogatories.
- Researching matters within the Department.
- Appearing as a witness, when required.

If it is felt that requests by the AG's Office have become excessive, the litigation coordinator or the section chief in units without identified litigation coordinators shall contact the OLA, which shall attempt to mediate the conflict between the Department and the AG's Office.

Attorney General's Obligation

When the AG's Office represents an employee of the Department, the AG's Office is obligated to maintain the same attorney-client privilege regarding any communications with that employee as if the employee had retained private counsel.

Employees with information relevant to any litigation involving the Department should channel the information to the AG's Office through the litigation coordinator or the section chief in units without identified litigation coordinators. If there is any question about whether or not the information should be communicated to the AG's Office, the OLA shall be consulted.

14010.12 Contacting the Attorney General

Employees shall initiate contact with the AG's Office only under the following circumstances:

- As directed by this section.
- When instructed by the OLA.
- When assigned to assist in preparation of a specific case.
- When the employee is personally represented by the AG's Office in a legal action.
- When the Department seeks an ex parte order blocking disclosure of exempt personal information.

14010.13 Attorney General Assignments

Revised September 30, 2014

The following AG's Offices have been assigned to represent the Department in the various courts as shown:

AG's Office	Federal District Courts	Calif. Appeals Courts	Counties	Parole Regions
Los Angeles	Central	2 nd	Inyo, Kern*, Los Angeles, Orange, Santa Barbara, San Bernardino	Southern
Los Angeles	Central	2 nd	Ventura, San Luis Obispo	Northern
Sacramento	Eastern	3 rd & 5 th	Alpine, Butte, Calaveras, Colusa, El Dorado, Fresno, Glenn, Kings*, Lassen, Madera, Mariposa, Merced, Modoc, Mono, Nevada, Placer, Plumas, Sacramento, San Joaquin, Shasta, Sierra, Siskiyou, Solano, Stanislaus, Sutter, Tehama, Trinity, Tulare, Tuolumne, Yolo, Yuba	Northern
San Diego	Southern	4 th	Imperial, Riverside, San Diego	Southern
San Francisco	Northern	1 st & 6 th	Alameda, Contra Costa, Del Norte, Humboldt, Lake, Marin, Mendocino, Monterey, Napa, San Benito, San Francisco, San Mateo, Santa Clara, Santa Cruz, Sonoma	Northern

*The AG's Office in San Francisco will handle state habeas corpus matters arising from CCI; California State Prison, Avenal; and California State Prison, Corcoran.

14010.14 Employee's Right to Obtain Private Counsel

In job related actions any employee has the right to be represented, at their personal expense, by the attorney of the employee's choice rather than by the AG's Office. Where it is determined that the Department shall provide defense counsel, and the employee does not wish to provide counsel at their own expense, the Department shall have the AG's Office, or private counsel (in cases where the AG's Office has a conflict of interest), represent the employee at Department expense.

14010.15 Requests to Settle Litigation

All settlement requests shall be in writing. They shall be submitted to the Secretary or the Undersecretary through the Assistant Secretary, OLA. Prior to settling any legal action, the following guidelines shall be followed:

- Settlements involving policy or procedural changes shall be approved by the appropriate division head, the Assistant Secretary, OLA, and, when necessary, the Secretary or the Undersecretary.
- The Secretary or the Undersecretary shall approve money settlements.

14010.16 Policy Changes Because of Litigation

Revised February 11, 2013

The Secretary establishes departmental regulations and policy. No changes to department regulations will be allowed without the consent of the Secretary or members of the Secretary's staff who have been delegated rulemaking authority by the Secretary to establish or modify regulations.

The approval of the General Counsel, OLA, or their delegate is required for any regulation, policy, or procedural change based upon a court decision. Consultation with the Department's OLA, appropriate division heads, and

the Secretary is required before any regulatory, operational, or policy changes are made in response to the instructions or advice of:

- The AG's Office.
- A DA's office.
- Any other attorney representing the Department or its employees.

Note: Further information is contained in DOM 12010, Policy Directives.

The litigation coordinator shall notify the AG's Office and OLA if a specific case involves broad policy implications for the Department. When a question arises as to which unit (the OLA or the AG's Office) shall have primary responsibility for handling a case, the inquiry shall be directed to the OLA who shall make the determination.

14010.17 Designating Litigation Coordinators

The Department shall provide litigation assistance to the AG's Office. To best accomplish this, each facility and parole region shall designate a staff member to act as the Litigation Coordinator. The Litigation Coordinator shall be the contact person for departmental staff or the AG's Office, either on a continuing basis or upon request on an individual case. The OLA shall be informed of the Litigation Coordinator for each case and all changes or replacements as they occur.

Responsibility

The Litigation Coordinator shall:

- Establish a system to coordinate, control, and process all legal documents.
- Schedule legal planning sessions between facility, parole region, and the AG's Correctional Law Section (CLS) for responding to ongoing litigation and finalized court decisions.
- Monitor due dates on all legal matters in order to ensure facility and staff compliance with those dates.
- Upon request of CLS, identify appropriate expert(s) on specific issues in litigation.
- Compile, review, and evaluate all records and documents related to matters in litigation to ensure uniformity and compliance in facility responses.
- Provide necessary documentation for CLS and disseminate documents to staff, inmates, or inmate attorneys when directed.
- Prepare responses to discovery requests and/or other documentation required during litigation.
- Receive, file, and prepare initial documentation for CLS on all cases instituted by inmates.
- Coordinate security for maximum-security inmates who testify in either criminal or civil proceedings.
- Identify areas of potential or recurring litigation for possible facility action.
- Coordinate with CLS to provide for briefings of the Warden or RPA and administrative staff on the status and content of pending litigation, including the potential impact of that litigation on prison/parole region administration and operational procedures.
- With direct guidance from CLS, provide IST for management and line staff on operational changes dictated by recent specific court orders, litigation, statutes, or general new case law.
- Provide IST to staff on their role and responsibility as a party or witness in litigation.
- Act as in-court trial investigator and source for necessary immediate facility information, during trial, and for the attorney representing a staff member concerning any correctional interest at issue.
- Assist staff members during their legal contacts with the court, inmate, inmate attorney, or attorney representing staff.
- Review confidential records and files to be used in litigation in order to protect confidential matters not at issue or not relevant to individual litigation.
- Provide budget planning information by determining costs of litigation because of lost staff time, overtime, travel, etc., and costs of implementing finalized court decisions.
- Provide information to CLS on the facility's/parole region's compliance in procedural or policy concerns.
- Ensure improvement in CLS responses to facility contacts by the courts and attorneys where appropriate (particularly when court makes requests of the facility).

- Schedule staff meetings or staff interviews for CLS and coordinate CLS contacts with the facility.
- With input from CLS, where appropriate, make recommendations to the Warden or RPA for implementation of procedural changes necessitated by prison litigation or court orders.

14010.18 Civil Rights of Inmates

Under federal statute, the U.S. AG's Office may investigate complaints that incarcerated persons are being deprived of their federal constitutional rights.

If such an investigation is started based on an inmate/parolee complaint, an affected employee may request representation by the State AG's Office.

Request for representation shall be made in writing.

14010.19 Inmate Access to Court

State and federal law guarantees inmates access to the courts to litigate issues. An inmate may bring a lawsuit or be sued, like any other person.

No inmate shall be disciplined or punished in any way for instituting or maintaining a lawsuit. Sanctions shall only be imposed by the courts, not by departmental employees, if an inmate uses or abuses the right of access to the courts.

14010.19.1 Filing Fee for Inmates to Initiate State Civil Actions

Statute and regulations require the Secretary to collect a \$3.00 filing fee, separate from any other fees required from the court, for each state civil action initiated by inmates while incarcerated with the Department. Civil actions are defined as non-criminal.

The fee is to be charged to the inmate's trust fund. Inmates shall fill out a CDC Form 193, Trust Account Withdrawal Order, specifically identifying the purpose of the withdrawal, the parties associated with the action, and the court where the filing is to be sent. The CDC Form 193 shall be processed in the trust office, marked "PAID," and signed by the trust staff deducting the \$3.00 filing fee from the trust account. If the inmate trust account does not have \$3.00 available to pay the filing fee, the CDC Form 193 shall be marked "NSF" to reflect that funds were not available to pay the filing fee.

Inmates shall not handle completed CDC Form 193. After the CDC Form 193 has been marked "PAID" or "NSF," it shall be provided to a designated staff member, who shall place it in the package in accordance with current legal mail procedures, prior to sealing and initialing of the envelope.

14010.20 Staff Assistance to Inmates

Employees shall not assist an inmate/parolee in the preparation of any legal document except as provided in the CCR 3160, for inmates/parolees who are illiterate or physically incapable. Employees shall not give any form of legal advice. Employees are permitted to help inmates/parolees find qualified assistance for their legal problems, but only through referrals to the California Bar Association, the local county bar associations, or a local attorney referral service listed in the telephone yellow pages. Referrals to specific attorneys are prohibited.

14010.21 Legal Copying Services

Copy service is provided as a convenience for inmates in preparing legal documents. The number of copies required by applicable court rules to be filed with the courts and to be served on all parties and other persons in the litigation shall be provided. Other persons may include the AG's Office, the inmate's attorney, and the Secretary's Office. The inmate shall be provided with one extra copy of the document for his or her own records. One additional copy of a petition for a writ of habeas corpus filed in State court shall be provided to the inmate for mailing to the appropriate DA.

Printed forms required by State and federal courts, which are made available by the courts to the Department, shall be provided without charge to inmates.

Inmates shall be required to pay for necessary duplication of printed forms and other written or typed materials, special paper, envelopes, and postage for mailing to the courts, except these items shall be provided at no charge to an indigent inmate as described in CCR 3162 and 3165(d).

14010.21.1 Abuse of Legal Copying Services

Revised April 29, 2012

Copy service shall be restricted when:

- An inmate abuses the service to the extent that other inmates are deprived of such service or
- An inmate requests duplication of a document exceeding 50 pages in total length without a written explanation of need, as described in section 101120.15.

Authority to restrict copy service shall not be delegated below the level of Captain, or a person designated by the Warden. Reasons for the restriction of service shall be documented by using a CDC Form 128-B, General Chrono.

14010.21.2 Legal Documents

The following are considered legal documents for the purpose of providing copy service to inmates:

- Writs--habeas corpus, mandate, etc.
- Civil rights complaints.
- Civil complaints or answers.
- Petitions for hearings in appellate courts.
- Motions to proceed "in forma pauperis" (without funds to hire counsel).
- Exhibits, including slip opinions of the California Court of Appeals, when attached to petitions for hearing in the State Supreme Court.

14010.21.3 Non-legal Documents

The following are considered non-legal documents for the purpose of providing copy service to inmates:

- Law book pages.
- Law review articles.
- Court transcripts.
- Correspondence with attorneys or public officials.
- Slip opinions, except as noted above.

Inmates shall be charged for copies of these documents.

14010.21.4 Size and Number of Copies for Court Documents

The number of copies required by the courts of the following documents is:

Court	Writs of Habeas Corpus	Appeals & Certiorari Petitions	Hearings and Other Writs	Exhibits
U.S. Supreme Court	Original and Appendix (a)	Original and 8 Copies	—	Original
U.S. Court of Appeals	Original and 3 Copies	Original and 15 Copies ^(b)	—	Original and 3 Copies
U.S. District Courts	Original and 3 Copies	—	—	Original and 3 Copies
State Supreme Court	Original and 14 Copies	Original and 14 Copies	Original and 14 Copies	Original and 1 Copy
State Court of Appeals	Original and 3 Copies	Original and 3 Copies	Original and 3 Copies	Original and 1 Copy
State Superior Courts	Original	—	—	Original

(a) Indigent inmates--original and In Forma Pauperis affidavit.

(b) Indigent inmates--original and four copies.

Paper size for all courts is 8 1/2" x 11."

14010.22 Notarization of Legal Documents

Each Warden shall identify and designate a Notary Public Coordinator, have an adequate number of commissioned notaries public to accommodate inmate requests, and designate a secured storage area for supplemental identification cards. Upon request from an employee, an inmate, or an inmate's attorney, notary service shall be provided upon payment of established notary fees.

Documents requiring notarization may be notarized only upon the inmate's payment of the established notary fee. Inmates who request notarization of court documents, but who cannot pay the established fee, shall be advised that the courts permit an alternative to notarization. Under CCP 2015.5 and Title 28, U.S. Code (USC) 1746 (cited as 28 USC 1746), documents can be filed with a declaration under penalty of perjury.

Notary services shall be provided as expeditiously as possible, consistent with security and other operational needs.

An employee acting as a notary shall not read a document to witness the signature other than to ascertain the title or description of the document for the notary's record book and to ensure the person whose signature is being witnessed signs it in front of the notary.

14010.22.1 Identification of Persons

An employee acting as a notary may only acknowledge an instrument in accordance with the current Notary Public Handbook published by the Secretary of State.

Satisfactory evidence for incarcerated inmates shall be a supplemental inmate identification card as described below.

Supplemental inmate identification cards will include the inmate's full name, physical description (height, weight, hair, eyes, date of birth, and gender), the inmate's photograph, the inmate's signature, the inmate's CDC number, and contain the following heading: "California Department of Corrections and Rehabilitation (CDCR), Temporary Supplemental Identification (ID) Card for Notary Purposes Only." These cards are used for the sole purpose of identifying inmates for notary services and will not be given to the inmate at any time for any reason.

Each institution shall develop and maintain a DOM Supplement in accordance with Civil Code Section 1185, DOM Chapter 1, Article 18, Legal Matters, and DOM Chapter 1, Article 6, Policy Directives.

14010.23 Legal Information for Parole Agents

DOM 80000 contains additional information governing how the DAPO staff handles legal matters unique to that division.

14010.24 Education of Professionals from the Judicial System

Professionals of the judicial system shall be kept informed about programs and services available to inmates within the Department. This can be accomplished by:

- The Department's participation in the annual Superior Court Criminal Law Institute.
- Participation in programs presented by the California Center for Judicial Education and Research.
- The Secretary's Annual Report to municipal and superior courts.
- Acquainting professionals in the criminal justice and judicial system regarding the programs and services available to persons committed to the Department as civil narcotic addicts as an alternative to commitment as a felon.

In accordance with the provisions of DOM 13020, Wardens may invite professionals of the judicial system into facilities to observe operations and activities and gain first-hand, up-to-date knowledge about the programs and services available to inmates.

14010.25 Revisions

ARTICLE 19 — RESEARCH

Revised April 16, 2013

14020.1 Policy

A research section has been established to facilitate review and evaluation of programs and basic operational procedures for the purpose of promoting greater effectiveness and efficiency in achieving departmental goals.

14020.2 Purpose

This section outlines the scope of the Department's research operations and specifies the procedures used in submitting research proposals.

14020.3 Definitions**Research**

Research is the application of the scientific method for the extension of knowledge. The objective of this method is to prove the validity and reliability of any statement at the highest possible level of certainty in accordance with the rules of mathematics, statistics and logic.

Biomedical Research

Biomedical research is research relating to or involving biological, medical, or physical science.

Behavioral Research

Behavioral research involves, but is not limited to, investigation of human behavior, emotion, adaptation, conditioning, and response in a program designed to test certain hypotheses through the collection of objective data.

Specifically excluded from the definition of behavioral research is the accumulation of statistical data in the assessment of the effectiveness of programs to which inmates are routinely assigned such as, but not limited to, education, vocational training, productive work, counseling, recognized therapies, and programs which are not experimental in nature. This type of research may be carried out in the Department.

14020.4 Restrictions

No biomedical research shall be conducted on any inmate under the jurisdiction of the Department.

Specific kinds of behavioral research on inmates are permitted and governed by the Penal Code. The kinds of behavioral research that may be conducted on inmates are limited to:

- Studies of prisons as institutional structures.
- Studies of prisoners as incarcerated persons who present minimal or no risk and no more than mere inconvenience to the subjects of the research.
- Studies of the possible causes, effects, and processes of incarceration.

The use of behavioral modification techniques in research on inmates is authorized by the Penal Code only if such techniques are a medically and socially acceptable means by which to modify behavior and if such techniques do not inflict permanent physical and psychological injury on inmates.

14020.5 Research Advisory Committee

A Research Advisory Committee has been established to provide routine review and oversight of behavioral and other research activities in the Department.

Membership of the Research Advisory Committee may be comprised of CDCR departmental representatives, as well as other research and evaluation professionals as determined by the Director of Internal Oversight and Research such as:

- Deputy Director, Office of Research (chairperson).
- Deputy Director, Division of Adult Institutions.
- Deputy Director, Division of Adult Parole Operations (DAPO).
- Chief of the Research and Evaluation Branch.
- Academic community representatives engaged in criminal justice research.

14020.5.1 General Responsibility of Committee

The Department is held accountable for the conduct of all research on inmates. This accountability is ensured through the Research Advisory Committee in that its functions include overseeing behavioral and other research activities within the Department. No behavioral or other research shall be conducted on inmates without review by this committee. General functions of this committee shall include:

- Reviewing proposed research projects and recommending approval or disapproval to the Director.
- Overseeing research projects in progress, ensuring adherence to State laws, departmental policies and standards for research on human subjects.
- Preparing the biannual report to the Legislature as required by PC. This report shall include a review of each research project approved and conducted during the time period covered by the report.

14020.5.2 Specific Responsibility

Specific functions of this committee shall include ensuring that:

- Any risks to inmates consenting to research are outweighed by the benefits they shall receive and the knowledge that will be gained from the research.
- The rights and welfare of inmates are adequately protected and the security of any exempt personal information is maintained.
- Procedures for the selection of inmates for research projects are equitable and that they are not unjustly deprived of the opportunity to participate. A means is established for adequately compensating research related injuries.

- Legally effective informed consent is obtained from all participating inmates.
- The rate of remuneration is comparable to that received by non-prisoner volunteers in similar research.
- The conduct of research projects is reviewed at timely intervals.

14020.6 Informed Consent

An inmate shall be deemed to have given their informed consent only if the following conditions are met:

- Consent is given without duress, coercion, fraud, or undue influence.
- Inmate is informed in writing of the potential risks and benefits of the proposed research.

Language

- Inmate is informed both orally and in writing, in a language in which subject is fluent, of each of the following:
- An explanation of the behavioral or other research procedures to be followed and their purpose, including identification of any procedures which are experimental.
- A description of all known attendant discomforts and risks reasonably to be expected.
- A disclosure of any appropriate alternative behavioral or other research procedures that might be advantageous for the subject.
- The nature of the information sought to be gained by the experiment.
- The expected recovery time of the subject after completion of the experiment (if applicable).
- Amount of remuneration to be received.
- Manner in which the prisoner may obtain treatment if research related injuries occur.
- An offer to answer any inquiries concerning the applicable behavioral or other research procedures.
- An instruction that the person is free to withdraw his consent and to discontinue participation in the research at any time without prejudice.

14020.7 Project Approval

All research activities and proposals involving departmental facilities, employees, or inmates shall be submitted, in the format described in the DOM 14020.8, to the Chief of the Research and Evaluation Branch, who shall coordinate the process of departmental review and approval. Review of research proposals shall be carried out by the Research Advisory Committee. For each proposal, the committee shall recommend that it be approved, approved with qualifications, or disapproved. The recommendation shall be submitted to the Director for final approval/disapproval.

Projects

Projects requiring this approval process include:

- Departmental research conducted by employees of the Department.
- Research conducted jointly by outside agencies and departmental employees.
- Outside agency research conducted with the Department.
- Research conducted by students in conjunction with their academic studies or recognized apprenticeship service.

Agreement

Persons/agencies outside the Department, prior to project approval, shall sign an agreement to adhere to the requirements established herein.

Reports

Agencies/persons conducting research in the Department shall be required to submit progress reports on their projects at the request of the Chief of the Research and Evaluation Branch. Information from these reports shall be included in the biannual report transmitted to the Legislature.

14020.8 Preparation of Proposals

All research proposals submitted for departmental approval shall contain:

Introduction

- Brief statement of the objectives of the proposed study; what questions are being asked or what hypotheses tested.
- Specific values of the project with particular focus on administrative decisions to which the findings might be pertinent.

Methodology

- A description of the research methods to be used (e.g., experimental-control group, matched comparisons, exploratory interviews) and the

approach to be taken (e.g., descriptive, experimental hypotheses testing, or participant observation).

- A description of the measuring devices to be used, (e.g., scales, tests, questionnaires). If measuring instruments are other than those routinely administered in the Department, a copy of the instruments shall be forwarded with the proposal. If they are to be developed as part of the project, a statement of their intended character and rationale shall be included.
- The institution where the proponents intend to collect data.

Resources Required

- Names and working titles of personnel involved (both employees of the Department and of other agencies), and their responsibilities in the project.
- An estimate of departmental staff time to be devoted to the project.
- Beginning and ending dates of the study.
- Additional operating or equipment costs to the State, including alterations to or additions of space.
- Demands on the time of inmate subjects and a plan for the compensation of the inmates.
- Source of funding.

Other Required Documents

- A copy of the informed consent form that shall be used in the project which shall include as a minimum those items listed in DOM 14020.6.
- An up-to-date curriculum vitae (resume) for each professional staff member of the proposed project.
- For student research projects, a letter from the student's faculty advisor stating that the student will be working on the project under his/her supervision and that the project has the approval of the student's college or university.
- A privacy certification signed by the principal investigator of the project outlining procedures for protecting exempt personal information and certifying that these procedures shall be carried out.
- For any proposal previously reviewed by a human subjects committee in a university or outside research organization, a copy of the record of the committee's approval.

14020.9 Grievances

Any inmate who has a grievance concerning the operation of any particular research program conducted under the authority of the Department may appeal using established appeal procedures (see DOM 54100).

14020.10 Research Related Injuries

Any physical or mental injury of an inmate resulting from participation in behavioral research, irrespective of the causation of such injury, shall be treated by the Department promptly and on a continuing basis until such injury is cured.

14020.11 Revisions

The Deputy Director, Office of Research, or designee shall ensure that the contents of this Article are accurate and current.

ARTICLE 20 — POLYGRAPH

Revised August 9, 2011

14030.1 Policy

A polygraph examination is a tool, which may be used during official departmental investigations, by which the polygraph examiner formulates an opinion as to the veracity of statements made by an examinee.

14030.2 Purpose

This Article seeks to ensure that the rights of the persons being examined (herein referred to as the examinee) are protected through the consistent compliance of all statutes and regulations governing the polygraph examination process.

14030.3 Responsibility - Secretary

The Secretary retains overall responsibility for the proper administration of all polygraph examinations by departmental staff.

14030.3.1 Responsibility —Chief, Office of Correctional Safety (OCS)

The Chief, OCS, supervises departmental employees who perform polygraph examinations and the administration of all such examinations.

14030.3.2 Responsibility — Polygraph Examiner

The polygraph examiner shall not knowingly violate the rights of the examinee. The examiner shall comply with all statutes and regulations governing the polygraph examination process. The examiner shall not conduct a polygraph examination without proper authorization. The examiner shall not disclose or discuss the examination or the results of the examination with anyone not authorized to receive the information.

14030.4 Polygraph Examiners and Equipment

Only staff of the OCS shall conduct polygraph examinations. Only equipment approved by the Chief, OCS, shall be used during a polygraph examination conducted by departmental staff.

14030.5 Who May Request a Polygraph Examination

An employee, inmate, or parolee under investigation for an alleged violation of the law or a regulation may make a request for a polygraph examination. No person shall be ordered to take a polygraph examination. No coercion or offer of reward shall be used to induce any person to take a polygraph examination.

14030.6 Conditions for a Polygraph Examination

The following conditions shall be met before a polygraph examination may be conducted:

- If an employee requests or agrees to an examination, they shall have completed and signed a CDC Form 1498, Employee Request For Polygraph Examination.
- The examinee shall have voluntarily consented to the examination.
- The examinee shall have voluntarily signed a CDC Form 1499, Polygraph Examination Consent, Release, and Waiver.
- The prior approval of the Chief, OCS, shall have been obtained.

Used During Investigation

The polygraph examination shall be used only when there is an active departmental investigation in progress and other investigative efforts have been exhausted. All employees of the CDCR shall be afforded the protections provided under the Public Safety Officers Procedural Bill of Rights concerning the use of polygraph examinations. For further information concerning an employee's rights in situations which might result in an adverse personnel action, the reader is directed to the DOM Sections 31140, Internal Affairs Investigations; and 33030, Employee Discipline.

14030.7 Approval for Polygraph Examinations

The Chief, OCS, or in their absence, the Special Agent-In Charge, shall review and approve all requests for a polygraph examination.

14030.8 Requests from Other Agencies for a Polygraph Examination

The Chief, OCS, may permit the administration of a polygraph examination by departmental staff upon written request from another law enforcement agency when a departmental employee, inmate, or parolee is under investigation, and/or a departmental interest can be served.

When a paroling authority requests a polygraph examination, the chairperson of the appropriate board shall make a written request to the Chief, OCS.

14030.9 Polygraph Examinations by Other Agencies

Polygraph examinations may be administered by non-departmental persons to inmates and parolees under the Department's jurisdiction only under the following conditions:

- With the prior approval of the Chief, OCS, and
- Under such conditions and at a time and place set by the Warden or RPA having jurisdiction over the inmate or parolee, and
- With the consent of the DA of the involved county, when in connection with the guilt or innocence for an offense in which a conviction resulted, or
- When ordered by a court having jurisdiction in a currently pending criminal case.

14030.10 Polygraph Examination Results

Upon completing a polygraph examination, the examiner may discuss with the examinee, in general terms, the opinion formed as a result of the examination. The opinion formed may be that the examinee has been "truthful" or "deceptive" in answering the questions. If the examiner is unable to reach an opinion based upon the examination, the result would be the examination was "inconclusive." When in the opinion of the polygraph examiner the examinee has been truthful, the examiner may express that opinion to the examinee and terminate the examination.

When in the opinion of the polygraph examiner the examinee has been deceitful, the examiner may confront the examinee with that opinion in the attempt to elicit truthful answers. In this case, the examination may continue. Except in unusual circumstances, polygraph examinations shall not be used as substitutes for or to check the outcome of inmate disciplinary hearings, parole revocation hearings, or parole rescission hearings.

Confidential

The written report and all examination materials shall not be considered public documents. They shall not be released or disclosed. They are considered part of an ongoing investigation and, as such, are classified as confidential.

The examiner's report shall be made available to the Secretary, the Chief, OCS, and the Warden or RPA having jurisdiction over the employee, inmate, or parolee unless specifically restricted by the Secretary. A copy of the report shall be retained in the files of the OCS.

14030.11 Revisions

The Chief, OCS, or designee shall be responsible for ensuring that the contents of this Article are kept current and accurate.

ARTICLE 21 — UNASSIGNED

ARTICLE 22 — LEGISLATION

Effective January 25, 1990

14050.1 Policy

The Department shall operate in compliance with the statutes and regulations established by the Legislature and control agencies.

14050.2 Purpose

This section seeks to establish guidelines for ensuring that all proposed legislation affecting the Department is analyzed, the Department's interests are made known to the Legislature, and the departmental reports to the Legislature are submitted in a timely manner.

14050.3 Responsibility

The Director retains overall responsibility for effectively communicating and interfacing with the Legislature.

14050.3.1 Responsibility — Assistant Director, LLO

The Assistant Director, LLO shall ensure that all proposed legislation affecting the operation of the Department receives timely analysis and the Department's concerns and positions on proposed legislation are made known to the Legislature; respond to inquiries from the Legislature, its committees and aides, and ensure that reports required by the Legislature are properly prepared and transmitted in a timely manner.

14050.3.2 Responsibility — Operating Units

Upon request from the Assistant Director, LLO, operating units shall prepare proposed responses to legislative inquiries, prepare proposed analyses of pending legislation, prepare proposed mandated reports to the Legislature and provide information and statistics to assist others in the preparation of the Department's position.

14050.3.3 Responsibility — Employees

An employee who becomes aware of proposed or pending legislation that may affect the Department shall notify the Assistant Director, LLO. This shall be accomplished in the form of a brief memorandum identifying the author and subject of the legislation. This shall be transmitted through the employee's normal chain of command.

Some bills are sent to staff members for information only. If the recipient of a bill, sent for information only, determines that it is one on which the Department should have an official position, they shall contact the LLO for a decision concerning a formal bill analysis.

14050.4 Bill Analysis

Changes in the law can have tremendous effects upon the Department's policies, procedures, personnel and budget. It is vital that proposed

legislation affecting the Department be identified and analyzed concerning its impact upon the Department.

Bill analysis shall be given the highest priority in order that the Department can have maximum, effective, timely input into the establishment of laws impacting departmental operations.

14050.4.1 Bill Analysis — Responsibility

Legislative measures of interest to the Department shall be logged and transmitted by the Assistant Director, LLO to the appropriate assistant or deputy director for analysis. A CDC Form 853, Request for Legislative Bill Analysis shall be attached to indicate the type of analysis requested and a due date.

The assistant or deputy director shall immediately assign the request for bill analysis to an appropriate staff person.

The assigned staff member shall:

- Secure from other staff or units any information necessary to analyze the bill.
- Ensure the bill analysis is completed by the due date and meets format and content standards.
- Contact the LLO of unusual circumstances that preclude completion of the bill analysis by the due date.
- Forward the completed bill analysis to the assistant or deputy director.

The assistant or deputy director shall review the bill analysis and forward it to the LLO.

14050.4.2 Bill Analysis — Time Limits

The due date is shown on the CDC Form 853, as well as the time required for the analyst to send the completed work back through the assistant or deputy director for signature and to forward it to the Assistant Director, LLO.

Time Limits

The time limits are:

- Five working days for the first time analysis of a legislative bill.
- Three working days for a fiscal analysis.
- Three working days for analysis of an amended bill.

14050.4.3 Bill Analysis — Format And Content — Original Bill

A bill analysis response is prepared and forwarded on a CDC Form 1617, standard Memorandum, and shall identify the bill by number and author. The caption headings, in the bill analysis, shall be the following:

- **Summary of Bill:** This is a concise summary of what the proposed bill would do. This should emphasize its effect on the Department.
- **Background:** This should include any information the staff has about how this bill developed and/or why it is being proposed. If this is not known, this section should so state. *DO NOT CONTACT THE LEGISLATOR* to attempt to obtain this information.
- **Specific Findings:** This states a summary of the current law and compares existing law, policy and practice with the proposed changes. This section seeks to give the lay, non-correctional reader a clear understanding of the present situation and how the proposed bill would change current policies, procedures, etc..
- **Analysis:** This is a concise discussion of how the proposed bill will impact current departmental operations. This section is critical to the Department's response to the bill. It should briefly discuss:
 - What will the bill cause the Department to do or not do?
 - How many employees, inmates or parolees will be effected by the change?
 - Can the changes be made within the proposed times?
 - Is the change practical?
 - Is there a better way to accomplish the same effect or goal?
 - Is the bill technically correct (does it properly reflect existing law, cite the correct section numbers, etc.)?

Note: There are some bills that would be more desirable or less desirable, for the Department, if some specific amendments could be made. In this situation, the staff preparing the analysis should outline and speak to these possible amendments.

- **Fiscal Impact:** This section indicates the immediate and projected long term net cost or savings, if known. The fiscal impact may be prepared separately, by fiscal staff, and joined when the bill and fiscal analysis reach the LLO.
- **Recommendation:** This section is a staff recommendation to the Assistant Director, LLO, on the position the Department should take

regarding the bill under analysis. The following recommendations may be made:

- **Support:** The Department should support the bill as it will have some beneficial, positive effect on the operation of the Department.
- **Support If Amended:** The bill would be desirable for the Department, if the specific changes were made in the bill.
- **Neutral:** The change made by the bill will have no significant effect on the Department.
- **Oppose:** The Department should oppose the bill as it will have some adverse, negative effect on the operation of the Department.
- **Oppose Unless Amended:** The basic thrust of the bill will have some adverse, negative effect on the Department unless the objectionable portions can be removed.

Signed By

The bill analysis shall be signed by the assistant or deputy director having administrative responsibility over the staff who prepared the analysis.

14050.4.4 Bill Analysis — Format And Content — Amended Bill

This covers a bill that has been amended by the Legislature and it may, or may not, have previously been analyzed. The amendment may, or may not, change the thrust of the bill, its impact upon the Department and/or the Department's position on the bill. A single bill may be amended several times during the legislative process, and staff may be requested to perform more than one analysis of the bill or its amendments.

It will not be necessary to repeat an analysis of unchanged portions of an amended bill, unless new information is developed that could significantly affect the Department or the Department's recommended position. The extent of the new analysis will depend both on the complexity and significance of the amendments and the availability of new information. Normally, a statement as to any change made by an amendment, and the effect it has, will suffice.

In some instances the amendments will be so extensive that an entire new analysis must be made in order to clearly present the effects of the amendments.

The analysis of an amended bill shall be prepared in memorandum form, just as the original analysis. The same caption headings shall be used, but only use those necessary to the analysis of the amended portions of the bill. The analysis shall be signed by the assistant or deputy director having administrative authority over the staff who prepared the analysis.

14050.4.5 Bill Analysis — Format and Content — Enrolled Bills

When the final version of a bill, as passed by the Legislature is forwarded to the Governor for signature, a complete new analysis is required. Drawing on information already furnished, this final analysis is normally completed by the LLO.

A copy will usually be sent to the staff member responsible for the analysis for one last review.

Staff reviewing an enrolled bill shall compare it with the last version analyzed and immediately notify the LLO if any significant change is discovered.

14050.5 New Statute — Implementation Reports

The law requires that each State agency responsible for the implementation of a new program or regulatory action report a summary of the actions taken to implement the statute or regulation to specified members and committees of the Legislature.

14050.5.1 New Statute Implementation Reports — Time Limits

Implementation reports prepared by the Department shall be submitted to the YACA in sufficient time that they can be forwarded to the Legislature within six months of the effective date of the measure, or within six months of the operative date, whichever is later.

No later than 30 days prior to the date the implementation report is due to the Legislature, the responsible division shall forward its completed report, in final draft form, to the Assistant Director, LLO for review.

14059.5.2 New Statute — Implementation Reports — Responsibility

Assignment for implementation usually occurs at the executive staff meeting during briefing on new statutes. Divisions given primary responsibility for implementation of new statutes shall be responsible for preparing the required implementation reports.

14050.5.3 New Statute — Implementation Report — Procedures

The final draft of the implementation report shall be forwarded to the Assistant Director, LLO.

- Reviewed by the affected executive staff and corrections suggested.
- Returned to the responsible program unit.

Final Report

The final report shall be prepared and forwarded through the Assistant Director, LLO, and Chief Deputy Director to the Director for signature.

Approved and Signed

Once approved and signed by the Director, the report is returned to the LLO. The necessary copies are made, and the report is forwarded to the YACA for distribution to the Legislature.

14050.6 Legislative Reports

The Department is required to prepare a variety of reports for the Legislature. These reports may be in response to statutory requirements, budget control language, or committee requests.

14050.6.1 Legislative Reports — Requirements

The Assistant Director, LLO shall be responsible for identifying the various reports needed, except that the Deputy Director, ASD, shall be responsible for identifying reports required by budget language.

Each Fall

Each fall, as part of its annual review of legislative actions affecting the Department and assignments for implementing new statutes, executive staff members shall be assigned responsibility for preparing legislative reports. The staff member designated by the Director shall be responsible for instructing the program unit to prepare the necessary reports and ensuring that reports are submitted to the Legislature on a regular, periodic, or one time basis, as required.

Any program unit made responsible to prepare a report through any other means shall inform the Assistant Director, LLO, so the assignment can be reviewed; another assignment made, if appropriate; and the report completed in ample time to transmit the report in a timely manner.

14050.6.2 Legislative Reports — Format

Legislative reports shall be prepared on plain white 20 lb. bond paper in the following format:

- The body of the report shall be typed in block form.
- If captions are used, they shall be typed in initial capital letters and underscored.
- Paragraphs are to be single spaced with double spacing between them.
- Pages shall be numbered in the upper right corner of each page, with the report control number also appearing on each page, just above the page number.

Sections

Each section of the report described below shall appear in the report in the order listed:

- **Cover:** Each report shall have a front and back cover of beige cover-stock paper. The front cover is to include the title of the report, centered, with the "Department of Corrections" just below the title, and the date and control number in the lower right corner.
- **Preface:** The preface shall be on plain white bond paper. It shall be entitled "Preface", underlined and centered with the date in the upper-right corner. It should include the following sections:
 - Purpose of the report (statutory, committee request, etc.).
 - Scope of the report.
 - Brief statement covering the highlights of findings and recommendations.
 - The Director's signature (two copies of the report shall bear the original signature and be delivered to the Secretary of the Senate and the Chief Clerk of the Assembly).

Note: A record is kept of all reports received in the Legislature. The preface will be published in the appropriate legislative journal.

- **Table Of Contents:** A table of contents is appropriate when the report covers several subjects or extensive/complex material requiring various subheadings.
- **Executive Summary:** This summary states the purpose and scope of the report, and shall include a statement of findings and recommendations.

- **Body Of Report:** This section briefly states the purpose of the report, including a summary or quote of the legislative request, and summarizes the method used in conducting any studies, research, polling, etc., to prepare the report. Include acknowledgements of cooperation and assistance received. The report shall be clear and concise.
- **Recommendation/Evaluation (Optional):** It is sometimes more appropriate to place recommendations and evaluations into a separate section. When this is done, the sections should be labeled as such. Any evaluation, recommendation or conclusion should be substantiated.
- **Appendices:** Unless charts, statistics, graphs, footnotes and other technical support material complement the body of the report, they should be placed in this separate section at the end of the report.

14050.6.3 Legislative Reports — Review

The final draft of a legislative report is due in the LLO 30 days before the final report is due to be delivered to the Legislature.

The writer of the final draft report shall submit the documents and the Governor's transmittal memo (without the beige cover), to their immediate supervisor.

The supervisor shall review the documents and forward them, through channels, to the LLO.

The LLO shall:

- Review the documents.
- Assign a control number.
- Forward the documents to the Director for review and approval.

Forward Documents

After the Director signs the transmittal memo, the LLO shall forward the documents to the YACA for review and approval and then forward to the Governor's office for review and approval.

Governor Signs

When the Governor signs the transmittal memo, the documents are returned to the LLO, then forwarded to the program unit.

The program unit shall:

- Prepare, proof and duplicate the final report and transmittal letter.
- Attach the beige cover.
- Forward the final report and transmittal letter (two originals) to the Assistant Director, LLO.

Director Signs

The Assistant Director, LLO shall obtain the Director's signature on the report and transmittal letter and return the documents to the program unit.

The program unit shall:

- Prepare copies in accordance with the DOM 14050.6.4, after consulting with the LLO regarding additional copy requirements.
- Retain one copy of the documents.
- Forward the original documents and copies to the LLO for distribution.

14050.6.4 Legislative Reports — Distribution

Unless the LLO specifically issues other instructions, at least 17 copies of each report shall be prepared. One copy shall remain in the unit preparing the report.

The balance of the reports shall be distributed as follows:

- Secretary of the Senate (with original signature).
- Chief Clerk of the Assembly (with original signature).
- Speaker of the Assembly.
- President Pro Tempore of the Senate.
- Minority Floor Leader of each House.
- Chairperson of the appropriate policy/fiscal committees of each House.
- Lead author of the legislation authorizing the report.
- Assembly Office of Research.
- Senate Office of Research.
- Joint Legislative Committee on Prison Construction and Operations.
- Any legislative member or committee mandated in the language of the bill.
- LLO.

- LAD-RMU and PMU.
- DOF.
- YACA.

Additional Reports

When both the policy and fiscal committees of each House are to receive a report, additional copies shall be prepared for the minority staff of each fiscal committee.

These guidelines are intended to provide a standard format and procedure for processing legislative reports. Exceptions to this format and process may include brief reports that merely transmit data that can be contained in letter form, and reports in which the subject or issue is sufficiently unique to dictate the need for an alternative format, and reports to individual committees. Any questions regarding the preparation or distribution of these reports, or exceptions to these requirements, should be addressed to the Assistant Director, LLO; (916) 445-4737.

14050.7 Proposed Legislation

Proposed legislation shall be submitted to the Assistant Director, LLO.

14050.7.1 Proposed Legislation — Format and Content

Proposed legislation shall be submitted on a CDC Form 852, Request for Approval of Proposed Legislation. The caption headings in the proposed legislation shall be the following:

- **Title:** A one line description of the subject of the proposed bill for purposes of identification.
- **Problem:** A concise statement in nontechnical terms of the problem and why legislation is necessary to solve the problem.
- **Proposed Solution:** The proposed solution shall be in three sections:
 - **Existing Law:** Outline in nontechnical language how these items are currently handled under existing law, i.e. what is required to be done under current law. Thoroughly explain current practices and the reason a change is needed. Use examples.
 - **Proposed Change:** Outline in nonlegal terms how the items would be handled under the proposed change.
 - **Justification:** State the reason why legislation is needed. Indicate the results or impact if the legislation was not enacted. If alternatives were considered but rejected in favor of the Legislative proposal, give the reason for rejection of the alternative.
- **Fiscal Impact:** If the proposal has fiscal implications, estimate the cost breakdown for the first two years. Include local and GF costs, or special fund costs. Indicate amount and source of revenue if the proposal will result in additional revenues. Identify any change in staffing requirements and explain why the current level of staffing is inadequate to carry out the purpose of the legislation. Consult with fiscal staff for assistance in this area.
- **Legislative History:** Identify possible opposition and support for the proposal when known, i.e. agencies, organizations, other individuals.
- Include prior legislation on the subject, if any. Give year, author and bill number if known. If a previous proposal was submitted on the subject, give year and/or number.

Answer Questions

The following basic questions shall be answered:

- What is the need for this legislation?
- Will the proposed legislation, if enacted, meet this end?
- What will it cost?
- Was the cost reviewed during budget discussions?
- Are the benefits to be derived in line with the costs?
- Is the proposed legislation consistent with the Department's objectives?
- Are alternatives available which better solve the problem?
- Is the responsibility for meeting this need placed at the proper level of government - city, county, state?
- Does any conflict exist with any other state department? Have all attempts to resolve the conflict failed?
- Will the proposal be opposed by anyone? Specify.
- Please attempt to quantify your proposal. For example, how many persons will it affect? How much time is involved, etc.?

Note: Questions regarding proposed legislation format and requests for assistance shall be directed to the Assistant Director, LLO.

14050.7.2 Proposed Legislation — Review

Executive staff shall review the proposals.

The Assistant Director, LLO shall transmit approved proposals to the YACA for review and approval.

14050.8 Revisions

The Assistant Director, LLO, or designee, shall ensure that the contents of this article are accurate and current.

14050.9 References

GC § 11017.5.

ARTICLE 23 — RECORDS MANAGEMENT

Revised May 14, 2002

14060.1 Policy

The CDCR shall maintain a records management program to ensure the efficient creation, use, maintenance, retention, preservation, and disposition of records, files, and micrographics.

14060.2 Purpose

This Article establishes the requirements of the records management program as mandated by current statutes, laws, regulations, State policy, and collective bargaining agreements.

14060.3 Definitions

The following definitions are provided for the purpose of the Article:

Active Record

Any record accessed frequently.

Archival Record

Any record that has historical value and is preserved permanently at the California State Archives (CSA).

California Records and Information Management (CalRIM)

Program within the California Department of General Services (DGS) that provides management consulting services to assist agencies in developing and implementing an organizational records management program.

California State Archives

The California Secretary of State is responsible for maintaining any record of historical value at CSA for public reference after the CDCR's records retention period is completed.

Confidential Record

Any record which contains information exempt from individual, public, or CDCR review due to legal or security reasons.

CDCR Archives

The storage location of discharged inmate/parolee records.

Inactive Record

Any record required infrequently, but must be retained until the designated destruction date.

Local Archives

Any local facility or office storage area where inactive or discharged records are retained in an organized boxed manner until the authorized destruction date.

Microfilm

The process of reducing the size and volume of paper records by means of micrographic technology.

Nonrecord

Any library or reference material, publications, blank form, informal notes, worksheets, and rough drafts of letters and reports.

Official Record

Any nonduplicate, authentic record maintained as the CDCR's primary record used to substantiate any necessary follow-up activities.

Personal Record

Any record that identifies or describes an individual including but not limited to: Name, Social Security number, physical description, home address, home telephone number, education, financial matters, medical or employment history, and statements made by or attributed to the individual. Any other information the disclosure of which would constitute an unwarranted invasion of personal privacy (see Chapter 3, Article 20, Personnel Policies). Civil Code Sections 1798-1798.1, Information Practices Act (IPA), protects the collection, maintenance, and dissemination of personal records. (See Department Operations Manual (DOM), Chapter 1, Article 15, Information Practices.)

Public Record

Any record maintained by the CDCR relating to the Department’s business conduct that can be made available for public inspection in accordance with the Public Records Act. (See DOM, Chapter 1, Article 16, Public Records.)

Record

Any paper, map exhibit, electronic disk or type, microfilm image, photographic film or print, building plan, or drawing.

Records Coordinator (RC)

The individual responsible for the CDCR’s Records Management Program and is located in headquarters.

Records Destruction

The appropriate disposition of records through recycling or confidential destruction.

Records Retention Schedule (RRS)

The document governing the authorized retention and disposition of all agency record systems as identified in the CDCR’s Records Retention Handbook.

Records Transfer

The organized movement of inactive or discharged records to the State Records Center (SRC), CDCR headquarters, or local archives for further retention, or the transfer of ownership to the CSA for historical purposes.

State Records Center

The off-site records storage location owned and maintained by DGS to provide inactive records storage and confidential records destruction services for the State agencies.

Vital Record

Any record that is essential for daily performance or reconstruction of basic CDCR programs during and following a major disaster.

14060.4 Responsibility

Headquarters’ Business Management Branch shall plan, organize, implement, and administer records management program policies and procedures.

14060.5 Training

CDCR staff shall be provided general training regarding the policies and procedures to be followed to ensure compliance with State laws and regulations pertaining to records management.

14060.6 Records Management

The following are provisions for Record Management within the CDCR in accordance with current statutes, laws, regulations, State policy, and collective bargaining agreements.

14060.6.1 Records Coordinator

The Records Coordinator (RC) shall:

- Ensure the necessity, availability, and maintenance of records.
- Ensure the disposal of unnecessary records.
- Coordinate micrographic activities.
- Provide assistance to records liaisons.
- Submit required records reports.
- Obtain approval of record retention schedules.
- Arrange transfer of inactive/discharged records to SRC.
- Coordinate destruction of obsolete/discharged records by the paper recycle or confidential destruction programs.
- Approve and coordinate requests for purchase of filing, micrographic, and document destruction equipment.

14060.6.2 Records Liaisons

Each division office, parole region, and facility shall appoint a records liaison that shall work with the RC to provide efficient records management. Staff Services Analysts shall be appointed for each parole region, and Procurement and Services Officers I and II (Correctional Facility) shall be appointed for each institution/facility.

14060.6.3 Records Disclosures

Public records shall be available to the public and to all offices, but shall be removed only by authorized employees. Staff removing file material from its proper location shall replace the file material or folder with a card showing the following:

- Title of borrowed record.
- Name of borrower.
- Date record is borrowed.

Employees shall refer to the following for additional information:

Subject	DOM	Contact Person
Public Information	Chapter 1, Article 13	Public Information Officer
Information Practices	Chapter 1, Article 15	Local IPA liaison
Public Records	Chapter 1, Article 16	Local Public Records Officer
Legal Matters	Chapter 1, Article 18	Deputy Director

14060.6.4 Records Locations

The following locations maintain the official records listed.

Location	Official Records
CSA	Historical documents selected to be retained for public research.
CDCR Archives	Inactive inmate/parolee case records.
Institution/facility	Institution/facility employee records, inmate case records, and blueprint drawings.
Local Archives	Inactive facility records.
Parole Region	Appropriate parolee case records.
Personnel Transactions	Official personnel files for headquarters.
Office of Facilities Management	Facility blueprints and drawings.
Regulation and Policy Management Branch	CDCR regulation and policy files.
SRC	Inactive or discharged CDCR files and confidential records for destruction.

14060.6.5 Records Reports and Inventories

The State Administrative Manual (SAM) mandates that the CDCR complete and submit the Annual Progress Report on Records Management to DGS, CalRIM. This report is due to DGS by August 30. The RC shall coordinate the report and forward a report summary to Executive Staff.

SAM also mandates that each agency must inventory its records at least once every five years. The RC shall coordinate this inventory.

14060.6.6 Record Retention Schedule

The guidelines for the legal retention, disclosure, and destruction of all CDCR records are listed in each operational unit’s RRS.

Within three months after implementation of each operational unit, an RRS shall be initiated, and every five years thereafter, the RRS shall be updated. The RC shall provide the new operational unit a Std. Form 70, Records Inventory Worksheet, to be completed from which the RRS will be created. Every five years thereafter, a Std. Form 70 shall be provided the operational unit, along with a copy of the current approved Std. Form 73, RRS, and a Std. Form 72, Request for Approval of RRS, for review and approval. All forms shall be returned to the RC for further revision or processing.

Once approved by CalRIM and CSA, the RRS shall be included in the CDCR Records Retention Handbook. The updated RRS’s will be distributed to provide all units with current RRS’s.

14060.6.7 Records Filing

Active Records

Active records shall be filed in an organized manner for the retention period listed in the RRS. Exception: Duplicate records must be routinely purged and retained a minimal time period.

Inactive or Discharged Records

Inactive or discharged records shall be filed in an organized manner in boxes in the appropriate archives (e.g., local archives for facility records, SRC for CDCR headquarters’ records, or CDCR’s headquarters’ archive for inmate/parolee case records).

The following steps shall be followed in filing records:

Inspecting: Employees shall ensure that the record has been released for filing.

Equipment Labeling: File shelves and drawers shall be plainly labeled for easy identification of contents.

Master File Index List: A Master File Index List of all files on each shelf or drawer shall be retained by the file equipment and be easily visible.

Indexing: Employees shall determine an appropriate file caption for the record.

Coding: The file caption shall be written in the upper right-hand corner of the record or underlined if it is already plainly visible on the record.

Sorting: Employees shall sort records before filing.

Filing: When a file folder is filled, a new folder shall be created, labeled, and filed in front of it.

Out Card: Records removed from files shall be replaced by out cards in the record or file place. The out card should identify the record title, borrower name, and date removed.

14060.6.8 Records Transfer and Retrieval

Inactive/discharged records shall be transferred to the appropriate storage location as designated by the unit's RRS.

California State Archives

Historical records shall be transferred once the CDCR relinquishes ownership. The transfer and retrieval processes are:

- **Transfer Process:** Place all historical records in record storage containers and prepare a Std. Form 71, Records Transfer List, to accompany the shipment. Forward the Std. Form 71 to the RC who will notify the unit when the records have been approved to ship. Ten boxes or less should be sent directly to the CSA. For more than ten boxes, the RC will check with the CSA prior to shipping. The CSA staff shall contact the RC or local records liaison and shall authorize shipment or determine the review needs for larger shipments.
- **Retrieval Process:** CSA staff screen all incoming records to select the historical records to be retained. Records may be reviewed at the CSA, but no removal is possible.

CDCR Archives

Discharged inmate/parolee case files transfer and retrieval processes are:

- **Transfer Process:** All files or records shall be placed in boxes, organized by Case File Number, and listed on the CDCR Form 134, Records Transfer Checklist. The top page shall clearly note the name, number, and discharge date. Records received without a discharge date shall be returned to the sending office.
- **Retrieval Process:** Contact CDCR archive's staff for specific transfer and retrieval instructions.

Local Archives

Inactive records can be maintained at an institution/facility provided:

- They are stored in an organized manner that allows for retrieval when required.
- The area shall be sufficiently secure to allow for the institution/facility or unit to maintain the integrity of the records.
- The records are disposed of according to the approved RRS.

Although physical locations and processes may vary, each institution/facility shall designate a local archive's liaison to ensure current destruction. The transfer and retrieval processes are:

- **Transfer process:** Stored in record storage containers, with a label that identifies the unit name, box number, general contents, and destruction year on each box. Each unit shall maintain a master inactive records list on CDC Form 1442, Local Archives Transfer List.
- **Retrieval Process:** Contact the local archives liaison for specific transfer and retrieval instructions.

State Records Center

Inactive/discharged records transfer and retrieval processes are:

- **Transfer Process:** Only those items listed on an approved RRS may be stored at the SRC. Storage time must coincide with times listed and approved on the RRS. All inactive or discharged records shall be stored in records storage boxes, identifying only the Transfer List and box numbers in the appropriate area. (No other marks shall be made on the box exterior.) Transfer List numbers are issued by the RC for each records shipment and destruction year.
- The unit shall prepare a Std. Form 71 and forward the form and detailed backup list to the RC. The RC will make the necessary storage arrangements and notify the unit when the records have been approved to ship.

- **Retrieval Process:** Complete a Std. Form 76, SRC Reference Request, for each item or box required. The RC forwards all forms received by 9:00 a.m. for next day delivery. Same day expedite retrievals require a written request from executive level staff. Contact the RC for further information.

14060.6.9 Records Destruction

The instructions for confidential, non-confidential, and inactive/discharged records are listed below:

Confidential Records

State employees shall witness destruction of paper records that contain exempt, confidential, or sensitive information. For those CDCR units using the SRC for this type of service, all staff at the SRC are State employees and, therefore, the destruction is performed and witnessed by State employees. If a contractor or service provider that is not a State employee is performing the destruction, a State employee shall witness the destruction.

The records should be destroyed by on-site destruction equipment using the State Document Destruction Center (SDDC) or local destruction contract. Destruction contracts can be implemented locally since there are no statewide destruction contracts, but a State employee witness is required.

Instructions for obtaining SDDC services are available from the RC.

Nonconfidential Records

All non-confidential records shall be incorporated into a recycle program. Paper recycle containers are available by contacting the local recycling coordinator.

Inactive/Discharged Records

Local archives and SRC staff shall contact the coordinating staff when inactive or discharged records are due for destruction. The operational unit responsible for the records shall approve, in writing, the destruction or justification for an extension of the retention period.

14060.7 Records Equipment Purchases

Requests for records equipment purchases shall be forwarded to the RC. No request shall be approved unless the records are listed in an approved RRS. Contact the RC for any questions or assistance.

Record equipment purchases may be made for vertical shelf, mobile, specialized files, shredders, micrographic, or optical disk equipment. Complete and forward to the RC the appropriate purchase document as follows:

- Headquarters and DAPO units shall submit a CDC Form 954, Intraoffice Requisition.
- Institutions/facilities shall submit a Std. Form 65, Contract/Delegation Purchase Order, or Std. Form 66, Purchase Estimate.
- A completed CDC Form 1298, Records Equipment Justification.
- Specifications, vendor brochures, or sole source justifications shall be included, if appropriate. The CDCR is mandated to support California Prison Industry Authority (CalPIA) programs. Should equipment that is available through CalPIA be requested for purchase from a vendor other than the CalPIA, a waiver must be obtained from CalPIA and submitted with the purchase order or requisition.

All file equipment shall be secured in accordance with California Code of Regulations, Title 24, Part 2, Section 2-23-12, Earthquake Seismic Standards.

Drawer Files (Replacement Only) Specialized Filing Equipment

Drawer files may be purchased as replacement equipment only. SAM Section 1661 states that vertical shelf files are the State's standard filing equipment. Because of safety regulations, floor space must include an additional amount of space to facilitate an open drawer and allow for office movability.

Complete and forward the appropriate purchase document, CDC Form 954, Std. Form 65 or Std. Form 66, and the completed CDC Form 1298 and a floor plan to the RC.

Executive Drawer Files

In accordance with SAM Section 1661, non-State standard file equipment purchases are restricted to control space and excessive cost. The CDCR has limited the purchase of executive drawer filing equipment to executive staff's office or work area that is subject to public view. For purposes of this Article, executive staff is defined as the Secretary, Undersecretary, Executive Director, Assistant Secretary, General Counsel, Chief Deputy Secretary, Director, Deputy Director, Associate Director, Warden, Regional Administrator, or positions at the Career Executive Appointment (CEA) III level, or above.

Form 954, or Std. Form 65, and justification memorandum to the RC.

Document Destruction Equipment

The SDDC, located in West Sacramento, provides destruction services for confidential records from all State agencies. There are situations that require the records be destroyed locally rather than transporting to the SDDC. If an institution/facility or office feels there is sufficient justification to support the purchase of on-site document destruction equipment, forward the below listed information and documents to the RC.

- Headquarters and DAPO units shall submit a CDC Form 954.
- Institutions/facilities shall submit a Std Form 65 or Std Form 66.
- A completed CDC Form 1298.
- Vendor's specifications, brochures, or sole source justifications shall be included, if appropriate.

Purchase requests for document destruction equipment shall include an attachment that provides any and all applicable information that addresses the DGS Guidelines for Purchase or Rental of Document Shredding Equipment, item numbers 2 through 10 listed on the back side of CDC Form 1298. This will allow for the prompt review of the request.

14060.8 Micrographic and Optical Disk Management

A micrographics system is used to maintain the integrity of records that are vital to the operation of the CDCR.

The RC shall review, approve, and coordinate proposed microfilm and optical disk systems. Feasibility Study Report (FSR) shall be submitted to the RC. The RC shall submit the FSR to DGS, Office of Information Services, for approval.

For proposed purchases of Micrographic/Optical Disk equipment, a FSR, or Computer Workgroup Justification Form (CWJF) (exact document is based on the dollar amount of the project and technology involved) must be prepared. The FSR or CWJF shall then be sent to the Enterprise Information Services for review and approval and will then be forwarded to the RC. After approval by the RC, the approved document shall be forwarded to CalRIM for final approval. Upon return of the approved document from CalRIM, it will be returned to the requestor for processing the appropriate purchase or contract document.

14060.9 Revisions

The Chief, Business Management Branch, or designee shall ensure that the content of this Article is accurate and current.

ARTICLE 24 – UNASSIGNED

ARTICLE 25 – UNASSIGNED

ARTICLE 26 – AMERICAN CORRECTIONAL ASSOCIATION STANDARDS

Revised June 19, 2008

14090.1 Policy

The Department utilizes the American Correctional Association (ACA) standards as resource material in developing departmental regulations, policy, and operational procedures. The Department may pursue accreditation by the ACA at selected facilities as determined by the Secretary.

14090.2 Purpose

This Article provides departmental employees with an understanding of the relationship between the Department and the ACA, and basic structural elements of the accreditation process.

14090.3 General Information

The ACA is a nonprofit, professional organization, focused exclusively on the field of detention and corrections, whose activities include the administration of a national accreditation program as a method of certifying levels of overall compliance with specific and predetermined correctional standards.

The Department utilizes the following ACA manuals:

- Manual of Standards for Adult Correctional Institutions.
- Manual of Standards for Adult Community Residential Facilities.

- Manual of Standards for Adult Probation and Parole Field Service.

14090.4 Responsibility

The Secretary affirms that the Department shall pursue accreditation of its facilities as they are found to be ready for accreditation audits.

The Secretary shall decide which of the facilities are to be targeted for accreditation audits by the ACA for any given time period, and have those decisions incorporated into the Department's facilities plan.

Office of Audits and Compliance

The Assistant Secretary for the Office of Audits and Compliance shall oversee all ACA accreditation activities within the Department including, but not limited to, the following:

- Communicating with the ACA.
- Recommending accreditation-ready facilities to the Secretary.
- Coordinating and completing contracts and applications for accreditation with the facilities selected for accreditation audits.
- Providing technical guidance for accreditation activities at every facility.
- Performing preaccreditation audits at facilities.
- Coordinating the resolution of accreditation related issues/problems.

Division of Adult Institutions/Division of Adult Parole Operations

All Wardens and RPAs shall have systems in place to ensure that ACA standards have been reviewed and, where appropriate, incorporated into local operations.

All Wardens and RPAs whose facilities have been selected for accreditation shall assign a staff member at the level of Lieutenant, Correctional Counselor II (CC-II), Parole Agent II (PA-II), or above, to monitor and coordinate ACA accreditation activities at their respective facilities.

Facilities selected for accreditation efforts, and those that have been awarded accreditation, shall assign an accreditation manager/coordinator to:

- Coordinate the overall effort.
- Communicate local needs and concerns to Warden/RPA.
- Develop and maintain accreditation records and documents.
- Provide training to facility staff.
- Liaison with the Office of Audits and Compliance in all aspects of the accreditation and reaccreditation process.
- Review facility operations for consistency with ACA standards.

14090.5 Revisions

The Deputy Director, Office of Audits and Compliance, or designee shall be responsible for ensuring that the contents of this Article are kept current and accurate.

ACA Agency Manual of Accreditation Policy and Procedure.

Article 27 – Division of Adult Institutions

Revised August 2006

15000.1 Division of Adult Institutions (DAI)

The Director of DAI reports to the Undersecretary of Operations. All responsibilities for the day-to-day operations of the adult institutional facilities and camps rest with this division, specifically with the Director, DAI. A Deputy Director and Associate Directors (AD) assist the Director of the DAI in carrying out this responsibility. The ADs are tasked with managing adult institutions with similar missions.

15000.2 Reception Center Institutions

The AD, Reception Center Institutions, has supervisory responsibility for the Wardens of the following facilities:

- CIM.
- DVI.
- NKSP.
- RJD.
- SQ.
- WSP.

15000.3 Conservation Camp Operations

The overall leadership and guidance to the camps program is provided by the Wardens of the CCC, SCC, and other Wardens whose areas of responsibility include conservation camps. The statewide program is administered through

camp liaisons. The liaisons provide support services necessary for the program, develop and monitor contracts with the California Department of Forestry and Fire Protection, and the Los Angeles County Fire Department for the operation of 38 camps, and serve as the principal contact on camp program matters to other state, federal, or local government agencies, members of the legislature, special interest groups, and the general public.

Responsibilities include the regular statewide monitoring and evaluation of camp operations through the management survey process. Every other year the liaison reviews each camp to ensure it is operating in compliance with all appropriate laws, policies, procedures, and contract obligations. Camp liaisons are also responsible for implementing the statewide Camps Information Program to make the public more aware of the tax dollars saved by camp inmates through their project work, wildland fire fighting, and other emergency activities.

15000.4 High Security and Transitional Housing

The AD has supervisory responsibility for the Wardens of the following facilities:

- CCI.
- COR.
- HDSP.
- KVSP.
- PBSP.
- SAC.
- SVSP.

15000.5 General Population Levels Three and Four

The AD has supervisory responsibility for the Wardens of the following facilities:

- CAL.
- CEN.
- CMC.
- CMF.
- CSATF, COR.
- LAC.
- MCSP.
- PVSP.

15000.6 General Population Levels Two and Three and Male Offender Camps

The AD has supervisory responsibility for the Wardens in the following facilities:

- ASP.
- CCC.
- CRC.
- CTF.
- CVSP.
- FSP.
- ISP.
- SCS.
- SOL.

15000.7 Female Offender Institutions and Camps

The AD has supervisory responsibility for the Wardens of the following facilities:

- CCWF.
- CIW.
- VSPW.

15000.8 Operations and Programs

Operations and Programs are responsible for policy and program formulation within the DAI and ensures consistency and uniformity in their development and application. In this capacity, the Undersecretary Operations and the Director DAI have managerial responsibility for all headquarters-based administrative staff as follows:

15000.9 Institution Operations

Institution Operations, under the guidance of the Undersecretary, Operations and Director, DAI is responsible for the following operational units:

15000.10 Classification Services Unit

Revised July 22, 2013

The Classifications Services Unit (CSU):

- Develops, administers, and maintains CDCR classification policies and procedures to ensure uniform diagnostic evaluations of State inmates.
- Enforces appropriate housing of inmates at the lowest level of custody consistent with the security of the institution and safety of staff, inmates, and the community.
- Endorses inmate transfer recommendations based on verification of specific inmate safety and security considerations, program eligibility and appropriateness, and CDCR bed availability. Case factor reviews include an evaluation of the inmate's criminal history, street or prison gang affiliations, propensity for violence and/or escape, programming needs, work skills, medical and psychiatric needs, and reentry eligibility.
- Audits institutional classification practices and safeguards institutional compliance with CDCR classification policy.
- Resolves conflicts and enforces standardized interpretation of CDCR classification policies raised by institutions to either the chief of CSU or the Departmental Review Board (DRB), for a binding administrative decision.
- Presents ongoing training to institutional staff regarding due process rights, the inmate classification system, use of confidential information, inmate housing criteria, and documentation requirements.
- The CSU includes the following sections and functions:

Population Management Section

- Analyzes and evaluates current and projected inmate population trends.
- Coordinates inmate movement and cost effective bed use.
- Establishes compliance criteria for reception center processing requirements and time frames.
- Monitors and coordinates inmate placement and full utilization of beds in minimum support facilities, camps, restitution centers, and community correctional reentry centers.
- Implements and maintains the County Delivery System, a computer-based system that identifies county delivery options based on expected processing times, projected intake, and geographical location.
- Serves as Intake Control Unit (ICU) for the County Delivery System.

Health Care Section

In coordination with the Division of Correctional Health Care Services (DCHCS):

- Evaluates, endorses, and expedites transfers for medical treatment including special housing for pregnant, physically disabled (including those inmates confined to wheelchairs), and contagious/infectious inmates.
- Endorses and monitors inmates with ongoing psychiatric concerns including inmates recommended for Correctional Clinical Case Management Services, Enhanced Outpatient Program, Mental Health Crisis Bed, and Department of Mental Health Inpatient Hospital Care.
- Evaluates and endorses transfers for inmates with developmental disabilities.
- Acts as liaison with the court, DCHCS, institutions, and families concerning compassionate release requests and coordinates, verifies, prepares, reviews, and processes requests for the Secretary's approval.
- Conducts inquiries and responds to written correspondence from the general public, inmate families, legislators, advocacy groups, judges, and attorneys.

Special Projects Section

- Develops and clarifies components of the classification system.
- Researches and augments classification policies, regulations, and procedures.
- Coordinates efforts to ensure the California Code of Regulations (CCR), Title 15 and the DOM are current.
- Researches, analyzes, and generates administrative and informational bulletins, proposes and implements legislation, and responds to inquiries.
- Provides teletype approval for prerelease transfers and DJJ dual jurisdictional cases.

- Prepares budget change proposals, composes memoranda and special reports to the Governor's Office, and the Secretary.

Sexually Violent Predator Unit

- Refers potential Sexually Violent Predator (SVP) cases to the Department of Mental Health (DMH) via the Board of Parole Hearings (BPH) for clinical evaluations and potential referral for prosecution and a renewable two-year civil commitment.
- Coordinates with the BPH, DMH, DAPO, Correctional Case Records Administration, DJJ, and OLA to implement new laws and procedures (i.e., SVP Program).
- Acts as the liaison with city, county, State, and federal agencies.

Security Housing and Administrative Segregation Section

- Clarifies and standardizes CDCR Administrative Segregation (AD SEG) and Security Housing Unit (SHU) policy and procedures.
- Audits AD SEG and SHU placement to ensure compliance with regulations.
- Establishes criteria for classification review of prison gang validations for determining Indeterminate SHU placement and/or retention.
- Serves as a liaison to the OCS to monitor enemy activity, high notoriety cases, and protective housing unit placements.
- Oversees preparation, investigates, and provides an analysis of cases referred to the DRB.
- Coordinates the classification portion of the DAI compliance reviews.
- Conducts AD SEG Unit Bed Utilization Reviews to maximize use of beds.
- Creates and maintains the Classification Services Representative (CSR) travel schedule to ensure adequate coverage for all institutions.

Minimum Custody Program and United States Citizenship and Immigration Services Section

- Maintains the Enhanced Tracking System to identify, monitor, and coordinate inmate placement and full utilization of beds in Minimum Support Facilities, Camps, Restitution Centers, Community Correctional Facilities (CCF), Community Prisoner Mother Programs, and Community Correctional Reentry Centers (CCRC).
- Identifies and tracks foreign-born inmates in compliance with the United States Citizenship and Immigration Services (USCIS).
- Coordinates with the BPH to facilitate return of inmates to their country of citizenship in compliance with the Foreign Prisoner Transfer Treaty Program.
- Coordinates with the USCIS to facilitate housing and deportation hearings by federal immigration judges for inmates with active detainees.
- Is the liaison with foreign consul concerning issues related to foreign-born inmates.
- Is the liaison with CCF administration concerning CCF issues.
- Is the liaison with the DAPO concerning CCRC and Restitution Center issues.

Training Section

- Plans, coordinates, and presents annual training to Classification & Parole Representatives (C&PRs), Reception Center Correctional Counselor (CC) IIIs, Assistant C&PRs, and other staff responsible for the classification process.
- Collects CSR audit reports and compiles information distributed in quarterly audit report summaries for the purpose of evaluating the classification processes.
- Plans, coordinates, and presents quarterly CSR training regarding classification process updates and changes to policy and procedure.
- Coordinates, presents, and tracks training for all headquarters CCII Specialists and training for CSU staff.
- Provides training for all CDCR institutions/units/offices in various areas of the classification process, on request.
- Is the liaison with Commission on Peace Officer Standards and Training (CPOST) regarding classification issues and training.
- Plans, develops, and funds requests for CC I and CC II Supervisor Training Academies.

15000.11 Correctional Case Records Unit

- Administers and is responsible for planning and developing policies governing the CDCR uniform case records system.

- Assumes responsibility and accountability for the accurate interpretation and application of laws, administrative standards, and court decisions related to the processing, maintenance, and control of inmate and parolee records.
- Acts as administrative and technical advisor to CDCR management on matters related to the records system and is the primary liaison with other governmental agencies, courts, legislators, and other persons on matters related to the records system.
- Reviews and revises DOM Chapter 7, Case Records Information.
- Conducts the records portion of the DAI Annual Compliance Review.

The Correctional Case Records Unit includes the following sections and functions:

Legal Processing Unit

- Reviews legal documents on cases with sentencing discrepancies and communicates with the court, DA, and Office of the Attorney General (OAG) to resolve discrepancies.
- Functions as liaison between CDCR and related city, county, and State agencies on matters concerning the application of sentence and parole laws.
- Acts as consultant/advisor to CDCR staff, court offices, and other governmental agencies or authorized persons regarding CDCR responsibility under pertinent laws and administrative standards, interpretations, and applications of laws and standards related to inmate receipt, sentencing, parole, and release.
- Functions as the hub for records related matters for inmates serving their prison terms in DJJ/CYA facilities pursuant to Welfare and Institutions Code (W&IC) 1731.5c.

Identification/ Warrants Unit

- Operates 24-hours-a-day and provides inmate/parolee history, location, and commitment information to law enforcement agencies and other authorized persons.
- Maintains the CDCR Warrants Register and central dispatch system for the BPH and NAEA warrants issued on parolees-at-large, and releasees-at-large, and places parole holds pursuant to Penal Code (PC), 3056, and/or W&IC 3151, for the DAPO.
- Responds to telephone inquiries concerning felons/civil addicts that require non-confidential information.
- Receives and distributes incident reports.

Correctional Case Records Training Unit

- Analyzes training needs.
- Plans and develops training programs.
- Provides specialized, technical training to Case Records staff throughout the CDCR.
- Provides technical and practical assistance to Case Records staff to eliminate backlogs.
- Resolves legal and procedural problems.

Archives Unit

- Receives, processes, and maintains the records of all discharged felons for a period of 30 years from date of discharge.
- Processes requests for documents pursuant to PC 969(b), Proof of Prior Convictions.
- Processes requests for documents for discharged felons, social service agencies, CDCR staff, and State and national law enforcement.

15000.12 Transportation Unit

- Coordinates the transfer of inmates throughout the State with CSU, DAI, and DAPO.
- Coordinates the transfer of parole violators, escapees, and Western Interstate Corrections Compact cases to and from other states.
- Compiles transportation needs information.
- Schedules and routes inmates between facilities, and to and from county jails.
- Maintains the CDCR fleet of transportation vehicles.

15000.13 Institution Programs

Institution Programs, under the guidance of the Director DAI and the Deputy Director, Operations and Programs, is responsible for the following program units:

15000.14 Standardized Procedures Liaison Unit

- Administers the statewide inmate Disability Placement Plan (DPP).
- Analyzes and coordinates the activities required by major litigation affecting the CDCR.
- Coordinates legislative proposals and bill analysis, chaptered law implementation, and modifications to the CCR, Title 15, Division 3 and the DOM.
- Prepares analyses, issues memos, and recommendations for divisional and departmental consideration on a variety of correctional issues, policies, and practices.
- Prepares written responses to inquiries concerning correctional operations and practices received from elected officials, public, State agencies, inmates' families, and inmates.

The Institution Procedures Liaison Unit is comprised of the two following sections:

Institution Standards and Operations Section

The Institution Standards and Operations Section (ISOS) develops, implements, administers, and monitors the DPP to ensure effective access to programs, services, and activities for disabled individuals incarcerated within the CDCR. The ISOS provides DPP management and guidance to all institutions concerning placement, accommodation, and access issues related to disabled inmates. The Facility Captain, ISOS, serves as CDCR's coordinator as mandated by Title II of the Americans with Disabilities Act.

Litigation Management Section

In coordination with the OLA, the Litigation Management Section:

- Provides litigation coordination for the CDCR in response to major litigation actions filed by or on behalf of inmates.
- Provides the focal point for the analysis, review, and interpretation of issues raised in legal suits and their applicability to correctional policy and practices.
- Prepares required court reports.
- Serves as litigation liaison for the CDCR to the affected institutions, divisions, house counsel, OAG, plaintiffs' attorneys, and inmates.
- Provides functional support to the institutional litigation coordinators.
- Coordinates the divisions activities related to reviewing, interpreting, and evaluating issues impacting correctional policies.
- Coordinates with the Regulation and Policy Management Branch (RPMB) for issues impacting Title 15 and DOM.
- Coordinates activities to develop legislative proposals.
- Provides assistance to field inquiries concerning policy issues.
- Maintains direct responsibility for the correctional visiting policy.

15000.15 Community Correctional Facilities Administration

The Community Correctional Facilities (CCF) Administration Section oversees the statewide coordination and support of CCF programs including:

- Establishing and administering State-operated and contracted CCFs.
- Developing and processing contracts for CCF programs.
- Identifying and coordinating transportation needs.
- Evaluating, monitoring, and auditing CCF programs to ensure compliance with CDCR policies and procedures and contract requirements.
- Providing and maintaining operational integrity of CCF programs/facilities and community relations.
- Providing administrative support to parole regions and resolving problems between parole regions and facilities.

15000.16 Office of Appeals

Revised July 29, 2011

The Office Of Appeals (OOA) monitors CDCR processes utilized by an inmate or parolee to appeal any CDCR decision, action, condition, omission, or policy which they can demonstrate as having a material adverse effect upon their welfare.

The responsibilities of the OOA include:

- Providing a fair and objective review of inmate and parolee appeals at the Secretary's level.
- Meeting with CDCR administrators to review policy and procedure needs as revealed by inmate appeals.
- Conducting audits of facility and parole appeals units.

The Chief, OOA, may act for the Secretary in matters regarding inmate/parolee appeal issues, policies, and practices. As such the Chief, OOA, shall:

- Provide authoritative expertise and guidance.
- Oversee and monitor the Department's conformity with regulations and operating procedures pertaining to or affecting appeals processes.
- Ensure that the necessary training and assistance relative to the appeal system is provided to local appeals coordinators and appropriately delegated staff.

Article 28 – Division of Adult Parole Operations

Revised November 2, 2015

15010.1 Division of Adult Parole Operations

The Director of the Division of Adult Parole Operations (DAPO) reports to the Undersecretary of Operations. The Director of DAPO provides supervision and services for individuals on parole following their terms in State prison. The Director and designees oversee administrative and field support services for statewide Parole Operations at the DAPO Headquarters.

15010.2 Parole Operations

DAPO is organized into two Regions. Each Region is supervised by a Regional Parole Administrator (RPA). The regional offices administer more than 114 unit offices and 2 Parole Outpatient Clinics (POCs) located in the Northern and Southern Regions. Both POC headquarters supervise POC clinicians located in 42 parole complexes throughout the state.

Northern Region

Includes the entire central valley from Kern County (south) to Siskiyou County (north) to the Oregon border.

Southern Region

Includes the San Diego area, extending north to San Bernardino County and Los Angeles County.

15010.3 DAPO Division Headquarters

DAPO Division Headquarters is responsible for training, peer audits, and rehabilitation services. DAPO Division Headquarters serves as a liaison with the Board of Parole Hearings (BPH), law enforcement agencies, and other divisions and departments; supports legislative bill analysis; develops parole policies and procedures; and special projects related to substance abuse treatment programs, POC, and asset forfeiture. Additionally, DAPO Division Headquarters monitors compliance with existing policies and procedures, management of Interstate Compact offenders and, management of global positioning system of adult sex offenders. It maintains liaison with information systems units; collects and analyzes information from field operations (arrest data, holds, continue-on-parole actions, violations, dispositions etc.); coordinates American Correctional Association accreditation; and addresses parolee/inmate appeals, grievances, and correspondence. DAPO Division Headquarters also manages parole litigation and ensures compliance with the court revocation procedures, Armstrong court mandates, and current law. The organizational structure of units within DAPO Division headquarters consists of:

- Alternative Custody Program
- Asset Forfeiture
- Division Training Unit
- Electronic Monitoring Unit
- Fidelity Assurance and Outcomes Unit
- Criminal Intelligence Unit
- Interstate Compact Unit
- Litigation Compliance Unit
- Parole Automation Unit
- Parole Planning & Placement
- Policy and Procedures Unit
- Quality Control Program
- Sex Offender Unit
- Support Services Unit
- Warrant Unit

15010.4 Parole Outpatient Clinics

POCs are located within each parole office and provide the first line of mental health treatment and services to parolees. POCs operate as part of DAPO's Mental Health Services Continuum Program (MHSCP), providing parolees with a seamless continuum of care from the Mental Health Services Delivery System (MHSDS) in the institution, to meeting their mental health needs while on parole.

POCs provide timely, cost effective mental health services aimed at reducing the symptoms of mental illness among parolees to optimize their level of functioning in the community, reduce recidivism, and improve public safety.

POC services include evaluation of mental illness, medication management, individual and group therapy, crisis intervention and case management. POC staff work closely with parolees to develop their individualized re-entry plan, and connect them to essential services within their communities. POC staff also work in conjunction with Integrated Services for Mentally Ill Parolees (ISMIP) providers to refer qualified mentally ill parolees for additional outpatient services.

15010.5 Interstate Compact Unit

The Interstate Compact Unit coordinates the State's functions and responsibilities under the terms of the Interstate Compact for Adult Offender Supervision.

Article 29 – Division of Rehabilitative Programs

Revised August 2006

15020.1 Division of Rehabilitative Programs

The Director, Division of Rehabilitative Programs (DRP), reports to the Undersecretary of Operations. The Director of DRP serves as advisor to the Secretary and supervises the following programs.

15020.2 Office of Education, Vocation and Offender Programs

The Education, Vocation and Offender Programs administers CDCR policies and procedures governing:

- Academic education.
- Funding allocations.
- Curriculum development of basic literacy instruction.
- High school courses and/or equivalency programs.
- Vocational education.
- Funding allocations.
- Curriculum development of basic entry level to advanced skills in a wide variety of vocational programs.
- Recreation/physical education programs.
- Institutional recreation programs.
- Physical fitness and physical fitness training in those institutions responsible for providing inmate firefighters.
- Inmate libraries and law libraries.
- Funding allocations for general libraries as well as the contents of the general collection.
- Guidelines for law library access and materials that meet court requirements.
- Apprenticeship programs - For qualified inmates in vocational education allowing the opportunity to use on-the-job training and related classroom instruction to increase skill level in a trade area.
- Pre-release programs - Voluntary program offered to inmates emphasizing employability skills, communication skills, money management skills, community resources, and parole resources.
- Federal Education Grants - Grant funds are allocated to specific education programs in accordance with State Administrative Manual (SAM), the United States Department of Education guidance, and the California State Department of Education State Plan.

The Office of Education, Vocation and Offenders Programs assists in the development of education programs for new prisons and for special projects within the above fields.

15020.3 Office of Offender Services**In-Prison Services****Community and Re-Entry Services****15020.4 Office of Recovery Services**

The Office of Recovery Services serves as the centralized point of substance abuse treatment and recovery program development, management, coordination, and program fund administration. The ORS:

- Develops CDCR standards for substance abuse treatment and recovery programs to ensure that offenders housed within the CDCR facilities and those supervised within the community receive consistent, quality programs likely to impact the drug use and crime continuum.
- Develops new and innovative pilot substance abuse and recovery programs in CDCR facilities and community settings.
- Monitors program implementation and audits program operation.
- Drafts regulations pertinent to the operation of substance abuse programs to ensure consistent program development.
- Provides grant management for substance abuse-related grant projects, and seeks potential grant sources which may provide assistance in furthering CDCR's programs.
- Establishes a strategic plan to address offender needs for treatment and recovery services.
- Assesses strategic plan progress.
- Assesses the status of the delivery of program services to CDCR's offender population.
- Manages the Joint Venture Program (JVP) pursuant to the 1990 Inmate Labor Initiative.

Article 30 – Division of Health Care Services

Revised August 2006

15030.1 Division of Correctional Health Care Services

The Director of the Division of Health Care Services (DHCS) reports to the Undersecretary of Administration and Offender Services. The DHCS is responsible for consistently providing quality health care to the inmate population within the custodial environment. Quality of care is defined as timely, appropriate, effective, and efficient health care provided within an accepted scope of services and consistent with community standards of care. The Director, DHCS, provides overall administrative direction for the program.

15030.2 Clinical Policy and Field Management Branch

Primary functions include:

- Planning and developing statewide clinical policies and programs.
- Assisting with implementation of policies and programs in the field.
- Administering the programs in the field based on policies and performance data.
- Evaluating the performance of programs and professional practices.

Based on these four functions, this branch is organized into two major Sections: Clinical Policy and Programs, and Field Management.

15030.3 Clinical Policy and Programs Section

This Section consists of staff members who primarily work within one of three units in headquarters. The units include Clinical Standards and Services, Public Health and Prevention, and Clinical Programs Support.

Clinical Standards and Services Unit

Primary functions include:

- Planning and develops standards and structures for clinical operations, professional practice, and management of clinical quality and utilization including use of licensed beds, contract specialty services, and pharmaceutical drugs.
- Planning and developing the orientation, training and development program.

- Providing clinical services and consultations. Clinical operations include programs that span disciplines of public health, medicine, surgery, nursing, dentistry, mental health, and pharmacy.

Public Health and Prevention Unit

The primary function is to collaborate and coordinate with the Clinical Standards and Services and Clinical Programs Support units, and the Field Management Section to plan, develop, and evaluate key public health and prevention programs that focus on Hepatitis C, and inmate-patient education and prevention services. In addition, this program will assist the Office of Risk Management (ORM), and the Academy, in projects and training activities that focus on reducing the risks of communicable diseases and occupational injuries.

Clinical Programs Support Unit

Primary functions include:

- Developing and maintaining clinical information systems that monitor and analyze data collected from several priority areas to ensure compliance with standards of care, program policies, and court mandates.
- Generating routine and ad hoc reports that assist in management decisions.

15030.4 Field Management Section

This Section consists of staff members who primarily work within one of two units at regional and institutional sites. The units include the Quality Management Assistance Program and Regional Administration.

Quality Management Assistance Program Unit

Using two types of teams, the Quality Management Assistance Teams and the Utilization Management Assessment Teams, primary functions include:

- Facilitating implementation of statewide policies and programs.
- Providing appropriate orientation and training.
- Monitoring and improving system and staff performance.

The Utilization Management Assessment Teams consist of registered nurses who work in the institutions. The primary duties of the nurses include:

- Ensuring compliance with the Utilization and Pharmacy Management policies, procedures, and criteria.
- Identifying opportunities to improve quality and reduce waste.

Current priorities focus on the use of registries, licensed correctional beds, costly medications, and community contract services, including emergency services, hospital beds, and requests for referrals for transplant evaluations.

Regional Administration Unit

The primary function of this unit is to administer and manage health care programs in the field based on statewide priorities, policies, and performance requirements. The Regional Administration Unit consists of three regions:

Northern Region:

- California Correctional Center (CCC).
- California Medical Facility (CMF).
- California State Prison, Sacramento (SAC).
- California State Prison, San Quentin (SQ).
- California State Prison, Solano (SOL).
- Deuel Vocational Institution (DVI).
- Folsom State Prison (FOL).
- High Desert State Prison (HDSP).
- Mule Creek State Prison (MCSP).
- Pelican Bay State Prison (PBSP).
- Sierra Conservation Center (SCC).

Central Region:

- Avenal State Prison (ASP).
- Central California Women's Facility (CCWF).
- California Men's Colony (CMC).
- California State Prison, Corcoran (COR).
- California Substance Abuse Treatment Facility and State Prison at Corcoran (SATF).
- Correctional Training Facility (CTF).
- North Kern State Prison (NKSP).
- Kern Valley State Prison (KVSP).
- Pleasant Valley State Prison (PVSP).

- Salinas Valley State Prison (SVSP).
- Valley State Prison for Women (VSPW).
- Wasco State Prison-Reception Center (WSP).

Southern Region:

- California Correctional Institution (CCI).
- California Institution for Men (CIM).
- California Institution for Women (CIW).
- California Rehabilitation Center (CRC).
- Calipatria State Prison (CAL).
- California State Prison, Los Angeles County (LAC).
- Centinela State Prison (CEN).
- Chuckawalla Valley State Prison (CVSP).
- Ironwood State Prison (ISP).
- Richard J. Donovan Correctional Facility at Rock Mountain (RJD).

15030.5 Resource Management and Administrative Support Branch

The primary functions include:

- Developing administrative processes and procedures to support clinical policies and programs at division headquarters and in the field.
- Developing and maintaining appropriate resource development and management procedures.
- Developing, coordinating, implementing, monitoring, and evaluating health care fiscal, quantitative, and programmatic data collection systems and processes to assist in program analysis and planning efforts.

Based on the functions listed above, this branch is organized into three major sections: the Fiscal and Business Management Section, the Licensing and Information Systems Section, and the Program and Policy Coordination Section.

15030.6 Fiscal and Business Management Section

This Section consists of administrative and analytical staff that primarily work in the DHCS headquarters which includes four units: Contracts, Health Care Cost Utilization Program (HCCUP), Fiscal Management, and Capital Outlay.

Contracts Unit

The primary functions include:

- Developing and negotiating Master Health Care Contracts.
- Developing and implementing statewide contract policies and strategies.
- Evaluating and piloting managed care alternatives.
- Monitoring statewide contracts.

HCCUP Unit

The primary functions include:

- Developing, implementing, and maintaining automated statewide systems for health care cost accounting and reporting; census and discharge data collection and reporting; and reporting standardized information on statewide health care cost utilization that supports planning, budgeting, and management needs of DHCS.
- Developing patient profiles to assist the DHCS management in anticipating trends for the purpose of developing future programs and resources requests.

Fiscal Management Unit

The primary functions include:

- Developing, implementing, and maintaining.
- Consulting with Health Care Managers (HCMs) and participating in the training for HCMs and other health care staff on the systems processes, and reporting responsibilities inherent in budget management.
- Developing and preparing budget concept statements and budget change proposals, including statewide budget change proposals.
- Providing direction and support to field managers on trends that could affect their ability to maintain costs within allocated levels, and works closely with managers within the division and other divisions within the Department to develop staffing formulas and ratios.
- Establishing and maintaining reporting and monitoring systems and annual allocations.

Capital Outlay Unit

The primary functions of this unit are directing and coordinating the division's capital outlay and materials management processes.

15030.7 Licensing and Information Systems Section

This Section consists of administrative and analytical staff that work in the DHCS headquarters and include three units: Health Insurance Portability and Accountability Act (HIPAA) Compliance, Information Systems, and Licensing.

HIPAA Unit

The primary functions include:

- Researching, developing, and implementing standardized policies and procedures for the Department's HIPAA program areas.
- Identifying and assisting in the implementation of improvements in information processing to enhance efficiency and effectiveness of the Department's health care services.
- Coordinating the assessment and improvement of statewide systems.

Information Systems Unit

The primary functions include:

- Supporting computer and computer related equipment and printers used by DHCS staff.
- Coordinating with the EIS, DAI, and other programs and agencies regarding health care information system activities and processes.
- Developing, implementing, and coordinating health care data collection and information processing procedures.

Licensing Unit

The primary functions include:

- Preparing new health care facilities for initial licensure.
- Assisting existing licensed health care facilities to maintain licensure.
- Assisting clinical staff to develop and implement policies and procedures, including new statutory and regulatory requirements.

15030.8 Program and Policy Coordination Section

This Section consists of administrative and analytical staff that work in DHCS headquarters and include three units: Education, Training and Telemedicine, and Policy and Planning Coordination.

Education Unit

The primary function of this unit includes the coordination, planning, and provision of the educational programs of the Division, including the Inmate Peer Education Program and the Continuing Medical Education program.

Training and Telemedicine Unit

The primary functions include:

- Planning, organizing, developing, conducting, and evaluating health care training programs.
- Planning, development, and management of the telemedicine services program, including the development of service sites, development of policies and procedures to coordinate clinical services, selection and installation of appropriate telemedicine equipment, data collection, service monitoring, and evaluation.

Policy and Planning Coordination Unit

The primary functions include:

- Developing programs and administrative functions relating to the design and implementation of health care planning efforts.
- Coordinating the planning and policy research, analysis, and development between the units of the division.
- Analyzing health care statutory and regulatory changes and proposals.

15030.9 Personnel Section

This Section consists of administrative and analytical staff whose primary functions include the development and maintenance of an effective division personnel program and the oversight and processing of personnel transactions and procedures.

CCR 15 (3).

Article 31 – Division of Facility Planning, Construction and Management

Revised August 2006

15040.1 Division of Facility Planning, Construction and Management

The Director of the Division of Facility Planning, Construction and Management (FPCM) reports to the Undersecretary of Administration and Offender Services. The FPCM has responsibility for telecommunication planning and management, all capital outlay planning, and managing the construction, renovation, and maintenance of facilities. The FPCM has five branches:

- Facility Planning and Finance Branch.
- Project Development and Management Branch (PDMB).
- Day Labor and Professional Services Branch.
- Security Operations and Maintenance Branch (SOMB).
- Telecommunications Branch.

15040.2 Facility Planning and Finance Branch

The Facility Planning and Finance Branch administers a broad scope of planning, financial management, contract management, and administrative support functions for prison construction, and the Major/Minor Capital Outlay, Special Repair, and Energy Management Programs. These responsibilities include preparation of an annual five-year facilities master plan for new prison and capital outlay programs; bond management for a \$5 billion construction program; development of the Department's capital outlay program for the Governor's budget; management of the consultant/construction contracting and payment processes; and supports the analysis of legislation affecting any programs of the Division. The branch is also responsible for energy management programs, and compliance with the California Environmental Quality Act for new prison construction, prison expansion, and other construction or remodeling projects.

15040.3 Financial and Project Support Section

The Financial and Project Support Section:

- Develops and administers the Department's five-year Infrastructure Plan.
- Budgets and financially manages the capital outlay appropriations, interim loans, and bond proceeds.
- Administers contracts for capital outlay projects.
- Supports division staff's Information Technology (IT) needs.

Infrastructure Planning Unit

In accordance with Assembly Bill 1473, Chapter 606, Statutes of 1999, the Infrastructure Planning Unit develops annually a Five-Year Infrastructure Plan (Plan) in conjunction with the Governor's budget that identifies the Governor's capital outlay policies and funding priorities for each five-year period. In addition to this responsibility, the Infrastructure Planning Unit:

- Works with departmental management to establish multi-year priorities and identify facility deficiencies and capacity needs according to departmental objectives and programmatic standards, guidelines, and priorities.
- Defines data needs, develops assessment tools, directs and coordinates statewide studies, and evaluations to identify and prioritize infrastructure needs.
- Prepares the Plan and coordinates the inclusion of all capital outlay budget change proposals and capital outlay concept papers covering the five-year planning period.

Project Support Unit

Project Support is primarily responsible for managing the fiscal aspects as well as contract development and management in support of the Department's prison construction and capital outlay programs.

For the fiscal aspects, responsibilities include:

- Capital outlay budget preparation.
- Interim loan and bond fund management.
- Ongoing financial management of prison capital outlay projects.
- Legislative/Public Works Board Capital Outlay submittals.
- OFM support budget.
- Quarterly reports for the legislature, control agencies, and other interested parties on the status of authorized projects and development

of other reports and materials as needed for special projects, presentations, or legislative hearings.

The contract responsibilities of the unit include:

- Audit and prepare payments of all prison construction related invoices.
- Participation in scope and fee negotiations with construction managers, architects, and engineers.
- Audit and approval of construction change orders reflecting additions or changes to construction contracts.
- Preparation of all prison construction related contract and amendment requests.
- Log and track contract related documents from receipt through audit and approval.

15040.4 Capital Outlay Section

The Capital Outlay Section is responsible for the Department's capital outlay and special repair programs and serves as a liaison with institutions on facility related issues. The section also has a lead role in working with the Department of Finance (DOF) and Legislative Analyst's Office on capital outlay issues.

The Section's responsibilities include:

- Major/minor capital outlay funding preparation and project Management.
- Special repair funding preparation and project management.
- Budget package preparation.
- Section 6.00 (Budget Act) and architecture/engineering reviews.
- Liaison with institutions on facility related issues.
- Design development.
- Public works board approval.
- Governor's budget submittal.
- Miscellaneous projects such as the DGS funded seismic retrofit projects in our facilities.

15040.5 Energy Management Section

The Energy Management Section's primary function is to make California's prisons as energy efficient as possible and procure the least costly energy available.

The Energy Management Section:

- Obtains financing and oversees design and construction activities for energy efficiency projects at the facilities.
- Monitors gas and electricity costs in order to take advantage of market conditions and regulatory changes in an effort to procure the best energy contracts.
- Monitors utility bills to ensure accuracy of invoices and maintains database of energy usage.
- Updates the peak load reduction plans annually to assist facility managers in determining and managing non-essential electrical loads in order to meet executive orders on energy efficiency.
- General support to facilities on utility issues.

15040.6 Product Development and Management Branch

The PDMB oversees the daily operations of design, construction, activation, contract closeout, and claims management for new State prisons and existing facilities repair/renovation projects. The Branch provides policy direction to diverse program areas of construction operations including site selection, project management, architectural/engineering services, construction management, contract solicitation/negotiation, quality assurance, and claims management. Responsibilities include, but are not limited to, the following:

- Plan, design, and construct new facilities and renovate existing facilities.
- Develop design and construction proposals for capital outlay.
- Develop and administer design, construction, and project management and contract strategies, policies, and procedures.
- Develop joint powers agreements with local jurisdictions for on-site and off-site utilities.
- Negotiate scope and fees for construction and consultant contracts and interagency agreements.
- Negotiation, resolution of cost claims, and arbitration support to OLA.

15040.7 Project Management Section

The Project Management Section manages each of the project teams to control schedules, scope, and budgets of all new prison and existing facilities projects, and effective day-to-day design and construction operations.

15040.8 Project Services Section

The Project Services Section reviews the work of consulting architects, engineers, and inspectors under contract with the CDCR in the preparation of plans, specifications, and cost estimates for construction bid packages of new and existing facility construction. It also oversees the on-site construction management team; administration of construction contracts; coordinates independent inspection of facilities; and intervenes, as necessary, to resolve field disputes.

15040.9 Day Labor and Professional Services Branch

The Day Labor and Professional Services Branch plans, organizes, and administers a statewide inmate work program that utilizes inmates, casual trade labor, and State staff in direct construction activities to complete major and minor capital outlay projects and significant repairs at all CDCR institutions. In addition, it contains a professional architectural and engineering staff that provides a broad range of technical services for the Department and provides construction support for the direct construction and institution public works contract management activities.

Material and Technical Services Section

The Material and Technical Services Section provides a broad range of administrative services in support of the project construction activities undertaken by the Inmate Day Labor (IDL) program. These services include the development, ordering, and processing of material and equipment orders, the development and management of consultant, construction, and service agreements, and the coordination of personnel, equipment, and oversight of this programs budget.

Inmate Day Labor

The IDL Section administers the statewide inmate direct construction program that combines trade union craft persons and inmates under State supervision to complete public works projects at various facilities. The IDL Program undertakes viable, labor-intensive construction projects that are funded through the capital outlay and special repair programs.

Architecture and Engineering Section

The Architecture and Engineering Section provides a broad range of technical services to the branch and existing facilities statewide. This Section produces construction documents and provides technical construction support for the IDL program and institutions to enable them to complete construction projects. In addition, this Section provides assistance to existing facilities on technical problems requiring architectural and engineering services; coordinates technical requirements developed by consultants and other State agencies for improvement projects on existing facilities; and provides input into long-range capital improvement planning.

15040.10 Security Operations and Management Branch

The SOMB provides direction and oversight to ensure the appropriate standards of security are applied to the design, construction, renovation, activation, and maintenance of the Department's facilities. Through project management, training, automation, and one-on-one support, the branch contributes to the Department's overall safety and security, and the efficient use of its resources.

Security Operations Unit

The Security Operations Unit (SOU) is responsible for the development and maintenance of design standards that ensure cost-effective construction while maintaining public, staff, and inmate safety. The SOU reviews major and minor capital outlay budget change proposals and Section 6.00 requests relating to facility/building renovations/modifications and when possible, ensures compliance with new prison construction standards. The unit is also responsible for the development of perimeter security systems including the design, activation, and ongoing maintenance programs of electrified fences.

Facilities Maintenance Unit

The Facilities Management Unit (FMU) is responsible for the development, implementation, administration, support, and compliance reviews of the Standard Automated Preventive Maintenance System (SAPMS) and the maintenance program at all State facilities. The unit is also responsible for developing, administering, and updating the maintenance program section in DOM. The unit shall:

- Conduct on-site operational reviews to provide technical consultation and evaluate compliance with the SAPMS.
- Review and analyze the institutions' database for the inclusion of major systems (electrical, electrified fence, HVAC, personal alarms, water,

wastewater, etc.) as defined, but not limited to the Functional Inventory Guide of the SAPMS.

- Provide contract management and oversight on the hardware/software maintenance contract and licensing agreements on the SAPMS equipment.
- Evaluate monthly corrective and preventive maintenance reports by facility.
- Compile information from the monthly reports as appropriate for the Regional Administrators and Deputy Director.
- Review requests from institutions to complete any in-house projects with the Program Support Unit for impact on the SAPMS.
- Coordinate, develop, and implement departmentwide studies of policy and regulations with regards to SAPMS.
- Review, analyze, and develop standard methodologies for facility management functions such as, but not limited to, a Standard Plant Operations Procedure Manual, Material & Safety Data Sheet Manuals, and Tool Control Procedures.
- Review, analyze, and provide recommendations for facility management in the areas of budgeting, staffing, and vacancies.
- Assess, analyze, and develop appropriate training programs as identified by institution staff.
- Assist EIS in the preparation of any feasibility study report as required by the DOF and DGS in maintaining the SAPMPS.
- Interact with HQs, EIS, Strategic Offender Management System (SOMS) project staff, Business Information System, vendors/contractors, Associate Wardens for Business Services, Correctional Plant Managers, and Preventive Maintenance System analysts.

Technology Management Unit

The Technology Management Unit (TMU) shall be responsible for providing statewide coordination, implementation, and ongoing support for new “state-of-the-art” technology projects approved by the Technology Transfer Committee and the Secretary (Chapter 1, Article 3). TMU shall implement large-scale technology applications to respond to safety and security problems or to improve existing equipment to enhance institutional operations. The TMU shall:

- Develop project plans and monitor progress of implementation.
- Develop and negotiate contracts to support the applied technology.
- Manage and coordinate the delivery, placement, and installation of the system/equipment.
- Provide ongoing support and provide maintenance for the life of the program.
- Report performance history to management and recommend needed improvements/modifications to the applied technology.
- Interact as the departmental liaison during and after project implementation with headquarters, institutions, control agencies, and the business community.
- Provide presentations on the effectiveness of the technology.

15040.11 Telecommunications Branch

The Telecommunications Branch has a role in all new institution construction, facility modification, and maintenance projects. As necessary, the branch designs, procures, maintains, and supports the institutions’ telecommunications systems, the Inmate Security Telephone System, and radio communications in all State correctional institutions, correctional camps, and the CTC. The branch is responsible for managing funds for Department initiated telecommunications and radio projects, and maintaining project budgets.

Article 32 – Office of Correctional Safety

Revised June 17, 2009

15050.1 Office of Correctional Safety

The Chief of the Office of Correctional Safety (OCS) reports to the Undersecretary of Operations. The OCS supports the mission of the California Department of Corrections and Rehabilitation.

The OCS mission is to protect the public and serve the CDCR investigative and security interests.

The OCS is the primary departmental link with allied law enforcement agencies and the California Emergency Management Agency.

The OCS is comprised of six sub-units:

- The Special Services Unit is the primary unit assigned to handle Security Threat Groups (STG), criminal and administrative investigations, and acts as the primary law enforcement liaison.
- The Fugitive Apprehension Teams conduct field arrest operations of high risk parole violators/absconders.
- The Emergency Operations Unit oversees special departmental operations such as special transports; hostage rescue; riot suppression firearms, less lethal weapons, and armories; critical incident response; and protective vests.
- The Emergency Planning and Management Unit facilitates departmental emergency planning, preparedness, response and recovery needs.
- The Criminal Intelligence and Analysis Unit identifies and conducts trend and link analyses between criminal suspects and criminal enterprise organizations operating within California’s correctional systems and assists with internal and external suppression efforts.
- The Juvenile Gang Operations unit is responsible for oversight of juvenile STG management issues.

The Chief, OCS, has line authority over all OCS staff and operations.

Article 33 – Office of Victims and Survivors Rights and Services

Revised August 2006

15060.1 Office of Victim and Survivors Rights Services

The Chief of the Office of Victim and Survivors Rights Services (OVSRS) reports to the Undersecretary of Operations. The OVSRS provides functional oversight in the area of victim services and restitution. The OVSRS is responsible for the overall planning, development, coordination, implementation, and operation of these areas and ensures that victims are informed, heard, and involved in the criminal justice system. The OVSRS is responsible for the overall coordination and operation of victim services and restitution activities throughout CDCR. The scope of the activities related to this program includes, but is not limited to, the following:

- Improves treatment of victims at all levels of involvement with the CDCR.
- Provides training regarding the impact of crime on victims.
- Develops and implements programs in all facilities and parole regions for the collection and disbursement of restitution collected from offenders.
- Notifies victims.
- Facilitates fundraising to benefit victims of crime.
- Develops and disseminates victim services information.
- Involves victim service agencies in CDCR’ activities.
- Develops programs and trains inmates and staff in collaboration with local victim service agencies.
- Develops programs and trains staff on victimization.
- Assists and informs victims of crime in all facets of the correctional process.

Article 34 – Office of Legal Affairs

Revised September 1, 2015

15070.1 Office of Legal Affairs

The General Counsel of the Office of Legal Affairs (OLA) reports to the Secretary of CDCR. The primary functions of the OLA are managing all litigation involving the Department; providing legal advice to the Secretary and the staff of the Department; and representing the Department in administrative proceedings. Among the services provided by OLA are the following:

- Advice on legal matters related to business operations and administrative functions, including contracts, transactions and disputes involving vendor goods and services contracts, environmental issues, and construction related matters.
- Assessment of requests of records pursuant to federal and state law, such as the Public Records Act.
- Advice to hiring authorities and the Office of Internal Affairs regarding the investigation and prosecution of those CDCR employees who have committed crimes or misconduct as specified in Government Code Section 19572 and representation of CDCR in administrative hearings on these matters as well as Equal Employment Opportunity Commission and Department of Fair Employment and Housing mediations.
- Advice on inmate, ward, and parolee health care issues, including representation of CDCR in involuntary psychiatric medication administrative hearings.
- Oversight of the management of class action litigation against CDCR.
- Oversight of litigation against CDCR, including lawsuits seeking money damages filed by inmates, parolees, youths, employees and external plaintiffs, writs of habeas corpus, and writs of mandate.
- Advice on a broad spectrum of issues that pertain to inmates, parolees, and youth including conditions of confinement, regulations, policies, and legislative analysis.
- Advice on general personnel matters, including labor issues, equal employment opportunity claims, employee requests for reasonable accommodations, and Cal/OSHA matters.
- Training, support, legal research and analysis, case management, and settlement authority in workers' compensation cases of CDCR employees.
- Advice to proactively identify and address areas where CDCR may be vulnerable to risk of litigation, or can best mitigate such exposure with early intervention.
- Oversight of Victim Compensation and Government Claims Board (VCGCB) claims filed against CDCR or its employees, including coordination with institution or program staff to develop recommendations to pay or reject claims, staff training on VCGCB processes, and representation of CDCR at VCGCB hearings.

15070.1.1 Request for legal assistance

High level CDCR staff may request assistance with legal matters by sending an email outlining the issue about which they need assistance to Legal.Assistance@cdcr.ca.gov. These high level staff are Executive Staff and their designees, headquarters staff at the level of Chief of a unit and above, Parole Regional Administrators, Wardens, Division of Juvenile Justice Superintendents, and all Litigation Coordinators.

Article 35 – Division of Internal Oversight and Research

Revised August 2006

15080.1 Director-Division of Internal Oversight and Research

The Director of the Division of Internal Oversight and Research (DIOR) reports to the Undersecretary of Administration and Offender Services. The DIOR contains the Office of Internal Affairs, the Office of Research, the Offender Information Services Branch and the Office of Audits and Court Compliance.

15080.2 Office of Internal Affairs

Revised December 13, 2012

The Office of Internal Affairs (OIA) is the departmental entity with authority to investigate allegations of employee misconduct when appropriate. The Chief, Civil Rights Operations (CRO), OIA, serves as an advisor to the Secretary on policies and procedures for implementing the CDCR Equal Employment Opportunity (EEO / Sexual Harassment) policy in accordance with State and federal law.

The OIA serves the Department by providing information and assistance regarding discrimination, procedures for filing complaints, developing and implementing non-discrimination policies and ensuring compliance with these policies by all employees. This office develops prevention strategies for a work environment free from discrimination, harassment, retaliation, and facilitates resolution of complaints filed with the U.S. Equal Employment Opportunity Commission, the California Department of Fair Employment and Housing, and other external compliance agencies, in addition to complaints filed internally. The OIA provides technical assistance and training to EEO Counselors, EEO Coordinators, managers, and supervisors in complying with State and federal statutes, regulations, and departmental policy relating to EEO and civil rights.

The OIA coordinates the activities of the Disability Advisory Committee, which serves as an advisory body to the Secretary, on issues affecting employment opportunities and equitable treatment for all employees, applicants, and volunteers with disabilities.

OIA ensures allegations of employee misconduct are objectively reviewed through the use of the Central Intake Panel and investigated in a manner that provides a complete and thorough presentation of all facts regarding the allegation or complaint for the use by the Hiring Authority in making a determination of appropriate remedy and/or discipline.

The OIA reviews complaints and conducts investigations of staff misconduct including:

- CDCR Equal Employment Opportunity / Sexual Harassment policy violations.
- Discrimination / Harassment.
- EEO Retaliation.
- Allegation Inquiry.
- Criminal.
- Administrative.
- Whistleblower Retaliation.
- Workers Compensation Fraud.
- Employee Use of Deadly Force.

All investigations or inquiries shall be conducted in compliance with all laws, regulations, and departmental policies.

The policy of CDCR is to ensure EEO for all applicants and employees, to promote a professional work environment free from discrimination, harassment, and retaliation, and to conduct training and timely investigations in compliance with civil rights laws and CDCR policy.

15080.3 Office of Research

Revised August 2006

The Office of Research (OR) objectively evaluates the Department's correctional programs with regard to their implementation and effectiveness in reducing the recidivism and return to custody rates and protecting public safety. The branch does this by conducting internal research projects evaluating the outcomes of Department programs and by providing technical advice and oversight of research on Department programs conducted by external researchers under contract with CDCR. The OR also reviews and coordinates the approval of all research projects proposed by outside researchers who desire to study socio-behavioral characteristics of CDCR inmates and parolees as required by the PC. The chief of the branch serves as the chair for the Department Research Advisory Committee whose

approval must be granted before socio-behavioral research can begin within the Department.

15080.4 Offender Information Services Branch

The Offender Information Services Branch (OISB) has been designated as the primary provider of summary statistical information about CDCR inmates and parolees. The OISB responds to special requests; compiles statistical reports; prepares legislative estimates, and population projections; coordinates the timely, accurate, and consistent coding and entry of data; and performs data integrity control functions for the Offender Based Information System, classification, incident, and all other major current and proposed computerized inmate and parolee databases.

Estimates and Statistical Analysis Section

The Estimates and Statistical Analysis Section is the primary source for summary statistical information on inmates and parolees under the jurisdiction of CDCR. This Section ensures that CDCR has accurate data and analyses on which to base program planning and direction; compiles and analyzes information for special projects, court cases, special task forces or programs; prepares periodical statistical reports about inmates and parolees used in budget planning, legislative responses, and audits; and prepares all CDCR projections of future facility and parole populations, including inmate classification levels. This Section also prepares estimates of the impact of proposed legislation, ballot initiatives, and administrative policy changes. In addition, this Section reviews and approves CDCR information to be disseminated to the public by CDCR branches and divisions.

Information Quality Support Section

The information Quality Support Section (IQSS) in OISB is responsible for providing Quality Assurance (QA) oversight for major current, proposed, and future statewide offender information systems. The QA procedures to be applied to these CDCR information systems include continuous monitoring of the validity and currency of data, and developing appropriate procedures and solutions to correct inaccuracies or out of date data.

The IQSS does not directly implement most procedures and solutions. Rather, once a problem has been identified, IQSS provides the owners of the data with the tools and procedures aimed at eliminating the problem. After the owners of the data have implemented these tools and procedures, the IQSS provides ongoing review of the data to ensure its accuracy, currency, and completeness.

This Section also conducts routine and special analyses to maintain accuracy and integrity of data; handles requests for changes and improvements in the data systems; and provides necessary training for facility OBIS operations.

15080.5 Office of Audits and Court Compliance

Revised August 2006

The Office of Audits and Court Compliance are authorized to perform audits, internal control reviews, and compliance assessments on behalf of and at the request of executive management.

Program and Fiscal Audits Branch

The Program & Fiscal Audits Branch (P&FAB) exists to independently audit program contracts for compliance to terms and conditions of the contract and review, evaluate, and better assure that institutions, parole regions, and headquarters are operated in accordance with CDCR standards, State and federal law, and court mandates.

Program Compliance Unit

The Program Compliance Unit is responsible for the evaluation of selected institution and parole operations to ensure that the evaluated institutions and parole operations are in accordance with CDCR standards, State and federal law, and in compliance with court mandates.

Fiscal and Business Management Audits Unit

The Fiscal & Business Management Audits Unit conducts contract audits of profit and non-profit organizations that contract with the CDCR. These contracts provide programs and services to the OCR, the OSAP, the DAPO, and the DCHCS. The FBMAU also evaluates cost data submitted by the individual local jurisdictions for the establishment of the daily jail rate in respect to reimbursement in accordance with the local assistance program, acts as the fiscal consultant for management within the CDCR, and conducts special audits as requested by the Secretary.

Correctional Business Internal Audits Unit

The Correctional Business Internal Audits Unit is responsible for evaluating the institutional business services operations which includes plant operations, materials management, personnel transactions, occupational health and safety, environmental health and safety, food services, inmate trust accounting, procurement, and fire protection.

CCR 15(3)

Article 36 – Division of Administrative Services

Revised August 2010

15090.1 Director, Division of Administrative Services

Updated January 6, 2014

The Director, Division of Administrative Services (DAS), serves as an advisor to the Secretary. The Director of DAS reports to the Undersecretary of Administration and Offender Services. The Director of DAS Division of Administrative Services, supervises the following functions for all program and administrative purposes:

- Human Resources (HR).
- Office of Business Services (OBS).
- Office of Fiscal Services (OFS).
- Regulation and Policy Management Branch (RPMB).

15090.2 Human Resources

The HR has statewide administrative responsibility for the following:

- Human service functions in the areas of health and safety, personnel, labor relations, and training.
- Recruiting, testing, and appointing peace officers and medical staff.
- Conducting background investigations, processing employees' fingerprints, and subsequent arrest notifications.
- Supporting the CDCR's business affairs in the areas of procurement and contracting to ensure that overall departmental objectives are met.
- Providing advocacy and overseeing the Small Business (SB) and Disabled Veterans Business Enterprise (DVBE) Programs.

15090.2.1 Office of Personnel Management

The Office of Personnel Management (OPM) is responsible for establishing CDCR personnel policies and ensures that all personnel actions and examinations are conducted in compliance with applicable control agency laws, rules, policies, and procedures. The OPM provides the technical personnel assistance to managers and supervisors throughout the CDCR. It also reviews and approves classification requests and personnel actions; reviews proposed adverse personnel actions; and conducts periodic audits of all personnel actions throughout the CDCR. The OPM is responsible for administering payroll and personnel programs, including benefits, and for managing a number of automated personnel systems for the CDCR, including the Watch Office Tracking System and the Personnel Post Assignment System. OPM is also responsible for all employee placement actions in the CDCR and serves as the primary liaison with SPB and Department of Personnel Administration (DPA).

15090.2.2 Personnel Operations

Personnel Operations is divided into two service functions: Personnel Operations Section (Field) and Personnel Operations Section (Central Office and Parole).

The Personnel Operations Sections provide managers and supervisors with technical personnel management advice concerning selection, classification, and compensation as well as merit issues. As an extension of the DPA and SPB, section staff ensures that appointments and assigned duties meet all legal and classification requirements. Additionally, these sections are responsible for maintenance and revision of CDCR's classification plan. In

this capacity, staff develops proposals for control agency approval regarding new/revised classification and special salary actions such as recruitment and retention differentials. The section staff are responsible for reviewing proposed adverse personnel actions to determine compliance with SPB standards and providing consultation to management on adverse personnel action procedures and processes. The staff also provide guidance, direction, and training to institution personnel offices and headquarters' liaison staff on delegated matters.

15090.2.3 Personnel Liaison Unit

The Personnel Liaison Unit (PLU) has several major functions and serves as the CDCR "clearinghouse" for all issues related to the Fair Labor Standards Act (FLSA), the federal Family and Medical Leave Act (FMLA), the California Family Rights Act, and other various leave entitlements (collectively referred to herein as the FMLA). Responsibilities include research, development, and negotiation of resolutions to employee complaints filed with the Department of Labor or other outside agencies, FLSA/FMLA-related lawsuits, and FLSA/FMLA-related grievances. The PLU coordinates the efforts of control agencies and the CDCR budget and accounting staff to ensure the accurate and timely processing of settlement payments; responds to FLSA/FMLA inquiries from institutions, headquarters, and the control agencies; and provides FLSA/FMLA training for supervisors and managers.

The PLU is responsible for complex salary determinations; provides training to headquarters and institution personnel staff on salary determinations; and administers implementation of new salary-related programs. The PLU also provides technical personnel support during collective bargaining and provides ongoing support to management, CDCR's labor relations staff, and institution personnel staff on personnel-related collective bargaining issues.

The PLU works with the institutional and headquarters personnel officers to improve efficiency and effectiveness of personnel operations through the development of tools and standardized resources necessary to enable personnel staff to function consistently throughout the CDCR and administers several statewide programs (e.g., Conflict of Interest, Supervisory Bonus Awards, Incompatible Activities, etc.).

15090.2.4 Personnel Examining Section

The PES administers CDCR's civil service examining program on behalf of SPB under the decentralized selection program. PES services are divided into two testing program areas: Central Testing Unit (CTU) and Regional Testing Liaison Unit (RTLUL).

Central Testing Unit

The Central Testing Unit conducts both promotional and open examinations for service-wide classes and classes unique to the CDCR; provides consultation and technical assistance to CDCR managers, supervisors, staff, and the public upon request; interprets and applies civil service merit system laws, rules, policies and procedures; and CDCR policies, procedures, and processes related to personnel examining.

Regional Testing Liaison Unit

The RTLUL manages CDCR's statewide-delegated testing program. Under this program, the Local Testing Offices (LTOs) administer examinations on a local basis. The LTOs include the facilities, HR, New Prison Activation Unit, and Correctional Training Center (CTC). The RTLUL provides LTOs with training, consultation, technical assistance, and oversight to ensure compliance with the civil service merit system's laws, rules, policies, and procedures. In addition, the RTLUL provides LTOs with explicit written materials necessary to administer examinations.

15090.2.5 Personnel Services Section

The Personnel Services Section (PSS) administers the payroll and personnel programs for headquarters' and DAPO staff. These programs include position control, employee benefits, and workers' compensation. The PSS also provides certification of eligibility lists for headquarters and DAPO.

15090.2.6 Personnel Automation Section

The Personnel Automation Section (PAS) develops, implements, maintains, and provides training for custody time and post assignments systems. These automated systems document attendance, position control, post assignments, and produce management reports. The PAS provides State Controller's Office (SCO) Management Information Retrieval System reports, and serves as a liaison with SCO, headquarters units, and other public and private agencies regarding automated personnel systems.

15090.2.7 SB/DVBE Program Advocacy

The HR functions as the departmental advocate for SB and DVBE by developing, implementing and monitoring policies and procedures that are used statewide to achieve SB/DVBE participation goals in contracting and procurement. The HR coordinates and monitors departmental efforts on a

statewide basis and submits mandated reports on CDCR's participation levels and action plan to achieve SB/DVBE participation goals.

15090.2.8 Office of Departmental Training

The Office of Departmental Training (ODT) is responsible for developing and delivering training programs in support of the CDCR and its staff. The ODT is also responsible for the overall management of the Department training program and ensuring that the Department's training goals and objectives are met. The ODT carries out these responsibilities through the Training Academies Section, the Training Development and Support Section (TDSS), and the Business Support Section (BSS). The Training Academies and the BSS are located at the Richard A. McGee CTC.

15090.2.9 Training Academies Section

The Training Academies Section is responsible for the administration and oversight of the Basic Correctional Officer Academy (BCOA); the academies for Correctional Sergeants and Correctional Lieutenants; basic and advanced supervision training; management training; PC 832 training; and special instructor training programs.

Training and Development Support Section

The Training and Development Support Section (TDSS) consists of the Training Technology Services; Curriculum Development; and Training Planning and Field Support units. The TDSS is responsible for integrating technology training and adapting new automation technology into departmental training programs, evaluating departmental training courses, developing lesson plans and curriculum for CDCR training programs and academies, serving as the liaison with the Curriculum Review Committee of the CPOST, and providing functional direction and technical support to institution in-service training offices.

Business Services Section

The BSS is comprised of the Food Services, Plant Operations, Personnel Services, Procurement Services, and Technical Services units. The BSS is responsible for the preparation of cadet meals and the overall maintenance, repair, and upkeep of the CTC. In addition, the BSS is responsible for the administration and oversight of the Department's Badge Program.

15090.2.10 Selection and Standards Branch

The Selection and Standard Branch (SSB) is responsible for recruitment of both peace officers and health care professionals for all institutions and assuring that all individuals appointed as peace officers in the CDCR meet the legal requirements for appointment and are suitable for the responsibilities and authority conferred upon peace officers. The SSB accomplishes this by administering the examinations for entry-level peace officer classifications, conducting background investigations and pre-employment medical examinations for all new appointments to peace officer positions, and establishing qualification and suitability standards for appointment as a peace officer in CDCR. The SSB is responsible for making the initial appointment of all Correctional Officers (CO) to fill the staffing needs of the institutions. It is also responsible for providing service to CDCR hiring authorities via the Individual Service Request process to facilitate the appointment of peace officers. SSB also conducts background investigations on appointees to selected case records series classifications. (See DOM, Chapter 3, Article 16.)

Selection Centers

Selection Centers in northern, central, and southern California are responsible for administering the various testing components of the CO, CCI, and Parole Agent (PA) I examinations and for conducting all background investigations required by law or CDCR policy. The selection centers are the primary service providers in SSB to the various CDCR hiring authorities wanting to make peace officer appointments. The selection centers are located in Sacramento, Fresno, and Rancho Cucamonga.

Standards and Appointments Section

The SAS is responsible for planning, recommending test standards, and developing testing material to be used in entry-level peace officer examinations. The SAS also conducts validation studies to improve peace officer selection and training standards, and recommends policies and procedures related to the appointment and retention of CDCR peace officers. The SAS administers the pre-employment medical process for all peace officer appointments and makes all appointments to the BCOA from the CO eligible list.

Selection Support Section

The Selection Support Section (SSS) provides administrative support to the selection centers and SAS to assist them in processing applicants through the various selection procedures. The SSS is responsible for managing the information system used to track and process applicants, generating reports regarding the status of various examination and selection components,

providing on site support to staff using SSB local and wide area networks, coordinating information transfers between SSB and the SPB to establish certification lists for CCI and PAI, and serving as SSB liaison with the ISB. SSS handles the processing of mass mailing to applicants and the mass processing of various machine readable examination documents used by SSB.

Health Care Recruitment Unit

The Health Care Recruitment Unit is committed to recruiting high-quality medical professionals for staffing at facilities in accordance with the Department's mission of delivering a balance of quality and cost-effective health care in a safe, secure correctional setting.

Peace Officer Recruitment Unit

The Peace Officer Recruitment Unit (PORU) is committed to recruiting entry level peace officers for staffing at facilities. The hard-to-fill categories of CO are the focus of PORU.

15090.3 Office of Fiscal Services

All fiscal services are under the direction of the Deputy Director, OFS.

15090.3.1 Accounting Services Branch

Revised August 20, 2015

Accounting Services Branch (ASB) is responsible for the overall fiscal management of the department. Specifically, ASB is involved in the following activities:

- Plans, organizes and directs all accounting activities for the department. Included are activities associated with payables, receivables, cashiering, travel, trust and the administration of the Inmate Welfare Fund.
- Directs the development, preparation and presentation of financial reports and year-end statements on time and in conformance with legal requirements to control agencies.
- Forecasts short-term and long-term cash requirements and obligations, as a basis for maintaining adequate funds for labor, goods and services.
- Gathers, consults and distributes financial data and projections for executive management that will have substantial influence in adopting a departmental fiscal policy.
- Assists executive management in identifying sensitive fiscal-related issues and assists in developing strategies to address those issues.
- Provides oversight and consultation for the review of accounting systems for appropriate information, accuracy, controls and compliance to appropriate rules, regulations and laws. Assists in testing and upgrades to the accounting system.
- Interacts and consults with external control agencies (e.g., State Controller's Office-SCO, Department of Finance-DOF, Department of General Services-DGS) on complex accounting related activities.
- Provides managed oversight for numerous audits conducted by external agencies (e.g., California State Auditor, SCO, DOF, and DGS) as they relate to accounting activities.
- Designs, recommends and implements a system of internal controls and reconciliation procedures for accounting and financial record keeping and reporting in compliance with Federal and State regulations, GAAP, and agency policies and procedures.
- Reviews and reports on programs' / institutions' internal controls as they relate to cash controls.
- Provides and directs the uniform implementation of statewide policies and procedures impacting accounting operations via Financial Information Memorandums.
- Develops or assists in the development of fiscal related projects that advances the department towards its mission.

ASB maintains offices ("Centers of Excellence") in the following locations:

Bakersfield

ASB-Bakersfield provides accounts payable services (excluding food, contracts and medical) for designated institutions and vendors. It is the office that processes parolee release funds (debit cards), as well as vacation and benefit trust payments for casual laborers.

Corcoran

ASB-Corcoran processes travel-related transactions statewide including all advances, claims, business expense reimbursements, out-of-state trips, preparing the Out-of-State Travel Blanket, long-term assignments, relocation, in-state transportation, car rental and American Express payments.

El Centro

ASB-El Centro provides payment processing services for all non-medical purchase orders (excluding food and contracts), service and expense orders

and non-utility direct pay pays for assigned institutions. This office also processes direct fund transfer transactions from various state agencies including SCO, DGS, Prison Industry Authority, State Compensation Insurance Fund (worker's compensation invoices), etc.

Paso Robles

ASB-Paso Robles processes payments for all non-medical purchase orders for all food vendors statewide, purchase orders and contracts related to postage equipment; rental, leases, maintenance, refills, supplies and coordinates the Electronic Funds Transfers (EFT) for vendors.

Rancho Cucamonga

ASB-Rancho Cucamonga handles cashiering, utility payments and non-employee accounts receivables (reimbursements). Specifically, this office processes deposits, receipts, remittances, asset forfeitures; billing for private, state, federal and local governments, state-owned housing, grants, recycling; and provides payment services related to utilities, telephone, data services and Inmate Ward Labor.

Sacramento

ASB-Sacramento handles administrative, general ledger, payroll accounts receivable, various accounts payable for headquarters programs, including non-medical purchase orders, service and expense orders, contracts for all institutions and headquarters programs, all medical payments, and inmate accounting functions. Reconciliations and year-end statements, federal drawdowns, salary advances, collections from ex-employees, inmate trust and restitution, capital outlay, leases, local assistance, medical and contract payments, legal settlements, employee and inmate property claims, CALPERS, G\$mart, bank drafts, and accounting for closed facilities are some of the items processed by this office.

Stockton

ASB-Stockton provides services for several Northern California Adult institutions and Division of Juvenile Justice Facilities. Ward trust and ward restitution, foster grandparent program, reporting of personal use of state vehicles, county claims for transportation and extradition, and payment processing for non-medical purchase orders and service expense orders for assigned institutions are handled by this office.

15090.3.2 Budget Management Branch

The Budget Management Branch develops, implements, and controls the annual CDCR budget which is submitted to the legislature by January 10. The branch also reviews all CDCR BCPs, coordinates budgetary studies; and prepares special reports for control agencies. Additionally, this branch provides fiscal control for CDCR operations; distributes budgeted funds for each division, parole program, and facility; reviews budget reports; performs policy cost analysis and labor relations fiscal analysis; and participates in labor relations negotiations.

15090.3.3 Fiscal Management and Standardization Branch

The Fiscal Management and Standardization Branch oversees the development of the CDCR's fiscal management policies and operational standardization; coordinates and provides training, guidance, and mentoring on fiscal issues; collects, reviews, and analyzes complex fiscal data to achieve sound fiscal management practices; and coordinates the departmental response to various internal and external fiscal audits.

15090.3.4 Business Information System Project

The Business Information System Project is the Department's commitment to automate, standardize, and streamline business practices through the implementation of an Enterprise Resource Planning (ERP) solution. An ERP is a prepackaged suite of software applications designed to allow the Department to efficiently manage the human resources, financial, procurement/contract, facilities, risk, and business management functions on a real-time basis.

15090.4 Office of Business Services

The Office of Business Services (OBS) consists of four support services sections that include: Business and Support Services Section, Facility Leasing and Maintenance Section, Contract Services, and Food Services Section.

15090.4.1 Business and Support Services Section

The Business and Support Services Section provides support services in the following areas, as well as, coordination with control agencies for the CDCR:

- Procurement of commodities.
- Oversees statewide implementation of policies, procedures, and practices.
- Departmentwide consolidated procurements.

- Materials management program.
- Centralized procurement of CalPIA and canteen product for the institutions.
- Cal-Buy program.
- Cal-Card program.
- Recycle Program.
- Property management.
- Records management.
- Warehousing and supply services.
- Mail services.
- Correspondence control services.
- Departmental general information telephone line.
- Reproduction services.

15090.4.2 Facility Leasing and Maintenance Section

The Facility Leasing and Maintenance Section provides services for the CDCR's administrative and parole offices as well as modular units on institution grounds in the following areas:

- Coordination with control agencies.
- Acquisition of office sites.
- Building management/maintenance/alterations.
- Space planning.
- Lease management.
- Telecommunications/cellular telephones.
- Building security.
- Central office telephone directory.

15090.4.3 Food Services Section

The Food Services Section develops, administers, and monitors the feeding program for all institutions (utilizing the Department's standardized menu); reviews and approves food service needs for existing prisons; coordinates with the CalPIA regarding food programs and products; provides training for food service staff in the institutions to maintain industry standards and compliance in food preparation, storage, and safe handling; participates in committee meetings that develop the policies and processes that impact the health and safety of the inmates (i.e. Food Borne Illness); works with the DCHCS and DAI in developing food programs that address the medical/religious concerns of the inmate population; and assists the OFM on issues relating to new prison construction.

15090.4.4 Office of Contract Services

The Contract Services (CS) has statewide responsibility for the administration of all contract activities to ensure that all CDCR contracts and agreements are executed in compliance with State laws and regulations. The CS consists of four sections which include: Construction Contracts and Bid Packages Section (CC&BPS); Institution Medical Contracts Section (IMCS); Institution Service Contracts Section (ISCS); Services Contracts Section (SCS); and two branch support units: Automation Support Unit and Special Projects/Policy Unit.

Construction Contracts & Bid Packages Section

The Construction contracts & Bid Packages Section (CC&BPS) coordinates all aspects of new prison construction contracts that include: advertising, bidding, awarding, preparing, and processing contract documents through the OAG. The CC&BPS is responsible for facilitating the contracting process for the IDL program, the energy management program and various public works projects for CDCR's institutions and other State owned facilities.

The CC&BPS prepares and processes a wide variety of new prison construction related contractual agreements for areas such as: architectural and engineering, construction testing, surveying, and inspection; and construction and program management services. Additionally, the CC&BPS processes stop notices, escrow agreements, easements, property transfer grants, and rights-of-entry relating to construction sites.

Institution Medical Contracts Section

The Institution Medical Contracts Section (IMCS) is responsible for all aspects of institution inmate medical service contracts exceeding \$5,000. The IMCS also has statewide responsibility for preparing and processing all inmate medical service contracts, such as, but not limited to, physicians, various registries, hospitals, medical groups, and any other inmate medical services requested by the institutions. Responsibilities include advertising, bidding, awarding, and preparing and processing the original or amended contract documents for approval by Department of General Services (DGS)

or OCS under the Department's delegated authority. The IMCS processes medical service contracts on an individual, statewide, regional, or multiple institution basis. The IMCS works closely with the DCHCS and institution Chief Medical Officers/HCMs regarding medical contract issues.

Institution Service Contracts Section

The Institution Service Contracts Section (ISCS) is responsible for all aspects of institution service contracts exceeding \$5,000, and has statewide responsibility for preparing and processing all non-medical contracts requested by CDCR institutions. Responsibilities include advertising, bidding, awarding, preparing, and processing the original or amended service contract documents for approval by the DGS or CS under the Department's delegated authority. The ISCS processes service contracts on an individual, statewide, regional, or multiple institution basis.

Services Contracts Section

The Services Contracts Section (SCS) coordinates all aspects of service contracts for headquarters and DAPO. Responsibilities include advertising, bidding, awarding, preparing, and processing the original or amended contract documents for approval by the DGS or CS under the Department's delegated authority.

15090.5 Regulation and Policy Management Branch

Revised October 13, 2014

The RPMB facilitates and manages on behalf of the Secretary the policy and regulatory development process for the Adult Operations and Adult Programs of the CDCR by overseeing the revision, publication, distribution and archiving of regulations in the Title 15, Division 3, and the statewide operation policy in the DOM (see DOM Chapter 1, Article 6 Regulation and Policy Directives). The RPMB partners with divisions, offices and programs to ensure that their policies and regulations are clear, consistent, concise, authoritative, current and flexible enough to serve the multifaceted operations of the CDCR. It assists the CDCR divisions, offices, and institution/facility staff in preparing policy directives that are consistent with applicable State laws and regulations. The branch also works with department programs to ensure that proposed regulation and DOM revisions are vetted with department stakeholders that may be impacted by the changes proposed. RPMB staff also work with operating divisions to develop Administrative and Informational Bulletins.

RPMB staff evaluate all regulation and DOM proposals for potential conflicts with existing laws, regulations, or policies and manages the printing and distribution of the Notices of Change to Regulations and the DOM (NCRs and NCDOMs) to staff department-wide and all interested parties. Since all Title 15 regulations must meet Administrative Procedure Act (APA) requirements, the RPMB staff work with the Office of Administrative Law (OAL) to file rulemaking packages, issue public notices regarding regulation changes published in the OAL's Notice Register, and manage the public phase of the department's regulation adoption. Consistent with the APA, staff schedule and hold public hearings regarding proposed regulation changes and coordinate with the responsible department program the drafting of responses to public comments generated by proposed regulatory changes. The RPMB also maintains Intranet and Internet Homepages that features all pending and recently adopted changes to the regulations and DOM.

The RPMB is also the custodian of the Department's most sensitive tactical and law enforcement policies. These are contained in the DOM, section 55000. All revisions and changes to these policies are managed through the Statewide Restricted DOM coordinator position that resides in RPMB.

The RPMB manages the development and revisions of CDCR forms to ensure compliance with applicable laws, (GC 14772), department regulations, and policies; maintains and distributes the CDCR forms catalog, and acts as the forms liaison with other State agencies; and arranges for and coordinates the printing of department forms. The department's statewide Forms Coordinator resides in RPMB.

The RPMB also maintains a Department rulemaking and policy library that consists of a reference collection and public records held in accordance with the APA. The library contains branch, topical, historic, and background files for past regulation and DOM revisions, forms catalog, requests for determination of underground regulations, and administrative and informational bulletins.

15090.6 Revisions

The Director, Division of Administrative Services or designee is responsible for ensuring that the contents of this Article are kept current and accurate.

Article 37 – Enterprise Information Services

Revised August 2006

16000.1 Enterprise Information Services

The Director of Enterprise Information Services (EIS) reports to the Undersecretary for Administration and Offender Services. The Director of EIS has supervisory responsibility for the following:

Enterprise Information Services

Under the direction of the Agency Information Officer, the mission of the EIS is to facilitate the accomplishment of departmental goals through automation by the design, development, ongoing operation, security, and maintenance of information technology (IT) systems.

EIS develops and implements all new and existing CDCR IT systems. EIS responsibilities include:

- Installing computer hardware/software; providing customer access to CDCR data.
- Assisting in the justification of new IT.
- Acting as consultants on the most complex technology issues.
- Ensuring that CDCR complies with all oversight and procurement rules and regulations.
- Partnering with program areas to implement IT as a business solution where appropriate.
- Working with Information Security Officer to ensure the safety and integrity of all data and IT.
- Setting departmental standards for hardware and software.
- Providing support and direction to all departmental PC coordinators.

16000.1 Data Center

The Data Center provides technical services required to operate and maintain the CDCR computing resources. The objective of the Data Center is to maximize the availability, reliability, manageability, interoperability, and performance of the CDCR information systems. The Data Center is responsible for purchase and installation of computer hardware, maintaining system software, creating and maintaining CDCR databases, managing system security, operating headquarters mainframe and mini-computers, and implementing and managing local-area and wide-area networks. The Data Center also provides 24 hour, 7 day-a-week customer support including help desk services. The Data Center provides desktop support for headquarters' users and assists and coordinates activities with field staff.

Within the Data Center, the System Administration Unit (SAU) performs systems engineering and analysis to ensure that technologies employed in building CDCR strategic systems operate effectively as an integrated whole. To provide a common data architecture for CDCR systems, the SAU manages the creating and maintenance of a comprehensive, department wide data model upon which CDCR strategic systems can be built. The SAU ensures that CDCR information systems are built in a manner that allows integration of new technologies to support the mission and objectives of the CDCR. The SAU also ensures conformance to industry standards to allow CDCR systems to share essential information internally within the CDCR and with external entities in a secure and error free manner. The SAU also supports information technology architecture planning, review, and decision making processes.

The Data Center provides the liaison function for the Department with the Teale Data Center and Hawkins Data Center.

16000.2 Applications Development and Maintenance Section

The Applications Development and Maintenance Section (ADAMS) is responsible for the development and support of quality, automated applications that meet the business needs of the CDCR. ADAMS serves CDCR staff and other authorized entities by promoting the effective management of, and access to, CDCR-related information. ADAMS is primarily responsible for the analysis, design, development, implementation, and maintenance of CDCR information systems as well as providing customer training and ongoing application support.

Additionally, ADAMS provides assistance in the assessment of automation needs by working directly with the program areas in the development of new system requirements, Information Systems Budget Concept Statements, Feasibility Study Reports (FSRs), Special Project Reports (SPRs), Post-Implementation Evaluation Reports (PIERS), Information Technology

Procurement Plans (ITPPs), procurement strategies (requests for proposals or alternative procurements), procurement evaluations, contract negotiations, contract initiation, and contract management.

16000.3 Parole Automation Section

The Parole Automation System (PAS) is responsible for the development and support of quality automated applications that meet the business needs of the DAPO. PAS serves the DAPO, other CDR staff and other authorized entities by promoting the effective management of, and access to, information on the parolee population throughout the State. PAS is primarily responsible for the analysis, design, development, implementation, and maintenance of all parolee related information systems, as well as, providing customer training and ongoing application support.

Additionally, PAS provides assistance in the assessment of automation needs by working directly with the DAPO program area in the development of new system requirements, Information Systems Budget Concept Statements, FSRs, SPRs, PIERS, ITPPs, requests for proposals or alternative procurements, procurement evaluations, contract negotiations, contract initiation, and contract management.

16000.4 Project Management Office

The Project Management Office (PMO) provides guidance and assistance to CDCR staff starting new IT projects designed to solve problems and improve operations. This includes providing guidance in the development of project concept proposals, feasibility studies, and other documentation required to obtain approval of any IT project. PMO maintains CDCR standards regarding the quality and format of FSR. These standards are consistent with statewide standards for FSRs. PMO reviews and approves FSRs to ensure they satisfy statewide and CDCR standards and requirements. The PMO is the CDCR liaison to the control agencies regarding project initiation matters. The PMO is responsible for tracking all approved projects and ensuring that all projects comply with State reporting requirements. Functional support, assistance, and direction are provided to the Information System Analysts on all system related issues by the Applications Systems Section. PMO is also responsible for coordinating and supporting the ongoing development of the CDCR Strategic Information Systems Plan.

PMO provides functional support to the ongoing operations of the Information Technology Executive Committee (ITEC). PMO responsibilities include:

- Coordinating ITEC meeting agendas.
- Coordinating the review of proposed information systems and furnishing recommendations for ITEC review.
- Preparing periodic updates for the ITEC on the CDCR automation efforts.
- Developing, coordinating, and participating in presentations to the committee that address current IT issues.
- Coordinating the review of IT concepts to ensure compliance and consonance with CDCR policies and the AIMS.
- Recording the actions and decisions of the ITEC for distribution to appropriate CDCR staff.

PMO is responsible for administering and coordinating the CDCR Workgroup Computer Policy. The Workgroup Computing Coordinator (WCC) resides in PMO. The WCC responsibilities include:

- Ensuring that workgroup computing hardware and software requests comply with the CDCR and control agency policy requirements.
- Preparing the appropriate certification documents for workgroup computing procurements.
- Providing assistance in the completion of workgroup computing requests.
- Maintaining the CDCR workgroup computing policy and modem policy as well as related equipment request forms for distribution to CDCR staff.
- Overseeing the personal computer PIER process.
- Maintaining the CDCR personal computer equipment inventory.
- Maintaining a record of all personal computer procurements, including those justified through the use of a FSR, the CDCR internal summary fact sheet, or the approved workgroup computing policy.

ITEC-Support Unit (SU) responsibilities include:

- Coordinating ITEC Committee meetings and disseminate information from these meetings.
- Coordinating review of proposed information systems.

- Preparing annual updates for the cabinet on all CDCR automation efforts for the current year and strategic planning for the coming year.
- Developing, coordinating, and participating in presentations for the ITEC committee addressing current technical innovations.
- Coordinating the review of Information Systems concepts to ensure compliance and consonance with the budget cycle.

In its role as WCC, the ITEC-SU ensures that requests for microcomputer commodities comply with the CDCR and control agency policy requirements; prepares the appropriate procurement certification documents; provides assistance in the completion of workgroup computing equipment requests; maintains the CDCR workgroup computing policy, modem policy, and related equipment request forms for distribution to CDCR staff; and tracks the CDCR microcomputer commodity inventory.

16000.5 IT Planning Section

The IT Planning Section plans for the efficient and effective use of IT resources as required by the SAM. Specifically, SAM 4819.31 requires each State agency to:

- Establish and maintain an operational recovery plan so that it will be able to protect its information assets in the event of a disaster or serious disruption to its operations, and annually certify to the DOF that its plan complies with SAM 4843-4845.
- Establish an ongoing information management strategic planning process to support the accomplishment of its overall business strategy (i.e., its strategy to carry out its programmatic mission) and submit its strategic plan to Department of Information Technology for approval. See SAM 4900.2.
- Adopt standards for an agency information technology infrastructure and ensure that new acquisitions or developments involving information technology are consistent with those standards. See SAM 4900.1.

These externally required planning functions are consolidated in the EIS IT Planning Section. Consolidating these IT planning functions removes barriers that would limit consistency and coherence in CDCR IT planning and enables the CDCR to present a clear, consistent IT strategy to external oversight agencies.

16000.6 Information Security Office

The Information Security Office is responsible for the overall security of CDCR information systems. In accordance with GC 1171 and SAM 4840.2, the CDCR has designated an Information Security Officer. The function is organizationally placed in this Division.

16000.7 Revisions

Article 38 – Office of Labor Relations

Revised January 27, 2016

16010.1 Office of Labor Relations

The Chief of the Office of Labor Relations (OLR) reports to the Undersecretary for Administration and Offender Services. The OLR is responsible for establishing policies and planning, organizing, developing, monitoring, and administering positive and effective labor management relationships and services among CDCR, its employees, and recognized employee organizations, thereby ensuring the delivery of CDCR services to the public with minimum disruption. This is accomplished through, but not limited by, the following:

- Represents management in all areas of labor-management relations, including contract negotiations and administration, statewide and local meeting and conferring, and in handling employee grievances and complaints.
- Establishes policies and procedures related to labor-management relations.
- Provides all levels of management with accurate interpretations of applicable policies, rules, laws, and contract provisions.

- Provides staff support and consultation services to all levels of management regarding rights and responsibilities under the Ralph C. Dills Act and the labor contracts.
- Implements the collective bargaining law for all covered employees and the excluded employees bill of rights.
- Meets and confers in good faith with exclusive employee representatives promptly upon request.
- Upon request, meets and confers, in accordance with Government Code Section 3533, with all employee organizations representing supervisory employees. “Meet and confer” means that they shall consider, as fully as the employer deems reasonable, representations made on behalf of supervisory members prior to arriving at a determination of policy.
- Provides a resource for negotiating labor contracts under the Ralph C. Dills Act.
- Provides training and advice on labor relations issues.

16010.2 LRA Vacancies and Selection Process

CDCR Hiring Authorities, other than the Office of Labor Relations (OLR), seeking to appoint a Labor Relations Analyst (LRA) or an individual performing LRA duties, shall notify the Chief of the OLR or designee prior to advertisement and ensure the Chief of the OLR or designee is afforded the opportunity to review potential candidate applications, participate in interviews, and provide suggestions on candidates. This includes temporary assignments, training and development assignments, and out-of-class assignments where an individual performs the duties of the LRA classification within the Department.

16010.3 Employee Organization Notification Process

The OLR is responsible for ensuring the Department notifies the various Bargaining Units within CDCR when the Department seeks to adopt or amend policies and/or regulations that change working conditions. Prior to the implementation of any new or amended policy and/or regulation, the Hiring Authority shall provide a Negotiation Preparation Tool to the OLR. Detailed instructions on the Negotiation Preparation Tool Process will be available on the CDCR Intranet under the OLR team site.

The OLR will analyze the information provided by the Hiring Authority to determine the potential impact to employee wages, hours, and terms and conditions of employment. The OLR will determine the Department’s notice requirements and will work collaboratively with the specific Hiring Authority to ensure all notice requirements are met.

This process will help ensure that consistent and effective communication between the Hiring Authority and the OLR begins during the early stages of policy and regulation development and will improve efficiency during bargaining and the meet and confer process.

Article 39 – Office of the Ombudsman

Revised August 25, 2014

16020.1 Office of the Ombudsman

The Chief, Office of the Ombudsman (OOTO) reports to the Undersecretary for Operations. The Office of the Ombudsman assists the Secretary and executive staff in identifying and resolving issues at the institutions relating to staff, inmates, inmate families, legislative bodies, special interest groups, and community-based organizations. This office also provides management advice and consultation on issues affecting the full range of departmental programs.

CHAPTER 2—FISCAL MANAGEMENT

ARTICLE 1—BUDGET PLANNING

Revised April 25, 2001

21010.1 Budget Planning—Policy

The Department shall submit an annual budget that is consistent with the policies set by the Governor, the Secretary of the California Department of Corrections and Rehabilitation, and the Director, Department of Finance (DOF).

21010.2 Purpose of Budget Planning

This Article describes the Department's portion of the process for submittal of the Governor's Budget exclusive of Major and Minor Capital Outlay projects. For a description of the Major and Minor Capital Outlay processes, see the DOM Chapter 2, Article 4, Capital Outlay.

21010.3 Budget Planning Responsibility

The Budget Management Branch (BMB) provides coordination for the central support budget planning process.

21010.4 Budget Planning Preparation Calendar

Based on DOF's established schedule, the BMB issues a calendar of actions and deadlines required in the preparation of the Governor's Budget. This serves as a guideline for operating units of the Department to schedule workloads accordingly. Because requirements change annually and State revenues may not be available as anticipated, this calendar is subject to numerous changes.

21010.5 Budget Process

The Budget Act is the primary source for appropriations and provides for the usual and current expenses of the State. Departments are responsible to operate within budgeted levels and to comply with any restrictions or limitations enacted by the Legislature. The Legislature has provided provisions in the Budget Act to allow for budget adjustments. These provisions include authorizations for: intra-item transfers (Section 26.00), deficiencies (Section 27.00), changes to federal funding levels (Section 28.00), and changes to reimbursements (Section 28.50).

The basic concept of budget development uses incremental budgeting. This approach uses the current departmental level of funding as a base amount to be adjusted by change proposals. The Budget Change Proposal (BCP) is the traditional decision document to change the level of service or funding sources for activities authorized by the Governor and the Legislature, or to propose new program activities not currently authorized.

21010.6 Requesting Budgetary Resources

The following are standardized processes used to request budgetary resources:

Policy Budget Change Proposal

The BCP process is used to request the increase, decrease, or redirection of resources due to changes in existing programs, departmentwide problems, policies, procedures, mandates, increase/decrease in workload, etc. The Office of Fiscal Services (OFS) issues instructions annually to set forth overall budgetary policies and the BCP process and timelines. The BCP process usually starts with the Budget Concept Statement (BCS), which is an internal departmental process. BCPs have to be clear, concise, direct, and supported with factual statements and workload data. Approval of this request by the Governor and the Legislature will address changes in resources for the budget year. Current year resource changes will be addressed in either a deficiency request, changes to federal funding levels, or changes to reimbursements, as appropriate.

BCPs containing information technology (IT) components related to IT projects, generally must secure Department of Information Technology approval of the related Feasibility Study Report or Special Project Report prior to submission of the BCP to DOF. These BCPs are subject to the same DOF submittal deadlines.

For BCPs that are tied to a Capital Outlay project, program staff need to coordinate with the Capital Outlay staff to include information that is consistent with the Capital Outlay BCP.

If a requesting program's BCP affects other administrative or operational entities within the Department, the requesting program must contact the affected entity(s) for input on whether additional resources are needed to offset the workload. The requesting program shall coordinate the

inclusion of any identified resources into the BCP. If a BCP affects another State Agency, program staff must contact the other agency to ensure that they concur and will not be in opposition of the BCP. When sending BCP related documentation to another State Agency, the following statement is to be included on all correspondence: "CONFIDENTIAL: DO NOT FORWARD OR DUPLICATE EXCEPT TO AUTHORIZED STAFF."

Responsibility for BCPs

Individuals who direct the preparation and submission of BCPs are as follows:

- Chief Financial Officer, OFS.
- All Chief Deputy Secretaries.
- All Assistant Secretaries.

Population Budget Change Proposal

A Population Budget Change Proposal (POP BCP) is processed every year, starting in the Fall (September), to address changes in resources as a result of projected population changes (inmates/parolees) in both the current and budget years.

Population Projections Fall/Spring

Utilizing the projections issued by the Estimates and Statistical Analysis Section (ESAS), of the Offender Information Services Branch (OISB), and the construction schedule issued by the Office of Facilities Management, the program support unit of the Division of Adult Institutions schedules the placement of inmates in what is known as the "Institution Activation Schedule." Based on this schedule, the ESAS issues the following projections in September/October of each fiscal year (July 1 to June 30):

- Preliminary estimates of prison and parole populations for the preparation of the budget which becomes effective July 1 of the following year.
- Revised population estimates for the current fiscal year.

In February/March of each fiscal year, these projections are revised by the ESAS and utilized in the May Revision of the Governor's Budget.

Finance Letter

This is an emergency Policy BCP request for unforeseeable issues that arise after the Governor has submitted the budget request to the Legislature. Finance Letters are usually submitted in February. Approval of this request by the DOF will revise the budget previously submitted to the Legislature in January.

May Revise

A BCP submitted to the DOF (April 1) and then to the Legislature (May 15) to request augmentation to the Governor's Budget for population (inmate/parolee) change in both current and budget years. This document is submitted in the Spring as a revision to the budget previously submitted to the Legislature in January.

Deficiency Requests

The deficiency request allows Departments to add monies to their budget in the current year to address immediate program changes (i.e., population increases). The request is to be submitted as soon as the need is identified for unforeseen and significant costs over and above what is in the budget. The deficiency request is submitted to the CDCR, DOF, Governor, and the Legislature for approval.

The deficiency process is also used to recover those funds spent during an emergency, which cannot be absorbed by existing resources. The Secretary has defined an emergency as a sudden, unexpected occurrence that poses a clear and imminent danger requiring immediate action to prevent or mitigate the loss or impairment of life, health, property, or essential public services. An emergency has to be an event of large magnitude and severe impact, such as, but not limited to, earthquake, flood, tornadoes, major riots, severe and prolonged disruption of utilities, etc. Only in extreme emergencies are departments allowed to incur expenditures prior to securing the proper funding. However, such expenditures still need to be submitted to the CDCR, DOF, Governor, and the Legislature for approval. Therefore, managers need to immediately (within the next business day of the emergency) notify their chain of command and the OFS of the emergency and, at the end of the emergency, submit to OFS an expenditure report of all costs incurred. Once the OFS validates that those costs meet the requirements of an emergency, it will immediately notify the Office of the Secretary, CDCR, and DOF of its intent to file for a deficiency (if the costs cannot be absorbed).

Approval Process

Any budgetary request will be forwarded to the CDCR for approval prior to final submittal to DOF in compliance with State Administrative Manual (SAM) Section 6120.

21010.7 Budget Change Proposal Adjustments

Adjustments are often required between the final submission of BCPs and the final preparation of the Governor's Budget. The OFS shall notify departmental administrators of such changes and recommend proper action.

21010.8 Budget Allotments

By August 1 of each fiscal year, an initial allotment is issued for each facility, office, and division, provided timely passage of the Budget Act. As the fiscal year progresses and changes are made to the budget, corresponding changes are made to the allotments through budget change notices.

21010.9 Fiscal Reviews

Fiscal reviews are an important process for ensuring that the Department remains fiscally sound. The areas involved with the fiscal review process are:

Programs

Each facility, office, division, and parole region will complete a Monthly Budget Plan (MBP) document using the standardized methodologies listed in the MBP instructions. For those line items with no standardized projection methodology, a detailed explanation is to be provided. The MBP will be submitted to the BMB on the first working day of every month starting with September 1 of each fiscal year. Instructions for completing the MBP can be requested from the BMB. Programs have to continuously monitor their fiscal situation and quickly raise financial problems to the OFS/BMB as soon as they become known. During the month of February, fiscal reviews are held at headquarters to validate the projected expenditures by facility, office, division, and parole region. At the fiscal reviews, Wardens, Health Care Managers, Associate Directors, Deputy Directors, Parole Administrators, and Departmental Managers are expected to:

- Identify the reasons for a potential budgetary surplus/deficit (over-expenditure or lack of funding).
- Identify measures to be taken to offset a potential deficit (if any).
- Provide detailed information (by Agency Object Code) for Temporary Help and Overtime expenditures.
- Provide a clear and accurate reflection of their operation's fiscal state.

Office of Financial Services/ Budget Management Branch

The OFS is responsible for overseeing the fiscal review process and making recommendations to Executive Staff. The BMB, which reports to the OFS, is responsible for reviewing and analyzing the MBP and providing feedback to all facilities, offices, divisions, and parole regions. The BMB Budget Analyst is responsible for reviewing and analyzing the MBP for both Program 21-Institutions and Program 22-Health Care Services for the same institution. The BMB roles and responsibilities for Program 22 are defined in a Memorandum of Understanding between the Division of Correctional Health Care Services and the OFS. The BMB will provide training to the BMB Budget Analysts and the institutions' managers and Budget Analysts about how to make fiscal projections and understand cost data. This training module will also include an indepth discussion on the fiscal and operational challenges of managing a prison. The BMB provides a monthly expenditure roll up of each program to the Deputy Directors/Associate Directors and a MBP roll up of all departmental programs to the Office of the Secretary.

Executive Office

The Director, Division of Support Services, and the Chief Deputy Secretary, Adult Operations, or their designee will Chair fiscal reviews and make final decisions on the approval/disapproval of expenditure projections. The committee shall consist of:

- Undersecretary.
- Director, Division of Support Services.
- OFS.
- Chief, BMB.
- Respective Directors or designee.

21010.10 Fiscal Responsibility

Government Code (GC) Section 13324 states: "Every person who incurs any expenditure in excess of the allotments or other provisions of the fiscal year budget as approved by the Department (OFS) or as subsequently changed by or with the approval of the Department (OFS), is liable both personally and on his official bond for the amount of the excess expenditures." The Chief Deputy Secretaries and Assistant Secretaries approve all policy decision. However, Wardens, Health Care Managers, Assistant Secretaries Deputy Directors, and Parole Administrators have the primary responsibility to follow approved policies and remain within budgetary authority by adhering to the following guidelines:

- Notify the OFS as soon as possible of new policy, procedures, or changes in policy and procedures that may have a fiscal impact. Fiscal impact is defined as an increase in cost that is not funded and cannot be absorbed within existing resources in the current or subsequent fiscal year(s). If a program is operating a deficit mode then there shall be no changes that will increase costs. Follow the established process to acquire additional funding.
- Immediately notify the appropriate chain of command and the OFS of an emergency that may require expenditures to be incurred prior to securing the Office of the Secretary's approval and the appropriate funding.
- Immediately notify the appropriate chain of command, Office of Legal Affairs and the OFS when the Department is compelled by court order or other legal process to make non-budgeted expenditures. The OFS shall contact the CDCR and DOF to begin the process of securing the necessary funding.
- Hold in abeyance the implementation of new or adjusted policies and procedures until the Office of the Secretary's approval and proper funding is secured.
- Agreements with local unions must stay within the parameter of the contract and authorized resources, and must not have a statewide impact.
- Follow the established budget process to request additional resources (Policy and Population BCPs, Finance Letters, May Revise, Deficiency Requests).
- Minimize Temporary Help and overtime expenditures.
- Eliminate unauthorized positions.
- Position upgrades (reclassifying a position to a classification with a higher salary) must be accomplished within existing resources.
- Achieve 100% of the savings identified in the Institutions Vacancy Plan.
- Control sick leave usage in conformance with DOM Chapter 3, Article 8.
- Maximize the use of Permanent Full Time and Intermittent Officers.
- Eliminate programs for which no funding is available.
- Eliminate the liability for accumulated holiday leave and excess vacation and annual leave balances by utilizing the budgetary authorized holiday/vacation relief factor (excluding relief factors that are included in the Institutions' Vacancy Plan).
- Closely monitor the MBP.
- Reduce or postpone non-critical expenditures as long as a budget deficit is projected.
- It is the responsibility of the Warden, Health Care Manager, Associate Director, Deputy Director, or Parole Administrator to ensure that the BMB is notified immediately via the MBP cover memorandum when a projected budget deficit is anticipated. Also, it is their responsibility to submit an action plan addressing every action available to eliminate such projected deficit.
- Prior to awarding medical contracts, for preferred provider hospitals, program staff will prepare a cost benefit analysis of prospective contractors who can provide the necessary level of patient care including; the cost of the medical component and the custody component. Custody and medical costs need to be taken into consideration and the contractor who can provide the required levels of care at the lowest cost to the State of California will be selected as the preferred provider.

21010.11 Policy Decisions and Fiscal Impact

The Chief Deputy Secretaries and Assistant Secretaries approve all departmental policy changes as set forth in DOM 11010.8. The program division Directors shall prepare a request to change policy identifying the scope of the recommended policy change and any fiscal impact. The Director shall route the recommended policy change package to the OFS who shall analyze the projected fiscal impact and ensure the proposal has been costed accurately and the program has identified the funding source and availability of funds for the recommended change. Based on OFS analysis, the CFO will determine one of the following.

- The funding for the request is identified, but not yet allotted to the program. In this situation, the CFO will respond directly to the program, and not forward the request to the Office of the Secretary.
- The program could internally redirect funding within its allotment. Similarly to the above situation, the CFO will respond directly to the program. However, if the program disagrees with the CFO's determination, the CFO shall forward the request along with a recommendation to the Office of the Secretary for final decision.
- No funding is available to implement the request, but program has identified a critical/time sensitive need. In this situation the request will be forwarded to the Office of the Secretary and follow the process for Non-Urgent Requests as described below.

No policy decisions shall be recommended for implementation without the funding being identified, secured, and if necessary, approved by the Office of the Secretary and DOF.

Non-Urgent Requests

Non-urgent requests are to be submitted to the Office of the Secretary, CDCR, and DOF through the normal budgetary process described in Sections 21010.5 and 21010.6. The OFS will work with the program staff to identify which of the processes described in these Sections is to be used to request funding prior to implementation of the change.

Urgent Requests

For urgent requests, the following steps will be taken as expeditiously as possible:

- Program makes request to their Headquarters chain of command, with a copy to the OFS, using the BCS format.
- Deputy Director submits request to OFS for analysis of fiscal impact.
- The OFS reviews and submits to the Office of the Secretary with recommendation to approve or disapprove.
- The Office of the Secretary approves or disapproves and returns to OFS.
- If disapproved, the OFS returns to the originator, closing the request.
- If approved, the OFS immediately notifies the CDCR and DOF to secure approval prior to implementation of a policy change.
- The OFS will work with the DOF on the best approach to acquire additional resources within the budgetary cycle.

21010.12 Inmate Welfare Fund

The Inmate Welfare Fund (IWF) is shown as a separate item in the Budget Act and is subject to the same schedule as the Department's.

Information about the IWF is contained in DOM Chapter 2, Article 20.

21010.13 Revisions

The CFO, OFS, or designee shall be responsible for ensuring that the contents of this Article are kept current and accurate.

21010.14 References

ARTICLE 2 — OPERATING EXPENSES AND EQUIPMENT

Revised April 25, 2001

21020.1 Policy

The Department shall allocate all available funds required for departmental operating expenses.

21020.2 Purpose

This Article describes the allocation process for Operating Expenses and Equipment.

21020.3 Allocation of Funds

By August 1, the BMB shall issue a program/line item budget allocation to each facility office, and division, provided timely passage of the Budget Act. This shall normally be an allocation of the total funds available for operating expenses. If additional funds become available during the fiscal year, subsequent allocations of these funds shall be made at the earliest possible opportunity.

Subsequent changes to original allocations shall be transmitted by numbered budget change documents during the fiscal year. In some instances, informational letters about the changes shall precede the budget change document, but shall not be used to enter the change into the official accounting records. This shall be done only after the budget change document is issued.

21020.4 Schedule 9, Equipment

The Schedule 9 process is for replacing existing equipment only. Equipment for new positions or new programs shall be requested via the BCP process. Equipment reported in the Schedule 9 has a unit acquisition of \$5,000 (e.g., four identical assets at \$3,000 each, for a \$12,000 total would not meet the requirement). For more information, refer to SAM Section 8602.

The BMB sends specific instructions annually (around end of August) on how to complete the Schedule 9 process. DAI, DAPO, and each Headquarters' division/office need to complete the Schedule 9.

21020.5 Written Justification for Requested Equipment

Except for those complements related to new positions, a CDC Form 533, Equipment Budget Request, detailing the description of the equipment, its function, and the need for it shall be attached to the Schedule 9.

21020.6 Equipment for New Positions

Equipment needs related to new positions shall be included in the BCP for the position and submitted to BMB for computation of cost of standard office equipment complement. If equipment and furnishing are required beyond the standard office complement, it must be identified by description and cost in the BCP.

21020.6.1 Standard Equipment Complements

When requesting standard equipment complements, the basic equipment complement guidelines, which are utilized in new prison construction, should be referred to for guidance. For the purpose of BCP, BMB calculates a standard office furnishing complement. This complement, based on classification, may include a chair, table, desk, bookcase, and personal computer or calculator, where applicable.

21020.6.2 Special Equipment

Request for special equipment (major equipment that can not be acquired through the Schedule 9 process) shall be identified in a BCP by description and estimated cost. BCPs shall be submitted to BMB for either inclusion in the Governor's Budget or submission through the Finance Letter process. The Finance Letter process is only used for proposals of critical nature and is not to be used as an extension of the Fall BCP process.

21020.7 Inmate Pay

See the DOM Chapter 5, Article 12 for instructions relating to inmate pay.

21020.8 Minor Capital Outlay

See DOM Chapter 2, Article 4 for instructions relating to Minor Capital Outlay.

21020.9 Revisions

The CFO, OFS, or designee shall ensure that the contents of this Article are accurate and current.

21020.10 References

SAM § 8602.

DOM §§ Chapter 2, Article 4 and Chapter 5, Article 12.

ARTICLE 3 — UNASSIGNED

ARTICLE 4 — CAPITOL OUTLAY

Revised June 11, 2002

21040.1 Policy

In order to identify capital improvement needs and plan for the funding and accomplishment of this activity, the California Department of Corrections and Rehabilitation (CDCR) annually prepares a five-year plan for these improvements along with a project plan for the budget year (i.e., year one of the five-year plan).

21040.2 Purpose

This Article outlines the CDCR's Office of Facilities Management (OFM) procedures and guidelines for development and submission of the five-year capital improvement plan and construction projects for approval.

21040.3 Authorization

Projects included in the Budget Act, and any other legislation, are authorized for planning, design, and construction in accordance with the effective date of the authorizing legislation.

21040.4 Responsibility

The OFM shall maintain the CDCR's five-year plan for major construction projects and direct the planning, design, and construction of all projects authorized by the legislature. Penal Code (PC) Section 7000 authorizes the CDCR to prepare plans for and construct facilities and renovations included within its Five-Year Infrastructure Plan. The CDCR may transfer the responsibility for undertaking any aspect of the plan to the Department of General Services (DGS).

21040.4.1 Request for Project Undertaking by State Agency

The OFM may delegate the completion of funded projects subject to the Department Operations Manual, Section 21040.4, to a CDCR facility. All projects to be undertaken by a facility require approval from DGS using a Standard (STD) Form 23, Request for Project Undertaking by State Agency, applicable to undertake projects from \$120,000 to \$400,000 excluding those projects authorized

for completion by the Inmate Day Labor (IDL) program or those the CDCR undertakes under the authority of PC 7000.

Note: The cost limitation is adjusted upward or downward by the Director of the Department of Finance (DOF) every two years to reflect the percentage change in the California Construction Cost Index (CCCI) as used by DGS. For purposes of compliance with this Section, the current cost limitation can be obtained by contacting the Capital Outlay Section of OFM.

21040.5 Definitions

The following definitions are included as a guide, but any definitions in statute shall supersede the definitions in this Article.

Major Capital Outlay

Major capital outlay projects include the following:

- Any real property acquisition including the exercise of a lease purchase option.
- New construction, extension, or betterment in excess of \$400,000.
- Fixed and movable equipment necessary for the initial occupancy of a new facility.

Minor Capital Outlay

Capital outlay construction projects estimated to cost \$400,000 or less.

Special Repairs

Repair projects that, irrespective of cost, continue the usability of a facility at its designed level of services are termed special repairs. The nature of these repair projects is considered extraordinary, either in amount or occurrence, and extends the life of the facility or infrastructure.

Alterations

Any modification to a State building that changes the use of the building in function, layout, capacity, or quality is an alteration. New construction may be considered an alteration. Typical alterations include the demolition and construction of new walls and additions up to the limits in Section 6.00 of the Budget Act (Section 6).

Maintenance

Maintenance projects are intended to keep structures, grounds, equipment, and facilities within acceptable standards of structural condition, appearance, and utility.

Budget Package

A budget package consists of schematic drawings, outline specifications, and a cost estimate. Packages shall be descriptive to convey accurately the location, scope, cost, and nature of the improvement being proposed.

Preliminary Plan

The preliminary plan includes site plan, architectural floor plans, elevations, outline specifications, and cost estimate. For each utility, site development, conversion, and remodeling project, the drawings shall be descriptive to convey accurately the location, scope, cost, and nature of the improvement being proposed.

Working Drawing

Working drawings include a complete set of plans, specifications, and final cost estimate that show/describe all phases of a project (architectural, structural, mechanical, electrical, civil engineering, and landscaping systems) to the degree necessary for accurate bidding by contractors and for the use of artisans in constructing the project. All necessary professional fees and administrative service costs shall be included in the final cost estimate.

Construction

Construction projects are those that create new or improved real property. A capital outlay project shall include all related items such as fixtures, installed equipment (commonly referred to as Group I equipment), auxiliary facilities, contingencies, project construction management, administration, and associated costs like design and loss of productivity. Group II equipment, movable equipment, such as tables and chairs, will be included as necessary and appropriate.

21040.6 Alterations

Alteration projects shall normally be budgeted in the capital outlay budget category as part of the building construction program. Funds from the State operations' budget category may only be used for alterations if they meet the criteria established under Section 6.00. Pursuant to Section 6.00, no support funds may be used for any project for alteration of a State building requiring total expenditures

of \$100,000 or more unless the Director of DOF determines that the proposed alteration is critical and it is necessary to proceed using funds appropriated for support purposes. The maximum cost of any project undertaken under Section 6.00 authorization shall not exceed \$400,000.

Any construction project estimated to be less than \$1,000, and includes all of the following, may be undertaken by the facility:

- The alterations do not increase program costs and/or personnel year requirements.
- The alterations do not create life, safety, or environmental problems.

21040.7 Development of the Capital Outlay Five-Year Plan for Existing Facilities

As part of the State's construction program, the CDCR shall maintain a five-year plan for major construction projects. The plan shall be prepared in accordance with Government Code (GC) Section 13100 and in compliance with directives from DOF, including the following:

- The CDCR's projected capital outlay needs for five years beyond the period covered by the latest Governor's Budget.
- Capital Outlay Budget Change Proposal's (COBCP) for each project which CDCR wishes to include in the next budget year.
- A listing in priority order of CDCR's proposed capital outlay program for the upcoming fiscal year.

Note: The plan is prepared annually and may be modified at that time.

February 1

The CDCR's Five-Year Infrastructure Plan shall be submitted to the DOF each February.

21040.8 Preparation of Request for Capital Outlay Projects

The COBCP's are the formal requests for capital outlay projects submitted for approval in the five-year plan. They should be prepared in sufficient detail to describe the type of improvements requested. A COBCP shall include the following information regarding the project:

- Purpose of the project.
- Relationship to the Strategic Plan.
- A discussion of alternatives.
- The recommended solution and rationale for choosing it.
- A detailed scope description.
- The basis or source of the cost information.
- Description of any impacts to the support budget.
- Identification of any perceived project risks.
- A proposed project schedule that identifies start and completion of the various funding phases (i.e., preliminary plans, study, etc.).
- A detailed cost breakdown.
- A Management Plan (how will the project be accomplished, swing space, etc.).

21040.9 Capital Outlay Timetable

The following schedule has been established to meet the CDCR and DOF time frames. A detailed timetable for the current budget cycle shall be developed annually and provided to the facilities. Facilities shall adhere to this annual timetable so that analysis and processing may occur in an orderly and effective manner within statewide deadlines. Dates on which facilities are required to submit items are the dates for OFM action in order to forward the items to the Secretary, CDCR, and DOF within the statewide deadlines:

Year One:

March

The OFM shall issue a "Budget Call Letter" to all facilities requesting the development of budget concept papers for the major and minor capital outlay program and identifying the time frames for the upcoming budget cycle.

April

Deadline for the receipt of concept papers for all major and minor capital outlay projects.

May

Capital outlay analysts may conduct on-site reviews of all proposed projects in preparation for project priority setting.

A committee that includes representatives of the Division of Adult Institutions, Division of Correctional Health Care Services, Office of Substance Abuse, Joint Venture Program, and OFM makes project priority recommendations. These recommendations are the basis for determining which projects should be fully developed into COBCP's.

Based on the approved priorities and subject to the availability of funding, facilities are given approval to develop COBCP's.

July

Deadline for submission of COBCP's to OFM.

September

Review and discussion of project analysis, recommendations and COBCP's deficiencies are conducted with facility staff.

October

All final COBCP's are due to OFM.

November

The OFM recommendations and analysis are submitted to the Office of the Secretary to establish the final priority list for the CDCR's capital outlay program.

January – February 1

The existing facilities five-year capital outlay plan is submitted to the CDCR for approval and then to DOF.

Year Two:

July – August

Final approved list of projects submitted to DOF.

September – December

State Capital Outlay Program Evaluation meetings and review are conducted with DOF. Capital outlay budget hearings are held with the DOF and the CDCR to determine which projects will be included in the Governor's budget for the upcoming fiscal year.

January

The Governor's Budget and Budget Bill are submitted to the Legislature.

February

The CDCR identifies capital outlay projects that were not included in the Governor's Budget, but have become critical. Justification identifying why the projects are now critical must be included in a Finance Letter submission.

March

The CDCR receives the Legislative Analyst's Office recommendations of the Governor's Budget.

April – June

Legislative hearings on the Budget Bill are held. During this time, the OFM continues to work with DOF and the Legislative Analyst's Office to resolve outstanding issues.

July

This is the earliest effective date of the Budget Act. Notification of all major and minor capital outlay projects approved in this process is prepared for transmittal to the institutions and other interested programs.

21040.10 Project Design

Project design is the process that converts the concepts outlined in COBCP's into a set of plans and specifications that will allow the project to be constructed. The planning process for major capital outlay projects is divided into two major sections:

- Preliminary plans (or design drawings) include site plans, architectural floor plans, elevations, outline specifications, and cost estimates. This stage in planning is identified in order to review architectural and engineering input to ensure the project still meets facility objectives and is consistent with legislative scope and cost. Preliminary plans shall be reviewed by DOF and approved by the State Public Works Board (SPWB).
- Working drawings (or construction documents) are preliminary plans with full architectural and engineering detail. These plans are developed in sufficient detail to instruct any construction organization how to build the project and identify what materials and equipment must be approved by DOF before any construction can take place.

21040.11 Project Construction

Major capital outlay construction can be accomplished in three ways. All public works not specifically exempted are administered by the DGS. Upon approval of working drawings by the DOF, they may authorize DGS to bid the project to private contractors. The lowest responsible bidder may then construct the project. The second method of construction utilizes IDL. The IDL utilizes a combination of State

staff, trade union labor, and inmates to accomplish the capital outlay project. The IDL requires the approval of DOF, SPWB, and Prison Industries Board and is subject to the availability of resources. A third method that we now have available is under PC 7000 which allows the CDCR to use new prison construction resources and processes.

21040.12 Scope Changes

After the project is authorized for design and/or construction, it may be necessary for the CDCR, DGS, or the contractor to add, delete, or modify components of the project. If that change significantly modifies the size, shape, assigned space, or physical characteristics of the project, written approval shall be obtained from the DOF and the Legislature. Minor capital outlay scope changes only require DOF approval.

21040.13 Revisions

The Deputy Director, OFM or designee shall be responsible for ensuring that the contents of this Article are kept current and accurate.

Section 6.00 of the Budget Act.

Public Contracts Code § 10108.

ARTICLE 5 - REIMBURSEMENTS

Revised September 17, 2009

21050.1 Policy

The California Department of Corrections and Rehabilitation (CDCR) shall recover the full costs of reimbursable goods and/or services, unless full cost recovery has been prohibited by statute.

21050.2 Purpose

This Article shall specify the requirements for full cost recovery on reimbursable goods and/or services.

21050.3 Responsibility

The Office of Fiscal Services (OFS), through the Budget Management Branch (BMB) shall ensure the inclusion of the reimbursements in the Governor's budget and the allocation of reimbursement authority to the various institutions and divisions utilizing the Business Information System (BIS) program.

- If the total departmental budget for reimbursements is insufficient, BMB shall request additional budget authority (using Form DF 47) according to the procedures described in the State Administrative Manual (SAM) § 6551-6557 and Section 28.5 of the Budget Act.
 - BMB shall assist managers in determining the amount to collect for services to other governments.
- Individual managers shall stay within their reimbursement budget or make a timely request for an additional allocation from BMB through the established BIS process.
 - These managers shall notify BMB of new reimbursement activities for inclusion in the budget as a scheduled reimbursement through the established BIS process.

21050.4 Definitions

The following sections are comprised of definitions that shall apply to this Article.

21050.4.1 Reimbursement

Reimbursement consists of cash or some other asset received as repayment for the cost of work or services performed, or for other expenditures made for or on behalf of and for the convenience of another governmental unit, fund, or department, or for an individual firm or corporation. There should be a very positive, direct relationship of the charge to the cost of the particular services performed for an individual or entity before one should consider a receipt to be a reimbursement.

- Reimbursements represent the recovery of an expenditure and are shown in the budget as a reduction of the expenditures of a program or agency.
- All federal funds received directly by a department and not via another State department will be reported as Federal Fund expenditures. Federal funds received from another agency for the cost of work or services performed will be treated as reimbursements.
- Reimbursement expenditures cannot exceed reimbursement collections in total; or by program; or by location.
- Reimbursement receipts cannot exceed reimbursement authority in total; or by program; or by location.

- Changes in authority at any level will require timely communication with BMB and may require the approval of the Department of Finance (DOF) and the Legislature.
- Reimbursements billed, but uncollected, have a negative impact on the ability of CDCR to fully fund its normal support operations and therefore must be closely monitored by the sponsoring institutions and divisions.

21050.4.2 Full Cost Recovery

It is State policy that departments shall recover full costs whenever goods or services are provided for others. These costs of goods or services include all costs attributable directly to the activity plus a fair share of indirect costs which can be ascribed reasonably to the goods or services provided. Refer to SAM § 8752.1 for the cost elements to include and further discussion.

- Direct costs are those which can be identified specifically with a particular program, e.g., salaries and wages of assigned staff to a reimbursable activity.
- Indirect costs are those support costs which usually benefit more than one program or organizational unit. They are accumulated and assigned periodically to the cost objective or organizational units which benefit from the support activity/function.
- Central service costs are costs incurred by central service departments for the benefit of all State departments. This is a pro-rata share of statewide central services costs as determined by the Fiscal Systems and Consulting Unit of the State DOF through the Statewide Cost Allocation Plan.

21050.4.3 Budget Act - Section 28

Section 28 of the Budget Act addresses the approval to augment the expenditure of unanticipated federal funds and other State funds. Refer to SAM §§ 6551 through 6557 for complete details of this process.

21050.4.4 Reimbursement Services

This is broadly defined as including those services which are performed for another agency, organization or individual that are not believed to be permanent in nature and which include, but are not restricted to, projects funded indirectly with federal funds received through an interagency agreement.

- The participation by CDCR in Reimbursement Services projects requires the use of Internal Orders in order to segregate the financial effects from the ongoing support operation. Prior to establishing an Internal Order, programs must have the approval of BMB, Human Resources and Accounting Services.

21050.4.5 Reimbursement Classifications

Reimbursements are classified as either SCHEDULED or UNSCHEDULED. It is the intention of this section to ensure that all CDCR reimbursements are SCHEDULED. Standard numeric classifications of the collections are a six digit number beginning with 9 and allow for a 2 digit suffix for further Agency definitions that may be required to accurately define our reimbursement sources.

- 991XXX Scheduled – Budgeted reimbursements
- 991912 Intradepartmental – Scheduled reimbursements from other departmental units/programs within the same organization. An example of this would be Inmate Ward Labor.
- 991913 Interdepartmental – Scheduled reimbursements from other state departments, commissions, boards, etc. Examples of this would be Prison Industry Authority and the Department of Forestry.
- 991935 External/Federal – Scheduled reimbursements received DIRECTLY from the Federal Government. An example of this would be Care of Federal Prisoners.
- 991936 External/Local – Scheduled reimbursements received from local governmental entities within the State. An example of this would be payments from counties for juvenile offenders.
- 991937 External/Private – Scheduled reimbursements received from private individuals, firms, institutions or corporations. An example of this would be Services to Employees.
- 991938 External/Other – Scheduled reimbursements not otherwise classified. This classification should only be used when

a reimbursement does not fit it into one of the above broad classifications.

- 995XXX Unscheduled – Reimbursements which (1) were not anticipated nor provided for when the budget was prepared; and, (2) for which budget revisions to increase scheduled reimbursements have not been processed. These following categories, while available, shall not be used by CDCR without the approval of OFS as they indicate CDCR has made expenditures that it does not have budget authority for and can result in a deficiency.
- 995962 Intradepartmental – Unscheduled reimbursements from other departmental units/programs within the same organization.
- 991963 Interdepartmental – Unscheduled reimbursements from other state departments, commissions, boards, etc.
- 991985 External/Federal – Unscheduled reimbursements received DIRECTLY from the Federal Government.
- 991986 External/Local – Unscheduled reimbursements received from local governmental entities within the State.
- 991987 External/Private – Unscheduled reimbursements received from private individuals, firms, institutions or corporations.
- 991988 External/Other – Unscheduled reimbursements not otherwise classified.

21050.5 Use of Reimbursement Accounts (By Services)

The level of reimbursement collections (receipts) for certain reimbursement accounts at a given location can remain stable over a long period of time. Such accounts do not need to be adjusted budgetarily. Conversely, those accounts in which a noticeable trend in activity has occurred, either upward or downward, need to be adjusted budgetarily for accuracy.

- Another type of activity is that in which there is a temporary increase in an expenditure to be reimbursed by some agency. The budgetary recognition of this type of increased collection activity can be accommodated within the current fiscal year by submission to BMB, utilizing the BIS system, of a Request for Budget Adjustment, which indicates both the increased expenditure and the anticipated increased reimbursement.
- In certain situations, typically involving employees who have paid in advance for services not subsequently received, refunds may be made by debiting the general ledger account. The procedure for this type of transaction is given in the SAM § 11073.2, Claims for Refunds.

21050.5.1 Other States and the U.S. Government

The reimbursement accounts for Support of Prisoners from Other Jurisdictions and Care of Federal Prisoners respectively are established as follows:

- Rates to be charged these entities, for retention of prisoners, shall be at the current rate charged in the interstate agreement.
- Billing for maintenance of federal prisoners will be done, utilizing the BIS system by the institution having custody of the individual prisoner and the associated accounting office.
- Billings for the care of prisoners from other states will be done by the departmental accounting office utilizing the BIS system.
- A possible area of failure to recover costs related to out-of-state prisoners is special medical care that is not available to the prisoner within the regular institutional medical facilities. It is the responsibility of each institution, therefore, to notify the designated accounting office of such unusual medical expenses, along with supporting documents, in order that the other state may be billed for same.
- The federal government, other states, and counties will not be charged for retention of prisoners who are under commitment to CDCR.

21050.5.2 Prison Industries Revolving Fund

For those services which are to be reimbursed to the support appropriation from the Prison Industries Revolving Fund refer to the Penal Code (PC) §§ 2806 and 2816. These services should be properly covered within an interagency agreement and must consider full cost recovery as detailed above.

21050.5.3 Inmate Welfare Fund

Certain services are provided by institutions to the Inmate Welfare Fund (IWF). Examples of these services are custodial overtime for coverage of special events, food for special dinners and banquets, accounting services, office supplies, printing supplies and services, etc.

These services are initially paid from the General Fund (GF) appropriation. Reimbursements received by the IWF through the provision of these services are repaid to the GF. Prior to committing to the charges, institutions must request IWF approval for the expenditures and must provide an invoice, via their accounting office, for the charges.

Receipts from outside groups for special dinners are, in large part, accepted as donations to IWF. See IWF Procedures Manual, Accounting Records, in the Departmental Operations Manual (DOM), Chapter 2, Article 20, for full details.

- In the absence of service charges, per se, donations to the IWF will be accepted as an expression of appreciation for the service received. Procedures shall be established to handle these donations along with collecting for the cost of materials and supplies; this is not considered a reimbursement.

21050.5.4 Other Department Units

Reimbursements can be recorded and reported between organizations utilizing the BIS system although as a single organization, billings are only authorized for different funds or references.

21050.5.5 Employees

There are two types of services to employees that are available at most institutions (refer to DOM Chapter 5, Article 10 for further details).

- Those provided by the institution in connection with vocational programs or other available resources such as housing.
- Those provided by employee associations, per Government Code (GC) 11013.

This Section concerns only the collection of payments for services rendered by or on behalf of the State of California.

- Procedures for handling receipts from services to employees will be standardized through the BIS system.
- Authorized services for employees which are rendered by inmates will be provided free of any labor charges.
- The cost of materials and supplies or other expense to the State incurred in connection with any such service shall be collected from employees on an actual or estimated basis as appropriate.

Purpose of Policy

The purpose of this policy is:

- To recognize the efforts put forth by inmates in performing these services by providing income to the vocational program where the services are performed.

21050.5.6 Miscellaneous Reimbursements

These reimbursement services include Services to Inmates, Services to Other Agencies, Work Furlough Administrative Charges, Repayment Cash Assistance to Paroles and to Community Correctional Center reimbursements. The handling of all these accounts is covered in DOM § 21050.5 above.

- Services to inmates principally include the sale of postage to inmates.
- Services to other agencies include Services to Employee Association, Services to the Department of Forestry and Fire Protection, etc. The reimbursement accounting records for each such agency are to be separately maintained in the BIS system.
- Services to the Department of Forestry and Fire Protection (emergency firefighting) are not to be established budgetarily, only on an as-used basis, the same as Federal Fire Suppression.

21050.5.7 County or City Short-Term Prisoners

The reimbursement account for this service is Services to Other Agencies, with a subtitle consisting of the name of each such entity.

- Medical expenses should be handled in accordance with the following excerpt from the Standard Interstate Agreement Form.
 - "Any costs of medical, psychiatric or dental services shall be considered normal costs incidental to the operation of the institution in the receiving state if the service is rendered by staff personnel and in regularly maintained facilities operated or utilized by the institution as part of the health or correctional program thereof and if the inmate requires special medication, drugs, equipment, anesthetics, surgery, or nursing care in addition to that commonly available on an informal basis. The cost of any special services, medication, equipment, surgical, or nursing care shall be chargeable to the sending state..."
- BIS system generated billings for the occasional housing of county prisoners in CDCR facilities will be done by the institution housing said county prisoners and the associated accounting office.

21050.5.8 Psychiatric and Medical Cases

With the approval of the Director, Division of Adult Institutions, and either the Warden or his/her designee or medical officer of the day at the receiving institution, and subject to the provisions of PC 4007, which requires a superior court order, an adult county prisoner may be received by CDCR for psychiatric and medical care.

21050.6 Grants

Grants are the funds from sources other than the CDCR GF for operational and demonstration programs, which involve CDCR facilities, employees, inmates, or parolees.

21050.6.1 Authorized Grant Positions

Upon final approval of a grant which authorizes additional positions, a payroll reporting unit shall be established for that grant through the BMB Master Data Unit, using the next number in the series authorized by the revised list of Program Payroll Reporting Units. Only fully funded positions will be established in these reporting units. Those positions assigned to in-kind match grants will continue to be charged against their regular reporting units; they are not to be included in the Reimbursement Services Reporting Unit.

- The STD Form 607, Change in Established Positions, will not be approved by BMB unless evidence of an approved grant accompanies the document.
- Positions authorized by grant will be established only for the period of the grant. The date on which a grant expires is the date which will appear in item 4(b), expiration date of the STD Form 607, which appoints grant positions. This instruction will be adhered to even when it is believed that the grant will be extended or renewed. The renewal or extension will be re-documented for that portion of the extension falling within the current year.

The STD Form 607 process is required for any positions that are funded by Reimbursement.

21050.6.2 Advances/General Ledger Accounting

Many Reimbursement Services project agreements contain a provision for advances. Where possible, accounting officers must apply for an advance payment that will maintain an ongoing level of expenditure prior to the first reimbursement and thereafter between reimbursements.

Maximum advances will be obtained from all grantors as early as possible.

- Care must be exercised to determine that all in-kind match positions are filled at all times. Otherwise, the ability to recover the full amount of the contract is reduced by the amount represented by vacant positions.
- It is imperative that in-kind match positions and the time being billed for such positions are readily identifiable for audit purposes. Billings must be prompt and regular within the terms of the contract.
- It is important that grants must be self-supporting, except for in kind match. Continual attention must be given to project records for reassurance that billings, requests for advances from grantors, and grantor's payments, are current.

An attempt must be made to receive an advance from the grantor sufficient to maintain the anticipated continuing level of expenditures, even when such advance is not specifically mentioned in the contract. Such advances, when received, will be credited to a general ledger account number.

21050.6.3 Collection – Indirect Overhead

SAM provides for the collection of Indirect Overhead (IO) costs associated with the operation of certain grants, contracts, and interagency agreements (SAM §§ 8753 through 8758.1).

- These activities generally operate on a budget agreed to by all parties concerned. In addition, IO may be generated by an activity which either does not operate on a formal budget or in which the expenditures being recovered are intangible or not identifiable (refer to DOM § 21050.6.4 to follow).
- The recovery of these IO charges as reimbursements to the GF are used, in CDCR, as offsets to the expenditures generated by the Indirect Cost Pool in headquarters.
- It is the obligation of the business manager at each location to ascertain that those services for which CDCR contracts and/or invoices are being charged IO at the currently approved rate, if applicable.

21050.6.4 Budgetary Recognition

Each Reimbursement Services project will be established budgetarily by a BIS system request to BMB and a STD Form 607 as required, as soon as, but only when, final approval of the agreement has been received. Only that portion of the grant that in the best estimate will be expended within the current year budget will be established. The remaining portion of the grant, overlapping into budget year, will be established for the new budget year before July 1.

- A grant which is expiring within the current year and which is being extended or renewed must be re-documented by a STD 607, quoting the authority to renew, for that portion of the renewal or extension falling within the current year.

21050.6.4.1 Projects at Two or More Locations

Projects that are to be operated at two or more locations should be apportioned according to each location's share of the budget and individual requests prepared by each location. When this is not feasible (e.g. when there are many locations, or when one location must manage a grant in its entirety with subsidiary operating units), the subsidiary operating unit will still establish its share of the grant budget, using Reimbursement Services account numbers.

- Projects with no IO.
 - Contracts which contain no provision for charging IO (these should be in the minority) should be set up in a group of accounts.
- Projects with IO.
 - Contracts which provide for IO are to be established as outlined.
- Unanticipated IO (including IO contained in budgeted reimbursements such as the Department of Rehabilitation).
 - In as much as there is no contracted or budgeted amount, IO will not be established budgetarily until the annual level of collections can be reasonably well estimated from a few months' actual billings.
 - Requests for budget adjustment will be forwarded to BMB (with STD Form 607s, if appropriate) utilizing the BIS system as indicated previously.

21050.6.5 Invoicing/IO

Authorized staff will create accruals through standard BIS transactions for all indirect overhead invoiced items (not previously encumbered through a purchase order or contract process). As needed, the system will automatically reverse accruals via BIS. The reversal transactions will have a posting date of day one of the new fiscal year.

- When billing is made, the accounts receivable accrual is to be apportioned between the reimbursement account related to expenditure incurred, and reimbursement account for IO, exactly as distributed in the invoice.

21050.7 Revisions

The Deputy Director, Office of Fiscal Services, or designee shall ensure that the content of this Article is accurate and current.

ARTICLE 6 — UNASSIGNED

ARTICLE 7 — UNASSIGNED

ARTICLE 8 — UNASSIGNED

ARTICLE 9 — UNASSIGNED

ARTICLE 10 — EQUIPMENT AND SUPPLIES

Effective December 5, 1989

22010.1 Policy

The Department shall operate in accordance with the basic statewide materials management program policy as stated in SAM 3500.

22010.2 Purpose

This section provides instructions for ordering equipment and supplies for Headquarters.

22010.3 Responsibility

Each unit supply requisition officer shall order and receive supplies and equipment for the unit.

22010.4 Ordering of Supplies

A CDC Form 838, Supply Requisition shall be completed for each and every item listed in the DGS supply catalog. As many as 16 items may be placed on each requisition form and normally, delivery shall be within 24 hours. A supply of CDC Form 838s may be obtained from the Headquarters stockroom and, once completed, forward the white and yellow copies to the stockroom and retain the pink copy in a suspense file.

Emergency Orders

Emergency orders shall be filled immediately upon receipt, either from the supply stocked in the stockroom or from General Services' warehouse located on Watt Avenue. However, the originator shall hand carry the order to the stockroom supervisor or obtain authorization for the merchandise to be picked up at General Services' warehouse.

Nonemergency Orders

For other than emergency orders, place the supply requisition form in the outgoing mail basket. Mailroom employees shall pick up and handle from this point. When material is delivered, check the items against the copy of the order that is returned with the material.

Fill out all supply requests in their entirety and indicate delivery room number and name. For stock numbers and descriptions, refer to the General Services office supply catalog. Orders not completely prepared shall be returned.

Departmental Forms

Orders for all "CDC" and "GA" forms shall be placed on a CDC Form 838, and shall be handled in the same manner as other supply requests. Supply requisitions for these forms do not need a General Services stock number; however, the form number and form name shall be indicated. Orders for all standard state forms shall have the General Services stock number indicated on the supply requisition.

Form 5 Items

All requests for items obtainable only from an outside vendor (i.e., books, maps, etc.) shall be on an STD Form 5, Intra Office Requisition. These forms shall be submitted in duplicate to the BSS for processing. They shall give a complete description of the item desired (size, style, model, color, etc.), the price, the vendor from whom it may be purchased and the employee for whom the item is ordered.

22010.5 Filing Equipment

All requests for filing equipment shall be submitted on a STD Form 5 and shall include a statement of justification.

- Shelf files shall be considered when requesting new equipment. Drawer file cabinets, tub type or desk side files, lateral filing equipment, mechanized files, plan filing equipment and rotary files shall not be authorized except in unusual circumstances and only when fully justified.

Each request shall be submitted to the Department's records management analyst in BSS for review and approval.

22010.6 Shredder

A shredder located in the Correctional Case Records Section may be used to destroy a small amount of confidential material.

Upon request, mailroom personnel shall arrange for the destruction of large amounts of confidential material.

22010.7 Revisions

The Deputy Director, ASD, or designee shall ensure that the content of this section is accurate and current.

22010.8 References

SAM § 1161.

ARTICLE 11 — TRAVEL

Effective December 5, 1989

Updated September 19, 2013

22020.1 Policy

Travel Expense Claims (TEC) policies are specified in the CCR and the various collective bargaining agreements (MOU). All employees are expected to be familiar with the following policy and departmental procedures established to facilitate operations within the framework of these statewide requirements:

22020.2 Purpose

The purpose of this section is to provide the procedures and guidelines to be followed by Department employees who are on travel status. Should the content of this section conflict with any MOU agreement, the MOU will prevail.

22020.3 Responsibility

It is the responsibility of each manager/supervisor authorizing employee travel to practice the following principles:

- Travel is usually warranted when personal contact by the employee is the most economical method of conducting state business.
- Attendance at conferences and meetings is limited to persons immediately concerned with the topics to be discussed or the business to be transacted.
- A manager/supervisor shall consider the most economical method of transportation in addition to the amount of time an employee would spend away from their office.
- Travel by the employee shall be scheduled to avoid backtracking and/or additional trips whenever possible.
- State cars should not be parked overnight at an airport unless there is no other practical and/or reasonable way for an employee getting to and from the airport.
- Reimbursement shall be made only for the method of transportation which is in the best interest of the state. The employee may choose a more expensive form of transportation above the state rate but shall only be reimbursed for the approved state rate for transportation.

Volunteers

With prior authorization, volunteers may be eligible for TEC reimbursements. To be eligible, volunteers must complete and sign a volunteer services agreement, an oath of allegiance, and a health questionnaire.

The TECs shall be limited by the same constraints and policies as state employees.

22020.4 Travel Authorization

Updated September 19, 2013

The travel request, CDCR Form 1082, Request For Travel/Advance, has been designed to provide a weekly plan of proposed travel and absences for any staff member on travel status.

Each staff member shall submit a CDCR Form 1082 to their immediate supervisor preceding planned travel or absence. The approved forms shall be routed as follows:

- If a travel advance is needed, one copy of the form shall be forwarded to the accounting office and one to the employee.
- If no travel advance was requested a copy of the approved form shall be returned to the employee.

22020.5 Travel Expense Advances (TEA)

TEAs to cover necessary travel expenses shall be made from the revolving fund. TEAs are handled in two ways:

- A temporary TEA may be requested at the time the plan for travel is submitted for a specific trip or period.
- A permanent TEA may be approved for employees who travel a significant amount of time on a monthly basis provided it does not exceed the employee's average monthly travel reimbursement. Employees shall submit Standard Form 262, Travel Expense Claim to be reimbursed for the actual amount of each travel claim.

Repayment of Temporary TEA

A temporary TEA is to be repaid within 30 days of the date of issue unless the employee is away from their headquarters continuously for more than 60 days in which case the temporary TEA is to be repaid within 30 days of the employee's return to their headquarters. Repayment may occur in the following ways:

- If the TEA was for more than the actual TEC, repayment in the form of a check for the difference must accompany the TEC.
- If the TEA is for less than the TEC, a revolving fund check for the difference shall be issued when the TEC claim is submitted.
- If the trip is cancelled or postponed more than one week, any temporary TEA is to be returned immediately.

Permanent Travel Expense Claim

Permanent TEAs shall be reviewed periodically and adjusted if the advance does not meet current requirements of the employee's TECs:

- Annual confirmation of the liability and estimate of the current requirements, as required in the SAM, shall be signed by the employee and approved by the supervisor.

Monetary Limit for Travel Expense Claims

The total amount of any outstanding TEA, including temporary and permanent, to one individual shall not exceed \$500. Exceptions to this policy must be approved in writing by the Deputy Director, ASD. A TEA is considered outstanding if no TEC has been submitted to the appropriate accounting office for the trip or purpose for which the TEC was authorized.

Collection of Travel Expense Claims

Failure to repay either a temporary or permanent TEA when circumstances no longer justify the advance will necessitate collection by the accounting office from the employee's salary. A permanent TEA shall be repaid by check once an employee is no longer traveling a significant amount of time in a month or when the employee separates from the Department.

22020.6 Charges for Accommodations and Meals at Department Facility

It is the option of each employee to utilize overnight accommodations at departmental facilities where lodging is available. When such is planned, employees should request reservations and confirmation in advance.

In these circumstances, employees may claim full per diem. However a \$5.00 charge shall be made to the employee by the facility providing the accommodations. Institutions shall develop procedures for collecting this \$5.00 room charge.

No per diem shall be authorized for employees participating in training at the Academy.

Employees who eat meals at state operated departmental facilities shall present meal tickets or equivalent for each meal served.

DPA Rules 599.662 and 599.663 contain authority and instructions concerning employee's and guest's meals served at state operated facilities.

Travel may include staying overnight or eating in Nevada. Subsistence allowance shall be based on in-state travel allowances. Travel claim should state "Reno en route to Susanville."

22020.7 Preparation of Travel Expense Claim, STD Form 262

DPA rules provide allowance for subsistence expenses (meals and lodging), transportation expenses, including commercial carrier fare, private car mileage allowances, parking, taxis, bridge tolls, and business expenses, including telephone calls for non-represented employees. Rules for represented employees are found in the applicable bargaining unit contracts.

The DPA travel expense rules provide reimbursement for necessary and actual out-of-pocket expenses incurred by state employees while traveling on official state business. Within this context, maximum limits are prescribed for various types of expenses incurred. These limits serve the purpose of notifying the employee planning a trip, in advance, the maximum amounts that shall be reimbursed.

24 Hours or More

The regular per diem schedule assumes that an employee will provide the full cost for lodging and meals during a 24-hour period. If an employee receives one or more meals without charge (i.e., a luncheon at a conference that is included in the state paid "tuition" fee), they shall reduce their TEC in accordance with the reimbursement schedule for meals. If an employee receives free room and/or board, their per diem should be reduced to the extent that their actual expenses were reduced.

25 Miles

No subsistence expenses shall be allowed at any location within a radius of 25 miles of an employee's headquarters. Parole agents supervising a caseload are considered to be at "headquarters" wherever their travels might take them in covering their caseload; therefore, no per diem allowance shall be provided for trips of less than 24 hours within such "headquarters."

Claims for meals at informal business meetings, at adjourned sessions or recesses of official meetings when attendance of the employee is primarily for public or community relations are specifically prohibited.

Less Than 24 Hours

Employees on travel status for less than 24 hours may claim subsistence expenses incurred before or after the regularly scheduled workday but lunch allowance may not be claimed. Non-represented employees may claim breakfast and/or dinner expenses incurred 25 miles from headquarters and at least one hour before and/or after the regularly scheduled workday of the employee. Represented employees should check their MOU contract to determine eligibility for meal expenses.

Detailed instructions for preparation of STD Form 262 are contained on the reverse side of the form.

22020.7.1 Rate for Reimbursement

All represented employees should refer to their MOUs to determine actual subsistence allowances as approved by the DPA.

DPA transmits Management Memos when rates of reimbursement change (This document should be attached to this manual section for easy reference for all non-represented employees).

High Cost Rate Criteria

DPA may perform post audits on the Department's application of delegated authority to approve lodging expenses using the following criteria:

- The name and address of the establishment where expenses were incurred.
- The actual amount of the expenses.
- The reason(s) why it was necessary to incur expenses in excess of the authorized limit such as, but not limited to:
 - Employee was required to stay at the lodging site.
 - Employee is handicapped and required "reasonable accommodations".
 - State business was conducted in late night meetings.
 - Cost of transportation to alternative lodging would equal the cost of the rate that was paid.
 - Availability of transportation to alternative lodging.
 - Availability of alternative lodging.
- If more than one employee is attending a conference or meeting a detailed explanation of why one employee could not achieve the objective of the trip.

A copy of the approved request to exceed the \$79.00, lodging rate must be attached to the employee's TEC prior to submission to the appropriate departmental accounting office for processing and submission to the SCO.

22020.7.2 Submission of Travel Expense Claim, STD Form 262

TECs for regular travel shall be submitted monthly but no more than two times per month.

Employees shall submit one original STD Form 262, and one copy with all supporting documentation to their supervisor for approval and forwarding to the accounting office.

22020.8 Private Car Mileage

Reimbursement rates to operate a privately owned vehicle may vary when authorized by department head/designee, or for specialized vehicles with certification.

Rates claimed in excess of authorized cents per mile require that the certification statement on the TEC be signed by the employee. The statement says, "for mileage reimbursement which exceeds the minimum rate, I certify that the actual cost of operating the vehicle was equal to or greater than the rate claimed." The maximum mileage rate that may be claimed without justification to the Internal Revenue Service (IRS) is 24.0 cents per mile and subject to change.

22020.9 Travel Expense Claim for Transportation of Prisoners/Parolees

The definition for "transportation of prisoner/parolee" is the transporting of a prisoner/parolee between two points entirely within the State of California.

All expenses relative to the transportation of prisoners/parolees will be claimed on STD Form 262 separate from any other traveling expenses. This TEC must be clearly marked "Transportation of Prisoners."

DPA rules provide detailed information concerning allowable expenses.

Receipts or supporting vouchers that are required are listed on the reverse side of STD Form 262. In addition, a CDC Form 123, Body Receipt, which is obtained from the facility at the time the prisoner/parolee is delivered, shall accompany the STD Form 262 if any expenses are claimed for the trip.

If, for some reason, the prisoner/parolee is not delivered to a prison or jail, a letter of explanation must accompany the STD Form 262 indicating the reason why the prisoner/parolee was not delivered.

Two copies of the TEC with all substantiating vouchers and receipts shall be forwarded to the administration accounting office upon completion of the trip. The prisoner/parolee's name and identification number must appear on the claim.

22020.10 Travel Expense Claim for Return of Fugitive

Definition for "Return of Fugitive" is the transporting of a prisoner or parole violator from a point outside California to a point within the state.

All TECs for "Return of Fugitive" shall be claimed on AUD Form 5, State Agent Travel Expense Claim.

DPA rules and the reverse side of AUD Form 5 detail allowable expenses.

Certification

The claim of the agent should be accompanied by one (or more) of the certifications shown under Item 12 on the reverse side of AUD Form 5.

A CDC Form 123 should accompany the AUD Form 5.

Receipts or vouchers shall be submitted as outlined on the reverse side of AUD Form 5, Item #10.

If an advance of funds has been made by a county or city treasurer for the transporting of prisoners or parole violators, payment shall be made to such treasurer if claim is accompanied by a certification that such funds were so advanced.

Two copies of the TEC with all substantiating vouchers, receipts, and other necessary documents shall be forwarded to the administration accounting office upon completion of the trip.

22020.11 Automobile Travel Authorization

Revised January 31, 1992

The use of both State-owned and privately owned vehicles for operation on State business is defined and controlled by SAM 0750 through 0755, 4100 through 4188, and DPA 599.630, 599.631, and 599.800 through 599.808.

All employees who drive automobiles in the conduct of State business shall be thoroughly familiar with these provisions.

Information concerning the procedures to be followed in the event of an accident while on State business in a State, private, or rental vehicle can be found in SAM 2420, 2430, 2440, 2441, 2441.1, 2442, and 2442.1.

22020.12 Use of State-Owned Automobile

Revised January 31, 1992

In order to eliminate any misunderstanding concerning authorized use of State-owned automobiles, the following sections are established as a guide:

- Improper use of State-owned vehicles shall be cause for adverse personnel action.
- State-owned vehicles, as a general rule, shall not be driven to or from an employee's home unless:
 - The employee is departing on or returning from an official trip away from headquarters before or after normal working hours.
 - The employee's home is reasonably en route to or from his/her headquarters or other place where he/she is to commence work.
 - The vehicle is used continuously for two or more days to conduct State business.
 - The employee has completed a work day and the vehicle is to be used in the conduct of State business on the same day or before his/her usual working hours the next day.
 - No State garage facility is available.
 - The vehicle is being operated as a van pool on a reimbursed basis between employees' homes and places of employment.

22020.13 Home Storage Vehicle Permit

When an employee is required by his supervisor to store a State vehicle at his/her home or vicinity thereof in order to fulfill his/her civil service duties on a frequent basis, a permit must be issued in advance by the Department.

Frequent, as defined and stated above, shall be 72 nights at home in a 12-month period or more than 36 nights at home over any three-month period, or as permitted under DPA 599.808.

Wardens, the Deputy Director, Institutions Division, and active case carrying agents of the P&CSD shall use the following procedures in securing home storage permits.

- A Home Storage Request/Permit, Office of Fleet Administration (OFA) Form 77 shall be completed by the Warden or Deputy Director, Institutions Division.
- Vehicle travel logs, completely and accurately filled out, that covers the three prior calendar months are to be attached to the request.

- The request shall be submitted to Headquarters, BSS, for coordination of the review and approval process.
- If the request lacks sufficient information, it will be returned for completion and resubmission.
- If the request is approved, a copy of the approved OFA Form 77 will be returned to the requestor.

The approved OFA Form 77 will serve as the permit and shall automatically terminate one year from the date of issuance and may be renewed at the discretion of the Department.

22020.14 Authorization to Operate Unmarked State Vehicle

Employees required to drive unmarked state vehicles in the performance of their official duties are required to submit a memorandum. The memorandum shall contain their name, position, division, job duties, and unit, addressed to The Director and submitted to Contract and Business Service Branch, ASD, as soon after their appointment as possible.

The memorandum shall then be submitted through the Deputy Director, ASD, to the Director for approval. Upon the Director's approval it shall be forwarded to the YACA and the Governor's Office for final approval.

- Blanket authorization has been granted for all case-carrying Parole Agents by the YACA and the Governor's Office.

If the unmarked state vehicle is taken from the DGS vehicle pool a FAD Form 33, Request for Certification to Operate State-Owned Vehicle Bearing Non-Exempt License Plates, shall be submitted to the Deputy Director, ASD, for submission to the Director for approval and then to the AG's office.

A TD Form 34a or 34b, Permit to Operate an Undercover Car will be issued by the AG's Office. The permit may be required by the DGS when checking out an unmarked vehicle from a state garage on a permanent or temporary assignment (VC 5002). These permits shall be renewed annually on a calendar year basis.

DGS undercover vehicles may be obtained on a temporary basis by presenting the "TD34a Form or 34b" permit and their DGS charge card to the state garage dispatcher.

22020.15 Assignment of a State Vehicle

DGS pool vehicles may be obtained from any local state garage or airport pool for a maximum of two weeks per assignment.

State vehicles may be assigned on a long-term basis when it is determined that a short-term rental may hinder the performance of an employee's official duties and those duties will exceed a two-week period.

The request for both undercover and exempt vehicles shall consist of a FAD Form 54, Monthly Assignment or Release of a State Vehicle, or a memorandum prepared in accordance with SAM 4182.5.

Upon approval and availability of the vehicle from the DGS, the employee or their supervisor will be notified by the local garage as to the specifics regarding how the vehicle may be picked up.

- A DGS charge card will have to be presented at that time so that charges for the vehicle are invoiced to the proper billing code number.

The Department is charged for the rental or lease of state vehicles that are owned by the DGS. Prices are shown in the General Services Price Book and Directory of Services.

For additional information on the usage of pool vehicles and locations of available pool vehicles, consult the SAM 4182.4 and 4187.1.

22020.16 Driving Rules

Drivers must have in their possession a valid operator's license while operating a state-owned vehicle.

Employees shall adhere to all vehicle code requirements, including all posted speed limits.

Traffic Citation

If an employee receives a traffic citation while driving a state-owned vehicle, they shall report the circumstances to their supervisor on the first work day in the office following the incident. Citations that indicate negligence or other serious conditions may result in departmental adverse personnel action.

The person to whom the citation is issued is responsible for all fines and other penalties levied.

It is permissible for persons who are not state employees to be passengers in state-owned vehicles, and they are insured by the state when the employee or agent of the state is acting within the scope of their employment. However:

- State cars can only be driven by state employees or agents of the state.
- Employees who wish to take their families with them are encouraged to use private automobiles. Transporting of family members in state-owned vehicles is discouraged.
- Hitchhikers should not be picked up under any circumstances.

Other Than State Business

Use of state-owned vehicles for other than state business is prohibited except as necessary to meet personal needs while traveling.

- Personal needs do not include pleasure driving for sightseeing or recreational purposes.
- The use of state-owned vehicles to and from restaurants within a reasonable distance from the place of lodging is authorized.
- The DGS may notify agencies of alleged misuse of a state-owned vehicle. If, on the basis of any records it may have, the DGS is of the opinion that misuse has not occurred, the case will be closed by an answer to the complainant without referral to the agency.

Travel Log

An automobile travel log is required under the CCRs, DPA 599.807, GC 13951(C) and SAM 4143.

The cost for repairs for damages to a car caused by an employee driving the car not in the course of their state employment, or which is due to willfully or imprudently operating the vehicle in an unsafe or illegal manner shall be charged to the driver (DPA 599.802-599-806 information).

22020.17 Use of Commercially Rented Vehicles

When state pool cars are not available, it is permissible to rent vehicles available through commercial rental agencies. The most economical vehicle suitable for the purpose will be utilized as required under SAM 0756 and 4187.1 and DPA 599.627.

The DGS enters into a service agreement to provide commercial automobile rentals at certain locations in California (SAM 4187.11.) Employees will have no choice as to the model of the vehicle assigned to them. This determination will be made by the vendor. State employees traveling to any of these locations will be required to use the contract vendor. Employees renting from other than the contract vendor in these locations may be personally liable. State employees should not secure rental car insurance, as the State of California is self-insured.

22020.18 Use of Privately-Owned Vehicles

In accordance with DPA 599.630 and 599.631 and SAM 0750 through 0755, the following procedures are established for the use of private automobiles on state business by employees of the Department.

Before an employee can receive reimbursement for official travel performed in a privately owned vehicle, it is necessary that a Standard Form 261, Authorization to Use Privately Owned Vehicles on State Business be approved by authorized persons. The following procedure shall be used to obtain such approval.

The employee shall complete and sign STD Form 261 and route as follows for signature by the authorized officer indicated below:

Institutions

- To Warden by business manager through division heads.

P&CSD

- To Deputy Director, P&CSD, through Regional Administrator or appropriate Headquarters supervisor.

Department Headquarters

- To division chief through regular supervisor.

When approved by authorizing officer, the following distribution of STD Form 261 will be made:

Original

- Forward to the accounting officer, authorization for payment of private mileage on travel expense claim.

Duplicate

- Return to employee.

Triplicate

- Return to supervisor.

If permit is disapproved, all copies of STD Form 261 will be returned to the employee.

22020.19 Reimbursement for Use of Private Car

When reimbursement is authorized on a mileage basis, expenses shall be claimed on a STD Form 262.

The maximum mileage allowed between Sacramento and the institutions and parole regions shall be in accordance with the following schedule:

Sacramento to:	One Way	Round Trip
ASP	208	416
CCC	228	456
CCI	330	660
CIM	440	880
CIW	448	896
CMF	37	74
CMC	325	650
COR	260	520
CRC	450	900
CTF	215	430
CVSP	630	1260
DVI	66	132
FSP	26	52
MCSP	48	96
NCWF	48	96
PBSP	382	764
RJD	528	1056
SCC	103	206
SQ	87	174
LAC	385	770
Oakland	82	164
San Francisco	88	176
San Francisco Region II	95	190

This schedule does not apply if the employee travels by private car to more than one institution during a single trip.

Reimbursement for mileage when an employee is ordered back to work outside regularly scheduled work hours or on normal days off (i.e., when an employee is on call-back time) will be in accordance with the provisions of DPA 599.708.

22020.20 Aircraft Travel

Use of scheduled airlines for state travel is governed by DPA 599.628 and SAM 0741. State employees are requested to travel by the least expensive class available. The standard classes from least expensive to most expensive are as follows:

- Commuter.
- Coach.
- Standard.
- First class.

State employees traveling by other than the least expensive class available shall provide a full explanation stating the facts constituting the official necessity when submitting their TEC.

Privately-Owned Aircraft

Use of an employee's privately owned aircraft for state travel is governed by DPA 599.628 and SAM 0745 through 0746.

Charter Aircraft

Use of chartered (i.e., agency-rented) aircraft for state travel is governed by DPA 599.628 and SAM 0747.

22020.21 Purchase of Tickets for Schedule Airlines

Cash Purchase

Airline tickets may be purchased with cash, personal credit card, or a TEC filed for reimbursement. If necessary, a temporary travel advance, DOM 22020.5 may be requested to cover the costs of airline tickets.

Travel Agency

Reservations and the purchase of airline tickets may be handled by a travel agency. There must be no charge for this service and invoices from the travel agency must contain adequate detail for audit purposes including passenger's name, cost of ticket, issue date, and class of flight.

22020.22 Attending Conventions, Conferences, or Business Meetings

Travel expenses incurred in attending conventions or conferences may be allowed. Where more than two individuals (officers or employees) from the same department are attending the same convention or

conference, approval of each claim by the department head, a deputy, or the chief administrative officer is required. This requirement does not apply to a conference called by a state department for purposes of instruction or dissemination of information to its own officers and employees.

Registration fees incurred in attending conventions, conferences or other similar formally scheduled meetings may be allowed. Reimbursement for registration fees exceeding \$50 must be approved by the department head, deputy, or the chief administrative officer.

For a conference called by a state department, no subsistence expense will be allowed within 25 miles of an employee's headquarters, as the conditions applying to the employee are controllable by their agency. Exception may be given in advance by the DPA for unusual circumstances. For such conferences no claim for registration fee will be allowed.

- If an exception is granted by the DPA, claims for meals and lodging shall be in accordance with the travel allowances set forth in DOM 22020.7.

Actual Costs

The officer or employee may claim the actual cost of meals and lodging provided:

- The conference or meeting was not planned or arranged by a state agency.
- The circumstances and cost of the meals or lodging were beyond the control of the officer or employee.
- The claim is supported by a voucher, indicating the actual amount paid, attached to the expense account form.

When state officers or employees are attending conventions or conferences outside the state, the authorization required by DOM 22020.23 must expressly include authorization to attend such convention or conference.

22020.23 Out-of-State Travel

Out-of-state travel by employees is defined and controlled by SAM 0730 through 0733 and DPA 599.619.

22020.24 Blanket Approval of Out-of-State Travel

At the beginning of each fiscal year, the Department submits a blanket out-of-state travel request for approval by the DOF and the Governor's Office. This blanket request lists all proposed trips for the year. The necessary information for inclusion of a trip in the blanket out-of-state travel request usually must be received by the Financial Management and Support Services by April 30.

22020.25 Individual Request for Approval of Out-of-State Travel

Out-of-state travel requests, which are not included in the Department's blanket approval, require individual approval by the YACA, DOF, and Governor's Office. In order to expedite the approval process and improve the chances of securing favorable review by the control agencies, the following should be adhered to:

- Standard Form 257 (Request For Approval Of Out-Of-State Travel), should be received by the ASD as early as possible prior to the departure date. Ideally, a 30-day lead time should be allowed for adequate processing through the agency, DOF, and the Governor's Office. Of course, this does not allow for unscheduled delays. The 30 days is strictly a minimum allowable time.
- Each travel request should have substantial justification attached as to the benefits the trip(s) will accrue for the department/state. Inadequate justification will cause delays, and may result in disapproval of the request by the control agencies.

22020.26 Subsistence Allowance

When state officers or employees are on travel status, payment of a subsistence allowance will be authorized by the DPA for both in-state and out-of-state travel. The circumstances of travel shall determine the rate allowed. Agencies shall authorize payment for lodging, meals and incidental expenses as claimed by the employee in accordance with the current DPA Management Memo. Each agency is responsible to determine which of the following allowances is applicable:

- In-state subsistence allowance.

Short-Term Allowance

- A short-term allowance shall be authorized when the circumstances and duration of travel are such that the traveler incurs expenses comparable to those arising from the use of good, moderately priced establishments, catering to the general public. The short-term allowance is intended for trips of such duration that weekly or monthly rates are not obtainable.
- A long-term allowance shall be authorized when the circumstances of travel are such that the traveler incurs expenses in one location comparable to those arising from the use of establishments catering to the long-term visitor. In computing allowances under this section, the long-term rate will apply only while the employee is at the temporary location. Expenses incurred while traveling to or from the job site will be reimbursed at the short-term rate.

An employee on field assignment away from their headquarters who maintains a permanent residence elsewhere while living at the job site will be authorized the long-term allowance provided one of the following conditions exists:

- Permanent residence is occupied by employee's dependents, or
- Permanent residence is being maintained and held vacant by the employee at an expense to him in excess of \$200 per month. For purposes of this rule, maintenance costs are not limited to rent or basic mortgage payments.

To qualify for this per diem allowance, an employee must submit whatever evidence his agency may require substantiating the existence of either condition.

Non-commercial Allowance

A non-commercial allowance will be authorized when the circumstances of travel are such that the traveler incurs expenses comparable to those arising from the use of non-commercial subsistence facilities, such as, but not limited to, house trailers or field camping equipment. In computing allowances under this section, expenses incurred at commercial establishments while traveling to or from the job site will be reimbursed at the short-term rate.

22020.27 Out-of-State Subsistence Allowance

For out-of-state travel, state elected officials and other employees will be reimbursed actual lodging expenses, supported by a voucher, and reimbursed for meal and incidental expenses in accordance with DPA Management Memo.

Computation of Allowance

The short-term allowance is based upon the rates shown in DPA Management Memo.

Long-term and non-commercial allowances will be computed at 60 percent of the statewide short-term allowance for meals and lodging, plus the incidental allowance, when applicable, rounded to the nearest dollar.

Expenses Outside the State

Expenses incurred outside the state will not be allowed unless authorization for incurring them and permission for absence from the state has first been obtained from the Governor and the Director of Finance. The Director of Finance approval is required where expenses are incurred by travel to and from places in states bordering California. Any terms or directives set forth in such authorization are limitations and will not operate as exceptions to these rules. A separate claim for expenses for out-of-state travel must be submitted, do not combine with in-state expenditure.

Subsistence expense negotiated or paid for by the state. When a significant portion of the subsistence expenses (either meals or lodging) are negotiated or otherwise paid for by the state (e.g., billed to the state, paid for by group leader, included in overnight train fare, etc.) the employee will not be reimbursed for such expenses. The employee will be allowed to claim reimbursement in accordance with DPA Management Memo for any subsistence not provided.

22020.28 Overtime (OT) Meals

When any state officer or employee is required to work OT, they may receive an OT meal allowance for the actual expenses supported by a voucher not to exceed the maximums prescribed in DPA Management Memo for lunches. To be eligible for this allowance, the employee must be required to report to work at least two hours prior to or be required to remain at least two hours past the regularly scheduled work day.

If the officer or employee is required to work for more extended periods of time, they may be reimbursed for actual meal expenses not to exceed the maximums prescribed by DPA for each additional six-hour period. No more than three OT meal allowances may be claimed during any 24-hour period. The mealtime shall not be included in the computation of OT for the purposes of this allowance.

Agencies that operate facilities for feeding officers, employees, and official guests may instead furnish an official guest meal to an employee. Agencies shall maintain a record of all guest meals furnished for this purpose. An employee may not claim reimbursement for an OT meal nor be furnished a meal free of charge if they are also claiming per diem.

22020.28.1 Business Related Meals

When it is necessary for state officers or employees to conduct official state business during a meal, they may be reimbursed for actual meal expenses substantiated by a voucher up to the maximums prescribed in DPA Management Memo.

In order to claim reimbursement for a business-related meal, the circumstances surrounding the meal must be beyond the control of the officer or employee and it must be impractical to complete the business during normal working hours. Officers or employees may not claim reimbursement for a business-related meal if they are also claiming per diem.

Claims for meal expenses where business is incidental to the meal or where the attendance of the employee is primarily for public or community relations are specifically prohibited.

The intent of this section is to allow an agency to reimburse officers and employees for meal expenses in the limited number of instances where they are required to incur such expenses in connection with the conduct of official state business.

Members of non-salaried boards, commissions, and duly constituted advisory committees may be reimbursed for actual meal expenses up to the maximums prescribed in DPA Management Memo when attending board, commission, and committee meetings. They may not claim this allowance if they are also claiming per diem.

22020.29 Employee Moving and Relocation Expense

Moving and relocation expenses of employees, who are required to move by administrative decision, are defined in DPA 599.721, 599.722 and SAM 3829.

In the case of a promotion or when the institution, region, or Headquarters division requests an employee to accept another assignment, the receiving entity shall pay the necessary moving and relocating expenses. The qualifying assignment may include but is not necessarily limited to training and development, limited term, and temporary assignments. It should be noted that the DPA 599.721 and 599.722 clearly specifies that actual and necessary expenses only are allowable. Do not automatically provide the maximum for employees.

A voluntary non-promotional transfer in response to an individual's personal request should specify that no moving or relocation expenses will be paid unless it is deemed to be in the best interest of the state by the appointing authority.

Employees may request moving and relocation information packages from: Institutions-respective Wardens, Attention: Business Manager, Headquarters-BSS, by Division Deputy Director.

22020.30 Revisions

The Deputy Director, Administrative Services, or designee shall ensure that the content of this section is accurate and current.

ARTICLE 12 — MATERIALS MANAGEMENT

Effective December 5, 1989

22030.1 Policy

The Department shall operate in accordance with the basic statewide materials management program policy in the SAM 3500. The Department shall practice effective purchasing methods that will minimize the quantity and type of expendable items in the Department's inventory.

The inventory management and control systems in use throughout the Department shall be standardized, when possible, and provide for an accountable, responsive, and financially sound materials management program.

22030.2 Purpose

This section describes the materials management program of the Department.

22030.3 Responsibility DGS

Every purchase of supplies or equipment in excess of \$100 is subject to the approval of the DGS. DGS has delegated purchasing authority in accordance with the Public Contract Code (PCC) 10330 to the Department.

Department's Administrators

The Warden at each institution; the Deputy Directors of ASD and Planning and Construction (P&CD); and the General Manager of CALPIA direct their purchasing programs and investment of expendable goods inventories.

Materials Manager

The Materials Manager in the BSS of the ASD shall:

- Coordinate the materials management program.
- Provide guidelines, training, and assistance to staff in meeting the goal and objectives of the materials management program.
- Audit purchasing activities periodically to ensure adherence to the purchasing laws and procedures and the terms and conditions required for materials management. The Materials Manager shall work closely with the business management staff of each institution to ensure that these policies and procedures are being followed.

Associate Warden, Business Services

The Associate Warden, Business Services, at each institution shall ensure that the goal and objectives of the Department's materials management program are met and ensure that all department staff involved in purchasing are afforded the opportunity to receive the training required to adequately perform their duties.

Purchasing Units

The Department's purchasing units shall:

- Purchase materials necessary to meet the needs of the Department in a timely manner.
- Purchase products and services which provide the best quality for the least money.
- Deny or reduce a requisition for items for inventory if the amount requested exceeds the maximum based on the minimum/maximum order points or requisitioning objective concept stock control method.

Employees

All departmental personnel involved in purchasing shall:

- Comply with state and departmental conflict of interest policies and procedures and the terms and conditions of the delegated purchase program. Conflict of interest statements shall be on file for the employees securing bids and quotes from vendors and those employees who approve and have authority over materials management program activities.
- Receive purchasing training offered by either the State Office of Procurement or the Department's materials management staff.
- Be familiar with the Intraoffice Requisition/Procurement Worksheet, state purchasing contracts, state price schedules, Materials Services Supply Order Forms, Contract/Delegation Order Forms, and the delegated purchase program.

No employee shall commit to a vendor for the purchase of merchandise or services prior to receiving approval and the preparation of a purchase document.

22030.4 Goal and Objectives

The program goal is to have quality materials available where they are needed, in adequate quantities, at a minimum cost to the Department.

The Department's program objectives include the following:

Support

- Support operations with an uninterrupted flow of material without overstocking.
 - Maintain accurate stock records with fiscal accountability.
 - Set stock levels after stock records are maintained and reset levels at least annually thereafter.

Improve

- Improve service at the lowest feasible cost.
 - Chart the target and the actual inventory level of the total inventory and by material commodity group and class.
 - Chart and measure the overall service level and set goals.

Develop

- Develop reliable systems which shall help prevent stock outages and provide continued program performance.

- Determine the percentage of stock outages caused by late deliveries or inaccurate forecasts.

Set

- Set an inventory turn rate goal for each commodity group.
 - Measure the annual inventory turn rate by group.

Maintain

- Maintain an accurate and up-to-date book inventory.
 - Compare physical inventory counts with book inventory counts.
 - Determine the level of accuracy in posting transactions.
 - Identify the data lag by comparing the date of the inventory transaction with the date the transaction is posted.

Keep

- Keep the inventory investment and the inventory losses because of deterioration and obsolescence of stock items at a minimum.
 - Determine whether or not stock is being rotated.
 - Determine the amount and value of items declared obsolete or defective.
 - Identify all items with declining demand histories before they become obsolete.

Buy

- Buy competitively.
 - Secure bids and quotes from vendors to determine lowest cost.
 - Develop lists of vendors and encourage vendors to offer discounts for prompt payment of invoices.

Encourage

- Encourage purchases from small, minority, or women-owned businesses.
 - Establish goals and facilitate the participation of 15 percent minority and 5 percent women owned businesses in procurement service and public works contracts.
 - Provide that the contracts let by the Department for the construction, erection, alteration, repair, or improvement of a state prison facility and for services, maintenance, and supplies be awarded to at least 15 percent minority businesses and 5 percent women-owned businesses.
 - Determine the percentage of expenditures for annual purchases awarded to small, minority, or women-owned businesses.

22030.5 Intra-Office Requisition/Procurement Worksheet

A CDC Form 954, Intra-office Requisition/Procurement Worksheet shall be used to provide purchase office staff with data required for the preparation of final purchase documents. One side of the form is designed for the requisitioner to list information about the bid and quote processes used to determine the vendor that shall be awarded the purchase, and the other side is used to list all pertinent purchasing data after the bids and quotes are analyzed. The CDC Form 954 shall be affixed to the file copy of the final purchase document for audit purposes.

22030.5.1 Intra-Office Requisition Data Requirements

The intra-office requisition data requirements are as follows:

Area of "Intraoffice Requisition"

Agency billing code - to be entered by the requester or purchase office staff.

Location - to be entered by the purchase office staff.

Contract/delegation number - enter the appropriate number found on state contracts state price schedules, or the unit's delegated purchase program number.

Ship to - enter unit and person to which the merchandise or services are to be delivered.

Bill to - to be entered by the purchase office staff.

Date - enter the date the requisition is prepared by the requester.

Agency order number - to be entered by the purchase office staff.

To: (firm address) - enter name, address, and phone number of the vendor contact person who shall receive the order.

Vendor number - enter the appropriate number. If the vendor number is unknown or unavailable, leave blank and fill out small business code and ethnic code.

Small business (S/B) code - enter the appropriate information. If a vendor number is not available, do not leave this code box blank unless the vendor is known to be a "large business". Enter S = small business, or leave blank to indicate large business.

Ethnic code - enter the appropriate information when a vendor

number is not available. Enter only one of the following numbers or letters:

	Male	Female
Black	1	A
Asian	2	B
Other	3	C
Spanish-Speaking/Surnamed	4	D
White	5	E
Polynesian	6	F
American Indian or Alaskan Native	7	G
Filipino	8	H
Unknown	Blank	Blank

Line no. - enter a number sequentially beginning with number one for each item being requested..

Quantity - enter the quantity needed in this column. Do not enter fractions, decimals, or commas. Always check the order unit and packaging requirements and adjust the quantity accordingly. Quantity ordered shall correspond with the order units.

Unit - enter the appropriate unit of measure (e.g., EA, DZ, PG, etc.) that is shown in the Purchasing Information Network (PIN) Stock Item Catalog.

Stock item number - enter numbers as required.

Materials Services items - the full 12-digit PIN stock item number that is listed in the Materials Services Catalog.

State contract items - the full 12-digit PIN stock item number found in state contracts or the PIN stock item catalog.

State Price Schedule (SPS) items - no numbers required for state price schedule items except for those sold by the CALPIA.

CALPIA items shall be listed with the full 12-digit PIN number shown in the SPS, CALPIA, or PIN catalogs.

Delegated purchase program items - the four-digit group/class number that is the first four numbers of the PIN stock item number shown in the PIN catalog.

Purchase estimate/purchase order items - enter the 12-digit PIN stock item number shown in the PIN catalog.

Subpurchase order (under \$100) items - no number is required.

Subpurchase order (over \$100) items - enter the four-digit group/class number that is the first four numbers of the stock item number shown in the PIN catalog.

Description - enter the appropriate description for the item being ordered using the key noun that best describes the item and all other descriptors that include color, size, part, or catalog number, name, etc..

Per unit - enter the unit price that corresponds to the quantity/unit of measure being used.

Total - enter the extension price. (The unit price times the quantity equals the total).

I hereby certify - signature and title of the employee who determines that the items requested are appropriate and required for state business.

Approved/title - to be entered by the purchasing officer or the person delegated authority to approve the processing of the final purchase document.

22030.5.2 Procurement Worksheet Data Requirements

The procurement worksheet data requirements are as follows:

Price quotes obtained by - signature of the person who obtained the required bids and quotes contained on the worksheet.

Vendor information - not required for state contract, state price schedule, Materials Services and subpurchase orders (under \$100). For purchase estimate/purchase orders, enter the reference vendor that should be invited to bid by the Office of Procurement. Contract/delegation orders and subpurchase orders (over \$100) require multiple quotations orders and subpurchase orders (over \$100) require multiple quotations when purchases are made for highly competitive items (i.e., those items that are available from several sources at competitive prices). Examples of highly competitive items are automotive parts; maintenance items including electrical, plumbing, and lumber; and office supplies. Enter the appropriate vendor name,

address, and phone number for each quote required in the spaces provided.

FOB - to be determined at the time quotes are obtained. Request "FOB destination" whenever possible. "FOB shipping point" shall be avoided as title to the materials transfers to the Department at the time of shipment. Filing claims for FOB shipping point orders and resolution of problems involved in the delivery, from the time the shipment leaves the vendor to the time of delivery, is the responsibility of the Department.

Term - enter the cash discount term offered by vendors to ensure timely invoice payment. Cash discounts amounting to at least \$2.50 and where the discount percentage allowed is at least one-half of the percent shall require the appropriate accounting office to issue a revolving fund check to ensure the discount can be taken.

Delivery - enter the date the materials or services are expected to be delivered.

Add minority ethnic indicator - disregard. To be revised at a later date.

Item/quantity/unit - enter the description, number, and unit of measure for the item being ordered.

Unit price/extension - enter the quoted price from each vendor and the total cost of each item. Unit pricetimes the quantity equals the extension price.

Gender/ethnic indicator - circle one of the alpha/ numeric indicators for the vendor awarded the purchaseorder (0-8 or A-H).

22030.6 Contract /Delegation Purchase Order

A Standard (STD) Form 65, Contract/Delegation Purchase Order, shall be used for the following:

- Purchases from state contract vendors.
- Purchases from state price schedule vendors.
- Subpurchase order transactions.
- Delegated purchase program transactions.

22030.6.1 State Contract Order

The Office of Procurement, DGS, has negotiated contracts with vendors and suppliers for many of the more commonly used products and materials. Materials available on state contract shall be purchased only from the contract vendor.

Officers and employees purchasing state contract items at higher retail prices from non-contract vendors are personally liable for the difference between the non-contract and state contract price, except in verified emergencies which shall be fully explained on the orders covering the emergency.

There is usually a minimum order quantity on commodity contracts. If a vendor shall not accept an order that is less than the minimum order quantity, and the minimum quantity, when received, shall be in "long supply", the item can be purchased off contract. If, upon contacting a vendor, an order for less than minimum quantity is acceptable, the following should be marked on the contract/delegation purchase order: "Agreement to accept order less than minimum authorized (date), by (vendor name)."

All contracts in force are listed in the "Check List of Effective Contracts and Price Schedules" issued by the DGS, Office of Procurement.

For purchases of filing and/or microfilm equipment, necessary approval shall be secured from the Department records management analyst in Headquarters, BSS prior to submitting to the approving agency.

A copy of all new state contract orders shall be mailed to the Office of Procurement on a weekly basis.

22030.6.1.1 Data Requirements

The data requirements for purchases from contract vendors are as follows:

Area of "Contract/Delegation Purchase Order"

Agency billing code - enter the correct agency billing code.

Contract/delegation number - enter the state contract number from the cover page of the state contract notification. Do not use the dashes when listing the number.

Ship to - enter address to which merchandise shall be delivered.

Bill to - enter name and address of the unit to receive the invoice or statement.

Date - enter the date the order is prepared. The month, day, and year shall be indicated with two digits (e.g., July 17, 1989 as 07 17 89).

Agency order number - enter the appropriate agency order number, an internal control number, from left to right.

Firm address - enter the name, address and phone number of the contact person of the vendor.

Vendor number - enter the appropriate number. When a vendor number is not shown on the state contractnotification, leave blank.

Small business (S/B) code - enter the appropriate information when a vendor number is not available.

S = small business.

Blank = not small business or unknown shall be counted as a large business.

Ethnic code (ETH) - furnish the appropriate information when a vendor number is not available. Enter only one of the following numbers and letters:

	Male	Female
Black	1	A
Asian	2	B
Other	3	C
Spanish-Speaking/Surnamed	4	D
White	5	E
Polynesian	6	F
American Indian or Alaskan Native	7	G
Filipino	8	H
Unknown	Blank	Blank

Date wanted - enter the delivery date material is expected (e.g., 30 days ARO shall be converted to an exact delivery date). ASAP shall not be used in any case.

Ship by - used to indicate special handling or a specific method of transportation.

Terms - enter the terms listed in the state contract notification.

Quantity - enter the appropriate quantity needed.

Unit - enter the two digit unit of measure (e.g., EA, DZ, G, etc.).

Stock item number - enter the stock item number exactly as shown in the state contract.

Description - enter the description that is listed in the state contract notification. When the description of the item exceeds one line, the description shall be extended to the next line in the stock item column.

Unit price - enter the unit price that corresponds to the order unit.

Extension - enter the extended price which is quantity times the unit price.

FOB - enter the shipping point noted on the state contract notification.

Sales tax - enter the sales tax required for the purchase of materials.

Total - enter the total cost of the order. Include the subtotals from all continuation pages (STD Form 65A) when they are included in one agency order number.

Charge against - enter the program number, index code, fund title, item number, chapter number, statute, fiscal year, and object code.

Certification - signature of the person authorized to sign the purchase document.

Self-invoicing - the contract/delegation purchase order may be used as a self-invoicing form. Vendors may return "copy 1", with the "self-invoicing" box completed, rather than send a separate invoice.

Completion of all other data requirements on the contract/delegation purchase order form is self-explanatory.

22030.6.2 State Price Schedule

SPSs are established to permit direct ordering of primarily noncompetitive commodities by state agencies. They are not contracts and agencies are not required to purchase items from SPS vendors except those listed with CALPIA. Except for items available from CALPIA, if an item of another brand or type would better meet the department's needs and the price is lower, it shall be processed as a normal purchase transaction after notifying the Office of Procurement, Research and Analysis Section, of the intent to purchase the item from another source. Permission shall be secured to purchase materials from alternative vendors who offer the items at lower prices. A notation concerning the approval and circumstance shall be placed on the order for audit purposes.

Purchases against an SPS cannot exceed the \$9,999.99 limit specified in the SPS. Each time an order is placed against an SPS, a copy shall be forwarded to the Office of Procurement.

Purchases from CALPIA have no monetary restrictions.

Copies of SPS orders shall be sent to the Office of Procurement on a weekly schedule.

22030.6.2.1 Data Requirements

The data requirements for purchases from SPS vendors are as follows:

Area of "Contract/Delegation Purchase Order"

Agency billing code - enter the correct agency billing code.

Contract/delegation number - enter the appropriate state price schedule number, from left to right, and omit all dashes.

Ship to - enter address to which merchandise shall be delivered.

Bill to - enter name and address of the unit to receive the invoice or statement.

Date - enter the date the order is prepared. The month, day, and year shall be indicated with two digits (e.g., July 17, 1989 as 07 17 89).

Agency order number - enter the appropriate agency order number, an internal control number, from left to right.

Firm address - enter the name, address and phone number of vendor contact person.

Vendor number - not required.

Small business (S/B) code - enter the appropriate information when a vendor number is not available.

S = small business.

Blank = not small business or unknown shall be counted as a large business

Ethnic code (ETH) - furnish the appropriate information when a vendor number is not available. Enter only one of the following numbers and letters:

	Male	Female
Black	1	A
Asian	2	B
Other	3	C
Spanish-Speaking/Surnamed	4	D
White	5	E
Polynesian	6	F
American Indian or Alaskan Native	7	G
Filipino	8	H
Unknown	Blank	Blank

Date wanted - enter the delivery date material is expected (e.g., 30 days ARO shall be converted to an exact delivery date). ASAP shall not be used in any case.

Ship by - used to indicate special handling or a specific method of transportation.

Terms - enter the terms listed in the state price schedule notification.

Quantity - enter the appropriate quantity needed.

Unit - enter the two digit unit of measure (e.g., EA, DZ, PG, etc.).

Stock item number - not required except for purchases from CALPIA. A 12- digit PIN stock item number is required for all CALPIA items.

Description - enter the proper description shown in the state price schedule notification.

Unit price - enter the unit price that corresponds to the order unit.

Extension - enter the extended price which is quantity times the unit price.

FOB - enter the shipping point noted on the state price schedule notification.

Sales tax - enter the sales tax required for the purchase of materials.

Total - enter the total cost of the order. Include the subtotals from all continuation pages (STD Form 65A) when they are included in one agency order number.

Charge against - enter the program number, index code, fund title, item number, chapter number, statute, fiscal year, and object code.

Certification - signature of the person authorized to sign the purchase document.

Self invoicing - the contract/delegation PO may be used as a self-invoicing form. Vendors may return "copy 1" as the invoice after completing the "self-invoicing" requirements.

22030.6.3 Subpurchase Order

A "subpurchase order" is used to order merchandise where the total cost is less than \$100, and for the type of items listed below. A PIN Stock Item number is not needed. Small and minority-owned business shall be vigorously sought when placing subpurchase orders.

Additional items in the "subpurchase order" category:

- Without monetary limits.
 - Purchases from CALPIA.

- Purchases from the State Educational Agency for Surplus Property Subsistence.
- Purchases from the DGS, Surplus Property.
- Purchases of excess personal property from the federal government by qualified state agencies.
- Inter-agency purchases.
- Special monetary limit - less than \$10,000.
 - Intravenous solutions.
 - Cadavers and live laboratory animals.
 - Prosthetic devices.
 - Purchases of books, educational films, and film strips, Library of Congress cards, film slides (35 mm, 2 x 2, etc.), microscopic slides, reproduction of art objects and paintings, phonographic records, prerecorded tapes, publications, periodicals, sheet music, test and examination booklets (such as education aptitude, achievement, personality, etc.), maps and aerial photograph (cost of publications only, not cost of preparation), and copies of documentary material prepared by governmental agencies.
- Special monetary limit - \$1,000.
 - Ice.
 - Bottled drinking water or distilled water when it has been determined that the building water supply is not fit for human consumption, or when the cost of connecting a drinking fountain to the building water supply renders it impractical (No other purchases of bottled drinking water shall be made).

22030.6.3.1 Data Requirements

The data requirements for subpurchases order using a STD Form 65 are as follows:

Area of "Contract/Delegation Purchase Order"

- Agency billing code - enter the correct agency billing code. Contract/delegation number - not required.
- Ship to - enter address to which merchandise shall be delivered.
- Bill to - enter name and address of unit receiving the invoice or statement.
- Date - enter the date the order is prepared. The month, day, and year shall be indicated with two digits (e.g., January 15, 1990 as 0115.90).
- Agency order number - enter the appropriate agency order number, from left to right.
- Firm address - enter name, address and contact person of the vendor.
- Vendor number - enter appropriate number, if available.
- Small business (S/B) code - enter the appropriate information when a vendor number is not available.
S = small business.
Blank = not small business or unknown shall be counted as a large business
- Ethnic code (ETH) - furnish the appropriate information when a vendor number is not available. Enter only one of the following numbers and letters:

	Male	Female
Black	1	A
Asian	2	B
Other	3	C
Spanish-Speaking/Surnamed	4	D
White	5	E
Polynesian	6	F
American Indian or Alaskan Native	7	G
Filipino	8	H
Unknown	Blank	Blank

- Date wanted - enter the delivery date material is expected (e.g., 30 days ARO shall be converted to an exact delivery date). ASAP shall not be used in any case.
- Ship by - used to indicate special handling or a specific method of transportation.
- Terms - enter the discount the vendor may give to ensure timely invoice payment.

- Quantity - enter the appropriate quantity needed.
- Unit - enter the 2-digit unit of measure (e.g., EA, DZ, PG, etc.). Stock item number - not required.
- Description - enter the appropriate description for the item being ordered that includes the color, size, part number, name, etc.
- Unit price - enter the unit price that corresponds to the order unit.
- Extension - enter the extended price which is quantity times the unit price.
- FOB - enter FOB destination.
- Sales tax - enter the sales tax required for the purchase of materials.
- Total - enter the total cost of the order. Include the subtotals from all continuation pages (STD Form 65A) when they are included in one agency number.
- Charge against - enter the program number, index code, fund title, item number, chapter number, statute, fiscal year, and object code.
- Certification - signature of the person authorized to sign the purchase document.

22030.6.4 Delegated Purchase Program

The Office of Procurement has delegated to the Department the authority to make individual purchases up to either \$2,500, \$5,000, or \$9,999.99 excluding sales tax and freight charges. The amount of the monetary limit depends on the results of each organization's delegated purchase program audit. The departmental organizations listed below have been granted delegated purchase program authority:

- Each prison/institution.
- P&CSD.
- CALPIA.
- ASD.

22030.6.4.1 Program Requirements

The requirements of the delegated purchase program are as follows:

- All purchases shall be made in compliance with the published Materials Management Handbook developed by the Department.
- Competitive purchases from responsible vendors shall be made to obtain materials that are properly suited to the needs of the Department both in terms of price and quality.
- At least 25 percent of the dollar value of delegation orders shall be placed with small businesses.
- Purchases shall not exceed the monetary limit of the authority. The monetary limit of the authority (\$2,500, \$5,000, or \$9,999.99) is for each group/class commodity on an order. When multiple group/classes are ordered from a vendor, the total dollar value of each order cannot exceed the \$9,999.99 authority limit.
- Delegation orders shall not be split to circumvent expenditure limitations.
- Purchases made under the delegation shall be listed on a Contract/Delegation Purchase Order. The STD Form 65 shall indicate the delegation number, the agency billing code, the PIN stock item number for each item and the small business identification code for the vendor.
- Delegation holders shall forward copies of all delegation orders to the Office of Procurement on a weekly basis.
- Auditable copies of all delegation orders shall be maintained on file and made available to the Office of Procurement upon request.
- When appropriate, the Department shall obtain the approval of other state departments or divisions before issuing a delegation order.
 - For purchases of filing and/or microfilm equipment, necessary approvals shall be secured from the Department records management analyst in the Headquarters, Business Services Unit.
 - For the repair of motor vehicles, authorization shall be secured from the DGS' Fleet Administration Division. The permission granted to repair motor vehicles does not authorize the Department to exceed the monetary limit of the Delegated Purchase Program for these expenses.
 - For EDP equipment and software, necessary approvals shall be secured from the Department Management Information System Committee, the Deputy Director, ASD, and the Office of Information Technology, DOF.

Shall Not

The following commodities shall not be purchased using the Delegated Purchase Program:

- Passenger motor vehicles.
- Trucks.

- Tractors, tracked.
- Tractors, wheeled.
- Photocopiers (photocopiers in workload 1 and 2 can be purchased under delegation).
- Earth moving equipment (e.g., grader, loader, etc.).
- Warehouse trucks, forklifts.
- Word processors.
- Personal computers.
- Carpeting.
- Draperies.
- Typewriters, electronic, including memory style.
- Labels, foil printed and metal property tags.
- Soft body armor.
- Alcoholic beverage

22030.6.4.2 Price Quotes

For all purchases over \$100 but less than \$500 using the Delegated Purchase Program, two price quotes shall be sought (from the vendor awarded the order and an alternate). For all purchases of \$500 and above, a minimum of two price quotes from competitive vendors shall be secured. A copy of the price quotes shall be indicated on or attached to the audit copy of the delegation order. When the commodity to be purchased is proprietary (sole source), no quotes are necessary. However, a statement concerning the nature of the purchase (why it is proprietary) shall be included in the file. Items available through a state contract, and state price schedules, including CALPIA, may not be purchased under this delegation.

Bids shall be solicited on a cost per item basis. When established price lists are available, percentage discounts shall be used to determine the most competitive vendor.

A price quote that remains unchanged in a time period, not to exceed three months, can be used as a bid for repetitively purchased items. A single price quote can be used in lieu of frequent and redundant phone quotes each time the item is ordered during this time period.

22030.6.4.3 Emergency Purchases

In the event of emergencies, when it is necessary to buy material in excess of the monetary limits, the following process shall be used:

- The staff desiring to make the purchase shall contact the nearest DGS, Office of Procurement, and request emergency purchasing authority. An explanation shall be furnished regarding the circumstances surrounding the emergency and a complete description of the material, price, and source of supply. The Office of Procurement buyer receiving the request shall review the circumstances and, if warranted, a GSOP Form 42, Authorization to Exceed Monetary Limits of SAM 3571.1, shall be issued.
- In the event that it is impossible or impractical to contact the DGS, Office of Procurement, the Department shall proceed with the purchase without prior approval by the Office of Procurement. However, the Department, within five working days, shall notify the Office of Procurement of the action taken and the circumstances necessitating the action. After review and determination by the Office of Procurement that such action was warranted, a GSOP Form 42 shall be prepared and forwarded to the unit initiating the order.
- During any period of a natural disaster (earthquake, fire, and/or flood) the unit charged with the emergency services support shall process emergency orders. The purchase document and justification shall be submitted to the Office of Procurement within 30 days after the termination of the disaster but no more than 60 days after the emergency order was made. After review and determination by the Office of Procurement that such action was warranted, a GSOP Form 42 shall be prepared and forwarded to the facility making the purchase.
- Copies of the GSOP Form 42 shall be attached to the copies of the contract/delegation purchase order which departmental staff shall prepare to complete the transaction. All such purchase orders shall be clearly identified and marked "Emergency."

22030.6.4.4 Material Services Section (MSS) Items

Items available from the DGS, MSS, shall be purchased from local vendors using the Delegated Purchase Program only when the following conditions are met:

- MSS is out of stock (indicated by a back order notice).
- The need for the item is immediate and the need can be substantiated.

A delegated purchase order shall be used to purchase a 30-day interim supply of items not to exceed the monetary limits of the delegated authority. However, the audit copy of the delegation order shall be clearly marked with a statement referring to the MSS stock outage and affixed with a copy of the back order notice.

22030.6.4.5 Annual Audit

Each Delegated Purchase Program shall be audited annually by the Office of Procurement to determine whether the conditions and requirements of the program are being met. Renewal of the Delegated Purchase Program shall depend on the effectiveness of the current procurement and materials management programs.

22030.6.4.6 Data Requirements

The data requirements for orders under the Delegated Purchase Program are as follows:

Area of "Contract/Delegation Purchase Order"

- Agency billing code - enter the correct agency billing code.
- Contract/delegation number - enter the delegation number assigned by the Office of Procurement from left to right.
- Ship to - enter address to which merchandise shall be delivered.
- Bill to - enter name and address of the unit to receive the invoice or statement.
- Date - enter the date the order is prepared. The month, day, and year shall be indicated with two digits (e.g., July 17, 1990 as 07 17 90).
- Agency order number - enter the appropriate agency order number, an internal control number, from left to right.
- Firm address - enter the name, address and phone number of vendor contact person.
- Vendor number - enter the appropriate number. When a vendor is not known or available, leave blank and continue with the small business and ethnic codes.
- Small business (S/B) code - enter the appropriate information when a vendor number is not available.
S = small business.
Blank = not small business or unknown shall be counted as a large business
- Ethnic code (ETH) - furnish the appropriate information when a vendor number is not available. Enter only one of the following numbers and letters:

	Male	Female
Black	1	A
Asian	2	B
Other	3	C
Spanish-Speaking/Surnamed	4	D
White	5	E
Polynesian	6	F
American Indian or Alaskan Native	7	G
Filipino	8	H
Unknown	Blank	Blank

- Date wanted - enter the delivery date materials are expected (e.g., 30 days ARO shall be converted to an exact delivery date). ASAP shall not be used in any case.
- Ship by - used to indicate special handling or a specific method of transportation.
- Terms - enter the discount the vendor shall give to ensure timely invoice payment.
- Quantity - enter the appropriate quantity needed.
- Unit - enter the two digit unit of measure (e.g., EA, DZ, PG, etc.).
- Stock item number - enter the four digit group/class number. A complete 12-digit PIN stock item number may be used but is not required.
- Description - enter the appropriate description for the item being ordered that is found in the PIN Stock Item Catalog. The "key noun" shall be the first descriptor used, followed by more detailed description.
- Unit price - enter the unit price that corresponds to the order unit.
- Extension - enter the extended price which is quantity times the unit price.

FOB - to be determined at the time quotes are obtained. Request "FOB destination" whenever possible.
Sales tax - enter the sales tax required for the purchase of materials.
Total - enter the total cost of the order. Include the subtotals from all continuation pages STD Form 65A when they are included in one agency order number.
Charge against - enter the program number, index code, fund title, item number, chapter number, statute, fiscal year, and object code.
Certification - signature of the person authorized to sign the purchase document.

22030.7 Material Services Section Supply Order

The DGS, MSS, operates a materials distribution system and carries a stock of commonly used items in warehouses in Sacramento, North Highlands, and Fullerton, California. These items include stationery, standard state and departmental forms, housekeeping and janitorial items, and other general use commodities. MSS issues a catalog, special supplements, and interim revisions listing and describing all available stock items and providing information necessary for requisitioning commodities from MSS. Periodically, MSS issues a supplemental price list of all inventory items.

A STD Form 116, Supply Order is the document used to order items from MSS. Supply orders may be forwarded to the nearest MSS warehouse or to Material Services Section, P.O. Box 1015, North Highlands, CA 95660. All supply orders are input into the DGS EDP system for the filling of orders or in the case of stock-outs, back order notices.

When departmental staff receive back order notices, permission is granted to purchase an interim supply (30 days) of materials from local vendors. A copy of the notice of back order shall be affixed to the file copy of the purchase order to document the necessity for the interim purchase from a source other than MSS.

A second circumstance for purchasing items from local vendors that are also offered by MSS is when the price of an item is significantly lower than the price offered by MSS. Department staff shall notify the MSS in writing of the intent to purchase these items (not to exceed the delegation limit). Within two working days after receipt of the request, MSS shall respond with approval or disapproval. All requests shall be sent to:

Materials Services Section
 Attention: Materials Manager
 P.O. Box 1015 North Highlands, CA 95660

Following the instructions printed on the STD Form 116 regarding typing and distribution. Do not place more than 12 items on each order. Do not combine forms, publications, and supplies on the same order.

Retain a copy of the STD Form 116 to use as a stock received report. Record the date and quantity of merchandise received and route to the accounting office for payment. Retain a copy for your files.

See Section 5 in the Materials Services Catalog when ordering publications. When ordering publications from MSS, address the order as follows:

Office of Procurement
 Publications Section
 P.O. Box 1015
 North Highlands, CA 95660

22030.7.1 Data Requirements

The data requirements for purchases from MSS are as follows:

Area of "Supply Order"

Ship stock to - enter address to which merchandise shall be delivered.
Send invoice to - enter name and address of unit receiving the invoice.
Signature of officer authorizing expenditure - signature of person authorized to sign a supply order.
Agency contact - enter name and phone number of person Materials Services Section shall contact regarding the order.
Date - enter the date the order is prepared.
Agency billing code - enter correct agency billing code.
Agency reference number - enter the unit's internal control number, if

possible.
Back order instructions - enter a mark to receive back-ordered material. No back order shall be processed when the box is unmarked.
Stock number - enter the stock item number found in the DGS' Materials Services Catalog.
Catalog description - enter description as written in the DGS' Materials Services Catalog.
Unit price - enter the unit price shown in Section 7 of the Materials Services Catalog.
Price extension - enter the extended price. (The unit price times the quantity equals the extended price.)
Unit - use the abbreviations listed in the Materials Services Catalog.
Quantity - enter amount desired.

22030.8 Purchase Estimate

The DGS, Office of Procurement, operates a centralized purchasing unit to achieve standardization, to eliminate duplication of effort and to lower prices as a result of volume buying. The Office of Procurement shall also provide effective means of acquiring equipment whether the acquisition is to be made by purchase through non-purchasing techniques (e.g., lease - conditional sales contract).

The Department shall use the services of the Office of Procurement to competitively purchase the following:

- Items not available from MSS, state contracts, or state price schedules.
- Orders that exceed the monetary spending limits of the Delegated Purchase Program.
- Food that is included in the quarterly food order.
- Materials that require technical specifications or special requirements.
- Equipment or other high cost items that result in reduced costs when purchased by "formal" bid.

For purchases requiring the services of the Office of Procurement, a STD Form 66, PE and, when necessary, a STD Form 10, PE Continuation shall be used to list all ordered items. All PEs shall be typed. The original of the PE, with the required signatures of approval, shall be sent to the Office of Procurement for processing.

Prior Approval of Another Agency

Do not submit purchase estimates directly to the Office of Procurement that require prior approval of another agency. Submit these estimates to the approving agencies first. Refer to the PIN Stock Item Catalog for the list of these agencies and the commodities that need prior approval. For purchases of filing and/or microfilm equipment, necessary approvals shall be secured from the Department records management analyst in the Headquarters BSS.

Accuracy and Clarity

Department personnel who submit purchase estimates shall make every possible effort to ensure that these documents are not forwarded to the Office of Procurement until they have been thoroughly reviewed for accuracy and clarity.

Specifications

The Specification and Quality Control Section staff of the Office of Procurement can assist Department personnel in the preparation of the description and specification of the purchase requirements. Copies of standard specifications are available upon request and assistance is available for developing descriptions of non-standard commodities. Contact the Specifications and Quality Control Section at (916) 445-0957/ATSS 485-0957 for referral to the appropriate analyst.

22030.8.1 Data Requirements

The purchase estimate data requirements are as follows:

Area of "Purchase Estimate"

Date prepared by agency - enter the date the PE was typed. Enter two digits in each field (e.g., September 10, 1990 shall be entered as 09 10 90).
Date stock wanted - this is an optional field; however, departmental staff shall enter a specific date to determine the order processing time that is reflected in inventory control supply levels, if applicable. Enter two digits for each field. Allow an adequate lead time when determining the date of delivery. The following is the recommended ordering and shipping time (OST) that shall be used for purchase estimates:

	Amount of Purchase	
	Up to \$10,000	Over \$10,000
Internal Processing	20 days	20 days
Special Approval/Authorization	21 days	21 days
Office of Procurement Processing	30 days	60 days
Specifications Review	10 days	15 days
Purchase Order Preparation	5 days	5 days
Vendor Shipping Time	60 days	60 days
Total OST	146 days	181 days

The Department shall anticipate a lengthy OST when using this "formal" method of ordering.

Agency billing code - enter the appropriate agency billing code. Use only one agency billing code per estimate.

Purchase estimate number - use a unique estimate number designed to eliminate duplication. The remainder of the purchase estimate number provides a maximum of 15 alpha/numeric positions in which to enter each requesting unit's reference number. The estimate or reference number shall not be duplicated in a fiscal year.

Page number - enter the purchase estimate page number and total number of pages. Page numbers shall be shown with two digits (e.g., page 01 of 05, 02 of 05, etc.). Do not number pages that do not have stock item numbers or codes.

Do not enter the page number on the purchase estimate continuation if it is used only to furnish additional description or instructions from the previous page. For example, on a two-page purchase estimate, the first page would be numbered as page 01 of 01. (The second page would not show a page number.) However, enter the page number on the continuation page when an item is listed and other required information is stated. For example, on a two-page purchase estimate, the second page would be numbered as page 02 of 02.

Delivery location code - circle the appropriate code which corresponds to the delivery location shown on the State of California 11 - Area Map. Multiple delivery locations may be submitted on one estimate when only one agency billing code is used.

Procurement Office - do not fill in this information.

Vendor number - enter a reference vendor. Normally, the vendor who received the previous order and provided adequate service or assistance shall be listed as the reference vendor. (All reference vendors are automatically sent invitations to bid.) Indicate the vendor's name, address, and phone number and the name of the person authorized to provide price quotes.

Agency contact - enter the name and phone number of the Department representative with the most knowledge of the uses and requirements of the ordered items whom buyers may contact for additional information. Do not enter the vendor name or phone number in this space.

Line number - each page of a purchase estimate (including the continuation pages) is limited to a maximum of nine stock items which shall be numbered sequentially beginning with number one on each page. Enter a single digit number for each stock item listed, from 1, 2, 3, etc., up to 9. The first item on each continuation page shall always begin with number one and shall not exceed nine items per page.

Quantity - enter the quantity wanted in this column. Do not enter fractions, decimals, or commas. Always check the order unit and packaging requirements, and adjust the quantity accordingly. Quantity ordered shall correspond with the order unit and unit price.

Unit - enter unit exactly as indicated in the PIN Stock Item Catalog, except when the unit is indicated as VA. The order unit shall vary on some commodities; this is indicated by a VA in the unit column of the PIN Stock Item Catalog. In such instances, specify the appropriate unit code from the order unit table listed on the front page of the PIN Stock Item Catalog.

Stock item number - enter the 12-digit stock item number exactly as indicated in the PIN Stock Item Catalog. Potential vendors are invited to submit bids for the items listed on the PE when the PIN stock item number is input into the computerized vendor/stock item

number file. Do not use ditto marks to repeat identical stock item numbers. Neatly underline and draw arrows down columns to note repetition of stock item numbers.

Each page of the PE shall contain only one group of items (the first two numbers of the stock item number). The only exceptions are:

- When the order is for the purchase of a system, where the components are in different groups and are to be purchased together because the components must match and inter-member.
- For the purchase of individual items that fall into different groups.

Continuation pages (STD Form 10) shall be used to list items having multiple group numbers. "Ship to" and "charge to" addresses, the reference vendor, and the delivery date if critical or unusual shall be shown on each estimate page.

Description - enter exactly the description provided in the PIN Stock Item Catalog. The key noun description is input into the PIN computerized system to determine whether the description/stock item number matches exactly to detect errors prior to the bid process.

All items shall be completely described and whenever possible a brand and corresponding catalog number shall be referenced with the notation or comparable. A complete description shall include the name of the item plus any of the following that apply:

- Size.
- Dimension.
- Grade.
- Weight.
- Color(s).
- The minimum acceptable technical specifications.
- Packaging requirements.
- Samples (in the case of forms).
- A kit package listing of each component.
- Installation dimensions if restrictions exist.
- Inter-member item description of existing materials.

The brand referenced on the purchase estimate shall meet all required specifications. When reasonable, list all acceptable brands on the purchase estimate. Also, all unacceptable brands can be listed. It may be stipulated that alternate brands shall be submitted for evaluation prior to the awarding of the bid.

Unit price - always enter the unit price and extension for each item listed. The unit price shall correspond to the order unit. For example, if the order unit is gross, show the unit price per gross - not some other unit such as per dozen. Do not enter commas in this column. Align the unit price with the first line of the commodity description.

Subtotal - on single page estimates a subtotal is not necessary. On multiple page estimates, enter a subtotal on each page.

Tax and total - on single page estimates, enter the tax and total in appropriate boxes on the estimate. On multiple page estimates, enter the tax and total only on the first page of the estimate and subtotals on each continuation page.

Signature block - at least one original signature is required by the Office of Procurement to process estimates.

Charge code - enter the index number, object code, appropriation, item number, current fiscal year's chapter number, fiscal year, and ending date of the current fiscal year.

Do funds expire - it shall be indicated on the purchase estimate whether funds expire at the end of the current fiscal year. Either: Check yes or no in the appropriate block printed on the lower right-hand corner of the purchase estimate form; or Type/stamp on the first page in bold letter, **FUNDS EXPIRE** or **CONTINUING FUNDS** if funds do not expire at the end of the current fiscal year.

22030.8.2 Purchase Estimate Description Restricting Bidding

PEs referencing only one brand or containing specifications which have the effect of limiting or restricting bidding to one brand shall be justified by the requesting unit in a statement fully explaining why the product specified is necessary. This statement shall include at least the following:

- The unique performance factors of the product specified.
- The reason these specific factors are required.
- What other products have been examined and rejected and why.

Purchase requests submitted without adequate information in support of limiting competitive bidding shall be returned to the requesting unit.

22030.8.3 Purchase Estimate Requesting Sole Source

The requirements listed in the DOM 22030.8.2 apply to sole source purchases where an item is available from only one vendor, or when the requestor wants to restrict the purchase to only one vendor.

22030.8.4 Non-Competitive Repair Parts

PEs for repair parts of a specific brand or type shall contain the following justification:

- Why only one brand or part can be used to repair the equipment.
- Whether the specified brand of repair parts is available from only the manufacturer or distributor.

22030.8.5 Non-Competitive Equipment to Inter-Member with Existing Equipment

PEs for equipment of a specific brand or type to be used with equipment shall contain the following justification:

- The quantity and value of existing equipment or parts currently on hand to be interfaced.
- Why it is necessary that the requested equipment or parts be the same as currently owned.

22030.8.6 Pin Stock Item System

The ability to properly complete the STD Form 66, PE, depends entirely on a full understanding of the PIN stock item system and the PE form.

22030.8.6.1 Stock Item Number

The single most important element in the entire materials management system is the stock item number. A single, unique stock item number is assigned to each specific item of material used by the state.

Stock item numbers are 12-digit numbers that are based on the federal classification and stock numbering system. A typical stock item number looks like 7920-292-2367-8. The groups of numbers represent the following:

- First four digits - group and class of a commodity such as food, medical supplies, stationery, etc..
- Next seven digits - specific item numbers are serially assigned with no numerical relationship between one identification number and the next in sequence.
- Final digit - computer check or verification number.

The 12-digit stock item numbers shall be used by all ordering units.

22030.8.6.2 Pin Stock Item Catalog

The PIN Stock Item Catalog is a listing by stock item number and description of commodities purchased by the state on a regular basis. Products are classified in group and class number sequence; commodities within each class are listed in alphabetical key noun order. Currently, 60,000 items are listed.

Other information contained in the PIN Stock Item Catalog is the following data:

- Description - the stock item description field consists of a maximum of 54 characters of information which describes each stock item. The first word in the stock item description is the key noun.

This is the noun that most accurately identifies the nature of the product (e.g., drill electric, not electric drill). All commodities are listed in alphabetical key noun sequence within each class.

- Order unit - this is a two-character field which describes the unit of measure by which each stock item shall be ordered [e.g., EA (each), DZ (dozen), YD (yard), RL (roll), BX (box), etc.]. Refer to the order unit table listed on the front page of the PIN Stock Item Catalog.
- Source code - this is a one-character field that indicates the usual source or method for acquiring a given stock item. The various codes and their meaning are as follows:
 - A: Office of Procurement (PE is required on all A source code items) and delegated purchase program orders.
 - B: OSP and Office of Support Services printing orders.
 - C: MSS stock items.
 - D: Statewide contract stock items.
 - E: Limited contract stock items.
 - F: SPS stock items.

- I: CALPIA stock items.
- M: SPS competitively bid items.
- Special code - this is a two-character field which identifies those stock items covered by detailed product specifications. The coding scheme is as follows:
 - 1-99 State specifications.
 - A Federal specifications.
 - B Commodity standard.
 - C Supply operations commodity standard (SOCS).
 - D Bid specifications.
 - E Acceptable brands list.
 - F Special/other.

Locate a Number

There are several ways to locate a stock item number in the PIN Stock Item Catalog:

- Refer to the alphabetical product listing "Index to New State Materials-Classification Catalog" in the State Materials Classification (SMC) Catalog. This index lists general categories of frequently purchased products and the SMC group number. It may be used to determine the correct SMC group number for a related product. For example, although a credenza is not specifically listed, the appropriate group may be located by referring to "furniture, most types". The key noun for each stock item is usually based on what that item is rather than its use.
- Refer to the PIN Stock Item Catalog Index (on the front pages of the catalog) to locate the corresponding group. Next, locate the proper group class. The group and class shall provide the page number within the PIN Stock Item Catalog where a specific stock item and its number shall be found.
- Refer to the listing of commodities by key noun in the back of the catalog. This is a listing of items in the PIN Stock Item Catalog in alphabetical order by key noun.

Many commodity descriptions in the PIN Stock Item Catalog are very brief and may not be complete. Therefore, additional descriptive information shall be added as required in preparing the purchase order (e.g., color, size, dimensions, packaging, etc.). Except for additions to the description, no other changes or deletions shall be accepted.

22030.8.6.3 Availability of Pin Stock Item Catalog

PIN Stock Item Catalogs are available as follows:

Form	Contact
Book (revision 1983 in three-ring binder)	Office of Procurement Materials Management Unit 4675 Watt Avenue North Highlands, CA 95660 (916) 973-3726 or ATSS 480-3726
Microfiche	Office of Procurement Data Management Unit (916) 323-3465 or ATSS 573-3465 This unit also mentions a subscription list for updates of microfiche.

22030.8.7 Purchase Estimate Changes

After the PE has been sent to the Office of Procurement, amendments to the PE may have to be made. A STD Form 96, Purchase Order (PO) Alteration, is used to amend PEs when requested by the Office of Procurement, DGS, for specific estimates or when:

(a) the cost is	(b) the amendment is	{c} and exceeds the estimate costs by
Less than \$1,000	\$100 or more	25% or more
\$1,000 - \$4,999	\$250 or more	10% or more
\$5,000 or more	\$500 or more	-

To check the current status of a purchase estimate submitted to the Office of Procurement, contact Procurement's Central Records at (916) 445-6241/ATSS 485-6241. The buyer shall not be contacted unless absolutely necessary, and only after calling Central Records.

22030.8.8 Purchase Order Changes**PO Alteration Required**

Once a PO has been issued to a vendor by the Office of Procurement, changes are not permitted unless authorized by the Office of Procurement. A STD Form 96, shall be submitted to the Office of Procurement buyer who signed the original PO in the following instances:

- Change in FOB point.
- Change in terms if unfavorable to the state.
- Change in the estimate number.
- Change in the vendor's name (except simple spelling corrections).
- Increase in unit price.
- Mathematical error over \$10.
- Addition or cancellation of any item.
- Change in description, specifications, or substitution of any material.
- Extension of time on "as needed" or "as required" orders. Such orders are written for units of material as required or as needed for a specific period of time (The extension of this time is what would require a PO change).
- Adding or changing a priority rating or certification.
- Any overdraft of a PO except as permitted below.

PO Alteration not Required

PO changes are not required when:

- Prices billed are less than the PO amount.
- Weight, quantity, or unit price is less than what is stated on the PO.
- At the time of taking a final delivery there is a balance remaining on the PO and the final delivery does not overrun the PO by more than 10 percent (This would apply to such items as yardage; steel; lumber; rock; asphalt; products like forms, cartons, etc. produced from roll paper stock; and other items when exact quantity is not known at the time the order is placed, including items that come in standard containers).
- Delivery of items such as fresh vegetables varies from the weight, quantity, or count specified on the PO (not to exceed plus or minus 10 percent of the value of the total PO up to \$1,000).
- PO specifies certain sized containers but other containers, which are acceptable, are delivered in their place but the total quantity and unit cost are within the limits of the PO.

22030.9 Service and Expense Order

Services for repair, rental of equipment, classroom space, and other minor services from private vendors, costing less than \$500, can be obtained by using a CDC Form 1063, Service and Expense Order. This form shall be used in lieu of the STD Form 2, Standard Agreement. Prior to any service being performed and expenses incurred, approval in writing shall be obtained from business management staff. Services performed may require labor and materials. Transactions with less than 10 percent labor charges are purchases and shall be obtained on either a subpurchase or delegated purchase program order. Transactions with greater than 50 percent labor charges are services and can be obtained using the service and expense order form. Transactions with labor charges between 10 percent and 50 percent require consultation with an Office of Procurement formal bid buyer to determine the appropriate method for acquisition.

Services of a minor nature normally do not require competitive bidding, but staff shall identify and employ cost effective methods when contracting for services from private vendors.

General use mobile equipment (GUME) having an original purchase price of \$25,000 or more shall not be rented or leased from a non-state source without prior approval of the DGS, Office of Fleet Administration, after a determination that comparable state-owned equipment is not available. If obtaining such approval would endanger life or property, the transaction and justification for not having sought prior approval shall be reported immediately thereafter to the DGS. GUME is defined as equipment listed in the GUME inventory of the state equipment council as capable of being used by more than one agency.

22030.9.1 Data Requirements

The data requirements for Service and Expense Order are as follows:

Area of "Service and Expense Order"

Vendor - enter the vendor name and vendor contact providing the service.

Bill to - enter name of facility receiving the service and name of the person the vendor is to contact.

S and E number - enter the unit's service order number.

Work order number - optional field. When possible, reference a maintenance work order.

Date - enter the date the order is prepared.

Nature of service and expense - enter the type of expense to be incurred.

Location where expense to occur - enter the building number or address where the service shall be performed.

Start date/completion date - enter the appropriate dates (for monitoring purposes).

Work to be performed - enter a full description of what is to be accomplished, including the number of hours of labor.

Description and cost of parts - a detailed listing of parts and materials to be obtained from the vendor.

Accounting requirements - to be entered by accounting office staff.

Signature/title - signature of person authorized to sign the service and expense order. The purchasing manager or designee is the appropriate person.

22030.10 Inventory Management

Proper inventory management minimizes the investment in inventory stock and helps maintain a stated service level objective.

22030.10.1 Stock Records

The responsible unit shall maintain stock records on all items that are stored in the support services and maintenance warehouses. In addition, unit stock records shall be maintained for materials being warehoused in other storerooms and supply shops that exceed a working stock (30 day) supply and collectively meet any of the following criteria:

- Gross floor space used exceeds 4,000 square feet.
- Average annual inventory investment in expendable goods exceeds \$50,000.
- Annual issues of expendable goods exceeds \$100,000.
- Inventory consists of 400 or more stock items.

Records Maintained

Stock records shall be maintained by using a manual card or computerized inventory control system. The STD Form 119, Stock Control Record, is available for use as a manual stock record card in recording information dealing with the management and control of warehouse inventories. This or a similar record card shall be used in all warehouses when a manual system is the only means of control. If a computerized inventory management system is used, the system shall provide the same information and data required on a stock record card.

The stock record, which serves as a joint purchasing/financial/operational record, shall be kept current and accurate at all times. Stock Control Record cards are available from the Office of Procurement, MSS.

22030.10.1.1 Data Requirements

The data requirements for the Stock Control Record card are as follows:

Area of "Sample Stock Control Record for Minimum/Maximum Stock Item"

Miscellaneous information - any miscellaneous information that is pertinent and not included in other specific sections of the stock control record shall be entered here. This information might concern minimum order or standard packs, key personnel to contact, vendor name and address, phone numbers, emergency sources of supply, or any other supplemental entry which alerts the inventory control staff of circumstances requiring attention.

Date - a complete history shall be established and kept current for each item that is stocked in a warehouse. The date is used in forecasting stock levels, reconciling procurement problems, confirming demands and issues, documenting physical inventories, etc.. The month, day, and year shall be entered for all transactions affecting the item, such as stock orders, stock receipts, demands and issues (non-recurring and recurring), dates of inventories, and audits.

Issued to or received from - this section serves a dual purpose. Record the name of the facility, unit, program, etc., to which stock is issued and/or the name of suppliers from whom stock is received.

Continued activity of an item over a period of time shall provide inventory control staff and unit administrators with a use pattern which shall assist in inventory planning. This column shall also reflect those facilities that are consistent in their withdrawals as well as identify those vendors which are the most reliable.

Order document number - those transactions that pertain to stock issues and stock receipts shall be documented using the identifying order number. The forms that are commonly used to replenish stock for warehouses are contract/delegation purchase order, subpurchase order, supply order, and purchase estimate.

On order - this column shall be used whenever a stock replenishment order is placed. The quantity requested is the only entry to be made.

Demand - is any request for an item. Demand history provides the information necessary to decide what to stock; therefore, all demands, regardless of whether stocks are issued, shall be recorded. Each space in the demand column shall be used for a single demand.

Issues - the quantity issued for each demand shall be carefully and accurately entered as this directly reduces the calculated balance on hand (column 8). Occasionally, demands are made for depleted stocks. The demand shall be shown in the proper space and the quantity issued entered as zero.

Quantity received (+) - the quantity received (+) column is used to record the amounts or quantities of stock received as a result of a prior order. These incoming stocks shall normally be for inventory replenishment but in some cases stock relocations shall also be shown in the quantity received column.

The balance on hand (column 8) shall be adjusted whenever quantity received entries are made.

Quantity issued (-) - at any time an issue is shown in either the non-recurring or recurring columns, the total quantity issued (sum of both) shall be entered in the quantity issued (-) column. That amount shall be subtracted from the previous balance on hand and the new balance entered.

Balance on hand - the inventory balance on hand, both the actual bin count and the calculated balance, is the key indicator in managing inventory stock efficiently. To prevent inventories that are excessive or too low, the balance on hand shall be used to:

Determine when to replenish stock.

Identify long supply.

Maintain stock accountability.

Evaluate the efficiency of warehouse operations.

Balance on hand entries shall be current and accurate. Stock acquisitions and issues shall be promptly recorded on the stock control record and the balance on hand adjusted accordingly. Physical inventories which reveal a difference in the actual bin count versus the calculated balance shall be reconciled when the inventory is taken and the stock control record balance on hand changed to reflect the actual inventory in stock.

In long supply - long supply shall be reduced to the lowest level possible. This column provides a space to record long supply so that efforts can be undertaken to reduce it.

Days of supply - the days of supply shall be entered as shown in the examples of the minimum/maximum (MIN/MAX) and requisitioning objective (R/O) stock records (See DOM 22030.10.5.2 and 22030.10.5.6 respectively).

Quantity of supply - for all stock items managed under the R/O or Min/Max systems, the quantity of supply boxes shall be completed. In the reorder point block, show both the reorder point and the reorder quantity for the R/O concept.

Source code - the source code is a current reference to the purchase method or vendor designated by the PIN Stock Item Catalog as the primary source for a stock item. Only the approved codes as shown in the PIN Stock Item Catalog shall be used.

Management code - this space is used to denote whether the item is contingency (emergency) (C) stock or regular (R) stock. Use the letter C or R.

Stock number - the stock number identifies the item by commodity group and class. All expendable stock inventory items in the warehouse shall have an approved stock number assigned. That stock number shall be entered in the space provided.

Unit of measure (U/M) - the unit of measure or the unit of issue is a two-letter designation for the count, measurement, container, or form of an item of supply. It is the minimum quantity which can be ordered. The unit of measure designations to be used are shown in the PIN Stock Item Catalog.

Unit price - all stock items shall have a unit price entered. Use the

latest price paid for the item. This is necessary for computer update and budgetary purposes.

Description - the descriptions currently in use in the PIN Stock Item Catalog shall be entered in the description space.

Color coding - this space identified any action (by colored tab) that shall be needed. The colored tab designations in these instructions shall be used to identify the type of action that is proposed or has already taken place. The following colored tabs are the only colors that are approved to flag the stock control record:

Red - activity during the month requiring monthly action update reporting.

Green - item is on order. Serves as a reminder; follow-up is the requisitioner's responsibility.

Blue - needs to be reordered as stock has reached the reorder point.

Yellow - order received. Remove the tab when the shipment is received as ordered.

Contract or SPS number - enter the appropriate number found on state contracts and state price schedules.

Vendor name/address/phone number/catalog number enter name, address and phone number of vendors submitting price quotes.

Minimum order quantity - enter the number of units the vendor requires to be purchased to recover the shipping and handling costs associated with the order.

Price per order unit - enter the price per standard unit of measure.

FOB terms - to be determined at the time quotes are obtained. Request FOB destination whenever possible.

Discount terms - enter the cash discount offered by vendors to ensure timely invoice payment. Cash discounts amounting to at least \$2.50 and when the discount percentage allowed is at least one-half of one percent shall require the payment to be made in a timely manner.

Delivery date - enter the date the materials or services are expected to be delivered.

Total cost - enter the extension price (The unit price times the quantity equals the total cost).

This information shall assist in determining which vendor shall receive the order.

Inside delivery - used to determine and project the necessity for additional shipping charges associated with inside delivery of materials.

22030.10.1.2 Retention of Stock Control Record

The Stock Control Record cards shall be retained for at least two years. One year in the active file and at least one year in the inactive file. Those stock control records that have served their purpose, such as those for discontinued stock, shall be retained for a minimum of two years.

22030.10.2 Safety Levels

Normally, safety levels are established to minimize stock outages. To determine the level of safety stock that should be maintained, the critical need of the item shall be established based upon the following:

- The degree of the problem if there is no stock on hand.
- The effort, both in cost and time, necessary to secure the stock.

Stock Outages Classified

Stock outages shall be classified as follows:

- **Minor** - stock outage of these items shall cause little inconvenience and shall be overcome with a little extra effort, perhaps a phone call and with a short delay in processing the demand or with a back order. Work production delays are not a factor. These items are considered regular stock items and 15 days safety stock shall be sufficient.
- **Major** - a stock outage of these items shall cause some inconvenience and could result in additional costs because of production delays or program disruption. Generally, these items are also considered regular stock items but an increased safety stock of 16 to 25 days is required. These are the "A" items (see source code in DOM 22030.8.6.2 for a description of "A" items) or items with the highest demand.
- **Critical** - a stock outage of these items shall cause significant delays in production or intolerable program disruption and could result in excessive costs. These items are not available locally and a stock outage may endanger public health or safety. These items are considered contingency stock. A safety level of predetermined amount shall be set.

22030.10.3 Selecting Items for Continuing Storage

All items carried in the warehouse shall meet the Department's criteria for selecting items for continuing storage in DOM 22030.10.4. All items shall be

reviewed annually by the materials management coordinator, and those items not meeting the criteria shall be discontinued.

All items carried in the warehouse as routing stock for filling supply demands shall have levels set by using the Min/Max or R/O inventory control concept. Stock control records shall be available for audit purposes at all times.

Supply levels for stock items are established to accomplish the following:

- To have an ample supply of stock items on hand but not more than is needed to meet the goal of the Department.
- To have emergency reserves on hand in the event items due in are not received on time.
- To know when and how much to order.
- To build accurate records which provide for adjustments at a later date.

Time, space, and money are wasted if supply levels are not set. The Department shall not have excessive funds tied up in unused inventory.

22030.10.4 Criteria for Selecting Items for Continuing Storage Demand -at least five recurring demands for each 365 days demand year. Demands must occur on a regular basis and reflect a standard usage pattern over a 365-day period.

Volume - stable and large enough to permit significant savings from acquisition in quantity.

Dollar - minimum issues of \$50 per demand year as long as the demand criteria is met.

QA - items that require a high degree of QA shall be selected for continuing storage.

Emergency - items of an emergency nature, which may be required within hours after the need is recognized, shall be held in continuing storage.

Specifications - only items that have established accepted standards or detailed specifications shall be considered for inventory.

Usage - infrequently used items or those with patterns of erratic use do not make good inventory items, as large inventories are required to meet high use periods (e.g., usage patterns show more than five demands per year but all the demands occur in a restricted time period).

Lead-time - the non-critical item that can normally be purchased from a local source within 30 days shall not be stocked.

Items shall not be stocked merely for convenience. For non-critical items, institutions shall rely primarily on the purchase-as-needed technique. Continuing storage inventories shall be limited to only those items that are clearly justified as contingency stock for emergency needs or items that are not readily available from relatively nearby sources.

22030.10.5 Setting Levels

Component parts of a stock objective are expressed in days of supply. The component parts consist of the following:

- Safety level.
- Ordering and shipping time.
- Operating level.

Setting levels shall assist personnel who maintain stock to have on-hand materials when they are needed. Levels are set to ensure that stock shall not be depleted. The Department shall use the MIN/MAX concept to set the majority of supply levels; however, the R/O concept may be preferred for some items.

22030.10.5.1 Min/Max Concept of Setting Levels

A simple MIN/MAX supply level system provides proper inventory control. To determine MIN/MAX supply levels, the following supply history is necessary:

- The total amount of recurring issues for one demand year (365 consecutive calendar days).
- Ordering and shipping time (used to establish minimum level).
- Operating level (used to establish maximum level).

Low demand stock items, regardless of their unit value, are prime candidates for the MIN/MAX concept or for discontinuance.

22030.10.5.2 Guidelines for Min/Max Levels

Type of Transaction	Minimum (in days)	Maximum (in days)
Contract/delegation order or state price schedule.		
Lead time 0-30 days.	30	60
Lead time 31-60 days.	60	90
Lead time 61-90 days.	90	180
Lead time over 90 days.	Equal to actual lead time.	180
CALPIA order.	150	270
Purchase orders (up to \$10,000).	90	180
Purchase orders (over \$10,000).	120	180
Printing orders.	120	180
Material Services orders.	30	90
Food orders.	90	120
Special orders for forms, letterhead, etc.	Equal to actual lead time.	360

22030.10.5.3 Purchase Order Example for Calculation of Min/Max Levels

Example using guidelines for MIN/MAX levels for items purchased by POs up to \$10,000 (When a replenishment order is prepared, the quantity ordered is 90 items):

- Yearly demand: 180 items.
- Order and shipping time: 90 days.
- Operating level: 180 days.

Method 1

Step 1 - convert yearly demand into issues per day. Issues per day = 180 items (yearly demand) ÷ 365 days = .5.

Step 2 - calculate the minimum level. Minimum = ordering and shipping time (in days) x issues/days = 90 x .5 = 45 items.

When the stock on hand is depleted to 45 items, a replenishment order is prepared.

Step 3 - calculate the maximum level. Maximum = operating level (in days) x issues/days = 180 x .5 = 90 items.

When MIN/MAX levels may also be calculated with the yearly demand divided by factors based upon ordering and shipping time (for the minimum level) and operating level (for maximum level). The division factor for the minimum level is the approximate number of days per year (360) divided by the ordering and shipping time in days. The division factor for the maximum level is an assumption of the number of orders per year (i.e., the approximate number of days per year - 360 - divided by the operating level in days). A chart that provides the division factor for different ordering and shipping times or operating levels follows:

Ordering and Shipping Time or Operating Level (in Days)	Division Factor
365	1
180	2
120	3
90	4
75	5
60	6
45	8
30	12

Method 2

Step 1 - determine the division factors. Minimum = 4 (for ordering and shipping time of 90 days). Maximum = 2 (for operating level of 180 days).

Step 2 - calculate the minimum level. Minimum = yearly demand ÷ division factor for ordering and shipping time = 180 ÷ 4 = 45 items (When stock on hand is depleted to 45 items, a replenishment order is prepared).

Step 3 - calculate the maximum level. Maximum = yearly demand ÷ division factor for operating level = 180 ÷ 2 = 90 items.

Note: When a replenishment order is prepared, the quantity ordered is 90 items. The quantity to order is the maximum supply level.

22030.10.5.4 Contract Example for Calculation of Min/Max Levels

Example using guidelines for min/max levels for items purchased from contract:

- Yearly demand: 72 items.
- Order and shipping time: 60 days.
- Operating level: 90 days.

Method 1

Step 1 - convert yearly demand into issues per day. Issues per day = 72 items (yearly demand) ÷ 365 days = .2.

Step 2 - calculate the minimum level. Minimum = ordering and shipping time (in days) x issues/days = 60 x .2 = 12 items (When the stock on hand is depleted to 12 items, a replenishment order is prepared).

Step 3 - calculate the maximum level. Maximum = operating level (in days) x issues/days = 90 x .2 = 18 items.

Method 2

Step 1 - determine the division factor. (See chart for prior example of Method 2.) Minimum = 6 (for ordering and shipping time of 60 days). Maximum = 4 (for operating level of 90 days).

Step 2 - calculate the minimum level. Minimum = yearly demand ÷ division factor for ordering and shipping time = 72 ÷ 6 = 12 items (When stock on hand is depleted to 12 items, a replenishment order is prepared).

Step 3 - calculate the maximum level. Maximum = yearly demand ÷ division factor for operating level = 72 ÷ 4 = 18 items (When a replenishment order is prepared, the quantity to order is 18 items).

22030.10.5.5 Requisitioning Objective Method of Setting Levels

To determine R/O supply levels, the following history is necessary:

- The total amount of recurring issues for one demand year (365 consecutive calendar days).
- Ordering and shipping time.
- Operating level.
- Safety level.

22030.10.5.6 Guidelines for Requisitioning Objective Levels

For the R/O method, 135 days of supply is adequate for Department warehousing facilities. The number of days for each component is as follows:

Operating Level	Ordering and Shipping Time	Safety Level
60 Days	60 Days	15 Days
135 Days		

22030.10.5.7 Example for Calculation of Requisitioning Objective Levels

An example of the R/O method follows:

- Yearly demand: 720 items.
- Ordering and shipping time: 60 days.
- Operating level: 60 days.
- Safety level: 15 days.

Step 1 - convert yearly demand into issues per day. Issues per day = 720 items ÷ 365 = 2.

Step 2 - calculate the number of items used during the ordering and shipping time. Number of items = ordering and shipping time (in days) x issues per day = 60 x 2 = 120 items.

Step 3 - calculate the number of items required for the operating level. Number of items = operating level (in days) x issues per day = 60 x 2 = 120 items.

Step 4 - calculate the number of items required for the safety level. Number of items = safety level (in days) x issues per day = 15 x 2 = 30 items.

Step 5 - calculate the R/O. R/O = number of items for the ordering and shipping time + number of items for operating + number of items for safety level = 120 + 120 + 30 = 270 items.

Step 6 - calculate the reorder point (ROP). ROP = number of items for ordering and shipping time + number of items for safety level =

120 + 30 = 150 items (When stock on hand is depleted to 150 items, a replenishment order is prepared).

Step 7 - calculate the quantity to be ordered. Order quantity = R/O - RPO = 270 - 150 = 120 items (When a replenishment order is prepared, the quantity ordered is 120 items).

This is a minimum guideline. Such things as minimum order quantities from supply sources (e.g., contract vendors) may require that an order be issued for more than the difference between the R/O and ROP. Use your own judgment ordering more items delays the need to reorder the next time but increases the amount of inventory investment to more than is required.

22030.10.6 Maximum Quantities Allowed in Inventory

Any quantity in excess of the R/O is technically long supply. Quantities on hand and due in from outstanding orders shall not exceed the R/O unless the items can be used within the next 45 day operating period. The next reorder shall be delayed until the amount in long supply is exhausted.

22030.11 Warehousing Program

The warehousing program shall provide for the following:

- Establishment of warehousing facilities in line with distribution plans.
- Storage areas, handling equipment, and warehousing methods and techniques which optimize the use of the facilities.
- Verification that materials are received as ordered.
- Storage of material.
- Rotation of stock.
- Effective distribution of material ordered by customers.
- Maintenance of accurate records.
- Regular survey of physical inventories.

22030.11.1 Establish Warehousing Facilities In Line With Distribution Plans

The warehouses shall be material distribution facilities and not merely places to store supplies. Planning and layout of space are dependent upon the types of supplies being stored. At all facilities used to store and distribute materials, entry/exit controls shall be in place to restrict unauthorized personnel from having access to the inventory (except in cases involving emergencies concerning health and safety).

Subsistence supplies shall be protected properly from extreme changes of temperature, dampness, rodents, and insect infestation. Security items shall be stored in vaults or safes. Sensitive items, subject to pilferage, shall be properly protected. Hazardous commodities, including explosives, flammables, and oxidizing agents, shall be properly segregated from each other and other types of supplies and stored in buildings designed for this purpose.

Every effort shall be made to:

- Use space in the most effective and efficient manner.
- Use pallets and material handling equipment effectively.
- Use a direct flow assembly line principle.
- Establish an effective warehouse and storage layout plan.

22030.11.2 Effectively Received Material

The support and/or maintenance warehouse staff shall perform all receiving duties at the institutions, including those shipments destined for other areas inside their facility. For other facilities without a formal warehousing program, an employee shall be designated to be responsible for the receiving functions.

All facilities receiving purchased material shall maintain an open order receiving file. At least semi-monthly, the receiving file shall be monitored for overdue shipments and the orders shall be followed up to determine the status of late deliveries.

Once it is verified that an overdue shipment has not arrived, a non-delivery letter shall be prepared. Without proper notification, a buy-out requires the original vendor to pay the difference, if any, of the price paid to the alternate bidder or any additional cost because of the inconvenience caused by the non-delivery. Buy-outs shall be coordinated by the Office of Procurement.

The receiving agent shall verify incoming shipments against a copy of the original purchase order and packing slip. Materials received by common carrier shall be verified against the carrier's shipping document (freight bill).

When inmates are assisting with receiving duties, the delivery vehicle license number shall be noted on the warehouse copy of the freight bill or receiving documents (This shall aid in the identification of vehicles used in the event of inmate escapes).

All cartons shall be inspected for correct quantity of items and visible damage. The most critical time for establishing a proper base for collection of a shortage or damage is at the time of delivery. Failure to observe correct receiving procedures

at this time may well result in the carrier's denial of a claim. For all overages, shortages, or damages (O, S, or D), an explanation of the discrepancy shall be written on all copies of the delivery documents. The delivery documents shall then be signed by both driver and receiving agent.

Upon receipt of a shipment that is over, short, or damaged, the receiving agent shall furnish the payments unit staff, vendor, and/or the person expecting the shipment with information concerning the problem. This can be accomplished by using the O, S, or D form. This provides those involved with the O, S, or D with a written statement and actions required to resolve the problem.

Inventory control of property shall begin immediately when delivered by the vendor. The receiving agent shall contact a property controller at the time of delivery to arrange to have property items tagged or engraved for easy identification as state-owned property before they are moved from the point of delivery.

22030.11.3 Visible Damage

Inspect the individual pieces before accepting the delivery and signing the carrier's delivery documents. Legally, the consignee must accept delivery of a damaged shipment.

Notify the vendor and carrier's representative of the damage and request an immediate inspection.

Retain the containers and packaging material for inspection by the carrier's representative.

Contact the Office of Procurement, Traffic Management Unit, for assistance when damages to material exceed \$100.00.

22030.11.4 Concealed Damage

Upon discovery of concealed damage, immediately stop unpacking the shipment.

Leave the shipment intact and do not remove it from the receiving location. Retain the internal packing, carton, or crate intact.

Notify the carrier and vendor that concealed damage was discovered and request inspection. Try to offer reasonable evidence that concealed damage did not occur after delivery.

Contact the Office of Procurement, Traffic Management Unit, for assistance when damages to material exceed \$100.00.

22030.11.5 Stock Received Reports

Stock received reports shall be:

- Prepared at the time goods are received. Receiving agents may use a STD Form 106, Stock Received Report, or a copy of the PO (as long as the information required on the STD Form 106 is shown on the copy of the PO).
- Processed immediately.
- Routed to the payments unit for prompt payment of invoices. Discounted purchase order stock received documentation shall be expedited to ensure that payment is made according to the terms shown on the purchase order.

22030.11.6 Storing Material

Accessibility shall be the first consideration when arranging stock for order processing. Fast moving, high transaction items shall be stored in locations where they can be selected and issued with the minimum amount of handling. Warehousing staff shall store bulky or difficult to handle items, when possible, near doors and main aisles leading directly to the shipping and pickup areas. Materials shall not be arranged in strict PIN stock item number sequence.

All shelves, bins, and bulk cartons shall be stock numbered to identify the items being stored.

A systematic stock rotation program shall exist at all warehouse storage areas. All materials in inventory shall be dated at the time of receipt. Items that carry an assigned shelf life require shelf rotation; first-in, first-out warehousing shall be used with these items. Whenever possible, the flow-through method for bulk storage items shall be used. With the flow-through method stock is selected from one end of a row or rack of a single stock item and new stock is replenished at the other end.

22030.11.7 Distribution of Material

A catalog of items in inventory shall be provided to staff for ease of requisitioning materials.

Materials shall be issued from warehouses on a STD Form 115, Order for Storeroom Supplies, or a local form that contains the same basic

information as the STD Form 115. The requisition shall show the date of the requisition, the unit to be charged, the stock item number and description, quantity ordered, and signature of requester. The requisition shall be signed by the approving officer who shall retain the triplicate copy until the order is filled. The approving officer shall send both the original and duplicate copies of the requisition to the warehouse.

Each approved requisition shall be numbered and listed in a central control register for reference control of material issues.

After the order is filled, the original of the requisition shall be used to update stock records while the duplicate copy accompanies the material and serves as a packing slip.

When the goods are received, the person who ordered them shall check the quantity received, sign the receipt portion of the triplicate copy, and send it to the warehouse for comparison of quantity filled vs. quantity received. All discrepancies shall be reported immediately. Immediate reporting shall assist in determining the steps necessary to rectify any discrepancies.

The distribution of maintenance warehouse items shall be basically the same as distribution of all other items, except all trades staff shall stock a 30-day supply of maintenance supply items in their respective areas or vehicles to eliminate frequent trips to the warehouse. A STD Form 115 or similar form is required for all issues from maintenance warehouses.

Every effort shall be made by staff to maintain accurate warehouse and inventory control records, which make the detection of losses easier.

22030.11.8 Physical Inventory of Materials

A count of every inventory item held in storage shall be taken annually on all materials in all warehouses, storerooms, and maintenance shop storage areas. More frequent inventories are acceptable if experience indicates that reducing the interval between physical inventories shall result in less time being consumed in the reconciliation of records.

Food shall be inventoried at least quarterly to determine the amount of supply necessary for the next quarterly food order.

22030.11.8.1 Physical Inventory Check List

The following is a checklist of action steps that shall help to achieve a successful physical inventory:

- Establish a firm inventory date, and provide advance notice to vendors and employees. The inventory date shall be established and approved well in advance of the proposed inventory. Cut-off times shall be determined for all operating activities which have an effect on physical inventory. This shall include interagency shipments and corresponding paperwork, issues, and vendor shipments and receipts. Determination of an inventory date shall depend on the number of items in stock, the time needed to count these items, and the established business hours. It may be beneficial to take the inventory during non-business hours to minimize disruptions to day-to-day operations. When the inventory is not centrally located, the physical inventory shall be conducted at all locations on the same day(s).
- Assign inventory responsibilities. The supervisory responsibility for physical inventory shall be delegated to the person with the functional duties of purchasing officer, business manager, materials manager, or inventory manager. The accounting office shall fully participate in the physical inventory if the accounting office performs the inventory reconciliation.

An inventory supervisor shall be assigned to each area to be counted to supervise the taking and reporting of the count. The functions of the inventory supervisor are:

- Briefing. On the first day of the count, the inventory supervisor shall give the final briefing on count procedures.
- Count control. The inventory supervisor shall maintain control of the preprinted inventory worksheets and assign worksheets for counting, supervise reconciliations, and collect the completed data.
- Count integrity. The inventory supervisor shall maintain counting procedures, reconciliation of count data, and all other matters which affect count accuracy.
- Inventory acceptance. The inventory supervisor has sole and final authority to accept count data as complete and accurate. The inventory supervisor may require recounting by staff, emergency overtime, etc. The inventory count is not completed until accepted by the inventory supervisor.
- Perform inventory preparation. Before the scheduled inventory date, the warehouse manager(s) shall check all bins and bulk stock to see that the stock is clearly marked and arranged for ease of counting. All bin, shelving, and pallet rack labels shall be checked to assure that stock numbers, descriptions, and units of measure are identical to those listed on the

inventory worksheets. The inventory worksheets are either computer produced or manually prepared by the inventory supervisor from the authorized stock listing (listing of items acceptable for storage). Items found in storage that are not shown on the stock listing shall be brought to the inventory supervisor's attention for addition to the listing or disposal action.

- Assign operating cut-off dates. Operating cut-off times for business activities and paperwork, and desired inventory preparation, shall be coordinated with the inventory date. All receiving documentation, requisitions, and shipping memos issued prior to the inventory shall be clearly marked "before inventory" and processed before the inventory is taken. All materials received after the assigned cut-off date shall be set aside, clearly identified as "after inventory", and held until after the inventory counting is completed. All receiving and issuing documentation shall also be marked "after inventory" and not processed.
- Determine and schedule inventory requirements for staffing, supplies, and equipment. Staffing heads the list of inventory needs. An adequate number of people shall be assigned. The types of listings, inventory tags, forms, or recording devices shall be selected. Writing tools, such as pencils, marking pens, etc., shall be provided. Masking tape, cards, wire, or string shall be obtained if tags are used. A clipboard or something similar shall be handed out to write on.

Ladders and step stools shall be obtained ahead of time for easier counting of material on upper shelves. Equipment shall be available for stock that has to be moved during counting.

- Provide adequate training. Schedule inventory training dates and provide advance notification to affected personnel. Conduct thorough training with inventory supervisors before instructing other inventory personnel (counters, recorders, inspectors, auditors, etc.).

Inventory supervisors shall receive instruction a minimum of one week prior to inventory, to allow time to familiarize themselves with their area of responsibility and to make the area ready for inventory. Inventory personnel shall receive their instruction as close to the actual inventory as possible.

Inventory training for counting personnel shall include information on why the inventory is necessary, how to count and record accurately, and how to identify materials that shall be inventoried. They shall also be informed that discovery of repeated bad counts through the audit process shall result in personnel recounting their entire area.

An instruction booklet or inventory information sheet shall be printed and handed out to each person. The booklet or sheet might contain the purpose of the inventory, but shall illustrate and explain the method of taking inventory, reiterate certain key inventory steps to follow, list assignments and accountability, and point out certain dos and don'ts relating to inventory counting such as:

- Do express count by the unit of measure assigned to the item being counted.
- Don't count partial quantities of any item where the quantity would be less than an expressed unit of measure, such as pounds, feet, or gallons.
- Do individually count the contents of all opened packages.
- Don't open sealed packages to count. Use the count marked on the outside.
- Do approximate the length of bulk items such as hoses, wire, etc., where lengths are extensive and too costly to count.
- Don't sight-count open - carton merchandise. Take merchandise out of containers to count.
- Do replace boxes or packages (or items counted) back in original location after counting.
- Don't disturb rotation sequence of items counted that carry assigned shelf life (Add any dos and don'ts not shown above which fit the inventory being taken and delete those that have no relationship).
- Count the inventory. The taking of a physical inventory shall be done in teams. A count team shall include a counter and recorder. As much as possible, members of count teams shall continue to

work together throughout the inventory. Counting assignments shall be designated by a clearly defined physical area of the warehouse. The count teams shall count all stock within their area. The counter shall post a tag or card on all items counted to distinguish between counted and uncounted items. To make sure the correct item is being counted, the recorder shall read the complete stock item number, description, size, and color. The counter shall repeat the stock item number. Each recorder shall use a ruler as a line guide to ensure the count is entered in the proper column. The recorder shall record all numbers as neatly and legibly as possible.

The count teams shall pay close attention to the unit of measure to ensure they are counting the correct unit of issue shown on the inventory worksheet.

When an inventory item is not listed on the inventory worksheet, the item description, count, unit of measure, and stock item number shall be written in on the last page. All such write-ins shall be brought to the attention of the inventory supervisor.

Filling of emergency orders during the inventory period shall be strongly discouraged. Requesters shall be asked to leave the order for filling and pickup after the inventory is completed. If the emergency is such that the order must be filled, the inventory supervisor has sole authority to approve this action.

- Verify the count. The inventory supervisor shall assign count teams to check counts at random as well as to check on predetermined items which typically have been a counting problem in the past, have a high unit cost, or are subject to shrinkage. These counts shall be taken on approximately five percent of the stock. The person making the random counts shall record the stock item number, description, unit of measure, and quantity by area of recounted stock. The inventory supervisor shall reconcile this data to the original count; and if there is a difference, another count team shall be assigned to recount the item. If any evidence of a significant count error is detected, the original count team shall be assigned to recount all items within its assigned area.

The audit taken during physical inventory shall ensure that all items are counted uniformly and that an accurate count is taken.

- Perform inventory reconciliation. A report shall be issued at the conclusion of the physical inventory count which includes an explanation of any large differences between the inventory records and the physical count. Reconciliations may be required as a result of material issued from stock but not yet recorded or invoiced, materials-in-process, material on display or in separate areas, material missed during the count, or returned material and material-in-transit. The report shall contain an explanation of all attempts made to reconcile count and book differences. The book balance is the balance on hand shown on the Stock Control Record or stock status report at the inventory cut-off date.
- Finalize the inventory. To obtain the monetary value of the inventory, the inventory items shall be priced out. Use either the average cost method or current replacement cost, whichever is lower. When the average cost method is used, the average cost shall be updated as new receipts occur, or on a periodic basis. The use of the current replacement price generally inflates the inventory value. When required, purchase, MIN/MAX, or days-of-supply level and issue information shall be posted to the inventory worksheets. This information shall be used in the calculation of turn-rates and for readjustments of stock levels.
- Prepare and submit the final physical inventory report. Prepare a copy of the inventory procedure, the final inventory monetary value, and the final physical inventory report. The report also shall contain the percentage of variance between the count and book inventories. The maximum acceptable percentage of variance is 5 percent. Generally, the difference after reconciliation shall be from 1 to 3 percent.

Upon acceptance of the final inventory report by management, inventory records shall be changed to reflect actual on-hand balances as verified by the physical count. Units with manual systems shall indicate on the records what adjustments were made as a result of the inventory.

Common reasons for inventory discrepancies are:

- Lack of recording receipts or issues.
- Accidentally placing merchandise in wrong storage areas.
- Recording quantity received without checking actual count before stocking.
- Pulling a larger quantity than asked for.
- Failure to prepare needed paperwork.
- Pilferage.

Only a physical inventory, taken with proper audit control, can certify counts and recommend needed corrections in procedures, record keeping, or security.

22030.11.8.2 Budget Comparisons

Inventory purchases shall be shown as a separate line item in the budget. Purchases shall be made after considering the inventory of expendable goods on hand.

The materials manager shall make a comparison of the budgeted amount, the amount spent on purchases of expendable goods inventory, and the amount of expendable goods issued from inventory. The dollar value of amounts issued shall exceed the dollar value of amounts purchased until long supply is reduced to acceptable levels. Thereafter, the amount issued shall coincide with the amount purchased. In July of each year, the business managers shall prepare a Materials Management Inventory Expenditure Report on amounts budgeted for expendable goods inventory, amounts spent, and amounts issued. The report shall include trends in the level of inventory investment at each facility.

22030.11.8.3 Stock Record Keeping Inspection/Audit

All institutions or facilities shall maintain stock records on inventory items. The materials manager shall visit the institutions periodically to inspect the record keeping system.

The stock records shall be audited to ensure that:

- The Department's criteria for selecting items for continuing storage are used.
- The Department's guide for selecting items for continuing storage is followed.
- The Department's guide for setting stock levels is used.

In addition to stock records, the materials manager shall audit purchase documents, property survey reports, etc., to determine if the Department's Materials Management policies are being followed and the goal and objectives of the Materials Management program are being met.

22030.11.8.4 Comparison of Physical Inventories

Starting with the June 30, 1986 physical inventory of support items including food, miscellaneous feeding supplies, clothing, housekeeping/janitorial, personal care, medical, and office supplies, a copy of all physical inventory data shall be sent to the materials manager. The inventories shall include a physical count, unit price, maximum supply level, annual demands, issues, receipts, and the ending book on hand.

Starting on July 30, 1990, a maintenance item physical inventory shall be conducted and include a physical count, the unit value of each item, extensions and the total value of each item, and extensions. Subsequent inventories shall require a physical count, unit price, maximum supply level, annual demands, issues, receipts and the ending book on hand. This data shall be compared to the base inventory data, by the materials manager, to determine progress towards improved materials management.

Over a period of seven years, the long supply of expendable materials shall be exhausted; therefore, each subsequent inventory shall indicate:

- A reduction in the inventory investment (adjusted for the inflation rate and population fluctuations).
- Reduction in the number and variety of different items held in warehouses and storage areas.
- Reduction in the amount and number of items that are in long supply in the support, maintenance, and property storage areas.

22030.11.8.5 Inventory Reports Statewide Inventory Management Program (SIMP)

In addition to the base inventory, at the end of the fiscal year, a physical inventory shall be taken and input to the DGS, Office of Procurement, SIMP. The required inventory data shall be entered on the worksheets (SLH Form 912 provided by SIMP). The completed worksheets shall be sent to the SIMP and to the Department's Materials manager, ASD; and a copy shall be retained by the facility.

Each institution or facility worksheet shall list the specific items stored in that location. When the completed worksheet is received by the Office of Procurement, the inventory information shall be fed into the SIMP computer system.

The Department's participation in the SIMP inventory program shall be in two phases. Phase I began with a support warehouse inventory in fiscal year 1985-86. Phase II shall bring the maintenance inventories on line beginning in fiscal year 1989-90. Those facilities that now have an operational maintenance inventory control program in use shall be

input first. It is anticipated that facilities that do not have an operational maintenance warehousing program shall be phased into the SIMP system during fiscal year 1990-91.

After the second physical inventory is in the SIMP system, management reports shall be produced to monitor and measure the effectiveness of the program. This system shall provide the Department with the following information:

- The Department's expendable goods inventory investment, by warehouse and stock item.
- An increase or decrease in the inventory investment and at what rate.
- Stock turnover/ratio.
- Identification of items in long supply or excess.
- Deviations of physical inventory counts when compared to stock record counts.

22030.11.8.6 SLAMM Statewide Physical Inventory Report

Guide to using the SLH Form 912, SLAMM Statewide Physical Inventory Report:

Area of "SLAMM Statewide Inventory Report"

Warehouse number - a number consisting of a five-digit agency billing code and a three-digit warehouse code. These codes are assigned by the SIMP Unit and shall be preprinted on each page of the worksheet.

Physical inventory date - the date of the inventory shall be entered by the SIMP analytical staff. This is a six-digit field that shall be hand-coded by the SIMP staff to ensure the inventory data is matched exactly with all previous inventories in their system.

Name, address, city, zip code - agency name and current address shall be preprinted on the first page of the inventory worksheet.

Stock number - a 12-digit PIN stock item number shall be printed in numerical sequence for each item maintained as an authorized stock item.

Description - a commodity description shall be printed for each stock item number from the PIN stock item master file.

Max-inventory, quantity-of-supply - enter the maximum supply level quantity. The R/O entry shall list the number of days supply for each component of this supply system.

Mode - the unit's current type of supply method is indicated by a preprinted X below either R/O or M/M.

Stock type (ST) - items determined to be either regular or contingency (emergency) stock shall be indicated by a preprinted R or C symbol.

Acquisition code (AC) - indicates the source or method for acquiring a stock item. The various codes and their meanings are listed in the PIN Stock Item Catalog. This information is preprinted from the PIN stock item master file.

Count - enter the total count on hand for each item at the time of the physical inventory. All count entries shall be in the unit of measure printed on the worksheet. Do not include fractional quantities.

Unit of measure (UM) - this is the standard issue unit of measure. The units of measure shall be preprinted for each stock item listed on the worksheet.

Unit cost - enter the latest cost for each item. Unit price shall be expressed in the same term as the unit of measure.

Demand - indicate the number of requests for the item for the past 12 months.

Issue - enter the total quantity issued for the one-year period starting on the date of the last physical inventory that was input to SIMP.

Receipt - enter the total quantity received during a one-year period starting on the date of the last physical inventory that was input to SIMP.

Book on hand (O/H) - enter the quantity shown on the Stock Control Record at the time the physical inventory begins (i.e., current balance on hand).

When the preprinted field information is in error or differs from the information contained on your records, do not make any notations or changes on the worksheets. These items shall be treated as add-ons and listed separately on blank worksheets for the creation of new PIN numbers for your inventory.

22030.12 Property Management

The property unit shall provide input data and maintain property inventory records on all items meeting the criteria for property accounting. From this data, department management shall be guided and assisted in the following:

- Establishing equipment maintenance schedules.

- Determining property inventory needs based on expected obsolescence or probable ending of its useful life.
- Assisting budget staff in determining items to be budgeted.
- Maintaining an accurate record of property held accountable to the department or unit.
- Providing sufficient data to determine if there is surplus property and locations needing property.
- Providing a sufficient data base to draw information for routine or special reporting.
- Maintaining a functional inventory tool for all users.

Stock Records

For departmental property inventory control purposes, unit stock records shall be maintained on all state-owned items that meet any of the following requirements:

- Has a normal useful life of at least four years;
- Has a unit acquisition cost of at least \$500; or
- Is defined as sensitive property.

22030.12.1 Sensitive Property

Sensitive property is any highly desirable and portable item, including expendable material. Sensitive materials include any items that possess a value because of:

- Procurement restrictions.
- Restricted use or possession of the item to certain people or functions.
- Potential for sale or barter.
- Uniqueness.
- Availability.
- Ability to be transported easily without detection.
- Desirability for personal use.

Examples

Some sensitive items are the following:

- Adding/calculating machine.
- Binoculars.
- Boat/canoe.
- Breathing apparatus.
- Calculators.
- Calibrator, gas voltage.
- Cameras.
- Cutters, pipe/bolt/torch.
- Detectors, bomb/infrared/metal.
- Dictation equipment.
- Drill, electric.
- Dynamometer, hand held.
- EDP hardware.
- EDP software.
- Edger, lawn.
- Embossing machines.
- Engraver/etcher.
- Fluoroscope.
- Keyboard, electronic.
- Lens, projector/camera.
- Light, timing (auto).
- Microphone.
- Microscope.
- Microwave oven.
- Monitor/TV audio.
- Mower, lawn.
- Musical instruments.
- Ohm meter.
- Oscope/oscilloscope.
- Projector (portable).

- Paging system.
- Player, audio/video.
- Punch/die set (complete).
- Recorder, audio.
- Router.
- Razor, electric.
- Sander, belt/disc.
- Saw, circular/jig/saber.
- Scope, spotting.
- Stop watch.
- Strobe, camera.
- Telescopes.
- Televisions (portable).
- Tool sets (complete).
- Tester, voltage/transistor.
- Typewriters.
- Weapons (includes pistol, rifle, shotgun, speed leader, scopes).

22030.12.2 Budgeting for Property

For budget purposes, property shall meet the following three requirements:

- Have normal useful life of at least four years.
- Have a unit acquisition cost of at least \$500 (e.g., four identical assets which cost \$300 each, for a \$1,200 total, would not meet the requirement).
- Be used to conduct state business.

22030.12.3 Property Identification Numbers

Each item of state-owned property shall bear an identifying number, either by decal or engraving. The manufacturer's serial number for typewriters, computers, calculators, etc., shall not suffice for purposes of identification.

Property numbers are assigned to property as it is received. When the property is received from the vendor and prior to moving the item from the point of delivery, the property controller shall assign a property tag that indicates the division or unit to which the property belongs and a specific number that shall be affixed to the item.

Property is tagged to designate the assets as belonging to the state. Property tag or engravings shall be placed so that they are in plain sight and easy to read.

When a computerized bar code system is in effect, an optical scanning identification decal can be substituted for the traditional property tag now in use.

To the extent possible, all property shall be tagged on the front, left-hand corner of the item. The identification number/tag shall not be changed unless transfer occurs between divisions or institutions. If the property tag is destroyed, lost, or marred beyond recognition, a substitute number shall be supplied upon request.

22030.12.4 Adhesive Tags

This type of tag includes tags manufactured from thin gauge metal, plastic, or other materials that are attached by use of an adhesive. These tags are for general purpose use and shall be used whenever practical. All tags shall be 1 1/2" x 3/4" as illustrated below. Tags shall be numbered sequentially.

State of Calif.
Corrections
Administration
15476

Tags are not required for the following:

- EDP software. However, locations having EDP software shall maintain an inventory listing of that software to ensure both accountability and security for state property.
- Furniture such as desks, chairs, bookcases, file cabinets, etc. that do not meet the criteria for property accounting.

22030.12.5 Stock Records

The Department shall maintain inventory control records on all property that meets the criteria for strict accountability. The following information shall be input into the inventory control record system when property is acquired:

- Acquisition date.
- Property description.
- Property identification number.
- Cost or other basis of valuation.

- Owner fund.
- Rate of depreciation (or depreciation schedule) if applicable.

The Department shall maintain stock records of property on a STD Form 153A, Property Record Card or on an automated property accounting system.

The STD Form 153A is a multi-part form to be used to provide information in three different sequences. They are as follows:

- Property identification number.
- Description, brand, serial number.
- Location/custodian.

The property stock records shall provide the Department with a method of determining the quantity, value, and location of property items.

22030.12.6 Physical Inventory of Property

The Department shall conduct a physical inventory on all property and reconcile the inventory with accounting records at least every three years. Inventory counting does not need to be performed at one time. Units may take a rotating inventory according to an inventory calendar. Units shall develop and carry out an inventory plan that shall include:

- Inventory taking.
 - Time schedule.
 - Count procedure (type of listing or count sheet to be used).
 - Count assignment (statement of who shall take the inventory at the times and locations scheduled).
- Internal control.
 - Inventories shall not be exclusively controlled by the custodian of the property records.
 - Worksheets used to take inventory shall be retained for auditing purposes. The worksheets shall show the date of inventory and the name of the person taking the inventory.
 - Physical inventory records shall be retained until the inventory reconciliation is completed.
 - The person in charge of the storeroom, if one is used, shall not be in charge of maintaining the inventory records nor the taking of physical inventory in that location.
- Reporting and approval of inventory adjustments.
 - Adjustments and reconciliation of the records shall take place after the physical count has been completed.
 - Review and approval of all inventory adjustments shall be made by the business managers at the institutions or section chiefs at all other Department facilities. This review and approval shall be documented on a STD Form 157, Property Listing Adjustment Sheet.

For any move of an office from one building to another, an inventory shall be conducted on property items prior to and after the move is completed. This shall ensure that all property is accounted for and that property records are updated and the move completed as planned.

22030.12.7 Storage of Property

At least annually, a review shall be made of all property storage areas to determine the need to maintain property and what is surplus or excess to the needs of the facility. Every effort shall be made to reduce the amount of warehoused property that could be used by another division or at another location within the Department and to reduce the amount of space required for warehousing.

The Department may store a maximum of five complements of office furniture at any facility it leases or owns. A complement of office furniture consists of the following:

- One desk.
- One swivel chair.
- Four side chairs.
- One work table.
- One credenza.
- One bookcase.
- One typewriter.
- One calculator.

If these amounts of furniture are exceeded, each facility shall state in writing why they need to store used office furniture, how many complements shall be stored, and how long they shall be stored.

22030.13 Surplus and Obsolete Property

Each departmental facility maintaining warehouse inventories shall develop a viable program for disposal of surplus material.

- Each facility shall establish a property survey board which shall determine whether items are surplus or obsolete and the methods to be used to dispose of the items.
- The property survey board shall be composed of several section chiefs and chaired by a Correctional Administrator.
- The board shall meet at least quarterly to make management decisions concerning disposal of surplus and obsolete material.
- The goal of all property survey boards shall be to reduce the inventory investment and storage costs and to make storage space available for other functions.
- A property controller shall identify and dispose of material.

Several methods shall be employed to determine surplus, obsolete, or discontinued material.

- Frequent inventory appraisals shall identify potential surplus conditions before they become real, by acknowledging the trend toward a slow or no activity status or an increase in inventory.
- Stock records shall be used to determine when items are no longer in demand and should be removed from inventory.
- Staff shall try to be aware of changing technology that contributes greatly to the stockpiling of obsolete and surplus material.

Staff shall promote common parts usage to limit the total number of probable inventory items or urge a limitation of the variety of items.

In plant operations, warehouse staff shall be promptly informed when equipment is pulled out of service so that repair parts for this equipment can be disposed of and removed from the inventory.

All items identified as surplus or obsolete by the property survey boards shall be listed and submitted to the Department's materials manager for review and analysis. The listing shall include a full description, age, condition, value at the current replacement cost, and the approximate area where the item is located in order to determine the most effective method for disposal of the property and to provide data on inventory reductions to the DGS' Statewide Materials Inventory Management Program.

Under no circumstances shall material, tangible or intangible, be disposed without proper documentation. A Property Survey Report, (STD Form 152), shall be prepared for all transactions involving material disposal and shall be approved in advance by the Department's Materials Manager and the Office of Procurement's State Surplus Program. The Department's Materials Manager and the State Surplus Section shall instruct the facility to:

- Transfer the material to another facility within the Department; or
- Transfer the material to another state agency; or
- Make a diligent effort to secure at least three competitive bids and sell the material.

When materials are transferred to other state facilities including those within the Department, a STD Form 158, Transfer of Location of Equipment shall be prepared and distributed according to the instructions on the form.

22030.13.1 Public Sale

Whenever public sales are conducted, a system of checks and balances shall be used. This shall, at a minimum, consist of having separate persons handle the sale and the collection of funds.

Three methods can be used to dispose of surplus property through public sale:

- Sealed bid.
- Auction.
- Fixed price.

The best method is the sealed bid. Historically, this method had the highest monetary return. A diligent effort shall be made to secure at least three competitive bids. If three competitive bids cannot be obtained, a list of the firms or individuals that were solicited shall be prepared and signed by the employee soliciting the bids. The bid solicitation list and the bids received shall be attached to the property survey report.

When material is to be disposed of at a public sale, public notices shall be given. The public notices shall consist of:

- Newspaper ads.

- Notice of sale posted in public places.
- Mailings to interested businesses and individuals.
- Announcements on employee bulletin boards.

Public sales shall be announced a minimum of one week prior to the sale. Notices in newspaper ads shall run a minimum of three days.

An ample quantity of Notice of Sale flyers for distribution to prospective bidders shall be supplied to the unit where the sale material is located. The bid due date shall be set far enough in advance to allow ample time for advertising, bidder's inspection of items, and preparation of bids.

State employees may participate in public sales providing they do so in the same manner as the general public. Employees shall not use their position, office, or prestige to their advantage when participating in sales of materials and shall not participate on state time.

The terms and conditions of a proposed sale shall be prepared in advance of the sale and made available to prospective bidders at the time of the sale. A copy of the terms and conditions shall be posted at the sale site.

The terms and conditions shall contain the following information:

- When and where material offered for sale may be inspected.
- Bidding procedures, including bid closing time and date.
- Bid opening time and date including statement as to how successful bidders shall be notified.
- How, when, and where successful bidders shall make payment including a statement regarding sales tax.
- Time limit for successful bidders to pick up items.
- Other bid conditions including any other relevant information and the following statement:

The items are being sold as is and where is. Verification of the description and condition is the responsibility of the bidder. All sales are final. The State of California reserves the right to reject any or all bids or to waive any defects or irregularities therein. Minimum bid amounts, when indicated, shall be applicable.

The State of California makes no warranty, either expressed or implied, as to the condition or completeness of the equipment being sold nor does the equipment necessarily meet CAL-OSHA Standards, Orders, or Regulations.

After the successful bidder has paid for the items and presents their receipt, the bidder shall be requested to sign an appropriate delivery receipt to signify that they have received the property. When scrap and junk is being sold, the person taking delivery shall either sign a delivery receipt or give the agency a receipt indicating the type and quantity of material removed from the premises.

After the sale of property is completed, the amount of cash received shall be recorded on the approved copy of the property survey report. The approved copy shall be retained by the organizational unit conducting the sale.

22030.13.2 Other Methods of Disposal

When a transfer of material is to be made to another facility within the Department or to another agency, the following shall be clearly understood and agreed upon by both units:

- Description of items to be shipped.
- Quantity to be shipped.
- Price.
- Method of and who shall pay for shipping.

Whenever material is disposed of by some means other than transfer or sale (junked, hauled to the dump, scrapped, dismantled for salvage) the property controller or section chief shall certify in writing that the disposition described has been accomplished. The certification may be made on the property survey report (PSR) or on a separate piece of paper that shall be attached to and filed with the PSR. When material is disposed of at a public dump site, a signature shall be obtained from the disposal site operator or attendant indicating that the property listed was disposed of at the site. If the dump site is unattended, the employee disposing of the property and the property controller shall sign and certify that the disposition described was accomplished.

Every effort shall be made to follow state and departmental policies, guidelines, and procedures when disposing of state-owned property.

22030.14 Department Management Reports

The materials manager shall prepare annual reports for management at each institution or facility where major materials management functions are performed. The analysis report shall be an evaluation of the effectiveness of each institution's or facility's materials management program and shall include recommendations for improvement, when necessary.

22030.15 Revisions

The Deputy Director, ASD, or designee, shall ensure that the content of this section is accurate and current.

PCC § 10334.

ARTICLE 13 — CONTRACTS

Revised July 30, 2010

22040.1 Policy

The Department shall enter into contracts in accordance with the provisions of the State Administrative Manual (SAM), the Public Contract Code (PCC), the Government Code (GC), the Labor Code (LC), the State Contracting Manual (SCM), the Penal Code (PC) and all other applicable State law and regulations.

22040.2 Purpose

This Article describes departmental policy for processing contracts with the exception of those contracts which are subject to the provisions of PC § 7000 et seq. (i.e., masterplan construction).

22040.3 Responsibility

The Deputy Director of the Office of Business Services (OBS) acts as the Procurement and Contracting Officer (PCO) pursuant to the PCC §§ 10333 and 10351-2, and SAM § 1208 on behalf of the Secretary of the California Department of Corrections and Rehabilitation (CDCR), and delegates signature authority for approval for contracts to the Contracts Management Branch (CMB) managers.

The CMB of the Office of Business Services shall administer all contracts through execution into by the Department in a manner which:

- Conserves the financial interests of the State.
- Prevents thriftless acts or expenditures by employees of the Department.
- Ensures compliance with applicable laws, rules, and regulations of the Department.

The CDCR receives an exemption every four years from the Department of General Services (DGS) to execute contracts up to a certain dollar amount. All contracts exceeding the specified dollar amount must be approved and executed by DGS. The contracts executed by the CDCR are subject to approval by the DGS per PCC § 10335. The exemption is in addition to contract exemptions set forth in the SCM.

The Enterprise Information Services (EIS) Division of CDCR is responsible for the acquisition and maintenance of information technology (IT) goods and services.

The California Prison Health Care Services (CPHCS), the receivership established by the federal courts in June 2005 as a result of the Plata v Schwarzenegger lawsuit, shall administer all adult inmate medical and related services, e.g., nursing, pharmaceutical, and laboratory services contracts of the CDCR.

The DGS is the State agency, which exercises supervision over contracts entered into by State agencies and departments. DGS reviews contracts to ensure that the best interests of the State are preserved; that agencies of the State are complying with applicable laws, rules, and regulations; and expenditures are fiscally responsible while meeting the needs of the State.

The Department of Finance (DOF) and the DGS have general powers of supervision over matters concerning the financial and business policies of the State and shall institute investigations and procedures deemed proper to conserve the rights and interests of the State.

The Office of the Attorney General (AG) will review and approve any public works construction projects exceeding \$250,000 (adjusted periodically by the DOF to reflect the percentage change in the annual California Construction Index) and executed under PC § 7000.

22040.4 Contract Process

The CMB shall administer all non-IT service contracts, including the competitive bid and non-competitive bid (NCB) processes, for Adult Institutions, Division of Juvenile Justice (DJJ) facilities, Adult and Juvenile Justice Parole Divisions, and Adult and Juvenile Justice Headquarters Programs. Service and Expense orders can be utilized to obtain informal services not to exceed \$4,999.99 (excluding tax) for a twelve-month period.

Contract processing time can vary significantly depending upon the complexity and volume of contracts and the various control agencies involved in the approval process. Programs shall follow the OBS established contracting guidelines to allow enough lead time for necessary approvals before the effective date of the contract.

All requests for contracts shall be initiated by the program/institution on a Purchase Requisition (PReq) through the release process to the CMB in Systems, Applications, and Products (SAP).

22040.5 Emergency Contracts

Emergency contracts which are necessary for the immediate preservation of life or State property are exempt from advertising.

The definition of what constitutes an emergency is contained in two separate sections of the PCC.

- Section 1102 addresses emergency services and,
- Section 10122 addresses emergencies for construction and public works.

Emergency contracts are designed to provide immediate services needed to mitigate an emergency and cannot be used to complete an entire project or provide on-going services unless mitigating efforts are insufficient to address the emergency. State of California contracting rules and regulations require a competitive bidding process to obtain a contract for projects and on-going service needs. Under an emergency situation, informal bids (minimum of three) may be obtained by telephone and work may begin without an executed contract if the contract has been verbally authorized by someone with Department authority to authorize the initiation of an emergency contract. However, a full explanation of the emergency and a justification for the contract price shall be included on the Agreement Summary (STD. 215).

Examples of acceptable emergency contract situations include:

- Institutional security failures such as gates, fences, security systems (i.e., lethal electrified fence, shaker fences, cameras, etc.).
- Failure of other critical building/site components or systems required to maintain staff, inmate, and public safety and licensing.
- Utility failures such as loss of power, potable water, wastewater.
- Failure of essential central plant services such as HVAC, steam, hot water.
- Loss of fire protection or other essential life safety systems.
- Loss of essential food services.
- Unanticipated loss of janitorial services that impact the immediate health and safety of staff.
- Identification of toxic mold within the premises that must be remediated to protect the health and safety of staff.

Examples of unacceptable situations for using the emergency contracting process include:

- Building system or component renewal beyond what is required to address the immediate failure or condition.
- Scope of work activity beyond the acceptable immediate emergency condition as demonstrated above.
- Restoration or replacement of a building system or component beyond its original design capacity.
- Instances in which the requesting institution or program failed to adequately plan for required services.

The PCC allows exceptions to the competitive bidding requirement in true emergencies. However, emergency contracts are not exempt from all other contracting requirements including a valid business license, insurance coverage certificates, and payment bonds, payment of prevailing wages and DGS/Office of Legal Services (OLS) or AG approvals.

22040.6 CDCR Purchase Requisition (PReq)

The responsible program shall complete and submit a PReq in SAP, including all required contract documents and forward to the CMB.

22040.7 Agreement Summary (STD. 215)

The CMB shall prepare the Agreement Summary (STD. 215), in accordance with the OBS Contracting Guidelines and the SCM.

The CMB will obtain the approval of the contract's funding on the STD. 215 from the approving authority within the program. The approving authority will be the same program representative authorized to approve a PReq in SAP.

22040.8 Appropriate Signatures

Upon return of the contract from the contractor, the CMB shall obtain the appropriate departmental signatures and, if required, control agency review and approval. Signature authority for Service and Expense Orders not to exceed \$4,999.99 (excluding tax) for a twelve-month period has been delegated to designated individuals at adult institutions and DJJ facilities.

22040.9 Amendments

An executed contract cannot be changed except by formal amendment. An amendment is required when any of the following proposed changes to an executed contract are required:

- Change in the scope of work.
- Change in contract term (if original contract allowed for an extension).
- Increase or decrease in total funding for any one fiscal year.
- Salary increases over 15% of the budgeted high salary range.
- Increase in the total Personnel category greater than 15%.

If a contract needs to be amended, the original PReq must be amended to reflect the changes in SAP by the responsible program. The responsible program shall prepare and provide all required documents by attaching them to the PReq in SAP. Amendments must be requested to allow sufficient time for processing, as detailed in the OBS Contracting Guidelines.

A contract that has expired or been terminated cannot be amended.

Both contracting parties shall approve contract amendments. If the original contract required DGS approval the amendment shall also require DGS approval, except, to extend the original contract term for a period of one year or less.

A NCB may be required to amend a contract under the following circumstances:

- If the original contract was let via the NCB process.
- The amendment changes the scope of work.
- The amendment increases the dollar amount by 30% or more of the original contract amount, not to exceed \$250,000, and there is no change to the scope of work.
- The amendment extends the term of the contract and adds money.

The date of the amendment shall be prior to the expiration date of the original contract.

A budget change between line items does not require a contract amendment if the change:

- Is 15 percent or less of the total amount of the contract or such other percentage as specified in the contract.
- Does not increase the total amount of the contract.
- Does not significantly modify the original intent of the contract.

The amendment will clearly state all changes to the original contract and incorporate any changed exhibits or attachments.

22040.10 Contract Content

All documents shall be executed before the date of performance. No back dated documents are authorized except as provided under emergency situations. (See Department Operations Manual (DOM) § 22040.5.)

All contracts must contain the following information:

- An accurate identification of the parties.
- A complete scope of the work, service, or product to be performed, rendered or provided.
- A clear statement of the basis of payment and the maximum amount to be paid.
- The period of time for performance or completion of the contract, including beginning and ending dates.
- Restrictions on payment of mileage, per diem, and transportation governed by the Department of Personnel Administration (DPA) regulations for non-represented State employees or University of California for contracts with California State higher education institutions.
- Legal clauses, language, or formats when applicable for specific classes of contracts; e.g., public works, consultant, personal services, etc.
- Signature by a person for each party who is authorized to bind that party.

22040.11 Term of Contract

Contracts for services should normally not exceed two years, unless there is statutory authority for a longer term or a substantial written justification demonstrates a business need for a longer term.

Contracts for more than one fiscal or calendar year shall be bid on a multi-year basis; that is, a two-year contract shall include a total dollar amount for the two years which is not subject to year-to-year increases or negotiation.

Contracts bid or written on a multi-year basis to secure a rate/cost for the entire period of the contract shall have a termination clause for the State only.

22040.12 Execution of Contract

A fully executed contract shall have original signatures of the contractor, the CMB manager, DGS, or other approving authority. Contracts must also be approved and released within the SAP program.

Under no circumstances can a contractor commence services before a fully approved and executed contract is received by the contractor. However, under an emergency situation work may begin without an executed contract if the contract has been verbally authorized by someone with Department authority to authorize the initiation of an emergency contract. (See DOM § 22040.5)

Backdating of a contract is prohibited.

The risks associated with a contractor commencing services without an executed contract include:

- Inability of the State to hold the contractor accountable for poor, insufficient, or incomplete work;
- Inability to pay the contractor for work performed;
- A possible 15 percent penalty fee of the total costs of claims filed against the Department with the Victims Compensation Government Claims Board added to the total cost of the claim and charged to the program; and-
- Potential loss of qualified contractors for future work.

22040.13 Payments

Provisions for payment shall be clearly defined in the contract.

Advance Payments During Contracts

Advance payments are allowed only to community-based, private, non-profit agencies, and to public agencies. If an advance payment is essential for the effective implementation of a program and funds are available, an advance may be granted. The program and or contractor may request that the contract be written to allow advance payment.

Determining Need

Program and contract staff shall jointly determine the need for advance payment based upon a review of the contractor's most recent financial statements, budget, and audit report by an independent accountant or other comparable financial information.

The determination shall be based on the following factors:

- The percentage of the contractor's total operating budget to be funded by the contract.
- The extent to which the contractor is dependent upon voluntary contributions from individuals.
- The extent to which the contractor receives financial support from other governmental organizations, private commercial firms, and fund-raising organizations, such as United Way.
- The ability of the contractor to repay the advance from other income.

Proof of Non-Profit Corporation Status

The contract with a community-based, private, non-profit agency shall provide that the agency submit proof of non-profit corporate status to the Department before advance payment is made.

This proof shall be reviewed by the CMB staff and be retained in the contract file.

Granting Advance Payments

Advance payments to a community-based, private, non-profit agency may be granted by the Department for contracts of \$400,000 or less; for contracts over \$400,000, an advance may be granted only with prior DOF approval.

Advance payments may also be granted to any "Public Agency" and shall be repaid in accordance with the provisions of the contract.

"Public Agency" includes any State or federal agency, county, city, or public district of the State of California.

Fidelity Bond

The contract shall include a requirement that the agency and its representatives who, in any way, handle financial transactions related to the receipt or disbursement of funds provided by the contract shall be covered by a fidelity bond equal to at least 50 percent of the total amount of the contract.

22040.14 Contracting Parties

Type of entity shall be clearly defined (partnership, corporation, etc.). Full name of contractor and contractor's business address shall be included in all contracts.

22040.15 Termination Clause

A termination clause allowing the Department to terminate the contract with a 30-day written notice to the contractor shall be included in all contracts. A 30-day termination clause may be included in public works contracts if it is considered to be in the best interest of the State.

22040.16 Additional Considerations:

Travel or Per Diem

Travel expenses and per diem rates for contracts with consultant services, legal services or a cost reimbursement budget shall be set at the rate specified by the DPA for similar employees or verification supplied that such rates are not available to the contractor.

Consultant Contract

A consultant cannot commence services before a fully approved and executed contract is received by the consultant. The exception is an emergency, as determined by the Department, where the use of contracted services appears to be reasonably necessary but time did not permit the obtaining of prior formal approval of the contract.

Backdating of a contract is prohibited.

Contract/Contractor Evaluation (STD. 4)

Upon completion of a consultant contract, the responsible program shall prepare the STD. 4, and submit it to CMB within 60 days of the expiration date of the contract. The CMB shall forward the STD. 4 to the DGS.

Progress Reports

All consultant contracts shall provide for a series of progress reports or meetings of at least once a month to allow the Department or program to determine if the consultant's service is meeting the specific problem, administrative requirements, or program needs and is on schedule.

Funds

Each contract shall state that it is subject to the availability of funds.

Local Government

When one of the contracting parties is a county, city, district, or other local public body, the contract shall be accompanied by a copy of the approved resolution, order, motion, or ordinance of the local governing body by law having authority to enter into the proposed contract, approving and authorizing execution of the contract.

The CMB will obtain a copy of the resolution, order, motion, or ordinance on behalf of the Department.

Responsible programs shall consider the time involved in obtaining the resolution when planning their contract start date.

Departmentally Authorized Signature

A Legal Office Form (LO) 33, Signature Authority Card, shall be submitted in triplicate and forwarded to the CMB. After approval and signature of the OBS Deputy Director or designee, the completed card is distributed as follows:

- The requesting program
- CMB
- Claims Audit, State Controller's Office (SCO)

22040.17 Distribution of Contracts

The CMB shall mail an original copy of the contract to the contractor. When contracts are approved and are ready for distribution, notification shall be made to the requesting program, headquarter or regional accounting office, and the SCO. The executed contract is also placed in SAP for the headquarter or regional accounting office to retrieve. If a contract has been approved by DGS they will provide a copy of the contract to the SCO.

22040.18 Developing a Contract Budget

All contracts shall contain a budget itemizing the expenses involved with the contract.

Basic components of a budget could include:

Personnel Services

- Salaries and benefits of the staff involved with the contract performance
- Operating Costs

- Postage
- Printing
- Travel
- Office supplies

Reimbursable Costs

- Bookkeeping services
- Computer services
- Training consultants

When the contractor submits a budget for contracts not required to be bid or for amendments, program staff shall verify the line item amounts in each component to ensure the total budget does not exceed the specified contract amount.

22040.19 Consultant Progress Payments in Contracts

Progress payments authorized within a consultant contract shall comply with the provisions of PCC § 10346.

When progress payments are authorized, not less than 10 percent of the contract amount shall be withheld pending final completion of the contract. However, if the contract consists of the performance of separate and distinct tasks, then any funds withheld with regard to a particular task may be paid upon completion of that task.

22040.20 Small Business Preference in Contracts

The small business preference applies for competitive solicitations regardless of the solicitation format or dollar value with few exceptions. The exemptions to the Small Business (SB) preference are Interagency Agreements, contracts or purchases with any government agency (including cities, towns, colleges, universities, etc.), federally funded contracts, and Joint Power Agreements. The SB participation goal has been established for all contracts by Executive Order S-02-06. It is the commitment of the Department to provide SBs with the opportunity to participate to the maximum extent feasible in the performance of contracts and subcontracts.

22040.21 Disabled Veterans Business Enterprise Participation Requirements

The CDCR is committed to achieving the legislatively established goal for the participation of disabled veteran-owned businesses in procurement and contracts to the fullest extent possible. The CDCR may establish Disabled Veterans Business Enterprise (DVBE) participation requirements on individual contracts.

The DVBE program policies and procedures seek to achieve the established statewide annual minimum goal in the performance of contracts. All managers, procurement officers, and contract officers are responsible for implementing those policies and shall exert maximum efforts to successfully achieve the legislatively established DVBE goal.

22040.22 Termination of Contracts

The State may terminate a contract for any reason other than failure to perform services as long as the 30-day termination clause is included in the contract language. A notice of termination shall be written to the contractor giving at least 30 days notice by the CMB.

Failure to Perform

Termination for failure to perform services specified in the contract may occur immediately under the provisions of the contract. Prior to termination, the contractor shall be given a reasonable amount of time in which to improve the services. After a written notice to improve is given and services have not improved, the contract may be immediately terminated.

The CMB contract analyst will process all contract terminations. Copies of any prior correspondence to the contractor shall be forwarded to the CMB. The written notice of termination shall indicate the specific provisions that were not adhered to.

22040.23 Competitive Bidding (Non-Public Works)

To the greatest extent possible, engage in competitive bidding.

At least three competitive bids or proposals shall be secured on all contracts except those specifically exempted in GC § 14825 and PCC § 10348. Exceptions to a minimum of three bids are listed in SCM § 5.08A and SCM § 5.10B.

All bids/proposals received and all related correspondence and documents shall accompany the contract for final approval.

22040.24 Revisions

The Deputy Director, Business Services or designee shall be responsible for ensuring that the contents of this Article are kept current and accurate.

ARTICLE 14 — FIELD OFFICES

Effective January 18, 1990

22050.1 Policy

The Department shall enter into leases for field offices in a manner which focuses on the greatest accessibility to service the public and client population with the least hardship on staff and community while adhering to budget constraints.

22050.2 Purpose

This section describes the process involved to lease, relocate or equip any field office of the Department that is not geographically located within Headquarters space.

- This section shall use a parole field unit as an example to illustrate the step-by-step acquisition process and subsequent operational requirements.

22050.3 Definition

The term "field office," for purposes of this section, is synonymous with and shall include any divisional unit, subunit, office, suboffice, or annex identified on the departmental organization chart, and that is physically located in another building, warehouse or trailer outside of the headquarters building and institution property.

22050.4 Establishing Need for New Field Office Space

The need for expansion or relocation is based on criteria specific to the type of office affected. For instance, the need for new parole field offices is based on OBIS parole population projections broken down by counties and on local information about client population collected by unit supervisors. Expansion needs for a parole unit is also directly related to the creation/proposed creation of new staff positions to manage client population increase.

22050.5 Acquisition Process

The process involved in the acquisition of new or additional field office space is the same for all Department programs and are as follows:

The compiled information supporting the need for expansion must be submitted to the BSS by the divisional head. In the case of paroles, the RPA submits the request and supporting materials to the Department's Business Services Unit by the Deputy Director, P&CSD, who signs the memo giving approval or rejects the request.

Request

The written request shall contain the following information based on a two-year projection:

- Justification for acquiring a new location.
- Geographic boundaries within which the proposed office is to be located.
- Staff, equipment, and other special requirements.
- All other pertinent data ensuring compliance with departmental and local community needs and ordinances.

Area

The Business Services Officer assigned to the area/region of the proposed office site shall prepare the following:

- A Standard (STD) Form 9, Space Action Request.
- A General Services (GS) Form 4083, Space Planning Data Chart which contains staffing proposals and other office necessities.

The Assistant Deputy Director, Financial Management and Support Services, approves or disapproves the STD Form 9. If approved, Business Services shall submit along with the STD Form 9, the GS Form 4083 to Office of Real Estate and Design Services (OREDS) for:

- Review.
- Advertising.
- Site search.
- Lease Negotiation.

- Lease Preparation.
- Physical layout of space.

22050.6 Furniture and Equipment

The following actions initiate furniture and equipment procurement:

- Upon completion of lease preparation, OREDS prepares a Lease Project Memorandum (OREDS Form 6) and sends it by Business Services to the Assistant Director, Financial Management and Support Services for review and approval.
- Business Services shall mail an informational copy of the OREDS Form 6 to the division's Support Services Unit.
- The staff services analyst of the affected region shall immediately prepare a request for equipment (STD Form 5), and send it by divisional headquarters to Business Services for processing.
- At this time, Business Services shall also complete a request for telephone services (STD Form 20), security systems, and moving services.

DOM 22030, Materials Management, discusses furniture/equipment procurement in detail.

22050.7 Site Selection

Appropriate field staff shall participate in the inspection of the proposed office sites and indicate their preference, and reasons for rejecting the other sites. Final site selection shall be determined by OREDS and the Department based on:

- Cost factors.
- Accessibility to public and client population.
- Other relevant factors (e.g., proximity to law enforcement, ventilation, location of emergency evacuation routes, etc.).

22050.8 Lease Finalized

OREDS shall send a lease agreement to the lessor and, upon receipt of the signed lease, forward a copy to the Departments BSS. Business Services, if so requested, shall forward a copy of the lease to the affected region.

After alterations to conform the acquired space to Department's requirements are completed, a final walk-through is conducted by OREDS, Business Services, and the appropriate field staff.

22050.9 Occupation Process

Business Services shall arrange for the mover as follows:

- If there is a state master agreement with a specific mover in the area of the new office location, the Business Services Unit shall follow the procedures outlined in that agreement.
- If there is no state master agreement and the move will cost \$500 or more, the move must be advertised in the State Contracts Register. The Business Services officer shall be responsible for preparation of the bid package and submitting the contract request to the Departments Contract Services Unit.
- If the move will cost less than \$500, the Business Services Unit shall call three local movers to have them submit bids and then shall select the lowest price quoted.

DOM 22040 describes contracting procedures in detail.

22050.10 Requesting Additional Office Space for Existing Offices

When there is a need for additional space for an existing field office, the process followed to obtain such additional space shall be the same as that used to obtain a new field office location.

22050.11 Emergency Acquisition of Office Space

If an extreme emergency exists that necessitates acquiring temporary rental space expeditiously, Business Services shall examine various options to satisfy immediate needs on a case-by-case basis.

If this new space is not to be located within a state owned building, the process of emergency acquisition shall take at least 60 working days to allow for the notification of appropriate local officials (mayor, city clerk, county board of supervisors, senator, assembly member and the LLO) pursuant to the requirements of Administrative Bulletin 647, Chapter 812 (September 1987).

22050.12 Revisions

The Deputy Director, ASD, or designee, shall ensure that the content of this section is accurate and current.

PC Chapter 9.5.

ARTICLE 15 — SELECTION OF PROFESSIONAL CONSULTING SERVICES

Revised August 10, 2002

22060.1 Policy

The California Department of Corrections and Rehabilitation (CDCR) shall secure the services of private architectural, engineering, and other firms, as defined in Section 4525 (a) of the Government Code, on the basis of:

- Demonstrated competence.
- Professional qualifications necessary for the satisfactory performance of the service required.

22060.2 Purpose

This Article incorporates the requirements for selecting the services of architectural, engineering, and other firms as defined in Section 4525 (a) of the Government Code.

22060.3 Responsibility

CDCR's Contracts Management Branch shall provide functional direction for the selection of firms (defined below) pursuant to this Article.

22060.4 Definitions

Firm

Any individual, firm, partnership, corporation, association, or other legal entity permitted by law to practice the profession of architecture, landscape architecture, engineering, environmental services, land surveying, or construction project management.

Small Business Firm

A business in which the principal office is located in California and the officers of such business are domiciled in California, which is independently owned and operated and which is not dominant in its field of operation.

The maximum dollar volume that a small business may generate shall vary from industry to industry to the extent necessary to reflect differing characteristics of such industries.

State Agency Head

For the purpose of this Article, the State Agency Head is the Secretary of the CDCR or his/her designee.

Architectural, Landscape Architectural, Engineering, Environmental, and Land Surveying Services

Professional services of an architectural, landscape architectural, engineering, environmental, or land surveying nature, as well as incidental services that members of these professions and those in their employ may logically or justifiably perform, are the primary consulting services spoken to in this Article.

Construction Project Management

Those services provided by a licensed architect, registered engineer, or licensed general contractor who meet the requirements of Government Code Section 4529.5 for management and supervision of work performed on State construction projects.

Environmental Services

Those services performed in connection with project development and permit processing in order to comply with federal and State environmental laws. "Environmental services" also includes the processing and awarding of claims pursuant to Chapter 6.75 (commencing with Section 25299.10) of Division 20 of the Health and Safety Code.

22060.5 Notice of Announcement

Where services subject to this Article are identified as being required, the Secretary or designee shall make a statewide notice of announcement as follows:

- The announcement shall be advertised in two major California daily newspapers.
- The announcement shall be placed in the California State Contracts Register and shall include information as identified in Section 14825.1, Government Code.
- The announcement shall be published in respective professional societies publications.

All announcements in professional societies or newspapers shall contain the following minimal information:

- The nature of the work.

- The criteria upon which the selection of a firm shall be made.
- The time frame within which statements of interest, qualification, and performance data shall be received.

Failure of the professional societies or newspapers to publish the notice of announcement shall not operate to invalidate any contract.

Firms selected may be retained for multiple years to complete the service.

22060.6 Established Criteria

The Secretary or designee shall establish criteria, which will comprise the basis for selection, which shall include such factors as:

- Professional excellence.
- Demonstrated competence.
- Specialized experience of the firm.
- Education and experience of key personnel.
- Specialized staff capability.
- Workload.
- Ability of the firm to meet schedules and budgets.
- Principals to be assigned by the firm.
- Nature and quality of completed work by the firm.
- Reliability and continuity of the firm.
- Location.
- Professional awards received by the firm.
- Other relevant considerations.

The Secretary or designee shall weigh such factors according to the nature of the work to be performed, the needs of the state, and complexity and special requirement of the specific work.

22060.7 Selection of Architects or Engineers

After expiration of the period stated in the publications, the Secretary or designee shall evaluate statements of qualifications and performance data submitted by interested firms and on file in the Department. The Secretary or designee shall conduct discussions with no less than three firms regarding anticipated concepts and the relative utility of alternative methods of approach for furnishing the required service. From the firms with which the Secretary or designee holds discussions, the Secretary or designee shall select no less than three, in order of preference, based upon the established criteria, whom the Secretary or designee deems to be the most highly qualified to provide the services required. In the event there are fewer than three qualifying submittals, the Secretary or designee will make a finding as to whether it is in the best interest of the State to proceed or re-advertise.

22060.8 Estimate of Value of Service

Before any discussion with any firm concerning fees, the Secretary or designee shall cause an estimate of the value of such services to be prepared. Such estimate shall be, and shall remain, confidential until the award of contract or abandonment of any further procedure for the services to which it relates.

22060.9 Negotiation

The Secretary or designee shall attempt to negotiate a contract with the best-qualified firm. Should the Secretary or designee be unable to negotiate a satisfactory contract with the firm considered to be the most qualified at fair and reasonable compensation, negotiations with that firm shall be terminated. The Secretary or designee shall then undertake negotiations with the second most qualified firm. Failing accord, negotiations shall be terminated. The Secretary or designee shall then undertake negotiations with the third most qualified firm. Failing accord, negotiations shall be terminated. Should the Secretary or designee be unable to negotiate a satisfactory contract with any of the selected firms, the Secretary or designee may select additional firms in order of their competence and qualifications and continue negotiations in the manner prescribed until an agreement is reached.

22060.10 Amendments

In instances where the State effects a necessary change in the work during the course of performance of the contract, the firm's compensation may be adjusted by mutual written agreement in a reasonable amount where the amount of work to be performed by the firm is changed from that which existed previously in the contemplation of the parties.

22060.11 Contracting in Phases

Should the Secretary or designee determine that it is necessary or desirable to have the work performed in phases, it will not be necessary to negotiate the total contract price in the initial instance. This is provided that the Secretary or designee shall have determined that the firm is best qualified to perform the work at a reasonable cost. Also the contract shall contain provisions that the State, at its option, may utilize the firm for other phases and the firm will accept a fair and reasonable price for subsequent phases to be later negotiated, mutually-agreed upon, and reflected in a subsequent written instrument. The procedure, with regard to estimates and negotiation shall otherwise be applicable.

22060.12 Small Business Participants

The Secretary or designee shall endeavor to provide to all small business firms who have indicated an interest in receiving such, a copy of each announcement for services for which the Secretary or designee concludes that small business firms could be especially qualified. The Secretary or designee shall assist firms in attempting to qualify for small business status. A failure of the Secretary or designee to send a copy of an announcement to any firm shall not operate to invalidate any contract.

22060.13 Applicability of this Article

This Article shall not apply where the Secretary or designee determines that:

- The services needed are more of a technical nature.
- The services needed involve little professional judgment.
- Requiring bids would be in the public interest.

22060.14 Revisions

The Deputy Director, Office of Fiscal Services, or designee shall be responsible for ensuring that the contents of this Article are kept current and accurate.

ARTICLE 16 — EMPLOYEE PERSONAL PROPERTY

Revised April 25, 2001

22070.1 Policy

The Government Code (GC) and Department of Personnel Administration (DPA) Rules provide for reimbursement/replacement of personal property that is damaged or stolen in the course of employment.

22070.2 Purpose

This Article outlines the process to be used by employees for obtaining reimbursement or replacement of personal property. If any content conflicts with bargaining unit agreements, the Memorandum of Understanding prevails.

22070.3 General Information

The California Department of Corrections and Rehabilitation (CDCR) is authorized to pay for the repair or replacement of damaged or stolen personal property worn or used by an employee in the course of employment. Personal property may include:

- Eye glasses.
- Dentures.
- Watches.
- Hearing aids.
- Prostheses.
- Clothing.
- Uniforms.
- Uniform items.
- Tools. (If written approval has been obtained from immediate supervisor.)

Personal property brought to the work place, which is not required for employment, shall not be considered a responsibility of CDCR or the State. These items may include:

- Clocks.
- Radios.
- Calculators.
- Desk sets.
- Pictures.

- Jewelry, other than watches.
- Sunglasses.

Damage that is a result of normal wear during the course of duty is not compensable by the State.

Employees shall provide their supervisor with an inventory of all approved personal property used on the job.

In the event of stolen property, the CDCR shall decide between reimbursement or replacement; however, the employee's preference shall be considered in this decision.

22070.4 Preparation of Claims

Pursuant to the California Board of Victim Compensation and Government Claims (VCGCB) claims authorization process, claims for repair or replacement of personal property, whether damaged or stolen, valued at less than \$300 shall be settled by/within each institution in the case of institutional employees, and through Office of Fiscal Services (OFS) for those involving any other employee. Claims shall be submitted using CDC Form 892, Employee Claim for Loss or Damage to Personal Property.

Claims in excess of \$300 must be submitted to the VCGCB for approval. Additionally, claims involving stolen property valued in excess of \$500 must also be approved by the DPA prior to being submitted to the VCGCB. (See DOM 22070.6 for further details.)

All claims involving stolen property shall be accompanied by an official incident or investigative report of the theft.

Each employee's claim shall include:

- The official report describing the incident which caused the damage or circumstances of the theft.
- Bill for repairs or, if damage is irreparable, the reasons it cannot be repaired and evidence of item's value at time of damage.
- In event of theft, a statement indicating that the value of property was verified by inspection of sales records, price lists, etc.
- Certification that:
 - Item was required by employment.
 - Loss or damage occurred at work site, work base, or en route between the two locations.
 - Loss or damage was not a result of carelessness or negligence.

22070.5 Supervisor's Review of Claims

The dollar amount of each claim shall determine the process by which reimbursement/replacement is obtained.

Approval of claims at the supervisor's level shall provide:

- Confirmation of employee's statement.
- Recommendation of reimbursement or replacement.
- Measures taken to prevent recurrence of such incidents.

22070.6 Submission of Claims

Claims under \$300 (institution employees):

- The employee submits CDC Form 892 and accompanying documents through the supervisor to the institution business office.
- The Warden or designee approves/disapproves the claim and if approved, forwards to accounting office for filing in claims schedule.
- If determination is for reimbursement, accounting office submits the claim to the State Controller's Office (SCO) for audit and issuance of payment.
- If disapproved, the claim shall be returned to the employee by the Warden or designee.

Claims under \$300 (administration or field office employees):

- The employee submits CDC Form 892 and accompanying documents by supervisor and appropriate deputy/associate Director, to the Deputy Director, OFS for approval or disapproval.
- The Deputy Director, OFS or designee approves/disapproves claim, and if approved, forwards it to Headquarters Accounting Office for appropriate disposition, and in turn to SCO for audit and disbursement.

- If disapproved, the Deputy Director, OFS shall return the claim to the employee.

Claims of \$300 and above (all employees):

- The employee submits CDC Form 892 and accompanying documents through chain of command to the Deputy Director, OFS.
- If approved, the Deputy Director, OFS, or designee shall forward the claim to the VCGCB for claims in excess of \$300, as well as to the DPA for stolen property claims in excess of \$500 for final approval/disapproval.
- When approved by the VCGCB/DPA, the claim shall be returned to the Deputy Director, OFS where it shall then be forwarded to the SCO by Headquarters Accounting Office for subsequent reimbursement.

Any claims that have been denied during this process may be resubmitted by the employee to the VCGCB for further determination/consideration. If denied at this level, the last avenue of appeal is through civil action.

22070.7 Revisions

The Deputy Director, OFS, or designee shall ensure that the contents of this Article are current.

ARTICLE 17 — EVALUATIONS AND FISCAL CONTROL AUDITS

Revised February 1, 1993

22080.1 Policy

The Program Compliance Evaluation and Internal Audit Units shall review departmental operations for compliance with departmental and State policies, procedures, directives, regulations, and statutory requirements in order to enhance the effectiveness of departmental operations by providing to The Director, Executive Staff, and field managers current information for effective planning and decision-making.

22080.2 Purpose

This section establishes requirements for program compliance evaluations and for fiscal compliance and internal control audits.

22080.3 Responsibility— PFAB

PFAB shall assist the Director and other departmental executives with increasing the effectiveness of management by systematically reviewing departmental activities to provide recommendations for improvements. The reviews shall determine:

- Compliance with existing laws, rules, court and legislative mandates, regulations, directives, standards, and policies.
- The reliability and integrity of information.
- Efficient and effective use is made of resources.
- The safeguarding of State assets.
- The accomplishment of established objectives and goals for operations or programs.

22080.4 Responsibility— Inmate Appeals

Inmate Appeals, headquarters, shall notify the Chief, PFAB of all third-level appeals ruled in favor of the inmate and of repetitive noncompliance detected through the inmate appeal process.

22080.5 Responsibility— Wardens/RPAs

The incumbents shall ensure the monitoring of all fiscal transactions by implementing ongoing reviews and audit evaluations of same within their facilities and parole regions.

22080.6 Reports

The reviews conducted by PFAB shall provide management with reports regarding the levels of operational compliance with departmental and State directives, internal monitoring methodology, actions taken to correct deficiencies, and assessments of current operational and program status.

22080.7 Evaluation Function

The evaluation function provides a means of:

- Improving management of the facilities and headquarters through systematic operational compliance reviews and data collection which:
 - Provides for early identification of operational problem areas with recommendations for solution.

- Coordinates departmentwide resolution of problems.
- Increases communication between departmental managers at all levels.
- Ensures consistent compliance with, and adherence to, operational application of goals and the philosophy of the Department.
- Systematically reporting and recording information regarding the activities of the Department by:
 - Biennial evaluations and appropriate follow-up of each of the Department's operational units.
 - Special reviews of identified or potential problem areas initiated by direction of Executive Staff or request of field managers.
 - Periodic reviews of operational areas to evaluate the effectiveness of specific changes in policy, procedures, and/or regulations for the purpose of problem-solving and determining if improvements may be made.
 - Management and dissemination of collected data regarding identified operational or noncompliance areas.

22080.8 Annual Work Plan

PFAB shall establish an Annual Work Plan (AWP) for:

- Conducting program compliance evaluations of headquarters and field operations.
- Conducting postevaluation progress reviews as required to evaluate implementation of corrective actions on identified deficiencies.
- Monitoring compliance with specific court-imposed mandates.
- Conducting departmental administrator-requested special reviews.
- Conducting preaudits of ACA Standards for Adult Institutions to enable preparation for the accreditation audits conducted by the Commission on Accreditation for Corrections (CAC).
- Conducting internal and fiscal compliance audits which ensure compliance with the Financial Integrity and State Manager's Accountability Act of 1983.

22080.8.1 Approval and Review

The AWP shall be prepared and distributed by PFAB to Executive Staff for review and comment. Upon resolution of any Executive Staff concerns, it shall be submitted to the Assistant Director, OOC (EC&ISD) by each October 1 for approval.

22080.8.2 Definitions

The following definitions apply to the reviews by PFAB:

Evaluation Scope.

Delineation of the procedures, programs, operations, and activities that shall be reviewed.

Evaluation Liaison.

A staff person designated at each review location to serve as liaison between the local and review team staff, and to facilitate the team's review by expediting information-gathering and access to documents and records.

Evaluation Worksheet.

A checklist noting all the departmental requirements related to the review scope which serves as the source document for the review findings report. PFAB shall update the review worksheets to ensure that they reflect current law, policy, and procedure.

Action Plan.

A formal written plan submitted by the administrator responsible for detailing proposed actions to correct any deficiencies noted in the evaluation findings. Action plans shall:

- Fix the responsibilities and specify the actions to be taken for correcting deficiencies.
- Establish the time limits within which corrective actions shall be completed.

22080.9 Program Compliance Evaluations

PFAB shall schedule on-site program compliance evaluations for headquarters divisions and field units no less than once during each two-year period. The evaluation scope, methodology, and frequency shall consider the technical resources from other divisions with functional responsibility for specific operations, which may be used to

assist with the evaluation. The schedule shall note additional staff resources with specific technical expertise which may be necessary to assist PFAB staff.

22080.9.1 Advance Notice

Each headquarters division and field unit shall be notified in advance of the schedule for program compliance evaluations. The notice shall include a copy of the evaluation worksheets to be used. If a scheduled evaluation date conflicts with an exceptional activity or event, the head administrator may request rescheduling of the review.

22080.9.2 Entry Interview

An entry interview shall be held with the responsible administrators prior to beginning the evaluation to discuss the scope, method, and to identify local resources required to assist with the evaluation. At this time a staff person shall be designated to serve as liaison between the headquarters division/field unit and the evaluation team.

22080.9.3 Evaluation Coverage

The program compliance evaluation shall cover all operations governed by departmental policies, procedures, and regulations, and shall consist of:

- Comparing local supplemental procedures to the appropriate departmental policies, procedures, regulations, and directives.
- Comparing local operational practices with the written procedures governing the operations.
- Using the evaluation worksheets to carry out the evaluation plan. These worksheets list departmental policies, procedures, and regulations which govern headquarters and field operations.
- Evaluating any operational areas not governed by facility procedures, but identified by departmental administrators as being of specific concern.
- Inspecting the physical plant with respect to fire/life safety and sanitation with an emphasis on actions which have been taken to correct deficiencies cited in the most recent State Fire Marshal Report and Environmental Health Survey.
- Interviewing staff members who administer, manage, supervise, and implement procedures.
- Reviewing documentation and records to verify past and current practices.
- Directly observing operational practices.

22080.9.4 Exit Interview

At the conclusion of each evaluation, an exit interview shall be conducted with the local administrators to discuss the evaluation findings and provide them with a rough copy of the completed evaluation worksheets.

22080.9.5 Formal Report

Within three weeks, a formal report of the evaluation findings and recommendations shall be prepared in draft form and forwarded to the responsible division head and local administration for review and comment. The administrator shall respond within four weeks after receipt of the formal draft report by submitting a Plan of Action for correcting any deficiencies noted and discussion of any findings considered to be in error.

22080.9.6 Rebuttal of Findings

The rebuttal of findings and/or proposed action plans shall be reviewed and approved by the appropriate Deputy Director or Assistant Director in consultation with PFAB and/or Assistant Director, OOC. PFAB shall be consulted on any rebuttals. The appropriate Deputy Director or Assistant Director shall make any necessary changes to the Action Plan and shall forward the plan to PFAB within one week of receiving it. The Deputy Director or Assistant Director shall provide a summary of the Action Plan package with an approval block for approval by the Director or Chief Deputy Director.

22080.9.7 Final Report

PFAB shall within two weeks of receipt of the Action Plan from the responsible division, combine the draft report, the related responses, and the Action Plan, and shall prepare a final report for submittal to the Assistant Director, OOC.

The Assistant Director, OOC, shall within two weeks forward the final report to the Director/Chief Deputy Director for approval. Rebuttals not resolved by the division shall be brought to the attention of the Director/Chief Deputy Director at that time for final decision.

22080.9.8 Distribution

Upon approval, copies shall be distributed to all of the following:

- YACA.
- Responsible Deputy Director or Assistant Director.
- Local administrator.
- LAD-PMU for retention in the Department's policy files.

22080.9.9 Emergency Situations

If during the course of an evaluation findings indicate an emergency situation, it shall be immediately reported to:

- Assistant Director, OOC.
- Local administrator.
- Responsible Deputy Director or Assistant Director.

22080.9.10 Progress Reviews

A progress review of corrective actions shall be scheduled approximately 90 days after approval of the Action Plan by the Director/Chief Deputy Director, unless another interval is appropriate in a unique situation. Progress reviews shall follow the same process as the program compliance evaluation but shall be limited to operations which required corrective action. The approved Action Plan shall be the reference document for the progress review.

22080.10 Annual Summary of Significant Non-compliances

By the close of the fiscal year, PFAB shall provide to the Director, Chief Deputy Director, and appropriate Deputy Directors and Assistant Directors, a summary of significant noncompliances which occurred at more than one location.

22080.11 Court Compliance Evaluations

Court compliance evaluations shall be scheduled to ensure that court mandates are met. Court compliance evaluations shall follow the same process as program compliance evaluations except that:

- The on-site evaluations shall compare the local operations with the requirements imposed by court order, injunction, settlement agreement, or other court mandate.
- Action plans to correct deficiencies noted in the findings shall be submitted by the field unit to the appropriate Deputy Director or Assistant Director, and to PFAB within two weeks following the exit interview and receipt of the rough completed evaluation worksheets. Any disagreements or clarifications of action plans shall be resolved by the Deputy Director/Assistant Director and PFAB and/or Assistant Director, OOC, during this time.
- The review worksheets and resulting Action Plan shall be incorporated into a final report by PFAB and submitted to the Assistant Director, OOC, within two weeks after receipt of the Action Plan from the facility.
- The Assistant Director, OOC, shall then forward the report within one week to the Director/Chief Deputy Director for approval.
 - Rebuttals not resolved by the division shall be brought to the attention of the Director/Chief Deputy Director at this time for final decision.
- Upon approval, copies shall be distributed to YACA; the responsible Deputy Director or Assistant Director; the local administrator; and to applicable court monitors.

22080.12 Special Reviews

Special reviews shall be scheduled as directed by the Assistant Director, OOC. Special reviews shall follow the same process as program compliance evaluations except that:

- The formal report shall be submitted by the Assistant Director, OOC, to the requesting administrator and to the Director/Chief Deputy Director.
- Formal notice of special review dates may not be practical depending on the nature and urgency of the review. Exceptions to the standard times shall be discussed in the final reports.

22080.13 ACA Preaudits

ACA preaudits shall be scheduled prior to an audit by the CAC to assist the facilities with preparation for the accreditation audit. ACA preaudits shall simulate the CAC's audit plan.

Preaudits shall be conducted using the same process as program compliance evaluations except that the on-site reviews shall compare the local operations with the ACA Standards for Adult Institutions.

22080.14 Fiscal Compliance and Internal Control Audits

These audits shall be conducted in accordance with the SAM, Chapter 20000 to ensure all of the following:

- Reliability and integrity of information.
- Compliance with policies, plans, procedures, laws, and regulations.
- The safeguarding of assets.

- Economical and efficient use of resources.
- The accomplishment of established objectives and goals for operations or programs.

They shall follow the same process as the program compliance evaluations except that on-site reviews shall compare the local operations with the requirements of the Audit Guide for the Evaluation of Systems of Internal Control prepared by the DOF.

22080.15 Requesting Exemptions From Certain Internal Control Procedures**Responsibility**

As stated in SAM 8080, the Financial Integrity and State Manager's Accountability Act of 1983 (GC 13400 through 13407) requires that the head of each State agency shall establish and maintain an adequate system of internal control within their agency.

The DOF is no longer responsible for granting exemptions from internal control procedures.

Accounting Systems Section

It is the policy of the CDC to delegate this responsibility to the Accounting Systems Section which oversees the Department's accounting systems and procedures.

Facility Accounting Office

Each facility accounting office shall establish and maintain, in accordance with SAM procedures, a system of internal control which is adequate to safeguard assets, provide reliable data, promote operational efficiency, and encourage adherence to prescribed policies.

In the event a certain internal control procedure cannot be properly implemented, an exemption can be requested from the Accounting Systems Section. Such a request shall be submitted in writing with a description of the internal control procedure at issue and why this procedure cannot be properly implemented. This request shall also include a complete description of the proposed alternative procedure and how the alternative procedure adequately meets the internal control objectives.

The requests for exemption from internal control procedures shall be addressed to:

Department
Accounting Systems Section, Room 211-S
P.O. Box 942883 Sacramento, CA 94283-0001

Alternative procedures shall not be implemented until written approval from the Accounting Systems Section is received.

22080.16 Revisions

The Assistant Director, OOC, or designee shall be responsible for ensuring that the contents of this section are kept current and accurate.

ARTICLE 18 — FISCAL AND ADMINISTRATIVE REVIEWS

Revised February 13, 2012

22090.1 Policy

The Office of Audits and Court Compliance (OACC) conducts selected reviews of expenditures and reimbursements, as well as compliance with contracts and/or Department guidelines.

22090.2 Purpose

This Article outlines the process used by the OACC in reviewing, evaluating, and documenting fiscal operations of selected public and private providers under contract with the Department.

22090.3 Responsibility

The OACC shall review and evaluate selected fiscal operations of other government agencies and the profit and non-profit organizations that have contracted or provided services to the Department. The purpose of this review is to verify compliance with the terms of the contract, State and departmental rules, laws, and regulations related to specific areas being reviewed.

22090.4 Objectives

The OACC objectives include:

- Verify the contractor's or local government's fiscal compliance with the terms and conditions selected for review in the contract.
- Verify that all questioned costs are carried through to a final resolution.

22090.5 Contracts Subject to Review

The OACC has the authority to review any contracts between the CDCR and public, private, profit or non-profit corporations, and/or individuals.

In addition, the OACC also reviews reimbursements to counties for costs incurred for parolee detention under State mandated laws.

22090.6 Requests for Audits

Requests for audits or reviews to be performed by the OACC should be submitted in writing to the Deputy Director, OACC. A request should indicate the need for an audit or review, the desired scope of the audit or review, what areas and time periods to be audited or reviewed, and the date when the audit or review results are needed. A request should be submitted early enough to allow adequate time for the performance of the audit or review prior to the desired date. After consultation with the appropriate Director(s) and the Deputy Director, the OACC shall establish audit priorities.

22090.7 Resolution of Audits or Disputed Monetary Findings by OACC

Revised September 3, 2013

Audits and disputed monetary findings shall be resolved as follows:

- The OACC will issue a draft report or management letter to the contractor or city/county setting forth its preliminary findings and recommendations.
- The contractor or city/county shall have thirty (30) calendar days from receipt of the draft report or management letter to provide a written response to the preliminary findings and recommendations. The contractor or city/county may also provide additional documentation for consideration in the preparation of the final report or management letter.
- The OACC will thereafter issue a final report or management letter to the contractor or city/county.
- The contractor or city/county shall have thirty (30) calendar days from receipt of the final report or management letter to make a written appeal of the findings. The written appeal must clearly identify the specific finding(s), or portion of the specific finding, disputed by the contractor or city/county. The written appeal must also (1) set forth all facts in support of the contractor's or city/county's position on each disputed finding, and (2) include all evidence and documentation in support of the contractor's or city/county's position on each disputed finding.
- The written appeal must further include a written certification signed by the contractor or city/county under the penalty of perjury pursuant to California Code of Civil Procedure Section 2015.5 that the appeal is made in good faith, and that the supporting evidence and documentation is accurate and complete.
- Upon receipt of a timely and complete written appeal a hearing date will be established by the OACC. The appeal shall be reviewed by the Administrative Review Committee (ARC) consisting of:
 - Director, Division of Administrative Services, or a Designee (ARC Chairperson).
 - Deputy Director, Office of Fiscal Services.
 - Director or a Designee as assigned by the Director responsible for the program area covered by the contract.

In addition to the above ARC members, a representative from the Office of Legal Affairs will be present in an advisory non-voting role. The OACC shall serve as the liaison between the ARC and involved parties.

- The ARC shall notify the contractor or city/county of its findings within thirty (30) calendar days of the hearing. The ARC's findings shall be the Department's final position on the audit or review. Any further questions from the contractor or city/county

related to the final audit report or management letter shall be directed to the OACC.

- Any final report or management letter findings resulting in disallowances not appealed by the contractor or city/county must be repaid to the State within thirty (30) calendar days of receipt of the final report or management letter. Any ARC findings resulting in disallowances must be repaid to the State within thirty (30) calendar days after the ARC's findings are issued.
- When payment is not received within the required timeframe, the amount involved shall be deleted from future monthly claims until the audit or review disallowance is fully paid. Nonpayment of an audit or review disallowance may result in immediate cancellation of the contract and notification to the DGS that the contractor has refused to honor the findings of the audit or review, whereupon appropriate action shall be taken to collect the amount due the State.

Contract provisions to settle unresolved disputes are provided in general conditions of the Contract Handbook for construction contracts. Those parties entering into construction contracts shall settle unresolved disputes using independent arbitration prior to litigation. This arbitration shall be conducted in accordance with the PCC Sections 10240 through 10240.13.

ARTICLE 19 — DVBE PROGRAM FOR SERVICES, COMMODITIES, AND PUBLIC WORKS

Revised March 28, 1999

22100.1 Policy

The California Department of Corrections and Rehabilitation (CDCR) is committed to achieving the legislatively established goal for the participation of disabled veteran-owned businesses in procurement and contracts to the fullest extent possible.

The Disabled Veteran Business Enterprises (DVBE) Program develops policies and procedures to achieve the statewide annual goal of 3 percent in the performance of contracts.

All managers, procurement officers, and contract officers are responsible for implementing the CDCR's DVBE policies and shall exert maximum efforts to successfully achieve the legislatively established DVBE goal.

22100.2 Purpose

Pursuant to Public Contract Code (PCC) Sections 10115, et seq. and the California Code of Regulations (CCR), Title 15, Sections 3000 and 3475, et seq., CDCR policies and procedures have been developed to enable staff to implement and comply with DVBE requirements for services and commodities. These policies and procedures are the means by which the CDCR shall accomplish its objectives to:

- Achieve or exceed the statutory goal of 3 percent DVBE participation.
- Provide DVBE firms the maximum opportunity possible to provide CDCR services and commodities.

For contracts pursuant to statutes that require minority and women business enterprise participation, staff should notify the Centralized Procurement Section (CPS) for policy and procedure requirements.

22100.3 Glossary of Terms

For definitions of contract terms that are not included in this glossary refer to Department Operations Manual (DOM) Section 22040, Contracts.

CERTIFICATION: Refer to the CCR, Title 15, Section 3000.

DEPARTMENTAL CONTRACT REPRESENTATIVE (DCR): Either the facility's or headquarters' staff person who processes service contracts or commodity purchases, answers questions regarding the transaction, and assists the vendor in complying with the DVBE requirements.

DISABLED VETERAN BUSINESS ENTERPRISE (DVBE): Refer to the CCR, Title 15, Section 3000.

GOAL: Refer to the CCR, Title 15, Section 3000.

GOOD FAITH EFFORT (GFE): Refer to the CCR, Title 15, Section 3000.

DVBE BUSINESS UTILIZATION PLAN: A plan submitted by a bidder to the Department of General Services (DGS) and approved as set forth in PCC Section 10115.15.

22100.4 Certification

Refer to the CCR, Title 15, Sections 3000 and 3475, et seq., CDC Form 1457, DVBE Mandatory Participation Requirements for Competitive Bid Contracts, and CDC Form 1458, DVBE Mandatory Participation Requirements for Sole Source Contracts.

22100.4.1 Disabled Veteran Business Enterprises Contact

An organized network between facilities and headquarters shall be developed to facilitate the dissemination and exchange of DVBE information and policies.

Each facility and headquarters procurement office shall designate one staff member to serve as the contact person regarding all DVBE issues.

The DVBE contact shall coordinate with CPS on the following areas:

- Staff/vendor training.
- Dissemination of policies and procedures.
- Technical assistance.
- DBVE outreach activities.

All DVBE printed materials pertaining to contracts, procurement, and/or outreach activities shall be reviewed by CPS before distribution and implementation to ensure that the information complies with current CDCR policy and legislative mandates.

22100.4.2 Referral Organizations

Refer to CDC Form 1457, DVBE Mandatory Participation Requirements for Competitive Bid Contracts, and CDC Form 1458, DVBE Mandatory Participation Requirements for Sole Source Contracts.

22100.4.3 Focus and Trade/Professional Publications

Refer to CCR, Title 15, Sections 3000 and 3475, et seq.

22100.5 Good Faith Effort Requirements

Refer to CCR, Title 15, Sections 3000 and 3475, et seq., CDC Form 1457, DVBE Mandatory Participation Requirements for Competitive Bid Contracts, and CDC Form 1458, DVBE Mandatory Participation Requirements for Sole Source Contracts.

22100.5.1 Participation In Purchases

In accordance with the CCR, Title 15, Section 3475, purchases made under the delegated purchase authority for an amount of \$15,000 or less are exempt from DVBE participation requirements.

22100.5.2 Participation Goal/Good Faith Requirements in Service Contracts

Refer to the CCR, Title 15, Sections 3000 and 3475, et seq., CDC Form 1457, DVBE Mandatory Participation Requirements for Competitive Bid Contracts, and CDC Form 1458, DVBE Mandatory Participation Requirements for Sole Source Contracts.

22100.6 Disabled Veterans Business Enterprises Forms

This Section describes the forms needed to document and monitor DVBE compliance. Instructions on completing the forms provide users with an understanding of the purposes of the individual forms as well as how each form corresponds with the others to produce a comprehensive system of compliance tracking.

The data on DVBE compliance forms is used to prepare the annual Report to the Governor and the Legislature. The forms shall be submitted by the CDCR contract/procurement offices to the appropriate headquarters' office in a complete and timely fashion.

All original DVBE documents shall be maintained with the contract to provide an audit trail.

22100.6.1 CDC Form 1457, DVBE Mandatory Participation Requirements - Competitive Bid Contracts

The CDC Form 1457, DVBE Mandatory Participation Requirements - Competitive Bid Contracts, shall be used for all CDCR competitive bid contracts, which contain DVBE requirements. This package shall be included with all Invitations for Bid, Requests for Proposal, and Requests for Quotations when released to interested bidders.

The CDC Form 1457 provides a brief overview of the DVBE program and legislative mandates. Refer to CDC Form 1457 for specific instructions.

22100.6.2 CDC Form 1458, DVBE Mandatory Participation Requirements - Sole Source Contracts

The CDC Form 1458, DVBE Mandatory Participation Requirements - Sole Source Contracts, shall be used for all contracts exempted from the competitive bid process and from advertising in the California State Contracts Register (sole source contracts).

Sole source contracts are not exempt from DVBE compliance unless they are exempt pursuant to CCR, Title 15, Section 3475, et seq. Refer to CDC Form 1458 for specific instructions.

22100.6.3 CDC Form 1786, DVBE Participation in Exempt Contracts

The CDC Form 1786, DVBE Participation in Exempt Contracts, documents DVBE participation in competitive bid and sole source contracts, which are exempt from DVBE requirements.

Although the contract is exempt from DVBE requirements, any documented participation that may exist in the bid proposal/proposed contract shall be reported.

The DVBE participation information gathered from the CDC Form 1786 shall be recorded on the CDC Form 1428.

Whenever a potential bidder/contractor obtains a competitive bid or sole source package for a DVBE-exempt contract, a CDC Form 1786 shall also be supplied to the potential bidder/contractor who shall be encouraged to complete and return the form if the contract contains documented DVBE participation.

22100.6.4 Recording of DVBE Expenditures and Participation, STD. 810, Contracting Activity Report

Revised August 6, 2014

The STD. Form 810 shall be used to record DVBE expenditure and participation data for inclusion in the annual Report to the Department of General Services.

22100.6.5 CDC Form 1818, Request to Exempt Contract from DVBE Requirements

The CDC Form 1818, Request to Exempt Contract from DVBE Requirements, shall be used to request DVBE exemptions for service and public works contracts. Refer to CCR, Title 15, Section 3475, et seq., to determine exemption criteria. Refer to CDC Form 1818 for specific instructions.

22100.7 Disabled Veterans Business Enterprises Standard Contract Language

Unless specifically exempt, the following standard DVBE contract language shall be included in all contracts:

Over \$15,000

"Disabled Veterans Business Enterprises (DVBE) Conditions"

- To the best of the Contractor's ability, the Contractor shall fulfill his/her obligations in dispensing that portion of the contract amount to the DVBEs as identified in the reply to the DVBE Mandatory Participation Requirements. Said reply by reference is a part of this contract and is on file and available for review Monday through Friday between the hours of 9:00 a.m. and 4:00 p.m. at the contracting location.
- Contractor agrees that the State or its delegate will have the right to review, obtain, and copy all records pertaining to performance of the contract. Contractor agrees to provide the State or its delegate with any relevant information requested and shall permit the State or its delegate access to its premises, upon reasonable notice, during normal business hours to interview employees, inspect and copy such books, records, accounts, and other material that may be relevant to a matter under investigation for the purpose of determining compliance with PCC Section 10115 et seq. and CCR, Title 2, Section 1896.60 et seq. Contractor further agrees to maintain such records for a period of three (3) years after final payment under the contract."

\$15,000 or Less

"Contractor agrees that, in the event the contract is amended to exceed \$15,000, Contractor shall comply with CDCR's DVBE participation goals as set forth in PCC Section 10115(c)."

22100.7.1 Departmental Contract Representative Responsibilities

The DCR is the primary facility's or headquarters' staff member responsible for the coordination and processing of a specific contract.

The DCR shall provide information and/or assistance to all potential bidders/contractors regarding participation requirements. In this capacity, the DCR shall:

- Answer questions regarding DVBE certification and GFE requirements.
- Provide potential contractors with a DVBE Resource Packet for identifying State and local DVBE referral organizations and focus and trade/professional publications.

- Clarify any other contract-related issues.

If the DCR cannot adequately respond to bidders'/contractors' questions, the DCR shall contact their designated contract analyst in headquarters.

If the contract analyst is unable to assist with a specific issue, the contract analyst shall contact CPS.

The DCR shall accurately document all contacts from potential contractors including the specific types of information and/or assistance provided.

22100.8 Procurement Services

All procurements made under the delegated purchase authority are exempt from DVBE requirements.

Generally, all purchases which exceed the delegated purchase authority limit are processed by DGS, which has the responsibility for DVBE compliance and reporting, unless otherwise directed by DGS.

22100.9 Revisions

Revised August 6, 2014

The Deputy Director, OBS, or designee shall ensure that the contents of this Article are accurate and current.

ARTICLE 20 — INMATE WELFARE FUND

Revised November 17, 2015

23010.1 Policy

The Secretary administers the Inmate Welfare Fund (IWF) as a trust for the benefit and welfare of all inmates under the jurisdiction of the Department. The IWF is used to provide the following:

- Leisure time activities for inmates.
- Essential items for purchase by inmates.
- Opportunities and training for inmates to be creative and to profit from their handicraft products.

23010.2 Purpose

The purpose of this Article is to provide the guidelines for the correct uses of the IWF.

23010.3 Responsibility

Warden

Each Warden or his or her designee administers the IWF programs at their respective institution/facility.

Inmate Welfare Fund Officer

The IWF Officer provides overall planning and guidance regarding IWF operations.

23010.4 Budget

Each institution/facility shall budget IWF expenditures so that expenditures shall not exceed budget allocations and revenues from IWF activities unless approved by the Central Office IWF Officer. An appropriate exception would be if a major IWF project has been authorized, (e.g., replacement equipment, new equipment for new institutions/facilities, and startup inventories).

There may be unanticipated deficiencies due to situations which occur after approval of the institution's/facility's IWF budget. These unanticipated deficiencies shall be carried into the subsequent fiscal year by the institution/facility.

Any IWF expenditures shall be consistent with the provisions of this Article.

The Warden or his/her designee of each institution, in collaboration with at least two representatives from advocacy groups for inmates shall meet at least biannually to determine how the money in the fund shall be used to benefit the inmates of the respective institution.

Inmate Advisory Committee

The institution/facility Inmate Advisory Committee, or other group(s) representing the inmate body, shall submit in writing their view of proposed expenditures, particularly in the area of inmate benefit expenditures, during the preparation of the IWF budget.

23010.5 Revenue

The following areas are the major sources of IWF revenue:

- Canteens at each institution/facility (DOM Chapter 5, Article 50-Canteen).
- Handicraft programs at some institutions/facilities (DOM Chapter 10, Article 5-Handicraft Programs).
- Photo projects at some institutions/facilities.
- Interest on investment of idle inmate funds and IWF money.
- Donations.

23010.6 Expenditures

Purchases or services may be charged to the IWF if funds are available and the item is consistent with the policy for IWF use. The monies in this fund shall be used for expenditures or services other than those that the department is required to provide to inmates.

23010.6.1 Authorized Expenditures

The following items are examples of appropriate expenditures from the IWF:

Inmate Benefits

- Purchase of, repair to, and postage on fiction books for inmate libraries.
- Newspaper and magazine subscriptions for library and entertainment purposes.
- Rental of movie films and video tapes (including postage and/or freight) for institutions/facilities and permanent camps, and basic cable service when regular television reception is unavailable.
- Paints and materials for signs and show cards.
- Miscellaneous expenses for prizes and awards, general entertainment, and New Year's entertainment.
- Minor construction, (e.g., a few shelves, camp or yard canteen shacks, etc., and repair projects for the benefit or welfare of inmates). Procedures outlined under Chapter 2, Article 4-Capitol Outlay shall be followed, and any construction to be paid out of the IWF shall be submitted to the Secretary or designee for approval.
- Athletic supplies and exercise equipment such as stationary bikes, scoreboards, pumps, cones, bases and field equipment (excluding weights) subject to local institution security requirements.
- Musical instruments, subject to local institution security requirements.
- Non-affixed items (High chairs, storage bins).
- Institution inmate visiting areas expenditure items (improvement to children play areas, games, toys and books) subject to institution security requirements.
- Audio visual equipment on mobile racks, such as televisions with instructional/informative content.

Canteen

- Salaries and benefits for the institution/facility canteen manager and other canteen positions.
- Merchandise purchases for resale to inmates.
- Purchase of canteen materials, (e.g., wrapping paper, paper bags, twine, paper napkins), and miscellaneous operating expenses, such as printer/fax supplies, stationary, and repairs to counters and shelves.
- Purchase and repair of equipment used in the canteen, such as sale scanners and terminals, typewriters, adding machines, or any equipment necessary for the operation of the canteen.
- Temporary help.

Handicraft

- Materials purchased for resale to the inmates for their projects.
- Miscellaneous operating expenses in production of articles for sale, (e.g., glue, brushes), rental of equipment, and repair of movable equipment. Purchase of equipment necessary for the production and sale of handicraft items does not include items used in occupational therapy or in teaching of arts and crafts.
- Hobby type materials, subject to local institution security requirements (e.g: knitting needles (plastic), yarn, origami).

Photo Project

- Rental, purchase, and repair of cameras.
- Miscellaneous items, such as backdrops or lights.
- Photographic film or photo paper.

Administration

- Accounting personnel working on IWF bookkeeping.

- Miscellaneous office expenses and equipment for IWF accounting positions.
- Workers' Compensation Insurance premium payments on all IWF positions.

Staff Benefits

- Staff benefits, including employer contributions for retirement, health and welfare insurance, and unemployment compensation for IWF positions.

Inmate Pay

- Pay for inmates employed in IWF activities, such as canteen, handicraft, photo projects, and motion picture projectionists.

23010.6.2 Unauthorized Expenditures

The following items are examples of expenditures that shall not be financed from the IWF:

- Replacement of inmate canteen cards or canteen draw amounts.
- Canteen additions, alterations, and equipment installed as part of the building unless approved by the Secretary.
- Repairs to the canteen building, (e.g., windows, window shades, replacement of lighting fixtures, repairs to floors, heaters, or any equipment installed as part of the building).
- Repairs to a fixed portion of the handicraft shop, room, building, or any equipment installed as part of the building.
- Utility payments.
- Shop equipment, tools, etc., used in occupational therapy, for institutional special projects, or in teaching arts and crafts.
- Purchase of nonfiction, text, or reference books and pamphlets.
- Repairs of nonfiction, text, and reference books and pamphlets.
- Postage on nonfiction, text, and reference books for inmate libraries.
- Correspondence courses, including departmental self-study courses.
- Miscellaneous expenses, such as printing, pamphlets, and other items used in organized educational courses.
- Supplies and equipment for the production or distribution of institution/facility publications.
- Subscriptions for trade magazines.
- Original complement and replacement of motion picture, radio, and television equipment.
- Repairs to motion picture equipment.
- Television and radio alteration and repairs, purchase of tubes, headphones, parts, phonograph records, and recording tapes.
- Housing, furniture, dishes, linen, television sets, etc., for family visiting and/or family housing units.
- Overtime for employees supervising special inmate activities, such as athletic events, stage shows, self-help group, etc. (Such overtime shall be paid from the General Fund.)
- Duplicate items/Items with an existing funding source (Family Visiting, religious).

23010.7 Procurement

The Inmate Services Canteen Master Contracts are executed by the Office of Business Services on behalf of the Inmate Welfare Fund and are awarded to the lowest bidder consistent with quality requirements and accepted purchasing practices. The contracts are exempt from the Department of General Services approval per DGS Exemption Letter CDCR3. All contract documents shall be executed before the date of performance. No back dated documents are authorized. All contracts must contain an accurate identification of the contractor, a complete statement of work, the period of time for performance or completion of contract including beginning and ending dates. Each institution is required to purchase canteen resale items solely from the Statewide Master Contracts for all Inmate Services Canteens. If a like-commodity is available through the California Prison Industry Authority (CALPIA), purchase from CALPIA will not violate the terms of the contract agreement. IWF can only pay resale invoices for items purchased from the contract and those invoices approved by procurement. All other resale invoices cannot be paid.

23010.7.1 Bid Requirements

When a purchase order is to exceed \$4,999.99, the informal competitive solicitation process based on written specifications shall be used unless there are valid reasons for not going to bid. For purchases \$4,999.99 or less, the fair and reasonable procurement method may be used utilizing one supplier bid with pricing justified using the methods as outlined in State Contracting Manual Volume II, Chapter 4, Section C, Topic 2. Documentation of bid solicitations and related correspondence shall be maintained in the procurement files.

23010.7.2 Operating Expense Items

Whenever possible, purchase orders shall be placed directly with the manufacturer rather than local vendors. Canteen purchasing shall be geared to take advantage of the many promotional offers and special discounts available. If minimum case requirements exceed one institution's/facility's needs, arrangements can be made with other institutions/facilities to split orders with the purchase orders and invoices processed by Headquarters to allocate expenditures to the participating institutions/facilities.

Institutions/facilities are encouraged to solicit sample or promotional merchandise that can be given to the inmate population.

Existing State contracts for items that are used to operate the institutions/facilities shall be used for purchasing IWF items when the prices are lower than from other resources.

Products from the CALPIA may be offered for sale to inmates through the canteens on the same basis as commodities purchased from commercial sources.

23010.7.3 Equipment

Institutions/facilities taking advantage of State contract prices when purchasing IWF equipment shall submit the BIS purchase requisition to the CDCR Office of Business Services Commodities Acquisition Unit.

23010.7.4 Consolidation of Orders by Headquarters

To take advantage of quantity purchasing, the Central Office IWF Officer shall initiate action for consolidated contracts with vendors for the purchasing of certain merchandise and equipment items by institutions/facilities.

23010.7.5 Unbudgeted Equipment and Construction Projects

Purchase orders for equipment and for construction projects not previously budgeted shall be submitted with justifications to the IWF Officer for approval.

23010.8 Review of Financial Condition

The Department of Finance conducts a biennial audit of the IWF that includes an audit report summarizing expenditures by major categories.

At least one copy of the audit report shall be posted at the inmate canteen, and at least one copy shall be made available in the inmate law library for inmate review.

At the end of the intervening fiscal year, the institution/facility shall post, at the inmate canteen, at least one copy of the institution's/facility's statement of operations, and one copy shall also be made available in the inmate law library for inmate review.

Institutions/facilities shall post a copy of the latest Monthly Expenditure Report and Statement of Operations at each inmate canteen every quarter. A copy of these statements shall also be placed in the inmate law library.

23010.9 Services to Other Organizations

A 10 percent service charge, which is remitted to the IWF, shall be added to monthly inmate payrolls when billing other organizations for inmate services not performed for facility convenience. When a blood sale is authorized (California Code of Regulations (CCR), Title 15, Section 3359), the institution may impose an additional charge to the purchaser to retrieve the cost of Department resources used in drawing the blood. The proceeds of such charges shall be deposited in the IWF.

Inmate payrolls shall not be processed through the IWF.

23010.10 Service Charges for Handicraft Items

To defray handling costs on the purchase of materials used in the manufacture of handicraft articles and to balance possible losses, 10 percent shall be added to the purchase price only, exclusive of costs, such as State tax, freight, and handling, and charged to the inmate for such articles. No charge shall be made on canceled orders. This service charge shall be deposited in the IWF.

Handicraft Items for Sale

A 10 percent administrative surcharge shall be added to the price established by the inmate on all articles placed on sale including paintings. However, one percent will be refunded to the inmate for the sales tax paid on the raw materials used in the handicraft articles sold.

Paintings

"Paintings" shall include all kinds of pictures, drawings, sketches, etchings, and any frames that are attached.

Repair of Handicraft Items

A 10 percent administrative surcharge shall be added to the cost established by the inmate for the repair of handicraft-type articles for State employees or the public through the handicraft program. This surcharge shall be deposited in the IWF.

23010.11 Service Charge on Inmate Donations

Ten percent shall be deducted from inmate donations for deposit in the IWF to offset processing costs. The 10 percent charge will be made in accordance with DOM Chapter 10, Article 8 Charitable Fund-Raising Campaigns.

23010.12 Property Loss, Cash Shortages, and Uncollectible Checks

The IWF shall not be used to reimburse inmates for the theft or loss of personal property including, but not limited to, canteen cards, canteen draw balances, ducats, trust funds, handicraft items, or checks received for handicraft sales that become uncollectible. Inmates shall submit Victim Compensation and Government Claims Board claims for such losses in accordance with DOM Chapter 5, Article 53.

23010.13 Distribution of Contraband Currency

In accordance with DOM Chapter 5, Article 20, Disposition of Contraband, all contraband currency confiscated from inmates shall be deposited in the IWF as miscellaneous income.

23010.13.1 Contaminated Currency

After contaminated currency is confiscated, it shall be placed in a sealed plastic container clearly marked "CONTAMINATED." The container shall be turned in to the Associate Warden, Business Services (AWBS) or a designated Business Services representative for mailing to the Department of Treasury for destruction. The AWBS or representative shall enclose a letter instructing the Department of Treasury to deduct any processing fee from the contaminated money amount, and issue a check payable to the IWF for the balance, if any, of the contaminated money.

The letter and contaminated money shall be packaged and mailed to:

Department of Treasury
Bureau of Engraving & Printing
MCD/OFM, Room 344A
P.O. Box 37048
Washington, DC 20013

Upon receipt of reimbursement, the AWBS or representative shall deposit the check into the IWF.

23010.14 Revisions

The Deputy Director, Office of Fiscal Services, or designee shall be responsible for ensuring that the contents of this Article are kept current and accurate.

23010.15 References

CCR (15) (3) §§ 3104, 3359.

DOM §§ Chapter 2, Article 4, Chapter 5, Articles 20, 50 and 53, and Chapter 10, Articles 5 and 8. .

CHAPTER 3 -PERSONNEL, TRAINING, AND EMPLOYEE**RELATIONS****ARTICLE 1 – EQUAL EMPLOYMENT OPPORTUNITY***Revised August 25, 2015***31010.1 Policy**

The California Department of Corrections and Rehabilitation (CDCR) is committed to providing Equal Employment Opportunity (EEO) and creating a work environment in which all individuals are treated with respect and professionalism. Consistent with this commitment, it is the policy of CDCR to provide a workplace free from discrimination, harassment, and retaliation for all applicants, employees, contractors, unpaid interns and volunteers. The CDCR EEO policy is a zero-tolerance policy which applies to all aspects of employment within CDCR including recruitment, hiring, promotion, transfer, training, corrective adverse action, and other terms, conditions, and benefits of employment. Zero tolerance means that violations of this policy will not be tolerated. When policy violations are found to have occurred, appropriate corrective action and/or adverse action, up to and including dismissal, depending on the severity of the violation, will be taken.

All employees are prohibited from discriminating against or harassing anyone on the basis of their protected status. The bases for filing a complaint are:

- Age (40 or older)
- Ancestry
- Color
- Disability (physical or mental)
- Genetic Information
- Marital Status
- Medical Condition (cancer or genetic characteristics)
- National Origin
- Political Affiliation (includes opinion or activities)
- Race
- Religion/Religious Creed
- Sex/Gender (including sexual harassment, pregnancy, gender identity, and gender expression)
- Sexual Orientation
- Veteran Status/Military Service
- Usage of leave rights permissible under the Family and Medical Leave Act (FMLA), California Family Rights Act (CFRA), and/or Pregnancy Disability Leave Act.
- EEO Retaliation

All employees are prohibited from retaliating against any person because the person has opposed any practices forbidden under this policy or because the person has filed a complaint, testified, or assisted in any proceeding related to this policy.

All employees are prohibited from aiding or coercing any acts forbidden under this policy.

All employees are prohibited from engaging in behavior that rises to the level of discrimination, harassment, or retaliation in violation of:

- Title VII of the Civil Rights Act of 1964 (including amendments)
- California Fair Employment and Housing Act (FEHA) of 1959 (including amendments)
- California Code of Regulations (Titles 2 and 15)
- Departmental EEO policies and procedures
- Other California and federal EEO laws

This policy applies to conduct that occurs in any location operated by CDCR or is considered a workplace by CDCR, as well as any location that can reasonably be regarded as an extension of the workplace, such as an off-site business or social function, or other non-CDCR facility where CDCR business is being conducted. This policy applies to conduct that occurs off-duty and is brought back to the workplace, when such conduct adversely affects the individual in a manner otherwise prohibited by this policy.

31010.2 Purpose

The purpose of this policy is to prevent misconduct, define the roles and responsibilities of CDCR management and employees relative to the EEO policy, and to identify the discrimination complaint process.

31010.3 Definitions of Discrimination Basis**Age**

Refers to the chronological age of any individual who has reached his or her 40th birthday.

Ancestry

The national or cultural origin of a line of familial descent.

Color

The color of skin of an individual, including shades of skin within a racial group.

Disability

A physical or mental impairment affecting one or more body systems which limits a major life activity, including work; a record of such an impairment; or being regarded as having such an impairment. This includes Human Immunodeficiency Virus and Acquired Immunodeficiency Syndrome.

Genetic Information

With respect to any individual, information about the individual's genetic tests, genetic tests of family members of the individual, and the manifestation of a disease or disorder in family members of the individual.

Marital Status

The legal status in a relationship such as married, never married, single, separated, divorced, or widowed.

Medical Condition

A person's genetic characteristics or a person who has or had cancer.

National Origin

The country where a person was born, or more broadly, the country from which his or her ancestors came, which includes the individual's common language, culture, ancestry, and other similar social characteristics.

Political Affiliation

Membership or association in a political party or special interest group (union issues are not included).

Race

Classes of persons identifiable because of their ancestry or ethnic characteristics.

Religion

All aspects of religious belief, observance, and practice.

Retaliation

An adverse employment action taken against an individual due to his/her protected activity (including one's opposition to a discriminatory practice or participation in the discrimination complaint process).

Sex

Sex includes, but is not limited to, a person's gender. Gender includes a person's gender identity and gender expression. Gender expression means a person's gender-related appearance and behavior whether or not stereotypically associated with the person's assigned sex at birth. Gender identity refers to a person's identification as male, female, a gender different from the person's sex at birth, or transgender.

Sex also includes, but is not limited to pregnancy or medical conditions related to pregnancy; childbirth or medical conditions related to childbirth; and breastfeeding or medical conditions related to breastfeeding.

Sexual Orientation

"Sexual orientation" means heterosexuality, homosexuality, and bisexuality.

Military and Veteran Status

Any person entitled to the rights and benefits under the Uniformed Services Employment and Reemployment Rights Act.

31010.3.1 Definitions of Other Terms**Association**

An individual's involvement with a member of a protected group or membership in an advocacy organization representing a protected group.

Complainant

Any individual or group of individuals who allege discrimination in violation of a State or federal EEO law or regulation or departmental policy.

EEO

The legal right of all individuals to be afforded full and equal consideration for employment, retention, and advancement on the basis of merit.

EEO Counselor

A departmental employee trained to assist in the discrimination complaint process.

EEO Coordinator

A person designated by a hiring authority to receive and coordinate internal discrimination complaints.

External Discrimination Complaint

A complaint alleging discrimination, harassment, and/or discrimination filed with a State or federal compliance agency against the Department by a charging party.

Family and Medical Leave Acts/California Family Rights Act

Provisions in State and federal statutes that allow for up to 12 weeks of unpaid leave for the birth of a child for purposes of bonding, placement of a child in the employee's family for adoption or foster care, and the qualified serious health condition of the employee or the qualified serious health condition of a parent, spouse or child. California law provides the same protection for registered domestic partners. Federal law also provides for up to 12 weeks for leave to assist family members in the military who are being called to active duty in support of contingency military operations or are regular military and being stationed overseas; and up to 26 weeks to care for ill or injured family members in the military. The program responsible for the administration of these statuses is Human Resources.

Hiring Authority

The Secretary, Undersecretary, General Counsel, Chief Information Officer, or any Assistant Secretary, Executive Officer, Director, Deputy Director, Associate Director, Warden, Parole Administrator, Superintendent, Superintendent of Correctional Education, Associate Superintendent of Education, Regional Health Care Administrator, Health Care Manager, Chief Executive Officer, or any other person authorized by the Secretary, CDCR, to hire, discipline and dismiss employees under his/her authority.

Internal Discrimination Complaint

A complaint alleging discrimination filed with the OIA or any local EEO Coordinator.

Respondent

The person(s) who is alleged to have committed an unlawful practice or engaged in conduct that violates this policy, in a complaint filed through Local Intervention Process (LIP), referral to OIA/CRO, or compliance agency.

31010.4 Complainant's Rights

Every person covered by this policy has the following rights:

1. The right to a discrimination-free work environment.
2. The right to work in an environment free from bullying or abusive conduct.
3. The right to file a discrimination complaint, freedom from influence to refrain from filing a complaint, and freedom from retaliation after filing a complaint, (see "Filing a Complaint" below). Employees and applicants must immediately report the discriminatory action or conduct.
4. The right to have their complaint promptly reported, objectively reviewed, and investigated when appropriate.
5. The right to be informed of the disposition of the complaint.
6. The right to be represented by a person of the complainant's choosing at each and all steps of the process.
7. The right to file a complaint with the California Department of Fair Employment and Housing (DFEH), Equal Employment Opportunity Commission (EEOC), and other appropriate State and federal compliance agencies.

31010.5 Conduct Violations

The type of prohibited discriminatory, harassing, or retaliatory behavior which may be found to constitute a violation of CDCR's EEO policy includes, but is not limited to:

- Making employment decisions on the basis of an individual's protected characteristics.
- Changing the terms, conditions, or privileges of employment of an employee in retaliation for filing a discrimination complaint or participating in the discrimination complaint process.
- Failing to consider reasonable accommodation request for a disability or for religious reasons.
- Denying a leave request for which an employee is eligible under FMLA, CFRA, or because of pregnancy and pregnancy-related conditions.
- Using discriminatory terms or telling discriminatory jokes that are based on an individual's protected status.

- Bullying or abusive conduct, including repeated infliction of verbal abuse and use of derogatory remarks, insults, and epithets.
- Verbal and physical conduct that a reasonable person would find threatening, intimidating, or humiliating.
- Displaying objects, cartoons, pictures, or posters that are derogatory, sexual in nature, or discriminatory based on an individual's protected status.
- Posting, sending, uploading/downloading messages with discriminatory, retaliator, or sexual content in any form via electronic mail, the intranet/internet websites, cell phone, interoffice mail, or public or private mail.
- Discriminating against any employee in violation of this policy so as to create a hostile work environment.
- Engaging in any unwanted physical contact or leering.
- Making harassing telephone calls to a coworker, or sending harassing correspondence to an individual by any means including, but not limited to, public or private mail, interoffice mail, facsimile, electronic mail or text messaging.
- Restricting or denying restroom access, in accordance with their gender identity/expression, to transitioning transgender employees; or repeatedly calling a transgender employee by the wrong pronouns or name, after the transgender employee has provided notice of his or her transition in accordance with his or her gender identity.

31010.6 Sexual Harassment Violations

Sexual harassment is defined under State and federal laws and by this policy as unsolicited and unwelcome sexual advances, requests for sexual favors, and other verbal, physical, or visual conduct of a sexual nature that interferes with work performance by creating an intimidating, hostile, or offensive work environment. Such conduct constitutes sexual harassment in violation of this policy when:

- (1) Submission to the conduct or communication is made either explicitly or implicitly a term or condition of employment.
- (2) Submission to or rejection of the conduct or communication is used as a basis for employment or service decisions affecting the individual.
- (3) Such conduct or communication has the potential to negatively affect an individual's work performance and/or create an intimidating, hostile, or offensive work environment.

The type of prohibited discriminatory or harassing behavior which may be found to constitute a violation of CDCR's EEO policy includes, but is not limited to:

- Demanding sexual favors in exchange for employment benefits, or as a term or condition of employment, whether explicitly or implicitly.
- Engaging in any unwanted physical contact, including touching, leering, making sexual gestures, impeding or blocking movements, pinching, grabbing, patting, intentionally brushing up against another individual in a sexual manner, rape, or sexual assault.
- Engaging in retaliation after a negative response to sexual advances.
- Using sexually derogatory terms or telling sexual jokes and/or stories.
- Displaying objects, cartoons, pictures, or posters of a derogatory or sexual nature.
- Posting, sending, or uploading/downloading sexual or demeaning materials in any form via electronic mail, the intranet/internet websites, cell phone, interoffice mail, or public or private mail.
- Following or stalking an employee.
- Making harassing telephone calls of a sexual nature to a coworker, or sending sexually harassing correspondence to an individual by any means including, but not limited to, the use of public or private mail, interoffice mail, facsimile, electronic mail, or text messaging.

31010.7 Responsibilities

Deputy Director, Office of Internal Affairs

The Deputy Director, Office of Internal Affairs (OIA), will establish a Civil Rights Operations (CRO) within OIA. The CRO will develop policy and provide training to meet the Department's obligation to ensure EEO and a work environment free of discrimination, harassment, and retaliation.

Chief, Civil Rights Operations

The Chief, CRO, OIA, shall:

- Serve as the department's EEO Officer. As needed, the Chief, CRO reports to the CDCR Secretary on matters related to EEO.

- Develop EEO policies and procedures.
- Provide statewide direction in the implementation of the Department's EEO policy and procedures in compliance with State and federal laws and departmental policies to ensure a work environment free of discrimination, harassment, and retaliation.
- Oversee the statewide discrimination complaint process and provide technical assistance to hiring authorities.
- Ensure the Department is in compliance with requirements mandated by external State and federal agencies, including Department of Fair Employment and Housing (DFEH), and the Equal Employment Opportunity Commission (EEOC).
- Monitor the most sensitive and/or complex cases.
- Consult with the Office of Legal Affairs when necessary.
- Conduct research and prepare reports regarding EEO matters.
- Ensure the Disability Advisory Committee (DAC) and other EEO/Sexual Harassment workgroups are effectively implemented throughout the Department.
- Coordinate with the Office of Training and Professional Development in the development and delivery of EEO/Sexual Harassment Prevention training, including monitoring and evaluating the effectiveness of such training.
- Provide EEO program support; ensure the adequacy and accuracy of training materials; identify training needs; and customize training to meet training requirements.
- Complete the annual Workforce Analysis Report, including goals for persons with disabilities and upward mobility, and other reports related to EEO compliance and regulation.
- Provide technical assistance to CDCR staff regarding EEO/Sexual Harassment issues, internal and external complaint processes, and completion of forms.
- Serve as a liaison for the Limited Examination and Appointment Program (LEAP); incorporate LEAP into training programs to encourage hiring of qualified persons with disabilities.
- Ensure discrimination complaints received are referred to, recorded, and reviewed by the EEO Coordinator and logged in compliance with Department Operations Manual (DOM), Section 31140.13, regardless of the nature of the complaint.
- Assign an appropriate employee to the position of EEO Coordinator, normally at the level of a Captain, Parole Agent III, Staff Services Manager II or above.
- When appropriate, the hiring authority may conduct an allegation inquiry in compliance with DOM Section 31140.14.
- Consult with CRO staff on requests for religious accommodation prior to rendering a final determination.
- Ensure engagement of interactive process with the requesting employee has occurred. Review requests for religious accommodation and make the final determination regarding such requests. Take disciplinary action pursuant to CDCR DOM, Articles 14 and 22 when necessary, to address violations of the CDCR EEO policy.

EEO Coordinator

Under the supervision of the hiring authority, the EEO Coordinators shall:

- Receive discrimination complaints (whether or not they are documented on a Discrimination Complaint Form [CDCR Form 693]), and initiate the discrimination complaint process following the EEO Coordinator's manual provided by OIA.
- Review the complaint, including the CDCR Form 693, and collect any other documents submitted or identified by the complainant and/or EEO Counselor.
- Provide respondent with a Notice of Complaint after initial review when appropriate to order the alleged conduct or retaliation to stop/cease.
- Notify the complainant and respondent(s) in writing following the disposition of the complaint after the Local Intervention Process (LIP).
- Provide recommendation to the hiring authority regarding EEO policy, complaints, and related concerns.
- Serve as a liaison between employees and management to help resolve discrimination complaints by discussing problems with employees and appropriate supervisors, by advising employees on the issues, and by developing appropriate solutions.
- Make recommendations for the selection of EEO Counselors to the hiring authority, and provide training, technical assistance, direction, and maintain their contact information.
- Provide assistance to OIA in coordinating on-site interviews, including interviews conducted by external compliance agencies, and obtaining any requested documents.
- Receive, review, and evaluate requests for religious accommodation, on behalf of the hiring authority.
- Gather additional information or documents related to requests for religious accommodation, as needed, to evaluate such requests.
- Make a recommendation to the hiring authority regarding requests for religious accommodation.
- Serve as liaison between the employee requesting a religious accommodation and management to determine an appropriate accommodation, if any.
- Consult with CRO staff on requests for religious accommodation, as needed.
- Log complaints on the CDCR Form 2140, Internal Affairs Allegation Log, in compliance with DOM Section 31140.13.

Serve as a member of the EEO Advisory Committee, as outlined in Section 31010.9, and participate in quarterly meetings (at a minimum) to advise the hiring authority regarding local EEO complaints and training.

EEO Counselors

Under the supervision of the EEO Coordinator, the EEO Counselors shall:

- Establish and provide an open channel of communication through which employees may discuss complaints.
- Direct individuals to the appropriate procedure if the issue of the complaint does not involve an allegation of discrimination.
- Advise employees of their rights and responsibilities with regard to the internal and external discrimination complaint procedures.
- Inform employees of the EEO policy and procedures and the discrimination complaint process.

Civil Rights Operations, Headquarters Staff

The CRO, Headquarters Staff shall:

- Review discrimination complaints received by OIA.
- Provide analysis of discrimination complaints alleging a violation of the CDCR EEO policy.
- Provide a response to external compliance agencies regarding complaints or requests for information.
- Develop EEO/Sexual Harassment training for CDCR staff and managers.
- Provide consultation to EEO Coordinators and hiring authorities on requests for religious accommodation.
- Review all requests for religious accommodation, and provide recommendations to the hiring authority, prior to their final determination.
- Conduct EEO/Sexual Harassment Prevention training. Provide technical assistance to CDCR staff on EEO policy.

Civil Rights Operations, Regional Staff

The CRO, Regional Staff shall:

- Conduct EEO/Sexual Harassment Prevention training. Provide technical assistance to local CDCR staff on the EEO policy.
- Assist Special Agents with investigations involving allegations of harassment/discrimination.
- Provide response to external compliance agencies related to OIA investigations.
- Serve as a liaison for OIA and EEO Coordinators, EEO Counselors, and field training staff.

Hiring Authority

The hiring authority shall:

- Ensure compliance with the EEO policy and procedures and applicable State and federal laws by all employees under their authority and take immediate and appropriate course of action as necessary.
- Ensure that employees under their management or supervision have received EEO/Sexual Harassment training and a copy of the EEO policy.

- Receive discrimination complaints and forward them to the EEO Coordinator within 24 hours.
- Conduct the LIP intake interview with the complainant and submit the completed CDCR Form 693 and documentation to the EEO Coordinator.
- Assist the EEO Coordinator, as needed, in gathering information or documentation related to requests for religious accommodation.
- Serve as a member of the EEO Advisory Committee, as outlined in Section 31010.9, and participate in quarterly meetings (as a minimum) to advise the hiring authority regarding local EEO complaints and training.

Managers and Supervisors

Under the supervision of the hiring authority, all CDCR managers and supervisors shall:

- Maintain and promote a work environment free from discrimination, harassment, retaliation, and unprofessional or disrespectful conduct related to this policy.
- Adhere to the EEO policy and procedures, applicable State and federal law, discrimination complaint process and ensure they are communicated to all employees under their supervision.
- Take immediate and appropriate action to stop conduct that violates this policy. Ensure that employees under their management or supervision have received EEO/Sexual Harassment Prevention training and a copy of the policy.
- Advise employees of their rights and the process for filing an EEO complaint.
- Notify in writing his or her direct supervisor and the local EEO Coordinator within 24 hours of becoming aware of conduct that may violate CDCR's EEO policy. Prepare and submit a memorandum to the EEO Coordinator within three working days from the date the employee informed the supervisor of the alleged violation.
- Attend mandated EEO/Sexual Harassment Prevention training.
- Submit any requests for religious accommodation to the EEO Coordinator within two working days.
- Cooperate with the EEO Coordinator to identify possible accommodations to address requests for religious accommodation.

Failure by a manager or supervisor to adhere to the above responsibilities may result in corrective and/or adverse action up to and including dismissal from CDCR. Separate from any action taken by CDCR, managers and supervisors should be aware that their conduct may result in personal civil liability.

Employees

All CDCR employees shall:

- Adhere to CDCR's EEO policy and procedures, applicable State and federal laws, and the discrimination complaint process.
- Not engage in, condone, tolerate, or leave uncorrected conduct that violates the EEO policy.
- Report any EEO policy violations to any supervisor or manager.
- Cooperate with any investigation conducted by OIA.
- Attend mandated EEO/Sexual Harassment Prevention training.

Failure by an employee to adhere to the above responsibilities may result in corrective and/or adverse action, up to and including dismissal from the Department, regardless of rank, level, or classification.

31010.8 Religious Accommodation

The need for religious accommodation may arise when an employee's sincerely held religious beliefs, observances, or practices conflict with a requirement or an essential function of the employee's work. If a conflict exists between an employee's religious beliefs, observances, or practices and the employee's work requirements or essential functions, that employee may request a religious accommodation. An employee who seeks a religious accommodation must make the employer aware of the need for an accommodation.

The employer shall consider a request for an accommodation that eliminates the conflict between the employee's religious beliefs, observances, or practices and the employee's work requirements or essential functions.

An accommodation includes, but it is not limited to adjustment to the work environment that eliminates, when reasonable, a conflict between an employee's religious beliefs, observances, or practices, and the employee's work requirements or essential functions. A waiver of an essential function

is not required. Essential functions are the fundamental job duties of the employment position the individual holds or desires. Essential functions do not include marginal functions of the position.

Under the Government Code, Section 12926, Subdivision (u), an undue hardship is an action requiring significant difficulty or expense. An undue hardship may exist if the requested accommodation creates safety or security risks, conflicts with a Memorandum of Understanding (MOU), conflicts with State or federal laws, or results in a waiver of an essential function of a position.

Request for Religious Accommodation

An employee in need of a religious accommodation shall make a request and cooperate in good faith with their supervisor, manager, EEO Coordinator and/or hiring authority to provide the necessary information to process the request. This may include providing the appropriate and verifiable information from a religious leader within the employee's religious group. A request for religious accommodation should be submitted by an employee in writing, on a CDCR Form 2273, Request for Religious Accommodation or verbally to a supervisor, manager, or EEO Coordinator.

The CDCR Form 2273 should state the specific religious belief, observance, or practice in conflict with specific work requirements or essential functions; it must explain how the religious belief, observance, or practice conflicts with specific work requirements or essential functions; and it must state the specific accommodation requested, and explain how the requested accommodation resolves the conflict between the employee's religious belief, observance, or practice and the employee's work requirements or essential functions.

Upon receipt of a CDCR Form 2273, it shall be forwarded to the EEO Coordinator within two working days.

A verbal request for religious accommodation shall be documented in writing by the person receiving the request and delivered to the EEO Coordinator within 2 working days. The employee must make a request for religious accommodation at least 15 calendar days prior to the requested accommodation. Failure to submit the request 15 calendar days prior to the requested accommodation may delay the processing of the request for accommodation.

31010.8.1 The Interactive Process

EEO Coordinators and hiring authorities shall engage in a good faith interactive process with the employee requesting a religious accommodation. The interactive process requires employer and employee flexibility and cooperation in informal discussions. An employer is not required to provide the specific accommodation requested by the employee. An employer is also not required to provide an accommodation, if the accommodation creates an undue hardship for the employer, or if the accommodation results in the segregation of the requesting employee from other employees or the public. (See Government Code, Section 12940 [1][2]). If the requested accommodation creates an undue hardship for the Department, the hiring authority must engage in the interactive process with the employee to determine if there is an alternative accommodation to address the employee's religious needs. EEO Coordinators and hiring authorities shall consult with OIA/CRO before making a final decision.

31010.8.2 Evaluation of a Request for Religious Accommodation

EEO Coordinator

The EEO Coordinator shall evaluate the request for religious accommodation and request additional information, if necessary. The EEO Coordinator shall contact the employee requesting the religious accommodation and ask clarifying questions, if needed, regarding the specific religious belief, observance, or practice that conflict with specified work requirements or essential functions, the specific conflict, and the accommodation requested.

The EEO Coordinator shall consider alternative accommodations, if the accommodation requested creates an undue hardship for the Department. The EEO Coordinator will consult with the local Labor Relations Analyst to rule out a conflict between the proposed accommodation and a MOU. If a conflict with a MOU exists, the EEO Coordinator will consult with the Labor Relations Analyst to determine if alternatives are available in accordance with the terms of the MOU.

The EEO Coordinator shall review the information and make a recommendation to the hiring authority regarding the request for religious accommodation.

Hiring Authority

The hiring authority shall forward all requests for religious accommodation to OIA/CRO for review. OIA/CRO will provide a recommendation to the hiring authority regarding such requests. Upon receipt of the

recommendation from the OIA, the hiring authority shall make the final determination. Once a final determination has been made, the hiring authority shall provide a response to the requesting employee, as soon as operationally feasible.

31010.9 Discrimination Complaint Process

The CDCR's Discrimination Complaint Process consists of the Local Intervention Process (LIP), direct filing with the OIA, or referral to OIA via CDCR Form 989, Confidential Request for Internal Affairs Investigation by the hiring authority. A complaint may also be filed by contacting a State or federal compliance agency.

31010.9.1 The Local Intervention Process

It is CDCR's policy to resolve a complaint of discrimination, harassment, or retaliation at the lowest level. If an employee reasonably believes that an EEO policy violation has occurred, he or she must report the alleged misconduct pursuant to DOM Section 31140.5. An employee should file a complaint in writing using the CDCR Form 693, Discrimination Complaint form which can be obtained from the local EEO Coordinator, the OIA, or the CDCR Intranet/Internet websites. An employee must be allowed a reasonable amount of State time to report a complaint to his or her supervisor, an EEO Counselor, the local EEO Coordinator, or any other CDCR manager or supervisor. The individual to whom the violation has been reported will take immediate and appropriate action to assist the employee in reporting the complaint, including submission of a written report to the EEO Coordinator in the case of a verbal complaint, and preventing further violation(s) of this policy.

A discrimination complaint alleging a violation of the CDCR EEO policy must be forwarded to the EEO Coordinator within 24 hours, whenever possible. The EEO Coordinator may assign an EEO Counselor to conduct a LIP interview with the complainant. After the EEO Coordinator receives the documents from the assigned EEO Counselor, the EEO Coordinator evaluate the complaint and makes a recommendation to the hiring authority. The hiring authority will make a determination and direct the appropriate course of action.

The complaint must be forwarded to OIA via CDCR Form 989 when a reasonable belief of misconduct occurred and the alleged misconduct, if proven true, would result in adverse action, as determined by the hiring authority.

31010.9.2 Filing a Complaint

A discrimination complaint should be filed via a CDCR Form 693, Discrimination Complaint Form, with the local EEO coordinator. A complaint may also be sent directly to the OIA, or by using the OIA, EEO Discrimination Complaint Hotline at 1-800-272-1408. An employee may also file an external complaint with a State or federal agency. See External Complaint, 31010.8.4.

An employee is not required to confront the person(s) engaged in the conduct believed to be in violation of this policy at any time before or after filing a complaint. If the complaint involves supervisor(s) or manager(s) in the employee's direct chain of command, the employee may report the behavior to any uninvolved supervisor, manager, EEO Counselor, or EEO Coordinator.

31010.9.3 Allegation Inquiry

An allegation inquiry may be conducted when violations of the CDCR EEO policy are alleged, but the allegations(s) and/or complainants and respondent(s) are not clearly defined. The OIA, CRO staff may be consulted to determine whether an inquiry is appropriate. The inquiry shall be conducted in accordance with DOM Section 31140.14.

31010.9.4 External Complaint

All persons covered by this policy may elect to file a discrimination complaint with the following external compliance agencies:

1. California Department of Fair Employment and Housing (DFEH) – A complainant may file with DFEH within 365 days from the last incident, date of notification of alleged discriminatory act(s), or date of actual harm.
2. United States (U.S.) Equal Employment Opportunity Commission (EEOC) – A complainant may file a discrimination complaint with EEOC within 300 days from the last incident or notification of the alleged discriminatory act(s).
3. U.S. Department of Labor – A complaint filed with the U.S. Department of Labor should be filed within a reasonable time of when the employee discovers that his or her FMLA rights have been violated. In no event may a complaint be filed more than two years after the

action which is alleged to be a violation of FMLA occurred, or three years in the case of a willful violation.

When a charge of discrimination is received from external compliance agencies, OIA shall review the charge to determine the appropriate course of action and take suitable corrective action where appropriate. On behalf of CDCR, the CRO will submit a position statement, including a response to the requested supplemental information to the external compliance agencies.

31010.10 Logging Discrimination Complaints

The hiring authority, or designee, shall log each discrimination complaint on the CDCR Form 2140, Internal Affairs Allegation Log, in compliance with DOM, Section 31140.13.

31010.11 Use of State Time

Use of State time for filing a discrimination complaint or participating in investigations shall be approved by the employee's supervisor. Absent an emergency, employees may request and shall be allowed reasonable State time by the supervisor to contact/secure a representative and to discuss the matter with the representative prior to any interview.

31010.12 EEO Advisory Committee

Each institution/parole region shall establish an EEO committee. The EEO Committee shall meet on a quarterly basis and serve in an advisory capacity to the hiring authority on EEO matters including complaints and training. EEO Advisory Committee Membership shall include the following individuals:

- Warden or Regional Parole Administrator (RPA) and Deputy RPA.
- EEO Coordinator.
- EEO Counselors.

31010.13 Disability Advisory Committee

The Chief, CRO, OIA, or designee, serves as the liaison to the DAC and shall provide advice and assistance to the CDCR Secretary, and the OIA Deputy Director, on disability issues, such as:

- Developing and maintaining EEO programs and activities for persons with disabilities.
- Making recommendations to improve the personnel practices and employment opportunities for persons with disabilities.
- Establishing contact with groups and organizations that are concerned with achieving equitable representation and utilization of persons with disabilities in the CDCR workforce.
- Monitoring of disability issues identified by the committee, including, but not limited to, reasonable accommodation and accessibility, to ensure that necessary actions occur within reasonable time frames.
- Assisting the Department in complying with the Americans with Disabilities Act and other related statutes.

Membership

The Chief, CRO, OIA, or designee serves as the liaison to the DAC. The DAC shall consist of volunteers selected by the DAC Chairperson and DAC Vice Chairperson with input from the hiring authority and current DAC members. DAC membership should include persons with disabilities.

Meetings

The DAC shall meet at least annually.

Resources

Members of the DAC shall be primarily involved with the duties and responsibilities of their specific assignments; local administrators shall make the necessary arrangements to allow members reasonable time to perform committee activities.

31010.14 Revision

The Deputy Director, OIA, or designee, shall ensure that the content of this Article is accurate and current.

ARTICLE 2 — HEALTH AND SAFETY PROGRAM

Effective February 6, 1990

31020.1 Policy

The Director hereby establishes a health, safety, accident prevention and reporting system to prevent and correct safety and health hazards to its employees, inmates and visitors.

The Department shall strive to provide a healthy environment and safe working conditions, therefore:

- All personnel and inmates of the Department are responsible for the safety of themselves and others.
- Safety considerations shall take precedence over convenience and expediency in the Department's operations.
- Accident prevention and safety are basic management responsibilities:
 - Supervisors shall be evaluated on the effectiveness of their safety efforts.
 - Employees shall also be evaluated on their adherence to safety rules and safe practices.
- Specific annual health sanitation and fire safety inspections shall be performed in accordance with applicable laws and with the assistance of the State Fire Marshal's Office or DHS' sanitation engineer. Follow-up inspections to audit for correction of identified deficiencies shall be performed.

31020.2 Purpose

This section specifies the requirements for establishment, reporting and control of the health and safety management program.

31020.3 Objectives

All systems shall meet or exceed the minimum safety and health standards of the General Industry Safety Orders (GISO), CCR (8); Manual of Standards for Adult Correctional Institutions (ACA); National Fire Protection Association (NFPA) Life Safety Codes; H&SC; and all other applicable federal, state, and local laws, ordinances, and codes regarding occupational safety, environmental health, and fire prevention and control.

Each division head shall maintain a place of employment free from recognized hazards that cause, or are likely to cause, injury/illness or death to employees, inmates and visitors.

All personnel shall be aware of, and have access to, the appropriate manuals and training required to perform assignments in a healthful and safe manner.

31020.4 Definitions

Unless otherwise specifically indicated, the terms used in this section are defined as follows:

Accident

Deviation from planned events which causes an undesirable end result or effect.

Assigned Work or Employment of Inmates

Work performed in any pay or non-pay position in a work program under the direction, and with the approval of a duly authorized supervisory lead person or departmental employee. It does not include skill centers, vocational training, or academic education programs (except for physical fitness training and forestry training which are a prerequisite to fire suppression duties and are authorized by LC 3365) or activities which are clearly not encompassed within the duties and responsibilities of the position to which assigned.

Disabling Injury/ Illness

An injury or illness resulting in either lost workdays beyond the day of injury, loss of consciousness, restriction of motion, termination of employment or transfer to another job.

Employee

Every person in the service of an employer under any appointment or contract of hire or apprenticeship, expressed or implied oral or written, whether lawfully or unlawfully employed.

Employment

The carrying on of any trade, enterprise, project, industry, business, occupation, or work including construction, in which any person is engaged or permitted to work for hire, except household domestic service.

First Aid

Any one-time and any follow-up visit for the purpose of observation of minor scratches, cuts, burns, splinters, etc., which do not ordinarily require medical care. Such one-time treatment and follow-up visit for the purpose of observation is considered first-aid even though provided by a physician or registered professional personnel.

- Procedures such as tetanus injections and diagnostic x-rays are not, in and of themselves, considered medical treatment. Where an injured person has received an x-ray but the x-ray indicates no fracture and the employee receives no further treatment (or prescriptions), the x-ray itself is not considered medical treatment.
- Employees who are treated by a private physician rather than an institution doctor shall have an Employer's Report of Occupational Injury or Illness, SCIF Form 3067, completed and submitted even if the treatment is only first-aid.

A term used to identify the number of disabling injuries/illnesses by a specified unit, department, or institution. It is calculated by multiplying the number of injuries, illnesses and deaths by 200,000 divided by the total number of hours worked by all employees in that unit during the calendar year.

Health and Safety

Freedom from danger to the life and well-being of staff, inmates and visitors as the nature of the employment and environment reasonably permits.

Industrial Injury

Any injury or disease which arises out of the assigned work which may be either specific or cumulative.

- A specific injury or illness is one that occurs as the result of one incident or exposure.
- A cumulative injury or illness occurs over a period of time.

Inmate

A person committed to the custody of the Department who:

- Is in a facility, camp, hospital, or institution of the Department for the purpose of confinement, treatment, employment, training, or discipline.
- Has been temporarily released from a facility under jurisdiction of the Department, with or without custody, for the performance of assigned work.
- Is not an escapee or parolee.

Medical Treatment

Treatment administered by a physician or registered professional practitioner under the standing orders of a physician. Medical treatment does not include first-aid treatment even though provided by a physician or registered professional practitioner.

Personnel and Staff

Any non-incarcerated person employed by the Department and/or working under the jurisdiction thereof.

Personal Physician

An employee's regular physician and/or surgeon, licensed pursuant to Chapter 5 (commencing with § 2000, Personal Physician, Division 2, Business and Professions Code), who has previously directed the medical treatment of the employee, and who retains the employee's medical records and medical history.

Physician

Any physician, surgeon, psychiatrist, optometrist, podiatrist, osteopathic, and chiropractic practitioner licensed by the State of California to practice within the scope of that license as defined by California statutes.

Place of Employment

Any place within the jurisdiction of the State of California and the Department.

Qualified Injured Worker

An employee, whose injury, whether or not combined with the effects of a prior injury or disability, permanently precludes, or is likely to preclude the employee from returning to their usual and customary occupation or position in which they were engaged at the time of injury; and who can reasonably be expected to return to suitable gainful employment through the provision of vocational rehabilitation services.

Qualified Rehabilitation Representative

A person capable of developing and implementing a plan submitted pursuant to 10006 of the Rules and Qualified Regulations of the Administrative Directive, Division Rehabilitation of Industrial Accidents. Such a person may be either a Representative vocational rehabilitation consultant employed by a state, public, or private agency, or an agent of the employer or employee whose experience and regular duties involve the evaluation, counseling and placement of disabled persons.

Recordable Occupational Injuries or Illnesses

Any occupational injuries or illnesses which result in:

- Occupational fatalities, regardless of the time between injury or death, or the length of the illness (No recording is required for fatalities occurring after a termination of employment).
- Occupational Illnesses
- Occupational injuries which involve one or more of the following:
 - Lost workdays (beyond the date of injury).
 - Loss of consciousness.
 - Restriction of work or motion.
 - Termination of employment.
 - Transfer to another job.
 - Medical treatment (other than first-aid).

Serious Injury/ Illness

Any injury or illness occurring in a place of employment or in connection with any employment which requires either inpatient hospitalization for a period in excess of 24 hours for other than observation, or in which an employee suffers loss of any member of the body, or any serious disfigurement. Serious injury or illness shall not include any injury, illness or death caused by the commission of a Penal Code violation, except the violation of PC 385, or an accident on a public street or highway.

Severity Rate

A rate calculated by multiplying the number of days lost times 200,000, divided by the total hours worked by all employees during the calendar year. This indicates the average length of workdays lost due to the injury/illness.

Supervisor

Any individual who has direction or control over another employee.

Vocational Rehabilitation Services

Services reasonably necessary to restore a qualified injured worker to suitable, gainful employment. Such services may include, but not be limited to, vocational evaluation, counseling, retraining (including On-the-job Training [OJT] for alternative employment with the same employer), and job placement assistance.

31020.5 General Responsibility

Departmental Responsibility

Departmental headquarters and each institution/region shall have staff support capability which is well versed in accident prevention, safety techniques, and departmental loss control practices to support and guide management responsibility in accident prevention and safety efforts.

31020.5.1 Hiring Authority's Responsibility

Each hiring authority shall monitor the overall health and safety program within their jurisdiction and shall adopt, furnish and use those means, methods, practices, and operations adequate to foster safe employment and living conditions for employees and inmates. They shall:

- Appoint a local safety coordinator who reports directly to the Warden or RPA in all matters of safety and health, including fire safety.

Paroles

In Paroles, the regional safety coordinator shall be the staff services analyst. However, district administrators, community based correctional center administrators, reentry coordinators, and the deputy RPA for region headquarters, shall administer the health and safety program in their respective areas of assigned responsibility.

Institutions

In institutions, a safety coordinator (e.g., the institutional fire chief) and an RTWC (e.g., the Business Manager II) shall be appointed.

The name and occupational title of the local safety coordinator shall be transmitted to the departmental coordinator each time a change occurs.

Provide the local safety coordinator with training in safety, health and fire safety.

Inspections

- Annual sanitation inspections and environmental health surveys shall be conducted by a DHS' sanitation engineer.
- Annual fire safety inspections shall be conducted by the State Fire Marshal.

Ensure that pertinent information on worker's compensation and rehabilitative programs are provided to injured employees or inmates.

31020.5.1.1 Hiring Authority's Mandatory Notifications Responsibility

Ensure posting of the following mandatory notices at locations in each work place accessible by all employees:

- STD Form 621, Notice to State Employees.
- Safety and Health Protection on the Job provides notice of employee protections and entitlements.
- CAL-OSHA Form S-11, Access to Medical and Exposure Records, shall be posted at a location in each work place, inmate law library, all entrance gates, and other locations accessible for review by all inmates/employees .
- Ensure that all personnel are aware of, and have access to, the manuals and training required to perform their job assignments in a healthful and safe manner.
- Appoint and maintain an active local safety committee represented by the lead supervisor and an alternate from each major interest and/or work area involved in the institution/region.
- Ensure that each division head maintains a place of employment free from recognized hazards that cause, or are likely to cause, injuries/illnesses or death to employees and inmates.

Compliance

- Ensure compliance and cooperation with applicable federal, state, departmental, and institution/region/division laws, codes, policies, standards, and procedures regarding healthful and safe operations.
- Through periodic inspections, the hiring authority shall confirm acceptable health and safety standards, or
 - Implement corrective action.
- CAL-OSHA Form 200, Log and Summary of Occupational Injuries and Illnesses (final summary page only). Post in a conspicuous place from February 1 to March 1 annually .
- Department of Occupational Safety and Health citations issued under LC 6317 shall be posted at, or near, each location where a violation referred to in the notice occurred.
- Minutes from the institution's monthly Safety Meeting.

31020.5.2 Departmental Health and Safety Officer's Responsibility

The Departmental Health and Safety Officer acts under the direction of the Chief, Personnel, Health and Safety, and shall:

- Provide overall coordination and implementation of the Department's safety and health programs, as follows:
 - Act as the chief consultant for all accident prevention loss control and employee safety matters in the Department and with other governmental entities.
 - Represent the Department in all interagency affairs dealing with health and safety matters.
 - Develop, implement, and monitor programs to reduce industrial injuries/illnesses and related compensation costs.
 - Develop, implement, and monitor programs to reduce industrial injuries/illnesses and related compensation costs.
 - Evaluate performance and set goals/guidelines regarding safety issues for the Department.
 - Develop progressive safety, environmental health and fire prevention programs.

- Provide resource information, including training when required or requested, using departmental resources, the Office of Insurance and Risk Management and the State Fire Marshal, for the following areas:

Programs

- Occupational safety and health standards.
- Fire safety/prevention programs.
- Workers' Compensation benefits/Enhanced Industrial Disability Leave (EIDL) and Industrial Disability Leave (IDL).
- Accident prevention programs and accident investigation.
- EAP.
- The Return-to-Work Program.
- Temporary duty assignments for medically restricted staff.
- Non-Industrial Disability Insurance benefits.
- The Safety Award Program.
- The Employee Post-Trauma Program.
- Control of hazardous, flammable, toxic and volatile substances.
- Environmental health.

Enforcement

- Assist with the enforcement of safety laws and departmental policies, if supervision fails to carry out its assigned obligations. This authority includes the ability to order work stopped when any activity or object in that work area represents a potential for serious injury or illness to employees or inmates.
- Report, in writing, to the appropriate management all accident prevention opportunities and safety deficiencies discovered with recommendations for appropriate corrective action.

31020.5.3 Supervisor's Responsibility

All departmental supervisors are responsible and accountable for safety performance in their respective areas of responsibility.

Supervisors shall be evaluated on the effectiveness of their safety efforts and shall:

- Instruct employees on the proper safety equipment and personal protective clothing to be used in their particular work assignment.
- Provide all employees updated health and safety training annually on all changes in laws, ordinances, departmental policies or procedures as related to their specific duty assignments.
 - Conduct discussions of safety issues with employees or inmate/parolee workers under their supervision. The length and frequency of these safety meetings shall be commensurate with the hazards of the particular assignment. These meetings shall be properly documented as to time, date, content, names of participants, etc.
 - Institution supervisors shall meet with employees a minimum of once a month.
 - Supervisors of construction-type assignments shall have weekly safety meetings of at least 10 minutes.
- Provide safety orientation to new employees prior to job assignment, particularly new employees who will be driving a vehicle on State business.

Verifications

- Confirm the validity of the employees' operator's license.
- Confirm the provision of defensive driving instruction at least every four years.
- Brief employees on employee protection plans.
- Evaluate and document on the employee's performance report, the employee's adherence to safety rules and practices.
- Ensure that appropriate disciplinary action is taken when an employee or inmate worker does not abide by the applicable safety regulations and practices.

Inspections

- Conduct thorough, comprehensive inspections:
 - Daily informal safety inspections of work area for any hazard which may pose potential injury or illness to employees or others.
 - Formal weekly safety inspections of all areas using hazard checklist for grounds and for buildings.

All areas shall be inspected weekly by a supervisor trained in fire and life safety precautions. Supervisors shall not inspect their own areas of operation but shall trade areas with another trained supervisor in order to provide unbiased inspections.

- Monthly/quarterly safety and sanitation inspections. Findings shall be documented with deficiencies noted.

Health and sanitation inspections shall be performed by a qualified departmental staff member trained in the application of jurisdictional codes and regulations.

- Enforce rules, laws, and procedures concerning health and safety.
 - Become familiar with departmental policies and operational procedures regarding the specific work area being supervised.
- Report, as quickly as possible, any unsafe or unhealthful condition.

Documentation

Take immediate action to correct deficiencies. If immediate correction is not possible, a statement shall be prepared indicating what is needed and a date of expected completion. Copies shall be forwarded to the next line supervisor, the safety coordinator, and other appropriate personnel who may be involved in the correction. The supervisor preparing the documentation report should maintain a copy for their records.

Injury Report

In case of work-related employee injury or illness, complete the Supervisor's Report of Injury or Illness (STD Form 620) within 24 hours.

If the employee believes the injury/illness was caused or aggravated by the employment, then the Employer's Report of Occupational Injury (SCIF Form 3067) shall also be completed.

- Ensure that each employee, inmate, or parolee is advised of the safety requirements of the job, including the duties to be performed, the procedures to be followed, and the hazards present in performing the job.
- Ensure that the proper equipment and all safety devices are correctly installed, operative, and properly used.

31020.5.4 Employee's Responsibility

All employees shall:

- Follow accident prevention rules and regulations, departmental policies, institutional procedures, ordinances and laws, as required by their job assignment with particular attention to the following:
 - Disturbance control.
 - Emergency preparedness and employee protection.
 - Control of hazardous, toxic, and volatile substances.
 - Fire prevention and suppression.
 - Safety operational procedures.
 - Inspections.
 - Injury reporting.
 - Firearms, chemical agents, ammunition, and related equipment.
- Observe all safety signs, posters, etc.
- Use all safety devices, guards and equipment appropriate to the task assigned.
- Report any safety violation or unsafe condition to the supervisor, the local safety coordinator, or other designated person as quickly as possible.
- Take action to correct safety violations within their authority.
- Take definitive safety precautions.
- Immediately report any unsafe or unhealthy condition that cannot be readily remedied. Reports shall be made to the appropriate supervisor, with a copy of the report sent to the local safety coordinator.

If Injured

In case of injury or illness the employee shall:

- Report all accidents/incidents to the supervisor promptly, but no later than 24 hours after the injury/illness becomes known (SAM Section 2581.1). Failure to report the injury or illness promptly may result in delay and/or denial of benefits.
- Obtain first-aid for minor injuries or illnesses from the institution medical department and return to work as soon as medically feasible.

If unable to return to work following the first-aid treatment, or if further medical treatment is required or requested, the employee shall:

- Notify supervisor immediately.
- Accept examination and treatment by the physician and/or facility arranged by the Department as indicated on the Notice to Employees, STD Form 621 unless the employee has notified the Department in writing prior to the claimed injury or illness that they want to be treated by a personal physician. (See 31020.4 of this section for a definition of personal physician.)
- Keep the Department/supervisor informed of the physician's opinion concerning the employee's ability to work.
- Complete an Employee's Attendance Report, CDCR Form 998-A, each month for time lost because of work injury/illness.

Every employee is responsible for their personal safety and the safety of others. This includes attending the appropriate training required to meet or exceed the departmental goals and objectives.

31020.5.5 Central Office/ Institution/Parole Region Safety Coordinator's Responsibility

The local safety coordinator shall:

- Develop and implement the local safety program.
- Ensure compliance with all safety regulations, codes, directives, and policies.
- In case of serious or imminent hazards to life or safety in any place of work within the institution/parole region/office, exercise the authority to shut down the hazardous job, work site, or area until adequate corrections are made.
- In conjunction with the safety committee, review operations to assure compliance with the departmental safety plan prepared by the Health and Safety Unit.
- Meet at least monthly with the Central Office institution/region Safety Committee and attend all departmental safety coordinator's conferences.
- Make regular, periodic on-site inspections of facilities, equipment, and devices to ensure that:
 - They are in safe operating condition.
 - Safety devices are in place and operative.
 - Safe operating procedures are being used.
 - Living areas are free of hazards.
- Report the inspection findings to the hiring authority.
- Make written recommendations to the hiring authority regarding the prevention/correction of possible, imminent, or present fire or life safety problems.
- Review all accident reports of employees and inmates to evaluate compliance with safety policies and procedures and make recommendations regarding preventive and/or corrective action and training needs.
- Work in cooperation with training staff to develop training programs in the areas of fire and life safety and ensure:
 - Provision of one hour of safety training to all new staff during orientation.
 - Presentation of safety classes through IST at regular intervals throughout the year.

31020.6. Health Management Program

The Health Management Program shall consist of the following sections.

31020.6.1 Reserved

31020.6.2 Medical Termination/ Disability Retirement (Industrial and Non-Industrial)

Medical termination or disability retirement are proper steps to take in the event that all appropriate vacant positions in the Department have been evaluated and determined inappropriate or there are no vacancies in the Department and all other benefits have been exhausted.

Medical termination and disability retirement are administrative or voluntary actions which separate an employee who has incurred a disability/illness and/or is unable to perform the duties of any position in the Department.

31020.6.2.1 Immediate Supervisor's and/ or Employee's Responsibility

The employee and/or the immediate supervisor shall contact the local or departmental RTWC for assistance in initiating a medical termination or disability retirement.

31020.6.2.2 Local and/or Departmental Return-To-Work Coordinator's Responsibility

If existing documentation is insufficient for the appropriate action, the local or departmental RTWC shall arrange for a medical examination and report, cost to be paid by the Department. The appointing power may require an employee to submit to a medical examination to evaluate the capacity of the employee to perform the work of a position. [The local SCIF Office may be contacted for assistance in the selection of a physician.]

Documentation

Sufficient documentation may include one or more of the following:

- A medical report from the employee's doctor stating that the employee is not physically and/or mentally able to function in the current position or any other position.
- A statement from the employee that they are not physically and/or mentally able to function in the current position or any other position.
- A medical report from SCIF stating that the employee is not physically and/or mentally able to function in the current position or any other position.

PERS-BEN Form 369

For processing disability retirements, initiate the application for retirement, PERS-BEN Form 369, upon request from appointing power and/or employee, if eligible for disability retirement.

Advising the Affected Employee

Advise the employee that the treating physician shall receive a copy of the medical examiner's report.

Assist and counsel the employee as to the appropriate action to be taken if medical reports or the employee's own written statement indicate an inability to perform in the present position or any other position or the employee has declined an appropriate position(s) that was offered.

Advise the employee of appeal and reinstatement rights.

Retirement Eligibility Criteria

Work-Related Disability Retirement. No minimum service required for State safety members, five years of credited service required for industrial members.

Non-Work-Related Disability Retirement. Five years of credited service required by all members of PERS.

Forward the request, if initiated by the employee, to the appointing power for appropriate action with the following documents:

- A written recommendation for the approval of the request.
- All pertinent medical information.
- Employee statement, if one was submitted.
- Evidence that all mandatory options and benefits have been exhausted.

Upon approval of the appointing power, forward the completed PERS-BEN Form 369 to PERS.

For processing medical terminations of appointment, complete the Notice of Medical Termination upon request from appointing power. If the employee is ineligible for disability retirement or eligible but wants to waive the right to disability retirement and elects to withdraw retirement contributions or to allow the contributions to remain in the retirement fund with rights to service retirement in the future, the employee may do so. See Section 33030, Adverse Personnel Action, of this manual for information on service of the notice, and the administrative review process. Notify the local Personnel Transactions Office of proposed action.

31020.6.2.3 Hiring Authority's Responsibility

The hiring authority's responsibility is to approve disability retirement or medical termination, whichever is applicable, after considering the conclusions of the medical information and other pertinent information stating that employee is unable to perform the work of the present position or any other position in the Department.

Return approved action to the RTWC who initiated the action.

31020.6.2.4 Appeal and Reinstatement Rights

If terminated, the employee shall be given at least 15 days written notice prior to the effective date of the termination. If the employee wishes to appeal the termination decision to the SPB, that must be done within 15 days after receipt of the written termination notice.

Appeal Rights

If PERS disapproves an employee's request for disability retirement, the employee may file a written appeal with PERS in Sacramento within 30 days

of the mailing of the disapproval notification. An appeal should set forth the factual basis and the legal authorizations for the appeal.

Reinstatement Rights

Reinstatement is considered upon request of an appointing authority or petition of the employee who was terminated. If it is determined by SPB that the employee is no longer incapacitated for duty, the employee shall be reinstated to an appropriate vacant position in:

- The same class, or
- A comparable class, or
- A lower rated class.

Such a reinstatement to a position in a different agency may be made only with the concurrence of that agency. In approving or ordering such reinstatements, the SPB may require the satisfactory completion of a new probationary period.

Re-Employment Lists

When the SPB finds the employee who was terminated, demoted, or transferred is no longer incapacitated for duty but there is no vacant position available, the name of the employee shall be placed upon such re-employment lists as are determined to be appropriate by the SPB.

31020.6.3 Non-Industrial Disability Insurance

State employees who meet eligibility requirements and become disabled because of a covered injury, illness or medical condition, including pregnancy may be eligible to receive Non-Industrial Disability Insurance (NDI) benefits.

NDI is a wage continuation program administered by the Employment Development Department.

Qualification

To qualify, a departmental employee must be a current active member of the PERS. An employee must be in "compensated employment" (in pay status and not separated by a formal leave of absence). All permanent part-time and full-time employees or probationary employees or state officers are covered under the program. Permanent part-time and permanent intermittent employees and state officers who have at least six monthly compensated pay periods of service in the 18 months immediately preceding the pay period in which the disability begins, may also be eligible for NDI benefits on a prorated basis.

Benefits and leave credits may vary according to designation and/or collective bargaining unit. For further details see bargaining unit contracts or DPA Rules 599.770 through 599.779.

31020.6.4 *Reserved*

31020.6.5 *Reserved*

31020.7 Safety Management Program

Each institution's safety plan shall ensure that all work and living areas are safe from life-endangering conditions and comply with departmental guidelines by a general safety plan.

Parole and Central Office facilities shall submit only the Employee Protection Plan which shall be titled "Emergency Preparedness Employee Protection." Two copies shall be submitted to the appropriate deputy director (either for P&CSD or ASD) for review and forwarding to the CHP.

31020.7.1 Central Office/ Institution/Parole Region Safety Committee

The safety committee is the vehicle by which the routine day-to-day health and safety issues (i.e., life safety, procedures, accident reports) are raised, and, where possible, resolved.

31020.7.1.1 Membership

Central Office/ Institutions

Central Office or institution membership may be represented through, but not limited to the following listed areas, by a representative or designee. The committee shall consist of at least fifteen members representing a large cross-section of the work force. When a committee vote is required, a simple majority vote of those present shall be necessary.

- Fire Chief.
- Business Services.
- Custody.
- Food Services.
- CalPIA.
- Maintenance.
- Medical.

- Education.
- Exclusive bargaining agents.
- IST officer.
- ACA Coordinator.
- Employee Relations Officer (ERO).
- Records.
- Forestry training representative.

Paroles

In Paroles, the members shall consist of the following positions or designees:

- Regional Administrator (chairperson).
- Deputy Regional Administrator (vice chairperson).
- Assistant Regional Administrator.
- Three PAs representing the major functional interest and/or geographic areas.
- A community based correctional center administrator.
- Reentry coordinator.
- Training coordinator.
- Regional safety coordinator.

Each hiring authority shall submit to the Departmental Health and Safety Officer by January 1 of each year, a roster of the organization and membership by occupational title of the committee.

31020.7.1.2 Meetings

The safety committee shall meet at least monthly with the local safety coordinator. Meetings may be held more frequently where circumstances dictate or to deal with specific conditions or situations.

Minutes shall be kept of monthly meetings and copies transmitted to the Departmental Health and Safety Officer and the other institution/parole region safety committees.

31020.7.1.3 Responsibility

Safety committees shall:

- Formulate recommended courses of action to resolve or prevent safety violations.
- In conjunction with the local safety coordinator, develop recommendations for deviations from the standards established in this section as a result of unique local needs.
- Ensure that regular, periodic on-site inspections of the facilities, equipment, and operational procedures are made as required and that the findings are reported to the hiring authority.
- Investigate complaints of a serious or sensitive nature regarding hazardous conditions or unsafe practices upon referral by the local safety coordinator.
- Assist in development of safety plan and review plan annually making recommendations to the local safety coordinator.

31020.7.2 Color Code and Markings for Equipment, Fixtures, and Buildings

The color code shown below shall be used throughout the Department for fire protection and accident prevention.

The painting of institutional buildings and facilities, other than those specifically enumerated in this section, shall not be affected by this code.

Red (Fire Protection)

To mark instruments for combating fire. Storage spaces or cabinets for fire extinguishers, fire hose, fire blankets, standpipes.

- Equipment: Alarm stations, sprinkler systems (except sprinkler heads), stop push buttons on machines, safety sign highlighting.
- No smoking areas: Use red and white alternate stripes.
- Hydrants: Paint in accordance with NFPA recommendations;

Vermillion, Candy-Apple Red, White, Lime Yellow

- Fire apparatus.

White (Traffic)

To mark facilities for good housekeeping. Aisle marking, corners, waste receptacles, floor areas immediately surrounding waste receptacles, etc.

Blue (Precautions)

To mark electrical apparatus. Electrical controls, switch boxes, operating levers, ovens, vats, valves, tanks, compressors, etc.

Green (Safety)

To mark first-aid equipment. Stretchers, stretcher areas, gas masks and respirator containers, surgical wagons, etc.

Orange

To mark hazardous machines or equipment. Interior surfaces of fuse boxes, power boxes, machinery guards, exposed moving parts, rolling stock, hand trucks, pallet trucks, fork-lifts, waste trucks, conveyers, etc.

Note: Paint wheels on rolling stock BLACK.

Yellow (Med.) and Black Alternate Diagonal Stripes

To mark stumbling, falling, or tripping hazards, protruding parts, curbs, dead ends, low obstacles, railings, stairway approaches, floor pan edges, pillars and posts.

Gray (Office Machines)

To mark utility areas and equipment. Packaging tables, steel racks, supplemental equipment, cupboards, storage bins, shelves, work benches, etc.

Green (Hi-Lite)

To mark stationary prime equipment. All prime equipment not mentioned above: presses, roller coaters, slitters, shears, breaks, saws, lathes, mills, planers, grinders, drill presses, welders, safety sign background.

Note: IVORY (Hi-Lite) for all moving parts of above equipment for contrast and better visibility.

Appropriate color coded stripes shall be placed around machinery and electrical apparatus in accordance with General Industry Safety Orders (GISO), CCR (8).

31020.7.3 Safety Awards Program

Local divisions, units, or individuals employed within the Department shall be eligible to receive an award for their significant achievements or contributions to safety and health programs.

Safety committees shall:

- Use wide latitude in the selection of award categories to accommodate local operations.
- Forward recommendations to the hiring authority for approval with a brief description of the safety achievement.

Upon approval, a Certificate of Achievement shall be prepared for signature and presentation by the hiring authority.

See Section 31030 of this manual for further information on awards programs.

31020.7.4 Accident Prevention (Training)

Ongoing training in safety, sanitation and health practices shall be provided to all employees and inmate employees.

Training shall consist of identification of the hazards associated with the particular assignment, including how to perform the task safely, how to prevent injury to self or others, and how to handle emergencies involving toxic, hazardous, volatile substances.

Supervisors shall provide training for all employees under their supervision.

Training shall be provided by the appropriate trained specialist for the particular hazard involved; e.g., fire and safety areas shall be performed by the Fire Chief or their designee. Sanitation shall be performed by the medical officer or their qualified designee, etc. All training should be coordinated through IST when appropriate.

Safety meetings shall be conducted commensurate with the hazards involved in the work assignment.

Safety training aids (movies, slides, handouts) may be provided from appropriate sources (IST, Fire Chief, etc.) to assist with appropriate training.

All supervisors shall receive training needed to perform required inspections appropriate to their work areas. Training for safety and health and fire safety shall be provided by the institution Fire Chief or their qualified designee. "Qualified" for this type of instruction means a person who has attended the Basic Safety Training class through the State Office of Insurance and Risk Management.

31020.7.4.1 Employee Protection Plan Guidelines

Central Office and each institution and parole office shall prepare a written evacuation plan to be used in the event of fire or other emergencies. This plan shall be reviewed annually and updated as necessary.

Proper compliance with applicable laws pertaining to fire and life safety require that all employees be instructed and kept informed of their duties and responsibilities in the event an evacuation is necessary.

Specific instructions relating to evacuation plans are contained in Central Office/Parole Evacuation and Emergency Management Process of this manual and the Fire Prevention and Suppression Operational Procedure of each institution.

Routes for evacuation of each area, safe assembly area, alternative housing, food service for inmates, provision for medical care and transportation for injured staff and/or inmates shall be included.

- An evacuation may be directed during an emergency by the Fire Chief, institution firefighter, unit lieutenant or other personnel in charge of the threatened area.
- Evacuation routes and instructions shall be posted on the walls of work areas.
- Exit signs shall be placed to indicate all exits from each area.

31020.7.4.2 Safety Inspections and Surveys

Periodic health, safety and sanitation inspections shall be conducted throughout all work areas on the following schedule (attach copies of all forms used):

Daily

Supervisors shall perform brief visual inspections of their immediate work areas at the beginning of their shift and identify that:

- All fire extinguishers are in place, operative, and accessible.
- All exits are marked.
- Evacuation signs are posted.
- Proper safeguards are in place as required for all machinery.
- Employees are using appropriate protection for the hazards involved.
- The working environment is safe and healthful for all employees.

Reports of deficiencies shall be made indicating any item which cannot be readily corrected. These reports shall be forwarded to the immediate supervisor.

Weekly

Weekly inspections shall be made of each work area by a supervisor trained in performing more thorough inspections. Supervisors shall not inspect their own work areas, but instead, a supervisor from an adjoining area shall conduct the inspection. A "Hazard Inspection Checklist" shall be used for these inspections.

Copies shall be routed to the department head and the institution/parole region safety coordinator, and a copy maintained by the supervisor of the work area.

Inspection records shall be maintained by the safety coordinator for a period of two years.

Monthly

The institution Fire Chief, or their designee, shall conduct a comprehensive monthly inspection for fire and life safety of all areas. Reports of deficiencies shall be documented and a copy sent to the Warden, and a record maintained by the area supervisor where the deficiency is noted.

The institution medical officer shall conduct monthly health and sanitation inspections for compliance with health and sanitation laws and regulations. Reports of findings shall be maintained and routed as for the fire and life safety inspections indicated above.

Quarterly

Specific fire safety inspections shall be conducted by the Fire Chief or their designee as outlined in the Fire Protection in Section 52090 of this manual.

Annual

Annual fire and life safety inspections shall be conducted by the State Fire Marshal's Office attended by the institution Fire Chief or their designee.

Annual health and sanitation inspections are conducted by a sanitation engineer from DHS. The supervisor of each work area shall accompany and assist the sanitation engineer in the inspection of the area.

Complete cooperation from supervisors and employees shall be given to these inspectors.

Distribution of Inspection Reports

Copies of the above inspection reports shall be forwarded to:

- Warden/RPA.
- Deputy Director, Institutions.
- Deputy Director, ASD.
- Assistant Deputy Director, Health Services.
- Health and Safety Officer.

- All other appropriate personnel responsible for the deficiencies noted.

31020.7.4.3 Environmental Health Survey

Environmental health surveys are objective evaluations of institutions and camps to determine if a healthy and safe environment exists for all departmental employees and inmates.

DHS, Environmental Health Division (EHD), conducts environmental health surveys at each institution semi-annually and at each conservation camp annually. The inspection is followed by a written report identifying observed deficiencies.

31020.7.4.3.1 Environmental Health Survey Process

The following process is designed to facilitate the correction of deficiencies and monitor corrective actions. To further identify the Environmental Health Survey process, a flow chart of the sequence of events has been added for reference.

Notification

At least two weeks prior to the on-site survey, DHS-EHD shall provide written notification to the institution or camp to be surveyed; the Deputy Director, Institutions; the Chief, PFAB; and the Health and Safety Officer, Central Office.

Inspection Team

The following personnel shall accompany the Environmental health sanitarian on the survey:

Institutions

- Local safety coordinator.
- Chief of Plant Operations, Chief Engineer, or Building Trades Supervisor.
- Supervisor of the area being inspected.

Camps

- The camp's lieutenant or sergeant.
- Supervisor of the area being inspected.

The camp's ranger, representing the Department of Forestry and Fire Protection, shall always be invited to participate with the inspection team.

Distribution of Health Survey

DHS-EHD shall provide copies of the completed environmental health survey to:

- Warden.
- Deputy Director, Institutions.
- Deputy Director, Administrative Services.
- Deputy Director, Evaluation and Compliance.
- Deputy Director, P&CD.
- Health and Safety Officer.
- The Chief, PFAB.

31020.7.4.4 Fire and Life Safety Survey

Fire and life safety surveys are objective evaluations of institutions and camps to determine if a safe environment exists for all departmental employees and inmates.

The State Fire Marshal's Office conducts a fire and life safety survey at each institution annually and at conservation camps upon request. The inspection is followed by a written report identifying observed deficiencies.

31020.7.4.4.1 Fire and Life Safety Survey Process

The following process is designed to facilitate the correction of deficiencies and the monitoring of the corrective process. To further identify the fire and life safety process, a flow chart of the sequence of events has been added for reference.

Notification

At least two weeks prior to the survey, the State Fire Marshal's Office shall provide written notification to the institution or camp to be surveyed; the Deputy Director, Institutions; The Chief, PFAB; and the Health and Safety Officer.

Inspection Team

The following personnel shall accompany the Fire Inspector on the survey:

Institutions

- Local Fire Chief.
- Chief of Plant Operations, Chief Engineer, or Building Trades Supervisor.
- Supervisor of the area being inspected.

Camps

- The camp's lieutenant or sergeant.
- Supervisor of the area being inspected.

The camp's ranger, representing the Department of Forestry and Fire Protection, shall always be invited to participate with the inspection team.

Distribution of Fire Inspection

The State Fire Marshal shall provide copies of the completed fire inspection to:

- Warden.
- Deputy Director, Institutions.
- Deputy Director, Administrative Services.
- Deputy Director, Evaluation and Compliance.
- Deputy Director, P&CD.
- Health and Safety Officer.
- Office of Compliance.

31020.7.4.5 Plan of Correction

Within 30 days from the date of receipt of an official written environmental health survey from DHS-EHD or fire inspection, the Warden shall submit one copy of a Plan of Correction to the Health and Safety Officer. The Plan of Correction shall be prepared using the appropriate format and shall include the information requested to correct each deficiency. The Health and Safety Officer shall act as the Central Office coordinator for review and approval of the Plan of Correction.

The Health and Safety Officer shall review the Plan of Correction. If problems pertaining to other divisions arise, the Health and Safety Unit shall take the lead and coordinate with that division and the institution to resolve the problem. This approval process shall be completed within 15 working days after the Plan of Correction is received in the Health and Safety Unit.

Resolution of Problems

If the Plan of Correction is considered inadequate and recommendations are made by individual divisions to change the plan, the Health and Safety Officer shall take the appropriate steps to ensure that the affected deputy directors, which shall always include the Deputy Director for Institutions, and the institution meet or otherwise reach consensus on the appropriate corrective action to be taken. In the event a consensus cannot be reached by the affected deputy directors on the appropriate corrective action, the Director shall resolve the difference(s).

Letter of Approval

If the Plan of Correction is approved by the reviewers as submitted by the institution, the Health and Safety Officer shall prepare a letter of approval to the institution for the signature of the Director.

Filing

All Plans of Correction shall be filed with the appropriate control agency. In some instances, the control agency may be required to approve the Plan of Correction.

31020.7.4.5.1 Follow-Up Inspections

Within 90 days after a corrective action plan is approved by the Director, an inspection shall be conducted by staff from the Health and Safety Unit to determine the level of compliance. Proposed capital outlay solutions not currently under way shall be granted extended time frames for follow-up inspections, allowing time to show substantial progress of corrective action(s). However, sufficient written documentation shall be evident at the time of the follow-up inspection; e.g., capital outlay requests, BCPs, etc.

Advance Notice

Each field operation unit shall be afforded advance notification of the dates that a follow-up review shall be conducted.

Entry/Exit Interviews

An entry interview shall be held with local administrators prior to the review activities to delineate the scope and method of the review and identify local resources required to conduct the review. At this time a staff person shall be identified to serve as review liaison between the field unit and the review team. Reviews shall include the inspection of corrective action undertaken on deficiencies cited in the most recent report by DHS for environmental health surveys, or the State Fire Marshal, for fire and life safety surveys. At the conclusion of the review, an exit interview shall be conducted with local administrators delineating review findings. The results of the follow-up review shall be reported to the Chief, PFAB.

Report of Findings

The Chief, PFAB shall report the findings of all follow-up inspections to the Deputy Director, Evaluation and Compliance, with copies to the other managers. If the follow-up inspections or subsequent environmental health surveys or fire and life safety surveys indicate that corrective action has not been taken or is seriously behind schedule, the Chief, PFAB shall inform the Deputy Director, Institutions Division, and the Director by the Deputy Director, Evaluation and Compliance, of the problem with appropriate recommendations for action.

31020.7.4.6 Vehicle Safety

The purpose of the Department's Vehicle Safety Program is to:

- Ensure that all employees possess a valid driver's license appropriate to the vehicle being used.
- Provide appropriate training for vehicle being used.
- Establish a standard policy for promptly reporting vehicle accidents.
- Establish guidelines for checking vehicles, maintaining vehicle data, and handling disabled vehicles.
- Reduce accidents and lower vehicle maintenance repair costs.
- Ensure that all employees are aware of and understand the seat belt policy.

Valid Driver's License

Every employee who drives on official State business shall possess a valid driver's license appropriate to the type of vehicle operated. It is each operator's responsibility to ensure that their license is valid in accordance with SAM Section 750.1.

- All drivers who are expected to drive on official State business shall successfully complete an approved defensive driving course at least once every four years.
- All new employees who are expected to operate vehicles on State business, even if occasionally, shall successfully complete the defensive driver's course as per SAM 750. The supervisor shall immediately request the training officer to enroll the new employee in the next available defensive driver training course given by the DGS.
 - Fork lift operators shall not drive a fork lift until they have successfully completed the appropriate training.

Refresher Course

- Employees who are involved in more than two preventable vehicle accidents within a 12-month period shall be required to attend a refresher defensive driver's training course. The course is coordinated by the DGS.

Safety Equipment

- All passengers and drivers shall use available safety equipment in the vehicles being operated. This includes seat belts and/or shoulder harnesses. Medical exceptions may be granted only by the State Insurance Officer. A detailed explanation of medical reasons for the exception shall be submitted to the Health and Safety Unit and transmitted to the State Insurance Officer.
- Privately-owned motorcycles or motor-driven cycles are not authorized for State business.
- State vehicles shall not be driven from office to home without advance approval of the immediate supervisor

Accident Identification Card, STD Form 269

The driver of a State-owned vehicle involved in an accident shall record all pertinent information on the Accident Identification Card, STD Form 269, found in the glove compartment of the vehicle before leaving the scene of the accident.

If another vehicle is involved, the appropriate portion of the form (front panel) shall be completed by the employee and given to the driver of the other vehicle.

All vehicle accidents which result in an injury to any person or which involve serious damage to the property of others, shall be reported immediately by telephone to the nearest adjusting office of the insurance company listed on the STD Form 269.

Additional instructions are shown on the STD Form 269. Authorized drivers involved in a State-owned vehicle accident shall comply with these instructions. The completed card shall be retained for review by the supervisor authorizing the use of the vehicle and serves as an aid in the completion of other accident reporting forms.

31020.7.4.6.1 Seat Belt Policy

Each employee of the Department shall wear seat belts while operating a vehicle on State business. Management shall make prudent exceptions, after consultation with the State Insurance Officer, for disabled employees who are hindered by the use of such restraint equipment.

31020.7.4.6.1.1 Responsibility Regarding Seat Belt Use

All employees shall attest to having read and understood the provision of the SAM pertaining to the safe operation of vehicles while on State business. The certification document, CDC Form 975, shall be signed by all employees acknowledging compliance.

- Arrangements shall be made to make available to all new employees at orientation meetings an informational film on seat belts. Specific scheduling information shall be given to new employees in institutions/parole regions.

Supervisors

Supervisors shall ensure employees are aware of this policy and shall monitor employee compliance.

Safety Coordinators

Safety coordinators shall ensure a seat belt film is shown to all new employees during their orientation and at other times as appropriate to implement this policy. The safety coordinators shall monitor overall compliance.

Employees

It is mandatory that:

- Any employee operating a private vehicle while on State business or a State vehicle use the belt provided.
- All passengers riding in a private vehicle utilized for State business or any State vehicle use the seat belts provided.
- All seat belts and related restraint systems shall be maintained in operational order and available for use in vehicles as required.

Any employee who fails to use the seat belt (and/or related restraint equipment) shall be subject to appropriate disciplinary action.

31020.7.4.7 Medical Assistance to Employees

The following are considered reasonable limited services which may be provided through use of departmental medical services and staff:

- First-aid treatment.
- First medical treatment of work injury.
- Initial diagnosis and prognosis of work-connected conditions.
- Arrangement for further treatment.
- Evaluation of physical ability of injured to return to work.
- Physical examinations, pre-employment and periodic, for fitness and capability of safely performing arduous and hazardous tasks.

Prevention

Preventive medical measures such as chest x-rays, laboratory tests, immunization, and measures that prevent or minimize hazards of work-connected exposure to contagious diseases may also be provided upon approval by SCIF as a service to employees.

First – Aid Limitations

First medical treatment of work injury shall be limited to injuries that usually do not require more than five calls to a first-aid clinic or disability beyond the date of injury. Injury that requires hospitalization may result in payment of temporary disability compensation or permanent disability, and shall be treated by a physician as listed on the STD Form 621 when there has been no pre-designation of physician by the employee.

31020.7.4.8 Medical Assistance to Visitors/Public

For visitors who become ill or are injured, first-aid is the only medical service that may be provided.

Before discharging the visitor, medical personnel shall be certain that:

- Visitor has been transferred to another physician.
- A friend or relative accepts responsibility for further care of the ill or injured visitor or (in case no further medical attention is necessary) until proper care is available.

Financial Responsibility

When necessary to call outside physicians and/or ambulances, it shall be made clear that the visitor is financially responsible for medical care, treatment, and other services provided.

Records

Complete records shall be kept of all such first-aid services rendered. Records shall fully identify the person treated, date of injury, state the full diagnosis, give the cause for treatment (e.g., description of accident, etc.) and detail the services rendered, including drugs and supplies used.

Accident Report

When the visitor alleges injury or was involved in an accident on State property, it is essential that a report be made on Accident Report, STD Form 268, in accordance with the provisions of this manual.

31020.7.5 Occupational Injuries/Illnesses

Every employee shall report an injury/illness immediately (within 24 hours) and inform supervision of the details of the injury/illness. Failure to do so may jeopardize claims for workers' compensation benefits.

The appropriate order of action to be taken in accordance with the Workers' Compensation LC 4600 is outlined in detail in Workers' Compensation Benefits (Employees) and Inmate Injuries of this section.

SCIF is the Department's agent in administering the State workers' compensation benefits. SCIF carries out the details of claims adjustment including medical contracts and evaluations, payment of approved benefits, representing the Department in matters before the Workers' Compensation Appeals Board (WCAB), administering vocational rehabilitation coordination when necessary, and notifying the Department when permanent disability warrants a stipulated award or a compromise and release (C&R) settlement.

All issues of dispute shall be handled and resolved by SCIF and/or WCAB.

The above process shall not inhibit the employee's right of appeal to the WCAB. It is recommended that employees try to resolve any issues with SCIF and/or the appropriate supervisors.

31020.7.5.1 Employee's Workers' Compensation Benefits

Workers' Compensation Temporary Disability (WCTD)

Workers' compensation provides injured employees and their dependents a means of support when they are unable to work because of a job-related injury, workers' illness, or death, and minimizes economic hardship and compensation for physical suffering. Benefits include medical care, the temporary cost of transportation to and from medical appointments, prescription charges, death benefits, and vocational rehabilitation if the employee is a qualified injured worker and not able to return to former employment. For more detailed information, refer to the SPB Transaction Manual and Controller's Payroll Procedure Manual. An employee may receive WCTD plus supplementation of accrued sick leave or vacation benefits, up to the gross regular salary.

- An employee may receive a gross amount (WCTD) plus supplementation up to the gross salary that would have been received for the period of disability had the injury not occurred.
- An employee cannot receive less than the minimum WCTD compensation rate of \$112.00 per week.

Industrial Disability Leave (IDL)

A disabled employee, included under Division 4 of the LC, may receive IDL benefits in lieu of WCTD. These benefits are for full normal pay for the first 22 working days and then reduced to two-thirds of the gross monthly salary for the remaining period of time the employee is eligible to receive benefits up to a maximum of 52 weeks, within two years from the first day of disability.

- EIDL is extended to non-represented employees who are in supervisory, management, or confidential positions and who are responsible for the supervision of represented employees who are eligible for EIDL (DPA 599.769). The enhanced benefit shall be equivalent to the insured employee's net take-home salary on the date of occurrence of injury. Eligibility and benefits may continue for no longer than one year after the date of occurrence of the injury. For the purposes of this section, "net salary" means the amount of salary received after federal income tax, state tax, and the employee's retirement contribution has been deducted from the employee's gross salary. To determine eligibility of rank and file employees, refer to the specific bargaining unit contract.

Assault

- A criminal act of violence on the entitled employee who was performing in the line of duty.

Criminal Act of Violence

- An unlawful act which results in injury to the entitled employee.

How to Request EIDL

If the supervisor and reviewing officer believe that the injury resulted from an inmate/parolee assault, then a separate memorandum with a recommendation shall be prepared for the signature of the hiring authority. The memorandum shall include the following:

- Name of employee.
- Date of injury.
- Copy of SCIF Form 3067.
- Copy of all medical information.
- Statement that the employee is receiving IDL.
- Circumstances surrounding the injury; e.g., "Injury occurred at the hands of an inmate as noted on the 'Institution Incident Report' dated _____."
- Any available witness reports.
- Recommendation for EIDL based upon the stated facts.

Appeal

Should the claim for EIDL be denied by the hiring authority, the employee's excusing remedy for redress is the Director. The appeal shall contain all of the pertinent facts surrounding the assault and any available supporting documentation.

31020.7.5.1.1 Supervisor's Responsibility

Revised January 16, 2008

Upon receiving a report of an employee's injury/illness, the supervisor shall:

- Ensure that the employee receives appropriate medical assistance, which involves:
 - First-aid for minor injuries.
 - Inform the doctor of the employee's work duties and the Department's Limited Term Light Duty Assignment, herein referred to as Light Duty policy (See DOM, Chapter 3, Article 4) which may enable the employee to return to work earlier.
 - Determine whether or not the employee is able to work.
- Prompt medical treatment when necessary.
- Transportation may include a State vehicle, ambulance or taxi and a designated State representative to accompany the employee for medical treatment.
- The treating physician for the first 30 days shall be selected from the STD Form 621, although in cases of extreme emergencies, the injured shall be transported to any available doctor, hospital, or public medical service.

Serious Injury

- Notify immediately by telephone the departmental Health and Safety Officer of accidents involving death or serious injury/illness. The Health and Safety Officer shall notify the DIR, Division of Occupational Safety and Health.
- Identify safety hazards and either take action to eliminate or minimize the hazards or if corrective measures exceed the supervisor's authority, report the existing hazard to the local safety coordinator.
- Obtain copies of the 'Fifteen Questions' pamphlet to give to injured employees reporting an occupational injury. The supervisor's review on SCI Form 3067 shall indicate if and when (by date) the 'Fifteen Questions' pamphlet was given to the employee.

Supervisor's Guide

A supervisor's guide 'Helping Your Injured Employees' which answers many questions concerning workers' compensation benefits is available from the local personnel office, safety coordinator, or the Department's Health and Safety Unit.

Documentation

- Complete the supervisor's review in detail to indicate all the facts surrounding the injury.
- Include a recommendation for EIDL if the physical injury resulted from inmate/parolee assault.
 - SCIF Form 3067 shall be filed even if the supervisor does not agree with the employee's claim for benefits. The filing of this report is not an admission of liability. However, it does start the Statute of Limitations running when filed and the employee receives a notice of benefits or the employee's 'Fifteen Questions' pamphlet.

- In all cases of loss of time from work:
 - Maintain personal contact with the employee who is unable to return to work.
 - Arrange for completion of CDCR Form 998-A, Employee's Attendance Report.
 - Discuss return to work with the employee, physician, return-to-work coordinator and other appropriate staff.
 - State on the supervisor's review (in the "comments" section of the CDCR Form 998-A) that the attending doctor was contacted and advised of the availability of modified work assignments, or
 - Explain why contact and light duty discussion did not occur.
- Complete SCIF Form 3067, Employer's Report of Occupational Injury or Illness, within 24 hours after knowledge of the injury or illness. If there is any doubt as to whether the injury was work-related as a result of State employment, the supervisor shall check the appropriate box. Only factual, not subjective, information should be reflected in the supervisor's statements.
- Upon completion, forward the original and six copies to the reviewing officer.
- In those injuries which involve immediate medical assistance from a private physician, complete three copies of SCIF Form 358, Medical Service Order, and distribute this form as follows:
 - Employee - one copy.
 - Supervisor - one copy.
- Workers' Compensation file - one copy.

Physician's Designation

- Unless the injured employee has on file a previously completed Physician's Designation, CDC Form 912, select the treating physician from the Notice to Employees, STD Form 621.
- Complete Medical Service Order SCIF Form 358, and give to the employee prior to receiving medical care, if possible.

Medical Service Order

- If the injured employee is not able to return to full duty within five working days from the date of injury, notify the local RTWC immediately.

31020.7.5.1.2 Employee Responsibility

The employee shall:

- Immediately report injuries (within 24 hours) and inform the supervisor of the details surrounding the incident. Failure to promptly report the injury promptly may result in delay of benefits.
- Obtain necessary first-aid treatment (from the medical department if the injury occurs in an institution) and return to work if medically feasible.
- If the employee is unable to return to work or if further medical treatment is required:
 - Inform their supervisor immediately.
 - Participate in examinations and treatment by a physician or facility prescribed by the Department, or the employee's own physician if the Physician Designation, CDC Form 912 was submitted prior to the injury.
 - Complete and submit the Employee's Attendance Report, CDCR Form 998A, for all time lost because of the injury.
- Return to work as soon as medically feasible.

31020.7.5.1.3 Reviewing Officer's Responsibility

The reviewing officer (second level supervisor) shall:

- Review the content of SCIF Form 3067.
- Make an investigation at the scene of the accident to reconstruct the circumstances.
- Talk to the injured and any witnesses to assure that adequate information regarding the accident has been recorded.
- Assure that the date of the report and the date of injury are within 24 hours of each other. Injuries shall be reported within this time frame to help ensure prompt delivery of benefits.
- Initiate changes to minimize the potential recurrence of a similar accident.
 - Identify and make recommendations for additional OJT, when appropriate.

- Upon completion of review of the accident, send all copies of SCIF Form 3067 to the Personnel Office.

Distribution SCIF Form 3067

An original shall be made and the appropriate number of copies shall be forwarded to the Personnel Office for the following distribution:

- Original and one copy to SCIF who shall forward the copy to the DIR.
- Local safety coordinator (follow-up and recording).
- Personnel/business manager's Workers' Compensation file.
- Reviewing officer.
- Employee's supervisor.

31020.7.5.1.4 General Benefit Delivery – Personnel Transactions

Revised January 16, 2008

Upon receipt of SCIF Form 3067, if time is lost beyond the day of the injury or if the employee is treated by a private physician, Personnel shall forward the form to the SCIF Office.

- This form is considered "confidential" and is not automatically made accessible to the injured employee or their attorney or representative. Upon specific request, the employee or their designee shall be given an opportunity to view the completed form in accordance with the provisions of Section 13030 of this manual.
- A separate file is maintained for workers' compensation claims and related material. Access to this file by other staff shall be limited to those who have a "need to know" in order to perform their duties as they relate to the status and processing of the claims.

Injured employees and their representatives are referred to the SCIF office for information.

The Personnel Assistant II shall prepare and maintain these records.

The unit timekeepers shall notify personnel of time lost.

When an employee goes on temporary disability (TD), the local Personnel Transactions Section shall send the employee the following:

- Industrial Disability Benefits Information, STD Form 619, provides the employee with benefit descriptions; i.e., Industrial Disability Leave (IDL), TD, or TD with supplementation.
- Benefit Option Selection, STD Form 618, used by the employee to notify the Personnel Transactions Section of the benefit selected.

Employee Response

The employee has 15 calendar days from the date typed on the STD 618 to notify the Personnel Transactions Section of the benefits selected. If no notification is made, the Personnel Transactions Section shall provide IDL benefits if IDL benefits are greater than TD benefits. If the injured employee is incapable of making decisions for themselves, a guardian/trustee shall be requested.

The employee shall submit CDCR Form 998-A, Employee's Attendance Report, each pay period while on TD, IDL, or Employee Response EIDL.

The injured/ill employee may, after 30 days from the date an injury/illness is reported, exercise the right to be treated by a personal physician/facility within a reasonable geographic area. The employee may, at any time, request of SCIF a change of treating physician if existing treatment is felt to be unsatisfactory.

The injured employee shall participate or cooperate in a reasonable vocational rehabilitation plan or lose entitlement to EIDL or IDL and shall be placed on TD with supplementation (if otherwise eligible). The employee shall have 15 calendar days to notify the Department to supplement TD payments.

31020.7.5.2 Inmate Injuries

Inmates shall:

- Report an injury/illness immediately (within 24 hours) and;
- Inform supervision of the circumstances of the injury/illness.

Failure to complete the above actions may jeopardize or delay any benefits.

31020.7.5.2.1 Distinguishing Non-Occupational Injuries

Departmental staff and inmates shall report all injuries sustained by inmates. This reporting requirement enables the Department to provide prompt medical care and to provide an accurate, detailed history of the cause of the injury. An accident investigation shall be conducted to determine the cause of the injury and necessary steps to avoid further similar incidents.

Reporting

Because of the high cost of workers' compensation and vocational rehabilitation, it is extremely important that inmate injuries be differentiated from industrial (job-connected) and non-industrial injuries. For example, an injury which occurred in a vocational class may or may not be industrial depending on whether the job performed is production oriented. An injury which occurs in the welding shop under the supervision of maintenance personnel is an industrial injury if the inmates are in an assigned work position.

Recording Guidelines

To provide a uniform method for reporting and recording non-occupational injuries to inmates, the following guidelines shall be followed:

- When an injury is reported to the supervisor, they shall record the details of the injury on the reverse side of the Employer's Report of Occupational Injury or Illness, SCIF Form 3067. All the same information shall be recorded as though the injury was an occupational injury. Be sure to mark the proper block indicating that the injury is not a work-related injury or illness.
- Forward a copy of the completed SCIF Form 3067, after supervisor's review, to the inmate's C-File and the local safety coordinator for their review and appropriate action.
- The medical department shall provide appropriate treatment or medical referral, then complete a CDC Form 7219, Medical Report of Injury or Unusual Occurrence giving all the details of the injury, diagnosis, and prognosis. Forward copies to the local safety coordinator and the inmate's C-File.

Inmate Injury Recording

In order to provide a convenient, centralized record of inmate injuries, illnesses or deaths which fall within the definition of a recordable occupational injury or illness, the Log 200 shall be maintained by the medical department.

- This shall be a separate log from that maintained for employee cases.
- This log may be used to record all injuries to inmates which require more than first-aid treatment.
 - Work injuries on the log shall be identifiable as such.

The SCIF Office handling the workers' compensation claim for an occupational injury shall be provided with copies of SCIF Form 3067 and CDC Form 7219 and supporting documentation, which is completed for a non-occupational injury/illness suffered by the inmate at any time during their incarceration. This information is used to make a proper determination for workers' compensation benefits.

31020.7.5.2.2 Occupational Injuries

Under the provisions of Chapter 1347 of the Statutes of 1976, inmates are eligible for workers' compensation benefits for injuries which occur during their incarceration while engaged in assigned work as long as the inmates are not injured as the result of an assault in which they were the initial aggressor or as the result of intentional acts of the inmates to injure themselves. These provisions:

- Ensure to injured inmates and those dependent upon them an adequate means of subsistence after their release if they are unable to work.
- Provide any and all reasonable medical treatment to cure or relieve the inmate from the effects of the injury/illness.
- Provide for rehabilitation of injured inmates so that they may engage in suitable and gainful employment upon their release.

The requirements of CAL-OSHA (LC 6300 through 6708) do not apply to inmate injuries or illnesses with the exception of LC 6413 and 6413.2.

The reporting requirements apply to inmates' occupational injuries in the same manner as with employees, except:

- All medical treatment to an inmate worker shall be rendered by, or at the direction of, the institution medical department.
- An inmate worker who is unable to return to work immediately shall be placed in lie-in, temporary medical unassigned, or permanently disabled status by action of the institution medical department. The case shall be presented to the classification committee for confirmation of the action.

The workers' compensation law is more specific and detailed than this section which is general and simplified as much as possible. If there is any conflict, the law takes precedence and shall be used as the basis for all decisions.

31020.7.5.2.2.1 General Responsibility

To prevent or reduce the severity of injuries and to minimize the Department's costs, the following are of special importance:

- For administrative staff:
 - Establish a prompt reporting system for work-related injuries or diseases to inmates.
 - Establish procedures which call for follow-up by a supervisor to ensure that proper treatment is provided to assist the inmate to return to an appropriate work assignment as soon as medically feasible, and to see that rehabilitation services are offered when needed.
- For work crew supervisors or other appropriate employees:
 - Ensure that inmates wear proper clothing on the job, including headgear and footwear, and that all safety devices are used and all safety procedures are followed.
 - Ensure that first-aid is administered for minor injuries and, if necessary, to arrange for medical treatment by a departmentally-employed physician upon discovery of a work injury to an inmate.
 - Report the results of the accident or illness, the actual or probable cause, the action taken, and the known facts about the accident or illness.
 - Arrange transportation with appropriate security precautions for the injured inmate using State vehicle, taxi, ambulance, or other appropriate vehicle.

SCIF reporting shall be done within five calendar days from the time the inmate's injury was known to need medical attention other than first-aid. This includes the following:

- Fatalities attributable to the work assignment.
- Injuries or illnesses which are work-related and result in the loss of a work day.
- Non-fatal injuries or illnesses which do not result in any lost work but do result in a transfer to another assignment, require medical treatment (other than first-aid), or involve loss of consciousness or restriction of work or motion.

If there is any doubt about the need for treatment beyond first-aid, arrangements shall be made for an examination by a physician and the injury or illness shall be reported to SCIF as outlined above. A SCIF Form 3067, Employer's Report of Occupational Injury or Illness, shall be completed whenever there is a disagreement between the inmate and Department staff regarding eligibility of the inmate for workers' compensation benefits.

The institution shall designate a staff person to coordinate the workers' compensation program for inmates. The duties and responsibilities of this assignment include, and are not limited to the following:

- Ensuring that all SCIF forms are completed as appropriate.
- Transmitting the original of SCIF Forms 3067 and 3010 to SCIF within five calendar days from the date the inmate's injury was known to require medical treatment other than first-aid. Copies of the forms shall also be forwarded to the following:
 - The Division of Labor Statistics and Research, P.O. Box 965, San Francisco, CA 94101.
 - The reviewing officer.
 - The institution safety coordinator (for follow-up and record).
 - The records officer for the inmate's C-File.
 - The Health and Safety Office, Central Office.

31020.7.5.2.2.2 Responsibility of the Workers' Compensation Coordinator for Inmates

Each institution's business manager and the assistant RPA of each region shall:

- Oversee and coordinate the Workers' Compensation Program for inmates to ensure prompt, uniform reporting and follow-up.
- Serve as the institutional or regional parole contact person for information and inquiries from Central Office, SCIF, the DIR, other state agencies, and the public for work-related injuries to inmates.
- Recommend to the Warden/RPA and the Departmental Health and Safety Officer any needed changes in the Workers' Compensation Program for inmates.

31020.7.5.2.2.2.1 Notification to Inmates of Workers' Compensation Benefits

All inmates shall be given general information on the availability of workers' compensation benefits for injuries sustained in the performance of assigned work at the time of their commitment or transfer to the Department.

The same information shall be posted at every institution and camp in conspicuous locations where inmates throughout the facilities shall have access to it. It is especially important that the information be posted at, or reasonably near, inmate work locations.

The Department shall provide to injured inmates individual notice of the vocational rehabilitation services that are available to inmates disabled for 28 days or more.

31020.7.5.2.2.3 Preparation and Use of Required Forms

SCIF Form 3067

Any injury to an inmate which results from the performance of their assigned work as defined in DOM 31020.7.5.2.1 of this chapter, regardless of the seriousness of the injury or the treatment required, shall be reported on SCIF Form 3067. The supervisor of the injured inmate shall complete the form in sufficient detail to give an accurate picture of the circumstances which caused the injury and forward it to their supervisor. Only facts, not opinions based upon speculation, shall be documented.

The inmate's CDC number and the ward "inmate" in red ink shall be included in item 6; date of imprisonment shall be shown in 12A; N/A shall be shown in items 13 and 13A. SCIF Form 3067 is then forwarded to the reviewing officer.

The reviewing officer shall:

- Review SCIF Form 3067 and make an investigation at the scene of the accident to reconstruct the circumstances, question the injured inmate and any witnesses, and generally ensure that adequate information regarding the accident has been recorded.
- Initiate any changes to minimize the potential for another similar accident, including additional OJT if needed.
- Submit a "Supplemental Information Regarding Work Disability", SCIF Form 68a if SCIF Form 3067 is found to contain inaccurate information. Additional information is provided for further clarification of circumstances surrounding the injury. It is important that the questionable facts about the alleged circumstances of injury or death be reported to SCIF so that it may investigate as needed.

Examples of circumstances requiring a supplemental report to SCIF are when:

- The date of the inmate's release from prison becomes known after the injury.
- A parolee receiving temporary or permanent disability benefits is returned to prison.
- A parole violator, who had been receiving temporary or permanent disability benefits, is subsequently released from prison.
- For a work-related injury or illness which required the medical services of a physician, request the preparation of the "Doctor's First Report of Occupational injury or illness", SCIF Form 3010 from the medical department.

Any forms, reports, or correspondence between the Department/institution/parole region and SCIF become the property of SCIF and shall not be released to any inmate or employee except through the SCIF adjuster in charge of the claims file.

Distribution

SCIF Form 3067 and copies shall be forwarded to Personnel for the following distribution:

- Original and first copy to SCIF which forwards the copy to the DIR.
- Second copy to the institution's file.
- Third copy to the inmate's C-File.
- Fourth copy to the Health and Safety Unit.

31020.7.5.2.2.4 Notice of Inmate Death

Submitting SCIF Form 3067 serves to notify the Division of Industrial Accidents of the death of an inmate from work-related causes. The Division of Labor Statistics and Research shall be immediately notified by telephone or telegraph of the inmate's death and provided the following information:

- Inmate's name.

- Marital status.
- Age.
- Cause of death.
- Date of death.
- Job classification.

31020.7.5.2.2.5 Acceptance or Rejection of Claim

SCIF notifies the injured inmate by form letter of the claim status and benefits. Departmental staff shall ensure that the injured inmate receives this information promptly. If the claim is rejected, the notice includes instructions for appealing SCIF's decision.

31020.7.5.2.2.6 Appeals

If SCIF denies a claim, the inmate may appeal to the Workers' Compensation Appeals Board (WCAB). A WCAB judge is then assigned to the case and the institution or parole office is notified of the time and place of hearing.

If the inmate requests or if the judge determines the issues are sufficiently complex, an attorney shall be assigned. The inmate shall select an attorney from a panel of qualified workers' compensation attorneys proposed by the WCAB judge in the geographic area. The WCAB judge shall set the attorney's fee which must be paid by the Department if the proceedings are held while the inmate is incarcerated. If the proceedings continue after the inmate is released to parole or discharged, the workers' compensation award stipulates what portion, if any, of the attorney's fee shall be paid by the Department. The workers' compensation attorney shall be accorded the same rights and privileges, and subject to the same restrictions, as any other attorney retained by inmates.

Any hearing requiring the inmate's appearance while incarcerated shall be held at the place where the inmate is housed.

31020.7.5.2.2.7 Workers' Compensation Benefits

Injured inmates are not entitled to any temporary disability indemnity benefits while incarcerated in a State prison. Inmates may qualify for full or partial temporary disability indemnity benefits upon release from prison. The inmate's eligibility shall be determined by SCIF. Such benefit payments shall cease for any period of time during which the inmate is re-incarcerated.

Pre-Release Referral

During the pre-release process, an injured inmate's eligibility for temporary or permanent disability indemnity payments shall be determined by institution or parole staff and SCIF. The pre-release referral material shall include the status of any claim for workers' compensation benefits.

31020.7.5.2.2.8 Medical Treatment

SCIF Form 3010

An injured inmate shall be provided necessary and reasonable medical treatment. The Department has control over treatment provided to an injured inmate while incarcerated in a State prison. The medical department shall complete a Doctor's First Report of Occupational Injury or Illness, SCIF Form 3010, for each industrial injury for which an inmate is treated.

Consulting Physician

In serious cases the inmate is entitled, upon request, to have the Department pay for the services of a consulting physician. The Department shall select the consulting physician who shall be accorded the same privileges and courtesy extended to any physician who provides services to the Department. The provision for a consulting physician in serious cases is designed to meet the possibility of disagreement between the injured inmate and departmentally employed medical staff. Departmental staff shall make a reasonable physician effort to select a consulting physician who is acceptable to the inmate. This may be accomplished by offering the injured inmate a choice of three physicians from whom to choose. The provisions of Section 54040 of this manual are applicable if the costs are borne by the inmate or their representative.

Any request from injured inmates to have the services of a physician for consultation shall be approved by the CMO, or by the departmentally employed physician in the parole division, who shall notify the institution business manager, or in the case of a parolee, the Department's Health and Safety Officer, if it appears that there shall be a recurring need for the physician's services. Departmental staff shall provide whatever assistance is reasonably necessary to engage and facilitate the services of a consulting physician when requested by the inmate.

If staff must arrange for medical treatment of injured inmates from persons who are not employees or under contract to the Department, the physician, ambulance service, or hospital shall be selected from those listed on the Notice to State Employees, STD Form 621, when possible. This form is

posted at each State office and place of work. All other ambulance service and hospital arrangements shall be made as directed by the physician until departmental medical staff assume responsibility for the case.

An injured inmate who required medical treatment beyond first-aid shall not be permitted to return to any work assignment without approval of the CMO or treating physician.

Treatment Upon Release

If medical treatment is necessary after the inmate's release from State prison, SCIF becomes responsible for the first 30 days following the reporting of the injury. Thereafter, the released inmate may choose any physician or facility until treatment is no longer required subject to SCIF rules. SCIF shall be notified of the name and address of the physician or facility selected.

31020.7.5.2.2.9 Payment of Claims

Special Appropriation

Reimbursement to SCIF for the cost of benefits and related expenses shall be paid from a special appropriation established for that purpose.

Billing Code

The Assistant Deputy Director, Financial Management and Support Services Branch, shall notify both the Institutions and P&CSDs each year of the correct billing code which shall be inserted on SCIF Form 3067 in the space provided for "Payroll Agency Code or SCIF Policy No." SCIF submits its invoices directly to the Department's accounting office in Central Office. The eligibility of each inmate whose name and departmental identification number appears on the invoice shall be checked against the accounting office copy of the SCIF notification of acceptance or of the WCAB's award. If valid, a claim schedule shall be submitted to the SCO.

Expenses in Excess of Normal

Any expenses for departmentally authorized medical services during the inmate's incarceration which are attributable to the workers' compensation claim and in excess of the medical services normally provided to the inmate in these circumstances shall be charged to the special appropriation.

Normal Medical Services

All normal medical services currently provided shall continue to be funded from the Department's support appropriation. Additional costs to the Department may include, but are not limited to, special consultant services required by the inmate, special examinations and treatment necessary to evaluate workers' compensation claims, and the need for medical staff to testify at the appeal hearings.

Attorney Fees

If the inmate is represented during any appeal proceedings by an attorney selected from the panel provided by the WCAB judge, the attorney's fee shall be determined by the WCAB judge and paid by SCIF.

Special Liaison Duties

Any additional costs incurred by the Department, clearly necessary as a result of workers' compensation claims for inmates shall be charged to the special appropriation. An example is special liaison duties requiring additional staff travel and overtime.

Invoices

The institution/parole region shall submit invoices to the accounting office in Central Office, listing additional expenses by inmate name and identification number, with supporting documentation showing the reasons for the expenses attributed to workers' compensation.

31020.7.5.2.2.10 Rehabilitation Services

Vocational rehabilitation services needed to determine an inmate's eligibility as a qualified injured worker and to develop any required vocational rehabilitation plan shall be provided by a qualified rehabilitation representative chosen by the Department and SCIF. Such services shall be provided the inmate as soon as feasible and prior to the inmate's release from custody if possible, to prepare the inmate for suitable gainful employment upon release.

Notices

In cases where a work-related disability continues beyond 28 days, the institution's workers' compensation coordinator for inmates shall notify the injured inmate that rehabilitation services are available. A copy of the notice shall be forwarded to DOR and SCIF.

Rehabilitation Program

The institution's workers' compensation coordinator for inmates shall initiate a rehabilitation program for cases where there is a reasonable expectation that the injured inmate shall benefit from a rehabilitation program. When an eligible injured inmate is released, the institution's workers' compensation

coordinator for inmates shall notify SCIF so that SCIF can initiate a rehabilitation program. The plan shall include the following elements:

Inmate Residence Plan

- For those cases in which the rehabilitation program shall not be completed prior to the inmate's release or in which the rehabilitation program does not start until the inmate is released because the injury occurred shortly before release, it is important to ensure continuity between the rehabilitation services provided by the institution and those available in the area where the inmate plans to reside upon release. This means that the inmate's choice of residence may be strongly influenced by the availability of a particular rehabilitation service.
- A written description of the rehabilitation plan shall be presented to the Institution Classification Committee or designated subcommittee (if prepared by parole staff and SCIF) for approval. The written description shall be included in the inmate's C-File, and a copy shall be given to the inmate. The rehabilitation plan shall be forwarded to the rehabilitation bureau consultant of the DIR.

31020.7.6 Return-to-Work Program

Revised January 16, 2008

The Department shall make reasonable accommodation to the known physical or mental limitations of handicapped applicants or employees, including persons who become disabled while employed by the Department.

This requires maintenance of an active Return-to-Work (RTW) Program for industrially injured employees, and to the extent possible, those who are disabled as a result of non-industrial factors. This program shall:

- Facilitate the early return to work of injured employees (see DOM, Chapter 3, Article 4, Limited Term Light Duty Assignments).
- Provide a process for rehabilitation, transfer, or other solutions for long-term disability cases.

The goal of the program is to reduce the average number of lost time days resulting from industrial injuries. Attainment of the reduction goals established requires strong RTW committees and accountability of management. Continued effort in reducing time lost from industrial accidents is essential.

31020.7.6.1 Objectives

Revised January 16, 2008

Return occupationally injured employees to work as soon as medically possible to departmentally identified positions or develop an alternate plan of employment.

Minimize suffering, financial loss, and time loss because of an employee's occupational injury or illness through a planned, systematic program. The program requires that:

- Employees and supervisors report injuries promptly.
- Employees receive prompt medical attention.
- Communication be maintained between the injured employee and the institution/parole region RTWC and/or the employee's supervisor.
- Temporary light duty assignments be provided in accordance with the Department's Light Duty policy (see DOM, Chapter 3, Article 4).

Reduce workers' compensation costs.

Involve the Departmental Health and Safety Officer, the area RTWC, the immediate supervisor of the injured employee, and the SCIF claims representative in a structured planning process for potential RTW problems and follow-up of long-term disability cases.

The program shall be maintained in all institutions, parole regions, and Central Office.

31020.7.6.2 Departmental Health and Safety Officer's Responsibility

The Departmental Health and Safety Officer shall:

- Assist area RTWCs and councils with solving industrial (and non-industrial, as feasible) injury case problems.
- Assist in the establishment of area RTW council and participate in area RTW council meetings at least on a quarterly basis.
- Provide information on RTW options and employment opportunities.
- Arrange for services of a qualified rehabilitation representative as requested.
- Coordinate RTW council meetings for institution and parole region committees.
- Assist in the establishment and coordination of Early Intervention Programs at each institution and parole region.

31020.7.6.3 Area Return-to- Work Program Coordinator's Responsibility

Revised January 16, 2008

Each institution and parole region shall designate an RTWC who shall:

- Serve as a member of the area RTW committee and work with the appropriate offices of SCIF.
- Schedule RTW council meetings.
- Identify and follow up on compensable injury cases and maintain appropriate monthly records.
- Establish reasonable RTW plans and time frames.
- Involve and advise supervisors and employees in working toward an equitable solution.
- Maintain and/or ensure that supervisors maintain communications with injured employees.
- Serve as the local early intervention coordinator.

31020.7.6.4 Area Return-to- Work Councils

Each institution and region shall establish an RTW Council to assist the RTWC in reviewing disability cases.

31020.7.6.4.1 Responsibility

The RTW Council shall:

- Review all cases involving injured employees who may have potential problems returning to their normal job duties.
- Discuss all claims within that institution/parole region's jurisdiction which have an Application for Adjudication pending with the Workers' Compensation Appeals Board (WCAB). This discussion develops current information to resolve disputed issues and encourage settlement.
- Determine appropriate referrals to the Early Intervention Program.

Action Plan

- Develop for each case reviewed, industrial or non-industrial, a plan of action to return the disabled employee to productive employment.

The supervisor of the injured employee, and/or person familiar with the status of the case, shall be included in the council discussions as often as possible.

31020.7.6.4.2 Membership

At minimum, the RTW Council shall consist of a person with authority to settle, a representative from personnel and safety, a SCIF claims representative, and a member from the Health and Safety Unit. The RTWC shall be the chairperson.

31020.7.6.4.3 Meetings

The RTW Council shall meet on a regular basis at least once quarterly.

31020.7.6.4.4 Minutes

Minutes of the RTW Council shall be taken by staff provided by the institution/parole region and sent to the Departmental Health and Safety Officer within ten working days following the meeting. Minutes shall be marked "Confidential" and treated as such.

Minutes shall include the following:

- Name of injured employee.
- Age of injured employee.
- Occupation at time of injury.
- Length of employment with the Department.
- Nature of injury (including brief description of how injury occurred).
- Whether claim is litigated (application filed with the WCAB).
- Whether attempts have been taken to return the employee to work and the results of these attempts.
- Plan of further action to be taken.

31020.7.6.5 Vocational Rehabilitation Training

Revised January 2008

Generally, employees disabled as the result of an industrial accident or illness shall be offered vocational rehabilitation if they cannot return to their normal and regular employment.

- The area RTWC shall meet with the rehabilitation representative to review the proposed rehabilitation program.

- The area RTWC shall provide a recommendation to the hiring authority.

31020.7.6.6 Program Evaluation

Revised January 2008

In evaluating a reduction in time, the severity rate shall be used as the measure.

CAL/OSHA Form 200

The Log and Summary of Occupational Injuries and Illnesses, CAL/OSHA Form 200 ("Log 200"), shall be reviewed by the Departmental Health and Safety Officer. This Log 200 shall be compiled by the departmental safety coordinator from data provided by institutional and regional staff. All copies of the required Log 200s shall be forwarded to the Office of Insurance and Risk Management as requested.

31020.7.7 Early Intervention

The Department is committed to implementing Early Intervention (EI) as a major component of the RTW Program to conserve fiscal and human resources.

EI ensures that all parties involved in workers' compensation cases are fully informed of available options, that decisions are reached expediently, and that action is taken to implement those decisions in a timely manner.

31020.7.7.1 Objectives

Maintain EI as a component of the RTW Program, at all institutions/parole regions and Central Office.

Return industrially injured/ill employees to work as soon as possible. Many injured/ill employees don't need referral to EI because they are receiving benefits and can be expected to return to work.

Assist the employee in locating suitable placement or request ordinary or disability retirement from the PERS if it appears that the employee cannot return to the usual and customary job.

31020.7.7.2 Reports

To ensure that EI functions properly, the following actions are necessary:

Injury Reporting

- Each institution/parole region and Central Office shall develop a system to ensure that employees and supervisors report injuries promptly (within 24 hours). In the institutions, job injuries shall be reported to the institutional personnel officer. In Paroles/Central Office, injury reports shall be submitted to the Personnel Office, Central Office. The reports ultimately shall be forwarded to the Health and Safety Unit.

SCIF Form 3067

- The local RTWC shall develop a system for reviewing accident/injury reports (SCIF Form 3067s) on a routine basis, at least weekly. The original and a copy of the forms shall be sent to SCIF and a copy to the Health and Safety Unit.
- The local RTWC shall maintain frequent communications with the SCIF adjuster and the EI counselor so that appropriate and timely decisions can be made.
- The local RTWC shall keep the Health and Safety Unit informed as to the status of the most sensitive workers' compensation cases.

31020.7.7.3 Early Intervention Counselor Visits

The Early Intervention (EI) Program provides an employee who has suffered an EI industrial injury up to two visits with a professionally trained counselor. The EI counselor provides helpful information to the employee and also assesses the ability of the employee to return to work. This assessment shall be provided to the area RTWC and the SCIF adjuster. Additional visits may be authorized by the RTWC and/or SCIF.

31020.7.7.4 Early Intervention Counselor Qualifications

An EI counselor shall usually be an experienced rehabilitation or employment counselor who has:

- Developed and implemented RTW/vocational plans.
- Evaluated, counseled, and placed vocationally handicapped individuals.

31020.7.7.5 Early Intervention Counselor Selection

The EI counselors are selected geographically for each institution by the Department and SCIF. The Health and Safety Unit shall train the EI counselors regarding specific departmental personnel policies and work rules.

31020.7.7.6 Early Intervention Counselor Role

The EI Counselor shall receive employee referrals:

- From the local RTWC.
- From a medical panel or personal physician. A medical panel is composed of local medical providers for a geographic area. A list of local medical panel members shall be posted in all work areas to assist employees in seeking medical treatment.
- From the Health and Safety Unit.
- From SCIF.

31020.7.7.7 Early Intervention Counselor Responsibility

The EI counselor shall:

- Make contact with the injured employee within two working days of referral.
- Explain all available benefit options, e.g., employment, medical, rehabilitation, retirement, etc.
- Provide reality counseling, which helps the employee adjust to the disabling condition.
- Provide reassurance to the employee that the Department is concerned about their well-being.
- Formulate an initial assessment regarding the injured/ill employee's potential for return to work.
- Provide ongoing feedback to the local RTWC and SCIF adjuster.
 - If the employee is still working, assess the job status to assure satisfactory performance and positive employee attitude.
 - If the employee is not working, assess the potential for return to work.
- Make a final recommendation to the local RTWC concerning potential work status and any work limitations.
- Be available on short notice to the following:
 - Medical panel members.
 - Business managers/local RTWCs/ institutional personnel officers.
 - SCIF adjusters.
 - Health and Safety Unit.
- Attend all local RTW meetings.
- Maintain appropriate record keeping and reporting as necessary.

31020.7.7.8 Area Medical Panel Responsibility

The area medical panel shall:

- Provide first-aid and/or medical treatment to injured employees.
- Identify employees for EI services.
- Act as consultants when employees opt to use their private physician.
- Provide medical, psychological, and psychiatric evaluations requested by SCIF.
- Evaluate the employee's potential for return to work and report to SCIF and the local RTWC.
- Maintain ongoing and frequent communications with the local RTWC and the EI counselor.

31020.7.7.9 Return-to-Work Coordinator Responsibility

Revised January 16, 2008

The local RTWC shall:

- Serve as the local coordinator for EI.
- Ensure that ongoing and frequent communications are maintained with injured/ill employees.
- Develop a system to ensure the reporting by supervisors of all injuries or illnesses within 24 hours of occurrence.
- Review all injury/illness reports (SCIF Form 3067) on a weekly basis.
- Make necessary referrals to the EI counselor.
- Maintain frequent contact with the local SCIF adjuster and EI counselor to ensure that decisions are reached regarding injured/ill employees.
- Maintain a log of referrals to the EI counselor including decisions and conclusions regarding each referral.
- Develop a local medical panel, through use of existing community resources in conjunction with the Department's Health and Safety Office and the SCIF adjuster.

- Identify temporary, light duty assignments for the utilization of temporarily disabled employees in accordance with the Department's Light Duty policy.
- Assist with arranging employee placements of temporarily disabled employees.

31020.7.7.10 Assignment Captain/ Lieutenant Responsibility

This position is key to the EI process and shall:

- Furnish names of industrially injured/ill employees to the local RTWC for possible EI referral.
- Monitor the submission of SCIF Form 3067 to ensure the timeliness of their completion by first line supervisors.
- Participate in RTW meetings to add personal first-hand knowledge to case discussions.

31020.7.7.11 SCIF Adjuster Responsibility

The SCIF adjuster shall:

- Make referrals to appropriate medical practitioner or medical panels, especially in cases where the exact nature of the injury/illness is not readily apparent.
- Maintain medical control of the case.
- Update the claimant's medical progress with the local RTWC.
- Maintain communications with the EI counselor to monitor progress.

31020.7.7.12 Health and Safety Unit Responsibility

The Health and Safety Unit shall:

- Identify and provide specific training needs for all EI counselors and medical panels departmentwide.
- Assist each local RTWC with evaluating and monitoring the performance of all EI counselors and medical panels departmentwide in conjunction with SCIF.
- Provide training and ongoing consultation to each local RTWC for appropriate referrals to EI counselors.
- Coordinate and participate in RTW meetings with institution/regions.
- Promote the expanded use of light duty assignments where appropriate.

31020.7.8 Reports and Record Keeping

The Departmental Health and Safety Unit shall coordinate and monitor the processing of required reports.

Hiring authorities shall ensure that reports covering work-related employee accidents and illnesses are prepared and processed in accordance with all state requirements as outlined in this section.

31020.7.8.1 CAL/OSHA Record Keeping

The DIR has primary responsibility for administering CAL-OSHA. Under the program employers and employees are required to comply with specified job safety and health standards.

Enforcement is carried out by the Division of Occupational Safety and Health.

The departmental Health and Safety Unit shall compile disabling occupational injury and illness data into one report and forward it to the DGS, Office of State Insurance and Risk Management, by the 15th day following the end of each calendar quarter.

Each reporting unit shall compile the necessary information and return the following completed forms to the Department's Health and Safety Unit by the 10th day following the end of each calendar quarter.

A Log and Summary of Occupational Injuries and Illnesses, CAL-OSHA Form 200 or "Log 200," shall be kept daily at the designated place as a basic document for:

- Collection of statistical data on annual occupational injuries and illnesses.
- Review by the Division of Industrial Safety engineer during CAL-OSHA inspections.
- Review of area accidents and occupational injury and illness experiences.

Reporting Requirements

The Log 200 shall include the recordable occupational injuries and illnesses to all paid employees, either full- or part-time. The log shall not include injuries or illnesses sustained by unpaid workers. For further detailed recording requirements refer to the booklet entitled "Record-Keeping and Reporting Requirements Under CAL-OSHA." This booklet is available free upon request to the California Division of Labor Statistics and Research.

USINS Form 66 Retention

The Quarterly Summary of Disabling Occupational Injuries and Illnesses, USINS Form 66 summarizes the entries on the Log and Summary of Occupational Injuries and Illnesses, Log 200.

Retention

The Log 200, the associated SCIF Form 3067s and the USINS Form 66 shall be kept in the Personnel Office for five years following the year to which they relate.

31020.7.8.2 Department of Occupational Safety and Health Citations and Appeals/Variations

If the Division of Occupational Safety and Health believes that an employer has violated a safety and health standard or order, it issues a citation to the employer.

The following process is established to assure that appropriate departmental units receive immediate notification of Division of Occupational Safety and Health (DOSH) Citation Appeals and Requests for variances:

- Any citation or pending citation issued by the DOSH affecting any Department employee, facility, equipment, or operation shall immediately be brought to the attention of the departmental Health and Safety Officer. Notification shall also include:
 - Any intention to appeal a DOSH-issued citation.
 - Any intention to apply for a temporary or permanent variance to an existing safety standard.
- All citations shall be posted for a minimum of three working days and shall not be removed until the conditions cited have been abated.
- All requests for variances and appeals shall be cleared through the Health and Safety Unit. Each hiring authority shall implement a process whereby the Health and Safety Unit is notified by telecopier (within 24 hours) that there has been an inspection by DOSH and a citation is pending. Information provided in the telecopy shall include:
 - Facility or operation inspected.
 - The location.
 - The date of inspection.
 - Description of pending citation(s) including specific safety orders allegedly violated.
 - Classification of pending citation, if known (serious or non-serious).
 - Tentative reason to appeal or not appeal.

Process to Notify Health and Safety

- The Health and Safety Unit shall inform appropriate Central Office units of citations, citation appeals, or variance activity.
- All employees shall be advised of and understand their basic rights and liabilities with respect to serious industrial accidents and the appropriate response to DOSH questions.
 - It is an employee's right to refuse to answer questions, make statements, or otherwise discuss the facts of an industrial accident with the DOSH investigators until the employee has had an opportunity to talk to an attorney. The Department's Legal Affairs Branch has recommended that no employee discuss the facts of any serious or fatal accident unless an attorney representing the employee is present during questioning.
 - This policy is not intended to prevent DOSH from carrying out its responsibility to investigate on-the-job accidents. It is, however, intended to assure employee awareness of their rights and potential liabilities in cases where questioning, as a part of an investigation, can lead to serious criminal charges.

Employee Accident Reporting

- Employees who have participated in activities related to a serious on-the-job accident shall see that the notification of the accident is immediately communicated to the local safety coordinator and the Central Office Health and Safety Unit. Employees may request advice, representation or both from the departmental counsel, or may consult with a private attorney at their own expense.

31020.7.8.3 Accident Reporting

Report of Vehicle Accident, STD Form 270

Whenever a State-owned vehicle or a privately-owned vehicle driven on State business is involved in an accident, the driver of the vehicle shall complete and submit a Report of Vehicle Accident, STD Form 270 within 48

hours to the DGS, Office of Insurance and Risk Management, 926 J Street, Suite 615, Sacramento, CA 95814, (916) 322-8966.

When the accident involves a privately-owned vehicle or a commercial automobile, the STD Form 270 shall be clearly marked "Privately-Owned Vehicle Involved."

When a State vehicle is struck while properly parked, the custodian of the vehicle shall complete and sign only that portion of the STD Form 270 identifying the custodian, vehicle, the location, and probable date and time that damage occurred.

All questions on the form shall be answered. If the question is not applicable, place a dash or "N/A" in the answer area.

The supervisor who authorized the use of the vehicle shall ensure that the STD Form 270 is completed by the driver or, if that person is unable to do so, the supervisor shall complete the form. When a driver is unable to complete the form, the supervisor shall notify the liability insurance company and forward STD Form 270 to the DGS within 48 hours of the accident.

Distribution of the STD Form 270 is dependent upon the type of vehicle involved in the accident as follows:

Department-Owned Vehicles

- White, blue, and pink copies shall be sent to the DGS, Office of Insurance and Risk Management, 926 J Street, Suite 615, Sacramento, CA 95814. Forward the canary and green copies to the supervisor who authorized the use of the vehicle.

State Garage Vehicles, Pool or Monthly Tripper

- White, blue, and pink copies shall be sent to the DGS, Office of Insurance and Risk Management, 926 J Street, Suite 615, Sacramento, CA 95814. Forward the green copy to the State Garage which dispatched the vehicle and the canary and one added copy to the supervisor who authorized the use of the vehicle.

Privately-Owned or Commercial Vehicle

- White and blue copies shall be sent to the DGS, Office of Insurance and Risk Management, 926 J Street, Suite 615, Sacramento, CA 95814. Forward the pink copy to the driver (in case of inmate driver, this shall be retained at the local level) and the canary and green copies to the supervisor who authorized the use of the vehicle.

Claim for Reimbursement

Note: Whenever an employee submits a claim for reimbursement of repair expenses, a copy of the STD Form 270 shall accompany the travel expense claim, STD Form 262. (See SAM 759 and 759.5 for terms of reimbursement.)

Review of State Driver Accident, STD Form 274

Upon receipt of a completed Report of Vehicle Accident, Form 270, the supervisor of the driver involved in the accident shall initiate, in duplicate, the Review of State Driver Accident, STD Form 274.

Police Report

The supervisor shall interview the driver of the vehicle and investigate at the scene of the accident when necessary. A copy of the police accident report shall be obtained and made part of the supervisor's review.

Upon completion, two copies of the STD Forms 270 and 274, and related police reports shall be routed as follows for management review:

- Institutions - institutional safety coordinator.
- Paroles - regional safety coordinator.
- Central Office - Health and Safety Unit.

A copy of the original package shall be retained at the local level.

Management review shall ensure completeness of reporting and initiate follow-up action if it is determined that there is evidence of misuse or negligence considerations on the part of the State driver.

Driver Training and Evaluation

Defensive driver training is coordinated by the DGS and is considered job-required training. Supervisors' requests for training shall be handled as described in the SAM 750.2, and problems with this process or scheduling shall be directed to the Departmental Training Officer.

Corrective Action

Whenever managers or supervisors observe a subordinate employee operating a vehicle in an unsafe manner, even though an accident does not occur, corrective action shall be taken.

Assessment of damages shall be made against an employee for damage or loss because of abuse or negligent use of the vehicle in accordance with the SAM Section 4182.3.

Any preventive, corrective, or formal disciplinary action taken shall be in accordance with the following:

- GC 19574.
- Departmental policy.
- SAM Section 4182.3.

Employee's Responsibility

Employees shall:

- Report any motor vehicle accident or damage within 48 hours.
- Attend defensive driver training classes scheduled by supervision.
- Obey the law and follow the instructions and guidelines described in this and other pertinent departmental policy.

First-Line Supervisor's Responsibility

The first-line supervisors shall:

- Ensure accidents are promptly reported and investigated.
- Initiate counseling and corrective action for those employees who have demonstrated a poor driving record.
- Consider accident records in the annual employee appraisals.
- Notify the training officer when an employee needs to take a defensive driver training class.
- Instruct subordinates regarding driving responsibilities prior to authorizing them to drive on State business.

Second-Line Supervisor's Responsibility

Second-line supervisors shall:

- Review and classify each motor vehicle accident within their span of supervision.
- Verify the vehicle accident classification and preventability designation.
- Ensure first-line supervisors initiate appropriate corrective action in accordance with departmental policy.

Inspecting Car Pool Vehicles

Before removing a State vehicle from the car pool or upon reassignment, the operator shall check the vehicle for any obvious damage. If any damage to a State vehicle is not reported prior to removal from the pool or reassignment, the responsibility shall be placed upon the last operator of that vehicle.

Any damage to State vehicles noted during the inspection, or while in use, shall be reported on a STD Form 270 by the driver at the first opportunity, even if the time and cause of the defect are unknown. The filing of such a report does not imply that damage was caused by the driver who signs the report.

The institution/parole region/division shall not accept any excuse for non-reporting of vehicle damage. All operators of State vehicles are accountable for the care of and reporting of any vehicles assigned to them.

All personnel shall be made aware of this process. It shall be used to clarify any questions concerning the responsibility for reporting and accountability of any State vehicle while in their possession.

Summary Report of State Driver Accidents

A Summary Report of Departmental Vehicle Accidents shall be submitted annually to the DGS, State Driver Accident Prevention Program. The report shall be compiled by the Department's Health and Safety Unit using specific data obtained from each reporting unit.

31020.7.8.4 Non-Vehicular Accidents Involving

Inmates

Accident Report (Other Than Motor Vehicles), STD Form 268 shall be used in reporting all accidents involving the public, which either occur on State property or involve State employees or equipment. Only in case of serious injury or death of an inmate where there is a possibility of liability to the State shall inmate accidents be reported on STD Form 268.

In the event of an accident or occurrence other than motor vehicle involving the public which results in death, serious injury, or extensive property damage, immediately telephone the AG's Office in Sacramento and provide the following information:

- The identity of the Department, the particular unit, and employee(s) involved.
- The time, place, and circumstances of the accident or occurrence.

- The names and addresses of the injured.
- The names and addresses of witnesses, if any.

Reporting

To report incidents on Saturdays, Sundays, or holidays, telephone the State Capitol Operator at (916) 445-4711 and provide the required information. The operator shall relay messages to the designated duty officer for the AG's Office. After the telephone report has been made, STD Form 268 shall be submitted:

Distribution of STD Form 268

- Original and first copy within 48 hours to the AG's Office, Tort Section, P.O. Box 944255, Sacramento, CA 94244-2550.
- Second copy to the Office of Insurance and Risk Management, 926 J Street, Suite 615, Sacramento, CA 95814.
- Third copy to the Department's Health and Safety Unit.
- Fourth copy for local use.

31020.8 Health and Safety Grievance Procedure

The Department provides reasonable safeguards for the protection of the health and safety of all employees. However, to ensure a prompt response should employees feel that a situation exists which presents an immediate danger and wish to file a health and safety grievance, they are directed as follows:

- Rank and file employees may review individual guidelines in the applicable bargaining unit contracts.
- Excluded employees (manager, supervisor, confidential) may follow procedures in Section 33010, Personnel Policies, of this manual.

Health and safety issues under this process include the following:

- Unsafe structural conditions;
- Defective or unsafe electrical or mechanical equipment;
- Environmental hazards;
- Deficient vector control; or
- Violations of acknowledged custodial rules or procedures which imminently threaten the safety of any individual or the work site.

All should be aware of rights and obligations under these contracts and personnel policies including the time frames for specific action.

31020.9 Revisions

ARTICLE 3 — EMPLOYEE AWARDS PROGRAM

Revised August 22, 2008

31030.1 Policy

The Department encourages all employees to actively participate in the following awards programs:

- State Merit Award.
- Employee Recognition.
- Safety Awards.

31030.2 Purpose

This Article provides standards and procedures for participation in the State Merit Award Program, the Employee Recognition Program, the Safety

Awards Program, and the 25-Year Service and Retirement Recognition Program.

31030.3 State Merit Award Program

The California Legislature established the State Merit Award Program in 1950 to improve the operations and efficiency of State government through honorary and cash awards. The objectives of the program are:

- To encourage all employees to take an active part in improving the effectiveness of State government.
- To provide recognition for those employees whose individual or group efforts contribute to efficiency and economy through elimination or avoidance of State expenditures, or other improvements.
- To reward employees for acts or services of an outstanding nature.
- To reward employees for superior accomplishments.

The following awards are available under the State Merit Award Program:

- Employee Suggestion Program.
- Superior Accomplishment.
- Sustained Superior Accomplishment.

31030.3.1 Employee Suggestion Program

The Employee Suggestion Program (ESP) rewards employees who come up with cost-saving ideas and/or ideas to improve the safety or operations of State government. The rules and regulations governing this program include:

- DPA Rules 599.655 to 599.664, inclusive.
- Government Code Sections 19815.4(d), 19816, and 19823.
- State Administrative Manual (SAM) Chapter 4700.

The Department of Personnel Administration (DPA) oversees the ESP statewide to ensure compliance with the laws and rules governing the program. DPA delegates authority to publicize and administer the ESP to state agencies and departments. Each State agency or department designates a Merit Award Administrator (MAA) as a liaison between its department and DPA. The Department's MAA is in the Division of Support Services, Office of Business Services.

Department Leadership Responsibilities

Each supervisor and manager shall:

- Encourage the submission of suggestions.
- Be thoroughly familiar with the details of the program as specified in the DPA Rules, Government Code, SAM, and this Article.
- Provide assistance to suggesters when requested.

31030.3.1.1 Participation Criteria

Active or retired State employees are eligible to participate in the ESP, with the exception of the following:

- Career Executive Assignments (CEA).
- Exempt classifications with a collective bargaining designation of managerial.

31030.3.1.2 Eligible Suggestions

Eligible suggestions are those that have a cost savings to the State and can document one or more of the following:

- Improvement to State operations.
- Increase in revenue.
- Elimination of safety hazards.
- Improvement in procedures.

Suggestions include topics in engineering, security, information technology, accounting, clerical support, and many more. Suggestions must describe a specific problem as described above, offer a workable solution, and be of benefit to the Department or another State agency or department.

31030.3.1.3 Ineligible Suggestions

Ineligible suggestions include those that:

- Are under evaluation or were evaluated through the Department ESP within the last year.
- Recommend new or increased taxes or fees.
- Recommend additional revenues at the expense of a segment of taxpayers and which can be classified as unjust or inequitable.
- Recommend a change in the pay or classification of a position or class, or the establishment of new positions.
- Recommend a study, survey, or review to determine a course of action.
- Involve a personal grievance.

- Involve terms and conditions of employment which are subject to the collective bargaining process under the Ralph C. Dills Act.
- Recommend corrections in spelling, punctuation, grammar, or mathematical calculations (these changes should be communicated through established channels).

31030.3.1.4 Submission Criteria and Suggester Responsibilities

Suggesters must complete an Employee Suggestion form (STD. 645) describing the suggestion. Each suggestion must describe only one specific problem and offer a workable solution. Suggesters must provide as much detail as possible and include examples or attachments to corroborate the problem and its solution. Suggesters may fully describe the suggestion on one or more attachments; however, the STD. 645 must reference the attachment and the attachment must follow the format of the STD. 645.

Suggesters must complete, sign, and date the STD. 645. The ESP cannot accept an incomplete or unsigned STD. 645. (Note: If your suggestion is a team-developed idea, all members of the team must sign.)

- If the suggestion impacts a Department institution, division, or program, submit the completed form/package to:

CDCR Merit Award Administrator
P.O. Box 942883
Sacramento, CA 94283-0001

- If the suggestion impacts another department or multiple departments, submit your completed form/package to:

Department of Personnel Administration
Merit Award Program
1515 S Street, North Building, Suite 400
Sacramento, CA 95814

Suggesters may remain anonymous until the Department approves an award.

31030.3.1.5 Department Merit Award Administrator Responsibilities

The MAA receives, logs, refers, and tracks suggestions through the evaluation process. Upon receipt of a suggestion the Department MAA:

- Assigns an identification number and reviews the suggestion for completeness.
- Sends the suggester an acknowledgment letter.
- Assigns the suggestion to the division responsible for the suggestion's program area.
- Receives the completed Suggestion Evaluation Report (STD. 645A) and ensures it is an impartial and thorough evaluation. The MAA verifies recommended award amounts, if any, and notifies the suggester of the Department's decision.
- If the evaluator recommends implementation, the MAA notifies the suggester of the Department's intention and coordinates award payment to the suggester.

Evaluation timeframes vary according to the complexity of the suggestion.

Additional Responsibilities

The Department MAA shall:

- Explain and interpret the program to Departmental employees.
- Supervise the distribution of Merit Award Program promotional material issued by the Governor, the DPA, or the State Merit Award Board.
- Forward a copy of the Suggestion Evaluation Report to suggester.
- Ensure awards for adopted suggestions proceed through Executive staff to the Secretary or designee.
- Ensure the appropriate payroll office requests award payment for suggester.
- Inform Department management of adopted suggestions that increase departmental economy or efficiency or improve operating procedures.
- Represent suggesters in meetings before the Merit Award Board.
- Provide additional information on the program, as requested.
- Answer questions.
- Provide ESP forms and/or Internet links to forms.
- Arrange for speakers to explain the program to employee groups.
- Provide quarterly status updates to suggesters.

31030.3.1.6 Division Evaluator Responsibilities

Evaluators are not expected to know all of the facts personally; however, evaluators should know how and where to obtain the information needed to evaluate the suggestion thoroughly. If an evaluator believes he/she lacks the expertise to evaluate a suggestion, or needs access to resources not available to him/her, immediately inform the MAA.

Evaluators shall:

- Act promptly.
- Get the facts.
- Use the Evaluator's Handbook throughout the evaluation.
- Make a sound recommendation based on his/her detailed analysis.
- Be fair and objective.
- Base the findings, conclusion, and award recommendation on the feasibility of the idea, not on the suggester's eligibility to receive an award.
- Make a definite recommendation for adoption or rejection of the suggestion. If a final decision cannot be reached without a trial implementation and cost-savings analysis, the evaluator shall submit an "Interim Report" to the MAA. In every case, the evaluator shall include appropriate comments and documentation necessary to support his/her recommendation.
- Complete the Suggestion Evaluation Report (STD. 645A) in terms that can be easily understood by persons unfamiliar with the Department.
- Be considerate of the suggester's feelings and encourage further suggestions, regardless of the outcome of the evaluation.
- Keep the MAA informed of the progress of the evaluation.

If the evaluator requires additional information from an anonymous suggester, contact the MAA. The MAA will act as a liaison between an anonymous suggester and the evaluator.

It is very important to process suggestions promptly. The timeframe for completing the evaluation is 25 working days. If the evaluation takes longer, the evaluator must request an extension on the assignment from the MAA and provide the MAA with the projected completion date.

31030.3.1.7 Evaluating the Suggestion

There are six steps in the evaluation process. Detailed information for each step can be found in the Evaluator's Handbook. The six steps are summarized as follows:

1. Review the suggestion in its entirety and define the problem and the proposed solution.
 - What problem does the suggestion address?
 - What is the suggester's solution?
2. Analyze the feasibility of the proposed change.
 - Compare the current method of operation to the method proposed in the suggestion in terms of feasibility, costs, and benefits to the Department.
 - Is the idea timely?
 - Is the idea under independent active consideration? If so, documentation of independent consideration by the Department must be attached to the STD. 645.
 - Is there an alternate solution to the problem?
3. Calculate the cost savings.
4. Determine whether the suggestion should be adopted and the type of award that should be presented.
5. Determine the suggester's ability to receive a cash award.
 - What are the suggester's assigned or expected job responsibilities?
 - Was the suggestion assigned to the suggester for research, development, or solution?
6. Prepare the STD. 645A.

31030.3.1.8 Completing the Suggestion Evaluation Report (STD. 645A)

Detailed information for completing the STD. 645A can be found in the Evaluator's Handbook. If the evaluation is lengthy, the STD. 645A may state "See Attached Evaluation" in the Comments section. Each STD. 645A must be signed and dated by the evaluator and the evaluator's division head or designee who signs as the Reviewing Officer, before it is returned to the MAA. The evaluator shall also provide his/her contact telephone number.

Evaluators shall return the completed and signed STD. 645A to the MAA with any attachments and all notes, supporting documentation, and evaluation materials.

31030.3.1.9 Rejected Suggestions

The MAA notifies the suggester if the Department rejects his/her suggestion. Included in the notification is a copy of the STD. 645A, the suggester's appeal rights, and appeal timeframes.

31030.3.1.10 Right to Appeal a Rejected Suggestion

Suggesters have the right to appeal rejected suggestions within one year from the date on the rejection letter. The reasons for an appeal and the action the suggester must take are the following:

- The suggester disagrees with the evaluation report because pertinent information was not considered. In this case, the suggester shall submit a written request for reconsideration to the MAA that includes additional or supplemental information not covered in the original suggestion, or shall point out an error in the evaluation report. The MAA shall return the suggestion with the additional or supplemental information to the division evaluator for a decision.
- The suggester disagrees with the evaluation report that states the suggester is not eligible to receive an award. The reason may be that the idea was within the scope of his/her duties, or was an assignment given to the suggester. In this case, the suggester shall submit to the MAA a written request for reconsideration. If the MAA determines the appeal is unresolvable at the Department level, the MAA shall submit the appeal to the State Merit Award Program for review and a binding decision.

Suggesters have the right to appeal rejected suggestions within three years from the date on the rejection letter if the suggester believes the Department implemented the suggestion within three years after rejecting the suggestion. In this case, the suggester shall submit to the MAA a written request to reopen the suggestion, with an explanation of when and how the Department adopted the idea. In addition, the suggester shall provide documentation or proof of implementation. If the MAA determines the appeal is unresolvable at the Department level, the MAA shall submit the appeal to the State Merit Award Program for review and a binding decision.

31030.3.1.11 Administrative Reconsideration

The MAA may administratively reopen a suggestion submitted through the ESP upon evidence that the Department implemented it without giving the suggester due recognition.

31030.3.1.12 Adopted Suggestions

The MAA notifies the suggester if the Department intends to adopt the suggestion, coordinates Executive approval of the recommended award, and requests payment to the suggester.

31030.3.1.13 Types of Awards

Awards range from \$50 to a maximum \$50,000 per adopted suggestion. The Department Secretary or designee approves awards up to \$5,000. Awards over \$5,000 require approval by the State Merit Award Board, DPA, and concurrent resolution by the Legislature. Below is a summary of the various types of awards available:

Cash Award

Cash awards are based on the net savings or earnings realized by the Department in the first 12 months following the implementation of the suggestion. If the first 12 months are not representative of net savings or revenue, a different period of time may be substituted. The award is 20 percent of the net savings or revenues.

Note: Suggestions requiring substantial refinement or modification for implementation will be calculated at 5 percent of the net savings or increased revenue.

One-Time Award

When an adopted suggestion results in one-time savings or revenue, the award will be calculated at 5 percent of the net savings or revenue.

Preliminary and Supplemental Awards

The adopting institution, division, or program may recommend a preliminary award after a suggestion has been in place for one year. If the institution, division, or program realizes greater net savings or revenue than the preliminary award represents, it may recommend a supplemental award.

Improved Procedures Award

Where an annual net savings or increased revenue cannot be determined or are calculated at less than \$500, a cash award may be recommended by the adopting division in accordance with the Improved Procedures Award Scale

on Page two of the STD. 645A. Where annual net savings or increased revenue are calculated as at least \$500, but not more than \$1,000, the recommended cash award shall be \$100.

Improved Safety Award

These suggestions propose improvements in practices or facilities to eliminate or reduce injury to State employees or to the public, but the monetary value cannot be readily determined. Examples are suggestions relating to equipment modification, maintenance that is not routinely expected, and items that are not specified in building codes. To calculate awards for this type of adopted suggestion, the evaluator shall apply the Improved Safety Award Scale on Page two of the STD. 645A.

31030.3.1.14 Award Time Frames

Some types of awards can be paid relatively quickly. Others must wait until the first 12 months of net savings or revenue can be calculated. All occur after the evaluator returns the STD. 645A to the MAA indicating that a suggestion has been adopted and an award recommended. Timeframes do not include MAA processing timeframes. All cash awards are considered income and subject to tax.

Cash Awards

The length of the process depends on the amount of the recommended award:

\$50 to \$5,000

Up to one year to obtain all required levels of approval within the Department and to request payment through the appropriate personnel office.

\$5,001 to \$50,000

Up to four years. An award this size requires:

- All required levels of approval within the Department.
- A hearing or multiple hearings by the State Merit Award Board.
- Sponsorship of a concurrent resolution by the Legislature to authorize payment (coordinated by DPA).

If the Legislature approves the concurrent resolution:

- Notification issued by DPA to MAA to request payment.
- MAA requests payment from the appropriate personnel office.

One-Time Awards

The length of the process depends on the amount of the recommended award. See Cash Awards above.

Improved Procedures Awards

Within one year.

Improved Safety Award

Within one year.

31030.3.2 Superior Accomplishment Award

The Superior Accomplishment Award (SAA) recognizes performance by an individual employee or a team of employees that results in an exceptional contribution to improving State government beyond the accomplishments normally expected of the employee's classification.

31030.3.2.1 Eligibility

All employees, except those who are designated supervisory or managerial, are eligible for nomination. Peers or superiors may nominate an employee or team of employees for the SAA. There is no limit on the frequency that employees may be recommended for the SAA; however, an employee who receives an SAA is not eligible to receive another SAA for three years.

31030.3.2.2 Nomination Criteria

As stated above, SAAs are reserved for on-the-job performance beyond that expected of the employee's classification(s). Typical nominations consider:

- Responsibility for major improvements of methods, organization, procedures, services, or products that result in improved State or Departmental operation.
- Important contributions to research, development, and implementation of Departmental goals.
- Actions that demonstrably enhance creativity and productivity of subordinates or co-workers.
- Outstanding and superior achievement that brings recognition to the employee, the team, and/or the Department.
- Successful completion of an assigned task, project, or special event in a superior manner and/or significantly shorter timeframe than was deemed possible.
- All nominations shall be made on a STD. 278, Superior Accomplishment Gift or Cash Award Recommendation. It must be

signed and submitted with original signatures to the MAA in the Division of Support Services, Office of Business Services.

31030.3.2.3 Selection Process

The MAA receives, logs, and reviews nomination forms for completeness. The MAA forwards the STD. 278 through all required levels of approval to the Department Secretary or designee. The Secretary or designee shall make the final decision to approve or disapprove the award application and may change the amount of the recommended award. The Office of the Secretary returns the completed STD. 278 to the MAA with the recommendation(s).

31030.3.2.4 Award Process

Upon receipt of an approved nomination form from the Office of the Secretary, the MAA requests payment for the recommended award amount from the employee's payroll office. The State Controller's Office deducts applicable taxes from the award amount.

In lieu of cash payment, the Department may present a gift equal in value to the award amount; however, this practice is discouraged as it puts the burden of claiming the taxable gift on the recipient(s).

In addition to a monetary award, award recipients may receive a framed certificate commemorating their accomplishment. The design, purchase, and printing of the certificate are at the discretion of the Department.

31030.3.3 Sustained Superior Accomplishment Award

The Sustained Superior Accomplishment Award is meant to reward superior performance over a two-year period that results in an exceptional contribution to improving California State Government.

31030.3.3.1 Eligibility

Efforts which may be recognized with this award include sustained performance significantly exceeding normal job requirements resulting in the completion of a major project or task with substantial benefits to the State.

All State employees, except agency heads or elected Constitutional officers, are eligible for this award. Individuals or teams of employees may be nominated for this award.

31030.3.3.2 Nomination Criteria

Nominations for the Sustained Superior Accomplishment Award may be submitted once a year to the MAA, on a date determined by the MAA. Nominations are limited to an amount equal to one nomination per 100 employees of the Department. The Department may nominate fewer employees than this number.

When a manager or supervisor wishes to nominate an employee for the Sustained Superior Accomplishment Award, he/she must first specify the amount of the award, ranging from \$25 to \$250, for an individual or for each member of a team.

31030.3.3.3 Submission

After selecting the award amount, the supervisor or manager must complete an STD. 278, Superior Accomplishment Gift or Cash Award Recommendation. It must be signed and submitted with original signatures to the MAA in the Division of Support Services, Office of Business Services. The MAA logs and tracks the nomination during the review process by the Office of Personnel Services (OPS).

31030.3.3.4 Selection

OPS reviews the application based on staff recommendations, objectives of the employee's program, and the terms of any previously approved Sustained Superior Accomplishment program. OPS recommends approval or disapproval to the Secretary or designee. The Secretary or designee shall make the final decision to approve or disapprove the award application and may change the amount of the recommended award. The Office of the Secretary returns the STD. 278 to OPS with the recommendation. OPS forwards the recommendation to the MAA for out-processing and to request any approved award payment(s).

31030.3.3.5 Award Process

Upon receipt of an approved nomination form from the Office of the Secretary, the MAA requests payment for the recommended award amount from the employee's payroll office. The State Controller's Office deducts applicable taxes from the award amount.

In lieu of cash payment, the Department may present a gift equal in value to the award amount; however, this practice is discouraged as it puts the burden of claiming the taxable gift on the recipient(s).

Award recipients, in addition to a monetary award, may receive a framed certificate commemorating their accomplishment. The design, purchase, and printing of the certificate are at the discretion of the Department.

31030.4 Employee Recognition Program

The Employee Recognition Program was established to acknowledge those employees and community members who distinguish themselves by acts of heroism, bravery, or service beyond the normal demands of correctional/community service.

31030.4.1 How to Submit Nominations

An employee may be nominated for a departmental award by any supervisory or managerial employee. Supervisors and managers have a duty to recognize heroic acts. A written memorandum shall be submitted to the hiring authority for approval. The nominee shall have acted while on duty, or if off duty, while in a departmental facility or in the community.

The memorandum with the hiring authority's comments shall be forwarded to the appropriate assistant director for approval. They will then review and forward all nominations to the Assistant Secretary, Office of Public and Employee Communications.

The Employee Recognition Program operates on a calendar year basis. All awards for nominations submitted for which the incident occurred between January 1 and December 31 of each year are presented in May of the following year.

Nominations are due to the Assistant Secretary, Office of Public and Employee Communications, on the second Friday in January following the year in which the incident occurs. All nominations shall include:

- A standardized cover sheet provided by the communications office. A cover sheet for each nominated individual will include name, date of incident, brief description of incident (not to exceed space provided), name and signature of person making nomination, institution/parole region/other work location, and employee position or rank.
- One to three one-sided sheets (8 1/2 x 11) of additional or substantiating material (incident reports, statements of eyewitnesses, etc.) may be used.

The nomination package must be sent by U.S. Mail or delivery service (no telefaxed materials will be accepted unless specific information is requested by the Communications Office) so that arrival is prior to the due date.

The due date will be determined prior to December of each year. All Wardens/ Superintendents/Parole Administrators/RPAs/Assistant Directors will be notified in early December of the deadline which will be 5:00 p.m. on the second Friday in January.

31030.4.2 Departmental Awards Review Board

The Departmental Awards Review Board consists of the following:

- Undersecretary, Operations
- Director, Division of Adult Institutions
- Director, Division of Adult Parole Operations
- Director, Juvenile Operations
- Director, Juvenile Parole Operations
- One Superintendent
- One Division of Adult Parole Operations Regional Administrator
- One Division of Juvenile Justice Parole Administrator
- Two Wardens

The Board shall meet annually no later than the middle of March, or as frequently as deemed necessary by the Undersecretary. The Board shall make its recommendations from the prior calendar year's nominees to the Secretary.

The Assistant Secretary, Office of Public and Employee Communications, or his/her designee shall serve as the chief staff member for the Departmental Awards Review Board and shall ensure that all seats are properly filled, a sufficient number of meetings are scheduled, and appropriate individuals are in attendance.

31030.4.3 Presentation of Awards

Awards shall be presented annually by the Governor, or his representative, and the Secretary, at publicized ceremonies.

31030.4.4 Wearing of Awards

Uniformed employees shall wear awards in accordance with Section 33020 of this manual. Non-uniformed employees are permitted to wear the lapel pin replicas of awards received.

31030.4.5 Awards – Descriptions and Criteria

Medal of Valor

The Medal of Valor is the Department's highest award, earned by employees distinguishing themselves by conspicuous bravery or heroism above and

beyond the normal demands of correctional service. The employee shall display great courage in the face of immediate life/threatening peril and with full knowledge of the risk involved. The act should show professional judgment and not jeopardize operations or the lives of others.

- The medal consists of a gold-color medallion on a red, white, and blue ribbon.
- With the medal, the employee receives a red, white, and blue ribbon for wear with the Class A uniform and a lapel pin replica of the medallion for wear with civilian attire.

Corrections Star (Gold)

The Corrections Star (Gold) medal is the Department's second highest award for heroic deeds under extra-ordinary circumstances. The employee shall display courage in the face of immediate peril in acting to save the life of another person.

- The medal consists of a gold-color medallion in the shape of the departmental badge on a blue and white ribbon.
- With the medal, the employee receives a blue and white ribbon for wear with the Class A uniform and a lapel pin replica of the medallion for wear with civilian attire.

Corrections Star (Silver)

The Corrections Star (Silver) medal is the Department's third highest award for acts of bravery under extra-ordinary or unusual circumstances. The employee shall display courage in the face of potential peril while saving or attempting to save the life of another person or distinguish himself/herself by performing in stressful situations with exceptional tactics or judgment.

- The medal consists of a silver-color medallion in the shape of the departmental badge on a red and white ribbon.
- With the medal, the employee receives a red and white ribbon for wear with the Class A uniform and a lapel pin replica of the medallion for wear with civilian attire.

Corrections Star (Bronze)

The Corrections Star (Bronze) medal is the Department's award for saving a life without placing oneself in peril. The employee shall have used proper training and tactics in a professional manner to save, or clearly contribute to saving, the life of another person.

- The medal consists of a bronze-color medallion in the shape of the departmental badge on a yellow and white ribbon.
- With the medal, the employee receives a yellow and white ribbon for wear with the Class A uniform and a lapel pin replica of the medallion for wear with civilian attire.

Distinguished Service Medal

The Distinguished Service Medal is for an employee's exemplary work conduct with the Department for a period of months or years, or involvement in a specific assignment of unusual benefit to the Department.

- The medal consists of a bronze-color medallion presented on a green and white ribbon.
- With the medal, the employee receives a green and white ribbon for wear with the Class A uniform and a lapel pin replica of the medallion for wear with civilian attire.

Unit Citation

The Unit Citation is for great courage displayed by a departmental unit in the course of conducting an operation in the face of immediate life-threatening circumstances.

- Recipients shall also receive a green and gold ribbon for wear with the Class A uniform.

31030.5 Safety Awards Program

The Safety Awards Program was established to promote employee awareness in health and safety through recognition of significant employee contributions and achievements.

31030.5.1 Vehicle Safety Awards

The Department's annual goal for a lower number of accidents involving vehicles driven on State business is expressed as a percentage of reduction in the frequency rate of vehicle accidents. Qualifying adult institutions, adult parole regions, and the Department's Transportation Unit shall receive awards for achieving the goal.

- The Departmental goal shall be obtained from the "Annual Report of the California State Workers' Compensation Program," published by the Department of General Services (DGS).

- Awards shall be made for each calendar year and shall be presented on or before June 15th of the following year.

31030.5.2 Personnel Safety and Health Awards

Institutions/Parole Regions

Each qualifying adult institution, or adult parole region that achieves the injury frequency and severity rate goals established by the Office of Risk Management, shall receive recognition with the presentation of annual awards no later than June 15th of the following year.

- The goals are based upon the departmental injury frequency and severity rate goals set by the State Safety Advisory Committee.
- The formulas used in computing the frequency and severity rates for the Department and for each institution/parole region are as follows:
 - Frequency rate = total number of injuries x 200,000 work hours: total number of work hours.
 - Severity rate = total number of days lost x 200,000 work hours: total number of work hours.
- The Department's annual goals for the reduction in frequency and severity rates of disabling injuries and illnesses shall be forwarded in a memorandum from the Assistant Secretary, Office of Risk Management to each adult institution, or adult parole region every January.

Departmental Award to Individuals

Departmental Employee Safety Awards shall recognize significant contributions to and/or achievements in the health and safety program.

- Eligibles: Employees from each adult institution, adult parole region, and Headquarters.
- Selection: Each local safety committee shall submit the names of those who were selected to receive the local employee safety awards on the Nomination Form for Safety Award to the Warden/RPA, or Assistant Secretary Office of Risk Management, for approval.
- Submission: The approving authority shall ensure that local award recipient's nomination forms arrive at the Department's Office of Risk Management by January 15th each year. The Assistant Secretary or designee shall arrange for selection and presentation of departmental awards.

Governor's Award to Individuals and Groups

Employees of all state agencies are eligible to receive the Governor's Employee Safety Award. The Department may nominate for the award its quota of individuals and groups as established annually by the Office of Insurance and Risk Management, DGS.

The name(s) of those Department Employee Safety Award recipients who meet the Governor's Employee Safety Award criteria shall be forwarded to the Office of Insurance and Risk Management by the Office of Risk Management, CDCR for consideration by the Safety Awards Committee.

The award ceremony is held annually at a location of the Office of Insurance and Risk Management's choosing, and the awards are presented by members of the Governor's staff. The date of the ceremony is established each year by the Office of Insurance and Risk Management.

31030.6 25-Year Service Recognition

Employees completing 25 years of State service are entitled to receive:

- Employee's choice of a 25-year service memento described in the catalog provided by the contract vendor.
- A framed certificate signed by the Governor, also provided by the contract vendor.
- A 25-year service recognition card signed by the Secretary to be presented to the employee with the framed certificate signed by the Governor.

31030.6.1 Retirement Certificates

Retiring employees are entitled to receive:

- A retirement certificate from the Secretary.
- A congratulatory letter from the Secretary.
- If the employee has at least 25 years of state service, employees choice of any one of the retirement mementos described in the catalog provided by the contract vendor.
- If the employee is retiring at the same time that 25 years of service is achieved, the employee is entitled to two mementos from the catalog provided by the contract vendor, one commemorating retirement and one acknowledging at least 25 years of State service.

31030.6.2 Personnel Services Responsibility

The Local Personnel Officer shall:

- Notify the supervisor/manager of those employees who are within six months of reaching 25 years of State service and/or retirement using the CDCR Form 1785, Service Award Eligibility Notification. The Headquarters Personnel Office shall:
 - Upon receipt of the CDCR 3019, Request for Retirement Letter/Certificate, (via electronic mail or FAX from the supervisor/manager) prepare the retirement letter and certificate and send to the Secretary's Office to obtain signatures.
 - Upon receipt of the signed retirement letter and certificate (from the Secretary's Office), prepare for presentation to the employee and mail to the office or the employee as indicated on the CDCR Form 3019.

31030.6.3 Supervisor's/Manager's Responsibility

Supervisors and/or managers of the employee shall:

- Submit completed CDCR Form 3019, Request for Retirement Letter/Certificate, for a retirement award to the Headquarters Personnel Office via FAX or electronic mail.
- Allow a minimum of 20 working days after the request is submitted via electronic mail or by FAX.
- Make the contract vendor's memento catalog available to the employee. The local institution, facility, or headquarters business office shall provide the name and contact information for the current contract vendor.
- Prepare and submit the CDCR Form 954, IntraOffice Requisition (IOR), to order the 25-Year service certificate signed by the Governor and memento and/or the retirement memento selected by the employee. A copy of the CDCR Form 1785, Service Award Eligibility Notification, shall be attached to the CDCR 954. Refer to vendor's "Ordering Instructions" in the vendor's catalog for instructions on completing the requisition. For retiring employees, submit the order within 60 days of expected retirement date.
- Present the 25-Year service certificate signed by the Governor along with the memento as close to the employee's anniversary date as possible.
- Present the retirement certificate and congratulatory letter from the Secretary to the employee to commemorate the employee's service to the State. Retirement mementos should be presented at this time if available, or mailed to the employee if not available at the time of retirement.

31030.6.4 Secretary's Office Responsibility

The Secretary's office shall:

- Upon receipt of the unsigned retirement certificate and the congratulatory letter (from the Headquarters Personnel Office) obtain the signature of the Secretary on each document and return the signed documents to the Headquarters Personnel Office.

31030.7 Revisions

The Deputy Director, Human Resources, or designee shall ensure that the content of this Article on the 25-Year Service, Retirement Certificate, and Sustained Superior Accomplishment Award programs are current.

The Deputy Director, Office of Business Services, or designee shall ensure that the content of this Article on the State Merit Award Program, Superior Accomplishment Award, and Sustained Superior Accomplishment programs are current.

The Assistant Secretary, Office of Public and Employee Communications, shall ensure that the content of this Article on the Employee Recognition Program is current.

The Assistant Secretary, Office of Risk Management, shall ensure that the content of the Safety Awards Program is current.

ARTICLE 4- EMPLOYEE WELLNESS PROGRAMS*Revised May 7, 2012***31040.1 Policy**

The Office of Employee Wellness (OEW) is responsible for policy development and administration of CDCR Peer Support Programs, Return to Work Services, and Substance Abuse Testing Programs in compliance with applicable laws.

31040.2 Purpose

This Article sets forth the policies of the program administered within the OEW.

31040.3 Peer Support Programs

The Peer Support Section provides program information and services to support the well-being of staff.

31040.3.1 Employee Assistance Program

The Employee Assistance Program (EAP) is provided by the state of California and administered by the Department of Personnel Administration (DPA) as part of the State's commitment to promoting employee health and well-being to all State employees.

The EAP is available to assist employees and their eligible family members in identifying and gaining control over personal problems which can, and often do, affect both family life and job performance. The EAP is both voluntary and confidential.

Services

Employees and their eligible dependents shall be able to access services through a toll-free number 24 hours a day, 7 days a week, 365 days a year.

Employees who are appointed full-time or part-time regardless of their bargaining unit designation are eligible for EAP services. Contracted employees on State payroll who are eligible for benefits are eligible for EAP services. An employee, their spouse/registered domestic partner, and eligible dependents are entitled to receive a specified number of sessions per contract year.

The state of California contracts directly with a provider for EAP services. There is no cost to the employee or their family members for the initial authorized sessions if the employee/Department uses the contracted provider. The level of service and number of counseling sessions per contract year, for which an employee is eligible, is determined by the bargaining unit to which the employee belongs.

Confidentiality

Confidentiality is strictly maintained as required by law.

The legal exceptions are the same as those that guide all clinicians:

- When authorized by written consent of the employee.
- If a member expresses intent to commit child or elder abuse, or expresses plausible suicidal or homicidal intent.
- If a court order (subpoena) requires a clinician to reveal otherwise confidential information.

EAP Referrals

There are three ways that EAP services can be assessed:

- Self-Referral - This type of referral occurs as a result of an employee recognizing a problem in either his/her own or a dependent's life. As a result of this recognition, the employee may contact the service provider for assistance.
- Informal Referral (Supervisor Recommendation) - This type of referral occurs when the supervisor recognizes an employee struggling with a personal problem; or if the employee has asked for assistance in solving a problem. The supervisor or manager may suggest that the employee contact the EAP.
- Formal Supervisor Referral - A formal referral is utilized when there is no improvement in an employee's work performance or other areas of deficiency which were discussed in their informal corrective meeting. The supervisor will work directly with the contractor's Management Consultant (MC). The MC will advise the supervisor of the best way to approach the employee regarding the EAP. In addition, the MC will provide guidance to help the supervisor prepare a formal letter and meet with the employee to present the problem and the expectations. Participation in this program is still voluntary. A Supervisor's Handbook is available from departmental EAP Coordinators. The handbook provides specific guidelines for making a formal supervisory referral.

Use of State Time

The Department allows State time off for an employee to consult with the EAP clinician up to two sessions following the acceptance of a formal supervisory referral. This shall be documented on CDCR Form 998-A as "administrative time off."

For all other referrals, the employee shall be granted the time off required through the use of earned leave credits. However, the employee shall make every attempt to arrange EAP counseling outside of work hours.

31040.3.1.1 Departmental EAP Coordinator's Responsibility

The departmental EAP coordinator is the Office of Employee Wellness (OEW). The OEW is responsible for establishing and maintaining the CDCR's Employee Assistance Program and shall:

- Implement, promote, and manage the CDCR's EAP.
- Provide assistance to EAP coordinators statewide pertaining to specifications of the EAP.
- Coordinate EAP training and orientation sessions, as needed.
- Act as a liaison with other appropriate agencies.
- Ensure that a separate contract between CDCR and the contractor is in place for Critical Incident Stress Debriefings and special fee-for-services trainings.

31040.3.1.2 Local EAP Coordinator's Responsibility

Under the appointment of the hiring authority, the local EAP coordinator shall:

- Coordinate and administer EAP at their designated location and consult with OEW regarding policies and procedures.
- Provide assistance and training to employees in all aspects of the EAP program.
- Ensure complete confidentiality of all information obtained from and about employees and their family members.

31040.3.2 Peer Support Program (PSP)

Employee involvement in specific violent, work related situations may cause serious physical and/or emotional trauma to the employee.

Immediate intervention and counseling has been shown to alleviate many trauma-related problems and to help the employee remain fully productive.

To minimize the effect of trauma, the PSP shall provide assistance by PSP team members and if needed, facilitate referrals for counseling by non-departmental licensed mental health professionals who are Psychological First Aid (PFA) trained for the following situations:

- Physical assault.
- Sexual assault.
- Hostage incident.
- Causing serious injury/death to person(s).
- Direct involvement in critical incidents.

PSP shall:

- Provide specific intervention services and resources.
- Provide professional non-departmental counseling services in a timely manner that meets the employee's needs.
- Train and inform all staff of the goals, operation, and use of the program.

Counseling Services

Professional counseling services to assist employees in post trauma situations are provided through the OEW.

Employee's Workers' Compensation Benefits

The Peer Support Program is separate and distinct from Employee's Workers' Compensation Benefits as defined in DOM Section 31020.7.5.1 which shall be followed to provide eligible employees with benefits.

31040.3.2.1 Immediate Counseling Services

Immediate counseling is available 24-hours-a-day through the departmental EAP to all CDCR staff by using the toll free telephone number.

The caller shall:

- State they are an employee of the Department and their call is of an emergency or crisis nature.
- Be connected via telephone immediately with a licensed clinician. The EAP call center may arrange for a personal visit with a PFA trained counselor.

The caller may contact OEW to assist with facilitation, if needed, during normal business hours.

31040.3.2.2 Post-Incident Counseling

OEW will provide a non-departmental licensed mental health professional who is PFA trained to debrief and assist staff following an incident, upon request. OEW will incur the costs associated with providing the counselor.

31040.3.2.3 Continued Care

Continued psychological care is available on a voluntary basis through the EAP. The employee can choose to continue to see the same PFA trained clinician or may elect another licensed mental health professional using their EAP benefits. The employee's eligible family members also have the option of utilizing the same clinician using their EAP benefits.

31040.3.2.4 Contracting for Services

OEW shall maintain the master contract for the Department to provide non-departmental licensed mental health professionals who are PFA trained to debrief and assist staff following an incident.

31040.3.2.5 Team Leader Designation

The PSP Team Leaders shall be designated as follows:

- Department and Headquarters - OEW.
- Facilities - As designated by the Warden, Hiring Authority, or Superintendent. Crisis Response Team (CRT) leaders and members are not eligible.
- Parole offices - As designated by the Regional Parole Administrator (RPA) in each region.

31040.3.2.6 Teams

Each PSP team shall be comprised of ten or more staff with appropriate interest and skills. CRT leaders and members may be PSP members. However, CRT activations take priority over PSP call outs. Therefore, teams shall be adequately staffed to ensure coverage if CRT is activated simultaneously.

The headquarters' team shall include staff from each headquarters' location.

Parole regions shall form their teams from unit supervisors (coordinators) or other designated staff members.

At management's discretion, more members can be added consistent with the size of the facility, parole region, division, or office.

The team shall have both male and female members.

31040.3.2.7 Administrative Responsibility

Each Warden, RPA, Superintendent, and Director/Assistant Secretary shall:

- Ensure that a local PSP program is available and used in the employee's and Department's best interests.
- Appoint Administrator, at the minimum level of a manager, responsible for oversight of the local PSP.
- Appoint PSP Team Leader and Co-Leader.
- Appoint PSP team.
- Ensure coordination between OEW, the PSP, the Return To Work (RTW) Coordinator, the EAP coordinators, and other program resources.
- Ensure the PSP Team Leader and team receives OEW approved training.
- Provide cell phone/BlackBerry for PSP Team Leader, and pagers as appropriate/available, for all team members.
- Maintain PSP team roster and contact information.

31040.3.2.8 Departmental Coordinator Responsibility

The OEW is the departmental PSP coordinator and shall:

- Execute and maintain the master contract to provide non-departmental licensed mental health professionals who are PFA trained to debrief and assist staff following an incident, if necessary. OEW will incur the cost associated with providing the counselor.
- Provide assistance to all PSP Team Leaders in establishing and administering effective programs.
- Provide training for PSP Team Leaders.
- Provide liaison with appropriate agencies.
- Assist area PSP Team Leaders, committees, and management in the solution of trauma-related problems.
- Ensure strict confidentiality of the employee's personal information.

- Collect statistics and other pertinent data to monitor program effectiveness.
- Prepare an annual report summarizing the progress and effectiveness of the program.

31040.3.2.9 Supervisor's Responsibility

In the event of a trauma causing incident the supervisor shall:

- Notify the Watch Commander/Administrative Officer of the Day (AOD)/RPA/Superintendent of the incident and request that PSP be activated.
- Provide relief for the involved employee(s).
- Remove the employee from the incident area.
- Assign another staff member, preferably PSP trained, to stay with the employee throughout the post trauma activities. At no time shall the employee be left alone.
- Assist the PSP Team Leader as requested.
- Prepare the documentation required by DOM Section 31020.7.5 if the employee is injured or believes an injury/illness is the result of the incident.

31040.3.2.10 Team Leader's Responsibility

The PSP Team Leader shall:

- Assist the Warden, RPA, Superintendent, and Director/Assistant Secretary in determining the composition of PSP team.
- Ensure that an updated list of PSP team members and contact information is provided to the Warden, RPA, Superintendent, Watch Commander, AOD, and OEW.
- Provide on-going training to PSP team members.
- Upon activation, notify administration of the incident and that PSP is responding.
- Help determine which members will respond to the location designated.
- Deploy team members to assist the employee to understand the situation and give information and assistance to meet their needs.
- Instruct team members to advise the employee that:
 - Information relating to their personal feelings shall be confidential.
 - If information relates to safety and security of the facility or community and may lead to adverse action they have a right to representation.
- Ensure the employee is informed regarding medical referral programs, EAP, Workers' Compensation Benefits, and RTW program.
- Notify the administration immediately if professional intervention is requested or deemed appropriate. (Refer to DOM Section 31040.3.2.2)
- Notify the EAP Coordinator and OEW of the incident.
- Consult with OEW to triage Critical Incident Stress Management methodology.
- Contact the employee at least once after the initial debriefing or until contact is no longer needed.
- Complete a Confirmation of Assistance form and forward to the EAP Coordinator.
- Record incident into PSP call out log and forward to OEW on monthly basis.

Debriefing

The debriefing of the PSP team members shall be held as soon as possible and prior to the team member(s) going off duty unless physically or medically infeasible.

If the PSP Team Leader is unavailable, a previously designated and trained team member shall assume the responsibilities.

The employee shall be given detailed information about:

- EAP.
- The Employee's Workers' Compensation Program (DOM Section 31020.7.5.1).
- Listing of hospitals.
- Community resources including crisis intervention, rape counseling, hotline numbers, and support groups.

The pertinence of these services shall be explained.

31040.3.2.11 Employee Responsibility

The employee shall:

- Leave the area where the incident occurred as directed by the supervisor.
- If desired, participate in an individual or group critical incident stress debriefing with a non-departmental licensed mental health professional who is PFA trained.

If an employee feels that their injury or illness is work related and is preventing the employee from maintaining a satisfactory work performance, the employee shall:

- Notify their supervisor.
- Fill out the appropriate forms and documentation to initiate workers' compensation procedures.

31040.3.2.12 Limited Term Light Duty Assignments

Temporary limited term special assignments may be made and shall be governed by Department Regulations and Policy. (Refer to DOM Section 31040.4.7.)

31040.3.2.13 Return-to-Work

The emphasis of the PSP shall be to provide the employee with the resources and assistance they need to facilitate their return to work.

All alternatives provided by GC Section 19991.4 shall be followed where appropriate. The time frames and provisions of the Employee's Workers' Compensation RTW program shall be followed. (Refer to DOM Section 31020.7.5.1.)

31040.3.2.14 Peer Support Program Training

The Office of Employee Wellness shall:

- Provide training to the PSP Team Leaders.
- Provide lesson plans to the PSP Team Leaders to utilize for training the team members.
- Ensure all PSP team members receive 16 hours of annual training.
- Provide updates regarding any changes to the PSP and laws relating to the PSP to the PSP Team Leader.
- Facilitate participation of Managed Health Network counselor at training, when requested by PSP Team Leader.
- Provide PSP curriculum for New Employee Orientation (NEO).

The PSP Team Leader shall:

- Provide on-going training to PSP team members using approved lesson plans provided by OEW.
- Provide information about PSP provisions and services to all employees.

Each new employee will receive information regarding PSP during the NEO at the local level.

The provisions of PSP shall be included in the basic academy curriculum.

The Office of Training and Professional Development shall coordinate with the OEW to ensure that all employees receive information annually at the local level.

31040.3.3 Blood Donations

Blood donations provide life-saving treatments to accident victims, surgery patients, and many others in need. Donating blood is one of the most generous acts of kindness that one human being can do for another.

Program

The Department encourages employees to participate in blood donation programs, thus making a vital contribution to the community. The OEW is responsible for maintaining and coordinating the CDCR's blood donation program and policies.

OEW shall:

- Coordinate and facilitate CDCR's Headquarters' Blood Drive each calendar year.
- Provide assistance to EAP/Return To Work Coordinators (RTWC) who are interested in establishing a blood donation program at their facility or region.

Time Off

The Department allows up to two hours off for regular donors when back-up coverage is not required. For special donation programs such as Pheresis, actual donation time plus up to 30 minutes travel time may be approved. Supervisors retain approving authority for granting time off for blood donations.

31040.3.4 Workplace Violence Prevention

It is the policy of the CDCR to provide all employees and members of the public with a safe and healthful work environment. Violent acts or threats against another person's life, health, well being, family, or property, infringe upon CDCR's right and obligation to provide a safe workplace for its employees. CDCR has a zero tolerance policy for workplace violence and will respond to any acts or threats of violence with appropriate administrative or legal remedies.

31040.3.4.1 Workplace Violence - Defined

Disruptive Behavior - Disturbs, interferes with, or prevents normal work functions or activities. Includes yelling, using profanity, waving arms or fists, leering, insubordination, refusing to cooperate with others, bullying, belligerency, verbally abusing others, making inappropriate demands for time and attention, making unreasonable demands for action (demanding an immediate appointment or a response to a complaint on the spot), or refusing a reasonable request for identification.

Act of Violence - The use (or attempted use) of force or violence with the intent to threaten, harass, intimidate, intentionally commit an injury to self or others, or damage or destroy property.

Harassment - Unwelcome verbal or physical conduct which creates a hostile or intimidating work environment, not resulting in physical harm; disparaging or derogatory comments, slurs or profanity.

Intimidate - To make afraid, frighten, alarm or scare; forcing action or inaction by inducing concerns for one's safety by means of any physical action and/or verbal comment.

Stalking - An act of willful, malicious, and repeated following or harassing by another person by any means, direct or indirect, that causes a reasonable person to fear for his/her safety or the safety of his/her immediate family.

Threat - An action (verbal, written, or physical) that is intended to intimidate by expressing the intent to harass, hurt, take the life of another person, damage or destroy property, including threats made in jest but which others could perceive as serious.

State Workplace - Anywhere a State employee is conducting authorized State business, or enroute to and from (excluding normal commute) a location where State business is or will be conducted.

31040.3.4.2 Manager/Supervisor Responsibility**Managers and Supervisors shall:**

- Comply with the CDCR Code of Conduct and General Qualifications as defined in DOM Sections 33030.3.1 and 33030.3.2.
- Foster a supportive, amicable work environment.
- Communicate openly and give employees support and recognition.
- Participate in training on how to resolve conflicts.
- Recognize potentially threatening situations for performing State business.
- Adhere to the incident reporting procedures.
- Offer the EAP to affected staff. EAP provides employees with free, easily accessible and confidential resources for addressing personal concerns.
- Contact the Office of Employee Wellness to coordinate a Critical Incident Stress Debriefing (CISD) for staff, if necessary.
- Take all reports of workplace violence seriously.
- Conduct a follow-up information gathering session with all involved employees to determine the facts.
- Report all incidents to administration.
- Take corrective action, when necessary.
- Contact the Office of Internal Affairs to complete a formal investigation, when appropriate.

31040.3.4.3 Employee Responsibility**Employees shall:**

- Comply with the CDCR Code of Conduct and General Qualifications as defined in DOM Sections 33030.3.1 and 33030.3.2.
- Act professional, courteous, and responsible at all times.
- Immediately report any and all acts of workplace violence to their supervisor or manager without fear of reprisal.
- Follow-up on the initial verbal report with written documentation, which should include the following critical information: names of the involved parties (i.e. perpetrator, victim, and witnesses), a description

of what occurred, when and where the incident took place, and if known, why it happened.

- Headquarter employees shall call 911 if there is an immediate threat to the life or safety of employees, the public, or State property.

31040.3.4.4 Training

All employees, including managers and supervisors, shall receive training and instructions on the Workplace Violence Prevention Program. Initial training shall be taught as follows:

- Headquarters employees shall receive training at the New Employee Orientation.
- DAI/DJJ employees shall receive training through In-Service Training.
- Parole Regions shall receive training through their unit supervisor.

The Office of Employee Wellness develops Workplace Violence Prevention Program training curriculum. Workplace Violence Prevention Program training should include, but is not limited to the following:

- Workplace Violence Prevention Program policy and reporting requirements
- Expectations of CDCR employee conduct
- Definitions of workplace violence
- Measures to prevent workplace violence
- Ways to diffuse hostile or threatening situations
- Guidelines for notification to law enforcement authorities
- Referrals to EAP
- Resources for employees, managers, and supervisors

31040.3.4.5 Recordkeeping

Records of Workplace Violence Prevention Program training shall be maintained by the employee's manager or supervisor for one year. Training records shall include the name of the instructor(s), brief description of the training content, and a roster signed by participants.

31040.3.5 Ergonomics Program

It is the policy of CDCR to provide all employees with a healthy workplace and safe working conditions. CDCR is committed to reducing and/or eliminating the risk factors associated with repetitive motion injuries (RMIs), thus increasing employee productivity, quality, and efficiency, while decreasing workers' compensation claims. Upon request through their Hiring Authority (HA), all employees shall receive an ergonomic evaluation. CDCR is committed to providing information regarding the administration of the Ergonomics Program for the purpose of clarity and uniformity within the Department. The Office of Employee Wellness (OEW) is responsible to develop and maintain CDCR's Ergonomics Program policies and procedures. The Ergonomics Program meets the requirements of the California Occupational Health and Safety Administration (Cal/OSHA) and collective bargaining agreements.

31040.3.5.1 Ergonomics Program – Defined

The Ergonomics Program is conducted in accordance with the California Code of Regulations, Title 8, Subchapter 7, General Industry Safety Orders, Section 5110, Repetitive Motion Injuries.

The CDCR Ergonomics Program includes the following components:

- An Ergonomic Consultant (CDCR staff)
- A Certified Ergonomist (external contractor)
- Identification and prioritization of high-risk jobs and tasks
- Training for management and employees

Hiring Authority Responsibility

The HA for each institution, parole region, Division of Juvenile Justice (DJJ) facility, division, office, and Headquarter's (HQ) Program shall:

- Appoint an Ergonomic Consultant (EC) to oversee and complete ergonomic evaluations and ergonomic reports for their employees.
- Ensure all ECs are properly trained to conduct ergonomic evaluations.
- Provide all employees with an ergonomic evaluation, upon request.
- Approve the CDCR Form 2252, Ergonomic Workstation Evaluation Request.
- Contract with a Certified Ergonomist, when necessary.
- The HA shall make every effort to comply with the recommendations identified as a result of an ergonomic evaluation (If equipment is needed to comply with the recommendations, items may be available through the warehouse or surplus).

- Ensure all employees are properly trained on the Ergonomics Program. This includes: exposures which have been associated with RMIs, symptoms and consequences of injuries caused by repetitive motion, the importance of reporting symptoms and injuries to the manager/supervisor, and methods used to minimize RMIs.

CDCR Ergonomic Consultant Responsibility

ECs shall:

- Attend EC training.
- Schedule and complete ergonomic evaluations.
- Identify ergonomic risk factors.
- Perform detailed job analysis (e.g., by breaking down the jobs into tasks and risk factors and evaluating the level of exposure).
- Recommend improvements for jobs/tasks with a high level of exposure.
- Recommend equipment which may reduce or eliminate ergonomic risk factors.
- Communicate with and advise management of broader ergonomic issues.
- Provide written documentation to the employee and his/her supervisor with recommendations to reduce or eliminate ergonomic risk factors.
- Complete follow-up ergonomic evaluations and reports as needed.
- Complete a monthly ergonomic evaluation log and forward to the OEW.
- Maintain records of ergonomic evaluations for three years.
- Provide ergonomic awareness training.

Certified Ergonomist Responsibility

If a local EC has not been appointed, has not attended ergonomic training, or when additional expertise in ergonomics is needed, the local HA must contract with a Certified Ergonomist to complete ergonomic evaluations. A Certified Ergonomist shall:

- Complete ergonomic evaluations.
- Identify ergonomic risk factors.
- Perform detailed job analysis (e.g., by breaking down the jobs into tasks and risk factors and evaluating the level of exposure).
- Recommend improvements for jobs/tasks with a high level of exposure.
- Recommend equipment which may reduce or eliminate ergonomic risk factors.
- Communicate with and advise management of broader ergonomic issues.
- Provide written documentation to the employee and his/her supervisor with recommendations to reduce or eliminate ergonomic risk factors.

Office of Employee Wellness Responsibility

The OEW shall:

- Provide assistance and resources to the field as needed.
- Coordinate training for all ECs in conjunction with the local HA.
- Provide Ergonomics Program, policies and procedures.
- Provide information on local ECs as requested.
- Track ergonomic evaluation data to identify best practices and trends analysis on an annual basis.
- Prepare an annual report summarizing the progress and effectiveness of the program based on monthly ergonomic reports.

Manager/Supervisor Responsibility

Managers and supervisors must be familiar with the basic principles of their employees' jobs, workstations, and equipment use. Managers and supervisors shall:

- Actively support and participate in the Ergonomics Program.
- Review the *Computer User's Guide to an Ergonomic Workstation* located online at <http://www.documents.dgs.ca.gov/dgs/telework/dpahandb.pdf> and complete the *Easy Ergonomics for Desktop Computer Users* training located online at http://www.dir.ca.gov/dosh/dosh_publications/ComputerErgo.html, to ensure the recognition and control of work-related ergonomic risk factors, recognize RMI signs and symptoms, and encourage early RMI symptom reporting.
- Ensure employees review the *Computer User's Guide to an Ergonomic Workstation* located online at

<http://www.documents.dgs.ca.gov/dgs/telework/dpahandb.pdf> and complete the *Easy Ergonomics for Desktop Computer Users* training online located at http://www.dir.ca.gov/dosh/dosh_publications/ComputerErgo.html.

- Encourage active employee participation in the Ergonomics Program, including: attendance at scheduled ergonomic evaluation, required training, participation and implementation of ergonomic recommendations.
- Address employee concerns and resolve current problems as expeditiously, reasonably and inexpensively as possible.
- Complete the Ergonomic Workstation Evaluation Request form and submit it to the local HA for approval.
- Forward the completed Ergonomic Workstation Evaluation Request form to the local EC.
- Shall make every effort to provide employees with any recommended ergonomic equipment. Purchasing ergonomic equipment is both the decision and responsibility of the evaluated employee's unit (comparable items may be available locally or through the warehouse or surplus).
- Ensure the implementation of recommended controls and develop a system to monitor their effectiveness.
- Maintain records of ergonomic evaluations for three years.

Employee Responsibility

CDCR employees are responsible for conducting themselves in accordance with this policy and program. Employees shall:

- Review the *Computer User's Guide to an Ergonomic Workstation* located online at <http://www.documents.dgs.ca.gov/dgs/telework/dpahandb.pdf>.
- Complete the *Easy Ergonomics for Desktop Computer Users* training located online at http://www.dir.ca.gov/dosh/dosh_publications/ComputerErgo.html and apply the knowledge and skills acquired to actual job, tasks, processes, and work activities.
- Report RMI signs or symptoms and work-related RMI hazards to the manager or supervisor as early as possible to facilitate proactive interventions and/or prompt medical treatment.
- Take responsibility for personal health and safety.
- Complete the Ergonomic Workstation Evaluation Request form and submit it to the manager or supervisor for approval.
- Maintain records of ergonomic evaluations for three years.

31040.3.5.2 Ergonomic Evaluations

The local EC at each institution, parole region, DJJ Facility, division, office, HQ Program is responsible for completing ergonomic evaluations. Evaluations must include a review of the employee's workstation, equipment, and work processes, as well as training on the Ergonomics Program and instruction on proper ergonomic work habits. After the evaluation, a written report must be developed by the EC, which identifies ergonomic risk factors, adjustments made on-site to equipment and furniture, and recommendations for purchasing ergonomic equipment and/or modifying equipment and furniture. The report shall be forwarded to the manager/supervisor with a copy to the employee.

The HA at each institution, parole region, DJJ Facility, division, office, HQ Program is responsible for procuring ergonomic equipment and making any modifications to equipment and/or furniture as recommended through the ergonomic evaluation report. Additionally, the HA shall make every effort to comply with the recommendations identified through the ergonomic evaluation report. Local procurement procedures should be followed to order any recommended equipment and/or make modifications to workstations. Comparable items may be available locally or through the warehouse or surplus.

If additional changes or adjustments are necessary, the EC shall complete a follow-up report and forward to the employee and his or her supervisor.

31040.3.5.3 Training

The OEW shall facilitate training for ECs. Training shall include:

- A review of the departmental Ergonomics Program.
- A review of ergonomic risk factors and RMIs.
- How to identify high-risk jobs.
- Understanding the importance of reporting RMI symptoms and injuries to a manager/supervisor.

- How to conduct ergonomic evaluations.
- Recommending control measures to reduce/eliminate risk factors.
- How to develop a written report of findings and recommendations.

Each employee shall receive ergonomic awareness training which includes:

- A review of the departmental Ergonomics Program.
- Understanding risk factors associated with RMIs.
- Identifying symptoms and consequences of injuries caused by RMIs.
- Understanding the importance of early reporting of RMI symptoms to their manager/supervisor.
- Awareness of safe work methods and techniques to minimize risk factors associated with RMIs.

Ergonomic awareness training shall be provided during the New Employee Orientation at the local level.

31040.3.5.4 Recordkeeping

Records of ergonomic reports shall be maintained by the employee, his or her manager or supervisor, and the local EC for a period of three years.

Ergonomic awareness training records shall be kept for a period of three years by the supervisor.

31040.4 Return to Work Programs

Revised June 15, 2015

31040.4.1 Policy

It is the policy of the California Department of Corrections and Rehabilitation (CDCR) to provide an equal opportunity for all applicants and employees with disabilities. CDCR employees, including those in permanent intermittent positions, employment applicants, or interns are entitled to consideration for a reasonable accommodation. This policy applies to qualified individuals with permanent or temporary disabilities, or pregnancy related disabilities.

Contractors requesting accommodations shall consult with their hiring agency. If appropriate, CDCR will work with such hiring agency and contractor to evaluate the requests for accommodations.

31040.4.2 Purpose

CDCR is committed to complying with State and federal laws, including the Americans with Disabilities Act (ADA), Fair Employment and Housing Act (FEHA), and Uniformed Services Employment and Re-Employment Rights Act (USERRA), by making a good faith effort to:

- Engage in a timely, ongoing, interactive process with employees and applicants when there is knowledge of a physical or mental disability, or medical condition that limits their ability to perform the essential functions of their positions, or complete the application process.
- Provide a reasonable accommodation to all qualified employees or applicants who need such an accommodation, unless to do so would present an undue hardship on CDCR.

CDCR's goals are to:

- Keep employees productive in the work environment by eliminating barriers to employment for qualified individuals with disabilities, without waiving the essential function(s) of the position(s).
- Retain valued, experienced, and qualified employees.

31040.4.3 Definitions

31040.4.3.1 Americans with Disabilities Act

The ADA is a federal law that mandates the elimination of discrimination against individuals with physical or mental disabilities, with a record of a disability, or being regarded as having a disability.

31040.4.3.2 California Family Rights Act

The California Family Rights Act (CFRA) is a State law that grants eligible employees, who have more than 12 months and 1,250 hours (during the preceding 12-month period) of service with an employer, a right to take up to 12 workweeks of unpaid, job-protected leave in any 12-month period for medical leave related to a serious health condition; as well as to care for a family member who has a serious health condition; or bonding after the birth of a child, adoption, or foster care placement.

31040.4.3.3 Disability

A Disability is a physical or mental condition, which affects one or more body system(s) and limits one or more of a person's major life activities, or makes the achievement of a major life activity difficult; or a medical condition (cancer related or genetic characteristic). Working is a major life activity. Disability does not include compulsive gambling, kleptomania, pyromania, pedophilia, exhibitionism, voyeurism, or psychoactive substance

use disorders resulting from current unlawful use of controlled substances or other drugs.

31040.4.3.4 Disability Retirement

Disability Retirement is a benefit for eligible employees of the State of California, which allows for a monthly pension and continuation of health benefits.

31040.4.3.5 Essential Functions

Essential Functions are the fundamental job duties of the employment position the individual with a disability holds or desires. Essential functions do not include the marginal functions of the position.

A job function may be essential because:

- The position exists to perform the function;
- A limited number of employees are available to perform the function; and/or
- The function is highly specialized and the person in the position is hired for his or her expertise.

Essential functions are defined in the written duty statement or List of Essential Functions. Some factors to consider when identifying essential functions are:

- The amount of time spent performing the function;
- The consequences of not requiring a person in this job to perform the function;
- The terms of a collective bargaining agreement;
- Work experience of employees who have performed the job in the past; or
- Work experience of employees who currently perform similar jobs.

31040.4.3.6 Fair Employment and Housing Act

The FEHA is State law that prohibits discrimination in employment against qualified individuals based on a physical or mental disability, or medical condition (cancer related or genetic characteristic); a history of a physical or mental disability; or being regarded as having a physical or mental disability. FEHA provides protections independent from those in the federal ADA.

31040.4.3.7 Family and Medical Leave Act

The Family and Medical Leave Act (FMLA) is federal law that grants eligible employees, with more than 12 months and 1,250 hours (during the preceding 12-month period) of service with an employer, a right to take up to 12 workweeks of unpaid, job-protected leave in any 12-month period for medical leave related to a serious health condition; as well as to care for a family member who has a serious health condition; or bonding after the birth of a child, adoption, or foster care placement.

Unpaid, job-protected leave of up to 12 work weeks also may be granted to assist a family member who is called to active duty, or is stationed overseas, during military service. Additionally, up to 26 work weeks of unpaid, job-protected leave may be granted to care for a family member who has been injured in the military.

31040.4.3.8 Good Faith

Within the context of the interactive process, as used in this article, good faith means that the employer or designee and employee must communicate directly, exchange essential information, and neither side can delay or obstruct the process. For example, the employer or employee who rejects the reasonable accommodation proposed by the other party and offers no alternatives fails to engage in good faith in the interactive process.

31040.4.3.9 Health Care Provider

A health care provider is:

- A medical or osteopathic doctor, physician, or surgeon, licensed in California, or in another state or country, who directly treats or supervises the treatment of the applicant or employee;
- A marriage and family therapist or acupuncturist, licensed in California or in another state or country, or any other persons who meet the definition of "others capable of providing health care services" under FMLA and its implementing regulations, including podiatrists, dentists, clinical psychologists, optometrists, nurse practitioners, nurse midwives, licensed midwives, clinical social workers, chiropractors, physician assistants, who directly treats or supervises the treatment of the applicant or employee; or
- A health care provider from whom an employer, or a group health plan's benefits manager, will accept medical certification of the existence of a health condition to substantiate a claim for benefits.

31040.4.3.10 Hiring Authority

The Hiring Authority (HA) is any person authorized by the Secretary, CDCR, or the Receiver of the California Correctional Health Care Services (CCHCS), to hire, discipline and dismiss employees under his or her authority.

31040.4.3.11 Interactive Process

The Interactive Process, required by both the ADA and FEHA, consists of timely, good faith communication between the Return-to-Work Coordinator (RTWC), the supervisor or manager, and an employee or applicant, when necessary due to a physical or mental disability, or medical condition that limits an employee's or applicant's ability to perform the essential function(s) of his or her current position, or the position for which he or she is applying. The purpose of this communication includes identifying the employee's restrictions or limitations and determining whether the applicant or employee needs a reasonable accommodation to perform the essential functions of the job, and if so, what options are available to reasonably accommodate him or her. (Refer to Section 31040.4.5.2.)

31040.4.3.12 Limited Term Light Duty Assignment

A Limited Term Light Duty Assignment is the temporary placement of a CDCR employee who has medical limitations in his or her ability to perform the essential functions of his or her job. Such placement allows for the temporary waiver of the essential functions of the employee's position, or another position within the employee's bargaining unit, and shall not extend beyond 60 calendar days in a 6-month period for an employee with such medical limitations.

31040.4.3.13 Medical Personnel Actions

Medical Personnel Actions (MPA) are voluntary or involuntary, non-disciplinary personnel actions. MPAs are approved by the HA, in consultation with the Office of Employee Wellness (OEW) when necessary or required, and may include the transfer, demotion, termination, or the filing of a disability retirement application, on behalf of a permanent or probationary employee who has become unable to perform the essential functions of his or her position with or without reasonable accommodation.

31040.4.3.14 Options Letter

The Options Letter is sent to an employee as part of the interactive process. This letter outlines the different options that may be available to an employee with a disability that impairs his or her ability to perform the essential functions of his or her position, and invites discussion of these options. (Refer to Section 31040.4.5.2.)

31040.4.3.15 Pregnancy Related Disabilities

A woman is disabled by pregnancy, childbirth, or a related medical condition, if in the opinion of her health care provider she is unable to perform any of the essential functions of her job, or if she is unable to perform any of these functions without undue risk to herself, to her pregnancy's successful completion, or to other persons.

31040.4.3.16 Qualified Individual with a Disability

A Qualified Individual with a Disability is one who possesses the necessary skill, experience, education, and other job related requirements of the employment position the individual holds or desires, and who, with or without a reasonable accommodation, can perform the essential functions of such position.

31040.4.3.17 Reasonable Accommodation

Reasonable Accommodation (RA) is any modification or adjustment to a job and/or the work environment that is effective in enabling an employee or applicant to perform the essential functions of the job the employee or applicant holds or desires. RA's may include, but are not limited to, providing assistive aids and services such as qualified readers or interpreters, job re-structuring, providing a modified schedule, providing additional training, providing paid or unpaid leave, or transfer/demotion, which are accommodations of last resort when no other accommodation is possible in the employee's current position.

The Department must reasonably accommodate a qualified individual with a disability, if that individual can perform the essential functions of his or her job with the RA. Failure to provide a RA to the known physical or mental limitations, or medical condition of an otherwise qualified person with a disability, absent an undue hardship to the Department, is considered discriminatory.

31040.4.3.18 Return-to-Work Coordinator

The RTWC is an individual at the analyst level, assigned to provide assistance and recommendations to employees, supervisors, managers, and HAs, regarding return-to-work matters relating to MPAs and requests for RA, in compliance with the ADA, FEHA, USERRA, the Civil Service Act,

and other applicable laws. RTWCs shall engage in interactive discussions with employees, supervisors, and managers to assist employees through the return-to-work process.

31040.4.3.19 Undue Hardship

Undue Hardship is any action requiring significant difficulty or expense incurred by CDCR when considered in light of the totality of the circumstances. For CDCR, this would include, but it is not limited to, any action that would endanger the health or safety of the employee or applicant requesting the accommodation, co-workers, inmates, wards or parolees; any action that violates a bargaining unit agreement; any action that creates a conflict with State or federal laws; or any action that results in a waiver of any essential function of a position.

31040.4.3.20 Uniformed Services Employment and Re-Employment Rights Act

The USERRA is a federal law that prohibits employers from discriminating against employees or applicants for employment on the basis of their military status or military obligations. Under USERRA, if a veteran has a disability incurred in, or aggravated during, his or her military service, the employer must make reasonable efforts to accommodate the disability and return the veteran to the position in which he or she would have been employed if the veteran had not performed military service. If the veteran is not qualified for that position due to the disability, USERRA requires the employer to make reasonable efforts to help qualify the veteran for a job of equivalent seniority, status, and pay.

31040.4.4 Roles and Responsibilities

31040.4.4.1 Employee

An employee with a disability in need of a RA shall initiate the process by making a request for RA and cooperating in good faith with his or her supervisor, manager, RTWC, and/or HA in identifying modifications, equipment or services needed to accommodate the employee's functional limitations. Employees can submit a request for accommodation verbally, in any written format, or on a CDCR Form 855, Request for Reasonable Accommodation, which can be obtained from the local RTWC, or the OEW website.

If requested, the employee shall provide information on the need for a RA including medical documentation, as defined in Section 31040.4.5.3. **A medical diagnosis shall not be required.** Failure to provide the required medical documentation will result in the delay or denial of a request for accommodation.

Where reassignment to an alternate position is being considered as an accommodation because the employee is not able to perform the essential functions of his or her position with or without a RA, the employee shall also provide information about his or her educational qualifications and work experience that may help determine a suitable alternate position for which the employee is qualified and can perform the essential functions. Failure to provide personal qualifications, when requested, could result in CDCR having to rely on outdated information, and placement of the employee in a position at a lower pay rate than the employee would have otherwise been qualified to receive.

31040.4.4.2 Supervisor/Manager

Supervisors and managers shall attend training on Equal Employment Opportunity covering State and federal laws which protect disabled employees from discrimination, and which require a RA be provided when an employee with a disability needs assistance in performing the essential functions of his or her job. (Refer to Chapter 3, Article 1, Section 31010.6.)

Supervisors and managers shall inform employees of the return-to-work policy and refer requests for RAs, either written or verbal, to the RTWC upon receipt of the request from an employee.

In addition, supervisors and managers shall refer employees to the RTWC when the supervisor or manager becomes aware that the employee may need a RA to perform the essential functions of his or her position (e.g. through observation, a third party, or the employee's request for leave due to a serious health condition under the FMLA or CFRA, or due to a work-related injury under the Workers' Compensation Act [WCA]).

Supervisors and managers shall work cooperatively with the RTWC to identify the essential functions of a position, and to discuss RA options. Supervisors and managers shall not waive (formally or informally) the essential functions of a position to accommodate a disabled employee.

31040.4.4.3 Return-to-Work Coordinator

RTWCs manage and process return-to-work cases to assist the HAs in providing disabled employees with an accommodation when necessary. RTWCs routinely must engage in interactive discussions with employees,

supervisors, managers and HAs, to assist employees through the return-to-work process.

The RTWC shall review and process all requests for RA received from supervisors, managers, employees, or HAs. The RTWC shall meet with the employee and discuss possible RAs as part of the interactive process to find an effective RA. The RTWC shall ask employees to complete a CDCR Form 855, and assist the employee in completing the CDCR Form 855 as necessary. Completion of the CDCR Form 855 is not required to trigger CDCR's responsibility to provide a RA; even if the employee does not complete the CDCR Form 855, the RTWC must document the employee's request for a RA and engage in the interactive process with the employee. If the existence of a disability and/or the need for RA is not obvious, the RTWC shall request that the employee provide information on the need for a RA including medical documentation as defined in Section 31040.4.5.3. **A medical diagnosis shall not be requested.**

When additional medical information is needed, the RTWC shall ask the employee to sign a medical release authorizing direct communication between the RTWC and the employee's health care provider; or in the alternative, request the employee to provide the request for additional medical information to his or her health care provider and secure a written response from the health care provider. The RTWC shall communicate with the employee's health care provider only if the employee has consented to such communication and the medical documentation received does not provide the information specified in Section 31040.4.5.3.

The RTWC shall monitor the submission and evaluation of medical information, as well as any correspondence between CDCR and the employee that is necessary to process the request for RA. If necessary, the RTWC shall ask the employee for additional information or inform the employee that additional information is needed before a decision can be made. Medical inquiries shall be limited to information specifically needed to address the request for a RA and outlined in Section 31040.4.5.3.

The RTWC shall evaluate each request and advise the employee of the return-to-work policy, as well as other employment options available under the return-to-work policy. Options that could be available to the employee shall be outlined in writing in an Options Letter to the employee. The RTWC shall consult with OEW, as needed, to determine the appropriateness of any chosen option and to verify any other options that may be available to the employee.

The RTWC shall provide recommendations to employees, supervisors, managers, and HAs regarding appropriate accommodations for every request for RA, after the RTWC has gathered the information, specified above, from the employee and/or the employee's health care provider. The RTWC shall submit the completed CDCR Form 855 or documentation of the request for RA, with the requisite attachments, to the HA with a recommendation for the HA to make a final determination.

The RTWC shall consult with the OEW, as necessary, when assistive devices or ergonomic equipment are requested in order to identify appropriate equipment, furniture, or facility modifications. The implementation of such approved accommodations should be coordinated with the appropriate Business Services and Accounting offices to purchase the necessary services, equipment, or furniture.

31040.4.4.4 Hiring Authority

Each HA shall have the responsibility to determine the appropriate course of action to follow when responding to requests for RA and providing RAs to qualified individuals with disabilities. The HA shall make every effort to accommodate each employee's individual needs and consider a combination of return-to-work options in reaching final determinations.

The HA shall be responsible for the oversight of the return-to-work functions within his or her institution, facility, or program. The HA shall not waive the essential functions of a position to accommodate a disabled employee or provide an accommodation that creates an undue hardship as defined in Section 31040.4.3.19. In addition, the HA, in consultation with OEW when required or necessary, is responsible for:

- Reviewing the completed CDCR Form 855 or the documentation of the request for RA, supporting medical documentation, and the recommendations from the RTWC for RA requests;
- Making the final determination on requests for RA, medical transfers, medical demotions, medical terminations, and employer generated retirement applications;
- Approving Limited Term Light Duty Assignments, as appropriate; and
- Approving requests for Fitness for Duty Evaluations.

31040.4.4.5 Office of Employee Wellness

The OEW, RTW Services Section (RTWSS), an office within Employee Health and Wellness (EHW), Human Resources, shall assist all employees, and their supervisors and managers, in working through RA, Limited Term Light Duty Assignments, and MPA processes. That assistance includes facilitating Fitness for Duty Evaluations; processing medical transfers, demotions, or terminations; and filing for disability retirement on behalf of employees. The OEW shall solicit review of the above requests by the Office of Legal Affairs (OLA), as needed, and forward a recommendation for final review and determination by the appropriate HA. The OEW is responsible for:

- Providing return-to-work services for all Headquarters based personnel;
- Providing liaison assistance and functional oversight to all CDCR RTWCs, statewide;
- Providing training for all CDCR RTWCs and supervisors and managers at all levels regarding requirements under State and federal laws and CDCR policies for the return-to-work program;
- Developing and implementing CDCR's return-to-work policy;
- Facilitating the development and retention of all standardized and other essential functions lists used in the return-to-work and RA processes; and
- Reviewing, consulting on, and providing recommendations to the HAs on all of the following:
 - Peace officer requests for RAs;
 - Vest wear RAs;
 - Medical demotions/transfers/terminations;
 - Employer generated Disability Retirement Applications; and
 - Requests for Fitness for Duty Evaluations.

31040.4.5 Reasonable Accommodations

31040.4.5.1 Initiation of the Reasonable Accommodation Process

It shall never be assumed by any manager or supervisor that an employee is disabled, has a medical condition, or requires RA. The RA process shall be initiated by the employee, supervisor, manager, HA, or RTWC when one or more of the following occur:

- An employee states he or she needs assistance to perform the essential functions of his or her job, due to a physical or mental disability, or medical condition;
- The supervisor, manager, HA, or RTWC becomes aware of the need for an accommodation through a third party or observation; or
- The supervisor, manager, HA, or RTWC becomes aware of the possible need for an accommodation, because the employee takes leave due to his or her serious health condition under the FMLA or CFRA, or due to a work-related injury under the WCA.

A request for RA can be submitted by employees verbally, in writing, or on a CDCR Form 855. A verbal request for an accommodation shall be immediately documented, in writing, by the person receiving the request and delivered to the RTWC.

The HA or designee shall provide a written acknowledgement to the employee regarding his or her request for RA due to a disability or medical condition within a reasonable time, but no later than 20 working days after the receipt of the request from the employee. This acknowledgement shall notify the employee if additional information is needed before a decision can be made.

The HA or designee shall respond to the employee regarding a request for RA, transfer, or leave due to pregnancy or pregnancy related disabilities, within 10 calendar days from the receipt of the request from the employee. (CCR, Title 2, Section 11050.)

31040.4.5.2 Interactive Process

The interactive process requires employer and employee flexibility and cooperation to identify appropriate accommodations for qualified individuals with disabilities. The interactive process shall be documented, in writing, by the RTWC or any manager or supervisor involved in the process, even if conducted verbally, and shall continue until a RA has been identified and implemented or other resolution has occurred.

At the employee's request, a representative of his or her choosing shall be allowed to assist in the interactive process by attending meetings with the employer (or employer representative) convened to explore possible reasonable accommodations to an employee's disability.

The assigned RTWC shall make every effort to assist the employee by engaging in a timely, good faith, interactive process. The interactive process consists of communications designed to explore whether or not the employee needs an accommodation for the employee's known functional limitations, to

perform the essential functions of the job. As part of the interactive process, and with the employee's consent, the RTWC may send a list of the essential functions of the employee's position to the employee's health care provider. Communications between the RTWC and the employee requesting RA should be in person, whenever possible, and may include providing an Options Letter to the employee, which identifies information, including but not limited to, RAs, disability benefits, retirement benefits, or leave of absence options. The Options Letter shall be sent to the employee when medical information has been received indicating that the employee may need a RA to perform the essential functions of his or her position.

If one does not already exist, rapid development of an essential functions list is a critical component of the interactive process. This list facilitates discussion among the supervisor, manager, employee, RTWC, OEW, HA, treating health care providers, and/or fitness for duty physicians.

If the health care provider outlines work restrictions that can be accommodated, the interactive process shall continue and the employee should return to his or her current position with any appropriate RAs. If the requested RA would create an undue hardship for the CDCR (as defined in Section 31040.4.3.19), or the employee cannot perform the essential functions of his or her job with the accommodation requested, the interactive process shall continue with the employee to discuss alternatives. The RTWC shall consult with the local Labor Relations Analyst, or the Office of Labor Relations for Headquarters employees, as needed, to rule out a conflict between the proposed accommodation and a bargaining unit agreement. An employer is not required to provide the specific accommodation requested by the employee, but has a duty to provide an effective accommodation that is reasonable.

For those accommodations that cannot be granted initially, RTWCs shall continue the interactive process by communicating with the employee and HA and exploring alternative accommodation opportunities, if any. Alternative accommodations may include, but are not limited to, paid or unpaid leave or transfer/demotion, which are accommodations of last resort when no other accommodation is possible in the employee's current position. Other options may include disability retirement or medical termination when no accommodation is possible in any CDCR position.

31040.4.5.3 Processing Requests for Reasonable Accommodation

RAs are processed by the assigned RTWC, through the appropriate chain of command, to the HA, in consultation with OEW as needed or required. The RTWC can receive requests for RA from the requesting employee or any manager or supervisor who received a request for RA from an employee. The RTWC shall review the request for RA and/or medical documentation; work cooperatively with managers and/or supervisors to identify the essential functions of the employee's position and discuss RA options; and make a recommendation to the HA regarding the request for RA.

If the existence of a disability and/or the need for a RA is not obvious, upon receipt of a request for RA, the RTWC shall require the employee to provide medical documentation verifying: the functional limitations that affect the employee's ability to perform the essential functions of his or her position; the need for a RA; the estimated duration of the RA; and the health care provider's expertise to certify the employee's functional limitations and the need for a RA.

Upon receipt of a request for RA due to pregnancy, the RTWC shall require the employee to provide medical certification from her health care provider containing: a description of the requested accommodation; a statement describing the advisability of the RA; the date upon which the need for the RA will become medically advisable; and the estimated duration of the RA. For peace officers, and other classifications that may be required to wear a protective vest, a vest re-fit may be necessary during the employee's pregnancy.

A qualified individual with a disability is entitled to a RA, which may include reassignment to a vacant, budgeted position over other applicants and existing employees, when no accommodation is possible in the employee's current position; however, when considering a reassignment or other RA, the CDCR is not required to:

- Waive the essential functions of the job/classification;
- Reduce or transfer the employee's workload involving essential functions to another employee;
- Create additional employment that would not otherwise have been created;
- Discharge another employee;
- Violate the terms of a collective bargaining agreement or Memorandum of Understanding, including post and bid rules;
- Transfer another employee to create a vacancy for a disabled employee;

- Promote or transfer any employee who is not qualified to perform the new job and/or who otherwise does not meet civil service requirements or minimum qualifications for such position; or
- Provide an accommodation, if the accommodation creates an undue hardship for the CDCR.

RAs shall first be considered within the employee's current position without waiving the essential functions of the job. A RA may include the transfer of the employee to a vacant and budgeted, less strenuous or hazardous position, within the same classification, where the employee is still capable of performing all of the essential functions of his or her classification, when called upon to do so. A RA also can consist of job restructuring, which may include, but is not limited to, reallocation or redistribution of non-essential job functions in a position with multiple responsibilities.

If an employee requests a transfer to a less strenuous and/or hazardous position, and a vacant, budgeted position within the same classification does not exist that can accommodate the employee's restrictions, the employee may elect to continue working in his or her present position, performing all the essential functions of the position, with or without an accommodation, or take leave utilizing his or her own leave credits. The RTWC will refer employees to the FMLA Coordinator to discuss potential eligibility for protected leave under FMLA or CFRA, or if pregnant, to the Personnel Office for information on Pregnancy Disability Leave entitlements.

If a RA within the employee's current classification is not possible, alternate placement, in the form of a transfer or demotion, shall be considered as a RA of last resort. The interactive process shall occur prior to considering alternate placement; and this accommodation shall only be considered after all possible accommodations within the employee's same classification have been explored.

A transfer or demotion shall be considered if:

- The employee can no longer perform the essential functions of his or her current position or classification, either with or without a RA;
- CDCR cannot provide a RA in the current classification without undue hardship; or
- There are no vacant, budgeted positions in the employee's current classification for which the employee is qualified and can perform the essential functions either with or without a RA.

Prior to transferring or demoting an employee, as an accommodation of last resort, documentation (including but not limited to, the employee's request for RA, documentation of the interactive process, medical reports, a list of essential functions, the employee's current qualifications, State Application, and resume) must be submitted to OEW for approval and processing. The employee shall meet the minimum qualifications of any proposed position and must be able to perform the essential functions of the proposed position either with or without a RA. Transfers and demotions (except those that occur in compliance with USERRA) shall not result in a salary increase for the affected employee. However, CDCR is required to attempt to place the employee in the highest paid, vacant, budgeted position for which the employee meets the minimum qualifications.

If the transfer or demotion is involuntary, the employee shall be given written notice of the medical action and appeal rights, at least 15 calendar days prior to the effective date of the transfer or demotion. (Government Code, Section 19253.5.)

31040.4.5.4 Finalization of the Reasonable Accommodation Request

The HA, in collaboration with the OEW when required, shall make the final determination, and provide a written response to the employee, on requests for RA.

Any grant of a RA request resulting in an alternate placement, or any peace officer accommodation, shall be processed by the assigned RTWC and shall require consultation with the EHW, Associate Director, and final approval of the HA.

No accommodation shall be granted that results in an undue hardship for CDCR, as defined in Section 31040.4.3.19.

Denials of a RA request shall require the approval of the HA, after consulting with the EHW, Associate Director.

The employee has the right to file a complaint alleging discrimination, at any time during CDCR's process, in accordance with Chapter 3, Article 1, Section 31010.5.2.

31040.4.5.5 Documentation/Record Keeping/Records Retention

All discussions regarding a potential accommodation must be documented in writing, provided to the RTWC, and stored in the return-to-work file. Utilization of the CDCR Form 855 is recommended for this purpose, although not required.

The ADA and FEHA limit the use of information obtained from medical records of employees for the purpose of providing RA. All medical information obtained shall be treated as a confidential medical record. In accordance with the ADA, FEHA, and the California Confidentiality of Medical Information Act (CCMIA), the CDCR is responsible for the confidentiality and security of these medically-related materials. Employees improperly disclosing confidential medical information will be held accountable in accordance with departmental policy.

Information contained in the return-to-work file shall be kept separate from the employee's Official Personnel File (OPF) or Workers' Compensation File, and shall be kept confidential, except that: (1) supervisors, managers, and HAs may be informed of restriction(s) on the work duties of employees with disabilities and necessary RAs; (2) first responders and safety personnel may be informed, when appropriate, that the condition may require emergency treatment; and (3) government officials investigating compliance with the ADA, FEHA, or USERRA shall be provided relevant information through the Office of Internal Affairs (OIA) or the OLA.

Requests for RAs and supporting documentation shall be retained by the assigned RTWC in confidential files and stored in a secure location to prevent unauthorized access, for a period of 30 years, or for the duration of any related pending litigation, whichever is longer.

For RAs extending beyond one year, the RTWC may ask for medical documentation substantiating the need for continued RA, on a yearly basis.

31040.4.6 Lactation Accommodation

It is the policy of the CDCR to make every reasonable effort to provide a lactation accommodation for an employee as required by State and federal law.

Generally, lactation without medical complications is not a disability requiring pregnancy disability leave; however, lactation may require a transfer to a less strenuous or hazardous position or other RA. Approval of such a RA shall be based on review of a request from the employee, accompanied by medical documentation stating that the RA is medically advisable, the date upon which the need for the RA will become medically advisable, and the estimated duration of the RA.

An employee may request (verbally, in writing, or on a CDCR Form 855) lactation accommodations to express breast milk for her infant child. The RTWC shall process such requests. The HA shall make the determination on the request and shall provide written notice of the decision to the employee within 10 calendar days from the receipt of the request from the employee.

Employees needing a lactation accommodation to express breast milk shall be entitled to reasonable time, used concurrently with any break time already provided, and shall be responsible for the storage of expressed milk. Employees who do not have authorized breaks may use available leave credits or take unpaid leave during the time spent expressing milk. The CDCR shall provide the employee with the use of a private, locking room, in as close a proximity to the employee's work area as reasonably possible, for the employee to express milk. Any existing windows must be covered for the employee during lactation. A pre-designated lactation room is not required; however, it is recommended. For peace officers, or other classifications that may be required to wear a protective vest, a vest re-fit may be needed. Essential functions shall not be waived for employees granted a lactation accommodation.

31040.4.7 Limited Term Light Duty Assignment

In accordance with the provisions of the California Code of Regulations, Title 15, Division 3, Section 3436, it is the policy of the CDCR, when operational needs allow, to provide Limited Term Light Duty Assignments (LTLDA) to all CDCR employees who have medical limitations in their ability to perform the essential functions of their job.

The HA may utilize LTLDA, when operationally feasible, to allow employees with documented medical limitations to work. The HA shall place the employee in a vacant, budgeted position within the employee's bargaining unit, or allow the employee to continue working in his or her current position, while temporarily waiving the essential functions of the job, as long as safety and security is not jeopardized.

No position will be identified permanently as a light duty position. The duration of a LTLDA for any one employee may vary; but, in any case, it shall not extend beyond 60 calendar days in a 6-month period for any medical condition(s). In addition, LTLDA shall be offered only for the duration of the vacant, budgeted position, but not exceed 60 calendar days. The HA shall not create a position to accommodate LTLDA for an employee.

An employee with medical limitation(s) can make a request for a LTLDA. Medical documentation from the employee's health care provider is required as part of the LTLDA request, and the medical documentation must state an expectation that the employee will be able to return-to-work full duty, with or without RA, upon or before completion of the LTLDA.

The HA has the discretion to approve or disapprove all LTLDAs, based on the operational needs of the institution/unit. Requests for LTLDAs shall be assessed individually. A request for LTLDA shall not be approved when the grant of the request will impose a risk to the safety and security of staff, inmates, wards, parolees, or visitors.

The designated RTWC and the employee's supervisor shall work together to: (1) identify a LTLDA, (2) monitor and track the time frame of the LTLDA, and (3) document the LTLDA in writing to include a signed agreement between the employee, RTWC, and the HA or designee at the management level.

While on a LTLDA, the employee shall continue to receive the salary commensurate with his or her currently appointed civil service classification, adjusted for any reduced time base worked, if necessary. The HA may terminate the LTLDA at any time.

Refusal by an eligible employee to accept a LTLDA may result in the employee being placed on leave status, paid by using available leave credits and/or unpaid, if the employee has limitations that prevent him or her from performing the essential functions of his or her position with or without a RA. Refusal may also result in the loss of workers' compensation wage loss benefits, such as Industrial Disability Leave, Enhanced Industrial Disability Leave, or Temporary Disability.

31040.4.8 Fitness for Duty

The purpose of a Fitness for Duty Evaluation is to determine the employee's capability of performing the essential function(s) of his or her position and classification through a medical or mental health examination mandated by the HA, and performed by a Board certified physician. The results of this evaluation will be used to determine whether the employee has limitations on his or her ability to perform the essential function(s) of the employee's position, or any other position in CDCR. (Government Code, Section 19253.5.)

Any Fitness for Duty Evaluation processed by CDCR must be job-related and consistent with a business necessity. The evaluation must be limited to determining whether there are functional limitation(s) that require(s) RA.

A Fitness for Duty Evaluation shall be considered, in consultation with OEW, for various reasons, including, but not limited to, the following:

- The employee refuses to consent to communications between the RTWC and his or her health care provider or to provide the requested medical documentation;
- The employee's health care provider refuses to review the list of essential functions and provide written documentation of the employee's work restrictions;
- Evidence that the employee with a disability has exhausted leave under the CFRA and/or FMLA, WCA, or other federal, State, or employer leave provisions, but is still unable to perform the essential functions of his or her position with or without a RA;
- Evidence from a third party, or information from the employee directly, that, due to medical or psychological limitations, he or she cannot perform the essential function(s) of his or her position with or without a RA;
- The employee displays behavior that causes a safety or security concern for himself or herself, and/or the staff, inmates, wards, or parolees;
- The employee or employee's health care provider(s) submits insufficient medical information, after requests from the RTWC to the employee or his or her health care provider(s);
 - Sufficient medical information should include: documentation of the existence of functional limitations affecting the employee's ability to perform the essential functions of his or her position; the need for a RA; the estimated duration of the RA; and the health care provider's expertise to certify the employee's functional limitations or need for a RA;
- The medical documentation is not from a health care provider with the expertise to certify the employee's functional limitations or need for a RA;
- Conflicting or disputed medical information is received from health care providers or experts;

- Indication that the medical documentation is fraudulent; or
- The employee is not treated by a health care provider, as defined in Section 31040.4.3.9.

Prior to ordering a Fitness for Duty Evaluation on an employee, approval must be obtained from the EHW, Associate Director, who will review the information submitted by the HA justifying the need for the Fitness for Duty Evaluation. The HA must be able to articulate the reasons for the evaluation that:

- Are job related; and
- Indicate the employee may jeopardize the safety or security of the institution, facility or program; or
- Create a credible question about the employee's ability to perform the essential functions of their job, with or without a RA.

After the HA, in consultation with OEW, approves the Fitness for Duty Evaluation, the local RTWC shall work with the OEW to procure the Fitness for Duty Evaluation provider.

Upon receipt of the Fitness for Duty Evaluation report, the HA and designated institution staff (i.e. RTWC or designee) shall consult with the assigned OEW Liaison Analyst, Manager, and EHW, Associate Director, along with the assigned OLA Attorney, if necessary, to analyze and discuss the findings, a possible plan for the employee's return-to-work, or other options as follows:

- Resuming the interactive process discussions with the employee and reviewing available options;
- Identifying if the employee needs an accommodation; or
- If the employee is unable to return-to-work to his or her classification with or without a RA, a transfer, demotion, disability retirement, or termination shall be explored, and appropriate action shall be taken, consistent with Government Code, Section 19253.5.

31040.4.9 Medical Rejection on Probation

A probationary employee may be rejected during probation for medical reasons if it is determined that the employee has functional limitations that prevent the employee from performing the essential functions of his or her job, with or without a RA.

A medical rejection on probation shall require the approval of the HA, after consulting with the EHW, Associate Director.

31040.4.10 Disability Retirement

It is the policy of the CDCR to comply with State of California disability retirement laws and to provide information regarding disability retirement benefits through the California Public Employees' Retirement System (CalPERS) to an employee, upon request, or when the employee can no longer perform the essential functions of his or her position with or without a RA. Disability retirement, if approved, allows for a monthly pension and continuation of health benefits.

Disability Retirement is a benefit for employees of the State of California as defined under the Government Code, Sections 21150-21176. The CalPERS determines an employee's eligibility for a disability retirement. Eligibility is determined upon receipt of an application for disability retirement and medical evidence that a member is substantially incapacitated from his or her usual duties. If the employee is eligible, CalPERS provides a monthly retirement allowance payable to the employee for life, or until recovery from a disabling injury or illness allows a person to return to his or her previous employment.

If the disability is the result of a job-related illness or injury, and the employee is a State safety, State peace officer/firefighter, or State industrial member, he or she may be entitled to an industrial disability retirement.

Employees shall be informed that disability retirement and industrial disability retirement are considered temporary separations resulting in mandatory reinstatement rights to their classifications, should they recover from the disabling injury or illness and are able to perform the essential functions of their previously held positions or classifications. There is no minimum age requirement for disability or industrial disability retirement, and no minimum service requirement for an industrial disability retirement.

If the HA, after considering the conclusions of medical reports from the employee's health care provider(s) or the results of a Fitness for Duty Evaluation, concludes that the employee is unable to perform the work of his or her present position, or any other position in the CDCR, and the employee is eligible and does not waive the right to retire for disability, the HA shall file an application for disability retirement on the employee's behalf. The HA shall give the employee 15 calendar days written notice of its intention to file such an application and a reasonable opportunity to respond to the

appointing power prior to the appointing power's filing of the application. (Government Code, Section 19253.5.)

Upon filing the application for disability retirement, the HA may remove the employee from the job and place the employee on involuntary leave status. The employee may use any accrued leave during the period of the involuntary leave. If the employee's leave credits and other entitlements are exhausted, or if they do not provide benefits at least equal to the estimated retirement allowance, the HA shall pay the employee an additional temporary disability allowance, so that the employee receives payment equal to the retirement allowance. CDCR shall continue to make all employer contributions to the employee's health plans during the period of the involuntary leave. (Government Code, Section 19253.5.)

CDCR shall submit an employer-generated disability retirement application on behalf of an employee if all of the following occur:

- The employee is vested and entitled to retirement benefits through CalPERS and has not waived his or her right to those benefits;
- The employee is unable to perform the essential function(s) of his or her position, or any other position within the CDCR statewide; and
- There is no RA available in his or her current, or any other, position. (Refer to Section 31040.4.5.)

All applications for disability retirement filed on behalf of an employee must be approved by the EHW, Associate Director, and are processed through the OEW, with the assistance of the assigned RTWC and the HA.

Upon receipt of a notification that an employee's application for disability or industrial disability retirement has been denied, and the employee has not previously service retired, the HA and RTWC must take immediate steps to determine if the employee will be returned to pay status. In consultation with the RTWC, the HA shall immediately contact the employee, in writing, to inquire whether the employee wishes to return to work and arrange for a reporting date. The employee will remain off pay-status only if he or she advises of his or her intent to appeal CalPERS' decision or provide a current off-work health care provider's note, at which point the interactive process resumes. If the employee states an intent to return to work and the HA questions the employee's ability to safely perform all essential functions of the job, the HA or RTWC shall contact their OEW liaison/analyst immediately for guidance.

If the HA has evidence, after an employee's return to work from retirement, that an employee is unable to perform the essential function(s) of the employee's position, with or without a RA, or if the employee's continued employment adversely impacts CDCR operations, because the employee's behavior creates an imminent risk for others in the workplace, the HA shall request a Fitness for Duty Evaluation, subject to OEW's approval. (Refer to Section 31040.4.8.)

31040.4.11 Medical Termination

For an employee who, due to a disability or medical condition, has work restrictions that prevent him or her from performing the essential functions of his or her job, or any job in CDCR, either with or without a RA, and is not vested through CalPERS, or otherwise waives his or her right to disability retire, it is the policy of the CDCR to process a medical termination from State employment. This is an administrative action that separates an employee when all other medical options (e.g., RA, medical leave of absence provided under CFRA or FMLA, or disability retirement) have been exhausted, or discussed with the employee and determined inappropriate under the specific circumstances of the employee's employment status and medical condition or disability.

A medical termination shall be considered only if all of the following apply:

- The employee can no longer perform the essential functions of his or her classification with or without a RA;
- There are no funded, vacant positions in the employee's current classification for which the employee is qualified and can perform the essential functions with or without a RA;
- The employee is unable to perform the essential functions of any other position in the CDCR anywhere in the State, for which he or she meets the minimum qualifications, with or without a RA;
- CDCR cannot provide a RA without undue hardship; and
- The employee: is ineligible for, or waives the right to, disability retirement; refuses to cooperate when CDCR files for disability retirement on his or her behalf or has been denied disability retirement (after waiving or exhausting his or her appeal rights), and still refuses; or is unable, for medical reasons, to return to work.

Prior to the HA serving a notice of medical termination on an employee, consultation with the EHW, Associate Director, or RTWSS Chief, shall

occur, including the review of appropriate documentation (including, but not limited to, the employee's request for RA, documentation of the interactive process, medical reports, and a list of essential functions of the employee's job/position). OEW, in consultation with the OLA, will draft the appropriate Notice of Medical Action – Termination document and forward it to the HA for finalization, signature, and service to the employee. This document shall give the employee written notice of the medical action and appeal rights, at least 15 calendar days prior to the effective date of the medical termination.

31040.4.12 Reinstatement

An employee who is subjected to a medical action such as a demotion, termination, or disability retirement (voluntary or involuntary), retains mandatory reinstatement rights to the civil service position from which the medical action was taken. These rights may be exercised by the employee if the employee provides sufficient medical evidence that the functional limitations from which he or she previously suffered, and which impacted his or her ability to perform the essential functions of that classification, with or without a RA, are no longer present.

An employee seeking mandatory reinstatement from disability retirement must initially seek approval from CalPERS. A request for such reinstatement, including all supporting medical documentation, must be addressed to the HA or assigned RTWC, who shall then contact the OEW for assistance.

An employee seeking reinstatement after a medical termination, transfer, or demotion must initially seek approval from the State Personnel Board (SPB). In approving or ordering the reinstatement, the SPB may require the satisfactory completion of a new probationary period.

31040.4.13 Other Options

A disabled or injured employee, when he or she is unable to perform the essential functions of his or her current position, may be entitled to additional benefits or employment opportunities; such as, but not limited to, the following:

- Unpaid leave under the CFRA or FMLA relating to a serious medical condition for up to 12 weeks;
- An unpaid leave of absence for medical reasons, at the discretion of the HA, for a period not to exceed one year. Extension of an unpaid leave of absence for a rank-and-file employee may be granted in accordance with the applicable bargaining unit contract, federal and State laws. Prior California Department of Human Resources' approval is required for an extension of an unpaid leave of absence beyond one year for excluded employees. CDCR is not required to provide an indefinite leave of absence as a RA;
- Use of existing leave balances;
- Pregnancy leave for up to four months, with a right to return to the original or exact same job, if the position still exists;
- Non-Industrial Disability Insurance payments administered by the California Employment Development Department (EDD);
- State Disability Insurance payments administered by EDD;
- Temporary Total Disability/Industrial Disability Leave for workers' compensation injuries administered and adjusted through the State Compensation Insurance Fund; or
- Voluntary medical termination.

31040.5 Substance Abuse Testing Programs

31040.5.1 Policy

It is the policy of the CDCR that employees comply with the departmental substance testing programs. The Department's commitment is to help ensure that the workplace is free from the effects of drug and alcohol abuse.

31040.5.2 Purpose

The purpose of this policy is to provide information regarding the administration of the staff substance testing program for the purpose of clarity and uniformity within the Department. The Substance Abuse Program and Testing Section (SAPTS) is responsible for maintaining and coordinating the CDCR's staff substance testing programs and policies. The SAPTS was developed to meet the substance testing requirements of Governor's Executive Order D-58-86, the Federal Department of Transportation (DOT) regulations, Department of Personnel Administration (DPA) rules, collective bargaining agreements and the State's Implemented Terms.

The testing programs include: Federal DOT (for safety sensitive commercial drivers); Bargaining Unit 6 Peace Officers (covered by Memorandum of

Understanding (MOU) or the State's Implemented Terms); Excluded and Exempt Peace Officers, and reasonable suspicion.

31040.5.3 Substance Abuse Programs – Defined

Substance collecting and testing is conducted in accordance with standards established by the Substance Abuse and Mental Health Service Administration (SAMHSA), the Federal Motor Carrier Safety Administration and accepted industry standards approved by the DPA. Alcohol testing is conducted using an evidential breath testing device and the method of determining the presence of a drug is by collection and analysis of a urine sample.

- **Federal Department of Transportation (Safety Sensitive Commercial Drivers)**

Under the Federal DOT regulations, departmental employees who must possess a Commercial Driver's License and are performing safety sensitive duties are subject to drug and alcohol testing requirements. These requirements include random, reasonable suspicion, pre-employment, post accident, pre-duty, return-to-duty, and follow-up testing. Employees whose vehicles meet the Federal requirements for testing for a commercial driver include those required to operate a vehicle with a gross vehicle weight rating in excess of 26,000 pounds; those required to drive a vehicle designed to carry 16 or more passengers (including the driver); or those required to operate a vehicle of any size when used in the transportation of a placardable amount of hazardous material.

CDCR employees in the DOT program are in a consortium pool of commercial drivers stored at the DPA with other State departments. Names are randomly selected by the DPA's computer software program. The SAPTS obtains the testing notices from DPA's Testing Program Coordinator and forwards them to the Local Substance Abuse Testing Coordinator for distribution.

In addition to random substance testing, a negative substance test result is required prior to assignment to safety sensitive functions as follows:

Pre-Duty

Prior to a current employee being assigned to a position requiring the operation of a commercial motor vehicle, he/she must submit to a controlled substance and alcohol test. The negative test result must be found prior to the first day in the assignment.

Pre-Employment

A pre-employment controlled substance test will be required of any new hire including list appointments, transfers, reinstatements, and retired annuitants following a break in service prior to appointment to a safety sensitive position. A negative test result must be found prior to the first day of performing a safety sensitive function.

Other types of safety sensitive driver testing:

Post-Accident

Following an accident involving a commercial motor vehicle, a post-accident test will be administered to the commercial driver if either of the following exists: 1) the driver was performing a safety sensitive function involving the vehicle and the accident involved a loss of human life; or 2) the driver received a citation under State or local law for a moving traffic violation arising from the accident and the accident resulted in bodily injury with immediate medical treatment away from the scene and/or resulted in disabling damage to any vehicle requiring the vehicle to be transported or towed.

Return-to-Duty

Employees who have engaged in prohibited conduct under the federal DOT regulations must submit to and pass a return-to-duty test prior to resuming the performance of safety sensitive duties.

Follow-Up

Following a determination that a driver is in need of assistance, each employer shall ensure that the driver is subject to a minimum of six unannounced follow-up alcohol and/or controlled substance tests during the first twelve months following his/her return to work as directed by a Substance Abuse Professional (SAP) service. DOT regulations require that an employee who tests positive for drugs and/or alcohol must be referred to a SAP for evaluation. If it is determined that education or treatment is needed, the SAP will refer the employee to an appropriate program and follow-up to ensure completion.

- **Bargaining Unit 6 Peace Officers**

Random drug and alcohol testing conducted per prevailing MOU or the State's Implemented Terms.

- **Excluded and Exempt Peace Officers**

DPA Rules 599.960 – 599.966 require random drug and alcohol testing of excluded and exempt State employees who are peace officers under Part 2, Title 3, Chapter 4.5, Sections 830.2(d) and 830.5, of the Penal Code.

- **Reasonable Suspicion**

Departmental employees designated by the CDCR as working in sensitive positions may be tested for reasonable suspicion. Reasonable suspicion is the good faith belief based on specific articulable facts or evidence that an employee may have violated the policy prescribed in DPA Rule 599.960(b) and that substance testing could reveal evidence related to that violation. Reasonable suspicion provisions exist only when an employee is on duty or on standby for duty. A finding of reasonable suspicion is based on direct observation concerning the appearance, behavior, speech, and/or body odor of the employee. These findings must be documented using the Reasonable Suspicion Checklist (CDCR Form 1874).

Sensitive positions include all departmental peace officer positions, as defined beginning with Section 830 of the Penal Code, and all civil service positions located at a State correctional institution, juvenile facility, camp, correctional hospital, parole outpatient clinic, parole office, and community correctional facility.

31040.5.4 Substance Abuse Program and Testing Section – Administration

The SAPTS is responsible for establishing and maintaining the CDCR's staff substance abuse testing programs and has the following primary responsibilities:

- Coordinates the implementation, compliance, and auditing of the SAPTS' policies and procedures for the substance testing programs.
- Maintains random pool databases and executes random selections. The SAPTS with the Institution Personnel Officers and Office of Personnel Services, properly maintains the pools of eligible employees for the various testing programs; and executes, distributes, and coordinates with the field the random draws for the DOT (executed by DPA), BU 6 (database located at DPA) and the Excluded and Exempt Peace Officer testing programs. Names are randomly selected by a computer software program and are forwarded by the SAPTS to the Local Substance Abuse Testing Coordinator for distribution.
- Provides training and education to departmental management and staff in accordance with the requirements cited in DOM Section 31040.5.1. Training includes New Employee Orientation, Basic Supervision, Advanced Supervision, Management Training, and the Parole Academy. On-site training is also provided for Local Substance Abuse Testing Coordinators, Designees and Administrative Officers of the Day, as well as managers, supervisors, and executive staff.
- Provides timely and appropriate management consultation and technical assistance to departmental management and staff.
- Acts as a liaison with other appropriate State departments and outside contractors.

Local Substance Abuse Testing Coordinator

The Local Substance Abuse Testing Coordinator (LSATC) has the overall responsibility of coordinating the testing program at the local facility and consulting with the SAPTS regarding policies and procedures. The LSATC notifies supervisors of staff scheduled for tests (the SAPTS coordinates the testing when the LSATC is selected for random testing), receives test results from the SAPTS and informs the appointing authority or the Designee of a positive test result. The LSATC is also responsible for maintaining a current list of DOT commercial drivers for their facility.

Designee

An individual at a classification no lower than management. The Designee shall act as the management representative who is the final authority in determining whether reasonable suspicion exists. The Designee makes the decision whether substance testing will be conducted. If the Designee is not available, the Administrative Officer of the Day may act in the capacity of the Designee provided he or she has been trained by the SAPTS in this regard. A Designee shall be available every day of the year.

31040.5.5 Substance Abuse Program and Testing Section – Policy Notification

Bargaining Unit 6 Peace Officers, Excluded and Exempt Peace Officers, and Sensitive Positions

Prior to inclusion in a pool, each employee in a random testing pool must be given the testing policy and procedures and the EAP pamphlet. In acknowledgment of receipt and understanding of the aforementioned, employees are required to sign a Rank and File (BU 6) Signature Sheet (CDCR Form 1889) or an Excluded and Exempt Peace Officers Signature Sheet (CDCR Form 1889A). Employees who could be tested for reasonable suspicion must sign the Notice of Possible Substance Abuse and Alcohol Testing for Designated Sensitive Positions (CDCR Form 1875). All employees subject to substance testing are required to sign a bulletin that includes advisory information on the use of drugs obtained in a foreign country.

An Employee Substance Testing Education Video is available for viewing in the In-Service Training Office. Division of Adult Parole Operations personnel are directed to contact their designated LSATC to view the video. All other locations should contact the SAPTS to view the video.

Safety Sensitive Commercial Drivers

Prior to appointment to a safety sensitive driving position requiring a Commercial Driver's License, the applicant will be notified of the DOT pre-employment testing requirements at the time of interview. Hiring commitments are contingent on a negative test result. The applicant will be provided the DOT alcohol and drug rules, CDCR policy, substance abuse professional service counseling information, and the EAP pamphlet. Upon a negative test result, the applicant is to complete the Federal DOT Employee Signature Sheet (CDCR Form 1888), if hired.

ARTICLE 5 — PARAPROFESSIONAL

Revised October 4, 1994

31050.1 Policy

The Department shall work closely with colleges and universities of the State and participate in federally funded programs to maximize the effectiveness and efficiency of correctional programs and for the betterment of persons received as staff from these resources. Through liaison with colleges and universities, the Department shall:

- Recruit academically qualified employees.
- Provide for the academic and professional development of existing employees.
- Make correctional goals and methods known to the academic community by:
 - Increasing and coordinating departmental employee contact with various college and university departments which have an interest in correctional programs (Social Welfare, Criminology, Sociology, Police Science, etc.).
 - Encouraging cooperative training efforts such as courses offered in correctional facilities and use of departmental employees as guest lecturers or instructors on campus.
 - Providing for the placement of students who are interested in a correctional career.

31050.2 Purpose

This section describes job classifications and federally funded programs for the recruitment and development of paraprofessional employees.

31050.3 Responsibility

Hiring authorities shall develop and implement evaluative techniques and methods for the selection and assignment of paraprofessional employees.

The Department's TSB and the HRS shall assist by providing whatever material, information, etc., is needed to carry out plans regarding college liaison or intern and training programs.

31050.4 Federally Funded Programs

The Work Incentive Program (WIN) is administered jointly by the U.S. Departments of Labor and Health and Human Services. The Department's Selection and Standards Branch coordinates all departmental involvement in the WIN program.

Work Incentive Program

The Department participates in two types of WIN training:

- OJT experience. The Department contracts with WIN to provide a work situation wherein enrollees can prepare for and obtain permanent employment. Under this program, WIN enrollees receive their regular grant from local welfare departments and incentive pay from WIN.
- Focused Recruitment Program (FRP). Under this Career Opportunity Development Program, the Department contracts with the Employment Development Department and the SPB to hire WIN eligibles.

The Department's Selection and Standards Branch recruits, tests, and hires the departmental FRP personnel. This branch advises facilities of the identity of FRP personnel, and provides instructions on billing SPB for their 80 percent contribution to FRP personnel's salaries.

31050.5 Job Classifications

Appointment to these job classifications depends upon the number of positions available through funds acquired from State resources. The positions are nontesting, nonstatus classes and temporary in nature.

Student Intern

This program is designed for the student who desires to extend the learning experience to include actual work assignments in the correctional setting. Applicants shall be enrolled in an accredited college program. The positions are not civil service and are not salaried. However, most colleges allow units of credit for this type of experience. Tenure may be for several weeks or months.

Student Assistant

The student assistant assists regular departmental employees in services such as psychological, sociological, educational or administrative; assists in experimental and research projects by gathering data; observes and reports on departmental methods and procedures. Candidates shall produce proof of application for, or enrollment as a student in an appropriate college or university program. Work assigned to incumbents shall be directly related to their college curriculum and academic goals.

Graduate Student

This temporary authorization class is designed to provide currently enrolled graduate students with an opportunity to familiarize themselves with the State's professional work, consistent with their course of study. The major Department use of the class has been in the law student program.

Professional Intern

There are several ways to qualify for the class of professional intern; the most typical being registration in a recognized college or university. The professional intern functions in much the same capacity as the student assistant; however, as experience and training are acquired, responsibilities are increased. The class is nonsalaried, but maintenance items such as employee quarters may be provided if available. The local business manager and personnel representative act as coordinators for this type of appointment.

31050.6 Revisions

The Deputy Director, ASD, or designee shall be responsible for ensuring that the contents of this section are kept current and accurate.

31050.7 References

None.

ARTICLE 6— APPOINTMENTS

Revised January 17, 2000

31060.1 Policy

Personnel appointments shall be accomplished in a uniform manner consistent with applicable laws, policies, and sound personnel practices.

31060.2 Purpose

This Section outlines the procedures and requirements that shall be followed for personnel appointments.

31060.3 Power of Appointment

Revised July 1, 2015

The Agency Secretary is the appointing authority for all civil service positions in the California Department of Corrections and Rehabilitation. The Receiver is the appointing authority for all civil service positions in the California Correctional Health Care Services (CCHCS).

Hiring Authority

The following have been delegated authority by the Agency Secretary to make civil service appointments:

For CDCR:

- Undersecretaries.
- Assistant Secretaries.
- Directors.
- Deputy Directors.
- Assistant Directors.
- Wardens.
- RPAs.
- General Manager, CALPIA.

For CCHCS:

- Chief Executive Officer
- Chief Deputy Receiver (or designee)

In accordance with 28 Code of Federal Regulations (CFR), Part 115, Standard 115.17, hiring authorities shall not hire or promote anyone who may have contact with inmates, who:

- has engaged in sexual violence, or staff sexual misconduct of an inmate in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution;
- has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or
- has been civilly or administratively adjudicated to have engaged in the activity described immediately above.

Hiring authorities shall:

- Implement and enforce departmental EEO policy.
- Maintain the highest standards of personnel selection.

- Ensure that women and ethnic minorities are represented whenever possible on all interview panels, including examination and hiring interviews.
- Consider substantiated incidents of sexual harassment in all hiring decisions.
- Ask all applicants and employees who may have contact with inmates directly about previous staff sexual misconduct and sexual harassment of inmates, in written applications or interviews for hiring or promotions and in any interviews or written self-evaluations as part of reviews of current employees.

Except for appointments requiring approval of the Agency Secretary or the Director the hiring authority's signature constitutes departmental approval on all appointment documents.

Managers and Supervisors

Managers and supervisors shall work with the headquarters personnel analyst assigned to their program, their Institutional Personnel Officer (IPO) and business manager to ensure:

- Submittal of accurate job descriptions and organization charts, when required, with proposals for personnel actions, (i.e., establishing new positions, reclassifying existing positions).
- Clarification of questionable personnel issues, (i.e., appropriate classification, use of hiring lists).
- Appropriate action is taken for personnel commitments or changes in new/borderline areas.
- Appointment procedures and practices are consistent with the EEO policy of the Department (see DOM 31010 of this manual).
- Women and ethnic minorities are represented on all hiring interview panels whenever possible.
- Employment references are conducted with all prior institutional employers to gather information on substantiated allegations of staff sexual misconduct or any resignation during a pending investigation of an allegation of staff sexual misconduct. The efforts made shall be documented on the reference check form.
- Documentation on CDC Forms shall be kept on file and available for review regarding the gender and ethnic composition of all interview panels, including both examination and hiring interviews. Such documentation shall include justification in all instances in which gender or ethnic representation for an interview panel was not possible.
- Submit quarterly progress reports to appropriate division administration noting and justifying all exceptions in which representation of women or ethnic minorities was not possible for a specific interview panel.

31060.4 Appointments Requiring Agency

Exempt appointments require the approval of the Agency Secretary, YACA.

31060.4.1 Exempt Appointments

For exempt appointments, the hiring authority shall forward the following documents to the Personnel Operations Section.

Hiring Authority Responsibility

- Standard (STD) Form 678, Application for Examination, and resume.
- Duty statement and organization chart for the position.
- Governor's Office application form.

31060.4.2 Career Executive Assignment

The procedure for processing Career Executive Assignment (CEA) appointments is the same as for exempt appointments except:

- The following documents are not required:
 - Duty statement and organization chart.
 - Governor's Office application form.
- The memorandum from the Director shall be addressed to the Agency Secretary, YACA.

31060.5 Appointments Requiring Director/ Chief Deputy Director Approval

The Director of CDC retains appointing authority for all appointments designated as "managerial" under the Ralph C. Dills Act.

Each hiring authority shall submit formal requests to appoint individuals to designated managerial positions. The "Approval-to-Appoint" memoranda shall be addressed to the Director/Chief Deputy Director and be routed through all appropriate management levels in the respective program area.

This applies to all methods of appointment including:

- Employment list appointment (Permanent or Limited-Term).
- Temporary authorization.
- Training and Development (T&D) assignments.
- Transfers.
- Permissive reinstatements.

Emergency appointments, retired annuitant appointments, and mandatory reinstatements are exempt from these procedures.

All the necessary appointment requirements such as position justification, appointment eligibility, budgetary approvals, and/or compliance with any freeze requirements (STD Form 607, Change in Established Positions; STD Form 625, Request for Certification; or CDC Form 647, CDC Personnel Action Request, as Appropriate), or the State Restriction of Appointment Procedures must be met prior to submission of the package to the Directorate.

“Approval-to-Appoint” Time Frame

The “Approval-to-Appoint” request must be received by the Chief Deputy Director’s Office at Least two weeks prior to the requested date of appointment.

Hiring Commitments

Final hiring commitments cannot be made until receipt of the Director’s/Chief Deputy Director’s approval.

Approval Process

Upon the Director/Chief Deputy Director’s approval, the “Approval-to-Appoint” package will be forwarded to the Assistant Deputy Director, OPM who will be responsible for notifying the appropriate Deputy Director and/or Warden so that the applicants and selected candidate can be notified.

The appointment shall be announced in the next issue of Correction News.

Disapproved requests shall be returned by the Director’s office through the appropriate management levels to the hiring authority.

31060.5.1 Civil Service Appointment at or Above Staff Services Manager I, Captain, and PA-III

The Director has delegated approval authority to the Deputy Directors for civil service appointments at or above the Staff Services Manager I (SSM-I) and PA-III level.

The hiring authority’s “Approval-to-Appoint” package shall include the following:

Contents of Request

- Civil service classification of position to be filled, approved duty statement, and a current organization chart.
- A description of the recruitment efforts made to attract applicants and a statement of the efforts made to fulfill the Department’s affirmative action goals.
- A summary breakdown by ethnicity, gender, and disability of all candidates interviewed on CDC Form 973, Affirmative Action Report of Appointment. In compliance with GC 8310 and 18704, this summary shall no include names of the candidates. Instead, this summary should consist of generic characteristics (gender and ethnicity) of the candidates and any apparent disabilities.
- A comparative analysis of the qualifications of at least the top three candidates.
- The name of the individual recommended for appointment and a suggested date of appointment along with a statement of reasons for recommendation.
- A current resume, the most recent performance evaluation (STD Form 636, Report for Probationary Employee, or STD Form 637, Individual Development Plan/Performance Appraisal Summary), and a Completed STD Form 678.

31060.5.2 Peace officer Supervisors -Other Than List Appointments

Individuals appointed to the classification of Sergeant, other than by list appointment, must meet specific appointment criteria stipulated in an agreement with the union. In order to be laterally transferred or placed on a T&D assignment, individuals must meet the following criteria:

Appointment to Sergeant

- Two years of custodial experience performing duties comparable to those of Officer, Group Supervisor, Youth Counselor, or Senior MTA, Correctional Facility and Senior Medial Technical Assistant, and work performed in the P&CSD’s Return-to Custody and Work-Furlough

facilities, as well as duties performed at city and municipal jails. Additionally, experience in the abolished Correctional Program Supervisor classification qualifies for credit towards the two-year requirement.

- Custody experience approved by the Joint Apprenticeship Committee may also qualify for credit. For example, six months credit toward the two-year custody experience requirement will be given for individuals transferring from Parole Agent, Adult Parole classifications who have completed the two-Year apprenticeship program.
- Proposed appointees who are not currently Department’ peace officers must meet all legal requirements to be a peace officer and be cleared for appointment by a background investigation and preemployment medical. Successful completion of the Basic Academy is also required unless previously completed.

Proposed appointments to Sergeant positions, which are not list appointments or mandatory reinstatements **must be approved in advance** by the respective Deputy Director and the appropriate headquarters personnel operations analyst. Only appointments from employment lists, mandatory reinstatements, or of individuals who have clearly served two or more years in an Officer position do not require advance headquarters approval.

Appointment to Lieutenant and Captain

Prior written approval of the respective Deputy Director and the Chief Deputy Director is required for any appointment, other than a list appointment, to the classifications of Lieutenant and Captain. Such appointments must be fully justified in the written request.

Hiring Authority Responsibility

The hiring authority shall carefully review lateral transfers, T&D assignments, reinstatements and other forms (excluding list appointments) to the Lieutenant and Captain classifications to ensure that the applicant:

- Possesses related custody experience, including supervision of custody staff.
- Meets all legal requirements to be a peace officer and can be cleared for appointment by a background investigation and preemployment medical.

Basic Academy

Persons appointed to the Lieutenant and Captain classifications shall attend the Basic Academy if they have not previously served in a correctional peace officer classification.

31060.5.3 C&PR Appointments

A significant portion of the duties of the C&PR consists of providing a service to the BPT and the NAEA (California Rehabilitation Center only).

The Regional Administrators, Institutions Division (ID), are the liaisons for facilities with BPT and the NAEA.

Basic Academy

Persons appointed shall attend the Basic Academy if they have not previously served in a correctional peace officer classification.

Process

Permanent appointments shall not be made to C&PR vacancies until the following steps have been documented:

- A Warden upon notification of an upcoming vacancy for a C&PR shall, through the departmental Board liaison, advise the Board chairperson of such pending vacancy. This applies to C&PR exchanges also.
- The Board chairperson shall make suggestions regarding individuals who might fill the vacancy.
- The Warden shall consider all applicants for the position including those suggested by the Board chairperson.
- The Board chairperson shall be advised of and encouraged to participate in scheduled interviews.
- Recommendations to the Director shall summarize Board contacts and input to the selection process and shall indicate whether agreement was reached with the Board.

31060.5.4 Classification Staff Representative (CSR) Appointments

Process

The process for selection of CSR is as follows:

- The Chief, Classification Services, shall canvass for interested candidates by the departmentwide job opportunity bulletin.
- All candidates shall submit, a STD Form 678, to the Chief, Classification Services, for review.

- The CSU shall pre-screen all applications for qualifying experience.
- Those applicants accepted for consideration as a CSR shall be scheduled for interviews.
- Applicants not selected for an interview shall be so notified by memorandum or telephone call.
- All CSR appointments require the approval of the Director/Chief Deputy Director.

31060.5.5 Ex-Offender Appointments

Revised July 1, 2015

The Department prohibits discrimination on the basis of ex-offender status. However, all factors which relate to legal requirements and restraints, facility security, commitment history, and experience shall be considered. Hiring commitments shall not be made without written approval of the Secretary or Designee.

Licensing

Applicable certification or licensing for a position shall not be waived for ex-offenders.

Completion of CDCR Form 1951

A CDCR Form 1951, Supplemental Application for all CDCR Employees is required of all applicants seeking employment with the Department. This form is utilized at the time the employment interview is conducted and should be completed by both internal and external candidates with the exception of peace officers applying to the same classification. Completion of the form should prevent the hiring of any ex-offenders without prior approval of the Secretary. This form will also be utilized to ensure compliance with 28 CFR, Part 115, National Standards to Prevent, Detect, and Respond to Prison Rape under the Prison Rape Elimination Act (PREA), Standard 115.17 – Hiring and promotion decisions.

Peace officer promotions or transfers to different classifications must complete the applicable sections of Form CDCR 1951 at the time of interview.

Restricted Employment Areas

Ex-offenders shall not be hired or assigned work in areas which provide access to:

- Any records pertaining to staff.
- Sensitive personal or medical information on inmates.

These areas include, but are not limited to, the following:

- Medical.
- Personnel.
- Records.
- Accounting.
- Data processing.

Legal Prohibition For Peace Officer Classifications

Persons convicted of a felony in this or another state may not be employed as a peace officer of this State. CCR 3291(b) lists the classes designated as peace officers in this Department.

Procedural Responsibilities

For all hires other than initial peace officer hires, the hiring authority shall:

- Submit an "Approval to Appoint" request to the Secretary via the Chief, Office of Correctional Safety (OCS) at least 60 days prior to the requested appointment date. This shall include a copy of the ex-offender's CI&I SSCH and the completed CDCR Form 1951 for nonpeace officer classifications.

If the individual is on parole, the request shall identify the name and address of the Parole Agent. If discharged, that date shall be indicated.

The Chief, OCS, shall:

- Review the original submittal for possible gang affiliations.
- Note the results of this review on the request.
- Forward the request to either the Director, Division of Adult Institutions, or Director, Division of Adult Parole Operations, for appropriate data if they are not the hiring authority.

If the request is approved by the affected Director, it shall be returned to the Chief, OCS, for final review.

The Chief, OCS, shall:

- Ensure completion of required materials.
- Forward approved packages to the Agency Secretary.

- Return denied packages to the hiring authority.
- Return packages with Agency Secretary's approval/disapproval to the hiring authority.
- Ensure that a copy of all denials/approvals are sent to the Office of Internal Affairs, Civil Rights Operations.

31060.6 Appointments Requiring Headquarter's Approval

Appointments requiring approval of designated headquarter's staff are described in DOM 31060.6.1 through 31060.6.5.1.

31060.6.1 Chaplain Appointments

All chaplain appointments shall be approved by the appropriate Regional Administrator, ID.

The applicant shall meet the criteria outlined in the SPB specifications before being appointed to the position of full-time or intermittent chaplain.

Muslim Chaplain. The appointee shall be currently in good standing with the American Muslim Community, verified and approved by the local resident Imam where the applicant attends as a member. All candidates shall attach to their application a letter of certification of good standing issued by the local resident Imam.

Jewish Chaplain. The appointee shall be accredited by and in good standing with a recognized California rabbinical body. The two official ecclesiastical endorsing agencies are the Board of Rabbis of Northern California and the Board of Rabbis of Southern California.

Catholic Chaplain. The appointee shall be duly accredited by and in good standing with the Roman Catholic Church and approved by the Bishop of the diocese in which the facility is located.

Protestant Chaplain. The appointee shall be currently ordained, duly accredited by and in good standing with a nationally recognized Protestant denomination.

Native American Spiritual Leader. The appointee shall be currently recognized as a spiritual leader and in good standing with their Native American Tribe, Nation, Band or Rancheria. All candidates shall attach to their application a letter of certification of good standing issued by their Native American Tribe, Nation, Band or Rancheria.

Intermittent Chaplains

The Department may employ, under State civil service, intermittent Catholic, Jewish, Muslim and Protestant chaplains.

Part-Time Chaplains

The Department may contract with clergy of any faith as part-time or intermittent chaplains to provide religious services and chaplaincy activities for a small group.

Substitute Chaplains

When a staff chaplain is on an authorized absence and a substitute chaplain cannot be obtained without cost to the State, a fee can be paid to the substitute for any single day of service.

31060.6.2 Retired Annuitant Appointments

Revised November 25, 2015

A person who has retired from state service may be appointed to a civil service position and paid a salary without being reinstated from retirement.

A person who has retired from a Career Executive Assistant (CEA) position may be temporarily employed following retirement.

Class

- A retired annuitant shall be appointed to a position in a class in which the person had permanent or probationary status or a CEA appointment at the time of retirement or in a class to which the person could have permanently transferred, reinstated, or demoted at the time of retirement.

Duration

- Retired annuitants are appointed for a limited duration, not to exceed 960 total hours in fiscal year.
- Returning retired annuitants (annual renewals) must be evaluated each fiscal year and require annual approval by the Office of the Secretary or designee.

Salary

- Retired annuitants are paid at a rate substantially the same as other employees performing comparable duties.

Benefits

- Retired annuitants are compensated only for actual time worked and shall not earn benefits of any kind (e.g., sick leave, vacation, holiday pay, personal holiday, or retirement credits).

Impact of a RA working over the 960 hour work cap in a fiscal year

A RA who works more than 960 hours in a fiscal year is subject to mandatory reinstatement to state service, reimbursements to California Public Employees' Retirement System (CalPERS) and potentially other earned entitlements/benefits.

Nature of Work

Retired annuitants may be appointed for a limited duration:

- On a short-term basis to cover emergency-related work.
- To use their special skills.
- To provide mentoring to staff, and/or knowledge transfer.

Retired annuitants may be appropriate to temporarily fill:

- Behind an employee on extended absence.

Eligibility

To be eligible for employment as a retired annuitant, the following requirements must be met:

- The Bona Fide Separation Requirement/Normal Retirement Age (if applicable)
 - A service-retired employee of the State of California who has not yet reached "normal retirement age" must have a minimum 60 calendar-day separation from service prior to returning to employment as a retired annuitant. The definition of "normal retirement age" is the member's benefits formula age, or, if the member retires with more than one benefit formula, the highest specified age. There must be no agreement made (either verbal or written) with an employee to return to employment as a retired annuitant prior to retirement if they have not attained "normal retirement age" as defined above.
- The 180-Day Wait Period Requirement
 - A retired person shall not be eligible for employment as a retired annuitant for a period of 180 calendar days after the date of retirement unless the appointment is necessary to fill a critically needed function and California Department of Human Resources (CalHR) approval has been obtained. **The 180 day waiting period does not apply to a retired peace officer or a retired firefighter returning as either a peace officer or firefighter.** Definition of Critical Need
An immediate need for a particular skill set that only the retired annuitant can provide to complete a function for the department to meet one of the requirements outlined below and that cannot be met by a current State employee:
 - Legislative Mandate
 - Court Ordered Mandate
 - Health and Safety Emergencies
 - Fiscal Impact – Loss of Funding
 - Any disruption in normal business that may result in the failure of business operations

Note: The bona fide separation requirement does apply to peace officers or firefighters that have not reached normal retirement age. Appointments to other classifications would meet the bona fide separation requirement while serving the 180-day wait period requirement since these periods run concurrently.

Approval

New retired annuitant appointment (not including annual renewals) requires prior approval documented on CDCR Form 1823, Retired Annuitant Hiring Approval, as follows:

- CO Academy: Director, Administrative Services
- Expert Examiner: Director, Administrative Services
- Legal Witness Testimony: General Counsel
- Special Projects/Skills: Secretary
- Mentoring/Knowledge Transfer: Secretary
- Operational Vacancies: Secretary
- Division of Juvenile Justice (DJJ) positions at facilities: Director, DJJ
- All other DJJ positions: Secretary

- Posted Positions (Adult Institutions): Director, Division of Adult Institutions
- Parole Agents with caseload: Director, Division of Adult Parole Operations
- All other Division of Adult Parole Operations' positions: Secretary

A statement of justification is required for all retired annuitant appointment requests and must include start date (for extension, this date is the date the employee was first appointed into the position), end date, duty statement and organization chart.

Any requests to appoint a retired annuitant into a supervisory classification must include a plan for supervision of subordinate staff when the retired annuitant is not working.

Extension requests for retired annuitants that have expiration dates within the same fiscal year must document the number of hours the employee has worked.

The hiring authority is required to contact the Office of Legal Affairs and the Office of Internal Affairs to determine if the individual has prior or pending adverse actions, legal actions, or was the subject of an investigation. If so, a summary of the information is to be attached to the CDCR Form 1823, Retired Annuitant Hiring Approval that includes a detailed justification.

31060.6.3 Appointment

Emergency appointments shall be justified by significant need.

- Any expanded use of emergency appointments, particularly for emergency acting assignments not supported by a significant need, are in conflict with basic constitutional provisions requiring appointments based on competitive examinations.
- All available civil service alternatives shall be considered before making emergency appointments for short duration work assignments.

Appointments which may be approved by the hiring authority are described in Sections 31060.6.2.1 through 31060.6.2.4.

31060.6.3.1 Extreme Emergency

This type of appointment shall not exceed 60 working days in any 12-month period.

Extreme emergencies include fires, floods, storms, epidemics, riots, earthquakes, and other such serious situations presenting extreme peril to persons or property or seriously interrupting the performance of public business.

When an extreme emergency is declared by the Governor or the Director, appointments may be made without regard to employment lists and, if necessary, without regard to existing classes in order to prevent the stoppage of public business.

31060.6.3.2 Short Duration Work

A short duration work situation is one which:

- Because of its unusual urgency, nature, volume, location(s), duration, or other special characteristics is distinct from the range of work normally performed by regular staff.
- Is not expected to be performed within the department for more than 30 working days within any 12-month period.

Short duration work assignments shall not be extended nor shall they be consecutive. Appointments may be converted to acting assignments when circumstances warrant.

Positions that are readily filled by the regular civil service process or for routine needs (i.e., vacation relief) shall not be filled by short duration appointments.

31060.6.3.3 Out-of-Class Assignments

Out-of-class assignments (also called acting assignments) shall be used only as the last option when filling a position. Limited-term (LT) appointments are the appropriate means to fill critical positions on a short-term basis.

Advance planning and scheduling can reduce an operation's dependency on out-of-class assignments. By using established certification lists, qualified employees can be appointed immediately to vacant critical positions.

Misuse of out-of-class assignments results in grievances (circumventing list procedures), higher costs (lost person hours, working on out-of-class claims), the potential loss of delegated testing authority and the centralization of approval for all out-of-class assignments. However, bonafide emergency out-of-class assignments may be used.

Guidelines

Managers and supervisors shall ensure that all employees are assigned duties and responsibilities that are within the scope of their classification. Employees shall not work out-of-class on a regular, ongoing basis.

Current bargaining unit language, as well as DPA Rule 599.810, states that “an employee may be required to perform work other than that described in the specification for their classification for up to 120-consecutive calendar days during a fiscal year.” This language is intended to provide appointing authorities the flexibility necessary to meet short-term, temporary staffing needs. All viable alternates shall have been exhausted before any out-of-class assignment is approved.

An employee may be assigned out-of-class work for more than 120 days if the additional out-of-class work is required to meet a need that cannot be met through other administrative or civil service alternatives. **Prior approval from DPA is required.** Such assignments shall be subject to termination by the Director of DPA upon determination that other reasonable alternatives do exist.

The “120-consecutive calendar days during a fiscal year” applies to both the assignment and the individual. The same assignment cannot extend beyond July 1 or a new fiscal year resulting in an individual serving in the assignment for more than 120 calendar days. Such situations would require DPA approval to extend beyond 120 calendar days.

Recent interpretation from DPA states that good personnel management practice precludes an indefinite out-of-class assignment by rotating employees in and out of the assignment. The 120 days should be a sufficient period of time to resolve and out-of-class situation. Rotations are inappropriate and circumvent the intent of the out-of-class provisions.

The out-of-class provisions apply to both rank and file and non-represented employees. Managerial employees are not covered under DPA Rule 599.810 and there is no authorization to assign the out-of-class duties.

Criteria

Out-of-class assignments may be made only to established positions and only if it can be demonstrated that:

- The assignment is needed to meet a specific operating need.
- The need cannot be feasibly met through civil service procedures or other administrative alternatives.
- The employee is assigned duties which are clearly outside the scope of their current class and which include the full range of duties of the assigned class. The out of class duties must be performed for more than 50 percent of the employee's time.
- The supervisor requests the employee, in writing and in advance of the assignment, to perform the duties of a higher class.

No out-of-class assignments shall be considered for approval retroactively. The grievance process is the appropriate method for employees to obtain payment if their out-of-class assignment was not approved accordance with established guidelines.

No out-of-class assignments to "MCR NONE" classes shall be approved retroactively.

Operating Needs

An operating need may exist when leaving a position vacant results in:

- Inadequate management or supervision of a unit or function that cannot be offset from other sources.
- Risk to public health and safety.
- The interruption of public service.
- An economic loss or program delay.

Alternatives

If a need is established, the following alternatives should be considered before an employee is given an out-of-class assignment:

- Delaying or canceling other less critical work.
- Temporarily redirecting the unit's staff, workload, or resources in order to “work around” the vacancy.
- Filling the position with a locally available person on a temporary basis through another civil service procedure such as emergency, LT, temporary authorization (TAU), or intermittent appointment.
- Modifying the duties temporarily until the position can be filled.

Appropriate Assignments

Examples of out-of-class assignments that are viewed by the Department as appropriate consist of the following:

- An immediate assignment involving risk of life, property, or critical operation of the Department.
- Back-up for an employee absent on extended sick leave.
- A vacant position that needs temporary filling until an employment list is available.
- The assignment is temporary in nature, with no definite time period but less than 120 calendar days, and all viable recruitment efforts to fill the position have been exhausted.

Inappropriate Assignments

Examples of inappropriate/out-of-class assignments are as follows:

- An assignment where no budgeted positions exist.
- A certification list is available so that a LT appointment could be made, the desired employee is on the list but is not reachable, or the list was canvassed but the candidate group is undesirable.
- An assignment was made to bypass the Departmental Restrictions of Appointment (DROA), State Restrictions of Appointment (SROA), and/or re-employment list process.
- The assignment can be covered by a T&D assignment, a reinstatement, an emergency appointment, or a TAU appointment.
- An intermittent pool of candidates is available.
- Changes have been made to a class specification and/or allocation standards and the employee claims to have been working in a higher classification prior to the effective date of the change.
- The employee requests some of the higher level duties for career development, personal convenience, or gain.
- In the following situations, unless pre-approved by DPA:
 - To positions or levels requiring classification pre-approval by DPA (MCR NONE).
 - To positions or levels not authorized in the appointing power's budget. Before considering pre-approval in these situations, DPA will require specific written notice from the DOF that funding is available.
 - Where the employee's class specification provides for the proposed work assignment.

When any of these options are considered, the Personnel Operations Analyst shall be contacted for guidance and interpretation.

Process

The supervisor shall prepare the following documents:

- A request for approval to make an out-of-class assignment.
- A CDC Form 1821, Out-of-Class Checklist .
- A duty statement.
- An organizational chart.
- A CDC Form 1820, Out-of-Class Justification For Assignments Exceeding 120 Days .

The Out-of-Class Checklist shall provide the information necessary for the review and evaluation of the request and for completion of the Out-of-Class Justification.

The checklist will also serve as an audit trail for peer audits, payment of claims, and examination eligibility.

The document shall be forwarded to the appropriate approval levels in accordance with Section IX of the Out-of-Class Checklist.

Approvals

All out-of-class assignments requests require the approval of the IPO or Personnel Operations Analyst to ensure that all viable alternatives have been exhausted before the request is forwarded for final approval.

Prior final approval is required for out-of-class assignments as follows:

Duration of Assignment	Documents Required	Approval Required
Up to 60 Calendar Days	Request for Approval Out-of-Class Checklist	IPO or Personnel Operations Analyst
61 to 120 Calendar Days*	The above	The above and Personnel Operations Analyst
Over 120 Calendar Days**	The Above and Out-of-Class Justification Form (2 Copies)	The Above and the Departmental Personnel Officer, the Chief Deputy Directors, and DPA

* When the hiring authority becomes aware that the assignment may extend beyond 60 days, the Personnel Operations Section shall be notified. The written request shall be received by Personnel Operations Section no later than day 50 of the assignment.

** Requests shall be received by Personnel Operations Section no later than day 100 of the assignment. The Departmental Personnel Officer shall forward approved requests to the DPA for review.

The departmental personnel officer may deny a claim if it does not meet existing criteria.

When a request is inconsistent with departmental policy, the Personnel Operations Section shall return the unapproved request directly to the hiring authority.

Log/Record

For audit purposes each approval authority shall keep a log/record of all out-of-class assignment requests and/or out-of-class compensations claims.

Compensation

See DOM 31150.9 for out-of-class compensation guidelines.

31060.6.3.3.1 Applying Out-of- Class Experience for Admittance To State Examinations

Out-of-Class experience is work experience gained in the performance of duties outside the class concept of the employee's current class of appointment.

A departmental employee, regardless of employee relation designation, may request verification of out-of-class experience once they have performed out-of-class work for 30 consecutive calendar days.

Personnel Operations analysts review these requests and apply the same standards of more than 50 percent used for out-of-class claims.

Employee Requests

An employee who wants verification shall, in writing, request the hiring authority to verify that they have accepted and performed assigned duties that were not consistent with the employee's class.

Time Restraints

Requests shall not be made:

- Prior to performing out-of-class duties 30 consecutive calendar days.
- Later than 180 calendar days after the ending of the out-of-class duties.

Certification

The hiring authority's certification shall include:

- The employee's name and social security number.
- A description of type and level of duties performed.
- A duty statement with percentages.
- A conclusion regarding whether the duties are or are not consistent with the employee's class of appointment at the time; and if not consistent, an identification of the class to which such duties are appropriate.
- A detailed explanation of the situation which necessitated the out-of-class assignment.
- An explanation of the other administrative and/or civil service options considered and why they were not used.
- A copy of the departmental memorandum from the employee's supervisor who assigned the duties to the employee.
- The dates of the out-of-class assignment.
- When the certification is for admission to an examination, the title of the examination to which the employee is applying.

Approval Responsibility

The hiring authority certification shall be forwarded to the Personnel Examining Section who shall:

- Review the verification.
- Provide the employee and the hiring authority with a memorandum advising whether the certification met SPB standards.
- Forward the certification to the Personnel Operations Analyst for analysis and recommendation of the appropriate class.
- If approved, forward the verification to the SPB.

Once approved by the Personnel Examining Section, the certification can be used as additional qualifying experience for current or future examinations by attaching a copy to the application.

Appeal Rights

If the request for verification is denied, the employee has the right to appeal the denial to the SPB.

31060.6.3.4 Reinstatement After Emergency

Permanent or probationary employees who vacate positions to accept emergency appointments shall have mandatory right of return to their former position upon the conclusion of the emergency appointment if:

- The emergency appointment is under the same appointing power as the position the employee is vacating; or,
- The employee is granted paid or unpaid leave to accept the emergency appointment.

31060.6.3.5 Emergency Appointment Documentation

For audit purposes, the hiring authority shall prepare a written justification for all emergency and short duration work appointments.

The justification shall include:

- A detailed explanation of the situation requiring the appointment.
- An explanation of the other administrative and/or civil service alternatives that were considered and why each was not used.
- The name, social security number, and current classification (if applicable) of the appointee.
- A duty statement, position title, and estimate of the number of days the appointment will be necessary.
- When appropriate, a copy of the Declaration of Emergency signed by the Governor or the Director.

The justification shall be retained in the official personnel file.

A copy shall be submitted to the Personnel Operations Section no later than 20 calendar days after the effective date of the appointment.

31060.6.4 Limited-Term Appointments

The Department has authority to make and extend LT appointments. Initial appointments shall be limited to up to one year. The extension shall be limited to up to one additional year and may be considered when a permanent appointment is likely to cause a layoff, demotion, or mandatory transfer requiring a change of residence upon the conclusion of the temporary staffing need.

Requirements

Eligible lists shall not be circumvented by a LT appointment to a permanent position. Positions which are of limited duration shall not be filled on a permanent basis since this removes the appointee from consideration for true permanent positions and bestows unwarranted permanent status.

Permanent rather than LT appointments may be more appropriate when:

- The temporary vacancy is in a classification subject to high turnover.
- New positions are established on a temporary basis pending approval of the State budget, since the positions shall be converted to permanent when the budget is adopted.

Local Approval

In the following situations, the hiring authority may authorize one or more LT appointments, provided the total time of an employee's appointment(s) does not exceed one year.

- Seasonally recurrent positions. Appointments to non-testing or TAU only classes may be made for a period of up to nine months in one transaction.
- Positions established for a specific study or survey. Research projects may require the creation of specific classes for the duration of the project.

- Temporary vacancies. A person being on a leave of absence for one year or less.
- The appointment of a permanent employee to a different position on a LT basis.

Headquarters Approval

The following appointments require advance approval from the Personnel Operations Section:

- Temporary filling of vacancies during or pending a reorganization or possible layoff situation.
- Vacancies filled in anticipation of reorganization or layoff expected to span a period of more than one year may be filled by permanent appointment.

This approval process shall ensure consistency with the Department's restriction of appointment process.

Two-Year Appointments

One-year, limited-term appointments may be extended for up to a total period of two years upon prior approval by the Chief, Personnel Management. All such requests shall be forwarded to the Personnel Operations Section at least 30 days prior to the effective date, and include the following information:

- Name, social security number, and civil service classification of employee.
- Period of time involved.
- Justification for the need to authorize a LT appointment to exceed one year.

The anticipated number of limited-term appointments, the number and location of permanent positions in the classification, turnover rate for the classification, budgetary trends, and issues which impact the Department's ability to absorb permanent employees either locally or department wide shall be considered when the justification is prepared.

Justification File

For audit purposes, the Personnel Operations Section shall file and retain for three years the hiring authority's requests and justifications for appointments to exceed one year.

31060.6.5 Training and Development Assignments

Purpose

The Department shall use T&D assignments:

- To provide employees broader experiences and skills, to improve their ability to perform in their current assignments.
- To assist employees in seeking future advancements.
- To facilitate employees' entry into different occupational fields.
- To enhance the Department's affirmative action and upward mobility goals.
- As an effective tool for upward mobility purposes.

Hiring authorities shall consider affirmative action needs and protected group deficiencies prior to the selection of an employee for a T&D assignment.

General Requirements

The hiring authority shall ensure a T&D assignment:

- Is consistent with the career development plan of the employee.
- Duties are significantly different than those the employee has performed in the preceding five years.
- Provides a clear management advantage to the state.
- Shall not result in a layoff or demotion at the termination of the T&D assignment.

No more than one person shall be appointed to a T&D assignment for each available vacancy.

T&D opportunities require a minimum publicity period of seven days to ensure that all interested employees are afforded the opportunity to apply. Posting may be limited to geographic areas where employees could reasonably be expected to accept the opportunity without a change in residence.

If a permanent class has not been identified for the training position, the position must be permanently allocated to an appropriate civil service class prior to considering a T&D assignment.

Class Relationships

As long as the SPB criteria are met, an employee may accept T&D assignments to a class with substantially the same salary to which the

employee could voluntarily transfer (within two salary steps) even if they are currently on an employment list for the assigned training class.

Eligibility

Permanent and probationary (with prior permanent status) employees are eligible for T&D assignments. Time on a T&D assignment counts toward completion of probation. Employees on temporary or limited-term appointments shall return to their former position before being appointed to a T&D assignment.

Employees shall not be considered for T&D assignments in classes which have a promotional relationship to their current class. The class specification shall be reviewed to ensure that the individual's permanent class is not listed in the minimum qualifications (MQs) of the training class and there is no promotional relationship.

Higher than Three Salary Steps

T&D assignments to higher level classes (beyond three salary steps) shall only be considered as exceptions and shall meet the following additional criteria:

- The intent is to prepare the employee for a permanent career change.
- The higher salaried class is the nearest class (in salary) that will provide the appropriate training experience.
- The employee may meet the MQs of the training class prior to appointment and shall meet them by the conclusion of the assignment.
- The T&D assignment shall not circumvent the normal competitive promotional process.

Lower than Two Salary Steps

T&D assignments to lower-level classes (beyond two salary steps) shall be considered as exceptions and shall meet the following additional criteria:

- T&D assignments to lower-level classes shall only be used in very broad class series in which employees expect to reach the journey or supervisory level within one specialty, without having had experience in other major specialties covered by the class.

For example, a SSM I whose career had been limited to management analysis, could participate in a T&D assignment as an Associate Budget Analyst position in preparation for assumption of SSM I level duties in the budget area.

- The lower salaried class is the nearest class (in salary) that provides the appropriate training experience.
- The training experience differs from the duties the employee has previously performed, i.e., they cannot have immediate previous experience in the assigned training class.

Duration

T&D assignments for an individual shall not be limited in number or frequency, but shall not exceed 24 months in any consecutive 36-month period.

Peace Officer Training

Employees in positions designated as peace officers shall:

- Successfully participate in the required peace officer training course.
- Obtain a background clearance.
- Pass all required medical examinations and physical abilities test.

Formal Class Requirements

While employees are not generally required to meet the "experience and education" requirements of the training class, employees shall possess any credential, license, certificate, or other formal requirements of the class prior to assumption of the duties of the T&D assignment.

It is required that employees meet the minimum qualifications to be placed on a T&D to Sergeant, Lieutenant, or Captain. Exceptions to this requirement for T&D assignments to Lieutenant and Captain must be approved in advance, in writing, by the Director.

Shift Differentials/ Housing Stipends

Alternate Range 40 shift differential compensation and/or housing stipends shall be terminated when a T&D assignment does not meet established criteria/requirements.

Employees serving in CEAs shall not participate in T&D assignments to ensure that they are assigned only to those positions that have been specifically approved for inclusion in the CEA category.

31060.6.5.1 Documentation and Procedural Requirements

A formal T&D assignment plan shall be prepared and submitted on a CDC Form 1825, Training and Development Plan and CDC Form 1825 A, Training and Development Request and shall include:

- The civil service class of the training position.
- The permanent classification of the employee.
- The basic objectives of the training.
- The duties to be performed.
- The training to be accomplished.
- Return rights of the employee.
- Statement that the assignment may be terminated at any time by either the employee or the Department.
- Certification that:
 - This assignment shall not result in a layoff or demotion upon its termination.
 - SROA procedures were observed.
- The signatures of the employee and the hiring authority of both the receiving and releasing organizations.

The individual's STD Form 678 and resume shall be attached.

To allow adequate processing time, the plan shall be submitted to the Personnel Operations Section at least 30 days before the reporting date.

Starting Date

The Personnel Operations Section may adjust the starting date on any T&D assignment. It shall be clearly understood that any T&D changes required by the Personnel Operations Section may impact such issues as relocation expenses and eligibility to participate in the proposed T&D program.

Approval

The T&D assignment plan shall be approved by the Personnel Operations Analyst prior to the actual reporting date of the employee.

Upon approval, the Personnel Operations Section shall retain the original T&D assignment plan and forward copies to the receiving and releasing hiring authorities and the employee.

Written notification shall be submitted to the Personnel Operations Section if:

- There are subsequent changes/revisions to the original plan.
- The assignment is terminated prior to its expiration date.

Position Reclassification

The reclassification of the position is required before the training is implemented.

The hiring authority shall submit a STD Form 607, to OBM so that the position is reclassified to the permanent class of the employee upon approval of the T&D assignment. The STD Form 607 shall clearly indicate that the reclassification is for T&D purposes and include the employee's name and approved T&D plan.

If the T&D assignment is denied, the STD Form 607 shall be denied at the same time and returned to the originator.

Vacated Position

To ensure employee placement, the position vacated by the employee accepting the training assignment shall be filled on a temporary basis unless it can be clearly demonstrated that an appropriate position in the employee's "home" organization and location shall be available at the completion of the T&D assignment.

31060.6.5.2 Promotion/Transfer While on a T&D Assignment

Promotion/transfer opportunities shall not be jeopardized as a result of a T&D assignment. Provisions for promoting/transferring the individual while on the training assignment are:

- The individual clearly would have been considered for promotion/transfer if not on the training assignment.
- In a promotional situation, the individual must be reachable on the eligible list and receive a bonafide job commitment.

When a firm commitment is made in a promotional or transfer situation, the offering organization shall appoint the individual and transfer the employee back to the training location to complete the training assignment. This ensures the employee mandatory right of return to the offering organization/location.

The new appointment shall not create an inappropriate training assignment. If the promotional/transfer class does not meet the training assignment

criteria relative to the training class, the appointment shall not be authorized while on the training assignment; or the T&D assignment shall be terminated upon the appointment of the employee.

31060.6.5.3 Termination of T&D During Staff Reductions

During staff reductions, T&D assignments shall be terminated in affected classifications and/or related positions.

Employees in an affected classification shall be:

- Appropriately included when compiling seniority lists.
- Returned to their former positions.

When the affected classification is one in which surplus employees have been identified and positions are filled with T&Ds:

- The T&D(s) shall be terminated.
- The positions filled with the most senior affected employees.

T&D assignments shall not be used to resolve staff reductions.

31060.7 Restriction of Appointments

Restriction of Appointments lists are established to aid in the placement of employees facing transfer, layoff, or demotion. Both the state and the departmental restriction of appointment processes, described below, shall be followed prior to filling vacant positions.

31060.7.1 State Restriction of Appointments (SROA)

The SROA policies and procedures:

- Are published periodically by the DPA.
- Shall be followed in making all appointments not specifically exempted from SROA. Questions regarding which appointments are exempt from SROA shall be directed to the IPO for the correctional facility or the Personnel Operations Section analyst for headquarter programs.

SROA eligible lists:

- Are maintained by the SPB and are issued to hiring departments.
- Contain classes of employees who, as a result of position reductions, are facing layoff or demotion if placements are not made.

SROA Coordinator's Responsibility

The SROA Coordinator in the Personnel Operations Section is responsible for ensuring that all policy and procedure updates are disseminated throughout the Department.

Institutional Personnel Officer's Responsibility

The IPO is responsible for:

- Providing consultation to institutional program staff regarding DROA requirements.
- Reviewing and approving SROA clearances for all facility appointments. The CDC Form 8022, State Restrictions of Appointment/Departmental Restrictions of Appointment Clearances Worksheet, shall be used for requesting clearances.
- Preparing SROA exemption requests following all criteria requirements listed in the SROA Policy and Procedures Manual and forwarding requests to the Personnel Operations Section analyst for review, consideration, final approval, an submission to the DPA.
- Ensuring that approved SROA clearance forms and approved SROA exemption requests are attached to all appointment documents which are not specifically exempted from SROA.

Personnel Operations Section Analyst's Responsibility

The Personnel Operations Section analyst is responsible for:

- Providing consultation to headquarter program staff and to the IPO regarding SROA requirements.
- Reviewing and approving SROA clearance requests for all headquarter programs.
- Reviewing, preparing, and forwarding SROA exemption requests received from either the facility or headquarter programs to the DPA.
- Ensuring that approved SROA clearance forms and approved SROA exemption requests are attached to all appointment documents that are not specifically exempted from SROA.

Hiring Supervisor's Responsibility

The hiring supervisory is responsible for:

- Following SROA policies and procedures.
- Completing a SROA clearance form or SROA exemption request and ensuring that it is submitted to either the IPO or the Personnel Operations Section analyst for processing.

- Ensuring that SROA clearance or exemption approval is received prior to making a hiring commitment for all appointments not specifically exempted from SROA.

SROA Exemption Requests

All SROA exemption requests shall:

- Provide sufficient information to support the exemption and meet all criteria requirements listed in the SROA Policy and Procedures Manual.
- Be signed by the appropriate hiring authority or any member of the Director's Executive Staff.
- Be forwarded to the Personnel Operations Section analyst for review and submission to the DPA. Requests for facilities shall be submitted to the IPO form submission to the Personnel Operations Section analyst.

31060.7.2 Departmental Restriction of Appointments

The DROA process is intended to assist in the placement of surplus employees resulting from administratively approved program changes or budget-induced position reductions and to avoid a layoff.

This process applies to all appointments except:

- Emergency appointments.
- Mandatory reinstatements.
- Promotions in place that do not result in a true vacancy (e.g., Staff Services Analyst to Associate Governmental Program Analyst).

Departmental Placement Coordinator Responsibilities

The departmental placement coordinator shall:

- Publish and distribute the list of classes for which approval is required prior to appointment.
- Update the list as necessary.
- Upon notification from the IPO that a surplus exists, submit a memorandum to the LRB requesting union notification of the surplus.
- When the union has been notified, send an informational surplus employee memorandum to all employees in the affected classification(s).
- Review requests to fill vacancies on an exceptional basis or when no interest in the vacant position has been expressed by the DROA candidates.
- Take or recommend appropriate appointment actions.
- Actively monitor the voluntary placement of surplus employees to appropriately classified vacant positions.
- If necessary, work with the hiring authority, the Labor Relations Office and the appropriate control agencies to coordinate involuntary transfers and/or an employee layoff.

The informational surplus employee memorandum shall include a current list of vacancies in the affected employee's classification.

The employee will be given the opportunity to voluntarily seek a vacant position.

If voluntary placement options are unsuccessful, the employee shall be reassigned to a different location or a comparable classification in the same location.

Institutional Personnel Officer Responsibilities

The IPO shall submit timely monthly lists of current and anticipated vacant positions for the classes on DROA directly to the departmental Personnel Officer.

Prior to filling a position listed on the restricted hiring list, the IPO shall take the following steps:

- Contact the IPO of the organization where the surplus exists to obtain the names and addresses of the employees on DROA.
- Send out a CDC Form 1486, Departmental Restriction of Appointment (DROA) Clearance and Waiver, to all affected employees. Telephone contacts may be made but shall be followed up with a CDC Form 1486.
- Secure approval to fill the vacancy from the Personnel Operations Analyst if no interest is expressed by the employees on DROA. This approval only applies to the DROA restrictions and is not intended to replace or supersede other hiring requirements. Such requests for approval may be by telephone but shall be confirmed in writing.

- Complete a CDC Form 1162, State of California Departmental Restriction of Appointments Confirmation Letter, for each classification.
- Submit a copy to the Personnel Operations Analyst within ten calendar days after verbal approval is received and to the IPO at the surplus institution for audit purposes.
- Retain a copy for the originator's files.

Special Exceptions

Requests for exceptions (including LT and intermittent appointments) to this process shall:

- Be signed by the appropriate hiring authority or any member of the Director's Executive Staff.
- Be forwarded to the Personnel Operations Analyst for review and approval.
- Provide the following information:
 - The nature of the critical need and why identified DROA eligibles cannot meet the needs of the position.
 - A copy of the position duty statement.
 - The consequence if any exception is not granted.

The projected time frame for any employee to remain on the DROA list is approximately 120 days. Within this 120 days, the following activities take place:

- The classification is placed on DROA and frozen to preclude appointments to the class without obtaining appropriate DROA clearances.
- The Personnel Operations analyst notifies the employees in the affected class of the action while simultaneously notifying the LRB so they can notify the union.
- The Personnel Operations analyst actively monitors the placement of surplus employees to appropriately classified vacant positions. If the employee is not placed, they are given an official involuntary transfer notification 60 days prior to the proposed action.

31060.8 Peace Officer Designations

Certain departmental employees are designated as peace officers (see CCR (15)(3) 3291[b]).

Temporary Peace Officer Designations

Any person summoned to the aid of a uniformed peace officer shall be vested with such powers as are delegated by the summoning officer or as are reasonably necessary to properly assist such an officer.

Therefore, any employee officially assigned to act in the peace officer capacity of classifications listed in CCR (15) 3291(b) is a peace officer.

Employees assigned to perform peace officer duties or summoned to aid during an emergency are designated peace officers for the duration of the emergency or until relieved of peace officer duties.

31060.8.1 Designating Additional

The Director is authorized by PC 830 to designate any non-listed employee as a peace officer. Performance of the following functions as a regular, on-going job requirement shall be a major determinant in designating non-listed employees as peace officers:

- Regular use of firearms with authorization to use deadly force and less-than-lethal devices for which specialized training is mandated.
- Transportation or supervision requiring arms and/or restraints of inmates outside of facility property.
- Investigation of felonies committed in prison as a major part of the employee's duties.
- Exercise of peace officer powers as applied to the general public as in the case of visitors or demonstrators.
- Regular supervision of a significant number of peace officers in the performance of their duties.

31060.8.2 Minimum Legal Standards for Peace Officer

Revised July 19, 2012

Appointments

Persons appointed to peace officer classifications shall meet all of the following minimum legal qualifications and standards prior to appointment:

- Be a citizen of the U.S. or a permanent resident alien who is eligible for and has applied for citizenship.
- Be 21 years of age or older.

- Be fingerprinted for purposes of search of local, State, and national fingerprint files to disclose any criminal record.
- Be of good moral character, as determined by a thorough background investigation.
- Education: Equivalent to completion of the twelfth grade. Demonstrated by: (1) possession of a high school diploma issued by a U.S. Institution; (2) passing the California High School Proficiency test; (3) passing the General Education Development (GED) test meeting California high school graduation standards; or (4) possession of a college degree (Associate of Arts or higher) from an accredited college or university.

Note: Any accreditation or approval shall be from a state or local government educational agency using local or State government approved accreditation, licensing, registration, or other approval standards, a regional accrediting association holding full membership in the National Council for Private School Accreditation (NCPISA), an organization holding full membership in the Commission on International and Trans-Regional Accreditation (CITA), an organization holding full membership in the Council for American Private Education (CAPE), or an accrediting association recognized by the National Federation of Nonpublic School State Accrediting Associations (NFSSAA).

This provision shall not apply to any public officer or employee who was employed, prior to the effective date of the amendment of GC Section 1031, made at the 1971 Regular Session of the Legislature, in any positions declared by law prior to the effective date of such amendment to be peace officer positions.

- Be free from any physical, emotional, or mental condition which might adversely affect the exercise of the powers of a peace officer. Physical condition shall be evaluated by a licensed physician/surgeon. Emotional and mental condition shall be evaluated by a licensed physician/surgeon or by a licensed psychologist who has a doctoral degree in psychology and at least five years of postgraduate experience in the diagnosis and treatment of emotional and mental disorders.

31060.8.2.1 Required For Peace Officer

Revised July 19, 2012

No person shall be appointed to or begin training as a peace officer until a physical abilities test, background investigation, a medical examination, and a psychological screening has been completed and written clearance has been received from the Chief, Office of Peace Officer Selection (OPOS), or their designee.

Exceptions

The physical abilities test is required only for Correctional Officer (CO), Youth Correctional Officer (YCO), and Youth Correctional Counselor (YCC) classification.

A background investigation shall not be required if the applicant is:

- A peace officer currently employed by the Department.
- Being appointed by mandatory reinstatement to a peace officer classification.
- A retired annuitant who will be performing in an administrative capacity only.

31060.9 Peace Officer Recruitment, Evaluation, Testing, and Selection

Revised December 27, 2010

To ensure an effective and diverse peace officer work force, the Department shall:

- Actively recruit entrance-level applicants.
- Carefully evaluate, examine and test applicants prior to appointment, including:
 - List appointment.
 - Reinstatement.
 - Lateral Transfer.
 - T&D Assignment.
 - Other forms of appointment.

31060.9.1 Office of Peace Officer Selection Functions

Revised July 19, 2012

The OPOS shall administer the following functions:

- The examinations for CO, YCO, YCC, and CCI.

- Physical abilities test, background investigation, medical examination, and psychological screening pursuant to the request of a hiring authority wishing to appoint a non-peace officer applicant to a peace officer position (see DOM 31060.9.3.3).
- Appointment of CO, YCO, and YCC from the eligible list.
- Reinstatements to CO, YCO, and YCC for cadets rejected from the Basic Academy.
- Coordination of requests for Criminal Identification and Information (CI&I) State Summary– Criminal History (SSCH) from State DOJ (see DOM 31060.18).

31060.9.2 Peace Officer Recruitment

Revised December 27, 2010

Various federal and state laws, executive orders, and court decisions regulate California civil service employment and provide the basis for recruitment programs.

Recruitment shall be conducted by the Office of Workforce Planning and Selection (OWPS) at the request of OPOS.

Goals and Objectives

The Department is committed to an aggressive EEO Program, recognizing the need to employ all segments of the population.

The Department intends to:

- Use to the maximum all available human resources.
- Provide EEO to all on the basis of merit and fitness, without regard to age, sex, race, national origin, religion, disability, sexual orientation, or political affiliation.
- Achieve and maintain a work force which represents by occupational group, responsibility level, and salary level the diverse ethnic and cultural groups found within the State.
- Attract qualified applicants to compete for appointment in the Department.
- Increase the overall effectiveness of our law enforcement community.
- Increase qualified minority group/affirmative action representation within the Department's law enforcement community.
- Enhance the Department's public image through advertising in all phases of the media, personal contacts with citizens in the community, and enlightening the public with regard to the operations of the Department.

31060.9.2.1 Office of Peace Officer Selection Responsibilities

Revised December 27, 2010

The OPOS shall:

- Report on the ethnic and sex representation of the CO, YCO, YCC, and CCI examination applicant pool.
- Via the OWPS place paid advertisements as needed to publicize the CO, YCO, YCC, and CCI examinations.
- Via the OWPS develop, maintain, and use a mass mailing roster of community based agencies to publicize the CO, YCO, YCC, and CCI examinations.
- Via the OWPS refer announcement and solicitations regarding job fairs and other recruitment related activities to the institution recruitment coordinator nearest the event.
- Serve as a resource to departmental managers, supervisors, and recruitment coordinators.
- Evaluate departmental recruitment efforts for CO, YCO, YCC, and CCI.

31060.9.2.2 Institution/Parole Responsibilities

Revised December 27, 2010

Division of Adult Institutions (DAI) and Division of Adult Parole Operations (DAPO) staff perform specific recruitment activities tailored to meet the needs of their respective communities as well as those with statewide impact.

31060.9.3 Peace Officer Appointment Process

Revised December 27, 2010

OPOS shall appoint YCOs and YCCs to peace officer positions. The hiring authority is to assure that all legal and policy requirements are met prior to the effective date of the appointment.

31060.9.3.1 Office of Peace Officer Selection Clearances*Revised December 27, 2010*

The hiring authority is to obtain the necessary OPOS clearances (DOM 31060.8.2.1) prior to appointing to a peace officer position any applicant who is not currently a departmental peace officer employee by submitting the CDC Form 1923, Individual Service Request (ISR), to the appropriate testing center.

31060.9.3.2 Testing Center Service Areas*Revised December 27, 2010*

Northern Testing Center:

- PBSP.
- CCC.
- FSP.
- SAC.
- CMF.
- SOL.
- NCWF.
- SQ.
- MCSP.
- NCYCC.
- NACYCF.
- Parole Region I.
- Parole Region II.
- Headquarters.

Central Testing Center:

- SCC.
- DVI.
- CCI.
- COR.
- WSP.
- NKSP.
- ASP.
- PVSP.
- CCWF.
- VSPW.
- CMC.
- CTF.

Southern Testing Center:

- LAC.
- CIM.
- CIW.
- CRC.
- RJD.
- CVSP.
- ISP.
- CEN.
- CAL.
- VYCF.
- SYCRCC.
- Parole Region III.
- Parole Region IV.

31060.9.3.3 Individual Service Request Process*Revised December 27, 2010*

The CDC Form 1923 shall be:

- Signed by the IPO; Business Manager; Associate Warden, Business Services; Chief Deputy Warden; Warden; PA; RPA; Assistant Deputy Director; Regional Administrator; Assistant Director; or Deputy Director or designee and mailed to the Regional Testing Center, Attn: Regional Testing Officer.

A bona fide job offer to the applicant.

The following shall be included with the service request:

- Completed Personal History Statement and two notarized "Authorization to Release Information" forms.
- Completed Background Investigation Questionnaire (OPOS 1901).
- State Application (STD 678).
- Certified Birth Certificate or original Naturalization Certificate or approved Citizenship Application by USCIS.
- Copy of Marriage Certificates or Divorce Decrees.
- Sealed/certified high school and college transcripts.
- Copy of Conditional Offer of Employment.
- Current credit report.
- Copy of Proof of Valid Auto Insurance.
- Copy of DD214 Military Discharge form (Member 4 – Long Form).

The Chief, OPOS, will notify the hiring authority if clearance for hire is granted or withheld by memorandum.

If the hiring authority disagrees with the Chief, OPOS, the decision may be appealed to the Deputy Director through the appropriate Associate Director.

The written appeal shall be routed to the Deputy Director, Human Resources (HR), for a recommendation.

The Deputy Director's decision shall be returned by the Associate Director, HR.

The Associate Director, HR, shall forward copies of the decision to:

- The submitting Hiring Authority.
- The Chief, OPOS.

31060.10 Basic Academy

All appointees to the class of officer must attend the Basic Academy. Effective dates of appointments are to coincide with the first date of the Basic Academy they are to attend.

Exceptions

Reinstating officers whose last departmental position was officer and whose break in service was less than one year. The Warden can require attendance if the training is deemed necessary.

Reinstating officers exempted from Basic Academy attendance by the Chief Deputy Director.

Officers reinstated because of a mandatory reinstatement. The Warden can require attendance if the training is deemed necessary.

31060.10.1 Permanent Intermittent Officers*Revised December 27, 2010*

Permanent Intermittent (PI) Officers shall be given priority consistent with list eligibility or SPB Rule 277 for permanent full-time vacancies.

Within two weeks of the start of each Basic Academy, the OPOS will issue a notice to the Wardens of the eligibility standing of the PIs for full-time positions.

31060.10.2 Hardship Transfers*Revised December 27, 2010*

Officers attending the Basic Academy requesting a hardship transfer shall submit a request to the Chief, OPOS. All other officers requesting a hardship transfer shall submit requests to the Warden of the proposed and the releasing facility. (See DOM 3310.21.1 for process.)

31060.11 Good Faith Civil Service Appointments*Revised December 27, 2010*

A valid civil service appointment is made and accepted in "good faith" under the civil service statutes and SPB rules.

To Make a Valid Appointment

In order to make an appointment in "good faith," the Secretary and the designated hiring authorities shall meet the following requirements:

- Intend to observe the spirit and intent of the law.
- Make a reasonable and serious attempt to determine how the law is applied.
- Assure that positions are properly classified.
- Assure that appointees have civil service appointment eligibility.
- Intend to employ the appointee in the class, tenure, and location to which appointed under the conditions reflected by the appointment documents.
- Assure the Personnel Transactions staff have reference materials, training, and supervision necessary to avoid mistakes.

- Respect the rights and privileges of other persons affected by the appointment; avoid any appearance of coercing an eligible to waive rights to an appointment.

In order to accept an appointment in "good faith," an employee shall:

- Intend to serve in the class to which the employee is being appointed under the tenure, location, and other elements of the appointment as reflected by the appointment document.
- Provide the appointing power with complete factual and truthful information necessary for a proper appointment.
- Make a reasonable attempt to seek correction of any aspects of the appointment that the employee knows are illegal.

31060.11.1 Sanctions for Violating Good Faith Requirements

Revised December 27, 2010

Any officer or employee who knowingly violates or directs any officer or employee to violate these provisions shall be subject to any or all of the following:

- Adverse action.
- Civil sanctions.
- Criminal sanctions.

The SPB Executive Officer may cancel an illegal or improper appointment if lack of "good faith" exists on the part of either appointing power or employee.

31060.12 Request to Appoint Into a Different Location

Revised December 27, 2010

When making appointments to positions that are rostered in a different location than the hiring authority, the hiring authority shall use the agency code where the position is rostered on its internal appointment request document.

- This occurs, for example, when an employee of the Education and Inmate Programs Section works at the CIM, and the position is actually rostered in Sacramento County.
- This separate identification is critical for audits and seniority list requests. Seniority lists must accurately reflect all employees in affected classes and their locations.

31060.13 Contacting Eligibles on Certification Lists

Revised December 27, 2010

Eligibles from certification lists shall be contacted by the following methods only (see SPB Rule 258 for applicable time limitations):

- CDC Form 1237, Waiver, shall be mailed to the eligible's home address.
- Telegram and mailgram may only be used when the vacancy requires filling in a short period of time.
- Telephone or verbal contact with results confirmed in writing to the eligible.

The FAX shall not be used.

31060.14 Oath of Allegiance/Declaration of Permission to Work

Revised December 27, 2010

The STD Form 689, Oath of Allegiance and Declaration of Permission to Work for Persons Employed by the State of California, shall be signed by every employee within thirty days of appointment.

Citizen

U.S. citizens shall sign the Oath of Allegiance; which shall be valid until the employee permanently separates from State employment. Validation may be made by the following:

- Executive staff, hiring authorities, personnel assistants, and those in the direct chain of command of the personnel assistants.
- Anyone who by law has the authority to administer oaths (i.e., public notaries; the Attorney General; judicial officers; and county officers like the DA, sheriff, county clerk, or justice of the peace).

No fee shall be charged by any person before whom the Oath is taken and subscribed.

Noncitizen

Non-citizen employees shall complete the Declaration of Permission to Work.

If a legally employed non-citizen becomes a naturalized citizen, the Oath of Allegiance shall be completed.

31060.15 Federal Employment Eligibility Verification

Revised December 27, 2010

All applicants hired after November 6, 1986, shall complete and sign a U.S. Citizenship and Immigration Services (USCIS) Form I-9, Employment Eligibility Form, before being appointed.

Staff shall review and verify in accordance with directions on the back of the form.

The OPOS shall:

- Ensure completion, review and verification for all entry-level peace officer applicants including lateral transfers and reinstatements.
- Forward the completed forms to the appropriate local personnel/payroll office.

Local personnel/payroll officers shall:

- Ensure completion, review and verification of applicants for all other classifications.
- File and retain the forms (see DOM 31060.18).

31060.16 Criminal Records Check

Revised December 27, 2010

A criminal records check is a requirement for employment with the Department and includes:

- Consent to be fingerprinted. (Live scanned.)
- Request for and review of the CI&I SSCH.

Process

Applicants for all employment shall be live scanned at the earliest possible time if an appointment is expected. The live scan shall be processed as follows:

- Personnel staff shall fax the live scan form BCII 8016 to OPOS, Selection Support Section, the day applicant is live scanned.
- **Note:** The facility/office region acronym shall be written in the space titled "Your Number" on the front of the live scan form.
- Live scan transmission will be transmitted directly to State DOJ.
- OPOS forwards DOJ responses to the originator of the request.
- The hiring authority or designee shall complete the DOJ/FBI Employee Responses form provided by OPOS and shred the DOJ responses unless the response is a rap sheet. Rap sheets are to be filed in a secure, confidential location.
- The CCRM shall review DOJ responses for persons appointed to positions which allow access to inmate records or EDP terminals capable of access to electronically stored inmate records.

31060.17 Pre-Employment Documentation

Revised July 1, 2015

The following records shall be on file in the local personnel/payroll office prior to appointment of an applicant:

- CI&I SSCH.
- Live scan.
- USINS Form I-9.
- Physical examination report.
- CDCR Form 1951, Supplemental Application for all CDCR Employees.

31060.18 Retention of Personnel Records

Revised July 1, 2015

All applications; supplemental applications; personnel, membership, or employment referral records; and files of applicants shall be retained a minimum of two years in a confidential file.

Unsolicited applications are excluded from the retention requirement.

Transferring Employees

The following documents are retained in the separated employee's folder once the employee transfers:

- One copy of the CDC Form 647, Request for Personnel Action, or CDC Form 647-A, Request for Personnel Action-Institutions.
- One copy of the STD Form 612, Transfer Data Sheet.
- One copy of the CDCR Form 1951, Supplemental Application for all CDCR Employees
- CDC Form 648, Report of Separation.
- One copy of the separation checkout list (if used).

Other material in the Official Personnel Folder shall be purged according to the SAM 1670 and the remaining contents forwarded to the receiving location.

Employment Eligibility Verification Forms

USCIS Form 1-9 shall be:

- Maintained in a file separate from the Official Personnel Folder.
- Retained for three years after the date of employment or for one year after termination of employment, whichever is later.

No Longer Interested Notification Forms

A DOJ, CI&I Form 8302, No Longer Interested Notification (NLI) Form, shall be submitted to State DOJ by each personnel section on any of the following who were fingerprinted at the time of application or appointment:

- Employees who are terminated or separated from the Department.
- Contracted workers, volunteers, vendors, or other service providers whose services are no longer required by the Department.
- Applicants who were fingerprinted but not hired by the Department.

NLI Forms should not be sent to DOJ on retired employees.

31060.19 Photographs

Revised December 27, 2010

Current photographs shall be taken of all employees.

One photograph shall be used on the employee's personnel identification card (see DOM 31070).

One photograph shall be placed and retained in the employee's Official Personnel Folder.

Responsibility

The Personnel Transactions Section shall photograph headquarters' employees.

Facility personnel/payroll offices shall photograph facility employees.

Parole regions shall photograph their employees and forward one photograph to Personnel Transactions Section.

31060.20 Employee Exit Questionnaire

Revised December 27, 2010

The Employee Exit Questionnaire (CDC 1144) is a tool designed to examine employee movement from and within the Department.

Responsibility

The responsibility for the Employee Exit Questionnaire rests with the Personnel Services Section.

On-site coordinators within each division, facility, and parole region shall be responsible for coordinating the distribution of the questionnaire to all employees transferring, leaving, or changing classifications. If the responsibility for coordinating the distribution of the exit questionnaire is reassigned, the name of the new survey coordinator shall be provided to the Personnel Services Section promptly.

Completion of the questionnaire is voluntary. Names shall not be used and a self-addressed envelope shall be provided for mailing the questionnaire directly to headquarters.

Information from the questionnaire shall be reviewed and evaluated by staff from the Personnel Management Branch. The results and findings of the questionnaire shall then be reported to management on a regular basis.

If an employee wishes, an exit interview may be made by the employee with the Personnel Services Section.

31060.21 Revisions

Revised December 27, 2010

The Deputy Director, HR, or designee shall be responsible for ensuring that the contents of this Article are kept current and accurate.

ARTICLE 7 — PERSONNEL IDENTIFICATION CARDS

Revised October 3, 2013

31070.1 Policy

In order to maintain security and order within Department facilities and provide proof to other agencies and private citizens of an individual's relationship with the Department, departmental identification cards or memorandums shall be issued to employees, contractors, consultants, volunteers, advisory group members, and Department retirees.

31070.2 Purpose

This section specifies the procedural requirements for issue, retrieval, and control of departmental identification cards or memorandums.

31070.3 Definitions

For this section only the following definitions apply:

- Employee: person who works directly for the California Department of Corrections and Rehabilitation (CDCR).
- Individual: employee, volunteer, CDCR retiree, consultant, contractor, or advisory group member.

31070.4 Responsibilities

Local personnel offices shall:

Issuance

- Order, securely store, and issue identification cards.
- Verify completion of preemployment documentation (i.e., criminal records check, medical examination/health questionnaire, etc.). [See Department Operations Manual (DOM) 31060.]
- Maintain the hiring authority's record of issuance and retrieval of identification cards.

Individuals or the designated authority shall complete and sign form CDCR 894-A for each identification card issued them. Individuals shall, while on duty and/or while on the grounds of a Department institution/facility, carry their identification cards on their person and produce the card upon request.

Retrieval

Individuals shall surrender the identification card to their supervisors or local personnel offices under the following circumstances:

- On or before the expiration date shown on the card.
- Upon separation from the Department.

An employee transferring, promoting, or demoting within the Department shall retain the identification card until a new card is issued.

- The receiving facility or headquarters shall collect and void the old Identification card (ID) by cutting off the signature without removing the card number.
- The voided card shall be returned to the sending location for destruction. The date of destruction is entered in the record maintained by the sending location.

Tracking

Each hiring authority, by the local personnel, shall maintain a database, binder, or bound book for a record of information on the issue, return, and disposition of each identification card. This record shall include the following information:

- Name of individual.
- Class title.
- Date issued to the individual.
- Serial number.
- Signature of individual or designated authority.
- Public Employment Representative Board (PERB) or designation, (i.e., management, supervisory, confidential, or rank and file, retired, temporary, or volunteer).
- Expiration date.
- Date card is destroyed because of expiration, separation, or transfer or is replaced because the card was lost, stolen, or mutilated.

31070.5 Features

Photograph

New employees shall be provided an identification card with photo on the first day of employment with CDCR.

Lamination

All identification cards shall be laminated.

Titles

Civil service or exempt class titles shall be used on identification cards for all departmental employees with the exception of Career Executive Assignment positions in which case working titles are used.

Borders (bold)

The title on each ID card has a corresponding colored border as indicated below:

- Red=Management and Confidential Employees
- Green=Temporary (Contractors, Consultants, Non-CDCR)
- Blue=Supervisory
- Brown=Volunteers
- Gold=Retirees
- No Border=Non-Supervisory

Customized Artwork (bold)

The customized artwork for Peace Officers is the 7-point star and artwork for Non-Peace Officer Staff is the CDCR logo.

31070.6 Distribution

Identification cards shall be distributed consistent with Departmental standards.

31070.7 Lost Cards

Process

Any individual who loses the departmental identification card shall immediately report the loss to the Warden, Regional Parole Administrator (RPA), Central Services Captain, or division administrator.

Notice

When an individual reports the loss of an identification card, the facility, parole region, or division shall:

- Send a notice to all other facilities advising of the loss. This notice shall include the individual's name and type of identification card, and any information relevant to possible misuse of the card.
- A copy of the notice (memo or form) shall be included with the CDCR 894-A when requesting a replacement card.

The notice shall specify: "Should anyone attempt to use the lost identification card to gain entrance to your facility, please confiscate the card and notify this facility/region/division at once."

If a card is mutilated, lost, or stolen, a new card shall be issued immediately.

31070.8 Retired Peace Officer Concealed Weapons Endorsement

It is the policy CDCR to allow honorably retired peace officers; who meet the training requirement in Penal Code (PC) 832, and who qualify with the firearm pursuant to PC section 25475, the privilege to carry a concealed weapon unless the privilege is denied or revoked by the agency from which they retired. PC 25460(c) requires the ID card of honorably retired peace officers who have applied for and been approved to carry a concealed weapon include a "Carry a Concealed Weapon (CCW) Approved" endorsement.

It is the intent of the CDCR that all retiring peace officers who request a CCW endorsement and have not been excluded receive their retired ID cards with "CCW Approved" on the last day of their employment.

31070.8.1 Purpose

The purpose of this policy is to provide authorization for the issuance of retired peace officer ID cards with the endorsement authorizing permission to carry a concealed weapon, and to provide an evaluation process to preclude or remove that CCW authorization from those retired peace officers who cannot lawfully or responsibly exercise a concealed weapon privilege.

31070.8.2 CCW Endorsement Authority

Approving authority for issuing the initial ID cards and CCW endorsements to peace officers retiring from CDCR is delegated to the retiree's hiring authority, i.e., Wardens, RPA, Deputy Director (DD), or Associate Directors (AD). The aforementioned hiring authorities shall use the direction in this policy and good judgment to make the approval decisions.

The authority to approve the renewal of previously approved CCW endorsements for all retired peace officers whose histories are clear of any disqualifying factors is delegated solely to the Captain, Office of Correctional Safety (OCS). The OCS has authority to disapprove the renewal or revoke a previously approved CCW endorsement for any retired peace officer whose criminal, medical, or mental histories reflect any disqualifying factors.

31070.8.3 Initial Endorsement Procedures

Employees wishing to receive a CCW endorsement on their retired peace officer ID card shall submit the following documents to the Institutional Personnel Officer (IPO), or the Chief, Office of Personnel Services (OPS), for headquarters employees, 60-180 days prior to their retirement date:

- CDCR Form 894-A, Personnel Identification Card Information.
- CDCR Form 1051, Request to Carry a Concealed Firearm and Questionnaire.
- CDCR Form 1052, Endorsement to Carry Concealed or Loaded Firearm.
- CDCR Form 1053, Authorization to Release Medical, Surgical, Psychiatric Care & Treatment Information.
- CDCR Form 1054, Office of Internal Affairs, CCW Clearance Report.
- CDCR Form 2164, Live Scan Response Form.
- Office of Peace Officer Selection (OPOS) Form 8016, Request for Live Scan Service with payment for all applicable fees.
 - Live Scan fingerprints must be taken for all retirees requesting a CCW at the retiree's expense. Payment for all applicable fees are to be forwarded to the Office of Peace Officer Selection, attn: Operation Support Unit.
 - The OPOS Form 8016 shall have "Retired Peace Officer" entered on the "Job Title" line.
 - The "Your Number" line shall have the institutions or unit's initials and date entered (e.g. PBSP 06-15-07 or Reg. II 06-15-07).
 - The Live Scan operator will select the option "Retired Peace Officer."
 - The Live Scan operator will type "Retired Peace Officer" as the classification.
 - The OPOS Form 8016 form must be faxed to the OPOS.
 - At least the Department of Justice (DOJ) and Federal Bureau of Investigation (FBI) responses must be received back prior to approving and issuing the CCW endorsement.
 - When "clear" responses are received, they shall be recorded on the DOJ/FBI Employee Response form and then shredded.
 - Arrest/Criminal History (Rap sheet) responses shall be recorded, kept and included in the application package for review by the Warden.
 - Contact the OPOS to check on delayed (DOJ/FBI/Firearms) responses.

31070.8.3.1 Approval/Denial

When notified that a retiring peace officer employee has requested a CCW endorsement, the IPO, or Chief of OPS (for headquarters employees) shall review the employee's official personnel file (OPF) for institution, parole, and headquarters employees. The IPO or Chief of OPS, using the CDCR Form 1053, shall review the employee's Return-to-Work Coordinator (RTWC)/Health and Safety for Workers' Compensation case file for institution and parole employees. The IPO/OPS shall ask the Office of Legal Affairs, (Worker's Compensation Team) to review the employee's RTWC/Health and Safety for Workers' Compensation case file, and report any factors/considerations to the OPS. The review of the OPF for parole employees will be coordinated with the Office of Personnel Services. Each of these reviews will determine if there are any of the following disqualifying factors/considerations:

- Subsequent arrest notifications indicate the employee has a disqualifying conviction or charge pending litigation.
- The employee is retiring in lieu of termination (PC 16690 and, or "DISHONORABLY RETIRED"), whether or not the CDCR chooses to take punitive action.
- For violating any departmental rule, or State, or federal law, that if violated by an officer on active duty, would result in that officer's arrest, suspension, or removal from the agency. PC 26305(d)
- The employee's privilege to possess a firearm or to carry a concealed weapon pursuant to PC 830.5(c) has been revoked or is currently revoked.
- The employee is under investigation for an offense that, if the charges were sustained, could result in an active employee's arrest, suspension, or dismissal from the CDCR (PC 26305(b) (i.e., misdemeanor violations listed in PC 29800-29875 and violent offenses listed in PC 29900-29905).

- The employee is retiring because of:
 - (1) Employee has a psychological disability (PC 26305(a)).
 - (2) Employee has been found to have a psychological disability in the adjudication of a worker's compensation claim.
 - (3) Employee has a psychological condition indicated in any other document.

[Note: parts 2 and 3 are "factors" to be considered on a case-by-case basis, depending on extent and recentness of the condition.]

The IPO/OPS shall complete CDCR Form 1052, Endorsement to Carry Concealed or Loaded Firearm, for submission to the hiring authority.

The IPO/OPS shall fax the CDCR Form 1054 to the Special Agent-In-Charge (SAIC) at the Office of Internal Affairs (OIA). The OIA shall determine if the employee is currently under investigation for a prohibiting offense. The OIA shall document the information on the CDCR Form 1054 and fax it back to the IPO/OPS within two working days of receipt. If the response is "Not Clear", the OIA shall be contacted for information on which to base the approval or denial.

The IPO/OPS shall submit the completed CDCR Forms 1051, 1052, 1053, 1054, 2164, 894-A and OPOS Form 8016 to the hiring authority for review. The package must also include all other documents upon which the decision will be made. For example, if it is a disability retirement, the Public Employees' Retirement System (PERS) letter describing the medical decision would be necessary. The hiring authority will review the entire package and determine if the CCW endorsement is to be issued. A CCW endorsement is to be issued on the day of retirement unless the employee has any of the listed disqualifying factors, or if two Live Scan responses are still pending and the request was submitted less than 60 days prior to retirement. [If responses have not been received within 60 days, the Live Scan submission process should be investigated for the problem. The OCS or OPOS may be contacted for assistance.] The hiring authority can also show 'good cause' to deny the CCW endorsement for reasons not outlined above, such as acts of violence or conduct which jeopardized the safety of the public, staff, or inmates. The hiring authority shall sign the CDCR Form 1052 and approve or disapprove the application.

If the CCW endorsement is approved, the IPO/OPS shall:

- Issue the CDCR Retired ID card with the "CCW Approved" endorsement and the notation "CCW Approved Expires: *date*" (five years from date of issue) to the retiring employee. Write the ID number and expiration date on the CDCR Form 894-A.
- Forward the entire application package to the OCS. The OCS shall review the package for quality control and add the retiree's name and information to the departmental CCW database.

If the CCW endorsement is denied, the hiring authority shall notify the employee in writing of the specific reason for denial and advise him/her of the appeal process, including the 15-day response time. The hiring authority will include a copy of the letter of denial, along with any supporting documentation upon which the decision was based, in the complete package and forward it to the OCS.

An employee who has been denied may appeal in writing within 15 days following the receipt of the notice denying/revoking an endorsement to carry a concealed weapon. The appeal shall be directed to the managerial level above the authority of the level issuing the denial. The appeal shall describe the reason(s) the decision to deny the endorsement should be reversed.

The employee shall be notified in writing of the managerial decision. If the managerial decision sustains the CCW endorsement denial, the letter shall state the reason(s) and also outline the process for the retiree to request a Good Cause Hearing (GCH) (unless a GCH is precluded by PC) and shall include the 15-day response time (PC 26315(c)). A copy of the notice shall be provided to the EOU. If requested, the EOU will convene a GCH review board pursuant to PC 26320. Only "HONORABLY RETIRED" peace officers are entitled to a GCH per PC 25455(c).

31070.8.4 Other Requests for CCW Endorsements

An honorably retired peace officer who did not request a CCW endorsement at retirement and decides to obtain one later, may submit a request for a new retired ID card to the hiring authority who last supervised them. The retiree shall obtain, complete, and submit the same forms as listed in the previous section, including Live Scan fingerprints with payment for all applicable fees. The approval process shall be the same as outlined above; except that, all three responses (DOJ/FBI/Firearms) to the fingerprint check must be received back and reviewed prior to the CCW endorsement being approved or denied by the hiring authority. Upon approval or denial, the policy shall be followed as stated in the previous section.

31070.8.5 Renewal of Endorsement

Honorably retired peace officers requesting renewal of a CCW endorsement are to obtain, complete, and submit the forms listed below to the OCS at 60-180 days prior to the expiration date on their current ID card. A retiree may request renewal forms at any CDCR personnel office (institutions, and CDCR headquarters) regardless of the hiring authority. That personnel office shall be responsible to obtain a current photo, process the CDCR Form 894-A, and send the entire package to OCS for processing and approval. Live Scan fingerprints are only required as described below.

- CDCR Form 894-A.
- CDCR Form 1051.
- CDCR Form 1052.
- CDCR Form 1053.
- OPOS Form 8016.
 - Live Scan fingerprints are required only once from each retiree.
 - If they were correctly submitted for the initial CCW, they are no longer required.
 - Call or e-mail the OPOS to verify the retiree's name in their database.
 - If the retiree is not in the database, Live Scan must be submitted for the renewal with payment for all applicable fees. Applicable payments are to be forwarded to the Office of Peace Officer Selection, attn: Operation Support Unit.
 - Enter "inst. - date" on the "Your Number" line.
 - The OPOS Form 8016 must be faxed to the OPOS by the Live Scan operator or retiree.
 - At least the DOJ and FBI responses must be received back prior to forwarding the renewal package to the OCS.
- CDCR Form 2164 is included only if Live Scan is required.

The OCS shall review the documents. The renewal application shall be approved, unless there is good cause to deny/revoke for reasons outlined in Approval/Denial section of this policy. If the application is to be approved, the Captain, OCS, shall sign the CDCR Form 1052, and fax it to the location where the retiree will be issued a new CCW endorsed retired ID card, with an expiration date five years from date of issue to the retiree. That expiration date and the ID number shall be written on the CDCR Form 1052 by Personnel and faxed back to the OCS for entry into the database.

If, for administrative or procedural purposes, an extension of the privilege to carry a concealed firearm is necessary, the Captain, OCS, may authorize an extension of up to 90 days.

31070.8.5.1 Denial of a Request for Renewal or Revocation of Authorization to Carry a Concealed Weapon

If the CCW renewal application is denied, the same procedure as outlined in Approval/Denial section above shall be followed.

If the CDCR receives a subsequent arrest notification from DOJ that reflects that a retiree with a CCW endorsement or a retiree requesting renewal of a CCW endorsement has been arrested or convicted of a prohibiting offense, the report is to be referred to the OCS. The OCS shall determine if the CCW endorsement is to be revoked or the renewal denied.

If the CCW endorsement is to be denied or revoked, the OCS shall notify the retiree in writing of the action and advise him/her of the appeal process. The OCS shall inform the retiree that the card is no longer valid and direct the retiree to immediately surrender their CCW endorsement ID card to a CDCR facility, where they shall have a new retired ID card issued without the CCW endorsement. If the retiree refuses to surrender the ID card, the CDCR will retrieve the revoked ID card.

A retiree who has been denied may appeal in writing following the same procedure and time constraints delineated in this policy for the denial of an initial application. During the appeals process, the CCW endorsement is NOT valid.

31070.8.6 Firearms Qualifications

Every honorably retired correctional peace officer who has been issued a CCW endorsement shall qualify annually with the concealed firearm, beginning in the calendar year of the date of issue. Those correctional peace officers listed in PC 830.2(d)(1) and (2) shall be exempt from this requirement pursuant to PC 16360.

31070.9 Revisions

The Deputy Director, Human Resources, or designee shall be responsible for ensuring that the contents of this Article are kept current and accurate.

ARTICLE 8 - LEAVE CREDIT AND OVERTIME MANAGEMENT

Revised November 12, 2014

31080.1 Policy

The California Department of Corrections and Rehabilitation (CDCR) shall manage employee leave credits and overtime use in a manner that provides efficient control, accountability, and fiscal responsibility.

31080.2 Purpose

This Article provides standard policy and practices to ensure that CDCR employees understand their roles in the efficient management and use of leave credits and overtime.

Included in this Article are directives to ensure that employee overtime is allowed only when required to provide the safe and efficient operation of the CDCR.

If any provision in this Article is in conflict with collective bargaining agreements, the collective bargaining agreements shall prevail as they relate to the specific represented group.

31080.3 Definitions**Sick Leave**

Sick leave is the absence of an employee or qualifying family member due to illness or injury, which is serious enough that the employee is unable to work.

Vacation

Vacation is planned time off work with pay, using accrued vacation or annual leave credits, or other leave credits, excluding sick leave. The limit on the number of hours that may be accumulated during a calendar year is established by:

- The appropriate collective bargaining agreement for represented employees.
- Department of Personnel Administration (DPA) rules for non-represented employees.

Holiday

Official State Holidays are those days declared in accordance with DPA rules or by gubernatorial proclamation. Provisions are applied in accordance with DPA rules and applicable collective bargaining agreements.

Overtime

Overtime is critical and unavoidable work scheduled outside of the normal work hours of an employee, for which payment is at a higher level than usual earnings as defined in the various collective bargaining agreements for represented employees, or by the Fair Labor Standards Act (FLSA) for non-represented employees.

Depending upon their Work Week Group (WWG) designation, managers and employees exempt from FLSA or collective bargaining agreement provisions may not be eligible for overtime compensation regardless of the number of hours worked.

31080.4 Institutional Overtime/Sick Leave Management Review Process

Each Warden shall establish an Overtime/Sick Leave Management Review (OSLMR) Process. In this process, managers and employees from custody and business services shall meet and evaluate the institution's custody overtime management and sick leave use on a daily basis. The Warden or designee shall chair the OSLMR meeting. The managers and employees shall assess the institution's progress toward reducing overtime and sick leave usage reduction goals, in accordance with this Article, and review all overtime expenditures on a monthly basis.

In order to document the OSLMR, managers and employees shall maintain meeting minutes. The minutes shall include the date of the meeting, participants' names and civil service classifications, and the general findings/actions. The minutes shall not include confidential employee information.

Sick Leave Management Duties

The managers and employees shall review absences from the previous day to determine if coverage was appropriate and shall:

- Assign specific supervisors the responsibility for following-up on the welfare of an employee who appears to be developing a recognizable pattern of sick leave use/abuse (e.g., frequent days in conjunction with weekend/regular day off), or for any other reason as determined by the review process.
- Update the Bargaining Unit 6 Extraordinary Use of Sick Leave (EUSL) list to include those employees who have established a pattern of extraordinary sick leave use/abuse pursuant to the collective bargaining agreement. The agreement specifies that a pattern of "Extraordinary Use of Sick Leave" exists if an employee has more than five (5) occasions of sick leave usage which total nine (9) or more days of sick leave use within the prior twelve-consecutive-month period. Or, if an employee has three (3) or more separate occasions of sick leave in the prior twelve-consecutive-month period in conjunction with his/her established regular days off. Or an employee attempts to use sick leave on a date which the employee previously requested a different form of leave covered by the collective bargaining unit agreement, but was denied. Employees who participate in the Annual Leave Program shall not be placed on the EUSL. Sick leave used under the Family Medical Leave Act (FMLA), California Family Rights Act (CFRA), or California Labor Code (LC), Section 233 shall not be considered when determining if a pattern of extraordinary use of sick leave exists.

Overtime Management Duties

The OSLMR shall review the previous days' use of overtime due to unplanned absences to determine if all reasonable alternatives were considered before overtime was authorized, and if overtime was necessary to maintain the safe and efficient operation of the institution/region or affected area.

This review will utilize information from the Watch Office Tracking System, Personnel Post Assignment Schedule System, and any other available information, which would provide relevant data.

31080.5 Non-institutional overtime/sick leave management

In areas other than institutions/facilities (e.g., Parole Regions; Headquarters; Health Care Services operations within institutions) where overtime and sick leave usage are high, a review process similar to that of the OSLMR shall be utilized to monitor these activities on a monthly basis.

31080.6 Institutional Overtime Avoidance Pool

Each institution shall develop an Overtime Avoidance Pool (OTAP) consisting of permanent full-time employees. The number of permanent full-time employees in the OTAP will vary by institution and must be re-evaluated and adjusted regularly (at least quarterly) based on the needs of the institution. The number of OTAP permanent full-time employees needed in a specific classification at an institution is determined by:

- Establishing the average number of permanent full-time employees, by watch and classification, who have been absent during the previous 12-month period due to the following:
 - Long-term sick.
 - Industrial Disability Leave.
 - Non-Industrial Disability Leave.
 - Other extended leave.
- Adding this average to the fewest number of daily sick calls, by watch and classification, in the prior six-month period.
- Subtracting the number of sick leave relief positions already established and filled in those classifications with budgeted sick leave relief.
- Adding the fewest number of overtime positions paid on a daily basis for ongoing assignments, which are in addition to the Post assignment schedule in the previous three months. (Examples might include: transportation, hospital guarding.)

31080.6.1 Appointment Of The Overtime Avoidance Pool

The Personnel Office shall make appointment of OTAP positions in the following order:

- Into vacant positions not identified in the Institutional Vacancy Plan or otherwise identified as "salary savings" as defined in collective bargaining agreements.
- Into Institutional Vacancy Plan or "salary savings" positions.
- Into the 902 Temporary Help Blanket.

OTAP employees shall be assigned to specific watches with varied hours and regular days off and used exclusively for overtime avoidance.

31080.7 Leave Credit/Overtime Appointing Authority Responsibilities

Each appointing authority shall have overall responsibility for the management and control of employee leave credit (holiday, vacation, annual leave, sick leave, and other accrued leave) use and overtime management in his/her assigned area of responsibility, and shall:

- Ensure that all managers and supervisors are informed of leave credit, overtime management, and vacation scheduling procedures as outlined in this Section, collective bargaining agreements, DPA rules, all applicable laws and rules including, but not limited to, FLSA, FMLA, CRFA, and LC, Section 233.
- Provide managerial oversight of the sick leave, vacation, overtime, and vacancy management process to ensure that it is applied in a fair and consistent manner which conveys to all employees the importance of prudent leave credit use.
- Ensure employees are allowed to use leave credits consistent with their classification, budgeted relief, and operational considerations relative to the efficient operation of the institution and impacted work areas.
- Ensure that vacation/annual leave balances are monitored so that employee leave balances shall not exceed the maximum allowable. When it is determined that an employee's balance has or will exceed the maximum allowable, additional opportunities to take time off during the calendar year shall be allowed.
- Ensure that sufficient OTAP positions are established and filled in order to cover anticipated absences above the budgeted relief.

31080.7.1 Leave Credit/Overtime Manager And Supervisor Responsibilities

Each manager/supervisor shall have direct responsibility for the management and control of employee leave credit use and overtime management in his/her assigned area of responsibility and shall:

- Be knowledgeable of all aspects of CDCR's leave credit and overtime management policy, including the vacation scheduling, sick leave, and overtime approval processes.
- Be knowledgeable of all applicable laws, rules, regulations, California Government Code, and collective bargaining agreements.
- Ensure that employees are aware of the method to request and schedule holiday, vacation, or other leave in accordance with this Article.
- When provided with sufficient information of an employee's need for leave, the supervisor shall either have the employee complete form CDCR 3051 Employee Request for FMLA/CFRA/PDL or complete the form on the employee's behalf if the employee is unable to do so. If the employee is absent for more than three (3) consecutive days of work, a completed CDCR 3051 should be sent to the FMLA Coordinator. This CDCR 3051 should be completed immediately as the employee must be notified of his/her eligibility for FMLA/CFRA within five (5) business days. The supervisor is responsible for ensuring the FMLA Coordinator has been notified of the employee's need for FMLA/CFRA.
- Provide that all budgeted positions (not designated for salary savings or included in the Institution Vacancy Plans) are established, filled, and assigned to cover employee absences in such a manner as to avoid unnecessary overtime expenditures.
- Pre-approve all overtime and ensure that every alternative has been considered prior to granting overtime approval.
- Designate the level of approval required for authorizing overtime.
- Determine the maximum number of employees in various classifications that can take vacation and/or holiday leave at the same time within the assigned work areas. (For posted positions, the budgeted relief for those positions determines this number.)

Sick leave management responsibilities include, but are not limited to:

- Monitor the effect of sick leave related absenteeism within the assigned work area in order to mitigate this effect whenever possible.
- Maintain accurate records of employee absences relating to sick leave and evaluating these absences to determine if there is a pattern of use/abuse developing which needs to be discussed with the employee.
- Speak to employees who call in sick and at that time, when appropriate, notify the employee that verification from a physician or other licensed health care provider must be submitted in accordance with collective bargaining agreements and all other applicable laws, rules, and regulations.

- Redistribute the absent employee's workload, when necessary, to ensure that priority work is completed on deadline.
- Ensure that CDCR Form 998-A, Employee's Record of Attendance is received from each employee, as required, and that, where applicable, substantiation is attached. Approve the employee's CDCR Form 998-A for use of leave credits only after having ascertained that the absence is for an authorized reason. If disapproved, the reasons for the disapproval will be given to the employee in writing.
- Set a good example for employees by using sick leave only when absolutely necessary for personal and family health care needs.

Vacation/Annual and Holiday leave credit management responsibilities include, but are not limited to:

- Review the monthly list of vacation/annual and holiday leave credit balances issued by the Personnel Office for employees assigned to their work areas and determine which employees are near or over the maximum allowable number of accrued leave credits.
- Provide operational oversight for the leave system within his/her assigned area.
- Monitor the leave credit balances and encourage employees to use accrued leave credits throughout the calendar year in such a manner as to keep accrued balances within the established maximum limits without adversely affecting the safe and efficient operation of the work area.
- Approve requests for leave in accordance with departmental policy and procedures, the provisions of collective bargaining agreements, laws, rules, regulations, and operational need and constraints imposed in the case of licensed employees. A written notice of approval to take leave shall be provided to employees at the time of approval.

For institutions continuing to allow requests for holiday leave, the following shall apply:

- Designate whether requests from Correctional Officers, Sergeants, or Lieutenants to use holiday leave credit will be submitted in writing or by telephone.
- Written requests will be time and date stamped or noted upon receipt.
- Telephone requests will be recorded electronically using a system which specifies the time the message was received.
- A file/log shall be maintained noting the time and date each request was received and whether it was approved or placed on a standby list. Designate the location(s) where employees will submit requests to use holiday leave credit or the telephone number employees can call to request approval for using leave credit.
- Ensure that approval for an employee to use holiday leave credit does not result in overtime being required (except in an institution when a first watch commander is absent on holiday time off).

Overtime management responsibilities include, but are not limited to:

- Maintain accurate records of employee overtime used and track the reasons overtime was required.
- Request/authorize overtime only after ascertaining that there is an absolute need affecting the safe and/or efficient operation of the institution/facility/region/department/work area.
- Ensure that work is distributed in such a manner as to avoid the need for overtime except in rare, unforeseen circumstances.

All overtime shall be pre-approved by a designated supervisor who will ensure that every other alternative has been considered prior to granting overtime approval. Within an institution, being ordered to stay on post beyond the normal end of shift or scheduled to work overtime by the Watch Office, Correctional Sergeant, or Lieutenant constitutes pre-approval.

31080.7.2 Leave Credit/Overtime Personnel Office Responsibilities

The Personnel Office is responsible for the following:

- Submitting STD Form 607 to establish all budgeted positions.
- Providing Department Heads, major Work Area Managers, and the Institutional Personnel Assignment Office with a monthly listing of employees who report to them and the accrued leave balances of those employees.
- Verifying FMLA/CFRA eligibility and sending appropriate notices to employees within the required timeframe. Once a request has been received from either the employee or his/her supervisor, a notice of eligibility must be mailed to the employee within five (5) business days.

- Verifying that all employees are charged appropriate leave credits for time used.

Vacation Leave

- In the institutions, forwarding a list to the Personnel Assignment Office by October 1 of each year, of the current accrued vacation/annual leave balances for Correctional Officers, Sergeants, and Lieutenants. This listing will be used during the annual vacation time bidding process.

Overtime Management

- Ensuring that overtime is recorded accurately and appropriate payments are made to employees.

Holiday Leave

- Informing all employees of any additional holidays declared by gubernatorial proclamation.

31080.7.3 Institutional Leave Credit/Overtime Personnel Assignment Office Responsibilities

The Personnel Assignment Office has the responsibility to establish and fill all Correctional Officer, Sergeant, and Lieutenant posts including relief (with the exception of those in the Institutional Vacancy Plans). The Personnel Assignment Office shall schedule Correctional Officer coverage for long-term sick, long-term vacancies, vacations, or any other vacancy for which there is sufficient advance notice. Such coverage shall be assigned in such a manner as to avoid overtime whenever possible.

The Personnel Assignment Office shall have the additional following responsibilities:

Sick leave

- Provide coverage for pre-scheduled/pre-approved Correctional Officer, Sergeant, and Lieutenant sick leave absences longer than one week in duration.

Vacation leave

- Conduct the vacation bid process and then track the vacations for the Correctional Officer, Sergeant, and Lieutenant classifications.
- Ensure that the coverage provided for posted position vacations is consistent with the budgeted relief for the respective classification.

31080.7.4 Institutional Leave Credit/Overtime Custody Captain Responsibilities

Vacation

The Custody Captain has the overall responsibility for the annual vacation bidding process for Correctional Officers, Sergeants, and Lieutenants as specified in the collective bargaining agreements and this Article of DOM.

Holiday

The Custody Captain will approve holiday time off for Correctional Lieutenants and Sergeants based on the number of holiday relief positions assigned by watch and day and/or the availability for cross coverage. Requests for time off will be submitted to the Custody Captain through the normal chain of command.

31080.7.5 Institutional Leave/Overtime Watch Office Responsibilities

Filling behind leave that has not been pre-scheduled/pre-approved. The Watch Office is responsible for the daily coverage for Correctional Officers, Sergeants, and Lieutenants who call in sick or for any other unplanned absence, using resources in the following priority order:

- Internal coverage (i.e., reassignment of employees when post workload has been temporarily eliminated, such as when there are no inmates on the facility yard due to a lock down).
- Utility days.
- OTAP (including Retired Annuitants).
- Other budgeted reliefs not already assigned to cover a post for that day (e.g., sick leave, vacation, or holiday).
- Permanent Intermittent Employee (PIE).
- Voluntary Overtime.
- Involuntary Overtime.

The Watch Office is responsible for:

Sick

- Taking daily sick calls from Correctional Officers, Sergeants, and Lieutenants.
- Notifying employees when a medical verification is required.

Holiday

- Handle the day-to-day administration and approval of holiday time off for Correctional Officers based on the number of holiday relief positions assigned by watch and day.

Overtime

- Ensure that voluntary and involuntary overtime is administered according to the provisions of the specific collective bargaining agreements and the regulations of the specific WWG regarding FLSA.

31080.7.6 Institutional Leave Credit/Overtime Correctional Officer Responsibilities

The Correctional Officer's responsibilities are as follows:

Holiday

- Making every attempt to use holiday credit within twelve months of accrual.
- Providing written notice at least forty-eight (48) hours prior to canceling approved holiday leave.

31080.7.7 Institutional Leave Credit/Overtime Food Manager Responsibilities

The Correctional Food Manager/Assistant; Food Manager/Supervising Cooks are responsible for the following:

Overtime

- Scheduling daily coverage for Supervising Cooks I who call in sick or for any other unplanned absence.

31080.7.8 Institutional Leave Credit/Overtime Health Care Services Designated Supervisor Responsibilities

The Designated Supervisor at Institutional Health Care is responsible for the following:

Sick

- Taking daily sick calls from health care employees, notifying employees when a medical verification is required, and for providing daily coverage for those vacancies created by the sick call, as necessary.

Overtime

- Scheduling daily coverage for Nurses who call in sick or for any other unplanned absence. When there is no designated supervisor for Health Care Services on duty, (i.e., first watch) the Watch Office may assist in arranging coverage for MTAs and Nurses.

31080.7.9 Leave Credit/Overtime Employee Responsibilities

The employees' responsibilities are as follows:

- Submitting a completed, signed CDCR Form 998-A, Employee's Attendance Record, which accurately reflects all leave taken during the month, to the Personnel Office on or before the third working day after the end of the pay period, in which the leave was taken.
- Ensuring that he/she has sufficient accrued leave credits to cover a planned absence.

Sick

- Ensuring that all sick leave requested is necessary to provide for personal medical needs or that of a qualifying family member.
- Ensuring that all sick leave requested is for an authorized reason based on laws, (including, but not limited to, FMLA, CFRA, LC 233) policy, regulations, or collective bargaining agreements.
- Providing medical verification when instructed to do so in accordance with laws, policy, regulations, or collective bargaining agreements.

Vacation

- Submitting a vacation request each year following the established procedures for their classification and/or assignment.
- Monitoring accrued vacation/annual leave balances and ensuring that sufficient vacation time is requested so that accrued balances do not exceed established maximums.

Overtime

- Working overtime only if this is pre-approved by the designated supervisor.

Employees who have questions about leave usage may contact the Personnel Office for further information.

31080.8 Leave Scheduling

Leave scheduling shall:

- Be consistent with the needs of the work area.

- Ensure an adequate work force to maintain the security and/or operation of the work area.
- Be by seniority as defined in applicable collective bargaining agreements or DPA rules for non-represented employees.

31080.8.1 Vacation

The following process shall be followed for requesting and/or approving vacations:

Correctional Officers

The Personnel Assignment Office will publish a schedule of available vacation periods by October 1 of each year. The length of vacation periods may vary from institution to institution (e.g., one week, two weeks, or three weeks). Each institution will determine the vacation periods based on the number of Correctional Officers and the number of vacation relief positions established in the budget.

Vacation request forms will be made available to Correctional Officers by October 1 of each year, which must be completed and returned to the site designated on the form within thirty (30) days of issuance. It is the responsibility of all employees to complete and submit a vacation request form each year. Correctional Officers will make their selections on the vacation request form by numbering the periods they desire in descending priority order. For example: First choice is numbered "1," second choice is numbered "2," etc.

Each Correctional Officer will be assigned a vacation on a seniority basis as specified in Bargaining Unit 6, Collective Bargaining Agreements. The Personnel Assignment Office will assign any remaining vacation periods, without consideration of seniority, to Correctional Officers who failed to submit a vacation request form or improperly completed the form.

The approved vacation schedule will be posted by December 1 of each year. Once an employee has been given an approved vacation period, he/she may not trade that vacation period with another employee as a mutual swap.

Correctional Officers may notify the Personnel Assignment Office that they wish to cancel approved vacations by submitting a written request no less than 30 calendar days prior to the scheduled vacation. Per the collective bargaining agreements for Bargaining Unit 6, Institutional employees may cancel their vacation, but may not carry over excess vacation time which may accrue as a result of the cancellation.

After the annual vacation bidding process is completed, Correctional Officers may submit requests for additional vacations should additional vacation periods open up due to cancellations, retirements, promotions, separations, employees' transferring out of the institution, or other circumstances.

These unexpected openings are called "standby vacations."

Correctional Sergeants and Correctional Lieutenants

The Custody Captain will publish a schedule of available vacation periods for all Correctional Sergeants and Lieutenants by October 1 of each year.

Vacation request forms will be made available to Correctional Sergeants and Lieutenants by each October 1. These forms must be completed and returned to the site designated on the form within thirty (30) days of issuance. It is the responsibility of all employees to complete and submit a vacation request form each year.

Correctional Sergeants and Lieutenants who are assigned to posts for which there is no budgeted vacation relief will participate in the vacation bidding process along with all other Correctional Sergeants and Lieutenants. No later than thirty (30) days before the time of the approved vacation, if it is determined that they will still be assigned to such posts at the time of their approved vacations, those vacation periods will open up as standby vacations for other Institutional employees.

Correctional Sergeants and Lieutenants will be assigned vacations on a seniority basis. Remaining vacation periods will be assigned without consideration of seniority to Correctional Sergeants and Lieutenants who fail to submit a vacation request form or improperly complete the form. The approved vacation schedule will be posted by December 1 of each year.

Correctional Sergeants and Lieutenants may request to cancel approved vacations by submitting a written request no less than 30 days prior to the Custody Captain through the normal chain of command. Correctional Sergeants and Lieutenants projected to exceed the maximum accrual of vacation/annual leave credits in the scheduled calendar year will not be permitted to cancel vacations unless alternate vacation periods can be accommodated.

After the annual vacation bidding process is completed, Institutional employees may submit requests for additional vacations. Additional vacation periods open up due to cancellations, retirements, promotions,

separations, and/or employees' transferring out of the institution or other circumstances. These unexpected openings are called "standby vacations."

Standby Vacations For Correctional Officers, Correctional Sergeants, And Correctional Lieutenants

Standby vacations for which there are no existing bids will be offered to employees in the following priority order:

- Employees whose vacation/annual leave credits are over the established maximum limits or are projected to go over these limits by the end of the calendar year, will be so notified and required to submit a plan to reduce their credits to the designated supervisor. These employees shall have first priority for standby vacation periods with the highest priority being given to employees with the highest leave balances.
- Employees who had not been awarded vacations during the bidding process (transfers-in, employees who had not yet completed six month's of state service, employees who were off on long-term sick leave, NDI, or IDL, etc.).
- Employees who had requested additional vacations during the applicable vacation period, on seniority basis.

All Other Employees

By January 15 of each year, all employees (except Correctional Officers, Sergeants, and Lieutenants) will submit to their supervisors, in writing, their vacation requests for the remainder of that calendar year through February of the following year. On or before February 15 of each year, supervisors/managers will review the vacation requests. Vacations shall be awarded based on: operational need; the safe and/or efficient operation of the work area; and the number of employees by classification that may be on vacation at the same time in the designated work area. When the number of employees requesting vacation for a specific time exceeds the number that can be on vacation at the same time, vacations will be awarded by State service seniority. Employees will be informed of the approved vacation schedule by February 20 of each year.

An employee may submit additional requests for vacation throughout the year. These will be considered on a timely basis by the designated supervisors and granted whenever possible based on operational need and the safe and/or efficient operation of the work area.

Employees who wish to cancel scheduled vacations must notify their designated supervisors in writing no less than 30 days prior to the scheduled vacation.

By June 1 of each calendar year, represented employees whose vacation/annual leave balances exceeds or could exceed by December 31 the vacation/annual leave cap allowed by collective bargaining agreements or DPA rules, shall submit to their supervisor, for approval, a written plan to bring their vacation balance to the amount permitted prior to January 1 of the following year. If an employee fails to submit a written plan or adhere to an approved plan, the employee's supervisor shall order the employee to take sufficient vacation to reduce the actual or potential vacation balance to below the authorized cap.

If it is unavoidable that the employee cannot use the scheduled time due to emergency, sick leave, or unanticipated operational needs, the employee shall be allowed to reschedule the time to be taken off.

Employees whose vacation or annual leave balances exceed their maximum cap on January 1 may not have the excess deducted from their balances.

31080.8.2 Holiday

Refer to the collective bargaining agreement, as it shall be the controlling factor if the provisions of Government Code (GC) 19853 are in conflict.

Holidays falling on an employee's day off shall be credited to an employee pursuant to current administrative practices, collective bargaining agreement provisions, and consistent with GC 19853.

The following process shall be followed for requesting and/or approving holiday time off:

Correctional Officers

A schedule of available holiday time off for Correctional Officers shall be developed for each institution by watch, based on the number of budgeted holiday relief positions at that institution. These should be assigned proportionately among all three watches based on the number of staff assigned to each watch.

All Correctional Officers will submit requests to use holiday time off at the designated time and location, approved by the appointing authority. Generally, requests for holiday time off must be submitted no later than thirty (30) days before the time off unless otherwise specified by the Custody

Captain. Correctional Officer requests for holiday time off will be approved by the Watch Office on a first come, first served basis.

A Correctional Officer may notify the Watch Office of a desire to cancel scheduled holiday time off by submitting a written request to the Watch Office no later than 48 hours before the scheduled time off.

Correctional Sergeants/Correctional Lieutenants assigned to posts for which there is budgeted holiday relief:

A schedule of available holiday time off for Correctional Sergeants and Lieutenants assigned to posts with budgeted holiday relief will be developed for each institution/work area based on the number of budgeted relief positions for that institution/work area or the availability of appropriate coverage.

Correctional Sergeants or Lieutenants assigned to posts with budgeted holiday relief will request holiday time off from the Custody Captain through the normal chain of command. Generally, requests for holiday time off must be submitted no later than thirty (30) days before the time off. Requests for holiday time off will be approved on a first come, first served basis, for Correctional Sergeants or Lieutenants.

Correctional Sergeants/Correctional Lieutenants assigned to posts for which there is no budgeted holiday relief:

Correctional Sergeants and Lieutenants assigned to posts for which there is no budgeted holiday relief will request holiday time off from the designated supervisor.

Requests will be approved whenever possible, depending upon operational need, and the safe and efficient operation of the institution/work area.

Requests will be approved on a first come, first served basis based on available coverage and the safe and efficient operation of the institution/work area.

All other Employees

All other employees will request holiday time off from designated supervisors. All employees not in positions for which there is budgeted holiday relief will take the holidays off as they occur.

Requests will be approved whenever possible, depending upon operational need and the safe and efficient operation of the institution/work area. Requests will be approved on a first come, first served basis.

Full time employees who are required to work on a holiday shall be entitled to pay and/or compensating time off in accordance with the assigned WWG and collective bargaining agreement.

Less than full time employees will be entitled to partial holidays, holiday credit and/or compensation in accordance with the assigned WWG and collective bargaining agreement.

31080.9 Family Medical Leave Act (FMLA)/California Family Rights Act (CFRA)/Pregnancy Disability Leave (PDL)

FMLA/CFRA established an entitlement for employees who have a minimum of twelve (12) months of State service and who have physically worked a minimum of 1250 hours in the year immediately preceding the date the leave is to begin, to a job protected leave, for up to twelve (12) workweeks in a calendar year (January to December) due to any of the following reasons:

- Medical conditions relating to pregnancy or childbirth (FMLA and PDL only);
- Care of a newborn child (bonding);
- Placement of a child in the employee's home for adoption or foster care;
- Care for the employee's child, parent, or spouse with a serious health condition; and/or
- Employee's own serious health condition.

A presumption of a serious health condition exists under the definition of the FMLA after an absence of more than three consecutive days of work because the employee or employee's family member is incapacitated or the employee or the family member is hospitalized overnight. A serious health condition may also exist if the absence involves ongoing or follow-up care by a health care provider, or if a chronic medical condition is so serious that, if not treated, could reasonably be expected to result in the employee or the employee's family member being absent from work for more than three consecutive days.

An employee may elect to use any accrued leave credits in lieu of taking an unpaid leave. When FMLA is for the employee's own serious health condition, he/she must use his/her sick leave credits first before using other leave credits. The employee may choose to take unpaid leave (i.e., dock) for any approved FMLA/CFRA/PDL time usage.

The employee will not be required to use sick leave credits when caring for a family member with a serious health condition. The use of other leave credits for such an absence shall be at the employee's discretion. However, sick leave credits cannot be used during baby bonding.

Pregnancy Disability Leave is part of California's Fair Employment and Housing Act (FEHA). It entitles a female employee to four months (17-1/3 weeks) of leave while disabled by pregnancy-related medical conditions. The employee's benefits will be covered for up to four months. PDL runs concurrently with FMLA but not CFRA. The requirements for PDL are: (1) being a pregnant female, and (2) employed by the State for one day. Qualifying events for PDL:

- Prenatal visits and care
- Severe morning sickness
- Any pregnancy-related disability
- Bed rest ordered by the doctor
- Child birth and recovery from child birth
- Employee is unable to perform one or more essential functions of her job due to pregnancy or pregnancy-related conditions

Time taken for a pregnancy, or a pregnancy-related condition, does not count toward the twelve (12) workweek CFRA entitlement, however, such a leave would be protected by the PDL provisions of the FEHA. Approval to use leave credits for childbirth, placement of a child in the employee's home for adoption or foster care, or to care for a child, parent, or spouse with a serious health condition is subject to the provisions of collective bargaining agreements, California Human Resources (CalHR) rule, and Labor Code, Section 233.

When provided with sufficient information of an employee's need for leave, the supervisor must either have the employee complete form CDCR 3051 Employee Request for FMLA/CFRA/PDL, or complete the form on the employee's behalf if the employee is unable to do so. If the employee is absent for more than three (3) consecutive days of work, a completed CDCR 3051 should be sent to the FMLA Coordinator. This CDCR 3051 should be completed immediately as the employee must be notified of his/her eligibility for FMLA/CFRA within five (5) business days. The supervisor is responsible for making sure the FMLA Coordinator has been notified of the employee's need for FMLA/CFRA.

If the request for use of FMLA/CFRA appears to meet the qualifying criteria and the employee is eligible for FMLA/CFRA/PDL leave, the employee is to be provided with the appropriate health care certification form, CDCR 2201 Certification of Health Care Provider or the CDCR 3052 Certification of Health Care Provider for Employee's Pregnancy Disability Leave, to forward to the treating health care provider and allowed a minimum of fifteen (15) calendar days to provide the health care certification to the Personnel Office. The employer **cannot require** the employee or health care provider to indicate a specific diagnosis of the condition necessitating the leave. The treating health care provider will determine, based on an evaluation, if the employee (or the employee's family member) has a health condition that qualifies as "serious" under the definition of the FMLA/CFRA/PDL.

An employee who has a chronic, documented health condition that necessitates being absent on an intermittent basis, can only be required to furnish a health care certification no more frequently than every thirty (30) days, and then only in conjunction with an FMLA/CFRA/PDL absence. In all cases, the requirement to furnish a health care certification can be no more restrictive than that outlined in the applicable collective bargaining agreements. All CDCR employees shall recertify every calendar year, in January, if they have submitted their health care certification prior to July 1st of the previous year and have taken FMLA/CFRA/PDL leave.

Absences which qualify for leave taken under the provisions of FMLA/CFRA/PDL, will not be counted against an employee for purposes of determining excessive sick leave use/abuse or when considering the employee for promotion, out of class assignment, or used as a basis for adverse actions.

When an employee is grossly exceeding the frequency and duration of leave he/she are approved for under FMLA/CFRA/PDL, his/her supervisor may request a recertification packet be sent to the employee. A recertification request should not be sent to an employee for using just one more day of leave than had been previously approved.

Example: Approval of 1-2 days per month. Employee uses 4-6 days per month. This increase in leave usage is a valid reason to request a recertification.

Additional details for processing FMLA are included in the CDCR Family and Medical Leave Handbook. Each Personnel Officer, Employee Relations Officer, and Return to Work Coordinator has copies of this handbook.

31080.10 California Labor Code (LC) Section 233

Under LC 233 an employee shall be permitted to use, in any calendar year, not less than one half of one year's accrual of the employee's accrued and available sick leave to attend to the illness of a child, parent, or spouse of the employee.

The employee is protected from discipline of discrimination for using sick leave for these purposes under this Labor Code.

31080.11 Revisions

The Deputy Director, Human Resources, shall ensure that the content of this Article is accurate and current.

ARTICLE 9 — EMPLOYEE DEATH

Revised October 10, 2013

31090.1 Policy

The Department shall provide for the compassionate and timely response to an employee death, and shall always attempt to adhere to the wishes of the survivors.

31090.2 Purpose

The purpose of this Section is to ensure the efficient, expeditious, and compassionate manner in which an employee death is handled and to clarify the protocol, obligations, and human side of CDCR's policy to the employee's survivors.

31090.3 Disclaimer

If provisions in this Section conflict with any statute or MOU, the statute or MOU shall prevail as it relates to the specific represented group. Any exceptions to this policy will be considered at the Deputy Director level of Human Resources.

31090.4 Definitions**Active Employee**

Means an employee of CDCR who is not retired or otherwise transferred or separated from CDCR employment.

CDCR Representative

Means the employee designated by the hiring authority to represent CDCR to the deceased employee's family. The representative will usually be an administrator from Division of Adult Institutions (DAI), Division of Juvenile Justice (DJJ), Division of Adult Parole Operations (DAPO), or Administrative Programs who will exemplify CDCR's compassion, sympathy and concern for the survivor's situation and who is familiar with the contents of this Section.

Family

Means, solely for the purpose of this Section, the spouse and other immediate family members who are beneficiaries of the deceased employee.

Hiring Authority

Means the Warden, Regional Parole Administrator, Superintendent, Director, Deputy Director or Associate Director, etc., for whom an employee works.

In-The-Line-Of-Duty Death

Means when an employee (peace officer or non custody staff) carrying out his/her duties dies as a result of an unlawful act of an inmate or parolee, or responding to an inmate or parolee incident.

Off-Duty Death

Means when an employee (peace officer or non custody staff) dies while not on duty. This includes when an off-duty employee is on CDCR grounds, or is traveling on official state business. An exception is when an off-duty peace officer dies while acting in an official law enforcement capacity (as determined by CDCR, after a thorough evaluation of the facts surrounding the death).

When there is a question whether an employee's death is in-the-line-of-duty or on-duty, the Secretary will make the final determination.

An employee who dies while en route to or from work is an off-duty death.

On-Duty Death

Means when an employee (peace officer or non custody staff) dies while at work, but not as a result of an unlawful act of an inmate or parolee, or responding to an incident. Typically, these deaths would be of an accidental nature, health-related (the result of an illness or other health condition) or result from natural causes.

Special Circumstances

Means those circumstances surrounding the death of an employee, which would reasonably lead one to believe that media attention may be focused on CDCR, or that person's employment with CDCR (e.g., an employee who is murdered while attempting to prevent a robbery in progress).

31090.5 In-The-Line-Of-Duty Death

Upon notification of an employee's death the hiring authority shall establish a team of staff to deal with the variety of associated tasks. This team may include the deceased employee's immediate supervisor, a member of the Peer Support Program (PSP), a personnel transaction representative and other members as determined by the hiring authority or his/her designee.

The PSP shall be activated in accordance with DOM 31040.3.2. Members of the PSP team can assist the hiring authority with the policies in this article.

Notification of Family

Whenever possible, a CDCR management representative and/or the employee's supervisor shall, in-person, notify the family of the employee's death. If appropriate, a co-worker close to the deceased and a PSP chaplain may also be present.

The CDCR representative shall:

- Ask to enter the residence and inform the family in a plain and concise manner; express condolences; and provide pertinent information regarding the circumstances surrounding the death. Any questions by the family may be addressed at this time. If this notification is to be made at a family member's place of work, a private area should be arranged in advance by the CDCR representative at an appropriate time.
- Discuss with the family CDCR's involvement with funeral arrangements. The family will determine the level of CDCR's participation in the funeral. The CDCR representative will offer the Department's assistance to the family in making funeral arrangements.
- If the deceased was a correctional peace officer, inform the family of funeral arrangement options for peace officers.
- Discuss available resources, services, and benefits, e.g. Employee Assistance Program (EAP), Correctional Peace Officers Foundation (CPOF), etc.
- Determine with the family if arrangements should be made for someone to remain with the family until relieved by another family member or friends.
- At the family's request, assist in arranging for child care with a provider who is acceptable to the family.
- If the family requests assistance to be isolated from the media and the public, staff may be assigned to screen telephone calls.
- As appropriate and necessary, arrange for police protection for the family.
- Arrange with the family an appropriate time to discuss all other pertinent matters.

Hospital Attendance

If the employee dies in a hospital and the family requests, the CDCR representative shall transport or arrange for transportation of the family to the hospital and provide support. The CDCR representative will coordinate with medical personnel to provide the family with information regarding the death. The hospital's Patient Services Coordinator will be asked to designate a private waiting area for the family. It is important for the family to be given as much information as possible regarding the death to prevent misinformation.

Notification Of Secretary

The employee's death shall be reported to the Chief, Office of Personnel Services (OPS). The following information shall be provided:

- Employee's name
- Civil service classification
- Work location

- Total State and CDCR service
- Date of birth
- Date of death
- Cause of death
- Death category (in-the-line-of-duty; on-duty; or off-duty)
- Next-of-kin
- Relationship
- Next-of-kin's address

The Chief, OPS, shall be responsible for ensuring that the Secretary is notified as soon as practical.

Notification of Governor

The death of an active employee shall be reported to the Governor's Office by the Chief, OPS.

In addition, for employee deaths occurring under special circumstances, the Secretary may advise the Governor's Office.

Letter of Condolence - Hiring Authority

The hiring authority shall send a letter of condolence to the family.

Letter of Condolence - Secretary

In addition to the letter of condolence from the hiring authority, the Chief, OPS, shall prepare a letter of condolence to the family for the Secretary's signature.

Workers' Compensation Analyst/Return to Work Coordinator

The Health and Safety Officer, the field/institution return-to-work coordinator, or Headquarters (HQ), Office of Legal Affairs (OLA), and Workers' Compensation (WC) Unit shall work with the OPS or the local personnel officer to ensure all pertinent information is provided to the family regarding workers' compensation benefits.

This shall include:

- Coordinating the completion and submission of Employee's Report of Occupational Injury or Illness (SCIF Form 3067) and Employee's Claim for Workers' Compensation Benefits (SCIF Form 3301) to the appropriate SCIF office.
- Notifying the California Department of Industrial Relations (DIR), Division of Workers' Compensation, of the employee's death and completing DIR Form 510, Notice of Employee Death. The completed form shall be forwarded to DIR, Death Without Dependents, P.O. Box 422400, San Francisco, California 94142.
- Immediately notifying the nearest district office of the Division of Occupational Safety and Health Administration of the employee's death, but no later than 8 hours after the formal notification of death. Notification information shall include:
 - Time and date of accident.
 - Employer's name, address, and telephone number.
 - Name and job title of person reporting the accident.
 - Address of the site of the accident or event.
 - Name and address of employee.
 - Nature of injury.
 - Location where injured or deceased employee was moved.
 - Identify and list other law enforcement agencies present at site of accident.
 - Description of accident and whether the accident scene has been preserved or altered.
 - Information regarding the benefits available from the EAP program shall be provided to the family.

Displaying the Flag

The State flag at headquarters and at each facility shall be displayed at half-mast from the time of notification of death until immediately after the employee's funeral (DOM 51090.16).

Draped Badges

Upon notification of the death of an employee and until immediately after the funeral, each hiring authority may authorize his/her peace officer staff to wear their badges draped pursuant to the Department Operations Manual (DOM) Section 33020.

Funeral Arrangements

As determined by the family, CDCR may or may not have some level of participation in an employee's funeral. Each employee's death will be handled on a case-by-case basis.

The CDCR shall inform outside law enforcement agencies of pending funeral services and communicate the wishes of the family. The Office of Public and Employee Communications and or field PIO shall inform the media and communicate the wishes of the family.

The CDCR participation in a funeral may include any one or more of the following:

- Uniformed honor guard.
- Pallbearers.
- Attendance by CDCR employees.

If CDCR is to participate in the funeral, staff shall coordinate as needed with the funeral director.

Funeral Attendance

Department representation at the funeral services of any employee who dies in-the-line-of-duty is desirable.

Staff may attend an employee's funeral on State time with authorization of the hiring authority. The number of employees permitted to attend the funeral shall be governed by CDCR's needs as determined by the hiring authority.

When the funeral is beyond the immediate geographic area, the hiring authority may approve attendance on State time, using a State vehicle.

Funeral Uniform

When uniform staff who are not participating as the honor guard attend the funeral of a CDCR or other law enforcement agency employee in an official capacity, the CDCR Class "A" uniform shall be worn including the draped departmental regulation badge. The DOM Section 33020 describes how the departmental regulation badge shall be draped and the Class "A" and honor guard uniforms.

Overtime And Travel Expenses

Claims for overtime and/or travel expenses to attend the funeral of an employee who died in-the-line-of-duty shall be pre-authorized in writing by the requesting employee's hiring authority. The employee may then submit the Request for Travel/Relocation Advance (CDCR Form 1082) and/or Authorization for Extra Hours (STD 682).

Family Liaison

The hiring authority shall designate a staff person to act as liaison to the family. This may be the CDCR representative or another staff member who shall discuss with the family benefits, collection of state-issued property, and return of personal effects.

Personnel Office Responsibilities

Personnel staff are responsible for the following:

- Reviewing the employee's official personnel file and other employment records to determine final pay and benefits for which beneficiaries are eligible.
- Meet personally with family to discuss information regarding appropriate benefits and final pay.
- Notify the following of the employee's death:
 - Chief, OPS.
 - Chief, Office of Employee Wellness.
 - PERS.
 - SCO.
 - CalHR, Savings Plus Program office (if applicable).
 - CPOF – Custody Staff (if peace officer).
 - Appropriate employee union or associations, insurance companies, or credit unions (if applicable).
- Process final pay and other appropriate disbursements or collections (e.g., outstanding accounts receivable, salary or travel advances, or garnishments); and release any warrants in accordance with the provisions of SAM §8477.25.
- Provide the family with a listing of the deceased's payroll deductions and contacts for benefits, which may include the following:
 - Basic benefits.
 - Social security benefits.
 - Savings bonds.
 - Deferred compensation.

- Tax-sheltered annuities.
- Life insurance.
- Health, dental, and vision.
- Special benefits (depending upon the employee's retirement category and nature of death).
- Retirement benefits for State Peace Officers/Firefighters, Safety, Industrial, or Miscellaneous members of the PERS including burial expenses.
- Workers' compensation benefits.
- United States Department of Justice death benefits.

31090.6 On-Duty Death

Upon notification of an employee's death the hiring authority shall establish a team of staff to deal with the variety of associated tasks. This team may include the deceased employee's immediate supervisor, a member of the PSP, a personnel transaction representative, and other members as determined by the hiring authority or his/her designee.

The PSP shall be activated in accordance with DOM 31040.3.2. Members of the PSP team can assist the hiring authority with the policies in this article.

Notification of Family

Whenever possible, a CDCR management representative and/or the employee's supervisor shall, in-person, notify the family of the employee's death. If appropriate, a co-worker close to the deceased and a PSP chaplain may also be present.

The CDCR representative shall:

- Ask to enter the residence and inform the family in a plain and concise manner; express condolences; and provide pertinent information regarding the circumstances surrounding the death. Any questions by the family may be addressed at this time. If this notification is to be made at a family member's place of work, a private area should be arranged in advance by the CDCR representative at an appropriate time.
- Discuss with the family CDCR's involvement with funeral arrangements. The family will determine the level of CDCR's participation in the funeral. The CDCR representative will offer the Department's assistance to the family in making funeral arrangements.
- If the deceased was a correctional peace officer, inform the family of funeral arrangement options for peace officers.
- Discuss available resources, services, and benefits, e.g. EAP, CPOF, etc.
- Determine with the family if arrangements should be made for someone to remain with the family until relieved by another family member or friends.
- At the family's request, assist in arranging for child care with a provider who is acceptable to the family.
- If the family requests assistance to be isolated from the media and the public, staff may be assigned to screen telephone calls.
- As appropriate and necessary, arrange for police protection for the family.
- Arrange with the family an appropriate time to discuss all other pertinent matters.

Hospital Attendance

If the employee dies in a hospital and the family requests, the CDCR representative shall transport or arrange for transportation of the family to the hospital and provide support. The CDCR representative will coordinate with medical personnel to provide the family with information regarding the death. The hospital's Patient Services Coordinator will be asked to designate a private waiting area for the family. It is important for the family to be given as much information as possible regarding the death to prevent misinformation.

Notification of Secretary

The employee's death shall be reported to the Chief, OPS. The following information shall be provided:

- Employee's name.
- Civil service classification.
- Work location.
- Total State and CDCR service.
- Date of birth.

- Date of death.
- Cause of death.
- Death category (in-the-line-of-duty, on-duty; or off-duty).
- Next-of-kin.
- Relationship.
- Next-of-kin's address.

The Chief, OPS, shall be responsible for ensuring that the Secretary is notified as soon as practical.

Notification of Governor

The death of an active employee shall be reported to the Governor's Office by the Chief, OPS.

In addition, for employee deaths occurring under special circumstances, the Secretary may advise the Governor's Office.

Letter of Condolence - Hiring Authority

The hiring authority shall send a letter of condolence to the family.

Letter of Condolence - Secretary

In addition to the letter of condolence from the hiring authority, the Chief, OPS, shall prepare a letter of condolence to the family for the Secretary's signature.

Workers' Compensation Analyst/Return to Work Coordinator

The Health and Safety Officer or the field/institution return-to-work coordinator, HQS, OLA, WC Unit shall work with the OPS or the local personnel officer to ensure all pertinent information is provided to the family regarding workers' compensation benefits. This shall include:

- Coordinating the completion and submission of SCIF Form 3067, and SCIF Form 3301, to the appropriate SCIF office.
- Notifying the DIR, Division of Workers' Compensation, of the employee's death and completing DIR Form 510. The completed form shall be forwarded to DIR, Death Without Dependents, P.O. Box 422400, San Francisco, California 94142.
- Immediately notifying the nearest district office of the Division of Occupational Safety and Health Administration of the employee's death, but no later than 8 hours after the formal notification of death. Notification information shall include:
 - Time and date of accident.
 - Employer's name, address, and telephone number.
 - Name and job title of person reporting the accident.
 - Address of the site of the accident or event.
 - Name and address of employee.
 - Nature of injury.
 - Location where injured or deceased employee was moved.
 - Identify and list other law enforcement agencies present at site of accident.
 - Description of accident and whether the accident scene has been preserved or altered.

Displaying the Flag

For institution employees who die while on duty, the Governor shall determine if it is appropriate to have the State flag flown at half-mast on the day of the funeral (DOM 51090.16).

Draped Badges

Upon notification of the death of an employee and until immediately after the funeral, each hiring authority may authorize his/her peace officer staff to wear their badges draped pursuant to DOM §33020.

Funeral Arrangements

If requested by the family, CDCR may provide assistance in making funeral arrangements.

Funeral Attendance

Department representation at the funeral services of any employee who dies on duty is desirable.

Staff may attend an employee's funeral on state time with authorization of the hiring authority. The number of employees permitted to attend the funeral shall be governed by CDCR's needs as determined by the hiring authority.

When the funeral is beyond the immediate geographic area, the hiring authority may approve attendance on state time, using a state vehicle.

Funeral Uniform

When uniform staff who are not participating as the honor guard attend the funeral of a CDCR or other law enforcement agency employee in an official capacity, the CDCR Class "A" uniform shall be worn, including the draped departmental regulation badge. The DOM §33020 describes how the departmental regulation badge shall be draped and the Class "A" uniform.

Overtime And Travel Expenses

Claims for overtime and/or travel expenses to attend the funeral of an employee who died on duty shall be pre-authorized in writing by the requesting employee's hiring authority. The employee may then submit a CDCR 1082 and/or a STD 682.

Family Liaison

The hiring authority shall designate a staff person to act as liaison to the family. This may be the CDCR representative or another staff member who shall discuss with the family benefits, collection of state-issued property, and return of personal effects.

Personnel Office Responsibilities

Personnel staff are responsible for the following:

- Reviewing the employee's official personnel file and other employment records to determine final pay and benefits for which beneficiaries are eligible.
- Meet personally with family to discuss information regarding appropriate benefits and final pay.
- Notify the following of the employee's death:
 - Chief, OPS.
 - Chief, OEW.
 - PERS.
 - SCO.
 - CalHR, Savings Plus Program office (if applicable).
 - Appropriate employee union or associations, insurance companies, or credit unions (if applicable).
 - CPOF – Custody Staff (if peace officer).
- Process final pay and other appropriate disbursements or collections (e.g., outstanding accounts receivable, salary or travel advances, or garnishments); and release any warrants in accordance with the provisions of SAM §8477.25.
- Provide the family with a listing of the deceased's payroll deductions and contacts for benefits, which may include the following:
 - Basic benefits.
 - Social security benefits.
 - Savings bonds.
 - Deferred compensation.
 - Tax-sheltered annuities.
 - Life insurance.
 - Health, dental, and vision.
 - Special benefits (depending upon the employee's retirement category and nature of death).
 - Retirement benefits for State Peace Officers/Firefighters, Safety, Industrial, or Miscellaneous members of the PERS including burial expenses.
 - Workers' compensation benefits.
 - United States Department of Justice death benefits.

31090.7 Off-Duty Death

The CDCR may assist the family in obtaining appropriate state benefits and may offer assistance to family members in making funeral arrangements, if requested.

Upon notification of an employee's death the hiring authority shall establish a team of staff to deal with the variety of associated tasks. This team may include the deceased employee's immediate supervisor, a member of the PSP team, a personnel transaction representative, and other members as determined by the hiring authority or his/her designee.

The PSP shall be activated in accordance with DOM 31040.3.2. Members of the PSP team can assist the hiring authority with the policies in this article.

Notification of Family

If CDCR is the first to have confirmed knowledge of an employee's off-duty death, whenever possible, a CDCR management representative and/or the

employee's supervisor shall, in-person, notify the family of the employee's death. If appropriate, a co-worker close to the deceased and a PSP chaplain may also be present. The CDCR representative shall:

- Ask to enter the residence and inform the family in a plain and concise manner; express condolences; and provide pertinent information regarding the circumstances surrounding the death. Any questions by the family may be addressed at this time. If this notification is to be made at a family member's place of work, a private area should be arranged in advance by the CDCR representative at an appropriate time.
- Discuss with the family CDCR's involvement with funeral arrangements. The family will determine the level of CDCR's participation in the funeral. The CDCR representative will offer the Department's assistance to the family in making funeral arrangements.
- If the deceased was a correctional peace officer, inform the family of funeral arrangement options for peace officers.
- Discuss available resources, services, and benefits, e.g. EAP, CPOF, etc.
- Determine with the family if arrangements should be made for someone to remain with the family until relieved by another family member or friends.
- At the family's request, assist in arranging for child care with a provider who is acceptable to the family.
- If the family requests assistance to be isolated from the media and the public, staff may be assigned to screen telephone calls.
- As appropriate and necessary, arrange for police protection for the family.
- Arrange with the family an appropriate time to discuss all other pertinent matters.

Notification of Secretary

The employee's death shall be reported to the Chief, OPS. The following information shall be provided:

- Employee's name.
- Civil service classification.
- Work location.
- Total State and CDCR service.
- Date of birth.
- Date of death.
- Cause of death.
- Death category (in-the-line-of-duty; on-duty; or off-duty).
- Next-of-kin.
- Relationship.
- Next-of-kin's address.

The Chief, OPS, shall be responsible for ensuring that the Secretary is notified as soon as practical.

Notification of Governor

If an active employee's off-duty death occurs under special circumstances, the Secretary may advise the Governor's Office.

Letter of Condolence - Hiring Authority

The hiring authority shall send a letter of condolence to the family.

Letter of Condolence - Secretary

In addition to the letter of condolence from the hiring authority, the Chief of OPS shall prepare a letter of condolence to the family for the Secretary's signature.

Funeral Arrangements

If requested by the family, CDCR may provide assistance in making funeral arrangements.

Funeral Attendance

Department representation at the funeral services of any employee who dies off-duty is desirable.

Staff may attend an employee's funeral on state time with authorization of the hiring authority. The number of employees permitted to attend the funeral shall be governed by CDCR's needs as determined by the hiring authority.

When the funeral is beyond the immediate geographic area, the hiring authority may approve attendance on state time, using a state vehicle.

Funeral Uniform

When uniform staff who are not participating as the honor guard attend the funeral of a CDCR or other law enforcement agency employee in an official capacity, the CDCR Class "A" uniform shall be worn, including the draped departmental regulation badge. The DOM §33020 describes how the departmental regulation badge shall be draped and the Class "A" uniform.

Overtime And Travel Expenses

Claims for overtime and/or travel expenses to attend the funeral of an employee who died off-duty are not authorized.

Family Liaison

The hiring authority shall designate a staff person to act as liaison to the family. This may be the CDCR representative or another staff member who shall discuss with the family benefits, collection of state-issued property, and return of personal effects.

Personnel Office Responsibilities

Personnel staff are responsible for the following:

- Reviewing the employee's official personnel file and other employment records to determine final pay and benefits for which beneficiaries are eligible.
- Meet personally with family to discuss information regarding appropriate benefits and final pay.
- Notify the following of the employee's death:
 - Chief, OPS.
 - Chief, OEW.
 - PERS.
 - SCO.
 - CalHR, Savings Plus Program office (if applicable).
 - Appropriate employee union or associations, insurance companies, or credit unions (if applicable).
 - CPOF – Custody Staff (if peace officer).
- Process final pay and other appropriate disbursements or collections (e.g., outstanding accounts receivable, salary or travel advances, or garnishments); and release any warrants in accordance with the provisions of SAM §8477.25.
- Provide the family with a listing of the deceased's payroll deductions and contacts for benefits, which may include the following:
 - Basic benefits.
 - Social security benefits.
 - Savings bonds.
 - Deferred compensation.
 - Tax-sheltered annuities.
 - Life insurance.
 - Health, dental and vision.
 - Special benefits (depending upon the employee's retirement category and nature of death).
 - Retirement benefits for State Peace Officers/Firefighters, Safety, Industrial, or Miscellaneous members of the PERS including burial expenses.
 - Workers' compensation benefits.
 - United States Department of Justice death benefits.

Reference the appropriate Memorandum of Understanding (MOU) for any other benefits.

31090.8 Death While Traveling On Official State Business

If an employee dies while traveling on official state business, reimbursement may be claimed for actual and reasonable expenses incurred in returning the deceased to his/her place of burial or his/her assigned office/institution, whichever is less. Reimbursement shall be in accordance with the provisions of §599.636 (for represented employees) or 599.636.1 (for excluded employees) of the CalHR regulations.

31090.9 Attendance at Funeral Of Retired Department Of Corrections Employee

Staff may attend a retired employee's funeral on State time with the prior authorization of the hiring authority. The number of employees permitted to attend the funeral shall be governed by CDCR's needs. Claims for overtime and/or travel expenses are not authorized.

31090.10 Attendance at Funeral Of Outside Law Enforcement Or Public Official:

Staff may attend on State time, and with the use of a State vehicle, the funeral of a public official or law enforcement official from an outside agency with the advance authorization of the hiring authority. Prior approval of the hiring authority is also required for any claims of overtime and/or travel expenses.

31090.11 Attendance at Funeral of a Co-Worker's Family Member

Staff who wishes to attend the funeral of a co-worker's relative may do so with the prior approval of their supervisor, on a case-by-case basis. Claims for overtime and/or any expenses are not authorized.

31090.12 When an Employee's Death Is Imminent

If any active employee has five or more years of state service or qualifies for retirement and his/her death is imminent, personnel staff shall contact PERS Benefits Services Division, Office of the Ombudsman, immediately. The PERS staff will expedite the retirement processing and explain the best options to the family.

31090.13 Return of Personal Property

The CDCR representative shall be responsible for ensuring the return of all personal property to the survivors. The deceased employee's desk, locker, bulletin boards, office space, and other appropriate areas should be inspected for any personal items. The CDCR representative shall discuss with the hiring authority the appropriate disposition of any material that may be embarrassing or painful to the family.

31090.14 Return of State-Issued Property

The CDCR representative shall be responsible for the collection and inventory of the deceased employee's state-issued property. Permission shall be obtained from the family to remove State-issued property from the deceased's residence. If the deceased lived alone, the person identified on the Emergency Notification Form shall be contacted to obtain permission to remove state property from the deceased employee's residence.

If the family refuses to relinquish state property, the hiring authority shall determine appropriate recovery efforts.

31090.15 Long Term Family Support

The responsibility of CDCR to the family does not end at the funeral. CDCR staff shall remain sensitive to the needs of the family and provide necessary follow-up and long term support. OEW offers the PSP team of trained staff to help families through traumatic events that have taken place at work.

ARTICLE 10 — CONFLICT OF INTEREST

Revised July 12, 2013

31100.1 Policy

Employees and appointed officials of the Department, California Prison Industry Authority (CALPIA), Prison Industry Board (PIB), Board of Parole Hearings (BPH), and Division of Juvenile Justice shall neither make nor participate in making governmental decisions which may affect their own economic interests.

31100.2 Purpose

This section specifies the requirements and categories for disclosure of economic interests and identifies those positions within the Department, CALPIA, and PIB, which are subject to the disclosure requirements.

31100.3 Responsibility

Incumbents of designated positions, based on the assigned category, shall complete and file with their local personnel office a Statement of Economic Interest, Form 700.

The local personnel office shall forward these forms to the Filing Officer - the Deputy Director, Human Resources (HR).

The Filing Officer or designee shall:

- After retaining a copy, forward the original statements of the following persons to the Fair Political Practices Commission:
- California Department of Corrections and Rehabilitation Secretary.
- Members of boards and commissions, BPH, State Commission of Juvenile Justice, and Juvenile Parole Board.
- PIB members.
- Retain the original statements of all other employees for public inspection.

31100.4 Submittal of Statement of Economic Interest

All incumbents of current designated positions shall file annual statements no later than April 1 each year for the preceding calendar year.

Incumbents of positions which become designated by an amendment of the Conflict of Interest Code shall file initial statements within 30 days after the effective date of the amendment.

Persons who are appointed (from an open or promotional employment list or by transfer, reinstatement, demotion, or any other means) to designated positions shall file assuming office statements as follows:

- Within 30 days of the date of nomination or effective date of appointment if subject to State Senate confirmation; or
- Within 30 days of the effective date of appointment to any other designated position.
- Filing deadlines for filers under active military duty - if a person is under active military duty as defined in the Service Member's Civil Relief Act, the deadline for the annual Form 700 is 30 days following his/her return to office. The individual or his/her representative must notify the filing officer in writing prior to the filing deadline that he/she is subject to the federal statute and is unable to meet the applicable deadline, and provide the filing officer verification of his/her military status.

Leaving Office Statement

Each person who leaves a designated position shall file a leaving office statement within 30 days after leaving.

31100.5 Disqualification

Self-Disqualification

No designated employee shall make, participate in making, or in any way attempt to use his or her official position to influence the making of any governmental decision which he or she knows or has reason to know will have a reasonably foreseeable material financial effect, distinguishable from its effect on the public generally, on the official or a member of his or her immediate family or on:

- Any business entity in which the designated employee has a direct or indirect investment worth \$2,000 or more;

- Any real property in which the designated employee has a direct or indirect interest worth \$2,000 or more;
- Any source of income, other than gifts and other than loans by a commercial lending institution in the regular course of business on terms available to the public without regard to official status, aggregating \$500 or more in value provided to, received by or promised to the designated employee within 12 months prior to the time when the decision is made;
- Any business entity in which the designated employee is a director, officer, partner, trustee, employee, or holds any position of management; or
- Any donor of, or any intermediary or agent for a donor of, a gift or gifts aggregating \$440 or more provided to, received by, or promised to the designated employee within 12 months prior to the time when the decision is made.

Exception

No person in a designated position shall be prevented from making or participating in any decision if the participation is legally required for the decision to be made. The fact that the vote of a person who is on a voting body is needed to break a tie does not make the participation legally required for purposes of this section.

31100.6 Manner of Disqualification

In the case of a person who is the head of an agency, this determination and disclosure shall be made in writing to the appointing authority. When a person in a designated position determines that he or she should not make a governmental decision because of an economic interest, the determination not to act shall be accompanied by disclosure of the economic interest.

Head of Agency Board/Commission Members

If the person is a board or commission member, the determination and disclosure shall be entered into the official record at the meeting during which consideration of the decision takes place.

Other Persons

In the case of other persons, this determination and disclosure shall be made in writing to the person's supervisor.

- Upon receipt of the determination and disclosure, the supervisor shall immediately reassign the matter to another person.
- After reassignment of the matter, the supervisor shall forward the determination and disclosure with a notation of the reassignment to the local personnel office for forwarding to the Filing Officer.

31100.7 Revisions

The Deputy Director, HR shall ensure that the content of this section is accurate and current.

ARTICLE 11 — SMOKING – NONSMOKING AND TOBACCO

Revised August 22, 2005

31110.1 Policy

To provide a healthful, comfortable, and productive work environment for employees, the Governor of the State of California has prohibited cigarette, cigar, and pipe smoking in all State-owned, leased, or occupied buildings. In addition, the Secretary, under the authority of Penal Code § 5030 and 5058, has prohibited the use and possession of all tobacco products at all institutions and facilities that house or detain inmates, with the exception of residential staff housing when inmates are not present. Employees shall not use or possess tobacco products in the presence of inmates. Tobacco products for personal use off institution/facility grounds shall be secured in a locked private vehicle. Smoking is also prohibited in all State passenger vehicles and any other mobile-enclosed equipment. Tobacco product advertising is not allowed inside any State-owned or occupied building unless it is contained in a program, leaflet, newspaper, magazine, or other written material lawfully sold, brought, or distributed within a State building. Posting of any tobacco product or smoking advertisement is prohibited (posters, signs, written, or visual material). Smoking is not allowed within 20 feet of a main entrance, exit, or operative window of a public building.

31110.2 Purpose

This Article designates the Department's responsibilities in providing a smoke-free environment for all employees.

Collective Bargaining Disclaimer

If any non-statutory provision of this Article conflicts with collective bargaining agreements, the collective bargaining agreement shall prevail as it relates to the specific represented group unless legal exceptions or required legislative action apply.

31110.3 Responsibility

All employees shall:

- Adhere to and enforce this Policy.
- Attempt to resolve disagreements informally.
- Bring to the attention of the appropriate supervisor any conflicts which cannot be resolved informally.

All supervisors shall ensure that:

- No smoking occurs in a State-owned, leased, or occupied building.
- No smoking is allowed within 20 feet of a main entrance or exit or operative window of a building.
- No smoking occurs in any State-owned passenger vehicle. Smoking is also prohibited in all other State-owned mobile equipment including light and heavy trucks, cargo and passenger vans, buses, and any other mobile equipment with an enclosed drive/passenger compartment.
- No smoking or tobacco possession occurs at any institution/facility that houses or detains inmates except for residential staff housing when inmates are not present. Employees shall not use or possess tobacco products in the presence of inmates.

Staff possession or use of smoking or tobacco products, as defined in this Policy, shall be subject to the progressive disciplinary process. Any staff involved with the distribution of smoking or tobacco related products, as defined in this Policy, for an inmate and/or for personal gain, shall be subject to adverse action as defined in Department Operations Manual, Chapter 3, Article 22, Adverse Personnel Actions.

Hiring authorities shall establish local smoking and tobacco policies, which are consistent with the provisions of this Section and the Governor's Executive Order W-42-93, Government Code (GC) sections 7596 through 7598, 19994.30 through 19994.35, and Section 5030.1 of the Penal Code.

31110.4 Definition

Smoke or smoking means inhaling, exhaling, burning, or carrying any lighted cigarette, cigar, pipe, or smoking paraphernalia used for consuming the smoke of tobacco or any other burning product.

Tobacco product means any product that contains tobacco, the prepared leaves of any plant belonging to the nicotiana family, which shall include, but not be limited to, cigarettes, loose tobacco, cigars, snuff, chewing tobacco, or any other preparation of tobacco, tobacco substitutes, smoking paraphernalia, and all other items developed or processed for the primary purpose of facilitating the use or possession of tobacco or tobacco related products as well as packaging material. Packaging material includes, but is not limited to, snuff or cigarette containers.

31110.5 Smoke Breaks

Time taken away from an employee's work station shall not exceed the total time an employee is otherwise authorized to take for rest periods. Smoke breaks are in lieu of regular breaks or rest periods and shall be permitted at the discretion of the supervisor.

31110.6 Smoking and Tobacco Areas

Revised March 22, 2012

Smoking areas shall be designated for the purpose of departmentally approved inmate religious ceremonies by the respective facility head. Smoking and tobacco use are permitted in state-owned housing serving as the primary residence for State employees when inmates are not present. Smoking and tobacco use in temporary residential space at correctional training academies and in Staff Quarters at conservation camps will be permitted only in designated areas with designated times to be determined by local operational procedures.

31110.7 Nonsmoking and Non-Tobacco Areas

Signs shall be posted at entrances of all areas designated "no smoking" or "no tobacco products use or possession," along with a citation of the authority requiring such prohibition.

No person shall smoke in any building, areas of any building, or group of buildings owned, leased, or utilized by the Department, with the exception of

state-owned housing serving as the primary residence for State employees, when inmates are not present. This shall include, but is not limited to, institutions, facilities, conservation camps, community correctional, reentry, furlough and restitution centers, and family visiting units.

Smoking or tobacco possession is prohibited at any institution/facility that houses or detains inmates except for residential staff housing when inmates are not present.

31110.8 Smoking/Tobacco Cessation Assistance

The Department urges smokers to contact the local chapter of any not-for-profit smoking cessation organization such as the American Lung Association for more information about smoking and tobacco cessation programs. These programs provide for a supportive environment in which employees can quit smoking and tobacco use through education.

The Department's Office of Risk Management shall periodically distribute helpful literature for those interested in such programs. Additional information can be obtained from the local and/or departmental Employee Assistance Program Coordinator, Headquarters.

311108.1 Training

The Department may offer smoking and tobacco cessation programs using existing employee training funds for presentation during normal working hours.

Upon initial employment, all hiring authorities shall inform employees about the smoking and tobacco use prohibition, the areas where smoking or tobacco use is permitted, and the availability of smoking and tobacco cessation programs. Enrollment in a smoking or tobacco cessation program is voluntary.

31110.9 Smoking Complaints

Resolution of any smoking or tobacco product disagreement on behalf of an employee may be pursued through the Department's complaint process. Refer to the applicable bargaining unit contract or excluded employee complaint form for the process to file a complaint.

Disputes relating to this Policy are subject to the provisions of Department of Personnel Administration Rule 599.859 for non-represented employees and the various bargaining unit contracts for represented employees.

ARTICLE 12 — STAFF MEETINGS

Effective January 21, 1989

31120.1 Policy

Staff meetings shall be held to bring about better communication.

31120.2 Purpose

This section establishes format and distribution of staff meeting minutes.

31120.3 Schedule

Staff meetings shall be scheduled as follows:

- Major divisions As deemed necessary in an institution by division head.
- Other units As deemed necessary by supervisor.

31120.4 Minutes

Brief minutes of the meeting of divisions within institutions shall be prepared as soon as possible but no later than seven days from the meeting date.

31120.4.1 Format

The format shall be:

(NAME OF INSTITUTION)

Minutes of _____ Staff Meeting

(Date)

Present _____

Dr. _____

(position titles unnecessary)

Absent _____

Chairperson _____

Time Commenced _____

Time Adjourned: _____

1 _____ (Short title of item underlined)

Summarize discussion of item to include salient points; show disposition; as assignment is made, specify to whom: report policy decisions.

2. _____

3. _____

Use both sides of paper if minutes are more than one page in length.

Approval of Chairperson

Signature of Reporter

31120.5 Distribution

Institution: to staff and bulletin boards as appropriate.

Central Office: see Section 12050.8 of this manual.

31120.6 Revisions

The Deputy Director, Institutions Division, shall ensure that the content of this section is accurate and current.

ARTICLE 13 — SALARY AND COMPENSATION

Revised May 30, 2012

31130.1 Policy

All employees of the Department shall be compensated fairly and impartially.

31130.2 Purpose

This Section provides for the following:

- Extra compensation for employees using bilingual skills ten percent or more of the time.
- Salary-related Victims Compensation and Government Claims Board (VCGCB) claims from employees.
- Special hiring rates for persons with extraordinary qualifications.
- Determination of salary rates for permissively reinstated employees and merit salary adjustment dates upon reinstatement after a permanent separation.
- Compensation for out-of-class assignments.
- Physical fitness incentive pay.
- Housing stipends.

31130.3 Disclaimer

If any provision in this section is in conflict with a Memorandum of Understanding (MOU), the MOU shall prevail as it relates to the specific represented group.

31130.4 Bilingual Certification/Pay

The Department shall provide bilingual services when a substantial portion of its clientele is non-English speaking or hearing impaired.

31130.4.1 Biennial Language Survey

The Dymally-Alatorre Bilingual Services Act (Act), Government Code 7290-7299.8 et seq., requires each State agency conduct a survey of each of its local offices to determine the following:

- The number of public contact positions in each local office or facility.
- The number of bilingual employees in public contact positions and the language they speak other than English.
- The number and percent of non-English speaking persons served by incumbents in public contact positions in each local office or facility broken down by native languages.
- The number of anticipated vacancies in public contact positions over the following year.

- Whether the use of other available options, including contracted telephone-based interpretation services, in addition to bilingual staff in public contact positions, is serving the language need of non-English speaking clientele.
- A listing of all written materials required to be translated pursuant to GC 7295.4 et seq., identifying which have been translated and languages into which they have been translated.
- The number of additional qualified bilingual public contact staff, if any, needed at each local office to comply with the Act.
- Any other relevant information requested by the SPB.

The survey results shall be reported on forms provided by the SPB and is due to the SPB no later than October 1 of each even numbered year.

31130.4.2 Departmental Plan

Pursuant to GC 7290-7299.8 et seq., the Office of Personnel Services (OPS) evaluates survey results and submits an Implementation Plan to the SPB no later than October 1 of each odd numbered year which includes the following:

- The name, position, and contact information of the employee designated by the Department to be responsible for overseeing implementation of the plan.
- A description of the Department's procedures for identifying written materials that needs to be translated.
- A description of the Department's procedures for identifying language needs at local offices and assigning qualified bilingual staff.
- A description of how the Department recruits qualified bilingual staff.
- A description of any training the Department provides to its staff on the provision of services to non- or limited-English-speaking individuals.
- A detailed description of how the Department plans to address any deficiencies in meeting the requirements of the Act including, but not limited to, the failure to translate written materials or employ sufficient numbers of qualified bilingual employees in public contact positions at local offices, the proposed action to be taken to address the deficiencies, and the proposed dates by when the deficiencies can be remedied.
- A description of the Department's procedures for accepting and resolving complaints of an alleged violation of the Act.
- A description of how the Department complies with any federal or other State laws that require the provision of linguistically accessible services to the public.
- Any other relevant information requested by the SPB.

31130.4.3 Requirements

The Bilingual Pay Program provides a monthly pay differential for State employees who use bilingual skills on a continuing basis averaging ten percent of the time. The ten percent includes the actual time spent conversing or interpreting in a second language and related activities performed with the specific bilingual transaction. To receive the pay differential, an individual must first successfully complete a bilingual fluency examination to become certified bilingual.

Upon successful certification, employees with their supervisor's concurrence shall submit a Bilingual Pay Authorization, STD Form 897, justifying ten percent use of their bilingual skills in their position, and proof of successfully passing a bilingual examination in a specific language.

31130.4.4 Responsibility

OPS conducts the biennial language survey and ensures implementation of policy governing the Bilingual Services Program.

OPS administers the Bilingual Pay Program.

Local testing offices administer the language fluency examination.

31130.4.5 Process

Employees interested in taking a language fluency examination shall:

- Obtain an Application for Examination, STD Form 678, from the local or Central Office personnel office.
- Complete the application with the following:
 - The applicant's name, address, and social security number.
 - The language in which the applicant is to be tested.
 - The applicant's work location e.g., institution, parole region, etc.
 - Signature of applicant.
- Submit the application to the local or Central Office personnel office.

31130.4.6 Establishment or Change of a Bilingual Position

Bilingual Pay Authorization, STD Form 897, proof of successfully passing a bilingual examination in a specific language, duty statement, and an organization chart which identifies the position, shall be forwarded by local personnel staff to the OPS, Personnel Analyst liaison assigned to that area, when any of the following conditions apply:

- Changes in Position Number. Any change in Unit Code, Classification Code, and Serial Number Code.
- Reassignments. Promotions, transfers from one class to another or change in post assignment which no longer requires use of ten percent bilingual skills.
- New (Bilingual) Positions. Bilingual pay for a position has never been requested.
- Refilling a Vacant (Bilingual) Position. A position is approved and the previous incumbent received bilingual pay.
- Termination of Bilingual Pay. A bilingual position ceases to qualify based on criteria given in this Section.
- Change in Incumbent's Work Address. If an incumbent was receiving bilingual pay based on the need for such skill in one location and is transferred to another location, bilingual pay must be justified again for the new location.

31130.5 Salary-Related VCGCB Claims

VCGCB Rules Sections 624, 630, 631, and 632 provide the general standards for filing claims against the State.

31130.5.1 Approval of Claims

Each claim shall be submitted to the Deputy Director, Division Administrative Services (DAS), for approval.

31130.5.2 Presentation of Claims

All claims for money or damages against the State shall be presented to the VCGCB under the following conditions:

- An appropriation or a State fund is available but has been rejected by the State Controller.
- The appropriation made or fund designated is exhausted.
- The settlement is provided for by statute or constitutional provision but no appropriation or fund is available.
- Settlement is not otherwise provided for by statute or constitutional provision.
- On express contract.
- The taking or damaging of private property for public use within the meaning of Section 19 of Article I of the Constitution.
- Based upon the negligent act or omission by a State officer, servant or employee or for the dangerous condition of State property.
- Any other injury for which the State is liable.

31130.5.3 Contents of Claims

All claims or amendments shall be signed by the claimant or representative. Facts shall be stated in simple, concise language without legal phraseology.

31130.5.4 Who May File

Hiring authorities shall initiate and submit VCGCB claims on an Equity Claim, BC Form 1-B, in quadruplicate, to the Chief, Accounting Services, Attention: VCGCB Claims Coordinator, for situations where improper pay or no pay has been issued because of administrative error or other factor.

Employees and former employees also have the right to file an Equity Claim, BC Form 1-B, in triplicate, directly with the VCGCB. However, such claims are referred by the VCGCB to the Department for a recommendation.

31130.5.5 Claim Format

Each claim shall include:

- A claim form with:
 - A brief statement describing the reason for the claim.
 - Specific description of how the claim amount was computed.
- A brief cover memo with:
 - The recommendation requested.
 - A brief explanation of the circumstances, problems or errors that led to the need for the VCGCB claim.
 - What specific steps have been taken to prevent a recurrence.
 - The party to whom payment is to be made; e.g., either the claimant or the Department.

- A statement on revision of funds if the claim includes payment for a prior fiscal year and the funds have reverted. The funds revert two years following the last day an appropriation is available for encumbrance unless the Director of Finance reverts the funds during that two-year period (see GC Section 16304.1).
- All supporting documentation; e.g., Bilingual Pay Authorization Form, Disability Pay Request Form, Payroll Adjustment Form, or other documents as appropriate.

When more than one claim of the same type is being submitted, the hiring authority or designee shall submit all like claims as a package using one cover memo.

31130.5.6 Review

Upon receipt of the claim, Central Office staff shall make any necessary salary verifications and prepare a letter for the signature of the Deputy Director, DAS, or his/her designee, recommending approval or disapproval of the claim.

If approval is recommended by the Department, the letter and original claim shall be forwarded to the VCGCB for review and processing. A copy of the letter shall be sent to:

- Originating hiring authority.
- Employee (claimant).
- Department's VCGCB Claims Coordinator.

If disapproval is recommended by the Department, the letter shall be sent to the employee (claimant). A copy of the letter shall be sent to:

- Originating hiring authority.
- Department's VCGCB Claims Coordinator.

Disapproved claims shall not be forwarded to the State VCGCB, unless submitted directly by an individual.

31130.5.7 VCGCB Process

Upon approval and complete processing of the claim, the VCGCB issues payment or authorization for payment, according to the specific payment instructions recommended by the Department.

If the recommendation instructs that payment be made directly to the Department, the VCGCB directs its communication (pay warrant or authorization for pay) to the Department.

If the recommendation requests payment directly to the employee, the VCGCB upon approval of the claim, addresses its communication (pay warrant or authorization for pay) directly to the employee, and sends a copy to the Department.

If the claim is disapproved, the VCGCB notifies the Department and/or the claimant, as appropriate, indicating the basis for the disapproval and the claimant's legal rights/options for appeal.

31130.5.8 Appeal of VCGCB Decision

Within six months from receipt of the rejection notice, the claimant may:

- Request a rehearing. A rehearing is granted only with the stipulation and agreement that the claimant provides new information not previously considered by the VCGCB.
- File suit in small claims court, if the dollar amount is within the limits allowable by law.
- File suit in a superior court, if the dollar amount exceeds the limits for small claims court.

31130.6.4 Determining the Amount of Adjustment

Established Rate

Once the hiring authority determines that a special hiring rate is necessary to attract an outstanding individual, the hiring authority shall decide which hiring rate to request.

In order to be competitive with other employers, yet offer no more than is necessary, the actual rate granted is an established rate between the minimum and maximum for the class nearest (above or below) to the individual's present salary or other valid job offers. This is any established rate between the existing steps for the class if it will more closely approximate a realistic appraisal of the individual's background and salary history.

Limitations

Special hiring rates are usually limited to two steps above the minimum of the salary range, i.e., the third salary step. When the position has limited promotional opportunity, use of hiring rates above that rate limits the Department's ability to use merit salary adjustments to recognize employee growth and encourage initiative.

Adjustments above the third step shall be processed only when the factors of extraordinary qualifications, present salary, or prospective job offers make a strong case for the particular individual.

Determining the Above-Minimum Rate

The individual's monthly salary (or highest bona fide job offer) is compared to the State's pay ranges in determining the maximum amount to authorize. Money earned through part-time employment is counted in determining the above-minimum rate only when the individual would lose this income by coming to work for the Department.

When an individual's total income covers periods substantially less than twelve months and that individual does not work for the remainder of the year, the income is considered as the function of the number of months worked; e.g., \$10,000 per year for a ten month work year is considered as \$1,000 per month. When there is additional income from a second job from which the individual must resign, that should be added to the total and the full year considered.

Consideration of Other Offers

Other competitive salary offers from State agencies shall not be used as justification for exceeding these other offers for above minimum rates. When the provisions outlined here are applied correctly, above minimum rates authorized for outstanding qualifications for a given individual shall be identical for all State agencies using the class.

Moving Expense

The salary shall not include a bonus to the candidate to come to the State; however, when relocation involves an unusual moving expense, an above minimum rate may be justified where use of the candidate's qualifications is particularly critical to the Department's program. Advance approval by DPA is required in these cases.

Applicable Authorizations

Under delegation, an individual ordinarily cannot receive above minimum steps under more than one special salary authorization. Regarding entrance into college recruitment classes, it may be found that an individual possesses superior scholastic achievement. Also, there may be a general hiring "plus" rate authorized on the basis of recruitment difficulty. The Department decides which of the applicable authorizations is needed to acquire the individual.

Required Explanation

If the rate approved for the individual does not fall at one of the normal steps within the salary range for that class, the hiring authority shall provide the appointee with an explanation of the possible effect on movement through the salary range under DPA rules.

Corrective Salary Action

Special adjustments for outstanding qualifications are not a substitute for corrective salary action for a class. If there are a number of vacancies in a given class and recruitment is difficult, recruitment "plus" differential or special corrective salary action for the class may be necessary.

31130.6.5 Exceptions to Standards

Requests for rates higher than those authorized under these provisions shall outline the reasons why the request for exception should be approved. Final salary commitments shall not be made prior to DPA's approval of exceptions to these provisions.

31130.7 Permissive Reinstatement Salary Rates

The following guidelines and standards shall be used in determining salary rates for employees who have resigned or retired from State service and who are being permissively reinstated back into State service.

31130.7.1 Maximum Salary Rate

The hiring authority shall first determine the highest potential salary rate provided for by the DPA Rule 599.677. Upon the hiring authority's determination that it is in the best interest of the State, a former employee who permissively re-enters State service may receive a salary above the minimum rate, provided that the reinstatement or appointment is:

Same Class

- To the same class. The salary rate shall not exceed the rate in the salary range received at the time of separation adjusted for the salary range changes for the class since separation.

Different Class/Same

- To a different class with substantially the same salary range as that of the class from which separated. The salary rate shall not exceed the rate the employee could receive if reinstated or reappointed to the same class from which separated.

Different Class/Lower Salary Range

- To a different class with a lower salary range than the class from which separated. The employee may receive any rate in the salary range not to exceed the salary rate last received in the class from which separated adjusted for salary range changes of the later class since the separation.

31130.7.2 Actual Salary Rate

The rate in the salary range an employee receives on reappointment or reinstatement shall be related to the employee's value to the State. The hiring authority shall determine the former employee's value to the State as follows:

- Expertise in a particular area in relation to the vacancy. Talent, ability or skill as demonstrated by previous job experience. The scope, depth, and recency of such experience are more significant than length.
- The degree to which an employee exceeds minimum qualifications shall be a guiding factor rather than a determining one. When a large number of prospective employees possess considerably more experience than the minimum, it may not be necessary to appoint above the minimum to acquire unusually well-qualified people.
- The qualifications of State employees already in the same or closely related classes shall be carefully considered since questions of salary equity may arise.
- Recruitment difficulty for the classification and for the geographic area of the vacancy shall be a major determining factor.

31130.8 Merit Salary Adjustment Dates

Merit salary adjustment dates for persons who reinstate following a separation from State service shall be established in accordance with DPA Rule 559.687.

31130.9 Out-of-Class Compensation

Employees designated managerial or exempt are not covered by specific provisions governing out-of-class assignment and are not entitled to out-of-class compensation.

Represented Employees

A number of negotiated MOUs provide for compensating represented employees for temporary out-of-class acting assignments. Refer to the specific MOU and DPA Rule 599.810.

Supervisory/Confidential

Supervisory and confidential employees who are assigned out-of-class acting assignments may be compensated for performing duties of a higher classification if:

- The assignment is made in writing prior to performing the duties, and the employee is given a copy of the assignment.
- The Director certifies that funds are available within the Department's current budget.
- The employee assumes the full range and scope of duties of the higher class.
- The employee performs such duties for more than 15 consecutive working days but no more than 120 calendar days in a fiscal year. (Paid time off shall not break the continuity of work in the higher class.)

An employee may be assigned out-of-class work for more than 120 days during a fiscal year only if the Department files a written statement with DPA.

Assignment Process

See Section 31060 of this manual for temporary out-of-class acting assignment and approval process.

Pay Differential

Supervisory or confidential employees performing in a higher class for more than 15 consecutive working days shall receive a five percent pay differential or the differential the employee would receive if promoted to the higher class, whichever is greater, for the duration of the assignment.

These pay differentials are not part of an employee's base pay for the purpose of other salary transactions related to subsequent appointments.

Payment

The supervisor of an employee working an out-of-class assignment submits a memorandum to the local personnel office at the end of each pay period. The memorandum shall contain the following information:

- Name of unit or division.
- Name of employee.
- A statement clarifying the reason(s) for the out-of-class assignment.
- Signed copy of approved out-of-class assignment.
- Dates employee worked and number of hours, if less than full-time.
- Signature of supervisor.

A denial of an out-of-class compensation claim by the departmental personnel officer may be appealed directly to the Chief Deputy Director, DAS.

31130.10 Physical Fitness Incentive Pay Program (PFIPP)

Employees may voluntarily participate in the Physical Fitness Incentive Pay Program in accordance with the following:

Eligibility

- Employees who have five years or more in Bargaining Unit 6 as of December 31 of the prior calendar year.
- Managerial and supervisory employees with peace officer status who have five years or more in a peace officer classification as of December 31 of the prior calendar year.

Compensation

Eligible employees who successfully complete the physical fitness tests shall receive a flat rate of \$65.00 per pay period.

The physical fitness incentive pay shall be by separate check and shall not be included for purposes of computing benefits and/or additional compensation.

Eligibility Period

Eligibility period shall be from May 1 through April 30. In order to continue the incentive pay from one period to the next without interruption, an employee must pass the physical fitness tests prior to May 1.

Physical Fitness Tests

To receive the physical fitness incentive pay, an eligible employee shall successfully complete the following fitness tests annually:

Test	Fitness Component Measured
Three-Minute Step Test. This test will be performed using a bench 12 inches high and a recording of a metronome of 96 beats per minute.	Cardio Vascular
Vertical Jump Test. The individual must reach upward as high as possible and must jump vertically as high as possible as measure of power.	Leg Power
Sit and Reach Test. The individual must sit and reach in order to measure the amount of trunk flexion and ability to stretch the back muscles and hamstring group; or	Flexibility
Sit-ups Test. Lie flat on back with knees bent; must do 14 to 38 sit-ups in one minute, depending on age and sex.	Abdominal Strength
Illinois Agility Run Test. The individual must start the test in a flat prone position, sprint for 30 feet in one direction, and back, run in a figure-eight pattern around a line of chairs and sprint 30 feet up and back to the starting line. This attempts to measure the ability to move with quickness, speed and	Balance and Agility

balance. The participant may start from a standing position if the prone posture would exacerbate a physical injury or disability.

Note: Participant chooses either the Sit and Reach Test or the Sit-ups Test. Each employee shall be allowed two attempts. Employees unsuccessful on their first attempt have 60 days during which they may retest.

PFIPP Coordinator

Each Warden and RPA shall designate a PFIPP coordinator for their institution or region.

The PFIPP coordinator shall:

- Locate an indoor testing space measuring at least 40 feet x 50 feet x 12 feet.
- Identify eligible employees.
- Schedule test dates.
- Prepare and distribute a memorandum to all employees currently receiving the incentive pay.
- Instruct the employees to sign and date the memorandum and return it to the PFIPP coordinator.
- Distribute the following to each eligible employee:
 - Letter to participant.
 - Physical Fitness Incentive Pay Testing Medical History Questionnaire, Form 5.511.
 - DJJ/CDCR Physical Fitness Incentive Pay Testing Medical Release Form, Form 5.513.

Employee Responsibility

Employees who choose to participate shall:

- Obtain a medical release prior to testing.
- Train and test on their own time and at their expense.

31130.11 Housing Stipend

Specified employees may be eligible for a housing stipend if employed at certain specified institutions as follows:

- Employees in Bargaining Unit 6 shall receive compensation in accordance with the provisions of the Bargaining Unit 6 Memorandum of Understanding.
- Supervisors and managers of employees in Bargaining Unit 6 shall receive compensation in accordance with the provisions of a pay letter issued by the DPA.

31130.12 Revision

The Deputy Director, Human Resources, shall ensure that the content of this Article is accurate and current.

31130.13 References

GC §§ 7290 - 7299.8, 13921, 16304.1, 19780, 19836, 19991.4, and 19991.7. CCR (2) §§ 599.677, 599.687(d), 599.810, 624, 630, 631, and 632.

ARTICLE 14 - INTERNAL AFFAIRS INVESTIGATIONS

Effective January 2007

31140.1 Policy

Every allegation of employee misconduct within the California Department of Corrections and Rehabilitation (CDCR or Department) shall be promptly reported, objectively reviewed, and investigated when appropriate.

31140.2 Purpose

To ensure allegations of employee misconduct are addressed and investigations are conducted in a fair and consistent manner.

31140.3 Definitions

Allegation Inquiry – The collection of preliminary information concerning an allegation of employee misconduct necessary to evaluate whether a matter shall be referred to the Central Intake Unit.

Appointing Power - The Secretary of the Department.

Assistant General Counsel (AGC) – An individual responsible for managing the Employment Advocacy and Prosecution Team (EAPT) in the Department's Office of Legal Affairs (OLA).

Assistant Secretary, Office of Internal Affairs (OIA) - An individual responsible for the operation and functions of the OIA.

Bureau of Independent Review (BIR) – A unit within the Office of the Inspector General (OIG) responsible for contemporaneous public oversight of the Department’s investigative and disciplinary processes.

Case Management System (CMS) – An electronic system that allows real-time documentation on investigative case activity and allows various participants within the employee disciplinary process to monitor cases and record key decisions and due dates. The CMS tracks all investigative requests, case acceptance and rejections, and case activity on all Internal Affairs investigations, as well as direct adverse actions that impose penalties without an investigation.

Central Intake Panel (CIP) – A collection of stakeholders led by the OIA that ensures all referred allegations of employee misconduct are evaluated consistently and assigned appropriately throughout the Department. Individuals who participate regularly in the CIP include, but are not limited to, the following: Assistant Secretary, OIA, or designee; Chief Assistant Inspector General (CAIG), BIR, or designee; AGC, EAPT, or designee; assigned Special Agents; and other pertinent Department representatives. The Assistant Secretary, OIA, has the authority to initiate Internal Affairs investigations and is ultimately responsible for the acceptance and rejection of all cases that come before the CIP.

Central Intake Unit (CIU) – A team of Special Agents, supervisors, and support staff within the OIA responsible for receiving, screening, and analyzing allegation inquiries for presentation to the CIP.

Chief Assistant Inspector General (CAIG) – An individual responsible for the operation and functions of the BIR, OIG.

Deputy Inspector General – An investigator employed by the OIG.

Designated Cases - Those cases assigned to the Vertical Advocates, including matters involving staff integrity and/or dishonesty, abuse of authority, sexual misconduct, use of force in which an inmate suffers death or serious injury, use of deadly force, serious allegations made against supervisors, and high profile or dismissal cases assigned to the Vertical Advocate by the AGC.

Employee Relations Officer (ERO)/Disciplinary Officer – An employee designated by the Hiring Authority to coordinate adverse actions.

Employment Advocacy and Prosecution Team (EAPT) - The team in the Department’s OIA responsible for operation of the Vertical Advocacy Program.

Hiring Authority – The Undersecretary, General Counsel, Chief Information Officer, or any Assistant Secretary, Executive Officer, Chief Deputy Secretary, Director, Deputy Director, Associate Director, Warden, Parole Administrator, Superintendent, Superintendent of Education, Assistant Superintendent of Education, Health Care Manager, Regional Health Care Administrator, or any other person authorized by the appointing power to hire, discipline, and dismiss staff under his/her signature authority. The Administrator at the Richard A. McGee Correctional Training Center shall serve as the Hiring Authority for Correctional Officer Cadets. The appointing power includes a Hiring Authority for purposes of this Article.

Investigation - The collection of evidence that supports or refutes an allegation of misconduct, including criminal investigations, administrative investigations, retaliation investigations, or allegation inquiries.

Locally Designated Investigator(s) - A local investigator or a team of local investigators who meet the requirements to conduct Internal Affairs investigations and who perform allegation inquiries and conduct local Internal Affairs investigations as delegated and assigned by OIA regional offices.

Office of Civil Rights (OCR) – The entity with authority to investigate complaints related to Equal Employment Opportunity (EEO) issues.

Office of Internal Affairs - The entity with authority to investigate allegations of employee misconduct.

Senior and Special Assistant Inspectors General (SAIG) – Attorneys employed by the BIR who report to the CAIG.

Vertical Advocacy Model – A system that ensures legal representation for the Department during the investigative and employee disciplinary process in order to hold staff accountable for misconduct by way of thorough and complete internal investigations, principled decision-making, assessment of the investigations, and consistent and appropriate discipline.

Vertical Advocate – An EAPT attorney assigned to one or more specific Hiring Authority locations to consult with investigators and Hiring Authorities concerning investigative findings, disciplinary decisions, and to prosecute designated cases.

31140.4 Responsibility

31140.4.1 Appointing Power

The appointing power shall ensure compliance with the Department’s Internal Affairs investigatory policy and procedures.

31140.4.2 Chief Deputy Secretary

Each Chief Deputy Secretary shall be responsible for ensuring compliance with the Department’s Internal Affairs investigatory policy and procedures within his/her respective area.

31140.4.3 Office of Internal Affairs

The OIA is responsible for determining which allegations of staff misconduct warrant an Internal Affairs investigation and for completing all investigations in a timely and thorough manner.

31140.4.4 Assistant Secretary, OIA

The Assistant Secretary shall be responsible for the following:

- Overseeing the Department’s investigative program and ensuring systemwide implementation of the Internal Affairs investigatory policy and procedures;
- Establishing guidelines, priorities, training, and management systems to ensure an efficient and effective Internal Affairs operation;
- Participating in the development, implementation, and evaluation of strategic and operational plans;
- Coordinating with the CAIG, or designee for cases monitored by the BIR and the AGC, EAPT, for designated cases;
- Coordinating with and informing the appropriate Chief Deputy Secretary, the Undersecretary, and the Secretary regarding high-profile investigations being monitored by the BIR.

31140.4.5 Chief, OIA

Each Chief shall be responsible for the following:

- Overseeing the Department’s Internal Affairs investigative program and ensuring systemwide application of the Internal Affairs investigatory policy and procedures;
- Participating in the strategic and operational plans;
- Coordinating with the CAIG or designee on cases monitored by the BIR and the AGC or designee for designated cases;
- Elevating cases to the Assistant Secretary, OIA, as necessary.

31140.4.6 Special Agent-In-Charge (SAC)

Each Special Agent-In-Change shall be responsible for the following:

- Overseeing operations of the OIA Headquarters or regional office as well as the local Internal Affairs investigations in the respective region;
- Cooperating with and providing continual real-time consultation among OIA, the Vertical Advocate for designated cases, and the BIR for cases the BIR is monitoring;
- Ensuring OIA staff assigned to conduct investigations are properly trained and qualified;
- Monitoring all cases under his/her control to ensure cases are being investigated in a timely manner;
- Serving as a liaison between the OIA and Hiring Authorities regarding personnel investigations.

31140.4.7 Senior Special Agent

Each Senior Special Agent shall be responsible for the following:

- Assigning and supervising Internal Affairs investigations conducted by Special Agents or locally designated investigators;
- Cooperating with and providing continual real-time consultation among OIA, the Vertical Advocate for designated cases, and the BIR for cases the BIR is monitoring.

31140.4.8 Special Agent

Special Agents shall be responsible for the following:

- Conducting investigations in a manner that provides a complete and thorough presentation of all facts regarding the allegation or complaint;
- Cooperating with and providing continual real-time consultation with OIA, the Vertical Advocate for designated cases, and the BIR for cases the BIR is monitoring;
- Providing the Hiring Authority with consultation on investigative reports and providing a complete recitation of the facts, while refraining from conjecture or opinion;
- Updating case activity in the CMS.

31140.4.9 Central Intake Unit

The CIU, consisting of OIA personnel, shall ensure all referred acts of employee misconduct are analyzed and presented to the CIP, and the CIP shall ensure that all referred acts of misconduct are evaluated consistently and assigned appropriately throughout the Department.

31140.4.10 Hiring Authority

Each Hiring Authority shall be responsible for the following:

- Ensuring each allegation of employee misconduct is logged (regardless of whether the allegation is referred for investigation), receives prompt attention, and is addressed appropriately;
- Requesting investigations and direct adverse action by completing and forwarding to OIA CDC Form 989, Confidential Request, for Internal Affairs Investigation/Notification of Direct Adverse Action;
- Reviewing investigative reports, determining investigative findings, and making determinations of appropriate discipline;
- Notifying each subject in writing following the Hiring Authority's determination of investigative findings. Refer to DOM Chapter 3, Article 22, Section 33030.13.2, "Investigative Closure Memorandum," for direction regarding notification to the subject of an investigation;
- Notifying each complainant, including citizen, inmate, or employee complainants, in writing, of the finding on the original complaint within thirty (30) days of the determination of the disposition of the investigation regarding the original complaint. The Hiring Authority shall not notify the complainant of specific investigative findings, but shall make a separate finding on the original complaint. At no time should the specifics related to any personnel action be discussed with the complainant in the matter. The notification of the finding on the complaint shall be limited to whether the original complaint is sustained, not sustained, exonerated, or unfounded;
- Coordinating and consulting with the Vertical Advocate for designated cases and the SAIG for cases monitored by the BIR before making investigative findings or disciplinary determinations and prior to approving any settlement agreements.

31140.4.11 Supervisors and Managers

Each supervisor and manager shall be responsible for referring alleged misconduct and requests for investigation or adverse action to the Hiring Authority immediately following discovery of facts which may constitute misconduct.

31140.4.12 Locally Designated Investigators

Locally designated investigators shall be responsible for the following:

- Conducting investigations, as assigned by OIA regional offices, in a manner that provides a complete and thorough presentation of all facts regarding the allegation or complaint;
- Maintaining integrity and the confidentiality of the investigative process, unless prior approval to discuss a case with the Hiring Authority is obtained through the SAC;
- Cooperating with and providing continual real-time consultation among OIA, the Vertical Advocate for designated cases, and the BIR for cases the BIR is monitoring;
- Identifying issues related to allegations of employee misconduct and assisting the Hiring Authority, Vertical Advocate for designated cases, and the SAIG for cases monitored by the BIR;
- Updating case activity in CMS.

31140.4.13 Vertical Advocate

The Vertical Advocate shall be responsible for the following:

- Coordinating with the assigned investigator for designated cases for the duration of an investigation and evaluating completed investigations for legal sufficiency to prosecute an administrative action;
- Monitoring and coordinating with the ERO/Disciplinary Officer the adverse action process for all designated cases, from the onset of an investigation, including calculation of statute of limitations expiration dates;
- Providing legal consultation for all designated cases to the assigned investigator, including developing the investigative plan, assisting with preparation of investigative interviews, and attending investigative interviews, as appropriate, to assess witness demeanor and credibility;
- Providing legal consultation to the Hiring Authority on all designated cases and coordinating with the SAIG for cases monitored by the BIR.

31140.4.14 Office of Civil Rights

The OCR may initiate investigations when an employee files a complaint with the OCR regarding discrimination, harassment, or EEO related retaliation. Following completion of OCR's evaluation, and if the OCR determines that an OIA investigation may be necessary, the OCR shall forward a copy of the intake document and all related information to the OIA for investigation consideration.

31140.5 Employee Expectations & Reporting

Each employee, regardless of classification or rank, shall adhere to the Department's Employee Performance Standards as defined in DOM, Section 3, Article 22, Subsection 33030.3. Each employee shall report misconduct or any unethical or illegal activity in a timely manner. Failure to report employee misconduct or any unethical or illegal activity in an investigation or allegation inquiry shall be grounds for corrective action, disciplinary action, or both. Employees shall not make false statements when questioned, interviewed, or in reports submitted.

31140.5.1 Employee Duty to Cooperate

Each employee of the CDCR is required to comply and cooperate as follows:

- If requested to make a statement in any official internal investigation conducted by the Department, employees shall make full, complete, and truthful statements. Failure or refusal to make statements or making false statements during Department Internal Affairs investigations may result in disciplinary action.
- Employees shall not take any action which would interfere with, delay, distort, or unduly influence any official investigation conducted by the Department or any other government agency. Any employee who knowingly gives false evidence, withholds evidence, or interferes in any way during such an investigation, or requests or encourages another to do so, may be subject to disciplinary action.
- Employees have a duty to cooperate with investigators of the Department and with officials from other law enforcement agencies who are conducting a criminal investigation. Employees shall make full, complete, and truthful statements. Failure to cooperate may result in disciplinary action.

31140.6 Authority to Conduct Investigations

Pursuant to Government Code Section 11182, the Secretary of the Department delegates the authority to initiate and conduct investigations to the Assistant Secretary, OIA.

31140.7 Requirements for Hiring Internal Affairs Investigators

Investigators shall be hired in accordance with Penal Code Sections 6065 (b)(1) and 6126.1(c).

31140.8 Required Training

All Internal Affairs investigators shall complete investigation training and be certified as mandated by Penal Code Section 6126.1 and the OIA Investigation Training Requirements. In addition, Internal Affairs investigators shall complete advanced investigative training as outlined in the OIA Investigation Training Requirements.

31140.9 Filing an Allegation of Employee Misconduct with a Hiring Authority

Information regarding alleged employee misconduct shall be reported promptly by staff to a supervisor or other appropriate departmental, governmental, or law enforcement entity. If information is reported verbally to a supervisor, the staff person shall also submit a written report to the supervisor. The supervisor shall prepare a separate written report regarding the allegation(s) and shall submit his/her report and the staff person's report to the Hiring Authority or to the Hiring Authority's supervisor if the allegation(s) are against the Hiring Authority. Such reports shall include all pertinent information concerning the allegation(s), the timeline, and the source(s) of the information.

Any allegation of misconduct which is believed by staff to constitute an emergency shall be reported immediately to a supervisor, locally designated investigators, or the OIA. In the event of such an emergency, staff shall follow-up with the written report within one (1) day of learning of the information. Some instances that constitute an emergency are as follows:

- Possible loss of life or serious bodily injury;
- Serious breach of facility security;
- Further aggravation of a potentially dangerous situation;
- Activities which seriously compromise or jeopardize an investigation;
- An illegal activity which may occur imminently.

31140.10 Reporting Misconduct and Protecting Employees from Retaliation

To encourage and protect employees that confront and report serious misconduct, the Department has strengthened its policies and procedures to provide additional protections beyond those included in the California Whistleblower Protection Act (Government Code section 8547 et seq.) and other California protective statutes. This reporting of misconduct process and the protection offered by the Department are detailed in the Department's "Policy and Procedure for Reporting Serious Misconduct and Protecting Employees from Retaliation." The procedures may be obtained by contacting the OIA.

31140.11 Inmate, Ward, or Parolee Complaints Against Staff

All inmate, ward, or parolee complaints against staff shall be processed in accordance with DOM, Section 54100.

31140.12 Complaints by Members of the Public Against Department Employees

Pursuant to Penal Code Section 832.5, it is the policy of the Department, as an employer of peace officers, to have a procedure for investigating a complaint by a member of the public against its peace officers.

Any person, other than an inmate, ward, parolee, or departmental employee, who wishes to file a complaint of misconduct by a departmental peace officer as defined in the California Code of Regulations (CCR), Title 15, Section 3291(b), shall be advised to submit a complaint. Complaints of misconduct will normally be recorded on a CDCR Form 2142, Citizen's Complaint Against Employee of the California Department of Corrections.

A complaint may be made at any time, day or night, to any on-duty departmental supervisor. The complainant may also choose to mail or deliver his/her complaint directly to the Hiring Authority or any Department Head. Whenever possible, the complainant shall be requested to personally meet with or talk to the Hiring Authority or designee at the time of the original complaint.

Upon initial receipt of a complaint by a member of the public, the supervisor accepting the complaint shall confirm the complaint involves a Department employee(s). Complaints determined to involve personnel from other agencies shall be forwarded to the appropriate authority through the appropriate chain of command. The supervisor accepting the complaint shall prepare a Citizen's Complaint Receipt Acknowledgment and forward it to the complainant within five (5) working days.

Upon receipt of a written complaint or CDCR Form 2142 from a member of the public, the departmental supervisor accepting the complaint shall forward the complaint to the Hiring Authority for review. The Hiring Authority shall evaluate the complaint and determine whether the issue is supervisory in nature, if a CDC Form 989 is required, or if a written response to the member of the public will suffice. If the complaint is regarding sexual harassment or discrimination based on race, gender, national origin, religion, sexual orientation, or disability, the complaint shall be referred to the OCR for investigation and appropriate disposition.

Complaints and reports and findings relating to the complaints made by members of the public shall be retained for a period of at least five (5) years pursuant to Penal Code Section 832.5 (b).

31140.13 Logging Allegations of Employee Misconduct

The Hiring Authority or designee shall log each allegation of employee misconduct, regardless of whether the allegation is referred for investigation, on the CDCR Form 2140, Internal Affairs Allegation Log. The log shall be incident-driven; therefore, more than one employee can be listed under one log entry. Log numbers shall be assigned using a standard logging system, utilizing the following format: **ABC-001-06**.

- The first identifier "ABC" indicates the institution (i.e. CMF), field office, or other work site by the acronym.
- The second identifier "001" indicates the sequential number. The sequence continues throughout the year.
- The third identifier indicates the calendar year in which the allegation of misconduct was initiated for action.

To ensure department-wide standardization and compliance with departmental audit tools, the CDCR Form 2140 shall be utilized by each Hiring Authority for tracking.

31140.14 Allegation Inquiry

Allegation inquiries shall be conducted at the direction of the Hiring Authority when there is an allegation of misconduct, which if true could lead to adverse action, and the subject(s), allegation(s), or both are not clearly defined or more information is necessary to determine if misconduct may

have occurred. Each allegation inquiry shall be promptly performed by locally designated investigators approved by the OIA or OIA investigators. A written allegation inquiry report shall be provided to the Hiring Authority and shall document the collection of preliminary information that supports or refutes alleged misconduct. All applicable sections of Memoranda of Understanding (MOU) related to personnel investigations shall be followed.

The Hiring Authority, or designee, shall indicate on the CDCR Form 2140, in the designated area, if an allegation inquiry is being conducted and the resulting action from the allegation inquiry (e.g., referred to CIU for investigation, processed as a CDC Form 602, Inmate/Parolee Appeal Form, or found to not have merit).

If, during the course of the allegation inquiry, sufficient information is obtained to warrant an Internal Affairs investigation, the locally designated investigators approved by the OIA or the OIA investigator shall notify the Hiring Authority. The Hiring Authority shall forward a CDC Form 989 to the OIA CIU requesting an Internal Affairs investigation. If the allegation inquiry reveals sufficient evidence for the Hiring Authority to impose direct adverse action, the Hiring Authority shall forward a CDC Form 989 to the OIA CIU requesting to impose direct adverse action.

31140.15 Requests for Internal Affairs Investigation

The CDC Form 989 and the corresponding Documents and Materials checklist shall be promptly completed and forwarded to the OIA CIU, by the Hiring Authority for processing as soon as is reasonably practical. The Hiring Authority shall complete the CDC Form 989 and shall submit copies of all documents and materials pertinent to the request. Original documents and evidence shall be maintained by the requesting Hiring Authority unless otherwise agreed to and ordered by the SAC.

The Hiring Authority or designee shall note the complainants name and contact information, the supervisor/manager who discovered the misconduct, and the discovery date as follows:

- **Complainant:** Individual (inmate, ward, parolee, citizen, staff, or other) who brought the misconduct allegation to the attention of CDCR staff.
- **Discovery:** Date that an uninvolved manager or supervisor observed, was advised of, or otherwise discovered the misconduct.

The Hiring Authority or designee shall note any special information on the CDC Form 989 such as the employee being placed on administrative time off, temporarily reassigned pending the investigation, issued a firearm restriction, or other pertinent information. The CDC Form 989, with supporting documentation, shall be forwarded to the OIA CIU by special mail processing (express/receipts) or personal delivery. The transmittal envelope shall be sealed and clearly marked "CONFIDENTIAL" with appropriate return address information.

A limited exception to the Central Intake requirements exists for urgent matters involving potential employee misconduct requiring immediate investigative action. If immediate investigative action is believed to be necessary, the Hiring Authority shall request assistance from the OIA Regional Office. If OIA is unable to respond, the Hiring Authority may take independent action but is required to report such action to the OIA Regional Office no later than the next business day.

31140.16 Review, Evaluation, and Disposition

The CIU shall review each CDC Form 989 and all supporting documentation and shall evaluate and make a determination regarding each matter within thirty (30) calendar days.

Requests for investigation shall receive a case number and be evaluated using a priority approach. Outcomes of the evaluation are as follows:

1. Accepted for Investigation

Allegations of misconduct accepted by the CIU for investigation shall be forwarded to one of the OIA regional offices for assignment. Once received, the OIA regional will assign the investigation as follows:

- Assign the investigation to a Special Agent from the OIA regional office within ten (10) calendar days;
- Assign the investigation to a locally designated investigator within ten (10) calendar days. The investigation shall be supervised and monitored by a Senior Special Agent from the respective OIA Regional Office.

The SAC, CIU, shall provide written acceptance of the case by memorandum to the Hiring Authority. The memorandum shall include the OIA regional office with case responsibility and the CMS case number. This acceptance memorandum shall remain a permanent record in the Internal Affairs investigator's case file.

2. Referred for Investigation

These cases contain allegations that are more appropriately investigated by other entities (i.e., outside law enforcement, the OIG, or OCR).

3. **Returned to the Hiring Authority Without Investigation**

Investigation requests may be returned to the Hiring Authority for failing to provide all necessary information, for failing to meet the criteria for an Internal Affairs investigation, or when the CIU determines no investigation is warranted. These requests are returned to the Hiring Authority with a recommendation for the following:

- **Direct Discipline/Supervisory Action:**

If misconduct is sufficiently well-documented, the case may be referred back to the Hiring Authority for direct adverse action with consultation from an assigned Vertical Advocate for designated cases or in consultation with the Vertical Advocate for all other cases. If the Vertical Advocate or ERO/Disciplinary Officer determines that a subject interview or other interview(s) is necessary, the Vertical Advocate or ERO/Disciplinary Officer shall notify the CIU and request an interview(s). Locally designated investigators are not authorized to initiate investigations or conduct interviews without approval of OIA.

Some misconduct should be addressed by taking corrective action, such as training, policy or procedure change, or other progressive discipline measures.

- **Further Investigation or Inquiry Required:**

Some requests for investigation may require the Hiring Authority to provide additional information or investigation. When the CIU determines insufficient information or documentation was submitted with the CDC Form 989, CIU staff shall contact the Hiring Authority or designee and request additional information. The requested information and/or documentation shall be provided to the CIU within ten (10) calendar days, if the information is available.

- **No action:**

Some requests may not warrant any corrective or adverse action.

For requests returned without investigation, a memorandum shall be completed by the SAC and forwarded to the Hiring Authority. The memorandum shall include a detailed explanation for the action taken and shall direct the Hiring Authority, as appropriate, to determine the appropriate disciplinary action while taking into account any prior misconduct by the employee or corrective action imposed. A copy of the memorandum shall be retained in the CIU file. In addition to responding in writing, the SAC shall be available to the Hiring Authority to discuss the decision for the return of the investigation. The Hiring Authority may appeal the decision in writing to the Chief, OIA, Headquarters Operations, promptly following issuance of a returned case memorandum.

31140.17 Case Assignment

When a request for investigation is accepted, the case shall be assigned to an OIA regional office (Headquarters, Northern, Central, or Southern). If the case is assigned by the OIA region to a locally designated investigator, the case shall receive a case number and be supervised by a Senior Special Agent from the OIA regional office. The locally designated investigator shall complete the case and return it to the Senior Special Agent for final review before it is noted as complete in the CMS.

31140.18 Logging Allegations

In accordance with Penal Code Section 6065(b)(2), all Internal Affairs allegations or complaints, whether investigated or not, shall be logged into CMS and numbered sequentially on an annual basis. The log shall specify, but not be limited to, the following information: The sequential number of the allegation or complaint, the date of receipt of the allegation or complaint, the location or facility to which the allegation or complaint pertains, and the disposition of all actions taken, including any final action taken. The log shall be made available to the Inspector General.

31140.19 Case Management System

The OIA Information Technology personnel shall maintain, control, and secure an electronic CMS for purposes of security and efficiency and to allow real-time documentation of case activity by investigators, Vertical Advocates, and ERO/Disciplinary Officers. In addition to capturing information during the course of an investigation, the CMS will capture post-investigation information, such as case findings, disciplinary action, and legal action.

Users include OIA Central Intake staff; OIA staff, Vertical Advocates, BIR, Hiring Authorities, ERO/Disciplinary Officers, and designated local Internal

Affairs investigators. The OIA may, at its discretion, grant CMS access to other Department staff having significant roles in the employee disciplinary process. For purposes of security and investigative integrity, the OIA shall also have the sole authority to grant or remove access to the CMS for any CDCR employee.

The OIA shall create and maintain a user manual for the CMS that shall provide detailed operating procedures for OIA employees and other authorized CMS users.

- **New Cases**

As investigative requests are evaluated by the CIU, the request/case shall be opened in CMS and key information, such as allegation, case type, and initial case decisions shall be recorded in CMS. If an investigation is opened, case assignment information shall be entered in CMS.

- **Ongoing Cases**

Investigators and authorized users shall use CMS to record case activity, monitor case progress, and provide a real-time record of decisions. Other authorized users may use CMS to monitor case activity or record pertinent actions, activities, and decisions.

- **Closing Cases**

Investigators, Vertical Advocates, and Hiring Authorities shall refer to and comply with DOM, Section 3, Article 22 regarding investigative review and case closure.

31140.20 Criminal Investigations

A criminal investigation should be conducted for an allegation of employee misconduct when there is reason to believe the employee has committed a violation of criminal law and an outside law enforcement agency is not conducting an investigation. The CIU shall identify and document the potential criminal violation and the facts and evidence represented in support of the complaint. The CIU shall refer the case to a SAC for the respective region who will assign the criminal investigation to a Senior Special Agent for supervision.

Upon case initiation, the Senior Special Agent or the Special Agent shall confer with the Vertical Advocate, for designated cases, and the SAIG for cases monitored by the BIR. Upon completion of the investigation, if probable cause exists to believe that a crime has been committed, the investigation shall be referred to the appropriate agency for prosecution.

Criminal investigations shall be conducted in compliance with all laws, regulations, and departmental policies.

31140.21 Administrative Investigations

An administrative investigation shall be conducted into allegations of staff misconduct that are violations of policy, procedure, or law. Administrative investigations may be conducted concurrently or subsequent to a criminal investigation. The determination of whether to conduct the administrative investigation concurrently with the criminal investigation shall be made by the Senior Special Agent in consultation with the Vertical Advocate and BIR in conjunction with the prosecuting agency. In addition, the prosecuting agency shall be consulted prior to any compelled subject interview when criminal charges or court proceedings are pending. If the prosecuting agency requests the Internal Affairs investigation be delayed pending criminal prosecution, that request shall be documented in the case file and in CMS. An administrative investigation, adverse action, or both, shall not be delayed unless it clearly would jeopardize the criminal prosecution.

In an administrative investigation, an employee does not have a right to refuse to answer questions likely to lead to the discovery of relevant evidence as determined by the investigating entity. When the employee is compelled to answer these questions, the answers cannot be used against the employee in a criminal or state court civil proceeding subject to certain exceptions. In an administrative investigation of a peace officer involving possible criminal conduct, the peace officer shall be advised of his/her constitutional rights before questioning, followed by the "Lybarger warning" if he/she refuses to answer the questions on the grounds the answer may be self-incriminating. [Refer to Government Code Section 3303 (f) and (h).]

31140.22 Retaliation Investigations

OIA is responsible for investigating retaliation as defined under the California Whistleblower Protection Act and other California retaliation protective statutes, except for retaliation associated with EEO complaints and processes which fall under the responsibility of the OCR. EEO related retaliation complaints that are received by OIA shall normally be forwarded to OCR for review and consideration.

Upon receipt, the OIA CIU shall conduct a review and analysis of all non-EEO related retaliation complaints. Each complaint shall be evaluated on its merits to determine if a prima facie case of retaliation can be established.

In order for a complaint or referral for investigation to establish a prima facie case of retaliation and be accepted by OIA, the following must be established:

- That an employee directly or indirectly used or attempted to use official authority or influence for the purposes of intimidating, threatening, coercing, commanding, or attempting to intimidate, threaten, coerce, or command for the purpose of interfering with the reporting of an improper governmental activity or making a protected disclosure; **or**
- That the employee: a) made a disclosure to a manager or supervisor of what is believed to be an improper governmental activity; b) was or is cooperating in an investigation of improper governmental activity; or c) refused to obey an illegal order or directive; **and**
- The alleged retaliator was aware of the protected activity, protected disclosures, or failure to obey an illegal order; **and**
- The employee subsequently suffered reprisal, retaliation, threats, coercion, intimidation, or similar acts; **and**
- There was a causal connection between the protected disclosure, protected activity, or refusal to obey an illegal order and the adverse acts.

31140.23 Workers Compensation Fraud Investigations

The OIA is responsible for investigating Workers' Compensation fraud. Penal Code Section 550 and Insurance Code Section 1871.4 define the law relating to Workers' Compensation insurance fraud.

It is a felony to present a false or fraudulent claim to receive Workers' Compensation benefits. Fraud can occur at any time during the life of a Workers' Compensation claim; from the initial filing of the claim, to false statements to the employer, doctor, medical care personnel, physical therapist, claim representative, or anyone else involved in the administration of the claim and the determination of available benefits. Fraud can occur even if the initial injury was legitimate and the filing of the claim was warranted if the employee later makes a material false statement or misrepresentation.

31140.24 Deadly Force Investigations

The OIA investigates all reported use of deadly force incidents resulting in injury and all reported uses of nondeadly force resulting in death or fatal injury. These deadly force incidents do not generally include inmate assault/battery on staff or warning shots in an institution/facility setting. The OIA shall deploy separate Deadly Force Investigation Teams (DFIT) to conduct criminal and administrative investigations as soon as is reasonably practical after receiving a report of such an incident.

• DFIT–Criminal Team

The DFIT-Criminal Team conducts deadly force criminal investigations either independently or in conjunction with appropriate local law enforcement agencies or district attorney's office. In some cases and locations, the criminal investigation will be conducted by the local law enforcement agency in accordance with MOU's between the Department and the local law enforcement agency. In these cases, the DFIT-Criminal Team will monitor the progress of local law enforcement and assist when appropriate.

• DFIT–Administrative Team

The DFIT-Administrative Team conducts deadly force administrative investigations as required to determine whether the use of force complied with department policies and procedures and to identify any need for policy, procedure, training and/or equipment modifications. The DFIT-Administrative Team refers and presents the completed investigation to the Deadly Force Review Board for disposition.

The OIA shall also refer to CCR Section 3268.1 for additional guidance and requirements governing deadly force investigations.

31140.25 Employee Representation Rights

Employees are entitled to representation during investigative interviews consistent with MOU's, Public Safety Officers Procedural Bill of Rights Act, and other State and federal laws. A personal advisor, attorney, or another state employee designated by the subject or witness may attend any interview that may lead to adverse action. Employees who are possible subjects or witnesses in the investigation are excluded as employee representatives.

31140.26 Temporary Authorization (TAU) Appointments

Employees with a temporary authorization (TAU) appointment status are not entitled to have a representative present during an interview which is preparatory to a separation from the TAU appointment. However, if a proposed action against an employee in this status is attributable to a specific incident that would have resulted in an adverse action, investigatory interviews shall be handled like adverse action cases and employee representation shall be allowed as prescribed by law.

31140.27 State Time

Use of State time for investigative matters shall be approved by the employee's supervisor. Absent an emergency, employees may request and shall be allowed reasonable State time by the supervisor to contact/secure a representative and to discuss the matter prior to any meeting/interview that may lead to adverse action. The employee shall also be allowed reasonable State time to prepare for the interview/meeting with the representative.

31140.28 Statute of Limitations

Government Code Section 3304(d) and (g) for public safety officers and Government Code Section 19635 for nonpublic safety employees shall be adhered to regarding statute of limitations for administrative investigations.

31140.29 Memoranda of Understanding

In addition to complying with the provisions of law and regulation, OIA staff shall also adhere to conditions detailed in the various bargaining unit MOU's. All investigators shall be familiar with the employee investigation requirements of these agreements and their application to the investigation process.

31140.30 Investigator's Field Guide

Internal Affairs investigations shall be conducted with due diligence and completed in a timely manner in accordance with the law, applicable MOU's, and the OIA's Investigator's Field Guide.

31140.31 Subject Interviews

All departmental employees under investigation and subject to interview by an investigator shall be informed of the following before such interview: (1) Name and classification of the investigator; (2) Name and classification of all other persons to be present during the interview; and (3) The nature of the investigation in sufficient detail to allow the employee to respond to the allegations.

31140.32 Witness Interviews

If during a witness interview, facts are discovered that indicate the witness may have committed misconduct, the OIA investigator shall immediately discontinue the interview, even if the facts/admissions are not related to the incident being investigated. The OIA investigator shall reschedule the interview applying all employee procedural safeguards related to a subject of investigation/inquiry.

31140.33 Recording Interviews During an Investigation

During OIA investigations, all noticed employee interviews concerning matters that could lead to an adverse action shall be audiotape-recorded.

Any audiotape recording of a noticed investigatory interview shall be as follows:

1. Made openly and with the full knowledge of the employee being interviewed;
2. Completely documented as part of the final report; and
3. Retained for later transcription, if needed.

An employee being interviewed as the subject of an investigation may audiotape-record any portion of the interview and have access to the Department's audiotape recordings if any further proceedings are contemplated or prior to any further interrogation at a subsequent time. If a subject audiotape-records the interview, he/she may retain possession of his/her audiotape upon the conclusion of the interview.

An employee being interviewed as a witness of an investigation may audiotape-record the interview, but may not retain the original or a copy of the audiotape recording. Digital recorders shall not be allowed in witness interviews, unless the employee agrees to relinquish possession of the recorder at the end of the interview. The employee shall have access to the audiotape recordings made by the Department and the employee before any subsequent interview.

All audiotape recordings shall be retained with the original investigative/inquiry report. Audio recordings are part of the investigative/inquiry report and are confidential.

This Section does not apply to surreptitious recordings conducted during a criminal investigation.

31140.34 Criminal Investigations - Witness Assertion of Fifth Amendment Privilege Against Self-Incrimination

A witness in a criminal investigation has the right to assert his/her Fifth Amendment privilege against self-incrimination when: (1) He/she has reasonable grounds to believe that his/her testimony may be used against him/her in the criminal matter under investigation or in a future criminal proceeding; or (2) That his/her testimony might uncover other evidence against him/her in a criminal matter.

Witnesses cannot assert the Fifth Amendment privilege against self-incrimination solely to protect others from possible criminal prosecution or solely to avoid providing information to investigators.

31140.35 Administrative Immunity from Disciplinary Action

Requests to confer administrative immunity during an investigation must be processed in accordance with the CDCR's Policy on Immunity during Internal Affairs Investigations. The policy may be obtained by contacting the OIA.

31140.36 Criminal Misconduct Discovered During an Investigation/Inquiry

If an investigation or allegation inquiry reveals a possible violation of criminal law, the OIA investigator shall present the facts of the case to the Regional SAC.

- The SAC shall coordinate with the CIU so that the additional allegation can be presented to the CIP. If urgent circumstances exist that require immediate investigative response, the SAC should initiate such action and advise the CIU subsequently.
- If approved by the CIP, a criminal investigation by OIA shall be conducted, and the case presented to the local prosecuting agency for possible prosecution if there is probable cause to believe a crime has been committed.
- When criminal prosecution is possible, the designated Special Agent should consult with the prosecuting authorities before interviewing the involved employees.
- If, in a criminal case, the prosecuting agency declines to prosecute, this fact and the reason for the decision not to prosecute shall be documented in the CMS by the assigned investigator.

31140.37 Administrative Misconduct Discovered During an Investigation/Inquiry

If an investigation/inquiry of alleged employee misconduct reveals possible additional misconduct, the OIA investigator shall present the facts of the case to the SAC. The SAC shall promptly notify the Hiring Authority and consult with the Vertical Advocate to determine if the additional allegations should be included with the existing investigation/inquiry or presented to the CIP. After consultation with the SAC, additional allegations shall be added if appropriate and the investigation of the additional allegations shall be conducted by OIA.

31140.38 Confidentiality of Investigations

All investigative records of the OIA are confidential. OIA investigators, locally designated investigators, OIA support staff, and others involved in an investigation/inquiry shall not discuss with others, except Department legal counsel and the OIG, any aspect of any investigation/inquiry record without approval of OIA.

All other Department staff not mentioned above involved in an investigation/inquiry, including witnesses and administrators, shall not discuss any aspect of any investigation without approval of OIA excepting discussions with their employee representative and legal counsel.

31140.39 Correspondence Relating to Any Internal Affairs Investigation

All correspondence related to any Internal Affairs investigation shall be clearly marked "CONFIDENTIAL." Correspondence includes, but is not limited to, reports, evidence, recordings, photographs, documents, or investigative material concerning any Internal Affairs investigation. When sending correspondence through the United States Postal Service, departmental mail, United Parcel Service, or other courier service, such material shall be sealed in a manner designed to prevent or reduce unauthorized access.

31140.40 Investigative Report

All reports shall be submitted in the standard format provided by the OIA beginning with a statement of the allegation or complaint, shall provide all relevant facts, and shall include the investigator's signature. The report shall address material contradictions, but shall not include any conclusions regarding disposition of the investigation.

31140.41 Distribution of Investigations

Upon completion of each Internal Affairs investigation, the investigator shall forward the investigative report, all supporting documents, investigative notes, and case file documents to the SAC; the Vertical Advocate for designated cases; and the SAIG for cases monitored by the BIR. For designated cases and cases monitored by the BIR, the forwarding and distribution of copies shall be undertaken consistent with DOM, Section 3, Article 22. The investigator shall store his/her investigative report in CMS.

For all other cases, upon approval of the completed investigation, the Regional SAC shall forward a complete copy, including a copy of all exhibits, investigative notes, and case file documents to the Hiring Authority who requested the investigation. In the event that the requesting Hiring Authority became a witness or a subject of the completed investigation, the investigative report and supporting documentation shall be forwarded to the Hiring Authority's immediate supervisor.

Upon completion of any additional investigation that may be requested by the Hiring Authority, Vertical Advocate for designated cases, or the SAIG for cases monitored by the BIR, the Regional SAC should forward a letter to the subject of the investigation advising the subject that the investigation has been referred to the Hiring Authority. The Hiring Authority shall review the investigation package, determine the investigative findings, and initiate disciplinary action, if necessary, consistent with DOM, Section 3, Article 22.

A complete copy of the investigation and case file shall be maintained by the OIA.

31140.42 Maintenance of Investigation/Inquiry Records, Files, and Complaints

All reports, documents, evidence, and other materials or information relative to any investigation shall be processed and stored in a manner precluding unauthorized access or disclosure (refer to Penal Code Sections 832.7 and 832.8, and Evidence Code Sections 1043 and 1046).

The Hiring Authority shall ensure the proper maintenance and security of investigation/inquiry records and files pursuant to Penal Code Sections 832.5 and 832.7.

31140.43 Purging Investigation/Inquiry Records

Investigation records shall be purged and destroyed as provided in the Records Retention Schedule. Purging may be postponed if litigation or potential litigation is pending, or if there are other justifiable reasons. The OIA shall forward a request, by memorandum, regarding approval/disapproval to purge investigative records to the Hiring Authority of each employee investigation and to the OLA. The Hiring Authority and OLA shall review current litigation with appropriate staff before authorizing, in writing, the purging of these records.

31140.44 Revisions

The Assistant Secretary, OIA, or designee shall be responsible for ensuring that the contents of this Article are kept current and accurate.

ARTICLE 15 — RELEASE OF PAYROLL WARRANTS

Revised September 3, 2013

31155.1 Policy

It is the policy of the Department that all employees receive a payroll warrant each payday. For all fulltime and fractional timebase employees, payday is the last working day of each pay period (Master Payroll). For intermittent/hourly employees, payday is no later than the 15th day of the following month. These dates may be affected by any late payroll adjustments (e.g., late dock).

State Administrative Manual (SAM) 8580.2 states that when a pay period ends on a normal workday (Monday through Friday), departments may

release salary warrants anytime on that day after the employee has completed the work for the pay period. When the pay period ends on a Saturday, Sunday, or a holiday, departments may release salary warrants anytime on the last preceding normal workday (Monday through Friday) provided the employee has completed the work for the pay period. If employees are going to deposit or cash their warrants prior to the issue date, they should be cautioned to do so just before bank closing time, or 4:00 p.m., on those days when the banks are open until 6:00 p.m.

Generally, Master Payroll warrants are not to be released until the completion of work on payday or before 3:00 p.m. on payday, whichever is earlier. Payroll warrants released earlier, or at 3:00 p.m., shall not be deposited or cashed before 4:00 p.m.

In the event of staff use of informal administrative time off as granted by the Governor, payroll warrants shall not be released earlier than 12:00 noon of the last working day in December.

SAM provides for salary advances only when errors or delays in submitting or processing documents make it impossible for the State Controller's Office (SCO) to prepare and deliver proper payroll warrants within a reasonable amount of time. The Memorandum of Understanding (MOU) limit the number of annual salary advances, and identify the time frame in which late dock salary advances shall be issued.

31155.2 Purpose

This Article sets forth the procedures for the early release of payroll warrants and the release of payroll warrants after normal work hours, and addresses late dock salary advances.

31155.3 Direct Deposit

Employees may avoid this process by signing up for Direct Deposit (DD) of their payroll warrants. It is strongly urged that employees make arrangements for DD of their payroll warrants. STD Form 699, Direct Deposit Enrollment Authorization, may be obtained from the Personnel Office. The bank routing number from the financial institution will be necessary. It will take approximately 30 to 45 days from the time the SCO receives the STD Form 699 to credit the employee's payroll warrant to the designated bank account.

31155.4 Early Release of Payroll Warrant

Payroll warrants may be approved for early release, but no earlier than one day prior to the normal payday. Early release of the Master Payroll warrants may be allowed for the following reasons:

- Employees are required to travel on State business on payday.
- Employees are called away on personal emergencies or for unforeseen urgent matters on payday.

Acceptable Reasons

Examples of personal emergencies or unforeseen urgent matters include, but are not limited to, the following:

- Death in the immediate family.
- Medical emergency or sudden illness in the family.
- Acts of vandalism which have caused significant damage to a vehicle which requires immediate repair.
- Emergency home repairs due to unforeseen events such as fire, flooding, storm damage, theft, or vandalism.

Good judgment should be used in requesting and approving early release of payroll warrants.

31155.4.1 Responsibilities of an Employee Requesting an Early Release of a Payroll Warrant

To request an early release of a payroll warrant, an employee shall complete a CDCR Form 1816, Request for Early Release of Payroll Warrant, and include:

- The need for an early release of a payroll warrant with sufficient explanation of the circumstances, i.e., away from the work place on payday due to State business travel, personal emergency, or unforeseen urgent matter and not on leave status.
- Employee's signature stating the payroll warrant will not be deposited or cashed before 4:00 p.m. on the official payday.

Early release of payroll warrants shall not be approved if the employee is:

- Utilizing leave credits for other than personal emergency or unforeseen urgent matters on payday.
- On extended sick leave.

Employees in these situations have the following options:

- Provide a self-addressed, stamped envelope in which to have their payroll warrant mailed.
- Initiate DD with their bank or credit union.
- Designate, in writing, another person (including the designated person's social security number) to pick up the employees' payroll warrant(s) for them.
- Obtain their payroll warrant upon returning to the workplace.

Employees with flexible work schedules may not request early release of their payroll warrant because payday falls on one of their Regular Days Off (RDO). If employees are on a mandatory 4/10 timebase, the accounting office will release their payroll warrants upon completion of their work shift, at the end of the pay period, but not more than one day before payday, and only if payday falls on one of their RDOs.

Note: Violations of the early warrant release policy may result in suspension of all early releases of payroll warrants at the facility, parole region, or headquarters. If control agencies note widespread violations,

CDCR may be suspended from releasing any payroll warrants early.

31155.4.2 Designation of an Early Release Request Reviewer

Wardens shall designate a staff member, at a level of Correctional Business Manager I or above, to review all CDCR Form 1816s for their respective facilities.

Since payroll warrants of parole region staff are normally mailed to the parole region offices prior to payday, each Regional Parole Administrator shall be responsible for the approval of any early release of payroll warrant requests for their respective regions. Regional Parole Administrators may designate their Deputy Regional Parole Administrator or their Assistant Regional Parole Administrator to review all CDCR Form 1816s for their respective parole regions.

The Chief of Accounting Management Branch, headquarters, is the designated reviewer for headquarters' unit's early releases.

31155.4.3 Responsibilities of the Supervisor of the Requestor

Prior to signing and forwarding the CDCR Form 1816, it is the responsibility of the supervisor of the requestor to:

- Review the request.
- Verify the personal emergency or unforeseen state of urgency for appropriateness.
- Verify the employee will be away from his or her work site on State business on payday.
- Verify the employee has sufficient leave credits available to cover the completion of work in the pay period.
- If approved, sign the CDCR Form 1816 and forward it to the designated reviewer with all the appropriate supporting documentation.
- If denied, return the CDCR Form 1816 to the employee.

31155.4.4 Responsibilities of the Designated Reviewer

Prior to signing and forwarding the CDCR Form 1816, the designated reviewer shall:

- Review the request for appropriateness.
- Request further verification, if necessary.
- If approved, sign the CDCR Form 1816 and forward it to the accounting office or to the parole unit office with all of the appropriate supporting documentation.
- If denied, return the CDCR Form 1816 to the employee.

California Department of Corrections and Rehabilitation
Associate Director - Accounting
Sacramento Management Branch

- Maintain a copy of each CDCR Form 1816 (approved or denied).

31155.4.5 Responsibilities of the Accounting Office / Parole Unit Supervisor

The accounting office or parole unit supervisor for the parole region shall:

- Notify the employee when the payroll warrant may be picked up.
- Maintain a warrant log of the payroll warrant number, employee name, and signature of employee when he or she picks up the payroll warrant. Substitutions for a warrant log must receive prior approval from the Chief of Accounting Management Branch in headquarters.

31155.5 Late Dock Salary Advance

When an employee does not receive a payroll warrant on payday, the Department agrees to issue a salary advance, consistent with the MOU and Department policy and under the following conditions:

- When errors or delays occur in processing the payroll documents through no fault of the employee, a salary advance shall be issued on payday for an amount close to the actual net pay.
- For represented employees, the number of salary advances allowed per calendar year is defined in the bargaining unit contract. If the employee has not exceeded the maximum number of salary advances allowed by their respective MOU, a salary advance for the amount close to actual time worked in the pay period shall be issued within five workdays after payday.
- An employee with late dock who has exceeded the maximum number of salary advances allowed by his/her respective MOU shall receive his/her corrected SCO payroll warrant when it has been reissued by SCO.

31155.6 Release of a Payroll Warrant After Hours, Weekends, or Holidays

This section only pertains to 24-hour facilities. There shall be no provisions for release of payroll warrants after-hours, weekends, or holidays for headquarters staff.

Wardens should establish procedures for releasing payroll warrants other than on normal workdays (Monday through Friday) and normal work hours (8:00 a.m. to 5:00 p.m.) and ensure that:

- Staff (e.g., control room or assignment staff) are not designated to handle payroll warrants if their duties are incompatible with the requirements regarding the handling of payroll warrants. (See DOM 31155.6.1.)
- A warrant issuance log is maintained by the above-designated staff. The warrant issuance log shall include the warrant number, printed employee name, and the signature of the employee whose payroll warrant is being released.
- In lieu of the above warrant issuance log, a printed alpha roster with the names and social security numbers of all employees may be used. Warrant numbers must be printed on the roster.
- The facility designates a secured area where the payroll warrants shall be locked safely when unattended and available only to the designated staff.
- The facility establishes procedures to transfer custody of the payroll warrants and the warrant issuance log:
 - Between designated staff at each change of shift.
 - When the payroll warrants and warrant issuance log are picked up from and returned to the accounting office.

This procedure shall require the designated staff to be fully accountable for payroll warrants at all times; and that the undistributed payroll warrants and the completed warrant issuance log will be returned by the designated staff to the accounting office on the first normal workday after the weekend and/or holiday when the accounting office opens.

Unless a facility is unable to meet all of the above requirements or has other extenuating circumstances that would prohibit implementation, all Wardens are strongly urged to implement a process for releasing payroll warrants after-hours, on weekends, and holidays. Implementation of such procedures shall not result in additional cost to the State, nor affect institutional security.

If a facility cannot meet any one of the above requirements, the Warden may seek an exemption from the requirement if an alternative means is established to compensate for that requirement. Exemption from any of the above requirements shall be made in writing to:

It is strongly recommended that all accounting offices extend their hours each payday to accommodate as many of the different shifts/work schedules as possible and minimize the need to establish procedures for releasing payroll warrants during weekends or holidays. Payroll warrants released shall not be deposited or cashed prior to 4:00 p.m. on payday.

31155.6.1 Designation of Staff to Distribute and/or Handle Payroll Warrants

Per SAM 8580.1, State agencies will observe the following separation of duties in designating persons who can certify or process personnel documents to SCO, Division of Personnel and Payroll Services. Persons designated by agencies to receive salary warrants from SCO, or to distribute salary warrants to employees, or to handle salary warrants for any other

purpose will not be authorized to process or sign any of the following personnel documents:

- STD Form 603, Absences Without Pay Report.
- STD Form 634, Absence and Additional Time Worked Report.
- STD Form 666, Payroll Exceptions Report.
- STD Form 672, Time and Attendance Report.
- STD Form 674, Payroll Adjustment Notice.
- STD Form 680A, Personnel Action Request.

Additional forms that shall not be processed or signed by persons designated to distribute or handle payroll warrants are:

- CDCR Form 998-A, Employee's Record of Attendance.
- STD Form 671, Miscellaneous Payroll/Leave Actions.
- State Controller's CD Form 113-B, Proof of Lost or Destroyed Payroll Warrant and Request for Issuance of Duplicate Warrant.

As outlined in Accounting Standards Board (ASB) 1991-6, and in SAM 8080 for the purposes of separation of duties and adequate internal control, payroll warrants shall not be disbursed by the person who authorized the disbursement, nor by the person who prepared the warrant.

31155.6.2 Responsibilities of the Institution/Facility and Accounting Office

The accounting office shall prepare a warrant issuance log that identifies the total number of payroll warrants turned over to the designated staff. The warrant issuance log shall be released to the staff member(s) designated by the Warden. The designated staff will sign for the payroll warrants.

On the first normal workday after the weekend or the holiday, the accounting office will receive the warrant issuance log and the undistributed payroll warrants from the designated staff. The accounting office will be responsible for verifying the warrant issuance log against the remaining payroll warrants.

Leaving the payroll warrants for an extended period of time outside the accounting office with another unit is not recommended.

ARTICLE 16 — MANAGERIAL PERFORMANCE APPRAISAL SYSTEM

Effective April 22, 1991

31160.1 Policy

Public concern regarding the cost of government has motivated legislators and public administrators to increase the efficiency and effectiveness of government. One point of focus has been in the area of employee performance appraisals.

Recent advancements in the development of appraisal methods have renewed efforts to make better utilization of this powerful management tool, especially as it applies to managers. Performance appraisal properly carried out enhances clarification of job duties and responsibilities.

31160.2 Purpose

The Managerial Performance Appraisal System (MPAS) provides more effective management by recognizing superior performers (through bonuses), and serving as an incentive for managers to strive toward efficiency and prepare them for promotion. The program is designed to communicate and clarify work objectives; provide a standardized method of reporting work performance; distinguish between superior, good, and poor performers; and help deal with below standard managerial performance.

31160.3 Participants

Participation in MPAS is mandated by GC 19992.8 through 19992.14. Exceptions to non-participation shall be approved by the Chief Deputy Director. The MPAS Coordinator shall be provided with written notification of such action.

Classification of Participants

Permanent or limited-term employees in a designated managerial classification. A managerial classification is defined as an employee having significant responsibilities formulating or administering Department programs and policies as mandated in GC 3513 (e). Exempt employees, except those designated as higher level reviewers, are also included.

Ineligible Participants

Non-managerial employees who are serving on training and development assignments to designated managerial classes are ineligible to participate, as are managerial employees who are on training and development assignments to non-managerial classes. Similarly, employees on acting assignments to designated managerial classes are not eligible to participate.

Separated Employee Participants

Managers who retire, leave State service or voluntarily demote to a non-managerial position are also covered if they participate in the minimum appraisal period as defined below. Additionally, managers assigned temporarily outside their parent organization or those who transfer between departments are covered if they meet the minimum appraisal period requirements.

Immediate Supervisor

The supervisor who is responsible for rating the manager quarterly and annually.

Designated Higher Level Reviewer

The appointing authority, or the Chief Deputy Director/Director, who makes final evaluation and bonus decisions.

The designated higher level reviewer (Warden, RPA, Deputy Director, Chief Deputy Director or Director) reviews the quarterly and final rating and nominates bonus recipients. These individuals are exempt from MPAS as their role presents a potential conflict of interest.

31160.4 Appraisal Period

The MPAS appraisal period begins July 1 and concludes June 30 each year. Evaluations are due at the end of every third month (September, December, March and June) with the final or annual evaluation also due by June 30.

Minimum Appraisal Period

The minimum appraisal period is 90 days. Managers employed for less than 90 days during an appraisal year will not be included in the program.

Minimum Bonus Appraisal Period

The minimum participation period for bonus eligibility is 180 days. Appraisal quarters may be added together to meet the 180-day minimum. Routine vacation and sick leave are not subtracted from the 180 days; however, extended leave of 60 days or more is subtracted.

31160.5 Appraisal Process

Appraisals shall be based on organizational goals. Each manager will be assessed on their contribution toward the accomplishment of those goals. Organizational goals shall be translated into annual work plans consisting of critical elements for each manager.

31160.5.1 Work Plans

Each manager shall have a work plan prepared and approved prior to the beginning of the appraisal year. A narrative or memorandum style is acceptable. This plan is developed by the manager and their supervisor, signed as acceptable by both and shall contain the performance elements to be accomplished by the manager during the year.

When MBO goals relate to the manager's scope of responsibility, MPAS work plan elements should incorporate the departmental Management by Objective (MBO) goals.

Any revision to the work plan should be entered within the quarter in which they are effective and initialed by both the supervisor and manager.

Managers appointed after submission of annual work plans will assume the work plan previously developed for the position of a pertinent one exists or will prepare/revise within 90 days of their appointment.

31160.5.2 Critical Elements

The critical element of a work plan is one of such importance that accomplishment of it is essential to the work unit's mission.

Criteria

Each manager's work plan shall contain at least three critical elements. The DPA recommends that no more than seven critical elements be developed.

Critical elements should represent the main thrust of the manager's position and meet the following criteria:

- Give a precise definition of the expected accomplishment.
- Be Challenging, attainable and within the manager's control
- Be clearly stated in terms of needs, specific results, and time periods for each critical element.
- Be subject to reliable periodic measurement that the projected effort is on course and on time.

Critical elements must have "milestones" that can be measured each quarter. This will enhance the review and rating process as well as point out needed modifications to the work plan. Example, "...complete an on site audit of each institution's appeal procedure for compliance with policies, procedures, at the rate of three institutions per quarter, with a report on the first three institutions due September 30, 1991."

Managers are encouraged to develop critical elements that will span the entire 12-month period to provide a better basis for evaluation. Each work plan should include a minimum of one critical element that expires in June. Work plans whose critical elements are all scheduled for completion prior to June do not allow for complete quarterly evaluations and ratings.

31160.5.3 Noncritical Elements

MPAS replaces the use of individual development plans for designated managers. Plans for self-development and/or training to be accomplished during the appraisal year shall also be included in the work plan as "non-critical elements". These elements shall not be a determining factor for bonus nomination, as the final ratings shall be based on accomplishment of the critical elements only.

Supervisors may continue to provide performance evaluation summaries for subordinate managers to document their performance in areas beyond the scope of MPAS.

31160.5.4 Evaluation Standards

Evaluations are based on each manager's self-assessment that are prepared quarterly. These self-assessments should provide specific information on the manager's progress toward meeting the critical elements of the work plan. The self-assessments are submitted to the rater for review and form the basis for the manager's quarterly and final summary ratings.

The Managers' General Standard (MGS) provides the yardstick by which managers are measured regarding accomplishment of their critical elements. The yardstick provides fair, equitable and consistent expectations for basic types of activities that are relevant to all state managers. Use of the MGS critical elements does not preclude adding standards for specific accomplishments of a manager's job.

While these standards can be used to hold managers accountable for performance in these areas, the decision to grant a bonus must be supported by "Fully Successful" or above performance on critical elements.

Managers who believe that any element is the MGS does not apply to their duties may submit written justification as to why they should not be appraised on that element. Exceptions however, should be infrequent.

Rating Levels

Five rating levels are used:

- Outstanding.
- Exceeds Fully Successful.
- Fully Successful.
- Minimally Successful.
- Unsatisfactory.

Most ratings for valued, competent managers will be "Fully Successful," which is the level of performance expected of a manager. Relatively few managers should fall into the remaining categories.

31160.6 Rating and Review Process

Progress reviews shall be discussed with each manager quarterly and any time their performance falls below the "Fully Successful" level.

Responsibility of Participants

At the end of each quarter, the participating manager shall prepare and submit a self-evaluation and any supporting documentation to their supervisor for review. The supervisor should address the self-assessment in the progress discussion and consider the documentation when assigning the rating. If, due to intervening priorities, a quarterly objective cannot be met, the work plan due dates should be revised, objectives should be deleted, or new objectives should be included.

Responsibility of Supervisor

Ratings will be assigned at all formal reviews. These ratings shall be recorded on the Managerial Performance Appraisal Summary and signed by the supervisor and managerial employee. The recommended rating and any employee comments shall be submitted to the designated higher level reviewer at each institution, parole region or headquarters unit, and ultimately to the respective deputy director.

Responsibility of Higher Level Reviewer

The higher level reviewer shall:

- Determine if the ratings are factually accurate, properly documented, and consistent with their own impression of how the employee's performance meets the MGS.
- Consider any employee comments/appeals and determine what impact, if any they should have on the ratings.
- Consider all submitted ratings collectively to ensure that the managerial rating standards are being consistently applied and that the overall group of ratings effectively and accurately distinguish the various levels of performance that are present within the rating group.

Any changes in the ratings shall be supported by written comments and must be communicated back to the employee and supervisor. Employees shall also be provided an opportunity to submit comments/appeals on ratings that are lowered.

Each division shall establish a system or location for retention and retrieval of substantiating documents for audit purposes, (e.g., having division coordinators retain the documentation; having the rater retain the actual documentation and submit a summary of the employee's progress with the quarterly review; or submitting the documentation with the quarterly review and returning it to the rater after review by the deputy director.) EC&ISD coordinates the appraisal/bonus process for managers reporting to the Directorate.

Semi-Annual Review

A semi-annual summary report of work plans, reviews and ratings will be submitted by each division to the Department Coordinator at the end of the second quarter. The Department Coordinator will consolidate these reports and advise the Chief Deputy Director of the status to the program.

Final Review

Overall ratings for the entire appraisal year are assigned at the end of the fourth quarter and are included as part of the fourth quarter progress review discussion.

Appraisals shall be given to all managers transferring to another department, upon departure, if the period worked exceeds 90 days in the current appraisal year. This report will be included in the year-end appraisal.

The organization that a manager is permanently assigned at the end of the appraisal year shall prepare the final appraisal unless otherwise requested by the manager. A manager at their discretion may receive consideration from another department or organizational unit where they served during the year by submitting a written request to that department or organizational unit on or before June 30. The manager shall also at their desecration submit a copy of this request to the department where they are currently assigned.

31160.7 Responsibilities

The following are the specific responsibilities for all participants in the MPAS.

Participants' Responsibilities

Work Plans:

- Prior to the beginning of the appraisal year, each manager shall prepare and submit a designated manager Work Plan and Managerial Performance Appraisal Summary, STD Form 750, for the fiscal year. Managers appointed after the beginning of the appraisal year must either assume the existing work plan for their position or prepare/revise on within 90 days of appointment.
- Work plans shall include critical and noncritical elements.
- Each manager and their supervisor shall discuss the work plan. Both must signify acceptance of the plan by signing the STD Form 750, Part A.
- Work plans are subject to deputy director concurrence.

Quarterly Review/Final Appraisal Summary:

- Each manager prepares a self-evaluation of progress in meeting established objectives. The evaluation and any supporting documentation is submitted to their supervisor prior to the review discussion.
- A formal discussion between the manager and supervisor shall be held each quarter to review progress in meeting, or not meeting, the established objectives. Ratings shall be assigned at each formal review. Both the manager and supervisor shall initial and date the assigned rating on the STD Form 750.
- Work plans may be revised at the time of the quarterly review. Revised plans shall be signed by both the employee and supervisor and are subject to deputy director concurrence.

- An exit review shall be conducted and a rating assigned when an employee vacates a managerial position if the appraisal period exceeds 90 days.

Supervisors' Responsibilities

Work Plans:

- Supervisors must ensure that a work plan and STD Form 750 are completed before the beginning of the appraisal year for each manager under their supervision, or within 90 days of appointment is after the beginning of the appraisal year.
- A discussion of the work plan takes place. Both the manager and supervisor must signify acceptance of the plan by signing Part A of the Form 750.
- Work plans are subject to the deputy director' concurrence, and copies must be submitted to the deputy director, by the Division, Institution and Parole Region MPAS Coordinators.

Quarterly Reviews:

- At the conclusion of each quarter a discussion of the employee's progress in meeting his or her established objectives shall be held and a rating assigned.
- Changes to the work plan may be made at this time and are subject to the procedure outlined under "Work Plans".
- Prior to the discussion, the supervisor reviews the self-evaluation and any substantiating documentation submitted by the employee. This information should be considered when assigning the quarterly rating.
- An exit review must be conducted and a rating assigned when an employee vacates a managerial position if the appraisal period exceeds 90 days.

31160.7.1 Division, Institution MPAS Coordinators' Responsibility

Deputy Directors and Institution Wardens shall appoint an MPAS coordinator.

The Division/Institution MPAS Coordinators shall act as the liaison for managers and raters; monitor the completion and submission of work plans, quarterly reviews, semi-annual rating summaries, final appraisals, substantiating documentation and bonus awards and recommendations; and disseminate information to managers, raters and deputy directors, as appropriate.

Work Plans:

- Verify that each eligible managerial employee prepares a work plan and STD Form 750 for the fiscal year prior to the beginning of appraisal year.
- Verify that a work plan is completed or revised within 90 days when a managerial employee is newly appointed or a previously vacant managerial position is filled. Work plans may be transferred to an employee filling a position where a work plan was previously completed.
- Verify that the work plan is signed by both the employee and the rater signifying acceptance of the terms of the plan (the signature blocks are found in Part A of the STD Form 750).
- Maintain a log of work plans received.

Quarterly Reviews:

- Quarterly reviews of performance are mandatory. Coordinators ensure completion and submission of these reviews within 15 days after the end of the quarter.
- Log the rating.
- Ensure that reviews are done for employees who terminate employment, transfer, promote or demote (to a nonmanagerial position) within the division, institution and parole region or to another division or agency.

Semi-Annual Report:

- A semi-annual summary report of reviews and ratings is forwarded to the Department MPAS Coordinator following the end of the second quarter.

Final Appraisal Summary:

- Ensures completion and submission of the final appraisal summary for all participants.
- Submits final appraisal summaries (for those employees being recommended for bonus awards) and all supporting documentation to the Department MPAS Coordinator.

31160.7.2 Deputy Director’s Responsibility

The work plans for each designated manager within the division, institution and parole region are reviewed by the deputy director or designee for compliance with the criteria described in Section 31160.5.1. Exceptions to participation shall be reviewed and approved by the deputy director prior to submittal to the Chief Deputy Director. When necessary, the work plan is returned to the manager for additional information, clarification or milestones. When changes are necessary, a new plan is prepared and signed, or the employee and rater may initial changes made to the original work plan. Final appraisal summaries and supporting documentation are submitted to the deputy director at the end of the appraisal year.

Each deputy director may recommend up to 20% of the managers within the division for bonus award consideration.

Bonus nominations are submitted to the Chief Deputy Director. An executive summary of each manager’s accomplishment and an explanation of the significance to Department is prepared and submitted in lieu of actual supporting documentation. This summary, the STD Form 750, a copy of the original work plan and any revisions to the work plan must be sent to the Department MPAS Coordinator.

31160.8 Department MPAS Coordinator

The Department MPAS Coordinator (Personnel Office staff member) shall act as liaison for the Division MPAS Coordinators and disseminate information regarding DPA and the Department’s policies and procedures relative to MPAS. Additionally, the Department MPAS Coordinator shall:

- Monitor completion of work plans, semi-annual reviews and ratings, final appraisal summaries, supporting documentation, bonus award recommendations and bonus awards.
- Analyze the above for consistency and adequacy and work with the Division MPAS Coordinators and/or deputy director when changes are necessary. This shall include reviewing bonus nomination packages, and returning for further clarification or forwarding for the Director’s approval.
- Prepare participating manager listings semi-annually and distribute to Division Coordinators.
- Prepare semi-annual status report for the Chief Deputy Director.
- Prepare year-end summaries for the Chief Deputy Director regarding bonus recommendations, funding and award allocations.
- Gather work plans and supporting documentation of bonus recipients from divisions, institutions and parole regions for DPA audit purposes. Respond to DPA inquiries and prepare reports as necessary.
- Prepare congratulatory letters for Director’s signature. Advise the headquarters personnel transactions office of bonus payment procedures.
- Monitor the payment procedure to assure checks and congratulatory letters are delivered in timely manner.

31160.9 Documentation Required for Rating Levels

When performance is reported as “Unsatisfactory,” it shall be accompanied by documentation that includes a recommendation for adverse action such as salary reduction, demotion, separations, etc.

Ratings of “Minimally Successful” require an explanation of the deficiencies and what steps are being taken to resolve the deficiencies.

If the “Unsatisfactory” or “Minimally Successful” rating is due to mitigation circumstances, adverse action is not necessary; however, an explanation of the circumstances shall accompany the appraisal.

“Exceeds Fully Successful” ratings require an explanation as to how the performance is notably better than “Fully Successful,” e.g., what high quality work was completed ahead of scheduled deadlines with less than normal supervision.

“Outstanding” ratings require documentation demonstrating that an exceptionally high quantity and quality of work was performed with little or no supervision.

31160.10 Bonus Nomination/ Selection Process

Bonus determinations are made on a case-by-case basis in comparison with the accomplishments of other managers in the organization. Managers who receive ratings of “Exceeds Fully Successful” or “Outstanding” throughout the year are eligible for bonus awards.

In exceptional cases, an employee may be rated “Fully Successful” on quarterly reports and nominated to receive a bonus. In these rare situation where the critical elements of the work plan, in and of themselves, are so significant that fully successful performance far surpasses outstanding

performance on objectives of a more routine or common nature, the employee may be recommended for a bonus. In such cases, the deputy director must provide supporting documentation that clearly justifies why the bonus is warranted.

Typically, managers receiving less than fully successful on any quarterly report will not be recommended for a bonus.

The Department has established bonus awards for 20 percent of its qualifying participants. To equitably distribute the awards, the bonuses shall be allocated each year on a pro rata basis to each division, institution, and parole region calculated on the number of participants with 180 days or more in the program. This means that the total number of bonus awards allocated to each division, institution, and parole region shall be based on 20 percent of their participants.

Bonus awards may range from \$1,250 to \$5,000; however, the Department typically limits the maximum amount to \$2,500. Awards over \$2,500 may be granted in extremely rare cases and must be supported by exceptional justification.

Bonus award amount guidelines:

Outstanding	\$2,000 to \$2,500
Exceeds Fully Successful	\$1,500 to \$2,000
Fully Successful	\$1,250 to \$1,500

Bonus award decisions shall consider all qualifying performance during the appraisal year, including those occurring in other departments or organizational units. Managers who retire, leave state service or voluntarily demote to a non-managerial position may be considered for a bonus if the period worked exceeds 180 days.

The final appraisal, with all required substantiation attached, shall be submitted to the deputy director. The deputy director will review each appraisal and select managers for bonus nominations.

Bonus Nomination Package

The bonus award nomination package shall include:

- An executive summary of the manager’s accomplishments and the significance to the Department. This summary should specify how the manager met or exceeded the critical elements in their work plan and how the accomplishment of the critical elements benefited the Department. The summary should also include the recommended bonus amount and a brief explanation if the amount exceeds the guidelines. This will assist in post-audit reviews by DPA .
- The completed appraisal summary form that contains all the quarterly rating as well as the final rating and participant’s signatures.
- The original work plan with any revisions.
- Any actual documentation such as self-evaluations, legal documents, graphs, charts or other records should be retained by the division.

Nomination packages are submitted to the Chief Deputy Director, by the Department MPAS Coordinator, for final approval by September 20. The Director and Chief Deputy Director retain final authority for all bonus award decisions. Awards shall be determined by November 1 and payments shall be made by December 15.

Bonus checks are issued by the SCO. The Department MPAS Coordinator will work with Personnel and Payroll Services to request the bonus warrants, prepare a letter of congratulations for the Director’s signature, and distribute the checks and letters for presentation to the nominees. The awards may either be sent by mail or made in person, at the discretion of the Warden or deputy director.

31160.11 Appraisal Appeal Process

The appraisal appeal process provides managers an opportunity to appeal their appraisal. The basis for an appeal is that the performance appraisal report was used to abuse, harass or discriminate against the managerial employee.

31160.12 Revisions

The Deputy Director, Administrative Services is responsible for ensuring that this section is current and accurate.

31160.13 References

ARTICLE 17 — PERSONNEL EXAMINING*Revised January 5, 1993***31170.1 Policy**

Examinations for the establishment of eligible lists shall be competitive and administered in a uniform manner consistent with applicable laws, policies, and sound personnel practices.

31170.2 Purpose

This section outlines the procedures and requirements that shall be followed for examinations and identifies sections/units involved in examining for The Department.

31170.3 Definitions of Testing Options

Testing options available to administer state examinations are as follows:

Decentralized Testing

SPB grants civil service testing authority to departments for promotional and service-wide open examinations for classifications unique or primary to a specific department.

Delegated Testing

A department under the SPB's decentralized testing program is granted authority to delegate civil service testing for classifications specific to one location to enable timelier, more cost effective eligible lists when candidate numbers are typically small.

Open Examination

Utilized when examining for entry-level, specialized or technical classes and the qualified candidate group is outside of state service working in private industry. Career Credits do not apply. Veterans Preference Credits are applied to the open list only if the examination is an entry-level examination (requiring less than a Bachelor's Degree and two years' experience).

Open & Promotional

Utilized when there is an identified, qualified promotional group which is not of adequate size to meet the needs of the department. In this examination, two eligible lists are established (a promotional list and an open list). The promotional list shall be used before the open list. Career Credits do not apply. Veterans Preference Credits are applied to the open list only if the examination is an entry-level examination (requiring less than a Bachelor's Degree and two years' experience).

Open Non-Promotional

Utilized to open competition to both State and private industry employees to produce eligible lists with more highly qualified candidates. Career Credits are applied to the final score of state employees with permanent status. Veterans Preference Credits may apply.

Promotional

Utilized when a qualified candidate group of adequate size is within state service. Career Credits and Veterans Preference Credits do not apply.

Subdivisional

Limits competition to those employed in a specified division or organizational unit within a department that has its own appointing authority.

Statewide

Administered throughout the State in locations where examining facilities are available. This applies to open exams that have positions throughout the State, such as the Telecommunications Technician classification. In this instance, a CDC Form 631, Conditions of Employment, shall be used to determine the location preference of the candidates.

Spot or Local

Administered in a county or a specific geographic location such as Los Angeles County for the purpose of establishing an employment list to fill vacancies in the particular location. Spot or local examinations can be administered either on an open or promotional basis.

Area

An area examination is restricted to a certain geographic location such as San Francisco Bay Area, Northern or Southern California, Sacramento/Yolo Counties. The counties are to be adjoining and candidates shall take the examination for that area only. This applies mainly to open examinations.

Departmental

Limits competition to qualified competitors employed in a specific department.

Multi-Departmental

Limits competition to those employed within agency, such as Department of Water Resources, State Water Resources Control Board, and the Air Resources Board or specific departments, such as the Franchise Tax Board and the Department of Finance.

Service-wide

Allows all qualified state employees to compete without regard to the department in which they work. This type of examination would be administered by SPB and departments with decentralized testing authority.

31170.4 Common Examination Procedures

Laws and rules that govern the administration of examinations within the State's civil service merit system are complied with through the testing entities within the Department.

31170.4.1 Examination Application Acceptance Policy

Examination bulletins publicize final filing dates designed to allow a reasonable time for interested persons to file an application on or before the final filing date.

Strict adherence to filing dates is required by the SPB.

Applicants should be encouraged to file early to ensure timely receipt of their applications.

31170.4.2 Timeliness Determination

If a mailed application is received after the final filing date, the cancellation date stamped on the envelope by the USPS is used to determine whether the application was mailed on or before the final filing date. To avoid dispute, applicants who mail at a USPS Office should obtain a certificate of mailing receipt. This is acceptable proof that the application was submitted in a timely manner. The applicant shall ensure the application is postmarked on or before the final filing date.

Applications placed in interdepartmental mail and not received on or before the final filing date shall be considered LATE applications and will be rejected from the examination.

Following are the conditions under which late applications typically shall **not** be accepted:

- The applicant claims they did not see the bulletin because of distribution problems within the reporting unit.
- The applicant gave an application to another person to turn in to the office that is administering the examination, but it is not received on or before the final filing date.
- The applicant claims the application was mailed, placed in interdepartmental mail, or hand-delivered to the Personnel Examining Section (PES) or other CDC testing offices on or before the final filing date.

A late application shall be accepted under these conditions only:

- If the applicant has a written statement from a USPS official or other witness who verifies the application was mailed on time.
- If the application is postmarked after the final filing, and the USPS verifies in writing this was caused by USPS error.

Following are the conditions under which late applications **may** be accepted:

- The hiring authority verifies in writing that the examination bulletin was not received by the local testing office because of bulletin distribution problems - prevented the employee from being properly notified.
- The unit manager verifies the employee was away from their work during the entire publicity period.
- The application delay was caused by the PES or field office staff error (for instance, an application was returned to an applicant in error).
- Though submitted in error to SPB, the personnel office of another State agency, or another local testing office, the application was either postmarked or date stamped by the State agency or local testing office on or before the final filing date.

31170.4.3 Examination Bulletin Distribution

Examination bulletins are sent to all reporting units in CDC's headquarters (including off-site units), facilities and parole offices.

The local manager shall ensure that all examination bulletins are posted in a place visible to all employees and the public.

Employees shall be responsible to keep themselves informed of testing for classifications currently being administered.

31170.4.4 Testing Information

Examinations scheduled for testing are listed and recorded for easy public access by various state agencies. Recorded message lines are provided by state agencies, including CDC and SPB, and in the California State Telephone Directory. When telephone numbers become obsolete, individuals can contact the State of California Operator on a state telephone line for current information by dialing "0" or on a public telephone by dialing the following:

Sacramento (916) 322-9900
(916) 657-9900

Los Angeles (213) 620-3030

(California Integrated Telecommunications Network (CALNET) replaces ATSS system.)

Current testing information for CDC and SPB is available from the following sources:

- CDC's Examination Line: (916) 322-2694.
 - Announces examinations being administered by CDC's PES and promotional examinations that SPB is currently administering which includes CDC.
 - TDD* Line (California Relay Service) 1-800-735-2922
 - (TDD is a Telecommunications Device for the Deaf. The California Relay Service relays calls between a person using a TDD and any other telephone user within the State).

CDC examination and other job opportunity bulletins may be accessed through the Department's Intranet Website: <http://intranet/index.html>.

SPB's Information Center:

General Information:

The SPB maintains a 24-hour recorded telephone information System that allows callers to access a variety of employment and examination information regarding State civil service. In order to utilize this automated system, you must call from a touch tone telephone. If you do not have a touch-tone telephone, you may request information through the mail. All requests for information must include a self-addressed, stamped, No. 10 envelope and should be sent to:

State Personnel Board
P.O. Box 944201
Sacramento, CA 94244-2010

The SPB has information lines in the following areas:

Los Angeles: (213) 620-6450
San Diego: (619) 237-6163
San Francisco: (415) 557-7871
Sacramento: (916) 445-2689

Examination information for all departments may also be accessed through the Internet at the following Website: <http://www.spb.ca.gov>.

31170.4.5 Examination Data Inspection

Test questions, books, scoring keys, and written test answer sheets used to test competitors when administering examinations cannot be reviewed under SPB Rules 187 and 190. These items are standardized for use in other examinations.

31170.4.6 Prohibition of Individuals from Influencing the Examination Process

Employees shall not use their personal influence to aid or hinder any applicants with whom they have a family or close personal relationship (i.e., an association with an individual by blood, adoption, marriage, cohabitation, etc.) or a working relationship. This policy is consistent with the Department's existing policy on nepotism.

Note: The April 30, 1992 memorandum, "Preparing for Civil Service Examinations" issued by the Department's PES, outlines the departmental policy regarding preparation for examination process if any competitors are disadvantaged by not having the same access to tutoring, help, and/or aids. The best preparation is the day-to-day guidance and direction received on the job.

Employees shall not:

- Aid or hinder any Applicant in any phase of a civil service examination or hiring process because of such relationship.
- Furnish any person with information intended to improve or injure that person's chances during the application or examination phases.
- Defeat, deceive, or obstruct any other person's right of examination, application, or employment.
- Willfully and falsely mark, grade, estimate, or report upon the examination standing of any person examined or certified.
- Participate in the examination or hiring interview of any person with whom they have such relationships.
- Practice deception or fraud with regard to any person's identity in connection with any examination, application, or request to be examined.
- Obtain examination questions/materials before, during, or after an examination for purpose of preparing candidates for examinations.
- Use unfair means to cause or attempt to cause any eligible candidate to waive any rights under these regulations.

31170.4.7 Conduct of Employees with Family or Personal Relationships with Competitors.

To avoid the appearance of improper influence, employees with a family or personal relationship to any competitor shall not participate in any phase of the examination process, including but not limited to:

- Planning.
- Application review of minimum qualifications.
- Question development.
- Written examination proctor.
- Organizational review committee (ORC).
- Qualifications Appraisal (QAP)
- Serve as a rating or reviewing supervisor of the competitor.
- Participate in discussions or ratings of the competitor.

If an employee serving on an ORC, QAP, or participating in the discussion or rating of competitors finds one of the competitors is one with whom they have a family or close relationship, the employee shall not participate in the interview, observation, discussion, or rating of the competitor by leaving the room.

If serving in any capacity in the examination or hiring process an employee discovers a competitor with whom they have a family or close relationship, the employee shall contact PES for direction.

Employees selected to participate in the State civil service examination process shall maintain the competitive and confidential nature of the examination process. Any appearance of improper influence could jeopardize the integrity of the examination resulting in examination appeals from the candidate group and, ultimately, grounds to void an examination.

Violation of the provisions of this section:

- May result in criminal prosecution.
- Shall be cause for adverse action.

31170.5 CDC Examination Services Sections/Units

CDC Examining Sections/Units are:

- Personnel Examining Section (PES).
 - Personnel Examining - Headquarters.
 - RTLU.
- Facility Regional/Local Testing Offices (LTO).
- Selection and Standards Branch (See DOM 31060).
 - Officer Recruitment and Selection Section.
 - Testing Centers.
 - Background Investigation Unit (known as BIU).

31170.6 Personnel Examining Section (PES) Examining Role

This section administers CDC's civil service testing programs, exclusive of entry-level peace officer (Officer, CC-I and PA-I) testing and recruitment. This section conducts major promotional and service-wide open examinations for classifications unique or primary to CDC under the decentralized selection program. Examinations are administered out of the Sacramento PES Headquarters.

31170.6.1 PES Location and Telephone Numbers

Personnel Examining Section
 1050 - 20th Street
 Sacramento, CA 95814
 (916) 322-2694
 TDD Relay Service for the Deaf or Hearing-Impaired:
 1-800-735-2922

Should these telephone numbers become obsolete, refer to the California State Telephone Directory or contact the State of California Telephone Operator as indicated in DOM 31170.4.4.

31170.6.2 PES Objective

PES is the central point for CDC promotional and service-wide open examination administration. PES' objective is to ensure examinations are held to provide qualified candidates to fill CDC vacancies statewide.

31170.6.3 PES Oversight

PES oversees the examining for Department and provides, by the RTLU, oversight and assistance to the local testing offices.

31170.6.3.1 PES Headquarters' Responsibilities

- Provide promotional and service-wide open examinations for CDC; identify annual examination needs; develop bulletins and advertise to inform public and CDC employees of upcoming examinations; review applications for minimum qualifications; administer written tests; coordinate and orient qualification appraisal interview panels; provide evaluations of education and experience (E&E); develop eligible lists; and develop necessary test materials with the aid of subject-matter expert consultants including written tests, interview questions, E&E criteria, etc.
- Address SPB concerns on all appeals from applicants/competitors participating in CDC headquarters' examinations. Review, analyze, and recommend either support or denial of appellant claims.
- Process withholds of eligibles from employment lists when examination problems are identified, such as falsification of applications, clerical error resulting in failure of examination, or dismissal from State service.
- Participate in internal audits of regional/local testing offices to identify facilities' or divisions' compliance with the State's civil service merit system laws and rules.

31170.6.3.2 RTLU Examining Role

Provides technical assistance, guidance and training for delegated examinations administered by the facility regional/local testing offices statewide.

31170.6.3.2.1 RTLU Location and Telephone Number

Regional Testing Liaison Unit
 1050 - 20th Street
 Sacramento, CA 95814
 (916) 322-2545

If telephone numbers become obsolete, refer to DOM 31170.4.4.

31170.6.3.2.2 RTLU Objective

RTLU is the central point for all facility local/regional testing office requests for technical assistance and training, development of statewide policies and procedures to enhance the regional/local testing concept, and administer examinations primarily for entry-level classifications that are locally recruited, such as instructors, medical personnel, supervising cooks, and trade workers.

31170.6.3.2.3 RTLU Responsibilities

Provide functional oversight and training to Institutional Personnel Officers (IPO) and regional/local testing office staff in examining procedures which include:

- Identifying annual examination needs; developing and distributing examination bulletins; establishing application review standards; administration of written tests, qualification appraisal interview panels and multiple panels (when appropriate); scoring of evaluations of E&E; development of eligible lists; securing confidential test materials; and ensuring the integrity of examinations administered.

The RTLU also performs the following functions:

- Develops guidelines and procedures to enhance the ability of the regional/local testing offices to perform their functions efficiently and in compliance with established standards which govern the State's civil service selection process.
- Participate in internal audits of regional/local testing offices to:
 - Identify a facility's compliance with the State's civil service merit system and areas where additional training is required
 - Provide guidance in the correction of identified problems.
- Address SPB concerns on all appeals from applicants/competitors participating in regional/local testing office examinations. RTLU shall review, analyze, and recommend either support or denial of appellant claims on the part of the regional/local testing offices.
- Process withholds of eligibles from employment lists when examination problems are identified, such as falsification of application, clerical error which erroneously resulted in granting a passing score when in fact the competitor failed the written test; or dismissal from State service which was overlooked during application review or which occurred after completion of the examination.
- Serve as a resource to IPOs and regional/local testing office staff on any delegated testing related issues.
- Provide test guidelines, questions, written test books, E&E criteria, etc., upon request from regional/local testing offices to administer their delegated examinations and meet hiring needs.
- Develop necessary test materials with the aid of subject-matter expert consultants when materials are not available for use by regional/local testing offices.
- Evaluate critical statewide program needs and assist in the development of recommendations for resolution and implementation.
- Assist in the staffing process within regional/local testing offices when requested by IPO.
- Participates in the transition of the delegated testing program responsibility and examination history files from P&CD's NPAU to the local testing offices.

31170.8.1 Facility Regional/LTO Locations and Telephone Numbers

31170.8.2 LTO Objective

The LTO's objective is to ensure that examinations are held to provide eligible lists to fill vacancies in the facilities for specific spots and/or regions.

31170.8.3 LTO Responsibilities

Among the LTO's responsibilities are administering delegated examinations for facilities/regions to include distribution of examination bulletin, application review, administration of written tests, coordination and monitoring of qualification appraisal interview panels, scoring of E&Es, and development of eligible lists and examination history files.

31170.9 Personnel Examining Revisions

The Deputy Director, ASD, or designee shall be responsible for ensuring that the contents of this section are kept current and accurate.

ARTICLE 18 — GENERAL TRAINING

Revised June 9, 2010

32010.1 Policy

The Department shall establish and maintain a program of employee training in which all employees shall participate to accomplish the mission, goals, and objectives of the Department. Employee training shall be accomplished according to stated policy and within budgetary restraints. Training shall be on State time when possible. Compensation for overtime worked for training purposes shall comply with the FLSA.

32010.2 Purpose

This section provides a convenient source of departmentally approved training methods, standards, applications, and establishes policy for the planning, implementation, and evaluation of all planned training activities.

32010.3 Disclaimer

When provisions of this Section are in conflict with the provisions of a Memorandum of Understanding (MOU), the MOU shall be controlling.

32010.4 Goals and Objectives

The goal of departmental training is to ensure a well-trained, quality workforce.

The objectives are to:

- Use best practices to provide training for departmental personnel that shall enable them to function at their optimum performance level.
- Work with primary stakeholders to meet all legal and legislative training mandates in a timely and comprehensive manner.
- Provide and maintain quality control through coordination and standardization of basic training programs.
- Monitor and evaluate all training programs.
- To ensure:
 - Quality of presentation.
 - Applicability to the work place.
 - Improvement of performance/increased productivity.
 - Impact on safety awareness.
 - Overall impact on organization.

- Respond to the expanding, changing needs of the Department by coordinating and conferring with primary stakeholders on new training programs and modifying existing programs to meet these needs.
 - Improve training practices and procedures through internal management control systems.

32010.5 California State Training Program

The State Training Policy was developed in 1978 by the State Personnel Board and departmental training officers. Laws relating to training can be found in the Government Code, Sections 19995-19995.5.

Definitions:

Training

The process whereby Department employees, either individually or in groups, participate in a formalized, structured course of instruction to acquire knowledge, skills, and abilities for their current or future job performance. These organized activities shall contain measurable learning objectives that can be evaluated in a classroom setting or in structured On-the-Job Training.

Job-Required Training

Job-required training is designed to assure adequate performance in a current assignment. This includes orientation training made necessary by new assignments or new technology, refresher training, and training mandated by law or other State authority.

Job-Related Training

Job-related training is designed to increase job proficiency or improve performance above the acceptable level of competency established for a specific job assignment. It prepares the employee to assume increased responsibilities in their current assignment.

Upward Mobility Training

Designed to provide career movement opportunity for employees within classifications or job categories designated by the Department as upward mobility classifications. Includes training to facilitate movement of employees from designated classifications into other classifications with increased career opportunities.

Career-Related Training

Designed to assist in the development of career potential and is intended to help provide an opportunity for self-development and achievement of the Department's or State's mission and may be unrelated to a current job assignment.

In-Service Training (IST)

Any formal training sponsored and conducted by any State agency for the training and development of State employees.

Centralized Training

The scope of the course content covers Department policies, procedures, and State and federal legal issues.

Local or Field Training

Training designed specifically to meet the needs of a particular group, facility, or office and presented directly to local employees.

On-the-Job Training (OJT)

Formal training conducted by a supervisor (or a designated employee with the required expertise under the direction of a supervisor) at the job site while the employee is working.

Out-Service Training

Any formal training sponsored and conducted by a non-state agency, the University of California or California State University, and colleges that may be open to the public, as well as State employees. Sponsoring agencies maintain control over the course content for out-service training.

32010.6 Internal Administrative Responsibility

Secretary

The Secretary shall:

- Establish the general policy governing departmental training.
- Establish and maintain a Departmental Training Advisory Committee (DTAC) which shall meet on a quarterly and/or ad hoc basis to review the Department's current training programs and make appropriate policy and practice recommendations to support the Department's training efforts.
- Determine the membership of the DTAC. The committee chairperson shall ensure minutes of each meeting are prepared.
- The DTAC will review and make recommendations on departmental training issues. The DTAC will be responsible for ensuring that all

appropriate training issues and documentation affecting officers are referred to the Department of Corrections and Rehabilitation/Department of Mental Health Apprenticeship Committee (CDCR/DMHAC) for review.

Directors

Directors are responsible for the implementation of all training programs and activities of good quality within their jurisdictions. They shall regularly review the accomplishments and needs of the training programs.

Human Resources Division (HR)

The Deputy Director, HR, is responsible for the development, implementation, and funding of departmental training programs and shall provide for and monitor departmental training.

Division of Adult Parole Operations (DAPO)

The Director, DAPO, in concert with the Regional Parole Administrators (RPA) and OTPD, will establish the objectives, policies, and general content for DAPO training. The overall training objectives (DOM 32010.4) shall focus on employee knowledge, skills, and abilities that will maximize the carrying out of the parole mission in a safe, efficient, and effective manner.

Wardens

Each Warden shall establish a Training Advisory Committee (TAC) for their facility. The TAC shall meet on a quarterly basis and/or as often as the Warden shall designate and shall advise the Warden in matters relating to training for each respective facility. The Warden shall determine the membership of the TAC. The committee chairperson shall ensure minutes of each meeting are prepared.

RPAs

The RPA is responsible for identifying regional training needs based on an assessment of individual employee needs, operational audits, and supervisor/administrator input and for seeing that such training is provided in a timely and cost-effective manner.

Chief, Office of Training and Professional Development (OTPD)

The Chief, OTPD, shall be responsible for:

- The overall management of departmental training programs and ensuring that the Department's training goals and objectives are met. Any departmentally required or mandated training not included in this chapter shall be coordinated through the Chief, OTPD, prior to any decision or agreement to provide the training.
- Determining Basic Peace Officer Institute (BPOI) and Advanced Learning Institute (ALI) training needs, auditing courses currently being presented at BPOI Academies (adult, juvenile, and parole) and training programs (basic/advanced supervision, Sergeants, Lieutenants, and Captains Academies), and functions as an administrative liaison between the Corrections Standards Authority (CSA), BPOI, Administrators, and institutional training managers. These functions may be delegated to the appropriate Administrators.

The Chief, OTPD, and staff shall:

- Coordinate and confer with primary stakeholders to determine departmental training needs, evaluate and assist in the development and implementation of training programs and development of standardized course content.
- Ensure CDCR meets the training standards required by the CSA.
- Liaison for IST Managers and Assistant Managers.
- Assist the Directors, Wardens, and RPAs in accomplishing their training goals and objectives.
- Schedule audits of each facility, parole region, and headquarters' training unit to ensure compliance with policy, procedures, and training plans.
- Ensure timely implementation and overall quality of training programs for headquarters' personnel.
- Prepare and distribute to each Warden, RPA, and IST Manager listings of legally or legislatively mandated training.
- Provide direct supervision to the Administrators of the BPOI and ALI.
- Provide supervision to staff assigned to OTPD who carry out specific training analysis; plan, design, and implement training, to ensure that scheduled training programs are delivered as planned.

Correctional Business Manager, OTPD

Under the supervision of the Chief, OTPD, the Correctional Business Manager (CBM) shall establish the overall direction of the business services functions for OTPD. The CBM shall prepare reports, manuals, and

documents required by CDCR administration, control agencies, and divisional administration. Other functions include, but are not limited to, reviewing and evaluating existing policies and procedures, and the development of Budget Change Proposals.

IST Managers and Assistant Managers

IST Managers and their assistants shall:

- Report directly to the Warden or to the Chief Deputy Warden as designated by the Warden.
- Implement the Annual Off-Post Training Schedule.
- Develop and implement formalized classroom instruction or OJT to meet local operational needs, legal requirements, and individual employee job performance needs.
- Provide the resources and services necessary to ensure planned training is implemented in a professional, effective, and cost-efficient manner.
- Maintain required training records and files.
- Submit required reports within established deadlines.
- Ensure that part-time instructors receive required training.
- Monitor the quality of instruction.
- Ensure that training resources are used only for authorized purposes.
- Serve as vice chairperson of the local TAC.
- Maintain apprenticeship agreements for all apprentices currently enrolled.
- Enroll newly appointed Peace Officers as required by the local level into the Correctional Peace Officer Apprenticeship Program (CPOAP).
- Provide training as needed to new apprentices, supervisors, and managers in the operation/administration of the CPOAP.
- Review progress of the Local Apprenticeship Program.

IST managers ensure that all employees scheduled for attendance at training off-site meet all of the prerequisite criteria for the specific courses scheduled, and shall assist each scheduled employee with necessary and advanced payment for:

- Meals.
- Lodging.
- Transportation.
- Other appropriate expenses.

IST managers will also ensure that information is distributed within the institution regarding scheduled training courses.

DAPO/Divisional Training Coordinator

The Division Training Coordinator (DTC) shall:

- Ensure that all training mandated by law, departmental, or division policy is provided to appropriate staff in the division.
- Ensure necessary resources and technical assistance are provided to the regions to carry out such mandated training programs.
- Be a conduit to the Chief, OTPD, for the submission of annual training plans, audits, necessary reports, and to request technical and fiscal assistance when required.

Parole Regional Training Coordinator

The Regional Training Coordinator shall:

- Carry out regional training programs mandated by the RPA or divisional training mandated by the Director.
- Provide technical assistance to the unit supervisor in conducting unit training.
- Ensure that approved out-service training is provided to individual employees.
- Be at the PA-II level.
- Work under the direction of the RPA or designee.

Parole Unit Supervisor

The unit supervisor shall:

- Assess the training needs of both the unit as a whole and for individual employees assigned to the unit.
- See that these training needs are communicated to the RTC and are met through regularly scheduled unit training.

Headquarters' IST Manager

Under the supervision of the Chief, OTPD, the manager shall be the liaison for all divisional training coordinators. The term "headquarters" includes all

other satellite offices and field offices administered centrally from Sacramento.

The headquarters' IST Manager shall:

- Process Employee Training Requests (CDCR Form 854).
- Register employees for courses.
- Ensure payments to vendors.
- Track division, branch, unit, or office allotments and expenditures.
- Act as a source of training information for headquarters-based supervisors and employees.
- Maintain the training program database and track all completed training for their unit.
- Assist with ensuring employee compliance with all mandated training.
- Maintain employee training records (according to CDCR's Records Retention Schedule).
- Develop and present orientation materials and classes for new headquarters' employees.
- Coordinate both the in-service and out-service training activities of headquarters' employees.
- Maintain training records on employees within the scope of their responsibility.
- Assess headquarters training needs with assistance of a TAC. The composition of this committee shall be approved by the Deputy Director, HR, and the Chief, OTPD.
- Develop an annual training plan that is approved by the Deputy Director, HR, and the Chief, OTPD.

Department Managers/Supervisors

All managers/supervisors shall:

- Assess training needs and requirements of their subordinates and provide them with training that is structured for improvement in areas where job performance deficiencies exist and/or to provide the acquisition of new knowledge or skills.
- Prepare probationary and annual performance evaluations that include a report of the employee's completed training hours, achievements, efforts, and needs. These reports are to be requested through the division's training coordinator.

Employees

Individual employees shall:

- Attend all training identified and required by their immediate supervisor, RTC, or IST Manager.

32010.6.1 External Administrative Responsibility

The Robert Presley Institute of Corrections Research and Training was created by legislation that was signed by the Governor in 1986 (Chapter 3.5 of the California Penal Code).

Presley Institute

In the legislation (PC Section 5085), a specific task was given to the Institute. The Institute is to develop a detailed program for implementation by the Legislature and CDCR. The purpose of the program is to establish a career path to be integrated with the educational process for all juvenile and adult State corrections' personnel in California. The overall goal is to improve the job and career competence of State juvenile and adult corrections' personnel. One method of achieving this goal is to encourage the attainment of post secondary educational degrees. Another method is to establish minimum selection, training, and educational standards for entry or promotion into CDCR positions including entry-level through management and specialized positions.

California Department of Corrections and Rehabilitation/Department of Mental Health Apprenticeship Committee (CDCR/DMH/AC)

The CDCR/DMH/AC, in consultation with the Corrections Standards Authority (CSA), shall research, establish, and monitor standards for the training of Officer Apprentices. The committee is comprised of members representing CDCR management. Nonvoting membership includes representatives from the California Department of Industrial Relations (DIR), Division of Apprenticeship Standards (DAS), community colleges, CSA's legal advisor, and staff from the Department's training programs.

32010.7 Use of Training Resources

The departmental training resources shall be allocated in the following priority order:

- Job-required training.

- Job-related training.
- Upward-mobility training.
- Career-related training.

32010.7.1 Types of Training Resources

Available training types are:

In-Service Training

In-service training (IST) course or activities sponsored and administered by the Department or other State departments individually or in joint agreement for the purpose of developing the skill, knowledge, and/or abilities of State employees. Such training includes courses or activities:

- Sponsored or conducted by CDCR.
- Sponsored or conducted by any other State agency or department.

IST may be designed specifically to meet the needs of a particular group, facility, or office and presented directly to local employee. When close control of course content, learning processes, instructor standards, evaluation methods, and adherence to legal or other mandates is required, IST is used to ensure accountability. By setting and monitoring training standards, OTPD can make certain departmental training needs are met effectively, consistently, and in a timely manner.

Out-Service Training

Out-service training (OST) is any formal training sponsored by a non-State agency and is open to the private sector, as well as State civil service employees. Such training includes courses and activities:

- Offered through accredited colleges or universities.
- Conducted by private consultants, firms, or other non-state agencies, such as federal and/or local governments and special interest groups (i.e., associations, professional groups, etc.).

Employees participating in out-service training may have credit for such training applied toward their annual training requirements on an hour-for-hour basis. In order to receive credit, the following requirements must be adhered to:

- Requests shall be accompanied by a document verifying satisfactory completion of the training.
- The training shall be clearly labeled out-service training on the employee's training history file.
- As specified in DOM 32010.14, participation in out-service training may be substituted for participation in mandated training as specified in DOM 32010.14, with the written approval of the employee's supervisor. The supervisor's signature on the OST request shall be considered written approval for the purposes of this Section.

OST training for the purpose of meeting departmental needs for scientific, technical, professional, and management skills shall be evaluated/processed as follows:

- Training shall be necessary and of direct value to the Department and relevant to the employee's general field of work.
- Training shall provide knowledge, skills, and/or abilities that cannot be cost-effectively acquired through available IST as defined in this chapter (exclusive of specialized training).
- Training with the purpose of covering subject matter not sufficiently or recently encompassed in the employee's previous education/experience or of which the employee would not normally be expected to know prior to their present position.
- Does not include institutes, conferences, and conventions except for those recognized as legitimate training programs by DPA and the Chief, OTPD.

Reimbursement

The employee, or their estate, may be reimbursed for all expenses for related travel, tuition, supplies or other fees if an assignment is completed or terminated prior to completion, either:

- At the convenience of the State, provided the training facility reports satisfactory performance by the employee in the prescribed course of study during the assignment.
- Because of death, prolonged illness, disability, or similar event determined by the Warden/Superintendent or Chief, OTPD, to be beyond the control of the employee.

Authorization

Requests for out-service training shall be forwarded in a timely manner as follows:

- Facilities, to the Warden/Superintendent.
- Headquarters, to the Chief, OTPD, who, if authorizing the assignment, shall establish conditions governing the reimbursement of related expenses.
- DAPO, to the RPA.
- Division of Correctional Health Care Services, to the Director.

Training Categories

Job-required training is provided to ensure adequate performance in an employee's current job assignment. Job-required training includes:

- New Employee Orientation.
- Training necessary for new assignments or new technology (i.e., Basic Supervision and computer training).
- Continuing and refresher training to maintain effective operation of departmental programs (i.e., budget and contract training).
- Safety training.
- Training mandated by law, bargaining unit agreements, CDCR, or other State authority (i.e., Defensive Driver training).

Job-related training increases an employee's job proficiency. Job-related training:

- Improves job performance above the acceptable level of competency established for a specific job assignment.
- Prepares employees for assuming increased responsibilities in their current job assignment.

Upward Mobility training enables employees in designated classifications to compete for positions in targeted classifications with increased career opportunities. Participants in Upward Mobility training must meet the following criteria:

- Must be a permanent employee performing satisfactorily in their current job assignment.
- Must be in a designated upward mobility classification (see Appendix C, Page 21, for listing of classifications).
- Must select one of the targeted upward mobility classifications as a career goal.
- Must have an approved Career Development Plan (99T-13) on file with OPS/OCR/OTPD.
- Must not have completed the minimum requirements for the targeted classification chosen as a career goal.

Career related training is designed to assist in the development of career potential and is intended to help provide an opportunity for self-development while assisting in the achievement of the department or the State's mission. Career-related training may be unrelated to the employee's current job assignment or classification.

32010.7.2 Reimbursement/Prepayment Standards

IST reimbursements are generally attached on State time and funded by the State to at least 100 percent of any related expenses (registration fees, books and materials, travel, per diem, overtime, back-up, etc.).

OST reimbursements are as follows:

Job-Required Training

- 100 percent of tuition, fees, book, and materials.
- 100 percent of travel, per diem, and miscellaneous expenses.
- 100 percent of State time.
- Back-fill, overtime.

Job-Related Training

- 100 percent of tuition, fees, book, and materials.
- 100 percent of travel, per diem, and miscellaneous expenses.
- 100 percent of State time.
- Back-fill, overtime.

Upward Mobility Training

- 100 percent of tuition and fees (limited to a maximum per fiscal year of \$500, per person, per year), books, and materials.
- 100 percent of State time.
- Back-fill, overtime, travel, and per diem are not reimbursable.

Career-Related Training

- 50 percent of tuition and fees (limited to a maximum per fiscal year of 50 percent of the resident registration fees [6.1 or more units] charged

by the California State University and college system), books, and materials.

- Employees must pay any costs at the time of registration and may be reimbursed with proof of completion.
- State time is not allowed.
- Back-fill, overtime, travel, and per diem are not reimbursable.

All categories of OST, except Career-Related training, are eligible for direct prepayment of registration/tuition fees. In order to qualify for funding, OST must be of direct value to the State, be relevant to the employee's career in State service, and be limited to providing knowledge and skills that cannot be economically provided through available departmental IST.

Proof of completion is required for all OST, otherwise no credit can be given. Employees may be required to reimburse the State for IST or OST costs, if the course is not completed. Exceptions may be considered where injury, illness, or problems beyond the employee's control prevents completion of the course.

32010.7.3 College Attendance

It is the general policy of the State of California and the CDCR to consider college courses as primarily career-related training subject to the reimbursement and other rules governing all career-related training. However, it is permissible for employees to attend individual college courses on a job-required, job-related, or upward mobility basis subject to the reimbursement and other rules governing each of those training categories, including advance payment to the college for individual course fees. Reimbursement of costs paid by the employee to the college may be subject to the requirement of a minimum grade of "C" or better for the course. When the course is graded on a "Pass/Fail" basis, a grade of "Pass" must be received in order to qualify for and receive reimbursement.

Alternate work schedules or flexible schedules are allowed in order to facilitate attending college courses where operational needs, as determined by the hiring authority, permit.

32010.7.4 Cancellation Policy

Cancellation of enrollments in CDCR training classes instructed by consultants or other paid instructors will be accepted without charge up to fourteen days before the first day of class. Late cancellations (except those due to personal illness or family emergency) may be charged to the employee or unit.

Unless the training includes individualized pre-work (completing surveys, written assignment, etc.) substitutions may be made at any time before the training begins.

32010.8 Training Personnel

All facility IST Manager positions shall be filled on a permanent basis by a staff member at a second-line supervisory classification such as a Lieutenant, unless otherwise approved by the Deputy Director, HR. The Chief, OTPD, shall be available to assist Wardens in the selection of new IST Managers.

Assistant IST Managers, where authorized, shall be appointed from the rank of Sergeant. Training manager positions within the DAPO shall be appointed from the rank of PA-II.

Advanced training instructors based at the Academy and at the ALI shall be appointed from the rank of Training Officer I or comparable rank.

IST instructors may be selected from staff at any job classification or level.

IST instructors shall have either:

- A teaching credential from a public school district or a regionally accredited college or university.
- Completed a specialized training course for part-time trainers (e.g., Training-For-Trainers [T-4-T]) approved by the Chief, OTPD. Courses or training completed outside of the Department shall be equivalent to or meet learning objectives defined in the T-4-T course of instruction.

Instructors may also be "subject matter experts" and be used as an instructor or assist in the presentation of training under the direction of the training manager, coordinator, or training program administrator.

Personnel who attend a specialized course of instruction provided by a vendor external to CDCR with the intent to provide instruction to departmental staff must submit a copy of their certificate of completion that identifies the area of expertise and/or duration of certification. Obtaining an external certification does not automatically waive departmental certification.

An advanced T-4-T instructor must have successfully completed an Advanced T-4-T course. In order to be admitted into an Advanced T-4-T class, a candidate must submit to his/her prospective Advanced T-4-T instructor his/her resume with references that show the candidate has served

successfully as a trainer in a governmental or corporate organization for two or more years or a teaching credential from a public school district or a regionally accredited college or university.

32010.8.1 Annual Peace Officer Training

All peace officer employees shall be provided a minimum of 52 hours of annual training. 40 hours shall be structured classroom training and 12 hours shall be OJT. All training shall be either individual or group formalized, structured courses of instruction to acquire skills and knowledge for an employee's current or future job performance.

Annual training will be the primary delivery system for peace officers to maintain compliance with Penal Code (PC) Section 832 and other mandated training or applicable contract language.

32010.8.2 In-Service Training (IST) Course Content

A course outline or lesson plan is required for all classes. When departmentally approved lesson plans exist, they shall be used.

Training managers are allowed the flexibility to diversify or consolidate training subjects and programs within established departmental requirements to meet facility/parole region needs and/or budget limitations. A copy of all locally developed lesson plans shall be maintained on file at the local training office. Lesson plans shall be forwarded to the OTPD for review upon request.

All training classes shall include a valid, measurable method of evaluating the proficiency gained through the training. This instrument shall demonstrate the scope of the material presented and job applicability.

32010.8.3 Record Keeping Forms

The following forms shall be used to record training activities, data, and budgetary items:

- CDC Form 843, Training Record and Instruction Sheet. Use of this form or the departmentally offered computer program for IST is mandatory; completed and maintained locally.
- CDCR Form 844, Training Participation Sign-In Sheet.
- CDCR Form 854, Employee Training Request. Use is mandatory for all headquarters' staff requesting training. This form shall be completed and forwarded to the training coordinator for each division.
- CDC Form 907, OJT Documentation. The CDCR Form 907, or other locally approved format for recording OJT, shall be used if credit is given for the training.

32010.8.4 Class Records

For each training activity conducted, the following records shall be maintained:

- CDCR Form 844.
- An approved lesson plan.
- A record of score achieved through a written test or performance demonstration of the learned skill (with the exception of OJT).
- DAS Form 103-A, Apprentice Daily Record. Use is mandatory for all Peace Officer Apprentices.
- The IST Manager reviews apprenticeship files monthly, or more often as deemed necessary. Review and action report shall be completed and submitted with all action forms to the JAC by the Apprenticeship Program Compliance Officers in OTPD by the fifteenth (15th) of the following month.

32010.9 Fiscal Management

Annually, the Chief, OTPD, shall submit a departmental training plan to the Deputy Director, HR, for approval.

Allocation of Funds

The Chief, OTPD shall:

- Allocate training funds to the facilities based on identified needs and approved local training plans.

32010.9.1 Use of IST Funds

Local IST funds may be used only for training as defined in DOM 32010.5. Routine staff meetings and recruitment activities are not considered training activities. A staff meeting that meets the conditions and mandates of this Section may be considered training. Attendance at lectures, meetings, training programs, and similar activities need not be counted as working time if the following four criteria are met:

- Attendance is outside the employee's regular working hours.
- Attendance is, in fact, voluntary.
- The activity is not directly related to the employee's job.

- The employee does not perform any productive work during such attendance (reference FLSA, Section 785.27[d]).

32010.9.2 Reporting Responsibilities

Each facility shall complete a CDC Form 845 and forward it to the Chief, OTPD, by the tenth day of the month for the preceding month. Parole regions shall complete and forward reports quarterly to the DTC.

32010.9.3 Audits

The Chief, OTPD, or designee shall order and/or conduct periodic audits of all training operations within the scope of their responsibility.

Wardens, RPAs, IST Managers, and the Headquarters' IST Manager shall be provided with a list of the dates when regular audits are to be conducted.

Copies of the audit format shall accompany each auditing schedule.

32010.10 Training Requirements

Training of employees shall be done during regular work hours, when possible, or on the employees' off-duty hours when necessary. Compensation for training shall comply with existing policies, law, and MOUs. Within budgetary constraints, the required training shall be provided by the Department and accomplished by the employee.

It is a condition of employment that all employees complete the training required for their job classification/position. Employees who fail to meet these training requirements may have their merit salary award denied or be subject to other administrative sanctions.

Employees shall receive a minimum of eight hours of formal classroom instruction annually. The remaining hours of training required by the employee's job classification may be formal IST, out-service training or OJT, or any combination thereof. (See DOM 32010.13.)

32010.10.1 Orientation of Departmental Employees

All employees new to the Department, regardless of job classification, shall receive orientation training. It is intended the orientation training be provided within 90 days of appointment. Orientation is required in addition to other training requirements.

Orientation shall include an introduction to:

- The California Code of Regulations (CCR).
- Departmental policies.
- Organizational structure.
- Informational Practices.
- Employee's training requirements and responsibilities.
- Equal Employment Opportunity (EEO)/Sexual Harassment.
- Use of force.
- Human Resources Overview/General Personnel Information.
- Employee workers compensation benefits.
- Employee Assistance Program (EAP).
- Communicable Disease Prevention.
- Inmate staff/relations.
- Occupational Health and Safety.
- Prison Rape Elimination Act (PREA).
- Ethics.
- Other subjects as deemed appropriate by the local administrators.

32010.11 Methods of Training and Documentation

OJT

OJT is provided to employees in either a classroom or work setting to ensure acceptable levels of performance and knowledge, and to correct problems.

Upon completion, the supervisor is to record the training on a CDC Form 907 or other locally approved recording format. The employee and supervisor retain a copy and forward the original to the training manager to credit the employee's training record. The CDC Form 907 need not be retained by the training manager after the training has been properly posted to the employee's training record.

When appropriate, IST managers are encouraged to fully utilize this type of training as opposed to off-site training or on-site training that does not fall within the trainee's regular work hours. Full utilization of this method will assist the manager in the reduction of FLSA expenditures and allow more productive use of limited budgetary resources.

On-Site Formal Training

Any locally presented training activity, on-site formal instruction, seminars, and workshops for which training credit is to be given shall be recorded on a CDCR Form 844.

Employees shall complete the required information and the instructor shall ensure that the completed forms are received by the training manager.

Training managers shall credit each attending employee's training record and retain CDCR Form 844 for one year.

Off-Site Training

Employees shall arrange with the training manager appropriate certification of any instruction, seminar, or workshop presented away from the employee's place of work for which training credit is to be allowed.

Upon receipt of the arranged certification, the training manager shall credit the employee's training record. A copy of the Certificate of Completion shall be placed in the employee's training file.

32010.12 Probationary Employees

Entry-level, probationary employees of the Department shall complete the training requirements of their job classification before the end of their probationary period, or earlier, as specified. An employee who provides acceptable certification of having previously completed a requirement shall receive credit and not be required to repeat the training. Employees who fail to complete any portion of required training may be rejected on probation. Probationary employees are required to receive orientation training in addition to the requirements for certain job classifications listed below.

Correctional Counselors

Correctional Counselor staff shall complete:

- The requirements of PC 832 and chemical agents training as provided at the Academy within 90 days of appointment and prior to performing peace officer duties.
- The Casework Training Component Program within six months.
- The CC-I Apprenticeship Program (3600 hours within two years).

Fire Captains

Fire Captains shall be trained in accordance with DOM 52090.6. Training shall include:

- The requirements of PC 832 and chemical agents training as provided at the Academy within 90 days of appointment and prior to performing peace officer duties.
- The Fire Captain Apprenticeship Program (3600 hours within two years).

Officers

Officers shall complete:

- The Basic Academy prior to assignment as an Officer.
- The CDCR/DMH/AP (3600 hours within two years).

Non-entry-level, probationary employees shall complete one-half of their annually required training to successfully complete probation.

32010.13 All Employees

All employees shall receive 40 hours training annually, at least eight hours of which shall be formal classroom training. The balance can be any combination of OJT, formal IST, or out-service training.

32010.14 Required Training Subjects

All departmental employees shall attend training as follows:

- Emergency plan training shall include fire, earthquake, bomb threat, evacuation, and other emergencies. Initial instruction required during orientation.
- Fire safety training shall include use of fire extinguishers, recognizing fire hazards, proper reporting methods, and evacuation procedures (DOM 52090.6.1). Initial training during orientation, annual refresher may be through OJT.
- General training regarding the policies and procedures to be followed to ensure compliance with the IPA per DOM 13030. Initial instruction is required during orientation.
- EEO/Sexual harassment prevention-initial instruction during orientation. Taught only by departmentally approved instructors with an approved departmental lesson plan.
- Accident prevention--initial training required during orientation per CCR (8) 3203, General Industry Safety Order (GISO).
- Communicable Disease Prevention.

32010.14.1 Employees Supervising/Contact with Inmates

All employees who supervise or have frequent contact with inmates shall receive the following training:

- Work incentive program/inmate time cards--initial training during orientation.
- Inmate/staff relations: Initial training during orientation.
- Escape prevention/pursuit-annually.
- Disturbance control: Annually per DOM 55010.

32010.14.2 Peace Officer Classifications

Revised September 17, 2011

All peace officer classifications shall receive training as follows:

- Firearms re-qualification-check reference for specific information (PC 830.5d and DOM Sections 32010.19.3 through 32010.19.9).
- Chemical agents--shall complete a course in the use of chemical agents per PC 12403. This course is provided in PC 832 class at the Academy.
- Use of force required annually.
- Stress reduction--provided during orientation for peace officers in handling of stress associated with their duties per PC 13601.

Officers, Sergeants, Lieutenants, and Captains

Officer, Sergeant, Lieutenant, and Captain training shall include:

- Basic Correctional Officer Academy--sixteen weeks of training as provided by the Basic Peace Officer Institute. This course of study complies with requirements contained in PC 832 and PC 12403. Employees shall successfully complete this training only once unless they experience a break in service more than 36 months. Each case involving a break in service shall be reviewed individually by the hiring authority in consultation with the Chief, Office of Peace Officer Selection.
- Less lethal weapons. Initial training and annual recertification shall be given for the expandable baton. Initial training and annual qualification shall be given for the 40-mm impact munition. Training is only for those employees designated to use or authorize the use of these weapons (DOM Section 32010.19.10). Instruction will be given by departmentally approved instructors only utilizing a departmentally approved lesson plan.
- Sergeant, Lieutenant, and Captain Academies each consist of 40 hours of training provided by the Advanced Learning Institute. All Sergeants and Lieutenants are required to complete their appropriate Academy as required through PC 13601 prior to successful completion of probation.
- Correctional and Facility Captains, uniformed and nonuniformed, shall not be required to annually qualify with batons and firearms, unless the specific duties of their assignment require the use of a baton or firearm. Captains shall be included in Group II, as defined by DOM Section 32010.19.3, and shall receive the required group training, as defined in DOM Section 32010.19.4. Nothing shall prevent a Captain from qualifying with batons and/or firearms, if they choose to do so.

Transportation Officers/Extradition Agents

In addition to the training requirements for peace officers classifications, transportation officers/extradition agents also receive training in:

- Para-transit vehicle operations.
- Application of vehicle chains.
- Transportation Security Administration Training.
- Semi Automatic Handgun Transitional Range.
- CLETS Training.
- Driving in inclement weather.
- Defensive driving.
- Department of Motor Vehicles/California Drivers License sanctions.
- CPR/First aid.

DAPO

Parole Agents shall successfully complete a ten-week Parole Agent Academy that includes PC 832 and PC 12403 requirements prior to permanent assignment to a parole unit.

Parole Agents shall complete the Parole Agent Apprenticeship Program (3600 hours within two years).

All Parole Agents assigned to the DAPO shall comply with weapons re-qualification as stated in DOM Sections 32010.18 through 32010.18.10. In addition, those who are armed shall fire a night (diminished light) course annually for familiarization and training (not qualification).

All Parole Agents assigned to the DAPO shall receive quarterly refresher training in Parole Agent Safety and Tactics (PAST).

All Parole Agents assigned to the DAPO shall receive annual refresher training in the use of the expandable baton.

32010.14.3 Supervisors

Supervisor training shall include:

- All first-line supervisors shall complete Basic Supervision. Peace officer classifications shall complete this course of training as a prerequisite to successful passage of probation. All other classifications shall complete this course within their probation period. This training complies with requirements contained in GC 19995.4, PC 13601, PC 13602, and PC 13603.
- All first-line supervisors shall complete 40 hours of OJT or classroom instruction in supervisory training, in addition to the Basic Supervision course.
- All CDCR second-line supervisors shall complete Advanced Supervision, an approved 40 hour course, within the first year following appointment. This course is a prerequisite to successful passage of probation for peace officer classifications. (PC 13602)
- Labor relations annual updates as provided by the Department's Office of Labor Relations and/or facility Employee Relations Officers (ERO).

32010.14.4 Managers

Training may include:

- Training in methods and techniques of management and leadership as deemed appropriate and necessary by the Department.
- Non-peace officer classifications shall successfully complete the requirement of PC 832 and chemical agents training, prior to assuming Administrative Officer-of-the-Day (AOD) duties.
- Labor relations annual updates as provided by the Department's Office of Labor Relations and/or facility EROs.

32010.14.5 Special Unit Staff

All peace officer employees regularly assigned to work with inmates in Disciplinary Detention (DD), Administrative Segregation (AD-SEG), SHU, Protective Housing Units (PHU), or with "special needs inmates" shall receive additional training in the below-listed subjects with initial training following assignment to the unit and follow-up training as required approved by the Chief, OTPD. OJT in these subjects should be utilized whenever possible:

- Classification levels and process.
- Cell and body searches.
- Application of restraint gear.
- Drug identification and control.
- Crime scene preservation.
- Prison gangs.
- CPR/First-aid.
- Identification of special problem inmates.
- Less than lethal weapons certification and annual refresher training for the baton for those employees designated to use or authorize the use of these weapons.
- Use and care of protective vests.
- Use of other specialized equipment or devices as applicable.

32010.14.6 Senior Hearing Officer

Senior hearing officers shall receive training prior to assuming responsibilities of conducting hearings for CDC Form 115-A, Serious Rules Violation Report, certified by the local Chief Disciplinary Officer. (See DOM 52080.)

32010.14.7 Hearing Officer

Hearing officers shall receive training prior to assuming responsibilities of conducting hearings for CDC Form 115, Rules Violation Report, and shall be certified by the local Chief Disciplinary Officer. (See DOM 52080.)

32010.14.8 Investigating Employee/Staff Assistant

Employees assigned as an investigating employee/staff assistant shall receive training and be certified by the local Chief Disciplinary Officer prior to assignment. (See DOM 52080.)

32010.14.9 Miscellaneous Required Training

Other required training includes but is not limited to:

- Crisis Response Team (CRT) members shall receive special emergency response and negotiation management training.
- Employees who drive on State business shall receive defensive driver training at least every four (4) years in accordance with the State Administrative Manual Section 0751.
- Safety coordinators shall receive a 120-hour course on basic safety training provided by DGS, SAM 2580.2, within 12 months of appointment.
- Staff assigned to areas where there is possible exposure to hazardous substances shall receive material safety training prior to assignment (SAM 2590.2 and GISO Section 5194).

Additional training may be required for various job classifications as a result of court order, federal requirements, and/or changes in state laws and regulations.

Records Management Personnel

Records management personnel shall receive training in records management (SAM Section 1610 and GC Sections 14740 through and 14770-14774).

California Law Enforcement Telecommunication System (CLETS)

All employees assigned to operate CLETS terminals and/or interpret printouts shall receive CLETS training as required by State DOJ as follows:

- Initial training when assigned.
- Follow-up training required by the Department of Justice.

32010.15 Job Related Subjects

Employees shall refer to various MOUs for additional training requirements and a list of courses to be given "high priority" consideration.

32010.16 Individual Training Plan

The Standard Form Std. 637, Individual Development Plan (IDP), is part of the annual employee appraisal process and identifies the employee's goals for further improvements in job performance during the next year, in order to meet or exceed standards for the employee's present job, or to develop employee skills. The IDP also identifies specific methods by which the employee can work toward accomplishing his or her performance objectives. The supervisor's acceptance of these goals acknowledges the employee's intent but does not constitute a mandate.

32010.16.1 Training Referral

Employees requiring additional specialized training may be referred to the training manager by the employee's immediate supervisor.

Referrals shall be used to designate specific subject matter needed to correct performance deficiencies.

The immediate supervisor shall initiate the referral upon identifying a training need of the employee that cannot be met by OJT.

The referral shall be reviewed by the second-line supervisor and forwarded to the training manager for approval.

When approved, the training then becomes required of the employee and the referral shall be retained in the employee's training file until their next performance evaluation.

32010.16.2 Special Training

Other special training may be required to meet Department needs as determined by the hiring authority.

32010.17 Supervisor Development

Programs for development of supervisors shall contain, at a minimum, the following:

- Supervision theories and practices.
- Problem solving and the decision-making process.
- Labor/employee relations.
- Staff development/training and performance standards and evaluations.
- Leadership and motivation.
- Employee disciplinary process.
- Rights and responsibilities of employees.
- Sexual harassment/orientation and discrimination prevention.
- Grievance procedures.
- Civil liabilities of supervisors.
- Planning, organizing, staffing, and controlling.
- Organization and mission of the Department and its facilities.

32010.17.1 Second-Line Supervisor Development

The Advanced Supervision course for second-line supervisors shall include, at a minimum the following:

- Administrative and management theories and practices.
- Team Building.
- Ethical Decision-Making.
- Effective Writing.
- Communication skills.
- Managing Fiscal Resources.
- Progressive discipline.
- Labor relations (FLSA/FMLA).
- Supervisory styles.
- Effective Communication Skills.
- Employee Wellness.
- Substance Abuse Testing.

32010.17.2 Compensation

Any training activity that is directly related to the employee's job or is designed to make the employee perform job duties in a more efficient and effective manner is compensable under FLSA rulings. If the training is instituted for the bona fide purpose of upgrading the employee to a higher skill or preparing them for advancement, compensation is not required even though the training may incidentally improve the employee's skills in doing their regular work (FLSA Section 785.29).

If an employee on their own initiative attends an independent school or college after regular work hours, the time need not be compensated even if the courses are related to the employee's job (FLSA Section 785.30).

32010.18 Training Consultation Services

Consultation Services

OTPD provides consultation services throughout the Department to assist with training needs. OTPD shall provide guidance, feedback, and quality assurance to units/divisions within CDCR that are developing training for targeted audiences.

Lesson Plan Development

Assistance in developing lesson plans shall be given, within acceptable time frames, upon the written request of the employee. The request shall be cosigned by the IST Manager or the Assistant Manager. Avoid duplication of effort and ensure the timeliness of the request. Each request shall state:

- The title of the lesson plan.
- The objectives of the training.
- A brief description of the material to be covered.
- The target audience who will receive the training.
- The length of time allotted for the training.

32010.19 Weapons Training

The importance of training in the safe and proper use of weapons authorized in DOM 55050 cannot be over emphasized. The IST Manager must ensure that all custody staff are properly certified in firearms and less lethal weapons, prior to assignment. It is essential that each individual who may issue, use, or supervise the use of departmental weaponry be fully trained in procedures, policy, and safety matters relating to the weapons. All persons designated as peace officers under Penal Code (PC) Section 830.2 or 830.5 and those so designated by the Secretary prior to assuming peace officer duties shall at the minimum successfully complete the Department's qualification requirements.

32010.19.1 Weapons Qualification

All personnel subject to PC 832 training and other designated officials requiring such training shall successfully complete the weapons qualifications course mandated at the specific academy attended.

Standards for academy weapons training and qualifications shall be the responsibility of the Chief, OTPD. Standards shall meet PC, Department policy, and job-related requirements.

32010.19.2 Compliance With Qualification Requirements

Failure to successfully complete the mandatory weapons qualifications, in addition to remediation, each 90 days shall result in loss of peace officer status.

Basic Correctional Officer Academy and Adult Parole Agent Academy

Cadets and students attending these Academies who fail to complete mandatory weapons qualifications shall be rejected on probation. Students

attending the Adult Parole Agent Academy are required to successfully complete the Parole Agent Safety and Tactics (PAST).

PC 832 Training

Every peace officer appointment shall:

- Complete training required by PC 832 prior to exercising peace officer powers.
- Trainees shall complete the required Firearms qualification course with a minimum score of 80 percent on the handgun, and the P.O.S.T. Arrest course with a minimum score of 75 percent. One retest is authorized. Failure on the retest will result in the employee being returned to the sending facility without PC 832 certification. The employee may attempt to again qualify in one of two ways:
 - Return to PC 832 training and repeat the course that was failed.
 - Enroll in a local P.O.S.T.-certified course (i.e., community college). Payment of all costs and fees will be the responsibility of the sending facility. Cost and course length may vary for each course presenter.
- Failure to successfully complete the course shall result in the termination of that appointment within the peace officer classification.

PC 832(e) requires individuals who previously completed a PC 832 course to re-qualify prior to exercising peace officer powers, if they have a 36 months or more break in service as a peace officer within the state of California.

32010.19.3 Weapons Requalification Requirements

Revised September 17, 2011

All employees subject to PC 832 training shall periodically demonstrate satisfactory knowledge of weapons policy and usage. Requalification shall be accomplished through written examination and/or actual performance.

Requalification requirements are based upon level of responsibility, duties performed, and weaponry appropriate to the function. These requirements are as follows:

ANNUAL REQUALIFICATION REQUIREMENTS

	Policies	Mini-14 Rifle	Handgun	Shotgun	Baton
<u>Group I</u>					
Headquarters	X

32010.19.4 Re-qualification Standards*Revised September 17, 2011***Headquarters Administrators and Managers**

The standards for re-qualification are as follows:

- Group I. Headquarters staff who are designated peace officers shall receive training in the use of departmental weaponry annually. The training course topics shall include, but not be limited to, the following:
 - State law and departmental policy.
 - Discussion and demonstration of all standards and specialized departmental weaponry and chemical agents used by the division.
 - Written pass/fail examination.

Correctional and Facility Captains and Non-uniform Facility Managers

- Group II. Correctional and Facility Captains (uniformed or non-uniformed) and non-uniform facility managers shall not be required to annually qualify with batons and firearms, unless the specific duties of their assignment requires the use of a baton or firearm. Captains shall be included in Group II, as defined in DOM Section 32010.19.3 and shall receive the Group II training as defined in DOM Section 32010.19. The training course topics shall include, but not be limited to the following:
 - State law, departmental policy, and facility procedures.
 - Discussion and, where appropriate, demonstration of all standard and specialized facility weaponry and chemical agents.
 - Emergency situation tactics.
 - Written pass/fail examination.

Correctional Lieutenants, Sergeants, and Officers

- Group III. Lieutenants, Sergeants, and Officers (regardless of current assignment) shall receive training in the use of departmental weaponry annually which shall include:
 - Weapons' policy.
 - Use and effects of force.
 - Discretionary decision-making.
 - Emergency situation tactics.
 - Baton recertification.
 - Live fire requalification with rifle and handgun. (See Course of Fire, DOM Sections 32010.19.6 through 32010.19.6.4.)

Senior Special Agents/Special Agents/Transportation

- Group IV. Senior Special Agents (OCS, OIA), Special Agents (OCS, OIA), and Transportation Unit staff shall receive training with the departmental firearms as specified in DOM Section 55050.

Correctional Counselor I and IIs

- Group V. CC-Is and CC-IIs shall receive training annually in the use of designated departmental weaponry which shall include:
 - Weapons' policy.
 - Use and effects of force.
 - Discretionary decision-making.
 - Live fire requalification with the Mini-14 rifle. (See Course of Fire, DOM Section 32010.19.6.1.)

Facility Fire Chiefs and Fire Captains

- Group VI. Facility fire chiefs, and facility fire captains shall receive training in the use of designated departmental weaponry annually which shall include:
 - Weapons' policy.
 - Use and effects of force.
 - Discretionary decision-making.
 - Live fire requalification with the handgun. (See Course of Fire, DOM Section 32010.19.6.1.)

Parole Agents and Field Administrators

- Group VII. PA-Is through the Director, all peace officer classifications inclusive, shall receive training in the use of weapons annually which shall include:
 - State law, departmental, and divisional policy.
 - Use and effects of force.

- DAPO Firearms Policy review.
- Review of DAPO arrest procedure. Armed agents will receive quarterly Parole Agent Safety and Tactical (PAST) training (PA I through Parole Administrator I inclusive).
- Quarterly requalification with the handgun for agents who are armed.
- All new agents shall requalify with the handgun prior to the completion of probation. The Course of Fire as listed in DOM Sections 32010.19.6 through 32010.19.6.4 shall be used.
- All facility, parole, and field unit staff subject to PC 832 shall complete a chemical agent course. This training shall include departmental policy regarding use, safety, handling, and effects of exposure to chemical agents.

Instructor requirements

Candidates for the Rangemaster/Chemical Agents instructor course shall meet eligibility requirements outlined by the Academy prior to enrollment. Candidates shall be Peace Officers with current first aid and CPR and use of force certifications prior to enrollment. The entire approved course shall be successfully completed at the Academy prior to issuance of a certificate of completion.

32010.19.5 Compliance Requalification Requirements

The facility training manager shall review the minimum firearm qualification/requalification requirements of all personnel covered by this Section on a quarterly basis. The training manager shall notify the employee's direct supervisor in writing of impending requalification dates at least 30 days in advance. Utilization of the monthly training calendar to satisfy advance written notice of requirements is acceptable. First-line supervisors shall work with the training manager to ensure that their subordinates meet these minimum qualification/requalification requirements. Each peace officer shall maintain current weapons' certification as outlined in this Section.

Range Remediation Policy

Peace officers, other than Parole Agents, who fail the first attempt, but have otherwise demonstrated an adequate level of operational knowledge with the firearm, may be given another opportunity. This determination will be made by the Rangemaster.

Notification of Failure to Meet Range Requalification

Those who fail to requalify after this additional opportunity and those whom the Rangemaster determines do not appear to have sufficient proficiency after the initial attempt, will be required to complete remediation training prior to being scheduled for further requalification attempts. These employees shall receive a memorandum of failure to meet range requalification. A copy will be sent to IST and the Captain only. The notification shall advise the employee that:

- The employee appears deficient in the necessary skills to requalify and will be assigned to two hours of firearm familiarization and training. This remediation shall be weapon specific and based on the standardized rangemaster lesson plan.
- Failure to meet the requirements within a 60-day period shall result in termination of the employee's appointment as a peace officer, unless exempted by a temporary waiver.

If, after two hours of remediation training, the employee again fails to requalify, they will be scheduled for up to two additional remediation sessions. All remediation and requalification must be completed within the allocated 60 days.

Arrangements may be made to conduct the training during the employee's regular duty hours. In those situations where the training must be conducted on the employee's off-duty hours, this time will be considered time worked and compensable under the FLSA requirements.

The employee shall not be permitted to work in an armed post or any other assignment that requires the employee to be armed until minimum requalification requirements are completed.

Parole Agent

Parole agents who are armed as a condition of employment and who do not qualify within 30 calendar days of the quarter in which they failed shall be placed on leave without pay for no longer than two months. Failure to qualify within this period shall result in the Parole Agent being separated from State service per the MOU.

Temporary Waiver

Special circumstances may warrant a temporary waiver of weapons requalification requirements. Upon approval of the Warden or RPA and subject to concurrence by the appropriate Director, a temporary waiver may be considered for the following reasons:

- Physical injury.
- Illness.
- Authorized leave of absence.
- Psychological trauma affecting the employee's ability to comply with requalification requirements.
- Detached duty.
- Pregnancy.

The waiver shall be reviewed at intervals of no more than one year. Upon expiration of the waiver, the employee shall complete requalification requirements within 60 days as described in DOM 32010.19.3.

32010.19.6 Course of Fire

The following courses of fire shall be utilized as the standard to demonstrate annual basic weapon competency. Silhouette targets shall be used for rifles and handguns.

Scoring Policy

If participants have fewer hits on their target than the course allows but still achieve a qualifying score, they will not be required to re-shoot.

If participants have more hits on their target than the course allows and also have a qualifying score, they will be required to re-shoot without penalty. The original shoot will not count as one of the allowed qualifying attempts.

32010.19.6.1 Ruger Mini-14

Ruger Mini-14 .223 Caliber Rifle

Distance	Time	Position	Rounds
50 Yards	30 Seconds	Point Shoulder	5
	45 Seconds	Kneeling	5
100 Yards	45 Seconds	Point Shoulder	5
	60 Seconds	Barricade or Kneeling	5
	60 Seconds	Kneeling	5
Total			25

Note: A 70 percent score is required for requalification. Training records shall document raw score and percentage.

32010.19.6.2 Smith & Wesson .38 Caliber/Semi Automatic Handgun (Basic Course)

Smith & Wesson .38 Caliber Revolver or Semi Automatic Handgun

Revised September 17, 2011

Distance	Time	Position	Rounds
3 Yards	30 Seconds	Hip Level	12
7 Yards	30 Seconds	Instinctive Shooting	12
		Position	
15 Yards	45 Seconds	Sight	12
Total			36

Note: The P.O.S.T. course of fire requires the single B-27 range target. A passing score is 26 "hits" (72 percent) within the seven-ring portion of the target.

**32010.19.6.3 Less Lethal Weapons
40 mm Impact Munitions**

Distance	Time	Position	Rounds
25 Yards	None	Point Shoulder	3
Total			3

Note: Six practice rounds of either XM 1006/CTS 4557 Exact Impact Round. Three rounds, either XM 1006/CTS 4557 Exact Impact Round (for qualification).

Shooter must impact two out of three rounds in the Zone 1 area of the target for qualification. Although there are other impact rounds that are fired for familiarization only, this is the only impact round Officers must qualify on.

32010.19.7 Quarterly Proficiency Requirements

All departmental peace officers who are issued a departmental weapon as part of their regular or special assignment such as armed posts, transportation, CRT, Special Housing Unit, Special Agents, etc., or any other previously designated officials considered to require such training shall complete a proficiency course on a quarterly basis prior to assuming the post. This course shall be with the weapon/weapons issued, or maintained in the armed post, assignment, or position.

Each facility, special unit, and DAPO shall determine the quarterly proficiency course of fire and techniques that meet their specific need. The quarterly standards and courses of fire shall be reviewed annually by the appropriate Director for consistency with departmental policy.

32010.19.8 Off-Duty Weapons

Personnel required by the Department to retain departmental firearms while off duty shall be provided training in the proper and safe storage of these firearms.

32010.19.9 Use of Department Firearm Ranges by Off-Duty Personnel

Revised September 17, 2011

The Department shall allow access to its ranges for the qualification of off-duty weapons to those peace officers designated by PC 830.5(c). The conditions stipulated in these rules shall apply when utilizing a CDCR firing range.

Persons designated above continue to retain the option of qualifying with off-duty weapons on private ranges.

These qualification requirements are voluntary and shall occur only during a person's off-duty hours. It is the responsibility of the individual, not the facility, to maintain their eligibility.

Range Availability

Each facility with an authorized and State-certified Rangemaster shall establish a minimum of two days per month range sessions at predetermined times during which persons designated above may qualify with their personal weapon(s) which they intend to carry off-duty.

Cancellation of scheduled sessions may occur because of inclement weather conditions or lack of participants. In the event a session is cancelled, the facility does not have to schedule a make-up session and all fees paid by the participants for that cancelled session shall be returned to them.

Cost to Participant

Participants are required to pay a fee of \$9.00 for each qualification attempt to the facility cashier prior to attending range qualification.

Access to the Range

Each facility shall prepare a "Guide to Off-Duty Weapons Qualification" which shall be made available to persons desiring utilization of the range. This guide shall include, but is not limited to, the following:

- Contact person/position and telephone number for information concerning the program.
- Types and/or color of clothing prohibited if the range is on prison property.
- To whom fees shall be paid and when.
- Procedures for transporting weapon and ammunition to the range if the range is on prison property.
- The specific procedures as to how an eligible person shall participate in and, if necessary, schedule an off-duty weapon qualification session.
- Participants shall have in their possession at the time of entry to a facility/range of CDCR a valid employee identification card from their Department which indicates the employee peace officer status or a written designation by the employee's Director or Chairperson which authorizes that employee to carry a concealed off-duty weapon.

Rangemasters

Rangemasters shall be current participants in the CDCR range training program. Rangemasters shall be employed at the same facility as the range unless authorized by the Warden or designee. All Rangemasters shall be trained and qualified in the safe operations of double action revolvers, rifles, and semiautomatic pistols.

Rangemasters shall maintain full authority for range activities and may exclude/expel any participant from the range for good cause.

Weapons and Ammunition

Only concealable handguns consisting of .22 to .45 caliber shall be used on CDCR ranges. No single action revolvers, blackpowder guns, shotguns, or rifles shall be permitted.

All ammunition shall be supplied by the participant. Only factory loaded/reloaded ammunition shall be accepted. Snake loads and loads that exceed industry standard are not acceptable rounds and shall not be permitted.

Prior to use, all weapons and ammunition shall be inspected by the Rangemaster. Any weapon or ammunition deemed unacceptable or unsafe shall be removed from the range and not used. Each participant shall provide his or her own off-duty weapon with a strong side hip holster.

Qualification Requirements

The approved handgun course of fire, as specified in DOM Section 32010.19.6.3, shall be used. There shall be no classroom session. Participants shall receive from the IST office:

- CDCR Form 1799, Range Safety Rules.
- A pamphlet on California firearms laws.

Participants shall sign a CDC Form 1798, Annual Acknowledgement of Receipt of Range and Firearm Safety Rules and PC Related to the Possession and Use of Off-duty Firearms, acknowledging that they have read and understood all applicable PC relating to possession or use of off-duty firearms by off-duty staff. In addition, participants shall acknowledge in writing that the handgun they are using has not been modified and that it meets manufacturer's specifications (exception: handgrips and sights).

Recordkeeping

The facility shall maintain a copy of the participant's official score sheet for six months. It is the participant's responsibility to maintain current qualification.

The participant upon attaining a passing score shall be provided a CDC Form 1803, Off-Duty Firearm Qualification Certification that documents the quarterly qualification.

Off-Duty Disqualifying Factors

The employee-appointing Director or Chairperson may deny, suspend, or revoke for good cause a person's right to carry an off-duty concealable firearm.

Persons permitted to carry firearms pursuant to PC 830.5(c) shall meet the training requirements of PC 832 and shall qualify with the firearm at least quarterly. It is the responsibility of the individual to maintain their eligibility to carry an off-duty firearm. Carrying a firearm off-duty without maintaining the quarterly qualification shall constitute good cause to suspend or revoke that person's right to carry firearms off-duty.

Appeal of Revocation of Authorization to Carry Off-Duty Firearms

Within 15 working days of receipt of a notification that an individual's authorization to carry an off-duty concealable firearm has been suspended, revoked, or denied, the individual may appeal the decision, in writing, to the appropriate Director or Chairperson who issued the decision. Persons are prohibited from carrying a concealable firearm off-duty during the appeal period.

Adverse Personnel Action

Pursuant to PC 830.5 and 12031, carrying a concealed loaded firearm without maintaining the quarterly qualification is prosecutable and the employee may be subject to adverse personnel action.

32010.19.9.1 Use of Non Departmental Firearm Ranges for Off-Duty Qualification

Effective September 17, 2011

Departmental Peace Officers shall have the option of qualifying at other than departmental ranges. The following policies shall be adhered to when utilizing this option.

- Only concealable handguns consisting of .22 to .45 caliber shall be used. No black powder guns, shotguns, rifles or single action revolvers shall be used.
- Only factory loaded/reloaded ammunition shall be used. Snake loads and loads that exceed industry standard are not acceptable rounds, and shall not be used.
- Minimally, the handgun course of fire, as specified in DOM Section 32010.19.6. 2 should be used. In the event that the range facility being used for the qualification session cannot accommodate the said course of fire, every attempt should be made to utilize an equivalent course of fire to ensure that the shooter demonstrates an

adequate level of proficiency. Nothing shall prevent the peace officer from qualifying with a course of fire that indicates greater proficiency or is required for duty by the unit in which the peace officer is assigned.

- Individuals administering the qualification attempt shall possess a Rangemaster/Firearms Instructor accreditation or equivalent from a reputable shooting organization recognized in the United States.
- The shooter, upon attaining a passing score shall provide to the person supervising the qualification attempt, a CDC Form 1803, Off-duty Firearm Qualification Certification that shall be signed by the certifying individual, which shall include the accreditation of the individual.
- It is the shooters responsibility to submit, and maintain annually, a copy of the CDC Form 1798, Annual Acknowledgement of Receipt of Range and Firearms Safety Rules, and Penal Code Sections Related to the Possession and Use of Off-duty Firearms. The completed CDC Form 1798 shall be maintained in the employees In Service Training file, at the location where the participant is employed.

32010.19.10 Weapons Qualification Card

All persons designated as peace officers under PC 830.5 and those so designated by the Director who are required to requalify with weapons at least annually shall carry upon their person at all times while on duty a CDC Form 861, Weapons Qualification Card. This card shall be issued by the individual facility or parole region and shall provide verification of successful completion of required firearms requalification training. Each employee shall notify the supervisor at the time of assignment to an armed position if the requalification or quarterly proficiency requirement has not been met within the preceding 90 days.

32010.19.11 Less Lethal Weapons

Revised September 17, 2011

Training in the use of less lethal weaponry is required for personnel authorized to use or supervise the use of these weapons per DOM Section 55050.

Baton Certification Requirements

Personnel authorized to use departmental batons shall successfully complete the standard course of training prior to issuance or use of any baton. Training shall include policy, procedure, use, safety, and effects of use.

Recertification Requirements

Annually, each person qualified to use departmental batons shall successfully complete the standard course of recertification (two hours).

Individuals whose baton certification has lapsed shall take the recertification course and demonstrate competency to be issued a certificate. If competency is not demonstrated after completion of the recertification course, then the individual will have to complete the 12-hour certification course.

Instructor Requirements

Candidates for the baton instructor course shall meet eligibility requirements outlined by the Academy prior to enrollment. Candidates shall be peace officers with current first aid and CPR cards, and use of force certifications, prior to enrollment. The entire approved course shall be successfully completed at the Academy prior to issuance of a certificate of completion.

Baton instructors shall teach a minimum of eight hours training per year to remain current in their certification. Anyone failing the recertification course shall be required to repeat the initial instructor certification course before being utilized as an instructor.

Electronic Control Device

Personnel authorized to use the Electronic Control Device (ECD) as specified in DOM Section 55055 shall successfully complete training on such device in accordance with the manufacturers training criteria.

32010.19.12 Munitions

Personnel designated to use munitions as stated in DOM 55050 shall be trained in the use, employment, safety, and effects of this resource prior to usage.

32010.20 Curriculum

The OTPD's Curriculum Design Unit (CDU) oversees the development, revision, and maintenance of curriculum for the BPOI (adult, juvenile, and parole basic Academies) and ALI (basic and advanced supervision and Sergeants and Lieutenants Academies). CDU staff shall update curriculum to reflect current policies, procedures, laws, and regulations.

Lesson Plan Standards and Certification

The Corrections Standards Authority (CSA) will establish and update minimum training standards for CDCR lesson plans. The CLO will receive a

copy of CDU lesson plans for review and certification, prior to final distribution.

Subject Matter Expert (SME)

A SME is a person who is recognized as an authority in the field of the lesson's content. Expertise may be gained by experience, education, and/or through teaching the subject matter. Recognition is achieved by publication of articles, presentations at conferences, or by recommendations of others working in this field with knowledge of the individual's mastery of the subject. For purposes of serving on a panel for determining minimal acceptance level for passing an examination, the SME should have direct knowledge of the requirement for employees expected to perform the tasks in the lesson plan.

Storage of Lesson Plan Information

Lesson plans and copies of all handout materials shall be maintained on file with the CDU. Lesson plans may be provided to the institutions, parole regions, IST offices, and agencies upon request. The CDU lesson plan server houses an electronic version of the most current CDU lesson plans in PDF format. Designated staff are authorized access to the curriculum for their area. Confidential lesson plans are not placed on the server.

Evaluation of Academy Curriculum and Instruction

The CDU's Evaluations Unit collects, analyzes, and distributes data used to evaluate the curriculum and instruction of BPOI Academies. The information collected is a critical part of the training process. It provides statistical data and allows for continuous quality feedback to OTPD management to assess the effectiveness of the Academies and to keep the curriculum current and useful.

Instructor Evaluation Forms will be completed by Academy instructors and used to revise and improve lesson plans.

Instructor/Designer Evaluation Forms – Pilot class evaluations will be completed by Academy instructors and the CDU to evaluate new lesson plans to determine whether or not the lesson plans are effective or need to be improved.

Participant Evaluation Forms will be completed by Academy participants after each class to evaluate curriculum and instruction.

BPOI Exit Evaluation Forms will be completed by Academy participants at the end of each Academy, and used to evaluate the overall Academy experience.

Six-Month and First-Line Supervisor Questionnaires will be completed by graduates and their first-line supervisors six months after completion of the Academy to evaluate how well the Academy prepared them to perform their duties.

Evaluation Results and Recommendation Committee (ERRC) will meet after the six-month evaluation data from each Academy has been calculated and analyzed to discuss issues and recommend and/or implement changes to improve the Academy curriculum and instruction.

Quarterly Report will be compiled quarterly based on the data received from the six-month evaluation questionnaires. It provides statistical and analytical data for upper management, and lists recommendations and action plans for tracking recommendations from ERRC.

Issues/Implementation Data Tracking Report is used to track data to ensure that changes implemented have had a positive impact on Academy training.

Performance Measure Report is compiled by Evaluations Unit staff and will provide the percentage of overall preparedness and instruction data collected from the Six-Month Questionnaire and Exit Evaluation. The information is entered on a quarterly basis with a target goal of 90 percent.

Corrections Standards Authority

Training developed by headquarters for field staff requires review by CSA. If the planned training impacts rank and file peace officers or probationary peace officer supervisors, a review may also be required by the CDCR/DMH/AC. The OTPD coordinates both reviews and should be contacted as soon as a need for training is identified. These additional reviews may extend the necessary review time beyond the normal 60 days.

32010.21 National Institute of Corrections

The number of training slots available for California participation is very limited. It is essential that staff clearly understand and follow the application process. Upon receipt of the National Institute of Corrections' (NIC) annual schedule, OTPD shall notify all Directors. Requests to attend NIC training sessions shall be submitted to the Chief, OTPD, through the appropriate Directors. Institutions shall submit their requests to the Director, Division, of Adult Institutions, for initial review and approval. Parole regions shall submit their requests to the Director, DAPO.

This application package shall include:

- A completed NIC application form.
- A copy of the course description.
- A cover memorandum signed by the Warden, RPA, or Director, justifying the attendance and specifying that no cost shall be incurred by the Department.

The Wardens RPA, or Directors shall send the Chief, OTPD, application packages and a list, in priority order, of those individuals to be considered for NIC attendance. The Wardens RPA, or Directors shall indicate their approval only on the cover memorandum included in the package.

Once the application packages have been received, the OTPD shall:

- Submit the packages to the Secretary or designee for final approval and signature.
- Obtain the necessary authorization for out-of-state travel.
- Submit to NIC the names of staff with departmental approval to attend.

Attendance at NIC is very competitive and departmental approval does not guarantee acceptance. NIC notifies the employees directly regarding acceptance or rejection. Copies of this notice shall be sent by the employee to the Chief, OTPD, and to the Accounting Services Section.

32010.22 Revisions

The Deputy Director, HR, or designee shall be responsible for ensuring that the contents of this Article are kept current and accurate.

ARTICLE 19 – BASIC ACADEMY TRAINING

Revised April 23, 2010

32020.1 Policy

The California Department of Corrections and Rehabilitation (CDCR), Office of Training and Professional Development (OTPD) maintains the Basic Peace Officer Institute (BPOI) at the Richard A. McGee Correctional Training Center (CTC) and the Stockton Training Center (STC) as training sites. BPOI staff provides effective entry-level custody training in compliance with statutes, laws, regulations, policy, and collective bargaining agreements.

32020.2 Purpose

This Article specifies CDCR approved training methods, standards, and applications specific to BPOI.

32020.3 Objectives

The objectives of BPOI are:

- To carry out the mandates of statutes, laws, regulations, policies, and collective bargaining agreements.
- To assist in the evaluation and selection of youth and adult correctional peace officer candidates.
- To refine and expand the professional knowledge and skills of the attending training participants.
- To meet standards of accreditation as defined by the Corrections Standards Authority (CSA) and the Commission on Peace Officer Standards and Training (POST).

32020.4 Definitions

Basic Correctional Officer Academy (BCOA) – Courses structured for employees hired for adult Correctional Officer classifications.

Basic Correctional Juvenile Academy (BCJA) – Courses structured for employees hired for Youth Correctional Officer, Youth Correctional Counselor, Casework Specialist, and Institutional Parole Agent classifications.

Adult Parole Academy (APA) – Courses structured for employees hired for Adult Parole Agent classifications – Parole Agent means a peace officer and his or her supervisors in the Department who are assigned to supervise those who are released from incarceration to the supervision.

Juvenile Parole and Orientation Training – Courses structured for employees hired for Juvenile Parole Agent classifications.

Cadet – Newly appointed correctional peace officer cadets attending the BCOA or BCJA.

Student – Newly appointed Parole Agent attending the basic adult Parole Agent Academy.

32020.5 Responsibilities

The Deputy Director, Human Resources (HR), shall have administrative oversight of the training programs.

The overall program direction is delegated to the Chief, OTPD.

OTPD

The Chief, OTPD, is responsible for policy development, management oversight, and evaluation of employee development programs based on competencies associated with successful job performance and alignment of such programs with strategic business goals and objectives. The Chief directs the BPOI Administrator and functions as an administrative liaison between the CSA, BPOI Administrator, and institutional training managers, and approves the selection of OTPD personnel. These functions may be delegated to the appropriate Administrators.

BPOI Administrator

Under the direction of the Chief, OTPD, the BPOI Administrator oversees the day-to-day operation of all BPOI programs, acts as administrator over all entry-level Academy programs, and ensures compliance with CDCR policies and procedures.

Academy Commander, BCOA

Under the direct supervision of the BPOI Administrator, the Academy Commander (Correctional Captain) directs the daily operation and overall supervision of the BCOA.

BCOA Instructors

The BCOA instructors are under the general supervision of a Correctional Lieutenant and are the day-to-day instructors in the BCOA. They prepare a written evaluation of cadets attending the BCOA, including both the appraisal of academic achievement and the general performance of the cadet as a new Correctional Officer.

BCOA Cadets

Newly appointed adult Correctional Officer cadets attending the BCOA are formally assigned to the CTC for the period of their training. During this period, the cadets comply with the expectations and practices established by the BCOA. These expectations and practices shall be written and included in the Cadet Handbook, which shall be given to each cadet prior to the first day of orientation.

Academy Commander, BCJA

Under the direct supervision of the BPOI Administrator, the Academy Commander directs the daily operation and overall supervision of the BCJA.

BCJA Instructors

The BCJA instructors are under the general supervision of a Lieutenant and are the day-to-day instructors in the BCJA. They prepare a written evaluation of cadets attending the BCJA, including both the appraisal of academic achievement and the general performance of the cadet as an entry-level youth peace officer.

BCJA Cadets

Newly appointed entry-level youth peace officer cadets attending the BCJA are formally assigned to the BPOI for the period of their training. During this period, the cadets comply with the expectations and practices established by the BCJA. These expectations and practices shall be written and included in the Cadet Handbook, which shall be given to each cadet prior to the first day of orientation.

APA Administrator

Under the direct supervision of the BPOI Administrator, the APA Administrator directs the daily operation and overall supervision of the APA.

APA Students

Newly appointed Parole Agents attending the APA are formally assigned to BPOI for the period of their training. During this period, the APA students comply with the expectations and practices established by the APA. These expectations and practices shall be written and included in the Parole Agent

Student Handbook, which shall be given to each student prior to the first day of orientation.

Juvenile Parole and Orientation Training Coordinator

Under the direct supervision of the BPOI Administrator, the Juvenile Parole and Orientation Training Coordinator directs the operations of this training program.

32020.6 Uniforms and Grooming Standards

The CDCR uniform and grooming standards are defined in the Department Operations Manual (DOM) Chapter 3, Article 21, Uniforms. BPOI Academy instructors may have specialized tactical and range uniforms, as approved by the BPOI Administrator.

32020.7 BPOI Curriculum

The courses at the BPOI will be developed by OTPD's Curriculum and Program Development Unit, and will be in compliance with the standards prescribed by Penal Code (PC) 830-832, 13601, and the CSA.

32020.7.1 Testing

All candidates attending BPOI shall attain at least the minimum scores established by the CDCR and POST.

32020.7.2 Re-Testing

Cadets/students not achieving a passing score on any written examination shall be provided with an opportunity to retake the same, or similar, written examination one time only. Additional instruction and supervision may be provided prior to re-testing.

Any cadet/student not achieving a passing score during the firing portion of the firearms training shall be given an opportunity to retest with the weapon(s). Additional instruction and supervision may be provided prior to re-testing.

Cadets/students not achieving a passing score on a performance-based evaluation shall be provided with an opportunity to retake the same, or similar, performance-based evaluation one time only. Additional instruction and supervision may be provided prior to re-testing.

32020.7.3 Evaluation

Each cadet/student shall be continually evaluated during the course of instruction. The evaluation shall give specific attention to the following areas of interest:

- General academic performance.
- Professional appearance and behavior.
- Relationships with people.
- Punctuality.
- Quality of the final product of assigned tasks.
- Response to directions and constructive criticism.

The BCOA/BCJA cadet's assigned Company Commander (BCOA/BCJA Instructor) shall prepare the first written performance evaluation report, upon successful completion of the Academy.

APA supervisory staff will complete the first probationary report of each Parole Agent Academy student during the final week of the Academy.

32020.8 Rejection/Dismissal

Cadets and students may be rejected on probation for the following:

- Failing an examination and the subsequent re-test.
- Unacceptable performance, behavior, or conduct, as delineated by Academy and/or departmental policies and procedures.
- Missing mandatory instruction, as defined by Academy and and/or POST requirements.

BPOI staff will initiate rejection on probation actions for BCOA cadets. The hiring authority for BCJA cadets and APA students will initiate rejection on probation actions.

32020.9 Institutional Resource Sites

Firearms exercises shall be conducted at a qualified range approved by the BPOI Administrator.

Local institutions will be used by the BPOI to familiarize cadets at the BCOA and BCJA with various institutional settings. The Cadet On-Site Institutional Training (COSIT) field practicum visits in the institutions are subject to the approval of the warden, superintendent, or designee of the hosting institution and the availability of employees.

32020.10 Revisions

The Deputy Director, HR, or designee shall ensure that the contents of this Article are accurate and current.

32020.11 References

PC §§ 830-832, and 13601

DPA Rules

CSA Guidelines

ARTICLE 20 — PERSONNEL POLICIES*Revised November 20, 2013***33010.1 Policy**

The Department shall, through the provisions of this Article:

- Assure a uniform and equitable basis for employer/employee relations.
- Maintain open channels of communications that permit the exchange of information and ideas in a cooperative manner to ensure increased departmental efficiency and the well-being of employees.
- Further the understanding of rights, and obligations of the Department and employee organizations.

33010.2 Purpose

This Article specifies requirements for employer/employee relationships.

33010.2.1 Employee Notification

Each institution, parole region, and community correctional facility shall establish a policy for the purpose of employee notification. It is the responsibility of each Warden, Regional Parole Administrator (RPA), and Community Correctional Center Administrator to establish procedures to notify employees at work of personal emergency situations. Personal emergencies that require employee notification shall be routed to the area manager/supervisor who will determine if the situation warrants immediate employee notification.

33010.3 Disclaimer

If any provision in this Article is in conflict with a Memorandum of Understanding (MOU), Side Letter Agreement, Arbitration Award, Public Employment Relations Board (PERB) Decision, Settlement, or Local and/or Statewide Agreement, this Article shall not prevail as it relates to the specific represented group.

33010.4 Management Team

Employees designated as manager, supervisor, or confidential shall be members of the management team.

"Supervisors" and "supervisory employees" refer to persons designated as supervisors pursuant to the State Employer Employee Relations Act (SEERA). Persons not so designated are not supervisors within the meaning of SEERA, even if their working or class title includes the term "supervisor," and shall not be considered part of the management team for the purpose of this Article.

The management team shall:

- Relate with all employee organizations and their official representatives, regardless of title or classification, as equals on all matters within the scope of representation.
- In good faith, abide by all terms, conditions, or provisions of all MOUs in effect.
- Give consideration to the viewpoints submitted by individual employees and organized employee groups in connection with the development of policy and in determining courses of action relating to employer/employee relations.

33010.5 Employees Right to Organize

The State recognizes the right of State employees to join and participate in organizations of their own choosing and be represented by such organizations in their employment relations with the State.

In order to guarantee this right, the management team shall not:

- Impose, threaten to impose, cause, or allow any type of reprisals on employees because of their exercise of rights guaranteed them by SEERA, departmental policy, MOU, or any other applicable law or rule.
- Conduct any type of business relating to wages, hours, or working conditions of unit employees with any organization except the exclusive representative.
- Participate in handling grievances on behalf of employees.
- Participate in meet-and-confer sessions on behalf of rank and file employees.

- Influence, cause to be influenced, interfere with, or in any way condone the influence of internal affairs of a rank and file employee representative organization.
- Influence, cause to influence, interfere with, or in any way allow the influencing of the unit election process.
- Contribute to any organization financial or any other type of support that is used for representation of rank-and-file employees.

Rank and file employees shall not:

- Participate in handling grievances on behalf of supervisory employees.
- Participate in meet-and-confer sessions on behalf of supervisory employees.

33010.5.1 Rights of Employees

Rank and file employees shall have the right to:

- Form, join, and participate in the activities of employee organizations of their own choice for the purpose of representation on all matters of employer/employee relations.
- Refuse to join or participate in activities of organizations.
- Withdraw from organizations.
- Represent themselves individually in their employment relations.

Supervisory employees have the right to:

- Form, join, and participate in the activities of employee organizations of their own choosing for the purpose of representation on all matters of supervisory employer/employee relations.
- Refuse to join or participate in the activities of employee organizations.
- Represent themselves individually in their employment relations.

Employees shall not be granted preferential treatment or have equitable treatment withheld because of either membership or non-membership in employee organizations.

33010.5.2 Exclusive Representatives

The Department recognizes and agrees to meet with designated stewards and staff of the exclusive representatives on the following:

- Administration of the contract.
- Employee discipline cases.
- Informal settlement conferences or formal hearings conducted by the Public Employment Relations Board.
- Matters scheduled for hearing by the Victim Compensation and Government Claims Board.
- Terms and conditions of employment.

33010.5.3 Bona Fide Associations

The Department shall recognize other employee organizations providing they are registered and approved by California Human Resources (CalHR) as bona fide associations.

A bona fide association is an organization that is comprised primarily of employees and former employees of agencies of the State and which:

- Does not represent State employees on matters within the scope of representation.
- Is not affiliated with an employee organization.
- Remains neutral in representational elections among State employees on the selection of an employee organization as an exclusive bargaining agent.

If an employee organization wishes to represent employees and there is some question regarding its status, the hiring authority shall contact the Office of Labor Relations (OLR) for clarification.

33010.6 Access to Work Locations

Reasonable access to employee work locations during working hours shall be granted:

- To employee organization officers and representatives on employment relations matters.
- Where specific problems exist which necessitate the officer/representative seeing the work location to understand the situation.
- Access to work locations shall not include visits for the purpose of solicitation of membership or routine contact.
- The restrictions or limitations shall be for legitimate State purposes, such as safety, security, potential work disruption, undue State costs, etc.

- No restrictions or limitations shall be applied, or not applied, on the basis of any antipathy or sympathy for or against employee organizations in general or particular.

Approval

Representatives shall obtain the approval of the appropriate official or their designee before entering an employee work location. Requests shall be made through the employee relations office. The appropriate officials are:

- An institution – Warden or Superintendent.
- DAPO Regional Headquarters - Regional Parole Administrator.
- DAPO Headquarters – Deputy Director, Division of Adult Parole Operations.
- Headquarters - Assistant Secretary, Office of Labor Relations.
- DAPO Parole Unit - Unit Supervisor.
- DAPO Parole Outpatient Clinic - Chief Psychiatrist.
- CalPIA Central Office - General Manager.
- CCHCS Headquarters – Chief, Labor Relations Unit

33010.6.1 Barred Access

Each Warden/Superintendent shall prepare a list of work locations to which access for the purpose of contact with an employee shall be barred because of security reasons. The list shall be:

- Kept to a minimum consistent with institution security.
- Available at the office of the Warden/Superintendent for inspection by representatives.

Armed posts shall generally be excluded from visits by representatives.

A disagreement between an employee organization and a Warden/Superintendent as to reasonableness of denying access to any given location shall be referred to the Assistant Secretary (AS), OLR for review and determination.

If a representative wishes to contact an employee assigned to a prohibited area, the meeting shall be arranged on the employee's own time unless the organization will furnish qualified relief acceptable to the institution. Overtime funds are not available to permit an employee to be relieved for consultation.

33010.6.2 Escorted Access

It is anticipated that employee organization representatives will be permitted access to most areas of the institution with the appropriate escort.

33010.6.3 Other Access

Contact with an employee on the job shall be in a manner that eliminates the possibility of incidents or breaches of security.

Representatives shall receive equal access treatment whether or not they are the Department employees.

Representatives, employees of the Department or not, are subject to all laws, rules, and regulations governing entrance to and behavior within a correctional institution/facility.

Employees may be allowed to engage in employee or organization business during working hours without loss of pay only when the business is specifically authorized by the appropriate MOU or Department Operations Manual (DOM).

Employees' "own time" or "non-working hours" are lunch periods, regularly scheduled rest periods, and time before and after work.

Access to a work location may be denied or delayed for reasons including safety, security, work load requirements, or other legitimate circumstances.

When access is denied, reasonable alternatives should be provided to allow representatives to communicate with employees (e.g., providing space in a cafeteria or elsewhere in the institution/facility).

If an employee representative requests meeting room space, an effort shall be made to comply with the request as long as space is available and the granting of the request will not violate any established rules, regulations, or policy.

33010.6.4 Trespass

See CCR (Title 15) Section 3289.

33010.7 Posting and Distribution of Information

Representatives may post, distribute, or place organization material in institution/appropriate parole office (district, unit, etc.) mail boxes when:

- Prior approval of the appropriate administrator or employee relations officer as listed in DOM 33010 has been received.
- The material does not advocate:

- Unlawful or illegal activity.
- Violation of departmental rules or regulations.
- Material is not obscene, defamatory, lewd, vulgar, libelous, or slanderous.
- Such activities do not adversely affect institutional security or operation.

Approval to post or circulate material shall not in any way constitute endorsement by the Department of any of the statements contained in the material.

33010.8 U.S. Mail

The Department shall allow employee organizations to send U.S. mail to employees at work addresses and shall make every effort to deliver mail to employee mail boxes if:

- The mail is sent to the specific institution/parole office address.
- The volume of mail does not increase to the point that additional resources are necessary to process it.

33010.9 Use of State Facilities and Time

Uniform standards of treatment shall be applied to all employee organizations concerning the use of State facilities, equipment, and work time.

Employee organizations may be granted the use of State facilities for organization meetings composed of the State employees, provided such meetings are outside regularly scheduled working hours and space is available.

State time shall not be used for conducting or participating in employee organization business affairs including dues collection, organization meetings, and membership campaigns.

All services provided employees through any employee organization involving use of institution facilities, grounds, equipment, or inmates shall be approved in writing by the Warden/Superintendent.

Employees may, during assigned working hours, use a reasonable amount of State time to prepare and present grievances and to meet with management on issues and problems.

Time spent by representatives on representation activities shall not qualify for, or result in, overtime compensation.

33010.10 Release of Information

Non-confidential information pertaining to employer/employee relations may be made available to representatives, upon request.

Each employee shall have the right to review the contents of his or her personnel file.

Review of any portion of an employee's personnel file by a representative requires written authorization of the employee.

The DOM, Administrative Bulletins, and other statements of policy are not confidential and shall be made available for review upon request.

In case of disagreement between an employee or employee organization and a representative of the Department as to the confidentiality of a given piece of information, the matter shall be referred to the Secretary through the Assistant Secretary, Office of Labor Relations.

33010.11 Grievance Procedure

Employees shall attempt to reach acceptable solutions to problems or complaints through informal discussion with their supervisor and if necessary the supervisor's supervisor.

Equal Employment Opportunity representatives are available to assist in resolution of issues on an informal basis.

If informal discussions fail to resolve the issue, a formal grievance may be filed as follows:

33010.11.1 Process

- Represented employees shall use STD. Form 630, Employee Contract Grievance, in accordance with the provisions of the appropriate MOU.
- Excluded employees shall use STD. Form 631, Excluded Employee Grievance, in accordance with procedures on the back of the form.

33010.11.2 Health and Safety Grievance

A health and safety grievance may be filed as follows:

- Represented employees shall file in accordance with the provisions of the appropriate MOU.
- Excluded employees shall use STD Form 631, in accordance with the procedures outlined on the back of the form.

33010.12 Incompatible Activities and Outside Employment

See CCR (Title 15) Section 3413.

33010.13 Confidentiality of Employee Personnel Files

Information from employee personnel files shall be disclosed in accordance with the provisions of DOM 13040 and 13050 of this manual.

33010.14 Employee Housing

Employee quarters shall primarily be used to:

- Provide temporary housing for new employees while they seek permanent housing.
- House interns and trainees.

If necessary to vacate rooms for these purposes, the person(s) with the longest occupancy shall be asked to vacate.

CalHR defines housing accommodations.

Monthly rental rates are determined by the CalHR or by negotiation with the bargaining units.

Only those articles of household furnishings included in the "Maximum List of Basic Furnishings for Housekeeping Quarters to be Provided by the State," prepared by Department Of Finance (DOF), may be supplied to housekeeping apartments and homes.

33010.15 Vacation Credits

The limit on the number of hours that may be accumulated during a calendar year is established by:

- The appropriate MOU for represented employees.
- CalHR rules for nonrepresented employees.

33010.15.1 Vacation Credit Carry-Over Represented Employees

By June 1 of each calendar year, represented employees whose vacation balance exceeds, or could exceed by December 31, the vacation cap allowed by their MOU shall submit to their supervisor for approval a written plan to bring their vacation balance below the cap.

If an employee fails to submit a written plan or adhere to an approved plan, the employee's supervisor shall order the employee to take sufficient vacation to reduce the actual or potential vacation balance to below the authorized cap.

If it is unavoidable that the employee cannot use the scheduled time due to emergency, sick leave, or unanticipated operational needs, the employee shall be allowed to reschedule the time to be taken.

Non-Represented Employees

By June 1 of each calendar year, non-represented employees whose vacation or annual leave balances exceed, or could exceed by December 31, the vacation or annual leave cap permitted by CalHR rules shall submit to their supervisor for approval a written plan to bring their vacation or annual leave balance to the amount permitted prior to January 1 of the following year.

If the employee fails to take off the required number of days/hours by January 1, the appointing power shall require the employee to take off the excess hours at the convenience of the Department during the following calendar year.

If it is unavoidable that the employee cannot use the scheduled time due to emergency, sick leave, or unanticipated operational needs, the employee shall be allowed to reschedule the time to be taken.

Non-represented employees whose vacation or annual leave balances exceed their maximum cap on January 1 shall not have the excess deducted from their balances.

33010.15.2 Catastrophic Leave Program

The Catastrophic Leave program was established in 1985 for excluded (non-represented) employees by CalHR Rules 599.925 and 599.925.1 and in 1988 for represented employees by their respective bargaining unit contracts. Under this program, employees may receive paid leave donations if:

- They are suffering from an incapacitating illness/injury (nonwork related) and are financially burdened because they have depleted all of their accrued leave credits.
- They need to take an extended period of time off from work to care for an incapacitated family member and they are financially burdened because they have depleted all of their accrued leave credits.
- They are unable to work because of the effect of a natural disaster on their principal residence (in a county declared as a State of Emergency by the Governor) and they are financially burdened because they have depleted all of their accrued leave credits (excluding sick leave).

- They are taking extended time off after childbirth and are financially burdened, because they have depleted all of their accrued leave credits (excluding sick leave).

The following are general Catastrophic Time Bank (CTB) provisions. The Secretary has delegated authority to approve/deny CTB request and to review appeals as follows:

Division	Initial Request	Appeals
Executive Office	Undersecretary	Secretary

- To establish a CTB, a CDC Form 868, Catastrophic Time Bank (CTB) Request, shall be completed and submitted to the employee's local personnel office by the employee or the employee's representative if the employee is incapacitated. All requests to establish a CTB are subject to CalHR laws and rules/contract provisions. Note: CTB requests shall not be processed without the consent of the employee or the employee's representative; this is to protect the employee's right to privacy.
- Upon receipt of the CTB request, the approval authority has five working days in which to review the request, approve/deny the CTB, and forward the form to the appropriate local personnel office.
- The approval authority shall name the person(s) designated to advertise for donations at the time the CTB request is approved. The responsibility may be delegated to a single individual or several persons.
- To make CTB donations, employees shall complete and submit a CDC Form 869, Catastrophic Time Bank Donation Authorization, to the CTB recipient's personnel office. All CTB donations from nonrepresented employees are subject to their contract provisions. Exceptions to the CalHR laws and rules/various contract provisions must be requested and approved.
- If there is an indication of a substantial change in the nature of the illness/injury, the local Return-to-Work Coordinator (RTWC) or Medical Officer (MO) (on a case-by-case-basis), may be contacted by personnel office staff. The RTWC/MO shall then contact the recipient/representative within three working days to obtain the medical status of the ill/injured person, verify the continued need for CTB leave, and notify the local personnel office when a decision is reached.
- CTB donations shall not be used to augment any benefits received due to a work-related injury or illness.
- Personnel office staff shall direct all questions regarding appeals to the headquarters OLR's.
- In all cases where the CTB recipient dies, donations shall not be accepted unless dated and signed on or before the date of death of the

recipient. All unused donations received through the date of death of the recipient shall become part of the recipient's estate.

- Upon expiration of the CTB for a reason other than death, all unused donations shall be returned to donors on a last received first returned basis, 60 days after the employee returns to work.

33010.16 Employee Holidays

Holidays to which all employees are entitled are as follows:

- First day of January.
- Third Monday of January.
- Third Monday of February.
- Last Day of March
- Last Monday of May.
- Fourth day of July.
- First Monday of September.
- Eleventh day of November.
- Fourth Thursday of November.
- Day after Thanksgiving.
- Twenty-fifth day of December.
- Day chosen by an employee (Personal Holiday).
- Every day appointed by the Governor of this State for a public fast, Thanksgiving, or holiday.
- When a holiday falls on a Sunday, the following Monday shall become the holiday.
- If November 11 falls upon a Saturday, the preceding Friday shall be the holiday.

Refer to the MOU as it shall be the controlling factor if the provisions of Government Code (GC) 19853 are in conflict with the bargaining agreement.

The legal holidays may be observed or celebrated in the institutions, in accordance with approved practices. This does not imply that all legal holidays shall be observed by work stoppage or special programs for the inmate population.

33010.16.1 Holiday Time Credit

Holidays falling on an employee's day off shall be credited to an employee pursuant to current administrative practices, contract MOU provisions, and consistent with GC 19853.

Special holiday pay provisions for employees working shifts other than Monday through Friday, who work on holidays, are specified in the MOUs.

33010.17 Exchange of Duty Assignments

Employees may be permitted to exchange hours and/or days of work if allowed by their respective bargaining unit MOU.

Process

SWAP requests shall be:

- Submitted no less than 24 hours in advance.
- Signed by both employees.
- Approved by immediate supervisor(s).
- Completed within the timeframes outlined in the respective bargaining unit MOU.

Employees exchanging SWAPS shall not be entitled to any additional compensation that they would not otherwise receive.

For example:

- Overtime.
- Overtime meals.
- Holiday pay/credit.
- Shift differential.

33010.17.1 Employee Responsibility

Employees shall be responsible for work assignments they accept.

Failure to report for SWAPS may result in SWAP restriction and/or administrative action in accordance with the respective bargaining unit MOU.

33010.18 Watch Assignment Preference by Seniority

Watch assignment preference by seniority shall:

- Apply to Lieutenants, Sergeants, and Officers.
- Apply to 60 percent of the positions on each watch.
- Not apply to camps and Community Correctional facilities.

Post assignments by each watch shall be at management's discretion. The following Lieutenant positions shall be exempt from watch preference:

- Personnel Assignment.
- In-Service Training.
- Public Information Officer/Administrative Assistant.
- Investigations.

Assignment of probationary employees shall be based on their training needs. The Public Information Officer position requires the participation of the AS, Office of Public and Employee Communications, in the selection/interview process.

Watch preference shall be based on the lieutenant's seniority within the classification at the time of the request. Participation is voluntary and those who elect to participate must submit their request to the Custody Captain by November 30 of each year. Lieutenants shall be placed into the designated available assignments by watch in February of each year. All assignments shall be published on the Custody Personnel Movement Sheet.

Relief position determination shall be based on the watch in which the majority of work shifts occur. For example, two Second Watch shifts and three Third Watch shifts is considered a Third Watch assignment.

Lieutenants removed from an administratively assigned position shall be assigned at the discretion of the Warden. However, the assignment may not result in the displacement of a Lieutenant who was assigned to the watch by seniority bid.

Lieutenant assignment rotations shall occur in two year intervals. Exceptions to the two year rotation may be made by the Warden for operational necessity. Retention of a Lieutenant in a specific assignment beyond four years shall be approved in writing by the respective Regional Administrator (RA).

Lieutenant positions outside the institutions, such as Camp Commanders, Background Investigations, etc., shall be filled by an impartial and competitive hiring process.

33010.18.1 Rosters by Seniority

Each institution shall maintain a seniority roster of:

- Lieutenants.
- Sergeants.
- Senior Youth Counselors (DJJ)
- Youth Correctional Counselors (DJJ)
- Officers.
- Probationary Lieutenants.
- Probationary Officers.
- Probationary Sergeants.
- Permanent Intermittent (PI) Officers.
- Watch assignments.

33010.18.2 Seniority Status

The Officers' (including intermittent employees) seniority shall be in accordance with MOU, Bargaining Unit 6.

Seniority for employees (including intermittent employees) in all other bargaining units shall be in accordance with their respective MOU.

Correctional Sergeant and Correctional Lieutenant seniority shall be based on:

- Where a limited term assignment is terminated, (Captain back to Correctional Lieutenant and/or Correctional Lieutenant back to Correctional Sergeant) the seniority accrued in the higher classification shall be calculated into the former supervisory classification in which the employee is returning.
- Total continuous service in class (employees who accept a transfer to a non-custody classification, but do not leave the Department, will receive credit for the previous seniority earned upon return to their former classification) or, in the event of tie;
- Total continuous service in class combined with continuous total State service or, in the event of tie;
- The highest figure as determined by the last four digits of the employee's social security number.

A break in State service of 12 months or more shall result in loss of all seniority credits.

33010.19 Permanent Intermittent (PI) Requirements

Each institution shall maintain a roster of PI Officers.

The number of hours a PI may work may be increased to ensure that the institutions have sufficient PIs to cover their needs. To exceed 1,500 hours in any calendar year, requires written departmental approval.

33010.20 Seniority for Vacation Scheduling

Vacation scheduling for rank and file employees shall be in accordance with their respective MOU for the bargaining unit.

Vacation scheduling for excluded employees and rank and file employees, when not specifically addressed in their MOU, shall:

- Be by seniority in grade (i.e., total service in classification at any institution/facility or office).
- Be consistent with the needs of the institution/facility.
- Ensure an adequate work force to maintain the security and operation of the institution/facility or parole region.

33010.21 Employee Opportunity Transfer

The Department recognizes the benefit of allowing represented employees the opportunity to make voluntary lateral job transfers.

The needs of the State shall be given first priority when a vacant position is filled. The needs include, but are not limited to:

- Special skills.
- Abilities.
- Aptitudes.

The Department shall have the right to fill vacant positions using the existing eligible or promotional lists, voluntary or involuntary transfers, reassignments, or other selection methods.

Process

Employees desiring interdepartmental transfer shall submit a CDC Form 923, Employee Opportunity Transfer Application, with a STD Form 678, State Application Form, attached. Parole Agents desiring interdepartmental transfer shall submit a CDCR Form 923-PART, Parole Agent Request for Transfer, with a STD Form 678 attached, to the hiring authority's Regional Parole Headquarters. Requests shall be in compliance with the appropriate MOU.

When a hiring authority elects to fill a vacancy through a transfer, the selection shall be as specified in the appropriate MOU.

The effective date of transfer shall be agreed upon by the sending and receiving hiring authority, but no later than 30 days following approval.

Time Credits

When transferring employees have an accumulation of compensating time off, holiday credits, or other administrative time, the employee should be allowed to use this time prior to transfer. If it is not possible, the employee shall be allowed to transfer credits.

Use and/or transfer of credits shall be agreed upon by the sending and receiving hiring authority.

Incidents affecting the employees' performance occurring between the time of transfer approval and the transfer date shall immediately be brought to the attention of the receiving hiring authority.

Adverse Action Pending

The Assistant Secretary of the Office of Labor Relations shall review and approve any request for transfer of an employee who has an adverse action pending.

33010.21.1 Hardship Transfer

Employees who demonstrate a hardship may be considered for transfer to another institution/facility/program.

The hiring authority at the sending and receiving institution/facility/program may refuse to approve a hardship transfer request.

A hardship transfer shall only be allowed when the following criteria have been met:

- Circumstances creating the hardship developed after the employee reported to the institution/facility/program.
- Circumstances are related to the employee's immediate family (including spouse, children, step-children, parents, parents-in-law) residing in the employee's immediate household.
- Circumstances involve health or personal problems expected to continue for at least 90 days.
- Circumstances have been documented by physician's statement or other official records.
- Alternatives to the hardship transfer have been explored and determined to be not feasible.

- The hiring authority at the receiving institution/facility/program reviewed the employee's personnel file and is willing to accept transfer, subject to the availability of a suitable job opening.

33010.21.2 Probationary Employees

Generally, transfer requests shall only be considered if the employees have permanent status in their present classification. This allows:

- The employee to demonstrate he/she can satisfactorily perform the duties of the class in which he/she is serving probation prior to being moved to different surroundings and new supervisors.
- Opportunity to consistently evaluate the employee's work performance and his/her ability to perform the work of the class.

Requests shall be reviewed to determine if it is preferable to delay transfer until completion of probation.

The hiring authority at either the sending or receiving institution/facility/program may refuse such transfer.

Hardship transfers for custody classifications occurring within the probationary period require the approval of the Director, Division of Adult Institutions.

For employees transferred in current probationary class, the length of probation remains unchanged.

- If the requested transfer is to another class, the employee shall meet the standards governing transfers between civil service classes.
- Serve a new probationary period unless waived by the hiring authority under provisions of the GC.

33010.22 Involuntary Transfer

An appointing power may involuntarily transfer employees to vacant positions (under the jurisdiction of the Department to deal with Budget reductions and the impact of resulting layoffs, changes in office function or location, reorganization, or the activation of new work sites (e.g., parole offices, facilities). There may be additional causes, however the decision to implement involuntary transfers as a solution are management-initiated and may be in the same or a different geographical location. When such a transfer reasonably requires an employee to change residence, the appointing power shall give the employee written notice of transfer 60 days prior to the effective date of the transfer. Departmental policy prescribes that an employee subject to an involuntary transfer which does not require a change in residence shall be given 30 days advance notification.

33010.22.1 Authority

GC:

- GC 19841 provides the right to moving and relocation expenses when all criteria are met.
- GC 19050.5 states that involuntary transfer of an employee may be made to a different classification under the jurisdiction of the appointing power, however, advance approval of the CalHR is required.
- GC 19994.1 states that 60 days written advance notice of involuntary transfer is required, unless the employee waives this right, when a change in the employee's residence is reasonably required.
- GC 19994.2 states that the CalHR may determine the method by which employees are selected for involuntary transfer when two or more employees are involved.

CalHR:

- CalHR Rule 434 describes involuntary transfer between classification: When the transfer between classifications is not voluntary on the part of the employee, the classification to which the employee is transferred shall have prior executive officer (CalHR) approval.
- Rule 599.714 defines "reasonably required to relocate" as stated in GC 19994.1. The employee is reasonably required to change residence, and therefore, receives 60 days advance written notice of involuntary transfer, when the following criteria are met:
 - At least 35 miles between the old headquarters and the new headquarters.
 - At least 35 miles between the old residence and the new headquarters.

Regardless of whether the employee chooses to change residence, a 60-day written advance notice must be given when the above criteria are met.

Additionally, an employee is entitled to moving and relocation expenses when all of the following criteria are met:

- At least 35 miles between the old headquarters and the new headquarters.
- At least 35 miles between the old residence and the new residence.
- At least 35 miles between the old residence and the new headquarters.
- The new residence shall not be farther from the new headquarters than the old residence is from the new headquarters.

For further information on moving and relocation expenses, contact the Travel Coordinator at the CDCR Corcoran Regional Accounting Office, Travel Unit.

MOU:

If this policy is in conflict with a MOU reached pursuant to GC 3517.5, the MOU shall be controlling without further legislative action, except if the MOU requires the expenditure of funds, it shall not become effective unless approved by the Legislature in the annual Budget Act.

33010.22.2 Policy, Standards, and Guidelines

General Policy

It is the policy of the Department to minimize employee hardship resulting from management-initiated organizational changes by attempting to accommodate such employees via voluntary means prior to involuntary means.

A "Notice of Involuntary Transfer" will be issued only after the Department has attempted to place the employee through the Departmental Restriction of Appointments (DROA) process (when practical*). The DROA process is administered by the Office of Workforce Planning (OWP). The employee(s) is informed in writing of his/her surplus status in the Department and the available options are explained. For further information on the DROA process, contact OWP.

A department may place its employees on the State Restriction of Appointments (SROA) list and designate them as surplus only when CalHR has recognized that the department is in a layoff mode. Placement on the SROA list is limited by CalHR Rule 599.854.1 to those employees who are actually subject to layoff or demotion in lieu of layoff. Employees facing involuntary transfer do not meet the aforementioned criteria and therefore are not eligible for SROA.

- *In the event of an office closure (e.g., Parole Unit, Office, Facilities), program abolishment, or downsizing, the time involved to offer the DROA process to the affected employees may not be practical. The impending closure of an office, program abolishment, or downsizing may necessitate that the involuntary transfer process be initiated immediately. However, this type of urgent need should be rare. Office closure, program abolishment, or downsizing should be a well-planned management decision which includes the appropriate amount of lead time to effectuate employee placement and give optimum advantage and opportunity to the affected employee(s). A minimum of 90 days advance written notice to OWP will ensure sufficient time for preparation.

33010.22.3 Responsibilities

Organization

The organization (e.g., parole region, facility) experiencing the budget reduction, closure of an office, deactivation, etc. provides OWP with a written notice describing the cause of the surplus and need for involuntary transfer and sends a copy to the Office of Labor Relations (OLR) and the Regional Accounting Office. The classifications and the names of all employees holding appointments in those classifications shall be listed. Any special circumstances surrounding the need for involuntary transfer should be explained. A contact person from the organization shall be identified to act as liaison between the organization and OWP on the process. CDC Form 1822, Involuntary Transfer Worksheet, and Request to Implement Involuntary Transfer Process are to be completed and attached to the memorandum to OWP. It is imperative that OWP be notified as soon as the anticipated involuntary transfer of employees is realized. Ninety days advance written notice will ensure sufficient time for OWP to effect the involuntary transfer of surplus staff. This advance notice will relieve the organization of their surplus situation in a timely manner.

Office of Workforce Planning

Upon receipt of written notice of an anticipated need to involuntarily transfer employees, OWP staff will review the request, outline the process, and meet with organization staff to discuss the process.

There may be specific Bargaining Unit (BU) requirements, seniority calculations, or other considerations to be made prior to the movement of

employees. It is essential to carefully review the current MOU for the method of seniority calculation to be used for involuntary transfer.

The need to involuntarily transfer employees often varies in that a "surplus" of employees may or may not require that the seniority of all employees in the classification is calculated to ensure that the least senior employees are transferred.

Following are conditions under which involuntary transfer may be necessary:

- There are 50 employees in the classification of Office Assistant (OA) (Typing) (T) and the program has 50 authorized budgeted OA (T) positions. The program is required to reduce their OA (T) positions by 10 percent which equates to five positions. In order to identify the five least senior employees who will be subject to involuntary transfer to vacant OA (T) positions elsewhere in the Department, seniority must be calculated for all 50 employees. OWP will order seniority from CalHR and effectuate the involuntary transfer of the five least senior employees.
- The closure and movement of an office.
- A field office is being closed due to the conclusion and nonrenewal of the lease. Another office in another location has been obtained and leased for a lesser cost. Transferring the employees to the new office location would not necessitate seniority calculations, as long as all the employees are being transferred to the same location (new office). However, the employees and affected unions must be given notice consistent with policy, applicable laws, and MOUs. OWP would initiate the notices.
- Abolishment of a program.
- A vocational program is abolished. There are two positions and both are filled. This classification is used elsewhere in the Department. The classification is frozen through the DROA process.
 - OWP staff and the Institutional Personnel Officer explore options available to the affected employees such as voluntary transfer to other classifications.
- If there are other vacant positions in this classification in the Department, OWP will order seniority scores from CalHR and implement the involuntary transfer of staff. If the vacant positions exist in separate locations, the most senior employee is offered first choice.
- OWP prepares and assures the delivery of CDC Form 1822, in accordance with this policy, applicable laws, MOUs, or other negotiated agreements between the State and the unions.

Office of Labor Relations

The OLR receives a copy of the initial notice sent to OWP of the possible involuntary transfer of employees. The OLR staff reviews any MOU restrictions or requirements with regard to those represented employees affected by an involuntary transfer. Notification of the union(s) is made by OLR staff. If requested by the union, a meet-and-confer on impact will be scheduled. A coordinated effort between OWP and OLR is essential to effectuate a smooth transition of affected employees.

Accounting Services

The Relocation Coordinator located at Sacramento Accounting Office (SAO) receives a copy of the initial notice sent to OWP of the possible involuntary transfer of employees. The SAO will address any concerns of the employee(s) regarding claiming relocation and moving reimbursement after CDC Form 1822 has been delivered. Upon authorization for the move, the SAO will send a moving and relocation package to the employee. The STD Form 255, Moving Service Authorization, is included in the package to the employee.

The employee may receive relocation payment or reimbursement of actual and necessary moving, traveling, lodging, and meal expenses when the employee is required to change residences, as a result of an involuntary transfer for the advantage of the State or a transfer in lieu of layoff.

The actual and necessary relocation expenses incurred by a relocating employee, both before and after the change of residence, are defined and controlled pursuant to the State Administrative Manual (SAM) 0721 through 0774, 3800 through 3885, 8572.1 and DPA Rules 599.714 through 599.724.

Actual and necessary moving expenses include the following (the amounts are subject to change; consult with the SAO for current per diem rates, etc.):

- Meals, lodging, and incidental expenses while locating a permanent residence at the new headquarters within the limits of CalHR Rules 599.721 and 599.722. Relocation per diem is allowed up to a

maximum of 60 days and shall terminate immediately upon establishment of a permanent residence.

- The BU contract should always be referenced to obtain per diem and other expense allowances at the time the transfer is to be made.
- Although some expenses do not require receipts in order to receive reimbursement, the employee should retain sufficient documentation as proof that the amounts claimed do not exceed actual expenses in the event they are audited by the Internal Revenue Service.
- Movement of household goods are allowed within the limitations of CalHR Rules 599.718 and 599.719.
- Expenses incurred for dissolution of the household and/or establishment of the new household are allowed in accordance with CalHR Rule 599.715.
- Expenses incurred for the actual and necessary cost to sell a residence will be reimbursed as determined by prevailing practices within the area of the sale and within the limitations of CalHR Rule 599.716.
- The settlement of an unexpired lease agreement up to the maximum of one year will be reimbursed within the limitations of CalHR Rule 599.717.

When involuntary transfer is utilized in lieu of employee layoff and/or due to budget reductions, the Department may negotiate a lesser relocation package than the procedures listed above. The above procedures and rules are governed by CalHR, SAM, and the employee's BU contract; however, the Department has the discretion to modify or eliminate certain portions of the relocation expense reimbursement with the agreement of CalHR and the appropriate BU. An example of a modified package may include 30 days of per diem expense, 30 days of storage, movement of household goods, and the elimination of the sale of residence reimbursement.

Upon receipt of a Std. Form 262, Travel Expense Claim, the SAO will process the claim within 30 days.

Employee

The employee may waive the 30-day or 60-day notice and choose to report to the new headquarters at an earlier date; however, no employee shall be coerced or forced to waive his/her right to such notice. Employees shall be assured that they will not be subject to reprisal, if they do not waive this right. An employee has the right to file an appeal with CalHR, if he/she believes the involuntary transfer is being made for the purpose of harassment or discipline.

An employee faced with involuntary transfer cannot elect to voluntarily demote and displace a lower senior employee in order to remain at the "old headquarters."

An employee who refuses an involuntary transfer may seek a permissive transfer to another agency; seek a permissive transfer to a vacant position in the Department; resign in lieu of the transfer; or retire, if eligible. If the employee fails to report to the new headquarters as instructed, he/she may be separated (Absent Without Leave {AWOL}) five working days after the effective date of the involuntary transfer (in accordance with the California Supreme Court decision *Coleman vs. DPA and General Services*), or be subject to other types of adverse action.

For BU 6 employees, the MOU recognizes additional procedural steps when processing an AWOL separation. Therefore, the Department may elect to use the Adverse Personnel Action procedures to process an AWOL separation for BU 6 employees. When making a determination as to which process to use, program staff should consult with OLR and OWP for guidance.

33010.23 Examination Application Acceptance Policy

Examination bulletins publicize final filing dates designed to allow a reasonable time for interested persons to file an application on or before the final filing date.

Strict adherence to filing dates is required by the CalHR.

Applicants are encouraged to file early to ensure timely receipt of their applications.

33010.23.1 Timeliness Determination

If a mailed application is received after the final filing date, the cancellation date stamped on the envelope by the post office is used to determine whether the application was mailed on or before the final filing date. The applicant shall ensure the application is postmarked on or before the final filing date.

Applications placed in interdepartmental mail and not received on or before the final filing date shall be considered to be LATE applications. To avoid

this, mail at a post office and obtain a certificate of mailing receipt. This is acceptable proof that the application was submitted timely.

Following are the conditions under which late applications typically shall not be accepted:

- The applicant claims he/she did not see the bulletin because of distribution problems within the reporting unit.
- The applicant gave an application to another person to turn in to the office that is administering the examination, but it is not received on or before the final filing date.
- The applicant claims the application was mailed, placed in interdepartmental mail, or hand-delivered to the Office of Workforce Planning (OWP) or the local testing office on or before the final filing date.
 - A late application may be accepted under this condition only if the applicant has a written statement from a post office official or other witness who verifies the application was mailed on time.
- Application is postmarked after the final filing:
 - If the post office verifies, in writing, this was caused by post office error, the application shall be accepted.

Following are the conditions under which late applications may be considered:

- The hiring authority verifies in writing that the examination bulletin was not received by the local testing unit because of bulletin distribution problems and prevented the employee from being properly notified.
- The unit manager verifies the employee was away from his/her work during the entire publicity period.
- The application delay was caused by OWP or field office staff error (for instance, an application was returned to an applicant in error).
- The application was submitted in error to the CalHR or to another state department's Personnel Office and was either postmarked on or before the final filing date or date stamped by that department's personnel office.

33010.23.2 Examination Bulletin Distribution

Examination bulletins are sent to all reporting units in Headquarters (including off-site units), institutions, and Regional Parole Headquarters and parole units.

The local manager shall ensure all examination bulletins are posted in a place visible to all employees.

Employees shall be responsible to keep themselves informed of testing for classes currently being administered.

33010.23.3 Testing Information

Office of Workforce Planning (OWP) Front Counter
Number (916) 322-6791

Office of Peace Officer Selection (OPOS) Customer Service Phone

- Central Selection Center (Fresno)
- (559) 445-6141 – Testing
- (559) 445-5770 – Background Investigation

33010.24 Reduced Worktime Policy

The Department shall make available, to the extent feasible, reduced worktime to requesting employees.

Employees shall submit a request to the appropriate hiring authority.

The hiring authority shall make a written response within 30 days either granting approval or explaining why reduced worktime is not feasible.

33010.24.1 Impact Consideration

Reduced worktime schedules may impact:

- Costs.
- Service to public/clients.
- Health and safety.

- Administrative considerations.
- Supervision.
- Span of control.
- Workload.
- Other factors.

Planning and scheduling may minimize or eliminate the impact, and the request may be feasible.

When impact is of significant extent, and planning and scheduling does not alleviate the impact, the requests may not be feasible.

33010.24.2 Peace Officer Exclusion

Employees in peace officer classifications shall be precluded from reduced worktime provisions.

33010.25 Nepotism/Fraternization

Staff shall not use their personal relationships to aid or hinder others in the employment setting.

For purposes of this Section, relationships include, but are not limited to, an association with another individual by blood, adoption, foster arrangement, cohabitation, current or previous marriages (including in-laws), or any other relationships which create a conflict between the private interests of the employer and his/her public obligations.

Appointments/Assignments

An employee in a relationship, as defined above, with another department employee shall not be appointed or assigned where such a relationship would adversely affect or influence:

- Safety, security, or morale of employees of a program, section, or unit.
- Fair and impartial supervision and evaluation of employees.

Employees involved in such relationships may work in the same program, section, or unit. However, appointments or assignments shall not be made where the employee would:

- Work for the same supervisor.
- Have a direct (first line supervisor), or indirect supervisory relationship (second line supervisor).
- Audit the work of, or exercise fiscal control over that person with whom they have a relationship, regardless of organizational separation.
- Participate in the development and/or administration of an examination or hiring interview of that person.
- Work in a program, section, or unit within close proximity of each other.

Responsibilities

Employees shall immediately notify the hiring authority or their respective supervisor when working arrangements and/or assignments are in conflict with the nepotism/fraternization policy.

The hiring authority or supervisor must inform candidates of the nepotism/fraternization policy at the time of the interview. Exceptions to this policy may be granted under limited circumstances. The hiring authority or supervisor is responsible for requesting an exception to the policy (refer to Exception Procedure Guidelines). Recruitment, hiring and/or promotional decisions will not be based upon marital status.

The hiring authority, managers, and supervisors must ensure their employees are aware of the departmental nepotism/fraternization policy. Additionally, the hiring authority, managers, and supervisors must take appropriate action to correct violations of this policy. This may require reassigning one of the employees, or requesting an exception to the policy.

Exception Procedures Guidelines

When the appointment of a candidate would violate the departmental nepotism/fraternization policy, the hiring authority, manager, or supervisor must submit a request for exception, and receive approval prior to extending a job commitment.

The exception procedure guidelines are as follows:

- A written request that clearly defines the relationship, and the benefit(s) to the State such an exception would provide (e.g., overcoming a recruitment difficulty or obtaining a uniquely skilled person). This request shall be submitted through the immediate supervisor to the appropriate supervisory level (Chief, Manager, Associate Warden (AW), etc.) of the affected area, section, unit, or division(s) for first level review. Should the exception involve a person(s) reporting directly to the first level reviewer, the next highest ranking official shall review the request for exception and render a decision. All requests for

exception shall be submitted to the highest ranking administrator of the affected area, section, unit, or division (e.g. Warden, Regional Administrator (RA), Deputy Director (DD), etc.) for final approval.

- Each exception request shall be reviewed to assess the potential for, and degree of impact upon the following:
 - Safety, security, and morale of the employees;
 - Fair and impartial supervision and evaluation of employees by the supervisors in the program, section, or unit.
- A written response to the exception request will be completed within ten (10) working days. A copy of the response shall be forwarded to the appropriate level personnel officer and Employee Relations Officer.
 - If the exception request is approved, the personnel officer shall place a copy of the approval in the respective employee personnel file.
 - If the exception request is denied, a written explanation of the basis for the denial, including notification to the employee of his/her appeal rights per established procedure, shall be provided to the employee. A copy of the denial document(s) shall be forwarded to the appropriate personnel officer and placed in the respective employee personnel file.

Current Employees

Managers and supervisors shall ensure their employees are aware of the departmental nepotism/fraternization policy, and shall take appropriate action to correct violations. When management becomes aware of employment that violates this policy, the supervisor(s) of the involved employee(s) shall either reassign one of the employees, or request an exception to the policy following the exception procedure guidelines.

For current employees, the exception procedure guidelines shall be used with the following modifications:

- If the exception request is denied, the denial shall include a written explanation of the basis for the denial. The denial explanation shall additionally notify the employee of his/her right to file a complaint in accordance with the established procedure. The personnel officer shall place a copy in the respective employee personnel file.

If the exception request is denied and reassignment of an employee is necessary, every effort shall be made to avoid relocation expenses. If an employee must relocate his/her household to meet the department's nepotism/fraternization policy, the Department shall pay any associated relocation expenses. (refer to the CalHR Rules and Regulations.)

33010.25.1 Incarcerated Relatives/Associates

When an employee becomes aware that any relative, or person with whom the employee has or has had either a personal or business relationship, has been committed to or transferred to the jurisdiction of the Department, the employee shall immediately notify in writing the employee's institution head, Superintendent, or Deputy/Assistant Director (AD).

The employee shall provide written notification by filling out CDCR Form 2189. This form can be obtained in the Personnel Office or Institutional Watch Office. The employee will provide completed CDCR Form 2189 to the institution head, Superintendent, or Deputy/Assistant Director.

One copy of the completed CDCR Form 2189 will be kept in the employee's Official Personnel File (OPF), and one copy shall be kept in the affected inmate's Central File.

The copy of CDCR Form 2189 that is placed in the employee's OPF shall be confidential and maintained in a sealed envelope at the back of the file. Access to this form within the employee's OPF will be limited to authorized personnel only.

33010.26 Prohibition of Personal Influence

Employees shall not use their personal influence to aid or hinder any individual in any phase of a civil service examination or hiring process because of a family or close personal relationship.

Employees shall not:

- Participate in the hiring or promoting of any person with whom they have a close personal relationship.
- Aid or hinder any individual in any phase of a civil service examination or hiring process because of such relationship.
- Defeat, deceive, or obstruct any other person's right of examination, application, or employment.
- Willfully and falsely mark, grade, estimate, or report upon the examination standing of any person examined or certified.

- Furnish any person with information improving or injuring chances of that person's examination or application.
- Practice deception or fraud with regard to any person's identity in connection with any examination, application, or request to be examined.
- Obtain examination questions/materials before, during, or after an examination for purpose of preparing candidates for examinations.
- Use unfair means to cause or attempt to cause any eligible to waive any rights under these regulations.

33010.26.1 Appearance of Improper Influence

To avoid the appearance of improper influence, employees with such a relationship to any competitor shall not participate in any phase of the examination process including but not limited to:

- Planning.
- Question development.
- Preliminary Review Committee (PRC).
- Oral interview panel.
- Serve as a rating or reviewing supervisor of the competitor.
- Participate in discussions or ratings of the competitor.

If an employee serving on a PRC, oral interview panel, or participating in the discussion or rating of competitors finds one of the competitors is one with whom he/she has a family or close relationship, the employee shall leave the room and not participate in the interview, observation, discussion, or rating of that competitor.

If an employee serving in any capacity discovers a competitor is one with whom he/she has a family or close relationship, the employee shall contact OWPS for direction.

Employees selected to participate in the State Civil Service examination process shall maintain the competitive and confidential nature of the examination process. Disregard for examination integrity can result in examination appeals from the candidate group and may ultimately be grounds to void an examination.

Violation of the provisions of this Section:

- May be a misdemeanor.
- Shall be cause for adverse action.

33010.27 Service Awards

Pursuant to GC 19849.9, employees completing 25 or more years of State service and retiring employees who have at least 25 years of State service as of the effective date of their retirement qualify for a service award consisting of a framed certificate and their choice of any one of the items offered by and described in the catalog provided by the contracting vendor.

Employees who are being awarded under this program shall be presented a memento within one year of completion of 25 years of State service or within 60 days of their retirement date. (see DOM Chapter 3, Article 3, Employee Awards.)

33010.27.1 Personnel's Responsibility

The local personnel office shall:

- Notify the unit timekeeper/supervisor via a CDC Form 1785, Service Award Eligibility Notification, of employees who are within at least 2 months of attaining 25 years of State service or who have 25 years of State service as of the effective date of retirement and are qualified to receive a retirement memento.

33010.27.2 Supervisor's Responsibility

The employee's supervisor shall:

- Make the contracting vendor's catalog available to the employee.
- Arrange for the ordering of a selected award/memento from the contracting vendor as follows:

Headquarters and Division of Adult Parole Operations

Submit a CDC Form 954, Intraoffice Requisition (IOR). A copy of CDC Form 1785 shall be attached to CDC Form 954. All orders shall include the information outlined under "Ordering Instructions" in the vendor's catalog.

Institution/Facilities

Supervisors are responsible for ensuring the award is ordered according to the institution/facility's established procedure.

- Prepare a 25-year service anniversary/retirement letter for the Secretary's signature.

- Submit the letter through the chain of command to the appropriate Warden/Superintendent, RPA, Health Care Manager, or DD for signature.

33010.27.3 Manager's Responsibility

The appropriate DD, Warden/Superintendent, Regional Parole Administrator, Chief Executive Officer, or his/her designee shall:

- Check with the following offices to ensure the proposed 25-year anniversary or retirement letter accurately reflects the employee's employment record with the Department, including prior positions:
 - OPS (for prior or pending adverse actions against the employee).
 - OLA (for prior or pending legal actions in which the employee is a plaintiff or defendant and for prior or pending workers' compensation litigation).
 - OIA (for pending or prior internal affairs investigations where the charges against the employee were sustained).
- Every employee who completes 25 years of State service or retires from the Department shall receive the appropriate letter signed by the Secretary. However, the letter shall be personalized, meaningful, and relevant. For example, the letter for an employee who retires because of a disability should contain this information and should be consistent with the employee's length of State service and the circumstances of the retirement (without specifically stating the nature of the employee's disability). If an employee recently has been formally disciplined (i.e., with a formal reprimand, suspension, demotion, or reduction in pay) for misconduct, the letter should simply acknowledge the retirement or completion of 25 years of service. An employee who has made significant contributions to the Department and/or who has an exemplary employment record should be recognized in the letter.

33010.27.4 Standards

A retirement and service anniversary letter shall receive careful consideration to ensure it is a personalized, meaningful, and relevant document that demonstrates appreciation and respect for the employee's years of service.

Letters shall be prepared for the Secretary's signature and be consistent with procedures outlined in the Secretarial Handbook Section 2-3000.

Letters shall contain information on the employee's:

- Service history.
- Pertinent work history.
- Appropriate biographical information.

33010.27.5 Retirement Resolution

Upon request from the employee or the employee's unit, the local personnel office shall print a retirement resolution and shall forward the resolution to the employee's unit or home address.

The following information is needed to complete the resolution:

- Name of retiree.
- Total State service (number of months).
- Year State service began.
- Initial title or position with the State.
- Initial department.
- Title and department at time of retirement.
- Indicate luncheon or dinner if applicable.
- Date of event if applicable.
- Date of presentation.

33010.28 Presentation

The hiring authority shall provide for appropriate presentation of letters, certificates, resolutions, and service awards.

33010.28.1 Employee Retirement and Death Benefits

PERS provides retirement or death benefits that could be applicable to an employee. For more specific information, the following pamphlets are available from your local personnel office or Public Employees Retirement System (PERS):

- PERS Benefits for State Miscellaneous Members.
- PERS Benefits for State Industrial Members.
- PERS Benefits for State Safety Members.
- PERS Benefits for State Peace Officers/Fire Fighters.

Retirement information includes:

- Service credit.

- Eligibility.
- Allowance formula and calculation.
- Final compensation.
- Optional settlement with survivor continuance.
- Estimates.
- Health insurance.

33010.28.2 Disability Retirement

State Miscellaneous members with five years of service are eligible to apply for disability retirement if they cannot work because of illness or injury.

State Industrial, Safety, Peace Officer, and Firefighter members may apply for:

- Disability retirement if illness or injury is nonjob related. (Member needs a minimum of five years of service.)
- Industrial disability retirement if illness or injury is job related.

33010.28.3 Social Security

Employees/survivors shall contact the local social security office to determine what benefits may be available under that program.

33010.28.4 Public Safety Officers' Benefit Act Of 1976

Law Enforcement Assistance Administration (LEAA) is authorized to pay a \$50,000 death benefit to the eligible survivor of a public safety officer who died as a "direct and proximate result of personal injury sustained in the line of duty."

Claims are filed by the Department on behalf of the survivor, but the survivor may elect to file directly to LEAA.

33010.28.5 Term Life Insurance

A State sponsored term life insurance policy is available to certain excluded employees below the age of 70.

Enrollment is automatic for eligible employees.

Additional information is available through the local personnel offices and CalHR.

33010.28.6 Other Benefits

GC 13959 through 13969.1 provides benefits and assistance to victims who sustain injuries or death as a result of a crime or violence.

GC 13970 through 13974 provides benefits to private citizens who incur injury, death, or property damage under the following circumstances:

- In the course of preventing the commission of a crime against another person or property.
- In apprehending a criminal.
- In assisting a peace officer in his/her duties.
- In rescuing a person in immediate danger.

Further information relative to these indemnities may be obtained from the Victim Compensation and Government Claims Board.

33010.29 Hardship Salary Advances

In accordance with provisions of the SAM 8595, a hardship salary advance may be issued to an employee before the employee's regular monthly, bimonthly, or intermittent payday. The hardship salary advance shall be based on the net amount of the employee's regular base salary and shall only be for serious, unforeseeable hardship.

It is the policy of the Department that all employees receive a paycheck each payday. For all permanent employees, except intermittent or hourly employees, this is the last working day of each pay period. For intermittent, hourly, or temporary employees, this is no later than the fifteenth calendar day of the month providing the attendance documents are received in the Personnel Office timely.

A request for hardship salary advance is not an automatic option nor is it intended to be a simple loan made available to the employee. The Department cannot legally loan employees' money to cope with the economic difficulties or temporary inconveniences that occasionally fall upon every individual. A hardship salary advance cannot be a substitute for adequate personal financial management.

The circumstances during which a request for a hardship salary advance is made shall have the following characteristics:

- The situation or event was such that it caused an immediate emergency or economic hardship on the employee or those economically dependent upon the employee.
- The situation or event was such that the employee could not have reasonably planned or prepared for it in advance.

- The employee has exhausted all conventional means of obtaining necessary funds elsewhere (savings, credit union, bank, etc.). A hardship salary advance shall only be the last resort.
- A description of the situation or event that warranted the request for a hardship salary advance is clearly provided with adequate supporting documentation.
- The amount of the request is clearly documented and does not exceed the net salary earned to date by the employee. The amount allowable for a hardship salary advance shall be based on the employee's net regular base salary, excluding overtime, physical fitness, bilingual, recruitment, and retention pay, etc. The maximum amount available shall be the regular wages earned to date during the calendar month of request.
- A hardship salary advance has not been requested for the prior 12-month period. Hardship salary advances shall be limited to one for any 12-month period.

Acceptable Reasons

The following is a listing of some of the acceptable reasons for applying for a hardship salary advance:

- Acts of vandalism that have caused significant damage to vehicle or residence that require immediate repair.
- Emergency home repairs due to unforeseeable events such as fire, flooding, storm damage, theft, or vandalism.
- Emergency medical expenses due to serious injury or prolonged illness.
- Death in the immediate family.

Unacceptable Reasons

The following is a listing of examples of unacceptable reasons for hardship salary advances:

- Moving expenses.
- School expenses.
- Vacation expenses.
- Being away from the office on payday.
- Routine vehicle maintenance or vehicle repair as a result of normal usage.
- Automobile loan or lease payments.
- Monthly rent or mortgage payment.
- Other items that the employee should have planned and/or budgeted for since they are recurring, predictable expenses.

The above lists are not meant to be exhaustive, but rather examples. Good judgment shall be used in requesting and in approving hardship salary advances.

33010.29.1 Process

Wardens/Superintendents shall designate a staff member (minimum level is the Business Manager) to review all hardship salary advance requests for their respective facilities.

The Chief of the Office of Accounting Services shall be the reviewer for headquarters and for DAPO (Headquarters and Regional Parole offices). The employee shall submit a written request to his or her supervisor for a specific amount with sufficient explanation of the circumstances to indicate that it is an unforeseeable emergency and some supporting documentation that all other means of obtaining the necessary funds have been exhausted. In addition, the employee shall sign a CDCR Form 1161, Authorization for Repayment of Payroll Revolving Fund/Hardship Salary Advance.

33010.29.2 Responsibilities

Supervisor of Requestor

Prior to signing and forwarding the hardship salary advance request, the supervisor of the requestor shall:

- Review the request.
- Verify the unforeseeable emergency if appropriate.
- Verify that all other means of obtaining necessary funds have been exhausted.
- Verify that CDCR Form 1161 was filled out and attached.
- Verify the actual emergency expense or the net salary earned to date, whichever is less.
- If approved, sign the request and forward it to the designated reviewer with all appropriate supporting documentation.
- If denied, return the request to the employee.

Designated Reviewer

Prior to signing and forwarding the hardship salary advance request, the designated reviewer shall:

- Review the request for appropriateness.
- Request further verification if necessary.
- If approved, sign the request and forward it to the personnel office (with all appropriate supporting documentation).
- If denied, return the request to the employee.
- Maintain a copy of each request (approved or denied).

Personnel Office

The personnel office shall:

- Determine the vacation leave, sick leave, dock, etc., that the employee has used in that particular month.
- Determine that the amount requested does not exceed the net salary earned to date. Determination may be based on payroll records of prior pay period or other appropriate method.
- Determine the employee's normal mandatory and voluntary payroll deductions. A participant of the Direct Deposit (DD) Program shall cancel their participation in the DD Program prior to the hardship salary advance being issued.
- May reduce the request so that the amount does not exceed the salary earned and/or net pay of the prior pay period.
- Notify the accounting office in writing to issue a revolving fund check.
- Recover the amount of the hardship salary advance from the employee's next payroll warrant or, if necessary, from subsequent payroll warrants (i.e., overtime, physical fitness pay, uniform allowance, future pay warrants, etc.).

Accounting Office

In addition to the normal revolving fund requirements, the Accounting Office shall:

- Issue the revolving fund check as approved by the Personnel Office.
- Notify the employee when the check can be picked up.
- Follow normal collection procedures to clear the salary advance in a timely manner.

33010.30 High Stress Assignments

High stress assignments are those in controlled housing units requiring direct and continuous contact with inmates confined therein because they present too great a management problem for housing in general population settings. Such housing unit assignments include, but are not limited to, the following:

- Security Housing Units.
- Administrative Segregation Units.
- Psychiatric Services Units.
- Protective Housing Units.

33010.30.1 Selection

Employees shall:

- Be carefully evaluated before such assignment.
- Have demonstrated a high degree of maturity, tolerance, and ability to cope with stressful situations.

33010.30.2 Duration

High stress assignments shall be limited to no longer than two years.

Exceptions may be made by the Warden/Superintendent when:

- The employee indicates a desire to remain.
- The employee's performance is completely satisfactory and does not reflect the effect of undue stress.

33010.30.3 Supervision

Supervisors shall:

- Evaluate the performance of employees on a continuous basis.
- Act promptly to remedy stress-related problems that appear to adversely affect the employee's physical and mental health and effectiveness.
- Take remedial action including placement in a less stressful assignment in or outside of the unit.

33010.31 Personnel Records

Only those personnel records which are necessary, relevant, timely, or required by law shall be collected and maintained.

Personnel records shall be maintained no longer than the period of time required by law or in accordance with the approved Department retention period established for the record.

33010.31.1 Definition

Any record maintained under an individual's name by their employing agency and containing records relating to the following:

- Personnel data, including marital status, family members, educational and employment history, or similar information.
- Election of employee benefits.
- Employee advancement, appraisal, or discipline.
- Complaints or investigations of complaints pertaining to the manner in which the employee participated or was perceived to have participated.
- Summary criminal history information.
- Any other information, the disclosure of which would constitute an unwarranted invasion of personal privacy.

33010.31.2 Public Information

Pursuant to CC 1798 et seq., and the Information Practices Act, the following employee information is considered "public" and may be released upon request:

- Name.
- Employing agency and name of unit.
- Work location and office phone number.
- Civil service classification.
- Job description, duties, and responsibilities.
- Salary range and gross salary rate.
- Time base.
- Tenure.
- Date appointed and/or separated.
- Cost to the State for training, travel, and/or attendance at conferences.

33010.31.3 Adverse Comments

GC 3305 provides that no comment adverse to a public safety officer's interest shall be entered in any file used for personnel purposes without the employee's having first read, signed, and dated the document. The Director has extended the application to all Department employees. If the employee refuses to sign, the fact is noted on the document and it is then signed by a witness (usually the supervisor presenting the memorandum) prior to it being placed in the file.

The employee has 30 calendar days in which to file a response to any adverse comment. If a response is made, it shall be attached to the document that contains the adverse comment.

33010.31.4 Disclosure

PC 832.7, GC 6254, and CC 1798 protect the confidentiality of personnel records and strictly limit their disclosure. Information from employee personnel records (other than public information) shall be disclosed only as follows:

- To individuals whose official duties require they process or review such records including, but not limited to:
 - Personnel staff.
 - Hiring supervisors/managers including Wardens, RPA's, and Executive Staff or their designees.
 - Employee Relations Officers.
 - Return-to-Work-Coordinators.
 - Department investigators.
 - Attorneys representing the Department.
- In accordance with PC 832.5, 832.7, and 832.8; EC 1043; and GC 6254, the employee shall be immediately informed of the service of a subpoena or court order requesting the release of personnel records. Advice of legal counsel will be sought where legality of disclosure is in question.
- With a release signed by the employee to whom the record pertains. The employee's signature shall be verified with that on file.

33010.31.4.1 Medical Records

Medical records are confidential and are maintained in such a manner so as to protect that confidentiality. These records are generally exempt from inspection other than by personnel staff.

33010.31.4.2 Internal Investigations

If a review of the personnel records is required during an internal investigation, the reviewer shall obtain authorization from the Secretary, or designee before the review can be granted.

TYPE OF OFFICIAL INVESTIGATION	DESIGNEE
Third Level Complaints/ Grievances	Assistant Secretary, Office of Labor Relations
Discrimination or Sexual Harassment complaint	Chief, Office of Civil Rights Operations
Background Investigations	Chief, Office of Peace Officer Selection
Criminal and/or Administrative Investigations	Deputy Director, Office of Internal Affairs

Additionally, attorneys from the OLR are authorized to review personnel records.

33010.31.4.3 Supervisory Files

To maintain a system of comprehensive and effective record keeping, supervisors may keep an informal personnel file on their premises in addition to the OPF maintained by the personnel office. This informal file shall be subject to the same provisions as the OPF.

33010.31.4.4 Work Performance Inquiries

Supervisors may comment on the work performance of subordinates or former subordinates and respond to inquiries from third parties about a subordinate's or former subordinate's qualifications, as long as such comments are founded in documentation. A supervisor may indicate whether a subordinate or former subordinate would be considered for rehire. Personal or confidential information shall not be disclosed unless authorized by the individual to whom it pertains (CC 1798.50).

33010.31.4.5 Employee Access to Personnel Records

GC 18573 permits an employee to examine employment records relating to their State service. All of the material, except for the following, may be reviewed:

- Any medical information determined to be confidential under CC 1798.40 (i.e., information containing custodian of the record reasonably determines that disclosure of the information would be medically or psychologically detrimental to the individual) or medical file material which is protected by the attorney/client privilege. An employee may authorize disclosure of medical information to their physician. In turn, the physician may disclose to the employee any information they deem appropriate.
- Any confidential information contained in an applicant's background investigation file.

33010.31.4.6 Employee Representative Access

Personnel records may be reviewed by an employee's representative with the written permission of the employee and proper identification of the representative. Any and all information available to the employee shall also be available to the representative.

33010.31.5 Review Process

An appointment should be made with the personnel office staff or other office holding the file.

The reviewer shall present identification to the personnel office staff prior to reviewing any personnel record.

Original OPF's shall not be removed from the personnel office area designated as the review area and may be reviewed only in the presence of an authorized personnel office employee.

Travel to the employee's personnel office and time required for travel and review of the employee's records shall be at the expense and on the time of the employee. An employee may request a copy of the record to which they have a right to access, be mailed to their office. The copy will be mailed in a sealed envelope marked "Personal and Confidential."

33010.31.6 Inspection Log

Each employee's OPF shall contain an inspection log. Any person reviewing the file shall sign and date the log, indicating the reason for review (in accordance with the law).

33010.32 Release of Regular Pay for Permanent Intermittent Employees

All positive pay employees shall receive their regular pay for the appropriate number of hours worked in the pay period (including paid leave and holiday pay) no later than the 15th day of the following month. If the 15th day falls on a Saturday, the release date will be adjusted to the preceding workday. If the 15th day falls on a Sunday or holiday, the release date shall be adjusted to the following workday.

If an SCO warrant is not issued by the deadline, a request to issue a revolving fund check (salary advance) will be sent by the personnel office to the respective accounting office on that date.

33010.32.1 Exceptions

Release of checks for positive attendance regular pay may be delayed beyond the 15th day of the month for the following reasons:

- Late receipt of CDCR Form 998-A, Employee's Attendance - Record and Personnel Post Assignment System (PPAS) Worksheet.
- Late receipt of proper appointment documentation.
- Delay in mail delivery (outside the control of the Department).

33010.33 Revisions

The Deputy Director, Human Resources, or designee shall be responsible for ensuring that the contents of this Article are kept current and accurate.

ARTICLE 21 – UNIFORMS/EMPLOYEE GROOMING STANDARDS

Effective December 12, 2002

33020.1 Policy

All designated personnel shall wear regulation uniforms or work clothing and adhere to grooming standards as prescribed by the Director of the California Department of Corrections and Rehabilitation (CDCR), Adult Operations or his/her designee, while on-duty and/or on official State business. Items not specifically addressed in Department Operations Manual (DOM), Chapter 3, Article 21, are considered unauthorized.

33020.2 Purpose

This Article establishes uniform, and/or dress requirements, and grooming standards for specified employees.

33020.3 CDCR Uniform Specification Handbook

Consistent design specifications for individual uniform, garments, and accessories shall be incorporated and distributed as a standardized statewide document, and shall henceforth be referred to as the "CDCR Uniform Specification Handbook." Refer to this handbook and DOM, Chapter 3, Article 21, for all uniform, garment, and accessory specifications.

33020.3.1 Disclaimer

If any provision in DOM, Chapter 3, Article 21 or the CDCR Uniform Specification Handbook conflicts with a Memorandum of Understanding (MOU), the MOU shall prevail as it relates to the specific represented group.

33020.4 Responsibility**Wardens/Regional Parole Administrators**

Each hiring authority shall designate specific assignments where custodial personnel have been exempted from wearing a uniform, or are not required to wear a uniform full-time.

Any exception to the standardized approved uniforms and/or equipment shall be requested in writing and forwarded to the appropriate Deputy Director for review and approval.

Note: The Deputy Directors' approval shall be obtained prior to implementation.

Inspections

Each hiring authority shall:

- Establish an annual Class "A" uniform inspection, which shall be conducted on three consecutive working days. This shall not prohibit the Warden/Regional Parole Administrator from designating additional formal inspections.
- An official Class "A" hat is not required to be worn during inspection; however, the hat shall be shown during the actual inspection and be immediately available upon supervisory request during the entire inspection period.
- Enforce dress codes and personal grooming standards for all employees per DOM, Chapter 3, Article 21, Uniforms/Employee Grooming Standards.

Supervisors and Managers

Supervisors and managers are expected to set a positive example for all staff regardless of classification. They are responsible for monitoring compliance of the departmental dress code and grooming standards.

Supervisors and Managers shall:

- Conduct daily uniform and grooming inspections of all immediate subordinate staff.
- Instruct employees to correct violations of uniform and grooming standards.
- Report, in writing, to their immediate supervisor, any violation an employee fails to correct in a reasonable amount of time.

Uniformed Employees

All uniform personnel shall:

- Purchase and maintain all required uniforms, accessories, and equipment except items specifically exempted by this DOM Article and/or the appropriate MOU.
- Furnish their own collar insignia, shoulder insignia, sleeve chevrons, shoulder patches, hat shield, and other required uniform equipment.
- Maintain their uniform and approved equipment in clean, neat, and serviceable condition.
- Wear the uniform in a manner that displays a professional approach to their assignment and is representative of the prestige of the CDCR.
- Keep in mind that individual actions reflect on the entire Department as they represent the CDCR in the public view.

Nonpeace Officer Employees

Clothing and Jewelry:

Non-peace officer employees shall wear clothing that is clean, neat, in good repair, and fits properly. All clothing and jewelry should project a professional and positive image.

In an institutional setting:

- Blue denim clothing or clothing similar to that worn by inmates shall not be worn.
- Jewelry should be kept to a minimum and should enhance a professional image. There will be no jewels, ornaments, or rings/studs worn on the visible facial areas other than the ear.

Unauthorized Use of Departmental Uniforms

Employees shall not wear CDCR uniforms in any situation that would bring discredit to the CDCR including, but not limited to:

- Purchasing or drinking alcoholic beverages in public.
- Entering a tavern, gambling hall, or nightclub (except if necessary in the performance of assigned duties).
- Participating in political activities.
- Participating in demonstrations or pickets.

- Engaging in selling or soliciting activities.
- Engaging in any other action or behavior which reasonable persons would deem inappropriate for a uniformed peace officer, e.g., conducting nondepartmental business.

33020.5 Uniform Allowance

The regulations of the California Victim Compensation and Government Claims Board and current MOUs provide for uniform replacement allowances for various classes. The allowance amounts and other regulations vary depending on whether the uniform is worn on a full-time or less-than-full-time basis. In order to qualify for uniform replacement allowances, employees shall:

- Be employed in one of the following classifications:
 - Correctional Officer.
 - Correctional Sergeant.
 - Correctional Lieutenant.
 - Correctional Captain.
 - Facility Captain.
 - Correctional Institution Firefighter.
 - Correctional Institution Fire Chief.
 - Registered Nurse, Correctional Facility.
 - Dental Assistant, Correctional Facility.
 - Baker I, Correctional Facility.
 - Baker II, Correctional Facility.
 - Butcher/Meatcutter II, Correctional Facility.
 - Cooks, Correctional Facility.
 - Supervising Cook I, Correctional Facility.
 - Supervising Cook II, Correctional Facility.
 - Vocational Instructors (I and baking).
- Be enrolled in a formalized training and development assignment at an institution performing the duties of one of the above named classes and requiring a uniform be maintained.
- Complete one calendar year of service in a class and assignment as described above. Qualifying periods before and after nonqualifying periods shall be added together to compute a calendar year of service and to establish a new qualifying anniversary date. Nonqualifying periods include long-term temporary absences (one or more full pay periods), such as leave of absences, temporary disability, or nonindustrial disability leave.
- Rank and file uniformed probationary custodial employees shall receive a uniform allowance in accordance with the provisions contained in the collective bargaining agreement.

33020.6 Personal Grooming Standards

All employees, regardless of their assignment, shall be clean and well groomed.

33020.6.1 Correctional Peace Officer Grooming Standards

The following minimum guidelines are adopted for all Correctional Peace Officers:

Note: Some classifications have an exemption; refer to DOM 33020.6.2, Exemptions for Peace Officer Classifications.

Hair

- Hair shall not be styled or combed forward any lower on the forehead than the eyebrow, measured from the high point of the eyebrow, and shall not be visible on the forehead when the uniform hat is worn.
- Hair style and length shall not impede, restrict, or detract from the proper wearing of the uniform hat.
- Hair style and color shall not distract from the uniform.
- Male employee's hair shall be cut so as to not extend below the top of the shirt collar while sitting or standing in an erect position and shall not cover any part of the outside portion of the ear.
- Female employee's hair shall not extend below the bottom of the collar. If the hair is long, it shall be worn up in a neat, nonflamboyant style. No decorations in the hair are permitted and hair clips and/or pins shall closely match the color of the hair.

Facial Hair

Neatly trimmed sideburns and/or mustaches are permitted as follows:

- Sideburns shall not extend below the bottom of the ear and shall end with a clean-shaven horizontal line. The maximum width at the bottom of the sideburns shall not exceed 1½ inches.
- Mustaches shall not extend more than ½ inch below the corners of the mouth, nor below the vermilion border of the upper lip, or extend more than ¾ inch above the corner of the mouth. Waxed ends or points shall not be allowed.
- Upon the employee's personal physician verification of a skin irritation or disorder, a beard, not to exceed one inch in length, may be permitted. Goatees are not authorized.

Fingernails

Fingernails shall not extend more than ¼ inch beyond the tips of the fingers. Nails shall be neat and clean. Fingernail polish, if worn, shall be clear. Colored fingernail polish is not permitted.

Cosmetics

Female employees may wear cosmetics that blend with or match the natural nonruddy skin tone of the employee. False eyelashes are not permitted.

Upon medical verification by the employee's personal physician, any employee may wear cosmetics to conceal facial disfigurement. The cosmetics shall blend or match their natural skin tone.

Jewelry

A total of two nonflamboyant rings may be worn on the fingers. A set of wedding and engagement rings shall be considered one ring. Reimbursement value to be per Department of Personnel Administration (DPA) rules, but shall not exceed \$100.

Only medical alert bracelets may be worn.

Neck chains/necklaces shall not be permitted while on duty except for religious medals that may be worn if covered by the uniform shirt. Medical alert medals may also be worn on a chain. However, no more than one chain shall be worn.

Employees shall not wear ring/stud earrings or other jewelry decoration/ornament on or in the nose or tongue while in uniform. Additionally, there will be no jewels, ornaments, or rings/studs worn on the visible facial areas other than the earlobe.

Female employees may wear simple stud-type earrings only. Only one matching earring shall be worn in each earlobe.

Male employees shall not wear earrings while in uniform and/or on-duty.

Wristwatches may be worn. Watches worn on chains or pinned to the uniform are not permitted. Pocket watches are allowed without a chain or lanyard. Reimbursement values to be per DPA rules, but shall not exceed \$100.

33020.6.2 Exemptions for Peace Officer Classifications

Revised July 27, 2010

The CDCR has several peace officer classifications that are excluded from the departmental professional dress and grooming standards. Professional dress and personal grooming standards specifically addressing hair length and facial hair contained in this section shall not apply to:

- Any peace officer in the Parole Agent series.
- Any peace officer in the Special Agent series.
- Any peace officer assigned to the Office of Correctional Safety.

Employees shall keep hair, beards, and mustaches clean and neatly groomed.

33020.6.3 Non-peace Officer Employees Grooming Standard Guidelines

In an institutional setting, the following grooming standard guidelines shall apply.

Hair

Hair shall be styled in a fashion which shall not impair vision or create a safety hazard in the work area. Employees shall keep hair, beards, and mustaches clean and neatly groomed.

Fingernails

Fingernails shall be neat, well trimmed, and enhance a professional image. Fingernail length and polish shall be appropriate for the specific assignment and/or task being performed.

33020.7 Regulation Uniform-Custody

The following regulation custody uniforms, garments, and accessories are approved for use:

Male

- Class "A" battle jacket.

- Facility Captain coat (optional Class "A" coat for captains).
 - Class "A" and "B" trouser.
 - Class "A" and "B" long and short sleeve shirt.
 - Class "A" hat (refer to DOM 33020.7.3).
 - Class "B" cap (refer to DOM 33020.7.3).
 - Class "B" sweater (optional).
 - Black leather belt.
 - Black clip-on or velcro fastened tie (solid color).
 - It is mandatory for all uniformed staff to wear a regulation tie with the Class "A" uniform, or when wearing a long or short sleeve shirt with Class "A" trousers.
 - It is optional, and at the employee's discretion, to wear a regulation black tie when wearing the Class "B" Uniform, a long sleeve shirt with Class "B" trousers, or when wearing a nonclass "A" outer jacket or sweater.
 - Class "B" Cargo Pants: may be utilized as an alternate Class "B" uniform pant. At the discretion of the employee, cargo pant legs may be worn straight or bloused.
 - Load Bearing Suspenders (LBS): Black nylon or leather. LBS may be worn with the Class "B" uniform at the employee's discretion/option. LBS may be worn with the Class "A" uniform in emergency situations.
 - Black socks (solid color).
 - Undershirt, if worn, shall be T-shirt style, solid white in color, and of a smooth finish.
 - Black plain-toe shoes or boots conservatively designed without buckles (solid color).
 - Regulation departmental badge.
 - Departmental nameplate (white letters on black plate).
 - Tie bar or tie tack (gold in color).
 - Whistle, gold in color, metal only.
 - CDCR identification card.
 - Rain gear (for Class "A" or Class "B" uniforms) shall be a one or two piece raincoat or rainsuit, California green in color, or equivalent as follows:
 - The one-piece raincoat is most applicable for uniform staff not assigned to long periods out-of-doors.
 - The two-piece rainsuit is most applicable for uniform staff assigned to work assignments mainly out-of-doors.
 - Foul Weather Jackets (3 types).
 - Class "B" waterproof.
 - Class "B" nonwaterproof.
 - Class "B" ¾ length nonwaterproof.
 - Lightweight jacket (with or without optional lining).
 - Trooper cap (refer to DOM 33020.7.3).
 - Campaign hat (refer to DOM 33020.7.3).
 - Jumpsuit (refer to DOM 33020.9.3).
 - Departmental Transportation Unit uniform (refer to DOM 33020.9.4).
 - Crisis Response Team (CRT) uniform (refer to DOM 33020.9.8).
- Note: Departmental rank insignia shall be attached to regulation jumpsuits, shirts, and jackets.

Female

- Class "A" blazer style dress jacket.
- Class "A" battle jacket.
- Facility Captain coat (optional Class "A" coat for captains).
- Class "A" and "B" long and short sleeve shirt.
- Class "A" line skirt.
- Class "A" and "B" trouser.
- Class "A" hat (refer to DOM 33020.7.3).
- Class "B" cap (refer to DOM 33020.7.3).
- Class "B" sweater (optional).
- Black leather belt.
- Black clip-on or velcro fastened tie, or criss-cross tie (solid color).

- It is mandatory for all uniformed staff to wear a regulation tie with the Class "A" uniform, or when wearing a long or short sleeve shirt with Class "A" trousers.
- It is optional, and at the employee's discretion, to wear a regulation black tie when wearing the Class "B" Uniform, a long sleeve shirt with Class "B" trousers, or when wearing a nonclass "A" outer jacket or sweater.
- Class "B" Cargo Pants: may be utilized as an alternate Class "B" uniform pant. At the discretion of the employee, cargo pant legs may be worn straight or bloused.
- Load Bearing Suspenders (LBS): Black nylon or leather. LBS may be worn with the Class "B" uniform at the employee's discretion/option. LBS may be worn with the Class "A" uniform in emergency situations.
- Seamless hose (flesh color) with skirt only.
- Black socks (solid color) with trouser only.
- Undershirt, if worn, shall be T-shirt style, solid white in color, and of a smooth finish.
- Black plain-toe shoes or boots conservatively designed without buckles (solid color).
- Regulation departmental badge.
- Departmental nameplate (white letters on black plate).
- Tie bar or tie tack (gold in color).
- Whistle, gold in color, metal only.
- CDCR identification card.
- Rain gear (for Class "A" or Class "B" uniforms) shall be a one or two piece raincoat or rainsuit, California green in color, or equivalent as follows:
 - The one-piece raincoat is most applicable for uniform staff not assigned to long periods out-of-doors.
 - The two-piece rainsuit is most applicable for uniform staff assigned to work assignments mainly out-of-doors.
- Foul weather jackets (refer to the 3 types below).
 - Class "B" waterproof.
 - Class "B" nonwaterproof.
 - Class "B" ¾ length nonwaterproof.
- Lightweight jacket (with or without optional lining).
- Trooper cap (refer to DOM 33020.7.3).
- Campaign hat (refer to DOM 33020.7.3).
- Jumpsuit (refer to DOM 33020.9.3).
- Departmental Transportation Unit uniform (refer to DOM 33020.9.4).
- CRT uniform (refer to DOM 33020.9.8).

Note: Departmental rank insignia shall be attached to regulation jumpsuits, shirts, and jackets.

33020.7.1 Official Class "A" Uniform - Male

The below-specified uniform shall be worn by male Correctional Captains, Facility Captains, Correctional Lieutenants, Correctional Sergeants, and Correctional Officers when identified as the appropriate uniform for the post/work assignment:

- Class "A" battle jacket with insignia.
- Class "A" trouser.
- Black leather belt.
- Black clip-on or velcro fastened tie (solid color).
- Black socks (solid color).
- Class "A" hat.
- Class "A" short or long sleeve shirt.
- Black plain-toe shoes or boots.
- Regulation departmental badge.
- Departmental nameplate (white letters on black plate).
- Tie bar or tie tack (gold color).
- Whistle, gold in color, metal only.
- CDCR identification card.
- Raincoat (when applicable).

33020.7.2 Official Class "A" Uniform - Female

The below-specified uniform shall be worn by female Correctional Captains, Facility Captains, Correctional Lieutenants, Correctional Sergeants, and Correctional Officers when identified as the appropriate uniform for the post/work assignment:

- Class "A" blazer style dress jacket or the Class "A" battle jacket.
- Class "A" line skirt or trouser.
- Class "A" short or long sleeve shirt.
- Black leather belt.
- Black clip-on or velcro fastened tie, or criss-cross tie (solid color).
- Seamless hose (flesh color) with skirt only.
- Black socks (solid color) with trousers.
- Class "A" hat.
- Black plain-toe shoes or boots.
- Regulation departmental badge.
- Departmental nameplate (white letters on black plate).
- Tie bar or tie tack (gold in color).
- Whistle, gold in color, metal only.
- CDCR identification card.
- Raincoat (when applicable).

33020.7.3 Uniform Hat/Cap

Class "A" Hat

All on-duty uniformed custody personnel shall be required to wear the Class "A" hat on any official business where a Class "A" uniform is required for off-ground duty.

For staff that are required to wear a Class "A" uniform for duties on-grounds, or who voluntarily choose to wear a Class "A" uniform, the Class "A" hat is optional. However, the Class "A" hat shall be available to the on-duty staff member.

Class "B" Cap

The Class "B" cap may be worn with the Class "B" uniform, jumpsuits, or with an appropriate optional uniform as approved by the hiring authority. The cap shall be worn in a bill-forward position. The Class "B" cap shall not be worn with the Class "A" uniform jacket, and shall be worn/maintained in a manner that shall not bring discredit to the uniform or the CDCR.

Campaign Hat

The Campaign hat may be worn with the Class "B" uniform, jumpsuit, or with an appropriate optional uniform as approved by the hiring authority. The Campaign hat is designed mainly for outside assignments as protection from the sun.

Trooper Cap

The Trooper cap may be worn with the Class "B" uniform, jumpsuits, or an approved optional uniform and shall only be worn with approval of the Warden.

33020.7.4 Cadet Uniforms

Revised March 25, 2010

The daily cadet uniform shall be determined by the Academy Administration. The cadet uniform will be an approved Departmental Uniform as outlined in DOM 33020.7. For graduation from the Basic Correctional Officer Academy, the Class "B" uniform shall be purchased and worn by all cadets (refer to DOM 33020.7).

33020.8 Optional Uniforms - Custody

Regulation custody uniforms and optional uniforms shall be as specified in this Section.

Note: Employees authorized to wear an optional uniform shall not wear/utilize a Class "A" hat.

33020.8.1 Class "B" Uniform

Refer to DOM 33020.7 for individual Class "B" uniform garments. For individual Class "B" garment specifications refer to the CDCR Uniform Specification Handbook.

33020.8.2 Maternity Uniforms

Uniformed female personnel may wear the special maternity uniform after the employee receives her physician's written confirmation of pregnancy. The peace officer may continue to wear this special uniform for 90-days following childbirth.

Pregnant uniformed personnel are authorized to wear a pullover maternity jumper and to alter the waist of their uniform slacks for maternity purposes. Each employee shall bear the expense of clothing construction and alteration. The uniform blouse or shirt and slacks shall be worn under the maternity jumper. The regulation tie shall be worn in accordance with DOM, Chapter 3, Article 21.

A regulation dome badge shall be worn on the maternity jumper above the left breast.

Refer to the CDCR Uniform Specification Handbook for the maternity uniform specifications.

33020.9 Special Custody Uniforms/Equipment

Special uniforms and equipment for the custody series shall be as specified in this Article. Individual garment specifications may be referred to in the CDCR Uniform Specification Handbook. Items not specifically addressed in DOM, Chapter 3, Article 21 are considered unauthorized.

33020.9.1 Security Squad and Escape Detail Uniforms

Institutions having special security squads and/or escape pursuit teams whose duties take them into various crawl spaces, tunnels, attics, etc., shall purchase and maintain a maximum of three coveralls per employee assigned to this function.

33020.9.2 Safety Helmets/Hardhat

Revised August 9, 2011

Safety Helmets

Safety helmets may be purchased as response equipment. The helmets shall be utilized as needed during emergency situations.

Hardhats

When full hardhat protection is required, round green fiberglass or plastic hats with small visor in front may be used. Aluminum hats are not authorized. One plastic hat per employee assigned to the security squad shall be purchased and provided by the hiring facility.

33020.9.3 Jumpsuits

Jumpsuits may be purchased at staff expense and worn in all nonpublic contact post or assignments.

Note: Wardens shall apply discretion and apply the nonpublic contact standards in assessing whether a Class "A"/Class "B" uniform requirement applies to a particular post/position, whereby declaring it a public contact post.

Refer to the CDCR Uniform Specification Handbook for the jumpsuit specifications.

33020.9.4 Departmental Transportation Unit Uniform

The approved departmental Transportation Unit uniform consists of:

- Black jumpsuit (long sleeves only and always worn in bloused fashion).
- Boots.
- Black leather belt.
- Departmental metal badge (no cloth badges).
- Class "B" cap (optional).

Refer to the CDCR Uniform Specification Handbook for the departmental Transportation Unit uniform specifications.

33020.9.5 Funeral Uniform

The official departmental uniform authorized for wearing at the funeral of another Correctional Peace Officer, or any other law enforcement official when attending in an official capacity, shall be the full Class "A" uniform. This shall, in all cases, include the draped departmental regulation dome badge.

33020.9.6 Draped Badges Funeral/Mourning Period

The departmental regulation dome badge shall be draped in the approved manner at all correctional institutions immediately upon the determination that a Correctional Peace Officer has been killed in the line of duty. Such draping shall continue through the day of the funeral or as deemed appropriate by the Director.

No draping of the departmental regulation dome badge shall occur for other than Correctional Peace Officers killed in the line of duty except as authorized by the institution head.

The draping of the Badge shall be a ¾ inch wide band of black elastic cloth placed over the bottom portion of the badge covering the number on the badge. This is the tradition of peace officers showing their unity after the tragic loss of a fellow peace officer. Example:

33020.9.7 Honor Guard Uniform

Each institution, at the Warden's discretion, may establish a uniformed Honor Guard for ceremonial functions. Such Honor Guard shall be attired, when performing in the Honor Guard's official capacity, as stated in this Section. Honor Guard members are responsible for maintaining their own uniform, accessories, and accouterments.

The Class "A" uniform shall be worn when serving in the Honor Guard at approved Honor Guard functions. Each institution shall provide/purchase the items listed as "Honor Guard Accouterments."

Due to the high visibility of personnel assigned to an Honor Guard Unit, the Honor Guard uniform, accessories, and accouterments shall be maintained and worn in excellent condition.

Prior to any use of the Honor Guard, an inspection of the unit shall be conducted by the Honor Guard Commander or his/her designee to establish that each member is attired uniformly, and will hold the CDCR and themselves in the highest esteem. If weapons and/or duty belts, for example, are deemed appropriate, care must be taken to assure uniformity.

Refer to the CDCR Uniform Specification Handbook for the Honor Guard uniform designations and for all garment, accessory, and accouterment specifications.

Team Members

- One Honor Guard Commander.
- One Assistant Honor Guard Commander.
- One Rifle Team Instructor.
- Seven Rifle Team Members.
- One Color Guard Instructor.
- Three Color Guard Team Members.
- One Institutional flag barer.
- One Guidon.
- One Communications Officer.
- One Quartermaster.
- Two Team Members.

The number of members may increase should the institution elect to establish a "Drum and Bugle Corps" for taps, proper cadence, and to compliment a paramilitary marching unit.

Drum and Bugle Corps

If a Drum and Bugle Corps is established, the following musical instruments may be utilized:

- One bass drum and sticks.
- One tritom drum unit and sticks.
- Three snare drums and sticks.
- Two bugles or trumpets.

Authorized Flags and Flag Equipment

- One Ceremonial Flag of the United States (3' x 5') with staff, American Eagle top mount, harness (flag carrying device), and stand.
- One California State Flag with staff, spear top mount, harness, and stand.
- One Institutional Flag with staff, harness, and stand.
- One Guidon (flag/pennant signifying specific Honor Guard Unit).

When carried in procession with another flag or flags, the Flag of the United States shall have the place of honor at the right; or when there is a line of other flags; our national flag may be *in front* of the center of that line. At all times every precaution shall be taken to prevent the flag from becoming soiled. It shall not be allowed to touch the ground or floor, or to brush against objects.

When the flag is displayed from a staff projecting horizontally, the union (blue field) of the flag shall go clear to the peak of the staff.

At no time shall the Flag of the United States be dipped in salute. Other flags such as the State of California Flag, Institutional Flag, and Guidon shall be dipped "To the Color" (Flag of the United States) during the playing of the national anthem and during the "Pass in Review."

Flags of the United States used to cover caskets shall measure 5' x 9 1/2'. Each institution shall be responsible for providing this flag to the family of the deceased.

When the flag is used to cover a casket at funerals or ceremonies honoring a person deceased, it shall be placed so that the union is at the head and over the left shoulder. The flag shall not be lowered into the grave or allowed to touch the ground.

Weapons and Ammunition

Departmental weapons and ammunition, as authorized in DOM Section 55050, are approved for use by the Honor guard.

Events

- Each institution may elect four public events in their local community in which the Honor Guard will participate.
- The Honor Guard may be used for any National or State event, CDCR event, or other agency events as authorized by the Warden and approved by the Regional Administrator.
- The Honor Guard, with the authorization of the Warden, may perform burial ceremonies for any staff member or public figure when asked by the families or community.
- The Honor Guard members will be relieved of duty and their posts covered according to the institution's policy and, when appropriate, may utilize State vehicles for transportation.

33020.9.8 Crisis Response Team Uniform

The official uniform and insignia for CRT shall be that which is approved and authorized by the EOU. The CRT uniform shall be worn by CRT members only, and only when activated for deployment or training.

The CRT uniform designations, insignia, accessory items, and specifications shall be maintained by the Chief, EOU, Office of Correctional Safety.

33020.10 Regulation Uniform Fire Chief and Firefighter

Regulation Fire Chief and Firefighter uniforms shall be addressed in this DOM Article. For individual garment and/or accessory specifications, refer to this DOM Article and CDCR Uniform Specification Handbook. Items not specifically addressed within DOM, Chapter 3, Article 21 are considered unauthorized.

Note: Departmental Fire Department shoulder patches shall be attached to regulation shirts and jackets.

The following regulation Fire Chief and Firefighter uniforms, garments, and accessories are approved for use:

- Fire Chief Class "A" coat.
- Fire Chief battle jacket (optional).
- Fire Chief blazer (optional).
- Fire Chief Class "A" trouser.
- Fire Chief Class "A" dress shirt.
- Fire Chief Class "A" and "B" hat.
- Fire Chief and Firefighter trousers (optional).
- Fire Chief and Firefighter work uniform trousers (optional).
- Fire Chief and Firefighter Class "B" light weight jacket with or without lining (optional).
- Fire Chief and Firefighter foul weather jacket (optional).
- Fire Chief nameplate (blue lettering on gold plate).
- Fire Services jacket and raincoat (optional).
- Firefighter Class "A" battle jacket.
- Firefighter dress and work shirt (Class "A" and Class "B").
- Firefighter Class "A" trouser (Pacer).
- Firefighter Class "A" and "B" hat.

- Black leather belt.
- Black plain-toe shoes or boots (without buckles).
- Black socks (solid color).
- Regulation badge and collar insignia.
- Black clip-on or velcro fastened tie (solid color).
- Firefighter nameplate (blue lettering on silver plate).

33020.10.1 Official Uniform Fire Chief Class "A"

The below noted uniform shall be worn by all institution Fire Chiefs.

- Regulation double-breasted coat.
- Regulation trousers.
- Black leather belt.
- Black clip-on or velcro fastened tie.
- Round top, white vinyl, fireman's hat with insignia.
- Regulation long sleeve shirt (white).
- Black plain-toe shoes or boots (without buckles); black socks (solid color).
- Regulation Fire Chief badge; hat and collar insignia.
- Fire Service shoulder patch attached to regulation shirt and coat.
- Nameplate (blue lettering on gold plate).

33020.10.2 Official Uniform Firefighter Class "A"

The below noted uniform shall be worn by all institution firefighters.

- Regulation battle jacket, navy blue with insignia.
- Regulation trousers, navy blue color.
- Regulation shirt, white.
- Black leather belt.
- Regulation firefighter hat, (blue) with insignia.
- Black plain-toe shoes or boots (without buckles); black socks (solid color).
- Regulation firefighter badge and collar insignia.
- Black clip-on or velcro fastened tie.
- Departmental Fire Department shoulder patch attached to regulation shirt and jacket.
- Departmental nameplate (blue lettering on silver plate).
- A Firefighter who has been designated as Firefighter Training Specialist/Officer shall wear the same uniform as the Fire Chief. The only difference shall be that the designee shall wear the Firefighter Training Specialist/Officer badge and display only one braid around the dress coat or battle jacket.

33020.11 Optional Uniform - Fire Chief and Firefighter

Specifications for the optional uniform, which may be worn by the Fire Chief and Firefighters may be referred to in the CDCR Uniform Specification Handbook and include the following garments:

- Battle jacket (Fire Chief).
- Blazer (Fire Chief).
- Trousers (Fire Chief and Firefighter).
- Light weight jacket (Fire Chief and Firefighter).
- Lining (Optional).
- Foul weather jacket (Fire Chief and Firefighter).
- Work uniform trousers (Fire Chief and Firefighter).
- Jacket and raincoat (Fire Services).

33020.12 Uniform Accessories

Only approved accessories and equipment as described in DOM, Chapter 3, Article 21 shall be worn on or with the uniform. Items not specifically addressed within this DOM Article are considered unauthorized. For item specification, refer to the CDCR Uniform Specification Handbook.

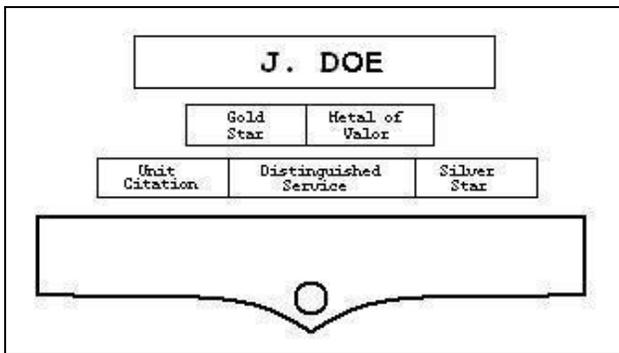

33020.12.1 Departmental Awards

The CDCR has authorized the awarding and wearing of medals and ribbons to Correctional Peace Officers for both individual and unit awards (refer to DOM, Chapter 3, Article 3). These awards, in the order of their seniority, are: The Medal of Valor; The Corrections Star (Gold); The Corrections Star (Silver); The Corrections Star (Bronze), The Distinguished Service Medal, and the Unit Citation. Nondepartmental awards and citations may be worn

upon approval of the Warden. Awards shall be worn on the Class "A" jacket as follows:

- ¼ inch above the right breast pocket. The regulation nameplate shall be placed ¼ inch above the award(s).
- If one award ribbon is worn, it shall be centered on the pocket between the regulation nameplate and the pocket.
- If two award ribbons are worn, they shall be placed end-to-end with the senior ribbon to the inside and centered on the pocket between the regulation nameplate and the pocket.
- If three award ribbons are worn, they shall be placed end-to-end with the senior ribbon to the inside and centered on the pocket between the regulation nameplate and the pocket.
- If four award ribbons are worn, there shall be one row of three ribbons on the bottom as above. The fourth ribbon, most senior, shall be placed singularly and centered above the row of three ribbons with the regulation nameplate ¼ inch above it. The two rows of ribbons shall be ½ inch apart.
- If five award ribbons are worn, there shall be one row of three ribbons on the bottom and one row of two ribbons centered on the top. They shall be ½ inch apart with the regulation nameplate ¼ inch above them.
- If six medals are worn, there shall be one row of three medals on the bottom and one row of three medals on the top. They shall be ½ inch apart with the regulation nameplate ¼ inch above them.

The complete set of ribbons and the order of their placement on the Class "A" jacket is as illustrated.

State Medal of Valor Pin, 25-Year Service Pin, and other State service/award pins shall be worn only on the Class "A" jacket and shall be centered ¼ inch above the nameplate. If two pins are worn, they shall be centered ¼ inch apart and ¼ inch above the nameplate.

The service emblem, employee organization pin, and the Safety Award Pin may be worn as a tiepin. Other tiepins or tie clasps may be worn but shall be small and plain without stones or other decorations. They also shall be gold in color in keeping with the gold color of all other metal accessories. Tiepins depicting handcuffs, pigs, guns, etc., shall not be worn.

33020.12.2 Hat Shields

Departmental hat shields shall be worn by uniformed Correctional Officers, Correctional Sergeants, Correctional Lieutenants, Correctional Captains, Facility Captains, Fire Fighters, and Fire Chiefs. Refer to the CDCR Uniform Specification Handbook for hat shield specifications.

33020.12.3 Departmental Shoulder Emblems

The CDCR has approved two styles of shoulder emblems (patches), one for uniformed Correctional Peace Officers and one for designated fire service employees.

The shoulder patch shall be attached on the left and right sleeves of all uniform coats, jackets, shirts, jumpsuits, and coveralls (with the exception of raingear).

Shoulder patches shall be kept in good condition. When no longer in good condition, they shall be replaced.

Employees shall be responsible for purchasing their own shoulder patches.

Refer to the CDCR Uniform Specification Handbook for shoulder emblem placement and specifications.

33020.12.4 Nameplate

Revised October 19, 2009

All uniform personnel and other personnel who have direct contact with inmates, e.g., teachers, counselors, cooks, nurses, etc., shall wear and clearly display a nameplate.

Nameplates shall be phenolic engraving stock, 3 inches long, by ¾ inch wide, by 3/32 inch thick, with white letters on black stock. The corners may be slightly rounded to protect the wearer's clothing. The name letter size shall be ¼ inch high and shall be composed of the first initial of the first name, followed by a space, followed by the entire last name, centered both top to bottom and side to side. Regulation nameplate shall be worn on the outer garment unless an exception is made by the Warden.

A cloth name label sewn onto the garment is an acceptable substitute for the plastic nameplate for those peace officers wearing jumpsuits, battle jackets, and rain gear. Cloth name labels shall adhere to the following specifications:

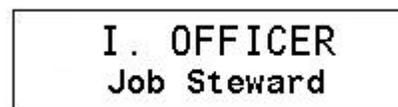

- The name label shall have the initial of the staff members first name, followed by a space, followed by the entire last name;
- The name label shall be secured (sewn) above the right breast pocket;
- The name label shall have yellow lettering;
- The background of the name label shall be green/olive;
- The name label shall have ½ inch letters and one-inch tape.

Exceptions

Fire service employees may be allowed to have a Maltese or EMT insignia on the left side of their nameplate, if they qualify for them.

A job steward/board member may add that title to the nameplate as has been the practice (illustrated below). The cost shall be incurred by the employee. The lettering size of such title shall be ¼ inch high. When placed on the nameplate, the grouping of name and title shall be centered both top to bottom and side to side.

Example:

33020.12.5 Service Stripes

Service stripes shall be worn on the left sleeve of the Class "A" jacket and on the left sleeve of the long sleeve shirt. One service stripe shall be worn for each three years of service as a Correctional Peace Officer.

Refer to the CDCR Uniform Specification Handbook for service stripes placement and specifications.

Maltese Cross

For each five years of service with the CDCR, uniformed fire service employees shall wear a Maltese cross on the left sleeve of the Class "A" jacket and on the left sleeve of the long sleeve shirt. The crosses shall be affixed ¾ inch above the departmental stripe of the jacket and ¾ inch above the cuff of the shirt in horizontal row(s).

33020.12.6 Rank Insignia

Collar rank insignia shall be worn by Correctional Captains, Facility Captains, Correctional Lieutenants, Correctional Sergeants, Fire Chiefs, and institution Firefighters. Acting sergeants shall wear collar rank insignia only. Correctional Captains, Facility Captains, and Correctional Lieutenants shall wear rank insignia on the epaulets of regulation jackets and coats.

Refer to the CDCR Uniform Specification Handbook for rank insignia placement and specifications.

33020.12.7 Sleeve Chevrons, Correctional Sergeant

Correctional Sergeant Chevrons shall be worn on each sleeve of the uniform jacket and short and long sleeve shirt. Chevrons shall be three gold stripes on a black background of cotton twill.

Refer to the CDCR Uniform Specification Handbook for sleeve chevron placement and specifications.

33020.12.8 Regulation Tie

The regulation tie specifications shall be as follows:

- Solid black only, no design or decorative texture.
- Smooth surfaced, dry clean only fabric.

- Not to exceed 18 inches in length or to fall below the belt line.
- Clip-on fastener or velcro fastener types only. Tie shall not be square cut on bottom.
- References: Broome 455-BO-3, or equivalent.

33020.12.9 Official CDCR Belt buckle

The Director has approved an official CDCR belt buckle. This buckle is the only buckle that may be worn in place of the standard belt buckle other than the Warden approved institutional belt buckle.

Refer to the CDCR Uniform Specification Handbook for the official CDCR belt buckle specifications.

33020.12.10 Regulation Shoes

Male

Male employees may wear shoes or boots that meet the following general specifications as items of the regulation uniform:

- Black leather, plain toe, conservatively designed. No buckles. No design in the leather, shall be smooth texture.
- In addition to the plain toe, the toe design shall be round without a bead encircling the toes.
- Shall approximate dress military styling. Shoes shall be shined at all times.
- Heel not to exceed 1½ inches in height.
- No tennis shoes, cowboy, engineer, or logger-style boots.

References

- Boots: Acme 9080 or Rocky 5066.
- Shoes: Rock 2025; Thorogood 1267, 1253, or equivalent.

Female

Female employees may wear shoes or boots that meet the above general specifications.

Note: Pump heels are allowed, but shall not exceed 1½ inches in height, and are to be worn with the skirt only.

References

- Boots: Acme 610.
- Shoes: Rocky 115 or equivalent.

33020.12.11 Miscellaneous Accessories for Uniform Staff

The below-specified accessories may be worn with the regulation uniform as appropriate:

- Sam Browne belt, black with basket-weave design. Metal shall be gold in color.
- Key pouches/clips, gold in color. Chains or lanyards are not permitted.
- Enclosed snapping handcuff case. Black with basket-weave design.
- Flashlight holder shall be ring type on black leather. Metal shall be gold or black in color.
- Side handle baton holder shall be ring type on black leather. Metal shall be gold or black in color.
- Flashlight shall be black in color, either mini-mag, or 3 "C" or 3 "D" cell batteries only.
- Gloves shall be smooth black leather only with no "cut-outs." Both the body of the gloves and the fingers shall remain intact. No alteration of the gloves shall be permitted. Wrist high to 2 inches above the wrist in length. May be lined for warmth. Shall approximate the reference in appearance. References: Damascus #302, or equivalent.

No other accessories shall be worn while in uniform without the approval of the Warden.

There shall be no glass cases or other holders worn on or carried on the belt or affixed to the uniform except as approved by the hiring authority.

33020.13 Departmental Badges

In accordance with the requirements of Penal Code (PC) Section 830.10, the Director has ordered the wearing and possession of the approved departmental regulation dome badge by all uniformed peace officer staff, with the exception of fire department peace officer staff. Uniformed staff includes all custody classification employees where the CDCR considers the uniform as part of their job description. All uniformed staff shall wear the regulation dome badge on the outer garment at all times while on-duty unless exception is made by the Warden. Uniformed fire department peace officer staff shall wear the regulation fire shield in lieu of the regulation dome

badge. Nonuniformed staff designated as peace officers shall possess the approved departmental flat badge.

Training Requirements

In accordance with PC 832, all staff designated as peace officers must meet the PC 832 Peace Officer Standards and Training (POST) requirements prior to being assigned a number and issued a departmental badge. The PC 832 training requirement is met by successfully completing the CDCR's pre-service academy training (i.e., Basic Correctional Officer Academy (BCOA), PC 832 Course, or Division of Adult Parole Operations (DAPO) Academy).

Staff, who are not assigned a number and issued a departmental badge at the completion of their pre-service academy training, shall provide verification of POST certification prior to being assigned a number and issued a departmental badge. Additionally, staff shall provide proof that there has been no break in service since the time POST certification was obtained.

33020.13.1 Procedure for Issuing Badges

The administrator of the Richard A. McGee Correctional Training Center (CTC) shall establish and maintain an accurate and automated record of all departmental badges issued to peace officer employees, excluding the DAPO. The CTC shall issue a badge number to each qualified employee in the peace officer classification in ascending sequential order.

Once a peace officer employee is assigned a badge number, they shall retain their assigned number throughout their entire departmental career.

Badge numbers and badges (State-issued and optional) are assigned and issued solely by the CTC.

Under no circumstance shall badge numbers be assigned, issued, or transferred at the CDCR facility level.

Regulation Dome Badge

The CDCR shall purchase and provide to each uniformed peace officer employee, through the CTC, a numbered regulation domed badge upon the employee's successful completion of the CDCR's pre-service academy training.

Regulation Fire Shield

The CDCR shall purchase and provide to each uniformed fire department peace officer employee, through the CTC, a numbered regulation fire shield upon the employee's successful completion of the CDCR's pre-service academy training.

Flat Pocket Badge

The CDCR shall purchase and provide each nonuniformed peace officer employee, through the CTC, a numbered flat pocket badge upon the employee's successful completion of the CDCR's pre-service academy training.

Optional Badge

All permanent employees, who meet the requirements of PC 830.10 and 832, may purchase an optional dome and/or flat pocket badge(s) that meet departmental specifications if they so desire, but shall bear the cost of the optional badge(s). The optional badge shall bear the same number as the assigned State-issued badge. The total number of badges that can be possessed by any departmental peace officer shall not exceed two dome badges and one flat badge.

All orders for optional badges purchased at the employee's expense shall be placed through the departmental badge coordinator located at the CTC, via the institutional badge coordinator.

DAPO

The DAPO shall provide special badges to all Parole Agents and Parole Administrators. All badges shall be purchased through the current contracted vendor. The Director, DAPO shall establish and maintain an accurate and automated record system for accountability of the DAPO badge number assignments.

Autonomous Branches/Units

Peace officers (with the exception of Parole Agents) assigned to any of the autonomous units/branches within the CDCR shall retain their assigned departmental badge number, and submit to the CTC for the appropriate classification ribbon. Peace officers not in possession of a departmental badge number shall be assigned a number by the CTC with the appropriate classification ribbon, provided all training requirements have been met.

Autonomous units/branches include, but are not limited to, Background Investigations Unit, Classification Services Unit, Inmate Appeals Branch, Office of Correctional Safety Unit, Office of Internal Affairs, Regulation and Policy Management Branch, and Selection and Standards Branch.

Note: Refer to the previous entry "DAPO" for Parole Agent badge request.

Loaner Badges

All loaner badges are issued by the CTC to CDCR facilities for the sole purpose of assigning to employees on a temporary basis while they are awaiting their assigned badge from the current vendor (i.e., addition/removal of ribbons or badge replacement). The CDCR facility is responsible for the temporary assignment, tracking, retrieval, and accountability of all loaner badges assigned to their facility.

Loaner badges shall contain an "L" in the badge number. Any badge not containing an "L" in the number is not considered a loaner badge and should be returned to the CTC immediately for disposition.

33020.13.2 Control of Badges

Due to the inherent threat to departmental security and the possible unlawful uses of peace officer badges, strict controls shall be maintained regarding departmental accountability and employee responsibility in the issue, use, and maintenance of departmental badges.

It is unlawful for any person, including employees of the CDCR not employed in a peace officer classification, unless temporarily assigned to perform peace officer duties and having met the POST requirements, to wear, exhibit, use, or otherwise possess a departmental badge or a facsimile thereof without specific authority to do so.

Employees shall not sell or otherwise transfer their badge to any other person.

Responsibility

Departmental employees possessing State-issued or personal optional badges shall be held specifically responsible for the proper use and control of these badges. Loss or damage of departmentally issued or optional badges resulting from employee negligence, or willful failure to report loss of State-issued or optional badge, shall be cause for adverse action.

Automated Badge Record System

The CDCR has developed an Automated Badge Record System (ABRS) that is located at the CTC. The CTC will be responsible for conducting all business pertaining to the assignment of badge numbers for all peace officer employees (with the exception of peace officers in the Parole Agent series). In the event of a discrepancy in badge number assignments, the number identified as the employee's, as documented in the ABRS, shall supersede any number carried by an employee or institution.

Uniform Inspections

In conjunction with the DOM 33020.4, Inspections, all institutions shall conduct an annual audit of their assigned peace officers' badges. The audit shall provide employee's name, last four digits of their social security number, badge number, and total number of badges possessed. Badge numbers shall be obtained through visual verification. All audits shall be forwarded to the Departmental Badge Coordinator at the CTC upon completion. Current rosters can be obtained from the CTC prior to conducting the audit.

Lost or Stolen

In the event that a State-issued or optional badge is lost, stolen, or damaged, the employee responsible for the badge shall submit a detailed written report of the circumstances within 24 hours of the discovery. The report shall be submitted to the senior administrator of the CDCR facility where the employee is assigned. DAPO staff shall submit the report to the appropriate Regional Administrator. Headquarter staff shall submit the report to the Chief, Office of Investigative Services.

The senior facility administrator, upon knowledge that a badge has been lost or stolen, shall:

- Cause a notice to be placed at the entrance gates of all institutions and copies of the notice to be mailed to local law enforcement agencies, facility's badge coordinator, and the CTC. The notice shall contain the badge number, type of badge (dome or flat pocket), and the specific circumstances surrounding the loss or theft of the badge.
- After investigation and considering the facts submitted, determine whether the loss or damage was due to negligence of the responsible employee and party responsible for replacement.
- Take appropriate action as indicated by the circumstances revealed during the inquiry.
- The facility's badge coordinator shall order a replacement badge from the CTC.

Replacement badges (State or employee's expense) shall not be ordered prior to 30-days from discovery to insure that every attempt is made to recover any lost or stolen badge.

Note: These procedures for replacement in no way restrict the CDCR facility from issuing a loaner badge to the responsible employee until the replacement badge is delivered to the facility.

Lost or stolen optional badges shall not be replaced by the CDCR. The employee, however, retains the right to submit a claim through the established Victim Compensation and Government Claims Board procedures if circumstances warrant. Authorization to replace a lost or stolen optional badge may be withheld by the Warden if such loss was as a result of negligence in exercising proper control over the badge. Replacement may be permitted, at the expense of the employee, after a 30-day waiting period.

Damaged

The damaged badge shall be replaced with a badge bearing the same number as the original State-issued badge. After investigation and considering the facts submitted, the senior facility administrator shall make a determination whether the damaged badge will be replaced by the CDCR or the employee. The facility badge coordinator shall forward the damaged badge and report to the CTC for destruction and order the replacement through the CTC.

Promotions or Transfers

All peace officer employees receiving promotions or transfers to another CDCR facility shall retain their State-issued and optional badge(s). The receiving CDCR facility shall have the ribbon of the employee's promotional rank or classification, if appropriate, affixed at the bottom of one existing badge. The institution or other CDCR facility shall issue the employee a loaner badge until the original badge is received from the vendor with the appropriate ribbon of rank or classification affixed. The original badge shall then be returned to the employee and if the employee was assigned a loaner badge, it shall then be returned by the employee.

Termination of State Service

All Correctional Peace Officer employees terminating State service, transferring to a non-peace officer classification within the CDCR, or transferring to another State agency shall surrender all badge(s)(State-issued and optional) to the CDCR facility badge coordinator processing the personnel action. Information regarding the total number of badges the separating employee has in possession can be obtained from the Departmental Badge Coordinator located at the CTC. All badges, including employee's name, type of separation, and effective date shall be returned to the CTC for disposition. Reimbursement for optional badges can be obtained by completing a STD. 262-A, Travel Explain Claim, through the separating institution's Accounting Office.

Retirement from State Service

Correctional Peace Officer employees retiring from State service shall surrender their State-issued badge to the facility's badge coordinator, and may request a retired flat badge with holder upon arrival of their retirement. The retired badge procedure is not automatic and should be initiated by the CDCR facility's badge coordinator.

Retiring employees possessing any optional badge(s) may surrender them to the facility's badge coordinator for reimbursement at the current, fair market value. Current, fair market value is defined as the prices charged by the contracted vendor at the time of retirement. Reimbursement of any optional badge(s) is not automatic; it is the responsibility of the retiree to submit a Travel Expense Claim to their Accounting Office for reimbursement.

All badges, including name, type of retirement, and effective date shall be forwarded to the CTC by the facility's badge coordinator for disposition.

Irresponsible or unethical conduct or conduct which brings discredit upon yourself and/or the CDCR shall result in forfeiture of all rights and privileges associated with the issuance of the badge and will require immediate surrender of the badge.

Under no circumstances are badges assigned to retired peace officers to be retained by the CDCR facility and utilized as loaner badges.

Deceased Employee

In the event of a Correctional Peace Officer employee's death, all State-issued and optional badge(s) shall be relinquished to the processing CDCR facility.

Upon written request by the Warden or designee, the State-issued badge may be retained by the processing CDCR facility for the sole purpose of affixing it to a plaque or other symbol of remembrance. With the written approval of the Director, the badge number of a deceased Correctional Peace Officer can be assigned or reassigned to a family member.

All badges, including name, type of separation, and effective date shall be forwarded to the CTC for disposition.

Under no circumstances are badges assigned to deceased Correctional Peace Officers to be retained by the CDCR facility and utilized as loaner badges.

33020.13.3 Specifications

All uniformed personnel and nonuniformed employees designated as peace officers pursuant to California Code of Regulations (CCR), Title 15, Division 3, shall receive a departmental badge. For badge specifications, refer to this DOM Article and the CDCR Uniform Specification Handbook.

33020.14 Regulation Uniform – Food Services Employees

All supervising cooks, bakers, butcher/meat cutters, and food services workers shall wear the departmentally approved uniform to distinguish them from inmates assigned to food services duties.

Regulation food service uniforms shall consist of:

- Trouser.
- Shirt.
- Cap.
- Jacket.
- Jumpsuit (brown).
- Shoes.
- Smock.

The following items are mandatory accessories:

- Belt, brown/black in color.
- Key ring holder.
- Whistle.
- Departmental nameplate.

The following items are non-mandatory accessories:

- Alarm holder.
- Flashlight.

Individual garment specifications may be referred to in the CDCR Uniform Specification Handbook. Items not specifically addressed within this DOM Article are considered unauthorized.

Food service employees shall report to their assignment in clean uniforms that are in good condition.

33020.15 Protective Vests

Revised May 27, 2008

Protective Vests are California Department of Corrections and Rehabilitation (CDCR) approved items of safety equipment designed and manufactured to resist penetration of bullets, inmate/ward manufactured knives, ice picks, and other sharp objects. Protective vest types include Ballistic Vests, Combination Vests, and Stab Resistant Vests. The individual level and type of protection offered by these protective vests is dependent upon the individual vest characteristics.

For CDCR peace officer employees, the ability to wear a protective vest is an essential function of the job regardless of the regular wear expectations of their individual post or duty assignment. Each CDCR peace officer might at any time be assigned to a post or be required to participate in a specific operation wherein vest wear is mandatory.

33020.15.1 Definitions

Ballistic Vest: A Ballistic Vest is designed to cover specific portions of the wearer's body to resist penetration by a bullet.

Combination Vest: A Combination Vest is designed to cover specific portions of the wearer's body to resist penetration by inmate manufactured knives, ice picks, other sharp objects and bullets.

Cover: A vest cover is the holder for the vest panel. The cover shall be appropriately sized to maintain the position of the panel upon the wearer's body as designed by the manufacturer.

CDCR owned vest and/or cover: A CDCR owned vest and/or cover is purchased by the CDCR and is State property. Each CDCR owned vest and/or cover shall be maintained by the employee to whom they are issued in accordance with CDCR mandates. The vest and/or cover shall stay under the control of the issued employee until the vest and/or cover is replaced with another CDCR owned vest and/or cover, or the employee purchases a personally owned vest and/or cover, or the employee separates from the CDCR, or the employee transfers to another CDCR division/unit that requires a different type of vest and/or cover than the employee was issued, or where vest wear is not mandatory as described in this section.

Personally owned vests and/or covers: A personally owned vest and/or cover is a vest and/or cover that an authorized employee (as noted in this section) chooses to purchase and maintain at his/her own expense. A personally owned vest and/or cover must meet or exceed the requirements of the specific vest type. Personally owned vest covers that are used with CDCR owned vest panels must be specifically designed to fit the specific CDCR owned vest panel.

It is the responsibility of each employee that purchases a personally owned vest/cover to notify the Vest Control Person (VCP) prior to wearing the vest/cover to work so that inventory control measures can be initiated. The employee shall also provide that vest/cover to the VCP annually for inspection at the time and date established by the VCP.

Stab Resistant Vest: A Stab Resistant Vest is designed to cover specific portions of the wearer's body to resist penetration by inmate manufactured knives, ice picks, and other sharp objects.

Standby Vest Pool: Each institution/division/facility/unit shall maintain a Standby Vest Pool. The Standby Vest Pool shall contain sufficient vest and cover types, amounts and sizes, at the discretion of each Warden/Superintendent/Division Head, to supply to personnel who are temporarily required to wear a vest as described in this section. Standby Vest Pool vests will be issued to:

- Employees who are required to wear a vest but have not been permanently issued a vest. If such an employee works full time in a unit wherein vest wear is mandatory (as defined in this policy), the Warden/Superintendent/Division Head may elect to issue a vest from the Standby Pool to that employee for the duration of their assignment in the unit.
- Employees who do not have their permanently issued vest with them when they report for duty.
- Employees/official visitors that enter Special Housing Units, as described in this policy.

Correctional Training Center or Juvenile Justice Training Center employees and cadets that use Standby Pool Vests shall wear these vests under the outer uniform shirt/jumpsuit.

Vest Control Person: The institutional/facility/division/unit VCP shall manage and maintain, under the responsibility of the respective Warden/Superintendent/Division Head, the institution/division/unit inventory of CDCR and personally owned vests and/or covers. It will be the responsibility of each institutional/facility/division/unit VCP to coordinate their needs with the CDCR VCP. The CDCR VCP shall have overall responsibility for managing the departmental vest inventory.

Vest panel: A vest panel is the protective material held by the vest cover.

33020.15.2 Wear Authorizations and Requirements

Revised August 1, 2014

Ballistic Vest:

Wear Authorizations:

The Ballistic Vest is authorized for wear by the following employees:

- Office of Correctional Safety.
- Office of Internal Affairs.
- Division of Adult Parole Operations agents.
- Basic Correctional Officer Academy Firearms Instructors.

Wear Requirements:

- The Ballistic Vest shall be worn only in the manner prescribed by the manufacturer and the CDCR.
- For normal wear, the Ballistic Vest shall be worn concealed under the outer uniform shirt, blouse/shirt, or jumpsuit for the duration of the shift unless otherwise provided for in this section.
- Once a CDCR owned Ballistic Vest has been issued to an employee, wear of the vest is mandatory while that employee is on duty unless otherwise approved by the appropriate Division/Office Head.
- Outer wear of the Ballistic Vest is authorized only with the use of a CDCR approved outerwear cover (e.g. tactical, firearms instructor, or raid vest) and when there is an identified operational need to do so.
- If an employee chooses to purchase a personally owned Ballistic Vest and/or cover, the wear requirements are the same as those pertaining to a CDCR owned vest.

Combination Vest

Wear authorizations:

The Combination Vest is authorized for wear by the following employees:

- Community Correctional Facility (CCF)/Modified Community Correctional Facility (MCCF) peace officers who have transportation responsibilities.
- Juvenile Justice Conservation Camp peace officers who have transportation responsibilities.
- Crisis Response Team (CRT) members or Juvenile Justice Tactical Team members.
- Adult Operations Transportation Unit and Juvenile Justice Transportation Unit Correctional Officers, Youth Correctional Officers, Sergeants, Lieutenants, and Captain.
- Adult Operations or Juvenile Justice institutional/facility transportation team Correctional Officers, Youth Correctional Officers, Sergeants, Lieutenants, or other CDCR peace officers.
- Adult Operations, Institutional Investigative Services Unit Correctional Officers, Sergeants, and Lieutenants, and Juvenile Justice, Disciplinary Decision Making System Lieutenants.
- Medical Guarding Unit/hospital coverage Correctional Officers, Youth Correctional Officers, Sergeants, and Lieutenants.
- Basic Correctional Officer Academy Firearms Instructors.

Wear Requirements:

- The Combination Vest shall be worn only in the manner prescribed by the manufacturer and the CDCR.
- For normal wear, the Combination Vest shall be worn concealed under the outer uniform shirt, blouse/shirt, or jumpsuit for the duration of the shift unless otherwise provided for in this section.
- Outer wear of the Combination Vest is authorized only with the use of a CDCR approved outer wear cover (e.g. tactical, firearms instructor, or raid vest) and when there is an identified operational need to do so.
- Once a CDCR owned Combination Vest has been issued to an employee, wear of the vest is mandatory while that employee is on duty unless otherwise approved by the appropriate Division/Office Head.
- If an employee chooses to purchase a personally owned Combination Vest and/or Cover, the wear requirements are the same as those pertaining to a CDCR owned vest.

Stab Resistant Vest

Wear authorizations:

The Stab Resistant Vest is authorized for wear by the following employees:

- All institutional/facility Correctional Officers, Youth Correctional Officers, Correctional Counselors, Youth Correctional Counselors, Senior Youth Correctional Counselors, Institutional Parole Agents, Supervising Casework Specialists, Sergeants, and Lieutenants.
- Other employees as mandated in the Stab Resistant Vest Wear Requirements section.
- Any employee who chooses to purchase a personally owned Stab Resistant Vest/Cover.

Wear Requirements:

- The Stab Resistant Vest shall be worn only in the manner prescribed by the manufacturer and the CDCR.
- For normal wear, the Stab Resistant Vest shall be worn concealed under the outer uniform shirt, blouse/shirt, or jumpsuit for the duration of the shift unless otherwise provided for in this section.
- Once a CDCR owned Stab Resistant Vest has been issued wear of the vest is mandatory while that employee is on duty unless provided for in this section.
- If an employee chooses to purchase a personally owned Stab Resistant Vest and/or Cover, the wear requirements are the same as those pertaining to a CDCR owned Stab Resistant Vest.
- Correctional Training Center or Juvenile Justice Training Center Stab Resistant Vests shall be worn concealed under the outer uniform shirt, shirt/blouse, or jumpsuit.

Special Units

The following requirements for wear of a Stab Resistant Vest in designated special units shall be complied with:

All CDCR employees, regardless of personnel classification, entering a Security Housing Unit (SHU), Administrative Segregation Unit (ASU), Temporary Detention Unit (TDU), Condemned Housing Unit, or Psychiatric Services Unit (PSU), shall wear a Stab Resistant Vest when the employee is:

- In direct contact of inmates/wards/patients within the aforementioned units (unrestrained or restrained).
- Escorting inmates/wards/patients housed within the aforementioned units anywhere on institution grounds.
- On the aforementioned unit tiers.

Stab Resistant Vest wear requirements shall extend to all official visitors (including but not limited to contractors, religious advisors, outside law enforcement personnel, legal representatives, etc.) of each unit as described in this section.

Stab Resistant Vests temporarily issued from a unit/institution/facility/division Special Unit Standby Vest Pool are approved for outer wear.

Correctional Officers, Youth Correctional Officers, Correctional Counselors, Youth Correctional Counselors, Senior Youth Correctional Counselors, Institutional Parole Agents, Casework Specialists, Sergeants or Lieutenants entering a unit such as a Correctional Treatment Center (CTC), Outpatient Housing Unit (OHU), General Acute Care Hospital (GACH), Intermediate Care Facility (ICF), or any Department of Mental Health (DMH) Unit/Facility, shall wear a Stab Resistant Vest when the employee is:

- In direct contact with inmates/wards/patients within the aforementioned units (unrestrained or restrained).
- Escorting inmates/wards/patients housed within the aforementioned units anywhere on institution grounds.
- On the aforementioned unit tiers.

All other staff entering a unit such as a CTC, OHU, GACH, ICF, or any DMH Unit/Facility, shall have the option to wear a Stab Resistant Vest (obtained from the Standby Pool or from the respective Vest Control Person (VCP)) when the employee is:

- In direct contact with inmates/wards/patients within the aforementioned units (unrestrained or restrained).
- Escorting inmates/wards/patients housed within the aforementioned units anywhere on institution grounds.
- On the aforementioned unit tiers.

General Information

Correctional Officers, Youth Correctional Officers, Youth Correctional Counselors, Senior Youth Correctional Counselors, Institutional Parole Agents, Casework Specialists, Sergeants, and Lieutenants assigned to Juvenile Justice facilities in areas other than described in the above Stab Resistant Vest, Wear Requirements section, and Adult or Juvenile Justice Conservation Camps shall wear Stab Resistant Vests while on duty, unless otherwise authorized by the Division / Office Head, Adult Operations/Division / Office Head, Juvenile Justice. Stab Resistant Vests shall be worn if the aforementioned Correctional Officer, Youth Correctional Officer, Youth Correctional Counselor, Senior Youth Correctional Counselor, Institutional Parole Agent, Casework Specialist, Sergeant, or Lieutenant enters an Adult Operations male institution secure perimeter during the course of the performance of their duties, unless otherwise authorized by the Division / Office Head, Adult Operations / Division / Office Head, Juvenile Justice.

Correctional Officers, Youth Correctional Officers, Youth Correctional Counselors, Senior Youth Correctional Counselors, Institutional Parole Agents, Casework Specialists, Sergeants, and Lieutenants who work in Adult Operations or Juvenile Justice female institutions/facilities in areas other than described in the above Stab Resistant Vest, Wear Requirements section, shall be issued a vest unless otherwise authorized by the Division / Office Head, Adult Operations/Division / Office Head, Juvenile Justice and as specified in the respective DOM Supplement as described in DOM Section 33020.16.6.

Committee members in any SHU, ASU, TDU, PSU, Inter Disciplinary Treatment Team, Youth Authority Administrative Committee (YACC), CTC or OHU shall wear a Stab Resistant Vest unless otherwise authorized by the Division / Office Head, Adult Operations/Division / Office Head, Juvenile Justice and as specified in the respective DOM Supplement as described in DOM Section 33020.16.6.

It is the intent of the CDCR, based upon available funding, to provide the appropriate vest to designated peace officer employees upon, or as soon as possible, after their graduation from their academy. Supervisors have the authority to verify that an employee is wearing his/her vest in accordance with the mandates of this policy.

Refusal to wear a vest: As vest wear is an essential function of the job for CDCR peace officer personnel and mandated for all employees in specific units as identified in this policy, any employee, who has been issued,

either permanently or temporarily, a protective vest and then refuses to wear the vest in accordance with CDCR mandates, shall be subject to progressive disciplinary action.

Non-possession of issued vest: In the event that an employee who has been issued a vest, or is mandated to wear a vest, is not in possession of his/her vest when reporting for duty, the following shall occur:

- If a Standby Pool Vest is available, a vest may be temporarily issued to the employee for the duration of that employee's shift. In the event the employee's vest has been lost or stolen, this might require the assignment of a Pool Vest to that employee.
- If the employee does not report to work with his/her vest, the employee may be sent home to retrieve the vest on his/her own time prior to being allowed to report for work. This decision shall be made at the discretion of the Warden/Superintendent/Division Head, or their designee.
- Progressive disciplinary action shall be initiated.

When a protective vest has been issued to an employee but is not being worn (e.g. off duty or on-duty periods wherein wear is not mandated), the vest shall be stored in locations that prevent inmate/ward/parolee access. The storage area should be climate controlled, not be subject to extreme high or low temperatures or excessive humidity, and should allow for vest storage in accordance with the manufacturer's wear and care recommendations. Care must be taken to prevent the vest from being stolen while off duty.

33020.15.3 Procurement

The CDCR VCP shall be responsible for coordinating the purchasing and scheduling for sizing dates of CDCR protective vests from vendors identified by approved contracts.

Institutions/divisions/facilities/units shall ensure that an appropriate quantity and size selection is available for their Standby Pool. The CDCR VCP shall adhere to policy and procedure governing the purchase/procurement of equipment.

As protective vests are received by the institution/division/facility/unit from the manufacturer, the required inventory processes will be accomplished as quickly as possible to facilitate expedient availability of the protective vest to the end user.

33020.15.4 Accountability and Replacement

The procedures for accountability and replacement of CDCR and personally owned protective vests are as follows:

Accountability

Each Warden/Superintendent/Division Head shall appoint a VCP who shall receive, inventory, and manage the institution's/division's/facility's/unit's protective vests program. The VCP shall provide monthly CDCR vest inventory reports (including specific information related to inventory discrepancies) directly to the Chief Deputy Warden/Division Head/Chief of Security, who is responsible for the accountability of the institution's/division's/facility's/unit's protective vests.

The VCP shall maintain an ongoing inventory of all CDCR and personally owned vests in his/her area of responsibility via the CDCR approved vest inventory tracking program. The institution/division/facility/unit VCP shall submit a quarterly inventory report to the CDCR VCP. The institution/division/facility/unit head shall ensure the accuracy of this report.

The CDCR Form 2155, CDCR Personal Protective Vest Issuance Acknowledgement Form, shall be used to facilitate protective vest inspection. The institution/division/facility/unit VCP shall maintain the CDCR 2155 for the duration of use of each vest.

Each CDCR owned vest/cover shall be documented on the CDCR 2155.

Personally owned vests and/or covers must be presented by the employee to the VCP prior to use and then annually thereafter for review. The VCP shall inspect the personally owned vest and/or cover to ensure that it complies with CDCR requirements. The VCP shall then input the personally owned vest and/or cover into their inventory. Any employee who chooses to wear a personally owned vest and/or cover must surrender any CDCR owned vest and/or cover in their possession to the VCP.

The institution/division/facility/unit VCP shall annually verify the inventory and wearability of each CDCR or personally owned vests and/or covers in their area of responsibility. This will require a physical inspection of each protective vest/cover. The CDCR Form 2154, CDCR Protective Vest Inspection Form, shall be used to facilitate protective vest inspection. The institution/division/facility/unit VCP shall maintain the CDCR 2154 for the duration of use of each vest.

If the VCP determines a CDCR owned vest and/or cover used by an employee is not serviceable, the VCP shall inform the employee he/she is no longer authorized to wear the non-serviceable vest/cover. The VCP shall issue the employee a CDCR owned pool vest and/or cover(s). The VCP shall note this fact on the CDCR 2155 and provide the employee with a signed copy of the CDCR 2154.

If the VCP determines a personally owned vest and/or cover used by an employee (who would normally be issued for regular use a CDCR owned vest) is not serviceable, the VCP shall inform the employee he/she is no longer authorized to wear the non-serviceable vest/cover. The VCP shall issue the employee a replacement CDCR owned vest and/or cover(s). The VCP shall note this fact on the CDCR 2155 and provide the employee with a signed copy of the CDCR 2154. The employee may acquire another personally owned vest and/or cover at his/her expense to replace the disapproved vest and/or cover.

If the VCP determines that a personally owned vest and/or cover used by an employee not mandated to wear a vest and/or cover is no longer serviceable, the employee shall be informed that he/she is no longer authorized to wear that personally owned vest and/or cover. The VCP shall note this fact on the CDCR 2154 and provide the employee with a signed copy of this form. The employee may acquire another personally owned vest and/or cover at his/her expense to replace the disapproved vest and/or cover.

In the event an employee who has been issued a CDCR owned vest/cover or who has purchased a personally owned vest/cover transfers to or is placed at a different CDCR institution/division/facility/unit, he/she shall be allowed to take his/her CDCR owned vest and/or cover(s) or personally owned vest and/or cover(s) with him/her. The affected VCP shall ensure all CDCR procedures regarding property transfer are used to track the transfer of such vests and/or covers. The sending VCP shall ensure the receiving VCP receives a copy of the CDCR 2155 and/or CDCR 2154 related to that employee's vest.

In the event an employee who has been issued a CDCR owned vest/cover transfers to or is placed at a CDCR institution/division/facility/unit where vest wear is not regularly required (i.e. Headquarters) or if a different type of vest (combination vest or ballistic vest) will be issued to the transferring employee by the receiving unit, the VCP shall ensure the transferring employee's CDCR owned vest and/or cover is confiscated and, if the vest and/or covers are serviceable, that they are placed into the sending institution's/division's/facility's/unit's Standby Vest Pool or are appropriately used as deemed necessary by the VCP or CDCR VCP.

The VCP, under the guidance of the institution/division/facility head, shall issue a vest from the Standby Vest Pool to an employee who undergoes any significant body shape change or weight change that would render his/her issued vest ineffective. If the employee's originally issued vest is serviceable, it will be placed into the Standby Vest Pool or be used appropriately as deemed necessary by the VCP or CDCR VCP.

In the event an employee that has been issued a CDCR owned protective vest retires, resigns, or otherwise separates from the CDCR, the CDCR owned vest and/or covers shall be surrendered to the VCP during the check out process. If the employee's vest is serviceable, it will be placed into the Standby Vest Pool or be used appropriately as deemed necessary by the VCP or CDCR VCP.

Vest inventories shall be facilitated via the use of the CDCR 2154 and 2155. The VCP shall maintain the CDCR 2154 and 2155 for the duration of use of each vest and for three years after the disposal of each vest.

The CDCR VCP shall work in coordination with the institution/division/facility/unit VCPs to maintain an accurate CDCR protective vest inventory. The CDCR VCP shall ensure that excess protective vest inventories at any CDCR site are identified and, if required, transferred to another site that might need these protective vest resources before any supplemental protective vest purchase is initiated.

Replacement

Replacement of the CDCR protective vest panels and covers shall be accomplished as follows:

Vest covers shall be replaced by the institution/division/facility/unit when the covers are no longer serviceable. The VCP shall ensure that worn CDCR owned vest covers are replaced before the cover becomes unable to maintain the position of the vest panels upon the body of the wearer as designed by the manufacturer.

CDCR owned vest panels shall be replaced prior to the expiration of manufacturer's warranty period.

Personally owned vest panels shall be replaced at the employee's expense prior to the expiration of the manufacturer's warranty period. If the employee mandated to wear a vest chooses to not purchase another personally owned vest and/or cover, the VCP shall ensure this employee is issued a CDCR owned vest and/or cover.

CDCR owned or personally owned vests, panels and/or covers determined to be unserviceable due to normal wear shall be documented in the institution's/division's/facility's/unit's vest inventory program with the following information:

- Manufacturer.
- Vest model number.
- Type and threat level (Spike III, Ballistic II, etc.).
- Serial number of vest panels. If there are different serial numbers on the front and back panel of the same vests, these shall be separately noted with a designation of "F" for the front panel and "B" for the back panel.
- Lot number.
- Manufacture date.
- Male/Female vest.
- Name of assigned staff.
- Job classification.
- Date placed into service.
- Current unit in which used.
- Type of damage sustained.
- Remedial action (disposed, etc.).

CDCR owned or personally owned vests, panels and/or covers determined to be unserviceable due to damage beyond normal wear (such as being collected for evidentiary reasons), but not due to negligence shall be documented in the institution's/division's/facility's/unit's monthly VCP inventory report with the following information:

- Manufacturer.
- Vest model number.
- Type and threat level (Spike III, Ballistic II, etc.).
- Serial number of vest panels. If there are different serial numbers on the front and back panel of the same vests, these shall be separately noted with a designation of "F" for the front panel and "B" for the back panel.
- Lot number.
- Male/Female vest.
- Name of assigned staff.
- Job classification.
- Date placed into service.
- Current unit in which used.
- Type of damage sustained.
- Brief description of circumstance and corrective action, if any.
- Remedial action (disposed, placed into evidence, etc.).

CDCR owned vests, panels, and/or covers determined to be unserviceable due to negligence, intentional destruction, lost, stolen or damaged will be reported verbally and in writing by the affected employee to the VCP by the next business day and the VCP shall issue the employee another CDCR vest/panel/cover if person is required to be personally issued a vest. The written report from the employee must include a complete statement of circumstances surrounding the incident that led to the negligence, destruction, or loss. This information shall be contained in the institution's/division's/facility's/unit's monthly VCP inventory report with the following information:

- Manufacturer.
- Vest model number.
- Type and threat level (Spike III, Ballistic II, etc.).
- Serial number of vest panels. If there are different serial numbers on the front and back panel of the same vests, these shall be separately noted with a designation of "F" for the front panel and "B" for the back panel.
- Lot number.
- Male/Female vest.

- Name of assigned staff.
- Job classification.
- Date placed into service.
- Current unit in which used.
- Type of damage sustained.
- Brief description of circumstance and corrective action, if any.
- Remedial action (disciplinary action, etc.).

Lost, stolen or damaged CDCR protective vests shall be replaced in accordance with the State Administrative Manual, Section 8643; Lost, Stolen, or Destroyed Property.

Disposal of protective vests/covers must be coordinated through the CDCR VCP and be accomplished in accordance with CDCR policy and other applicable regulations.

33020.15.5 Training

The CDCR VCP shall provide training to persons assigned as a VCP. A VCP cannot conduct annual vest inspections unless they have received VCP training.

Upon issuance of a CDCR owned vest and/or cover(s), the VCP shall provide On the Job training (OJT) on the wear and care of the vest. Each In-Service Training Manager/Officer or Unit Training Coordinator/Officer or Regional Training Coordinator shall establish and maintain appropriate documentation reflecting this OJT. The proof of training record shall be maintained in the employee's training file.

If an employee chooses to purchase a personally owned vest and/or cover, the VCP shall coordinate with the IST Manager/Officer or Unit Training Coordinator/Officer the appropriate training for that employee when the VCP becomes aware of this vest.

33020.15.6 DOM Supplements

Each department/institution/division/facility/unit that has protective vests in its inventory shall establish and review annually a DOM Supplement entitled "Protective Vests" that shall include the specific Department/institution/division/facility/unit procedures for vest program management.

These might include, but are not be limited to:

- The resources required to provide protective vests for off-institution/facility duties (Medical Guarding Units, hospital coverage, transportation teams, etc.) and the procedures for issuance of these vests from the Standby Vest Pool.
- Identification of a vest storage location(s): Each institution/division/facility/unit shall designate a location for their Standby Vest Pool. Each location:
 - Shall prevent inmate, ward, or parolee access to vest panels.
 - Should be climate controlled, not be subject to extreme high or low temperatures or excessive humidity, and should allow for vest storage in accordance with the manufacturer's wear and care recommendations.
- Designation of a VCP by position title and number.
- Procedures for conducting inventories.
- Procedures for procurement and replacement of vests and/or covers, as required. Replacement must occur before the manufacturer's warranty expiration date.
- The procedures and requirements for using the CDCR 2154.
- The procedures and requirements for using the CDCR 2155.
- Mandatory wear provisions that exceed the requirements of DOM Section 33020.16.2.
- Standby Vest Pool management, issuance, and return procedures. These shall include the specific procedures for cleaning and care, including:
 - The designation of an employee, by duty assignment, to be responsible for the cleaning and maintenance of the Standby Vest Pool vest panels and covers.
 - Provisions to ensure that the Standby Vest Pool vest panels are cleaned in accordance with the manufacturer's specifications and without inmate/ward/parolee contact. Vest covers can be laundered by inmates/ward/parolees with appropriate supervision.
- A detailed schedule for cleaning Standby Vest Pool components (cover and panels). In Standby Vest Pool situations, protective vests that have been worn shall be cleaned at least weekly. Protective vests shall be

cleaned before they are reissued if they are contaminated. This may require the acquisition of extra covers to facilitate the required cleaning.

- Specific identification of a contracted cleaner if there are not resources available at the respective site to facilitate protective vest cleaning in accordance with this section. This should also include the required inventory process (including transport to and from the cleaner) to ensure accountability. Cleaning requirements might require the purchase of additional covers.

33020.16 Revisions

Revised July 27, 2010

The Assistant Secretary, Office of Correctional Safety or his/her designee shall ensure that the content of this DOM Article is accurate and current.

ARTICLE 22 –EMPLOYEE DISCIPLINE

Effective January 2006

33030.1 Policy

All disciplinary action shall be imposed in a fair, objective, and impartial manner, and the California Department of Corrections and Rehabilitation (Department) shall consistently apply accepted principles of due process and progressive discipline when corrective or adverse action is imposed.

33030.2 Purpose

To ensure effective and efficient departmental operations and employee adherence to reasonable and acceptable rules of conduct and performance.

33030.3 Employee Performance Standards

33030.3.1 Code of Conduct

As employees and appointees of the Department, we are expected to perform our duties, at all times, as follows:

- Demonstrate professionalism, honesty, and integrity;
- Accept responsibility for our actions and their consequences;
- Appreciate differences in people, their ideas, and opinions;
- Treat fellow employees, inmates, wards, parolees, victims, their families, and the public with dignity and respect;
- Respect the rights of others and treat them fairly regardless of race, color, national origin, ancestry, gender, religion, marital status, age, disability, medical condition, pregnancy, sexual orientation, veteran status, or political affiliation;
- Comply with all applicable laws and regulations;
- Report misconduct or any unethical or illegal activity and cooperate fully with any investigation.

33030.3.2 General Qualifications

All employees are subject to the requirements as specified in the California Code of Regulations (CCR), Title 2, Section 172, General Qualifications, which states, in pertinent part, the following:

All candidates for, appointees to, and employees in the state civil service shall possess the general qualifications of integrity, honesty, sobriety, dependability, industry, thoroughness, accuracy, good judgment, initiative, resourcefulness, courtesy, ability to work cooperatively with others, willingness and ability to assume the responsibilities and to conform to the conditions of work characteristic of the employment, and a state of health, consistent with the ability to perform the assigned duties of the class.

33030.3.3 Law Enforcement Code of Ethics

Peace officers employed by the Department are held to a higher standard of conduct on and off duty, as specified in the Law Enforcement Code of Ethics and the peace officer oath. The Law Enforcement Code of Ethics is as follows:

As a law enforcement officer, my fundamental duty is to serve the community; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation and the peaceful against violence or disorder; and to respect the constitutional rights of all people to liberty, equality and justice.

I will keep my public and private life unsullied as an example to all and will behave in a manner that does not bring discredit to me or my Department. I will maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed in both my personal and official life. I will be exemplary in obeying the law and the regulations of my department.

I will never act officiously or permit personal feelings, prejudices, political beliefs, aspirations, animosities, organizational associations or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.

Confidential information received in my official capacity shall remain undisclosed unless disclosure is necessary in the performance of my duty. I will never engage in acts of corruption, bribery, insubordination or the obstruction of justice, nor will I condone such acts by other peace officers. I will immediately report acts of misconduct by staff of my department and cooperate with all legally authorized agencies and their representatives in the pursuit of justice.

I know that I alone am responsible for my own standard of professional performance and will take every reasonable opportunity to enhance and improve my level of knowledge and competence.

I recognize the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am serving as a law enforcement officer. I will constantly strive to achieve these objectives and ideals, dedicating myself before all present to my chosen profession... law enforcement.

33030.4 Definitions

Adverse Action - A documented action, which is punitive in nature and is intended to correct misconduct or poor performance or which terminates employment.

Affected Employee - An individual who is the subject of adverse action.

Appointing Power - The Secretary of the Department.

Assistant General Counsel (AGC) - An individual responsible for managing the Employment Advocacy and Prosecution Team (EAPT) in the Department's Office of Legal Affairs.

Bureau of Independent Review (BIR) – A unit within the Office of the Inspector General responsible for contemporaneous public oversight of the Department's investigative and disciplinary processes.

Charging Package (Also known as the “Skelly package”) – All documentation used to substantiate the charges in the action and which is presented to the employee with the Preliminary or Final Notice of Adverse Action. This material may include but is not limited to the following: the investigative report; applicable policies, procedures, and Government Code sections; records of training the employee has attended; job descriptions; and duty statements and/or post orders that are related to the charges. This package does not include the CDCR Form 402, Hiring Authority Review of Investigation, and CDCR Form 403, Justification of Penalty.

Chief Assistant Inspector General (CAIG) – An individual responsible for the operation and functions of the BIR.

Corrective Action - A documented non-adverse action (verbal counseling, in-service training, on-the-job training, written counseling, or a letter of instruction) taken by a supervisor to assist an employee in improving his/her work performance, behavior, or conduct.

Designated Cases – Those cases assigned to the Vertical Advocates, including matters involving staff integrity and/or dishonesty, abuse of authority, sexual misconduct, use of force in which an inmate suffers death or serious injury, use of deadly force, serious allegations made against supervisors, and high profile or dismissal cases assigned to the Vertical Advocate by the AGC.

Employee Counseling Record - A written record of counseling, documented on a CDC Form 1123, between a supervisor and subordinate which provides formal instruction about laws, rules, policies and employer expectations.

Employee Relations Officer (ERO)/Disciplinary Officer – An employee designated by the Hiring Authority to coordinate adverse actions.

Employment Advocacy and Prosecution Team (EAPT) –The team, formerly known as the Employment Law Unit, responsible for operation of the Vertical Advocacy Model in the Department's Office of Legal Affairs.

Executive Review – A secondary, management-level review conducted to resolve a significant disagreement(s) regarding an investigative finding, proposed disciplinary penalty, or settlement agreement.

Hiring Authority – The Undersecretary or General Counsel or any Chief Deputy Secretary, Executive Officer, Chief Information Officer, Assistant Secretary, Director, Deputy Director, Associate Director, Warden, Superintendent, Health Care Manager, Regional Health Care Administrator, or Regional Parole Administrator authorized by the appointing power to hire, discipline, and dismiss staff under his/her signature authority. The Administrator at the Richard A. McGee Correctional Training Center shall serve as the Hiring Authority for Correctional Officer Cadets. The appointing power is a hiring Authority, for purposes of this Article.

In-Service Training (IST) – Formal training conducted departmentally and/or at the direction of the Hiring Authority and usually conducted away from the employee's work site.

Letter of Instruction (LOI) – A written document, which outlines requirements for an employee to advance his/her job performance or conduct to an acceptable level.

Notice of Adverse Action – Notification to the affected employee of the charges against him/her, the adverse action penalty, and the effective date.

Office of Internal Affairs (OIA) – The entity within the Department with authority to investigate allegations of employee misconduct.

On the Job Training (OJT) – Training conducted by a supervisor (or a designated employee with the required expertise under the direction of a supervisor) at the job site while the employee is working.

Preliminary Notice of Adverse Action – Notification required of some Hiring Authorities in accordance with the Bodiford Settlement Agreement, to an affected employee regarding charges against him/her and the intent to impose adverse action. This notification summarizes the specific subsections of the Government Code that have been violated, as well as the actions that constituted the violation. For Hiring Authorities mandated to serve a Preliminary Notice of Adverse Action, the charging package shall also be served with this notice.

Senior and Special Assistant Inspectors General (SAIG) – Attorneys employed by the BIR who report to the CAIG.

Skelly Hearing – An informal proceeding in which the employee, together with his or her representative, is provided a predeprivation opportunity to respond to management regarding the charges in the Notice of Adverse Action. The employee may present any arguments for amending a pending adverse action before the action becomes effective. *Skelly* Hearings are required at the request of the affected employee for the following: adverse actions; rejections during probation; non-punitive actions resulting in the employee's dismissal or demotion; and transfers for purposes of punishment and/or in conjunction with an adverse action.

Skelly Letter – A document transmitted to an affected employee, following the *Skelly* Hearing, stating the Hiring Authority's final decision regarding the imposition of a disciplinary penalty.

Skelly Officer – A noninvolved manager, usually at the level of a Correctional Administrator, who will make a recommendation to the Hiring Authority after a *Skelly* Hearing to amend, modify, withdraw, or sustain the pending adverse action. The *Skelly* Officer must be a management employee above the organizational level of the disciplined employee's supervisor unless that person is the employee's appointing power in which case the appointing power may respond to the employee or designate another person to respond. Unless the affected employee waives his/her right to have a noninvolved manager serve as the *Skelly* Officer, the *Skelly* Officer shall not be the person who completed the CDC Form 989, Internal Affairs Investigation Request; who signed the employee's Notice of Adverse Action; or who participated in the decision to take adverse action.

Summary of Adverse Action – A summary compiled by the ERO/Disciplinary Officer of allegations of misconduct, from the evidence contained in an investigative report and other documents.

Vertical Advocacy Model – A system that ensures legal representation for the Department during the entire investigative and employee disciplinary process in order to hold staff accountable for misconduct by way of thorough and complete internal investigations, principled decision-making and assessment of the investigations, and consistent and appropriate discipline.

Vertical Advocate – An EAPT attorney assigned to one or more specific Hiring Authority locations to consult with the investigators and Hiring Authorities concerning investigative findings, disciplinary decisions, and to prosecute designated cases.

33030.5 Responsibility

33030.5.1 Appointing Power

The appointing power shall ensure implementation and compliance with the Department's employee discipline policy and programs.

33030.5.2 Hiring Authority

Each Hiring Authority shall be responsible for the following:

- Taking adverse action whenever warranted by an employee's behavior/conduct;
- Ensuring adverse actions are imposed in a fair, objective, and impartial manner and are consistent with this policy, the principles of just cause, and due process;
- Submitting CDC Forms 989 to the OIA including those cases in which direct adverse action is taken without an investigation;
- Reviewing investigative reports, determining investigative findings, and completing CDCR Form 402;
- Determining and justifying appropriate penalty level for employee misconduct by utilizing the Employee Disciplinary Matrix and completing the CDCR Form 403;
- Executing and causing the Notice of Adverse Action to be served on employees;
- Consulting with the Vertical Advocate, for designated cases, and the SAIG for cases the BIR is monitoring, regarding sufficiency of investigations and appropriateness of penalty;
- Consulting with the Vertical Advocate, for designated cases, and the SAIG for cases the BIR is monitoring, before agreeing to any modification, stipulation, or withdrawal affecting the proposed action and before approving any settlement agreement;
- Participating in Executive Review, as necessary, and forwarding material, as appropriate, for Executive Review;
- Informing the Vertical Advocate, for designated cases, and the SAIG, for cases the BIR is monitoring, of any new case developments.

Each Chief Deputy Secretary shall be responsible for the following:

- Participating in Executive Review, as necessary;
- Coordinating with the CAIG and the AGC on matters referred for Executive Review;
- Elevating high-profile cases to the Secretary and Undersecretary, as necessary.

The Chief Information Officer and General Counsel and each Assistant Secretary, Executive Officer, Director, Deputy Director, and Associate Director shall be responsible for the following:

- Facilitating and participating in Executive Review, as necessary;
- Coordinating with the CAIG and the AGC on matters referred for Executive Review;
- Coordinating with and informing the appropriate Chief Deputy Secretary, Undersecretary, or Secretary regarding high-profile cases being monitored by the BIR and especially for cases where there is significant disagreement regarding a penalty level and/or settlement agreement;
- Approving requests for Administrative Time Off (ATO);
- Elevating cases to the appropriate Chief Deputy Secretary, Undersecretary, and Secretary, as necessary.

33030.5.3 Supervisors and Managers

Each supervisor and manager shall be responsible for the following:

- Supervising the performance, behavior, and conduct of subordinate staff and imposing corrective action as necessary;
- Filing documentation related to corrective action in the employee's supervisory file;
- Reviewing the employee's supervisory file for documentation of any corrective actions for similar misconduct occurring within one (1) year, prior to the imposition of corrective or adverse action;
- Referring alleged misconduct and requests for investigation or adverse action to the Hiring Authority immediately following discovery of facts which may constitute misconduct;
- Serving as a *Skelly* Officer, as necessary.

33030.5.4 ERO/Disciplinary Officer

The ERO/Disciplinary Officer shall be responsible for the following:

- Monitoring and coordinating the adverse action processes;

- Drafting Notices of Adverse Action, in consultation with the Vertical Advocate for all non-designated cases;
- Arranging for proper service and review of adverse action documentation;
- Providing a copy of the declaration of service and serving all adverse actions to affected employees;
- Assisting the Vertical Advocates in hearing preparation for designated cases, including service of subpoenas on witnesses;
- Scheduling and attending *Skelly* Hearings and assisting the *Skelly* Officer with administrative duties as requested;
- Representing the Hiring Authority in all non-designated cases and supporting the Vertical Advocate in all designated cases before the State Personnel Board (SPB);
- Coordinating with the Hiring Authority, Vertical Advocate, SPB representatives, affected employees and employee representatives, and other individuals and entities as appropriate;
- Maintaining an accurate log of all formal discipline served and providing copies of the log and all documents relevant to pending actions quarterly to the Office of Personnel Services Employee Discipline Unit;
- Maintaining an accurate log of all contacts by employees at the worksites (for which the ERO/Disciplinary Officer is responsible) regarding contacts about potential testimony and subpoenas the employee has received;
- Retaining adverse action documentation, including CDCR Form 403, in the Adverse Action File.

33030.5.5 Vertical Advocate

The Vertical Advocate shall be responsible for the following:

- Monitoring and coordinating the adverse action process for all designated cases, from the onset of an investigation;
- Calculating statute of limitations expiration dates;
- Consulting with and advising the Hiring Authority and ERO/Disciplinary Officer on all cases, as requested by the Hiring Authority;
- Providing legal consultation for all designated cases to the assigned investigator, including developing the investigative plan, preparation of investigative interviews, and attending investigative interviews as appropriate to assess witness demeanor and credibility;
- Providing legal consultation to the Hiring Authority on all designated cases and coordinating with the SAIG, for cases the BIR is monitoring, regarding application of the Disciplinary Matrix to determine the appropriate penalty;
- Drafting Notices of Adverse Action (in consultation with the ERO/Disciplinary Officer and the SAIG) for all designated cases;
- Participating in Executive Review, as necessary;
- Attending *Skelly* Hearings for all designated cases;
- Representing the Department for designated cases in disciplinary matters before the SPB;
- Drafting settlement agreements for all designated cases;
- Assisting the Hiring Authority and ERO/Disciplinary Officer in drafting settlement agreements and reviewing the form and substance of each proposed settlement agreement drafted by the Hiring Authority and/or the ERO/Disciplinary Officer, prior to the Hiring Authority entering into any settlement;
- Coordinating with the SAIG, for cases the BIR is monitoring, at each step of the investigative and disciplinary process;
- Coordinating with the Hiring Authority, SPB representatives, and other individuals and entities as appropriate;
- Maintaining accurate records of assignments and documenting in the legal database all communications with the Hiring Authority and SAIG regarding disciplinary penalties; the *Skelly* Hearing; the *Skelly* Officer's recommendation; the outcome of Executive Review; settlement agreements; SPB Hearings; and any appellate proceedings;
- Documenting in the legal page of the CMS all communications with the investigator, Hiring Authority, and SAIG regarding investigative reports and investigative findings.

33030.5.6 Office of Personnel Services, Human Resources

Personnel Services staff and/or local personnel staff shall be responsible for the following:

- Processing adverse actions as indicated by the Hiring Authority on the Notice of Adverse Action;
- Filing and retaining Final Notices of Adverse Action in employee official personnel files for three (3) years unless the retention period is reduced by the Hiring Authority after the *Skelly* Hearing or otherwise agreed to by stipulated settlement.

Office of Personnel Services, Employee Discipline Unit, staff shall be responsible for the following:

- Collecting and maintaining the official departmental copies of all adverse action documents separate and apart from those held in the Official Personnel files;
- Maintaining statistical information and generating reports on adverse actions using the Case Management System;
- Drafting adverse actions and representing the Department before the SPB for non-designated cases emanating from the Headquarters Offices and Divisions, Juvenile Justice Divisions, and all Parole Regional Offices.

33030.6 Managerial Employees

Supervisors or managers appointed after January 1, 1984, as a designated managerial employee, but who are not in a career executive category, are subject to the provisions in Government Code section 3513 et seq. (Ralph C. Dills Act). The managerial employee may be disciplined for any cause except for a cause constituting prohibited discrimination as found in Government Code sections 19700 through 19703.

33030.7 Peace Officer Procedural Bill of Rights

All employees designated by the Penal Code as peace officers, both probationary and permanent, are fully guaranteed their Peace Officer Procedural Bill of Rights (Government Code sections 3300 through 3311) during any adverse action procedure, including related interviews and investigations.

33030.8 Causes for Corrective Action

Not all inappropriate behavior will require the imposition of disciplinary action. In some cases, corrective action and documentation may be more appropriate and must generally be issued within thirty (30) calendar days of discovering inappropriate behavior or poor performance. [For use of force incidents, Letters of Instruction must generally be issued within thirty (30) days from when the Institution Executive Review Committee concludes its review of the incident.] The purpose of corrective action is to help an employee change problem behavior or performance before discipline is necessary and may be imposed for any employee conduct or performance that is correctable by means of counseling and/or training (up to and including a Letter of Instruction). Corrective action may precede adverse action or an adverse action penalty may include corrective action. For peace officers covered by the Bargaining Unit 6 Agreement, behaviors that resulted in corrective action may not be used as cause for adverse action but may be cited in an adverse action for subsequent violations to prove the employee knew about a statute, regulation, or procedure or to prove that the employee has engaged in a pattern of violating a statute, regulation, or procedure within the past year. Corrective actions may also be used to rebut the employee's claim that he/she did not know about a statute, regulation, or procedure and/or expectation.

33030.8.1 Types of Corrective Action

33030.8.1.1 In-Service Training (IST)

When IST is ordered, the supervisor or manager shall complete section one of the memorandum form "Order for Formal IST or Documentation of OJT." Orders for IST shall direct the employee to report to the IST Training Manager, Assistant IST Training Manager, or other departmental training officer for completion of specific IST by a specified date. When formal training is ordered, the employee is responsible to report to the appropriate Training Manager and complete the training prior to the due date set for the completion of the training. Orders for formal IST and completed IST documentation shall be filed in the employee's supervisory file.

33030.8.1.2 On the Job Training (OJT)

When OJT is ordered, the supervisor shall complete section two of the memorandum form "Order for Formal IST or Documentation of OJT" and shall complete the CDCR Form 844, Training Participation Sign-In Sheet. The employee shall be given the opportunity to sign the CDCR Form 844 to indicate his or her participation in discussion and acknowledge receiving and

understanding the training provided. Orders for OJT and completed OJT documentation shall be filed in the employee's supervisory file.

33030.8.1.3 Employee Counseling Record

The supervisor or manager shall meet with the employee and discuss his or her conduct or performance level and complete a CDC Form 1123, Employee Counseling Record. In the Action Plan section of the CDC Form 1123, the supervisor or manager shall indicate any training the supervisor or manager has provided to the employee or indicate training directed to the employee to attend, specifying the training the employee is required to complete and the length of time the employee is allowed to complete the training. The employee shall be given the opportunity to sign for a copy of the CDC Form 1123. Follow-up discussions with employees who receive a CDC Form 1123 shall occur and shall be documented and placed in the employee's supervisory file. The CDC Form 1123 shall be filed in the employee's supervisory file.

33030.8.1.4 Letters of Instruction

An LOI may not deprive employees of pay or benefits (e.g., removal from a position, loss of differential pay). The LOI shall be prepared on a memorandum and shall (1) state the expected performance standards to be met; (2) provide a plan to meet expected performance; and (3) indicate time frames to meet the expectation. The memorandum shall be as follows:

- Entitled "Letter of Instruction;"
- Clearly addressed to employee;
- Clearly state the nature and circumstances of the problem;
- Cite previous discussions with employee;
- Include an explanation of why the employee's conduct is considered inappropriate, and what conduct would have been appropriate;
- Clearly state exactly what standards of performance are expected from the employee;
- Include results of face-to-face discussion;
- Develop a plan and set a date, not to exceed one year, by which the employee is to meet the expected performance.

The LOI shall be signed by the supervisor and presented to the employee for his/her signature. A copy of the signed LOI shall be provided to the employee. The Hiring Authority shall sign the space "Approved for Placement in Personnel File." A copy of the LOI shall be forwarded to the ERO/Disciplinary Officer and to the local personnel office for placement in the employee's official personnel file and the employee's supervisory file.

Follow-up discussions with employees who receive an LOI shall occur and be documented and filed in the employee's supervisory file. [See *Otto v. Los Angeles Unified School District* (2001) 89 Cal. App. 4th 985]

33030.8.2 Initiating Corrective Action

The responsible supervisor/manager shall review the employee's supervisory file for documentation of any prior corrective actions for similar misconduct occurring within the past one (1) year. The one-year period runs from the date of issuance of the corrective action (e.g., LOI). Corrective actions that are beyond the one-year period shall not be considered in this review. If prior corrective actions exist, supervisors/managers shall review each corrective action to determine if referral for adverse action is more appropriate than issuance of another corrective action.

33030.8.3 Documentation Retention

- Orders for and documentation regarding completion of OJT and IST and CDC Form 1123 shall be retained in the employee supervisory file for one (1) year from date of issuance.
- LOIs shall be retained in the employee's personnel and supervisory files for one (1) year from the time management should reasonably have known of the incident resulting in the LOI or once all of the requirements in the LOI have been met, whichever is earlier.
- The Hiring Authority may set forth certain conditions of performance to be completed by the employee for a specified period of time prior to consideration of the early removal of the document.
- If an employee submits a rebuttal to an LOI, the rebuttal shall be retained with the LOI in the employee's personnel file or the supervisory file.

33030.9 Causes for Adverse Action

Pursuant to Government Code section 19572, each of the following constitutes cause for discipline of an employee, or of a person whose name appears on any employment list:

- (a) Fraud in securing appointment.

- (b) Incompetency.
- (c) Inefficiency.
- (d) Inexcusable neglect of duty.
- (e) Insubordination.
- (f) Dishonesty.
- (g) Drunkenness on duty.
- (h) Intemperance.
- (i) Addiction to the use of controlled substances.
- (j) Inexcusable absence without leave.
- (k) Conviction of a felony or conviction of a misdemeanor involving moral turpitude. A plea or verdict of guilty, or a conviction following a plea of nolo contendere, to a charge of a felony or any offense involving moral turpitude is deemed to be a conviction within the meaning of this section.
 - (l) Immorality.
 - (m) Discourteous treatment of the public or other employees.
 - (n) Improper political activity.
 - (o) Willful disobedience.
 - (p) Misuse of state property.
 - (q) Violation of this part or of a board rule.
 - (r) Violation of the prohibitions set forth in accordance with section 19990.
 - (s) Refusal to take and subscribe any oath or affirmation that is required by law in connection with the employment.
 - (t) Other failure of good behavior either during or outside of duty hours, which is of such a nature that it causes discredit to the appointing authority or the person's employment.
 - (u) Any negligence, recklessness, or intentional act that results in the death of a patient of a state hospital serving the mentally disabled or the developmentally disabled.
 - (v) The use during duty hours, for training or target practice, of any material that is not authorized for that use by the appointing power.
 - (w) Unlawful discrimination, including harassment, on any basis listed in subdivision (a) of section 12940, as those bases are defined in sections 12926 and 12926.1, except as otherwise provided in section 12940, against the public or other employees while acting in the capacity of a state employee.
 - (x) Unlawful retaliation against any other state officer or employee or member of the public who in good faith reports, discloses, divulges, or otherwise brings to the attention of, the Attorney General or any other appropriate authority, any facts or information relative to actual or suspected violation of any law of this state or the United States occurring on the job or directly related to the job.

33030.10 Employee Representation Rights

Employees with permanent or probationary status (regardless of time base) are entitled to representation at all stages of the adverse action process. This representation may be provided by the exclusive representative (union) for rank-and-file employees. For all non-represented employees, a personal advisor, attorney, or another state employee may attend the interview that may lead to adverse action. This is appropriate during *Skelly* or appeal hearings related to the adverse action. Employees who are possible subjects or witnesses in the investigation are excluded as employee representatives.

33030.10.1 Temporary Authorization (TAU) Appointments

Employees with TAU appointment status are not necessarily entitled to have a representative present during an interview which is preparatory to a separation from the TAU appointment. However, if a proposed action against an employee in this status is attributable to a specific incident that would have resulted in an adverse action, investigatory interviews shall be handled like adverse action cases and employee representation shall be allowed.

33030.10.2 State Time

Use of state time is restricted and shall be approved by the affected employee's supervisor.

- Absent an emergency, employees may request and shall be allowed reasonable state time by the supervisor to contact/secure a representative and to discuss the matter prior to any meeting/interview regarding an adverse action.
- The employee shall also be allowed reasonable state time to prepare for the interview/meeting with the representative.

- Job stewards shall be allowed reasonable time for the purpose of representing employees during working hours without loss of compensation. No other employee representative shall be allowed to confer with employees on state time.

33030.11 EAPT Processing of Cases

The AGC, or designee, shall assign designated cases to a Vertical Advocate immediately following the case being accepted for investigation by Central Intake. The AGC shall document the case assignment in the Case Management System (CMS) and the ProLaw Database (legal database). Following assignment by the AGC, the Vertical Advocate shall be responsible for the continual update of the CMS legal page until transfer of the investigation to the Hiring Authority. Upon transfer of the investigation to the Hiring Authority, the Vertical Advocate shall ensure that the case is entered into the legal database and shall be responsible for continual update in that database until closure of the case. The legal database shall cross-reference the investigation number in order to track the case through the CMS and the legal database.

As soon as operationally feasible, but no later than twenty-one (21) calendar days after the assignment of a case, the Vertical Advocate shall contact the assigned investigator for designated cases and the assigned SAIG, for cases the BIR is monitoring, to discuss the elements of a thorough investigation of the alleged misconduct. All contacts with the assigned investigator and the SAIG shall be documented by the Vertical Advocate on the CMS legal page or in the legal database.

33030.12 Statute of Limitations

As soon as operationally possible, but no later than twenty-one (21) calendar days following assignment of a case, the Vertical Advocate shall confirm in the CMS the date of the reported incident, the date of discovery, the statute of limitations expiration date, and any exceptions to the statute of limitations known at that time. The Vertical Advocate shall consult with the assigned investigator and the SAIG, for cases being monitored by the BIR, if the deadline for filing the adverse action should be modified. The factors to consider in making an assessment of timeliness are as follows:

33030.12.1 Peace Officers

According to Government Code section 3304 (d), the following applies:

Except as provided in this subdivision and subdivision (g), no punitive action, nor denial of promotion on grounds other than merit, shall be undertaken for any act, omission, or other allegation of misconduct if the investigation of the allegation is not completed within one year of the public agency's discovery by a person authorized to initiate an investigation of the allegation of an act, omission, or other misconduct. This one-year limitation period shall apply only if the act, omission, or other misconduct occurred on or after January 1, 1998. In the event that the public agency determines that discipline may be taken, it shall complete its investigation and notify the public safety officer of its proposed disciplinary action within that year, except in any of the following circumstances:

- (1) *If the act, omission, or other allegation of misconduct is also the subject of a criminal investigation or criminal prosecution, the time during which the criminal investigation or criminal prosecution is pending shall toll the one-year time period.*
- (2) *If the public safety officer waives the one-year time period in writing, the time period shall be tolled for the period of time specified in the written waiver.*
- (3) *If the investigation is a multijurisdictional investigation that requires a reasonable extension for coordination of the involved agencies.*
- (4) *If the investigation involves more than one employee and requires a reasonable extension.*
- (5) *If the investigation involves an employee who is incapacitated or otherwise unavailable.*
- (6) *If the investigation involves a matter in civil litigation where the public safety officer is named as a party defendant, the one-year time period shall be tolled while that civil action is pending.*
- (7) *If the investigation involves a matter in criminal litigation where the complainant is a criminal defendant, the one-year time period shall be tolled during the period of that defendant's criminal investigation and prosecution.*
- (8) *If the investigation involves an allegation of workers' compensation fraud on the part of the public safety officer.*

Government Code section 3304 (g) states the following:

- (g) *Notwithstanding the one-year time period specified in subdivision (d), an investigation may be reopened against a public safety officer if both of the following circumstances exist:*

- (1) *Significant new evidence has been discovered that is likely to affect the outcome of the investigation.*
- (2) *One of the following conditions exist:*
 - (A) *The evidence could not reasonably have been discovered in the normal course of investigation without resorting to extraordinary measures by the agency.*
 - (B) *The evidence resulted from the public safety officer's predisiplinary response or procedure.*

33030.12.2 Non-Peace Officer Employees

According to Government Code section 19635, the following applies:

No adverse action shall be valid against any state employee for any cause for discipline based on any civil service law of this state, unless notice of the adverse action is served within three years after the cause for discipline, upon which the notice is based, first arose. Adverse action based on fraud, embezzlement, or the falsification of records shall be valid, if notice of the adverse action is served within three years after the discovery of the fraud, embezzlement, or falsification.

33030.13 Investigation Review

Upon completion of the investigative report for designated cases, the investigator shall provide a copy of the investigative report and all supporting documentation to the Vertical Advocate, for designated cases, and the SAIG, for cases monitored by the BIR, for review. As soon as operationally possible, but no more than twenty-one (21) calendar days following receipt of the investigative report, the Vertical Advocate shall review the investigative report and supporting documentation and provide feedback to the assigned investigator. This feedback shall address the thoroughness and clarity of the report, shall provide recommendations regarding any Peace Officer Bill of Rights or union contract issues, and shall recommend additional investigation that may be necessary to complete the investigative report. The Vertical Advocate shall provide a written confirmation of these discussions (i.e. memorandum or e-mail) to the investigator, with a copy to the Hiring Authority and SAIG. The investigator shall forward a copy of the written confirmation of these discussions to his/her OIA case supervisor. The Vertical Advocate shall document all related communications in the legal page of the CMS.

Following completion of the review process above, the investigator shall provide the investigative report to the Hiring Authority. As soon as operationally possible, but no more than fourteen (14) calendar days following receipt of the final investigative report, the Hiring Authority shall review the investigative report and supporting documentation. The Hiring Authority shall consult with the Vertical Advocate, for all designated cases, and the SAIG, for all cases monitored by the BIR when reviewing the investigation and making investigative findings. The following shall be considered:

- Whether the investigation is sufficient;
- Whether the allegation(s) in the investigation are founded or not;
- Whether corrective or disciplinary action is supported by the facts;
- If disciplinary action is supported by the facts, what penalty is appropriate within the parameters of the Disciplinary Matrix;
- What causes for discipline under Government Code section 19572 are supported by the factual findings;
- What recommendations are made by the SAIG, for cases the BIR is monitoring.

The Vertical Advocate shall document all related communications in the legal page of the CMS including, specifically, his/her recommendations to the Hiring Authority regarding the investigative findings.

For investigations that are sufficient, the Hiring Authority shall indicate the findings on CDCR Form 402 for each allegation and shall indicate whether corrective or disciplinary action shall follow. The CDCR Form 402 shall be forwarded to the ERO/Disciplinary Officer. The ERO/Disciplinary Officer shall (1) record the findings in the CMS database, and either (2) initiate corrective or disciplinary action as directed by the Hiring Authority, for non-designated cases or (3) forward a copy of the CDCR Form 402 to the Vertical Advocate, for designated cases, to initiate disciplinary action. If there is significant disagreement regarding investigative findings on a designated case or a case monitored by the BIR, the CDCR Form 402 shall not be completed until Executive Review has concluded (Refer to section 33030.14 "Executive Review.")

For investigations that are insufficient, the Hiring Authority shall document requests for additional investigation on the CDCR Form 402 and shall forward the CDCR Form 402 to the ERO/Disciplinary Officer. The ERO/Disciplinary Officer shall retain the original CDCR Form 402 in the Adverse Action file and shall forward a copy of the CDCR Form 402 to the assigned investigator; the Central Intake Unit; the appropriate OIA regional office; the Vertical Advocate for designated cases; and SAIG for cases monitored by the BIR. The investigator shall provide to the Hiring Authority the requested information or complete additional investigations as soon as operationally possible.

33030.13.1 Investigative Findings

The findings of each allegation shall be determined by the Hiring Authority in consultation with the Vertical Advocate for designated cases and the SAIG for cases the BIR is monitoring. The findings and their explanations are as follows:

- **NO FINDING:** The complainant failed to disclose promised information to further the investigation; the investigation revealed that another agency was involved and the complainant has been referred to that agency; the complainant wishes to withdraw the complaint; the complainant refuses to cooperate with the investigation; or the complainant is no longer available for clarification of facts/issues.
- **NOT SUSTAINED:** The investigation failed to disclose a preponderance of evidence to prove or disprove the allegation made in the complaint.
- **UNFOUNDED:** The investigation conclusively proved that the act(s) alleged did not occur, or the act(s) may have, or in fact, occurred but the individual employee(s) named in the complaint(s) was not involved.
- **EXONERATED:** The facts, which provided the basis for the complaint or allegation, did in fact occur; however, the investigation revealed that the actions were justified, lawful, and proper.
- **SUSTAINED:** The investigation disclosed a preponderance of evidence to prove the allegation(s) made in the complaint.

33030.13.2 Investigative Closure Memorandum

Upon conclusion of each internal affairs investigation, the ERO/Disciplinary Officer shall transmit an "Internal Affairs Investigation Closure" memorandum to each subject of an investigation. The closure memorandum shall be signed by the Hiring Authority, shall outline the findings for each specific allegation, and shall be transmitted after the Hiring Authority completes CDCR Form 402 and prior to the imposition of disciplinary action.

The ERO/Disciplinary Officer shall forward the original closure memorandum to the subject of the investigation, forward copies to the Vertical Advocate for designated cases and the SAIG for cases monitored by the BIR, and shall retain a copy of the closure memorandum in the Adverse Action file.

33030.14 Executive Review

The purpose of Executive Review is to resolve significant disagreements between stakeholders about investigative findings, imposition of a penalty, or settlement agreements. Executive Review may be requested by the Hiring Authority, Vertical Advocate, AGC, SAIG, or CAIG and may be in person or via teleconference. Participants shall include, but are not limited to the following: the Hiring Authority; the Hiring Authority's supervisor, or designee; the AGC, or designee; and the CAIG, or designee.

In all cases, Executive Review shall be concluded prior to the statute of limitations expiration date. When Executive Review is initiated, completion of the CDCR Forms 402 or 403, service of the Final Notice of Adverse Action or *Skelly* Letter, and/or approval of the settlement agreement shall be delayed until the Executive Review is concluded and a determination has been made regarding investigative findings, imposition of a penalty, or details of the settlement agreement. If Executive Review is requested, the Hiring Authority shall immediately forward the CDCR Forms 402 and 403 (as applicable), the investigative report (if an investigation was conducted), and the proposed settlement agreement (if applicable) to his/her supervisor; the AGC; and the CAIG. The Hiring Authority's supervisor, or designee, shall schedule the Executive Review and shall notify the appropriate Chief Deputy Secretary, as necessary, following each Executive Review and provide all requested information. If a decision cannot be reached through Executive Review, the Hiring Authority's supervisor shall immediately elevate the matter to the appropriate Chief Deputy Secretary or higher for resolution.

33030.15 Types of Adverse Action Penalties

The five types of penalties for adverse actions are as follows:

33030.15.1 Letter of Reprimand

A letter of reprimand is the lowest level of penalty in the adverse action process and may be used when an action greater than corrective action is necessary. A letter of reprimand shall be retained as an official part of the employee's personnel record.

33030.15.2 Salary Reduction within the Salary Range of the Class

A salary reduction may be one (1) or more salary steps down to the minimum salary of the employee's class and is usually utilized in place of a suspension of an employee whose continued service on the job is necessary.

33030.15.3 Suspension without Pay

Suspension shall be specified in working days and may incur a penalty level from one (1) work day to several pay periods. The suspension is considered a temporary separation during which the employee does not work and salary is docked for the specified period of time. Any holiday falling within the time period is not counted as a working day. An employee's service credits and health benefits may be affected, depending upon the length of the suspension.

If Work Week Group E or SE employee receives a suspension penalty, it shall not be for a period of less than five (5) working days, unless the union contract provides otherwise.

33030.15.4 Demotion to a Lower Class

Demotions shall occur when continued service is of value, but the employee is not working at the expected level of the classification. A demotion shall be imposed only when the employee qualifies for and can be expected to do a satisfactory job at the lower level. Demotion may be to any salary in the next lower class that does not exceed the salary the employee last received; however, it is possible to demote to any lower class, within the promotional chain, at a lower than maximum salary. The Notice of Adverse Action must contain the exact salary for each class. A demotion may be permanent or temporary. If temporary, the employee automatically returns to the higher class on the date specified and at the salary step determined by the Hiring Authority. If permanent, the employee can compete for a promotion at a later date.

33030.15.5 Dismissal from State Service

Dismissal is appropriate for exceptionally serious misconduct, misconduct that is not correctible through discipline, or misconduct which immediately renders the individual unsuitable for continued employment. Dismissal may or may not be preceded by other forms of adverse action (i.e. progressive discipline). (See CCR, title 2, section 211 for additional information.)

33030.16 Employee Disciplinary Matrix Penalty Levels

<p>1 Official Reprimand</p>	<p>4 Salary Reduction 10% for 3-12 months <i>or</i> Suspension w/o pay for 6-24 work days</p>	<p>7 Suspension w/o pay for 49-60 work days</p>
<p>2 Suspension w/o pay for 1-2 work days</p>	<p>5 Salary Reduction 5% for 13-36 months <i>or</i> Suspension w/o pay for 13-36 work days</p>	<p>8 Demotion to a lower class</p>
<p>3 Salary Reduction 5% for 3-12 months <i>or</i> Suspension w/o pay for 3-12 work days</p>	<p>6 Salary Reduction 10% for 13-24 months <i>or</i> Suspension w/o pay for 26-48 work days</p>	<p>9 Dismissal</p>

Work Week Group E and SE employees shall not receive a suspension of less than five (5) work days, unless the union contract provides otherwise.

33030.17 Applying the Employee Disciplinary Matrix

Sufficient evidence establishing a preponderance is necessary before any disciplinary action can be taken. The Employee Disciplinary Matrix shall be the foundation for all disciplinary action considered and imposed by the Department and shall be utilized by the Hiring Authority to determine the penalty to impose for misconduct. No favor shall be afforded simply because of an employee's rank, and managers, supervisors, and sworn staff may be held to a higher standard of conduct. Off duty misconduct for non-

sworn staff requires a nexus between the employee’s behavior and the employment.

The Employee Disciplinary Matrix is based on the assumption that there is a single misdeed at issue and that the misdeed is the employee’s first adverse action. The Matrix provides a base penalty within a penalty range. The base penalty (represented with bold and underlined text) shall represent the starting point for an action. The Hiring Authority shall impose the base penalty unless aggravating or mitigating factors are found. The Hiring Authority or designee is not required to impose an identical penalty in each case because there are a variety of factors which may influence the Hiring Authority to take stronger action in one case than it does in another. The appropriate level of penalty within the specified range shall be based on the extent to which the employee’s conduct resulted in or, if repeated, is likely to result in harm to public service; the circumstances surrounding the misconduct; and the likelihood of recurrence.

A single misdeed may result in several different violations of the Government Code. It is the nature of the misconduct and aggravating or mitigating factors, as discussed below, which determine the final penalty included in the Notice of Adverse Action and not the number of Government Code sections cited in the Notice of Adverse Action.

Multiple acts of misconduct may occur during a continuing event, contiguous or related events, or may be entirely independent of each other. When multiple acts of misconduct occur, the Employee Disciplinary Matrix shall be used to determine which single act warrants the highest penalty. The penalty range for the most severe charge shall be utilized, and other acts of misconduct are considered as aggravating circumstances that may increase the penalty up to and including dismissal.

33030.18 Mitigating and Aggravating Factors

Aggravating and mitigating factors shall be considered and may increase or decrease the penalty within the penalty range. Aggravating or mitigating factors may not pertain directly to the circumstances of the misconduct but shall be relevant. Rarely will mitigating circumstances exonerate employees; however, mitigating circumstances may be used to reduce the penalty that might otherwise be imposed. Aggravating circumstances may increase a penalty to dismissal, for misconduct where dismissal is not included in the penalty range. Mitigating circumstances may decrease a penalty to corrective action for misconduct only when penalty level number 1 (Letter of Reprimand) is the expected penalty within the penalty range.

The following mitigating factors shall be considered when determining a penalty:

33030.19 Employee Disciplinary Matrix

The following list of charges and causes for disciplinary action is representative only and is not all inclusive.

- The misconduct was unintentional and not willful;
- The misconduct was not premeditated;
- The employee had a secondary and/or minor role in the misconduct;
- Based upon length of service, experience, policy directives, and the inherent nature of the act, the employee may not have reasonably understood the consequences of his/her actions;
- Commendations received by the employee;
- The employee was forthright and truthful during the investigation;
- The employee accepts responsibility for his/her actions;
- The employee is remorseful;
- The employee reported the harm caused and/or independently initiated steps to mitigate the harm caused in a timely manner.

The following aggravating factors shall be considered when determining a penalty:

- The misconduct was intentional and willful;
- The misconduct was premeditated;
- The employee had a primary and/or leadership role in the misconduct;
- Based upon length of service, experience, policy directives, inherent nature of the act, the employee knew or should have known that his/her actions were inappropriate;
- Serious consequences occurred or may have occurred from the misconduct;
- The misconduct was committed with malicious intent or for personal gain;
- The misconduct resulted in serious injury;
- More than one act of misconduct forms the basis for the disciplinary action being taken;
- The employee was evasive, dishonest, or intentionally misleading during the investigation;
- The employee does not accept responsibility for his/her actions;
- The employee did not report the harm caused and/or attempted to conceal the harm through action or inaction;
- The employee has sustained other related adverse action(s).

The base penalty is bolded and underlined.	
A. ATTENDANCE	PENALTY
1) Excessive tardiness. (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 d, Inexcusable Neglect of Duty)	<u>1</u> 2 3
2) Unauthorized absence. (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 j, Inexcusable Absence without Leave)	<u>1</u> 2 3
3) Abuse of sick leave. (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 f, Dishonesty)	<u>1</u> 2 3
B. CODE OF SILENCE OR RETALIATION	PENALTY
1) Intentional failure to report misconduct by another employee. (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 e, Insubordination) (Gov. Code § 19572 f, Dishonesty) (Gov. Code § 19572 o, Willful disobedience) (Gov. Code § 19572 t, Other Failure of Good Behavior)	4 <u>5</u> 6 7 8 9

B. CODE OF SILENCE OR RETALIATION (CONTINUED)	PENALTY
2) Intimidation, threats, or coercion that could interfere with an employee's right to report misconduct or an act of retaliation for reporting misconduct. (Gov. Code § 19572 m, Discourteous Treatment of Public/Other Employees) (Gov. Code § 19572 t, Other Failure of Good Behavior) (Gov. Code § 19572 x, Retaliation)	4 5 <u>6</u> 7 8 9
3) Making false or intentionally misleading statements during a criminal or administrative investigation or inquiry by any agency. (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 e, Insubordination) (Gov. Code § 19572 f, Dishonesty) (Gov. Code § 19572 o, Willful disobedience) (Gov. Code § 19572 t, Other Failure of Good Behavior)	7 8 <u>9</u>
4) Any independent act(s) which prevents or interferes with the reporting of misconduct. (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 e, Insubordination) (Gov. Code § 19572 f, Dishonesty) (Gov. Code § 19572 o, Willful disobedience) (Gov. Code § 19572 t, Other Failure of Good Behavior)	7 8 <u>9</u>
5) Any involvement in a coordinated effort with other employees to prohibit the reporting of misconduct. (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 e, Insubordination) (Gov. Code § 19572 f, Dishonesty) (Gov. Code § 19572 o, Willful disobedience) (Gov. Code § 19572 t, Other Failure of Good Behavior)	7 8 <u>9</u>
C. CONTROLLED SUBSTANCES	PENALTY
1) Use or possession of controlled substances on or off duty, unless medically prescribed. (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 i, Addiction to the Use of a Controlled Substance) (Gov. Code § 19572 r, Violation of Gov. Code § 19990) (Gov. Code § 19572 t, Other Failure of Good Behavior)	4 5 6 7 8 <u>9</u>
2) Sale of illegal drugs or narcotics. (Gov. Code § 19572 i, Addiction to the Use of a Controlled Substance) (Gov. Code § 19572 r, Violation of Gov. Code § 19990) (Gov. Code § 19572 t, Other Failure of Good Behavior)	<u>9</u>
D. CONDUCT or INEFFICIENCY	PENALTY
1) Discourtesy toward inmates, other employees, or the public. (Gov. Code § 19572 m, Discourteous Treatment of Public/Other Employees) (Gov. Code § 19572 t, Other Failure of Good Behavior)	<u>1</u> 2 3
2) Endangering self, fellow employees, inmates, or the public by violation of Departmental training, laws, or ordinances. (Gov. Code § 19572 b, Incompetency) (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 t, Other Failure of Good Behavior)	1 <u>2</u> 3
3) Leaving assigned post without supervisor approval. (Gov. Code § 19572 b, Incompetency) (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 t, Other Failure of Good Behavior) (Gov. Code § 19572 u, Negligence)	1 <u>2</u> 3
4) Distraction from duty. (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 o, Willful disobedience) (Gov. Code § 19572 t, Other Failure of Good Behavior)	<u>1</u> 2 3

D. CONDUCT or INEFFICIENCY (CONTINUED)	PENALTY
5) Participating in illegal gambling on duty. (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 t, Other Failure of Good Behavior)	1 <u>2</u> 3
6) Unauthorized use of position in the Department, uniform, or equipment on behalf of a political candidate or issue. (Gov. Code § 19572 n, Improper Political Activity) (Gov. Code § 19572 r, Violation of Gov. Code § 19990) (Gov. Code § 19572 t, Other Failure of Good Behavior)	1 <u>2</u> 3
7) Inappropriate involvement in a law enforcement matter. (Gov. Code § 19572 t, Other Failure of Good Behavior)	1 <u>2</u> 3
8) Improper access to confidential information. (Gov. Code § 19572 r, Violation of Gov. Code § 19990) (Gov. Code § 19572 t, Other Failure of Good Behavior)	1 <u>2</u> 3 4
9) Improper transmittal of confidential information with malicious intent or for personal gain. (Gov. Code § 19572 p, Misuse of State Property) (Gov. Code § 19572 r, Violation of Gov. Code § 19990) (Gov. Code § 19572 t, Other Failure of Good Behavior)	4 5 6 <u>7</u> 8 9
10) Disruptive, offensive, or vulgar conduct which causes embarrassment to the Department. (Gov. Code § 19572 m, Discourteous Treatment of Public/Other Employees) (Gov. Code § 19572 t, Other Failure of Good Behavior)	2 <u>3</u> 4
11) Asleep while on duty. (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 t, Other Failure of Good Behavior) (Gov. Code § 19572 u, Negligence)	2 <u>3</u> 4
12) Use or abuse of over-the-counter or prescription drugs while on duty which impairs an employee's ability to discharge his/her duties. (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 t, Other Failure of Good Behavior)	<u>3</u> 4 5 6
13) Intimidation, threats, or assault (without the intent to inflict serious injury) toward a member of the Department. (Gov. Code § 19572 m, Discourteous Treatment of Public/Other Employees) (Gov. Code § 19572 t, Other Failure of Good Behavior) (Gov. Code § 19572 w, Discrimination) (Gov. Code § 19572 x, Retaliation)	3 <u>4</u> 5 6
14) Battery against a member of the Department with the intent to inflict injury. (Gov. Code § 19572 m, Discourteous Treatment of Public/Other Employees) (Gov. Code § 19572 t, Other Failure of Good Behavior) (Gov. Code § 19572 w, Discrimination) (Gov. Code § 19572 x, Retaliation)	7 8 <u>9</u>
15) Making insults to anyone pertaining to race, color, national origin, ancestry, sex (i.e., gender), religion, marital status, age, disability, medical condition, pregnancy, sexual orientation, veteran status, or political affiliation. (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 m, Discourteous Treatment of Public/Other Employees) (Gov. Code § 19572 t, Other Failure of Good Behavior) (Gov. Code § 19572 w, Discrimination)	3 <u>4</u> 5 6
16) Harassing anyone based upon race, color, national origin, ancestry, sex (i.e., gender), religion, marital status, age, disability, medical condition, pregnancy, sexual orientation, veteran status, or political affiliation. (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 m, Discourteous Treatment of Public/Other Employees) (Gov. Code § 19572 t, Other Failure of Good Behavior) (Gov. Code § 19572 w, Discrimination)	4 5 <u>6</u> 7 8 9
17) Sexual misconduct involving staff, up to and including harassment. (Gov. Code § 19572 k, Conviction of a Felony or a Misdemeanor Involving Moral Turpitude) (Gov. Code § 19572 l, Immorality) (Gov. Code § 19572 m, Discourteous Treatment of Public/Other Employees) (Gov. Code § 19572 t, Other Failure of Good Behavior)	4 5 <u>6</u> 7 8 9

D. CONDUCT or INEFFICIENCY (CONTINUED)	PENALTY
18) Over-familiarity with an inmate(s)/parolee(s). (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 i, Immorality) (Gov. Code § 19572 t, Other Failure of Good Behavior)	4 <u>5</u> 6 7 8 9
19) Sexual misconduct with an inmate(s)/parolee(s). (Gov. Code § 19572 k, Conviction of a Felony or a Misdemeanor Involving Moral Turpitude) (Gov. Code § 19572 l, Immorality) (Gov. Code § 19572 m, Discourteous Treatment of Public/Other Employees) (Gov. Code § 19572 t, Other Failure of Good Behavior)	<u>9</u>
20) Solicitation of prostitution. (Gov. Code § 19572 i, Immorality) (Gov. Code § 19572 t, Other Failure of Good Behavior)	6 <u>7</u> 8 9
21) Drunkenness on duty. (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 g, Drunkenness on Duty) (Gov. Code § 19572 h, Intemperance) (Gov. Code § 19572 t, Other Failure of Good Behavior) CCR, title 15, §3410	4 5 <u>6</u> 7 8 9
22) Use of identification or position in the Department to solicit a gratuity or privilege. (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 r, Violation of Gov. Code § 19990) (Gov. Code § 19572 t, Other Failure of Good Behavior)	3 4 5 <u>6</u> 7
23) Operating the employee's personal vehicle, state vehicle, or state equipment for state business while under the influence of alcohol or illegal prescription drugs. (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 g, Drunkenness on Duty) (Gov. Code § 19572 p, Misuse of State Property) (Gov. Code § 19572 t, Other Failure of Good Behavior)	4 5 6 7 8 <u>9</u>
24) Bringing contraband into a security area for personal use. (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 f, Dishonesty) (Gov. Code § 19572 t, Other Failure of Good Behavior)	3 <u>4</u> 5 6
25) Bringing contraband into a security area for an inmate and/or for personal gain. (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 f, Dishonesty) (Gov. Code § 19572 t, Other Failure of Good Behavior)	7 8 <u>9</u>
26) Failure to observe and perform within the scope of training. (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 e, Insubordination) (Gov. Code § 19572 t, Other Failure of Good Behavior)	1 2 <u>3</u> 4 5 6
27) Intentional failure to intervene or attempt to stop misconduct by another employee. (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 e, Insubordination) (Gov. Code § 19572 f, Dishonesty) (Gov. Code § 19572 o, Willful disobedience) (Gov. Code § 19572 t, Other Failure of Good Behavior)	4 <u>5</u> 6 7 8 9
28) Felony criminal conviction. (Gov. Code § 19572 k, Conviction of a Felony or a Misdemeanor Involving Moral Turpitude) (Gov. Code § 19572 t, Other Failure of Good Behavior)	<u>9</u>
E. INTEGRITY	PENALTY
1) Petty theft. (Gov. Code § 19572 f, Dishonesty) (Gov. Code § 19572 k, Conviction of a Felony or a Misdemeanor Involving Moral Turpitude) (Gov. Code § 19572 p, Misuse of State Property) (Gov. Code § 19572 t, Other Failure of Good Behavior)	3 - 6 Penalty shall be relative to value and circumstances.

E. INTEGRITY (CONTINUED)	PENALTY
2) Grand theft. (Gov. Code § 19572 f, Dishonesty) (Gov. Code § 19572 k, Conviction of a Felony or a Misdemeanor Involving Moral Turpitude) (Gov. Code § 19572 p, Misuse of State Property) (Gov. Code § 19572 t, Other Failure of Good Behavior)	7 - 9 Penalty shall be relative to value and circumstances.
3) Making false or intentionally misleading statements to a supervisor. (Gov. Code § 19572 e, Insubordination) (Gov. Code § 19572 f, Dishonesty) (Gov. Code § 19572 t, Other Failure of Good Behavior)	4 5 <u>6</u> 7 8 9
4) Making false or intentionally misleading statements to a public safety officer on or off duty. (Gov. Code § 19572 e, Insubordination) (Gov. Code § 19572 f, Dishonesty) (Gov. Code § 19572 t, Other Failure of Good Behavior)	4 5 6 7 8 <u>9</u>
5) Any form of cheating on a civil service examination, including but not limited to unauthorized possession, use, or distribution of examination material or participating in an examination for another person. (Gov. Code § 19572 a, Fraud in Securing Appointment) (Gov. Code § 19572 f, Dishonesty) (Gov. Code § 19572 l, Immorality) (Gov. Code § 19572 t, Other Failure of Good Behavior)	6 7 8 <u>9</u>
6) Falsification of time records or financial record for fraudulent purposes. (Gov. Code § 19572 f, Dishonesty) (Gov. Code § 19572 t, Other Failure of Good Behavior)	6 7 8 <u>9</u>
7) Falsification or making intentionally misleading statements in official reports or records. (Gov. Code § 19572 f, Dishonesty) (Gov. Code § 19572 t, Other Failure of Good Behavior)	6 7 8 <u>9</u>
8) Falsification of application or omission of information for employment or promotion when it materially affects acceptance or rejection for employment or promotion. (Gov. Code § 19572 a, Fraud in Securing Appointment) (Gov. Code § 19572 f, Dishonesty) (Gov. Code § 19572 t, Other Failure of Good Behavior)	6 7 8 <u>9</u>
9) Falsification, alteration, or planting of evidence. (Gov. Code § 19572 f, Dishonesty) (Gov. Code § 19572 t, Other Failure of Good Behavior)	6 7 8 <u>9</u>
10) False testimony under oath. (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 f, Dishonesty) (Gov. Code § 19572 t, Other Failure of Good Behavior)	<u>9</u>
F. FAILURE TO COMPLY	PENALTY
1) Failure to report employment outside the Department. (Gov. Code § 19572 r, Violation of Gov. Code § 19990)	<u>1</u> 2 3
2) Failure to attend required training. (Gov. Code § 19572 e, Insubordination) (Gov. Code § 19572 o, Willful disobedience)	<u>1</u> 2 3
3) Accepting employment outside the Department which imposes a conflict of interest or having financial interest in any contract made by an employee in their official capacity or by any body or board of which the employee is a member. (Gov. Code § 1090) (Gov. Code § 19572 r, Violation of Gov. Code § 19990)	3 4 5 6
4) Failure to follow lawful instructions or refusal to act as lawfully directed by a supervisor or higher ranking official. (Gov. Code § 19572 b, Incompetency) (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 e, Insubordination) (Gov. Code § 19572 o, Willful disobedience)	3 4 5 6
5) Refusal to submit to or take any oath or affirmation required by law or ordinances. (Gov. Code § 19572 s, Refusal to Take an Oath)	<u>9</u>
6) Refusal to take a medical examination or to submit to chemical testing, as required by civil service rules, ordinances, or lawful order. (Gov. Code § 19572 e, Insubordination) (Gov. Code § 19572 o, Willful disobedience)	<u>9</u>

G. MISUSE OF STATE EQUIPMENT or PROPERTY	PENALTY
1) Unauthorized use of state telephones or photocopy equipment for personal use. (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 f, Dishonesty) (Gov. Code § 19572 p, Misuse of State Property) (Gov. Code § 19572 r, Violation of Gov. Code § 19990) (Gov. Code § 19572 t, Other Failure of Good Behavior)	<u>1</u> 2 3
2) Failure to carry required equipment. (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 t, Other Failure of Good Behavior)	<u>1</u> 2 3
3) Misuse or non-use of issued equipment. (Gov. Code § 19572 p, Misuse of State Property)	<u>1</u> 2 3
4) Misappropriation of state equipment, property, supplies, or funds. (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 f, Dishonesty) (Gov. Code § 19572 p, Misuse of State Property) (Gov. Code § 19572 t, Other Failure of Good Behavior)	1 – 9 Penalty shall be relative to value of misappropriation and circumstances..
H. OFF DUTY INCIDENTS	PENALTY
1) Failure to report off duty arrest to the Hiring Authority. (Gov. Code § 19572 t, Other Failure of Good Behavior)	1 <u>2</u> 3
2) Drunk or disorderly conduct in public. (Gov. Code § 19572 t, Other Failure of Good Behavior)	1 <u>2</u> 3
3) Off duty drunk driving. (Gov. Code § 19572 t, Other Failure of Good Behavior)	1 <u>2</u> 3
4) Off duty drunk driving with collision. (Gov. Code § 19572 h, Intemperance) (Gov. Code § 19572 t, Other Failure of Good Behavior)	4 <u>5</u> 6
5) Carrying an unauthorized weapon off duty. (Gov. Code § 19572 t, Other Failure of Good Behavior)	3 4 <u>5</u> 6
6) Domestic violence. (Gov. Code § 19572 k, Conviction of a Felony or a Misdemeanor Involving Moral Turpitude) (Gov. Code § 19572 l, Immorality) (Gov. Code § 19572 t, Other Failure of Good Behavior)	4 5 <u>6</u> 7 8 9
7) Intimidation, threats, or assault of a private citizen without intent to inflict serious injury. (Gov. Code § 19572 m, Discourteous Treatment of Public/Other Employees) (Gov. Code § 19572 t, Other Failure of Good Behavior)	3 <u>4</u> 5 6
8) Battery of a private citizen with intent to commit injury. (Gov. Code § 19572 m, Discourteous Treatment of Public/Other Employees) (Gov. Code § 19572 t, Other Failure of Good Behavior)	4 5 <u>6</u> 7 8 9
I. TRAFFIC RELATED INCIDENTS WHILE ON DUTY	PENALTY
1) Dangerous or negligent driving. (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 p, Misuse of State Property) (Gov. Code § 19572 t, Other Failure of Good Behavior)	1 <u>2</u> 3
2) Dangerous or negligent driving with collision. (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 p, Misuse of State Property) (Gov. Code § 19572 t, Other Failure of Good Behavior)	3 4 <u>5</u> 6
3) Dangerous or negligent driving with collision and injuries. (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 p, Misuse of State Property) (Gov. Code § 19572 t, Other Failure of Good Behavior)	4 5 6 <u>7</u> 8
J. USE of FORCE	PENALTY
1) Unreasonable use of force. (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 t, Other Failure of Good Behavior)	<u>1</u> 2 3

J. USE of FORCE (CONTINUED)	PENALTY
2) Significant unreasonable use of force likely to cause injury. (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 t, Other Failure of Good Behavior)	4 <u>5</u> 6
3) Significant unreasonable use of force likely to cause serious injury. (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 t, Other Failure of Good Behavior)	6 7 8 <u>9</u>
4) Employee’s failure to report his/her own use of force. (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 f, Dishonesty) (Gov. Code § 19572 t, Other Failure of Good Behavior)	2 3 <u>4</u> 5 6
5) Employee’s failure to report his/her own unreasonable use of force. (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 f, Dishonesty) (Gov. Code § 19572 t, Other Failure of Good Behavior)	4 5 6 7 8 <u>9</u>
6) Employee’s failure to report use of force witnessed. (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 f, Dishonesty) (Gov. Code § 19572 t, Other Failure of Good Behavior)	2 3 <u>4</u> 5 6
7) Employee’s failure to report unreasonable use of force witnessed. (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 f, Dishonesty) (Gov. Code § 19572 t, Other Failure of Good Behavior)	4 5 6 7 8 <u>9</u>
K. WEAPONS – LETHAL & LESS-LETHAL WHILE ON DUTY	PENALTY
1) Misuse or non-use of available weapon(s). (Gov. Code § 19572 b, Incompetency) (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 v, Inappropriate Target Practice)	1 <u>2</u> 3
2) Careless handling of duty weapon(s) resulting in discharge of weapon(s). (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 p, Misuse of State Property) (Gov. Code § 19572 t, Other Failure of Good Behavior)	1 <u>2</u> 3
3) Inappropriate display of weapon(s). (Gov. Code § 19572 t, Other Failure of Good Behavior)	4 <u>5</u> 6
4) Gross negligence in handling of duty weapon(s). (Gov. Code § 19572 c, Inefficiency) (Gov. Code § 19572 d, Inexcusable Neglect of Duty) (Gov. Code § 19572 p, Misuse of State Property) (Gov. Code § 19572 t, Other Failure of Good Behavior)	4 5 6 <u>7</u> 8 9

33030.20 Imposition of Penalty and Consultation

After determining the investigative findings, or in cases where direct adverse action is taken without an investigation, the Hiring Authority shall consult with the Vertical Advocate, for all designated cases, and the SAIG, for all cases monitored by the BIR when determining a penalty. The following shall be considered:

- The seriousness of the misconduct;
- Harm or potential harm to the public service;
- The circumstances surrounding the misconduct;
- The likelihood of recurrence;
- Whether or not progressive discipline has been taken in the past;
- Other mitigating or aggravating circumstances.

The Hiring Authority shall justify and document each penalty on the CDCR Form 403. The completed CDCR Form 403 shall be signed by the Hiring Authority at least fourteen (14) calendar days before service of the Notice of Adverse Action and shall be forwarded to the ERO/Disciplinary Officer. The ERO/Disciplinary Officer shall retain the original CDCR Form 403 in the Adverse Action file and shall forward a copy to the Vertical Advocate for designated cases and to the SAIG for cases monitored by the BIR. For designated cases, the Vertical Advocate shall provide to the Hiring Authority, SAIG, and AGC a written confirmation (i.e. memorandum or e-

mail) of penalty discussions with the SAIG. The Vertical Advocate shall also document all communications related to penalty imposition in the legal database.

For all cases for which the penalty is dismissal, the ERO/Disciplinary Officer or Vertical Advocate shall provide to the AGC and the Hiring Authority shall provide to his/her immediate supervisor the following: written notification (i.e. memorandum or e-mail) regarding the proposed penalty; a copy of the CDCR Form 403; and any other requested documentation. The Hiring Authority shall delay service of the Final Notice of Adverse Action for three (3) business days following transmittal of the written notification, so there is time for Executive Review to be requested. At this time, the AGC, or designee, shall make a determination whether the non-designated dismissal case will be assigned to a Vertical Advocate for prosecution before the SPB. This determination shall be based upon factors including the complexity of the case and whether the actual behavior prior to the investigation warrants a dismissal. The AGC shall notify the Vertical Advocate and the Hiring Authority of the case assignment and the reasons for the determination.

33030.21 Setting the Effective Date of the Action

After consulting with the employee's personnel/payroll office, the Hiring Authority shall determine the effective date(s) of the adverse action after allowance for the *Skelly* period [minimum of five (5) working days or twenty (20) calendar days for managers]. For cases the BIR is monitoring, the effective date shall be at least twenty-one (21) calendar days following the

date of service of the Notice of Adverse Action. Consideration shall be given to the following:

- Suspensions shall be computed on a 24-hour work day basis, excluding legal holidays and regular days off. Holidays are not considered working days for suspension. There is no pay for a holiday occurring during a period of suspension. Holidays occurring during a period of suspension in effect increase the penalty by one day and such scheduling shall be avoided whenever possible. (Example: Four working days suspension for the period of July 1, ____, 0800 hours, through July 6, ____, 0759 hours; employee loses five (5) days pay).
- Time absent on suspension may delay the employee's next merit salary adjustment and may affect the earnings of vacation and sick leave credits (refer to DOM or a personnel specialist).
- In computing reductions in salary, the effective date of reduction shall coincide with the beginning of a pay period and amounts shall coincide with the existing salary range.
- Effective dates for all actions involving pay issues shall be coordinated with the employee's personnel/payroll office to avoid overpayment situations.
- The effective date of the adverse action may only be modified if the Hiring Authority serves to the affected employee a written amendment to the Notice of Adverse Action.

33030.22 Adverse Action Documentation

Adverse action documentation shall be completed, in all cases, prior to the statute of limitations expiration date. The Vertical Advocate shall monitor due dates and provide legal advice to the Hiring Authority and the ERO/Disciplinary Officer for all cases. The Vertical Advocate shall draft the Notice of Adverse Action for all designated cases and shall forward a draft Notice of Adverse Action to the SAIG for cases monitored by the BIR. For all other cases, the Vertical Advocate shall consult with the ERO/Disciplinary Officer upon request regarding other Notices of Adverse Action drafted by the ERO/Disciplinary Officer.

When drafting a Notice of Adverse Action the ERO/Disciplinary Officer, in consultation with the Vertical Advocate, shall ensure the following:

1. Each cause(s) for discipline supported by the facts is included.
2. At least one Government Code section is cited as a cause for each act of misconduct.
3. All the facts in support of the causes for discipline are included.
4. All facts fall within the statute of limitations.
5. All facts are alleged with sufficient specificity to meet the requirements of SPB Precedential Decision No. 91-04, In re: Korman.
6. When required under the Bodiford Settlement, the employee was served with a Preliminary Notice of Adverse Action and all supporting documentation, at least 24- hours prior to service of the Notice of Adverse Action.
7. If the subject employee is a peace officer, he or she is being served with the Notice of Adverse Action within thirty (30) calendar days of the decision to take disciplinary action.
8. The employee's rights and entitlements are included, as follows:
 - a. *Skelly* Rights:
 - i. Notice of the proposed action.
 - ii. Notice of the reasons for the proposed action in writing at least five (5) working days before the adverse action becomes effective [twenty (20) calendar days for managers].
 - iii. A copy of the charges on which the action is based in sufficient detail for the employee to prepare a defense.
 - iv. A copy of all materials upon which the action is based, including any documents, photographs, tape recordings, video tapes, complete investigative reports (e.g., reports and other materials that the Hiring Authority relied upon in forming the decision to take the action).
 - v. The right to respond to a manager who was not involved in the investigation of the action currently being taken against the employee.
 - vi. The right to be represented when responding to the Hiring Authority imposing the discipline.
 - b. Right to appeal to the SPB.
9. The notice includes other appropriate considerations, such as:
 - a. Training received;
 - b. Prior counseling received;
 - c. Prior discipline;
 - d. A statement that peace officers are held to a higher standard with regard to honesty and integrity and that his or her actions have not met this standard.

33030.23 Adverse Action Documentation - Summary of Adverse Action

The Summary of Adverse Action shall be completed for non-designated cases by the ERO/Disciplinary Officer as follows:

1. Work History: A biographical summary of the employee's employment history:
 - a. Location and dates of assignment.
 - b. Prior adverse actions with causes and dates listed.
 - c. Special commendations (restricted to departmental commendations or commendations from other agencies). Do not include routine letters of thanks or routine training certificates of accomplishment.
 - d. Incident reports-commendable and censurable. (Include any current Letters of Instruction.)
2. Chronological Summary of the Investigation: Write the summary as briefly and concisely as possible. Supporting reports, documents, and complete statements should be included as exhibits and referenced in the chronological summary.
 - a. The summary shall be in chronological sequence based on the steps taken by the investigator beginning with receipt of the information that precipitated the investigation.
 - b. Briefly describe each act of misconduct that supports the allegation.
 - c. Obtain dates, times, and the names of supervisors conducting corrective interviews. Copies or corrective memorandums, incident reports, etc., shall be included as exhibits.
3. Summary of Witnesses Statements: Prepare a list of witnesses as follows:
 - a. Include the witness' full name and, if the witness is a State employee, his/her civil service classification title.
 - b. Below each name, identify the facts of the case for which the witness shall testify.
 - c. Briefly summarize witness' statements in the sequence they were developed. The summary should contain all pertinent points contained in the statement.
4. Attachments: All documents gathered during the investigation including signed statements, transcripts, vouchers, receipts, performance reports, incident reports, photographs, and CDC Form 602 (Inmate/Parolee Appeal Form).

33030.23.1 Documentation Format

Clerical support staff, under the supervision of the ERO/Disciplinary Officer, shall compile adverse action documentation as follows:

1. Type the Preliminary Notice of Action on the departmental form memorandum.
2. Type Notice of Adverse Action on Department letterhead as follows:
 - a. The type of notice shall appear in capital letters and shall be centered four spaces below the letterhead.
 - b. The employee's name, civil service classification, worksite name and location (including institution or parole region, if applicable) are typed in block style at the left-hand margin, four spaces below the title. A Confidential Department Employee Information Sheet shall be attached and contain current home address and social security number.
 - c. Divide the body of the formal notice into sections indicated by Roman numerals as identified below:
 - I. Statement of the Nature of the Adverse Action.
 - II. Effective Date of This Adverse Action.
 - III. Statement of Causes.
 - IV. Statement of Facts.
 - V. Notice and Progressive Discipline.
 - VI. Statement as to Right to Answer and Appeal.
 - VII. Statement as to Right to Respond to Your Appointing Power.

3. Include notations explaining the meaning of abbreviations used in supporting documentation and, in the signature block of the notice, the typed name, work location, business address and telephone number of the Hiring Authority.

33030.23.2 Declaration of Service

The ERO/Disciplinary Officer, or his/her assistant, shall be responsible for completion of Declaration of Service for the following documents provided to an employee either by mail or in person:

- Preliminary Notice of Adverse Action;
- Notice of Adverse Action;
- Notice of Automatic Resignation (AWOL separation);
- Response to resignation;
- Stipulation for resignation in lieu of adverse action;
- "Notice of Leave of Absence Pending Investigation (ATO)";
- Notice of Rejection During Probationary Period.

Notices of Adverse Action and Preliminary Notices of Adverse Action shall be sent via United States Postal Service (USPS) as registered mail with return receipt requested. Clerical support staff shall coordinate the adverse action documentation as follows:

1. Address an envelope to the employee's current home address and type in capital letters in the lower left corner of the envelope the words, "Return Receipt Requested."
2. Attach to each notice a bar-coded red Label 200 (available for registered mail from an USPS office). The label shall be placed above the delivery address and to the right of the return address (or to the left of the delivery address on parcels).
3. Type the information required on the PS Form 3811, Domestic Return Receipt, and affix the PS Form 3811 to the back of the sealed envelope/parcel. The name and address of the Hiring Authority is typed on the front in the space under "Return to."
4. When returned, the PS Form 3811 shall be filed with the copy of the Notice of Adverse Action or Preliminary Notice of Adverse Action.

33030.24 Skelly Hearing Process

All department employees shall be offered a *Skelly* Hearing prior to imposition of any adverse action, including disciplinary transfers, so the affected employee may respond to the charges contained in the Notice of Adverse Action. Employees waive his/her right to a *Skelly* Hearing by not formally requesting a *Skelly* Hearing.

33030.24.1 Notice and Request for Skelly Hearing

Notice of the right to a *Skelly* Hearing prior to the effective date of the action shall be provided at least five (5) working days prior to the effective date of the action and twenty (20) calendar days for managers that are being disciplined (pursuant to Government Code section 19590). This period of time is known as the "*Skelly* Period." If any provision of the policy is inconsistent with a bargaining unit Memorandum of Understanding (MOU), the MOU prevails.

33030.24.2 Skelly Hearing

The *Skelly* Hearing is attended by the following: *Skelly* Officer; affected employee; employee's representative if the employee requests a representative; the ERO/Disciplinary Officer, or other designee representing the Hiring Authority; the ERO/Disciplinary Officer's assistant or other person designated to take notes; the Vertical Advocate for all designated cases; and the SAIG for cases the BIR is monitoring.

The ERO/Disciplinary Officer shall coordinate all *Skelly* Hearings and shall ensure the comprehensive taking of minutes. The minutes from each *Skelly* Hearing shall remain in the ERO/Disciplinary Officer's file. Tape recordings of the *Skelly* Hearing shall not be permitted.

Affected employees who request a *Skelly* Hearing shall be notified of the identity of the *Skelly* Officer. The *Skelly* Officer shall review the Notice of Adverse Action or other charging document and all supporting materials prior to the *Skelly* Hearing. The *Skelly* Officer shall listen to and review the affected employee's side of the story and shall allow the affected employee the opportunity to present arguments that the adverse action should not be sustained or should be reduced in some way.

If an affected employee chooses to waive the right to a noninvolved manager acting as the *Skelly* Officer and requests that the Hiring Authority that took the action act as the *Skelly* Officer, the employee may do so within the *Skelly* period by signing a CDCR Form 3028, Waiver of Non-Involved *Skelly* Officer.

When reviewing the imposition of discipline, the *Skelly* Officer shall consider whether the action is as follows:

- Timely;
- Based on the proper statutory cause;
- Supported by the facts.

The affected employee shall be allowed representation during the *Skelly* Hearing. The affected employee and/or the employee's representative may present to the *Skelly* Officer either in writing or orally or both. The employee also may submit affidavits. However, the *Skelly* Officer has the right to restrict any oral presentation that is argumentative or repetitive.

The *Skelly* Hearing is not an evidentiary proceeding; therefore, the affected employee does not have the right to confront the Department's witnesses or call witnesses on the employee's behalf. The *Skelly* Officer may ask clarifying questions, as are appropriate. The *Skelly* Officer is not subject to examination by either the affected employee or the employee's representative, and is not required to provide any response to the information submitted by the affected employee or the employee's representative except to acknowledge receipt.

The Vertical Advocate, unless precluded by a scheduling conflict, shall attend the *Skelly* Hearing for all designated cases. During the *Skelly* Hearing, the Vertical Advocate shall observe the proceedings but not give legal advice to the *Skelly* Officer. The ERO/Disciplinary Officer shall be available to provide technical assistance to the *Skelly* Officer, if needed. The SAIG may also attend the *Skelly* Hearing for cases that the BIR is monitoring. The *Skelly* Officer shall remain objective and make an independent recommendation to the Hiring Authority. The Vertical Advocate shall remain available to participate in any settlement discussions as the department's representative. The Vertical Advocate shall consult with the SAIG present at the *Skelly* Hearing, and provide legal advice to the Hiring Authority regarding any new information and legal arguments that emanated from the *Skelly* process.

33030.24.3 Skelly Officer's Recommendations

The affected employee shall not be informed of the *Skelly* Officer's recommendation to the Hiring Authority. The affected employee shall be advised at the *Skelly* Hearing that the final recommendation will not be announced at the *Skelly* Hearing but shall be conveyed to the Hiring Authority. The *Skelly* Officer's recommendation shall be conveyed to the Hiring Authority as soon as possible but no more than two (2) business days following the *Skelly* Hearing.

The *Skelly* Officer may make one of the following recommendations to the Hiring Authority:

- The action should proceed without modification;
- The action should be amended, modified, or reduced;
- The action should be withdrawn in its entirety.

After the initial *Skelly* Hearing and before making one of the above recommendations, the *Skelly* Officer may also request one/both of the following from the Hiring Authority:

- A response from the Hiring Authority with regard to any issue raised by the employee;
- That additional investigation be conducted.

If the *Skelly* Officer makes a recommendation other than that the action proceed without modification, the *Skelly* Officer must clearly state in writing each mitigating or aggravating fact or factor that the *Skelly* Officer considered relevant to his/her decision. The *Skelly* Officer's recommendation should be based on the employee's/representative's presentation and response to the charges, and the Hiring Authority's response, if any.

The affected employee will be advised if the Hiring Authority undertakes further investigation at the request of the *Skelly* Officer. If the *Skelly* Officer requests a response from the Hiring Authority and/or additional investigation, the Hiring Authority shall make every effort to complete any further investigation and to respond to the *Skelly* Officer within five (5) business days. The *Skelly* Hearing will not be considered concluded until the response from the Hiring Authority and/or additional investigation is provided to the *Skelly* Officer. The effective date of the adverse action originally served shall not change unless the Hiring Authority serves a written amendment to the Notice of Adverse Action.

33030.24.4 Settlement Discussions at the Skelly Hearing

During the *Skelly* Hearing, the affected employee may discuss his/her willingness to accept some discipline or other action at a level different than that imposed by the Hiring Authority or may communicate his/her

willingness to resolve the adverse action directly with the Hiring Authority. The *Skelly* Officer shall not discuss these matters with the affected employee. Instead, the *Skelly* Officer shall excuse him/herself or shall suggest that the affected employee, the employee's representative, and the Department's representative(s) privately discuss the possibility of settlement. These discussions shall not be used as evidence by either side if the matter does not end in settlement.

When a *Skelly* Hearing is suspended pending settlement negotiations, the parties should complete and sign the CDCR Form 3029, Suspension of *Skelly* Hearing. If discussions result in a settlement and the affected employee waives any right to appeal the matter further (including to the SPB and Superior Court), no further *Skelly* Hearing is required and the *Skelly* Officer's obligations are concluded. If the discussions do not result in settlement, the *Skelly* Officer shall return and complete the *Skelly* Hearing.

33030.25 Hiring Authority's Final Decision Regarding Imposition of Penalty

If the Hiring Authority proposes any post-*Skelly* penalty modification for a designated case, the Hiring Authority shall provide to the Vertical Advocate, SAIG, and AGC the following: (1) a written confirmation of penalty discussions (i.e. memorandum or e-mail) with the SAIG, including the Hiring Authority's proposed penalty modification and (2) a copy of the *Skelly* Officer's written recommendation. The Hiring Authority shall delay service of the *Skelly* Letter for three (3) business days following transmittal of the written notification, so there is time for Executive Review to be requested. The Vertical Advocate shall document all communications related to penalty imposition in the legal database.

For a post-*Skelly* action to completely withdraw any penalty or to modify any dismissal penalty, the Vertical Advocate shall provide to the AGC and the Hiring Authority shall provide to his/her immediate supervisor the following: written notification (i.e. memorandum or e-mail) regarding the proposed penalty; a copy of the CDCR Form 403; and any other requested documentation.

Unless further investigation is needed or Executive Review is requested, the *Skelly* Letter indicating the final decision of the Hiring Authority regarding disciplinary penalty shall be served to the affected employee within five (5) working days of the Hiring Authority's receipt of the *Skelly* Officer's recommendation.

33030.26 Settlement Agreements

The Hiring Authority or designee has the authority to settle all cases. However, prior to approving a settlement of a designated case the Hiring Authority shall consult with the assigned Vertical Advocate and the SAIG, for cases the BIR is monitoring, regarding both the form and substance of settlement agreements. If a settlement agreement is proposed during a hearing, the terms of the settlement shall be approved by the Hiring Authority, following consultation with the Vertical Advocate for designated cases and the SAIG for cases the BIR is monitoring. The Vertical Advocate also shall consult with and obtain approval from his/her EAPT supervisor to settle any case. If the Vertical Advocate has obtained pre-hearing approval of settlement parameters, and the proposed settlement is within those parameters, the Vertical Advocate does not need to contact a supervisor for settlement authority at the time of the hearing.

The Vertical Advocate shall draft settlement agreements for all designated cases and cases assigned by the AGC and shall assist the Hiring Authority and ERO/Disciplinary Officer with drafting settlement agreements when requested. Settlement agreements may also be prepared by the employee's representative, with the approval and assistance of the Vertical Advocate in designated cases. All settlement agreements signed by CDCR representatives shall include the relevant clauses set forth in section 33030.26.2 below and require signature approval of all parties concerned.

The Vertical Advocate shall have a proactive role during settlement negotiations, shall review each term of a proposed settlement, and shall be available to advise the Hiring Authority on the appropriateness of all settlement agreements. Terms that are contrary to accepted Department policies and procedures shall not be incorporated into any settlement agreement. The Vertical Advocate shall research the existence of any other pending cases that involve the appellant (e.g., workers' compensation claims, civil lawsuits, whistleblower protection actions) and shall recommend global settlement of any or all cases as appropriate. The Vertical Advocate shall document all communications related to settlement agreements/penalty imposition in the legal database.

If the Hiring Authority proposes a settlement agreement for a designated case, or a case the BIR is monitoring, that includes withdrawal of any penalty or modification of any dismissal, the Hiring Authority shall provide to the

Vertical Advocate, his/her immediate supervisor, the AGC, and the SAIG the following: written notification (i.e. memorandum or e-mail) regarding the proposed settlement; a copy of the CDCR Form 403; a copy of the proposed settlement; and any other requested documentation. Approval of the settlement agreement by the Hiring Authority shall be delayed for three (3) business days following transmittal of the notification, so that there is time for Executive Review to occur.

33030.26.1 Factors to Consider Prior to Agreeing to Settle

When a Hiring Authority considers whether or not settlement is warranted, the following factors shall be considered:

- The gravity of the conduct that brought about disciplinary action;
- The risk of harm to the public service if such misconduct recurs;
- Whether any court orders or corrective action plans have an impact on the decision to settle the disciplinary action;
- Whether, in accordance with the principle of progressive discipline, the settlement continues to have the effect of preventing future misconduct;
- Whether mitigating factors or other evidence, including evidence of remorse, were already considered at the *Skelly* Hearing, or as part of the underlying investigation;
- The length of the State service of the employee;
- Whether or not the employee has a record of prior discipline;
- Whether conditions can be obtained through settlement (i.e., drug and alcohol testing and counseling, anger management counseling, etc.) that cannot be obtained solely through continued prosecution of the adverse action;
- Flaws and risks in the case (including evidentiary problems, problems with witness availability, questions of law, etc.) not considered or known at the time of the preparation of the adverse action, or which have been exacerbated since the filing of the Notice of Adverse Action;
- The finality that settlement brings to a case.

33030.26.2 Essential Settlement Language

In addition to a recitation of the unique terms for any particular agreement, the settlement agreement documentation shall include the following key clauses:

Standard clauses:

APPELLANT, by his/her signature on this document, agrees to withdraw his/her Appeal to the NOTICE OF ADVERSE ACTION effective [insert date] and to waive any right he/she may have to appeal the NOTICE OF ADVERSE ACTION either before the State Personnel Board or any court of law which might have jurisdiction over the matter. Specifically, APPELLANT waives any rights he/she may have as set forth in sections "[insert number]" and "[insert number]" of the NOTICE OF ADVERSE ACTION; and, Code of Civil Procedure, Part 3, title 1, section 1067 through 1110 b, inclusive.

APPELLANT, by his/her signature on this document, and in exchange for such consideration as is set forth in this STIPULATION AND RELEASE, releases, acquits and forever discharges the State of California, the California Department of Corrections and Rehabilitation, and its agents, representatives, employees, successors and assigns, of and from any and all demands, actions, causes of action, claims of any kind or nature whatsoever, known and unknown, anticipated or unanticipated, past or present, and any claim under state or federal law including, but not limited to, claims under the Fair Employment and Housing Act, Title VII of the 1964 Civil Rights Act, and/or the Age Discrimination in Employment Act, which may exist as of the date hereof in connection with or arising out of the actions taken by the Department regarding this NOTICE OF ADVERSE ACTION.

APPELLANT is familiar with and has read the provisions of California Civil Code section 1542, and expressly waives to the fullest extent of the law any and all rights he/she may otherwise have under the terms of that Code section which reads as follows:

"A general release does not extend to claims which the creditor does not know of or suspect to exist in his favor at the time of executing the release, which if known by him must have materially affected his settlement with the debtor."

APPELLANT executes this release without reliance upon any statement or representation by the DEPARTMENT, or its representatives except as set forth in this document. APPELLANT is of legal age and is legally competent to execute this release. APPELLANT accepts fully the responsibility therefore, and executes this release after having read

the STIPULATION AND RELEASE. After having been advised and having the opportunity to discuss it thoroughly with APPELLANT'S representative, [insert name], APPELLANT understands its provisions and enters into this STIPULATION AND RELEASE voluntarily.

This STIPULATION AND RELEASE is freely and voluntarily entered into, and APPELLANT hereby authorizes and orders his/her representatives of record to withdraw his/her appeal of the NOTICE OF ADVERSE ACTION, effective [insert date], currently pending before the State Personnel Board (Case No. [insert number].), as agreed in paragraph "(insert paragraph number)" of STIPULATION AND RELEASE.

If the Appellant is age forty years or older:

APPELLANT represents that he/she has been notified that he/she has the right to consider this STIPULATION AND RELEASE for at least twenty-one (21) calendar days before its execution. APPELLANT expressly waives this right.

APPELLANT shall have the right to revoke this STIPULATION AND RELEASE for seven (7) calendar days after its execution, and understands that this STIPULATION AND RELEASE does not become effective or enforceable until that revocation period has expired.

If an agreement includes a removal of an action at a specified time in the future:

Even though RESPONDENT agrees to remove the adverse personnel action from APPELLANT'S personnel file in accordance with the terms and conditions set forth in paragraph [insert number] of this agreement, APPELLANT is aware and understands that RESPONDENT can, at its option, use this adverse action for purposes of progressive discipline if APPELLANT receives an adverse action in the future.

If the Appellant has agreed to resign:

On [insert date], APPELLANT agrees that he/she will be deemed to have resigned. This resignation is irrevocable and is not contingent on the action of any other State agency, or in the future. Appellant further agrees, as part of the consideration and inducement for execution of the STIPULATION AND RELEASE, to never apply for or accept employment with the California Department of Corrections and Rehabilitation (CDCR), or any entity providing services to inmates or wards within the CDCR. If the Department inadvertently offers appellant a position, appellant breaches this agreement by accepting a position with the Department. APPELLANT shall be terminated at such time as is convenient to the Department and excluded from all institutions, and APPELLANT hereby waives any right APPELLANT may have to appeal that termination and/or exclusion in any forum.

33030.26.3 Documenting the Settlement Process

When a settlement is read into the record at a hearing, the above required language shall be read into the record accurately and shall include appropriate modifications as specified in the settlement agreement. The Vertical Advocate or ERO/Disciplinary Officer shall indicate on the record the names of the representatives who have agreed to this settlement.

Anytime a settlement agreement is reached, the Vertical Advocate or the ERO/Disciplinary Officer shall complete a CDC Form 3021, SPB Case Settlement Report, and shall forward the CDC Form 3021 to the AGC and to the SAIG for all cases monitored by the BIR. The CDC Form 3021 shall be utilized for audit purposes. The name of the manager providing settlement authority shall be reported under the "Name of Final Decision Maker" heading of the CDC Form 3021.

33030.27 Use of ATO

An employee shall only be placed on ATO as follows:

- He/she has been charged with a felony;
- He/she is suspected of smuggling contraband;
- He/she has shown unacceptable familiarity with inmates or parolees;
- He/she has seriously jeopardized the security of the institution;
- He/she has committed any other serious infraction of the CCR;
- The proposed discipline is dismissal.

Use of ATO should be considered when the employee's continued presence at the work site will adversely affect the security or management of the facility. However, when possible, an alternative assignment should be considered rather than placement on ATO.

33030.27.1 Request for ATO

Revised July 9, 2013

The Hiring Authority shall request to place an employee on ATO as follows:

- All requests for placing an employee on ATO shall be approved through the Hiring Authority's supervisor, by telephone or in person.
- Initial approval for ATO by the Hiring Authority's supervisor shall be granted for a period not to exceed five (5) working days.
- The requesting unit shall notify the Office of Legal Affairs (OLA), Employment Advocacy and Prosecution Team (EAPT) immediately and the ERO/Disciplinary Officer shall initiate a written request.

In order to place an employee on ATO, the Hiring Authority shall provide notification of ATO pending investigation to the affected employee.

The Hiring Authority shall contact his/her supervisor prior to the employee's fifth (5th) working day on ATO to request to continue an employee on ATO beyond five (5) working days. For requests to continue an employee on ATO beyond ten (10) working days, the Hiring Authority shall contact his/her supervisor prior to the employee's tenth (10th) working day on ATO. If the Hiring Authority's supervisor approved the request to continue an employee on ATO beyond ten (10) working days, the Hiring Authority's supervisor shall notify the appropriate Director that an employee is to be continued on ATO beyond ten (10) working days.

If it is determined that an employee should be continued on ATO beyond thirty (30) working days, the Director shall notify the appropriate Undersecretary prior to the employee's twenty-fifth (25th) business day on ATO. The Director shall instruct the OLA, EAPT, to request approval from the California Department of Human Resources (CalHR) in writing, prior to the twenty-fifth (25th) working day.

33030.27.2 Calculation of ATO Period

The ATO period shall commence when the Hiring Authority has obtained approval from his/her supervisor, and the employee has been effectively notified of his/her placement on ATO status. If an employee on ATO is to return to work, he/she shall be contacted and ordered to do so. There should be no confusion regarding either the expectation that the employee return to work or the reporting date and time. The Hiring Authority shall confirm the order in writing.

33030.27.3 ATO Notices and Employee Responsibilities

When placed on ATO, an employee shall be given a written notice that contains the following:

- The employee is still an employee of the Department and shall be available during the normal business hours of the Department (i.e., Monday through Friday, 8:00 a.m. 12:00 p.m. and 1:00 p.m. to 5:00 p.m.). The employee's lunch hour shall be from 12:00 p.m. to 1:00 p.m. Any state holidays observed during the work week shall be exempt.
- The employee shall be available by telephone.
- The employee may leave the immediate area to complete necessary errands (i.e., medical appointments or other necessary business that normally can only be completed during the business day). However, the employee must respond to the Department's attempt to contact him/her within a reasonable period of time. The reasonableness of the employee's response shall be determined by the type of errand, distance traveled and any other factors peculiar to the area which might affect the employee's ability to return the telephone call.
- The expectation is that, generally, the response time of the employee shall be less than two (2) hours.
- Emergency situations may affect this timeframe and are subject to Hiring Authority approval.

33030.27.4 State Property

When an employee is placed on ATO, the Hiring Authority shall require that the employee surrender all state-issued property including weapons, state identification, badge(s), keys, vests, and any other items related to employment.

33030.27.5 Peace Officer Authorization

If a peace officer is placed on ATO, the Hiring Authority may, based on the circumstances, rescind the peace officer authorization to carry a concealed weapon off duty. The rescission notice shall be in writing and given to the employee.

33030.28 Vertical Advocate's Preparation for the SPB Hearing

Upon notification from the SPB that an appeal has been filed, the ERO/Disciplinary Officer and/or the Vertical Advocate shall notify the Hiring Authority and shall prepare for the SPB Hearing. The Vertical Advocate shall represent the Department at SPB Hearings for all designated

cases. In all cases presented by the Vertical Advocate, the ERO/Disciplinary Officer shall provide administrative support to the Vertical Advocate including, but not limited to, service of witness subpoenas.

The Vertical Advocate shall prepare for the SPB Hearing, including the following, as appropriate:

1. Prepare the defense by confirming:
 - a. Due process compliance, including notice, documentation, *Skelly* Hearing (if requested) and proper service.
 - b. Deadlines, statutes of limitations, and other critical time requirements.
2. Contact the appellant's representative to discuss relevant issues, including defenses, potential for settlement, etc.
3. Make discovery requests.
4. Respond to discovery requests.
5. Draft pre-hearing motions (e.g., motion to dismiss for failure to file a timely appeal).
6. Respond to pre-hearing motions.
7. Identify witnesses, including experts, and assess what testimony they can provide.
8. Request that the witnesses review any transcripts of their interviews to ensure their accuracy.
9. Contact the ERO/Disciplinary Officer for the issuance of subpoenas to witnesses and experts.
10. Interview witnesses, as necessary (i.e., if the Vertical Advocate has not participated in the investigative interview).
11. Select witnesses to testify.
12. Prepare witnesses in person, including the assigned investigator, for testimony at the SPB Hearing.
13. Visit the location of the incident leading to the disciplinary action.
14. Identify exhibits to be introduced at the SPB Hearing and request reproduction of the exhibits by the ERO/Disciplinary Officer.
15. Assess the current strengths and weaknesses of the Department's case, whether and how the weaknesses can be overcome, and develop a strategy for the case.
16. Assess the current strengths and weaknesses of the appellant's case, including what his or her defenses are likely to be and how to counter them. For example, consider the following:
 - a. What were the appellant's defenses during the *Skelly* Hearing?
 - b. Who did the appellant subpoena?
 - c. To what can the appellant's witnesses testify?
 - d. Other possible defenses, including:
 - i. Statute of limitations violations.
 - ii. No nexus between wrongful act and employment with the Department.
 - iii. No progressive discipline.
 - iv. The appellant is the subject of disparate treatment, retaliation, or discrimination.
 - v. The appellant previously has been disciplined for the same incident(s).
17. Prepare a hearing binder, including the following:
 - a. Exhibit list and a copy of each exhibit.
 - b. Witness list in the order in which they will testify.
 - c. List of witness contact numbers.
 - d. Opening Statement Outline.
 - e. Direct and cross-examination questions and, when appropriate, the anticipated answers.
 - f. Closing Argument Outline.
 - g. Applicable precedential decisions, statutes, regulations, etc.
18. Research potential legal issues.
19. Draft briefs, when necessary, utilizing and augmenting where appropriate the EAPT brief bank.
20. Communicate with the SAIG, for cases the BIR is monitoring, including whether the SAIG will attend the SPB Hearing.
21. Consult with the assigned SAIG regarding SPB Hearing strategy.

33030.28.1 Role of the Vertical Advocate at the SPB Hearing

At the SPB Hearing, the Vertical Advocate shall prosecute the adverse actions as follows:

1. Present the evidence through witness testimony, stipulating only when the facts are not in dispute and there is no possibility of weakening the case to be presented.
2. Within ethical limits, present evidence in the best light possible for the Department.
3. Challenge testimony presented by the appellant, including challenges to "expert" testimony by assessing the following:
 - a. If the witness is an "expert" as defined by statute and case law.
 - b. If the "expert's" testimony is incompatible with his or her employment.
 - c. Whether the "expert's" testimony should be challenged on the basis that it is irrelevant, calls for speculation, or calls for an opinion on the truth or falsity of certain statements.

If required by the SPB or the circumstances, the Vertical Advocate shall do the following:

1. Prepare a written closing argument;
2. Brief legal issues that arose during the SPB Hearing and require a decision. To ensure consistency in briefing, the Vertical Advocate shall review and update any briefs available in the EAPT brief bank;
3. Present briefing and oral argument to the members of the SPB.

Following the SPB Hearing, the Vertical Advocate shall do the following:

1. Maintain contact with the Hiring Authority until the case is closed;
2. Confer with the SAIG for cases the BIR is monitoring;
3. File a petition for rehearing, as appropriate;
4. When the SPB sustains the action or the merit appeal is denied, prepare the file for archiving as follows:
 - a. Organize the file so that information is readily available should the appellant petition for a rehearing or petition for a writ of mandate;
 - b. Close the file only after the petition for rehearing has been resolved or the 30-day filing period for the petition for rehearing has expired.
5. Consult with the Hiring Authority's Personnel Office regarding all back pay issues, including the following:
 - a. Obtaining calculations of back pay due to the employee.
 - b. Challenging overpayments.
 - c. Defending the Department's position at SPB back pay hearings.
6. Refer the case to the EAPT Appeals Committee when appropriate under the EAPT Post SPB Hearing Writs and Appeals Policy.

33030.28.2 Review of the SPB Decision

A committee comprised of the AGC, an EAPT Supervisor, and an attorney specializing in writs and appeals shall convene to review all SPB decisions that modified or revoked the adverse action. The assigned Vertical Advocate shall present the case to the EAPT Appeals Committee for discussion, and the BIR shall be invited to all committee meetings. In cases presented to the SPB by contract counsel, a Vertical Advocate shall be assigned to present the case to the EAPT Appeals Committee.

The EAPT Appeals Committee shall do the following:

1. Meet monthly, unless there are no cases to consider. Additional meetings will be scheduled, as needed.
2. Notify the BIR regarding all committee meetings.
3. Determine whether to seek review of the SPB decision.
4. In making its decision to seek review of the SPB decisions, the committee will consider:
 - a. The recommendation of the Vertical Advocate assigned to the case and the SAIG, for cases the BIR is monitoring.
 - b. The likelihood of prevailing on appeal.
 - c. The egregiousness of the SPB's decision on legal or factual issues.
 - d. Whether the case has a potential collateral estoppel impact on other litigation.
 - e. Whether other departmental concerns are implicated.
 - f. The fiscal risks implicated in the pursuit of an appeal.
 - g. The potential precedential impact of the decision to appeal or not to appeal.

- h. Unit workload and the availability of external resources.
 - i. Such other facts as may be present in the particular case under consideration.
4. Solicit and discuss strategies to shape the decisional law governing the SPB.
 5. Identify legal and procedural issues encountered at administrative hearings (i.e., SPB, DPA, Unemployment Insurance Appeals Board, Workers' Compensation Appeals Board, etc.) that are in need of resolution.
 6. The committee's decision to seek or not to seek permission to file a writ petition shall be communicated to the Hiring Authority and the CAIG for cases the BIR is monitoring. A decision to seek permission to file a writ petition requires that the communication include advice that the SPB decision being appealed is not final until the appeal has been resolved. Also, in appropriate cases, a stay shall be sought from the appellate court.

The assigned writs and appeals attorney is responsible for preparation of any Governor's Office Action Request (GOAR) and the writ petition. Workload considerations may require the Vertical Advocate to accept this responsibility, under the direction of the writs and appeals attorney.

1. The GOAR shall be prepared, and its circulation for approval commenced, within five (5) business days of the assignment.
2. When the GOAR is approved, the writs and appeals attorney (or assigned Vertical Advocate) shall, within fifteen (15) business days:
 - a. Order the SPB Hearing transcript.
 - b. Prepare and serve the petition for a writ.
3. As appropriate, at the time of the filing of the writ petition, the writs and appeals attorney (or assigned Vertical Advocate) will file an *ex parte* application for a stay of the SPB decision.
4. The writs and appeals attorney (or assigned Vertical Advocate), in consultation with the BIR attorney for cases the BIR is monitoring, shall prepare a memorandum to the Hiring Authority, as soon as the matter is final (either by acquiescence to the decision, settlement, or completion of any appeal). The memorandum shall include specific guidance of what steps must be taken, if any, to satisfy the final decision or settlement.

33030.29 Testimony by Department Employees

Any employee of the Department who is contacted by any person regarding his/her potential testimony or who is subpoenaed as a witness in any matter shall notify, in writing and within one (1) business day of being contacted, the Litigation Coordinator and the ERO/Disciplinary Officer at his/her worksite. The employee also shall provide a copy of the subpoena to the Litigation Coordinator and the ERO/Disciplinary Officer immediately upon receipt.

The ERO/Disciplinary Officer shall maintain a log of these contacts and shall determine immediately whether there is a pending disciplinary matter for which this subpoena was issued. The ERO/Disciplinary Officer shall notify the employee of the requirements of California Code of Regulations, Title 15, Section 3413. If a disciplinary matter is pending, the ERO/Disciplinary Officer shall immediately send, via facsimile, a copy of the subpoena to the appropriate Vertical Advocate. The Litigation Coordinator shall determine immediately whether there is a civil or criminal action pending and shall notify and forward a copy of the subpoena to the assigned Deputy Attorney General or contract counsel and to the Office of Legal Affairs attorney monitoring the matter.

33030.30 Duress or Undue Influence

No one shall exert undue influence or subject employees to duress in order to obtain a resignation. Care must be taken to avoid making statements that could be the basis for an appeal by the employee to have a resignation set aside on grounds it was obtained by duress, undue influence, or excessive persuasion.

The following elements are characterized as excessive persuasion:

- Discussion of the resignation at an unusual or inappropriate time.
- Consummation of the resignation in an unusual place.
- Insistent demand that the transaction be completed at once.
- Extreme emphasis on unfavorable consequences of a delay.
- The use of multiple persuaders by the Department against the employee standing alone.
- Denial of the time or the opportunity for the employee to consult an advisor.

33030.31 EAPT Reporting

On a quarterly basis and commencing March 1, 2006, the EAPT shall prepare and submit to the appointing power a report that includes the following information:

- Number of adverse actions by type of discipline;
- Number of direct (without an investigation) adverse action by type;
- Number of adverse actions with an investigation by type;
- Number of actions where the discipline was sustained by the *Skelly* Officer;
- Number of actions where the *Skelly* Officer recommended modification of the discipline;
 - Number that the Hiring Authority accepted the recommendation.
 - Number that the Hiring Authority rejected the recommendation.
- Number of settlements reached prior to the SPB decision;
- SPB decisions;
 - Number of cases where SPB upheld the original discipline.
 - Number of cases where SPB modified the original discipline.
 - Number of cases where SPB revoked the discipline.

33030.32 Disciplinary Audits

The effectiveness of the Department's disciplinary process shall be reviewed in an annual audit prepared by the Office of Legal Affairs, in conjunction with the OIA. The audit shall assess the adequacy of the monitoring of the statute of limitations and shall assess training needs by evaluating the following: the effectiveness of each Vertical Advocate; the appropriateness and thoroughness of the investigation, report, penalty, Notice of Adverse Action, and settlement; and the policy issues involved and/or at stake.

33030.33 Revisions

Revised October 25, 2010

The General Counsel, OLA, or designee shall be responsible for ensuring that the contents of this Article are kept current and accurate.

Madrid v. Woodford, (USDC. No CV90-03094 TEH) December 2005.

ARTICLE 23 — EMPLOYEE SERVICES

Effective December 28, 1989

Updated June 14, 2011

33040.1 Policy

The Secretary, subject to the approval of the Director of General Services, is authorized by GC 11013, to establish certain concessions for the benefit of the institutional employees under his/her jurisdiction.

33040.2 Purpose

This Article establishes procedures for the provision of services to employees by the institutions for the convenience of the State.

33040.3 Services

Services supplied to employees shall be established by the Warden and shall be equally available to all employees.

All services shall be rendered at the employee's own risk. The institution and the Department shall not assume liability for loss, damage, or destruction of employee's property.

All employee services shall be of no cost to the state and shall be available to employees as a fringe benefit.

No services shall be provided for non-employees which require their physical presence. Non-employees may use the employee dining room or snack bar when accompanied by an employee. This privilege is subject to gate clearance and may be revoked any time.

Wardens may request additional services by submitting a proposal and operational plan for the Director's approval.

33040.4 Service Charges*Revised October 28, 2015*

Service charges shall be established for each authorized service to employees as abatement for costs incurred by the state. Service charges may be on an actual or estimated basis.

When it is inappropriate to designate a special service charge, donations to the IWF shall be accepted.

Authorized employee services shall be operated on a nonprofit basis by institutional staff.

33040.5 Supplemental Procedures

Wardens and RPAs shall establish supplements to this procedure to govern the operation and use of employee services made available to employees in accordance with applicable laws and subject to the approval of the Secretary or his/her designee.

All supplements or modifications of procedures shall be forwarded to the Secretary or his/her designee for approval.

Specialized instructions contained in other forms or documents shall be referred to and approved by the Secretary or his/her designee.

Instructions shall include, but are not limited to, the following:

- Coupon purchase areas.
- Delivery areas.
- Hours of operation.
- Security procedures.
- Accounting procedures.
- Eligible individuals.
- Location of waiting lists.
- Limits of liability.
- Associate Warden, Business Services, responsibility.
- Instructions for the processing of donations to IWF.
- Methods for the collecting of the costs of materials and supplies utilized.

33040.6 Employee Association Operated Canteens and Concessions

Canteens or concessions may be established at State facilities pursuant to GC 11013, W&I 4314, and PC 5005 and 5006. This Article shall not apply to canteens or concessions exempt from DGS approval nor to vending stands for the blind established by the Division of Rehabilitation of the Blind, Department of Rehabilitation.

Canteens or concessions which require the approval of the DGS shall, in addition, comply with the statutory provisions under which they are established. Whether operated by a private contractor, an employee nonprofit corporation, or by the institution, the following conditions shall be met:

- The State shall be reimbursed for the actual cost of equipment, space, utilities, maintenance, and administrative services furnished by the institution. Reasonable estimates may be used where it is not possible or feasible to determine such costs accurately.
- The institution shall have the power to determine the operation of, and regulate the prices and merchandise sold at, the canteen and concessions.
- All books and records of the canteens or concessions shall be subject to audit by the State at any time.
- Each canteen or concession shall furnish the institution with a list of items for sale and prices to be charged. All items and prices are subject to the approval of the Warden.
- The canteens or concessions shall comply with all applicable statutes, health laws, rules and regulations of the Department.
- The State, its officers, and employees shall be released from liability for personal injury to the canteen or concession lessee, lessee's employees and guests, arising out of the lessee's occupation of the demised premises.
- The location of the canteen or concession may be changed at the Warden's discretion.
- The prices charged by the canteen or concession shall not exceed those charged by similar businesses in the vicinity of the institution except where the volume of business makes this impractical.

- No repairs or alterations of the premises shall be made without written consent from the institution.
- The State (institution) or the lessee may terminate the agreement upon 90 days written notification. Willful violation of rules, regulations, or terms of the agreement by the lessee, shall be grounds for immediate cancellation of the agreement and removal of the lessee.
- The State shall not be liable for any debts or claims that arise from the operation of the canteen or concession.

33040.7 Sale of State Products

The direct sale or disposal to an employee of any article, materials, or supplies owned, produced, or manufactured by the Department is prohibited except where specifically authorized by law.

33040.8 Gratuities

No gift, tip, or reward shall be offered by an employee or accepted by an inmate for any reason.

33040.9 Revisions

The Director, DAI, or designee shall ensure that the content of this Article is current.

CHAPTER 4 — INFORMATION TECHNOLOGY

ARTICLE 1 — INFORMATION TECHNOLOGY DEFINITIONS AND

ACRONYMS

Revised July, 18, 2013

41010.1 Policy

The Director, Enterprise Information Services (EIS) and Executive Management of the California Department of Corrections and Rehabilitation (CDCR) recognize Information Technology (IT) as an indispensable tool of modern government. Therefore, it is the policy of the Director to support and promote the departmental use of innovative information technologies in order to increase worker productivity, improve departmental services, and strengthen the overall effectiveness of management, while saving money and reducing the overall cost of government. The definitions and acronyms contained here ensure the consistent use of IT definitions and acronyms throughout the Department Operations Manual (DOM) Chapter 4 – Information Technology.

41010.2 Purpose

The purpose of the Department's IT Definitions and Acronyms policy is to ensure that proven management methods for the guidance and control of planning, acquisition, development, operation, maintenance, and evaluation of information management applications are established in a manner that provides for the most efficient, effective, and economical use of the Department's resources for IT.

41010.3 Definitions

-A-

Access

Ability and means to communicate with or otherwise interact with a system, to use system resources to handle information, to gain knowledge of the information the system contains, or to control system components and functions.

Access Authorization

The granting of permission to execute a set of operations in a computer system.

Access Control

The process of granting or denying specific requests to: 1) obtain and use information and related information processing services; and 2) enter specific physical facilities (e.g., federal buildings, military establishments, and border crossing entrances).

Access Management Group

A group that is responsible for access permissions granted to CDCR's Information Assets, including the CDCR Network, and departmental applications and databases.

Accountability

The state of being liable, responsible and answerable.

AISO

Agency Information Security Office - Provides information security recommendations, guidance, and authority.

AMS

Application Maintenance and Support - Provides IT business application development, maintenance and support services spanning across all CDCR divisions, including adult and juvenile offenders, parole operations, and administration.

Application Disaster Recovery Plan

A plan devised to process a computer application (application) after it has been disrupted for some period of time.

Asset

Anything (tangible or intangible) that has value to CDCR.

Authentication

Authentication is the process of determining whether someone or something is, in fact, who or what it is declared to be. To access most technology services you must provide such proof of identity. In private and public computer networks (including the Internet), authentication is commonly used by requiring login passwords or passphrases; knowledge of such is assumed to guarantee that the user is authentic. Thus, when you are asked to "authenticate" to a system, it usually means that you enter your username and/or password for that system.

Authorization

In computing systems, authorization is the process of determining which permissions a person or system is supposed to have. In multi-user computing systems, a system administrator defines which users are allowed access to the system, as well as the level of privileges they are eligible to access (e.g., access to file directories, hours of access, amount of allocated storage space). Authorization can be seen as both the preliminary setting of permissions by a system administrator, and the actual checking of the permission values when a user obtains access. Authorization is usually preceded by authentication.

Availability

Assurance that the systems responsible for delivering, storing and processing information are accessible when needed, by those who need them.

-B-

Back-up

A process by which data is copied in some form so as to be available and used if the original data from which it originated is lost, destroyed or corrupted.

BIS

Business Information System - A fully implemented automated business management system that creates, tracks, and reports all of the Department's business transactions.

Blog

A web site containing frequent publications of personal thoughts and web links, coined from the words weblog, maintained for the purpose of commentary, or other material such as graphics or video.

BPH

Board of Parole Hearings - Conducts parole consideration; rescission, parole, revocation, and parole progress hearings for adult inmates and parolees.

Business Continuity Management Program

An ongoing governance process supported by senior management and resourced to ensure that the necessary steps are taken to identify the impact of potential losses, maintain viable recovery strategies and plans, and ensure continuity of products/services through exercising, rehearsal, testing, training, and maintenance.

Business Continuity Plan (BCP)

A plan that documents arrangements and procedures that enable an organization to respond to an event that lasts for an unacceptable period of time and return to performing its critical business functions after an interruption.

-C-

CALPIA

California Prison Industry Authority - A State-operated agency that provides productive work assignments for offenders in California's adult correctional institutions. CALPIA operates more than 60 service, manufacturing, and agricultural industries at prisons throughout California.

CAS

Corrections Application Solutions - Develops and maintains applications and systems used by divisions and programs throughout CDCR to support statewide offender, parole, and juvenile operations.

CCHCS

California Correctional Health Care Services - A department under federal receivership responsible for providing constitutionally adequate medical care to patient-inmates of the CDCR within a delivery system the state can successfully manage and sustain.

CDCR Network

The system of telecommunication devices, workstations, servers, and peripherals used to provide inter- and intra-facility connectivity that enable CDCR employees to access information assets and electronic communications. The CDCR Network is managed by the CDCR Enterprise Information Services (EIS) division and the Office of Technology Services (OTech).

Chain E-mail or Letter

E-mail sent to successive people. Typically the email contains directions for the recipient to forward the email to multiple people. The contents usually contain promises of good luck for the recipient or money if the directions are followed.

Classification

The assignment of information, including a document, to a category on the basis of its sensitivity concerning disclosure, modification, or destruction.

Client (User)

The individual or organization that utilizes a product.

Component

A component is defined in SAM § 5013 as any individually identified piece of hardware, such as the mainframe, tape drive, disk drive, power supply unit,

controller, punch, reader, printer, modem, CRT, keyboard, remote device, and the like.

Computer Contaminant

Any set of computer instructions that, outside the intent and without the permission of the owner of such information, is designed to modify, damage, or destroy a computer, system, or network, or to record or transmit information within a computer, system, or network. Such contaminants include, but are not limited to, the group of self-replicating or self-propagating computer instructions commonly termed viruses, Trojans, and worms which are designed to affect computer programs or data, consume computer resources, modify, destroy, record or transmit data, or otherwise usurp the normal operation of the computer, system, or network.

Computer Network

Any system that provides communication among one or more computer systems and input/output devices including, but not limited to, display terminals and printers connected by telecommunication facilities.

Computer Program or Software

A set of instructions, or statements or related data, that when executed in actual or modified form cause a computer, system, or network to perform specified functions.

Computer Security

The technological safeguards and managerial procedures that can be applied to computer hardware, programs, data, and facilities to ensure the availability, integrity, and confidentiality of computer-based resources. This can also include assurance that intended functions are performed as planned.

Computer Services

Includes, but is not limited to, computer time, data processing, storage functions, other uses of a computer, system, or network.

Computer System

A device or collection of devices, including support devices but excluding calculators that are not programmable and not capable of being used in conjunction with external files, one or more of which contains computer programs, electronic instructions, input data, and output data, and which performs functions including, but not limited to, logic, arithmetic, data storage and retrieval, communication, and control.

Computer-Based Tools

Software or computer programs that improve or enable a user's ability to configure and manage IT components.

Confidential Information

Information maintained by State agencies that is exempt from disclosure under provisions of the California Public Records Act (PRA) (GC § 6250 et seq.) or other applicable state or federal laws. All inmate, parolee, ward, and employee information that has not been explicitly defined as public information in §3261.2 of Title 15 should be treated as Confidential Information.

Confidentiality

Assurance that information is shared only among authorized persons or organizations. Breaches of confidentiality can occur when data is not handled in a manner adequate to safeguard the confidentiality of the information concerned. Such disclosure can take place by word of mouth, by printing, copying, e-mailing or creating other data. The classification of the information should determine its confidentiality and the appropriate safeguards.

Correctional Offender Management Profiling for Alternative Sanctions (COMPAS)

Enables CDCR to perform needs assessments and follow adult offenders from their intake at the reception centers through the completion of their parole supervision requirements.

Cost Thresholds

Cost thresholds are the set dollar amounts assigned to agencies based on their size and past experiences with Department delegations can be found at:

http://www.cio.ca.gov/Contact_Us/staff_assignments.html

CPAT

California Parole Apprehension Team – Enhances public safety through parole intervention and parolee-at-large apprehension.

Critical Application

An application that is so important to the Department that its loss or unavailability is unacceptable. With a critical application, even short-term unavailability of the information provided by the application would have a significant negative impact on the health and safety of the public or Department employees, the fiscal or legal integrity of operations, or the continuation of essential programs.

CTA

California Technology Agency – State of California's IT control agency.

Custodian of Information

An employee or organizational unit (such as a data center or information processing facility) acting as caretaker of an automated file or database.

-D-

DART

Desktop Advanced Research Team – Provides system level operational support of all end-point devices.

Data

A representation of facts, concepts, or instructions in a formalized manner suitable for communication, interpretation, or processing by humans or by automated means.

Data Classification

Data Classification is the conscious decision to assign a level of sensitivity to data as it is being created, amended, enhanced, sorted, or transmitted. The classification of the data should then determine the extent to which the data needs to be controlled/secured and is indicative of its value in terms of Business Assets. The classification of data and documents is essential to differentiate between that which is of little (if any) value, and that which is highly sensitive and confidential. The classification of data helps determine what baseline security controls are appropriate.

Data Processing Equipment

Computers, network components, and other devices that facilitate, enable, or depend upon data communications. Network devices such as, but not limited to, routers, hubs, wires, and servers are data processing equipment.

Data Processing Systems

A system, including computer systems and associated personnel, that performs input, processing, storage, output, and control functions to accomplish a sequence of operations on data.

Data Security

Protecting data from unauthorized access, modification, destruction, or disclosure.

Data Transmission

The conveying of data from one functional unit to one or more additional functional units through the transmission of signals by wire, radio, light beam, or any other electromagnetic means.

DEC

Disability Effective Communications System - An IT program created and maintained by EIS that ensures that inmate and parolee due process rights are recognized by identifying and accommodating their disabilities and effective communication special needs.

Decentralized Applications

Systems that run on more than one computer in geographically separated locations. The term also refers to systems that are not supported by a single organization, such as EIS.

Defect

A variance from specifications/standards or an attribute/function not contained in the software requirements specifications.

Denial of Service

An attack that prevents or impairs the authorized use of networks, systems, or applications by exhausting resources.

Deputy Director Operations

Responsible for all aspects of EIS's day-to-day operations.

Development

Activities or costs associated with the analysis, design, programming, staff training, data conversion, acquisition, and implementation of new IT applications.

Disaster Recovery Operation

The act of recovering from the effects of a disaster or disruption to a computer facility, and the preplanned restoration of facility capabilities.

Disaster

A human or natural occurrence causing destruction and distress, after which a business is deemed unable to function.

Disaster Recovery

The ability of an organization to respond to a disaster or an interruption in services by implementing a disaster recovery plan to stabilize and restore the organization's critical functions.

DRP

Disaster Recovery Plan - The management approved document that defines the resources, actions, tasks and data required to manage the technology recovery effort. Usually refers to the technology recovery effort. This is a component of the Business Continuity Plan.

Documentation

Information about how specific applications are constructed, maintained, and used. It includes, but is not limited to, system and program design specifications, record formats, report layouts, program source and object code, job control language specifications, run instructions, key entry instructions, and data definitions.

DRD Tracker

Discharge Review State Tracker - Creates a calendar-based event driven solution which allows field agents and case records staff to determine when a parolee is due for a Discharge Review.

-E-**E-mail**

Written communication transmitted electronically using computers connected to network(s). Today's email systems are based on a store-and-forward model. Email servers accept, forward, deliver and store messages. Neither the users nor their computers are required to be online simultaneously; they need connect only briefly, typically to an email server, for as long as it takes to send or receive messages.

EdCATS

Education Classroom Attendance Tracking System - Allows teachers to log academic and vocational classroom hours and track milestones achieved by students while attending those classes.

EIS

Enterprise Information Services - A division of CDCR responsible for the enterprise-wide execution of all IT systems and services.

Electronic Data Processing (EDP) Equipment

EDP equipment is defined as:

- Central processing units and all related features and peripheral units, including processor storage, console devices, channel devices, etc.
- Minicomputers, microcomputers, personal computers, and all peripheral units associated with such computers.
- Special purpose systems including word processing, magnetic ink character recognition, optical character recognition, photocomposition, typesetting, and electronic bookkeeping.
- Communications devices used for data transmission such as modems, data sets, multiplexors, concentrators, switches, local area networks, private branch exchanges, network control equipment, and microwave or satellite communications systems.
- Input-output (peripheral) units (off-line or on-line) including: terminals, card readers, optical character readers, magnetic tape units, mass storage devices, card punches, printers, computer output to microfilm converters, video display units, data entry devices, FAXs, teleprinters, plotters, or any device used as a terminal to a computer, and control units for such devices.

Encryption

Data encryption is a means of scrambling or ciphering the data so that it can be read only by the recipient - the person(s) holding the 'key' - a password of some sort. Without the 'key,' the ciphered data cannot be opened and read.

Enterprise Architecture (EA)

The CDCR unit responsible for managing CDCR's enterprise architecture program, a strategic practice for maintaining the IT architecture portfolio to facilitate more informed and effective IT decisionmaking, both strategically and operationally. This includes, but is not limited to, the Business, Application, Information/Data, Technical, and Security Architecture domains.

eOMIS

Electronic Offender Management Information System - A real-time application that increases the availability of accurate and complete offender information so CDCR can more efficiently manage inmates.

ERMS

Electronic Records Management System - A document management system that provides a digitally scanned and uploaded central records repository.

EWACS

Enterprise Web and Collaboration Solutions - Provides web application development, operational support, and end user support for the enterprise. Develops public and internal facing web and client-based applications that meet various business needs.

-F-**Failure**

Inability of a product or service to perform its required functions within previously established limits.

FIS

Field Information System - Documents all contacts by parole agents with juvenile offenders.

Forwarded E-mail

E-mail resent from an internal network to an outside point, whether internal or external to CDCR.

-G-**Guideline**

A description that clarifies what should be done and how to achieve the objectives set out in policies.

-H-**Handheld Computer**

Synonym for Personal Digital Assistant.

Hardening

A defense strategy to protect against attacks by removing vulnerable and unnecessary services, patching security holes, and securing access controls.

Hardware

The physical equipment or machinery (computers, terminals, printers, disc drives, etc.) used in IT systems.

HAWI

Holds and Warrants Interface - Easily accesses parolee information to automate the issuance of holds and warrants.

High Risk Confidential Information (HRCI)

Non-public information that if disclosed could result in a significant harm (including financial, legal, risk to life and safety or reputational damage) to the CDCR or individual(s). Examples of HRCI include, but are not limited to, information such as the following:

- Personally identifiable information such as person's name in conjunction with the person's Social Security Number, credit or debit card information, individual financial account, driver's license number, state ID number, passport number, or a name in conjunction with biometric information;
- Personal health information such as any information about health status, provisions of health care, or payment for health care information as protected under HIPAA;
- Correctional Offender Record Information
- Information that if disclosed would "reveal vulnerabilities to, or otherwise increase, the potential for an attack on an IT system of a public agency." Examples include, but are not limited to, firewall and router configurations, server names, IP addresses, and other system configuration details;
- Any documentation of information which contains information or data within any Gang Database.
- Records of investigations, intelligence information, or security procedures. This includes, but is not limited to, information identifying confidential informants.

-I-**Information Assets**

All categories of information existing in any form, including electronic or hard copy that is stored, used, or created by CDCR and have value to the organization.

Information Governance

The process of official enterprise-level decisionmaking for CDCR information standards to ensure the effective, efficient, and secure use of CDCR information. This includes officially making and adopting Data Classification decisions for CDCR information.

Information Integrity

The condition in which information or programs are preserved for their intended purpose, including the accuracy and completeness of information systems and the data maintenance within those systems.

Information Owner

Group(s) or person(s) responsible for individual and/or collective decision-making regarding specific CDCR Information Assets. This includes decision-making regarding the appropriate use, access, controls, and Data Classifications for those Information Assets.

Information Processing

The systematic performance of operations upon data such as handling, merging, sorting, and computing; synonymous with data processing systems.

Information Security

The protection of information from a wide range of threats in order to ensure business continuity, minimize business risk, and maximize return on investments and business opportunities. Information exists in many forms: printed or written on paper, stored electronically, transmitted by post or electronic means, on films, and spoken.

Information Security Incident

An information security incident is indicated by a single or a series of unwanted or unexpected information security events that have a significant probability of compromising business operations and threatening information security.

Information Security Standards and Guidelines (ISSG)

Compilation of the standards and guidelines comprising CDCR's program to ensure the protection and security of information assets.

Information Technology

All computerized and auxiliary automated information handling, including: Systems design and analysis; conversion of data; computer programming; information storage and retrieval; voice, video, and data communications; requisite system controls; simulation; and, all related interactions between people and machines.

Input-Output Unit/Device

The equipment used to communicate with a computer; commonly termed I/O (Input/Output).

Instant Message (IM)

A type of communications service that enables a user to exchange text messages in real time among two or more individuals logged into a particular instant messaging system from a computer workstation.

Integrity

As it pertains to data, is the assurance that the information is authentic and complete. Ensuring that information can be relied upon to be sufficiently accurate for its purpose. The integrity is not only whether the data is correct, but also whether it can be trusted and relied upon.

Internet

The World Wide Web (WWW), consisting of a network of networks.

Intranet

A term that refers to a closed network of networks. In the context of CDCR, it refers to the web portal used for hosting information and documents for internal CDCR users only.

IS

Infrastructure Services - Creates, maintains, and supports all enterprise data activity necessary to facilitate CDCR's current and future business needs as well as provide ongoing operations, production implementation, and control in a secure manner.

ISC

Information Security Coordinator - Each entity's ISC is responsible for ensuring that applicable CDCR IT security policies and procedures are followed.

IT CSFO

IT Customer Service and Field Operations - Provides quality service, guidance and direction to customers in order to support their business needs by implementing cost-effective, innovative technologies and adopting operational IT best practices and standards.

ITPSP

IT Policy and Strategic Planning - Drives enterprise IT planning efforts necessary to support the Agency's mission and future investments while ensuring compliance with national, State and local mandates.

-J-

-K-

-L-

Law Enforcement Automated Data System (LEADS)

Parole LEADS is a web-based computer system that provides local California law enforcement agencies with information on CDCR parolees.

Life Cycle

The anticipated length of time that the IT system or application can be expected to be efficient and cost-effective and can continue to meet the agency's programmatic requirements; synonymous with operational life of a system.

LINX

Link Investigation and Network Cross-Reference - Centralized web-based application that contains inmate gang affiliations and validation for adult offenders.

Local Area Network

A Local Area Network (LAN) is a computer network consisting of telecommunications devices such as routers, hubs, switches, firewalls, and computers such as workstations, servers, and peripheral devices.

LSTS

Lifer Scheduling and Tracking System - Supports the inmates sentenced to life parole suitability hearing process.

-M-

Mainframe

Refers to large computers typically housed in a data center environment and running legacy systems. Mainframe computers have security components, such as Resource Access Management Systems, integrated into the operating system and can support many hundreds of users simultaneously.

Malicious Software

Malicious software, or malware, is any set of computer instructions that, outside the intent and without the permission of the owner of such information, is designed to modify, damage, or destroy a computer, system, or network, or to record or transmit information within a computer, system, or network. Such contaminants include, but are not limited to, the group of self-replicating or self-propagating computer instructions commonly termed viruses. Trojan Horses and worms are designed to affect computer programs or data, consume computer resources, modify, destroy, record, or transmit data, or otherwise usurp the normal operation of the computer, computer system, or computer network. Malware includes computer viruses, computer worms, Trojan Horses, most root kits, spyware, dishonest adware and other malicious or unwanted software.

MDO

Mentally Disorder Offender - Database that tracks MDO holds, creates hearing schedules, generates confirmation letters for evaluators and attorneys, and tracks MDO cases.

Mission-Critical Applications

Applications defined by CDCR that support business activities or processes that cannot be interrupted or unavailable for the Recovery Time Objective (RTO) defined by the agency without significantly jeopardizing the organization.

-N-

Need-to-Know

Refers to a person having both a legitimate right and a reason to obtain information.

NIST

National Institute of Standards and Technology - A measurement standards laboratory which is a non-regulatory agency. NIST promotes innovation and industrial competitiveness by advancing measurement science, standards, and technology.

-O-

OBITS

Offender Based Information Tracking System - Mission critical master record for all juvenile offender activity that feeds information into multiple systems.

One-Time Costs

Costs occurring only once that are associated with the analysis, design, programming, staff training, data conversion, acquisition, and implementation of new IT applications.

Operational Life

See Life Cycle.

Operations

Activities or costs associated with the continued use of IT applications. Operations include personnel associated with computer operations, including network operations, job control, scheduling, and key entry. It also includes the

costs of computer time and other resources needed for processing. See SAM Section 4819.2.

OTech

Office of Technology Services - Provides IT services to many state, county, federal and local government entities throughout California.

Owner of Information

See Information Owner.

-P-

PACATS

Parolee Automated Cash Assistance Tracking System - Tracks cash assistance provided to parolees throughout the state, separated by assistance type.

PAL Trax

Parolee At Large Tracking System -Tracks CPAT agent caseloads.

Parole-LEADS

See Law Enforcement Automated Data System.

Personal Digital Assistant (PDA)

Palm-sized computer that syncs with a computer workstation and allows users to refer to information from the workstation without having to print it out. Schedules, e-mails, documents, and spreadsheets as well as reference material such as dictionaries and phone lists can be stored and accessed as needed on the device. PDAs often are capable of wireless connectivity with LANs and the Internet.

Personally Identifiable Information

Personally Identifiable Information (PII) is the manifestation of an individual's first name or first initial and last name, in combination with one or more of the following:

- Social Security Number;
- Driver's license number;
- State issued ID card;
- Credit or debit card number in combination with any required security code or password that could permit access to an individual's financial account;
- Medical information, history, mental or physical condition, treatment or diagnosis by a health care professional;
- Health information, policy number or subscriber ID, unique identifier, or any information in an application and claims history, including any appeals records.

Physical Security

The measures designed to safeguard personnel; to prevent unauthorized access to equipment, installations, material, and documents; and to safeguard them against unauthorized access, damage, and theft.

Post Implementation Evaluation Report (PIER)

The review of a computer, computer system, or computer network that has been in operation for at least six months and no longer than two years for the purpose of matching the requirements of the system against what has been produced so as to ensure that stated requirements have been met.

Policy

Overall intention and direction as formally expressed by management.

PPP

Parole Planning and Placement - Obtains and utilizes information about offenders in order to develop and implement effective and specific reentry plans that maximize a parolee's opportunity to successfully reintegrate into the community.

PPPMA

Policy/Planning, Project Management and Acquisitions is the EIS unit responsible for EA, PPRM, QPAC, and ITPSP.

PPRM

Portfolio, Project and Resource Management is the EIS unit that improves the management of IT investments by utilizing project and portfolio managements tools; incorporating proven methodologies; and following best practice disciplines to assist in the identification, ranking, and justification of investments and the implementation of funded projects.

PRAS

Parole Restitution Application System - Tracks original court ordered restitution payments and balances.

Privacy

The right of individuals and organizations to control the collection, storage, and dissemination of information about themselves.

Process

The work activities that produce products, including the efforts of people and equipment.

Product

The output of a process, including the goods and services produced by individuals and the organization.

Production Application

A computer-based process that stores, manipulates, or reports departmental information.

Program

In the IT field, a program is the set of instructions by which a computer operates to accomplish a specific task.

Program Application Manager

Department supervisory and management staff responsible for managing or supervising employees' use of an automated file or database.

Programming

Detailed design encompassing the actual development and writing of program units or modules.

Project

A planned sequence of tasks to respond to a problem or opportunity; an activity with a beginning and an end and containing a set of resources.

Proprietary Software

Software packages which are developed by independent vendors and marketed to users.

Protected Health Information

Individually identifiable information in electronic or physical form created, received, or maintained by health care organizations such as health care payers, providers, plans, and contractors. State laws require special precautions to protect from unauthorized use, access or disclosure.

Protected Personal Information

Information that identifies or describes an individual and must be protected from inappropriate access, use, or disclosure as defined in applicable state and federal laws.

Protecting Sensitive Information

Typically means providing for one or more of the following:

- Confidentiality – Disclosure of the information must be restricted to designated parties.
- Integrity – The information must be protected from errors or unauthorized modification.
- Availability – The information must be available within some given timeframe (i.e., protected against destruction). (NIST Computer System Laboratory CSL Bulletin 92-11.)

Public Information

Information maintained by State agencies that is not exempt from disclosure under the provisions of state or federal laws. Public Information is open to inspection by any person during normal business hours (PRA § 6253(a)).

-Q-

QPAC

Quality Project Authority and Compliance – Staff in EIS that advocates for CDCR's IT projects to Control Agencies for the purpose of securing project authority and funding approval, as well as the project's successful completion.

Quality

The extent to which a product meets the expectations and requirements of the user.

Quality Assurance (QA)

(1) A staff function designed to support line management in performing the Quality Control function. As such, QA identifies the processes (both good and bad) which affect quality, and is used to advise management of such effects. A management decision may then be necessary to ensure that QC techniques are implemented and maintained; and, (2) The function that uses measurement and analysis to continually improve processing, procedures, and standards so that management can be reasonably assured of their staff following such methods, procedures, and standards, as well as staff's ability to produce products which meet specified requirements.

Quality Control (QC)

- (1) The collection of activities to ensure that defects are neither made nor implemented. While QA monitors the processes involved in the production cycle, QC is an integral part of work and is the responsibility of each employee; and,
- (2) A line function used to measure quality associated with specific products or services. QC is the responsibility of each IT area, and it is the function responsible for the quality of the work being done within a specific area or for a specific project.

-R-**Recovery Point Objective (RPO)**

The maximum amount of data loss an organization can sustain during an event.

Recovery Time Objective (RTO)

The period of time within which systems, applications, or functions must be recovered after an outage (e.g. one business day). RTOs are used as the basis for the development of recovery strategies, and as a determinant as to whether or not to implement the recovery strategies during a disaster situation.

Requirement

The specification(s) for satisfying a user need is associated with a standard by which the satisfaction of that need can be measured.

Resource Access Management Facility

An application within IBM-based computer systems that reviews logons, passwords, and permissions before permitting access to information.

Risk

In the context of information systems, the likelihood or probability that a loss of information assets or breach of security will occur.

Risk Analysis

The process of identifying the vulnerabilities and threats to an organization by assessing the critical functions necessary for an organization to continue business operations, and defining the controls in place to reduce organization exposure and evaluating the cost for such controls.

Risk Assessment

Overall process of risk analysis and risk evaluation.

Risk Evaluation

The process of comparing the estimated risk against given risk criteria to determine the significance of the risk.

Risk Management

The process of coordinating activities to direct and control the organization with regard to risk.

-S-**Sensitive Information**

Information maintained by State agencies that requires special precautions to protect it from unauthorized use, access, disclosure, modification, loss, or deletion. Sensitive information may be either Public or Confidential. It is information that requires a higher than normal assurance of accuracy and completeness. The key factor for Sensitive Information is that of integrity. Typically, Sensitive Information includes records of financial transactions and regulatory actions.

Smartphone

A cellular telephone with built-in applications and Internet access. Smartphones provide digital voice service as well as text messaging, e-mail, Web browsing, still and video cameras, MP3 players, video viewing and often video calling. In addition to their built-in functions, smartphones can run a myriad of applications, turning the once single-minded cellphone into a mobile computer.

Software

Programs, procedures, rules, and any associated documentation pertaining to the operation of a system. (Contrast with hardware.)

Spam

Unauthorized and/or unsolicited electronic mass mailings.

Stakeholder

A person, group, organization, member, or system who affects or can be affected by an organization's or system's actions.

-T-**Threat**

The potential cause of an unwanted incident, which may result in harm to a system or organization.

-U-**Unauthorized Disclosure**

The intentional or unintentional disclosure of confidential information to people inside and/or outside the CDCR who do not have authorization predicated on a "need to know" basis.

Unit Testing

Testing performed on a single, stand-alone module or unit of code.

User Identification (ID)

The logon name an individual user to access a computer or network system.

User of Information

An individual having specific limited authority from the owner of information to view, change, add to, disseminate, or delete such information.

-V-**Validation**

The process of comparing a product in any stage of its development with specified requirements to determine whether the correct product is being produced.

Virus

Small but insidious piece of programming code that attacks computer and network systems through contaminated (infected) data files, introduced into a system via email, portable storage media or the Internet. The code attaches itself to the target computer's operating system or other programs, and may automatically replicate itself to spread to other computers or networks.

Vulnerability

A weakness of an asset or group of assets that can be exploited by one or more threats.

-W-**Wide Area Network (WAN)**

Two or more LANs connected together. A communications network that uses devices over telephone lines, fiber-optics, satellite dishes, or radio waves to span a larger geographic area that can be covered by a LAN.

Wireless

Referring to communications transmitted without wires, such as radio, microwave, or infrared.

Workstation

Any device commonly called a microcomputer, personal computer, or terminal used for processing, storing, or sending information.

Worm

A computer worm is a standalone malware computer program that replicates itself in order to spread to other computers. Often, it uses a computer network to spread itself.

WWW

An abbreviation for World Wide Web. See Internet.

ARTICLE 2 — EDP RESPONSIBILITY*Effective December 22, 1992***41020.1 Policy**

The Department's executive management is responsible for the establishment of departmental policy pertaining to the use of information technology, the prioritization of departmental resources, and strategic planning and leadership to seek out opportunities for employing information technology toward achievement of the Department's mission, goals, and objectives. Department executive leadership is responsible for ensuring that information technology is used within the guidelines contained in this manual section and those established by other control agencies.

41020.2 Purpose

The purpose of this policy is to ensure that departmental resources and information technology are used optimally in achieving the Department's mission, goals, and objectives. Additionally, this policy assures that uses of information technology follow the guidelines established internally by CDC management and externally by State control agencies.

41020.3 Management Information Systems Committee*Revised October 6, 1993*

The MIS Committee shall:

- Provide executive leadership in the development of EDP projects and policy.
- Enforce compliance of the project approval process with the Department's Strategic Plan.
- Prioritize EDP projects in terms of their importance to the Department's Strategic Plan.
- Review and enforce policy and procedures in support of EDP projects.
- As individual committee members, serve as liaisons with their respective end user communities to promote, coordinate, and facilitate automation efforts, and to ensure effective communication regarding EDP-related issues throughout all levels of the Department.
- Educate management in the advantages of automation, new EDP-related technical innovations, and methods to maximize the efficiency and benefits of automation, and to minimize EDP development and operating costs.
- Provide review and approval of all information technology procurements not covered under the approved Workgroup Computing Policy.
- Provide ongoing review of CDC-approved EDP projects, terminating those projects which are no longer consistent with the Department's Strategic Plan.

Note that the MIS Committee does not make any decisions on funding of ITS projects. The committee only recommends the prioritization of these projects.

See DOM 43020.4, Information Management Annual Plan, for additional information about the role and responsibilities of the MIS Committee.

41020.3.1 MIS Committee Composition

The MIS Committee is comprised of the following voting staff:

- The Chief Deputy Director (Chairperson).
- Three representatives from ASD.
- Three representatives from EC&ISD.
- Five representatives from Institutions Division.
- Three representatives from P&CSD.
- One representative from P&CD.
- One representative from CalPIA.

These representatives shall be appointed for an indeterminate period.

In the absence of the Chief Deputy Director, the Deputy Director of ASD shall chair MIS Committee meetings.

The committee shall meet on a quarterly basis and more often as needed. MIS Committee meetings are generally open to all wishing to attend.

41020.4 Responsibility MIS-SU*Revised October 6, 1993*

MIS-SU provides functional support to the MIS Committee. The MIS-SU's responsibilities include: (1) coordinating MIS Committee meeting agendas; (2) coordinating the review of proposed ITS and to furnish recommendations for MIS Committee review; (3) preparing annual updates for the Cabinet on all CDC automation efforts for the current year and on strategic planning for the coming year; (4) developing, coordinating, and participating in presentations for the committee that address current technical innovations; (5) coordinating the review of ITS concepts to ensure compliance and consonance with the budget cycle; (6) recording the actions and decisions of the MIS Committee for distribution to appropriate departmental staff; and, (7) conducting special projects as assigned by the committee.

Departmental Workgroup Computing Coordinator

The Workgroup Computing Coordinator's responsibilities include: (1) ensuring that workgroup computing hardware and software requests comply with departmental and control agency policy requirements; (2) preparing the appropriate certification documents for workgroup computing procurements; (3) providing assistance in the completion of workgroup computing requests; (4) maintaining the departmental Workgroup Computing Policy and Modem Policy, as well as related equipment request forms for distribution to departmental staff; (5) overseeing the personal computer Post Implementation Evaluation Report (PIER) process; (6) maintaining the departmental personal computer equipment inventory; and (7) maintaining a record of all personal computer procurements, including those justified through the use of an FSR, a CDC Internal Summary Fact Sheet, or the approved Workgroup Computing Policy.

Department Information Security Officer

The CDC Information Security Officer (ISO) is assigned management responsibility for overseeing and administering the Centralized Information Security Program and is charged with the responsibility of assuring the Department's compliance with the SAM 4840, Security and Risk Management; 4989.7, Security of Personal Computer Systems; and 20013, EDP Audit Requirements. This program encompasses all automated ITS for which CDC has administrative responsibility. It includes the procedures, guidelines, and safeguards that are required to protect data, confidentiality, and privacy rights and ensures the integrity, audibility, and controllability of these ITS. All new policies and revisions of existing policy relating to automated information security will emanate from this office.

ISD

It is the responsibility of ISD to establish and maintain the departmental EDP strategic planning process and to oversee the development of all departmental EDP policies, including assurance that such policies meet control agency guidelines. ISD is also responsible for ensuring that such considerations as compatibility and connectivity of all proposed automated projects are taken into consideration in the project approval process.

ISD is responsible for the development, maintenance, operation, and support of all departmental PC applications except Institutions Division projects, and for all automated systems requiring control agency oversight unless specifically delegated to another unit by the MIS Committee.

Under the User Project Management concept, the User Manager is responsible for all project reporting to control agencies, the user division, and the MIS Committee. ISD provides technical management and staff who work as team members accountable to the User Manager on the project and to ISD on technical issues (e.g., project schedules).

ISD is also responsible for tracking all projects approved by the MIS Committee, and ensuring that all projects comply with State reporting requirements. All project reporting to control agencies shall be coordinated through ISD, which shall maintain correspondence files on control agency reporting.

ISD shall report directly to the appropriate Division (User Manager Concept) associated with each EDP Project, and to the MIS Committee on all approved projects.

ISD is responsible for the security of information technology facilities, and for software and equipment used in automated information processing at all sites under ISD custodial responsibility. ISD also maintains the CDC Operational Recovery Plan for these systems.

ISD provides functional support and assistance on all facility automated systems (except personal computers) to facility AISAs.

ISD is also responsible for ensuring compliance with State audit requirements relating to the integrity of information assets. This includes systems auditing under ISD's custodial realm of responsibility through participation in the departmental Peer, and PFAB's auditing processes.
