DEFINITIONS AND FORMULAS

The Annual Escape Report presents the number of escapes from California Department of Corrections and Rehabilitation (CDCR) Adult Institutions, Camps, Community Correctional Centers, State Hospitals, Off Reservation Work Crew Assignments and Temporary Community Releases. Escapes that occur while the offender is outside of CDCR custody (out to court, hospital, etc.) are not included in this report.

ADP: The **Average Daily Population** per day for the adult institution and camp population.

Community Correctional Centers: County, state and private facilities in local communities administered by or under contract with CDCR to house inmates in community correctional facilities, work furloughs, prisoner mother programs or parole violators returned to local jails.

Escape Rates:

$$\text{Rate of Escapes From Institutions and Camps} = \frac{(\text{Number of Escapes}) \times 100}{(\text{ADP})}$$

$$\text{Rate of Escapes From Community Correctional Centers} = \frac{(\text{Number of Escapes}) \times 100}{(\text{Population at Risk})}$$

In-State Contract Beds: An In-State Contract Bed is a non-CDCR institutional bed that includes Community Correctional Facilities, Re-entry Facilities, Prisoner Mother Programs, Rio Cosumnes Correctional Center, Santa Rita County Jail, and Female Rehabilitation Community Correctional Center – Bakersfield.

Off-Reservation Work Crew Assignment: Offenders away from the institution under CDCR custody performing work related to the institution/facility or other state/federal agencies and subdivisions as authorized by California statute.

Population at Risk: Offenders in a population on January 1 of any given year, plus offenders entering the population during the year. This is used instead of the ADP in calculating the Community Correctional Center escape rates. This is due to the more diverse program types, population and typically shorter length of stay.

Temporary Community Release: Temporary location for offenders away from adult institution for less than 72 hours (upon CDCR approval).
